public comment period soliciting comments on this collection of information (84 FR 18309). In that notice, we solicited comments for 60 days, ending on July 1, 2019. We received one comment which did not address the information collection requirements.

We are again soliciting comments on the information collection request (ICR) that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the Service; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Service enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Service minimize the burden of this collection on the respondents, including through the use of information technology.

Abstract: The Endangered Species Act (ESA; 16 U.S.C. 1531 *et seq.*) makes it unlawful to import or export wildlife or wildlife products for commercial purposes without first obtaining an import/export license (see 16 U.S.C. 1538(d)). The ESA also requires that fish or wildlife be imported into or exported from the United States only at a designated port, or at a nondesignated port under certain limited circumstances (see 16 U.S.C. 1538(f)). This information collection includes the following permit/license application forms:

FWS Form 3-200-2, "Designated Port Exception Permit"

Under 50 CFR 14.11, it is unlawful to import or export wildlife or wildlife products at ports other than those designated in 50 CFR 14.12, unless you qualify for an exception. The following exceptions allow qualified individuals, businesses, or scientific organizations to import or export wildlife or wildlife products at a nondesignated port:

(a) To export the wildlife or wildlife products for scientific purposes;

(b) To minimize deterioration or loss; or

(c) To relieve economic hardship.

To request authorization to import or export of wildlife or wildlife products at nondesignated ports, applicants must complete FWS Form 3–200–2.

Designated port exception permits can be valid for up to 2 years. We may require a permittee to file a report on activities conducted under authority of the permit.

FWS Form 3–200–3a, “Federal Fish and Wildlife Permit Application Form: Import/Export License—U.S. Entities,” and 3–200–3b, “Federal Fish and Wildlife Permit Application Form: Import/Export License—Foreign Entities”

It is unlawful to import or export wildlife or wildlife products for commercial purposes without first obtaining an import/export license (50 CFR 14.91). Applicants located in the United States must complete FWS Form 3–200–3a to request this license. Foreign applicants that reside or are located outside the United States must complete FWS Form 3–200–3b to request this license.

We use the information collected on FWS Forms 3–200–3a/3b as an enforcement tool and management aid to (a) monitor the international wildlife market and (b) detect trends and changes in the commercial trade of wildlife and wildlife products. Import/export licenses are valid for up to 1 year. We may require a licensee to file a report on activities conducted under authority of the import/export license.

Recordkeeping Requirements

Permittees and licensees must maintain records that accurately describe each importation or exportation of wildlife or wildlife products made under the license, and any additional sale or transfer of the wildlife or wildlife products. In addition, licensees must make these records and the corresponding inventory of wildlife or wildlife products available for our inspection at reasonable times, subject to applicable

limitations of law. We believe the burden associated with these recordkeeping requirements is minimal because the records already exist. Importers and exporters must complete FWS Form 3–177 (Declaration for Importation or Exportation of Fish or Wildlife) for all imports or exports of wildlife or wildlife products. This form provides an accurate description of the imports and exports. OMB has approved the information collection for FWS Form 3–177 and assigned OMB Control Number 1018–0012. Normal business practices should produce records (e.g., invoices or bills of sale) needed to document subsequent sales or transfers of the wildlife or wildlife products.

Proposed Revision

With this submission, we propose a revision to the previously approved collection of information. The Service will request OMB approval to transfer the below-listed forms currently approved under OMB Control No. 1018–0093, “Federal Fish and Wildlife Permit Applications and Reports—Management Authority; 50 CFR 12, 13, 14, 15, 16, 17, 18, 21, 23,” into this information collection (OMB Control No. 1018–0092):

- FWS Form 3–200–44, “Permit Application Form: Registration of an Agent/Tannery under the Marine Mammal Protection Act (MMPA),” and
- FWS Form 3–200–44a, “Registered Agent/Tannery Bi-Annual Inventory Report.”

The Service’s Alaska region manages marine mammals that inhabit Alaskan waters, as well as the Alaska Native hunters and handicrafters. Both the registration of an Agent/Tannery form and the Registered Agent/Tannery bi-annual inventory report form are issued and reviewed by the Office of Law Enforcement in the Alaska Region. As such, it is more appropriate that these forms be transferred to, and approved by OMB, under OMB Control No. 1018–0092, “Federal Fish and Wildlife Applications and Reports—Law Enforcement; 50 CFR 13 and 14.”

We use the information collected on FWS Form 3–200–44 for only the

registration of qualified agents and tanneries for polar bear (*Ursus maritimus*), walrus (*Odobenus rosmarus*), and Alaskan sea otter (*Enhydra lutris kenyoni*) under the Marine Mammal Protection Act. This registration facilitates the transfer of marine mammal specimens taken by Alaskan Natives for the purposes of subsistence or creation of authentic Native handicraft articles and clothing.

Biannually (twice a year) on or before the 10th day of January and July, we require that the permittee submit to the Service FWS Form 3–200–44a, containing detailed activities of each registered agent or registered tannery for each transaction related to Polar bear, Walrus, and Alaskan sea otter. If no transactions occurred, the permittee must submit a negative report.

The associated estimated annual burden of Forms 3–200–44/44a is 45 responses and 42 burden hours. If OMB approves this revision request, we will initiate a revision to OMB Control No. 1018–0093 to remove those two forms to avoid duplication of burden.

Title of Collection: Federal Fish and Wildlife Applications and Reports—Law Enforcement; 50 CFR 13 and 14.

OMB Control Number: 1018–0092.

Form Number: FWS Forms 3–200–2, 3–200–3, 3–200–3a, 3–200–44, and 3–200–44a.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Individuals, private sector, and State/local/Tribal entities.

Respondent’s Obligation: Required to obtain or retain a benefit.

Frequency of Collection: One time for applications, an average of once every 9 days per respondent for fulfillment reports, and biannually (January and July) for agents/tanneries.

Total Estimated Annual Nonhour Burden Cost: \$1,188,100. There is a \$100 fee associated with applications (Forms 3–200–2 and 3–200–3) received from individuals and private sector. There is no fee for applications from government agencies or for processing reports.
