

OOD's Division of Disability Determination (DDD), and Ohio's Bureau of Vocational Rehabilitation (BVR). ODRD builds off other work by SSA exploring ways to improve the adult employment outcomes and financial independence for SSI recipients and SSI and SSDI applicants who are in the process of transitioning to adulthood. ODRD tests the effects of a direct referral to vocational rehabilitation services for individuals aged 18 or 19 who are in the process of applying for, or undergoing an evaluation to, retain SSDI benefits or SSI payments. We will use the data collected to answer the following questions:

- What effect did the intervention have on receipt of Ohio's BVR services?
- What effect did the intervention have on employment outcomes, such as job placement and earnings?
- What is the length of time from application to eligibility decision?
- What general vocational rehabilitation outcomes did participants achieve?
- What was the number of closed cases resulting in employment and what was the number of cases closed for other reasons?

**Ohio Direct Referral Demonstration (ODRD) Project**

Currently, SSA is seeking OMB clearance for the data collection related to enrollment and evaluation of the ODRD. Using SSA claims records, which DDD will access to perform disability determinations for SSA, DDD will attempt to recruit at least 750 participants.

As required under SSA's demonstration authority, DDD will obtain signed, informed consent from individuals who want to participate in the demonstration. Recruitment for the ODRD will require two forms: (1) A new Invitation to Participate and Consent form, and (2) Form SSA-3288, Consent for Release of Information (OMB #0960 0566). ODD will send the new Invitation to Participate and Consent form to young adult disability recipients, whose claim we sent to the DDD for a continuing disability review, and applicants to see if they are interested in participating in the demonstration. The ODRD Invitation to Participate and Consent forms will meet the informed consent requirements in the Social Security Act (Act) and SSA regulations. Specifically, they include language explaining the study as well as potential

benefits and harms. SSA will use administrative records systems and BVR data to evaluate the effect of the demonstration.

This is a onetime collection of information, and there are no surveys or additional data collections for the ODRD. This collection is voluntary, and participation in this demonstration will have no impact on respondents' disability determination, benefits, or SSI payments. In addition, participation in the ODRD is revocable at any time. SSA and OOD will remove participants who revoke consent from the demonstration. Upon notification of revocation of participation, SSA and OOD will no longer use, transmit, or request information about the participant who revoked participation in any ODRD data exchange or analysis. Participation in the ODRD will have no effect on DDD's usual process for deciding eligibility for SSI payments or SSDI benefits.

The respondents are individuals aged 18 or 19 who are in the process of applying for, or undergoing an evaluation, to obtain or retain SSDI benefits or SSI payments.

**SUPPLEMENTARY INFORMATION:** Comments are requested concerning: (1) The accuracy of the Board's burden estimates; (2) ways to enhance the quality, utility, and clarity of the information collected; (3) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, when appropriate; and (4) whether the collection of information is necessary for the proper performance of the functions of the Board, including whether the collection has practical utility. Submitted comments will be summarized and included in the Board's request for OMB approval.

*Description of Collection:*

*Title:* Class I Railroad Annual Report.

*OMB Control Number:* 2140-0009.

*Form Number:* R-1.

*Type of Review:* Extension without change.

*Respondents:* Class I railroads.

*Number of Respondents:* Seven.

*Estimated Time per Response:* No more than 250 hours. This estimate includes time spent reviewing instructions; searching existing data sources; gathering and maintaining the data needed; completing and reviewing the collection of information; and converting the data from the carrier's individual accounting system to the Board's Uniform System of Accounts, which ensures that the information will be presented in a consistent format across all reporting railroads. In prior years, the estimate was higher, but many of these functions have become automated and more routine through the respondents' software programming. Thus, the time per response has been reduced, with additional technological efficiencies anticipated in the future.

*Frequency of Response:* Annual.

*Total Annual Hour Burden:* No more than 1,750 hours annually.

*Total Annual "Non-Hour Burden" Cost:* No "non-hour cost" burdens

associated with this collection have been identified. The information is submitted electronically.

*Needs and Uses:* Annual reports are required to be filed by Class I railroads under 49 U.S.C. 11145. The reports show operating expenses and operating statistics of the carriers. Operating expenses include costs for right-of-way and structures, equipment, train and yard operations, and general and administrative expenses. Operating statistics include such items as car-miles, revenue-ton-miles, and gross ton-miles. These reports are used by the Board, other Federal agencies, and industry groups to monitor and assess railroad industry growth, financial stability, traffic, and operations, and to identify industry changes that may affect national transportation policy. Information from these reports is also entered into the Uniform Railroad Costing System (URCS), which is the Board's general purpose costing methodology. URCS, which was developed by the Board pursuant to 49 U.S.C. 11161, is used as a tool in rail rate proceedings (in accordance with 49 U.S.C. 10707(d)) to calculate the variable costs associated with providing a particular service. The Board also uses information from this collection to more effectively carry out other regulatory responsibilities, including: Acting on railroad requests for authority to engage in Board-regulated financial transactions such as mergers, acquisitions of control, and consolidations, *see* 49 U.S.C. 11323-24; analyzing the information that the Board obtains through the annual railroad industry waybill sample, *see* 49 CFR 1244; measuring off-branch costs in railroad abandonment proceedings, in accordance with 49 CFR 1152.32(n); developing the "rail cost adjustment factors," in accordance with 49 U.S.C. 10708; and conducting investigations and rulemakings.

Under the PRA, a federal agency that conducts or sponsors a collection of information must display a currently valid OMB control number. A collection of information, which is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c), includes agency requirements that persons submit reports, keep records, or provide information to the agency, third parties, or the public. Under 44 U.S.C. 3506(c)(2)(A), federal agencies are required to provide, prior to an agency's submitting a collection to OMB for approval, a 60-day notice and comment period through publication in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information.

Information from certain schedules contained in these reports is compiled and published on the Board's website, <http://www.stb.gov>. Information in these reports is not available from any other source.

Dated: September 9, 2019.
