FOR FURTHER INFORMATION CONTACT: Helen Jackson, 703–705–6276, helen.jackson@cisa.dhs.gov.

SUPPLEMENTARY INFORMATION: The NSTAC was established by E.O. 12382, 47 FR 40531 (September 13, 1982), as amended and continued under the authority of E.O. 13889, dated September 27, 2019. Notice of this meeting is given under the Federal

Advisory Committee Act (FACA), 5 U.S.C. Appendix (Pub. L. 92-463). The NSTAC advises the President on matters related to national security and emergency preparedness (NS/EP) telecommunications and cybersecurity policy.

Agenda: The NSTAC will meet in an open session on Thursday, November 14, 2019, to discuss current priorities related to NS/EP communications as well as cybersecurity. Specifically, discussions with senior-level Government Stakeholders will focus on the importance of software defined networking as well as the challenges industry faces with regards to the Information and Communications Technology (ICT) supply chain. Additionally, members will receive an update regarding government progress towards recent NSTAC recommendations.

The committee will also meet in a closed session from 9:30 a.m. to 12:00 p.m. to receive a classified briefing on cybersecurity threats related to 5G and ICT supply chain and discuss future studies based on the Government's NS/EP priorities and perceived vulnerabilities.

Basis for Closure: In accordance with section 10(d) of FACA and 5 U.S.C. 552b(c)(1) and (9)(B), *The Government in the Sunshine Act*, it has been determined that two agenda items require closure, as the disclosure of the information that will be discussed would not be in the public interest.

The first item is a classified threat briefing, which will provide NSTAC members with issues and concerns surrounding 5G and ICT supply chain. Disclosure of potential vulnerabilities and mitigation techniques is a threat to the Nation's cybersecurity posture since adversaries could use this information to compromise commercial and Government networks. This briefing will be classified at the top secret/sensitive compartmented information level, thereby exempting disclosure of the content by statute. The second agenda item, the discussion of potential NSTAC study topics, will address areas of critical cybersecurity vulnerabilities and priorities for Government. Government officials will share data with NSTAC members on initiatives, assessments, and future security requirements across public and private sector networks. The information will include specific vulnerabilities within cyberspace that affect the United States' ICT infrastructures and proposed mitigation strategies. The premature disclosure of this information to the public would be likely to significantly frustrate implementation of a proposed

agency action. Therefore, this portion of the meeting is required to be closed pursuant to section 10(d) of FACA and 5 U.S.C. 552b(c)(1) and (9)(B).

Dated: October 24, 2019.

Helen Jackson,

Designated Federal Officer, National Security Telecommunications Advisory Committee, Cybersecurity and Infrastructure Security Agency, Department of Homeland Security.
