National Defense Stockpile Market Impact Committee Request for Public Comments on the Potential Market Impact of the Proposed Amendment to Fiscal Year 2020 Annual Materials Plan and the Proposed Fiscal Year 2021 Annual Materials Plan

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Notice of inquiry; request for comments.

SUMMARY: The purpose of this notice is to request public comments on the potential market impact of a proposed amendment to the Fiscal Year 2020 National Defense Stockpile Annual Materials Plan (AMP) and the proposed Fiscal Year 2021 National Defense Stockpile AMP. Changes to the AMP are discussed and decided by the National Defense Stockpile Market Impact Committee, co-chaired by the Departments of Commerce and State. The role of the Market Impact Committee is to advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions, conversions, and disposals involving the stockpile and related material research and development projects. Public comments are an important element of the Committee’s market impact review process.

DATES: To be considered, written comments must be received by October 18, 2019.

ADDRESSES: Comments on this rule may be submitted to the Federal rulemaking portal (www.regulations.gov). The regulations.gov ID for this rule is: BIS–2019–0024. All relevant comments

(including any personally identifying information) will be made available for public inspection and copying.

FOR FURTHER INFORMATION CONTACT:

Parya Fenton, Office of Strategic Industries and Economic Security, Bureau of Industry and Security, U.S. Department of Commerce, telephone: (202) 482-8228, fax: (202) 482-5650 (Attn: Parya Fenton), email: *MIC@bis.doc.gov*. All questions submitted through email must include the phrase "Market Impact Committee Notice of Inquiry" in the subject line.

SUPPLEMENTARY INFORMATION:

Background

Under the authority of the Strategic and Critical Materials Stock Piling Revision Act of 1979, as amended (the Stock Piling Act) (50 U.S.C. 98 *et seq.*), the Department of Defense's Defense Logistics Agency (DLA), as National Defense Stockpile Manager, maintains a stockpile of strategic and critical materials to supply the military, industrial, and essential civilian needs of the United States for national defense. Section 9(b)(2)(G)(ii) of the Stock Piling Act (50 U.S.C. 98h(b)(2)(H)(ii)) authorizes the National Defense Stockpile Manager to fund material research and development projects to develop new materials for the stockpile.

Section 3314 of the National Defense Authorization Act for Fiscal Year 1993 (FY 1993 NDAA) (50 U.S.C. 98h-1) formally established a Market Impact Committee (the Committee) to "advise the National Defense Stockpile Manager on the projected domestic and foreign economic effects of all acquisitions and disposals of materials from the stockpile . . ." The Committee must also balance market impact concerns with the statutory requirement to protect the U.S. Government against avoidable loss.

The Committee is comprised of representatives from the Departments of Commerce, State, Agriculture, Defense, Energy, Interior, the Treasury, and Homeland Security, and is co-chaired by the Departments of Commerce and State. The FY 1993 NDAA directs the Committee to consult with industry representatives that produce, process, or

consume the materials stored in or of interest to the National Defense Stockpile Manager.

As the National Defense Stockpile Manager, the DLA must produce an Annual Materials Plan (AMP) proposing the maximum quantity of each listed material that may be acquired, disposed of, upgraded, converted, recovered, or sold by the DLA in a particular fiscal year. In Attachment 1, the DLA lists the quantities of three materials it wishes to acquire for the National Defense Stockpile that were not included in the previously approved Fiscal Year (FY) 2020 AMP. Attachment 1 also lists three materials the DLA is targeting for disposals from the National Defense Stockpile that were likewise not included in the previously approved FY 2020 AMP. The quantities listed for potential disposal in Attachment 1 are not disposal or sales target quantities, but rather a statement of the proposed maximum disposal quantity of each listed material that may be sold in a particular fiscal year by the DLA as noted. The quantity of each material that will actually be offered for sale will depend on the market for the material at the time of the offering as well as on the quantity of each material approved for disposal by Congress. The DLA is seeking this amendment to the FY 2020 AMP to respond to changing market and other conditions that were not foreseen when the AMP was first submitted.

In Attachment 2, the DLA lists the quantities and types of activity (potential disposals, potential acquisitions, potential conversions (upgrade, rotation, reprocessing, etc.) or potential recovery from government sources) associated with each material in its proposed FY 2021AMP. The quantities listed in Attachment 2 are not acquisition, disposal, upgrade, conversion, recovery, reprocessing, or sales target quantities, but rather a statement of the proposed maximum quantity of each listed material that may be acquired, disposed of, upgraded, converted, recovered, or sold in a particular fiscal year by the DLA, as noted. The quantity of each material that will actually be acquired or offered for sale will depend on the market for

the material at the time of the acquisition or offering, as well as on the quantity of each material approved for acquisition, disposal, conversion (upgrade, rotation, reprocessing, etc.), or recovery by Congress.

The Committee is seeking public comments on the potential market impact associated with the proposed amendment to the FY 2020 AMP and proposed FY 2021 AMP as enumerated in the Attachments. Public comments are an important element of the Committee's market impact review process.

Submission of Comments

The Committee requests that interested parties provide written comments, supporting data and documentation, and any other relevant information on the potential market impact of the quantities associated with the proposed amendment to the FY 2020 AMP and the proposed FY 2021 AMP. All comments must be submitted to BIS as described in the **ADDRESSES** section of this notice. Commenters should indicate whether their comment is related to the proposed amendment to the FY 2020 AMP or the proposed FY 2021 AMP.

The Committee encourages interested persons who wish to comment to do so at the earliest possible time. The period for submission of comments will close on October 18, 2019. The Committee will consider all comments received before the close of the comment period. Comments received after the end of the comment period will be considered, if possible, but their consideration cannot be assured.

Anyone submitting business confidential information should clearly identify the business confidential portion of the submission and also provide a non-confidential submission that can be placed in the public record. The Committee will seek to protect such information to the extent permitted by law.

Dated: September 12, 2019.

Richard E. Ashooch,
Assistant Secretary for Export Administration.

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Notice of Partial Rescission of Antidumping Duty Administrative Review; 2017–2018

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is rescinding, in part, the administrative review of the antidumping duty order on crystalline silicon photovoltaic cells, whether or not assembled into modules from the People's Republic of China (China) for the period of review (POR) December 1, 2017, through November 30, 2018.

DATES: Applicable September 18, 2019.

FOR FURTHER INFORMATION CONTACT: Jeff Pedersen, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, telephone: (202) 482–2769.

SUPPLEMENTARY INFORMATION:**Background**

On December 7, 2012, the Department of Commerce (Commerce) published in the **Federal Register** the antidumping duty order on crystalline silicon photovoltaic cells, whether or not assembled into modules, from China.¹ On December 3, 2018, Commerce

published a notice of opportunity to request an administrative review of the Order.² Commerce received multiple timely requests for an administrative review of the Order. On March 14, 2019, in accordance with section 751(a) of Tariff Act of 1930, as amended (the Act), Commerce published in the **Federal Register** a notice of the initiation of an administrative review of the Order.³ The administrative review was initiated with respect to 54 companies or groups of companies, and covers the period from December 1, 2017, through November 30, 2018. Requesting parties have subsequently timely withdrawn all review requests for 14 companies or groups of companies for which Commerce initiated a review, as discussed below.

Rescission of Review, in Part

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party that requested the review withdraws its request within 90 days of the publication of the notice of initiation of the requested review. All requesting parties withdrew their respective requests for an administrative review of the 14 companies or groups of companies listed in the Appendix within 90 days of the date of publication of *Initiation Notice*. Accordingly, Commerce is rescinding this review with respect to these companies, in accordance with 19 CFR 351.213(d)(1).⁴

² See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review*, 83 FR 62293 (December 3, 2018).

³ See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 84 FR 9297 (March 14, 2019) (*Initiation Notice*).

⁴ See Appendix. As stated in *Change in Practice in NME Reviews*, Commerce will no longer consider the non-market economy (NME) entity as an exporter conditionally subject to administrative reviews. See *Antidumping Proceedings: Announcement of Change in Department Practice for Respondent Selection in Antidumping Duty Proceedings and Conditional Review of the Nonmarket Economy Entity in NME Antidumping Duty Proceedings*, 78 FR 65963 (November 4, 2013).

¹ See *Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, from the People's Republic of China: Amended Final Determination of Sales at Less Than Fair Value, and Antidumping Duty Order*, 77 FR 73018 (December 7, 2012) (Order).

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. For the companies for which this review is rescinded, antidumping duties shall be assessed on the subject merchandise at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP 15 days after publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby

The China-wide entity is not subject to this administrative review because no interested party requested a review of the entity. See *Initiation Notice*.
