

course upon first logging into the system. After completing the training, users are permitted full access to the system. In addition, this collection will gather feedback from the users of the IP Gateway to determine any future system improvements.

The information gathered will be used by the CISA IP Gateway Program Management Team to vet users for a need to know and grant access to the system. As part of the registration process, users are required to take a one-time online training course. When logging into the system for the first time, the system prompts users to take the training courses. Users cannot opt out of the training and are required to take the course in order to gain and maintain access to the system. When users complete the training, the system automatically logs that the training is complete and allows full access to the system.

Additionally, CISA uses a Utilization Survey to assess the current functionality of the IP Gateway as well as identify any further capabilities to be developed. Through this process, the IP Gateway will remain a viable solution for the stakeholders. This survey is available to users as an ideal way to consolidate end user satisfaction feedback and gather undeveloped capabilities that would aid in the expansion and functionality of the IP Gateway.

The collection of information uses automated electronic forms. During the online registration process, there is an electronic form used to create a user account and an online training course required to grant access.

The survey is electronic and includes questions that measure the satisfaction of the user as well as a section to capture any improvements that the user would like to see added and/or corrected. This voluntary survey is available by clicking a link labeled "User Survey" on the IP Gateway landing page. By clicking on this link, the user is then provided the electronic form for them to complete and submit.

The changes to the collection since the previous OMB approval include: Updating the title of the collection, decrease in burden estimates and decrease in costs. The total annual burden cost for the collection has decreased by \$31,909, from \$37,230 to \$5,321 due to a decrease in registrations, as registration is a one-time burden. The total number of responses has decreased by 1,150 from 1,500 to 350 since most users are already registered for the system as well as making updates for the number of survey responses received. The annual government cost

for the collection has decreased by \$95,188 from \$107,857 to \$12,668, due to removing the costs associated with designing the survey.

This is a revision and renewal of an information collection.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A. Overview of Information Collection

Title of Information Collection: Ginnie Mae Mortgage-Backed Securities Guide 5500.3, Revision 1 (Forms and Electronic Data Submissions).

OMB Approval Number: 2503-0033.

Type of Request: Extension of currently approved collection.

Form Number: Listed below.

Description of the Need for the Information and Proposed Use: Ginnie Mae's Mortgage-Backed Securities Guide 5500.3, ("Guide") provides instructions and guidance to participants in the Ginnie Mae Mortgage-Backed Securities ("MBS") programs ("Ginnie Mae I and Ginnie Mae II"). Under the Ginnie Mae I program, securities are backed by single-family or multifamily loans. Under the

Ginnie Mae II program securities are only backed by single-family loans. Both the Ginnie Mae I and II MBS are modified pass-through securities. The Ginnie Mae II multiple Issuer MBS is

structured so that small issuers, who do not meet the minimum number of loans and dollar amount requirements of the Ginnie Mae I MBS, can participate in the secondary mortgage market. In

addition, the Ginnie Mae II MBS permits the securitization of adjustable rate mortgages (“ARMs”).
