grant terms shall require the grantee to advertise and fill such positions within 90 days of HUD’s execution of the CDBG–MIT grant agreement. To ensure that the capacity risk is reduced and the staffing requirement is met, a portion of CDBG–MIT funds shall remain in a restricted balance in the Disaster Recovery and Grants Reporting (DRGR) system until HUD receives evidence that the identified positions have been advertised and filled. The amount of the restricted balance will be imposed in a special condition after HUD reviews the Staff Analysis Worksheet submission, based on HUD’s determination of the amount that will allow initial grant operations to launch while ensuring that the capacity risk will be addressed before major implementing activities are underway.

II.C.3. Citizen engagement. In response to the limited experience of the grantee in engaging the community in an assessment of mitigation needs following a major disaster, within 90 days of execution of the CDBG–MIT grant agreement, the grantee shall have in place public affairs staff with community engagement expertise; and, within 120 days of execution of the grant agreement, shall update its citizen participation plan to include specific outreach actions designed to mitigate risks arising from public pressure and a lack of broad community input in the identification of mitigation needs.

II.C.4. Submission of internal audit reports and posting of reports. Section V.A.1.a. (6)(iii) of the CDBG–MIT Notice provides that HUD may establish a grant condition to require grantees to submit copies of the reports of its internal auditor directly to HUD. Accordingly, the U.S. Virgin Islands shall submit to HUD and the HUD’s Office of the Inspector General (OIG) a copy of all reports issued by its internal auditor, and if the internal auditor does not issue formal reports then the grantee will instead submit a regular summary of findings and assessments made by the auditor. Additionally, while all CDBG–MIT grantees are required to post certain information on the grantee’s website pursuant to section V.A.3.d of the CDBG–MIT Notice, the U.S. Virgin Islands shall also post final audit reports issued by HUD’s OIG on the grantee’s website, along with any other relevant reports that HUD requests that the grantee posts on its website.

II.C.5. Additional requirements for policies and procedures. The U.S. Virgin Islands shall develop and maintain policies and procedures and shall document each program (or project, as applicable): The eligible activities; the required records management practices; procurement requirements; subrecipient oversight; providing technical assistance; monitoring practices; policies for assigning direct costs to the program or project; and timely expenditure of funds. The policies and procedures shall include a plan for training all subrecipients on all federal and state CDBG–MIT requirements (e.g. program-related civil rights requirements training). The grantee shall submit the policies and procedures to HUD within 30 days of HUD’s execution of the grant agreement or before the grantee awards funds to subrecipients, whichever is later.

II.C.6. Additional requirements for financial management.

II.C.6.a. Enhanced DRGR voucher review. In order for HUD to monitor the grantee’s financial management capacity, the U.S. Virgin Islands shall provide, via upload in DRGR, support documentation for each voucher drawdown request made in DRGR for its CDBG–MIT grant. The U.S. Virgin Islands shall continue to upload support documentation for its voucher drawdown requests in DRGR until completion of HUD’s first two on-site monitoring reviews and the grantee’s resolution of any significant findings that result from those reviews.

II.C.6.b. Drawdown milestones. At the time the grantee submits a draw request in DRGR that achieves 10, 25, and 50 percent of grant disbursement, the Grantee must update its DRGR administration module to include: (i) A list of all grant-related internal audit issues (i.e. findings or concerns) and recommendations along with the resolution or planned resolution of these issues; (ii) a summary of each open single audit recommendation for the grantee or subrecipient, along with the resolution or planned resolution of the audit recommendation; (iii) a summary of each open recommendation by the HUD’s Office of the Inspector General (OIG) recommendation related to this grant, together with its resolution or planned resolution; and (iv) a summary of each HUD monitoring recommendation related to this grant together with the resolution or planned resolution of the recommendation. At each of the above draw request milestones, the grantee shall also review its management and capacity plan and inform HUD of all updates, including an explanation for each missed milestone, if any.

HUD will review the information submitted at each milestone to determine whether the grantee demonstrates sufficient capacity to make timely and effective corrective actions on identified deficiencies and compliance issues. If HUD determines that the grantee does not demonstrate such sufficient capacity, HUD may take additional corrective actions, such as restricting access to grant funds pending resolution of identified issues. If the grantee fails to comply with the conditions required at each milestone, HUD will block access to CDBG–MIT funds pending on-site review and HUD’s acceptance of the grantee’s management controls.
