

Total Annual Burden: 49 hours.

Total Annual Cost: None.

Privacy Impact Assessment: No impacts.

Nature and Extent of Confidentiality:

Although the Commission does not believe that any confidential information will need to be disclosed in order to comply with the information collection requirements, applicants are free to request that materials or information submitted to the Commission be withheld from public inspection. (See 47 CFR 0.459).

Needs and Uses: In 2019, the Commission adopted new rules governing the delivery and form of carriage election notices. Electronic Delivery of MVPD Communications, Modernization of Media Regulation Initiative, MB Docket Nos. 17–105, 17–317, Report and Order and Further Notice of Proposed Rulemaking, FCC 19–69, 2019 WL 3065517 (rel. Jul. 11, 2019). Pursuant to that decision, the public file obligations of DBS providers were slightly modified.

Therefore, the following information collection requirement needs review and approval from the Office of Management and Budget (OMB):

47 CFR 25.701(f)(6)(i)(D) requires that each satellite carrier shall provide an up-to-date email address for carriage election notice submissions and an up-to-date phone number for carriage-related questions. Each satellite carrier is responsible for the continuing accuracy and completeness of the information furnished. It must respond to questions from broadcasters as soon as is reasonably possible.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0994]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal

Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before January 6, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0994.

Title: Flexibility for Delivery of Communications by Mobile Satellite Service Providers in the 2 GHz Band, the L Band, and the 1.6/2.4 GHz Band.

Form No: Not Applicable.

Type of Review: Extension of a currently approved information collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 126

respondents; 126 responses.

Estimated Time per Response: 0.50–50 hours per response.

Frequency of Response: On occasion, one time and annual reporting requirements, third-party disclosure and recordkeeping requirements.

Obligation To Respond: Required to obtain or retain benefits. The statutory

authority for this collection is contained in Sections 4(i), 7, 302, 303(c), 303(e), 303(f) and 303(r) of the Communications Act of 1934, as amended; 47 U.S.C. 154(i), 157, 302, 303(c), 303(e), 303(f) and 303(r).

Total Annual Burden: 520 hours.

Annual Cost Burden: \$529,160.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

In general, there is no need for confidentiality with this collection of information.

Needs and Uses: This collection will be submitted to the Office of Management and Budget (OMB) as a revision following the 60-day comment period in order to obtain the full three-year clearance from OMB. This information collection is revised to reflect a decrease in annual costs from \$530,340 to \$529,160 due to the Commission's elimination of equipment certification fees. This results in a program change of –\$1,180 in annual costs.

The purposes of this collection are to obtain information necessary for licensing operators of Mobile-Satellite Service (MSS) networks to provide ancillary services in the U.S. via terrestrial base stations (Ancillary Terrestrial Components, or ATCs); obtain the legal and technical information required to facilitate the integration of ATCs into MSS networks in the L-Band and the 1.6/2.4 GHz Bands; and to ensure that ATC licensees meet the Commission's legal and technical requirements to develop and maintain their MSS networks and operate their ATC systems without causing harmful interference to other radio systems.

This information collection is used by the Commission to license commercial ATC radio communication services in the United States, including low-power ATC. The revised collection is to be used by the Commission to regulate equipment manufacturers and licensees of low-power ATC networks. Without the collection of information that would result from these final rules, the Commission would not have the necessary information to grant entities the authority to operate commercial ATC stations and provide telecommunications services to consumers.
