RIN 9000-AN65

Federal Acquisition Regulation: Increased Micro-Purchase and Simplified Acquisition Thresholds; 2018-004

AGENCY: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Proposed rule.

SUMMARY: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to implement a section of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2017 and several sections of the NDAA for FY 2018 that increase the micro-purchase threshold (MPT), increase the simplified acquisition threshold (SAT), and clarify certain procurement terms, as well as align some non-statutory thresholds with the MPT and SAT.

DATES: Interested parties should submit comments to the Regulatory Secretariat Division at one of the addresses shown below on or before December 2, 2019 to be considered in the formulation of a final rule.

ADDRESSES: Submit comments in response to FAR Case 2018-004 by any of the following methods:

- *Regulations.gov:* <http://www.regulations.gov>. Submit comments via the Federal eRulemaking portal by searching for "FAR Case 2018-004". Select the link "Comment Now" that corresponds with "FAR Case 2018-004." Follow the instructions provided on the screen. Please include your name, company name (if any), and "FAR Case 2018-004" on your attached document.

- *Mail:* General Services Administration, Regulatory Secretariat

Division (MVCB), ATTN: Lois Mandell, 1800 F Street NW, 2nd floor, Washington, DC 20405.

Instructions: Please submit comments only and cite "FAR case 2018-004" in all correspondence related to this case. All comments received will be posted without change to <http://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check <http://www.regulations.gov>, approximately two to three days after submission to verify posting (except allow 30 days for posting of comments submitted by mail).

SUPPLEMENTARY INFORMATION:

I. Background

DoD, GSA, and NASA are proposing to amend the FAR to implement section 217(b) of the NDAA for FY 2017 (Pub. L. 114-328) and sections 805, 806, and 1702(a) of the NDAA for FY 2018 (Pub. L. 115-91). The proposed rule will also replace non-statutory, stated dollar thresholds that are intended to correspond with the MPT and SAT, with the text "micro-purchase threshold" and "simplified acquisition threshold." Referencing some stated thresholds by name instead of by a specific dollar value will ease maintenance of regulations, given the likelihood of future changes to the threshold amounts. Text clarifying the use of the approval thresholds, based on the increase of the SAT, for sole source justifications executed under the simplified procedures for certain commercial items has been added to subpart 13.5.

Section 217(b) amends 41 U.S.C. 1902 to increase the MPT for acquisitions from institutions of higher education or related or affiliated nonprofit entities, or from nonprofit research organizations or independent research institutes, from \$3,500 to \$10,000, or a higher amount as determined appropriate by the head of the agency and consistent with clean audit findings under 31 U.S.C. Chapter 75, an internal institutional risk assessment, or State law.

Section 806 increases the MPT in 41 U.S.C. 1902(a) to \$10,000.

Section 805 increases the SAT to \$250,000.

Section 1702(a) amends section 15(j)(1) of the Small Business Act (15 U.S.C. 644(j)(1)) to replace specific dollar thresholds with the terms “micro-purchase threshold” and “simplified acquisition threshold.”

II. Discussion and Analysis

This rule proposes to amend the FAR, as follows:

- At FAR Part 2, to—
 - Replace “\$3,500” with “\$10,000” and add an exception to the MPT for acquisitions from institutions of higher education or related or affiliated nonprofit entities, nonprofit research organizations, or independent research institutes, at the definition of “micro-purchase threshold” and,
 - Replace “\$150,000” with “\$250,000” at the definition of “simplified acquisition threshold.”
- At FAR Part 3, to replace “simplified acquisition threshold” with “\$150,000” at 3.502–3 to conform to 3.502–2(i).
- At FAR part 9, to replace “\$3,500” with “\$10,000” as the Federal tax delinquency threshold, at 9.406–2(b)(1)(v) replaces “\$3,500” with “the threshold at FAR 9.104–5(a)(2)” and at 9.407–2(a)(7) replaces “\$3,500” with “the threshold at FAR 9.104–5(a)(2)”. When an offeror indicates in its representations and certifications a delinquency in excess of the threshold, a contracting officer must report that information to the agency’s suspending or debarring official, and, a suspending or debarring official may suspend or debar a contractor for delinquent Federal taxes in excess of the threshold.
- At FAR part 13, to replace “\$3,500” with “the micro-purchase threshold” and “\$150,000” with “the simplified acquisition threshold” when addressing the thresholds for acquisitions that are reserved exclusively for small business concerns;
 - At FAR 13.005, List of laws inapplicable to contracts and subcontracts at or below the simplified acquisition threshold, there is an impact of this increase in the SAT. This list was first required by section 4101 of FASA (Pub. L. 103–355), now codified at 41 U.S.C. 1906. FASA sections 4102–4104 made certain laws inapplicable below the SAT, and made other laws inapplicable below \$100,000. At the time, these two thresholds were of equivalent value, so there was no problem with listing all of them at FAR 13.005. Intervening escalation raised all of these thresholds to \$150,000. However, now that the SAT has been increased to \$250,000, those thresholds that were set at a dollar value rather than at the SAT, are not increasing to

\$250,000. Therefore, the following laws should be removed from the list at FAR 13.005: 13.005(a)(1), (a)(2), (a)(3), and (a)(5);

- At FAR 13.501(a)(2) to clarify the procedures to be used for justifications of other than full and open competition, when the simplified acquisition threshold is raised, *e.g.*, for contingency operations.

- At FAR part 16, to replace “\$150,000” with “the simplified acquisition threshold” when addressing the maximum threshold for fixed-ceiling-price contracts with retroactive price redetermination and the maximum threshold for firm-fixed-price, level-of-effort term contracts, without higher level approval.

- At FAR part 19, to replace “\$3,500” with “the micro-purchase threshold” and/or “\$150,000” with “the simplified acquisition threshold” when addressing set-aside requirements, and inserting the clause for FAR 52.219–14, Limitations on Subcontracting.

- At FAR part 22, specifically, 22.1803, replace “the simplified acquisition threshold” with “\$150,000.”

- At FAR part 25, to replace “\$3,500” with “10,000” as the “significant transaction” amount an offeror may not exceed when engaging with Iran’s Revolutionary Guard Corps or any of its officials, agents, or affiliates.

- At FAR part 52, to—
 - Replace “\$3,500” with “the threshold at 9.104–5(a)(2)” at FAR 52.209–5(a)(1)(i)(D) and FAR 52.212–3(h)(4);

- Replace “\$150,000” with the “simplified acquisition threshold” as the subcontractor flow-down threshold for FAR 52.203–16, Preventing Personal Conflicts of Interest;

- Replace “\$3,500” with “the micro-purchase threshold” as the threshold an offer must exceed, unless otherwise required, for the offeror to be required to provide its unique entity identifier, as stated in paragraph (j) of FAR provision 52.212–1, Instruction to Offerors—Commercial Items;

- Replace the threshold an offeror must certify, in paragraph (o)(2)(iii) of FAR 52.212–3, and FAR 52.225–25, Prohibition on Contracting with Entities Engaging in Certain Activities or Transactions Relating to Iran—Representation and Certifications, it has not exceeded when engaging with Iran’s Revolutionary Guard Corps or any of its officials, agents, or affiliates. The clause title of FAR 52.225–25 is also corrected. The threshold will be that at FAR 25.703–2(a)(2);

- Replace “\$150,000” with “the simplified acquisition threshold” as the threshold a subcontract award must

exceed in order for a contractor to be required to keep records on the corresponding subcontract solicitation, as identified in FAR clause 52.219–9, Small Business Subcontracting Plan and its Alternate IV.

III. Expected Impact of the Proposed Rule and Proposed Cost Savings

This rule impacts any business, large or small, that prepares quotes exceeding \$3,500 (\$5,000 for DoD) and not exceeding \$10,000 (or higher for select educational institutions); proposals exceeding \$150,000 and not exceeding \$250,000; and proposals exceeding \$300,000 and not exceeding \$500,000, in support of humanitarian or peacekeeping operations. This rule does not add any new solicitation provisions or contract clauses. Rather, it reduces burden on contractors by increasing the thresholds at which various regulatory burdens apply.

Increasing the MPT and SAT means additional awards could be made under the MPT and additional awards could be made under the SAT. The additional awards at or below the MPT would not require provisions or clauses, except as provided in FAR 13.202 and FAR 32.1110, and the additional awards at or below the SAT would be awarded without provisions and clauses which are prescribed only above the SAT. In addition to including fewer regulations in applicable awards, the proposed rule would allow for more awards based on quotes in lieu of a formal proposal, thereby reducing the contractor’s bid and proposal costs. Costs associated with contractor financing could also be reduced by increasing the number of micro-purchases, for which the Governmentwide purchase card is the preferred method of purchase and payment (see FAR 13.201(b)).

To determine the dollar amounts and entities affected, data was pulled from the Federal Procurement Data System (FPDS) from fiscal years 2015–2018. For the micro-purchase value change, there was an annual average in total impacted contract awards of \$2,442,317 for small businesses and \$1,359,916 for other than small businesses for contracts with values exceeding \$3,500 (\$5,000 for DOD), but less than or equal to \$10,000 (or higher, for educational institutions). For the simplified acquisition threshold change, there was an annual average in total impacted contract awards of \$300,073,039 for small businesses and \$161,715,144 for other than small businesses for contracts with values exceeding \$150,000, but less than or equal to \$250,000 (from \$300,000 to \$500,000 for contingency, humanitarian, or peacekeeping awards).

Commercial item awards, as well as orders placed through indefinite-quantity contract orders and other large contracting schedule orders, were removed from this calculation to determine the cost reduction on offerors and contractors. Commercial items were removed from this calculation because the simplified threshold for commercial item awards is set at \$7 million, so the increased SAT threshold would not impact compliance or business procedures for contractors with awards conducted through commercial item procedures.

To calculate the burden reduction on Government by raising these thresholds,

indefinite-quantity contracts were included, as the threshold changes would impact Government acquisition procedures.

The Federal Acquisition Streamlining Act (FASA) made a number of laws inapplicable to items procured under the SAT. This was meant to save both the Government and service providers money while also expediting the entire contract process. When finalized, this rule will decrease the number of regulatory requirements agencies need to include in awards.

Because this rule will reduce bid and proposal costs and other administrative burdens and since it does not implement any new requirements on

offerors, DoD, GSA, and NASA believe this rule to be deregulatory.

Please see the Regulatory Cost Analysis narrative for an in-depth discussion of data used to calculate the estimated reduced burden on contractors and the Government. To access the full Regulatory Cost Analysis for this rule, go to the Federal eRulemaking Portal at www.regulations.gov, search for “FAR Case 2018–004,” click “Open Docket,” and view “Supporting Documents.” The following is a summary of the estimated public and Government cost savings calculated in perpetuity in 2016 dollars at a 7-percent discount rate:

Summary	Public	Government	Total
Present Value Costs	–\$662,413,271	–\$2,216,678,757	–\$2,879,092,029
Annualized Costs	–\$46,368,929	–\$155,167,513	–\$201,536,442
Annualized Value Costs (as of 2016 if Year 1 is 2019)	–\$37,850,858	–\$126,662,911	–\$164,513,770

In an attempt to quantify savings as a result of this rule, DoD, GSA, and NASA seek input from contractors that could be impacted by this rule. In addition to the Government cost savings discussed in the accompanying materials in the docket at www.regulations.gov, DoD, GSA, and NASA welcome feedback on contract proposals and contract quotes (but not quotes for a task order or delivery order) on—

1. The total bid and proposal (B&P) cost and the total number of proposals in Fiscal Year (FY) 2018 for proposals greater than \$150,000 and less than or equal to \$250,000, including the hours expended in the preparation of the proposals and personnel involved. If available, the total cost related to compliance for awards greater than \$150,000 and less than or equal to \$250,000 that could be eliminated by using simplified acquisition procedures.

2. The total B&P cost and the total number of quotes in FY 2018 for quotes less than or equal to \$150,000, including the hours expended in the preparation of the quotes and personnel involved.

3. The total B&P cost and the total number of quotes in FY18 for quotes greater than \$3,500 and less than or equal to \$10,000, including the hours expended in the preparation of the quotes and personnel involved. If available, the total cost related to compliance for awards greater than \$3,500 and less than or equal to \$10,000 that could be eliminated by conducting a micro-purchase.

4. The total B&P cost and the total number of quotes in FY18 for quotes less than or equal to \$3,500, including

the hours expended in the preparation of the quotes and personnel involved.

IV. Applicability to Contracts at or Below the Simplified Acquisition Threshold and for Commercial Items, Including Commercially Available Off-the-Shelf (COTS) Items

The rule applies to contracts at or below the simplified acquisition threshold, and to contracts for commercial items, including COTS items. However, it does not add any new solicitation provisions or contract clauses, and it reduces burden on contractors by increasing the thresholds at which various regulatory burdens apply.

V. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is an economically significant regulatory action and, therefore, was subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is a major rule under 5 U.S.C. 804.

VI. Congressional Review Act

This proposed rule is subject to the Congressional Review Act provisions of the Small Business Regulatory Enforcement Fairness Act of 1996 (5 U.S.C. 801 *et seq.*) and will, if finalized, be transmitted to the Congress and to the Comptroller General for review in accordance with such provisions.

VII. Executive Order 13771

This rule is subject to E.O. 13771 because this rule is an economically significant regulatory action under E.O. 12866. As explained in section III of this preamble and in the accompanying documentation available in the docket at www.regulations.gov, DoD, GSA, and NASA believe the rule is deregulatory and seek public input on this preliminary determination as well as information that can better quantify savings.

VIII. Regulatory Flexibility Act

DoD, GSA, and NASA expect this rule to have a positive significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* An Initial Regulatory Flexibility Analysis (IRFA) has been performed and is summarized as follows:

DoD, GSA, and NASA are proposing to amend the FAR to implement a section of the NDAA for Fiscal Year (FY) 2017 and several sections of the NDAA for FY 2018 that increase the MPT, increase the SAT, clarify certain procurement terms, as well as align non-statutory thresholds with the MPT and SAT.

The objective of the rule is to implement section 217(b) of the NDAA for FY 2017 (Pub. L. 114–328) and sections 805, 806, and

1702(a) of the NDAA for FY 2018 (Pub. L. 115–91), as well as align non-statutory, stated dollar thresholds that are intended to correspond with the MPT and SAT, with word-based thresholds to ensure continued alignment with the current increase to these thresholds and any future change to the threshold amounts. DoD, GSA, and NASA expect this rule to have a positive significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*

According to data from the Federal Procurement Data System (FPDS), there were 505 contracts awarded in FY 2018 with a value exceeding \$3,500 (\$5,000 for DOD), but less than or equal to \$10,000 wherein contractors would have a change in compliance requirements. Of the 505 new awards, 358 (71 percent) of these actions were awarded to 198 unique small business entities.

Data from FPDS also indicates that in FY 2018, there were no (0) small business entities that had additional contract actions for educational or related institutions for contracts with a value exceeding \$10,000, but less than or equal to \$15,000 (equivalent to the upper bound of the expected micro-purchase value for these types of institutions) wherein contractors would have a change in compliance requirements.

Data from FPDS also indicates there were 3,653 new contracts awarded in FY 2018 with a value exceeding \$150,000, but less than or equal to \$250,000 wherein contractors would have a change in compliance requirements. Of these, 2,621 (72 percent) of these actions were awarded to 1,680 unique small business entities.

As mentioned previously, commercial items were removed from this calculation because the simplified threshold for commercial item awards is set at \$7 million, so the increased SAT threshold would not impact compliance or business procedures for contractors with awards conducted through commercial item procedures.

Data from the FPDS further indicates that for contingency, humanitarian, or peacekeeping contract actions, there were 11 new total contracts awarded in FY 2018 with a value exceeding \$300,000 but less than or equal to \$500,000 wherein contractors would have a change in compliance requirements. Of these, 4 (36 percent) of these actions were awarded to 4 unique small business entities.

This rule will also change the small-business set aside threshold under FAR 19.502; instead of being from greater than \$3,500 to less than or equal to \$150,000, the threshold will be from greater than \$10,000 to less than or equal to \$250,000. This is expected to increase the number of small business entities able to do business with the Government; for contracts affected by this threshold change, (please see full regulatory cost analysis for explanation of excepted contract types), in FY 2018, there were 3,653 records exceeding \$150,000 and less than or equal to \$250,000, while there were 505 records exceeding \$3,500 (\$5,000 for DOD) and less than or equal to \$10,000.

As of September 30, 2017, there were 637,791 active entity registrations in SAM. Of

those active entity registrations, 452,310 (71 percent) completed all four modules of the registration, in accordance with the definition “Registered in the System for Award Management (SAM)” at FAR 52.204–7(a), including Assertions (where they enter their size metrics and select their NAICS Codes) and Reps & Certs (where they certify to the information they provided and the size indicator by NAICS).

Of the possible 452,310 active SAM entity registrations, 338,207 (75 percent) certified to meeting the size standard of small for their primary NAICS Code. Therefore, this rule may be beneficial to 338,207 small business entities that submit solicitation responses that may now fall under the MPT or SAT and have streamlined procedures as a result of this rule.

The proposed rule applies to all entities who do business with the Federal Government.

This proposed rule does not include any new reporting, recordkeeping, or other compliance requirements. The rule reduces burden on contractors by increasing the thresholds at which various regulatory burdens begin to apply. The proposed rule does not duplicate, overlap, or conflict with any other Federal rules. There are no known significant alternative approaches to the proposed rule that would meet the requirements of the applicable requirement.

The Regulatory Secretariat Division has submitted a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat Division. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR Case 2018–004), in correspondence.

IX. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

Federal Acquisition Regulation: Lowest Price Technically Acceptable Source Selection Process

AGENCY: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Proposed rule.

SUMMARY: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to implement a section of the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which

specifies the criteria that must be met in order to include lowest price technically acceptable (LPTA) source selection criteria in a solicitation; and requires procurements predominantly for the acquisition of certain services and supplies to avoid the use of LPTA source selection criteria, to the maximum extent practicable.

DATES: Interested parties should submit written comments to the Regulatory Secretariat Division at one of the addresses shown below on or before December 2, 2019 to be considered in the formation of the final rule.

ADDRESSES: Submit comments in response to FAR Case 2018–016 by any of the following methods:

SUPPLEMENTARY INFORMATION:

I. Background

Section 880 of the John S. McCain National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2019 (Pub. L. 115–232, 41 U.S.C. 3701 Note) makes it the policy of the Government to avoid using Lowest Price Technically Acceptable (LPTA) source selection criteria in circumstances that would
