Commission received one comment letter on the proposed rule change.5

Section 19(b)(2) of the Act6 provides that, within 45 days of publication of the notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether the proposed rule change should be disapproved. The 45th day after publication of the notice for this proposed rule change is September 6, 2019.

The Commission hereby is extending the 45-day time period for Commission action on the proposed rule change. The Commission finds that it is appropriate to designate a longer period within which to take action on the proposed rule change so that it has sufficient time to consider the proposed rule change, including the comment letter received on the filing.

Accordingly, pursuant to Section 19(b)(2) of the Act,7 the Commission designates October 21, 2019 as the date by which the Commission shall either approve, disapprove, or institute proceedings to determine whether to disapprove, the proposed rule change (File No. SR–CBOE–2019–035).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.8

Jill M. Peterson,
Assistant Secretary.

SURFACE TRANSPORTATION BOARD
[Docket No. EP 552 (Sub-No. 23)]

Railroad Revenue Adequacy—2018 Determination

AGENCY: Surface Transportation Board.

ACTION: Notice of decision.

SUMMARY: On September 5, 2019, the Board served a decision announcing the 2018 revenue adequacy determinations for the Nation’s Class I railroads. Three carriers (CSX Transportation, Inc., Soo Line Corporation, and Union Pacific Railroad Company) were found to be revenue adequate.

DATES: This decision is effective on September 5, 2019.

FOR FURTHER INFORMATION CONTACT: Pedro Ramirez, (202) 245–0333.

Assistance for the hearing impaired is available through the Federal Relay Service at (800) 877–8339.

SUPPLEMENTARY INFORMATION: Under 49 U.S.C 10704(a)(3), the Board is required to make an annual determination of railroad revenue adequacy. A railroad is considered revenue adequate under 49 U.S.C. 10704(a) if it achieves a rate of return on net investment (ROI) equal to at least the current cost of capital for the railroad industry. For 2018, this number was determined to be 12.22% in Railroad Cost of Capital—2018, EP 558 (Sub-No. 22) (STB served Aug. 6, 2019). The Board then applied this revenue adequacy standard to each Class I railroad. Three Class I carriers (CSX Transportation, Inc., Soo Line Corporation, and Union Pacific Railroad Company) were found to be revenue adequate for 2018.

The decision in this proceeding is posted at www.stb.gov.

By the Board, Board Members Begeman, Fuchs, and Oberman.

Kenyatta Clay,
Clearance Clerk.
