

Department of Commerce, Army Corps of Engineers, Department of the Interior, Food and Drug Administration, Environmental Protection Agency and the Office of Management and Budget. The SCA serves as the Federal interagency coordinating group to increase the overall effectiveness and productivity of Federal aquaculture research, regulation, technology transfer, and assistance programs. This interagency coordinating group has been functioning since before the National Aquaculture Act was signed into law in 1980.

This draft outline lays out the components of a Work Plan for a Federal Aquaculture Regulatory Task Force. The proposed goal of this plan is to address the Federal strategic goal of improving regulatory efficiency and predictability for domestic freshwater and marine aquaculture under existing laws and regulations. The plan proposes to describe key interagency and federal-state issues raised by aquaculture regulations relating to permitting and aquatic animal health as well as the key science and technology needs to facilitate streamlined regulations and timely management decisions under current regulations.

Next Steps

The public is encouraged to review and comment on the Draft Outline for a Work Plan for a Federal Aquaculture Regulatory Task Force. After the public comment period ends, NOAA and the SCA will consider and address the comments received before issuing a draft work plan.

Invitation to Comment

NOAA, on behalf of the National Science and Technology Council's Subcommittee on Aquaculture, seeks public review and comment on the Draft Outline for a Work Plan for a Federal Aquaculture Regulatory Task Force (see **ADDRESSES** above). Before including your address, telephone number, email address, or other personal identifying information in your comment, please be aware that your entire comment, including your personal identifying information, will become part of the public record.

Authority: This outline and plan is being issued under the following authorities: National Aquaculture Act of 1980 (Public Law 96-362, 94 Stat. 1198, 16 U.S.C. 2801, *et seq.*) and the National Aquaculture Improvement Act of 1985 (Public Law 99-198, 99 Stat. 1641).

Dated: October 3, 2019.

David O'Brien,

*Acting Director, Office of Aquaculture,
National Marine Fisheries Service.*

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Reporting Requirements for Sea Otter Interactions With the Pacific Sardine Fishery; Coastal Pelagic Species Fishery Management Plan

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before December 9, 2019.

ADDRESSES: Direct all written comments to Adrienne Thomas, PRA Officer, NOAA, 151 Patton Avenue, Room 159, Asheville, NC 28801 (or at PRAComments@doc.gov). All comments received are part of the public record. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Joshua Lindsay, (562) 980-4034 or Joshua.Lindsay@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a regular submission, an extension of a currently approved collection.

On May 30, 2007, NMFS published a final rule (72 FR 29891) implementing a requirement under the Coastal Pelagic Species (CPS) Fishery Management Plan

(FMP) to report any interactions that may occur between a CPS vessel and/or fishing gear and sea otters. In accordance with the regulations implementing the Endangered Species Act (ESA), NOAA's National Marine Fisheries Service (NMFS) initiated an ESA section 7 consultation with the United States Fish and Wildlife Service (USFWS) regarding the effects of implementing the final rule (72 FR 29891), which codified Amendment 11 to the CPS FMP. USFWS determined that formal consultation was necessary on the possible effects to the threatened southern sea otter. USFWS threatened a biological opinion (BO) for this action and although it was concluded that fishing activities were not likely to jeopardize the continued existence of the southern sea otter, that there remained the potential to incidentally take southern sea otters. USFWS determined that certain measures should be put in place to ensure the continued protection of the species, including certain reporting requirements.

Specifically, these reporting requirements are:

1. If a southern sea otter is entangled in a net, regardless of whether the animal is injured or killed, such an occurrence must be reported within 24 hours to the Regional Administrator, NMFS West Coast Region.

2. While fishing for CPS, vessel operators must record all observations of otter interactions (defined as otters within encircled nets or coming into contact with nets or vessels, including but not limited to entanglement) with their purse seine net(s) or vessel(s). With the exception of an entanglement, which will be initially reported as described in #1 above, all other observations must be reported within 20 days to the Regional Administrator.

When contacting NMFS after an interaction, fishermen are required to provide information regarding the location, specifically latitude and longitude, of the interaction and a description of the interaction itself. Descriptive information of the interaction should include: Whether or not the otters were seen inside or outside the net; if inside the net, had the net been completely encircled; did contact occur with net or vessel; the number of otters present; duration of interaction; otter's behavior during interaction; and, measures taken to avoid interaction.

II. Method of Collection

The information will be collected on forms submitted by mail, phone, facsimile or email.

III. Data

OMB Control Number: 0648–0566.

Form Number(s): None.

Type of Review: Regular submission (Extension of a currently approved collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 2.

Estimated Time per Response: 15 minutes.

Estimated Total Annual Burden Hours: 1.

Estimated Total Annual Cost to Public: \$10.00 in reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Sheleen Dumas,

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****Proposed Information Collection; Comment Request; Southeast Region Dealer and Interview Family of Forms**

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to

take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before December 9, 2019.

ADDRESSES: Direct all written comments to Adrienne Thomas, PRA Officer, NOAA, 151 Patton Avenue, Room 159, Asheville, NC 28801 (or at PRAComments@doc.gov). All comments received are part of the public record. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Dr. David Gloeckner, (305) 361–4257 or david.gloeckner@noaa.gov.

SUPPLEMENTARY INFORMATION:**I. Abstract**

This request is for renewal of a current information collection. Fishery quotas are established for many species in the fishery management plans developed by the Gulf of Mexico Reef Fish Fishery Management Council, the South Atlantic Fishery Management Council, and the Caribbean Fishery Management Council. The Southeast Fisheries Science Center has been delegated the responsibility to monitor these quotas. To do so in a timely manner, seafood dealers that handle these species are required to report the purchases (landings) of these species. The frequency of these reporting requirements varies depending on the magnitude of the quota (e.g., lower quota usually require more frequent reporting) and the intensity of fishing effort. The most common reporting frequency is weekly. Daily reporting is only used for one fishery.

In addition, information collection included in this family of forms includes interview with fishermen to gather information on the fishing effort, location and type of gear used on individual trips. This data collection is conducted for a subsample of the fishing trips and vessel/trips in selected commercial fisheries in the Southeast region and commercial fisheries of the US Caribbean. Fishing trips and individuals are selected at random to provide a viable statistical sample.

These data are used for scientific analyses that support critical conservation and management decisions made by national and international fishery management organizations.

This data collection is authorized under 50 CFR part 622.5.

II. Method of Collection

Dealer reports used for quota monitoring are reported electronically for all but one fishery (mackerel gillnet) is reported via fax. Bio profile data from Trip Interview programs is obtained by face-to-face interviews with fisherman or sea food dealers.

III. Data

OMB Number: 0648–0013.

Form Number: None.

Type of Review: Regular submission (renewal of a current information collection).

Affected Public: Business and other for-profit organizations.

Estimated Number of Respondents: 6,188.

Estimated Time per Response:

Dealer reporting for monitoring Federal fishery annual catch limits (ACLs): Coastal fisheries dealers reporting, 10 minutes; mackerel dealer reporting (gillnet), 10 minutes; wreckfish dealer reporting, 10 minutes.

Bio profile data from Trip Interview programs (TIP): Shrimp Interviews, 10 minutes; Fin Fish interviews, 10 minutes.

Estimated Total Annual Burden Hours: 4,334.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection;
