

Need and Proposed Use of the Information: Funds appropriated for the NAT Program are distributed among eligible institutions based on a formula, as permitted by PHS Act section 806(e)(1). HRSA uses the data from the NAT Tables to determine if the Funding Factors (either the Statutory Funding Preference or Special Consideration) are met, determine the award amount, ensure compliance with programmatic and grant requirements, and provide information to the public and Congress. The NAT Tables currently collect one year of data, which allows HRSA to calculate award amounts for a single-year project period. For fiscal year 2020,

HRSA is revising the forms that previously collected one year of data on prospective students to capture three years of data, thereby allowing HRSA to calculate award amounts for a multi-year project period. Table 1 will add columns to collect Year 2 and Year 3 data for the number of prospective students. While Table 2 data collection elements will not change, the header will change to provide further clarification about the data being collected.

Likely Respondents: Respondents will be applicants to HRSA's NAT Program.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain,

disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Table 1—NAT: Enrollment, Traineeship Support, Graduate, Graduates Supported and Projected Data	100	1	100	3.5	350
Table 2—NAT: Graduate Data—Rural, Underserved, or Public Health	100	1	100	2.8	280
Total	* 100	100	630

* The same respondents are completing Tables 1 and Table 2.
