Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before November 8, 2019. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418-2991.

SUPPLEMENTARY INFORMATION:

Estimated Time per Response: 12 hours average (range of 7.5 to 80 hours).

Frequency of Response: On occasion reporting requirements, recordkeeping and third-party disclosure requirements.

Obligation to Respond: Mandatory and Voluntary. Statutory authority is contained in sections 105, 107(c), 109(b) and 301 of the Communications Assistance for Law Enforcement Act (CALEA), 47 U.S.C. 1004, 1006(c), 1008(b), and 229; Public Law 103-414, 108 Stat. 4279 (1994).

Total Annual Burden: 3,475 hours.

Total Annual Cost: No Cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: CALEA records submitted pursuant to this information collection are not made available routinely for public inspection.

Needs and Uses: The Communications Assistance for Law Enforcement Act (CALEA) requires the Commission to create rules that regulate the conduct and recordkeeping of lawful electronic surveillance. CALEA was enacted in October 1994 to respond to rapid advances in telecommunications technology and eliminates obstacles faced by law enforcement personnel in conducting electronic surveillance. Section 105 of CALEA requires telecommunications carriers to protect against the unlawful interception of communications passing through their systems. Law enforcement officials use the information maintained by telecommunications carriers to determine the accountability and accuracy of telecommunications carriers' compliance with lawful electronic surveillance orders.

On May 12, 2006, the Commission released a *Second Report and Order and Memorandum Opinion and Order* in ET Docket No. 04-195, FCC 06-56, which became effective August 4, 2006, except for §§ 1.20004 and 1.2005 of the Commission's rules, which became effective on February 12, 2007. The

Second Report and Order established new guidelines for filing section 107(c) petitions, section 109(b) petitions, and monitoring reports (FCC Form 445). CALEA section 107(c)(1) permits a petitioner to apply for an extension of time, up to two years from the date that the petition is filed, and to come into compliance with a particular CALEA section 103 capability requirement. CALEA section 109(b) permits a telecommunication carrier covered by CALEA to file a petition with the FCC and an application with the Department of Justice (DOJ) to request that DOJ pay the costs of the carrier's CALEA compliance (cost-shifting relief) with respect to any equipment, facility or service installed or deployed after January 1, 1995. The Second Report and Order required several different collections of information:

(a) Within 90 days of the effective date of the Second Report and Order, facilities based broadband internet access and interconnected Voice over Interconnected Protocol (VOIP) providers newly identified in the First Report and Order in this proceeding were required to file system security statements under the Commission's rules. (Security systems are currently approved under the existing OMB Control No. 3060-0809 information collection).

(b) All telecommunications carriers, including broadband internet access and interconnected VoIP providers, must file updates to their systems security statements on file with the Commission as their information changes.

(c) Petitions filed under Section 107(c), request for additional time to comply with CALEA; these provisions apply to all carriers subject to CALEA and are voluntary filings.

(d) Section 109(b), request for reimbursement of CALEA; these provisions apply to all carriers subject to CALEA and are voluntary filings.

Total Annual Burden: 3,850 hours.

Total Annual Cost: \$50,000.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is a minimal exemption from the Freedom of Information Act (FOIA), 5 U.S.C. 552(b)(4) and 47 CFR 0.459(d) of the Commission's rules that is granted for trade secrets, which may be submitted to the Commission as part of the documentation of the test results. No other assurances of confidentiality are provided to respondents.

Needs and Uses: The Commission will submit this information collection after this 60 day comment period to obtain the full three year clearance from the Office of Management and Budget (OMB). There is a change in the Commission's estimated respondents/responses and/or total annual burden hours.

To ensure that technical standards are applied uniformly, the Commission requires respondents to follow appropriate equipment authorization procedures specified in subpart J of part 2 of the Commission's rules. These requirements require manufacturers to comply with certain information collection requirements common to all equipment.¹ In addition to these general requirements, the responsible parties for certain types of equipment must maintain special records as specified by the requirements for those devices.

(a) 47 CFR 15.117(g)(2) of the Commission's rules requires that the responsible party (usually the manufacturer) for equipment insert in its files a statement explaining the basis on which the manufacturer relies to ensure that at least 97.5% of all production units of the test sample that are manufactured have a noise figure of no greater than 14 dB.

(b) 47 CFR 15.201(a) requires that devices operated under the provisions of 47 CFR 15.211, 15.213 and 15.221 of the Commission's rules comply with certain additional requirements.

(c) The Commission's rules permit the operation of field disturbance sensors in the low VHF region of the spectrum, subject to requirements in 47 CFR 15.201(d).

(1) Such systems have the potential for interfering with television broadcasting and other radio communication signals.

(2) The Commission requires a unique procedure for on-site testing and compliance verification of these systems to ensure that suitable safeguards are in place for the operation of these devices in the VHF range of the spectrum.

The Commission is seeking the Office of Management and Budget (OMB) approval to revise the information collection requirements contained in OMB Control No. 3060-0387 and consolidate them into this collection. After OMB approval is received, the FCC will discontinue OMB Control No. 3060-0387 and have it removed from OMB's Active Inventory.
