National Agricultural Statistics Service

Title: Survey of Irrigation Organizations.

OMB Control Number: 0535-NEW.

Summary of Collection: On April 4, 2017, the USDA National Agricultural Statistics Service (NASS) and the Economic Research Service (ERS), signed a Memorandum of Understanding. This agreement is for the development and implementation of a survey of irrigation organizations—defined to include irrigation districts and other entities that supply water (primarily surface water) directly to agricultural users, as well as groundwater management districts that may influence the supply of groundwater for irrigation. The new survey of irrigation organizations will collect local, district-scale information, including the adoption of alternative types of water allocation institutions and conservation policies that impact farm-level drought resilience and adaptation to long-run water scarcity.

Need and Use of the Information: NASS will be collecting information on facilities, operation type, revenue, costs, and practices for irrigation organizations. The data obtained by the survey will complement farm-level data collections efforts, providing a more comprehensive look at the water situation and drought preparedness of the United States. The absence of the data would certainly affect irrigation policy decisions, Federal programs, legislation, and impact studies would be subject to greater uncertainty and error.

Description of Respondents: Businesses or other for-profit; Not for profit institutions.

Number of Respondents: 6,500.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 5,644.

Departmental Information Collection Clearance Officer.

Rural Business-Cooperative Service

Notice of Solicitation of Applications for Inviting Applications for the Rural Economic Development Loan and Grant Programs for Fiscal Year 2020

AGENCY: Rural Business-Cooperative Service, USDA.

ACTION: Notice of solicitation for applications; Amendment

SUMMARY: The Rural Business-Cooperative Service (RBS) announces that the maximum loan amount awarded for applications competing in the Second, Third, and Fourth Quarter funding cycles of fiscal year (FY) 2020 will be \$1 million.

FOR FURTHER INFORMATION CONTACT: The Rural Development office for the state in which the applicant is located. A list of Rural Development State Office contacts is provided at the following link: <http://www.rd.usda.gov/contact-us/state-offices>.

SUPPLEMENTARY INFORMATION: RBS published a Notice of Solicitation of Applications for the Rural Economic Development Loan and Grant Programs for FY 2020 on July 18, 2019, (FR Vol. 84, 34333) Section B states that: "The Agency anticipates the following maximum amounts per award: Loans—\$2,000,000; Grants—\$300,000."

Based on the total amount of loan applications submitted in FY 2019 far exceeding the available allocated funds and the number of submitted but unfunded applications that will be competing for funding in the First Quarter of FY 2020, the Agency has determined that lowering the maximum loan amount to \$1 million for the Second, Third, and Fourth Quarter application periods would allow for additional project opportunities and a broader geographic distribution of Program funding.

The following are the deadlines for FY 2020 complete loan applications to be received in the USDA Rural

Development State Office no later than 4:30 p.m. (local time): Second Quarter, December 31, 2019; Third Quarter, March 31, 2020; and Fourth Quarter, June 30, 2020. Completed loan applications that exceed \$1 million but are not funded in the FY 2020 First Quarter competition will be allowed to compete for Second Quarter funding with the submission of a revised scope of work plan and budget for a loan amount not to exceed \$1 million.

Bette B. Brand,

Administrator, Rural Business-Cooperative Service.

Foreign-Trade Zones Board

[B-70-2019]

Foreign-Trade Zone (FTZ) 183—Austin, Texas; Notification of Proposed Production Activity; Flextronics America, LLC; (Automated Data Processing Machines); Austin, Texas

Flextronics America, LLC (Flextronics), submitted a notification of proposed production activity to the FTZ Board for its facility in Austin, Texas. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 3, 2019.

Flextronics already has authority to produce automated data processing machines within FTZ 183. The current request would add foreign status components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status components described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Flextronics from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status components noted below, Flextronics would be able to choose the duty rates during customs entry procedures that apply to automated data processing machines (duty-free). Flextronics would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The components sourced from abroad include: Labels; corrugated pack boxes; print bundles—instruction manuals and start-up directions; caster wheel assemblies; keyboards; computer mice; trackpads; graphics processing modules; main logic boards; graphics performance enhancers; basic input/output system (BIOS) printed circuit boards; structural frames for automatic data processing machines; structural enclosures for automatic data processing machines; main logic board stiffener assemblies; internal component support units; and, power supply units (duty rate ranges
