553(b)(3)(B)) to amend this table without further notice and comment.

C. Regulatory Flexibility Act (RFA)

Since this rule eliminates a reporting requirement, the Agency certifies pursuant to RFA section 605(b) (5 U.S.C.601 et seq.), that this SNUR revocation will not have a significant economic impact on a substantial number of small entities.

D. Unfunded Mandates Reform Act (UMRA)

For the same reasons, this action does not require any action under UMRA sections 202, 203, 204, or 205 (2 U.S.C. 1501 et seq.).

E. Executive Order 13132: Federalism

This action does not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999).

F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have Tribal implications because it is not expected to have substantial direct effects on Indian Tribes. This action does not significantly nor uniquely affect the Indian Tribal governments, nor does it involve or impose any requirements that affect Indian Tribes. Accordingly, the requirements of Executive Order 13175 (65 FR 67249, November 9, 2000) do not apply to this action.

G. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

This action is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because this is not an economically significant regulatory action as defined under Executive Order 12866, and it does not address environmental health or safety risks disproportionately affecting children.

H. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

This action is not subject to Executive Order 13211 (66 FR 23355, May 22, 2001), because this action is not expected to affect energy supply, distribution, or use.

PART 721—[AMENDED]

3. The authority citation for part 721 continues to read as follows:

§ 721.10691 [Removed]

4. Remove § 721.10691.

[FR Doc. 2019–21717 Filed 10–8–19; 8:45 am]

BILING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; Missouri; Revocation of Kansas City Area Transportation Conformity Requirements Plans

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve a revision to the State Implementation Plan (SIP) for the State of Missouri. This final action will amend the SIP to remove the transportation conformity rule for the Kansas City Area—Clay, Platte and Jackson Counties.

DATES: This final rule is effective on November 8, 2019.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R07–OAR–2019–0339. All documents in the docket are listed on the https://www.regulations.gov website. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through https://www.regulations.gov or please contact the person identified in the FOR FURTHER INFORMATION CONTACT section for additional information.

FOR FURTHER INFORMATION CONTACT: Jed D. Wolkins, Environmental Protection Agency, Region 7 Office, Air Quality Planning Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219 at (913) 551–7588, or by email at wolkins.jed@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document “we,” “us,” and “our” refer to EPA.
The EPA is approving the removal of 10 CSR 10–2.390 Kansas City Area Transportation Conformity Requirements from the Missouri State Implementation Plan (SIP). Missouri submitted the SIP revision on January 14, 2019. Pursuant to the code of Federal regulations at 40 CFR 93.102 (b) transportation conformity must be conducted in all nonattainment and maintenance areas and States must adopt State Plans to conduct transportation conformity. The Kansas City Area—Clay, Jackson, and Platte Counties—was designated nonattainment for the 1979 one-hour (1-hr) ozone National Ambient Air Quality Standard (NAAQS) (43 FR 8962, March 3, 1978). On July 23, 1992, the Kansas City Area was redesignated nonattainment for the 1979 one-hour (1-hr) ozone National Ambient Air Quality Standard (NAAQS) and its first 10-year maintenance plan was approved (57 FR 27939, June 23, 1992). Pursuant to CAA section 175A, the first 10-year maintenance period began on July 23, 1992, the effective date of the redesignation approval. The second maintenance period plan was effective February 12, 2004 (69 FR 1921, January 13, 2004). On April 30, 2004, EPA revoked the 1-hr standard (69 FR 23951, April 30, 2004). Upon the effective date of the revocation, both the second 10-year maintenance period and the requirement for transportation conformity in the Kansas City Area ended. Pursuant to 40 CFR 51.905(e)(3), because the Kansas City Area is in attainment for all NAAQS, the Kansas City Area Transportation Conformity Requirements are no longer required. If in the future, the Kansas City Area was determined to be nonattainment with a standard requiring conformity, the State would have to develop new transportation conformity requirements. Furthermore, the Kansas City Area Transportation Conformity Requirements are not relied on in any other maintenance or attainment plan. The proposed rule did not include this detail in the history of the 1-hr standard, however, we have included it here for completeness. This additional history supports EPA’s final action.

II. Have the requirements for approval of a SIP revision been met?

The state submission has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The state provided public notice from May 15, 2018 to August 2, 2018 and received no comments on this rule. In addition, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

III. The EPA’s Response to Comments

The public comment period on the EPA’s proposed rule opened July 9, 2019, the date of its publication in the Federal Register, and closed on August 8, 2019. During this period, the EPA received two comments. One comment was in support of the action and the other was adverse. The EPA is providing response to the adverse comment. Both comments can be found in the docket to this rulemaking.

Comment 1: One commenter supported the action.
Response 1: Because this comment is in support of the action, no response is necessary.

Comment 2: One commenter suggested EPA review a variety of Missouri State Implementation Plans for reliance on the Kansas City Area Transportation Conformity Requirements.
Response 2: We believe the commenter’s reference to “50 CFR 52.1320” is a typographical error and should instead reference 40 CFR part 52. EPA has reviewed the Missouri plans listed in the comment. Only two of those plans relied on the Kansas City Area transportation conformity requirements. The plans are listed at 40 CFR 52.1320(e)(46) Maintenance Plan for the 1-hour ozone standard in the Missouri portion of the Kansas City maintenance area for the second ten-year period; and 40 CFR 52.1320(e)(50) Revision to Maintenance Plan for the 1-hour ozone standard in the Missouri portion of the Kansas City maintenance area for the second ten-year period. Both regulatory citations relate to the Maintenance Plan for the 1-hour ozone standard in the Missouri portion of the Kansas City Area maintenance area for the second ten-year period, and that period has ended. (69 FR 1921, January 13, 2004, and 71 FR 36210, June 26, 2006). The Kansas City Area transportation conformity requirements are not relied on in any other maintenance or attainment plan.

IV. What action is the EPA taking?

The EPA is taking final action to amend the Missouri SIP to remove the transportation conformity rule for the Kansas City Area.

V. Incorporation by Reference

In this document, the EPA is amending regulatory text that includes incorporation by reference. As described in the amendments to 40 CFR part 52 set forth below, the EPA is removing provisions of the EPA-Approved Missouri Regulations from the Missouri State Implementation Plan, which is incorporated by reference in accordance with the requirements of 1 CFR part 51.

VI. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

• Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
• Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866;
• Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
• Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
• Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

List of Subjects in 40 CFR Part 52
Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

James Gulliford,
Regional Administrator, Region 7.

For the reasons stated in the preamble, the EPA amends 40 CFR part 52 as set forth below:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 et seq.

Subpart AA—Missouri
§ 52.1320 [Amended]
2. In § 52.1320, the table in paragraph (c) is amended by removing the entry for “10–2.390” under the heading “Chapter 2—Air Quality Standards and Air Pollution Control Regulations for the Kansas City Metropolitan Area”.

BILLING CODE 6560–50–P

FEDERAL MARITIME COMMISSION
46 CFR Parts 501 and 502
[Docket No. 19–07]
RIN 3072–AC78

Delegations to Bureau of Enforcement and Enforcement Procedures

AGENCY: Federal Maritime Commission.

ACTION: Direct final rule; request for comments.

SUMMARY: The Federal Maritime Commission (Commission) is revising its delegations to the Bureau of Enforcement and its procedures for initiating enforcement action in order to facilitate Commission oversight.

DATES: The rule is effective without further action on December 23, 2019, unless significant adverse comments are received prior to November 8, 2019. If significant adverse comments are received, the Commission will publish a timely withdrawal of the rule in the
