SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the availability of documents related to an incidental take permit (ITP) application under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The final environmental impact statement (EIS) was developed in compliance with the Service's decision-making requirements per the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*), and is based on the HCP submitted by the Lower Colorado River Authority's Transmission Services Corporation (LCRA TSC, applicant). We described, fully evaluated, and analyzed three alternatives in detail in our 2019 final EIS.

Our proposed action is to issue an ITP to the applicant under section 10(a)(1)(B) of the ESA that authorizes incidental take of the following federally endangered species:

- Golden-cheeked warbler (*Setophaga* [= *Dendroica*] *chrysoparia*)
- Whooping crane (*Grus Americana*)
- Red-cockaded woodpecker (*Picoides borealis*)
- Ocelot (*Leopardus pardalis*)
- Houston toad (*Anaxyrus* [= *Bufo*] *houstonensis*)
- Barton Springs salamander (*Eurycea sosorum*)
- Comal Springs riffle beetle (*Heterelmis comalensis*)
- Peck's cave amphipod (*Stygobromus pecki*)
- Bee Creek Cave harvestman (*Texella reddelli*)
- Tooth Cave spider (*Tayshaneta* [= *Neoleptoneta*] *myopica*)
- Tooth Cave ground beetle (*Rhadine persephone*)
- Madla Cave meshweaver (*Cicurina madla*)
- Government Canyon Bat Cave spider (*Tayshaneta* [= *Neoleptoneta*] *microps*)
- Helotes mold beetle (*Batrissodes venyivi*)
- Ground beetle (no common name; *Rhadine exilis*)
- Ground beetle (no common name; *Rhadine infernalis*)

The ITP would also authorize incidental take of the following federally threatened species:

- Piping plover (*Charadrius melodus*)
- Rufa red knot (*Calidris canutus rufa*)
- Jollyville Plateau salamander (*Eurycea tonkawae*)
- Salado Springs salamander (*Eurycea chisholmensis*)
- San Marcos salamander (*Eurycea nana*)
- Georgetown salamander (*Eurycea naufragia*)

Also included is the following species, which is petitioned for listing:

- Spot-tailed earless lizard (*Holbrookia lacerata*)

Collectively, these are the covered species. The permit area for ITP implementation includes 241 Texas counties (see figure 1 in the HCP). Activities covered by the HCP include construction; operation; upgrade; decommissioning; and repair and maintenance of electrical transmission lines, substations, access roads, and related infrastructure and facilities (covered activities). LCRA TSC activities are classified as (1) new construction, (2) upgrading and decommissioning, (3) operations and maintenance, and (4) emergency responses. The applicant requested a term of 30 years, starting on the date of ITP issuance. The applicant will fully implement avoidance, minimization, and mitigation measures to offset impacts to the covered species according to the HCP and ITP. The applicant has agreed to include the following minimization measures:

1. Meet annually with the Service to discuss upcoming LCRA TSC activities, updated distribution or occurrence information for covered species, opportunities for mitigation, and other concerns;

2. Perform pre-construction natural resource assessments to avoid adverse effects on sensitive environmental features (including species);

3. Implement best practices and other measures to reduce environmental impacts before, during, and after construction;

4. Provide annual training to LCRA TSC staff and contractors working on covered activities regarding the implementation of the HCP and any covered species overlapping with covered activities;

5. Clear and manage vegetation within rights-of-way using aboveground means when practicable;

6. Mark those sections of transmission lines that cross major rivers and out 300 feet from either side;

7. Limit herbicide applications to woody vegetation that is a potential threat to the reliability of LCRA TSC facilities and observe the Service's Southwest Region guidance for pesticide applications;
