

availability of mission critical functions as the state prepares for the launch of a new system and following the launch of a new system. In addition, the collection will enable ETA to identify and provide appropriate technical assistance on issues in the checklist and ensure SWAs have plans for addressing critical issues prior to launching a new UI IT system. Section 303(a)(6) of the Social Security Act, codified at 42 U.S.C. 503(a)(6), authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB control number 1205-0527.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

(e.g., permitting electronic submission of responses).

Agency: DOL-ETA.

Type of Review: Revision.

Title of Collection: Pre-Implementation Planning Checklist for State Unemployment Insurance Information Technology Modernization Projects.

Form: ETA 9177.

BILLING CODE 6820-FN-P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of Permit Modification Request Received and Permit Issued.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated and permits issued under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of a requested permit modification and permit issued.

FOR FURTHER INFORMATION CONTACT: Nature McGinn, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703-292-8224; email: ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation (NSF), as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541, 45 CFR 671), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas a requiring special protection.

1. NSF issued a permit (ACA 2015–010) to Lockheed Martin Corporation on October 31, 2014. The issued permit allows the permit holder to, as the contractor providing operational support for the United States Antarctic Program (USAP), be responsible for waste management activities for the USAP.

A modification to this permit, dated November 7, 2016, allowed a change in permit holder from Lockheed Martin Corporation to Leidos Innovations Group (Leidos), 7400 South Tucson Way, Centennial, CO 80112. Another, recent modification to this permit extended the expiration date from September 30, 2019 to October 31, 2019.

This modification would be to extend the expiration date of the permit from October 31, 2019 to November 8, 2019. The Environmental Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

Date of Permitted Activities: October 31, 2014–November 8, 2019.

The permit modification was issued on November 1, 2019.

2. On October 23, 2015, the National Science Foundation (NSF) issued a waste management permit to David Rootes, Environmental Manager of Antarctic Logistics and Expeditions, LLC (ALE). Under that permit (ACA #2016–008), ALE was permitted to operate a remote camp at Union Glacier, Antarctica, and provide logistical support services for scientific and other expeditions, film crews, and tourists. These activities include aircraft support, cache positioning, camp and field support, resupply, search and rescue, medevac, medical support and logistic support for some National Operators. The permit expires February 28, 2020. On September 3, 2019, Mr. Rootes provided NSF an update based on activities planned for the 2019–2020 field season. ALE's activities are the same or similar as those detailed in the original permit (and previous modifications) and the estimates for emissions and waste generation are updated based on the planned activities for this season. The Environmental Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

Date of Permitted Activities: October 23, 2015–February 28, 2020.

The permit modification was issued on November 1, 2019.

3. On November 2, 2017, the National Science Foundation (NSF) issued a

waste management permit to Brandon Harvey, Director, Expedition Operations, Polar Latitudes, Inc. Under that permit (ACA #2018–015), Polar Latitudes was permitted to conduct waste management activities associated with coastal camping and operating remotely piloted aircraft systems (RPAS) in the Antarctic Peninsula region. Coastal overnight camping of no more than 30 campers and two expedition staff for a maximum of 10 hours ashore. Camping must be away from vegetated sites and at least 150 meters from wildlife concentrations or lakes, protected areas, historical sites, and scientific stations. The permit holder engages experienced pilots to fly small, battery-operated, remotely controlled quadcopter equipped with cameras to capture aerial footage for commercial and educational uses. The permit expires March 30, 2022.

On September 4, 2018, Polar Latitudes provided NSF an update based on activities planned for the 2018–2019 field season. The activities are the same or similar as those detailed in the original permit. Hayley Shephard now holds the position of Director of Expedition Operations. In addition, coastal camping should no longer occur in close proximity to Almirante Brown/Brown Base. On February 25, 2019, NSF issued a modification to allow waste management activities associated with whale tagging research aboard the MS ISLAND SKY, led by Daniel Zitterbart as part of an expedition within an expedition.

On August 30, 2019, Polar Latitudes provided NSF an update based on activities planned for the 2019–2020 field season (attached). The activities are the same or similar as those detailed in the original permit and previous modifications. On October 14, 2019, Polar Latitudes provided NSF an update (attached) on the support of whale tagging activities this season aboard the MC Hebridean Sky in March 2020. The Environmental Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

Date of Permitted Activities: November 2, 2017–March 30, 2022.

The permit modification was issued on November 3, 2019.

Erika N. Davis,

Program Specialist, Office of Polar Programs.

BILLING CODE 7555–01–P

POSTAL REGULATORY COMMISSION

[Docket Nos. MC2020–19 and CP2020–18]

New Postal Products

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning negotiated service agreements. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

DATES: *Comments are due:* November 12, 2019.

ADDRESSES: Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202–789–6820.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the market dominant or the competitive product list, or the modification of an existing product currently appearing on the market dominant or the competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance
