

The collection of information uses automated electronic vulnerability assessments and questionnaires. The vulnerability assessments and questionnaires are electronic in nature and include questions that measure the security, resiliency and dependencies of an organization. The vulnerability assessments are arranged at the request of an organization and are then scheduled and performed by a PSA or CSA.

The changes to the collection since the previous OMB approval include: Updating the title of the collection, adding three customer feedback questionnaires, increase in burden estimates and costs. The three questionnaires were added to the collection to provide user feedback on the content and functionality of the system. The addition of the questionnaires have increased the burden estimates by \$3,861.

The annual burden cost for the collection has increased by \$121,591, from \$1,786,166 to \$1,907,757, due to the addition of the Post Assessment Questionnaires and updated wage rates.

The annual government cost for the collection has increased by \$509,195, from \$1,710,959 to \$2,220,152, due to the addition of the Post Assessment Questionnaires and updated wage rates.

This is a revision and renewal of an information collection.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A person or party who wishes to protest one or more plats of survey identified above must file a written notice of protest with the State Director for the BLM in Alaska. The notice of protest must identify the plat(s) of survey that the person or party wishes to protest. You must file the notice of protest before the scheduled date of official filing for the plat(s) of survey being protested. The BLM will not consider any notice of protest filed after the scheduled date of official filing. A notice of protest is considered filed on the date it is received by the State Director for the BLM in Alaska during regular business hours; if received after regular business hours, a notice of protest will be considered filed the next business day. A written statement of reasons in support of a protest, if not filed with the notice of protest, must be filed with the State Director for the BLM in Alaska within 30 calendar days after the notice of protest is filed.

If a notice of protest against a plat of survey is received prior to the scheduled date of official filing, the official filing of the plat of survey identified in the notice of protest will be stayed pending consideration of the protest. A plat of survey will not be officially filed until the dismissal or resolution of all protests of the plat.

Before including your address, phone number, email address, or other personally identifiable information in a notice of protest or statement of reasons, you should be aware that the documents you submit, including your personally identifiable information, may be made publicly available in their entirety at any time. While you can ask the BLM to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so.

Authority: 43 U.S.C. Chap. 3.

Douglas N. Haywood,

Chief Cadastral Surveyor, Alaska.
