DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL20-4-000]

North Carolina Eastern Municipal Power Agency v. Duke Energy Progress, LLC; Notice of Complaint

Take notice that on October 11, 2019, pursuant to sections 206 and 306 of the Federal Power Act, 16 U.S.C. 824e, 825e and Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206, North Carolina Eastern Municipal Power Agency (Complainant) filed a formal complaint against Duke Energy Progress, LLC, (Respondent) alleging that 11.0 percent return on common equity included in the Fifth Amended and Restated Full Requirements Power Supply Agreement between Complainant and Respondent is excessive and therefore unjust and unreasonable, all as more fully explained in the complaint.

The Complainant certifies that copies of the complaint were served on the contacts listed for Respondent in the Commission's list of Corporate Officials and on affected regulatory agencies.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to

intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the website that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5:00 p.m. Eastern Time on October 31, 2019.

Dated: October 16, 2019.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF19–4–000]

Venture Global Delta LNG, LLC, and Venture Global Delta Express, LLC; Supplemental Notice of Intent for the Planned Delta LNG and Delta Express Pipeline Project Request for Comments on Environmental Issues Related to New Route Modifications Under Consideration

October 16, 2019.

As previously noticed on July 30, 2019, and supplemented herein, the staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental impacts of the Delta LNG and Delta Express Pipeline Project (Project) involving construction and operation of facilities by Venture Global Delta LNG, LLC and Venture Global Delta Express, LLC (collectively referred to as Delta LNG) in Plaquemines, Richland, Franklin, Catahoula, Concordia, Avoyelles, St. Landry, Pointe Coupee, West Baton Rouge, Iberville, Ascension, Assumption, Lafourche, and Jefferson Parishes, Louisiana. The general location of the Project is shown in appendix 1.¹

¹The appendices referenced in this notice will not appear in the **Federal Register**. Copies of the appendices were sent to all those receiving this notice in the mail and are available at www.ferc.gov

With this Supplemental Notice of Intent (NOI) we² are specifically seeking comments on modifications to the route of the Delta Express Pipeline and the location of Compressor Station 4 as proposed by Delta LNG on October 11, 2019. These modifications were incorporated based on the results of ongoing field surveys and to address comments from agencies and other stakeholders. The majority of the landowners potentially affected by these modifications have previously received notification of the Commission’s review of the Project. However, some of the modifications would affect new landowners; therefore, the Commission is issuing this Supplemental NOI to provide these new landowners an opportunity to comment on the Project. You can access detailed mapping of the modifications to the proposed pipeline route on the Commission’s website (www.ferc.gov) using eLibrary. For instructions on connecting to eLibrary, refer to the last page of this Notice.

This Notice is being sent to the Commission’s current environmental mailing list for this Project, including the newly affected landowners along the planned pipeline route. State and local government representatives should notify their constituents of this planned Project and encourage them to comment on their areas of concern.

If you are a newly affected landowner receiving this notice, a Delta LNG representative may have already contacted you or may contact you soon about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the Project, that approval conveys with it the right of eminent domain. Therefore, if the easement negotiations fail to produce an agreement, the company could initiate condemnation.

The FERC is the lead federal agency responsible for conducting the environmental review of the Project. As mentioned above, the Commission’s staff is preparing an EIS that discusses the environmental impacts of the Project. This EIS will be used to inform the Commission as it determines whether to approve the Project.

This Notice announces the opening of an additional scoping period the Commission will use to gather input

using the link called “eLibrary” or from the Commission’s Public Reference Room, 888 First Street NE, Washington, DC 20426, or call (202) 502–8371.

²“We,” “us,” and “our” refer to the environmental staff of the FERC’s Office of Energy Projects.
