ENVIRONMENTAL PROTECTION AGENCY

[FRL–10001–78–ORD; Docket ID No. EPA–HQ–ORD–2019–0275]

Availability of the Systematic Review Protocol for the PFDA, PFNA, PFHxA, PFHxS, and PFBA IRIS Assessments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public comment period.

SUMMARY: The Environmental Protection Agency (EPA) is announcing a 45-day

public comment period associated with release of the Systematic Review Protocol for the perfluorodecanoic acid (PFDA), perfluorononanoic acid (PFNA), perfluorohexanoic acid (PFHxA), perfluorohexanesulfonate (PFHxS), and perfluorobutanoic acid (PFBA) Integrated Risk Information System (IRIS) assessments. This protocol document presents the methods for conducting the systematic reviews and dose response analyses for these assessments as well as summarizes the Agency's problem formulation activities. Public input will help to inform the subsequent development of draft assessments for these per- and polyfluoroalkyl substances (PFAS) chemicals.

DATES: The 45-day public comment period begins November 8, 2019 and ends December 23, 2019. Comments must be received on or before December 23, 2019.

ADDRESSES: The Systematic Review Protocol for perfluorodecanoic acid (PFDA), perfluorononanoic acid (PFNA), perfluorohexanoic acid (PFHxA), perfluorohexanesulfonate (PFHxS), and perfluorobutanoic acid (PFBA) assessments will be available via the internet on the IRIS website at <https://www.epa.gov/iris/iris-recent-additions> and in the public docket at <http://www.regulations.gov>, Docket ID No. EPA-HQ-ORD-2019-0275. Information on these chemicals is provided in the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT: For information on the docket, contact the ORD Docket at the EPA Headquarters Docket Center; telephone: 202-566-1752; facsimile: 202-566-9744; or email: Docket_ORD@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Information on PFAS and Systematic Review Protocols

Per- and polyfluoroalkyl substances (PFAS) are a large class of man-made chemicals widely used in consumer products and industrial processes. The basic structure of PFAS consists of a carbon chain surrounded by fluorine atoms, with different chemicals possessing different end groups. The five toxicity assessments being developed according to the scope and methods outlined in this protocol build upon several other PFAS assessments that have already been developed, and

represent only one component of the broader PFAS action plan underway at the U.S. EPA (<https://www.epa.gov/pfas/epas-pfas-action-plan>).

This protocol document presents the methods for conducting the systematic reviews and dose response analyses for assessments of perfluorodecanoic acid (PFDA), perfluorononanoic acid (PFNA), perfluorohexanoic acid (PFHxA), perfluorohexanesulfonate (PFHxS), and perfluorobutanoic acid (PFBA). This includes a summary of why these specific PFAS chemicals were prioritized for evaluation, description of the objectives and specific aims of the assessments, draft PECO (Populations, Exposures, Comparators, and Outcomes) criteria, and identification of key areas of scientific complexity. Public input received on the protocol is considered during preparation of the draft assessments and any adjustments made to the protocol will be reflected in an updated version released in conjunction with the draft assessments.

General information about Federal advisory committees at EPA is available at: www.epa.gov/faca.

FOR FURTHER INFORMATION CONTACT: Hema Subramanian, Designated Federal Officer for the FRRCC, U.S. EPA, 1200 Pennsylvania Avenue NW, Mail Code 1101A, Washington, DC 20460; telephone number: 202-564-7719; email address: FRRCC@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

EPA established the FRRCC in 2008 pursuant to the Federal Advisory Committee Act, Public Law 92-463, in order to help EPA build a more positive and proactive relationship with the agricultural industry in furtherance of EPA's mission to protect human health and the environment. The FRRCC serves as part of EPA's efforts to expand cooperative working relationships with the agriculture community and others who are interested in agricultural issues and achieving greater progress in environmental protection. The FRRCC provides advice and recommendations to the EPA Administrator on environmental issues and programs that impact, or are of concern to, farms, ranches and rural communities. Topics addressed may include food loss and waste, water or air quality issues, pesticides, toxics, emergency response, enforcement and compliance, technology and innovation, and other topics of environmental importance pertaining to agriculture and rural communities. The previous Charter for the FRRCC was scheduled to expire and therefore was renewed in 2018; however, the committee currently has no members. EPA is currently seeking 20-30 members for the committee, who will be appointed for 2-3 year terms. The membership of this committee will include a balanced representation of interested persons with relevant experience to contribute to the functions of the committee, and will be drawn from relevant sectors, including; but not limited to academia, agricultural industry, nongovernmental organizations, and state, local, and tribal governments.

The Committee expects to meet approximately twice a year, or as needed and approved by the Designated Federal Officer (DFO). Meetings will be held in Washington, DC and the EPA regions. Members serve on the Committee in a voluntary capacity. However, EPA may provide reimbursement for travel expenses associated with official government business.

II. Eligibility

Because of the nature of the issues to be discussed, it is the intent of the Agency for the majority of Committee members to be actively engaged in farming or ranching. The membership of this committee will include a balanced representation of interested persons with relevant experience to contribute to the functions of the committee and will be drawn from a variety of relevant sectors. Members may represent

farmers, ranchers, and rural communities (can include large, small, crop, livestock, commodity, and specialty producers from various regions)—and their allied industries (farm groups, rural suppliers, marketers, processors, etc.); as well as the academic/research community who research environmental issues impacting agriculture, tribal agriculture groups, state, local, and tribal government, and environmental/conservation and other nongovernmental organizations. Individuals are generally appointed to serve on the FRRCC as "Representative" members and are thus expected to represent the points of view of a particular group (e.g., an industry sector), rather than provide independent judgment and expertise. Other Federal agencies and other sectors as appropriate may be invited to attend or provide presentations at committee meetings as non-members. EPA values and welcomes diversity. In an effort to obtain nominations of diverse candidates, EPA encourages nominations of women and men of all racial and ethnic groups.

Per an October 31, 2017 EPA Directive, "*Strengthening and Improving Membership on EPA Federal Advisory Committees*," members of EPA Federal advisory committees cannot concurrently receive EPA grants, either as principal investigator or co-investigator, or be in a position that otherwise would reap substantial direct benefit from an EPA grant. This principal does not apply to state, tribal, or local government agency recipients of EPA grants.

In selecting committee members, EPA will consider each candidate's qualifications including, but not limited to, on whether the candidate is:

- Is actively engaged in farming.
- Occupies a senior position within their organization.
- Holds leadership positions in agriculture-related organizations, businesses and/or workgroups.
- Has broad agricultural experience regardless of their current position.
- Has experience working on issues where building consensus is necessary.
- Has membership in professional societies, broad-based networks or the equivalent.
- Has extensive experience in the environmental field dealing with agricultural issues.
- Provides services to producers.
- Is involved in processing, retailing, manufacturing and distribution of agricultural products.
