FOR FURTHER INFORMATION CONTACT: Charli M. Long-Medrano, Center for Veterinary Medicine (HFV-150), Food and Drug Administration, 7500 Standish Pl., Rm. E340, Rockville, MD 20855, 240-402-0850, Charli.Long-Medrano@fda.hhs.gov.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of August 9, 2019, FDA published a request for comments with a 60-day comment period to request comments on transit times to slaughter, milking frequency, and how end users interpret zero-day withdrawal period, or zero-day milk discard time statements found on new animal drug labeling. Comments on interpretation of these labeling statements will help to evaluate if our current approach to assigning zero-day withdrawal periods and zero-day milk discard times to new animal drugs is appropriate.

The Agency has received requests for a 90-day extension of the comment period for the request for comments. The requests convey concern that the current 60-day comment period does not allow sufficient time to develop a meaningful or thoughtful response to the request for comments.

FDA has considered the requests and is extending the comment period for the request for comments for 90 days, until January 6, 2020. The Agency believes that a 90-day extension allows adequate time for interested persons to submit comments without significantly delaying rulemaking on these important issues.
