

promulgate the body system listings again. Therefore, we determined that opportunity for prior comment is unnecessary, and we are issuing this regulation as a final rule.

In addition, for the reasons cited above, we find good cause for dispensing with the 30-day delay in the effective date of this final rule. 5 U.S.C. 553(d)(3). We are not making any substantive changes to the listings in these body systems. Without an extension of the expiration dates for these listings, we will not have the criteria we need to assess medical impairments in these two body systems at step three of the sequential evaluation processes. We therefore find it is in the public interest to make this final rule effective on the publication date.

Executive Order 12866, as Supplemented by Executive Order 13563

We consulted with the Office of Management and Budget (OMB) and determined that this final rule does not meet the requirements for a significant regulatory action under Executive Order 12866, as supplemented by Executive Order 13563. Therefore, OMB did not review it. We also determined that this final rule meets the plain language requirement of Executive Order 12866.

Regulatory Flexibility Act

We certify that this final rule does not have a significant economic impact on a substantial number of small entities because it affects only individuals. Therefore, a regulatory flexibility analysis is not required under the Regulatory Flexibility Act, as amended.

Executive Order 13771

This regulation does not impose novel costs on the public and as such is considered an exempt regulatory action under E.O. 13771.

Paperwork Reduction Act

This final rule does not create any new or affect any existing collections and, therefore, do not require OMB approval under the Paperwork Reduction Act.

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Partial Deletion of the Townsend Saw Chain Co. Superfund Site

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) Region 4 announces the deletion of the soil, sediment, surface water, surficial aquifer, and the intermediate aquifer of this Site with the exception of a limited area (5000–8000 square feet) of the intermediate aquifer below the 1C clay in the vicinity of

monitoring wells IMW–01B, MW–128, and OW–143 of the Townsend Saw Chain Co. Superfund Site (Site) located in Pontiac, South Carolina, from the National Priorities List (NPL). The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). This partial deletion pertains to the soil, sediment, surface water, surficial aquifer, and the intermediate aquifer of this Site. A limited area (5000–8000 square feet) of the intermediate aquifer below the 1C clay in the vicinity of monitoring wells IMW–01B, MW–128, and OW–143 of the Townsend Saw Chain Co. will remain on the NPL and is not being considered for deletion as part of this action. The EPA and the State of South Carolina, through the South Carolina Department of Health and Environmental Control (SC DHEC), have determined that all appropriate response actions under CERCLA, other than operation and maintenance, monitoring and five-year reviews, have been completed. However, this partial deletion does not preclude future actions under Superfund.

DATES: This action is effective September 24, 2019.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–HQ–SFUND–1990–0010. All documents in the docket are listed on the <http://www.regulations.gov> website. SUPPLEMENTARY INFORMATION: The portion of the site to be deleted from the NPL is: The soil, sediment, surface water, surficial aquifer, and the intermediate aquifer of this Site with the exception of a limited area (5000-8000 square feet) of the intermediate aquifer below the 1C clay in the vicinity of monitoring wells IMW-01B, MW-128, and OW-143 of the Townsend Saw Chain Co. Superfund Site (Site) located in Pontiac, South Carolina. A Notice of Intent for Partial Deletion for this Site was published in the **Federal Register** 84 FR 35054, on July 22, 2019.

The closing date for comments on the Notice of Intent for Partial Deletion was August 21, 2019. No public comments were received and EPA will proceed with the partial deletion.

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the

environment. Deletion of a site from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of portions of a site from the NPL does not affect responsible party liability, in the unlikely event that future conditions warrant further actions.
