On August 27, 2019, the WIA filed a Petition for Rulemaking and a Petition for Declaratory Ruling. On September 6, 2019, CTIA filed a Petition for Declaratory Ruling. The petition for rulemaking requests additional rules to implement Section 6409 of the Spectrum Act, 47 U.S.C. 1455. The petitions for declaratory ruling request that the Commission clarify its rules implementing Section 6409 and Sections 1455 and 224 of the Communications Act, 47 U.S.C. 1455. WIA's Petition for Rulemaking asks the Commission to amend our rules to reflect that collocations requiring an expansion of the current site—within 30 feet of a tower site—qualify for relief under Section 6409(a) and to require that fees associated with eligible facilities requests under Section 6409 be cost-based. WIA's Petition for Declaratory Ruling asks the Commission to clarify (1) that Section 6409(a) and our related rules apply to all state and local authorizations; (2) when the time to decide an application begins to run; (3) what constitutes a substantial change under Section 6409(a); (4) that “conditional” approvals by localities violate Section 6409(a); and (5) that localities may not establish processes or impose conditions that effectively defeat or reduce the protections afforded under Section 6409(a).

CTIA's Petition for Declaratory Ruling asks the Commission to clarify the terms “concealment element,” “equipment cabinet,” and “base station” in our rules, and clarify that when an application is “deemed granted” under Section 6409, applicants may lawfully construct even if the siting authority has not issued construction permits. With respect to Section 224, CTIA asks the Commission to: (1) Determine that the definition of the term “pole” in Section 224 includes light poles; (2) conclude that utilities may not impose blanket prohibitions on access to certain parts of the pole; and (3) clarify that utilities may not ask attachers to accept terms and conditions that are inconsistent with the Commission's rules.

Federal Communications Commission.

Amy Brett,

Associate Chief, Competition and Infrastructure Policy Division, Wireless Telecommunications Bureau.
