Amendments of Air Quality Rules

Air Plan Approval; North Carolina: Amendments of Air Quality Rules

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the North Carolina Department of Environmental Quality, Division of Air Quality (DAQ), through a letter dated March 21, 2018, readopting and amending air quality rules related to transportation conformity requirements in the state of North Carolina. EPA has determined that North Carolina’s March 21, 2018, SIP revision is consistent with the federal transportation conformity requirements and the Clean Air Act (CAA or Act).

DATES: This rule is effective October 30, 2019.

ADDITIONAL INFORMATION CONTACT: Ms. Sheidkler, Air Regulatory Management Section, Air Planning and Implementation Branch, Air and Radiation Division, Region 4, U.S. Environmental Protection Agency, 61 Forsyth Street SW, Atlanta, Georgia 30303–8960. The telephone number is (404) 562–9222. Ms. Sheidkler can also be reached via electronic mail at sheidkler.kelly@epa.gov.

EPA is approving a SIP revision submitted by DAQ, through a letter dated March 21, 2018, seeking to readopt and amend the air quality rules pertaining to transportation conformity in the North Carolina SIP. North Carolina’s SIP submission revises the following North Carolina regulations in 15A NCAC 2D Section .2000; Section .2001 Purpose, Scope and Applicability, Section .2002 Definitions, Section .2003 Transportation Conformity Determination, and Section .2005 Memorandum of Agreement. The changes submitted by North Carolina include updates to applicability and definitions, updates to references, clarifications regarding written commitments to implement control measures, and non-substantive wording, punctuation and formatting changes. EPA is approving the changes to rules .2001, .2002, .2003, and .2005 because the changes do not alter transportation conformity requirements in North Carolina for any applicable area, nor do these changes conflict with the federal requirements for transportation conformity. Thus, the changes are consistent with the federal transportation conformity requirements and the CAA.

EPA proposed approval of the North Carolina March 21, 2018, SIP revision to amend the transportation conformity related state regulations, as mentioned above, on July 8, 2019 (84 FR 32359). The details of North Carolina’s submission and the rationale for EPA’s actions are explained in the proposed rulemaking. Comments were due on August 7, 2019, and EPA did not receive any comments on the proposed action.

EPA is now taking final action to approve the above-referenced revisions.

II. Incorporation by Reference

In this document, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of the following air quality rules under Subchapter 2D of North Carolina’s SIP: Section .2001 Purpose, Scope and Applicability, Section .2002 Definitions, Section .2003 Transportation Conformity Determination, and Section .2005 Memorandum of Agreement effective January 1, 2018, which amend the State’s transportation conformity requirements. EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 4 Office (please contact the person identified in the FOR FURTHER INFORMATION CONTACT section of this preamble for more information). Therefore, these materials have been approved by EPA for inclusion in the SIP, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA’s approval, and will be incorporated by reference in the next update to the SIP compilation.

III. Final Action

EPA is taking final action to approve North Carolina’s March 21, 2018, SIP revision, which amends and readopts the following rules in Subchapter 2D, Air Pollution Control Requirements: Section .2001 Purpose, Scope and Applicability, Section .2002 Definitions, Section .2003 Transportation Conformity Determination, and Section .2005 Memorandum of Agreement. EPA is taking final action to approve these revisions into the State of North Carolina’s SIP because they are consistent with the CAA.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. See 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, if they meet the criteria of the CAA. This action merely approves state law as

1 EPA received the official electronic version of the submittal on April 4, 2018. EPA has already taken action on the other North Carolina changes submitted through the cover letter dated March 21, 2018, in a separate action. See 84 FR 14308.

2 The table at 40 CFR 52.1770(e), identifying the North Carolina regulations approved into the SIP, labels each rule as a “Sect.” (i.e., Section) under the column titled “State citation.” For consistency with the nomenclature used in the table, this notice uses the term “Section” when referring to individual North Carolina rules.

3 With respect to Section .2003, EPA notes that it is approving a cross-reference to the entirety of 40 CFR 93.104 into North Carolina’s SIP. Accordingly, EPA is removing the regulatory text in 40 CFR 52.1770(c)(1) that previously stated “Except for the incorporation by reference of 40 CFR 93.104(e) of the Transportation Conformity Rule.”

4 See 62 FR 27968 (May 22, 1997).
meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Does not contain significant regulatory actions subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not subject to Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory actions because SIP approvals are exempted under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Does not contain economically significant regulatory actions based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Does not contain significant regulatory actions subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 29, 2019. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. See section 307(b)(2).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Carbon monoxide, Sulfur dioxide, Particulate matter, Lead, Reporting and recordkeeping requirements, Volatile organic compounds.

Mary S. Walker,
Regional Administrator, Region 4.

40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 et seq.

Subpart II—North Carolina

2. In §52.1770, the table (1) in paragraph (c) is amended under “Subchapter 2D Air Pollution Control Requirements”, “Section .2000 Transportation Conformity” by revising the entries for “Section .2001”, “Section .2002”, “Section .2003”, and “Section .2005” to read as follows.

§52.1770 Identification of plan.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52 and 70

Approval of Air Quality Improvement Plan, Operating Permits Program, and 112(l) Plan; Missouri; Operating Permits

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve revisions to the State Implementation Plan (SIP), the Operating Permit Program (OPP), and the 112(l) plan submitted on March 7, 2019, by the State of Missouri. The submission revises Missouri’s regulations relating to the requirement for sources of air contaminants to obtain operating permits and to establish procedures for sources of air contaminants to obtain and comply with operating permits. These revisions are primarily administrative in nature and do not impact the stringency of the SIP, the OPP, or the 112(l) plan. Specifically, the revisions correct references, change the term “regulated air pollutant” to “regulated pollutant”, removes unnecessary words, and add definitions. Approval of these revisions will not impact air quality and ensures Federal enforceability of the State’s rules.

DATES: This final rule is effective on October 30, 2019.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R07–OAR–2019–0325. All documents in the docket are listed on the https://www.regulations.gov website. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through https://www.regulations.gov or please contact the person identified in the FOR FURTHER INFORMATION CONTACT section for additional information.

FOR FURTHER INFORMATION CONTACT: Deborah Bredeoht, Environmental Protection Agency, Region 7 Office, Air Quality Planning Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219; telephone number (913) 551–7164; email address bredeoht.deborah@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document “ we,” “us,” and “our” refer to the EPA.

Table of Contents
I. Background
II. What is being addressed in this document?
III. Have the requirements for approval of a SIP revision and Operating Permits Program been met?
IV. What action is the EPA taking?
V. Incorporation by Reference
VI. Statutory and Executive Order Reviews

I. Background

On June 26, 2019, the EPA proposed to approve revisions to the Missouri SIP and Operating Permits Program and 112(l) plan in the Federal Register. See 84 FR 30068. The proposed revisions correct references, change the term “regulated air pollutant” to “regulated air pollutant”, removes unnecessary words, and add definitions. The EPA solicited comments on the proposed revisions to Missouri’s SIP and Operating Permits Program, and 112(l) plan, and received no comments.

II. What is being addressed in this document?

The EPA is approving a revision to Missouri’s SIP by approving the State’s request to revise 10 CSR 10–6.065, Operating Permits received March 7, 2019. Missouri revised 10 CSR 10–6.065 to correct references and add definitions.

A detailed discussion of the revision to Missouri’s SIP and Operating Permits Program was provided in the EPA’s June 26, 2019, Federal Register document. See 84 FR 30068.

III. Have the requirements for approval of a SIP revision and Operating Permits Program been met?

The State submission has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The State provided public notice on this SIP revision from August 24, 2018, to October 4, 2018, and received seven total comments with three of those from the EPA. The State adequately addressed the public comments.

IV. What action is the EPA taking?

We are taking final action to approve the revisions to Missouri’s SIP and Operating Permits Program by approving the State’s request to amend 10 CSR 10–6.065, “Operating Permits.”

V. Incorporation by Reference

In this document, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Missouri Regulations described in the amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 7 Office (please contact the person identified in the FOR FURTHER INFORMATION CONTACT section of this preamble for more information).

Therefore, these materials have been approved by the EPA for inclusion in the State implementation plan, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of the EPA’s approval, and will be incorporated by reference in the next update to the SIP compilation.¹

VI. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

• Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011):
  • Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866.
  • Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
  • Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);

¹ 62 FR 27968 (May 22, 1997).
