[Docket No. 190312234–9412–01]

RIN 0648–XX012

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfers From NC to VA and ME to CT

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the States of North Carolina and Maine are transferring a portion of their respective 2019 commercial summer flounder quotas to the Commonwealth of Virginia and the State of Connecticut. These quota adjustments are necessary to comply with the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan quota transfer provisions. This announcement informs the public of the revised commercial quotas for North Carolina, Virginia, Maine, and Connecticut.

DATES: Effective September 30, 2019, through December 31, 2019.

FOR FURTHER INFORMATION CONTACT: Laura Hansen, Fishery Management Specialist, (978) 281–9225.

SUPPLEMENTARY INFORMATION: Regulations governing the summer flounder fishery are found in 50 CFR 648.100 through 648.110. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through North Carolina. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.102, and the revised 2019 allocations were published on May 17, 2019 (84 FR 22392).

The final rule implementing Amendment 5 to the Summer Flounder Fishery Management Plan, as published in the **Federal Register** on December 17, 1993 (58 FR 65936), provided a mechanism for transferring summer flounder commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider the criteria in § 648.102(c)(2)(i)(A) through (C) in the

evaluation of requests for quota transfers or combinations.

North Carolina is transferring 12,500 lb (5,667 kg) of summer flounder commercial quota to Virginia through mutual agreement of the states. This transfer was requested to repay landings made by North Carolina-permitted vessels in Virginia under a safe harbor agreement. Maine is transferring 5,224 lb (2,369 kg) of summer flounder, its full 2019 allocation, to Connecticut through mutual agreements of the states. The revised summer flounder quotas for fishing year 2019 are now: North Carolina, 2,957,742 lb (1,341,609 kg); Virginia, 2,390,710 lb (1,084,407 kg); Maine, 0 lb (0 kg); and Connecticut, 253,119 lb (114,813 kg).

Classification

This action is taken under 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 26, 2019.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Bering Sea Subarea of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; modification of a closure.

SUMMARY: NMFS is opening directed fishing for Pacific ocean perch in the Bering Sea subarea of the Bering Sea and Aleutian Islands management area. This action is necessary to fully use the 2019 total allowable catch of Pacific ocean perch specified for the Bering Sea subarea of the Bering Sea and Aleutian Islands management area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), October 1, 2019, through 2400 hrs, A.l.t., December 31, 2019. Comments must be received at the

following address no later than 4:30 p.m., A.l.t., October 16, 2019.

ADDRESSES: Submit your comments, identified by NOAA–NMFS–2018–0089, by either of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#/docketDetail;D=NOAA-NMFS-2018-0089, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Records Office. Mail comments to P.O. Box 21668, Juneau, AK 99802–1668.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the Bering Sea and Aleutian Islands management area (BSAI) exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands management area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

NMFS closed directed fishing for Pacific ocean perch (POP) in the Bering Sea subarea of the BSAI under § 679.20(d)(1)(iii) (84 FR 9000, March 13, 2019).

NMFS has determined that approximately 6,000 metric tons of POP remain in the directed fishing allowance. Therefore, in accordance with § 679.25(a)(1)(i), (a)(2)(i)(C), and (a)(2)(iii)(D), and to fully utilize the 2019 total allowable catch of POP in the Bering Sea subarea of the BSAI, NMFS is terminating the previous closure and
