

provide reasons for suggestions or recommendations. You may submit online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in your document so the Agency can contact you if it has questions about your submission.

To submit your comments online, go to www.regulations.gov and put the docket number, "FMCSA-2019-0240" in the "Keyword" box, and click "Search." When the new screen appears, click on the "Submit a Formal Comment" button and type your comment into the text box in the following screen. Indicate whether you are submitting your comment as an individual or on behalf of a third party and then submit. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope. FMCSA will consider all comments and material received during the comment period and may grant or deny this application based on your comments.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The Agency's decision must be published in the **Federal Register** (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption, and the regulatory provision from which the exemption is granted. The notice must also specify the effective period (up to 5 years) and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Request for Exemption

49 CFR 395.3(a)(1) prohibits a driver from operating a commercial motor vehicle (CMV) without first taking 10 consecutive hours off duty. 49 CFR 395.3(a)(2) prohibits a driver from operating a CMV after the end of a 14 hour consecutive hour period without first taking 10 consecutive hours off duty.

Matrix requests a limited exemption for its drivers of mobile clinics known as "Mobile Team Leads" from the HOS 10 hour off-duty rule and the 14-hour period. Matrix requests that these employee-drivers be permitted to rest for 8 hours instead of 10 hours, and operate for 16 working hours instead of being limited to 14 hours.

Matrix reports that it operates a fleet of mobile medical clinics used to assist Medicare Advantage organizations. These services include, but are not limited to, providing patients with comprehensive health assessments and evaluations, and ongoing management of complex chronic conditions.

Matrix explained that it generally hosts patients during "events," which are usually held two to three times per week. Patients are seen on a mobile clinic throughout an event day usually between 7 a.m. to 6 p.m. local time, however the events do not always end at scheduled times. Each mobile clinic operates with a minimal crew consisting of (1) a mobile team lead, (2) registered nurse or nurse practitioner, (3) mammography technician, and (4) a medical technician or cardiovascular technician. The Mobile Team Lead is an integral part of the mobile clinic's healthcare service delivery team. The Mobile Team Lead is responsible for duties akin to an office manager's responsibilities. In addition to these duties, the Mobile Team Lead is responsible for driving the mobile clinic to and from an event location and hotel location. The proposed exemption would cover approximately 50 mobile team leads for the 40 mobile clinics in the applicant's fleet. Additionally, the exemption, if granted, would be used on event days only.

Matrix asserts that the proposed exemption is critical to ensure that it meets the needs of its patients and support its mission. Matrix explains that patients cancelling or arriving late to scheduled appointments or appointments that require additional time with providers, can cause an event to go beyond its scheduled end time of 6:00 p.m. local time. Matrix argues that 395.3(a)(1) and 395.3(a)(2) would require Matrix to cancel patient appointments, causing a hardship on

their operation. According to the applicant, the need to maximize patient engagement is the underlying reason for this exemption request. It would allow an event to continue past its scheduled end time and allow the Mobile Team Lead to drive the mobile clinic to a new hotel location that is close enough to the next event location so that the following event day can commence at 7:00 a.m. local time.

IV. Method To Ensure an Equivalent or Greater Level of Safety

To ensure an equivalent level of safety, Matrix offers short driving distances, short durations of driving, and driving at off-peak commuting times. Matrix believes that an equivalent level of safety will be sustained as Mobile Team leads are trained on fatigue awareness and hours of service compliance expectations, and, training programs from both the North American Fatigue Management Program and the Commercial Vehicle Training Alliance. Matrix states that Mobile Team Leads drive less than one-sixth of their work day. The rest of their day is spent performing non-clinical, management, and administrative services.

A copy of Matrix's application is available for review in the docket for this notice.

B. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.dot.gov/privacy.

II. Background

On September 6, 2019, FMCSA published a notice announcing its decision to renew exemptions for 95 individuals from the vision requirement in 49 CFR 391.41(b)(10) to operate a CMV in interstate commerce and requested comments from the public (84 FR 47052). The public comment period ended on October 7, 2019, and no comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with the current regulation § 391.41(b)(10).

The physical qualification standard for drivers regarding vision found in § 391.41(b)(10) states that a person is physically qualified to drive a CMV if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of a least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing red, green, and amber.

III. Discussion of Comments

FMCSA received no comments in this proceeding.

IV. Conclusion

Based on its evaluation of the 95 renewal exemption applications and comments received, FMCSA confirms its decision to exempt the following drivers from the vision requirement in § 391.41(b)(10). As of October 3, 2019, and in accordance with 49 U.S.C. 31136(e) and 31315(b), the following 58 individuals have satisfied the renewal conditions for obtaining an exemption from the vision requirement in the FMCSRs for interstate CMV drivers (66

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2019–0014]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt ten individuals from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) to operate a commercial motor vehicle (CMV) in interstate commerce. They are unable to meet the vision requirement in one eye for various reasons. The exemptions enable
