SUPPLEMENTARY INFORMATION:

I. Background

DoD, GSA, and NASA are proposing to amend the FAR to implement section 217(b) of the NDAA for FY 2017 (Pub. L. 114–326) and sections 805, 806, and 1702(a) of the NDAA for FY 2018 (Pub. L. 115–91). The proposed rule will also replace non-statutory, stated dollar thresholds that are intended to correspond with the MPT and SAT, with the text “micro-purchase threshold” and “simplified acquisition threshold.” Referencing some stated thresholds by name instead of by a specific dollar value will ease maintenance of regulations, given the likelihood of future changes to the threshold amounts. Text clarifying the use of the approval thresholds, based on the increase of the SAT, for sole source justifications executed under the simplified procedures for certain commercial items has been added to subpart 13.5.

Section 217(b) amends 41 U.S.C. 1902 to increase the MPT for acquisitions from institutions of higher education or related or affiliated nonprofit entities, or from nonprofit research organizations or independent research institutes, from $3,500 to $10,000, or a higher amount as determined appropriate by the head of the agency and consistent with clean audit findings under 31 U.S.C. Chapter 75, an internal institutional risk assessment, or State law.

Section 806 increases the MPT in 41 U.S.C. 1902(a) to $10,000.

Section 805 increases the SAT to $250,000.
