SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of a continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance process to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, the reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act, or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (see 29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the

maximum extent feasible unnecessary duplication of effort in obtaining said information (see 29 U.S.C. 657).

The collection of information specified in the Cadmium in General Industry Standard (29 CFR 1910.1027) protects workers from the adverse health effects that may result from their exposure to cadmium. The major collection of information of the standard include: Conducting worker exposure monitoring; notifying workers of their cadmium exposures; implementing a written compliance program; implementing medical surveillance of workers; providing examining physicians with specific information; ensuring that workers receive a copy of their medical surveillance results; maintaining workers’ exposure monitoring and medical surveillance records for specific periods; and providing access to these records to the workers who are the subject of the records, the worker’s representative, and other designated parties.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency’s functions, including whether the information is useful;
- The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply—for example, by using automated or other technological information collection and transmission techniques.

The agency estimates decreases in the number of exposed workers in the cross-industry sectors as well as in the specific-industry sectors. As a result, OSHA is requesting an adjustment decrease of 2,602 burden hours (from 75,998 to 73,396 hours). This decrease was offset by a slight estimated increase in plants (employers). Also as a result, the operation and maintenance costs have also decreased from \$5,407,985 to \$5,176,416, a total decrease of \$231,569. This decrease was offset by increases in estimated costs for exposure monitoring sampling and medical exams.

III. Proposed Actions

Type of Review: Extension of a currently approved collection.

Title: Cadmium in General Industry Standard (29 CFR 1910.1025).

OMB Control Number: 1218–0185.

Affected Public: Business or other for-profits.

Number of Respondents: 50,679.

Frequency: On occasion; Quarterly;

Biennially; Semi-annually; Annually.

Average Time per Response: Various.

Estimated Number of Responses:

234,036.

Estimated Total Burden Hours:

73,396.

Estimated Cost (Operation and Maintenance): \$5,176,416.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the agency name and the OSHA docket number (Docket No. OSHA–2012–0005) for the ICR. You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify electronic comments by your name, date, and the docket number so that the agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693–2350; TTY (877) 889–5627.
