SUPPLEMENTARY INFORMATION:
I. Introduction

The Federal Maritime Commission (Commission) issued a Notice of Proposed Rulemaking (NPRM) to obtain public comments on proposed modifications to its regulations in 46 CFR part 535, Ocean Common Carrier and Marine Terminal Operator Agreements Subject to the Shipping Act of 1984, and 46 CFR 501.27, Delegation to and redelegation by the Director, Bureau of Trade Analysis. 81 FR 53986 (Aug. 15, 2016). The NPRM addressed comments submitted in response to the Commission’s Advanced Notice of Proposed Rulemaking (ANPRM), 81 FR 10186 (Feb. 29, 2016), and requested further comments on the proposed modifications to its regulations.

The rulemaking was issued pursuant to Executive Order 13579 (E.O. 13579), Regulation and Independent Regulatory Agencies (July 11, 2011), and the Commission’s corresponding Plan for the Retrospective Review of Existing Rules.1 Under this plan, the Commission requested and received comments on how to improve its existing regulations and programs. With respect to part 535, comments with specific recommendations on regulatory modifications were submitted by ocean carrier members of major discussion agreements effective under the Shipping Act.2 This rulemaking was also consistent with more recent Executive Orders, as it sought to modify Part 535 to remove outdated, ineffective, or unnecessary regulations.3

II. Procedural History and Intervening Change in Law

After the Commission instituted this rulemaking process and received comment, Congress enacted the Frank LoBiondo Coast Guard Authorization Act of 2018. Public Law 115–282 (Dec. 4, 2018). In the LoBiondo Act, Congress amended certain provisions of the Shipping Act of 1984, including several provisions relating to the statutory basis for Part 535. In light of the intervening change in law, the Commission has determined to withdraw the previous NPRM, and terminate this rulemaking proceeding. In the future, the Commission may determine to reevaluate part 535, and would seek comments on the statutory amendments to the Shipping Act.

By the Commission.

Secretary.

III. Proposed Changes

A. References to Statutory Provisions (Parts 515, 530, 532, 545)

The LoBiondo Act amended 46 U.S.C. 41104 to revise several prohibited acts and added a new prohibited act. Public Law 115–282, 708. As part of those amendments, the Act changed the subsection designations in § 41104. The Commission is therefore proposing to revise its regulations to reflect the new subsection designations.

B. Commission Meetings (Part 503)

The LoBiondo Act amended 46 U.S.C. 303 to exclude certain Commission meetings from the requirements of the Government in the Sunshine Act (5 U.S.C. 552b). Public Law 115–282, 711(a). Under the revised statute, a majority of Commissioners may hold a meeting closed to the public to discuss Commission business if: (1) No vote or official Commission action is taken at the meeting; (2) only Commissioners and employees are present; (3) at least one Commissioner from each political party is present (assuming there are sitting Commissioners from more than one party); and (4) the Commission’s General Counsel is present. 46 U.S.C. 303(c). 4 The statute refers to these closed meetings as “nonpublic collaborative discussions.”

Although the Commission need not publicize such meetings beforehand or record a complete transcript or minutes, the Commission must, following the meeting, make publicly available a list of individuals present at the meeting and a summary of matters discussed, except for those matters the Commission determines may be withheld from the public under one of the applicable exemptions listed in the Sunshine Act § 303(c)(2)–(3). For those matters withheld from the public, the Commission must provide a summary with as much general information as possible. § 303(c)(3). The required disclosures must be made within two business days after the meeting, unless the meeting relates to an ongoing proceeding before the Commission, in which case the disclosures must be made on the date of the final Commission decision. § 303(c)(2), (4); see S. Rep. No. 115–89 at 19.

Finally, the Act added provisions clarifying that: (1) The Sunshine Act continues to apply to all meetings other than nonpublic collaborative discussions as described in § 303(c), as well as to any information related to those discussions that the Commission proposes to withhold from the public; and (2) the provisions governing nonpublic collaborative discussions do not authorize the Commission to withhold records accessible to an individual under the Privacy Act of 1974 (5 U.S.C. 552a). § 303(d)(5)–(6).

The Commission is proposing to include a new section, § 503.84, in part 503 of its regulations mirroring the new provisions in 46 U.S.C. 303(c)(1)–(4) and to make necessary conforming revisions to other sections in that part.

C. OTI Licensing, Financial Responsibility, and General Duties (Part 515)

1. Licensing and Financial Responsibility

The LoBiondo Act amendments expanded the class of persons that must be licensed as OTIs and meet the OTI financial responsibility requirements to include persons that advertise or hold themselves out as OTIs. 46 U.S.C. 40901(a); 40902(a); Public Law 115–282, 707(a), (c). Previously, only persons that acted as OTIs were subject to the

- Revising the regulations governing Commission meetings to include provisions on “nonpublic collaborative discussions,” a new type of meeting established by the LoBiondo Act that is not open to public observation;
- Revising the regulations governing ocean transportation intermediary (OTI) licensing and financial responsibility to reflect statutory changes to the types of persons that are required to be licensed and maintain a bond, insurance, or other surety;
- Revising the regulations governing the general duties of non-vessel-operating common carriers (NVOCCs) to reflect amendments to several prohibited acts; and
- Revising the regulations related to comments on filed ocean common carrier and marine terminal operator (MTO) agreements to reflect that such comments are now confidential and may not be disclosed by the Commission; The Commission is seeking comment on these proposed revisions and any others necessary to implement the statutory changes described below.

Although beyond the scope of this current rulemaking, the Commission also invites comments on any regulatory changes necessary to implement other LoBiondo Act provisions not discussed in this NPRM.4 Such comments may be considered by the Commission in determining whether additional regulatory changes should be made in a future rulemaking.

II. Proposed Changes

A. References to Statutory Provisions (Parts 515, 530, 532, 545)

The LoBiondo Act amended 46 U.S.C. 41104 to revise several prohibited acts and added a new prohibited act. Public Law 115–282, 708. As part of those amendments, the Act changed the subsection designations in § 41104. The Commission is therefore proposing to revise its regulations to reflect the new subsection designations.

B. Commission Meetings (Part 503)

The LoBiondo Act amended 46 U.S.C. 303 to exclude certain Commission meetings from the requirements of the Government in the Sunshine Act (5 U.S.C. 552b). Public Law 115–282, 711(a). Under the revised statute, a majority of Commissioners may hold a meeting closed to the public to discuss Commission business if: (1) No vote or official Commission action is taken at the meeting; (2) only Commissioners and employees are present; (3) at least one Commissioner from each political party is present (assuming there are sitting Commissioners from more than one party); and (4) the Commission’s General Counsel is present. 46 U.S.C. 303(c). 4 The statute refers to these closed meetings as “nonpublic collaborative discussions.”

Although the Commission need not publicize such meetings beforehand or record a complete transcript or minutes, the Commission must, following the meeting, make publicly available a list of individuals present at the meeting and a summary of matters discussed, except for those matters the Commission determines may be withheld from the public under one of the applicable exemptions listed in the Sunshine Act § 303(c)(2)–(3). For those matters withheld from the public, the Commission must provide a summary with as much general information as possible. § 303(c)(3). The required disclosures must be made within two business days after the meeting, unless the meeting relates to an ongoing proceeding before the Commission, in which case the disclosures must be made on the date of the final Commission decision. § 303(c)(2), (4); see S. Rep. No. 115–89 at 19.

Finally, the Act added provisions clarifying that: (1) The Sunshine Act continues to apply to all meetings other than nonpublic collaborative discussions as described in § 303(c), as well as to any information related to those discussions that the Commission proposes to withhold from the public; and (2) the provisions governing nonpublic collaborative discussions do not authorize the Commission to withhold records accessible to an individual under the Privacy Act of 1974 (5 U.S.C. 552a). § 303(d)(5)–(6).

The Commission is proposing to include a new section, § 503.84, in part 503 of its regulations mirroring the new provisions in 46 U.S.C. 303(c)(1)–(4) and to make necessary conforming revisions to other sections in that part.

C. OTI Licensing, Financial Responsibility, and General Duties (Part 515)

1. Licensing and Financial Responsibility

The LoBiondo Act amendments expanded the class of persons that must be licensed as OTIs and meet the OTI financial responsibility requirements to include persons that advertise or hold themselves out as OTIs. 46 U.S.C. 40901(a); 40902(a); Public Law 115–282, 707(a), (c). Previously, only persons that acted as OTIs were subject to the

1 For example, § 834 of the LoBiondo Act amended 46 U.S.C. 3503 to exempt old passenger vessels that operate within inland waterways from the requirement that they be constructed of fire-retardant materials, provided certain conditions are met. One of those conditions is that the vessel owner acquire and maintain liability insurance in an amount to be prescribed by the Federal Maritime Commission. 46 U.S.C. 3503(b)(1)(C). The Commission is currently considering what actions are necessary to implement this provision and is not including any proposed regulatory changes as part of this rulemaking.

2 OTIs include non-vessel-operating common carriers (NVOCCs) and ocean freight forwards (OFFs). 46 U.S.C. 40102(20).

3 For example, § 834 of the LoBiondo Act amended 46 U.S.C. 3503 to exempt old passenger vessels that operate within inland waterways from the requirement that they be constructed of fire-retardant materials, provided certain conditions are met. One of those conditions is that the vessel owner acquire and maintain liability insurance in an amount to be prescribed by the Federal Maritime Commission. 46 U.S.C. 3503(b)(1)(C). The Commission is currently considering what actions are necessary to implement this provision and is not including any proposed regulatory changes as part of this rulemaking.

4 This exclusion was modeled on a similar provision in the Surface Transportation Board Reauthorization Act of 2015. See S. Rep. No. 115–89 at 19 (2017) (accompanying S. 1129, an earlier authorization bill that contained many of the provisions later incorporated into the LoBiondo Act); 49 U.S.C. 1303(a)(2).
licensing and financial responsibility requirements.

The Commission is proposing to amend the general licensing and financial responsibility requirements in §515.3 and §515.21 to reflect this change. The Commission expects this change to have minimal, if any, effects on the universe of entities that must meet the licensing and financial responsibility requirements. In general, an entity that advertises or holds itself out as an OTI also acts as an OTI, and the practical effect of the change is to make it easier for the Commission to enforce the licensing and financial responsibility requirements and prosecute noncompliant OTIs. Instead of having to show that a noncompliant entity actually acted as an OTI, the mere fact that an unlicensed entity advertised or held itself out as an OTI is now sufficient to show a violation of the statute.

The LoBiondo Act also includes a new provision clarifying that the OTI licensing and financial responsibility requirements do not apply to a person “that performs [OTI] services on behalf of an [OTI] for which it is a disclosed agent.” 46 U.S.C. 40901(c); Public Law 115–282, 707(b). This provision appears to codify the holding in Landstar Express Am. v. Fed. Mar. Comm’n, 569 F.3d 493 (D.C. Cir. 2009), in which the D.C. Circuit held that “[a]gents providing NVOCC services for licensed NVOCC principals are not NVOCCs (or OFFs) solely by virtue of being agents of NVOCCs,” “[t]hey therefore fall outside the coverage of the statute’s licensing requirement,” and “[t]he Commission lacks authority to compel those agents to obtain licenses.” 569 F.3d at 500. The Commission’s regulations at §515.4(b) already exclude agents of licensed OTIs from the licensing requirements, and the Commission is proposing minor revisions to that section to reflect the language of the new statutory provision.

The language of the new provision, however, is arguably broader than the holding in Landstar, which was focused on agents of licensed NVOCCs. The new §40901(c) excludes agents of any OTI from the licensing and financial responsibility requirements, and does not distinguish between agents of licensed and unlicensed OTIs. The Commission has therefore tentatively determined that this statutory change may conflict with the Commission’s regulations at 46 CFR 515.3 requiring that only licensed OTIs may act as agents to provide OTI services in the United States. A provision of the Act, however, is arguably broader than the statutory language of the new provision. The Commission seeks comment on whether to remove this requirement.

2. Common Carrier Prohibitions

The LoBiondo Act also expands the common carrier prohibition against knowingly and willfully accepting or transporting cargo for OTIs that do not meet certain Shipping Act requirements. See 46 U.S.C. 41104(a)(11); Public Law 115–282, 708(a)(2)(A). Previously, common carriers were prohibited from knowingly and willfully accepting or transporting cargo for an OTI that did not have a tariff and did not meet the OTI financial responsibility requirements. See 46 U.S.C. 41104(11) (2017). This wording limited the prohibition to dealing with noncompliant NVOCCs, as OFFs are not required to have a tariff. See 46 CFR 515.19(g)(1)(vii); 515.27(a). The LoBiondo Act split the provision into two separate prohibitions in 46 U.S.C. 41104(a)(11). The first prohibits common carriers from knowingly and willfully accepting or transporting cargo from an NVOCC that does not have a tariff. The second prohibits common carriers from knowingly and willfully accepting or transporting cargo from an OTI (i.e., NVOCC or OFF) that does not meet the financial responsibility requirements.

The Commission’s regulations at 46 CFR 515.19 and 515.27 reflect the earlier version of the prohibition (accepting or transporting cargo for noncompliant NVOCCs). The Commission is therefore proposing to amend these sections to reflect the new, broader statutory prohibition.

D. Comments on Filed Agreements (Part 535)

The LoBiondo Act made several changes to the provisions governing Commission action on agreements. In particular, the LoBiondo Act expanded on the existing requirement that the Commission transmit a notice of an agreement filing to the Federal Register within seven days, adding a requirement that the Commission request interested persons to submit relevant information and documents. 46 U.S.C. 40304(a)(2); Public Law 115–282, 706(a). Although the Commission already includes such requests in its Federal Register notices, see 46 CFR 535.603, adding this provision renders such comments confidential under 46 U.S.C. 40306, which exempts “[l]nformation and documents . . . filed with the . . . Commission under [chapter 403]” from disclosure under the Freedom of Information Act. Previously, only information provided by the filing parties was protected from disclosure under §40306. See Final Rule: Rules Governing Agreements by Ocean Common Carriers and Other Persons Subject to the Shipping Act of 1984, 49 FR 45320, 45336 (Nov. 15, 1984) (interpreting the provision as originally enacted in the Shipping Act of 1984 as only protecting information provided by the filing parties).

In addition, the Act includes a saving clause stating that nothing in §706 of the Act or the amendments made to 46 U.S.C. 40304 may be construed to prescribe a specific deadline for the submission of relevant information and documents from interested persons in response to a request for comment on an agreement filing. Public Law 115–282, 706(c).

The Commission is proposing to revise its regulations in part 535 to address these changes. In particular, the Commission proposes to revise the procedures for submitting comments on filed agreements in §535.603 to reflect that such comments are exempt from disclosure under FOIA and to make conforming changes to the list of confidentially submitted material in §535.608. The Commission also proposes to revise the Federal Register notice requirements in §535.602 to reflect the saving clause, namely that the Shipping Act may not be construed as prescribing a deadline for the submission of comments on filed agreements. Specifically, under revised §535.602, Federal Register notices would no longer include a “final date” or rigid deadline for filing comments; rather, notices would include a date by which comments are most useful for the Commission’s analysis of an agreement within the statutory 45-day review period. Comments received before that date would be considered by the Commission and staff in making determinations within the 45-day review period, while comments received after that date may be considered, to the extent practicable, within the 45-day review period or as part of the Commission’s continuing review of the agreement after the 45-day period.

IV. Rulemaking Analyses and Notices

Regulatory Flexibility Act

The Regulatory Flexibility Act (codified as amended at 5 U.S.C. 601–612) provides that whenever an agency is required to publish a notice of proposed rulemaking under the Administrative Procedure Act (APA) (5 U.S.C. 553), the agency must prepare and make available for public comment an initial regulatory flexibility analysis (IRFA) describing the impact of the proposed rule on small entities, unless the head of the agency certifies that the rulemaking will not have a significant economic impact on a substantial number of small entities. 5 U.S.C. 603, 605. Based on the analysis below, the Chairman of the Federal Maritime Commission certifies that this final rule will not have a significant economic impact on a substantial number of small entities.

Most of the proposed changes will clearly have no economic impact on any regulated entities. i.e., updating references to statutory provisions, the amendments relating to nonpublic collaborative discussions by the Commission, and the amendments relating to comments on filed agreements.

With respect to the proposed amendments to the regulations governing OTI licensing, financial responsibility, and general duties, the Commission recognizes that the majority of businesses affected by these proposed changes (OTIs) qualify as small entities under the guidelines of the Small Business Administration. The proposed rule would not, however, result in a significant economic impact on these entities. The proposed regulatory changes include: (1) Expanding the class of entities that must obtain a license to include those holding themselves out or advertising as OTIs; and (2) expanding the prohibition on common carriers transporting cargo for noncompliant OTIs to include OFFs that have not met the financial responsibility requirements. The Commission is also seeking comment regarding whether to eliminate the requirement that foreign-based, registered NVOCCs obtain licenses in a final rule, the change would, at most, reduce the regulatory burden on those agents.5 Finally, the changes to the prohibition on transporting cargo for noncompliant OTIs would have little, if any, economic impact on common carriers, including NVOCCs. NVOCCs would continue to be able to rely on the Commission’s website, which contains an easily searchable database of OTIs, to ascertain both NVOCC and OFF compliance with the relevant requirements.

National Environmental Policy Act

The Commission’s regulations categorically exclude certain rulemakings from any requirement to prepare an environmental assessment or an environmental impact statement because they do not increase or decrease air, water or noise pollution or the use of fossil fuels, recyclables, or energy. 46 CFR 504.4. In addition to correcting references to statutory provisions, the proposed rule would make changes to the regulations governing Commission meetings in part 503, the regulations governing OTI licensing, financial responsibility, and general duties in part 515, and the regulations governing the submission of comments on filed agreements in part 535. This rulemaking thus falls within the categorical exclusion for actions regarding access to public information under part 503 (§ 504.4(a)(24)), actions related to the issuance, modification, denial and revocation of ocean transportation intermediary licenses (§ 504.4(a)(1)), and actions related to the consideration of agreements (§ 504.4(a)(9)–(13), (30)–(35)). Therefore, no environmental assessment or environmental impact statement is required.

The Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3521) (PRA) requires an agency to seek and receive approval from the Office of Management and

If the Commission determines to remove the requirement in a final rule, the Commission would expect this change to have a similar, minimal economic impact.

The agency must submit collections of information in proposed rules to OMB in conjunction with the publication of the notice of proposed rulemaking. 5 CFR 1320.11. This proposed rule does not contain any collections of information as defined by 44 U.S.C. 3502(3) and 5 CFR 1320.3(c).

4. Add § 503.84 to subpart I to read as follows:

§ 503.84 Nonpublic Collaborative Discussions.

(a) General. Notwithstanding § 503.72, a majority of the Commissioners may hold a meeting that is not open to public observation to discuss official agency business if:

(1) No formal or informal vote or other official agency action is taken at the meeting;

Except as provided under paragraph (c) of this section, not later than two (2) business days after the conclusion of a meeting under paragraph (a) of this section, the Commission shall make available to the public, in a place easily accessible to the public:

(1) A list of the individuals present at the meeting; and

(2) A summary of the matters discussed at the meeting, except for any matters the Commission properly determines may be withheld from the public under § 503.73.

§ 515.3 License; when required.

Except as otherwise provided in this part, no person in the United States may advertise, hold itself out, or act as an ocean transportation intermediary unless that person holds a valid license issued by the Commission. For purposes of this part, a person is considered to be “in the United States” if such person is resident in, or incorporated or established under, the laws of the United States. Registered NVOCCs must utilize only licensed ocean transportation intermediaries to provide NVOCC services in the United States. In the United States, only licensed OTIs may act as agents to provide OTI services for registered NVOCCs.

8. Amend § 515.4 by revising paragraph (b) to read as follows:
§ 515.4 License; when not required.

(b) Agents, employees, or branch offices of an ocean transportation intermediary. A disclosed agent, individual employee, or branch office of a licensed ocean transportation intermediary is not required to be licensed in order to act on behalf of and in the name of such licensee; however, branch offices must be reported to the Commission in Form FMC–18 or under the procedures in § 515.20(e). A licensed ocean transportation intermediary is fully responsible for the acts and omissions of any of its employees and agents that are performed in connection with the conduct of such licensee’s business.

(B) an OFF that does not have a bond, insurance, or other surety as required by 46 U.S.C. 40902 and this part.

10. Amend § 515.21 by revising paragraph (a) introductory text, and paragraphs (a)(1), and (a)(2) to read as follows:

§ 515.21 Financial Responsibility Requirements

(a) Form and amount. Except as otherwise provided in this part, no person may advertise, hold oneself out, or act as an ocean transportation intermediary unless that person furnishes a bond, proof of insurance, or other surety in a form and amount determined by the Commission to insure financial responsibility. The bond, insurance, or other surety covers the transportation-related activities of an ocean transportation intermediary only when acting as an ocean transportation intermediary.

(1) Any person in the United States advertising, holding oneself out, or acting as an ocean freight forwarder as defined in § 515.2(m)(1) shall furnish evidence of financial responsibility in the amount of $50,000.
