SUPPLEMENTARY INFORMATION:

Introduction

The National Student Loan Data System (18–11–06) was last published in full in the Federal Register on June 28, 2013 (78 FR 38963) and most recently altered on April 2, 2014 (79 FR 18534).

One of the reasons that the Department is modifying the system of records is to indicate that the purposes of the system include assisting the Department in identifying individuals who have student loans that may be eligible for a total and permanent disability (TPD) discharge and streamlining the process for applying for a TPD discharge. Three purposes of the system have been updated to the section entitled “PURPOSE(S) OF THE SYSTEM” to include providing data for the calculation of performance metrics related to gainful employment programs, informing qualified individuals about TPD discharges and streamlining the process for applying for a TPD discharge, and providing additional consumer tools to prospective students on loan repayment rates, completion rates, and median debt to better evaluate the effectiveness of institutions. Furthermore, the section is being modified to remove providing an Exit Counseling tool for grant and loan programs as a purpose of the system. The Data Challenges and Appeals Solutions (DCAS) (18–11–18) system of records notice published in the Federal Register on September 21, 2015 (80 FR 56969–56972) covers records that allow institutions to electronically challenge the data used in the gainful employment calculations. The Department published the DCAS system of records notice but did not utilize the system it was intended to cover. The Department will publish a modified system of records notice amending the DCAS system of records notice to remove references to gainful employment calculations in order to not have duplicating system of records notices for these records.

We also have modified the section entitled “SECURITY CLASSIFICATION” to change it from “none” to “unclassified” and the section entitled “SYSTEM LOCATION” to reflect the current name of the data center, and to include the location of the system manager as well as an additional location for the system. The Department is also including the two locations of customer service centers where records are also maintained. The section entitled “SYSTEM MANAGER” also has been updated to reflect the creation of the System Integration Division within FSA’s System Operations and Aid Delivery Management Services.

The section entitled “CATEGORIES OF RECORDS IN THE SYSTEM” has been updated to include information obtained from other Federal agencies to assist the Department in identifying individuals who have student loans that may be eligible for a TPD discharge and...
to streamline the process for applying for a TPD discharge.

The Department is modifying programmatic routine use (1)(f) to permit the Department to disclose records to support governmental research and policy analysis by governmental organizations at the Federal, State, or local level, rather than by Federal State, and local agencies, and to replace a requirement ensuring compliance with the Privacy Act with a requirement that the recipient must agree to establish and maintain safeguards to protect the security and confidentiality of the disclosed records. The Department is modifying programmatic routine use (1)(g) to clarify that in order to support Federal budget analysts in the development of budget needs and forecasts, the Department may disclose records to the Congressional Budget Office (CBO), in addition to Federal and State agencies.

The Department is also making a minor modification to programmatic routine use (1)(j) to clarify that the U.S. Department of the Treasury is an additional Federal agency with which the Department may share data in NSLDS in order for the Department to provide the public with greater transparency about programs that maintain the system is not a law enforcement agency.

The Department is modifying routine use (3)(c), formerly routine use (4)(c), to insert the word “person” in place of the word “individual” to avoid confusion because “individual” is a defined term in the Privacy Act.

The Department is also modifying routine use (5), formerly routine use (6), to remove the reference to “safeguards required under the Privacy Act (5 U.S.C. 552a(m))” to now require that all contractors agree to establish and maintain safeguards to protect the security and confidentiality of the disclosed records. The Department is also removing language that indicated that the Department would require these safeguards “before entering into such a contract” to instead indicate that they will be included “as part of such a contract.”

The Department is updating routine use (7)(b), formerly routine use (8)(b), to include FSA contractors as entities to which the Department may disclose records in order for permit FSA contractors to make hiring or retention decisions or to take other personnel actions with respect to their own employees, to the extent that they determine that such records are relevant and necessary to their decision or action.

The Department is modifying routine use (8), formerly routine use (9), to standardize it with other language used by the Department to permit disclosure of records in the Department’s systems of records when they are relevant and necessary to employee grievances, complaints, or disciplinary actions.

The Department is modifying routine use (11), formerly routine use (12), to permit the Department to disclose records to the CBO, in addition to the Office of Management and Budget, as necessary to fulfill the requirements of the Federal Credit Reform Act of 1990, as amended, in accordance with 2 U.S.C. 661b.

Pursuant to the requirements in Office of Management and Budget Memorandum M–17–12 entitled “Preparing for and Responding to a Breach of Personally Identifiable Information,” the Department is also adding an additional routine use (13) to permit the Department to disclose records from this system of records in the course of assisting another Federal agency or entity in responding to a breach of data as well as modifying routine use (12), formerly routine use (13), permitting the Department to disclose records from this system of records in responding to a breach of data in this system of records.

The Department is updating the section entitled “POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS” to reference the current, updated Department records retention and disposition schedule, as approved by the National Archives and Records Administration (NARA), covering records in this system.

The Department is also modifying routine use (14) to remove the reference to “safeguards required under the Privacy Act (5 U.S.C. 552a(m))” to now require that all contractors agree to establish and maintain safeguards to protect the security and confidentiality of the disclosed records.

The sections entitled “RECORD ACCESS PROCEDURES,” “CONTESTING RECORD PROCEDURES,” and “NOTIFICATION PROCEDURES” were modified to define the “necessary particulars” needed to access, contest, or be notified of a record.

The Department has also added a section entitled “HISTORY.”

The records are stored electronically.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:
In order for users to retrieve student/borrower information, they must supply the student/borrower SSN, name, and date of birth.

POLICIES AND PRACTICE FOR RETENTION AND DISPOSAL OF RECORDS:
All records are retained and disposed of in accordance with ED Records Schedule 051: National Student Loan Data System (NSLDS) (DAA–0441–2017–0004) (ED 051). Records are destroyed 30 years after cutoff. Cutoff is annually when an applicable account is paid-in-full.

Authorized users: Access to the system is limited to authorized NSLDS program personnel and contractors responsible for administering the NSLDS program. Authorized personnel include ED employees and officials, financial and fiscal management personnel, computer personnel and program managers who have responsibilities for implementing the NSLDS program. Read-only users: Read-only access is given to servicers, holders, financial/fiscal management personnel, and institutional personnel.

Security guards are staffed 24 hours a day, seven days a week, to perform random checks on the physical security of the record storage areas.

Procedural safeguards: A password is required to access the terminal, and a data set name controls the release of data to only authorized users. In addition, all sensitive data is encrypted using Oracle Transparent Data Encryption functionality. Access to records is strictly limited to those staff members trained in accordance with the Privacy Act and Automatic Data Processing (ADP) security procedures. Contractors are required to maintain confidentiality safeguards with respect to these records. Contractors are instructed to make no further disclosure of the records except as authorized by the System Manager and permitted by the Privacy Act. All individuals who have access to these records receive appropriate ADP security clearances. Department personnel make site visits to ADP facilities for the purpose of ensuring that ADP security procedures continue to be met. Privacy Act and ADP system security requirements are specifically included in contracts. The NSLDS project directors, project officers, and the system manager oversee compliance with these requirements.
