

*Privacy Act Impact Assessment:* An assurance of confidentiality is not offered because this information collection does not require the collection of personally identifiable information (PII) from individuals.

*Nature and Extent of Confidentiality:* No impact(s).

*Needs and Uses:* The information collection requirements included under this OMB Control Number 3060–0653, requires aggregators (providers of telephones to the public or to transient users of their premises) under 47 U.S.C. 226(c)(1)(A), 47 CFR 64.703(b) of the Commission's rules, to post in writing, on or near such phones, information about the pre-subscribed operator services, rates, carrier access, and the FCC address to which consumers may direct complaints.

Section 64.703(c) of the Commission's rules requires the posted consumer information to be added when an aggregator has changed the pre-subscribed operator service provider (OSP) no later than 30 days following such change. Consumers will use this information to determine whether they wish to use the services of the identified OSP.

*OMB Control Number:* 3060–0754.

*Title:* FCC Form 2100, Application for Media Bureau Audio and Video Service Authorization, Schedule H.

*Form Number:* FCC Form 2100, Schedule H.

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business or other for profit entities.

*Number of Respondents:* 1,758 respondents; 1,758 responses.

*Estimated Time per Response:* 10 hours.

*Frequency of Response:*

Recordkeeping requirement: Annual reporting requirement.

*Obligation to Respond:* Required to obtain or retain benefits. Statutory authority for this collection of information is contained in Sections 154(i) and 303 of the Communications Act of 1934, as amended.

*Total Annual Burden:* 17,580 hours.

*Total Annual Cost:* \$1,054,800.

*Privacy Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* There is no need for confidentiality with respect to this collection of information.

*Needs and Uses:* Commercial full-power and Class A television broadcast stations are required to file FCC Form 2100, Schedule H (formerly FCC Form 398) (Children's Television Programming Report) within 30 days after the end of each calendar year. FCC

Form 2100, Schedule H is a standardized form that: (a) Provides a consistent format for reporting the children's educational television programming aired by licensees to meet their obligation under the Children's Television Act of 1990 (CTA), and (b) facilitates efforts by the public and the FCC to monitor compliance with the CTA.

Commercial full-power and Class A television stations are required to complete FCC Form 2100, Schedule H within 30 days after the end of each calendar year and file the form with the Commission. The Commission places the form in the station's online public inspection file maintained on the Commission's database ([www.fcc.gov](http://www.fcc.gov)). Stations use FCC Form 2100, Schedule H to report, among other things, the Core Programming (*i.e.*, children's educational and informational programming) the station aired the previous calendar year. FCC Form 2100, Schedule H also includes a "Preemption Report" that must be completed for each Core Program that was preempted during the year. This "Preemption Report" requests information on the reason for the preemption, the date of each preemption, the reason for the preemption and, if the program was rescheduled, the date and time the program was re-aired.

On July 10, 2019, the Commission adopted a Report and Order in MB Docket Nos. 18–202 and 17–105, FCC 19–67, In the Matter of Children's Television Programming Rules; Modernization of Media Regulation Initiative, which modernizes the children's television programming rules in light of changes to the media landscape that have occurred since the rules were first adopted. Among other revisions, the Report and Order revises the children's television programming rules to expand the Core Programming hours to 6:00 a.m. to 10:00 p.m.; modify the safe harbor processing guidelines for determining compliance with the children's programming rules; require that broadcast stations air the substantial majority of their Core Programming on their primary program streams, but permit broadcast stations to air up to 13 hours per quarter of regularly scheduled weekly programming on a multicast stream; eliminate the additional processing guideline applicable to stations that multicast; and modify the rules governing preemption of Core Programming. In addition, the Report and Order revises the children's television programming reporting requirements by requiring that Children's Television Programming

Reports (FCC Form 2100, Schedule H) be filed on an annual rather than quarterly basis, within 30 days after the end of the calendar year; eliminating the requirements that the reports include information describing the educational and informational purpose of each Core Program aired during the current reporting period and each Core Program that the licensee expects to air during the next reporting period; eliminating the requirement to identify the program guide publishers who were sent information regarding the licensee's Core Programs; and streamlining the form by eliminating certain fields. The Report and Order also eliminates the requirement to publicize the Children's Television Programming Reports. The Report and Order directs the Media Bureau to make modifications to FCC Form 2100, Schedule H as needed to conform the form with the revisions to the children's programming rules, including the changes to the processing guidelines and preemption policies.

## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1013]

### Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents,

including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

**DATES:** Written PRA comments should be submitted on or before January 13, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Nicole Ongele, FCC, via email [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Nicole.ongele@fcc.gov](mailto:Nicole.ongele@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Nicole Ongele, (202) 418-2991.

**SUPPLEMENTARY INFORMATION:**

*OMB Control No.:* 3060-1013.

*Title:* Mitigation of Orbital Debris.

*Form No.:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit entities.

**Number of Respondents:** 10 respondents; 10 responses.

*Estimated Time per Response:* 3 hours.

*Frequency of Response:* On occasion reporting requirement.

*Obligation to Respond:* Required to obtain or retain benefits. The statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 301, 303, 308, 309 and 310.

*Total Annual Burden:* 30 hours.

*Annual Cost Burden:* \$19,250.

*Privacy Act Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* In general, there is no need for confidentiality with this collection of information.

*Needs and Uses:* This collection will be submitted to the Office of Management and Budget (OMB) as an extension after this 60-day comment period has ended in order to obtain the full three-year clearance from OMB.

Orbital debris consists of artificial objects orbiting the Earth that are not functional spacecraft. It consists of a wide range of non-functioning man-made objects that have been placed in

the Earth's orbit, both accidentally and on purpose. Orbital debris consists of small objects such as paint flakes, discarded lens caps, ejected bolts and pieces of debris from exploded spacecraft and rocket bodies. Since human activity in space began, there has been a steady growth in the number and total mass of orbital debris. Once created, debris remains in orbit indefinitely, absent other forces. Growth in the orbital debris population may limit the usefulness of space for communications and other uses in the future by raising the costs and lowering the reliability of space based systems. Furthermore, the effects of collisions involving orbital debris can be catastrophic and may cause significant damage to functional spacecraft or to persons or property on the surface of the Earth, if the debris re-enters the Earth's atmosphere in an uncontrolled manner.

The information collection requirements accounted for in this collection are necessary to mitigate the potential harmful effects of orbital debris accumulation. Without such information collection requirements, the growth in the orbital debris population may limit the usefulness of space for communications and other uses in the future by raising the costs and lowering the reliability of experimental and amateur systems. Furthermore, the effects of collisions involving orbital debris can be catastrophic and may cause significant damage to functional spacecraft or to persons or property on the surface of the Earth, if the debris re-enters the Earth's atmosphere in an uncontrolled manner.
