

the Commission to waive the 30-day operative delay. The Exchange believes that waiver of the operative delay is appropriate because, as the Exchange discussed above, its proposal does not make any substantive changes to the Exchange Rules, but merely relocates arbitration rules to the shell Rulebook that the Exchange wishes to maintain post migration. Accordingly, its proposal is designed to preserve its arbitration rules after October 7, 2019. The Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest because the proposal does not raise any new or novel issues and does not make any substantive changes to the rules. Therefore, the Commission hereby waives the operative delay and designates the proposal as operative upon filing.¹²

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.
