PP 9945 does not suspend or limit the entry of applicants if they do not have coverage, but possess financial resources to pay for reasonably foreseeable medical expenses. Reasonably foreseeable medical expenses are those expenses related to existing medical conditions, relating to health issues existing at the time of visa adjudication.

PP 9945 does not apply to holders of valid immigrant visas issued before the effective date of the proclamation; aliens seeking to enter the United States pursuant to a Special Immigrant Visa, in either the SI or SQ classification; any alien who is seeking to enter the United States pursuant to an IR-2, CR-2, IR-3, IR-4, IH-3, or IH-4 visa; aliens seeking to enter pursuant to an IR-5 visa, provided the alien or alien's sponsor demonstrates to the satisfaction of consular officers that they will not impose a substantial burden on the United States healthcare system; aliens seeking to enter the United States pursuant to a SB-1 visa; any alien under the age of 18, except for any alien accompanying a parent who is also immigrating to the United States and subject to PP 9945; any alien whose entry would further important United States law enforcement objectives, as determined by the Secretary of State or his designee based on a recommendation from the Attorney General or his designee; or aliens whose entry would be in the national interest, as determined by the Secretary of State or his designee on a case-by-case basis.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2019-0087]

Petition for Waiver of Compliance

Under part 211 of title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that on October 16, 2019, the Northeast Illinois Regional Commuter Railroad Corporation (Metra) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 236.566, *Locomotive of each train*

operating in train stop, train control or cab signal territory; equipped. FRA assigned the petition Docket Number FRA-2019-0087.

Specifically, Metra requests to operate positive train control (PTC) equipped controlling locomotives with the automatic cab signals (ACS) cut-out. The relief is to be within a PTC revenue service demonstration (RSD) area on the Rock Island District, on which a PTC system (Interoperable Electronic Train Management System) is installed and operative; the PTC system is successfully initialized; and a locomotive engineer trained and qualified in the operation of PTC is present for the operation of the train with the ACS cut-out.

Locations of the requested relief on the Rock Island District are:

- Track No. 1, Westward—MP 14.5 to MP 39.9; Eastward—MP 39.9 to MP 14.5
- Track No. 2, Westward—MP 14.5 to MP 39.9; Eastward—MP 39.9 to MP 14.5
- Main Track, MP 39.9 to 40.2.

If the PTC system fails and/or is cut-out en route, the train crew will cut-in the ACS onboard system, perform a departure test, and if successful, continue the trip through the project limits under ACS operation. If the ACS onboard system cut-in and/or departure test are not completed successfully, the train will continue to operate under the provisions of § 236.567, *Restrictions imposed when device fails and/or is cut out en route.*

Metra notes that the ACS and PTC systems are not integrated on the locomotive, and their concurrent use would be potentially confusing and distracting to the train crew due to differences in the content of their displays, audible and visual alerts provided, and required acknowledgement protocols.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's Docket Operations Facility, 1200 New Jersey Ave. SE, W12-140, Washington, DC 20590.
