NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit modification request.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated under the Antarctic Conservation Act of 1978. This is the required notice of a requested permit modification.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by November 6, 2019. Permit applications may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314.

FOR FURTHER INFORMATION CONTACT: Nature McGinn, ACA Permit Officer, at the above address, 703-292-8030, or ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas a requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Description of Permit Modification Requested: The Foundation issued a permit (ACA 2019-001) to Ron Naveen, Oceanites Inc., on August 7, 2018. The issued permit allows the permit holder and agents to engage in take and harmful interference, as well as to enter Antarctic Specially Protected Areas (ASPAs), to continue data collections activities conducted to support the Antarctic Site Inventory. Visitor site surveys may include censusing penguin and seabird colonies throughout the

Antarctic Peninsula. There is the potential for slight disturbance of the birds during surveying and censusing. This permit addresses the potential for infrequent, minimal take or harmful interference of the several penguin and other seabird species. While conducting visitor site surveys and censuses, the permit holder and agents may enter a number of ASPAs in the Antarctic Peninsula region. Now the permit holder proposes a modification to his permit to collect samples from adult gentoo penguins (*Pygoscelis papua*) for genetic analysis in order to study range expansion, colonization of new areas, and gene flow. A research team member with significant bird handling experience would conduct and oversee activities that include capturing the penguins by hand or handheld net, temporary restraint, plucking of five feathers, and sampling blood from the foot or flipper. Penguins will only be captured as they return from foraging trips at sea to ensure that an adult penguin remains on or near the nest. The permit holder also proposes to opportunistically salvage muscle tissue samples from penguin chicks found dead. Feather, blood, and tissue samples would be transported to laboratories in the UK and USA for analysis.

Location: Antarctic Peninsula region

Dates of Permitted Activities:

December 1, 2019–August 31, 2023.

Program Specialist, Office of Polar Programs.

NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit modification request received and permit issued.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated and permits issued under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of a requested permit modification and permit issued.

FOR FURTHER INFORMATION CONTACT: Nature McGinn, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703-292-8224; email: ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation (NSF), as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541, 45 CFR part 671), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas a requiring special protection.

1. NSF issued a permit (ACA 2015-010) to Lockheed Martin Corporation on October 31, 2014. The issued permit allows the permit holder to, as the contractor providing operational support for the United States Antarctic Program (USAP), be responsible for waste management activities for the USAP. A recent modification to this permit, dated November 7, 2016, allowed a change in permit holder from Lockheed Martin Corporation to Leidos Innovations Group (Leidos), 7400 South Tucson Way, Centennial, CO 80112.

Now the applicant proposes a permit modification to extend the expiration date of the permit from September 30, 2019 to October 31, 2019. The Environmental Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

Date of Permitted Activities: October 31, 2014–October 31, 2019.

The permit modification was issued on September 30, 2019.

Erika N. Davis,

Program Specialist, Office of Polar Programs.

B. Submitting Comments

Please include Docket ID NRC-2019-0067 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for

submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "10 CFR part 21, Reporting of Defects and Noncompliance." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on July 1, 2019, 84 FR 21259.

1. *The title of the information collection:* Reporting of Defects and Noncompliance.
2. *OMB approval number:* 3150-0035.
3. *Type of submission:* Extension.
4. *The form number if applicable:* Not applicable.
5. *How often the collection is required or requested:* On occasion. Defects and noncompliances are reportable as they occur.
6. *Who will be required or asked to respond:* Individual directors and responsible officers of firms constructing, owning, operating, or supplying the basic components of any facility or activity licensed under the Atomic Energy Act of 1954, as amended, or the Energy Reorganization Act of 1974, as amended, to report immediately to the NRC the discovery of defects in basic components or failures to comply that could create a substantial safety hazard.
7. *The estimated number of annual responses:* 800 (88 reporting responses + 357 third-party disclosure responses + 355 recordkeepers).
8. *The estimated number of annual respondents:* 355.
9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 32,083 (6,500 reporting hours + 25,215 hours recordkeeping + 368 hours third party disclosure).
10. *Abstract:* Part 21 of title 10 of the Code of Federal Regulations (10 CFR),
