Contractors are required to maintain confidentiality safeguards with respect to these records. Contractors are instructed to make no further disclosure of the records except as authorized by the System Manager and permitted by the Privacy Act. All individuals who have access to these records receive appropriate ADP security clearances. Department personnel make site visits to ADP facilities for the purpose of ensuring that ADP security procedures continue to be met. Privacy Act and ADP system security requirements are specifically included in contracts. The NSLDS project directors, project officers, and the system manager oversee compliance with these requirements.
