SUPPLEMENTARY INFORMATION:

Title: National Organic Program.
OMB Number: 0581-0191.

Expiration Date of Approval: January 31, 2020.

Type of Request: Extension of a currently approved information collection.

Abstract: The Organic Foods Production Act of 1990 (OFPA) as amended (7 U.S.C. 6501-6522) mandates that the Secretary develop the NOP to accredit eligible State program's governing State officials or private persons as certifying agents who would certify producers or handlers of agricultural products that have been produced using organic methods as provided for in OFPA. The USDA organic regulation (7 CFR part 205): (1) Established national standards governing the marketing of certain agricultural products as organically produced products; (2) assures consumers that organically produced products meet a consistent standard; and (3) facilitates interstate commerce in fresh and processed food that is organically produced.

Reporting and recordkeeping are essential to the integrity of the organic certification system. A paper trail is a critical element in carrying out the mandate of OFPA and NOP. Reporting and recordkeeping serve the AMS mission, program objectives, and management needs by providing information on the efficiency and effectiveness of the program. The information affects decisions because it is the basis for evaluating compliance with OFPA and NOP, for administering the program, for management decisions and planning, and for establishing the cost of the program. It supports administrative and regulatory actions in response to noncompliance with OFPA and NOP.
