

All causes of action brought to enforce the rights of the surface owner under the regulations above referred to shall be instituted against mining claimants, permittees, licensees and lessees of the United States; and the United States shall not be liable for the acts or omissions of its mining claimants, permittees, licensees and lessees.

The conveyance document, if issued, will be subject to all valid existing rights.

The BLM will publish this Notice in the Lovell Chronicle newspaper once a week for three consecutive weeks. Only written comments submitted by postal service or overnight mail will be considered as properly filed. Electronic mail, facsimile, or telephone comments will not be considered.

Any adverse comments regarding the sale will be reviewed by the BLM Wyoming State Director or other authorized official of the Department of the Interior, who may sustain, vacate, or modify this realty action in response to such comments. In the absence of any timely filed objections, this realty action will become the final determination of the Department of the Interior.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. Comments, including names and street addresses of respondents, will be available for public review at the BLM Cody Field Office during regular business hours, except holidays.

**Authority:** 43 CFR 2711.

**Duane Spencer,**

*Acting State Director, Wyoming.*

### Notice of Availability of the Crimson Solar Project Draft Environmental Impact Statement and Environmental Impact Report and Draft Land Use Plan Amendment to the California Desert Conservation Area Plan

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** In accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, and the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) has prepared a Draft Environmental Impact Statement (EIS), Environmental Impact Report (EIR), and draft Land Use Plan Amendment to the California Desert Conservation Area Plan (CDCA) for the Crimson Solar Project (Project), and by this notice is announcing the opening of the 90-day public comment period.

**DATES:** To ensure that all comments will be considered, the BLM must receive written comments on the draft plan amendment and Draft EIS/EIR within 90 days following the date the Environmental Protection Agency (EPA) publishes its Notice of Availability in the **Federal Register**. The BLM will announce future meetings and any other public involvement activities at least 15 days in advance through public notices, news releases, the project website, and/or mailings.

**ADDRESSES:** The public may submit comments related to the project during the public comment period by using any of the following methods:

- **Website:** <https://bit.ly/2xntD5u>
- **Email:** [blm\\_ca\\_crimsonsolar@blm.gov](mailto:blm_ca_crimsonsolar@blm.gov)
- **Mail:** Crimson Solar Project, Bureau of Land Management Palm Springs-South Coast Field Office, 1201 Bird Center Drive, Palm Springs, CA 92262

Copies of the Draft EIS/EIR and draft plan amendment are available at the BLM-Palm Springs-South Coast Field Office at the above address and at the BLM California Desert District Office, 22835 Calle San Juan De Los Lagos, Moreno Valley, CA 92553, and electronically on the project website referenced earlier.

### FOR FURTHER INFORMATION CONTACT:

Miriam Liberatore, BLM project manager, telephone: (541) 618-2412; email: [mliberat@blm.gov](mailto:mliberat@blm.gov); address

Bureau of Land Management, 3040 Biddle Road, Medford, OR 97504.

Persons who use a telecommunication device for the deaf may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact Ms. Liberatore during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or questions. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** Sonoran West Solar Holdings LLC (the Applicant), a wholly owned subsidiary of Recurrent Energy LLC, applied for a right-of-way (ROW) grant for a photovoltaic solar project with the BLM. The applicant proposes to construct, operate, maintain, and decommission a maximum 350-megawatt solar photovoltaic facility with integrated battery storage and necessary ancillary facilities, including project substations, access roads, operations and maintenance buildings, and lay down areas. The proposed project includes 2,500 acres of BLM-administered land in the Riverside East Solar Energy Zone.

The BLM is the lead NEPA agency and will make Federal decisions regarding the proposed plan amendment and the ROW for the Project. The U.S. Fish and Wildlife Service is a Cooperating Agency and will issue a Biological Opinion for the project. The EPA (Region 9) is a Cooperating Agency, but does not have a direct permitting role in the project. The California Department of Fish and Wildlife is the lead agency under the California Environmental Quality Act (CEQA) and will make State decisions on applications filed by the Applicant for an Incidental Take Permit and a Lake and Streambed Alteration Agreement. This Draft EIS/EIR was prepared as a joint Federal/State environmental document that analyzes the impacts of the project under both NEPA and CEQA.

In addition to the proposed action (Alternative A), the Draft EIS/EIR considers a no action alternative and two action alternatives. Alternative B, Alternative Design, would include one or more of three design elements to reduce grading, trenching, and vegetation removal during construction. Alternative C, Reduced Acreage Alternative, would be the same as described under Alternative A in the number and size of project-related facilities, but the project area would be reduced by about 300 acres. All alternatives would amend the CDCA plan to allow the project. Alternative C is the BLM preferred alternative.

Public input on these alternatives or other issues is important and will be considered in the Final EIR/EIS.

Please note that public comments and information submitted, including names, street addresses, and email addresses of persons who submit comments, will be available for public review and disclosure at the address listed in the **ADDRESSES** section during regular business hours (8:00 a.m. to 4:00 p.m.), Monday through Friday, except holidays.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Authority:** 40 CFR 1506.6, 40 CFR 1506.10, 43 CFR 1610.2.

### Notice of Availability of the Bakersfield Field Office Hydraulic Fracturing Final Supplemental Environmental Impact Statement, California

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** In accordance with the National Environmental Policy Act of 1969, as amended (NEPA), the Bureau of Land Management (BLM) has prepared a Final Supplemental Environmental Impact Statement (EIS) analyzing the potential impacts of hydraulic fracturing on new oil and gas leases within the Bakersfield Field Office planning area, and by this notice the BLM is announcing its availability.

**DATES:** The BLM will not issue a final decision on the proposal for a minimum of 30 days after the date that the Environmental Protection Agency publishes its Notice of Availability in the **Federal Register**.

**ADDRESSES:** Copies of the Bakersfield Field Office Hydraulic Fracturing Final Supplemental EIS are available for public inspection during regular business hours at 3801 Pegasus Drive,

Bakersfield, CA 93308. Interested persons may also review the Final Supplemental EIS online at <https://go.usa.gov/xE3Nw>.

#### FOR FURTHER INFORMATION CONTACT:

Carly Summers, Supervisory Natural Resources Specialist; telephone: 661-391-6000; email: [csummers@blm.gov](mailto:csummers@blm.gov); address Bureau of Land Management, 3801 Pegasus Drive, Bakersfield, CA 93308. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact Carly Summers during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** The Bakersfield Field Office planning area is located in eastern Fresno, western Kern, Kings, Madera, San Luis Obispo, Santa Barbara, Tulare, and Ventura counties in California and encompasses approximately 1.2 million acres of Federal minerals and roughly 400,000 surface acres of BLM-managed public land.

The supplemental environmental analysis is being conducted in response to a May 2017, U.S. District Court Order. The U.S. District Court upheld the range of alternatives analyzed in the 2012 Proposed Resource Management Plan (RMP)/Final EIS. The five management alternatives analyzed in the Proposed RMP/Final EIS were:

- The No Action alternative (Alternative A)—continue current management under the existing 1997 Caliente RMP and 1984 Hollister RMP, as amended;
- The Proposed Plan (Alternative B)—balance resource conservation and ecosystem health with the production of commodities and public use of the land;
- Alternative C—emphasize conserving cultural and natural resources, maintaining functioning natural systems, and restoring degraded natural systems;
- Alternative D—same as Alternative C, except that Alternative D would eliminate livestock grazing from BLM-managed lands in the planning area; and
- Alternative E—emphasize the production of natural resources, commodities and public use opportunities.

The 2012 Proposed RMP/Final EIS identified public lands available to fluid-mineral leasing and no changes to those designations are proposed through the Final Supplemental EIS.

Preliminary resource issues were presented for public scoping review and comment in the August 8, 2018, **Federal**

**Register** Notice of Intent (83 FR 39116). Issues identified by BLM personnel; Federal, State, and local agencies; and other stakeholders and analyzed in the Final Supplemental EIS include: Air and atmospheric values; water quality and quantity; seismicity; special status species; and mineral resources (oil and gas.)

The Draft Supplemental EIS was available for a 45-day public comment period initiated on April 26, 2019, **Federal Register** Notice of Availability (84 FR 17885). The BLM held public meetings on May 21, 22, and 23, 2019, in Bakersfield, San Luis Obispo, and Santa Barbara, respectively. Approximately 600 individuals attended the three meetings and approximately 16,000 written comments were received through ePlanning and standard mail.

Responses to substantive comments are presented in Appendix B: Public Comment Summary Report of the Final Supplemental EIS.

The results of this final supplemental analysis regarding the impacts of hydraulic fracturing, additive to those identified in the 2012 Final EIS, did not show a notable increase in total impacts. No conflicts were found between the estimated impacts of hydraulic fracturing and the resource or program management goals and objectives stated in the 2014 RMP. The range of alternatives has not changed between the approved 2014 RMP and its 2012 Final EIS and the Final Supplemental EIS. Therefore, no amendment to the 2014 RMP is necessary. In addition, no protest period is required because no changes are proposed to the 2014 RMP planning decisions. The BLM has fully analyzed the effects of hydraulic fracturing in accordance with the order of the court, and although the 2012 EIS has been supplemented, no changes are proposed to the 2014 RMP planning decisions. Because there are no changes to the RMP, no protest period is required and none is given.

The BLM has utilized and coordinated the NEPA process to help fulfill the public involvement process under the National Historic Preservation Act (54 U.S.C. 306108), as provided in 36 CFR 800.2(d)(3). The BLM will continue to consult with Indian tribes on a government-to-government basis, in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will continue to be given due consideration.

BLM review were considered and incorporated, as appropriate, into the Final Supplemental EIS. Public
