

consultations with State agencies and FNS staff regarding the accuracy of the burden estimates in this information collection, including the validity of the methodology and assumptions that were used to estimate the burden. The inputs from those consultations will be considered, along with the public comments received in response to this notice, as FNS finalizes the burden estimate to be included in the request for OMB approval.

Affected Public: The respondent group identified includes 53 State agencies.

Estimated Number of Respondents: The total estimated number of respondents is 53.

Estimated Number of Responses per Respondent: FNS estimates 53 State agencies will submit one request each to adjust the SUA. Based on the information provided in the Fourteenth Edition of the SNAP State Options Report, out of the 53 State agencies, 23 State agencies have incorporated a methodology for determining the cost of doing business in self-employment cases. It is estimated that these 23 States will submit one request each, totaling 23 annual responses related to establishing a methodology for offsetting cost of

producing self-employment income. All 53 State agencies are required to keep and maintain one record of the information gathered and submitted to FNS for the SUA and self-employment options. Therefore, it is estimated that each respondent will be responsible for 2.4340 responses.

Estimated Total Annual Responses: 129.

Estimated Time per Response: 5.9395 (hours).

Estimated Total Annual Burden on Respondents: 766.1957 (hours). See table below for estimated total annual burden for State agencies.
