C. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

II. Background

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew

exemptions at the end of the 5-year period. FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver's medical certification.

The four individuals listed in this notice have requested an exemption from 49 CFR 391.41(b)(4). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

The physical qualification standard found in § 391.41(b)(4) states that a person is physically qualified to drive a CMV if that person has no current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, or congestive cardiac failure.

In addition to the regulations, FMCSA has published advisory criteria¹ to assist medical examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce. The advisory criteria states that ICDs are disqualifying due to risk of syncope.

III. Qualifications of Applicants

Christopher Cloud

Mr. Cloud is a CMV driver in Georgia. An April 2019, letter from his cardiologist states that Mr. Cloud's ICD was implanted in May of 2016, has not deployed, he denies any symptoms associated with the device, and that his ejection fraction has now improved with low risk of cardiovascular complications.

Joby Doucet

Mr. Doucet is a Class A CDL holder in Louisiana. A May 15, 2019, letter from his cardiologist states that Mr. Doucet's ICD was implanted in September of 2017, he is on good medical therapy, and there has been no defibrillator discharges. Mr. Doucet's cardiologist reports that he is in a stable cardiovascular status and will have follow-up in 6 months.

Robert D. Forbes

Mr. Forbes is a Class A CDL holder in New York State. A March 2019, letter from Mr. Forbes' cardiologist states that

¹ These criteria may be found in 49 CFR part 391, APPENDIX A TO PART 391—MEDICAL ADVISORY CRITERIA, section D. *Cardiovascular: § 391.41(b)(4)*, paragraph 4, which is available on the internet at <https://www.gpo.gov/fdsys/pkg/CFR-2015-title49-vol15/pdf/CFR-2015-title49-vol15-part391-appA.pdf>.

his ICD was implanted in September of 2015, has never deployed, and that he has an improved ejection fraction.

Christopher Oakland

Mr. Oakland is a Class A CDL holder in Rhode Island. Two separate letters both dated June of 2019, from two of Mr. Oakland's cardiologists state that his ICD was implanted in August of 2018, and has never delivered therapy. His cardiologists' letters report that Mr. Oakland is stable and has not experienced symptoms as a result of his cardiac condition.

IV. Request for Comments

SUPPLEMENTARY INFORMATION:

Background: The Secretary of Transportation is responsible for implementing regulations which establish minimal levels of financial responsibility for: (1) For-hire motor carriers of property to cover public liability, property damage and environmental restoration, and (2) for-hire motor carriers of passengers to cover public liability and property damage. The Endorsement for Motor Carrier Policies of Insurance for Public Liability (Forms MCS–90/90B) and the Motor Carrier Public Liability Surety Bond (Forms MCS–82/82B) contain the minimum amount of information necessary to document that a motor carrier of property or passengers has obtained, and has in effect, the minimum levels of financial responsibility as set forth in applicable regulations (motor carriers of property—49 CFR 387.9; and motor carriers of passengers—49 CFR 387.33). FMCSA and the public can verify that a motor carrier of property or passengers has obtained, and has in effect, the required minimum levels of financial responsibility, by use of the information enclosed within these documents.

Title: Financial Responsibility for Motor Carrier of Passengers and Motor Carriers of Property.

OMB Control Number: 2126–0008.

Type of Request: Renewal of a currently-approved information collection.

Respondents: Insurance underwriters for insurance and surety companies of motor carriers of property (Forms MCS–90 and MCS–82) and passengers (Forms MCS–90B and MCS–82B), motor carrier clerks employed by motor carriers (storing/maintaining insurance and/or surety bond documentation), and vehicle maintenance staff employed by Canadian and Mexican/non-North-American (NNA) domiciled motor carriers (placing copies of documentation in vehicles).

Estimated Number of Respondents: 202,458.

Estimated Time per Response: FMCSA estimates it takes 2 minutes to complete the Endorsement for Motor Carrier Policies of Insurances for Public Liability (Forms MCS–90 for property carriers and MCS–90B for passenger carriers) or the Motor Carrier Public Liability Surety Bond (Forms MCS–82 for property carriers and MCS–82B for passenger carriers); 1 minute to store/maintain documents at the motor carrier’s place of business [49 CFR

387.7(d); 49 CFR 387.31(d)]; and 1 minute to place either document on board the vehicle, required for Canadian and Mexican/NNA carriers operating in the United States [49 CFR 387.7(f); 387.31(f)].

Expiration Date: January 31, 2020.

Frequency of Response: Upon creation, change, or replacement of an insurance policy or surety bond.

Estimated Total Annual Burden: 5,739 hours [4,931 annual burden hours for ICs 1–4 + 808 annual burden hours for IC–5 document placement in vehicles = 5,739].

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the performance of FMCSA’s functions; (2) the accuracy of the estimated burden; (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.
