SUPPLEMENTARY INFORMATION:

Background

On June 3, 2019, Commerce published a notice of opportunity to request an administrative review of the antidumping duty order on cold-drawn mechanical tubing from Germany for the period November 22, 2017, through May 31, 2019.¹ Pursuant to a timely request from ArcelorMittal Tubular Products LLC, Michigan Seamless Tube, LLC, PTC Alliance Corp., and Webco Industries, Inc., (the petitioners),² in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.221(c)(1)(i), Commerce initiated an administrative review of the antidumping duty order on cold-drawn mechanical tubing from Germany on July 29, 2019, with respect to six companies: BENTELEER Steel/Tube GmbH (Benteler); BENTELEER Distribution International GmbH (BDI); Mubea Fahrwerksfedern GmbH (Mubea Fahrwerksfedern); Salzgitter Mannesmann Line Pipe GmbH (Salzgitter Mannesmann Line Pipe); Salzgitter Mannesmann Precision GmbH (Salzgitter Mannesmann Precision); and, VSMPO Tirus GmbH (VSMPO Tirus).³ On October 8, 2019, the petitioners timely withdrew their request for an administrative review of all of the companies named in their July 1, 2019, request for review,⁴ except for Benteler and BDI.⁵ On October 23, 2019, the petitioners timely withdrew their request for an administrative review

with respect to all entities for which they had requested a review.⁶

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party that requested the review withdraws its request within 90 days of the publication date of the notice of initiation of the requested review. The petitioners, who were the only parties to request a review, withdrew their request within the 90-day deadline. Accordingly, we are rescinding the administrative review of cold-drawn mechanical tubing from Germany for the period November 22, 2017, through May 31, 2019, in its entirety.

Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries of cold-drawn mechanical tubing from Germany. Antidumping duties shall be assessed at rates equal to the cash deposit rate of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instructions to CBP 15 days after publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as the only reminder to importers whose entries will be liquidated as a result of this rescission notice, of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to all parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or

destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(d)(4).

Dated: November 1, 2019.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Submission for OMB Review; Comment Request, Alaska Notification of Intent To Process Aleutian Islands Pacific Cod

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Notification of Intent to Process Aleutian Islands Pacific Cod.

OMB Control Number: 0648-0743.

Form Number(s): None.

Type of Request: Regular.

Number of Respondents: 2.

Average Hours per Response: 30 minutes for notification of intent to process non-community development quota Aleutian Islands Pacific cod from directed fishing.

Burden Hours: 1 hr.

Needs and Uses: This request is for extension of a currently approved information collection that contains the annual notification of intent that the City of Adak or the City of Atka submits to NMFS of its intent to process non-community development quota Aleutian Islands Pacific cod in the upcoming fishing year in order for the Aleutian Islands catcher vessel harvest set-aside to go into effect in the upcoming fishing year.

NMFS uses this information to determine how to calculate Pacific cod allocations required under 50 CFR 679.20(a)(7)(viii) during the annual Bering Sea and Aleutian Islands (BSAI) harvest specifications process. If NMFS receives a notification of intent to

process Aleutian Islands Pacific cod from either the City of Adak or the City of Atka by October 31, NMFS establishes an Aleutian Islands catcher vessel Pacific cod harvest set-aside, along with other Pacific cod allocations by area, sector, and gear type. These harvest limits will be in effect in the following year.

NMFS implemented this collection of information in 2016 under Amendment 113 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area. Amendment 113 modified management of the BSAI Pacific cod fishery to set aside a portion of the Aleutian Islands Pacific cod total allowable catch for harvest by vessels directed fishing for Aleutian Islands Pacific cod and delivering their catch for processing to a shoreside processor located on land west of 170° W longitude in the Aleutian Islands (“Aleutian Islands shoreplant”). This harvest set-aside applies only if specific notification and performance requirements are met, and only during the first few months of the fishing year. This harvest set-aside provides the opportunity for vessels, Aleutian Islands shoreplants, and the communities where Aleutian Islands shoreplants are located to receive benefits from a portion of the Aleutian Islands Pacific cod fishery. The notification and performance requirements preserve an opportunity for the complete harvest of the BSAI Pacific cod resource if the set-aside is not fully harvested.

In March 2019, the U.S. District Court for the District of Columbia vacated the rule implementing Amendment 113 and remanded Amendment 113 to NMFS for reconsideration. In May 2019, the U.S. Department of Justice filed a notice of appeal.

As the notification of intent is based on the vacated regulations that implemented Amendment 113, this information will not be collected unless the regulations are reinstated on appeal.

NMFS is requesting renewal of this collection of information in the event of a successful appeal.

Affected Public: Local government.

Frequency: Annually; on occasion.

Respondent's Obligation: Required to obtain or retain benefits.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this

notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Departmental Lead PRA Officer, Office of the Chief Information Officer, Commerce Department.

SUPPLEMENTARY INFORMATION:

I. Abstract

Type of Review: Regular Submission (New Collection)

The Wage Mariner Hiring Portal (WMHP) is an internet-based system (website) that is designed to allow an

applicant to apply for a “wage mariner” position within the National Oceanic and Atmospheric Administration (NOAA) fleet of maritime vessels. The WMHP system collects basic user information, wage mariner licensing, certifications, and relevant current and or past work history. The Department of Commerce (DOC), through NOAA, Office of Marine and Aviation Operations (OMAO) has special hiring authority under Code of Federal Regulations (CFR), Title 5, Chapter 1, Subchapter A, Part 3, § 3.2 and under the DOC Department Administrative Order (DAO) 202-302 Section 2, Subsection .02a. specific to the hiring of federal wage mariner employees. The regulations allow OMAO to hire wage mariners into excepted service positions within the NOAA fleet of ocean going vessels in order to maintain adequate operations, maintenance, and safe staffing of the maritime ships.

No physical forms are used in this collection, it is all online. Applicants fill out basic personal, licensure, and work history information into a profile resume. Once their basic profile is complete, applicants can submit this resume to available wage mariner positions as shown on the WMHP website. The application information received is used to determine if the applicant meets the basic job qualification. The applicant's information is then passed on to the hiring official or it is placed in a pool of prospective candidates for future openings. Application information includes: First and last name, contact number and email address, wage mariner licenses and certifications, relevant work history.

II. Method of Collection

Information will be collected electronically through an online web based interactive system.
