**Description:** The regulation offers guidance on the types of investment vehicles that plans may choose as their “qualified default investment alternative” (QDIA). A QDIA must either be managed by an investment manager, plan trustee, plan sponsor or a committee comprised primarily of employees of the plan sponsor that is a named fiduciary, or be an investment company registered under the Investment Company Act of 1940. The regulation also outlines two types of information collections. First, it implements the statutory requirement that plans provide annual notices to participants and beneficiaries whose account assets invested in a QDIA. Second, the regulation requires plans to pass any pertinent materials they receive from a QDIA to those participants and beneficiaries with assets invested in the QDIA as well to provide certain information on request. The Department has received approval from OMB for this ICR under OMB Control No. 1210–0132. The current approval is scheduled to expire on June 30, 2020.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

WIOA Section 308 requires the Secretary of Labor to oversee the development, maintenance, and continuous improvement of a nationwide Workforce and Labor Market Information System (workforce information) system; and to evaluate the performance of the system and recommend needed improvements, taking into consideration customer consultation results, with particular attention given to improvements needed at the state, regional and local levels. The WIGS information collection ensures the Secretary of Labor meets WIOA requirements, and the states complete grant deliverables such as state economic analyses or special workforce information/economic studies, and the annual performance report.

The ETA makes use of the information collected from WIGS grantees primarily to serve four customer groups: (1) The public (including job seekers and employers); (2) labor market intermediaries who help individuals find a job or make career decisions (such as employment and school counselors, case managers at American Job Centers, and community-based organizations); (3) policymakers and employment and economic program planners and operators; and (4) miscellaneous other customers, including researchers, commercial data providers, and the news media. The Workforce Innovation and Opportunity Act (WIOA) Section 308 (29 U.S.C. 491–2), and 20 Code of Federal Regulations (CFR) parts 651 and 652 authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the ADDRESSES section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention Workforce Information Grants to States (WIGS), OMB control number 1205–0417.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:
• Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
• Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
• Enhance the quality, utility, and clarity of the information to be collected; and
• Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL–ETA.
Type of Review: Revision.
