

## II. Final Decision and Order

OSHA staff examined UL's expansion application and examined other pertinent information. Based on a

review of this evidence, OSHA finds that UL meets the requirements of 29 CFR 1910.7 for expansion of recognition, subject to the limitation and conditions listed below.

OSHA, therefore, is proceeding with this final notice to grant expansion of UL's scope of recognition.

TABLE 1—LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN UL'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 60079-2 .....	Standard for Explosive Atmospheres—Part 2: Equipment Protection by Pressurized Enclosure "p".
UL 60079-25 .....	Explosive Atmospheres—Part 25: Intrinsically Safe Electrical Systems.
UL 60079-31 .....	Explosive Atmospheres—Part 31: Equipment Dust Ignition Protection by Enclosure "t".

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, the use of the designation of the standards-developing organization for the standard as opposed to the ANSI designation may occur. Under the NRTL Program's policy (see OSHA Instruction CPL 1-0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

### A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, UL must abide by the following conditions of the recognition:

1. UL must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as an NRTL, and provide details of the change(s);
2. UL must meet all the terms of its recognition and comply with all OSHA policies pertaining to this recognition; and
3. UL must continue to meet the requirements for recognition, including all previously published conditions on UL's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of UL, subject to the limitation and conditions specified above.

## III. Authority and Signature

Loren Sweatt, Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1-2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on September 25, 2019.

OSHA's website includes information about the NRTL Program (see <http://www.osha.gov/dts/otpc/nrtl/index.html>).

## SUPPLEMENTARY INFORMATION:

### I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of TUV Rheinland of North America, Inc. (TUVRNA) as a NRTL. TUVRNA's expansion covers the addition of three recognized testing standards to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition, and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification.

The agency processes applications by a NRTL for initial recognition, or for expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides the preliminary finding and, in the second notice, the agency provides the final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL that details the scope of recognition. These pages are available from the agency's website at <http://www.osha-slc.gov>.

[www.osha.gov/dts/otpc/nrtl/index.html](http://www.osha.gov/dts/otpc/nrtl/index.html).

TUVRNA submitted an application, dated August 7, 2018 (OSHA–2007–0042–0033), to expand recognition to include the addition of three test standards to the scope of recognition. OSHA staff performed a detailed analysis of the application and other pertinent information but did not perform any onsite reviews in relation to this application.

OSHA published the preliminary notice announcing TUVRNA's expansion application in the **Federal Register** on June 5, 2019 (84 FR 26157). The agency requested comments by June 20, 2019, and the agency received one comment (OSHA–2007–0042–0036) in

support of the application, but the comment did not require a response from the agency. OSHA now is proceeding with this final notice to grant expansion of TUVRNA's scope of recognition.

To obtain or review copies of all public documents pertaining to TUVRNA's application, go to [www.regulations.gov](http://www.regulations.gov) or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW, Room N–3655, Washington, DC 20210; telephone: (202) 698–2350. Docket No. OSHA–2007–0042 contains all materials in the record concerning TUVRNA's recognition.

## II. Final Decision and Order

OSHA staff examined TUVRNA's expansion application and examined other pertinent information. Based on a review of this evidence, OSHA finds that TUVRNA meets the requirements of 29 CFR 1910.7 for expansion of recognition, subject to the limitation and conditions listed below.

OSHA, therefore, is proceeding with this final notice to grant expansion of TUVRNA's scope of recognition.

OSHA limits the expansion of TUVRNA's scope of recognition to testing and certification of products for demonstration of conformance to the test standards listed in Table 1.

TABLE 1 LIST OF APPROPRIATE TEST STANDARDS FOR INCLUSION IN TUVRNA'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 61010–2–010	Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use—Part 2–010: Particular Requirements for Laboratory Equipment for the Heating of Materials.
UL 61010–2–020	Standard for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use—Part 2–020: Particular Requirements for Laboratory Centrifuges.
UL 61010–2–101	Safety Requirement for Electrical Equipment for Measurement, Control and Laboratory Use—Part 2–101: Particular Requirements for In Vitro Diagnostic (IVD) Medical Equipment.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, the use of the designation of the standards-developing organization for the standard as opposed to the ANSI designation may occur. Under the NRTL Program's policy (see OSHA Instruction CPL 1–0.3, Appendix C, paragraph XIV), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

### A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, TUVRNA must abide by the following conditions of the recognition:

1. TUVRNA must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key

personnel, and of any major change in its operations as an NRTL, and provide details of the change(s);

2. TUVRNA must meet all the terms of the recognition and comply with all OSHA policies pertaining to this recognition; and

3. TUVRNA must continue to meet the requirements for recognition, including all previously published conditions on TUVRNA's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of TUVRNA, subject to the limitation and conditions specified above.

## III. Authority and Signature

Loren Sweatt, Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 1–2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.

Signed at Washington, DC, on September 25, 2019.
