Abstract: The State Review Framework is an oversight tool designed to assess state performance in enforcement and compliance assurance. The Framework's goal is to evaluate state performance by examining existing data to provide a consistent level of oversight and develop a uniform mechanism by which EPA Regions, working collaboratively with their states, can ensure that state environmental agencies are consistently implementing the national compliance and enforcement program in order to meet agreed-upon goals. Furthermore, the Framework is designed to foster dialogue on enforcement and compliance performance between the states that will enhance relationships and increase feedback, which will in turn lead to consistent program management and improved environmental results. This request will allow OECA to collect information from enforcement and compliance files reviewed during routine on-site visits of state or local agency offices that will assist in the evaluation of the State Review Framework implementation from FY 2020 to the end of FY 2023. It will allow also EPA to make inquiries to assess the State Review Framework process, including the consistency achieved among the EPA Regions and states, the resources required to conduct the reviews, and the overall effectiveness of the program.

Form Numbers: None.

Respondents/affected entities: States, localities, and territories.

Respondent's obligation to respond: Required as part of program authorization under the Clean Water, Clean Air, and Resource Conservation and Recovery Acts.

Estimated number of respondents: 54.

Frequency of response: Once every five years.

Total estimated burden: 2,358 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$86,982 (per year).

Changes in Estimates: There is a decrease of 36 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to using a different sampling of respondents to provide the hourly estimates, in addition to the respondents' continued experience with the review process and

collective efforts to make the review more efficient.

Dated: August 29, 2019.

Director, Planning, Measures, and Oversight
