

Except with respect to certain activities not pertinent here, the MMPA defines “harassment” as: Any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild (Level A harassment); or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

Summary of Request

On September 10, 2019, NMFS received an adequate and complete application from the Navy requesting authorization for take of marine mammals incidental to construction activities related to construction of an ammunition pier and turning basin at Naval Weapons Station Seal Beach, California. The requested regulations would be valid for five years, from 2020 through 2025. The Navy plans to conduct necessary work, including impact and vibratory pile driving, to demolish the old pier and construct a new one. The proposed action may incidentally expose marine mammals occurring in the vicinity to elevated levels of underwater sound, thereby resulting in incidental take, by Level B harassment only. Therefore, the Navy requests authorization to incidentally take marine mammals.

Specified Activities

Naval Weapons Station Seal Beach was commissioned in 1944 as a Naval Ammunition and Net Depot, and the existing wharf was rebuilt in 1953. This facility is the Navy’s primary weapons station on the U.S. West Coast. The existing wharf is past its design life, not in compliance with modern earthquake codes, and presents safety and security concerns due to the proximity of naval munitions operations to civilian small boat traffic and the Pacific Coast Highway. Therefore, replacement of the wharf is planned, and is expected to require removal of approximately 100 piles and installation via impact hammer of approximately 900 new concrete piles. The work is expected to require approximately 474 days over the 5-year period. Bottlenose dolphins, harbor seals, California sea lions, and common dolphins have been observed in the area.

Information Solicited

Interested persons may submit information, suggestions, and comments concerning the Navy’s request (see **ADDRESSES**). NMFS will consider all

information, suggestions, and comments related to the request during the development of proposed regulations governing the incidental taking of marine mammals by the Navy, if appropriate.

Dated: September 11, 2019.
