DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

**[FWS-HQ-FAC-2019-N100;
FXFR131109WFHS0-190-FF09F12000; OMB
Control Number 1018-0078]**

Agency Information Collection Activities; Injurious Wildlife; Importation Certification for Live Fish and Fish Eggs

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Fish and Wildlife Service (Service, we), are proposing to renew information collection.

DATES: Interested persons are invited to submit comments on or before December 2, 2019.

ADDRESSES: Send your comments on the information collection request (ICR) by mail to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS: PRB/PERMA (JAO/1N), 5275 Leesburg Pike, Falls Church, VA 22041-3803 (mail); or by email to *Info_Coll@fws.gov*. Please reference OMB Control Number 1018-

0078 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Madonna L. Baicum, Service Information Collection Clearance Officer, by email at *Info_Coll@fws.gov*, or by telephone at (703) 358-2503.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed information collection request (ICR) that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the Service; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Service enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Service minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request

to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Lacey Act (Act, 18 U.S.C. 42) prohibits the importation of any animal deemed to be and prescribed by regulation to be injurious to:

- Human beings;
- The interests of agriculture, horticulture, and forestry; or
- Wildlife or the wildlife resources of the United States.

The Department of the Interior is charged with implementation and enforcement of this Act. The 50 CFR 16.13 regulations allow for the importation of dead uneviscerated salmonids (family Salmonidae), live salmonids, live fertilized eggs, or gametes of salmonid fish into the United States. To effectively carry out our responsibilities and protect the aquatic resources of the United States, it is necessary to collect information regarding the source, destination, and health status of salmonid fish and their reproductive parts. In order to evaluate import requests that contain this data, it is imperative that the information collected is accurate. Those individuals who provide the fish health data and sign the health certificate must demonstrate professional qualifications, and be approved as Title 50 Certifiers by

the Fish and Wildlife Service through an application process.

We use three forms to collect this Title 50 Certifier application information:

(1) FWS Form 3-2273 (Title 50 Certifying Official Form). New applicants and those seeking recertification as a title 50 certifying official provide information so that we can assess their qualifications.

(2) FWS Form 3-2274 (U.S. Title 50 Certification Form). Certifying officials use this form to affirm the health status of the fish or fish reproductive products to be imported.

(3) FWS Form 3-2275 (Title 50 Importation Request Form). We use the information on this form to ensure the safety of the shipment and to track and control importations.

Title of Collection: Injurious Wildlife; Importation Certification for Live Fish and Fish Eggs (50 CFR 16.13).

OMB Control Number: 1018-0078.

Form Numbers: FWS Forms 3-2273, 3-2274, and 3-2275.p.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Aquatic animal health professionals seeking to be certified title 50 inspectors; certified title 50 inspectors who have performed health certifications on live salmonids; and any entity wishing to import live salmonids or salmonid reproductive products into the United States.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour Burden Cost: None.

While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Federal investments in ecosystem restoration restore injured natural resources and improve the health and resiliency of terrestrial, freshwater, and marine ecosystems. These investments also generate business activity and create jobs. The Economic Impacts of Ecosystem Restoration project aims to increase the availability of information on the costs and activities associated with ecosystem restoration and to gauge the economic effects of these investments to local economies. Researchers with the U.S. Geological Survey (USGS) and the DOI Office of Policy Analysis are conducting this information collection at the request of the Natural Resource Damage Assessment (NRDA) Restoration Program. The NRDA Restoration Program is weighing the pros and cons

of collecting restoration cost data as part of contractor reporting requirements for restoration projects associated with NRDA cases. The collection described under this request is designed to refine potential expenditure questions prior to developing contractor reporting requirements. The project comprises a series of case studies that quantify the economic impacts of restoration projects. The case studies include examples of collaboratively funded and managed projects to restore a wide range of degraded, damaged, or destroyed ecosystems. Project methods include the collection of primary expenditure data and economic input/output modeling. Results from the first phase of case studies are available in a 2016 USGS report entitled, "Estimating the economic impacts of ecosystem restoration—methods and case studies." This second phase of case studies aims to refine the survey methods and to develop and test a Web-based data collection form that would enable broader collection of project expenditure data.

Title of Collection: Economic Contribution of Federal Investments in Restoration of Degraded, Damaged, or Destroyed Ecosystems.

OMB Control Number: 1028-0107.
Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Restoration project managers working on selected case study restoration projects; this includes project managers from state and local government, nonprofits, and the private sector.

Total Estimated Number of Annual Respondents: 6.

Total Estimated Number of Annual Responses: 6.

Estimated Completion Time per Response: 120 minutes.

Total Estimated Number of Annual Burden Hours: 12 hours.

Respondent's Obligation: Voluntary.
Frequency of Collection: One time.

Total Estimated Annual Nonhour Burden Cost: There are no "non-hour cost" burdens associated with this collection of information.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).
