a. This appendix sets forth reporting and recordkeeping requirements that certain banking entities must satisfy in connection with the restrictions on proprietary trading set forth in subpart B (''proprietary trading restrictions''). Pursuant to § 44.20(d), this appendix applies to a banking entity that, together with its affiliates and subsidiaries, has significant trading assets and liabilities. These entities are required to (i) furnish periodic reports to the OCC regarding a variety of quantitative measurements of their covered trading activities, which vary depending on the scope and size of covered trading activities, and (ii) create and maintain records documenting the preparation and content of these reports. The requirements of this appendix must be incorporated into the banking entity's internal compliance program under § 44.20.

b. The purpose of this appendix is to assist banking entities and the OCC in:

(1) Better understanding and evaluating the scope, type, and profile of the banking entity's covered trading activities;

(2) Monitoring the banking entity's covered trading activities;

(3) Identifying covered trading activities that warrant further review or examination by the banking entity to verify compliance with the proprietary trading restrictions;

(4) Evaluating whether the covered trading activities of trading desks engaged in market making-related activities subject to § 44.4(b) are consistent with the requirements governing permitted market making-related activities;

(5) Evaluating whether the covered trading activities of trading desks that are engaged in permitted trading activity subject to § 44.4, § 44.5, or § 44.6(a) and (b) (*i.e.,* underwriting and market making-related activity, risk-mitigating hedging, or trading in certain government obligations) are consistent with the requirement that such activity not result, directly or indirectly, in a material exposure to high-risk assets or high-risk trading strategies;

(6) Identifying the profile of particular covered trading activities of the banking entity, and the individual trading desks of the banking entity, to help establish the appropriate frequency and scope of examination by the OCC of such activities; and

(7) Assessing and addressing the risks associated with the banking entity's covered trading activities.

c. Information that must be furnished pursuant to this appendix is not intended to serve as a dispositive tool for the identification of permissible or impermissible activities.

d. In addition to the quantitative measurements required in this appendix, a banking entity may need to develop and implement other quantitative measurements in order to effectively monitor its covered trading activities for compliance with section 13 of the BHC Act and this part and to have an effective compliance program, as required by § 44.20. The effectiveness of particular quantitative measurements may differ based on the profile of the banking entity's businesses in general and, more specifically, of the particular trading desk, including types of instruments traded, trading activities and strategies, and history and experience (*e.g.,* whether the trading desk is an established, successful market maker or a new entrant to a competitive market). In all cases, banking entities must ensure that they have robust measures in place to identify and monitor the risks taken in their trading activities, to ensure that the activities are within risk tolerances established by the banking entity, and to monitor and examine for compliance with the proprietary trading restrictions in this part.

e. On an ongoing basis, banking entities must carefully monitor, review, and evaluate all furnished quantitative measurements, as well as any others that they choose to utilize in order to maintain compliance with section 13 of the BHC Act and this part. All measurement results that indicate a heightened risk of impermissible proprietary trading, including with respect to otherwise-permitted activities under §§ 44.4 through 44.6(a) and (b), or that result in a material exposure to high-risk assets or high-risk trading strategies, must be escalated within the banking entity for review, further analysis, explanation to the OCC, and remediation, where appropriate. The quantitative measurements discussed in this appendix should be helpful to banking entities in identifying and managing the risks related to their covered trading activities.

II. Definitions

The terms used in this appendix have the same meanings as set forth in §§ 44.2 and 44.3. In addition, for purposes of this appendix, the following definitions apply:

Applicability identifies the trading desks for which a banking entity is required to calculate and report a particular quantitative measurement based on the type of covered trading activity conducted by the trading desk.

Calculation period means the period of time for which a particular quantitative measurement must be calculated.

Comprehensive profit and loss means the net profit or loss of a trading desk's material sources of trading revenue over a specific period of time, including, for example, any increase or decrease in the market value of a trading desk's holdings, dividend income, and interest income and expense.

Covered trading activity means trading conducted by a trading desk under § 44.4, § 44.5, § 44.6(a), or § 44.6(b). A banking entity may include in its covered trading activity trading conducted under § 44.3(d), § 44.6(c), § 44.6(d), or § 44.6(e).

Measurement frequency means the frequency with which a particular quantitative metric must be calculated and recorded.

Trading day means a calendar day on which a trading desk is open for trading.

III. Reporting and Recordkeeping

a. Scope of Required Reporting

1. Quantitative measurements. Each banking entity made subject to this appendix by § 44.20 must furnish the following quantitative measurements, as applicable, for each trading desk of the banking entity engaged in covered trading activities and calculate these quantitative measurements in accordance with this appendix:

i. Internal Limits and Usage;

ii. Value-at-Risk;

iii. Comprehensive Profit and Loss Attribution;

iv. Positions; and

v. Transaction Volumes.

2. Trading desk information. Each banking entity made subject to this appendix by § 44.20 must provide certain descriptive information, as further described in this appendix, regarding each trading desk engaged in covered trading activities.

3. Quantitative measurements identifying information. Each banking entity made subject to this appendix by § 44.20 must provide certain identifying and descriptive information, as further described in this appendix, regarding its quantitative measurements.

4. Narrative statement. Each banking entity made subject to this appendix by § 44.20 may provide an optional narrative statement, as further described in this appendix.

5. File identifying information. Each banking entity made subject to this appendix by § 44.20 must provide file identifying information in each submission to the OCC pursuant to this appendix, including the name of the banking entity, the RSSD ID assigned to the top-tier banking entity by the Board, and identification of the reporting period and creation date and time.

b. Trading Desk Information

1. Each banking entity must provide descriptive information regarding each trading desk engaged in covered trading activities, including:

i. Name of the trading desk used internally by the banking entity and a unique identification label for the trading desk;

ii. Identification of each type of covered trading activity in which the trading desk is engaged;

iii. Brief description of the general strategy of the trading desk;

v. A list identifying each Agency receiving the submission of the trading desk;

2. Indication of whether each calendar date is a trading day or not a trading day for the trading desk; and

3. Currency reported and daily currency conversion rate.

c. Quantitative Measurements Identifying Information

Each banking entity must provide the following information regarding the quantitative measurements:

1. An Internal Limits Information Schedule that provides identifying and descriptive information for each limit reported pursuant to the Internal Limits and Usage quantitative measurement, including the name of the limit, a unique identification label for the limit, a description of the limit, the unit of measurement for the limit, the type of limit, and identification of the corresponding risk factor attribution in the particular case that the limit type is a limit on a risk factor sensitivity and profit and loss attribution to the same risk factor is reported; and

2. A Risk Factor Attribution Information Schedule that provides identifying and descriptive information for each risk factor attribution reported pursuant to the Comprehensive Profit and Loss Attribution quantitative measurement, including the name of the risk factor or other factor, a unique identification label for the risk factor or other factor, a description of the risk factor or other factor, and the risk factor or other factor's change unit.

d. Narrative Statement

Each banking entity made subject to this appendix by § 44.20 may submit in a separate electronic document a Narrative Statement to the OCC with any information the banking entity views as relevant for assessing the information reported. The Narrative Statement may include further description of or changes to calculation methods, identification of material events, description of and reasons for changes in the banking entity's trading desk structure or trading desk strategies, and when any such changes occurred.

e. Frequency and Method of Required Calculation and Reporting

A banking entity must calculate any applicable quantitative measurement for each trading day. A banking entity must report the Trading Desk Information, the Quantitative Measurements Identifying Information, and each applicable quantitative measurement electronically to the OCC on the reporting schedule established in § 44.20 unless otherwise requested by the OCC. A banking entity must report the Trading Desk Information, the Quantitative Measurements Identifying Information, and each applicable quantitative measurement to the OCC in accordance with the XML Schema specified and published on the OCC's website.

f. Recordkeeping

A banking entity must, for any quantitative measurement furnished to the OCC pursuant to this appendix and § 44.20(d), create and maintain records documenting the preparation and content of these reports, as well as such information as is necessary to permit the OCC to verify the accuracy of such reports, for a period of five years from the end of the calendar year for which the measurement was taken. A banking entity must retain the Narrative Statement, the Trading Desk Information, and the Quantitative Measurements Identifying Information for a period of five years from the end of the calendar year for which the information was reported to the OCC.

IV. Quantitative Measurements

a. Risk-Management Measurements

1. Internal Limits and Usage

i. *Description:* For purposes of this appendix, Internal Limits are the constraints that define the amount of risk and the positions that a trading desk is permitted to take at a point in time, as defined by the banking entity for a specific trading desk. Usage represents the value of the trading desk's risk or positions that are accounted for by the current activity of the desk. Internal limits and their usage are key compliance and risk management tools used to control and monitor risk taking and include, but are not limited to, the limits set out in §§ 44.4 and 44.5. A trading desk's risk limits, commonly including a limit on ''Value-at-Risk,'' are useful in the broader context of the trading desk's overall activities, particularly for the market making activities under § 44.4(b) and hedging activity under § 44.5. Accordingly, the limits required under §§ 44.4(b)(2)(iii)(C) and 44.5(b)(1)(i)(A) must meet the applicable requirements under §§ 44.4(b)(2)(iii)(C) and 44.5(b)(1)(i)(A) and also must include appropriate metrics for the trading desk limits including, at a minimum, ''Value-at-Risk'' except to the extent the ''Value-at-Risk'' metric is demonstrably ineffective for measuring and monitoring the risks of a trading desk based on the types of positions traded by, and risk exposures of, that desk.

A. A banking entity must provide the following information for each limit reported pursuant to this quantitative measurement: The unique identification label for the limit reported in the Internal Limits Information Schedule, the limit size (distinguishing between an upper and a lower limit), and the value of usage of the limit.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

2. Value-at-Risk

i. *Description:* For purposes of this appendix, Value-at-Risk (''VaR'') is the measurement of the risk of future financial loss in the value of a trading desk's aggregated positions at the ninety-nine percent confidence level over a one-day period, based on current market conditions.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

b. Source-of-Revenue Measurements

1. Comprehensive Profit and Loss Attribution

i. *Description:* For purposes of this appendix, Comprehensive Profit and Loss Attribution is an analysis that attributes the daily fluctuation in the value of a trading desk's positions to various sources. First, the daily profit and loss of the aggregated positions is divided into two categories: (i) Profit and loss attributable to a trading desk's existing positions that were also positions held by the trading desk as of the end of the prior day (''existing positions''); and (ii) profit and loss attributable to new positions resulting from the current day's trading activity (''new positions'').

A. The comprehensive profit and loss associated with existing positions must reflect changes in the value of these positions on the applicable day. The comprehensive profit and loss from existing positions must be further attributed, as applicable, to (i) changes in the specific risk factors and other factors that are monitored and managed as part of the trading desk's overall risk management policies and procedures; and (ii) any other applicable elements, such as cash flows, carry, changes in reserves, and the correction, cancellation, or exercise of a trade.

B. For the attribution of comprehensive profit and loss from existing positions to specific risk factors and other factors, a banking entity must provide the following information for the factors that explain the preponderance of the profit or loss changes due to risk factor changes: The unique identification label for the risk factor or other factor listed in the Risk Factor Attribution Information Schedule, and the profit or loss due to the risk factor or other factor change.

C. The comprehensive profit and loss attributed to new positions must reflect commissions and fee income or expense and market gains or losses associated with transactions executed on the applicable day. New positions include purchases and sales of financial instruments and other assets/liabilities and negotiated amendments to existing positions. The comprehensive profit and loss from new positions may be reported in the aggregate and does not need to be further attributed to specific sources.

D. The portion of comprehensive profit and loss from existing positions that is not attributed to changes in specific risk factors and other factors must be allocated to a residual category. Significant unexplained profit and loss must be escalated for further investigation and analysis.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

c. Positions and Transaction Volumes Measurements

1. Positions

i. *Description:* For purposes of this appendix, Positions is the value of securities and derivatives positions managed by the trading desk. For purposes of the Positions quantitative measurement, do not include in the Positions calculation for ''securities'' those securities that are also ''derivatives,'' as those terms are defined under subpart A; instead, report those securities that are also derivatives as ''derivatives.'' [1223] A banking

[1223] *See* § 44.2(h), (aa). For example, under this part, a security-based swap is both a ''security'' and a ''derivative.'' For purposes of the Positions quantitative measurement, security-based swaps are reported as derivatives rather than securities.

entity must separately report the trading desk's market value of long securities positions, short securities positions, derivatives receivables, and derivatives payables.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks that rely on § 44.4(a) or (b) to conduct underwriting activity or market-making-related activity, respectively.

2. Transaction Volumes

i. *Description:* For purposes of this appendix, Transaction Volumes measures three exclusive categories of covered trading activity conducted by a trading desk. A banking entity is required to report the value and number of security and derivative transactions conducted by the trading desk with: (i) Customers, excluding internal transactions; (ii) non-customers, excluding internal transactions; and (iii) trading desks and other organizational units where the transaction is booked into either the same banking entity or an affiliated banking entity. For securities, value means gross market value. For derivatives, value means gross notional value. For purposes of calculating the Transaction Volumes quantitative measurement, do not include in the Transaction Volumes calculation for ''securities'' those securities that are also ''derivatives,'' as those terms are defined under subpart A; instead, report those securities that are also derivatives as ''derivatives.'' [1224] Further, for purposes of the Transaction Volumes quantitative measurement, a customer of a trading desk that relies on § 44.4(a) to conduct underwriting activity is a market participant identified in § 44.4(a)(7), and a customer of a trading desk that relies on § 44.4(b) to conduct market making-related activity is a market participant identified in § 44.4(b)(3).

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks that rely on § 44.4(a) or (b) to conduct underwriting activity or market-making-related activity, respectively.

Appendix B to Part 44—[Removed]

■ 14. Appendix B to part 44 is removed.

■ 15. Effective January 1. 2020 until December 31, 2020, appendix Z to part 44 is added to read as follows:

Appendix Z to Part 44—Proprietary Trading and Certain Interests in and Relationships With Covered Funds (Alternative Compliance)

Note: The content of this appendix reproduces the regulation implementing Section 13 of the Bank Holding Company Act as of November 13, 2019.

Subpart A—Authority and Definitions

§ 44.1 Authority, purpose, scope, and relationship to other authorities.

(a) *Authority.* This part is issued by the OCC under section 13 of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1851).

(b) *Purpose.* Section 13 of the Bank Holding Company Act establishes prohibitions and restrictions on proprietary trading and on investments in or relationships with covered funds by certain banking entities, including national banks, Federal branches and agencies of foreign banks, Federal savings associations, and certain subsidiaries thereof. This part implements section 13 of the Bank Holding Company Act by defining terms used in the statute and related terms, establishing prohibitions and restrictions on proprietary trading and on investments in or relationships with covered funds, and explaining the statute's requirements.

(c) *Scope.* This part implements section 13 of the Bank Holding Company Act with respect to banking entities for which the OCC is authorized to issue regulations under section 13(b)(2) of the Bank Holding Company Act (12 U.S.C. 1851(b)(2)) and take actions under section 13(e) of that Act (12 U.S.C. 1851(e)). These include national banks, Federal branches and Federal agencies of foreign banks, Federal savings associations, Federal savings banks, and any of their respective subsidiaries (except a subsidiary for which there is a different primary financial regulatory agency, as that term is defined in this part), but do not include such entities to the extent they are not within the definition of banking entity in § 44.2(c).

(d) *Relationship to other authorities.* Except as otherwise provided under section 13 of the Bank Holding Company Act or this part, and notwithstanding any other provision of law, the prohibitions and restrictions under section 13 of the Bank Holding Company Act and this part shall apply to the activities and investments of a banking entity identified in paragraph (c) of this section, even if such activities and investments are authorized for the banking entity under other applicable provisions of law.

(e) *Preservation of authority.* Nothing in this part limits in any way the authority of the OCC to impose on a banking entity identified in paragraph (c) of this section additional requirements or restrictions with respect to any activity, investment, or relationship covered under section 13 of the Bank Holding Company Act or this part, or additional penalties for violation of this part provided under any other applicable provision of law

§ 44.2 Definitions.

Unless otherwise specified, for purposes of this part:

(a) *Affiliate* has the same meaning as in section 2(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(k)).

(b) *Bank holding company* has the same meaning as in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(c) *Banking entity.* (1) Except as provided in paragraph (c)(2) of this section, *banking entity* means:

(i) Any insured depository institution;

(ii) Any company that controls an insured depository institution;

(iii) Any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(iv) Any affiliate or subsidiary of any entity described in paragraphs (c)(1)(i), (ii), or (iii) of this section.

(2) Banking entity does not include:

(i) A covered fund that is not itself a banking entity under paragraphs (c)(1)(i), (ii), or (iii) of this section;

(ii) A portfolio company held under the authority contained in section 4(k)(4)(H) or (I) of the BHC Act (12 U.S.C. 1843(k)(4)(H), (I)), or any portfolio concern, as defined under 13 CFR 107.50, that is controlled by a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), so long as the portfolio company or portfolio concern is not itself a banking entity under paragraphs (c)(1)(i), (ii), or (iii) of this section; or

(iii) The FDIC acting in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(d) *Board* means the Board of Governors of the Federal Reserve System.

(e) *CFTC* means the Commodity Futures Trading Commission.

(f) *Dealer* has the same meaning as in section 3(a)(5) of the Exchange Act (15 U.S.C. 78c(a)(5)).

(g) *Depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)).

(h) *Derivative.* (1) Except as provided in paragraph (h)(2) of this section, *derivative* means:

(i) Any swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68));

(ii) Any purchase or sale of a commodity, that is not an excluded

[1224] *See* § 44.2(h), (aa).

commodity, for deferred shipment or delivery that is intended to be physically settled;

(iii) Any foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)) or foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25));

(iv) Any agreement, contract, or transaction in foreign currency described in section 2(c)(2)(C)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(C)(i));

(v) Any agreement, contract, or transaction in a commodity other than foreign currency described in section 2(c)(2)(D)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(D)(i)); and

(vi) Any transaction authorized under section 19 of the Commodity Exchange Act (7 U.S.C. 23(a) or (b));

(2) A derivative does not include:

(i) Any consumer, commercial, or other agreement, contract, or transaction that the CFTC and SEC have further defined by joint regulation, interpretation, guidance, or other action as not within the definition of swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68)); or

(ii) Any identified banking product, as defined in section 402(b) of the Legal Certainty for Bank Products Act of 2000 (7 U.S.C. 27(b)), that is subject to section 403(a) of that Act (7 U.S.C. 27a(a)).

(i) *Employee* includes a member of the immediate family of the employee.

(j) *Exchange Act* means the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

(k) *Excluded commodity* has the same meaning as in section 1a(19) of the Commodity Exchange Act (7 U.S.C. 1a(19)).

(l) *FDIC* means the Federal Deposit Insurance Corporation.

(m) *Federal banking agencies* means the Board, the Office of the Comptroller of the Currency, and the FDIC.

(n) *Foreign banking organization* has the same meaning as in section 211.21(o) of the Board's Regulation K (12 CFR 211.21(o)), but does not include a foreign bank, as defined in section 1(b)(7) of the International Banking Act of 1978 (12 U.S.C. 3101(7)), that is organized under the laws of the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands.

(o) *Foreign insurance regulator* means the insurance commissioner, or a similar official or agency, of any country other than the United States that is engaged in the supervision of insurance companies under foreign insurance law.

(p) *General account* means all of the assets of an insurance company except those allocated to one or more separate accounts.

(q) *Insurance company* means a company that is organized as an insurance company, primarily and predominantly engaged in writing insurance or reinsuring risks underwritten by insurance companies, subject to supervision as such by a state insurance regulator or a foreign insurance regulator, and not operated for the purpose of evading the provisions of section 13 of the BHC Act (12 U.S.C. 1851).

(r) *Insured depository institution,* unless otherwise indicated, has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)), but does not include:

(1) An insured depository institution that is described in section 2(c)(2)(D) of the BHC Act (12 U.S.C. 1841(c)(2)(D)); or

(2) An insured depository institution if it has, and if every company that controls it has, total consolidated assets of $10 billion or less and total trading assets and trading liabilities, on a consolidated basis, that are 5 percent or less of total consolidated assets.

(s) *Loan* means any loan, lease, extension of credit, or secured or unsecured receivable that is not a security or derivative.

(t) *Primary financial regulatory agency* has the same meaning as in section 2(12) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301(12)).

(u) *Purchase* includes any contract to buy, purchase, or otherwise acquire. For security futures products, purchase includes any contract, agreement, or transaction for future delivery. With respect to a commodity future, purchase includes any contract, agreement, or transaction for future delivery. With respect to a derivative, purchase includes the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(v) *Qualifying foreign banking organization* means a foreign banking organization that qualifies as such under section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c), or (e)).

(w) *SEC* means the Securities and Exchange Commission.

(x) *Sale* and *sell* each include any contract to sell or otherwise dispose of. For security futures products, such terms include any contract, agreement, or transaction for future delivery. With respect to a commodity future, such terms include any contract, agreement, or transaction for future delivery. With respect to a derivative, such terms include the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(y) *Security* has the meaning specified in section 3(a)(10) of the Exchange Act (15 U.S.C. 78c(a)(10)).

(z) *Security-based swap dealer* has the same meaning as in section 3(a)(71) of the Exchange Act (15 U.S.C. 78c(a)(71)).

(aa) *Security future* has the meaning specified in section 3(a)(55) of the Exchange Act (15 U.S.C. 78c(a)(55)).

(bb) *Separate account* means an account established and maintained by an insurance company in connection with one or more insurance contracts to hold assets that are legally segregated from the insurance company's other assets, under which income, gains, and losses, whether or not realized, from assets allocated to such account, are, in accordance with the applicable contract, credited to or charged against such account without regard to other income, gains, or losses of the insurance company.

(cc) *State* means any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(dd) *Subsidiary* has the same meaning as in section 2(d) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(d)).

(ee) *State insurance regulator* means the insurance commissioner, or a similar official or agency, of a State that is engaged in the supervision of insurance companies under State insurance law.

(ff) *Swap dealer* has the same meaning as in section 1(a)(49) of the Commodity Exchange Act (7 U.S.C. 1a(49)).

Subpart B—Proprietary Trading

§ 44.3 Prohibition on proprietary trading.

(a) *Prohibition.* Except as otherwise provided in this subpart, a banking entity may not engage in proprietary trading. *Proprietary trading* means engaging as principal for the trading account of the banking entity in any purchase or sale of one or more financial instruments.

(b) *Definition of trading account.* (1) Trading account means any account that is used by a banking entity to:

(i) Purchase or sell one or more financial instruments principally for the purpose of:

(A) Short-term resale;

(B) Benefitting from actual or expected short-term price movements;

(C) Realizing short-term arbitrage profits; or

(D) Hedging one or more positions resulting from the purchases or sales of financial instruments described in paragraphs (b)(1)(i)(A), (B), or (C) of this section;

(ii) Purchase or sell one or more financial instruments that are both market risk capital rule covered positions and trading positions (or hedges of other market risk capital rule covered positions), if the banking entity, or any affiliate of the banking entity, is an insured depository institution, bank holding company, or savings and loan holding company, and calculates risk-based capital ratios under the market risk capital rule; or

(iii) Purchase or sell one or more financial instruments for any purpose, if the banking entity:

(A) Is licensed or registered, or is required to be licensed or registered, to engage in the business of a dealer, swap dealer, or security-based swap dealer, to the extent the instrument is purchased or sold in connection with the activities that require the banking entity to be licensed or registered as such; or

(B) Is engaged in the business of a dealer, swap dealer, or security-based swap dealer outside of the United States, to the extent the instrument is purchased or sold in connection with the activities of such business.

(2) *Rebuttable presumption for certain purchases and sales.* The purchase (or sale) of a financial instrument by a banking entity shall be presumed to be for the trading account of the banking entity under paragraph (b)(1)(i) of this section if the banking entity holds the financial instrument for fewer than sixty days or substantially transfers the risk of the financial instrument within sixty days of the purchase (or sale), unless the banking entity can demonstrate, based on all relevant facts and circumstances, that the banking entity did not purchase (or sell) the financial instrument principally for any of the purposes described in paragraph (b)(1)(i) of this section.

(c) *Financial instrument.* (1) *Financial instrument* means:

(i) A security, including an option on a security;

(ii) A derivative, including an option on a derivative; or

(iii) A contract of sale of a commodity for future delivery, or option on a contract of sale of a commodity for future delivery.

(2) A financial instrument does not include:

(i) A loan;

(ii) A commodity that is not:

(A) An excluded commodity (other than foreign exchange or currency);

(B) A derivative;

(C) A contract of sale of a commodity for future delivery; or

(D) An option on a contract of sale of a commodity for future delivery; or

(iii) Foreign exchange or currency.

(d) *Proprietary trading.* Proprietary trading does not include:

(1) Any purchase or sale of one or more financial instruments by a banking entity that arises under a repurchase or reverse repurchase agreement pursuant to which the banking entity has simultaneously agreed, in writing, to both purchase and sell a stated asset, at stated prices, and on stated dates or on demand with the same counterparty;

(2) Any purchase or sale of one or more financial instruments by a banking entity that arises under a transaction in which the banking entity lends or borrows a security temporarily to or from another party pursuant to a written securities lending agreement under which the lender retains the economic interests of an owner of such security, and has the right to terminate the transaction and to recall the loaned security on terms agreed by the parties;

(3) Any purchase or sale of a security by a banking entity for the purpose of liquidity management in accordance with a documented liquidity management plan of the banking entity that:

(i) Specifically contemplates and authorizes the particular securities to be used for liquidity management purposes, the amount, types, and risks of these securities that are consistent with liquidity management, and the liquidity circumstances in which the particular securities may or must be used;

(ii) Requires that any purchase or sale of securities contemplated and authorized by the plan be principally for the purpose of managing the liquidity of the banking entity, and not for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging a position taken for such short-term purposes;

(iii) Requires that any securities purchased or sold for liquidity management purposes be highly liquid and limited to securities the market, credit, and other risks of which the banking entity does not reasonably expect to give rise to appreciable profits or losses as a result of short-term price movements;

(iv) Limits any securities purchased or sold for liquidity management purposes, together with any other instruments purchased or sold for such purposes, to an amount that is consistent with the banking entity's near-term funding needs, including deviations from normal operations of the banking entity or any affiliate thereof, as estimated and documented pursuant to methods specified in the plan;

(v) Includes written policies and procedures, internal controls, analysis, and independent testing to ensure that the purchase and sale of securities that are not permitted under §§ 44.6(a) or (b) of this subpart are for the purpose of liquidity management and in accordance with the liquidity management plan described in paragraph (d)(3) of this section; and

(vi) Is consistent with the OCC's supervisory requirements, guidance, and expectations regarding liquidity management;

(4) Any purchase or sale of one or more financial instruments by a banking entity that is a derivatives clearing organization or a clearing agency in connection with clearing financial instruments;

(5) Any excluded clearing activities by a banking entity that is a member of a clearing agency, a member of a derivatives clearing organization, or a member of a designated financial market utility;

(6) Any purchase or sale of one or more financial instruments by a banking entity, so long as:

(i) The purchase (or sale) satisfies an existing delivery obligation of the banking entity or its customers, including to prevent or close out a failure to deliver, in connection with delivery, clearing, or settlement activity; or

(ii) The purchase (or sale) satisfies an obligation of the banking entity in connection with a judicial, administrative, self-regulatory organization, or arbitration proceeding;

(7) Any purchase or sale of one or more financial instruments by a banking entity that is acting solely as agent, broker, or custodian;

(8) Any purchase or sale of one or more financial instruments by a banking entity through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity that is established and administered in accordance with the law of the United

States or a foreign sovereign, if the purchase or sale is made directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity; or

(9) Any purchase or sale of one or more financial instruments by a banking entity in the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the financial instrument as soon as practicable, and in no event may the banking entity retain such instrument for longer than such period permitted by the OCC.

(e) *Definition of other terms related to proprietary trading.* For purposes of this subpart:

(1) *Anonymous* means that each party to a purchase or sale is unaware of the identity of the other party(ies) to the purchase or sale.

(2) *Clearing agency* has the same meaning as in section 3(a)(23) of the Exchange Act (15 U.S.C. 78c(a)(23)).

(3) *Commodity* has the same meaning as in section 1a(9) of the Commodity Exchange Act (7 U.S.C. 1a(9)), except that a commodity does not include any security;

(4) *Contract of sale of a commodity for future delivery* means a contract of sale (as that term is defined in section 1a(13) of the Commodity Exchange Act (7 U.S.C. 1a(13)) for future delivery (as that term is defined in section 1a(27) of the Commodity Exchange Act (7 U.S.C. 1a(27))).

(5) *Derivatives clearing organization* means:

(i) A derivatives clearing organization registered under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1);

(ii) A derivatives clearing organization that, pursuant to CFTC regulation, is exempt from the registration requirements under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1); or

(iii) A foreign derivatives clearing organization that, pursuant to CFTC regulation, is permitted to clear for a foreign board of trade that is registered with the CFTC.

(6) *Exchange,* unless the context otherwise requires, means any designated contract market, swap execution facility, or foreign board of trade registered with the CFTC, or, for purposes of securities or security-based swaps, an exchange, as defined under section 3(a)(1) of the Exchange Act (15 U.S.C. 78c(a)(1)), or security-based swap execution facility, as defined under section 3(a)(77) of the Exchange Act (15 U.S.C. 78c(a)(77)).

(7) *Excluded clearing activities* means:

(i) With respect to customer transactions cleared on a derivatives clearing organization, a clearing agency, or a designated financial market utility, any purchase or sale necessary to correct trading errors made by or on behalf of a customer provided that such purchase or sale is conducted in accordance with, for transactions cleared on a derivatives clearing organization, the Commodity Exchange Act, CFTC regulations, and the rules or procedures of the derivatives clearing organization, or, for transactions cleared on a clearing agency, the rules or procedures of the clearing agency, or, for transactions cleared on a designated financial market utility that is neither a derivatives clearing organization nor a clearing agency, the rules or procedures of the designated financial market utility;

(ii) Any purchase or sale in connection with and related to the management of a default or threatened imminent default of a customer provided that such purchase or sale is conducted in accordance with, for transactions cleared on a derivatives clearing organization, the Commodity Exchange Act, CFTC regulations, and the rules or procedures of the derivatives clearing organization, or, for transactions cleared on a clearing agency, the rules or procedures of the clearing agency, or, for transactions cleared on a designated financial market utility that is neither a derivatives clearing organization nor a clearing agency, the rules or procedures of the designated financial market utility;

(iii) Any purchase or sale in connection with and related to the management of a default or threatened imminent default of a member of a clearing agency, a member of a derivatives clearing organization, or a member of a designated financial market utility;

(iv) Any purchase or sale in connection with and related to the management of the default or threatened default of a clearing agency, a derivatives clearing organization, or a designated financial market utility; and

(v) Any purchase or sale that is required by the rules or procedures of a clearing agency, a derivatives clearing organization, or a designated financial market utility to mitigate the risk to the clearing agency, derivatives clearing organization, or designated financial market utility that would result from the clearing by a member of security-based swaps that reference the member or an affiliate of the member.

(8) *Designated financial market utility* has the same meaning as in section 803(4) of the Dodd-Frank Act (12 U.S.C. 5462(4)).

(9) *Issuer* has the same meaning as in section 2(a)(4) of the Securities Act of 1933 (15 U.S.C. 77b(a)(4)).

(10) *Market risk capital rule covered position and trading position* means a financial instrument that is both a covered position and a trading position, as those terms are respectively defined:

(i) In the case of a banking entity that is a bank holding company, savings and loan holding company, or insured depository institution, under the market risk capital rule that is applicable to the banking entity; and

(ii) In the case of a banking entity that is affiliated with a bank holding company or savings and loan holding company, other than a banking entity to which a market risk capital rule is applicable, under the market risk capital rule that is applicable to the affiliated bank holding company or savings and loan holding company.

(11) *Market risk capital rule* means the market risk capital rule that is contained in subpart F of 12 CFR part 3, 12 CFR parts 208 and 225, or 12 CFR part 324, as applicable.

(12) *Municipal security* means a security that is a direct obligation of or issued by, or an obligation guaranteed as to principal or interest by, a State or any political subdivision thereof, or any agency or instrumentality of a State or any political subdivision thereof, or any municipal corporate instrumentality of one or more States or political subdivisions thereof.

(13) *Trading desk* means the smallest discrete unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof.

§ 44.4 Permitted underwriting and market making-related activities.

(a) *Underwriting activities*—(1) *Permitted underwriting activities.* The prohibition contained in § 44.3(a) does not apply to a banking entity's underwriting activities conducted in accordance with this paragraph (a).

(2) *Requirements.* The underwriting activities of a banking entity are permitted under paragraph (a)(1) of this section only if:

(i) The banking entity is acting as an underwriter for a distribution of securities and the trading desk's underwriting position is related to such distribution;

(ii) The amount and type of the securities in the trading desk's underwriting position are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, and reasonable efforts are made to sell or otherwise reduce the underwriting position within a reasonable period, taking into account the liquidity, maturity, and depth of the market for the relevant type of security;

(iii) The banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (a) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The products, instruments or exposures each trading desk may purchase, sell, or manage as part of its underwriting activities;

(B) Limits for each trading desk, based on the nature and amount of the trading desk's underwriting activities, including the reasonably expected near term demands of clients, customers, or counterparties, on the:

(*1*) Amount, types, and risk of its underwriting position;

(*2*) Level of exposures to relevant risk factors arising from its underwriting position; and

(*3*) Period of time a security may be held;

(C) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(D) Authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval;

(iv) The compensation arrangements of persons performing the activities described in this paragraph (a) are designed not to reward or incentivize prohibited proprietary trading; and

(v) The banking entity is licensed or registered to engage in the activity described in this paragraph (a) in accordance with applicable law.

(3) *Definition of distribution.* For purposes of this paragraph (a), a *distribution* of securities means:

(i) An offering of securities, whether or not subject to registration under the Securities Act of 1933, that is distinguished from ordinary trading transactions by the presence of special selling efforts and selling methods; or

(ii) An offering of securities made pursuant to an effective registration statement under the Securities Act of 1933.

(4) *Definition of underwriter.* For purposes of this paragraph (a), *underwriter* means:

(i) A person who has agreed with an issuer or selling security holder to:

(A) Purchase securities from the issuer or selling security holder for distribution;

(B) Engage in a distribution of securities for or on behalf of the issuer or selling security holder; or

(C) Manage a distribution of securities for or on behalf of the issuer or selling security holder; or

(ii) A person who has agreed to participate or is participating in a distribution of such securities for or on behalf of the issuer or selling security holder.

(5) *Definition of selling security holder.* For purposes of this paragraph (a), *selling security holder* means any person, other than an issuer, on whose behalf a distribution is made.

(6) *Definition of underwriting position.* For purposes of this paragraph (a), *underwriting position* means the long or short positions in one or more securities held by a banking entity or its affiliate, and managed by a particular trading desk, in connection with a particular distribution of securities for which such banking entity or affiliate is acting as an underwriter.

(7) *Definition of client, customer, and counterparty.* For purposes of this paragraph (a), the terms *client, customer, and counterparty,* on a collective or individual basis, refer to market participants that may transact with the banking entity in connection with a particular distribution for which the banking entity is acting as underwriter.

(b) *Market making-related activities*—(1) *Permitted market making-related activities.* The prohibition contained in § 44.3(a) does not apply to a banking entity's market making-related activities conducted in accordance with this paragraph (b).

(2) *Requirements.* The market making-related activities of a banking entity are permitted under paragraph (b)(1) of this section only if:

(i) The trading desk that establishes and manages the financial exposure routinely stands ready to purchase and sell one or more types of financial instruments related to its financial exposure and is willing and available to quote, purchase and sell, or otherwise enter into long and short positions in those types of financial instruments for its own account, in commercially reasonable amounts and throughout market cycles on a basis appropriate for the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(ii) The amount, types, and risks of the financial instruments in the trading desk's market-maker inventory are designed not to exceed, on an ongoing basis, the reasonably expected near term demands of clients, customers, or counterparties, based on:

(A) The liquidity, maturity, and depth of the market for the relevant types of financial instrument(s); and

(B) Demonstrable analysis of historical customer demand, current inventory of financial instruments, and market and other factors regarding the amount, types, and risks, of or associated with financial instruments in which the trading desk makes a market, including through block trades;

(iii) The banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (b) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The financial instruments each trading desk stands ready to purchase and sell in accordance with paragraph (b)(2)(i) of this section;

(B) The actions the trading desk will take to demonstrably reduce or otherwise significantly mitigate promptly the risks of its financial exposure consistent with the limits required under paragraph (b)(2)(iii)(C) of this section; the products, instruments, and exposures each trading desk may use for risk management purposes; the techniques and strategies each trading desk may use to manage the risks of its market making-related activities and inventory; and the process, strategies, and personnel responsible for ensuring that the actions taken by the trading desk to mitigate these risks are and continue to be effective;

(C) Limits for each trading desk, based on the nature and amount of the trading desk's market making-related activities, that address the factors prescribed by paragraph (b)(2)(ii) of this section, on:

(*1*) The amount, types, and risks of its market-maker inventory;

(*2*) The amount, types, and risks of the products, instruments, and exposures the trading desk may use for risk management purposes;

(*3*) The level of exposures to relevant risk factors arising from its financial exposure; and

(*4*) The period of time a financial instrument may be held;

(D) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(E) Authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis that the basis for any temporary or permanent increase to a trading desk's limit(s) is consistent with the requirements of this paragraph (b), and independent review of such demonstrable analysis and approval;

(iv) To the extent that any limit identified pursuant to paragraph (b)(2)(iii)(C) of this section is exceeded, the trading desk takes action to bring the trading desk into compliance with the limits as promptly as possible after the limit is exceeded;

(v) The compensation arrangements of persons performing the activities described in this paragraph (b) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in activity described in this paragraph (b) in accordance with applicable law.

(3) *Definition of client, customer, and counterparty.* For purposes of paragraph (b) of this section, the terms *client, customer, and counterparty,* on a collective or individual basis refer to market participants that make use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services, provided that:

(i) A trading desk or other organizational unit of another banking entity is not a client, customer, or counterparty of the trading desk if that other entity has trading assets and liabilities of $50 billion or more as measured in accordance with § 44.20(d)(1) of subpart D, unless:

(A) The trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk for purposes of paragraph (b)(2) of this section; or

(B) The purchase or sale by the trading desk is conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants.

(4) *Definition of financial exposure.* For purposes of this paragraph (b), *financial exposure* means the aggregate risks of one or more financial instruments and any associated loans, commodities, or foreign exchange or currency, held by a banking entity or its affiliate and managed by a particular trading desk as part of the trading desk's market making-related activities.

(5) *Definition of market-maker inventory.* For the purposes of this paragraph (b), *market-maker inventory* means all of the positions in the financial instruments for which the trading desk stands ready to make a market in accordance with paragraph (b)(2)(i) of this section, that are managed by the trading desk, including the trading desk's open positions or exposures arising from open transactions.

§ 44.5 Permitted risk-mitigating hedging activities.

(a) *Permitted risk-mitigating hedging activities.* The prohibition contained in § 44.3(a) does not apply to the risk-mitigating hedging activities of a banking entity in connection with and related to individual or aggregated positions, contracts, or other holdings of the banking entity and designed to reduce the specific risks to the banking entity in connection with and related to such positions, contracts, or other holdings.

(b) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under paragraph (a) of this section only if:

(1) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(i) Reasonably designed written policies and procedures regarding the positions, techniques and strategies that may be used for hedging, including documentation indicating what positions, contracts or other holdings a particular trading desk may use in its risk-mitigating hedging activities, as well as position and aging limits with respect to such positions, contracts or other holdings;

(ii) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(iii) The conduct of analysis, including correlation analysis, and independent testing designed to ensure that the positions, techniques and strategies that may be used for hedging may reasonably be expected to demonstrably reduce or otherwise significantly mitigate the specific, identifiable risk(s) being hedged, and such correlation analysis demonstrates that the hedging activity demonstrably reduces or otherwise significantly mitigates the specific, identifiable risk(s) being hedged;

(2) The risk-mitigating hedging activity:

(i) Is conducted in accordance with the written policies, procedures, and internal controls required under this section;

(ii) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof;

(iii) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section;

(iv) Is subject to continuing review, monitoring and management by the banking entity that:

(A) Is consistent with the written hedging policies and procedures required under paragraph (b)(1) of this section;

(B) Is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates the specific, identifiable risks that develop over time from the risk-mitigating hedging activities undertaken under this section and the underlying positions, contracts, and other holdings of the banking entity, based upon the facts and circumstances of the underlying and hedging positions, contracts and other holdings of the banking entity and the risks and liquidity thereof; and

(C) Requires ongoing recalibration of the hedging activity by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(2) of this section and is not prohibited proprietary trading; and

(3) The compensation arrangements of persons performing risk-mitigating hedging activities are designed not to reward or incentivize prohibited proprietary trading.

(c) *Documentation requirement*—(1) A banking entity must comply with the requirements of paragraphs (c)(2) and (3) of this section with respect to any purchase or sale of financial instruments made in reliance on this section for risk-mitigating hedging purposes that is:

(i) Not established by the specific trading desk establishing or responsible for the underlying positions, contracts, or other holdings the risks of which the hedging activity is designed to reduce;

(ii) Established by the specific trading desk establishing or responsible for the underlying positions, contracts, or other holdings the risks of which the purchases or sales are designed to reduce, but that is effected through a financial instrument, exposure, technique, or strategy that is not specifically identified in the trading desk's written policies and procedures established under paragraph (b)(1) of this section or under § 44.4(b)(2)(iii)(B) of this subpart as a product, instrument, exposure, technique, or strategy such trading desk may use for hedging; or

(iii) Established to hedge aggregated positions across two or more trading desks.

(2) In connection with any purchase or sale identified in paragraph (c)(1) of this section, a banking entity must, at a minimum, and contemporaneously with the purchase or sale, document:

(i) The specific, identifiable risk(s) of the identified positions, contracts, or other holdings of the banking entity that the purchase or sale is designed to reduce;

(ii) The specific risk-mitigating strategy that the purchase or sale is designed to fulfill; and

(iii) The trading desk or other business unit that is establishing and responsible for the hedge.

(3) A banking entity must create and retain records sufficient to demonstrate compliance with the requirements of this paragraph (c) for a period that is no less than five years in a form that allows the banking entity to promptly produce such records to the OCC on request, or such longer period as required under other law or this part.

§ 44.6 Other permitted proprietary trading activities.

(a) *Permitted trading in domestic government obligations.* The prohibition contained in § 44.3(a) does not apply to the purchase or sale by a banking entity of a financial instrument that is:

(1) An obligation of, or issued or guaranteed by, the United States;

(2) An obligation, participation, or other instrument of, or issued or guaranteed by, an agency of the United States, the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, a Federal Home Loan Bank, the Federal Agricultural Mortgage Corporation or a Farm Credit System institution chartered under and subject to the provisions of the Farm Credit Act of 1971 (12 U.S.C. 2001 *et seq.*);

(3) An obligation of any State or any political subdivision thereof, including any municipal security; or

(4) An obligation of the FDIC, or any entity formed by or on behalf of the FDIC for purpose of facilitating the disposal of assets acquired or held by the FDIC in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(b) *Permitted trading in foreign government obligations*—(1) *Affiliates of foreign banking entities in the United States.* The prohibition contained in § 44.3(a) does not apply to the purchase or sale of a financial instrument that is an obligation of, or issued or guaranteed by, a foreign sovereign (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of such foreign sovereign, by a banking entity, so long as:

(i) The banking entity is organized under or is directly or indirectly controlled by a banking entity that is organized under the laws of a foreign sovereign and is not directly or indirectly controlled by a top-tier banking entity that is organized under the laws of the United States;

(ii) The financial instrument is an obligation of, or issued or guaranteed by, the foreign sovereign under the laws of which the foreign banking entity referred to in paragraph (b)(1)(i) of this section is organized (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign; and

(iii) The purchase or sale as principal is not made by an insured depository institution.

(2) *Foreign affiliates of a U.S. banking entity.* The prohibition contained in § 44.3(a) does not apply to the purchase or sale of a financial instrument that is an obligation of, or issued or guaranteed by, a foreign sovereign (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign, by a foreign entity that is owned or controlled by a banking entity organized or established under the laws of the United States or any State, so long as:

(i) The foreign entity is a foreign bank, as defined in section 211.2(j) of the Board's Regulation K (12 CFR 211.2(j)), or is regulated by the foreign sovereign as a securities dealer;

(ii) The financial instrument is an obligation of, or issued or guaranteed by, the foreign sovereign under the laws of which the foreign entity is organized (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign; and

(iii) The financial instrument is owned by the foreign entity and is not financed by an affiliate that is located in the United States or organized under the laws of the United States or of any State.

(c) *Permitted trading on behalf of customers*—(1) *Fiduciary transactions.* The prohibition contained in § 44.3(a) does not apply to the purchase or sale of financial instruments by a banking entity acting as trustee or in a similar fiduciary capacity, so long as:

(i) The transaction is conducted for the account of, or on behalf of, a customer; and

(ii) The banking entity does not have or retain beneficial ownership of the financial instruments.

(2) *Riskless principal transactions.* The prohibition contained in § 44.3(a) does not apply to the purchase or sale of financial instruments by a banking entity acting as riskless principal in a transaction in which the banking entity, after receiving an order to purchase (or sell) a financial instrument from a customer, purchases (or sells) the financial instrument for its own account to offset a contemporaneous sale to (or purchase from) the customer.

(d) *Permitted trading by a regulated insurance company.* The prohibition contained in § 44.3(a) does not apply to the purchase or sale of financial instruments by a banking entity that is an insurance company or an affiliate of an insurance company if:

(1) The insurance company or its affiliate purchases or sells the financial instruments solely for:

(i) The general account of the insurance company; or

(ii) A separate account established by the insurance company;

(2) The purchase or sale is conducted in compliance with, and subject to, the insurance company investment laws, regulations, and written guidance of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law, regulation, or written guidance described in paragraph (d)(2) of this

section is insufficient to protect the safety and soundness of the covered banking entity, or the financial stability of the United States.

(e) *Permitted trading activities of foreign banking entities.* (1) The prohibition contained in § 44.3(a) does not apply to the purchase or sale of financial instruments by a banking entity if:

(i) The banking entity is not organized or directly or indirectly controlled by a banking entity that is organized under the laws of the United States or of any State;

(ii) The purchase or sale by the banking entity is made pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act; and

(iii) The purchase or sale meets the requirements of paragraph (e)(3) of this section.

(2) A purchase or sale of financial instruments by a banking entity is made pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act for purposes of paragraph (e)(1)(ii) of this section only if:

(i) The purchase or sale is conducted in accordance with the requirements of paragraph (e) of this section; and

(ii)(A) With respect to a banking entity that is a foreign banking organization, the banking entity meets the qualifying foreign banking organization requirements of section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c) or (e)), as applicable; or

(B) With respect to a banking entity that is not a foreign banking organization, the banking entity is not organized under the laws of the United States or of any State and the banking entity, on a fully-consolidated basis, meets at least two of the following requirements:

(*1*) Total assets of the banking entity held outside of the United States exceed total assets of the banking entity held in the United States;

(*2*) Total revenues derived from the business of the banking entity outside of the United States exceed total revenues derived from the business of the banking entity in the United States; or

(*3*) Total net income derived from the business of the banking entity outside of the United States exceeds total net income derived from the business of the banking entity in the United States.

(3) A purchase or sale by a banking entity is permitted for purposes of this paragraph (e) if:

(i) The banking entity engaging as principal in the purchase or sale (including any personnel of the banking entity or its affiliate that arrange, negotiate or execute such purchase or sale) is not located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to purchase or sell as principal is not located in the United States or organized under the laws of the United States or of any State;

(iii) The purchase or sale, including any transaction arising from risk-mitigating hedging related to the instruments purchased or sold, is not accounted for as principal directly or on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State;

(iv) No financing for the banking entity's purchases or sales is provided, directly or indirectly, by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State; and

(v) The purchase or sale is not conducted with or through any U.S. entity, other than:

(A) A purchase or sale with the foreign operations of a U.S. entity if no personnel of such U.S. entity that are located in the United States are involved in the arrangement, negotiation, or execution of such purchase or sale;

(B) A purchase or sale with an unaffiliated market intermediary acting as principal, provided the purchase or sale is promptly cleared and settled through a clearing agency or derivatives clearing organization acting as a central counterparty; or

(C) A purchase or sale through an unaffiliated market intermediary acting as agent, provided the purchase or sale is conducted anonymously on an exchange or similar trading facility and is promptly cleared and settled through a clearing agency or derivatives clearing organization acting as a central counterparty.

(4) For purposes of this paragraph (e), a U.S. entity is any entity that is, or is controlled by, or is acting on behalf of, or at the direction of, any other entity that is, located in the United States or organized under the laws of the United States or of any State.

(5) For purposes of this paragraph (e), a U.S. branch, agency, or subsidiary of a foreign banking entity is considered to be located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(6) For purposes of this paragraph (e), *unaffiliated market intermediary* means an unaffiliated entity, acting as an intermediary, that is:

(i) A broker or dealer registered with the SEC under section 15 of the Exchange Act or exempt from registration or excluded from regulation as such;

(ii) A swap dealer registered with the CFTC under section 4s of the Commodity Exchange Act or exempt from registration or excluded from regulation as such;

(iii) A security-based swap dealer registered with the SEC under section 15F of the Exchange Act or exempt from registration or excluded from regulation as such; or

(iv) A futures commission merchant registered with the CFTC under section 4f of the Commodity Exchange Act or exempt from registration or excluded from regulation as such.

§ 44.7 Limitations on permitted proprietary trading activities.

(a) No transaction, class of transactions, or activity may be deemed permissible under §§ 44.4 through 44.6 if the transaction, class of transactions, or activity would:

(1) Involve or result in a material conflict of interest between the banking entity and its clients, customers, or counterparties;

(2) Result, directly or indirectly, in a material exposure by the banking entity to a high-risk asset or a high-risk trading strategy; or

(3) Pose a threat to the safety and soundness of the banking entity or to the financial stability of the United States.

(b) *Definition of material conflict of interest.* (1) For purposes of this section, a material conflict of interest between a banking entity and its clients, customers, or counterparties exists if the banking entity engages in any transaction, class of transactions, or activity that would involve or result in the banking entity's interests being materially adverse to the interests of its client, customer, or counterparty with respect to such transaction, class of transactions, or activity, and the banking entity has not taken at least one of the actions in paragraph (b)(2) of this section.

(2) Prior to effecting the specific transaction or class or type of transactions, or engaging in the specific activity, the banking entity:

(i) *Timely and effective disclosure.* (A) Has made clear, timely, and effective disclosure of the conflict of interest, together with other necessary information, in reasonable detail and in a manner sufficient to permit a reasonable client, customer, or counterparty to meaningfully understand the conflict of interest; and

(B) Such disclosure is made in a manner that provides the client, customer, or counterparty the opportunity to negate, or substantially mitigate, any materially adverse effect on the client, customer, or counterparty created by the conflict of interest; or

(ii) *Information barriers.* Has established, maintained, and enforced information barriers that are memorialized in written policies and procedures, such as physical separation of personnel, or functions, or limitations on types of activity, that are reasonably designed, taking into consideration the nature of the banking entity's business, to prevent the conflict of interest from involving or resulting in a materially adverse effect on a client, customer, or counterparty. A banking entity may not rely on such information barriers if, in the case of any specific transaction, class or type of transactions or activity, the banking entity knows or should reasonably know that, notwithstanding the banking entity's establishment of information barriers, the conflict of interest may involve or result in a materially adverse effect on a client, customer, or counterparty.

(c) *Definition of high-risk asset and high-risk trading strategy.* For purposes of this section:

(1) *High-risk asset* means an asset or group of related assets that would, if held by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

(2) *High-risk trading strategy* means a trading strategy that would, if engaged in by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

§§ 44.8–44.9 [Reserved]

Subpart C—Covered Funds Activities and Investments

§ 44.10 Prohibition on acquiring or retaining an ownership interest in and having certain relationships with a covered fund.

(a) *Prohibition.* (1) Except as otherwise provided in this subpart, a banking entity may not, as principal, directly or indirectly, acquire or retain any ownership interest in or sponsor a covered fund.

(2) Paragraph (a)(1) of this section does not include acquiring or retaining an ownership interest in a covered fund by a banking entity:

(i) Acting solely as agent, broker, or custodian, so long as;

(A) The activity is conducted for the account of, or on behalf of, a customer; and

(B) The banking entity and its affiliates do not have or retain beneficial ownership of such ownership interest;

(ii) Through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity (or an affiliate thereof) that is established and administered in accordance with the law of the United States or a foreign sovereign, if the ownership interest is held or controlled directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity (or an affiliate thereof);

(iii) In the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the ownership interest as soon as practicable, and in no event may the banking entity retain such ownership interest for longer than such period permitted by the OCC; or

(iv) On behalf of customers as trustee or in a similar fiduciary capacity for a customer that is not a covered fund, so long as:

(A) The activity is conducted for the account of, or on behalf of, the customer; and

(B) The banking entity and its affiliates do not have or retain beneficial ownership of such ownership interest.

(b) *Definition of covered fund.* (1) Except as provided in paragraph (c) of this section, covered fund means:

(i) An issuer that would be an investment company, as defined in the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*), *but for* section 3(c)(1) or 3(c)(7) of that Act (15 U.S.C. 80a–3(c)(1) or (7));

(ii) Any commodity pool under section 1a(10) of the Commodity Exchange Act (7 U.S.C. 1a(10)) for which:

(A) The commodity pool operator has claimed an exemption under 17 CFR 4.7; or

(B)(*1*) A commodity pool operator is registered with the CFTC as a commodity pool operator in connection with the operation of the commodity pool;

(*2*) Substantially all participation units of the commodity pool are owned by qualified eligible persons under 17 CFR 4.7(a)(2) and (3); and

(*3*) Participation units of the commodity pool have not been publicly offered to persons who are not qualified eligible persons under 17 CFR 4.7(a)(2) and (3); or

(iii) For any banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State, an entity that:

(A) Is organized or established outside the United States and the ownership interests of which are offered and sold solely outside the United States;

(B) Is, or holds itself out as being, an entity or arrangement that raises money from investors primarily for the purpose of investing in securities for resale or other disposition or otherwise trading in securities; and

(C)(*1*) Has as its sponsor that banking entity (or an affiliate thereof); or

(*2*) Has issued an ownership interest that is owned directly or indirectly by that banking entity (or an affiliate thereof).

(2) An issuer shall not be deemed to be a covered fund under paragraph (b)(1)(iii) of this section if, were the issuer subject to U.S. securities laws, the issuer could rely on an exclusion or exemption from the definition of ''investment company'' under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) other than the exclusions contained in section 3(c)(1) and 3(c)(7) of that Act.

(3) For purposes of paragraph (b)(1)(iii) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(c) Notwithstanding paragraph (b) of this section, unless the appropriate Federal banking agencies, the SEC, and the CFTC jointly determine otherwise, a covered fund does not include:

(1) *Foreign public funds.* (i) Subject to paragraphs (ii) and (iii) below, an issuer that:

(A) Is organized or established outside of the United States;

(B) Is authorized to offer and sell ownership interests to retail investors in the issuer's home jurisdiction; and

(C) Sells ownership interests predominantly through one or more public offerings outside of the United States.

(ii) With respect to a banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State and any issuer for which such banking entity acts as sponsor, the sponsoring banking entity may not rely on the exemption in paragraph (c)(1)(i) of this section for such issuer unless ownership interests in the issuer are sold predominantly to persons other than:

(A) Such sponsoring banking entity;

(B) Such issuer;

(C) Affiliates of such sponsoring banking entity or such issuer; and

(D) Directors and employees of such entities.

(iii) For purposes of paragraph (c)(1)(i)(C) of this section, the term ''public offering'' means a distribution (as defined in § 44.4(a)(3) of subpart B) of securities in any jurisdiction outside the United States to investors, including retail investors, provided that:

(A) The distribution complies with all applicable requirements in the jurisdiction in which such distribution is being made;

(B) The distribution does not restrict availability to investors having a minimum level of net worth or net investment assets; and

(C) The issuer has filed or submitted, with the appropriate regulatory authority in such jurisdiction, offering disclosure documents that are publicly available.

(2) *Wholly-owned subsidiaries.* An entity, all of the outstanding ownership interests of which are owned directly or indirectly by the banking entity (or an affiliate thereof), except that:

(i) Up to five percent of the entity's outstanding ownership interests, less any amounts outstanding under paragraph (c)(2)(ii) of this section, may be held by employees or directors of the banking entity or such affiliate (including former employees or directors if their ownership interest was acquired while employed by or in the service of the banking entity); and

(ii) Up to 0.5 percent of the entity's outstanding ownership interests may be held by a third party if the ownership interest is acquired or retained by the third party for the purpose of establishing corporate separateness or addressing bankruptcy, insolvency, or similar concerns.

(3) *Joint ventures.* A joint venture between a banking entity or any of its affiliates and one or more unaffiliated persons, provided that the joint venture:

(i) Is comprised of no more than 10 unaffiliated co-venturers;

(ii) Is in the business of engaging in activities that are permissible for the banking entity or affiliate, other than investing in securities for resale or other disposition; and

(iii) Is not, and does not hold itself out as being, an entity or arrangement that raises money from investors primarily for the purpose of investing in securities for resale or other disposition or otherwise trading in securities.

(4) *Acquisition vehicles.* An issuer:

(i) Formed solely for the purpose of engaging in a *bona fide* merger or acquisition transaction; and

(ii) That exists only for such period as necessary to effectuate the transaction.

(5) *Foreign pension or retirement funds.* A plan, fund, or program providing pension, retirement, or similar benefits that is:

(i) Organized and administered outside the United States;

(ii) A broad-based plan for employees or citizens that is subject to regulation as a pension, retirement, or similar plan under the laws of the jurisdiction in which the plan, fund, or program is organized and administered; and

(iii) Established for the benefit of citizens or residents of one or more foreign sovereigns or any political subdivision thereof.

(6) *Insurance company separate accounts.* A separate account, provided that no banking entity other than the insurance company participates in the account's profits and losses.

(7) *Bank owned life insurance.* A separate account that is used solely for the purpose of allowing one or more banking entities to purchase a life insurance policy for which the banking entity or entities is beneficiary, provided that no banking entity that purchases the policy:

(i) Controls the investment decisions regarding the underlying assets or holdings of the separate account; or

(ii) Participates in the profits and losses of the separate account other than in compliance with applicable supervisory guidance regarding bank owned life insurance.

(8) *Loan securitizations*—(i) *Scope.* An issuing entity for asset-backed securities that satisfies all the conditions of this paragraph (c)(8) and the assets or holdings of which are comprised solely of:

(A) Loans as defined in § 44.2(s) of subpart A;

(B) Rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities and rights or other assets that are related or incidental to purchasing or otherwise acquiring and holding the loans, provided that each asset meets the requirements of paragraph (c)(8)(iii) of this section;

(C) Interest rate or foreign exchange derivatives that meet the requirements of paragraph (c)(8)(iv) of this section; and

(D) Special units of beneficial interest and collateral certificates that meet the requirements of paragraph (c)(8)(v) of this section.

(ii) *Impermissible assets.* For purposes of this paragraph (c)(8), the assets or holdings of the issuing entity shall not include any of the following:

(A) A security, including an asset-backed security, or an interest in an equity or debt security other than as permitted in paragraph (c)(8)(iii) of this section;

(B) A derivative, other than a derivative that meets the requirements of paragraph (c)(8)(iv) of this section; or

(C) A commodity forward contract.

(iii) *Permitted securities.* Notwithstanding paragraph (c)(8)(ii)(A) of this section, the issuing entity may hold securities if those securities are:

(A) Cash equivalents for purposes of the rights and assets in paragraph (c)(8)(i)(B) of this section; or

(B) Securities received in lieu of debts previously contracted with respect to the loans supporting the asset-backed securities.

(iv) *Derivatives.* The holdings of derivatives by the issuing entity shall be limited to interest rate or foreign exchange derivatives that satisfy all of the following conditions:

(A) The written terms of the derivative directly relate to the loans, the asset-backed securities, or the contractual rights of other assets described in paragraph (c)(8)(i)(B) of this section; and

(B) The derivatives reduce the interest rate and/or foreign exchange risks related to the loans, the asset-backed securities, or the contractual rights or other assets described in paragraph (c)(8)(i)(B) of this section.

(v) *Special units of beneficial interest and collateral certificates.* The assets or holdings of the issuing entity may include collateral certificates and special units of beneficial interest issued by a special purpose vehicle, provided that:

(A) The special purpose vehicle that issues the special unit of beneficial interest or collateral certificate meets the requirements in this paragraph (c)(8);

(B) The special unit of beneficial interest or collateral certificate is used for the sole purpose of transferring to the issuing entity for the loan securitization the economic risks and benefits of the assets that are permissible for loan securitizations under this paragraph (c)(8) and does not directly or indirectly transfer any interest in any other economic or financial exposure;

(C) The special unit of beneficial interest or collateral certificate is created solely to satisfy legal requirements or otherwise facilitate the structuring of the loan securitization; and

(D) The special purpose vehicle that issues the special unit of beneficial interest or collateral certificate and the issuing entity are established under the direction of the same entity that initiated the loan securitization.

(9) *Qualifying asset-backed commercial paper conduits.* (i) An issuing entity for asset-backed commercial paper that satisfies all of the following requirements:

(A) The asset-backed commercial paper conduit holds only:

(*1*) Loans and other assets permissible for a loan securitization under paragraph (c)(8)(i) of this section; and

(*2*) Asset-backed securities supported solely by assets that are permissible for loan securitizations under paragraph (c)(8)(i) of this section and acquired by the asset-backed commercial paper conduit as part of an initial issuance either directly from the issuing entity of the asset-backed securities or directly from an underwriter in the distribution of the asset-backed securities;

(B) The asset-backed commercial paper conduit issues only asset-backed securities, comprised of a residual interest and securities with a legal maturity of 397 days or less; and

(C) A regulated liquidity provider has entered into a legally binding commitment to provide full and unconditional liquidity coverage with respect to all of the outstanding asset-backed securities issued by the asset-backed commercial paper conduit (other than any residual interest) in the event that funds are required to redeem maturing asset-backed securities.

(ii) For purposes of this paragraph (c)(9), a regulated liquidity provider means:

(A) A depository institution, as defined in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c));

(B) A bank holding company, as defined in section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(a)), or a subsidiary thereof;

(C) A savings and loan holding company, as defined in section 10a of the Home Owners' Loan Act (12 U.S.C. 1467a), provided all or substantially all of the holding company's activities are permissible for a financial holding company under section 4(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(k)), or a subsidiary thereof;

(D) A foreign bank whose home country supervisor, as defined in § 211.21(q) of the Board's Regulation K (12 CFR 211.21(q)), has adopted capital standards consistent with the Capital Accord for the Basel Committee on banking Supervision, as amended, and that is subject to such standards, or a subsidiary thereof; or

(E) The United States or a foreign sovereign.

(10) *Qualifying covered bonds*—(i) *Scope.* An entity owning or holding a dynamic or fixed pool of loans or other assets as provided in paragraph (c)(8) of this section for the benefit of the holders of covered bonds, provided that the assets in the pool are comprised solely of assets that meet the conditions in paragraph (c)(8)(i) of this section.

(ii) *Covered bond.* For purposes of this paragraph (c)(10), a covered bond means:

(A) A debt obligation issued by an entity that meets the definition of foreign banking organization, the payment obligations of which are fully and unconditionally guaranteed by an entity that meets the conditions set forth in paragraph (c)(10)(i) of this section; or

(B) A debt obligation of an entity that meets the conditions set forth in paragraph (c)(10)(i) of this section, provided that the payment obligations are fully and unconditionally guaranteed by an entity that meets the definition of foreign banking organization and the entity is a wholly-owned subsidiary, as defined in paragraph (c)(2) of this section, of such foreign banking organization.

(11) *SBICs and public welfare investment funds.* An issuer:

(i) That is a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), or that has received from the Small Business Administration notice to proceed to qualify for a license as a small business investment company, which notice or license has not been revoked; or

(ii) The business of which is to make investments that are:

(A) Designed primarily to promote the public welfare, of the type permitted under paragraph (11) of section 5136 of the Revised Statutes of the United States (12 U.S.C. 24), including the welfare of low- and moderate-income communities or families (such as providing housing, services, or jobs); or

(B) Qualified rehabilitation expenditures with respect to a qualified rehabilitated building or certified historic structure, as such terms are defined in section 47 of the Internal Revenue Code of 1986 or a similar State historic tax credit program.

(12) *Registered investment companies and excluded entities.* An issuer:

(i) That is registered as an investment company under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8), or that is formed and operated pursuant to a written plan to become a registered investment company as described in § 44.20(e)(3) of subpart D and that complies with the requirements of section 18 of the Investment Company Act of 1940 (15 U.S.C. 80a–18);

(ii) That may rely on an exclusion or exemption from the definition of ''investment company'' under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) other than the exclusions contained in section 3(c)(1) and 3(c)(7) of that Act; or

(iii) That has elected to be regulated as a business development company pursuant to section 54(a) of that Act (15 U.S.C. 80a–53) and has not withdrawn its election, or that is formed and operated pursuant to a written plan to become a business development company as described in § 44.20(e)(3) of subpart D and that complies with the requirements of section 61 of the Investment Company Act of 1940 (15 U.S.C. 80a–60).

(13) *Issuers in conjunction with the FDIC's receivership or conservatorship operations.* An issuer that is an entity formed by or on behalf of the FDIC for the purpose of facilitating the disposal of assets acquired in the FDIC's capacity as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(14) *Other excluded issuers.* (i) Any issuer that the appropriate Federal banking agencies, the SEC, and the CFTC jointly determine the exclusion of which is consistent with the purposes of section 13 of the BHC Act.

(ii) A determination made under paragraph (c)(14)(i) of this section will be promptly made public.

(d) *Definition of other terms related to covered funds.* For purposes of this subpart:

(1) *Applicable accounting standards* means U.S. generally accepted accounting principles, or such other accounting standards applicable to a banking entity that the OCC determines are appropriate and that the banking entity uses in the ordinary course of its business in preparing its consolidated financial statements.

(2) *Asset-backed security* has the meaning specified in Section 3(a)(79) of the Exchange Act (15 U.S.C. 78c(a)(79)).

(3) *Director* has the same meaning as provided in section 215.2(d)(1) of the Board's Regulation O (12 CFR 215.2(d)(1)).

(4) *Issuer* has the same meaning as in section 2(a)(22) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(22)).

(5) *Issuing entity* means with respect to asset-backed securities the special purpose vehicle that owns or holds the pool assets underlying asset-backed securities and in whose name the asset-backed securities supported or serviced by the pool assets are issued.

(6) *Ownership interest*—(i) *Ownership interest* means any equity, partnership, or other similar interest. An ''other similar interest'' means an interest that:

(A) Has the right to participate in the selection or removal of a general partner, managing member, member of the board of directors or trustees, investment manager, investment adviser, or commodity trading advisor of the covered fund (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);

(B) Has the right under the terms of the interest to receive a share of the income, gains or profits of the covered fund;

(C) Has the right to receive the underlying assets of the covered fund after all other interests have been redeemed and/or paid in full (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);

(D) Has the right to receive all or a portion of excess spread (the positive difference, if any, between the aggregate interest payments received from the underlying assets of the covered fund and the aggregate interest paid to the holders of other outstanding interests);

(E) Provides under the terms of the interest that the amounts payable by the covered fund with respect to the interest could be reduced based on losses arising from the underlying assets of the covered fund, such as allocation of losses, write-downs or charge-offs of the outstanding principal balance, or reductions in the amount of interest due and payable on the interest;

(F) Receives income on a pass-through basis from the covered fund, or has a rate of return that is determined by reference to the performance of the underlying assets of the covered fund; or

(G) Any synthetic right to have, receive, or be allocated any of the rights in paragraphs (d)(6)(i)(A) through (F) of this section.

(ii) *Ownership interest* does not include: *Restricted profit interest.* An interest held by an entity (or an employee or former employee thereof) in a covered fund for which the entity (or employee thereof) serves as investment manager, investment adviser, commodity trading advisor, or other service provider so long as:

(A) The sole purpose and effect of the interest is to allow the entity (or employee or former employee thereof) to share in the profits of the covered fund as performance compensation for the investment management, investment advisory, commodity trading advisory, or other services provided to the covered fund by the entity (or employee or former employee thereof), provided that the entity (or employee or former employee thereof) may be obligated under the terms of such interest to return profits previously received;

(B) All such profit, once allocated, is distributed to the entity (or employee or former employee thereof) promptly after being earned or, if not so distributed, is retained by the covered fund for the sole purpose of establishing a reserve amount to satisfy contractual obligations with respect to subsequent losses of the covered fund and such undistributed profit of the entity (or employee or former employee thereof) does not share in the subsequent investment gains of the covered fund;

(C) Any amounts invested in the covered fund, including any amounts paid by the entity (or employee or former employee thereof) in connection with obtaining the restricted profit interest, are within the limits of § 44.12 of this subpart; and

(D) The interest is not transferable by the entity (or employee or former employee thereof) except to an affiliate thereof (or an employee of the banking entity or affiliate), to immediate family members, or through the intestacy, of the employee or former employee, or in connection with a sale of the business that gave rise to the restricted profit interest by the entity (or employee or former employee thereof) to an unaffiliated party that provides investment management, investment advisory, commodity trading advisory, or other services to the fund.

(7) *Prime brokerage transaction* means any transaction that would be a covered transaction, as defined in section 23A(b)(7) of the Federal Reserve Act (12 U.S.C. 371c(b)(7)), that is provided in connection with custody, clearance and settlement, securities borrowing or lending services, trade execution, financing, or data, operational, and administrative support.

(8) *Resident of the United States* means a person that is a ''U.S. person'' as defined in rule 902(k) of the SEC's Regulation S (17 CFR 230.902(k)).

(9) *Sponsor* means, with respect to a covered fund:

(i) To serve as a general partner, managing member, or trustee of a covered fund, or to serve as a commodity pool operator with respect to a covered fund as defined in (b)(1)(ii) of this section;

(ii) In any manner to select or to control (or to have employees, officers, or directors, or agents who constitute) a majority of the directors, trustees, or management of a covered fund; or

(iii) To share with a covered fund, for corporate, marketing, promotional, or other purposes, the same name or a variation of the same name, except as permitted under § 44.11(a)(6).

(10) *Trustee.* (i) For purposes of paragraph (d)(9) of this section and § 44.11 of subpart C, a trustee does not include:

(A) A trustee that does not exercise investment discretion with respect to a covered fund, including a trustee that is subject to the direction of an unaffiliated named fiduciary who is not a trustee pursuant to section 403(a)(1) of the Employee's Retirement Income Security Act (29 U.S.C. 1103(a)(1)); or

(B) A trustee that is subject to fiduciary standards imposed under foreign law that are substantially equivalent to those described in paragraph (d)(10)(i)(A) of this section;

(ii) Any entity that directs a person described in paragraph (d)(10)(i) of this section, or that possesses authority and discretion to manage and control the investment decisions of a covered fund for which such person serves as trustee, shall be considered to be a trustee of such covered fund.

§ 44.11 Permitted organizing and offering, underwriting, and market making with respect to a covered fund.

(a) *Organizing and offering a covered fund in general.* Notwithstanding § 44.10(a) of this subpart, a banking entity is not prohibited from acquiring or retaining an ownership interest in, or acting as sponsor to, a covered fund in connection with, directly or indirectly, organizing and offering a covered fund, including serving as a general partner, managing member, trustee, or commodity pool operator of the covered fund and in any manner selecting or controlling (or having employees, officers, directors, or agents who constitute) a majority of the directors, trustees, or management of the covered fund, including any necessary expenses for the foregoing, only if:

(1) The banking entity (or an affiliate thereof) provides *bona fide* trust, fiduciary, investment advisory, or commodity trading advisory services;

(2) The covered fund is organized and offered only in connection with the provision of *bona fide* trust, fiduciary, investment advisory, or commodity trading advisory services and only to persons that are customers of such

services of the banking entity (or an affiliate thereof), pursuant to a written plan or similar documentation outlining how the banking entity or such affiliate intends to provide advisory or similar services to its customers through organizing and offering such fund;

(3) The banking entity and its affiliates do not acquire or retain an ownership interest in the covered fund except as permitted under § 44.12 of this subpart;

(4) The banking entity and its affiliates comply with the requirements of § 44.14 of this subpart;

(5) The banking entity and its affiliates do not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests;

(6) The covered fund, for corporate, marketing, promotional, or other purposes:

(i) Does not share the same name or a variation of the same name with the banking entity (or an affiliate thereof) except that a covered fund may share the same name or a variation of the same name with a banking entity that is an investment adviser to the covered fund if:

(A) The investment adviser is not an insured depository institution, a company that controls an insured depository institution, or a company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(B) The investment adviser does not share the same name or a variation of the same name as an insured depository institution, a company that controls an insured depository institution, or a company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(ii) Does not use the word ''bank'' in its name;

(7) No director or employee of the banking entity (or an affiliate thereof) takes or retains an ownership interest in the covered fund, except for any director or employee of the banking entity or such affiliate who is directly engaged in providing investment advisory, commodity trading advisory, or other services to the covered fund at the time the director or employee takes the ownership interest; and

(8) The banking entity:

(i) Clearly and conspicuously discloses, in writing, to any prospective and actual investor in the covered fund (such as through disclosure in the covered fund's offering documents):

(A) That ''any losses in [such covered fund] will be borne solely by investors in [the covered fund] and not by [the banking entity] or its affiliates; therefore, [the banking entity's] losses in [such covered fund] will be limited to losses attributable to the ownership interests in the covered fund held by [the banking entity] and any affiliate in its capacity as investor in the [covered fund] or as beneficiary of a restricted profit interest held by [the banking entity] or any affiliate'';

(B) That such investor should read the fund offering documents before investing in the covered fund;

(C) That the ''ownership interests in the covered fund are not insured by the FDIC, and are not deposits, obligations of, or endorsed or guaranteed in any way, by any banking entity'' (unless that happens to be the case); and

(D) The role of the banking entity and its affiliates and employees in sponsoring or providing any services to the covered fund; and

(ii) Complies with any additional rules of the appropriate Federal banking agencies, the SEC, or the CFTC, as provided in section 13(b)(2) of the BHC Act, designed to ensure that losses in such covered fund are borne solely by investors in the covered fund and not by the covered banking entity and its affiliates.

(b) *Organizing and offering an issuing entity of asset-backed securities.* (1) Notwithstanding § 44.10(a) of this subpart, a banking entity is not prohibited from acquiring or retaining an ownership interest in, or acting as sponsor to, a covered fund that is an issuing entity of asset-backed securities in connection with, directly or indirectly, organizing and offering that issuing entity, so long as the banking entity and its affiliates comply with all of the requirements of paragraph (a)(3) through (8) of this section.

(2) For purposes of this paragraph (b), organizing and offering a covered fund that is an issuing entity of asset-backed securities means acting as the securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78*o*–11(a)(3)) of the issuing entity, or acquiring or retaining an ownership interest in the issuing entity as required by section 15G of that Act (15 U.S.C. 78*o*–11) and the implementing regulations issued thereunder.

(c) *Underwriting and market making in ownership interests of a covered fund.* The prohibition contained in § 44.10(a) of this subpart does not apply to a banking entity's underwriting activities or market making-related activities involving a covered fund so long as:

(1) Those activities are conducted in accordance with the requirements of § 44.4(a) or § 44.4(b) of subpart B, respectively;

(2) With respect to any banking entity (or any affiliate thereof) that: Acts as a sponsor, investment adviser or commodity trading advisor to a particular covered fund or otherwise acquires and retains an ownership interest in such covered fund in reliance on paragraph (a) of this section; acquires and retains an ownership interest in such covered fund and is either a securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78o–11(a)(3)), or is acquiring and retaining an ownership interest in such covered fund in compliance with section 15G of that Act (15 U.S.C. 78o–11) and the implementing regulations issued thereunder each as permitted by paragraph (b) of this section; or, directly or indirectly, guarantees, assumes, or otherwise insures the obligations or performance of the covered fund or of any covered fund in which such fund invests, then in each such case any ownership interests acquired or retained by the banking entity and its affiliates in connection with underwriting and market making related activities for that particular covered fund are included in the calculation of ownership interests permitted to be held by the banking entity and its affiliates under the limitations of § 44.12(a)(2)(ii) and § 44.12(d) of this subpart; and

(3) With respect to any banking entity, the aggregate value of all ownership interests of the banking entity and its affiliates in all covered funds acquired and retained under § 44.11 of this subpart, including all covered funds in which the banking entity holds an ownership interest in connection with underwriting and market making related activities permitted under this paragraph (c), are included in the calculation of all ownership interests under § 44.12(a)(2)(iii) and § 44.12(d) of this subpart.

§ 44.12 Permitted investment in a covered fund.

(a) *Authority and limitations on permitted investments in covered funds.* (1) Notwithstanding the prohibition contained in § 44.10(a) of this subpart, a banking entity may acquire and retain an ownership interest in a covered fund that the banking entity or an affiliate thereof organizes and offers pursuant to § 44.11, for the purposes of:

(i) *Establishment.* Establishing the fund and providing the fund with sufficient initial equity for investment to permit the fund to attract unaffiliated investors, subject to the limits contained in paragraphs (a)(2)(i) and (iii) of this section; or

(ii) *De minimis investment.* Making and retaining an investment in the covered fund subject to the limits contained in paragraphs (a)(2)(ii) and (iii) of this section.

(2) *Investment limits*—(i) *Seeding period.* With respect to an investment in any covered fund made or held pursuant to paragraph (a)(1)(i) of this section, the banking entity and its affiliates:

(A) Must actively seek unaffiliated investors to reduce, through redemption, sale, dilution, or other methods, the aggregate amount of all ownership interests of the banking entity in the covered fund to the amount permitted in paragraph (a)(2)(i)(B) of this section; and

(B) Must, no later than 1 year after the date of establishment of the fund (or such longer period as may be provided by the Board pursuant to paragraph (e) of this section), conform its ownership interest in the covered fund to the limits in paragraph (a)(2)(ii) of this section;

(ii) *Per-fund limits.* (A) Except as provided in paragraph (a)(2)(ii)(B) of this section, an investment by a banking entity and its affiliates in any covered fund made or held pursuant to paragraph (a)(1)(ii) of this section may not exceed 3 percent of the total number or value of the outstanding ownership interests of the fund.

(B) An investment by a banking entity and its affiliates in a covered fund that is an issuing entity of asset-backed securities may not exceed 3 percent of the total fair market value of the ownership interests of the fund measured in accordance with paragraph (b)(3) of this section, unless a greater percentage is retained by the banking entity and its affiliates in compliance with the requirements of section 15G of the Exchange Act (15 U.S.C. 78*o*–11) and the implementing regulations issued thereunder, in which case the investment by the banking entity and its affiliates in the covered fund may not exceed the amount, number, or value of ownership interests of the fund required under section 15G of the Exchange Act and the implementing regulations issued thereunder.

(iii) *Aggregate limit.* The aggregate value of all ownership interests of the banking entity and its affiliates in all covered funds acquired or retained under this section may not exceed 3 percent of the tier 1 capital of the banking entity, as provided under paragraph (c) of this section, and shall be calculated as of the last day of each calendar quarter.

(iv) *Date of establishment.* For purposes of this section, the date of establishment of a covered fund shall be:

(A) *In general.* The date on which the investment adviser or similar entity to the covered fund begins making investments pursuant to the written investment strategy for the fund;

(B) *Issuing entities of asset-backed securities.* In the case of an issuing entity of asset-backed securities, the date on which the assets are initially transferred into the issuing entity of asset-backed securities.

(b) *Rules of construction*—(1) *Attribution of ownership interests to a covered banking entity.* (i) For purposes of paragraph (a)(2) of this section, the amount and value of a banking entity's permitted investment in any single covered fund shall include any ownership interest held under § 44.12 directly by the banking entity, including any affiliate of the banking entity.

(ii) *Treatment of registered investment companies, SEC-regulated business development companies and foreign public funds.* For purposes of paragraph (b)(1)(i) of this section, a registered investment company, SEC-regulated business development companies or foreign public fund as described in § 44.10(c)(1) of this subpart will not be considered to be an affiliate of the banking entity so long as the banking entity:

(A) Does not own, control, or hold with the power to vote 25 percent or more of the voting shares of the company or fund; and

(B) Provides investment advisory, commodity trading advisory, administrative, and other services to the company or fund in compliance with the limitations under applicable regulation, order, or other authority.

(iii) *Covered funds.* For purposes of paragraph (b)(1)(i) of this section, a covered fund will not be considered to be an affiliate of a banking entity so long as the covered fund is held in compliance with the requirements of this subpart.

(iv) *Treatment of employee and director investments financed by the banking entity.* For purposes of paragraph (b)(1)(i) of this section, an investment by a director or employee of a banking entity who acquires an ownership interest in his or her personal capacity in a covered fund sponsored by the banking entity will be attributed to the banking entity if the banking entity, directly or indirectly, extends financing for the purpose of enabling the director or employee to acquire the ownership interest in the fund and the financing is used to acquire such ownership interest in the covered fund.

(2) *Calculation of permitted ownership interests in a single covered fund.* Except as provided in paragraph (b)(3) or (4), for purposes of determining whether an investment in a single covered fund complies with the restrictions on ownership interests under paragraphs (a)(2)(i)(B) and (a)(2)(ii)(A) of this section:

(i) The aggregate number of the outstanding ownership interests held by the banking entity shall be the total number of ownership interests held under this section by the banking entity in a covered fund divided by the total number of ownership interests held by all entities in that covered fund, as of the last day of each calendar quarter (both measured without regard to committed funds not yet called for investment);

(ii) The aggregate value of the outstanding ownership interests held by the banking entity shall be the aggregate fair market value of all investments in and capital contributions made to the covered fund by the banking entity, divided by the value of all investments in and capital contributions made to that covered fund by all entities, as of the last day of each calendar quarter (all measured without regard to committed funds not yet called for investment). If fair market value cannot be determined, then the value shall be the historical cost basis of all investments in and contributions made by the banking entity to the covered fund;

(iii) For purposes of the calculation under paragraph (b)(2)(ii) of this section, once a valuation methodology is chosen, the banking entity must calculate the value of its investment and the investments of all others in the covered fund in the same manner and according to the same standards.

(3) *Issuing entities of asset-backed securities.* In the case of an ownership interest in an issuing entity of asset-backed securities, for purposes of determining whether an investment in a single covered fund complies with the restrictions on ownership interests under paragraphs (a)(2)(i)(B) and (a)(2)(ii)(B) of this section:

(i) For securitizations subject to the requirements of section 15G of the Exchange Act (15 U.S.C. 78o–11), the calculations shall be made as of the date and according to the valuation methodology applicable pursuant to the requirements of section 15G of the Exchange Act (15 U.S.C. 78o–11) and the implementing regulations issued thereunder; or

(ii) For securitization transactions completed prior to the compliance date of such implementing regulations (or as to which such implementing regulations do not apply), the calculations shall be made as of the date of establishment as defined in paragraph (a)(2)(iv)(B) of this section or such earlier date on which the transferred assets have been valued for purposes of transfer to the covered fund, and thereafter only upon the date on which additional securities of the issuing entity of asset-backed securities are priced for purposes of the sales of ownership interests to unaffiliated investors.

(iii) For securitization transactions completed prior to the compliance date of such implementing regulations (or as to which such implementing regulations do not apply), the aggregate value of the outstanding ownership interests in the covered fund shall be the fair market value of the assets transferred to the issuing entity of the securitization and any other assets otherwise held by the issuing entity at such time, determined in a manner that is consistent with its determination of the fair market value of those assets for financial statement purposes.

(iv) For purposes of the calculation under paragraph (b)(3)(iii) of this section, the valuation methodology used to calculate the fair market value of the ownership interests must be the same for both the ownership interests held by a banking entity and the ownership interests held by all others in the covered fund in the same manner and according to the same standards.

(4) *Multi-tier fund investments*—(i) *Master-feeder fund investments.* If the principal investment strategy of a covered fund (the ''feeder fund'') is to invest substantially all of its assets in another single covered fund (the ''master fund''), then for purposes of the investment limitations in paragraphs (a)(2)(i)(B) and (a)(2)(ii) of this section, the banking entity's permitted investment in such funds shall be measured only by reference to the value of the master fund. The banking entity's permitted investment in the master fund shall include any investment by the banking entity in the master fund, as well as the banking entity's pro-rata share of any ownership interest of the master fund that is held through the feeder fund; and

(ii) *Fund-of-funds investments.* If a banking entity organizes and offers a covered fund pursuant to § 44.11 of this subpart for the purpose of investing in other covered funds (a ''fund of funds'') and that fund of funds itself invests in another covered fund that the banking entity is permitted to own, then the banking entity's permitted investment in that other fund shall include any investment by the banking entity in that other fund, as well as the banking entity's pro-rata share of any ownership interest of the fund that is held through the fund of funds. The investment of the banking entity may not represent more than 3 percent of the amount or value of any single covered fund.

(c) *Aggregate permitted investments in all covered funds.* (1) For purposes of paragraph (a)(2)(iii) of this section, the aggregate value of all ownership interests held by a banking entity shall be the sum of all amounts paid or contributed by the banking entity in connection with acquiring or retaining an ownership interest in covered funds (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 44.10(d)(6)(ii) of this subpart), on a historical cost basis.

(2) *Calculation of tier 1 capital.* For purposes of paragraph (a)(2)(iii) of this section:

(i) *Entities that are required to hold and report tier 1 capital.* If a banking entity is required to calculate and report tier 1 capital, the banking entity's tier 1 capital shall be equal to the amount of tier 1 capital of the banking entity as of the last day of the most recent calendar quarter, as reported to its primary financial regulatory agency; and

(ii) If a banking entity is not required to calculate and report tier 1 capital, the banking entity's tier 1 capital shall be determined to be equal to:

(A) In the case of a banking entity that is controlled, directly or indirectly, by a depository institution that calculates and reports tier 1 capital, be equal to the amount of tier 1 capital reported by such controlling depository institution in the manner described in paragraph (c)(2)(i) of this section;

(B) In the case of a banking entity that is not controlled, directly or indirectly, by a depository institution that calculates and reports tier 1 capital:

(*1*) *Bank holding company subsidiaries.* If the banking entity is a subsidiary of a bank holding company or company that is treated as a bank holding company, be equal to the amount of tier 1 capital reported by the top-tier affiliate of such covered banking entity that calculates and reports tier 1 capital in the manner described in paragraph (c)(2)(i) of this section; and

(*2*) *Other holding companies and any subsidiary or affiliate thereof.* If the banking entity is not a subsidiary of a bank holding company or a company that is treated as a bank holding company, be equal to the total amount of shareholders' equity of the top-tier affiliate within such organization as of the last day of the most recent calendar quarter that has ended, as determined under applicable accounting standards.

(iii) *Treatment of foreign banking entities*—(A) *Foreign banking entities.* Except as provided in paragraph (c)(2)(iii)(B) of this section, with respect to a banking entity that is not itself, and is not controlled directly or indirectly by, a banking entity that is located or organized under the laws of the United States or of any State, the tier 1 capital of the banking entity shall be the consolidated tier 1 capital of the entity as calculated under applicable home country standards.

(B) *U.S. affiliates of foreign banking entities.* With respect to a banking entity that is located or organized under the laws of the United States or of any State and is controlled by a foreign banking entity identified under paragraph (c)(2)(iii)(A) of this section, the banking entity's tier 1 capital shall be as calculated under paragraphs (c)(2)(i) or (ii) of this section.

(d) *Capital treatment for a permitted investment in a covered fund.* For purposes of calculating compliance with the applicable regulatory capital requirements, a banking entity shall deduct from the banking entity's tier 1 capital (as determined under paragraph (c)(2) of this section) the greater of:

(1) The sum of all amounts paid or contributed by the banking entity in connection with acquiring or retaining an ownership interest (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 44.10(d)(6)(ii) of subpart C), on a historical cost basis, plus any earnings received; and

(2) The fair market value of the banking entity's ownership interests in the covered fund as determined under paragraph (b)(2)(ii) or (b)(3) of this section (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 44.10(d)(6)(ii) of subpart C), if the banking entity accounts for the profits (or losses) of the fund investment in its financial statements.

(e) *Extension of time to divest an ownership interest.* (1) Upon application by a banking entity, the Board may extend the period under paragraph (a)(2)(i) of this section for up to 2 additional years if the Board finds that an extension would be consistent with safety and soundness and not detrimental to the public interest. An application for extension must:

(i) Be submitted to the Board at least 90 days prior to the expiration of the applicable time period;

(ii) Provide the reasons for application, including information that addresses the factors in paragraph (e)(2) of this section; and

(iii) Explain the banking entity's plan for reducing the permitted investment in a covered fund through redemption, sale, dilution or other methods as required in paragraph (a)(2) of this section.

(2) *Factors governing Board determinations.* In reviewing any application under paragraph (e)(1) of this section, the Board may consider all the facts and circumstances related to the permitted investment in a covered fund, including:

(i) Whether the investment would result, directly or indirectly, in a material exposure by the banking entity to high-risk assets or high-risk trading strategies;

(ii) The contractual terms governing the banking entity's interest in the covered fund;

(iii) The date on which the covered fund is expected to have attracted sufficient investments from investors unaffiliated with the banking entity to enable the banking entity to comply with the limitations in paragraph (a)(2)(i) of this section;

(iv) The total exposure of the covered banking entity to the investment and the risks that disposing of, or maintaining, the investment in the covered fund may pose to the banking entity and the financial stability of the United States;

(v) The cost to the banking entity of divesting or disposing of the investment within the applicable period;

(vi) Whether the investment or the divestiture or conformance of the investment would involve or result in a material conflict of interest between the banking entity and unaffiliated parties, including clients, customers or counterparties to which it owes a duty;

(vi) The banking entity's prior efforts to reduce through redemption, sale, dilution, or other methods its ownership interests in the covered fund, including activities related to the marketing of interests in such covered fund;

(viii) Market conditions; and

(ix) Any other factor that the Board believes appropriate.

(3) *Authority to impose restrictions on activities or investment during any extension period.* The Board may impose such conditions on any extension approved under paragraph (e)(1) of this section as the Board determines are necessary or appropriate to protect the safety and soundness of the banking entity or the financial stability of the United States, address material conflicts of interest or other unsound banking practices, or otherwise further the purposes of section 13 of the BHC Act and this part.

(4) *Consultation.* In the case of a banking entity that is primarily regulated by another Federal banking agency, the SEC, or the CFTC, the Board will consult with such agency prior to acting on an application by the banking entity for an extension under paragraph (e)(1) of this section.

§ 44.13 Other permitted covered fund activities and investments.

(a) *Permitted risk-mitigating hedging activities.* (1) The prohibition contained in § 44.10(a) of this subpart does not apply with respect to an ownership interest in a covered fund acquired or retained by a banking entity that is designed to demonstrably reduce or otherwise significantly mitigate the specific, identifiable risks to the banking entity in connection with a compensation arrangement with an employee of the banking entity or an affiliate thereof that directly provides investment advisory, commodity trading advisory or other services to the covered fund.

(2) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under this paragraph (a) only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures; and

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(ii) The acquisition or retention of the ownership interest:

(A) Is made in accordance with the written policies, procedures and internal controls required under this section;

(B) At the inception of the hedge, is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates one or more specific, identifiable risks arising in connection with the compensation arrangement with the employee that directly provides investment advisory, commodity trading advisory, or other services to the covered fund;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section; and

(D) Is subject to continuing review, monitoring and management by the banking entity.

(iii) The compensation arrangement relates solely to the covered fund in which the banking entity or any affiliate has acquired an ownership interest pursuant to this paragraph and such compensation arrangement provides that any losses incurred by the banking entity on such ownership interest will be offset by corresponding decreases in amounts payable under such compensation arrangement.

(b) *Certain permitted covered fund activities and investments outside of the United States.* (1) The prohibition contained in § 44.10(a) of this subpart does not apply to the acquisition or retention of any ownership interest in, or the sponsorship of, a covered fund by a banking entity only if:

(i) The banking entity is not organized or directly or indirectly controlled by a banking entity that is organized under the laws of the United States or of one or more States;

(ii) The activity or investment by the banking entity is pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act;

(iii) No ownership interest in the covered fund is offered for sale or sold to a resident of the United States; and

(iv) The activity or investment occurs solely outside of the United States.

(2) An activity or investment by the banking entity is pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act for purposes of paragraph (b)(1)(ii) of this section only if:

(i) The activity or investment is conducted in accordance with the requirements of this section; and

(ii)(A) With respect to a banking entity that is a foreign banking organization, the banking entity meets the qualifying foreign banking organization requirements of section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c) or (e)), as applicable; or

(B) With respect to a banking entity that is not a foreign banking organization, the banking entity is not organized under the laws of the United States or of one or more States and the banking entity, on a fully-consolidated basis, meets at least two of the following requirements:

(*1*) Total assets of the banking entity held outside of the United States exceed total assets of the banking entity held in the United States;

(*2*) Total revenues derived from the business of the banking entity outside of the United States exceed total revenues derived from the business of the banking entity in the United States; or

(*3*) Total net income derived from the business of the banking entity outside of the United States exceeds total net income derived from the business of the banking entity in the United States.

(3) An ownership interest in a covered fund is not offered for sale or sold to a resident of the United States for purposes of paragraph (b)(1)(iii) of this section only if it is sold or has been sold pursuant to an offering that does not target residents of the United States.

(4) An activity or investment occurs solely outside of the United States for purposes of paragraph (b)(1)(iv) of this section only if:

(i) The banking entity acting as sponsor, or engaging as principal in the acquisition or retention of an ownership interest in the covered fund, is not itself, and is not controlled directly or indirectly by, a banking entity that is located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to acquire or retain the ownership interest or act as sponsor to the covered fund is not located in the United States or organized under the laws of the United States or of any State;

(iii) The investment or sponsorship, including any transaction arising from risk-mitigating hedging related to an ownership interest, is not accounted for as principal directly or indirectly on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State; and

(iv) No financing for the banking entity's ownership or sponsorship is provided, directly or indirectly, by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

(5) For purposes of this section, a U.S. branch, agency, or subsidiary of a foreign bank, or any subsidiary thereof, is located in the United States; however, a foreign bank of which that branch, agency, or subsidiary is a part is not considered to be located in the United States solely by virtue of operation of the U.S. branch, agency, or subsidiary.

(c) *Permitted covered fund interests and activities by a regulated insurance company.* The prohibition contained in § 44.10(a) of this subpart does not apply to the acquisition or retention by an insurance company, or an affiliate thereof, of any ownership interest in, or the sponsorship of, a covered fund only if:

(1) The insurance company or its affiliate acquires and retains the ownership interest solely for the general account of the insurance company or for one or more separate accounts established by the insurance company;

(2) The acquisition and retention of the ownership interest is conducted in compliance with, and subject to, the insurance company investment laws, regulations, and written guidance of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law, regulation, or written guidance described in paragraph (c)(2) of this section is insufficient to protect the safety and soundness of the banking entity, or the financial stability of the United States.

§ 44.14 Limitations on relationships with a covered fund.

(a) *Relationships with a covered fund.* (1) Except as provided for in paragraph (a)(2) of this section, no banking entity that serves, directly or indirectly, as the investment manager, investment adviser, commodity trading advisor, or sponsor to a covered fund, that organizes and offers a covered fund pursuant to § 44.11 of this subpart, or that continues to hold an ownership interest in accordance with § 44.11(b) of this subpart, and no affiliate of such entity, may enter into a transaction with the covered fund, or with any other covered fund that is controlled by such covered fund, that would be a covered transaction as defined in section 23A of the Federal Reserve Act (12 U.S.C. 371c(b)(7)), as if such banking entity and the affiliate thereof were a member bank and the covered fund were an affiliate thereof.

(2) Notwithstanding paragraph (a)(1) of this section, a banking entity may:

(i) Acquire and retain any ownership interest in a covered fund in accordance with the requirements of § 44.11, § 44.12, or § 44.13 of this subpart; and

(ii) Enter into any prime brokerage transaction with any covered fund in which a covered fund managed, sponsored, or advised by such banking entity (or an affiliate thereof) has taken an ownership interest, if:

(A) The banking entity is in compliance with each of the limitations set forth in § 44.11 of this subpart with respect to a covered fund organized and offered by such banking entity (or an affiliate thereof);

(B) The chief executive officer (or equivalent officer) of the banking entity certifies in writing annually to the OCC (with a duty to update the certification if the information in the certification materially changes) that the banking entity does not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests; and

(C) The Board has not determined that such transaction is inconsistent with the safe and sound operation and condition of the banking entity.

(b) *Restrictions on transactions with covered funds.* A banking entity that serves, directly or indirectly, as the investment manager, investment adviser, commodity trading advisor, or sponsor to a covered fund, or that organizes and offers a covered fund pursuant to § 44.11 of this subpart, or that continues to hold an ownership interest in accordance with § 44.11(b) of this subpart, shall be subject to section 23B of the Federal Reserve Act (12 U.S.C. 371c–1), as if such banking entity were a member bank and such covered fund were an affiliate thereof.

(c) *Restrictions on prime brokerage transactions.* A prime brokerage transaction permitted under paragraph (a)(2)(ii) of this section shall be subject to section 23B of the Federal Reserve Act (12 U.S.C. 371c–1) as if the counterparty were an affiliate of the banking entity.

§ 44.15 Other limitations on permitted covered fund activities and investments.

(a) No transaction, class of transactions, or activity may be deemed permissible under §§ 44.11 through 44.13 of this subpart if the transaction, class of transactions, or activity would:

(1) Involve or result in a material conflict of interest between the banking entity and its clients, customers, or counterparties;

(2) Result, directly or indirectly, in a material exposure by the banking entity to a high-risk asset or a high-risk trading strategy; or

(3) Pose a threat to the safety and soundness of the banking entity or to the financial stability of the United States.

(b) *Definition of material conflict of interest.* (1) For purposes of this section, a material conflict of interest between a banking entity and its clients, customers, or counterparties exists if the banking entity engages in any transaction, class of transactions, or activity that would involve or result in the banking entity's interests being materially adverse to the interests of its client, customer, or counterparty with respect to such transaction, class of transactions, or activity, and the banking entity has not taken at least one of the actions in paragraph (b)(2) of this section.

(2) Prior to effecting the specific transaction or class or type of transactions, or engaging in the specific activity, the banking entity:

(i) *Timely and effective disclosure.* (A) Has made clear, timely, and effective disclosure of the conflict of interest, together with other necessary information, in reasonable detail and in a manner sufficient to permit a reasonable client, customer, or counterparty to meaningfully understand the conflict of interest; and

(B) Such disclosure is made in a manner that provides the client, customer, or counterparty the opportunity to negate, or substantially mitigate, any materially adverse effect on the client, customer, or counterparty created by the conflict of interest; or

(ii) *Information barriers.* Has established, maintained, and enforced information barriers that are memorialized in written policies and procedures, such as physical separation of personnel, or functions, or limitations on types of activity, that are reasonably designed, taking into consideration the nature of the banking entity's business, to prevent the conflict of interest from involving or resulting in a materially adverse effect on a client, customer, or counterparty. A banking entity may not rely on such information barriers if, in the case of any specific transaction, class or type of transactions or activity, the banking entity knows or should reasonably know that, notwithstanding the banking entity's establishment of information barriers, the conflict of interest may involve or result in a materially adverse effect on a client, customer, or counterparty.

(c) *Definition of high-risk asset and high-risk trading strategy.* For purposes of this section:

(1) *High-risk asset* means an asset or group of related assets that would, if held by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

(2) *High-risk trading strategy* means a trading strategy that would, if engaged in by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

§ 44.16 Ownership of interests in and sponsorship of issuers of certain collateralized debt obligations backed by trust-preferred securities.

(a) The prohibition contained in § 44.10(a)(1) does not apply to the ownership by a banking entity of an interest in, or sponsorship of, any issuer if:

(1) The issuer was established, and the interest was issued, before May 19, 2010;

(2) The banking entity reasonably believes that the offering proceeds received by the issuer were invested primarily in Qualifying TruPS Collateral; and

(3) The banking entity acquired such interest on or before December 10, 2013 (or acquired such interest in connection with a merger with or acquisition of a banking entity that acquired the interest on or before December 10, 2013).

(b) For purposes of this § 44.16, *Qualifying TruPS Collateral* shall mean any trust preferred security or subordinated debt instrument issued prior to May 19, 2010 by a depository institution holding company that, as of the end of any reporting period within 12 months immediately preceding the issuance of such trust preferred security or subordinated debt instrument, had total consolidated assets of less than $15,000,000,000 or issued prior to May 19, 2010 by a mutual holding company.

(c) Notwithstanding paragraph (a)(3) of this section, a banking entity may act as a market maker with respect to the interests of an issuer described in paragraph (a) of this section in accordance with the applicable provisions of §§ 44.4 and 44.11.

(d) Without limiting the applicability of paragraph (a) of this section, the Board, the FDIC and the OCC will make public a non-exclusive list of issuers that meet the requirements of paragraph (a). A banking entity may rely on the list published by the Board, the FDIC and the OCC.

§§ 44.17–44.19 [Reserved]

Subpart D—Compliance Program Requirement; Violations

§ 44.20 Program for compliance; reporting.

(a) *Program requirement.* Each banking entity shall develop and provide for the continued administration of a compliance program reasonably designed to ensure and monitor compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part. The terms, scope and detail of the compliance program shall be appropriate for the types, size, scope and complexity of activities and business structure of the banking entity.

(b) *Contents of compliance program.* Except as provided in paragraph (f) of this section, the compliance program required by paragraph (a) of this section, at a minimum, shall include:

(1) Written policies and procedures reasonably designed to document, describe, monitor and limit trading activities subject to subpart B (including those permitted under §§ 44.3 to 44.6 of subpart B), including setting, monitoring and managing required limits set out in §§ 44.4 and 44.5, and activities and investments with respect to a covered fund subject to subpart C (including those permitted under §§ 44.11 through 44.14 of subpart C) conducted by the banking entity to ensure that all activities and investments conducted by the banking entity that are subject to section 13 of the BHC Act and this part comply with section 13 of the BHC Act and this part;

(2) A system of internal controls reasonably designed to monitor compliance with section 13 of the BHC Act and this part and to prevent the occurrence of activities or investments that are prohibited by section 13 of the BHC Act and this part;

(3) A management framework that clearly delineates responsibility and accountability for compliance with section 13 of the BHC Act and this part and includes appropriate management review of trading limits, strategies, hedging activities, investments, incentive compensation and other matters identified in this part or by management as requiring attention;

(4) Independent testing and audit of the effectiveness of the compliance program conducted periodically by qualified personnel of the banking entity or by a qualified outside party;

(5) Training for trading personnel and managers, as well as other appropriate personnel, to effectively implement and enforce the compliance program; and

(6) Records sufficient to demonstrate compliance with section 13 of the BHC Act and this part, which a banking entity must promptly provide to the OCC upon request and retain for a period of no less than 5 years or such longer period as required by the OCC.

(c) *Additional standards.* In addition to the requirements in paragraph (b) of this section, the compliance program of a banking entity must satisfy the requirements and other standards contained in appendix B, if:

(1) The banking entity engages in proprietary trading permitted under subpart B and is required to comply

with the reporting requirements of paragraph (d) of this section;

(2) The banking entity has reported total consolidated assets as of the previous calendar year end of $50 billion or more or, in the case of a foreign banking entity, has total U.S. assets as of the previous calendar year end of $50 billion or more (including all subsidiaries, affiliates, branches and agencies of the foreign banking entity operating, located or organized in the United States); or

(3) The OCC notifies the banking entity in writing that it must satisfy the requirements and other standards contained in appendix B to this part.

(d) *Reporting requirements under appendix A to this part.* (1) A banking entity engaged in proprietary trading activity permitted under subpart B shall comply with the reporting requirements described in appendix A, if:

(i) The banking entity (other than a foreign banking entity as provided in paragraph (d)(1)(ii) of this section) has, together with its affiliates and subsidiaries, trading assets and liabilities (excluding trading assets and liabilities involving obligations of or guaranteed by the United States or any agency of the United States) the average gross sum of which (on a worldwide consolidated basis) over the previous consecutive four quarters, as measured as of the last day of each of the four prior calendar quarters, equals or exceeds the threshold established in paragraph (d)(2) of this section;

(ii) In the case of a foreign banking entity, the average gross sum of the trading assets and liabilities of the combined U.S. operations of the foreign banking entity (including all subsidiaries, affiliates, branches and agencies of the foreign banking entity operating, located or organized in the United States and excluding trading assets and liabilities involving obligations of or guaranteed by the United States or any agency of the United States) over the previous consecutive four quarters, as measured as of the last day of each of the four prior calendar quarters, equals or exceeds the threshold established in paragraph (d)(2) of this section; or

(iii) The OCC notifies the banking entity in writing that it must satisfy the reporting requirements contained in appendix A.

(2) The threshold for reporting under paragraph (d)(1) of this section shall be $50 billion beginning on June 30, 2014; $25 billion beginning on April 30, 2016; and $10 billion beginning on December 31, 2016.

(3) Frequency of reporting: Unless the OCC notifies the banking entity in writing that it must report on a different basis, a banking entity with $50 billion or more in trading assets and liabilities (as calculated in accordance with paragraph (d)(1) of this section) shall report the information required by appendix A for each calendar month within 30 days of the end of the relevant calendar month; beginning with information for the month of January 2015, such information shall be reported within 10 days of the end of each calendar month. Any other banking entity subject to appendix A shall report the information required by appendix A for each calendar quarter within 30 days of the end of that calendar quarter unless the OCC notifies the banking entity in writing that it must report on a different basis.

(e) *Additional documentation for covered funds.* Any banking entity that has more than $10 billion in total consolidated assets as reported on December 31 of the previous two calendar years shall maintain records that include:

(1) Documentation of the exclusions or exemptions other than sections 3(c)(1) and 3(c)(7) of the Investment Company Act of 1940 relied on by each fund sponsored by the banking entity (including all subsidiaries and affiliates) in determining that such fund is not a covered fund;

(2) For each fund sponsored by the banking entity (including all subsidiaries and affiliates) for which the banking entity relies on one or more of the exclusions from the definition of covered fund provided by § 44.10(c)(1), § 44.10(c)(5), § 44.10(c)(8), § 44.10(c)(9), or § 44.10(c)(10) of subpart C, documentation supporting the banking entity's determination that the fund is not a covered fund pursuant to one or more of those exclusions;

(3) For each seeding vehicle described in § 44.10(c)(12)(i) or (iii) of subpart C that will become a registered investment company or SEC-regulated business development company, a written plan documenting the banking entity's determination that the seeding vehicle will become a registered investment company or SEC-regulated business development company; the period of time during which the vehicle will operate as a seeding vehicle; and the banking entity's plan to market the vehicle to third-party investors and convert it into a registered investment company or SEC-regulated business development company within the time period specified in § 44.12(a)(2)(i)(B) of subpart C;

(4) For any banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State, if the aggregate amount of ownership interests in foreign public funds that are described in § 44.10(c)(1) of subpart C owned by such banking entity (including ownership interests owned by any affiliate that is controlled directly or indirectly by a banking entity that is located in or organized under the laws of the United States or of any State) exceeds $50 million at the end of two or more consecutive calendar quarters, beginning with the next succeeding calendar quarter, documentation of the value of the ownership interests owned by the banking entity (and such affiliates) in each foreign public fund and each jurisdiction in which any such foreign public fund is organized, calculated as of the end of each calendar quarter, which documentation must continue until the banking entity's aggregate amount of ownership interests in foreign public funds is below $50 million for two consecutive calendar quarters; and

(5) For purposes of paragraph (e)(4) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(f) *Simplified programs for less active banking entities*—(1) *Banking entities with no covered activities.* A banking entity that does not engage in activities or investments pursuant to subpart B or subpart C (other than trading activities permitted pursuant to § 44.6(a) of subpart B) may satisfy the requirements of this section by establishing the required compliance program prior to becoming engaged in such activities or making such investments (other than trading activities permitted pursuant to § 44.6(a) of subpart B).

(2) *Banking entities with modest activities.* A banking entity with total consolidated assets of $10 billion or less as reported on December 31 of the previous two calendar years that engages in activities or investments pursuant to subpart B or subpart C (other than trading activities permitted under § 44.6(a) of subpart B) may satisfy the requirements of this section by including in its existing compliance policies and procedures appropriate references to the requirements of section 13 of the BHC Act and this part and adjustments as appropriate given the activities, size, scope and complexity of the banking entity.

§ 44.21 Termination of activities or investments; penalties for violations.

(a) Any banking entity that engages in an activity or makes an investment in violation of section 13 of the BHC Act or this part, or acts in a manner that functions as an evasion of the requirements of section 13 of the BHC Act or this part, including through an abuse of any activity or investment permitted under subparts B or C, or otherwise violates the restrictions and requirements of section 13 of the BHC Act or this part, shall, upon discovery, promptly terminate the activity and, as relevant, dispose of the investment.

(b) Whenever the OCC finds reasonable cause to believe any banking entity has engaged in an activity or made an investment in violation of section 13 of the BHC Act or this part, or engaged in any activity or made any investment that functions as an evasion of the requirements of section 13 of the BHC Act or this part, the OCC may take any action permitted by law to enforce compliance with section 13 of the BHC Act and this part, including directing the banking entity to restrict, limit, or terminate any or all activities under this part and dispose of any investment.

Appendix A to Part 44—Reporting and Recordkeeping Requirements for Covered Trading Activities

I. Purpose

a. This appendix sets forth reporting and recordkeeping requirements that certain banking entities must satisfy in connection with the restrictions on proprietary trading set forth in subpart B (''proprietary trading restrictions''). Pursuant to § 44.20(d), this appendix generally applies to a banking entity that, together with its affiliates and subsidiaries, has significant trading assets and liabilities. These entities are required to (i) furnish periodic reports to the OCC regarding a variety of quantitative measurements of their covered trading activities, which vary depending on the scope and size of covered trading activities, and (ii) create and maintain records documenting the preparation and content of these reports. The requirements of this appendix must be incorporated into the banking entity's internal compliance program under § 44.20 and Appendix B.

b. The purpose of this appendix is to assist banking entities and the OCC in:

(i) Better understanding and evaluating the scope, type, and profile of the banking entity's covered trading activities;

(ii) Monitoring the banking entity's covered trading activities;

(iii) Identifying covered trading activities that warrant further review or examination by the banking entity to verify compliance with the proprietary trading restrictions;

(iv) Evaluating whether the covered trading activities of trading desks engaged in market making-related activities subject to § 44.4(b) are consistent with the requirements governing permitted market making-related activities;

(v) Evaluating whether the covered trading activities of trading desks that are engaged in permitted trading activity subject to §§ 44.4, 44.5, or 44.6(a)–(b) (*i.e.,* underwriting and market making-related related activity, risk-mitigating hedging, or trading in certain government obligations) are consistent with the requirement that such activity not result, directly or indirectly, in a material exposure to high-risk assets or high-risk trading strategies;

(vi) Identifying the profile of particular covered trading activities of the banking entity, and the individual trading desks of the banking entity, to help establish the appropriate frequency and scope of examination by the OCC of such activities; and

(vii) Assessing and addressing the risks associated with the banking entity's covered trading activities.

c. The quantitative measurements that must be furnished pursuant to this appendix are *not* intended to serve as a dispositive tool for the identification of permissible or impermissible activities.

d. In order to allow banking entities and the Agencies to evaluate the effectiveness of these metrics, banking entities must collect and report these metrics for all trading desks beginning on the dates established in § 44.20 of the final rule. The Agencies will review the data collected and revise this collection requirement as appropriate based on a review of the data collected prior to September 30, 2015.

e. In addition to the quantitative measurements required in this appendix, a banking entity may need to develop and implement other quantitative measurements in order to effectively monitor its covered trading activities for compliance with section 13 of the BHC Act and this part and to have an effective compliance program, as required by § 44.20 and Appendix B to this part. The effectiveness of particular quantitative measurements may differ based on the profile of the banking entity's businesses in general and, more specifically, of the particular trading desk, including types of instruments traded, trading activities and strategies, and history and experience (*e.g.,* whether the trading desk is an established, successful market maker or a new entrant to a competitive market). In all cases, banking entities must ensure that they have robust measures in place to identify and monitor the risks taken in their trading activities, to ensure that the activities are within risk tolerances established by the banking entity, and to monitor and examine for compliance with the proprietary trading restrictions in this part.

f. On an ongoing basis, banking entities must carefully monitor, review, and evaluate all furnished quantitative measurements, as well as any others that they choose to utilize in order to maintain compliance with section 13 of the BHC Act and this part. All measurement results that indicate a heightened risk of impermissible proprietary trading, including with respect to otherwise-permitted activities under §§ 44.4 through 44.6(a) and (b), or that result in a material exposure to high-risk assets or high-risk trading strategies, must be escalated within the banking entity for review, further analysis, explanation to the OCC, and remediation, where appropriate. The quantitative measurements discussed in this appendix should be helpful to banking entities in identifying and managing the risks related to their covered trading activities.

II. Definitions

The terms used in this appendix have the same meanings as set forth in §§ 44.2 and 44.3. In addition, for purposes of this appendix, the following definitions apply:

Calculation period means the period of time for which a particular quantitative measurement must be calculated.

Comprehensive profit and loss means the net profit or loss of a trading desk's material sources of trading revenue over a specific period of time, including, for example, any increase or decrease in the market value of a trading desk's holdings, dividend income, and interest income and expense.

Covered trading activity means trading conducted by a trading desk under §§ 44.4, 44.5, 44.6(a), or 44.6(b). A banking entity may include trading under §§ 44.3(d), 44.6(c), 44.6(d) or 44.6(e).

Measurement frequency means the frequency with which a particular quantitative metric must be calculated and recorded.

Trading desk means the smallest discrete unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof.

III. Reporting and Recordkeeping of Quantitative Measurements

a. Scope of Required Reporting

General scope. Each banking entity made subject to this part by § 44.20 must furnish the following quantitative measurements for each trading desk of the banking entity, calculated in accordance with this appendix:

- Risk and Position Limits and Usage;
- Risk Factor Sensitivities;
- Value-at-Risk and Stress VaR;
- Comprehensive Profit and Loss Attribution;
- Inventory Turnover;
- Inventory Aging; and
- Customer-Facing Trade Ratio.

b. Frequency of Required Calculation and Reporting

A banking entity must calculate any applicable quantitative measurement for each trading day. A banking entity must report each applicable quantitative measurement to the OCC on the reporting schedule established in § 44.20 unless otherwise requested by the OCC. All quantitative measurements for any calendar month must be reported within the time period required by § 44.20.

c. Recordkeeping

A banking entity must, for any quantitative measurement furnished to the OCC pursuant to this appendix and § 44.20(d), create and maintain records documenting the preparation and content of these reports, as well as such information as is necessary to permit the OCC to verify the accuracy of such reports, for a period of 5 years from the end of the calendar year for which the measurement was taken.

IV. Quantitative Measurements

a. Risk-Management Measurements

1. Risk and Position Limits and Usage

i. *Description:* For purposes of this appendix, Risk and Position Limits are the constraints that define the amount of risk that a trading desk is permitted to take at a point in time, as defined by the banking entity for a specific trading desk. Usage represents the portion of the trading desk's limits that are accounted for by the current activity of the desk. Risk and position limits and their usage are key risk management tools used to control and monitor risk taking and include, but are not limited, to the limits set out in § 44.4 and § 44.5. A number of the metrics that are described below, including ''Risk Factor Sensitivities'' and ''Value-at-Risk and Stress Value-at-Risk,'' relate to a trading desk's risk and position limits and are useful in evaluating and setting these limits in the broader context of the trading desk's overall activities, particularly for the market making activities under § 44.4(b) and hedging activity under § 44.5. Accordingly, the limits required under § 44.4(b)(2)(iii) and § 44.5(b)(1)(i) must meet the applicable requirements under § 44.4(b)(2)(iii) and § 44.5(b)(1)(i) and also must include appropriate metrics for the trading desk limits including, at a minimum, the ''Risk Factor Sensitivities'' and ''Value-at-Risk and Stress Value-at-Risk'' metrics except to the extent any of the ''Risk Factor Sensitivities'' or ''Value-at-Risk and Stress Value-at-Risk'' metrics are demonstrably ineffective for measuring and monitoring the risks of a trading desk based on the types of positions traded by, and risk exposures of, that desk.

ii. *General Calculation Guidance:* Risk and Position Limits must be reported in the format used by the banking entity for the purposes of risk management of each trading desk. Risk and Position Limits are often expressed in terms of risk measures, such as VaR and Risk Factor Sensitivities, but may also be expressed in terms of other observable criteria, such as net open positions. When criteria other than VaR or Risk Factor Sensitivities are used to define the Risk and Position Limits, both the value of the Risk and Position Limits and the value of the variables used to assess whether these limits have been reached must be reported.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

2. Risk Factor Sensitivities

i. *Description:* For purposes of this appendix, Risk Factor Sensitivities are changes in a trading desk's Comprehensive Profit and Loss that are expected to occur in the event of a change in one or more underlying variables that are significant sources of the trading desk's profitability and risk.

ii. *General Calculation Guidance:* A banking entity must report the Risk Factor Sensitivities that are monitored and managed as part of the trading desk's overall risk management policy. The underlying data and methods used to compute a trading desk's Risk Factor Sensitivities will depend on the specific function of the trading desk and the internal risk management models employed. The number and type of Risk Factor Sensitivities that are monitored and managed by a trading desk, and furnished to the OCC, will depend on the explicit risks assumed by the trading desk. In general, however, reported Risk Factor Sensitivities must be sufficiently granular to account for a preponderance of the expected price variation in the trading desk's holdings.

A. Trading desks must take into account any relevant factors in calculating Risk Factor Sensitivities, including, for example, the following with respect to particular asset classes:

- *Commodity derivative positions:* Risk factors with respect to the related commodities set out in 17 CFR 20.2, the maturity of the positions, volatility and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Credit positions:* Risk factors with respect to credit spreads that are sufficiently granular to account for specific credit sectors and market segments, the maturity profile of the positions, and risk factors with respect to interest rates of all relevant maturities;
- *Credit-related derivative positions:* Risk factor sensitivities, for example credit spreads, shifts (parallel and non-parallel) in credit spreads—volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Equity derivative positions:* Risk factor sensitivities such as equity positions, volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Equity positions:* Risk factors for equity prices and risk factors that differentiate between important equity market sectors and segments, such as a small capitalization equities and international equities;
- *Foreign exchange derivative positions:* Risk factors with respect to major currency pairs and maturities, exposure to interest rates at relevant maturities, volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), as well as the maturity profile of the positions; and
- *Interest rate positions, including interest rate derivative positions:* Risk factors with respect to major interest rate categories and maturities and volatility and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and shifts (parallel and non-parallel) in the interest rate curve, as well as the maturity profile of the positions.

B. The methods used by a banking entity to calculate sensitivities to a common factor shared by multiple trading desks, such as an equity price factor, must be applied consistently across its trading desks so that the sensitivities can be compared from one trading desk to another.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

3. Value-at-Risk and Stress Value-at-Risk

i. *Description:* For purposes of this appendix, Value-at-Risk (''VaR'') is the commonly used percentile measurement of the risk of future financial loss in the value of a given set of aggregated positions over a specified period of time, based on current market conditions. For purposes of this appendix, Stress Value-at-Risk (''Stress VaR'') is the percentile measurement of the risk of future financial loss in the value of a given set of aggregated positions over a specified period of time, based on market conditions during a period of significant financial stress.

ii. *General Calculation Guidance:* Banking entities must compute and report VaR and Stress VaR by employing generally accepted standards and methods of calculation. VaR should reflect a loss in a trading desk that is expected to be exceeded less than one percent of the time over a one-day period. For those banking entities that are subject to regulatory capital requirements imposed by a Federal banking agency, VaR and Stress VaR must be computed and reported in a manner that is consistent with such regulatory capital requirements. In cases where a trading desk does not have a standalone VaR or Stress VaR calculation but is part of a larger aggregation of positions for which a VaR or Stress VaR calculation is performed, a VaR or Stress VaR calculation that includes only the trading desk's holdings must be performed consistent with the VaR or Stress VaR model and methodology used for the larger aggregation of positions.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

b. Source-of-Revenue Measurements

1. Comprehensive Profit and Loss Attribution

i. *Description:* For purposes of this appendix, Comprehensive Profit and Loss Attribution is an analysis that attributes the daily fluctuation in the value of a trading desk's positions to various sources. First, the daily profit and loss of the aggregated positions is divided into three categories: (i) Profit and loss attributable to a trading desk's existing positions that were also positions held by the trading desk as of the end of the prior day (''existing positions''); (ii) profit and loss attributable to new positions resulting from the current day's trading activity (''new positions''); and (iii) residual profit and loss that cannot be specifically attributed to existing positions or new positions. The sum of (i), (ii), and (iii) must equal the trading desk's comprehensive profit and loss at each point in time. In addition, profit and loss measurements must calculate volatility of comprehensive profit and loss (*i.e.,* the standard deviation of the trading desk's one-day profit and loss, in dollar terms) for the reporting period for at least a 30-, 60- and 90-day lag period, from the end of the reporting period, and any other period that the banking entity deems necessary to meet the requirements of the rule.

A. The comprehensive profit and loss associated with existing positions must reflect changes in the value of these positions on the applicable day. The comprehensive profit and loss from existing positions must be further attributed, as applicable, to changes in (i) the specific Risk Factors and other factors that are monitored and managed as part of the trading desk's overall risk management policies and procedures; and (ii) any other applicable elements, such as cash flows, carry, changes in reserves, and the correction, cancellation, or exercise of a trade.

B. The comprehensive profit and loss attributed to new positions must reflect commissions and fee income or expense and market gains or losses associated with transactions executed on the applicable day. New positions include purchases and sales of financial instruments and other assets/liabilities and negotiated amendments to existing positions. The comprehensive profit and loss from new positions may be reported in the aggregate and does not need to be further attributed to specific sources.

C. The portion of comprehensive profit and loss that cannot be specifically attributed to known sources must be allocated to a residual category identified as an unexplained portion of the comprehensive profit and loss. Significant unexplained profit and loss must be escalated for further investigation and analysis.

ii. *General Calculation Guidance:* The specific categories used by a trading desk in the attribution analysis and amount of detail for the analysis should be tailored to the type and amount of trading activities undertaken by the trading desk. The new position attribution must be computed by calculating the difference between the prices at which instruments were bought and/or sold and the prices at which those instruments are marked to market at the close of business on that day multiplied by the notional or principal amount of each purchase or sale. Any fees, commissions, or other payments received (paid) that are associated with transactions executed on that day must be added (subtracted) from such difference. These factors must be measured consistently over time to facilitate historical comparisons.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

c. Customer-Facing Activity Measurements

1. Inventory Turnover

i. *Description:* For purposes of this appendix, Inventory Turnover is a ratio that measures the turnover of a trading desk's inventory. The numerator of the ratio is the absolute value of all transactions over the reporting period. The denominator of the ratio is the value of the trading desk's inventory at the beginning of the reporting period.

ii. *General Calculation Guidance:* For purposes of this appendix, for derivatives, other than options and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value, and for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* 30 days, 60 days, and 90 days.

iv. *Measurement Frequency:* Daily.

2. Inventory Aging

i. *Description:* For purposes of this appendix, Inventory Aging generally describes a schedule of the trading desk's aggregate assets and liabilities and the amount of time that those assets and liabilities have been held. Inventory Aging should measure the age profile of the trading desk's assets and liabilities.

ii. *General Calculation Guidance:* In general, Inventory Aging must be computed using a trading desk's trading activity data and must identify the value of a trading desk's aggregate assets and liabilities. Inventory Aging must include two schedules, an asset-aging schedule and a liability-aging schedule. Each schedule must record the value of assets or liabilities held over all holding periods. For derivatives, other than options, and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value and, for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

3. Customer-Facing Trade Ratio—Trade Count Based and Value Based

i. *Description:* For purposes of this appendix, the Customer-Facing Trade Ratio is a ratio comparing (i) the transactions involving a counterparty that is a customer of the trading desk to (ii) the transactions involving a counterparty that is not a customer of the trading desk. A trade count based ratio must be computed that records the number of transactions involving a counterparty that is a customer of the trading desk and the number of transactions involving a counterparty that is not a customer of the trading desk. A value based ratio must be computed that records the value of transactions involving a counterparty that is a customer of the trading desk and the value of transactions involving a counterparty that is not a customer of the trading desk.

ii. *General Calculation Guidance:* For purposes of calculating the Customer-Facing Trade Ratio, a counterparty is considered to be a customer of the trading desk if the counterparty is a market participant that makes use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services. However, a trading desk or other organizational unit of another banking entity would not be a client, customer, or counterparty of the trading desk if the other entity has trading assets and liabilities of $50 billion or more as measured in accordance with § 44.20(d)(1) unless the trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk. Transactions conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants would be considered transactions with customers of the trading desk. For derivatives, other than options, and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value, and for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* 30 days, 60 days, and 90 days.

iv. *Measurement Frequency:* Daily.

Appendix B to Part 44—Enhanced Minimum Standards for Compliance Programs

I. Overview

Section 44.20(c) requires certain banking entities to establish, maintain, and enforce an enhanced compliance program that includes the requirements and standards in this Appendix as well as the minimum written policies and procedures, internal controls, management framework, independent testing, training, and recordkeeping provisions outlined in § 44.20. This Appendix sets forth additional minimum standards with respect to the establishment, oversight, maintenance, and enforcement by these banking entities of an enhanced internal compliance program for ensuring and monitoring compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part.

a. This compliance program must:

1. Be reasonably designed to identify, document, monitor, and report the permitted trading and covered fund activities and investments of the banking entity; identify, monitor and promptly address the risks of these covered activities and investments and potential areas of noncompliance; and prevent activities or investments prohibited by, or that do not comply with, section 13 of the BHC Act and this part;

2. Establish and enforce appropriate limits on the covered activities and investments of the banking entity, including limits on the size, scope, complexity, and risks of the individual activities or investments consistent with the requirements of section 13 of the BHC Act and this part;

3. Subject the effectiveness of the compliance program to periodic independent review and testing, and ensure that the entity's internal audit, corporate compliance and internal control functions involved in review and testing are effective and independent;

4. Make senior management, and others as appropriate, accountable for the effective implementation of the compliance program, and ensure that the board of directors and chief executive officer (or equivalent) of the banking entity review the effectiveness of the compliance program; and

5. Facilitate supervision and examination by the Agencies of the banking entity's permitted trading and covered fund activities and investments.

II. Enhanced Compliance Program

a. *Proprietary Trading Activities.* A banking entity must establish, maintain and enforce a compliance program that includes written policies and procedures that are appropriate for the types, size, and complexity of, and risks associated with, its permitted trading activities. The compliance program may be tailored to the types of trading activities conducted by the banking entity, and must include a detailed description of controls established by the banking entity to reasonably ensure that its trading activities are conducted in accordance with the requirements and limitations applicable to those trading activities under section 13 of the BHC Act and this part, and provide for appropriate revision of the compliance program before expansion of the trading activities of the banking entity. A banking entity must devote adequate resources and use knowledgeable personnel in conducting, supervising and managing its trading activities, and promote consistency, independence and rigor in implementing its risk controls and compliance efforts. The compliance program must be updated with a frequency sufficient to account for changes in the activities of the banking entity, results of independent testing of the program, identification of weaknesses in the program, and changes in legal, regulatory or other requirements.

1. *Trading Desks:* The banking entity must have written policies and procedures governing each trading desk that include a description of:

i. The process for identifying, authorizing and documenting financial instruments each trading desk may purchase or sell, with separate documentation for market making-related activities conducted in reliance on § 44.4(b) and for hedging activity conducted in reliance on § 44.5;

ii. A mapping for each trading desk to the division, business line, or other organizational structure that is responsible for managing and overseeing the trading desk's activities;

iii. The mission (*i.e.,* the type of trading activity, such as market-making, trading in sovereign debt, etc.) and strategy (*i.e.,* methods for conducting authorized trading activities) of each trading desk;

iv. The activities that the trading desk is authorized to conduct, including (i) authorized instruments and products, and (ii) authorized hedging strategies, techniques and instruments;

v. The types and amount of risks allocated by the banking entity to each trading desk to implement the mission and strategy of the trading desk, including an enumeration of material risks resulting from the activities in which the trading desk is authorized to engage (including but not limited to price risks, such as basis, volatility and correlation risks, as well as counterparty credit risk). Risk assessments must take into account both the risks inherent in the trading activity and the strength and effectiveness of controls designed to mitigate those risks;

vi. How the risks allocated to each trading desk will be measured;

vii. Why the allocated risks levels are appropriate to the activities authorized for the trading desk;

viii. The limits on the holding period of, and the risk associated with, financial instruments under the responsibility of the trading desk;

ix. The process for setting new or revised limits, as well as escalation procedures for granting exceptions to any limits or to any policies or procedures governing the desk, the analysis that will be required to support revising limits or granting exceptions, and the process for independently reviewing and documenting those exceptions and the underlying analysis;

x. The process for identifying, documenting and approving new products, trading strategies, and hedging strategies;

xi. The types of clients, customers, and counterparties with whom the trading desk may trade; and

xii. The compensation arrangements, including incentive arrangements, for employees associated with the trading desk, which may not be designed to reward or incentivize prohibited proprietary trading or excessive or imprudent risk-taking.

2. *Description of risks and risk management processes:* The compliance program for the banking entity must include a comprehensive description of the risk management program for the trading activity of the banking entity. The compliance program must also include a description of the governance, approval, reporting, escalation, review and other processes the banking entity will use to reasonably ensure that trading activity is conducted in compliance with section 13 of the BHC Act and this part. Trading activity in similar financial instruments should be subject to similar governance, limits, testing, controls, and review, unless the banking entity specifically determines to establish different limits or processes and documents those differences. Descriptions must include, at a minimum, the following elements:

i. A description of the supervisory and risk management structure governing all trading activity, including a description of processes for initial and senior-level review of new products and new strategies;

ii. A description of the process for developing, documenting, testing, approving and reviewing all models used for valuing, identifying and monitoring the risks of trading activity and related positions, including the process for periodic independent testing of the reliability and accuracy of those models;

iii. A description of the process for developing, documenting, testing, approving and reviewing the limits established for each trading desk;

iv. A description of the process by which a security may be purchased or sold pursuant to the liquidity management plan, including the process for authorizing and monitoring such activity to ensure compliance with the banking entity's liquidity management plan and the restrictions on liquidity management activities in this part;

v. A description of the management review process, including escalation procedures, for approving any temporary exceptions or permanent adjustments to limits on the activities, positions, strategies, or risks associated with each trading desk; and

vi. The role of the audit, compliance, risk management and other relevant units for conducting independent testing of trading and hedging activities, techniques and strategies.

3. *Authorized risks, instruments, and products.* The banking entity must implement and enforce limits and internal controls for each trading desk that are reasonably designed to ensure that trading activity is conducted in conformance with section 13 of the BHC Act and this part and with the banking entity's written policies and procedures. The banking entity must establish and enforce risk limits appropriate for the activity of each trading desk. These limits should be based on probabilistic and non-probabilistic measures of potential loss (*e.g.,* Value-at-Risk and notional exposure, respectively), and measured under normal and stress market conditions. At a minimum, these internal controls must monitor, establish and enforce limits on:

i. The financial instruments (including, at a minimum, by type and exposure) that the trading desk may trade;

ii. The types and levels of risks that may be taken by each trading desk; and

iii. The types of hedging instruments used, hedging strategies employed, and the amount of risk effectively hedged.

4. *Hedging policies and procedures.* The banking entity must establish, maintain, and enforce written policies and procedures regarding the use of risk-mitigating hedging instruments and strategies that, at a minimum, describe:

i. The positions, techniques and strategies that each trading desk may use to hedge the risk of its positions;

ii. The manner in which the banking entity will identify the risks arising in connection with and related to the individual or aggregated positions, contracts or other holdings of the banking entity that are to be hedged and determine that those risks have been properly and effectively hedged;

iii. The level of the organization at which hedging activity and management will occur;

iv. The manner in which hedging strategies will be monitored and the personnel responsible for such monitoring;

v. The risk management processes used to control unhedged or residual risks; and

vi. The process for developing, documenting, testing, approving and reviewing all hedging positions, techniques and strategies permitted for each trading desk and for the banking entity in reliance on § 44.5.

5. *Analysis and quantitative measurements.* The banking entity must perform robust analysis and quantitative measurement of its trading activities that is reasonably designed to ensure that the trading activity of each trading desk is consistent with the banking entity's compliance program; monitor and assist in the identification of potential and actual prohibited proprietary trading activity; and prevent the occurrence of prohibited proprietary trading. Analysis and models used to determine, measure and limit risk must be rigorously tested and be reviewed by management responsible for trading activity to ensure that trading activities, limits, strategies, and hedging activities do not understate the risk and exposure to the banking entity or allow prohibited proprietary trading. This review should include periodic and independent back-testing and revision of activities, limits, strategies and hedging as appropriate to contain risk and ensure compliance. In addition to the quantitative measurements reported by any banking entity subject to Appendix A to this part, each banking entity

must develop and implement, to the extent appropriate to facilitate compliance with this part, additional quantitative measurements specifically tailored to the particular risks, practices, and strategies of its trading desks. The banking entity's analysis and quantitative measurements must incorporate the quantitative measurements reported by the banking entity pursuant to Appendix A (if applicable) and include, at a minimum, the following:

i. Internal controls and written policies and procedures reasonably designed to ensure the accuracy and integrity of quantitative measurements;

ii. Ongoing, timely monitoring and review of calculated quantitative measurements;

iii. The establishment of numerical thresholds and appropriate trading measures for each trading desk and heightened review of trading activity not consistent with those thresholds to ensure compliance with section 13 of the BHC Act and this part, including analysis of the measurement results or other information, appropriate escalation procedures, and documentation related to the review; and

iv. Immediate review and compliance investigation of the trading desk's activities, escalation to senior management with oversight responsibilities for the applicable trading desk, timely notification to the OCC, appropriate remedial action (*e.g.,* divesting of impermissible positions, cessation of impermissible activity, disciplinary actions), and documentation of the investigation findings and remedial action taken when quantitative measurements or other information, considered together with the facts and circumstances, or findings of internal audit, independent testing or other review suggest a reasonable likelihood that the trading desk has violated any part of section 13 of the BHC Act or this part.

6. *Other Compliance Matters.* In addition to the requirements specified above, the banking entity's compliance program must:

i. Identify activities of each trading desk that will be conducted in reliance on exemptions contained in §§ 44.4 through 44.6, including an explanation of:

A. How and where in the organization the activity occurs; and

B. Which exemption is being relied on and how the activity meets the specific requirements for reliance on the applicable exemption;

ii. Include an explanation of the process for documenting, approving and reviewing actions taken pursuant to the liquidity management plan, where in the organization this activity occurs, the securities permissible for liquidity management, the process for ensuring that liquidity management activities are not conducted for the purpose of prohibited proprietary trading, and the process for ensuring that securities purchased as part of the liquidity management plan are highly liquid and conform to the requirements of this part;

iii. Describe how the banking entity monitors for and prohibits potential or actual material exposure to high-risk assets or high-risk trading strategies presented by each trading desk that relies on the exemptions contained in §§ 44.3(d)(3), and 44.4 through 44.6, which must take into account potential or actual exposure to:

A. Assets whose values cannot be externally priced or, where valuation is reliant on pricing models, whose model inputs cannot be externally validated;

B. Assets whose changes in value cannot be adequately mitigated by effective hedging;

C. New products with rapid growth, including those that do not have a market history;

D. Assets or strategies that include significant embedded leverage;

E. Assets or strategies that have demonstrated significant historical volatility;

F. Assets or strategies for which the application of capital and liquidity standards would not adequately account for the risk; and

G. Assets or strategies that result in large and significant concentrations to sectors, risk factors, or counterparties;

iv. Establish responsibility for compliance with the reporting and recordkeeping requirements of subpart B and § 44.20; and

v. Establish policies for monitoring and prohibiting potential or actual material conflicts of interest between the banking entity and its clients, customers, or counterparties.

7. *Remediation of violations.* The banking entity's compliance program must be reasonably designed and established to effectively monitor and identify for further analysis any trading activity that may indicate potential violations of section 13 of the BHC Act and this part and to prevent actual violations of section 13 of the BHC Act and this part. The compliance program must describe procedures for identifying and remedying violations of section 13 of the BHC Act and this part, and must include, at a minimum, a requirement to promptly document, address and remedy any violation of section 13 of the BHC Act or this part, and document all proposed and actual remediation efforts. The compliance program must include specific written policies and procedures that are reasonably designed to assess the extent to which any activity indicates that modification to the banking entity's compliance program is warranted and to ensure that appropriate modifications are implemented. The written policies and procedures must provide for prompt notification to appropriate management, including senior management and the board of directors, of any material weakness or significant deficiencies in the design or implementation of the compliance program of the banking entity.

b. *Covered Fund Activities or Investments.* A banking entity must establish, maintain and enforce a compliance program that includes written policies and procedures that are appropriate for the types, size, complexity and risks of the covered fund and related activities conducted and investments made, by the banking entity.

1. *Identification of covered funds.* The banking entity's compliance program must provide a process, which must include appropriate management review and independent testing, for identifying and documenting covered funds that each unit within the banking entity's organization sponsors or organizes and offers, and covered funds in which each such unit invests. In addition to the documentation requirements for covered funds, as specified under § 44.20(e), the documentation must include information that identifies all pools that the banking entity sponsors or has an interest in and the type of exemption from the Commodity Exchange Act (whether or not the pool relies on section 4.7 of the regulations under the Commodity Exchange Act), and the amount of ownership interest the banking entity has in those pools.

2. *Identification of covered fund activities and investments.* The banking entity's compliance program must identify, document and map each unit within the organization that is permitted to acquire or hold an interest in any covered fund or sponsor any covered fund and map each unit to the division, business line, or other organizational structure that will be responsible for managing and overseeing that unit's activities and investments.

3. *Explanation of compliance.* The banking entity's compliance program must explain how:

i. The banking entity monitors for and prohibits potential or actual material conflicts of interest between the banking entity and its clients, customers, or counterparties related to its covered fund activities and investments;

ii. The banking entity monitors for and prohibits potential or actual transactions or activities that may threaten the safety and soundness of the banking entity related to its covered fund activities and investments; and

iii. The banking entity monitors for and prohibits potential or actual material exposure to high-risk assets or high-risk trading strategies presented by its covered fund activities and investments, taking into account potential or actual exposure to:

A. Assets whose values cannot be externally priced or, where valuation is reliant on pricing models, whose model inputs cannot be externally validated;

B. Assets whose changes in values cannot be adequately mitigated by effective hedging;

C. New products with rapid growth, including those that do not have a market history;

D. Assets or strategies that include significant embedded leverage;

E. Assets or strategies that have demonstrated significant historical volatility;

F. Assets or strategies for which the application of capital and liquidity standards would not adequately account for the risk; and

G. Assets or strategies that expose the banking entity to large and significant concentrations with respect to sectors, risk factors, or counterparties;

4. *Description and documentation of covered fund activities and investments.* For each organizational unit engaged in covered fund activities and investments, the banking entity's compliance program must document:

i. The covered fund activities and investments that the unit is authorized to conduct;

ii. The banking entity's plan for actively seeking unaffiliated investors to ensure that any investment by the banking entity conforms to the limits contained in § 44.12 or registered in compliance with the securities laws and thereby exempt from those limits within the time periods allotted in § 44.12; and

iii. How it complies with the requirements of subpart C.

5. *Internal Controls.* A banking entity must establish, maintain, and enforce internal controls that are reasonably designed to ensure that its covered fund activities or investments comply with the requirements of section 13 of the BHC Act and this part and are appropriate given the limits on risk established by the banking entity. These written internal controls must be reasonably designed and established to effectively monitor and identify for further analysis any covered fund activity or investment that may indicate potential violations of section 13 of the BHC Act or this part. The internal controls must, at a minimum require:

i. Monitoring and limiting the banking entity's individual and aggregate investments in covered funds;

ii. Monitoring the amount and timing of seed capital investments for compliance with the limitations under subpart C (including but not limited to the redemption, sale or disposition requirements) of § 44.12, and the effectiveness of efforts to seek unaffiliated investors to ensure compliance with those limits;

iii. Calculating the individual and aggregate levels of ownership interests in one or more covered fund required by § 44.12;

iv. Attributing the appropriate instruments to the individual and aggregate ownership interest calculations above;

v. Making disclosures to prospective and actual investors in any covered fund organized and offered or sponsored by the banking entity, as provided under § 44.11(a)(8);

vi. Monitoring for and preventing any relationship or transaction between the banking entity and a covered fund that is prohibited under § 44.14, including where the banking entity has been designated as the sponsor, investment manager, investment adviser, or commodity trading advisor to a covered fund by another banking entity; and

vii. Appropriate management review and supervision across legal entities of the banking entity to ensure that services and products provided by all affiliated entities comply with the limitation on services and products contained in § 44.14.

6. *Remediation of violations.* The banking entity's compliance program must be reasonably designed and established to effectively monitor and identify for further analysis any covered fund activity or investment that may indicate potential violations of section 13 of the BHC Act or this part and to prevent actual violations of section 13 of the BHC Act and this part. The banking entity's compliance program must describe procedures for identifying and remedying violations of section 13 of the BHC Act and this part, and must include, at a minimum, a requirement to promptly document, address and remedy any violation of section 13 of the BHC Act or this part, including § 44.21, and document all proposed and actual remediation efforts. The compliance program must include specific written policies and procedures that are reasonably designed to assess the extent to which any activity or investment indicates that modification to the banking entity's compliance program is warranted and to ensure that appropriate modifications are implemented. The written policies and procedures must provide for prompt notification to appropriate management, including senior management and the board of directors, of any material weakness or significant deficiencies in the design or implementation of the compliance program of the banking entity.

III. Responsibility and Accountability for the Compliance Program

a. A banking entity must establish, maintain, and enforce a governance and management framework to manage its business and employees with a view to preventing violations of section 13 of the BHC Act and this part. A banking entity must have an appropriate management framework reasonably designed to ensure that: Appropriate personnel are responsible and accountable for the effective implementation and enforcement of the compliance program; a clear reporting line with a chain of responsibility is delineated; and the compliance program is reviewed periodically by senior management. The board of directors (or equivalent governance body) and senior management should have the appropriate authority and access to personnel and information within the organizations as well as appropriate resources to conduct their oversight activities effectively.

1. *Corporate governance.* The banking entity must adopt a written compliance program approved by the board of directors, an appropriate committee of the board, or equivalent governance body, and senior management.

2. *Management procedures.* The banking entity must establish, maintain, and enforce a governance framework that is reasonably designed to achieve compliance with section 13 of the BHC Act and this part, which, at a minimum, provides for:

i. The designation of appropriate senior management or committee of senior management with authority to carry out the management responsibilities of the banking entity for each trading desk and for each organizational unit engaged in covered fund activities;

ii. Written procedures addressing the management of the activities of the banking entity that are reasonably designed to achieve compliance with section 13 of the BHC Act and this part, including:

A. A description of the management system, including the titles, qualifications, and locations of managers and the specific responsibilities of each person with respect to the banking entity's activities governed by section 13 of the BHC Act and this part; and

B. Procedures for determining compensation arrangements for traders engaged in underwriting or market making-related activities under § 44.4 or risk-mitigating hedging activities under § 44.5 so that such compensation arrangements are designed not to reward or incentivize prohibited proprietary trading and appropriately balance risk and financial results in a manner that does not encourage employees to expose the banking entity to excessive or imprudent risk.

3. *Business line managers.* Managers with responsibility for one or more trading desks of the banking entity are accountable for the effective implementation and enforcement of the compliance program with respect to the applicable trading desk(s).

4. *Board of directors, or similar corporate body, and senior management.* The board of directors, or similar corporate body, and senior management are responsible for setting and communicating an appropriate culture of compliance with section 13 of the BHC Act and this part and ensuring that appropriate policies regarding the management of trading activities and covered fund activities or investments are adopted to comply with section 13 of the BHC Act and this part. The board of directors or similar corporate body (such as a designated committee of the board or an equivalent governance body) must ensure that senior management is fully capable, qualified, and properly motivated to manage compliance with this part in light of the organization's business activities and the expectations of the board of directors. The board of directors or similar corporate body must also ensure that senior management has established appropriate incentives and adequate resources to support compliance with this part, including the implementation of a compliance program meeting the requirements of this appendix into management goals and compensation structures across the banking entity.

5. *Senior management.* Senior management is responsible for implementing and enforcing the approved compliance program. Senior management must also ensure that effective corrective action is taken when failures in compliance with section 13 of the BHC Act and this part are identified. Senior management and control personnel charged with overseeing compliance with section 13 of the BHC Act and this part should review the compliance program for the banking entity periodically and report to the board, or an appropriate committee thereof, on the effectiveness of the compliance program and compliance matters with a frequency appropriate to the size, scope, and risk profile of the banking entity's trading activities and covered fund activities or investments, which shall be at least annually.

6. *CEO attestation.* Based on a review by the CEO of the banking entity, the CEO of the banking entity must, annually, attest in writing to the OCC that the banking entity has in place processes to establish, maintain, enforce, review, test and modify the compliance program established under this Appendix and § 44.20 of this part in a manner reasonably designed to achieve compliance with section 13 of the BHC Act and this part. In the case of a U.S. branch or agency of a foreign banking entity, the attestation may be provided for the entire U.S. operations of the foreign banking entity by the senior management officer of the United States operations of the foreign banking entity who is located in the United States.

IV. Independent Testing

a. Independent testing must occur with a frequency appropriate to the size, scope, and risk profile of the banking entity's trading and covered fund activities or investments, which shall be at least annually. This independent testing must include an evaluation of:

1. The overall adequacy and effectiveness of the banking entity's compliance program, including an analysis of the extent to which the program contains all the required elements of this appendix;

2. The effectiveness of the banking entity's internal controls, including an analysis and documentation of instances in which such internal controls have been breached, and how such breaches were addressed and resolved; and

3. The effectiveness of the banking entity's management procedures.

b. A banking entity must ensure that independent testing regarding the effectiveness of the banking entity's compliance program is conducted by a qualified independent party, such as the banking entity's internal audit department, compliance personnel or risk managers independent of the organizational unit being tested, outside auditors, consultants, or other qualified independent parties. A banking entity must promptly take appropriate action to remedy any significant deficiencies or material weaknesses in its compliance program and to terminate any violations of section 13 of the BHC Act or this part.

V. Training

Banking entities must provide adequate training to personnel and managers of the banking entity engaged in activities or investments governed by section 13 of the BHC Act or this part, as well as other appropriate supervisory, risk, independent testing, and audit personnel, in order to effectively implement and enforce the compliance program. This training should occur with a frequency appropriate to the size and the risk profile of the banking entity's trading activities and covered fund activities or investments.

VI. Recordkeeping

Banking entities must create and retain records sufficient to demonstrate compliance and support the operations and effectiveness of the compliance program. A banking entity must retain these records for a period that is no less than 5 years or such longer period as required by the OCC in a form that allows it to promptly produce such records to the OCC on request.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE

12 CFR Chapter II

Authority and Issuance

For the reasons stated in the Common Preamble, the Board amends chapter I of Title 12, Code of Federal Regulations as follows:

PART 248—PROPRIETARY TRADING AND CERTAIN INTERESTS IN AND RELATIONSHIPS WITH COVERED FUNDS (Regulation VV)

■ 16. The authority citation for part 248 continues to read as follows:

Authority: 12 U.S.C. 1851, 12 U.S.C. 221 *et seq.,* 12 U.S.C. 1818, 12 U.S.C. 1841 *et seq.,* and 12 U.S.C. 3103 *et seq.*

Subpart A—Authority and Definitions

■ 17. Section 248.2 is revised to read as follows:

§ 248.2 Definitions.

Unless otherwise specified, for purposes of this part:

(a) *Affiliate* has the same meaning as in section 2(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(k)).

(b) *Bank holding company* has the same meaning as in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(c) *Banking entity.* (1) Except as provided in paragraph (c)(2) of this section, *banking entity* means:

(i) Any insured depository institution;

(ii) Any company that controls an insured depository institution;

(iii) Any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(iv) Any affiliate or subsidiary of any entity described in paragraphs (c)(1)(i), (ii), or (iii) of this section.

(2) Banking entity does not include:

(i) A covered fund that is not itself a banking entity under paragraph (c)(1)(i), (ii), or (iii) of this section;

(ii) A portfolio company held under the authority contained in section 4(k)(4)(H) or (I) of the BHC Act (12 U.S.C. 1843(k)(4)(H), (I)), or any portfolio concern, as defined under 13 CFR 107.50, that is controlled by a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), so long as the portfolio company or portfolio concern is not itself a banking entity under paragraph (c)(1)(i), (ii), or (iii) of this section; or

(iii) The FDIC acting in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(d) *Board* means the Board of Governors of the Federal Reserve System.

(e) *CFTC* means the Commodity Futures Trading Commission.

(f) *Dealer* has the same meaning as in section 3(a)(5) of the Exchange Act (15 U.S.C. 78c(a)(5)).

(g) *Depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)).

(h) *Derivative.* (1) Except as provided in paragraph (h)(2) of this section, *derivative* means:

(i) Any swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68));

(ii) Any purchase or sale of a commodity, that is not an excluded commodity, for deferred shipment or delivery that is intended to be physically settled;

(iii) Any foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)) or foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25));

(iv) Any agreement, contract, or transaction in foreign currency described in section 2(c)(2)(C)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(C)(i));

(v) Any agreement, contract, or transaction in a commodity other than foreign currency described in section 2(c)(2)(D)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(D)(i)); and

(vi) Any transaction authorized under section 19 of the Commodity Exchange Act (7 U.S.C. 23(a) or (b));

(2) A derivative does not include:

(i) Any consumer, commercial, or other agreement, contract, or transaction that the CFTC and SEC have further defined by joint regulation, interpretation, or other action as not within the definition of swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68)); or

(ii) Any identified banking product, as defined in section 402(b) of the Legal Certainty for Bank Products Act of 2000 (7 U.S.C. 27(b)), that is subject to section 403(a) of that Act (7 U.S.C. 27a(a)).

(i) *Employee* includes a member of the immediate family of the employee.

(j) *Exchange Act* means the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

(k) *Excluded commodity* has the same meaning as in section 1a(19) of the Commodity Exchange Act (7 U.S.C. 1a(19)).

(l) *FDIC* means the Federal Deposit Insurance Corporation.

(m) *Federal banking agencies* means the Board, the Office of the Comptroller of the Currency, and the FDIC.

(n) *Foreign banking organization* has the same meaning as in § 211.21(o) of the Board's Regulation K (12 CFR 211.21(o)), but does not include a foreign bank, as defined in section 1(b)(7) of the International Banking Act of 1978 (12 U.S.C. 3101(7)), that is organized under the laws of the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands.

(o) *Foreign insurance regulator* means the insurance commissioner, or a similar official or agency, of any country other than the United States that is engaged in the supervision of insurance companies under foreign insurance law.

(p) *General account* means all of the assets of an insurance company except those allocated to one or more separate accounts.

(q) *Insurance company* means a company that is organized as an insurance company, primarily and predominantly engaged in writing insurance or reinsuring risks underwritten by insurance companies, subject to supervision as such by a state insurance regulator or a foreign insurance regulator, and not operated for the purpose of evading the provisions of section 13 of the BHC Act (12 U.S.C. 1851).

(r) *Insured depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)), but does not include:

(1) An insured depository institution that is described in section 2(c)(2)(D) of the BHC Act (12 U.S.C. 1841(c)(2)(D)); or

(2) An insured depository institution if it has, and if every company that controls it has, total consolidated assets of $10 billion or less and total trading assets and trading liabilities, on a consolidated basis, that are 5 percent or less of total consolidated assets.

(s) *Limited trading assets and liabilities* means with respect to a banking entity that:

(1)(i) The banking entity has, together with its affiliates and subsidiaries, trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 248.6(a)(1) and (2) of subpart B) the average gross sum of which over the previous consecutive four quarters, as measured as of the last day of each of the four previous calendar quarters, is less than $1 billion; and

(ii) The Board has not determined pursuant to § 248.20(g) or (h) of this part that the banking entity should not be treated as having limited trading assets and liabilities.

(2) With respect to a banking entity other than a banking entity described in paragraph (s)(3) of this section, trading assets and liabilities for purposes of this paragraph (s) means trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 248.6(a)(1) and (2) of subpart B) on a worldwide consolidated basis.

(3)(i) With respect to a banking entity that is a foreign banking organization or a subsidiary of a foreign banking organization, trading assets and liabilities for purposes of this paragraph (s) means the trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 248.6(a)(1) and (2) of subpart B) of the combined U.S. operations of the top-tier foreign banking organization (including all subsidiaries, affiliates, branches, and agencies of the foreign banking organization operating, located, or organized in the United States).

(ii) For purposes of paragraph (s)(3)(i) of this section, a U.S. branch, agency, or subsidiary of a banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary. For purposes of paragraph (s)(3)(i) of this section, all foreign operations of a U.S. agency, branch, or subsidiary of a foreign banking organization are considered to be located in the United States, including branches outside the United States that are managed or controlled by a U.S. branch or agency of the foreign banking organization, for purposes of calculating the banking entity's U.S. trading assets and liabilities.

(t) *Loan* means any loan, lease, extension of credit, or secured or unsecured receivable that is not a security or derivative.

(u) *Moderate trading assets and liabilities* means, with respect to a banking entity, that the banking entity does not have significant trading assets and liabilities or limited trading assets and liabilities.

(v) *Primary financial regulatory agency* has the same meaning as in section 2(12) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301(12)).

(w) *Purchase* includes any contract to buy, purchase, or otherwise acquire. For security futures products, purchase includes any contract, agreement, or transaction for future delivery. With respect to a commodity future, purchase includes any contract, agreement, or transaction for future delivery. With respect to a derivative, purchase includes the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(x) *Qualifying foreign banking organization* means a foreign banking organization that qualifies as such under § 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c), or (e)).

(y) *SEC* means the Securities and Exchange Commission.

(z) *Sale* and *sell* each include any contract to sell or otherwise dispose of. For security futures products, such terms include any contract, agreement, or transaction for future delivery. With respect to a commodity future, such terms include any contract, agreement, or transaction for future delivery. With respect to a derivative, such terms include the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(aa) *Security* has the meaning specified in section 3(a)(10) of the Exchange Act (15 U.S.C. 78c(a)(10)).

(bb) *Security-based swap dealer* has the same meaning as in section 3(a)(71) of the Exchange Act (15 U.S.C. 78c(a)(71)).

(cc) *Security future* has the meaning specified in section 3(a)(55) of the Exchange Act (15 U.S.C. 78c(a)(55)).

(dd) *Separate account* means an account established and maintained by an insurance company in connection with one or more insurance contracts to hold assets that are legally segregated from the insurance company's other assets, under which income, gains, and losses, whether or not realized, from assets allocated to such account, are, in accordance with the applicable contract, credited to or charged against such account without regard to other income, gains, or losses of the insurance company.

(ee) *Significant trading assets and liabilities* means with respect to a banking entity that:

(1)(i) The banking entity has, together with its affiliates and subsidiaries, trading assets and liabilities the average gross sum of which over the previous consecutive four quarters, as measured as of the last day of each of the four previous calendar quarters, equals or exceeds $20 billion; or

(ii) The Board has determined pursuant to § 248.20(h) of this part that the banking entity should be treated as having significant trading assets and liabilities.

(2) With respect to a banking entity, other than a banking entity described in paragraph (ee)(3) of this section, trading assets and liabilities for purposes of this paragraph (ee) means trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 248.6(a)(1) and (2) of subpart B) on a worldwide consolidated basis.

(3)(i) With respect to a banking entity that is a foreign banking organization or a subsidiary of a foreign banking organization, trading assets and liabilities for purposes of this paragraph (ee) means the trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 248.6(a)(1) and (2) of subpart B) of the combined U.S. operations of the top-tier foreign banking organization (including all subsidiaries, affiliates, branches, and agencies of the foreign banking organization operating, located, or organized in the United States as well as branches outside the United States that are managed or controlled by a branch or agency of the foreign banking entity operating, located or organized in the United States).

(ii) For purposes of paragraph (ee)(3)(i) of this section, a U.S. branch, agency, or subsidiary of a banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary. For purposes of paragraph (ee)(3)(i) of this section, all foreign operations of a U.S. agency, branch, or subsidiary of a foreign banking organization are considered to be located in the United States for purposes of calculating the banking entity's U.S. trading assets and liabilities.

(ff) *State* means any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(gg) *Subsidiary* has the same meaning as in section 2(d) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(d)).

(hh) *State insurance regulator* means the insurance commissioner, or a similar official or agency, of a State that is engaged in the supervision of insurance companies under State insurance law.

(ii) *Swap dealer* has the same meaning as in section 1(a)(49) of the Commodity Exchange Act (7 U.S.C. 1a(49)).

Subpart B—Proprietary Trading

■ 18. Section 248.3 is amended by:
■ a. Revising paragraphs (b) and (d)(3), (8), and (9);
■ b. Adding paragraphs (d)(10) through (13);
■ c. Redesignating paragraphs (e)(5) through (13) as paragraphs (e)(6) through (14);
■ d. Adding new paragraph (e)(5); and
■ e. Revising newly redesignated paragraphs (e)(11), (12), and (14).

The revisions and additions read as follows:

§ 248.3 Prohibition on proprietary trading.

* * * * *

(b) *Definition of trading account.* (1) *Trading account.* Trading account means:

(i) Any account that is used by a banking entity to purchase or sell one or more financial instruments principally for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging one or more of the positions resulting from the purchases or sales of financial instruments described in this paragraph;

(ii) Any account that is used by a banking entity to purchase or sell one or more financial instruments that are both market risk capital rule covered positions and trading positions (or hedges of other market risk capital rule covered positions), if the banking entity, or any affiliate with which the banking entity is consolidated for regulatory reporting purposes, calculates risk-based capital ratios under the market risk capital rule; or

(iii) Any account that is used by a banking entity to purchase or sell one or more financial instruments, if the banking entity:

(A) Is licensed or registered, or is required to be licensed or registered, to engage in the business of a dealer, swap dealer, or security-based swap dealer, to the extent the instrument is purchased or sold in connection with the activities that require the banking entity to be licensed or registered as such; or

(B) Is engaged in the business of a dealer, swap dealer, or security-based swap dealer outside of the United States, to the extent the instrument is purchased or sold in connection with the activities of such business.

(2) *Trading account application for certain banking entities.* (i) A banking entity that is subject to paragraph (b)(1)(ii) of this section in determining the scope of its trading account is not subject to paragraph (b)(1)(i) of this section.

(ii) A banking entity that does not calculate risk-based capital ratios under the market risk capital rule and is not a consolidated affiliate for regulatory reporting purposes of a banking entity that calculates risk based capital ratios under the market risk capital rule may elect to apply paragraph (b)(1)(ii) of this section in determining the scope of its trading account as if it were subject to that paragraph. A banking entity that elects under this subsection to apply paragraph (b)(1)(ii) of this section in determining the scope of its trading account as if it were subject to that paragraph is not required to apply paragraph (b)(1)(i) of this section.

(3) *Consistency of account election for certain banking entities.* (i) Any election or change to an election under paragraph (b)(2)(ii) of this section must apply to the electing banking entity and all of its wholly owned subsidiaries. The primary financial regulatory agency of a banking entity that is affiliated with but is not a wholly owned subsidiary of such electing banking entity may require that the banking entity be subject to this uniform application requirement if the primary financial regulatory agency determines that it is necessary to prevent evasion of the requirements of this part after notice and opportunity for response as provided in subpart D of this part.

(ii) A banking entity that does not elect under paragraph (b)(2)(ii) of this section to be subject to the trading account definition in (b)(1)(ii) may continue to apply the trading account definition in paragraph (b)(1)(i) of this section for one year from the date on which it becomes, or becomes a consolidated affiliate for regulatory reporting purposes with, a banking entity that calculates risk-based capital ratios under the market risk capital rule.

(4) *Rebuttable presumption for certain purchases and sales.* The purchase (or sale) of a financial instrument by a banking entity shall be presumed not to be for the trading account of the banking entity under paragraph (b)(1)(i) of this section if the banking entity holds the financial instrument for sixty days or longer and does not transfer substantially all of the risk of the financial instrument within sixty days of the purchase (or sale).

* * * * *

(d) * * *

(3) Any purchase or sale of a security, foreign exchange forward (as that term

is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)), foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25)), or cross-currency swap by a banking entity for the purpose of liquidity management in accordance with a documented liquidity management plan of the banking entity that:

(i) Specifically contemplates and authorizes the particular financial instruments to be used for liquidity management purposes, the amount, types, and risks of these financial instruments that are consistent with liquidity management, and the liquidity circumstances in which the particular financial instruments may or must be used;

(ii) Requires that any purchase or sale of financial instruments contemplated and authorized by the plan be principally for the purpose of managing the liquidity of the banking entity, and not for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging a position taken for such short-term purposes;

(iii) Requires that any financial instruments purchased or sold for liquidity management purposes be highly liquid and limited to financial instruments the market, credit, and other risks of which the banking entity does not reasonably expect to give rise to appreciable profits or losses as a result of short-term price movements;

(iv) Limits any financial instruments purchased or sold for liquidity management purposes, together with any other financial instruments purchased or sold for such purposes, to an amount that is consistent with the banking entity's near-term funding needs, including deviations from normal operations of the banking entity or any affiliate thereof, as estimated and documented pursuant to methods specified in the plan;

(v) Includes written policies and procedures, internal controls, analysis, and independent testing to ensure that the purchase and sale of financial instruments that are not permitted under § 248.6(a) or (b) of this subpart are for the purpose of liquidity management and in accordance with the liquidity management plan described in this paragraph (d)(3); and

(vi) Is consistent with the Board's supervisory requirements regarding liquidity management;

* * * * *

(8) Any purchase or sale of one or more financial instruments by a banking entity through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity that is established and administered in accordance with the law of the United States or a foreign sovereign, if the purchase or sale is made directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity;

(9) Any purchase or sale of one or more financial instruments by a banking entity in the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the financial instrument as soon as practicable, and in no event may the banking entity retain such instrument for longer than such period permitted by the Board;

(10) Any purchase or sale of one or more financial instruments that was made in error by a banking entity in the course of conducting a permitted or excluded activity or is a subsequent transaction to correct such an error;

(11) Contemporaneously entering into a customer-driven swap or customer-driven security-based swap and a matched swap or security-based swap if:

(i) The banking entity retains no more than minimal price risk; and

(ii) The banking entity is not a registered dealer, swap dealer, or security-based swap dealer;

(12) Any purchase or sale of one or more financial instruments that the banking entity uses to hedge mortgage servicing rights or mortgage servicing assets in accordance with a documented hedging strategy; or

(13) Any purchase or sale of a financial instrument that does not meet the definition of trading asset or trading liability under the applicable reporting form for a banking entity as of January 1, 2020.

(e) * * *

(5) *Cross-currency swap* means a swap in which one party exchanges with another party principal and interest rate payments in one currency for principal and interest rate payments in another currency, and the exchange of principal occurs on the date the swap is entered into, with a reversal of the exchange of principal at a later date that is agreed upon when the swap is entered into.

* * * * *

(11) *Market risk capital rule covered position and trading position* means a financial instrument that meets the criteria to be a covered position and a trading position, as those terms are respectively defined, without regard to whether the financial instrument is reported as a covered position or trading position on any applicable regulatory reporting forms:

(i) In the case of a banking entity that is a bank holding company, savings and loan holding company, or insured depository institution, under the market risk capital rule that is applicable to the banking entity; and

(ii) In the case of a banking entity that is affiliated with a bank holding company or savings and loan holding company, other than a banking entity to which a market risk capital rule is applicable, under the market risk capital rule that is applicable to the affiliated bank holding company or savings and loan holding company.

(12) *Market risk capital rule* means the market risk capital rule that is contained in 12 CFR part 3 with respect to a banking entity for which the OCC is the primary financial regulatory agency, 12 CFR part 217 with respect to a banking entity for which the Board is the primary financial regulatory agency, or 12 CFR part 324 with respect to a banking entity for which the FDIC is the primary financial regulatory agency.

* * * * *

(14) *Trading desk* means a unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof that is:

(i)(A) Structured by the banking entity to implement a well-defined business strategy;

(B) Organized to ensure appropriate setting, monitoring, and management review of the desk's trading and hedging limits, current and potential future loss exposures, and strategies; and

(C) Characterized by a clearly defined unit that:

(*1*) Engages in coordinated trading activity with a unified approach to its key elements;

(*2*) Operates subject to a common and calibrated set of risk metrics, risk levels, and joint trading limits;

(*3*) Submits compliance reports and other information as a unit for monitoring by management; and

(*4*) Books its trades together; or

(ii) For a banking entity that calculates risk-based capital ratios under the market risk capital rule, or a consolidated affiliate for regulatory reporting purposes of a banking entity that calculates risk-based capital ratios under the market risk capital rule, established by the banking entity or its affiliate for purposes of market risk capital calculations under the market risk capital rule.

■ 19. Section 248.4 is revised to read as follows:

§ 248.4 Permitted underwriting and market making-related activities.

(a) *Underwriting activities*—(1) *Permitted underwriting activities.* The prohibition contained in § 248.3(a) does not apply to a banking entity's underwriting activities conducted in accordance with this paragraph (a).

(2) *Requirements.* The underwriting activities of a banking entity are permitted under paragraph (a)(1) of this section only if:

(i) The banking entity is acting as an underwriter for a distribution of securities and the trading desk's underwriting position is related to such distribution;

(ii)(A) The amount and type of the securities in the trading desk's underwriting position are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, taking into account the liquidity, maturity, and depth of the market for the relevant types of securities; and

(B) Reasonable efforts are made to sell or otherwise reduce the underwriting position within a reasonable period, taking into account the liquidity, maturity, and depth of the market for the relevant types of securities;

(iii) In the case of a banking entity with significant trading assets and liabilities, the banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (a) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The products, instruments or exposures each trading desk may purchase, sell, or manage as part of its underwriting activities;

(B) Limits for each trading desk, in accordance with paragraph (a)(2)(ii)(A) of this section;

(C) Written authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval; and

(D) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits.

(iv) A banking entity with significant trading assets and liabilities may satisfy the requirements in paragraphs (a)(2)(iii)(B) and (C) of this section by complying with the requirements set forth in paragraph (c) of this section;

(v) The compensation arrangements of persons performing the activities described in this paragraph (a) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in the activity described in this paragraph (a) in accordance with applicable law.

(3) *Definition of distribution.* For purposes of this paragraph (a), a distribution of securities means:

(i) An offering of securities, whether or not subject to registration under the Securities Act of 1933, that is distinguished from ordinary trading transactions by the presence of special selling efforts and selling methods; or

(ii) An offering of securities made pursuant to an effective registration statement under the Securities Act of 1933.

(4) *Definition of underwriter.* For purposes of this paragraph (a), *underwriter* means:

(i) A person who has agreed with an issuer or selling security holder to:

(A) Purchase securities from the issuer or selling security holder for distribution;

(B) Engage in a distribution of securities for or on behalf of the issuer or selling security holder; or

(C) Manage a distribution of securities for or on behalf of the issuer or selling security holder; or

(ii) A person who has agreed to participate or is participating in a distribution of such securities for or on behalf of the issuer or selling security holder.

(5) *Definition of selling security holder.* For purposes of this paragraph (a), *selling security holder* means any person, other than an issuer, on whose behalf a distribution is made.

(6) *Definition of underwriting position.* For purposes of this section, *underwriting position* means the long or short positions in one or more securities held by a banking entity or its affiliate, and managed by a particular trading desk, in connection with a particular distribution of securities for which such banking entity or affiliate is acting as an underwriter.

(7) *Definition of client, customer, and counterparty.* For purposes of this paragraph (a), the terms *client, customer, and counterparty,* on a collective or individual basis, refer to market participants that may transact with the banking entity in connection with a particular distribution for which the banking entity is acting as underwriter.

(b) *Market making-related activities*—(1) *Permitted market making-related activities.* The prohibition contained in § 248.3(a) does not apply to a banking entity's market making-related activities conducted in accordance with this paragraph (b).

(2) *Requirements.* The market making-related activities of a banking entity are permitted under paragraph (b)(1) of this section only if:

(i) The trading desk that establishes and manages the financial exposure, routinely stands ready to purchase and sell one or more types of financial instruments related to its financial exposure, and is willing and available to quote, purchase and sell, or otherwise enter into long and short positions in those types of financial instruments for its own account, in commercially reasonable amounts and throughout market cycles on a basis appropriate for the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(ii) The trading desk's market-making related activities are designed not to exceed, on an ongoing basis, the reasonably expected near term demands of clients, customers, or counterparties, taking into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(iii) In the case of a banking entity with significant trading assets and liabilities, the banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this paragraph (b), including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The financial instruments each trading desk stands ready to purchase and sell in accordance with paragraph (b)(2)(i) of this section;

(B) The actions the trading desk will take to demonstrably reduce or otherwise significantly mitigate promptly the risks of its financial exposure consistent with the limits required under paragraph (b)(2)(iii)(C) of this section; the products, instruments, and exposures each trading desk may use for risk management purposes; the techniques and strategies each trading desk may use to manage the risks of its market making-related activities and positions; and the process, strategies, and personnel responsible for ensuring that the actions taken by the trading desk to mitigate these risks are and continue to be effective;

(C) Limits for each trading desk, in accordance with paragraph (b)(2)(ii) of this section;

(D) Written authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval; and

(E) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits.

(iv) A banking entity with significant trading assets and liabilities may satisfy the requirements in paragraphs (b)(2)(iii)(C) and (D) of this section by complying with the requirements set forth in paragraph (c) of this section.

(v) The compensation arrangements of persons performing the activities described in this paragraph (b) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in activity described in this paragraph (b) in accordance with applicable law.

(3) *Definition of client, customer, and counterparty.* For purposes of this paragraph (b), the terms *client, customer, and counterparty,* on a collective or individual basis refer to market participants that make use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services, provided that:

(i) A trading desk or other organizational unit of another banking entity is not a client, customer, or counterparty of the trading desk if that other entity has trading assets and liabilities of $50 billion or more as measured in accordance with the methodology described in § 248.2(ee) of this part, unless:

(A) The trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk for purposes of paragraph (b)(2) of this section; or

(B) The purchase or sale by the trading desk is conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants.

(ii) [Reserved]

(4) *Definition of financial exposure.* For purposes of this section, *financial exposure* means the aggregate risks of one or more financial instruments and any associated loans, commodities, or foreign exchange or currency, held by a banking entity or its affiliate and managed by a particular trading desk as part of the trading desk's market making-related activities.

(5) *Definition of market-maker positions.* For the purposes of this section, *market-maker positions* means all of the positions in the financial instruments for which the trading desk stands ready to make a market in accordance with paragraph (b)(2)(i) of this section, that are managed by the trading desk, including the trading desk's open positions or exposures arising from open transactions.

(c) *Rebuttable presumption of compliance*—(1) *Internal limits.* (i) A banking entity shall be presumed to meet the requirement in paragraph (a)(2)(ii)(A) or (b)(2)(ii) of this section with respect to the purchase or sale of a financial instrument if the banking entity has established and implements, maintains, and enforces the internal limits for the relevant trading desk as described in paragraph (c)(1)(ii) of this section.

(ii)(A) With respect to underwriting activities conducted pursuant to paragraph (a) of this section, the presumption described in paragraph (c)(1)(i) of this section shall be available to each trading desk that establishes, implements, maintains, and enforces internal limits that should take into account the liquidity, maturity, and depth of the market for the relevant types of securities and are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, based on the nature and amount of the trading desk's underwriting activities, on the:

(*1*) Amount, types, and risk of its underwriting position;

(*2*) Level of exposures to relevant risk factors arising from its underwriting position; and

(*3*) Period of time a security may be held.

(B) With respect to market making-related activities conducted pursuant to paragraph (b) of this section, the presumption described in paragraph (c)(1)(i) of this section shall be available to each trading desk that establishes, implements, maintains, and enforces internal limits that should take into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments and are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, based on the nature and amount of the trading desk's market-making related activities, that address the:

(*1*) Amount, types, and risks of its market-maker positions;

(*2*) Amount, types, and risks of the products, instruments, and exposures the trading desk may use for risk management purposes;

(*3*) Level of exposures to relevant risk factors arising from its financial exposure; and

(*4*) Period of time a financial instrument may be held.

(2) *Supervisory review and oversight.* The limits described in paragraph (c)(1) of this section shall be subject to supervisory review and oversight by the Board on an ongoing basis.

(3) *Limit breaches and increases.* (i) With respect to any limit set pursuant to paragraph (c)(1)(ii)(A) or (B) of this section, a banking entity shall maintain and make available to the Board upon request records regarding:

(A) Any limit that is exceeded; and

(B) Any temporary or permanent increase to any limit(s), in each case in the form and manner as directed by the Board.

(ii) In the event of a breach or increase of any limit set pursuant to paragraph (c)(1)(ii)(A) or (B) of this section, the presumption described in paragraph (c)(1)(i) of this section shall continue to be available only if the banking entity:

(A) Takes action as promptly as possible after a breach to bring the trading desk into compliance; and

(B) Follows established written authorization procedures, including escalation procedures that require review and approval of any trade that exceeds a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval.

(4) *Rebutting the presumption.* The presumption in paragraph (c)(1)(i) of this section may be rebutted by the Board if the Board determines, taking into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments and based on all relevant facts and circumstances, that a trading desk is engaging in activity that is not based on the reasonably expected near term demands of clients, customers, or counterparties. The Board's rebuttal of the presumption in paragraph (c)(1)(i) must be made in accordance with the notice and response procedures in subpart D of this part.

■ 20. Section 248.5 is amended by revising paragraphs (b) and (c)(1) introductory text and adding paragraph (c)(4) to read as follows:

§ 248.5 Permitted risk-mitigating hedging activities.

* * * * *

(b) *Requirements.* (1) The risk-mitigating hedging activities of a banking entity that has significant trading assets and liabilities are permitted under paragraph (a) of this section only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures regarding the positions, techniques and strategies that may be used for hedging, including documentation indicating what positions, contracts or other holdings a particular trading desk may use in its risk-mitigating hedging activities, as well as position and aging limits with respect to such positions, contracts or other holdings;

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(C) The conduct of analysis and independent testing designed to ensure that the positions, techniques and strategies that may be used for hedging may reasonably be expected to reduce or otherwise significantly mitigate the specific, identifiable risk(s) being hedged;

(ii) The risk-mitigating hedging activity:

(A) Is conducted in accordance with the written policies, procedures, and internal controls required under this section;

(B) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section;

(D) Is subject to continuing review, monitoring and management by the banking entity that:

(*1*) Is consistent with the written hedging policies and procedures required under paragraph (b)(1)(i) of this section;

(*2*) Is designed to reduce or otherwise significantly mitigate the specific, identifiable risks that develop over time from the risk-mitigating hedging activities undertaken under this section and the underlying positions, contracts, and other holdings of the banking entity, based upon the facts and circumstances of the underlying and hedging positions, contracts and other holdings of the banking entity and the risks and liquidity thereof; and

(*3*) Requires ongoing recalibration of the hedging activity by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(1)(ii) of this section and is not prohibited proprietary trading; and

(iii) The compensation arrangements of persons performing risk-mitigating hedging activities are designed not to reward or incentivize prohibited proprietary trading.

(2) The risk-mitigating hedging activities of a banking entity that does not have significant trading assets and liabilities are permitted under paragraph (a) of this section only if the risk-mitigating hedging activity:

(i) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof; and

(ii) Is subject, as appropriate, to ongoing recalibration by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(2) of this section and is not prohibited proprietary trading.

(c) * * *

(1) A banking entity that has significant trading assets and liabilities must comply with the requirements of paragraphs (c)(2) and (3) of this section, unless the requirements of paragraph (c)(4) of this section are met, with respect to any purchase or sale of financial instruments made in reliance on this section for risk-mitigating hedging purposes that is:

* * * * *

(4) The requirements of paragraphs (c)(2) and (3) of this section do not apply to the purchase or sale of a financial instrument described in paragraph (c)(1) of this section if:

(i) The financial instrument purchased or sold is identified on a written list of pre-approved financial instruments that are commonly used by the trading desk for the specific type of hedging activity for which the financial instrument is being purchased or sold; and

(ii) At the time the financial instrument is purchased or sold, the hedging activity (including the purchase or sale of the financial instrument) complies with written, pre-approved limits for the trading desk purchasing or selling the financial instrument for hedging activities undertaken for one or more other trading desks. The limits shall be appropriate for the:

(A) Size, types, and risks of the hedging activities commonly undertaken by the trading desk;

(B) Financial instruments purchased and sold for hedging activities by the trading desk; and

(C) Levels and duration of the risk exposures being hedged.

■ 21. Section 248.6 is amended by revising paragraph (e)(3), removing paragraphs (e)(4) and (6), and redesignating paragraph (e)(5) as paragraph (e)(4).

The revision reads as follows:

§ 248.6 Other permitted proprietary trading activities.

* * * * *

(e) * * *

(3) A purchase or sale by a banking entity is permitted for purposes of this paragraph (e) if:

(i) The banking entity engaging as principal in the purchase or sale (including relevant personnel) is not located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to purchase or sell as principal is not located in the United States or organized under the laws of the United States or of any State; and

(iii) The purchase or sale, including any transaction arising from risk-mitigating hedging related to the instruments purchased or sold, is not accounted for as principal directly or on a consolidated basis by any branch or affiliate that is located in the United

States or organized under the laws of the United States or of any State.

* * * * *

Subpart C—Covered Funds Activities and Investments

■ 22. Section 248.10 is amended by revising paragraphs (c)(7)(ii) and (c)(8)(i)(A) to read as follows:

§ 248.10 Prohibition on Acquiring or Retaining an Ownership Interest in and Having Certain Relationships with a Covered Fund.

* * * * *

(c) * * *

(7) * * *

(ii) Participates in the profits and losses of the separate account other than in compliance with applicable requirements regarding bank owned life insurance.

(8) * * *

(i) * * *

(A) Loans as defined in § 248.2(t) of subpart A;

* * * * *

■ 23. Section 248.11 is amended by revising paragraph (c) to read as follows:

§ 248.11 Permitted organizing and offering, underwriting, and market making with respect to a covered fund.

* * * * *

(c) *Underwriting and market making in ownership interests of a covered fund.* The prohibition contained in § 248.10(a) does not apply to a banking entity's underwriting activities or market making-related activities involving a covered fund so long as:

(1) Those activities are conducted in accordance with the requirements of § 248.4(a) or (b), respectively; and

(2) With respect to any banking entity (or any affiliate thereof) that: Acts as a sponsor, investment adviser or commodity trading advisor to a particular covered fund or otherwise acquires and retains an ownership interest in such covered fund in reliance on paragraph (a) of this section; or acquires and retains an ownership interest in such covered fund and is either a securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78*o*–11(a)(3)), or is acquiring and retaining an ownership interest in such covered fund in compliance with section 15G of that Act (15 U.S.C.78*o*–11) and the implementing regulations issued thereunder each as permitted by paragraph (b) of this section, then in each such case any ownership interests acquired or retained by the banking entity and its affiliates in connection with underwriting and market making related activities for that particular covered fund are included in the calculation of ownership interests permitted to be held by the banking entity and its affiliates under the limitations of § 248.12(a)(2)(ii) and (iii) and (d).

§ 248.12 [Amended]

■ 24. Section 248.12 is amended by redesignating the second instance of paragraph (e)(2)(vi) as paragraph (e)(2)(vii).

■ 25. Section 248.13 is amended by revising paragraphs (a), (b)(3) and (4), and (c) to read as follows:

§ 248.13 Other permitted covered fund activities and investments.

(a) *Permitted risk-mitigating hedging activities.* (1) The prohibition contained in § 248.10(a) does not apply with respect to an ownership interest in a covered fund acquired or retained by a banking entity that is designed to reduce or otherwise significantly mitigate the specific, identifiable risks to the banking entity in connection with:

(i) A compensation arrangement with an employee of the banking entity or an affiliate thereof that directly provides investment advisory, commodity trading advisory or other services to the covered fund; or

(ii) A position taken by the banking entity when acting as intermediary on behalf of a customer that is not itself a banking entity to facilitate the exposure by the customer to the profits and losses of the covered fund.

(2) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under this paragraph (a) only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program in accordance with subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures; and

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(ii) The acquisition or retention of the ownership interest:

(A) Is made in accordance with the written policies, procedures, and internal controls required under this section;

(B) At the inception of the hedge, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks arising:

(*1*) Out of a transaction conducted solely to accommodate a specific customer request with respect to the covered fund; or

(*2*) In connection with the compensation arrangement with the employee that directly provides investment advisory, commodity trading advisory, or other services to the covered fund;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section; and

(D) Is subject to continuing review, monitoring and management by the banking entity.

(iii) With respect to risk-mitigating hedging activity conducted pursuant to paragraph (a)(1)(i), the compensation arrangement relates solely to the covered fund in which the banking entity or any affiliate has acquired an ownership interest pursuant to paragraph (a)(1)(i) and such compensation arrangement provides that any losses incurred by the banking entity on such ownership interest will be offset by corresponding decreases in amounts payable under such compensation arrangement.

(b) * * *

(3) An ownership interest in a covered fund is not offered for sale or sold to a resident of the United States for purposes of paragraph (b)(1)(iii) of this section only if it is not sold and has not been sold pursuant to an offering that targets residents of the United States in which the banking entity or any affiliate of the banking entity participates. If the banking entity or an affiliate sponsors or serves, directly or indirectly, as the investment manager, investment adviser, commodity pool operator or commodity trading advisor to a covered fund, then the banking entity or affiliate will be deemed for purposes of this paragraph (b)(3) to participate in any offer or sale by the covered fund of ownership interests in the covered fund.

(4) An activity or investment occurs solely outside of the United States for purposes of paragraph (b)(1)(iv) of this section only if:

(i) The banking entity acting as sponsor, or engaging as principal in the acquisition or retention of an ownership interest in the covered fund, is not itself, and is not controlled directly or indirectly by, a banking entity that is located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to acquire or retain the ownership interest or act as sponsor to the covered fund is not located in the United States or organized under the laws of the United States or of any State; and

(iii) The investment or sponsorship, including any transaction arising from risk-mitigating hedging related to an ownership interest, is not accounted for as principal directly or indirectly on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

* * * * *

(c) *Permitted covered fund interests and activities by a regulated insurance company.* The prohibition contained in § 248.10(a) of this subpart does not apply to the acquisition or retention by an insurance company, or an affiliate thereof, of any ownership interest in, or the sponsorship of, a covered fund only if:

(1) The insurance company or its affiliate acquires and retains the ownership interest solely for the general account of the insurance company or for one or more separate accounts established by the insurance company;

(2) The acquisition and retention of the ownership interest is conducted in compliance with, and subject to, the insurance company investment laws and regulations of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law or regulation described in paragraph (c)(2) of this section is insufficient to protect the safety and soundness of the banking entity, or the financial stability of the United States.

■ 26. Section 248.14 is amended by revising paragraph (a)(2)(ii)(B) to read as follows:

§ 248.14 Limitations on relationships with a covered fund.

(a) * * *

(2) * * *

(ii) * * *

(B) The chief executive officer (or equivalent officer) of the banking entity certifies in writing annually no later than March 31 to the Board (with a duty to update the certification if the information in the certification materially changes) that the banking entity does not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests; and

* * * * *

Subpart D—Compliance Program Requirement; Violations

■ 27. Section 248.20 is amended by revising paragraphs (a), (b) introductory text, (c), (d), (e) introductory text, and (f)(2) and adding paragraphs (g), (h), and (i) to read as follows:

§ 248.20 Program for compliance; reporting.

(a) *Program requirement.* Each banking entity (other than a banking entity with limited trading assets and liabilities) shall develop and provide for the continued administration of a compliance program reasonably designed to ensure and monitor compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part. The terms, scope, and detail of the compliance program shall be appropriate for the types, size, scope, and complexity of activities and business structure of the banking entity.

(b) *Banking entities with significant trading assets and liabilities.* With respect to a banking entity with significant trading assets and liabilities, the compliance program required by paragraph (a) of this section, at a minimum, shall include:

* * * * *

(c) *CEO attestation.* The CEO of a banking entity that has significant trading assets and liabilities must, based on a review by the CEO of the banking entity, attest in writing to the Board, each year no later than March 31, that the banking entity has in place processes to establish, maintain, enforce, review, test and modify the compliance program required by paragraph (b) of this section in a manner reasonably designed to achieve compliance with section 13 of the BHC Act and this part. In the case of a U.S. branch or agency of a foreign banking entity, the attestation may be provided for the entire U.S. operations of the foreign banking entity by the senior management officer of the U.S. operations of the foreign banking entity who is located in the United States.

(d) *Reporting requirements under appendix A to this part.* (1) A banking entity engaged in proprietary trading activity permitted under subpart B shall comply with the reporting requirements described in appendix A to this part, if:

(i) The banking entity has significant trading assets and liabilities; or

(ii) The Board notifies the banking entity in writing that it must satisfy the reporting requirements contained in appendix A to this part.

(2) Frequency of reporting: Unless the Board notifies the banking entity in writing that it must report on a different basis, a banking entity subject to appendix A to this part shall report the information required by appendix A for each quarter within 30 days of the end of the quarter.

(e) *Additional documentation for covered funds.* A banking entity with significant trading assets and liabilities shall maintain records that include:

* * * * *

(f) * * *

(2) *Banking entities with moderate trading assets and liabilities.* A banking entity with moderate trading assets and liabilities may satisfy the requirements of this section by including in its existing compliance policies and procedures appropriate references to the requirements of section 13 of the BHC Act and this part and adjustments as appropriate given the activities, size, scope, and complexity of the banking entity.

(g) *Rebuttable presumption of compliance for banking entities with limited trading assets and liabilities*—(1) *Rebuttable presumption.* Except as otherwise provided in this paragraph, a banking entity with limited trading assets and liabilities shall be presumed to be compliant with subpart B and subpart C of this part and shall have no obligation to demonstrate compliance with this part on an ongoing basis.

(2) *Rebuttal of presumption.* If upon examination or audit, the Board determines that the banking entity has engaged in proprietary trading or covered fund activities that are otherwise prohibited under subpart B or subpart C of this part, the Board may require the banking entity to be treated under this part as if it did not have limited trading assets and liabilities. The Board's rebuttal of the presumption in this paragraph must be made in accordance with the notice and response procedures in paragraph (i) of this section.

(h) *Reservation of authority.* Notwithstanding any other provision of this part, the Board retains its authority to require a banking entity without significant trading assets and liabilities to apply any requirements of this part that would otherwise apply if the banking entity had significant or moderate trading assets and liabilities if the Board determines that the size or complexity of the banking entity's trading or investment activities, or the risk of evasion of subpart B or subpart C of this part, does not warrant a presumption of compliance under paragraph (g) of this section or treatment as a banking entity with moderate trading assets and liabilities, as applicable. The Board's exercise of this reservation of authority must be made in accordance with the notice and response procedures in paragraph (i) of this section.

(i) *Notice and response procedures*—(1) *Notice.* The Board will notify the banking entity in writing of any determination requiring notice under this part and will provide an explanation of the determination.

(2) *Response.* The banking entity may respond to any or all items in the notice described in paragraph (i)(1) of this section. The response should include any matters that the banking entity would have the Board consider in deciding whether to make the determination. The response must be in writing and delivered to the designated Board official within 30 days after the date on which the banking entity received the notice. The Board may shorten the time period when, in the opinion of the Board, the activities or condition of the banking entity so requires, provided that the banking entity is informed of the time period at the time of notice, or with the consent of the banking entity. In its discretion, the Board may extend the time period for good cause.

(3) *Waiver.* Failure to respond within 30 days or such other time period as may be specified by the Board shall constitute a waiver of any objections to the Board's determination.

(4) *Decision.* The Board will notify the banking entity of the decision in writing. The notice will include an explanation of the decision.

■ 28. Revise appendix A to part 248 to read as follows:

Appendix A to Part 248—Reporting and Recordkeeping Requirements for Covered Trading Activities

I. Purpose

a. This appendix sets forth reporting and recordkeeping requirements that certain banking entities must satisfy in connection with the restrictions on proprietary trading set forth in subpart B (''proprietary trading restrictions''). Pursuant to § 248.20(d), this appendix applies to a banking entity that, together with its affiliates and subsidiaries, has significant trading assets and liabilities. These entities are required to (i) furnish periodic reports to the Board regarding a variety of quantitative measurements of their covered trading activities, which vary depending on the scope and size of covered trading activities, and (ii) create and maintain records documenting the preparation and content of these reports. The requirements of this appendix must be incorporated into the banking entity's internal compliance program under § 248.20.

b. The purpose of this appendix is to assist banking entities and the Board in:

(1) Better understanding and evaluating the scope, type, and profile of the banking entity's covered trading activities;

(2) Monitoring the banking entity's covered trading activities;

(3) Identifying covered trading activities that warrant further review or examination by the banking entity to verify compliance with the proprietary trading restrictions;

(4) Evaluating whether the covered trading activities of trading desks engaged in market making-related activities subject to § 248.4(b) are consistent with the requirements governing permitted market making-related activities;

(5) Evaluating whether the covered trading activities of trading desks that are engaged in permitted trading activity subject to § 248.4, 248.5, or 248.6(a)–(b) (*i.e.,* underwriting and market making-related activity, risk-mitigating hedging, or trading in certain government obligations) are consistent with the requirement that such activity not result, directly or indirectly, in a material exposure to high-risk assets or high-risk trading strategies;

(6) Identifying the profile of particular covered trading activities of the banking entity, and the individual trading desks of the banking entity, to help establish the appropriate frequency and scope of examination by Board of such activities; and

(7) Assessing and addressing the risks associated with the banking entity's covered trading activities.

c. Information that must be furnished pursuant to this appendix is not intended to serve as a dispositive tool for the identification of permissible or impermissible activities.

d. In addition to the quantitative measurements required in this appendix, a banking entity may need to develop and implement other quantitative measurements in order to effectively monitor its covered trading activities for compliance with section 13 of the BHC Act and this part and to have an effective compliance program, as required by § 248.20. The effectiveness of particular quantitative measurements may differ based on the profile of the banking entity's businesses in general and, more specifically, of the particular trading desk, including types of instruments traded, trading activities and strategies, and history and experience (*e.g.,* whether the trading desk is an established, successful market maker or a new entrant to a competitive market). In all cases, banking entities must ensure that they have robust measures in place to identify and monitor the risks taken in their trading activities, to ensure that the activities are within risk tolerances established by the banking entity, and to monitor and examine for compliance with the proprietary trading restrictions in this part.

e. On an ongoing basis, banking entities must carefully monitor, review, and evaluate all furnished quantitative measurements, as well as any others that they choose to utilize in order to maintain compliance with section 13 of the BHC Act and this part. All measurement results that indicate a heightened risk of impermissible proprietary trading, including with respect to otherwise-permitted activities under § 248.4 through 248.6(a)–(b), or that result in a material exposure to high-risk assets or high-risk trading strategies, must be escalated within the banking entity for review, further analysis, explanation to Board, and remediation, where appropriate. The quantitative measurements discussed in this appendix should be helpful to banking entities in identifying and managing the risks related to their covered trading activities.

II. Definitions

The terms used in this appendix have the same meanings as set forth in § 248.2 and § 248.3. In addition, for purposes of this appendix, the following definitions apply:

Applicability identifies the trading desks for which a banking entity is required to calculate and report a particular quantitative measurement based on the type of covered trading activity conducted by the trading desk.

Calculation period means the period of time for which a particular quantitative measurement must be calculated.

Comprehensive profit and loss means the net profit or loss of a trading desk's material sources of trading revenue over a specific period of time, including, for example, any increase or decrease in the market value of a trading desk's holdings, dividend income, and interest income and expense.

Covered trading activity means trading conducted by a trading desk under § 248.4, § 248.5, § 248.6(a), or § 248.6(b). A banking entity may include in its covered trading activity trading conducted under § 248.3(d), § 248.6(c), § 248.6(d) or § 248.6(e).

Measurement frequency means the frequency with which a particular quantitative metric must be calculated and recorded.

Trading day means a calendar day on which a trading desk is open for trading.

III. Reporting and Recordkeeping

a. Scope of Required Reporting

1. Quantitative measurements. Each banking entity made subject to this appendix by § 248.20 must furnish the following quantitative measurements, as applicable, for each trading desk of the banking entity engaged in covered trading activities and calculate these quantitative measurements in accordance with this appendix:

i. Internal Limits and Usage;

ii. Value-at-Risk;

iii. Comprehensive Profit and Loss Attribution;

iv. Positions; and

v. Transaction Volumes.

2. Trading desk information. Each banking entity made subject to this appendix by § 248.20 must provide certain descriptive information, as further described in this appendix, regarding each trading desk engaged in covered trading activities.

3. Quantitative measurements identifying information. Each banking entity made subject to this appendix by § 248.20 must provide certain identifying and descriptive information, as further described in this appendix, regarding its quantitative measurements.

4. Narrative statement. Each banking entity made subject to this appendix by § 248.20 may provide an optional narrative statement, as further described in this appendix.

5. File identifying information. Each banking entity made subject to this appendix by § 248.20 must provide file identifying information in each submission to the Board pursuant to this appendix, including the name of the banking entity, the RSSD ID assigned to the top-tier banking entity by the Board, and identification of the reporting period and creation date and time.

b. Trading Desk Information

1. Each banking entity must provide descriptive information regarding each trading desk engaged in covered trading activities, including:

i. Name of the trading desk used internally by the banking entity and a unique identification label for the trading desk;

ii. Identification of each type of covered trading activity in which the trading desk is engaged;

iii. Brief description of the general strategy of the trading desk;

v. A list identifying each Agency receiving the submission of the trading desk;

2. Indication of whether each calendar date is a trading day or not a trading day for the trading desk; and

3. Currency reported and daily currency conversion rate.

c. Quantitative Measurements Identifying Information

Each banking entity must provide the following information regarding the quantitative measurements:

1. An Internal Limits Information Schedule that provides identifying and descriptive information for each limit reported pursuant to the Internal Limits and Usage quantitative measurement, including the name of the limit, a unique identification label for the limit, a description of the limit, the unit of measurement for the limit, the type of limit, and identification of the corresponding risk factor attribution in the particular case that the limit type is a limit on a risk factor sensitivity and profit and loss attribution to the same risk factor is reported; and

2. A Risk Factor Attribution Information Schedule that provides identifying and descriptive information for each risk factor attribution reported pursuant to the Comprehensive Profit and Loss Attribution quantitative measurement, including the name of the risk factor or other factor, a unique identification label for the risk factor or other factor, a description of the risk factor or other factor, and the risk factor or other factor's change unit.

d. Narrative Statement

Each banking entity made subject to this appendix by § 248.20 may submit in a separate electronic document a Narrative Statement to the Board with any information the banking entity views as relevant for assessing the information reported. The Narrative Statement may include further description of or changes to calculation methods, identification of material events, description of and reasons for changes in the banking entity's trading desk structure or trading desk strategies, and when any such changes occurred.

e. Frequency and Method of Required Calculation and Reporting

A banking entity must calculate any applicable quantitative measurement for each trading day. A banking entity must report the Trading Desk Information, the Quantitative Measurements Identifying Information, and each applicable quantitative measurement electronically to the Board on the reporting schedule established in § 248.20 unless otherwise requested by the Board. A banking entity must report the Trading Desk Information, the Quantitative Measurements Identifying Information, and each applicable quantitative measurement to the Board in accordance with the XML Schema specified and published on the Board's website.

f. Recordkeeping

A banking entity must, for any quantitative measurement furnished to the Board pursuant to this appendix and § 248.20(d), create and maintain records documenting the preparation and content of these reports, as well as such information as is necessary to permit the Board to verify the accuracy of such reports, for a period of five years from the end of the calendar year for which the measurement was taken. A banking entity must retain the Narrative Statement, the Trading Desk Information, and the Quantitative Measurements Identifying Information for a period of five years from the end of the calendar year for which the information was reported to the Board.

IV. Quantitative Measurements

a. Risk-Management Measurements

1. Internal Limits and Usage

i. *Description:* For purposes of this appendix, Internal Limits are the constraints that define the amount of risk and the positions that a trading desk is permitted to take at a point in time, as defined by the banking entity for a specific trading desk. Usage represents the value of the trading desk's risk or positions that are accounted for by the current activity of the desk. Internal limits and their usage are key compliance and risk management tools used to control and monitor risk taking and include, but are not limited to, the limits set out in §§ 248.4 and 248.5. A trading desk's risk limits, commonly including a limit on ''Value-at-Risk,'' are useful in the broader context of the trading desk's overall activities, particularly for the market making activities under § 248.4(b) and hedging activity under § 248.5. Accordingly, the limits required under §§ 248.4(b)(2)(iii)(C) and 248.5(b)(1)(i)(A) must meet the applicable requirements under §§ 248.4(b)(2)(iii)(C) and 248.5(b)(1)(i)(A) and also must include appropriate metrics for the trading desk limits including, at a minimum, ''Value-at-Risk'' except to the extent the ''Value-at-Risk'' metric is demonstrably ineffective for measuring and monitoring the risks of a trading desk based on the types of positions traded by, and risk exposures of, that desk.

A. A banking entity must provide the following information for each limit reported pursuant to this quantitative measurement: The unique identification label for the limit reported in the Internal Limits Information Schedule, the limit size (distinguishing between an upper and a lower limit), and the value of usage of the limit.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

2. Value-at-Risk

i. *Description:* For purposes of this appendix, Value-at-Risk (''VaR'') is the measurement of the risk of future financial loss in the value of a trading desk's aggregated positions at the ninety-nine percent confidence level over a one-day period, based on current market conditions.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

b. Source-of-Revenue Measurements

1. Comprehensive Profit and Loss Attribution

i. *Description:* For purposes of this appendix, Comprehensive Profit and Loss Attribution is an analysis that attributes the daily fluctuation in the value of a trading desk's positions to various sources. First, the daily profit and loss of the aggregated positions is divided into two categories: (i) Profit and loss attributable to a trading desk's existing positions that were also positions held by the trading desk as of the end of the prior day (''existing positions''); and (ii) profit and loss attributable to new positions resulting from the current day's trading activity (''new positions'').

A. The comprehensive profit and loss associated with existing positions must reflect changes in the value of these positions on the applicable day. The comprehensive profit and loss from existing positions must be further attributed, as applicable, to (i) changes in the specific risk factors and other factors that are monitored and managed as part of the trading desk's overall risk management policies and procedures; and (ii) any other applicable elements, such as cash flows, carry, changes in reserves, and the correction, cancellation, or exercise of a trade.

B. For the attribution of comprehensive profit and loss from existing positions to specific risk factors and other factors, a banking entity must provide the following information for the factors that explain the preponderance of the profit or loss changes due to risk factor changes: The unique identification label for the risk factor or other factor listed in the Risk Factor Attribution Information Schedule, and the profit or loss due to the risk factor or other factor change.

C. The comprehensive profit and loss attributed to new positions must reflect commissions and fee income or expense and market gains or losses associated with transactions executed on the applicable day. New positions include purchases and sales of financial instruments and other assets/liabilities and negotiated amendments to existing positions. The comprehensive profit and loss from new positions may be reported in the aggregate and does not need to be further attributed to specific sources.

D. The portion of comprehensive profit and loss from existing positions that is not attributed to changes in specific risk factors and other factors must be allocated to a residual category. Significant unexplained profit and loss must be escalated for further investigation and analysis.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

c. *Positions and Transaction Volumes Measurements*

1. Positions

i. *Description:* For purposes of this appendix, Positions is the value of securities and derivatives positions managed by the trading desk. For purposes of the Positions quantitative measurement, do not include in the Positions calculation for ''securities'' those securities that are also ''derivatives,'' as those terms are defined under subpart A; instead, report those securities that are also derivatives as ''derivatives.'' [1] A banking entity must separately report the trading desk's market value of long securities positions, short securities positions, derivatives receivables, and derivatives payables.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks that rely on § 248.4(a) or § 248.4(b) to conduct underwriting activity or market-making-related activity, respectively.

2. Transaction Volumes

i. *Description:* For purposes of this appendix, Transaction Volumes measures three exclusive categories of covered trading activity conducted by a trading desk. A banking entity is required to report the value and number of security and derivative transactions conducted by the trading desk with: (i) Customers, excluding internal transactions; (ii) non-customers, excluding internal transactions; and (iii) trading desks and other organizational units where the transaction is booked into either the same banking entity or an affiliated banking entity. For securities, value means gross market value. For derivatives, value means gross notional value. For purposes of calculating the Transaction Volumes quantitative measurement, do not include in the Transaction Volumes calculation for ''securities'' those securities that are also ''derivatives,'' as those terms are defined under subpart A; instead, report those securities that are also derivatives as ''derivatives.'' [2] Further, for purposes of the Transaction Volumes quantitative measurement, a customer of a trading desk that relies on § 248.4(a) to conduct underwriting activity is a market participant identified in § 248.4(a)(7), and a customer of a trading desk that relies on § 248.4(b) to conduct market making-related activity is a market participant identified in § 248.4(b)(3).

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks that rely on § 248.4(a) or § 248.4(b) to conduct underwriting activity or market-making-related activity, respectively.

Appendix B to Part 248 [Removed]

■ 29. Appendix B to part 248 is removed.

■ 30. Effective January 1, 2020, until December 31, 2020, appendix Z to part 248 is added to read as follows:

Appendix Z to Part 248—Proprietary Trading and Certain Interests in and Relationships With Covered Funds (Alternative Compliance)

Note: The content of this appendix reproduces the regulation implementing Section 13 of the Bank Holding Company Act as of November 13, 2019.

Subpart A—Authority and Definitions

§ 248.1 Authority, purpose, scope, and relationship to other authorities.

(a) *Authority.* This part (Regulation VV) is issued by the Board under section 13 of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1851), as well as under the Federal Reserve Act, as amended (12 U.S.C. 221 *et seq.*); section 8 of the Federal Deposit Insurance Act, as amended (12 U.S.C. 1818); the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1841 *et seq.*); and the International Banking Act of 1978, as amended (12 U.S.C. 3101 *et seq.*).

(b) *Purpose.* Section 13 of the Bank Holding Company Act establishes prohibitions and restrictions on proprietary trading and on investments in or relationships with covered funds by certain banking entities, including state member banks, bank holding companies, savings and loan holding companies, other companies that control an insured depository institution, foreign banking organizations, and certain subsidiaries thereof. This part implements section 13 of the Bank Holding Company Act by defining terms used in the statute and related terms, establishing prohibitions and restrictions on proprietary trading and on investments in or relationships with covered funds, and explaining the statute's requirements.

(c) *Scope.* This part implements section 13 of the Bank Holding Company Act with respect to banking entities for which the Board is authorized to issue regulations under section 13(b)(2) of the Bank Holding Company Act (12 U.S.C. 1851(b)(2)) and take actions under section 13(e) of that Act (12 U.S.C. 1851(e)). These include any state bank that is a member of the Federal Reserve System, any company that controls an insured depository institution (including a bank holding company and savings and loan holding company), any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act (12 U.S.C. 3106), and any subsidiary of the foregoing other than a subsidiary for which the OCC, FDIC, CFTC, or SEC is the primary financial regulatory agency (as defined in section 2(12) of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (12 U.S.C. 5301(12)), but do not include such entities to the extent they are not within the definition of banking entity in § 248.2(c).

(d) *Relationship to other authorities.* Except as otherwise provided under section 13 of the BHC Act or this part, and notwithstanding any other provision of law, the prohibitions and restrictions under section 13 of BHC Act and this part shall apply to the activities of a banking entity, even if such activities are authorized for the banking entity under other applicable provisions of law.

(e) *Preservation of authority.* Nothing in this part limits in any way the authority of the Board to impose on a banking entity identified in paragraph (c) of this section additional requirements or restrictions with respect to any activity, investment, or relationship covered under section 13 of the Bank Holding Company Act or this part, or additional penalties for violation of this part provided under any other applicable provision of law.

§ 248.2 Definitions.

Unless otherwise specified, for purposes of this part:

(a) *Affiliate* has the same meaning as in section 2(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(k)).

(b) *Bank holding company* has the same meaning as in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(c) *Banking entity.* (1) Except as provided in paragraph (c)(2) of this section, *banking entity* means:

(i) Any insured depository institution;

(ii) Any company that controls an insured depository institution;

(iii) Any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(iv) Any affiliate or subsidiary of any entity described in paragraphs (c)(1)(i), (ii), or (iii) of this section.

(2) Banking entity does not include:

[1] *See* § 248.2(h), (aa). For example, under this part, a security-based swap is both a ''security'' and a ''derivative.'' For purposes of the Positions quantitative measurement, security-based swaps are reported as derivatives rather than securities.

[2] *See* § 248.2(h), (aa).

(i) A covered fund that is not itself a banking entity under paragraphs (c)(1)(i), (ii), or (iii) of this section;

(ii) A portfolio company held under the authority contained in section 4(k)(4)(H) or (I) of the BHC Act (12 U.S.C. 1843(k)(4)(H), (I)), or any portfolio concern, as defined under 13 CFR 107.50, that is controlled by a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), so long as the portfolio company or portfolio concern is not itself a banking entity under paragraphs (c)(1)(i), (ii), or (iii) of this section; or

(iii) The FDIC acting in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(d) *Board* means the Board of Governors of the Federal Reserve System.

(e) *CFTC* means the Commodity Futures Trading Commission.

(f) *Dealer* has the same meaning as in section 3(a)(5) of the Exchange Act (15 U.S.C. 78c(a)(5)).

(g) *Depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)).

(h) *Derivative.* (1) Except as provided in paragraph (h)(2) of this section, *derivative* means:

(i) Any swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68));

(ii) Any purchase or sale of a commodity, that is not an excluded commodity, for deferred shipment or delivery that is intended to be physically settled;

(iii) Any foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)) or foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25));

(iv) Any agreement, contract, or transaction in foreign currency described in section 2(c)(2)(C)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(C)(i));

(v) Any agreement, contract, or transaction in a commodity other than foreign currency described in section 2(c)(2)(D)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(D)(i)); and

(vi) Any transaction authorized under section 19 of the Commodity Exchange Act (7 U.S.C. 23(a) or (b));

(2) A derivative does not include:

(i) Any consumer, commercial, or other agreement, contract, or transaction that the CFTC and SEC have further defined by joint regulation, interpretation, guidance, or other action as not within the definition of swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68)); or

(ii) Any identified banking product, as defined in section 402(b) of the Legal Certainty for Bank Products Act of 2000 (7 U.S.C. 27(b)), that is subject to section 403(a) of that Act (7 U.S.C. 27a(a)).

(i) *Employee* includes a member of the immediate family of the employee.

(j) *Exchange Act* means the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

(k) *Excluded commodity* has the same meaning as in section 1a(19) of the Commodity Exchange Act (7 U.S.C. 1a(19)).

(l) *FDIC* means the Federal Deposit Insurance Corporation.

(m) *Federal banking agencies* means the Board, the Office of the Comptroller of the Currency, and the FDIC.

(n) *Foreign banking organization* has the same meaning as in section 211.21(o) of the Board's Regulation K (12 CFR 211.21(o)), but does not include a foreign bank, as defined in section 1(b)(7) of the International Banking Act of 1978 (12 U.S.C. 3101(7)), that is organized under the laws of the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands.

(o) *Foreign insurance regulator* means the insurance commissioner, or a similar official or agency, of any country other than the United States that is engaged in the supervision of insurance companies under foreign insurance law.

(p) *General account* means all of the assets of an insurance company except those allocated to one or more separate accounts.

(q) *Insurance company* means a company that is organized as an insurance company, primarily and predominantly engaged in writing insurance or reinsuring risks underwritten by insurance companies, subject to supervision as such by a state insurance regulator or a foreign insurance regulator, and not operated for the purpose of evading the provisions of section 13 of the BHC Act (12 U.S.C. 1851).

(r) *Insured depository institution,* unless otherwise indicated, has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)), but does not include:

(1) An insured depository institution that is described in section 2(c)(2)(D) of the BHC Act (12 U.S.C. 1841(c)(2)(D)); or

(2) An insured depository institution if it has, and if every company that controls it has, total consolidated assets of $10 billion or less and total trading assets and trading liabilities, on a consolidated basis, that are 5 percent or less of total consolidated assets.

(s) *Loan* means any loan, lease, extension of credit, or secured or unsecured receivable that is not a security or derivative.

(t) *Primary financial regulatory agency* has the same meaning as in section 2(12) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301(12)).

(u) *Purchase* includes any contract to buy, purchase, or otherwise acquire. For security futures products, purchase includes any contract, agreement, or transaction for future delivery. With respect to a commodity future, purchase includes any contract, agreement, or transaction for future delivery. With respect to a derivative, purchase includes the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(v) *Qualifying foreign banking organization* means a foreign banking organization that qualifies as such under section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c), or (e)).

(w) *SEC* means the Securities and Exchange Commission.

(x) *Sale* and *sell* each include any contract to sell or otherwise dispose of. For security futures products, such terms include any contract, agreement, or transaction for future delivery. With respect to a commodity future, such terms include any contract, agreement, or transaction for future delivery. With respect to a derivative, such terms include the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(y) *Security* has the meaning specified in section 3(a)(10) of the Exchange Act (15 U.S.C. 78c(a)(10)).

(z) *Security-based swap dealer* has the same meaning as in section 3(a)(71) of the Exchange Act (15 U.S.C. 78c(a)(71)).

(aa) *Security future* has the meaning specified in section 3(a)(55) of the Exchange Act (15 U.S.C. 78c(a)(55)).

(bb) *Separate account* means an account established and maintained by an insurance company in connection with one or more insurance contracts to hold assets that are legally segregated from the insurance company's other assets, under which income, gains, and losses, whether or not realized, from assets allocated to such account, are, in accordance with the applicable contract, credited to or charged against such account without regard to other income, gains, or losses of the insurance company.

(cc) *State* means any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(dd) *Subsidiary* has the same meaning as in section 2(d) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(d)).

(ee) *State insurance regulator* means the insurance commissioner, or a similar official or agency, of a State that is engaged in the supervision of insurance companies under State insurance law.

(ff) *Swap dealer* has the same meaning as in section 1(a)(49) of the Commodity Exchange Act (7 U.S.C. 1a(49)).

Subpart B—Proprietary Trading

§ 248.3 Prohibition on proprietary trading.

(a) *Prohibition.* Except as otherwise provided in this subpart, a banking entity may not engage in proprietary trading. *Proprietary trading* means engaging as principal for the trading account of the banking entity in any purchase or sale of one or more financial instruments.

(b) *Definition of trading account.* (1) Trading account means any account that is used by a banking entity to:

(i) Purchase or sell one or more financial instruments principally for the purpose of:

(A) Short-term resale;

(B) Benefitting from actual or expected short-term price movements;

(C) Realizing short-term arbitrage profits; or

(D) Hedging one or more positions resulting from the purchases or sales of financial instruments described in paragraphs (b)(1)(i)(A), (B), or (C) of this section;

(ii) Purchase or sell one or more financial instruments that are both market risk capital rule covered positions and trading positions (or hedges of other market risk capital rule covered positions), if the banking entity, or any affiliate of the banking entity, is an insured depository institution, bank holding company, or savings and loan holding company, and calculates risk-based capital ratios under the market risk capital rule; or

(iii) Purchase or sell one or more financial instruments for any purpose, if the banking entity:

(A) Is licensed or registered, or is required to be licensed or registered, to engage in the business of a dealer, swap dealer, or security-based swap dealer, to the extent the instrument is purchased or sold in connection with the activities that require the banking entity to be licensed or registered as such; or

(B) Is engaged in the business of a dealer, swap dealer, or security-based swap dealer outside of the United States, to the extent the instrument is purchased or sold in connection with the activities of such business.

(2) *Rebuttable presumption for certain purchases and sales.* The purchase (or sale) of a financial instrument by a banking entity shall be presumed to be for the trading account of the banking entity under paragraph (b)(1)(i) of this section if the banking entity holds the financial instrument for fewer than sixty days or substantially transfers the risk of the financial instrument within sixty days of the purchase (or sale), unless the banking entity can demonstrate, based on all relevant facts and circumstances, that the banking entity did not purchase (or sell) the financial instrument principally for any of the purposes described in paragraph (b)(1)(i) of this section.

(c) *Financial instrument.* (1) *Financial instrument* means:

(i) A security, including an option on a security;

(ii) A derivative, including an option on a derivative; or

(iii) A contract of sale of a commodity for future delivery, or option on a contract of sale of a commodity for future delivery.

(2) A financial instrument does not include:

(i) A loan;

(ii) A commodity that is not:

(A) An excluded commodity (other than foreign exchange or currency);

(B) A derivative;

(C) A contract of sale of a commodity for future delivery; or

(D) An option on a contract of sale of a commodity for future delivery; or

(iii) Foreign exchange or currency.

(d) *Proprietary trading.* Proprietary trading does not include:

(1) Any purchase or sale of one or more financial instruments by a banking entity that arises under a repurchase or reverse repurchase agreement pursuant to which the banking entity has simultaneously agreed, in writing, to both purchase and sell a stated asset, at stated prices, and on stated dates or on demand with the same counterparty;

(2) Any purchase or sale of one or more financial instruments by a banking entity that arises under a transaction in which the banking entity lends or borrows a security temporarily to or from another party pursuant to a written securities lending agreement under which the lender retains the economic interests of an owner of such security, and has the right to terminate the transaction and to recall the loaned security on terms agreed by the parties;

(3) Any purchase or sale of a security by a banking entity for the purpose of liquidity management in accordance with a documented liquidity management plan of the banking entity that:

(i) Specifically contemplates and authorizes the particular securities to be used for liquidity management purposes, the amount, types, and risks of these securities that are consistent with liquidity management, and the liquidity circumstances in which the particular securities may or must be used;

(ii) Requires that any purchase or sale of securities contemplated and authorized by the plan be principally for the purpose of managing the liquidity of the banking entity, and not for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging a position taken for such short-term purposes;

(iii) Requires that any securities purchased or sold for liquidity management purposes be highly liquid and limited to securities the market, credit, and other risks of which the banking entity does not reasonably expect to give rise to appreciable profits or losses as a result of short-term price movements;

(iv) Limits any securities purchased or sold for liquidity management purposes, together with any other instruments purchased or sold for such purposes, to an amount that is consistent with the banking entity's near-term funding needs, including deviations from normal operations of the banking entity or any affiliate thereof, as estimated and documented pursuant to methods specified in the plan;

(v) Includes written policies and procedures, internal controls, analysis, and independent testing to ensure that the purchase and sale of securities that are not permitted under §§ 248.6(a) or (b) of this subpart are for the purpose of liquidity management and in accordance with the liquidity management plan described in paragraph (d)(3) of this section; and

(vi) Is consistent with The Board's supervisory requirements, guidance, and expectations regarding liquidity management;

(4) Any purchase or sale of one or more financial instruments by a banking entity that is a derivatives clearing organization or a clearing agency in connection with clearing financial instruments;

(5) Any excluded clearing activities by a banking entity that is a member of a clearing agency, a member of a derivatives clearing organization, or a member of a designated financial market utility;

(6) Any purchase or sale of one or more financial instruments by a banking entity, so long as:

(i) The purchase (or sale) satisfies an existing delivery obligation of the banking entity or its customers, including to prevent or close out a failure to deliver, in connection with delivery, clearing, or settlement activity; or

(ii) The purchase (or sale) satisfies an obligation of the banking entity in connection with a judicial, administrative, self-regulatory organization, or arbitration proceeding;

(7) Any purchase or sale of one or more financial instruments by a banking entity that is acting solely as agent, broker, or custodian;

(8) Any purchase or sale of one or more financial instruments by a banking entity through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity that is established and administered in accordance with the law of the United States or a foreign sovereign, if the purchase or sale is made directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity; or

(9) Any purchase or sale of one or more financial instruments by a banking entity in the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the financial instrument as soon as practicable, and in no event may the banking entity retain such instrument for longer than such period permitted by the Board.

(e) *Definition of other terms related to proprietary trading.* For purposes of this subpart:

(1) *Anonymous* means that each party to a purchase or sale is unaware of the identity of the other party(ies) to the purchase or sale.

(2) *Clearing agency* has the same meaning as in section 3(a)(23) of the Exchange Act (15 U.S.C. 78c(a)(23)).

(3) *Commodity* has the same meaning as in section 1a(9) of the Commodity Exchange Act (7 U.S.C. 1a(9)), except that a commodity does not include any security;

(4) *Contract of sale of a commodity for future delivery* means a contract of sale (as that term is defined in section 1a(13) of the Commodity Exchange Act (7 U.S.C. 1a(13)) for future delivery (as that term is defined in section 1a(27) of the Commodity Exchange Act (7 U.S.C. 1a(27))).

(5) *Derivatives clearing organization* means:

(i) A derivatives clearing organization registered under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1);

(ii) A derivatives clearing organization that, pursuant to CFTC regulation, is exempt from the registration requirements under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1); or

(iii) A foreign derivatives clearing organization that, pursuant to CFTC regulation, is permitted to clear for a foreign board of trade that is registered with the CFTC.

(6) *Exchange,* unless the context otherwise requires, means any designated contract market, swap execution facility, or foreign board of trade registered with the CFTC, or, for purposes of securities or security-based swaps, an exchange, as defined under section 3(a)(1) of the Exchange Act (15 U.S.C. 78c(a)(1)), or security-based swap execution facility, as defined under section 3(a)(77) of the Exchange Act (15 U.S.C. 78c(a)(77)).

(7) *Excluded clearing activities* means:

(i) With respect to customer transactions cleared on a derivatives clearing organization, a clearing agency, or a designated financial market utility, any purchase or sale necessary to correct trading errors made by or on behalf of a customer provided that such purchase or sale is conducted in accordance with, for transactions cleared on a derivatives clearing organization, the Commodity Exchange Act, CFTC regulations, and the rules or procedures of the derivatives clearing organization, or, for transactions cleared on a clearing agency, the rules or procedures of the clearing agency, or, for transactions cleared on a designated financial market utility that is neither a derivatives clearing organization nor a clearing agency, the rules or procedures of the designated financial market utility;

(ii) Any purchase or sale in connection with and related to the management of a default or threatened imminent default of a customer provided that such purchase or sale is conducted in accordance with, for transactions cleared on a derivatives clearing organization, the Commodity Exchange Act, CFTC regulations, and the rules or procedures of the derivatives clearing organization, or, for transactions cleared on a clearing agency, the rules or procedures of the clearing agency, or, for transactions cleared on a designated financial market utility that is neither a derivatives clearing organization nor a clearing agency, the rules or procedures of the designated financial market utility;

(iii) Any purchase or sale in connection with and related to the management of a default or threatened imminent default of a member of a clearing agency, a member of a derivatives clearing organization, or a member of a designated financial market utility;

(iv) Any purchase or sale in connection with and related to the management of the default or threatened default of a clearing agency, a derivatives clearing organization, or a designated financial market utility; and

(v) Any purchase or sale that is required by the rules or procedures of a clearing agency, a derivatives clearing organization, or a designated financial market utility to mitigate the risk to the clearing agency, derivatives clearing organization, or designated financial market utility that would result from the clearing by a member of security-based swaps that reference the member or an affiliate of the member.

(8) *Designated financial market utility* has the same meaning as in section 803(4) of the Dodd-Frank Act (12 U.S.C. 5462(4)).

(9) *Issuer* has the same meaning as in section 2(a)(4) of the Securities Act of 1933 (15 U.S.C. 77b(a)(4)).

(10) *Market risk capital rule covered position and trading position* means a financial instrument that is both a covered position and a trading position, as those terms are respectively defined:

(i) In the case of a banking entity that is a bank holding company, savings and loan holding company, or insured depository institution, under the market risk capital rule that is applicable to the banking entity; and

(ii) In the case of a banking entity that is affiliated with a bank holding company or savings and loan holding company, other than a banking entity to which a market risk capital rule is applicable, under the market risk capital rule that is applicable to the affiliated bank holding company or savings and loan holding company.

(11) *Market risk capital rule* means the market risk capital rule that is contained in subpart F of 12 CFR part 3, 12 CFR parts 208 and 225, or 12 CFR part 324, as applicable.

(12) *Municipal security* means a security that is a direct obligation of or issued by, or an obligation guaranteed as to principal or interest by, a State or any political subdivision thereof, or any agency or instrumentality of a State or any political subdivision thereof, or any municipal corporate instrumentality of one or more States or political subdivisions thereof.

(13) *Trading desk* means the smallest discrete unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof.

§ 248.4 Permitted underwriting and market making-related activities.

(a) *Underwriting activities*—(1) *Permitted underwriting activities.* The prohibition contained in § 248.3(a) does not apply to a banking entity's underwriting activities conducted in accordance with this paragraph (a).

(2) *Requirements.* The underwriting activities of a banking entity are permitted under paragraph (a)(1) of this section only if:

(i) The banking entity is acting as an underwriter for a distribution of securities and the trading desk's underwriting position is related to such distribution;

(ii) The amount and type of the securities in the trading desk's underwriting position are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, and reasonable efforts are made to sell or otherwise reduce the underwriting position within a reasonable period, taking into account the liquidity, maturity, and depth of the market for the relevant type of security;

(iii) The banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (a) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The products, instruments or exposures each trading desk may purchase, sell, or manage as part of its underwriting activities;

(B) Limits for each trading desk, based on the nature and amount of the trading desk's underwriting activities, including the reasonably expected near term demands of clients, customers, or counterparties, on the:

(*1*) Amount, types, and risk of its underwriting position;

(*2*) Level of exposures to relevant risk factors arising from its underwriting position; and

(*3*) Period of time a security may be held;

(C) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(D) Authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval;

(iv) The compensation arrangements of persons performing the activities described in this paragraph (a) are designed not to reward or incentivize prohibited proprietary trading; and

(v) The banking entity is licensed or registered to engage in the activity described in this paragraph (a) in accordance with applicable law.

(3) *Definition of distribution.* For purposes of this paragraph (a), a *distribution* of securities means:

(i) An offering of securities, whether or not subject to registration under the Securities Act of 1933, that is distinguished from ordinary trading transactions by the presence of special selling efforts and selling methods; or

(ii) An offering of securities made pursuant to an effective registration statement under the Securities Act of 1933.

(4) *Definition of underwriter.* For purposes of this paragraph (a), *underwriter* means:

(i) A person who has agreed with an issuer or selling security holder to:

(A) Purchase securities from the issuer or selling security holder for distribution;

(B) Engage in a distribution of securities for or on behalf of the issuer or selling security holder; or

(C) Manage a distribution of securities for or on behalf of the issuer or selling security holder; or

(ii) A person who has agreed to participate or is participating in a distribution of such securities for or on behalf of the issuer or selling security holder.

(5) *Definition of selling security holder.* For purposes of this paragraph (a), *selling security holder* means any person, other than an issuer, on whose behalf a distribution is made.

(6) *Definition of underwriting position.* For purposes of this paragraph (a), *underwriting position* means the long or short positions in one or more securities held by a banking entity or its affiliate, and managed by a particular trading desk, in connection with a particular distribution of securities for which such banking entity or affiliate is acting as an underwriter.

(7) *Definition of client, customer, and counterparty.* For purposes of this paragraph (a), the terms *client, customer, and counterparty,* on a collective or individual basis, refer to market participants that may transact with the banking entity in connection with a particular distribution for which the banking entity is acting as underwriter.

(b) *Market making-related activities*—(1) *Permitted market making-related activities.* The prohibition contained in § 248.3(a) does not apply to a banking entity's market making-related activities conducted in accordance with this paragraph (b).

(2) *Requirements.* The market making-related activities of a banking entity are permitted under paragraph (b)(1) of this section only if:

(i) The trading desk that establishes and manages the financial exposure routinely stands ready to purchase and sell one or more types of financial instruments related to its financial exposure and is willing and available to quote, purchase and sell, or otherwise enter into long and short positions in those types of financial instruments for its own account, in commercially reasonable amounts and throughout market cycles on a basis appropriate for the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(ii) The amount, types, and risks of the financial instruments in the trading desk's market-maker inventory are designed not to exceed, on an ongoing basis, the reasonably expected near term demands of clients, customers, or counterparties, based on:

(A) The liquidity, maturity, and depth of the market for the relevant types of financial instrument(s); and

(B) Demonstrable analysis of historical customer demand, current inventory of financial instruments, and market and other factors regarding the amount, types, and risks, of or associated with financial instruments in which the trading desk makes a market, including through block trades;

(iii) The banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (b) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The financial instruments each trading desk stands ready to purchase and sell in accordance with paragraph (b)(2)(i) of this section;

(B) The actions the trading desk will take to demonstrably reduce or otherwise significantly mitigate promptly the risks of its financial exposure consistent with the limits required under paragraph (b)(2)(iii)(C) of this section; the products, instruments, and exposures each trading desk may use for risk management purposes; the techniques and strategies each trading desk may use to manage the risks of its market making-related activities and inventory; and the process, strategies, and personnel responsible for ensuring that the actions taken by the trading desk to mitigate these risks are and continue to be effective;

(C) Limits for each trading desk, based on the nature and amount of the trading desk's market making-related activities, that address the factors prescribed by paragraph (b)(2)(ii) of this section, on:

(*1*) The amount, types, and risks of its market-maker inventory;

(*2*) The amount, types, and risks of the products, instruments, and exposures the trading desk may use for risk management purposes;

(*3*) The level of exposures to relevant risk factors arising from its financial exposure; and

(*4*) The period of time a financial instrument may be held;

(D) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(E) Authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis that the basis for any temporary or permanent increase to a trading desk's limit(s) is consistent with the requirements of this paragraph (b), and independent review of such demonstrable analysis and approval;

(iv) To the extent that any limit identified pursuant to paragraph (b)(2)(iii)(C) of this section is exceeded, the trading desk takes action to bring the trading desk into compliance with the limits as promptly as possible after the limit is exceeded;

(v) The compensation arrangements of persons performing the activities described in this paragraph (b) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in activity described in this paragraph (b) in accordance with applicable law.

(3) *Definition of client, customer, and counterparty.* For purposes of paragraph (b) of this section, the terms *client, customer, and counterparty,* on a collective or individual basis refer to market participants that make use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services, provided that:

(i) A trading desk or other organizational unit of another banking entity is not a client, customer, or counterparty of the trading desk if that other entity has trading assets and liabilities of $50 billion or more as measured in accordance with § 248.20(d)(1) of subpart D, unless:

(A) The trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk for purposes of paragraph (b)(2) of this section; or

(B) The purchase or sale by the trading desk is conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants.

(4) *Definition of financial exposure.* For purposes of this paragraph (b), *financial exposure* means the aggregate risks of one or more financial instruments and any associated loans, commodities, or foreign exchange or currency, held by a banking entity or its affiliate and managed by a particular trading desk as part of the trading desk's market making-related activities.

(5) *Definition of market-maker inventory.* For the purposes of this paragraph (b), *market-maker inventory* means all of the positions in the financial instruments for which the trading desk stands ready to make a market in accordance with paragraph (b)(2)(i) of this section, that are managed by the trading desk, including the trading desk's open positions or exposures arising from open transactions.

§ 248.5 Permitted risk-mitigating hedging activities.

(a) *Permitted risk-mitigating hedging activities.* The prohibition contained in § 248.3(a) does not apply to the risk-mitigating hedging activities of a banking entity in connection with and related to individual or aggregated positions, contracts, or other holdings of the banking entity and designed to reduce the specific risks to the banking entity in connection with and related to such positions, contracts, or other holdings.

(b) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under paragraph (a) of this section only if:

(1) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(i) Reasonably designed written policies and procedures regarding the positions, techniques and strategies that may be used for hedging, including documentation indicating what positions, contracts or other holdings a particular trading desk may use in its risk-mitigating hedging activities, as well as position and aging limits with respect to such positions, contracts or other holdings;

(ii) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(iii) The conduct of analysis, including correlation analysis, and independent testing designed to ensure that the positions, techniques and strategies that may be used for hedging may reasonably be expected to demonstrably reduce or otherwise significantly mitigate the specific, identifiable risk(s) being hedged, and such correlation analysis demonstrates that the hedging activity demonstrably reduces or otherwise significantly mitigates the specific, identifiable risk(s) being hedged;

(2) The risk-mitigating hedging activity:

(i) Is conducted in accordance with the written policies, procedures, and internal controls required under this section;

(ii) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof;

(iii) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section;

(iv) Is subject to continuing review, monitoring and management by the banking entity that:

(A) Is consistent with the written hedging policies and procedures required under paragraph (b)(1) of this section;

(B) Is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates the specific, identifiable risks that develop over time from the risk-mitigating hedging activities undertaken under this section and the underlying positions, contracts, and other holdings of the banking entity, based upon the facts and circumstances of the underlying and hedging positions, contracts and other holdings of the banking entity and the risks and liquidity thereof; and

(C) Requires ongoing recalibration of the hedging activity by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(2) of this section and is not prohibited proprietary trading; and

(3) The compensation arrangements of persons performing risk-mitigating hedging activities are designed not to reward or incentivize prohibited proprietary trading.

(c) *Documentation requirement.* (1) A banking entity must comply with the requirements of paragraphs (c)(2) and (3) of this section with respect to any purchase or sale of financial instruments made in reliance on this section for risk-mitigating hedging purposes that is:

(i) Not established by the specific trading desk establishing or responsible for the underlying positions, contracts, or other holdings the risks of which the hedging activity is designed to reduce;

(ii) Established by the specific trading desk establishing or responsible for the underlying positions, contracts, or other holdings the risks of which the purchases or sales are designed to reduce, but that is effected through a financial instrument, exposure, technique, or strategy that is not specifically identified in the trading desk's written policies and procedures established under paragraph (b)(1) of this section or under § 248.4(b)(2)(iii)(B) of this subpart as a product, instrument, exposure, technique, or strategy such trading desk may use for hedging; or

(iii) Established to hedge aggregated positions across two or more trading desks.

(2) In connection with any purchase or sale identified in paragraph (c)(1) of this section, a banking entity must, at a minimum, and contemporaneously with the purchase or sale, document:

(i) The specific, identifiable risk(s) of the identified positions, contracts, or other holdings of the banking entity that the purchase or sale is designed to reduce;

(ii) The specific risk-mitigating strategy that the purchase or sale is designed to fulfill; and

(iii) The trading desk or other business unit that is establishing and responsible for the hedge.

(3) A banking entity must create and retain records sufficient to demonstrate compliance with the requirements of this paragraph (c) for a period that is no less than five years in a form that allows the banking entity to promptly produce such records to the Board on request, or such longer period as required under other law or this part.

§ 248.6 Other permitted proprietary trading activities.

(a) *Permitted trading in domestic government obligations.* The prohibition contained in § 248.3(a) does not apply to the purchase or sale by a banking entity of a financial instrument that is:

(1) An obligation of, or issued or guaranteed by, the United States;

(2) An obligation, participation, or other instrument of, or issued or guaranteed by, an agency of the United States, the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, a Federal Home Loan Bank, the Federal Agricultural Mortgage Corporation or a Farm Credit System institution chartered under and subject to the provisions of the Farm Credit Act of 1971 (12 U.S.C. 2001 *et seq.*);

(3) An obligation of any State or any political subdivision thereof, including any municipal security; or

(4) An obligation of the FDIC, or any entity formed by or on behalf of the FDIC for purpose of facilitating the disposal of assets acquired or held by the FDIC in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(b) *Permitted trading in foreign government obligations*—(1) *Affiliates of foreign banking entities in the United States.* The prohibition contained in § 248.3(a) does not apply to the purchase or sale of a financial instrument that is an obligation of, or issued or guaranteed by, a foreign sovereign (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of such foreign sovereign, by a banking entity, so long as:

(i) The banking entity is organized under or is directly or indirectly controlled by a banking entity that is organized under the laws of a foreign sovereign and is not directly or indirectly controlled by a top-tier banking entity that is organized under the laws of the United States;

(ii) The financial instrument is an obligation of, or issued or guaranteed by, the foreign sovereign under the laws of which the foreign banking entity referred to in paragraph (b)(1)(i) of this section is organized (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign; and

(iii) The purchase or sale as principal is not made by an insured depository institution.

(2) *Foreign affiliates of a U.S. banking entity.* The prohibition contained in § 248.3(a) does not apply to the purchase or sale of a financial instrument that is an obligation of, or issued or guaranteed by, a foreign sovereign (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign, by a foreign entity that is owned or controlled by a banking entity organized or established under the laws of the United States or any State, so long as:

(i) The foreign entity is a foreign bank, as defined in section 211.2(j) of the Board's Regulation K (12 CFR 211.2(j)), or is regulated by the foreign sovereign as a securities dealer;

(ii) The financial instrument is an obligation of, or issued or guaranteed by, the foreign sovereign under the laws of which the foreign entity is organized (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign; and

(iii) The financial instrument is owned by the foreign entity and is not financed by an affiliate that is located in the United States or organized under the laws of the United States or of any State.

(c) *Permitted trading on behalf of customers*—(1) *Fiduciary transactions.* The prohibition contained in § 248.3(a) does not apply to the purchase or sale of financial instruments by a banking entity acting as trustee or in a similar fiduciary capacity, so long as:

(i) The transaction is conducted for the account of, or on behalf of, a customer; and

(ii) The banking entity does not have or retain beneficial ownership of the financial instruments.

(2) *Riskless principal transactions.* The prohibition contained in § 248.3(a) does not apply to the purchase or sale of financial instruments by a banking entity acting as riskless principal in a transaction in which the banking entity, after receiving an order to purchase (or sell) a financial instrument from a customer, purchases (or sells) the financial instrument for its own account to offset a contemporaneous sale to (or purchase from) the customer.

(d) *Permitted trading by a regulated insurance company.* The prohibition contained in § 248.3(a) does not apply to the purchase or sale of financial instruments by a banking entity that is an insurance company or an affiliate of an insurance company if:

(1) The insurance company or its affiliate purchases or sells the financial instruments solely for:

(i) The general account of the insurance company; or

(ii) A separate account established by the insurance company;

(2) The purchase or sale is conducted in compliance with, and subject to, the insurance company investment laws, regulations, and written guidance of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law, regulation, or written guidance described in paragraph (d)(2) of this section is insufficient to protect the safety and soundness of the covered banking entity, or the financial stability of the United States.

(e) *Permitted trading activities of foreign banking entities.* (1) The prohibition contained in § 248.3(a) does not apply to the purchase or sale of financial instruments by a banking entity if:

(i) The banking entity is not organized or directly or indirectly controlled by a banking entity that is organized under the laws of the United States or of any State;

(ii) The purchase or sale by the banking entity is made pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act; and

(iii) The purchase or sale meets the requirements of paragraph (e)(3) of this section.

(2) A purchase or sale of financial instruments by a banking entity is made pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act for purposes of paragraph (e)(1)(ii) of this section only if:

(i) The purchase or sale is conducted in accordance with the requirements of paragraph (e) of this section; and

(ii)(A) With respect to a banking entity that is a foreign banking organization, the banking entity meets the qualifying foreign banking organization requirements of section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c) or (e)), as applicable; or

(B) With respect to a banking entity that is not a foreign banking organization, the banking entity is not organized under the laws of the United States or of any State and the banking entity, on a fully-consolidated basis, meets at least two of the following requirements:

(*1*) Total assets of the banking entity held outside of the United States exceed total assets of the banking entity held in the United States;

(*2*) Total revenues derived from the business of the banking entity outside of the United States exceed total revenues derived from the business of the banking entity in the United States; or

(*3*) Total net income derived from the business of the banking entity outside of the United States exceeds total net income derived from the business of the banking entity in the United States.

(3) A purchase or sale by a banking entity is permitted for purposes of this paragraph (e) if:

(i) The banking entity engaging as principal in the purchase or sale (including any personnel of the banking entity or its affiliate that arrange, negotiate or execute such purchase or sale) is not located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to purchase or sell as principal is not located in the United States or organized under the laws of the United States or of any State;

(iii) The purchase or sale, including any transaction arising from risk-mitigating hedging related to the instruments purchased or sold, is not accounted for as principal directly or on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State;

(iv) No financing for the banking entity's purchases or sales is provided, directly or indirectly, by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State; and

(v) The purchase or sale is not conducted with or through any U.S. entity, other than:

(A) A purchase or sale with the foreign operations of a U.S. entity if no personnel of such U.S. entity that are located in the United States are involved in the arrangement, negotiation, or execution of such purchase or sale;

(B) A purchase or sale with an unaffiliated market intermediary acting as principal, provided the purchase or sale is promptly cleared and settled through a clearing agency or derivatives clearing organization acting as a central counterparty; or

(C) A purchase or sale through an unaffiliated market intermediary acting as agent, provided the purchase or sale is conducted anonymously on an exchange or similar trading facility and is promptly cleared and settled through a clearing agency or derivatives clearing organization acting as a central counterparty.

(4) For purposes of this paragraph (e), a U.S. entity is any entity that is, or is controlled by, or is acting on behalf of, or at the direction of, any other entity that is, located in the United States or organized under the laws of the United States or of any State.

(5) For purposes of this paragraph (e), a U.S. branch, agency, or subsidiary of a foreign banking entity is considered to be located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(6) For purposes of this paragraph (e), *unaffiliated market intermediary* means an unaffiliated entity, acting as an intermediary, that is:

(i) A broker or dealer registered with the SEC under section 15 of the Exchange Act or exempt from registration or excluded from regulation as such;

(ii) A swap dealer registered with the CFTC under section 4s of the Commodity Exchange Act or exempt from registration or excluded from regulation as such;

(iii) A security-based swap dealer registered with the SEC under section 15F of the Exchange Act or exempt from registration or excluded from regulation as such; or

(iv) A futures commission merchant registered with the CFTC under section 4f of the Commodity Exchange Act or exempt from registration or excluded from regulation as such.

§ 248.7 Limitations on permitted proprietary trading activities.

(a) No transaction, class of transactions, or activity may be deemed permissible under §§ 248.4 through 248.6 if the transaction, class of transactions, or activity would:

(1) Involve or result in a material conflict of interest between the banking entity and its clients, customers, or counterparties;

(2) Result, directly or indirectly, in a material exposure by the banking entity to a high-risk asset or a high-risk trading strategy; or

(3) Pose a threat to the safety and soundness of the banking entity or to the financial stability of the United States.

(b) *Definition of material conflict of interest.* (1) For purposes of this section, a material conflict of interest between a banking entity and its clients, customers, or counterparties exists if the banking entity engages in any transaction, class of transactions, or activity that would involve or result in the banking entity's interests being materially adverse to the interests of its client, customer, or counterparty with respect to such transaction, class of transactions, or activity, and the banking entity has not taken at least one of the actions in paragraph (b)(2) of this section.

(2) Prior to effecting the specific transaction or class or type of transactions, or engaging in the specific activity, the banking entity:

(i) *Timely and effective disclosure.* (A) Has made clear, timely, and effective disclosure of the conflict of interest, together with other necessary information, in reasonable detail and in a manner sufficient to permit a reasonable client, customer, or counterparty to meaningfully understand the conflict of interest; and

(B) Such disclosure is made in a manner that provides the client, customer, or counterparty the opportunity to negate, or substantially mitigate, any materially adverse effect on the client, customer, or counterparty created by the conflict of interest; or

(ii) *Information barriers.* Has established, maintained, and enforced information barriers that are memorialized in written policies and procedures, such as physical separation of personnel, or functions, or limitations on types of activity, that are reasonably designed, taking into consideration the nature of the banking entity's business, to prevent the conflict of interest from involving or resulting in a materially adverse effect on a client, customer, or counterparty. A banking entity may not rely on such information barriers if, in the case of any specific transaction, class or type of transactions or activity, the banking entity knows or should reasonably know that, notwithstanding the banking entity's establishment of information barriers, the conflict of interest may involve or result in a materially adverse effect on a client, customer, or counterparty.

(c) *Definition of high-risk asset and high-risk trading strategy.* For purposes of this section:

(1) *High-risk asset* means an asset or group of related assets that would, if held by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

(2) *High-risk trading strategy* means a trading strategy that would, if engaged in by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

§§ 248.8–248.9 [Reserved]

Subpart C—Covered Funds Activities and Investments

§ 248.10 Prohibition on acquiring or retaining an ownership interest in and having certain relationships with a covered fund.

(a) *Prohibition.* (1) Except as otherwise provided in this subpart, a banking entity may not, as principal, directly or indirectly, acquire or retain any ownership interest in or sponsor a covered fund.

(2) Paragraph (a)(1) of this section does not include acquiring or retaining an ownership interest in a covered fund by a banking entity:

(i) Acting solely as agent, broker, or custodian, so long as;

(A) The activity is conducted for the account of, or on behalf of, a customer; and

(B) The banking entity and its affiliates do not have or retain beneficial ownership of such ownership interest;

(ii) Through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity (or an affiliate thereof) that is established and administered in accordance with the law of the United States or a foreign sovereign, if the ownership interest is held or controlled directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity (or an affiliate thereof);

(iii) In the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the ownership interest as soon as practicable, and in no event may the banking entity retain such ownership interest for longer than such period permitted by the Board; or

(iv) On behalf of customers as trustee or in a similar fiduciary capacity for a customer that is not a covered fund, so long as:

(A) The activity is conducted for the account of, or on behalf of, the customer; and

(B) The banking entity and its affiliates do not have or retain beneficial ownership of such ownership interest.

(b) *Definition of covered fund.* (1) Except as provided in paragraph (c) of this section, covered fund means:

(i) An issuer that would be an investment company, as defined in the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*), *but for* section 3(c)(1) or 3(c)(7) of that Act (15 U.S.C. 80a–3(c)(1) or (7));

(ii) Any commodity pool under section 1a(10) of the Commodity Exchange Act (7 U.S.C. 1a(10)) for which:

(A) The commodity pool operator has claimed an exemption under 17 CFR 4.7; or

(B)(*1*) A commodity pool operator is registered with the CFTC as a commodity pool operator in connection with the operation of the commodity pool;

(*2*) Substantially all participation units of the commodity pool are owned by qualified eligible persons under 17 CFR 4.7(a)(2) and (3); and

(*3*) Participation units of the commodity pool have not been publicly offered to persons who are not qualified eligible persons under 17 CFR 4.7(a)(2) and (3); or

(iii) For any banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State, an entity that:

(A) Is organized or established outside the United States and the ownership interests of which are offered and sold solely outside the United States;

(B) Is, or holds itself out as being, an entity or arrangement that raises money from investors primarily for the purpose of investing in securities for resale or other disposition or otherwise trading in securities; and

(C)(*1*) Has as its sponsor that banking entity (or an affiliate thereof); or

(*2*) Has issued an ownership interest that is owned directly or indirectly by that banking entity (or an affiliate thereof).

(2) An issuer shall not be deemed to be a covered fund under paragraph (b)(1)(iii) of this section if, were the issuer subject to U.S. securities laws, the issuer could rely on an exclusion or exemption from the definition of ''investment company'' under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) other than the exclusions contained in section 3(c)(1) and 3(c)(7) of that Act.

(3) For purposes of paragraph (b)(1)(iii) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(c) Notwithstanding paragraph (b) of this section, unless the appropriate Federal banking agencies, the SEC, and the CFTC jointly determine otherwise, a covered fund does not include:

(1) *Foreign public funds.* (i) Subject to paragraphs (ii) and (iii) below, an issuer that:

(A) Is organized or established outside of the United States;

(B) Is authorized to offer and sell ownership interests to retail investors in the issuer's home jurisdiction; and

(C) Sells ownership interests predominantly through one or more public offerings outside of the United States.

(ii) With respect to a banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State and any issuer for which such banking entity acts as sponsor, the sponsoring banking entity may not rely on the exemption in paragraph (c)(1)(i) of this section for such issuer unless ownership interests in the issuer are sold predominantly to persons other than:

(A) Such sponsoring banking entity;

(B) Such issuer;

(C) Affiliates of such sponsoring banking entity or such issuer; and

(D) Directors and employees of such entities.

(iii) For purposes of paragraph (c)(1)(i)(C) of this section, the term ''public offering'' means a distribution (as defined in § 248.4(a)(3) of subpart B) of securities in any jurisdiction outside the United States to investors, including retail investors, provided that:

(A) The distribution complies with all applicable requirements in the jurisdiction in which such distribution is being made;

(B) The distribution does not restrict availability to investors having a minimum level of net worth or net investment assets; and

(C) The issuer has filed or submitted, with the appropriate regulatory authority in such jurisdiction, offering disclosure documents that are publicly available.

(2) *Wholly-owned subsidiaries.* An entity, all of the outstanding ownership interests of which are owned directly or indirectly by the banking entity (or an affiliate thereof), except that:

(i) Up to five percent of the entity's outstanding ownership interests, less any amounts outstanding under paragraph (c)(2)(ii) of this section, may be held by employees or directors of the banking entity or such affiliate (including former employees or directors if their ownership interest was acquired while employed by or in the service of the banking entity); and

(ii) Up to 0.5 percent of the entity's outstanding ownership interests may be held by a third party if the ownership interest is acquired or retained by the third party for the purpose of establishing corporate separateness or addressing bankruptcy, insolvency, or similar concerns.

(3) *Joint ventures.* A joint venture between a banking entity or any of its affiliates and one or more unaffiliated persons, provided that the joint venture:

(i) Is comprised of no more than 10 unaffiliated co-venturers;

(ii) Is in the business of engaging in activities that are permissible for the banking entity or affiliate, other than investing in securities for resale or other disposition; and

(iii) Is not, and does not hold itself out as being, an entity or arrangement that raises money from investors primarily for the purpose of investing in securities for resale or other disposition or otherwise trading in securities.

(4) *Acquisition vehicles.* An issuer:

(i) Formed solely for the purpose of engaging in a *bona fide* merger or acquisition transaction; and

(ii) That exists only for such period as necessary to effectuate the transaction.

(5) *Foreign pension or retirement funds.* A plan, fund, or program providing pension, retirement, or similar benefits that is:

(i) Organized and administered outside the United States;

(ii) A broad-based plan for employees or citizens that is subject to regulation as a pension, retirement, or similar plan under the laws of the jurisdiction in which the plan, fund, or program is organized and administered; and

(iii) Established for the benefit of citizens or residents of one or more foreign sovereigns or any political subdivision thereof.

(6) *Insurance company separate accounts.* A separate account, provided that no banking entity other than the insurance company participates in the account's profits and losses.

(7) *Bank owned life insurance.* A separate account that is used solely for the purpose of allowing one or more banking entities to purchase a life insurance policy for which the banking entity or entities is beneficiary, provided that no banking entity that purchases the policy:

(i) Controls the investment decisions regarding the underlying assets or holdings of the separate account; or

(ii) Participates in the profits and losses of the separate account other than in compliance with applicable supervisory guidance regarding bank owned life insurance.

(8) *Loan securitizations*—(i) *Scope.* An issuing entity for asset-backed securities that satisfies all the conditions of this paragraph (c)(8) and the assets or holdings of which are comprised solely of:

(A) Loans as defined in § 248.2(s) of subpart A;

(B) Rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities and rights or other assets that are related or incidental to purchasing or otherwise acquiring and holding the loans, provided that each asset meets the requirements of paragraph (c)(8)(iii) of this section;

(C) Interest rate or foreign exchange derivatives that meet the requirements of paragraph (c)(8)(iv) of this section; and

(D) Special units of beneficial interest and collateral certificates that meet the requirements of paragraph (c)(8)(v) of this section.

(ii) *Impermissible assets.* For purposes of this paragraph (c)(8), the assets or holdings of the issuing entity shall not include any of the following:

(A) A security, including an asset-backed security, or an interest in an equity or debt security other than as permitted in paragraph (c)(8)(iii) of this section;

(B) A derivative, other than a derivative that meets the requirements of paragraph (c)(8)(iv) of this section; or

(C) A commodity forward contract.

(iii) *Permitted securities.* Notwithstanding paragraph (c)(8)(ii)(A) of this section, the issuing entity may hold securities if those securities are:

(A) Cash equivalents for purposes of the rights and assets in paragraph (c)(8)(i)(B) of this section; or

(B) Securities received in lieu of debts previously contracted with respect to the loans supporting the asset-backed securities.

(iv) *Derivatives.* The holdings of derivatives by the issuing entity shall be limited to interest rate or foreign exchange derivatives that satisfy all of the following conditions:

(A) The written terms of the derivative directly relate to the loans, the asset-backed securities, or the contractual rights of other assets described in paragraph (c)(8)(i)(B) of this section; and

(B) The derivatives reduce the interest rate and/or foreign exchange risks related to the loans, the asset-backed securities, or the contractual rights or other assets described in paragraph (c)(8)(i)(B) of this section.

(v) *Special units of beneficial interest and collateral certificates.* The assets or holdings of the issuing entity may include collateral certificates and special units of beneficial interest issued by a special purpose vehicle, provided that:

(A) The special purpose vehicle that issues the special unit of beneficial interest or collateral certificate meets the requirements in this paragraph (c)(8);

(B) The special unit of beneficial interest or collateral certificate is used for the sole purpose of transferring to the issuing entity for the loan securitization the economic risks and benefits of the assets that are permissible for loan securitizations under this paragraph (c)(8) and does not directly or indirectly transfer any interest in any other economic or financial exposure;

(C) The special unit of beneficial interest or collateral certificate is created solely to satisfy legal requirements or otherwise facilitate the structuring of the loan securitization; and

(D) The special purpose vehicle that issues the special unit of beneficial interest or collateral certificate and the issuing entity are established under the direction of the same entity that initiated the loan securitization.

(9) *Qualifying asset-backed commercial paper conduits.* (i) An issuing entity for asset-backed commercial paper that satisfies all of the following requirements:

(A) The asset-backed commercial paper conduit holds only:

(*1*) Loans and other assets permissible for a loan securitization under paragraph (c)(8)(i) of this section; and

(*2*) Asset-backed securities supported solely by assets that are permissible for loan securitizations under paragraph (c)(8)(i) of this section and acquired by the asset-backed commercial paper conduit as part of an initial issuance either directly from the issuing entity of the asset-backed securities or directly from an underwriter in the distribution of the asset-backed securities;

(B) The asset-backed commercial paper conduit issues only asset-backed securities, comprised of a residual interest and securities with a legal maturity of 397 days or less; and

(C) A regulated liquidity provider has entered into a legally binding commitment to provide full and unconditional liquidity coverage with respect to all of the outstanding asset-backed securities issued by the asset-backed commercial paper conduit (other than any residual interest) in the event that funds are required to redeem maturing asset-backed securities.

(ii) For purposes of this paragraph (c)(9), a regulated liquidity provider means:

(A) A depository institution, as defined in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c));

(B) A bank holding company, as defined in section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(a)), or a subsidiary thereof;

(C) A savings and loan holding company, as defined in section 10a of the Home Owners' Loan Act (12 U.S.C. 1467a), provided all or substantially all of the holding company's activities are permissible for a financial holding company under section 4(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(k)), or a subsidiary thereof;

(D) A foreign bank whose home country supervisor, as defined in § 211.21(q) of the Board's Regulation K (12 CFR 211.21(q)), has adopted capital standards consistent with the Capital Accord for the Basel Committee on banking Supervision, as amended, and that is subject to such standards, or a subsidiary thereof; or

(E) The United States or a foreign sovereign.

(10) *Qualifying covered bonds*—(i) *Scope.* An entity owning or holding a dynamic or fixed pool of loans or other assets as provided in paragraph (c)(8) of this section for the benefit of the holders of covered bonds, provided that the assets in the pool are comprised solely of assets that meet the conditions in paragraph (c)(8)(i) of this section.

(ii) *Covered bond.* For purposes of this paragraph (c)(10), a covered bond means:

(A) A debt obligation issued by an entity that meets the definition of foreign banking organization, the payment obligations of which are fully and unconditionally guaranteed by an entity that meets the conditions set forth in paragraph (c)(10)(i) of this section; or

(B) A debt obligation of an entity that meets the conditions set forth in paragraph (c)(10)(i) of this section, provided that the payment obligations are fully and unconditionally guaranteed by an entity that meets the definition of foreign banking organization and the entity is a wholly-owned subsidiary, as defined in paragraph (c)(2) of this section, of such foreign banking organization.

(11) *SBICs and public welfare investment funds.* An issuer:

(i) That is a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), or that has received from the Small Business Administration notice to proceed to qualify for a license as a small business investment company, which notice or license has not been revoked; or

(ii) The business of which is to make investments that are:

(A) Designed primarily to promote the public welfare, of the type permitted under paragraph (11) of section 5136 of the Revised Statutes of the United States (12 U.S.C. 24), including the welfare of low- and moderate-income communities or families (such as providing housing, services, or jobs); or

(B) Qualified rehabilitation expenditures with respect to a qualified rehabilitated building or certified historic structure, as such terms are defined in section 47 of the Internal Revenue Code of 1986 or a similar State historic tax credit program.

(12) *Registered investment companies and excluded entities.* An issuer:

(i) That is registered as an investment company under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8), or that is formed and operated pursuant to a written plan to become a registered investment company as described in § 248.20(e)(3) of subpart D and that complies with the requirements of section 18 of the Investment Company Act of 1940 (15 U.S.C. 80a–18);

(ii) That may rely on an exclusion or exemption from the definition of ''investment company'' under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) other than the exclusions contained in section 3(c)(1) and 3(c)(7) of that Act; or

(iii) That has elected to be regulated as a business development company pursuant to section 54(a) of that Act (15

U.S.C. 80a–53) and has not withdrawn its election, or that is formed and operated pursuant to a written plan to become a business development company as described in § 248.20(e)(3) of subpart D and that complies with the requirements of section 61 of the Investment Company Act of 1940 (15 U.S.C. 80a–60).

(13) *Issuers in conjunction with the FDIC's receivership or conservatorship operations.* An issuer that is an entity formed by or on behalf of the FDIC for the purpose of facilitating the disposal of assets acquired in the FDIC's capacity as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(14) *Other excluded issuers.* (i) Any issuer that the appropriate Federal banking agencies, the SEC, and the CFTC jointly determine the exclusion of which is consistent with the purposes of section 13 of the BHC Act.

(ii) A determination made under paragraph (c)(14)(i) of this section will be promptly made public.

(d) *Definition of other terms related to covered funds.* For purposes of this subpart:

(1) *Applicable accounting standards* means U.S. generally accepted accounting principles, or such other accounting standards applicable to a banking entity that the Board determines are appropriate and that the banking entity uses in the ordinary course of its business in preparing its consolidated financial statements.

(2) *Asset-backed security* has the meaning specified in Section 3(a)(79) of the Exchange Act (15 U.S.C. 78c(a)(79)).

(3) *Director* has the same meaning as provided in section 215.2(d)(1) of the Board's Regulation O (12 CFR 215.2(d)(1)).

(4) *Issuer* has the same meaning as in section 2(a)(22) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(22)).

(5) *Issuing entity* means with respect to asset-backed securities the special purpose vehicle that owns or holds the pool assets underlying asset-backed securities and in whose name the asset-backed securities supported or serviced by the pool assets are issued.

(6) *Ownership interest*—(i) *Ownership interest* means any equity, partnership, or other similar interest. An ''other similar interest'' means an interest that:

(A) Has the right to participate in the selection or removal of a general partner, managing member, member of the board of directors or trustees, investment manager, investment adviser, or commodity trading advisor of the covered fund (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);

(B) Has the right under the terms of the interest to receive a share of the income, gains or profits of the covered fund;

(C) Has the right to receive the underlying assets of the covered fund after all other interests have been redeemed and/or paid in full (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);

(D) Has the right to receive all or a portion of excess spread (the positive difference, if any, between the aggregate interest payments received from the underlying assets of the covered fund and the aggregate interest paid to the holders of other outstanding interests);

(E) Provides under the terms of the interest that the amounts payable by the covered fund with respect to the interest could be reduced based on losses arising from the underlying assets of the covered fund, such as allocation of losses, write-downs or charge-offs of the outstanding principal balance, or reductions in the amount of interest due and payable on the interest;

(F) Receives income on a pass-through basis from the covered fund, or has a rate of return that is determined by reference to the performance of the underlying assets of the covered fund; or

(G) Any synthetic right to have, receive, or be allocated any of the rights in paragraphs (d)(6)(i)(A) through (F) of this section.

(ii) *Ownership interest* does not include: *Restricted profit interest.* An interest held by an entity (or an employee or former employee thereof) in a covered fund for which the entity (or employee thereof) serves as investment manager, investment adviser, commodity trading advisor, or other service provider so long as:

(A) The sole purpose and effect of the interest is to allow the entity (or employee or former employee thereof) to share in the profits of the covered fund as performance compensation for the investment management, investment advisory, commodity trading advisory, or other services provided to the covered fund by the entity (or employee or former employee thereof), provided that the entity (or employee or former employee thereof) may be obligated under the terms of such interest to return profits previously received;

(B) All such profit, once allocated, is distributed to the entity (or employee or former employee thereof) promptly after being earned or, if not so distributed, is retained by the covered fund for the sole purpose of establishing a reserve amount to satisfy contractual obligations with respect to subsequent losses of the covered fund and such undistributed profit of the entity (or employee or former employee thereof) does not share in the subsequent investment gains of the covered fund;

(C) Any amounts invested in the covered fund, including any amounts paid by the entity (or employee or former employee thereof) in connection with obtaining the restricted profit interest, are within the limits of § 248.12 of this subpart; and

(D) The interest is not transferable by the entity (or employee or former employee thereof) except to an affiliate thereof (or an employee of the banking entity or affiliate), to immediate family members, or through the intestacy, of the employee or former employee, or in connection with a sale of the business that gave rise to the restricted profit interest by the entity (or employee or former employee thereof) to an unaffiliated party that provides investment management, investment advisory, commodity trading advisory, or other services to the fund.

(7) *Prime brokerage transaction* means any transaction that would be a covered transaction, as defined in section 23A(b)(7) of the Federal Reserve Act (12 U.S.C. 371c(b)(7)), that is provided in connection with custody, clearance and settlement, securities borrowing or lending services, trade execution, financing, or data, operational, and administrative support.

(8) *Resident of the United States* means a person that is a ''U.S. person'' as defined in rule 902(k) of the SEC's Regulation S (17 CFR 230.902(k)).

(9) *Sponsor* means, with respect to a covered fund:

(i) To serve as a general partner, managing member, or trustee of a covered fund, or to serve as a commodity pool operator with respect to a covered fund as defined in (b)(1)(ii) of this section;

(ii) In any manner to select or to control (or to have employees, officers, or directors, or agents who constitute) a majority of the directors, trustees, or management of a covered fund; or

(iii) To share with a covered fund, for corporate, marketing, promotional, or other purposes, the same name or a variation of the same name, except as permitted under § 248.11(a)(6).

(10) *Trustee.* (i) For purposes of paragraph (d)(9) of this section and § 248.11 of subpart C, a trustee does not include:

(A) A trustee that does not exercise investment discretion with respect to a covered fund, including a trustee that is subject to the direction of an unaffiliated named fiduciary who is not a trustee pursuant to section 403(a)(1) of the Employee's Retirement Income Security Act (29 U.S.C. 1103(a)(1)); or

(B) A trustee that is subject to fiduciary standards imposed under foreign law that are substantially equivalent to those described in paragraph (d)(10)(i)(A) of this section;

(ii) Any entity that directs a person described in paragraph (d)(10)(i) of this section, or that possesses authority and discretion to manage and control the investment decisions of a covered fund for which such person serves as trustee, shall be considered to be a trustee of such covered fund.

§ 248.11 Permitted organizing and offering, underwriting, and market making with respect to a covered fund.

(a) *Organizing and offering a covered fund in general.* Notwithstanding § 248.10(a) of this subpart, a banking entity is not prohibited from acquiring or retaining an ownership interest in, or acting as sponsor to, a covered fund in connection with, directly or indirectly, organizing and offering a covered fund, including serving as a general partner, managing member, trustee, or commodity pool operator of the covered fund and in any manner selecting or controlling (or having employees, officers, directors, or agents who constitute) a majority of the directors, trustees, or management of the covered fund, including any necessary expenses for the foregoing, only if:

(1) The banking entity (or an affiliate thereof) provides *bona fide* trust, fiduciary, investment advisory, or commodity trading advisory services;

(2) The covered fund is organized and offered only in connection with the provision of *bona fide* trust, fiduciary, investment advisory, or commodity trading advisory services and only to persons that are customers of such services of the banking entity (or an affiliate thereof), pursuant to a written plan or similar documentation outlining how the banking entity or such affiliate intends to provide advisory or similar services to its customers through organizing and offering such fund;

(3) The banking entity and its affiliates do not acquire or retain an ownership interest in the covered fund except as permitted under § 248.12 of this subpart;

(4) The banking entity and its affiliates comply with the requirements of § 248.14 of this subpart;

(5) The banking entity and its affiliates do not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests;

(6) The covered fund, for corporate, marketing, promotional, or other purposes:

(i) Does not share the same name or a variation of the same name with the banking entity (or an affiliate thereof) except that a covered fund may share the same name or a variation of the same name with a banking entity that is an investment adviser to the covered fund if:

(A) The investment adviser is not an insured depository institution, a company that controls an insured depository institution, or a company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(B) The investment adviser does not share the same name or a variation of the same name as an insured depository institution, a company that controls an insured depository institution, or a company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(ii) Does not use the word ''bank'' in its name;

(7) No director or employee of the banking entity (or an affiliate thereof) takes or retains an ownership interest in the covered fund, except for any director or employee of the banking entity or such affiliate who is directly engaged in providing investment advisory, commodity trading advisory, or other services to the covered fund at the time the director or employee takes the ownership interest; and

(8) The banking entity:

(i) Clearly and conspicuously discloses, in writing, to any prospective and actual investor in the covered fund (such as through disclosure in the covered fund's offering documents):

(A) That ''any losses in [such covered fund] will be borne solely by investors in [the covered fund] and not by [the banking entity] or its affiliates; therefore, [the banking entity's] losses in [such covered fund] will be limited to losses attributable to the ownership interests in the covered fund held by [the banking entity] and any affiliate in its capacity as investor in the [covered fund] or as beneficiary of a restricted profit interest held by [the banking entity] or any affiliate'';

(B) That such investor should read the fund offering documents before investing in the covered fund;

(C) That the ''ownership interests in the covered fund are not insured by the FDIC, and are not deposits, obligations of, or endorsed or guaranteed in any way, by any banking entity'' (unless that happens to be the case); and

(D) The role of the banking entity and its affiliates and employees in sponsoring or providing any services to the covered fund; and

(ii) Complies with any additional rules of the appropriate Federal banking agencies, the SEC, or the CFTC, as provided in section 13(b)(2) of the BHC Act, designed to ensure that losses in such covered fund are borne solely by investors in the covered fund and not by the covered banking entity and its affiliates.

(b) *Organizing and offering an issuing entity of asset-backed securities.* (1) Notwithstanding § 248.10(a) of this subpart, a banking entity is not prohibited from acquiring or retaining an ownership interest in, or acting as sponsor to, a covered fund that is an issuing entity of asset-backed securities in connection with, directly or indirectly, organizing and offering that issuing entity, so long as the banking entity and its affiliates comply with all of the requirements of paragraph (a)(3) through (8) of this section.

(2) For purposes of this paragraph (b), organizing and offering a covered fund that is an issuing entity of asset-backed securities means acting as the securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78*o*–11(a)(3)) of the issuing entity, or acquiring or retaining an ownership interest in the issuing entity as required by section 15G of that Act (15 U.S.C. 78*o*–11) and the implementing regulations issued thereunder.

(c) *Underwriting and market making in ownership interests of a covered fund.* The prohibition contained in § 248.10(a) of this subpart does not apply to a banking entity's underwriting activities or market making-related activities involving a covered fund so long as:

(1) Those activities are conducted in accordance with the requirements of § 248.4(a) or § 248.4(b) of subpart B, respectively;

(2) With respect to any banking entity (or any affiliate thereof) that: Acts as a sponsor, investment adviser or commodity trading advisor to a particular covered fund or otherwise acquires and retains an ownership interest in such covered fund in reliance on paragraph (a) of this section; acquires and retains an ownership interest in such covered fund and is either a securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78o–11(a)(3)), or is acquiring and retaining an ownership interest in

such covered fund in compliance with section 15G of that Act (15 U.S.C. 78o–11) and the implementing regulations issued thereunder each as permitted by paragraph (b) of this section; or, directly or indirectly, guarantees, assumes, or otherwise insures the obligations or performance of the covered fund or of any covered fund in which such fund invests, then in each such case any ownership interests acquired or retained by the banking entity and its affiliates in connection with underwriting and market making related activities for that particular covered fund are included in the calculation of ownership interests permitted to be held by the banking entity and its affiliates under the limitations of § 248.12(a)(2)(ii) and § 248.12(d) of this subpart; and

(3) With respect to any banking entity, the aggregate value of all ownership interests of the banking entity and its affiliates in all covered funds acquired and retained under § 248.11 of this subpart, including all covered funds in which the banking entity holds an ownership interest in connection with underwriting and market making related activities permitted under this paragraph (c), are included in the calculation of all ownership interests under § 248.12(a)(2)(iii) and § 248.12(d) of this subpart.

§ 248.12 Permitted investment in a covered fund.

(a) *Authority and limitations on permitted investments in covered funds.* (1) Notwithstanding the prohibition contained in § 248.10(a) of this subpart, a banking entity may acquire and retain an ownership interest in a covered fund that the banking entity or an affiliate thereof organizes and offers pursuant to § 248.11, for the purposes of:

(i) *Establishment.* Establishing the fund and providing the fund with sufficient initial equity for investment to permit the fund to attract unaffiliated investors, subject to the limits contained in paragraphs (a)(2)(i) and (iii) of this section; or

(ii) *De minimis investment.* Making and retaining an investment in the covered fund subject to the limits contained in paragraphs (a)(2)(ii) and (iii) of this section.

(2) *Investment limits*—(i) *Seeding period.* With respect to an investment in any covered fund made or held pursuant to paragraph (a)(1)(i) of this section, the banking entity and its affiliates:

(A) Must actively seek unaffiliated investors to reduce, through redemption, sale, dilution, or other methods, the aggregate amount of all ownership interests of the banking entity in the covered fund to the amount permitted in paragraph (a)(2)(i)(B) of this section; and

(B) Must, no later than 1 year after the date of establishment of the fund (or such longer period as may be provided by the Board pursuant to paragraph (e) of this section), conform its ownership interest in the covered fund to the limits in paragraph (a)(2)(ii) of this section;

(ii) *Per-fund limits.* (A) Except as provided in paragraph (a)(2)(ii)(B) of this section, an investment by a banking entity and its affiliates in any covered fund made or held pursuant to paragraph (a)(1)(ii) of this section may not exceed 3 percent of the total number or value of the outstanding ownership interests of the fund.

(B) An investment by a banking entity and its affiliates in a covered fund that is an issuing entity of asset-backed securities may not exceed 3 percent of the total fair market value of the ownership interests of the fund measured in accordance with paragraph (b)(3) of this section, unless a greater percentage is retained by the banking entity and its affiliates in compliance with the requirements of section 15G of the Exchange Act (15 U.S.C. 78*o*–11) and the implementing regulations issued thereunder, in which case the investment by the banking entity and its affiliates in the covered fund may not exceed the amount, number, or value of ownership interests of the fund required under section 15G of the Exchange Act and the implementing regulations issued thereunder.

(iii) *Aggregate limit.* The aggregate value of all ownership interests of the banking entity and its affiliates in all covered funds acquired or retained under this section may not exceed 3 percent of the tier 1 capital of the banking entity, as provided under paragraph (c) of this section, and shall be calculated as of the last day of each calendar quarter.

(iv) *Date of establishment.* For purposes of this section, the date of establishment of a covered fund shall be:

(A) *In general.* The date on which the investment adviser or similar entity to the covered fund begins making investments pursuant to the written investment strategy for the fund;

(B) *Issuing entities of asset-backed securities.* In the case of an issuing entity of asset-backed securities, the date on which the assets are initially transferred into the issuing entity of asset-backed securities.

(b) *Rules of construction*—(1) *Attribution of ownership interests to a covered banking entity.* (i) For purposes of paragraph (a)(2) of this section, the amount and value of a banking entity's permitted investment in any single covered fund shall include any ownership interest held under § 248.12 directly by the banking entity, including any affiliate of the banking entity.

(ii) *Treatment of registered investment companies, SEC-regulated business development companies and foreign public funds.* For purposes of paragraph (b)(1)(i) of this section, a registered investment company, SEC-regulated business development companies or foreign public fund as described in § 248.10(c)(1) of this subpart will not be considered to be an affiliate of the banking entity so long as the banking entity:

(A) Does not own, control, or hold with the power to vote 25 percent or more of the voting shares of the company or fund; and

(B) Provides investment advisory, commodity trading advisory, administrative, and other services to the company or fund in compliance with the limitations under applicable regulation, order, or other authority.

(iii) *Covered funds.* For purposes of paragraph (b)(1)(i) of this section, a covered fund will not be considered to be an affiliate of a banking entity so long as the covered fund is held in compliance with the requirements of this subpart.

(iv) *Treatment of employee and director investments financed by the banking entity.* For purposes of paragraph (b)(1)(i) of this section, an investment by a director or employee of a banking entity who acquires an ownership interest in his or her personal capacity in a covered fund sponsored by the banking entity will be attributed to the banking entity if the banking entity, directly or indirectly, extends financing for the purpose of enabling the director or employee to acquire the ownership interest in the fund and the financing is used to acquire such ownership interest in the covered fund.

(2) *Calculation of permitted ownership interests in a single covered fund.* Except as provided in paragraph (b)(3) or (4), for purposes of determining whether an investment in a single covered fund complies with the restrictions on ownership interests under paragraphs (a)(2)(i)(B) and (a)(2)(ii)(A) of this section:

(i) The aggregate number of the outstanding ownership interests held by the banking entity shall be the total number of ownership interests held under this section by the banking entity in a covered fund divided by the total number of ownership interests held by all entities in that covered fund, as of the last day of each calendar quarter (both measured without regard to committed funds not yet called for investment);

(ii) The aggregate value of the outstanding ownership interests held by the banking entity shall be the aggregate fair market value of all investments in and capital contributions made to the covered fund by the banking entity, divided by the value of all investments in and capital contributions made to that covered fund by all entities, as of the last day of each calendar quarter (all measured without regard to committed funds not yet called for investment). If fair market value cannot be determined, then the value shall be the historical cost basis of all investments in and contributions made by the banking entity to the covered fund;

(iii) For purposes of the calculation under paragraph (b)(2)(ii) of this section, once a valuation methodology is chosen, the banking entity must calculate the value of its investment and the investments of all others in the covered fund in the same manner and according to the same standards.

(3) *Issuing entities of asset-backed securities.* In the case of an ownership interest in an issuing entity of asset-backed securities, for purposes of determining whether an investment in a single covered fund complies with the restrictions on ownership interests under paragraphs (a)(2)(i)(B) and (a)(2)(ii)(B) of this section:

(i) For securitizations subject to the requirements of section 15G of the Exchange Act (15 U.S.C. 78o–11), the calculations shall be made as of the date and according to the valuation methodology applicable pursuant to the requirements of section 15G of the Exchange Act (15 U.S.C. 78o–11) and the implementing regulations issued thereunder; or

(ii) For securitization transactions completed prior to the compliance date of such implementing regulations (or as to which such implementing regulations do not apply), the calculations shall be made as of the date of establishment as defined in paragraph (a)(2)(iv)(B) of this section or such earlier date on which the transferred assets have been valued for purposes of transfer to the covered fund, and thereafter only upon the date on which additional securities of the issuing entity of asset-backed securities are priced for purposes of the sales of ownership interests to unaffiliated investors.

(iii) For securitization transactions completed prior to the compliance date of such implementing regulations (or as to which such implementing regulations do not apply), the aggregate value of the outstanding ownership interests in the covered fund shall be the fair market value of the assets transferred to the issuing entity of the securitization and any other assets otherwise held by the issuing entity at such time, determined in a manner that is consistent with its determination of the fair market value of those assets for financial statement purposes.

(iv) For purposes of the calculation under paragraph (b)(3)(iii) of this section, the valuation methodology used to calculate the fair market value of the ownership interests must be the same for both the ownership interests held by a banking entity and the ownership interests held by all others in the covered fund in the same manner and according to the same standards.

(4) *Multi-tier fund investments*—(i) *Master-feeder fund investments.* If the principal investment strategy of a covered fund (the ‘‘feeder fund’’) is to invest substantially all of its assets in another single covered fund (the ‘‘master fund’’), then for purposes of the investment limitations in paragraphs (a)(2)(i)(B) and (a)(2)(ii) of this section, the banking entity's permitted investment in such funds shall be measured only by reference to the value of the master fund. The banking entity's permitted investment in the master fund shall include any investment by the banking entity in the master fund, as well as the banking entity's pro-rata share of any ownership interest of the master fund that is held through the feeder fund; and

(ii) *Fund-of-funds investments.* If a banking entity organizes and offers a covered fund pursuant to § 248.11 of this subpart for the purpose of investing in other covered funds (a ‘‘fund of funds’’) and that fund of funds itself invests in another covered fund that the banking entity is permitted to own, then the banking entity's permitted investment in that other fund shall include any investment by the banking entity in that other fund, as well as the banking entity's pro-rata share of any ownership interest of the fund that is held through the fund of funds. The investment of the banking entity may not represent more than 3 percent of the amount or value of any single covered fund.

(c) *Aggregate permitted investments in all covered funds.* (1) For purposes of paragraph (a)(2)(iii) of this section, the aggregate value of all ownership interests held by a banking entity shall be the sum of all amounts paid or contributed by the banking entity in connection with acquiring or retaining an ownership interest in covered funds (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 248.10(d)(6)(ii) of this subpart), on a historical cost basis.

(2) *Calculation of tier 1 capital.* For purposes of paragraph (a)(2)(iii) of this section:

(i) *Entities that are required to hold and report tier 1 capital.* If a banking entity is required to calculate and report tier 1 capital, the banking entity's tier 1 capital shall be equal to the amount of tier 1 capital of the banking entity as of the last day of the most recent calendar quarter, as reported to its primary financial regulatory agency; and

(ii) If a banking entity is not required to calculate and report tier 1 capital, the banking entity's tier 1 capital shall be determined to be equal to:

(A) In the case of a banking entity that is controlled, directly or indirectly, by a depository institution that calculates and reports tier 1 capital, be equal to the amount of tier 1 capital reported by such controlling depository institution in the manner described in paragraph (c)(2)(i) of this section;

(B) In the case of a banking entity that is not controlled, directly or indirectly, by a depository institution that calculates and reports tier 1 capital:

(*1*) *Bank holding company subsidiaries.* If the banking entity is a subsidiary of a bank holding company or company that is treated as a bank holding company, be equal to the amount of tier 1 capital reported by the top-tier affiliate of such covered banking entity that calculates and reports tier 1 capital in the manner described in paragraph (c)(2)(i) of this section; and

(*2*) *Other holding companies and any subsidiary or affiliate thereof.* If the banking entity is not a subsidiary of a bank holding company or a company that is treated as a bank holding company, be equal to the total amount of shareholders' equity of the top-tier affiliate within such organization as of the last day of the most recent calendar quarter that has ended, as determined under applicable accounting standards.

(iii) *Treatment of foreign banking entities*—(A) *Foreign banking entities.* Except as provided in paragraph (c)(2)(iii)(B) of this section, with respect to a banking entity that is not itself, and is not controlled directly or indirectly by, a banking entity that is located or organized under the laws of the United States or of any State, the tier 1 capital of the banking entity shall be the consolidated tier 1 capital of the entity as calculated under applicable home country standards.

(B) *U.S. affiliates of foreign banking entities.* With respect to a banking entity that is located or organized under the laws of the United States or of any State and is controlled by a foreign banking entity identified under paragraph (c)(2)(iii)(A) of this section, the banking entity's tier 1 capital shall be as calculated under paragraphs (c)(2)(i) or (ii) of this section.

(d) *Capital treatment for a permitted investment in a covered fund.* For purposes of calculating compliance with the applicable regulatory capital requirements, a banking entity shall deduct from the banking entity's tier 1 capital (as determined under paragraph (c)(2) of this section) the greater of:

(1) The sum of all amounts paid or contributed by the banking entity in connection with acquiring or retaining an ownership interest (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 248.10(d)(6)(ii) of subpart C), on a historical cost basis, plus any earnings received; and

(2) The fair market value of the banking entity's ownership interests in the covered fund as determined under paragraph (b)(2)(ii) or (b)(3) of this section (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 248.10(d)(6)(ii) of subpart C), if the banking entity accounts for the profits (or losses) of the fund investment in its financial statements.

(e) *Extension of time to divest an ownership interest.* (1) Upon application by a banking entity, the Board may extend the period under paragraph (a)(2)(i) of this section for up to 2 additional years if the Board finds that an extension would be consistent with safety and soundness and not detrimental to the public interest. An application for extension must:

(i) Be submitted to the Board at least 90 days prior to the expiration of the applicable time period;

(ii) Provide the reasons for application, including information that addresses the factors in paragraph (e)(2) of this section; and

(iii) Explain the banking entity's plan for reducing the permitted investment in a covered fund through redemption, sale, dilution or other methods as required in paragraph (a)(2) of this section.

(2) *Factors governing the Board determinations.* In reviewing any application under paragraph (e)(1) of this section, the Board may consider all the facts and circumstances related to the permitted investment in a covered fund, including:

(i) Whether the investment would result, directly or indirectly, in a material exposure by the banking entity to high-risk assets or high-risk trading strategies;

(ii) The contractual terms governing the banking entity's interest in the covered fund;

(iii) The date on which the covered fund is expected to have attracted sufficient investments from investors unaffiliated with the banking entity to enable the banking entity to comply with the limitations in paragraph (a)(2)(i) of this section;

(iv) The total exposure of the covered banking entity to the investment and the risks that disposing of, or maintaining, the investment in the covered fund may pose to the banking entity and the financial stability of the United States;

(v) The cost to the banking entity of divesting or disposing of the investment within the applicable period;

(vi) Whether the investment or the divestiture or conformance of the investment would involve or result in a material conflict of interest between the banking entity and unaffiliated parties, including clients, customers or counterparties to which it owes a duty;

(vi) The banking entity's prior efforts to reduce through redemption, sale, dilution, or other methods its ownership interests in the covered fund, including activities related to the marketing of interests in such covered fund;

(vii) [Reserved]

(viii) Market conditions; and

(ix) Any other factor that the Board believes appropriate.

(3) *Authority to impose restrictions on activities or investment during any extension period.* The Board may impose such conditions on any extension approved under paragraph (e)(1) of this section as the Board determines are necessary or appropriate to protect the safety and soundness of the banking entity or the financial stability of the United States, address material conflicts of interest or other unsound banking practices, or otherwise further the purposes of section 13 of the BHC Act and this part.

(4) *Consultation.* In the case of a banking entity that is primarily regulated by another Federal banking agency, the SEC, or the CFTC, the Board will consult with such agency prior to acting on an application by the banking entity for an extension under paragraph (e)(1) of this section.

§ 248.13 Other permitted covered fund activities and investments.

(a) *Permitted risk-mitigating hedging activities.* (1) The prohibition contained in § 248.10(a) of this subpart does not apply with respect to an ownership interest in a covered fund acquired or retained by a banking entity that is designed to demonstrably reduce or otherwise significantly mitigate the specific, identifiable risks to the banking entity in connection with a compensation arrangement with an employee of the banking entity or an affiliate thereof that directly provides investment advisory, commodity trading advisory or other services to the covered fund.

(2) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under this paragraph (a) only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures; and

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(ii) The acquisition or retention of the ownership interest:

(A) Is made in accordance with the written policies, procedures and internal controls required under this section;

(B) At the inception of the hedge, is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates one or more specific, identifiable risks arising in connection with the compensation arrangement with the employee that directly provides investment advisory, commodity trading advisory, or other services to the covered fund;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section; and

(D) Is subject to continuing review, monitoring and management by the banking entity.

(iii) The compensation arrangement relates solely to the covered fund in which the banking entity or any affiliate has acquired an ownership interest pursuant to this paragraph and such compensation arrangement provides that any losses incurred by the banking entity on such ownership interest will be offset by corresponding decreases in amounts payable under such compensation arrangement.

(b) *Certain permitted covered fund activities and investments outside of the United States.* (1) The prohibition contained in § 248.10(a) of this subpart does not apply to the acquisition or retention of any ownership interest in, or the sponsorship of, a covered fund by a banking entity only if:

(i) The banking entity is not organized or directly or indirectly controlled by a banking entity that is organized under the laws of the United States or of one or more States;

(ii) The activity or investment by the banking entity is pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act;

(iii) No ownership interest in the covered fund is offered for sale or sold to a resident of the United States; and

(iv) The activity or investment occurs solely outside of the United States.

(2) An activity or investment by the banking entity is pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act for purposes of paragraph (b)(1)(ii) of this section only if:

(i) The activity or investment is conducted in accordance with the requirements of this section; and

(ii)(A) With respect to a banking entity that is a foreign banking organization, the banking entity meets the qualifying foreign banking organization requirements of section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c) or (e)), as applicable; or

(B) With respect to a banking entity that is not a foreign banking organization, the banking entity is not organized under the laws of the United States or of one or more States and the banking entity, on a fully-consolidated basis, meets at least two of the following requirements:

(*1*) Total assets of the banking entity held outside of the United States exceed total assets of the banking entity held in the United States;

(*2*) Total revenues derived from the business of the banking entity outside of the United States exceed total revenues derived from the business of the banking entity in the United States; or

(*3*) Total net income derived from the business of the banking entity outside of the United States exceeds total net income derived from the business of the banking entity in the United States.

(3) An ownership interest in a covered fund is not offered for sale or sold to a resident of the United States for purposes of paragraph (b)(1)(iii) of this section only if it is sold or has been sold pursuant to an offering that does not target residents of the United States.

(4) An activity or investment occurs solely outside of the United States for purposes of paragraph (b)(1)(iv) of this section only if:

(i) The banking entity acting as sponsor, or engaging as principal in the acquisition or retention of an ownership interest in the covered fund, is not itself, and is not controlled directly or indirectly by, a banking entity that is located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to acquire or retain the ownership interest or act as sponsor to the covered fund is not located in the United States or organized under the laws of the United States or of any State;

(iii) The investment or sponsorship, including any transaction arising from risk-mitigating hedging related to an ownership interest, is not accounted for as principal directly or indirectly on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State; and

(iv) No financing for the banking entity's ownership or sponsorship is provided, directly or indirectly, by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

(5) For purposes of this section, a U.S. branch, agency, or subsidiary of a foreign bank, or any subsidiary thereof, is located in the United States; however, a foreign bank of which that branch, agency, or subsidiary is a part is not considered to be located in the United States solely by virtue of operation of the U.S. branch, agency, or subsidiary.

(c) *Permitted covered fund interests and activities by a regulated insurance company.* The prohibition contained in § 248.10(a) of this subpart does not apply to the acquisition or retention by an insurance company, or an affiliate thereof, of any ownership interest in, or the sponsorship of, a covered fund only if:

(1) The insurance company or its affiliate acquires and retains the ownership interest solely for the general account of the insurance company or for one or more separate accounts established by the insurance company;

(2) The acquisition and retention of the ownership interest is conducted in compliance with, and subject to, the insurance company investment laws, regulations, and written guidance of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law, regulation, or written guidance described in paragraph (c)(2) of this section is insufficient to protect the safety and soundness of the banking entity, or the financial stability of the United States.

§ 248.14 Limitations on relationships with a covered fund.

(a) *Relationships with a covered fund.* (1) Except as provided for in paragraph (a)(2) of this section, no banking entity that serves, directly or indirectly, as the investment manager, investment adviser, commodity trading advisor, or sponsor to a covered fund, that organizes and offers a covered fund pursuant to § 248.11 of this subpart, or that continues to hold an ownership interest in accordance with § 248.11(b) of this subpart, and no affiliate of such entity, may enter into a transaction with the covered fund, or with any other covered fund that is controlled by such covered fund, that would be a covered transaction as defined in section 23A of the Federal Reserve Act (12 U.S.C. 371c(b)(7)), as if such banking entity and the affiliate thereof were a member bank and the covered fund were an affiliate thereof.

(2) Notwithstanding paragraph (a)(1) of this section, a banking entity may:

(i) Acquire and retain any ownership interest in a covered fund in accordance with the requirements of § 248.11, § 248.12, or § 248.13 of this subpart; and

(ii) Enter into any prime brokerage transaction with any covered fund in which a covered fund managed, sponsored, or advised by such banking entity (or an affiliate thereof) has taken an ownership interest, if:

(A) The banking entity is in compliance with each of the limitations set forth in § 248.11 of this subpart with respect to a covered fund organized and offered by such banking entity (or an affiliate thereof);

(B) The chief executive officer (or equivalent officer) of the banking entity certifies in writing annually to the Board (with a duty to update the certification if the information in the certification materially changes) that the banking entity does not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests; and

(C) The Board has not determined that such transaction is inconsistent with the safe and sound operation and condition of the banking entity.

(b) *Restrictions on transactions with covered funds.* A banking entity that serves, directly or indirectly, as the investment manager, investment adviser, commodity trading advisor, or sponsor to a covered fund, or that organizes and offers a covered fund pursuant to § 248.11 of this subpart, or that continues to hold an ownership interest in accordance with § 248.11(b) of this subpart, shall be subject to section 23B of the Federal Reserve Act (12 U.S.C. 371c–1), as if such banking entity were a member bank and such covered fund were an affiliate thereof.

(c) *Restrictions on prime brokerage transactions.* A prime brokerage transaction permitted under paragraph (a)(2)(ii) of this section shall be subject to section 23B of the Federal Reserve Act (12 U.S.C. 371c–1) as if the counterparty were an affiliate of the banking entity.

§ 248.15 Other limitations on permitted covered fund activities.

(a) No transaction, class of transactions, or activity may be deemed permissible under §§ 248.11 through 248.13 of this subpart if the transaction, class of transactions, or activity would:

(1) Involve or result in a material conflict of interest between the banking entity and its clients, customers, or counterparties;

(2) Result, directly or indirectly, in a material exposure by the banking entity to a high-risk asset or a high-risk trading strategy; or

(3) Pose a threat to the safety and soundness of the banking entity or to the financial stability of the United States.

(b) *Definition of material conflict of interest.* (1) For purposes of this section, a material conflict of interest between a banking entity and its clients, customers, or counterparties exists if the banking entity engages in any transaction, class of transactions, or activity that would involve or result in the banking entity's interests being materially adverse to the interests of its client, customer, or counterparty with respect to such transaction, class of transactions, or activity, and the banking entity has not taken at least one of the actions in paragraph (b)(2) of this section.

(2) Prior to effecting the specific transaction or class or type of transactions, or engaging in the specific activity, the banking entity:

(i) *Timely and effective disclosure.* (A) Has made clear, timely, and effective disclosure of the conflict of interest, together with other necessary information, in reasonable detail and in a manner sufficient to permit a reasonable client, customer, or counterparty to meaningfully understand the conflict of interest; and

(B) Such disclosure is made in a manner that provides the client, customer, or counterparty the opportunity to negate, or substantially mitigate, any materially adverse effect on the client, customer, or counterparty created by the conflict of interest; or

(ii) *Information barriers.* Has established, maintained, and enforced information barriers that are memorialized in written policies and procedures, such as physical separation of personnel, or functions, or limitations on types of activity, that are reasonably designed, taking into consideration the nature of the banking entity's business, to prevent the conflict of interest from involving or resulting in a materially adverse effect on a client, customer, or counterparty. A banking entity may not rely on such information barriers if, in the case of any specific transaction, class or type of transactions or activity, the banking entity knows or should reasonably know that, notwithstanding the banking entity's establishment of information barriers, the conflict of interest may involve or result in a materially adverse effect on a client, customer, or counterparty.

(c) *Definition of high-risk asset and high-risk trading strategy.* For purposes of this section:

(1) *High-risk asset* means an asset or group of related assets that would, if held by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

(2) *High-risk trading strategy* means a trading strategy that would, if engaged in by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

§ 248.16 Ownership of interests in and sponsorship of issuers of certain collateralized debt obligations backed by trust-preferred securities.

(a) The prohibition contained in § 248.10(a)(1) does not apply to the ownership by a banking entity of an interest in, or sponsorship of, any issuer if:

(1) The issuer was established, and the interest was issued, before May 19, 2010;

(2) The banking entity reasonably believes that the offering proceeds received by the issuer were invested primarily in Qualifying TruPS Collateral; and

(3) The banking entity acquired such interest on or before December 10, 2013 (or acquired such interest in connection with a merger with or acquisition of a banking entity that acquired the interest on or before December 10, 2013).

(b) For purposes of this § 248.16, *Qualifying TruPS Collateral* shall mean any trust preferred security or subordinated debt instrument issued prior to May 19, 2010 by a depository institution holding company that, as of the end of any reporting period within 12 months immediately preceding the issuance of such trust preferred security or subordinated debt instrument, had total consolidated assets of less than $15,000,000,000 or issued prior to May 19, 2010 by a mutual holding company.

(c) Notwithstanding paragraph (a)(3) of this section, a banking entity may act as a market maker with respect to the interests of an issuer described in paragraph (a) of this section in accordance with the applicable provisions of §§ 248.4 and 248.11.

(d) Without limiting the applicability of paragraph (a) of this section, the Board, the FDIC and the OCC will make public a non-exclusive list of issuers that meet the requirements of paragraph (a). A banking entity may rely on the list published by the Board, the FDIC and the OCC.

§§ 248.17–248.19 [Reserved]

Subpart D—Compliance Program Requirement; Violations

§ 248.20 Program for compliance; reporting.

(a) *Program requirement.* Each banking entity shall develop and provide for the continued administration of a compliance program reasonably designed to ensure and monitor compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part. The terms, scope and detail of the compliance program shall be appropriate for the types, size, scope and complexity of activities and business structure of the banking entity.

(b) *Contents of compliance program.* Except as provided in paragraph (f) of this section, the compliance program required by paragraph (a) of this section, at a minimum, shall include:

(1) Written policies and procedures reasonably designed to document, describe, monitor and limit trading activities subject to subpart B (including those permitted under §§ 248.3 to 248.6 of subpart B), including setting, monitoring and managing required limits set out in §§ 248.4 and 248.5, and activities and investments with respect to a covered fund subject to subpart C (including those permitted under §§ 248.11 through 248.14 of subpart C) conducted by the banking entity to ensure that all activities and

investments conducted by the banking entity that are subject to section 13 of the BHC Act and this part comply with section 13 of the BHC Act and this part;

(2) A system of internal controls reasonably designed to monitor compliance with section 13 of the BHC Act and this part and to prevent the occurrence of activities or investments that are prohibited by section 13 of the BHC Act and this part;

(3) A management framework that clearly delineates responsibility and accountability for compliance with section 13 of the BHC Act and this part and includes appropriate management review of trading limits, strategies, hedging activities, investments, incentive compensation and other matters identified in this part or by management as requiring attention;

(4) Independent testing and audit of the effectiveness of the compliance program conducted periodically by qualified personnel of the banking entity or by a qualified outside party;

(5) Training for trading personnel and managers, as well as other appropriate personnel, to effectively implement and enforce the compliance program; and

(6) Records sufficient to demonstrate compliance with section 13 of the BHC Act and this part, which a banking entity must promptly provide to the Board upon request and retain for a period of no less than 5 years or such longer period as required by the Board.

(c) *Additional standards.* In addition to the requirements in paragraph (b) of this section, the compliance program of a banking entity must satisfy the requirements and other standards contained in appendix B, if:

(1) The banking entity engages in proprietary trading permitted under subpart B and is required to comply with the reporting requirements of paragraph (d) of this section;

(2) The banking entity has reported total consolidated assets as of the previous calendar year end of $50 billion or more or, in the case of a foreign banking entity, has total U.S. assets as of the previous calendar year end of $50 billion or more (including all subsidiaries, affiliates, branches and agencies of the foreign banking entity operating, located or organized in the United States); or

(3) The Board notifies the banking entity in writing that it must satisfy the requirements and other standards contained in appendix B to this part.

(d) *Reporting requirements under appendix A to this part.* (1) A banking entity engaged in proprietary trading activity permitted under subpart B shall comply with the reporting requirements described in appendix A, if:

(i) The banking entity (other than a foreign banking entity as provided in paragraph (d)(1)(ii) of this section) has, together with its affiliates and subsidiaries, trading assets and liabilities (excluding trading assets and liabilities involving obligations of or guaranteed by the United States or any agency of the United States) the average gross sum of which (on a worldwide consolidated basis) over the previous consecutive four quarters, as measured as of the last day of each of the four prior calendar quarters, equals or exceeds the threshold established in paragraph (d)(2) of this section;

(ii) In the case of a foreign banking entity, the average gross sum of the trading assets and liabilities of the combined U.S. operations of the foreign banking entity (including all subsidiaries, affiliates, branches and agencies of the foreign banking entity operating, located or organized in the United States and excluding trading assets and liabilities involving obligations of or guaranteed by the United States or any agency of the United States) over the previous consecutive four quarters, as measured as of the last day of each of the four prior calendar quarters, equals or exceeds the threshold established in paragraph (d)(2) of this section; or

(iii) The Board notifies the banking entity in writing that it must satisfy the reporting requirements contained in appendix A.

(2) The threshold for reporting under paragraph (d)(1) of this section shall be $50 billion beginning on June 30, 2014; $25 billion beginning on April 30, 2016; and $10 billion beginning on December 31, 2016.

(3) Frequency of reporting: Unless the Board notifies the banking entity in writing that it must report on a different basis, a banking entity with $50 billion or more in trading assets and liabilities (as calculated in accordance with paragraph (d)(1) of this section) shall report the information required by appendix A for each calendar month within 30 days of the end of the relevant calendar month; beginning with information for the month of January 2015, such information shall be reported within 10 days of the end of each calendar month. Any other banking entity subject to appendix A shall report the information required by appendix A for each calendar quarter within 30 days of the end of that calendar quarter unless the Board notifies the banking entity in writing that it must report on a different basis.

(e) *Additional documentation for covered funds.* Any banking entity that has more than $10 billion in total consolidated assets as reported on December 31 of the previous two calendar years shall maintain records that include:

(1) Documentation of the exclusions or exemptions other than sections 3(c)(1) and 3(c)(7) of the Investment Company Act of 1940 relied on by each fund sponsored by the banking entity (including all subsidiaries and affiliates) in determining that such fund is not a covered fund;

(2) For each fund sponsored by the banking entity (including all subsidiaries and affiliates) for which the banking entity relies on one or more of the exclusions from the definition of covered fund provided by §§ 248.10(c)(1), 248.10(c)(5), 248.10(c)(8), 248.10(c)(9), or 248.10(c)(10) of subpart C, documentation supporting the banking entity's determination that the fund is not a covered fund pursuant to one or more of those exclusions;

(3) For each seeding vehicle described in § 248.10(c)(12)(i) or (iii) of subpart C that will become a registered investment company or SEC-regulated business development company, a written plan documenting the banking entity's determination that the seeding vehicle will become a registered investment company or SEC-regulated business development company; the period of time during which the vehicle will operate as a seeding vehicle; and the banking entity's plan to market the vehicle to third-party investors and convert it into a registered investment company or SEC-regulated business development company within the time period specified in § 248.12(a)(2)(i)(B) of subpart C;

(4) For any banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State, if the aggregate amount of ownership interests in foreign public funds that are described in § 248.10(c)(1) of subpart C owned by such banking entity (including ownership interests owned by any affiliate that is controlled directly or indirectly by a banking entity that is located in or organized under the laws of the United States or of any State) exceeds $50 million at the end of two or more consecutive calendar quarters, beginning with the next succeeding calendar quarter, documentation of the value of the ownership interests owned by the banking entity (and such affiliates) in each foreign public fund and each jurisdiction in which any such foreign public fund is organized, calculated as of the end of each calendar quarter, which documentation must

continue until the banking entity's aggregate amount of ownership interests in foreign public funds is below $50 million for two consecutive calendar quarters; and

(5) For purposes of paragraph (e)(4) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(f) *Simplified programs for less active banking entities*—(1) *Banking entities with no covered activities.* A banking entity that does not engage in activities or investments pursuant to subpart B or subpart C (other than trading activities permitted pursuant to § 248.6(a) of subpart B) may satisfy the requirements of this section by establishing the required compliance program prior to becoming engaged in such activities or making such investments (other than trading activities permitted pursuant to § 248.6(a) of subpart B).

(2) *Banking entities with modest activities.* A banking entity with total consolidated assets of $10 billion or less as reported on December 31 of the previous two calendar years that engages in activities or investments pursuant to subpart B or subpart C (other than trading activities permitted under § 248.6(a) of subpart B) may satisfy the requirements of this section by including in its existing compliance policies and procedures appropriate references to the requirements of section 13 of the BHC Act and this part and adjustments as appropriate given the activities, size, scope and complexity of the banking entity.

§ 248.21 Termination of activities or investments; penalties for violations.

(a) Any banking entity that engages in an activity or makes an investment in violation of section 13 of the BHC Act or this part, or acts in a manner that functions as an evasion of the requirements of section 13 of the BHC Act or this part, including through an abuse of any activity or investment permitted under subparts B or C, or otherwise violates the restrictions and requirements of section 13 of the BHC Act or this part, shall, upon discovery, promptly terminate the activity and, as relevant, dispose of the investment.

(b) Whenever the Board finds reasonable cause to believe any banking entity has engaged in an activity or made an investment in violation of section 13 of the BHC Act or this part, or engaged in any activity or made any investment that functions as an evasion of the requirements of section 13 of the BHC Act or this part, the Board may take any action permitted by law to enforce compliance with section 13 of the BHC Act and this part, including directing the banking entity to restrict, limit, or terminate any or all activities under this part and dispose of any investment.

Appendix A to Part 248—Reporting and Recordkeeping Requirements for Covered Trading Activities

I. Purpose

a. This appendix sets forth reporting and recordkeeping requirements that certain banking entities must satisfy in connection with the restrictions on proprietary trading set forth in subpart B (''proprietary trading restrictions''). Pursuant to § 248.20(d), this appendix generally applies to a banking entity that, together with its affiliates and subsidiaries, has significant trading assets and liabilities. These entities are required to (i) furnish periodic reports to the Board regarding a variety of quantitative measurements of their covered trading activities, which vary depending on the scope and size of covered trading activities, and (ii) create and maintain records documenting the preparation and content of these reports. The requirements of this appendix must be incorporated into the banking entity's internal compliance program under § 248.20 and Appendix B.

b. The purpose of this appendix is to assist banking entities and the Board in:

(i) Better understanding and evaluating the scope, type, and profile of the banking entity's covered trading activities;

(ii) Monitoring the banking entity's covered trading activities;

(iii) Identifying covered trading activities that warrant further review or examination by the banking entity to verify compliance with the proprietary trading restrictions;

(iv) Evaluating whether the covered trading activities of trading desks engaged in market making-related activities subject to § 248.4(b) are consistent with the requirements governing permitted market making-related activities;

(v) Evaluating whether the covered trading activities of trading desks that are engaged in permitted trading activity subject to §§ 248.4, 248.5, or 248.6(a)–(b) (*i.e.,* underwriting and market making-related related activity, risk-mitigating hedging, or trading in certain government obligations) are consistent with the requirement that such activity not result, directly or indirectly, in a material exposure to high-risk assets or high-risk trading strategies;

(vi) Identifying the profile of particular covered trading activities of the banking entity, and the individual trading desks of the banking entity, to help establish the appropriate frequency and scope of examination by the Board of such activities; and

(vii) Assessing and addressing the risks associated with the banking entity's covered trading activities.

c. The quantitative measurements that must be furnished pursuant to this appendix are *not* intended to serve as a dispositive tool for the identification of permissible or impermissible activities.

d. In order to allow banking entities and the Agencies to evaluate the effectiveness of these metrics, banking entities must collect and report these metrics for all trading desks beginning on the dates established in § 248.20 of the final rule. The Agencies will review the data collected and revise this collection requirement as appropriate based on a review of the data collected prior to September 30, 2015.

e. In addition to the quantitative measurements required in this appendix, a banking entity may need to develop and implement other quantitative measurements in order to effectively monitor its covered trading activities for compliance with section 13 of the BHC Act and this part and to have an effective compliance program, as required by § 248.20 and Appendix B to this part. The effectiveness of particular quantitative measurements may differ based on the profile of the banking entity's businesses in general and, more specifically, of the particular trading desk, including types of instruments traded, trading activities and strategies, and history and experience (*e.g.,* whether the trading desk is an established, successful market maker or a new entrant to a competitive market). In all cases, banking entities must ensure that they have robust measures in place to identify and monitor the risks taken in their trading activities, to ensure that the activities are within risk tolerances established by the banking entity, and to monitor and examine for compliance with the proprietary trading restrictions in this part.

f. On an ongoing basis, banking entities must carefully monitor, review, and evaluate all furnished quantitative measurements, as well as any others that they choose to utilize in order to maintain compliance with section 13 of the BHC Act and this part. All measurement results that indicate a heightened risk of impermissible proprietary trading, including with respect to otherwise-permitted activities under §§ 248.4 through 248.6(a) and (b), or that result in a material exposure to high-risk assets or high-risk trading strategies, must be escalated within the banking entity for review, further analysis, explanation to the Board, and remediation, where appropriate. The quantitative measurements discussed in this appendix should be helpful to banking entities in identifying and managing the risks related to their covered trading activities.

II. Definitions

The terms used in this appendix have the same meanings as set forth in §§ 248.2 and 248.3. In addition, for purposes of this appendix, the following definitions apply:

Calculation period means the period of time for which a particular quantitative measurement must be calculated.

Comprehensive profit and loss means the net profit or loss of a trading desk's material sources of trading revenue over a specific period of time, including, for example, any increase or decrease in the market value of a trading desk's holdings, dividend income, and interest income and expense.

Covered trading activity means trading conducted by a trading desk under §§ 248.4, 248.5, 248.6(a), or 248.6(b). A banking entity may include trading under §§ 248.3(d), 248.6(c), 248.6(d) or 248.6(e).

Measurement frequency means the frequency with which a particular quantitative metric must be calculated and recorded.

Trading desk means the smallest discrete unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof.

III. Reporting and Recordkeeping of Quantitative Measurements

a. Scope of Required Reporting

General scope. Each banking entity made subject to this part by § 248.20 must furnish the following quantitative measurements for each trading desk of the banking entity, calculated in accordance with this appendix:

- Risk and Position Limits and Usage;
- Risk Factor Sensitivities;
- Value-at-Risk and Stress VaR;
- Comprehensive Profit and Loss Attribution;
- Inventory Turnover;
- Inventory Aging; and
- Customer-Facing Trade Ratio

b. Frequency of Required Calculation and Reporting

A banking entity must calculate any applicable quantitative measurement for each trading day. A banking entity must report each applicable quantitative measurement to the Board on the reporting schedule established in § 248.20 unless otherwise requested by the Board. All quantitative measurements for any calendar month must be reported within the time period required by § 248.20.

c. Recordkeeping

A banking entity must, for any quantitative measurement furnished to the Board pursuant to this appendix and § 248.20(d), create and maintain records documenting the preparation and content of these reports, as well as such information as is necessary to permit the Board to verify the accuracy of such reports, for a period of 5 years from the end of the calendar year for which the measurement was taken.

IV. Quantitative Measurements

a. Risk-Management Measurements

1. Risk and Position Limits and Usage

i. *Description:* For purposes of this appendix, Risk and Position Limits are the constraints that define the amount of risk that a trading desk is permitted to take at a point in time, as defined by the banking entity for a specific trading desk. Usage represents the portion of the trading desk's limits that are accounted for by the current activity of the desk. Risk and position limits and their usage are key risk management tools used to control and monitor risk taking and include, but are not limited, to the limits set out in § 248.4 and § 248.5. A number of the metrics that are described below, including ''Risk Factor Sensitivities'' and ''Value-at-Risk and Stress Value-at-Risk,'' relate to a trading desk's risk and position limits and are useful in evaluating and setting these limits in the broader context of the trading desk's overall activities, particularly for the market making activities under § 248.4(b) and hedging activity under § 248.5. Accordingly, the limits required under § 248.4(b)(2)(iii) and § 248.5(b)(1)(i) must meet the applicable requirements under § 248.4(b)(2)(iii) and § 248.5(b)(1)(i) and also must include appropriate metrics for the trading desk limits including, at a minimum, the ''Risk Factor Sensitivities'' and ''Value-at-Risk and Stress Value-at-Risk'' metrics except to the extent any of the ''Risk Factor Sensitivities'' or ''Value-at-Risk and Stress Value-at-Risk'' metrics are demonstrably ineffective for measuring and monitoring the risks of a trading desk based on the types of positions traded by, and risk exposures of, that desk.

ii. *General Calculation Guidance:* Risk and Position Limits must be reported in the format used by the banking entity for the purposes of risk management of each trading desk. Risk and Position Limits are often expressed in terms of risk measures, such as VaR and Risk Factor Sensitivities, but may also be expressed in terms of other observable criteria, such as net open positions. When criteria other than VaR or Risk Factor Sensitivities are used to define the Risk and Position Limits, both the value of the Risk and Position Limits and the value of the variables used to assess whether these limits have been reached must be reported.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

2. Risk Factor Sensitivities

i. *Description:* For purposes of this appendix, Risk Factor Sensitivities are changes in a trading desk's Comprehensive Profit and Loss that are expected to occur in the event of a change in one or more underlying variables that are significant sources of the trading desk's profitability and risk.

ii. *General Calculation Guidance:* A banking entity must report the Risk Factor Sensitivities that are monitored and managed as part of the trading desk's overall risk management policy. The underlying data and methods used to compute a trading desk's Risk Factor Sensitivities will depend on the specific function of the trading desk and the internal risk management models employed. The number and type of Risk Factor Sensitivities that are monitored and managed by a trading desk, and furnished to the Board, will depend on the explicit risks assumed by the trading desk. In general, however, reported Risk Factor Sensitivities must be sufficiently granular to account for a preponderance of the expected price variation in the trading desk's holdings.

A. Trading desks must take into account any relevant factors in calculating Risk Factor Sensitivities, including, for example, the following with respect to particular asset classes:

- *Commodity derivative positions:* Risk factors with respect to the related commodities set out in 17 CFR 20.2, the maturity of the positions, volatility and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Credit positions:* Risk factors with respect to credit spreads that are sufficiently granular to account for specific credit sectors and market segments, the maturity profile of the positions, and risk factors with respect to interest rates of all relevant maturities;
- *Credit-related derivative positions:* Risk factor sensitivities, for example credit spreads, shifts (parallel and non-parallel) in credit spreads—volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Equity derivative positions:* Risk factor sensitivities such as equity positions, volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Equity positions:* Risk factors for equity prices and risk factors that differentiate between important equity market sectors and segments, such as a small capitalization equities and international equities;
- *Foreign exchange derivative positions:* Risk factors with respect to major currency pairs and maturities, exposure to interest rates at relevant maturities, volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), as well as the maturity profile of the positions; and
- *Interest rate positions, including interest rate derivative positions:* Risk factors with respect to major interest rate categories and maturities and volatility and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and shifts (parallel and non-parallel) in the interest rate curve, as well as the maturity profile of the positions.

B. The methods used by a banking entity to calculate sensitivities to a common factor shared by multiple trading desks, such as an equity price factor, must be applied consistently across its trading desks so that the sensitivities can be compared from one trading desk to another.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

3. Value-at-Risk and Stress Value-at-Risk

i. *Description:* For purposes of this appendix, Value-at-Risk (''VaR'') is the commonly used percentile measurement of the risk of future financial loss in the value of a given set of aggregated positions over a specified period of time, based on current market conditions. For purposes of this appendix, Stress Value-at-Risk (''Stress VaR'') is the percentile measurement of the risk of future financial loss in the value of a given set of aggregated positions over a specified period of time, based on market conditions during a period of significant financial stress.

ii. *General Calculation Guidance:* Banking entities must compute and report VaR and Stress VaR by employing generally accepted standards and methods of calculation. VaR should reflect a loss in a trading desk that is expected to be exceeded less than one percent of the time over a one-day period. For those banking entities that are subject to regulatory capital requirements imposed by a Federal banking agency, VaR and Stress VaR must be computed and reported in a manner that is consistent with such regulatory capital requirements. In cases where a trading desk does not have a standalone VaR or Stress VaR calculation but is part of a larger aggregation of positions for which a VaR or Stress VaR calculation is performed, a VaR or Stress VaR calculation that includes only the trading desk's holdings must be performed consistent with the VaR or Stress VaR model and methodology used for the larger aggregation of positions.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

b. Source-of-Revenue Measurements

1. Comprehensive Profit and Loss Attribution

i. *Description:* For purposes of this appendix, Comprehensive Profit and Loss Attribution is an analysis that attributes the daily fluctuation in the value of a trading desk's positions to various sources. First, the daily profit and loss of the aggregated positions is divided into three categories: (i) Profit and loss attributable to a trading desk's existing positions that were also positions held by the trading desk as of the end of the prior day (''existing positions''); (ii) profit and loss attributable to new positions resulting from the current day's trading activity (''new positions''); and (iii) residual profit and loss that cannot be specifically attributed to existing positions or new positions. The sum of (i), (ii), and (iii) must equal the trading desk's comprehensive profit and loss at each point in time. In addition, profit and loss measurements must calculate volatility of comprehensive profit and loss (*i.e.,* the standard deviation of the trading desk's one-day profit and loss, in dollar terms) for the reporting period for at least a 30-, 60- and 90-day lag period, from the end of the reporting period, and any other period that the banking entity deems necessary to meet the requirements of the rule.

A. The comprehensive profit and loss associated with existing positions must reflect changes in the value of these positions on the applicable day. The comprehensive profit and loss from existing positions must be further attributed, as applicable, to changes in (i) the specific Risk Factors and other factors that are monitored and managed as part of the trading desk's overall risk management policies and procedures; and (ii) any other applicable elements, such as cash flows, carry, changes in reserves, and the correction, cancellation, or exercise of a trade.

B. The comprehensive profit and loss attributed to new positions must reflect commissions and fee income or expense and market gains or losses associated with transactions executed on the applicable day. New positions include purchases and sales of financial instruments and other assets/liabilities and negotiated amendments to existing positions. The comprehensive profit and loss from new positions may be reported in the aggregate and does not need to be further attributed to specific sources.

C. The portion of comprehensive profit and loss that cannot be specifically attributed to known sources must be allocated to a residual category identified as an unexplained portion of the comprehensive profit and loss. Significant unexplained profit and loss must be escalated for further investigation and analysis.

ii. *General Calculation Guidance:* The specific categories used by a trading desk in the attribution analysis and amount of detail for the analysis should be tailored to the type and amount of trading activities undertaken by the trading desk. The new position attribution must be computed by calculating the difference between the prices at which instruments were bought and/or sold and the prices at which those instruments are marked to market at the close of business on that day multiplied by the notional or principal amount of each purchase or sale. Any fees, commissions, or other payments received (paid) that are associated with transactions executed on that day must be added (subtracted) from such difference. These factors must be measured consistently over time to facilitate historical comparisons.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

c. Customer-Facing Activity Measurements

1. Inventory Turnover

i. *Description:* For purposes of this appendix, Inventory Turnover is a ratio that measures the turnover of a trading desk's inventory. The numerator of the ratio is the absolute value of all transactions over the reporting period. The denominator of the ratio is the value of the trading desk's inventory at the beginning of the reporting period.

ii. *General Calculation Guidance:* For purposes of this appendix, for derivatives, other than options and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value, and for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* 30 days, 60 days, and 90 days.

iv. *Measurement Frequency:* Daily.

2. Inventory Aging

i. *Description:* For purposes of this appendix, Inventory Aging generally describes a schedule of the trading desk's aggregate assets and liabilities and the amount of time that those assets and liabilities have been held. Inventory Aging should measure the age profile of the trading desk's assets and liabilities.

ii. *General Calculation Guidance:* In general, Inventory Aging must be computed using a trading desk's trading activity data and must identify the value of a trading desk's aggregate assets and liabilities. Inventory Aging must include two schedules, an asset-aging schedule and a liability-aging schedule. Each schedule must record the value of assets or liabilities held over all holding periods. For derivatives, other than options, and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value and, for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

3. Customer-Facing Trade Ratio—Trade Count Based and Value Based

i. *Description:* For purposes of this appendix, the Customer-Facing Trade Ratio is a ratio comparing (i) the transactions involving a counterparty that is a customer of the trading desk to (ii) the transactions involving a counterparty that is not a customer of the trading desk. A trade count based ratio must be computed that records the number of transactions involving a counterparty that is a customer of the trading desk and the number of transactions involving a counterparty that is not a customer of the trading desk. A value based ratio must be computed that records the value of transactions involving a counterparty that is a customer of the trading desk and the value of transactions involving a counterparty that is not a customer of the trading desk.

ii. *General Calculation Guidance:* For purposes of calculating the Customer-Facing Trade Ratio, a counterparty is considered to be a customer of the trading desk if the counterparty is a market participant that makes use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services. However, a trading desk or other organizational unit of another banking entity would not be a client, customer, or counterparty of the trading desk if the other entity has trading assets and liabilities of $50 billion or more as measured in accordance with § 248.20(d)(1) unless the trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk. Transactions conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants would be considered transactions with customers of the trading desk. For derivatives, other than options, and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value, and for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* 30 days, 60 days, and 90 days.

iv. *Measurement Frequency:* Daily.

Appendix B to Part 248—Enhanced Minimum Standards for Compliance Programs

I. Overview

Section 248.20(c) requires certain banking entities to establish, maintain, and enforce an enhanced compliance program that includes the requirements and standards in this Appendix as well as the minimum written policies and procedures, internal controls, management framework, independent testing, training, and recordkeeping provisions outlined in § 248.20. This Appendix sets forth additional minimum standards with respect to the establishment, oversight, maintenance, and enforcement by these banking entities of an enhanced internal compliance program for ensuring and monitoring compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part.

a. This compliance program must:

1. Be reasonably designed to identify, document, monitor, and report the permitted trading and covered fund activities and investments of the banking entity; identify, monitor and promptly address the risks of these covered activities and investments and potential areas of noncompliance; and prevent activities or investments prohibited by, or that do not comply with, section 13 of the BHC Act and this part;

2. Establish and enforce appropriate limits on the covered activities and investments of the banking entity, including limits on the size, scope, complexity, and risks of the individual activities or investments consistent with the requirements of section 13 of the BHC Act and this part;

3. Subject the effectiveness of the compliance program to periodic independent review and testing, and ensure that the entity's internal audit, corporate compliance and internal control functions involved in review and testing are effective and independent;

4. Make senior management, and others as appropriate, accountable for the effective implementation of the compliance program, and ensure that the board of directors and chief executive officer (or equivalent) of the banking entity review the effectiveness of the compliance program; and

5. Facilitate supervision and examination by the Agencies of the banking entity's permitted trading and covered fund activities and investments.

II. Enhanced Compliance Program

a. *Proprietary Trading Activities.* A banking entity must establish, maintain and enforce a compliance program that includes written policies and procedures that are appropriate for the types, size, and complexity of, and risks associated with, its permitted trading activities. The compliance program may be tailored to the types of trading activities conducted by the banking entity, and must include a detailed description of controls established by the banking entity to reasonably ensure that its trading activities are conducted in accordance with the requirements and limitations applicable to those trading activities under section 13 of the BHC Act and this part, and provide for appropriate revision of the compliance program before expansion of the trading activities of the banking entity. A banking entity must devote adequate resources and use knowledgeable personnel in conducting, supervising and managing its trading activities, and promote consistency, independence and rigor in implementing its risk controls and compliance efforts. The compliance program must be updated with a frequency sufficient to account for changes in the activities of the banking entity, results of independent testing of the program, identification of weaknesses in the program, and changes in legal, regulatory or other requirements.

1. *Trading Desks:* The banking entity must have written policies and procedures governing each trading desk that include a description of:

i. The process for identifying, authorizing and documenting financial instruments each trading desk may purchase or sell, with separate documentation for market making-related activities conducted in reliance on § 248.4(b) and for hedging activity conducted in reliance on § 248.5;

ii. A mapping for each trading desk to the division, business line, or other organizational structure that is responsible for managing and overseeing the trading desk's activities;

iii. The mission (*i.e.,* the type of trading activity, such as market-making, trading in sovereign debt, etc.) and strategy (*i.e.,* methods for conducting authorized trading activities) of each trading desk;

iv. The activities that the trading desk is authorized to conduct, including (i) authorized instruments and products, and (ii) authorized hedging strategies, techniques and instruments;

v. The types and amount of risks allocated by the banking entity to each trading desk to implement the mission and strategy of the trading desk, including an enumeration of material risks resulting from the activities in which the trading desk is authorized to engage (including but not limited to price risks, such as basis, volatility and correlation risks, as well as counterparty credit risk). Risk assessments must take into account both the risks inherent in the trading activity and the strength and effectiveness of controls designed to mitigate those risks;

vi. How the risks allocated to each trading desk will be measured;

vii. Why the allocated risks levels are appropriate to the activities authorized for the trading desk;

viii. The limits on the holding period of, and the risk associated with, financial instruments under the responsibility of the trading desk;

ix. The process for setting new or revised limits, as well as escalation procedures for granting exceptions to any limits or to any policies or procedures governing the desk, the analysis that will be required to support revising limits or granting exceptions, and the process for independently reviewing and documenting those exceptions and the underlying analysis;

x. The process for identifying, documenting and approving new products, trading strategies, and hedging strategies;

xi. The types of clients, customers, and counterparties with whom the trading desk may trade; and

xii. The compensation arrangements, including incentive arrangements, for employees associated with the trading desk, which may not be designed to reward or incentivize prohibited proprietary trading or excessive or imprudent risk-taking.

2. *Description of risks and risk management processes:* The compliance program for the banking entity must include a comprehensive description of the risk management program for the trading activity of the banking entity. The compliance program must also include a description of the governance, approval, reporting, escalation, review and other processes the banking entity will use to reasonably ensure that trading activity is conducted in compliance with section 13 of the BHC Act and this part. Trading activity in similar financial instruments should be subject to similar governance, limits, testing, controls, and review, unless the banking entity specifically determines to establish different limits or processes and documents those differences. Descriptions must include, at a minimum, the following elements:

i. A description of the supervisory and risk management structure governing all trading activity, including a description of processes for initial and senior-level review of new products and new strategies;

ii. A description of the process for developing, documenting, testing, approving and reviewing all models used for valuing, identifying and monitoring the risks of trading activity and related positions, including the process for periodic independent testing of the reliability and accuracy of those models;

iii. A description of the process for developing, documenting, testing, approving and reviewing the limits established for each trading desk;

iv. A description of the process by which a security may be purchased or sold pursuant to the liquidity management plan, including the process for authorizing and monitoring such activity to ensure compliance with the banking entity's liquidity management plan and the restrictions on liquidity management activities in this part;

v. A description of the management review process, including escalation procedures, for approving any temporary exceptions or permanent adjustments to limits on the activities, positions, strategies, or risks associated with each trading desk; and

vi. The role of the audit, compliance, risk management and other relevant units for conducting independent testing of trading and hedging activities, techniques and strategies.

3. *Authorized risks, instruments, and products.* The banking entity must implement and enforce limits and internal controls for each trading desk that are reasonably designed to ensure that trading activity is conducted in conformance with section 13 of the BHC Act and this part and with the banking entity's written policies and procedures. The banking entity must establish and enforce risk limits appropriate for the activity of each trading desk. These limits should be based on probabilistic and non-probabilistic measures of potential loss (*e.g.,* Value-at-Risk and notional exposure, respectively), and measured under normal and stress market conditions. At a minimum, these internal controls must monitor, establish and enforce limits on:

i. The financial instruments (including, at a minimum, by type and exposure) that the trading desk may trade;

ii. The types and levels of risks that may be taken by each trading desk; and

iii. The types of hedging instruments used, hedging strategies employed, and the amount of risk effectively hedged.

4. *Hedging policies and procedures.* The banking entity must establish, maintain, and enforce written policies and procedures

regarding the use of risk-mitigating hedging instruments and strategies that, at a minimum, describe:

i. The positions, techniques and strategies that each trading desk may use to hedge the risk of its positions;

ii. The manner in which the banking entity will identify the risks arising in connection with and related to the individual or aggregated positions, contracts or other holdings of the banking entity that are to be hedged and determine that those risks have been properly and effectively hedged;

iii. The level of the organization at which hedging activity and management will occur;

iv. The manner in which hedging strategies will be monitored and the personnel responsible for such monitoring;

v. The risk management processes used to control unhedged or residual risks; and

vi. The process for developing, documenting, testing, approving and reviewing all hedging positions, techniques and strategies permitted for each trading desk and for the banking entity in reliance on § 248.5.

5. *Analysis and quantitative measurements.* The banking entity must perform robust analysis and quantitative measurement of its trading activities that is reasonably designed to ensure that the trading activity of each trading desk is consistent with the banking entity's compliance program; monitor and assist in the identification of potential and actual prohibited proprietary trading activity; and prevent the occurrence of prohibited proprietary trading. Analysis and models used to determine, measure and limit risk must be rigorously tested and be reviewed by management responsible for trading activity to ensure that trading activities, limits, strategies, and hedging activities do not understate the risk and exposure to the banking entity or allow prohibited proprietary trading. This review should include periodic and independent back-testing and revision of activities, limits, strategies and hedging as appropriate to contain risk and ensure compliance. In addition to the quantitative measurements reported by any banking entity subject to Appendix A to this part, each banking entity must develop and implement, to the extent appropriate to facilitate compliance with this part, additional quantitative measurements specifically tailored to the particular risks, practices, and strategies of its trading desks. The banking entity's analysis and quantitative measurements must incorporate the quantitative measurements reported by the banking entity pursuant to Appendix A (if applicable) and include, at a minimum, the following:

i. Internal controls and written policies and procedures reasonably designed to ensure the accuracy and integrity of quantitative measurements;

ii. Ongoing, timely monitoring and review of calculated quantitative measurements;

iii. The establishment of numerical thresholds and appropriate trading measures for each trading desk and heightened review of trading activity not consistent with those thresholds to ensure compliance with section 13 of the BHC Act and this part, including analysis of the measurement results or other information, appropriate escalation procedures, and documentation related to the review; and

iv. Immediate review and compliance investigation of the trading desk's activities, escalation to senior management with oversight responsibilities for the applicable trading desk, timely notification to the Board, appropriate remedial action (*e.g.,* divesting of impermissible positions, cessation of impermissible activity, disciplinary actions), and documentation of the investigation findings and remedial action taken when quantitative measurements or other information, considered together with the facts and circumstances, or findings of internal audit, independent testing or other review suggest a reasonable likelihood that the trading desk has violated any part of section 13 of the BHC Act or this part.

6. *Other Compliance Matters.* In addition to the requirements specified above, the banking entity's compliance program must:

i. Identify activities of each trading desk that will be conducted in reliance on exemptions contained in §§ 248.4 through 248.6, including an explanation of:

A. How and where in the organization the activity occurs; and

B. Which exemption is being relied on and how the activity meets the specific requirements for reliance on the applicable exemption;

ii. Include an explanation of the process for documenting, approving and reviewing actions taken pursuant to the liquidity management plan, where in the organization this activity occurs, the securities permissible for liquidity management, the process for ensuring that liquidity management activities are not conducted for the purpose of prohibited proprietary trading, and the process for ensuring that securities purchased as part of the liquidity management plan are highly liquid and conform to the requirements of this part;

iii. Describe how the banking entity monitors for and prohibits potential or actual material exposure to high-risk assets or high-risk trading strategies presented by each trading desk that relies on the exemptions contained in §§ 248.3(d)(3), and 248.4 through 248.6, which must take into account potential or actual exposure to:

A. Assets whose values cannot be externally priced or, where valuation is reliant on pricing models, whose model inputs cannot be externally validated;

B. Assets whose changes in value cannot be adequately mitigated by effective hedging;

C. New products with rapid growth, including those that do not have a market history;

D. Assets or strategies that include significant embedded leverage;

E. Assets or strategies that have demonstrated significant historical volatility;

F. Assets or strategies for which the application of capital and liquidity standards would not adequately account for the risk; and

G. Assets or strategies that result in large and significant concentrations to sectors, risk factors, or counterparties;

iv. Establish responsibility for compliance with the reporting and recordkeeping requirements of subpart B and § 248.20; and

v. Establish policies for monitoring and prohibiting potential or actual material conflicts of interest between the banking entity and its clients, customers, or counterparties.

7. *Remediation of violations.* The banking entity's compliance program must be reasonably designed and established to effectively monitor and identify for further analysis any trading activity that may indicate potential violations of section 13 of the BHC Act and this part and to prevent actual violations of section 13 of the BHC Act and this part. The compliance program must describe procedures for identifying and remedying violations of section 13 of the BHC Act and this part, and must include, at a minimum, a requirement to promptly document, address and remedy any violation of section 13 of the BHC Act or this part, and document all proposed and actual remediation efforts. The compliance program must include specific written policies and procedures that are reasonably designed to assess the extent to which any activity indicates that modification to the banking entity's compliance program is warranted and to ensure that appropriate modifications are implemented. The written policies and procedures must provide for prompt notification to appropriate management, including senior management and the board of directors, of any material weakness or significant deficiencies in the design or implementation of the compliance program of the banking entity.

b. *Covered Fund Activities or Investments.* A banking entity must establish, maintain and enforce a compliance program that includes written policies and procedures that are appropriate for the types, size, complexity and risks of the covered fund and related activities conducted and investments made, by the banking entity.

1. *Identification of covered funds.* The banking entity's compliance program must provide a process, which must include appropriate management review and independent testing, for identifying and documenting covered funds that each unit within the banking entity's organization sponsors or organizes and offers, and covered funds in which each such unit invests. In addition to the documentation requirements for covered funds, as specified under § 248.20(e), the documentation must include information that identifies all pools that the banking entity sponsors or has an interest in and the type of exemption from the Commodity Exchange Act (whether or not the pool relies on section 4.7 of the regulations under the Commodity Exchange Act), and the amount of ownership interest the banking entity has in those pools.

2. *Identification of covered fund activities and investments.* The banking entity's compliance program must identify, document and map each unit within the organization that is permitted to acquire or hold an interest in any covered fund or sponsor any covered fund and map each unit to the division, business line, or other organizational structure that will be

responsible for managing and overseeing that unit's activities and investments.

3. *Explanation of compliance.* The banking entity's compliance program must explain how:

i. The banking entity monitors for and prohibits potential or actual material conflicts of interest between the banking entity and its clients, customers, or counterparties related to its covered fund activities and investments;

ii. The banking entity monitors for and prohibits potential or actual transactions or activities that may threaten the safety and soundness of the banking entity related to its covered fund activities and investments; and

iii. The banking entity monitors for and prohibits potential or actual material exposure to high-risk assets or high-risk trading strategies presented by its covered fund activities and investments, taking into account potential or actual exposure to:

A. Assets whose values cannot be externally priced or, where valuation is reliant on pricing models, whose model inputs cannot be externally validated;

B. Assets whose changes in values cannot be adequately mitigated by effective hedging;

C. New products with rapid growth, including those that do not have a market history;

D. Assets or strategies that include significant embedded leverage;

E. Assets or strategies that have demonstrated significant historical volatility;

F. Assets or strategies for which the application of capital and liquidity standards would not adequately account for the risk; and

G. Assets or strategies that expose the banking entity to large and significant concentrations with respect to sectors, risk factors, or counterparties;

4. *Description and documentation of covered fund activities and investments.* For each organizational unit engaged in covered fund activities and investments, the banking entity's compliance program must document:

i. The covered fund activities and investments that the unit is authorized to conduct;

ii. The banking entity's plan for actively seeking unaffiliated investors to ensure that any investment by the banking entity conforms to the limits contained in § 248.12 or registered in compliance with the securities laws and thereby exempt from those limits within the time periods allotted in§ 248.12; and

iii. How it complies with the requirements of subpart C.

5. *Internal Controls.* A banking entity must establish, maintain, and enforce internal controls that are reasonably designed to ensure that its covered fund activities or investments comply with the requirements of section 13 of the BHC Act and this part and are appropriate given the limits on risk established by the banking entity. These written internal controls must be reasonably designed and established to effectively monitor and identify for further analysis any covered fund activity or investment that may indicate potential violations of section 13 of the BHC Act or this part. The internal controls must, at a minimum require:

i. Monitoring and limiting the banking entity's individual and aggregate investments in covered funds;

ii. Monitoring the amount and timing of seed capital investments for compliance with the limitations under subpart C (including but not limited to the redemption, sale or disposition requirements) of § 248.12, and the effectiveness of efforts to seek unaffiliated investors to ensure compliance with those limits;

iii. Calculating the individual and aggregate levels of ownership interests in one or more covered fund required by § 248.12;

iv. Attributing the appropriate instruments to the individual and aggregate ownership interest calculations above;

v. Making disclosures to prospective and actual investors in any covered fund organized and offered or sponsored by the banking entity, as provided under § 248.11(a)(8);

vi. Monitoring for and preventing any relationship or transaction between the banking entity and a covered fund that is prohibited under § 248.14, including where the banking entity has been designated as the sponsor, investment manager, investment adviser, or commodity trading advisor to a covered fund by another banking entity; and

vii. Appropriate management review and supervision across legal entities of the banking entity to ensure that services and products provided by all affiliated entities comply with the limitation on services and products contained in § 248.14.

6. *Remediation of violations.* The banking entity's compliance program must be reasonably designed and established to effectively monitor and identify for further analysis any covered fund activity or investment that may indicate potential violations of section 13 of the BHC Act or this part and to prevent actual violations of section 13 of the BHC Act and this part. The banking entity's compliance program must describe procedures for identifying and remedying violations of section 13 of the BHC Act and this part, and must include, at a minimum, a requirement to promptly document, address and remedy any violation of section 13 of the BHC Act or this part, including § 248.21, and document all proposed and actual remediation efforts. The compliance program must include specific written policies and procedures that are reasonably designed to assess the extent to which any activity or investment indicates that modification to the banking entity's compliance program is warranted and to ensure that appropriate modifications are implemented. The written policies and procedures must provide for prompt notification to appropriate management, including senior management and the board of directors, of any material weakness or significant deficiencies in the design or implementation of the compliance program of the banking entity.

III. Responsibility and Accountability for the Compliance Program

a. A banking entity must establish, maintain, and enforce a governance and management framework to manage its business and employees with a view to preventing violations of section 13 of the BHC Act and this part. A banking entity must have an appropriate management framework reasonably designed to ensure that: Appropriate personnel are responsible and accountable for the effective implementation and enforcement of the compliance program; a clear reporting line with a chain of responsibility is delineated; and the compliance program is reviewed periodically by senior management. The board of directors (or equivalent governance body) and senior management should have the appropriate authority and access to personnel and information within the organizations as well as appropriate resources to conduct their oversight activities effectively.

1. *Corporate governance.* The banking entity must adopt a written compliance program approved by the board of directors, an appropriate committee of the board, or equivalent governance body, and senior management.

2. *Management procedures.* The banking entity must establish, maintain, and enforce a governance framework that is reasonably designed to achieve compliance with section 13 of the BHC Act and this part, which, at a minimum, provides for:

i. The designation of appropriate senior management or committee of senior management with authority to carry out the management responsibilities of the banking entity for each trading desk and for each organizational unit engaged in covered fund activities;

ii. Written procedures addressing the management of the activities of the banking entity that are reasonably designed to achieve compliance with section 13 of the BHC Act and this part, including:

A. A description of the management system, including the titles, qualifications, and locations of managers and the specific responsibilities of each person with respect to the banking entity's activities governed by section 13 of the BHC Act and this part; and

B. Procedures for determining compensation arrangements for traders engaged in underwriting or market making-related activities under § 248.4 or risk-mitigating hedging activities under § 248.5 so that such compensation arrangements are designed not to reward or incentivize prohibited proprietary trading and appropriately balance risk and financial results in a manner that does not encourage employees to expose the banking entity to excessive or imprudent risk.

3. *Business line managers.* Managers with responsibility for one or more trading desks of the banking entity are accountable for the effective implementation and enforcement of the compliance program with respect to the applicable trading desk(s).

4. *The Board of directors, or similar corporate body, and senior management.* The board of directors, or similar corporate body, and senior management are responsible for setting and communicating an appropriate culture of compliance with section 13 of the BHC Act and this part and ensuring that appropriate policies regarding the management of trading activities and covered fund activities or investments are adopted to comply with section 13 of the BHC Act and

this part. The board of directors or similar corporate body (such as a designated committee of the board or an equivalent governance body) must ensure that senior management is fully capable, qualified, and properly motivated to manage compliance with this part in light of the organization's business activities and the expectations of the board of directors. The board of directors or similar corporate body must also ensure that senior management has established appropriate incentives and adequate resources to support compliance with this part, including the implementation of a compliance program meeting the requirements of this appendix into management goals and compensation structures across the banking entity.

5. *Senior management.* Senior management is responsible for implementing and enforcing the approved compliance program. Senior management must also ensure that effective corrective action is taken when failures in compliance with section 13 of the BHC Act and this part are identified. Senior management and control personnel charged with overseeing compliance with section 13 of the BHC Act and this part should review the compliance program for the banking entity periodically and report to the board, or an appropriate committee thereof, on the effectiveness of the compliance program and compliance matters with a frequency appropriate to the size, scope, and risk profile of the banking entity's trading activities and covered fund activities or investments, which shall be at least annually.

6. *CEO attestation.* Based on a review by the CEO of the banking entity, the CEO of the banking entity must, annually, attest in writing to the Board that the banking entity has in place processes to establish, maintain, enforce, review, test and modify the compliance program established under this Appendix and § 248.20 of this part in a manner reasonably designed to achieve compliance with section 13 of the BHC Act and this part. In the case of a U.S. branch or agency of a foreign banking entity, the attestation may be provided for the entire U.S. operations of the foreign banking entity by the senior management officer of the United States operations of the foreign banking entity who is located in the United States.

IV. Independent Testing

a. Independent testing must occur with a frequency appropriate to the size, scope, and risk profile of the banking entity's trading and covered fund activities or investments, which shall be at least annually. This independent testing must include an evaluation of:

1. The overall adequacy and effectiveness of the banking entity's compliance program, including an analysis of the extent to which the program contains all the required elements of this appendix;

2. The effectiveness of the banking entity's internal controls, including an analysis and documentation of instances in which such internal controls have been breached, and how such breaches were addressed and resolved; and

3. The effectiveness of the banking entity's management procedures.

b. A banking entity must ensure that independent testing regarding the effectiveness of the banking entity's compliance program is conducted by a qualified independent party, such as the banking entity's internal audit department, compliance personnel or risk managers independent of the organizational unit being tested, outside auditors, consultants, or other qualified independent parties. A banking entity must promptly take appropriate action to remedy any significant deficiencies or material weaknesses in its compliance program and to terminate any violations of section 13 of the BHC Act or this part.

V. Training

Banking entities must provide adequate training to personnel and managers of the banking entity engaged in activities or investments governed by section 13 of the BHC Act or this part, as well as other appropriate supervisory, risk, independent testing, and audit personnel, in order to effectively implement and enforce the compliance program. This training should occur with a frequency appropriate to the size and the risk profile of the banking entity's trading activities and covered fund activities or investments.

VI. Recordkeeping

Banking entities must create and retain records sufficient to demonstrate compliance and support the operations and effectiveness of the compliance program. A banking entity must retain these records for a period that is no less than 5 years or such longer period as required by the Board in a form that allows it to promptly produce such records to the Board on request.

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Chapter I

Authority and Issuance

For the reasons stated in the Common Preamble, the Federal Deposit Insurance Corporation amends chapter III of Title 12, Code of Federal Regulations as follows:

PART 351—PROPRIETARY TRADING AND CERTAIN INTERESTS IN AND RELATIONSHIPS WITH COVERED FUNDS

■ 31. The authority citation for part 351 continues to read as follows:

Authority: 12 U.S.C. 1851; 1811 *et seq.;* 3101 *et seq.;* and 5412.

Subpart A—Authority and Definitions

■ 32. Section 351.2 is revised to read as follows:

§ 351.2 Definitions.

Unless otherwise specified, for purposes of this part:

(a) *Affiliate* has the same meaning as in section 2(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(k)).

(b) *Bank holding company* has the same meaning as in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(c) *Banking entity.* (1) Except as provided in paragraph (c)(2) of this section, *banking entity* means:

(i) Any insured depository institution;

(ii) Any company that controls an insured depository institution;

(iii) Any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(iv) Any affiliate or subsidiary of any entity described in paragraph (c)(1)(i), (ii), or (iii) of this section.

(2) Banking entity does not include:

(vii) A covered fund that is not itself a banking entity under paragraph (c)(1)(i), (ii), or (iii) of this section;

(viii) A portfolio company held under the authority contained in section 4(k)(4)(H) or (I) of the BHC Act (12 U.S.C. 1843(k)(4)(H), (I)), or any portfolio concern, as defined under 13 CFR 107.50, that is controlled by a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), so long as the portfolio company or portfolio concern is not itself a banking entity under paragraph (c)(1)(i), (ii), or (iii) of this section; or

(ix) The FDIC acting in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(d) *Board* means the Board of Governors of the Federal Reserve System.

(e) *CFTC* means the Commodity Futures Trading Commission.

(f) *Dealer* has the same meaning as in section 3(a)(5) of the Exchange Act (15 U.S.C. 78c(a)(5)).

(g) *Depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)).

(h) *Derivative.* (1) Except as provided in paragraph (h)(2) of this section, *derivative* means:

(i) Any swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68));

(ii) Any purchase or sale of a commodity, that is not an excluded commodity, for deferred shipment or delivery that is intended to be physically settled;

(iii) Any foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)) or foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25));

(iv) Any agreement, contract, or transaction in foreign currency described in section 2(c)(2)(C)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(C)(i));

(v) Any agreement, contract, or transaction in a commodity other than foreign currency described in section 2(c)(2)(D)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(D)(i)); and

(vi) Any transaction authorized under section 19 of the Commodity Exchange Act (7 U.S.C. 23(a) or (b));

(2) A derivative does not include:

(i) Any consumer, commercial, or other agreement, contract, or transaction that the CFTC and SEC have further defined by joint regulation, interpretation, or other action as not within the definition of swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68)); or

(ii) Any identified banking product, as defined in section 402(b) of the Legal Certainty for Bank Products Act of 2000 (7 U.S.C. 27(b)), that is subject to section 403(a) of that Act (7 U.S.C. 27a(a)).

(i) *Employee* includes a member of the immediate family of the employee.

(j) *Exchange Act* means the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

(k) *Excluded commodity* has the same meaning as in section 1a(19) of the Commodity Exchange Act (7 U.S.C. 1a(19)).

(l) *FDIC* means the Federal Deposit Insurance Corporation.

(m) *Federal banking agencies* means the Board, the Office of the Comptroller of the Currency, and the FDIC.

(n) *Foreign banking organization* has the same meaning as in § 211.21(o) of the Board's Regulation K (12 CFR 211.21(o)), but does not include a foreign bank, as defined in section 1(b)(7) of the International Banking Act of 1978 (12 U.S.C. 3101(7)), that is organized under the laws of the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands.

(o) *Foreign insurance regulator* means the insurance commissioner, or a similar official or agency, of any country other than the United States that is engaged in the supervision of insurance companies under foreign insurance law.

(p) *General account* means all of the assets of an insurance company except those allocated to one or more separate accounts.

(q) *Insurance company* means a company that is organized as an insurance company, primarily and predominantly engaged in writing insurance or reinsuring risks underwritten by insurance companies, subject to supervision as such by a state insurance regulator or a foreign insurance regulator, and not operated for the purpose of evading the provisions of section 13 of the BHC Act (12 U.S.C. 1851).

(r) *Insured depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)), but does not include:

(1) An insured depository institution that is described in section 2(c)(2)(D) of the BHC Act (12 U.S.C. 1841(c)(2)(D)); or

(2) An insured depository institution if it has, and if every company that controls it has, total consolidated assets of $10 billion or less and total trading assets and trading liabilities, on a consolidated basis, that are 5 percent or less of total consolidated assets.

(s) *Limited trading assets and liabilities* means with respect to a banking entity that:

(1)(i) The banking entity has, together with its affiliates and subsidiaries, trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 351.6(a)(1) and (2) of subpart B) the average gross sum of which over the previous consecutive four quarters, as measured as of the last day of each of the four previous calendar quarters, is less than $1 billion; and

(ii) The FDIC has not determined pursuant to § 351.20(g) or (h) of this part that the banking entity should not be treated as having limited trading assets and liabilities.

(2) With respect to a banking entity other than a banking entity described in paragraph (s)(3) of this section, trading assets and liabilities for purposes of this paragraph (s) means trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 351.6(a)(1) and (2) of subpart B) on a worldwide consolidated basis.

(3)(i) With respect to a banking entity that is a foreign banking organization or a subsidiary of a foreign banking organization, trading assets and liabilities for purposes of this paragraph (s) means the trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 351.6(a)(1) and (2) of subpart B) of the combined U.S. operations of the top-tier foreign banking organization (including all subsidiaries, affiliates, branches, and agencies of the foreign banking organization operating, located, or organized in the United States).

(ii) For purposes of paragraph (s)(3)(i) of this section, a U.S. branch, agency, or subsidiary of a banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary. For purposes of paragraph (s)(3)(i) of this section, all foreign operations of a U.S. agency, branch, or subsidiary of a foreign banking organization are considered to be located in the United States, including branches outside the United States that are managed or controlled by a U.S. branch or agency of the foreign banking organization, for purposes of calculating the banking entity's U.S. trading assets and liabilities.

(t) *Loan* means any loan, lease, extension of credit, or secured or unsecured receivable that is not a security or derivative.

(u) *Moderate trading assets and liabilities* means, with respect to a banking entity, that the banking entity does not have significant trading assets and liabilities or limited trading assets and liabilities.

(v) *Primary financial regulatory agency* has the same meaning as in section 2(12) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301(12)).

(w) *Purchase* includes any contract to buy, purchase, or otherwise acquire. For security futures products, purchase includes any contract, agreement, or transaction for future delivery. With respect to a commodity future, purchase includes any contract, agreement, or transaction for future delivery. With respect to a derivative, purchase includes the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(x) *Qualifying foreign banking organization* means a foreign banking organization that qualifies as such under § 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c), or (e)).

(y) *SEC* means the Securities and Exchange Commission.

(z) *Sale* and *sell* each include any contract to sell or otherwise dispose of. For security futures products, such terms include any contract, agreement, or transaction for future delivery. With respect to a commodity future, such terms include any contract, agreement, or transaction for future delivery. With respect to a derivative, such terms include the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(aa) *Security* has the meaning specified in section 3(a)(10) of the Exchange Act (15 U.S.C. 78c(a)(10)).

(bb) *Security-based swap dealer* has the same meaning as in section 3(a)(71) of the Exchange Act (15 U.S.C. 78c(a)(71)).

(cc) *Security future* has the meaning specified in section 3(a)(55) of the Exchange Act (15 U.S.C. 78c(a)(55)).

(dd) *Separate account* means an account established and maintained by an insurance company in connection with one or more insurance contracts to hold assets that are legally segregated from the insurance company's other assets, under which income, gains, and losses, whether or not realized, from assets allocated to such account, are, in accordance with the applicable contract, credited to or charged against such account without regard to other income, gains, or losses of the insurance company.

(ee) *Significant trading assets and liabilities* means with respect to a banking entity that:

(1)(i) The banking entity has, together with its affiliates and subsidiaries, trading assets and liabilities the average gross sum of which over the previous consecutive four quarters, as measured as of the last day of each of the four previous calendar quarters, equals or exceeds $20 billion; or

(ii) The FDIC has determined pursuant to § 351.20(h) of this part that the banking entity should be treated as having significant trading assets and liabilities.

(2) With respect to a banking entity, other than a banking entity described in paragraph (ee)(3) of this section, trading assets and liabilities for purposes of this paragraph (ee) means trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 351.6(a)(1) and (2) of subpart B) on a worldwide consolidated basis.

(3)(i) With respect to a banking entity that is a foreign banking organization or a subsidiary of a foreign banking organization, trading assets and liabilities for purposes of this paragraph (ee) means the trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 351.6(a)(1) and (2) of subpart B) of the combined U.S. operations of the top-tier foreign banking organization (including all subsidiaries, affiliates, branches, and agencies of the foreign banking organization operating, located, or organized in the United States as well as branches outside the United States that are managed or controlled by a branch or agency of the foreign banking entity operating, located or organized in the United States).

(ii) For purposes of paragraph (ee)(3)(i) of this section, a U.S. branch, agency, or subsidiary of a banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary. For purposes of paragraph (ee)(3)(i) of this section, all foreign operations of a U.S. agency, branch, or subsidiary of a foreign banking organization are considered to be located in the United States for purposes of calculating the banking entity's U.S. trading assets and liabilities.

(ff) *State* means any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(gg) *Subsidiary* has the same meaning as in section 2(d) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(d)).

(hh) *State insurance regulator* means the insurance commissioner, or a similar official or agency, of a State that is engaged in the supervision of insurance companies under State insurance law.

(ii) *Swap dealer* has the same meaning as in section 1(a)(49) of the Commodity Exchange Act (7 U.S.C. 1a(49)).

Subpart B—Proprietary Trading

■ 33. Section 351.3 is amended by:

■ a. Revising paragraphs (b) and (d)(3), (8), and (9);

■ b. Adding paragraphs (d)(10) through (13);

■ c. Redesignating paragraphs (e)(5) through (13) as paragraphs (e)(6) through (14);

■ d. Adding new paragraph (e)(5); and

■ e. Revising redesignated paragraphs (e)(11), (12), and (14).

The revisions and additions read as follows:

§ 351.3 Prohibition on proprietary trading.

* * * * *

(b) *Definition of trading account.* (1) *Trading account.* Trading account means:

(i) Any account that is used by a banking entity to purchase or sell one or more financial instruments principally for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging one or more of the positions resulting from the purchases or sales of financial instruments described in this paragraph;

(ii) Any account that is used by a banking entity to purchase or sell one or more financial instruments that are both market risk capital rule covered positions and trading positions (or hedges of other market risk capital rule covered positions), if the banking entity, or any affiliate with which the banking entity is consolidated for regulatory reporting purposes, calculates risk-based capital ratios under the market risk capital rule; or

(iii) Any account that is used by a banking entity to purchase or sell one or more financial instruments, if the banking entity:

(A) Is licensed or registered, or is required to be licensed or registered, to engage in the business of a dealer, swap dealer, or security-based swap dealer, to the extent the instrument is purchased or sold in connection with the activities that require the banking entity to be licensed or registered as such; or

(B) Is engaged in the business of a dealer, swap dealer, or security-based swap dealer outside of the United States, to the extent the instrument is purchased or sold in connection with the activities of such business.

(2) *Trading account application for certain banking entities.* (i) A banking entity that is subject to paragraph (b)(1)(ii) of this section in determining the scope of its trading account is not subject to paragraph (b)(1)(i) of this section.

(ii) A banking entity that does not calculate risk-based capital ratios under the market risk capital rule and is not a consolidated affiliate for regulatory reporting purposes of a banking entity that calculates risk based capital ratios under the market risk capital rule may elect to apply paragraph (b)(1)(ii) of this section in determining the scope of its trading account as if it were subject to that paragraph. A banking entity that elects under this subsection to apply paragraph (b)(1)(ii) of this section in determining the scope of its trading account as if it were subject to that paragraph is not required to apply paragraph (b)(1)(i) of this section.

(3) *Consistency of account election for certain banking entities.* (i) Any election

or change to an election under paragraph (b)(2)(ii) of this section must apply to the electing banking entity and all of its wholly owned subsidiaries. The primary financial regulatory agency of a banking entity that is affiliated with but is not a wholly owned subsidiary of such electing banking entity may require that the banking entity be subject to this uniform application requirement if the primary financial regulatory agency determines that it is necessary to prevent evasion of the requirements of this part after notice and opportunity for response as provided in subpart D of this part.

(ii) A banking entity that does not elect under paragraph (b)(2)(ii) of this section to be subject to the trading account definition in (b)(1)(ii) of this section may continue to apply the trading account definition in paragraph (b)(1)(i) of this section for one year from the date on which it becomes, or becomes a consolidated affiliate for regulatory reporting purposes with, a banking entity that calculates risk-based capital ratios under the market risk capital rule.

(4) *Rebuttable presumption for certain purchases and sales.* The purchase (or sale) of a financial instrument by a banking entity shall be presumed not to be for the trading account of the banking entity under paragraph (b)(1)(i) of this section if the banking entity holds the financial instrument for sixty days or longer and does not transfer substantially all of the risk of the financial instrument within sixty days of the purchase (or sale).

* * * * *

(d) * * *

(3) Any purchase or sale of a security, foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)), foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25)), or cross-currency swap by a banking entity for the purpose of liquidity management in accordance with a documented liquidity management plan of the banking entity that:

(i) Specifically contemplates and authorizes the particular financial instruments to be used for liquidity management purposes, the amount, types, and risks of these financial instruments that are consistent with liquidity management, and the liquidity circumstances in which the particular financial instruments may or must be used;

(ii) Requires that any purchase or sale of financial instruments contemplated and authorized by the plan be principally for the purpose of managing the liquidity of the banking entity, and not for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging a position taken for such short-term purposes;

(iii) Requires that any financial instruments purchased or sold for liquidity management purposes be highly liquid and limited to financial instruments the market, credit, and other risks of which the banking entity does not reasonably expect to give rise to appreciable profits or losses as a result of short-term price movements;

(iv) Limits any financial instruments purchased or sold for liquidity management purposes, together with any other financial instruments purchased or sold for such purposes, to an amount that is consistent with the banking entity's near-term funding needs, including deviations from normal operations of the banking entity or any affiliate thereof, as estimated and documented pursuant to methods specified in the plan;

(v) Includes written policies and procedures, internal controls, analysis, and independent testing to ensure that the purchase and sale of financial instruments that are not permitted under § 351.6(a) or (b) of this subpart are for the purpose of liquidity management and in accordance with the liquidity management plan described in this paragraph (d)(3); and

(vi) Is consistent with the FDIC's regulatory requirements regarding liquidity management;

* * * * *

(8) Any purchase or sale of one or more financial instruments by a banking entity through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity that is established and administered in accordance with the law of the United States or a foreign sovereign, if the purchase or sale is made directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity;

(9) Any purchase or sale of one or more financial instruments by a banking entity in the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the financial instrument as soon as practicable, and in no event may the banking entity retain such instrument for longer than such period permitted by the FDIC;

(10) Any purchase or sale of one or more financial instruments that was made in error by a banking entity in the course of conducting a permitted or excluded activity or is a subsequent transaction to correct such an error;

(11) Contemporaneously entering into a customer-driven swap or customer-driven security-based swap and a matched swap or security-based swap if:

(i) The banking entity retains no more than minimal price risk; and

(ii) The banking entity is not a registered dealer, swap dealer, or security-based swap dealer;

(12) Any purchase or sale of one or more financial instruments that the banking entity uses to hedge mortgage servicing rights or mortgage servicing assets in accordance with a documented hedging strategy; or

(13) Any purchase or sale of a financial instrument that does not meet the definition of trading asset or trading liability under the applicable reporting form for a banking entity as of January 1, 2020.

(e) * * *

(5) *Cross-currency swap* means a swap in which one party exchanges with another party principal and interest rate payments in one currency for principal and interest rate payments in another currency, and the exchange of principal occurs on the date the swap is entered into, with a reversal of the exchange of principal at a later date that is agreed upon when the swap is entered into.

* * * * *

(11) *Market risk capital rule covered position and trading position* means a financial instrument that meets the criteria to be a covered position and a trading position, as those terms are respectively defined, without regard to whether the financial instrument is reported as a covered position or trading position on any applicable regulatory reporting forms:

(i) In the case of a banking entity that is a bank holding company, savings and loan holding company, or insured depository institution, under the market risk capital rule that is applicable to the banking entity; and

(ii) In the case of a banking entity that is affiliated with a bank holding company or savings and loan holding company, other than a banking entity to which a market risk capital rule is applicable, under the market risk capital rule that is applicable to the affiliated bank holding company or savings and loan holding company.

(12) *Market risk capital rule* means the market risk capital rule that is contained in 12 CFR part 3, subpart F, with respect to a banking entity for which the OCC is the primary financial regulatory agency, 12 CFR part 217 with

respect to a banking entity for which the Board is the primary financial regulatory agency, or 12 CFR part 324 with respect to a banking entity for which the FDIC is the primary financial regulatory agency.

* * * * *

(14) *Trading desk* means a unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof that is:

(i)(A) Structured by the banking entity to implement a well-defined business strategy;

(B) Organized to ensure appropriate setting, monitoring, and management review of the desk's trading and hedging limits, current and potential future loss exposures, and strategies; and

(C) Characterized by a clearly defined unit that:

(*1*) Engages in coordinated trading activity with a unified approach to its key elements;

(*2*) Operates subject to a common and calibrated set of risk metrics, risk levels, and joint trading limits;

(*3*) Submits compliance reports and other information as a unit for monitoring by management; and

(*4*) Books its trades together; or

(ii) For a banking entity that calculates risk-based capital ratios under the market risk capital rule, or a consolidated affiliate for regulatory reporting purposes of a banking entity that calculates risk-based capital ratios under the market risk capital rule, established by the banking entity or its affiliate for purposes of market risk capital calculations under the market risk capital rule.

■ 34. Section 351.4 is revised to read as follows:

§ 351.4 Permitted underwriting and market making-related activities.

(a) *Underwriting activities*—(1) *Permitted underwriting activities.* The prohibition contained in § 351.3(a) does not apply to a banking entity's underwriting activities conducted in accordance with this paragraph (a).

(2) *Requirements.* The underwriting activities of a banking entity are permitted under paragraph (a)(1) of this section only if:

(i) The banking entity is acting as an underwriter for a distribution of securities and the trading desk's underwriting position is related to such distribution;

(ii)(A) The amount and type of the securities in the trading desk's underwriting position are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, taking into account the liquidity, maturity, and depth of the market for the relevant types of securities; and

(B) Reasonable efforts are made to sell or otherwise reduce the underwriting position within a reasonable period, taking into account the liquidity, maturity, and depth of the market for the relevant types of securities;

(iii) In the case of a banking entity with significant trading assets and liabilities, the banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this paragraph (a), including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The products, instruments or exposures each trading desk may purchase, sell, or manage as part of its underwriting activities;

(B) Limits for each trading desk, in accordance with paragraph (a)(2)(ii)(A) of this section;

(C) Written authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval; and

(D) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits.

(iv) A banking entity with significant trading assets and liabilities may satisfy the requirements in paragraphs (a)(2)(iii)(B) and (C) of this section by complying with the requirements set forth in paragraph (c) of this section;

(v) The compensation arrangements of persons performing the activities described in this paragraph (a) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in the activity described in this paragraph (a) in accordance with applicable law.

(3) *Definition of distribution.* For purposes of this paragraph (a), a *distribution* of securities means:

(i) An offering of securities, whether or not subject to registration under the Securities Act of 1933, that is distinguished from ordinary trading transactions by the presence of special selling efforts and selling methods; or

(ii) An offering of securities made pursuant to an effective registration statement under the Securities Act of 1933.

(4) *Definition of underwriter.* For purposes of this paragraph (a), *underwriter* means:

(i) A person who has agreed with an issuer or selling security holder to:

(A) Purchase securities from the issuer or selling security holder for distribution;

(B) Engage in a distribution of securities for or on behalf of the issuer or selling security holder; or

(C) Manage a distribution of securities for or on behalf of the issuer or selling security holder; or

(ii) A person who has agreed to participate or is participating in a distribution of such securities for or on behalf of the issuer or selling security holder.

(5) *Definition of selling security holder.* For purposes of this paragraph (a), *selling security holder* means any person, other than an issuer, on whose behalf a distribution is made.

(6) *Definition of underwriting position.* For purposes of this section, *underwriting position* means the long or short positions in one or more securities held by a banking entity or its affiliate, and managed by a particular trading desk, in connection with a particular distribution of securities for which such banking entity or affiliate is acting as an underwriter.

(7) *Definition of client, customer, and counterparty.* For purposes of this paragraph (a), the terms *client, customer, and counterparty,* on a collective or individual basis, refer to market participants that may transact with the banking entity in connection with a particular distribution for which the banking entity is acting as underwriter.

(b) *Market making-related activities*—(1) *Permitted market making-related activities.* The prohibition contained in § 351.3(a) does not apply to a banking entity's market making-related activities conducted in accordance with this paragraph (b).

(2) *Requirements.* The market making-related activities of a banking entity are permitted under paragraph (b)(1) of this section only if:

(i) The trading desk that establishes and manages the financial exposure, routinely stands ready to purchase and sell one or more types of financial instruments related to its financial exposure, and is willing and available to quote, purchase and sell, or otherwise enter into long and short positions in those types of financial instruments for its own account, in commercially reasonable amounts and throughout market cycles on a basis appropriate for the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(ii) The trading desk's market-making related activities are designed not to exceed, on an ongoing basis, the reasonably expected near term demands of clients, customers, or counterparties, taking into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(iii) In the case of a banking entity with significant trading assets and liabilities, the banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (b) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The financial instruments each trading desk stands ready to purchase and sell in accordance with paragraph (b)(2)(i) of this section;

(B) The actions the trading desk will take to demonstrably reduce or otherwise significantly mitigate promptly the risks of its financial exposure consistent with the limits required under paragraph (b)(2)(iii)(C) of this section; the products, instruments, and exposures each trading desk may use for risk management purposes; the techniques and strategies each trading desk may use to manage the risks of its market making-related activities and positions; and the process, strategies, and personnel responsible for ensuring that the actions taken by the trading desk to mitigate these risks are and continue to be effective;

(C) Limits for each trading desk, in accordance with paragraph (b)(2)(ii) of this section;

(D) Written authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval; and

(E) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(iv) A banking entity with significant trading assets and liabilities may satisfy the requirements in paragraphs (b)(2)(iii)(C) and (D) of this section by complying with the requirements set forth in paragraph (c) of this section;

(v) The compensation arrangements of persons performing the activities described in this paragraph (b) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in activity described in this paragraph (b) in accordance with applicable law.

(3) *Definition of client, customer, and counterparty.* For purposes of paragraph (b) of this section, the terms *client, customer, and counterparty,* on a collective or individual basis refer to market participants that make use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services, provided that:

(i) A trading desk or other organizational unit of another banking entity is not a client, customer, or counterparty of the trading desk if that other entity has trading assets and liabilities of $50 billion or more as measured in accordance with the methodology described in § 351.2(ee) of this part, unless:

(A) The trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk for purposes of paragraph (b)(2) of this section; or

(B) The purchase or sale by the trading desk is conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants.

(ii) [Reserved]

(4) *Definition of financial exposure.* For purposes of this section, *financial exposure* means the aggregate risks of one or more financial instruments and any associated loans, commodities, or foreign exchange or currency, held by a banking entity or its affiliate and managed by a particular trading desk as part of the trading desk's market making-related activities.

(5) *Definition of market-maker positions.* For the purposes of this section, *market-maker positions* means all of the positions in the financial instruments for which the trading desk stands ready to make a market in accordance with paragraph (b)(2)(i) of this section, that are managed by the trading desk, including the trading desk's open positions or exposures arising from open transactions.

(c) *Rebuttable presumption of compliance*—(1) *Internal limits.* (i) A banking entity shall be presumed to meet the requirement in paragraph (a)(2)(ii)(A) or (b)(2)(ii) of this section with respect to the purchase or sale of a financial instrument if the banking entity has established and implements, maintains, and enforces the internal limits for the relevant trading desk as described in paragraph (c)(1)(ii) of this section.

(ii)(A) With respect to underwriting activities conducted pursuant to paragraph (a) of this section, the presumption described in paragraph (c)(1)(i) of this section shall be available to each trading desk that establishes, implements, maintains, and enforces internal limits that should take into account the liquidity, maturity, and depth of the market for the relevant types of securities and are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, based on the nature and amount of the trading desk's underwriting activities, on the:

(*1*) Amount, types, and risk of its underwriting position;

(*2*) Level of exposures to relevant risk factors arising from its underwriting position; and

(*3*) Period of time a security may be held.

(B) With respect to market making-related activities conducted pursuant to paragraph (b) of this section, the presumption described in paragraph (c)(1)(i) of this section shall be available to each trading desk that establishes, implements, maintains, and enforces internal limits that should take into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments and are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, based on the nature and amount of the trading desk's market-making related activities, that address the:

(*1*) Amount, types, and risks of its market-maker positions;

(*2*) Amount, types, and risks of the products, instruments, and exposures the trading desk may use for risk management purposes;

(*3*) Level of exposures to relevant risk factors arising from its financial exposure; and

(*4*) Period of time a financial instrument may be held.

(2) *Supervisory review and oversight.* The limits described in paragraph (c)(1) of this section shall be subject to supervisory review and oversight by the FDIC on an ongoing basis.

(3) *Limit Breaches and Increases.* (i) With respect to any limit set pursuant to paragraph (c)(1)(ii)(A) or (B) of this section, a banking entity shall maintain and make available to the FDIC upon request records regarding:

(A) Any limit that is exceeded; and

(B) Any temporary or permanent increase to any limit(s), in each case in the form and manner as directed by the FDIC.

(ii) In the event of a breach or increase of any limit set pursuant to paragraph (c)(1)(ii)(A) or (B) of this section, the presumption described in paragraph (c)(1)(i) of this section shall continue to be available only if the banking entity:

(A) Takes action as promptly as possible after a breach to bring the trading desk into compliance; and

(B) Follows established written authorization procedures, including escalation procedures that require review and approval of any trade that exceeds a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval.

(4) *Rebutting the presumption.* The presumption in paragraph (c)(1)(i) of this section may be rebutted by the FDIC if the FDIC determines, taking into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments and based on all relevant facts and circumstances, that a trading desk is engaging in activity that is not based on the reasonably expected near term demands of clients, customers, or counterparties. The FDIC's rebuttal of the presumption in paragraph (c)(1)(i) must be made in accordance with the notice and response procedures in subpart D of this part.

■ 35. Section 351.5 is amended by revising paragraphs (b) and (c)(1) and adding paragraph (c)(4) to read as follows:

§ 351.5 Permitted risk-mitigating hedging activities.

* * * * *

(b) * * *

(1) The risk-mitigating hedging activities of a banking entity that has significant trading assets and liabilities are permitted under paragraph (a) of this section only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures regarding the positions, techniques and strategies that may be used for hedging, including documentation indicating what positions, contracts or other holdings a particular trading desk may use in its risk-mitigating hedging activities, as well as position and aging limits with respect to such positions, contracts or other holdings;

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(C) The conduct of analysis and independent testing designed to ensure that the positions, techniques and strategies that may be used for hedging may reasonably be expected to reduce or otherwise significantly mitigate the specific, identifiable risk(s) being hedged;

(ii) The risk-mitigating hedging activity:

(A) Is conducted in accordance with the written policies, procedures, and internal controls required under this section;

(B) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section;

(D) Is subject to continuing review, monitoring and management by the banking entity that:

(*1*) Is consistent with the written hedging policies and procedures required under paragraph (b)(1)(i) of this section;

(*2*) Is designed to reduce or otherwise significantly mitigate the specific, identifiable risks that develop over time from the risk-mitigating hedging activities undertaken under this section and the underlying positions, contracts, and other holdings of the banking entity, based upon the facts and circumstances of the underlying and hedging positions, contracts and other holdings of the banking entity and the risks and liquidity thereof; and

(*3*) Requires ongoing recalibration of the hedging activity by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(1)(ii) of this section and is not prohibited proprietary trading; and

(iii) The compensation arrangements of persons performing risk-mitigating hedging activities are designed not to reward or incentivize prohibited proprietary trading.

(2) The risk-mitigating hedging activities of a banking entity that does not have significant trading assets and liabilities are permitted under paragraph (a) of this section only if the risk-mitigating hedging activity:

(i) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof; and

(ii) Is subject, as appropriate, to ongoing recalibration by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(2) of this section and is not prohibited proprietary trading.

(c) * * *

(1) A banking entity that has significant trading assets and liabilities must comply with the requirements of paragraphs (c)(2) and (3) of this section, unless the requirements of paragraph (c)(4) of this section are met, with respect to any purchase or sale of financial instruments made in reliance on this section for risk-mitigating hedging purposes that is:

* * * * *

(4) The requirements of paragraphs (c)(2) and (3) of this section do not apply to the purchase or sale of a financial instrument described in paragraph (c)(1) of this section if:

(i) The financial instrument purchased or sold is identified on a written list of pre-approved financial instruments that are commonly used by the trading desk for the specific type of hedging activity for which the financial instrument is being purchased or sold; and

(ii) At the time the financial instrument is purchased or sold, the hedging activity (including the purchase or sale of the financial instrument) complies with written, pre-approved limits for the trading desk purchasing or selling the financial instrument for hedging activities undertaken for one or more other trading desks. The limits shall be appropriate for the:

(A) Size, types, and risks of the hedging activities commonly undertaken by the trading desk;

(B) Financial instruments purchased and sold for hedging activities by the trading desk; and

(C) Levels and duration of the risk exposures being hedged.

■ 36. Section 351.6 is amended by revising paragraph (e)(3); removing paragraphs (e)(4) and (6); and redesignating paragraph (e)(5) as paragraph (e)(4).

The revisions reads as follows:

§ 351.6 Other permitted proprietary trading activities.

* * * * *

(e) * * *

(3) A purchase or sale by a banking entity is permitted for purposes of this paragraph (e) if:

(i) The banking entity engaging as principal in the purchase or sale (including relevant personnel) is not located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to purchase or sell as principal is not located in the United States or organized under the laws of the United States or of any State; and

(iii) The purchase or sale, including any transaction arising from risk-mitigating hedging related to the instruments purchased or sold, is not accounted for as principal directly or on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

* * * * *

Subpart C—Covered Funds Activities and Investments

■ 37. Section 351.10 is amended by revising paragraphs (c)(7)(ii) and (c)(8)(i)(A) to read as follows:

§ 351.10 Prohibition on Acquiring or Retaining an Ownership Interest in and Having Certain Relationships with a Covered Fund.

* * * * *

(c) * * *

(7) * * *

(ii) Participates in the profits and losses of the separate account other than in compliance with applicable requirements regarding bank owned life insurance.

(8) * * *

(i) * * *

(A) Loans as defined in § 351.2(t) of subpart A;

* * * * *

■ 38. Section 351.11 is amended by revising paragraph (c) to read as follows:

§ 351.11 Permitted organizing and offering, underwriting, and market making with respect to a covered fund.

* * * * *

(c) *Underwriting and market making in ownership interests of a covered fund.* The prohibition contained in § 351.10(a) of this subpart does not apply to a banking entity's underwriting activities or market making-related activities involving a covered fund so long as:

(1) Those activities are conducted in accordance with the requirements of § 351.4(a) or (b) of subpart B, respectively; and

(2) With respect to any banking entity (or any affiliate thereof) that: Acts as a sponsor, investment adviser or commodity trading advisor to a particular covered fund or otherwise acquires and retains an ownership interest in such covered fund in reliance on paragraph (a) of this section; or acquires and retains an ownership interest in such covered fund and is either a securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78*o*–11(a)(3)), or is acquiring and retaining an ownership interest in such covered fund in compliance with section 15G of that Act (15 U.S.C.78*o*–11) and the implementing regulations issued thereunder each as permitted by paragraph (b) of this section, then in each such case any ownership interests acquired or retained by the banking entity and its affiliates in connection with underwriting and market making related activities for that particular covered fund are included in the calculation of ownership interests permitted to be held by the banking entity and its affiliates under the limitations of § 351.12(a)(2)(ii) and (iii) and (d) of this subpart.

§ 351.12 [Amended]

■ 39. Section 351.12 is amended by redesignating the second instance of paragraph (e)(2)(vi) as paragraph (e)(2)(vii).

■ 40. Section 351.13 is amended by revising paragraphs (a), (b)(3) and (4), and (c) to read as follows:

§ 351.13 Other permitted covered fund activities and investments.

(a) *Permitted risk-mitigating hedging activities.* (1) The prohibition contained in § 351.10(a) of this subpart does not apply with respect to an ownership interest in a covered fund acquired or retained by a banking entity that is designed to reduce or otherwise significantly mitigate the specific, identifiable risks to the banking entity in connection with:

(i) A compensation arrangement with an employee of the banking entity or an affiliate thereof that directly provides investment advisory, commodity trading advisory or other services to the covered fund; or

(ii) A position taken by the banking entity when acting as intermediary on behalf of a customer that is not itself a banking entity to facilitate the exposure by the customer to the profits and losses of the covered fund.

(2) The risk-mitigating hedging activities of a banking entity are permitted under this paragraph (a) only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program in accordance with subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures; and

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(ii) The acquisition or retention of the ownership interest:

(A) Is made in accordance with the written policies, procedures, and internal controls required under this section;

(B) At the inception of the hedge, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks arising:

(*1*) Out of a transaction conducted solely to accommodate a specific customer request with respect to the covered fund; or

(*2*) In connection with the compensation arrangement with the employee that directly provides investment advisory, commodity trading advisory, or other services to the covered fund;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section; and

(D) Is subject to continuing review, monitoring and management by the banking entity.

(iii) With respect to risk-mitigating hedging activity conducted pursuant to paragraph (a)(1)(i) of this section, the compensation arrangement relates solely to the covered fund in which the banking entity or any affiliate has acquired an ownership interest pursuant to paragraph (a)(1)(i) and such compensation arrangement provides that any losses incurred by the banking entity on such ownership interest will be offset by corresponding decreases in amounts payable under such compensation arrangement.

(b) * * *

(3) An ownership interest in a covered fund is not offered for sale or sold to a resident of the United States for purposes of paragraph (b)(1)(iii) of this section only if it is not sold and has not been sold pursuant to an offering that targets residents of the United States in which the banking entity or any affiliate of the banking entity participates. If the banking entity or an affiliate sponsors or serves, directly or indirectly, as the investment manager, investment adviser, commodity pool operator or commodity trading advisor to a covered fund, then the banking entity or affiliate will be deemed for purposes of this paragraph (b)(3) to participate in any offer or sale by the covered fund of ownership interests in the covered fund.

(4) An activity or investment occurs solely outside of the United States for purposes of paragraph (b)(1)(iv) of this section only if:

(i) The banking entity acting as sponsor, or engaging as principal in the acquisition or retention of an ownership interest in the covered fund, is not itself, and is not controlled directly or indirectly by, a banking entity that is located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to acquire or retain the ownership interest or act as sponsor to the covered fund is not located in the United States or organized under the laws of the United States or of any State; and

(iii) The investment or sponsorship, including any transaction arising from risk-mitigating hedging related to an ownership interest, is not accounted for as principal directly or indirectly on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

* * * * *

(c) *Permitted covered fund interests and activities by a regulated insurance company.* The prohibition contained in § 351.10(a) of this subpart does not apply to the acquisition or retention by an insurance company, or an affiliate thereof, of any ownership interest in, or the sponsorship of, a covered fund only if:

(1) The insurance company or its affiliate acquires and retains the ownership interest solely for the general account of the insurance company or for one or more separate accounts established by the insurance company;

(2) The acquisition and retention of the ownership interest is conducted in compliance with, and subject to, the insurance company investment laws and regulations of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law or regulation described in paragraph (c)(2) of this section is insufficient to protect the safety and soundness of the banking entity, or the financial stability of the United States.

■ 41. Section 351.14 is amended by revising paragraph (a)(2)(ii)(B) to read as follows:

§ 351.14 Limitations on relationships with a covered fund.

(a) * * *

(2) * * *

(ii) * * *

(B) The chief executive officer (or equivalent officer) of the banking entity certifies in writing annually no later than March 31 to the FDIC (with a duty to update the certification if the information in the certification materially changes) that the banking entity does not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests; and

* * * * *

Subpart D—Compliance Program Requirement; Violations

■ 42. Section 351.20 is amended by revising paragraphs (a), (b) introductory text, (c), (d), (e) introductory text, and (f)(2) and adding paragraphs (g), (h), and (i) to read as follows:

§ 351.20 Program for compliance; reporting.

(a) *Program requirement.* Each banking entity (other than a banking entity with limited trading assets and liabilities) shall develop and provide for the continued administration of a compliance program reasonably designed to ensure and monitor compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part. The terms, scope, and detail of the compliance program shall be appropriate for the types, size, scope, and complexity of activities and business structure of the banking entity.

(b) *Banking entities with significant trading assets and liabilities.* With respect to a banking entity with significant trading assets and liabilities, the compliance program required by paragraph (a) of this section, at a minimum, shall include:

* * * * *

(c) *CEO attestation.* The CEO of a banking entity that has significant trading assets and liabilities must, based on a review by the CEO of the banking entity, attest in writing to the FDIC, each year no later than March 31, that the banking entity has in place processes to establish, maintain, enforce, review, test and modify the compliance program required by paragraph (b) of this section in a manner reasonably designed to achieve compliance with section 13 of the BHC Act and this part. In the case of a U.S. branch or agency of a foreign banking entity, the attestation may be provided for the entire U.S. operations of the foreign banking entity by the senior management officer of the U.S. operations of the foreign banking entity who is located in the United States.

(d) *Reporting requirements under appendix A to this part.* (1) A banking entity engaged in proprietary trading activity permitted under subpart B shall comply with the reporting requirements described in appendix A to this part, if:

(i) The banking entity has significant trading assets and liabilities; or

(ii) The FDIC notifies the banking entity in writing that it must satisfy the reporting requirements contained in appendix A to this part.

(2) Frequency of reporting: Unless the FDIC notifies the banking entity in writing that it must report on a different basis, a banking entity subject to appendix A to this part shall report the information required by appendix A for each quarter within 30 days of the end of the quarter.

(e) *Additional documentation for covered funds.* A banking entity with significant trading assets and liabilities shall maintain records that include:

* * * * *

(f) * * *

(2) *Banking entities with moderate trading assets and liabilities.* A banking entity with moderate trading assets and liabilities may satisfy the requirements of this section by including in its existing compliance policies and procedures appropriate references to the requirements of section 13 of the BHC Act and this part and adjustments as appropriate given the activities, size, scope, and complexity of the banking entity.

(g) *Rebuttable presumption of compliance for banking entities with limited trading assets and liabilities*—(1) *Rebuttable presumption.* Except as otherwise provided in this paragraph, a banking entity with limited trading assets and liabilities shall be presumed to be compliant with subpart B and subpart C of this part and shall have no obligation to demonstrate compliance with this part on an ongoing basis.

(2) *Rebuttal of presumption.* If upon examination or audit, the FDIC determines that the banking entity has engaged in proprietary trading or covered fund activities that are otherwise prohibited under subpart B or subpart C of this part, the FDIC may require the banking entity to be treated under this part as if it did not have limited trading assets and liabilities. The FDIC's rebuttal of the presumption in this paragraph must be made in accordance with the notice and response procedures in paragraph (i) of this section.

(h) *Reservation of authority.* Notwithstanding any other provision of this part, the FDIC retains its authority to require a banking entity without significant trading assets and liabilities to apply any requirements of this part that would otherwise apply if the banking entity had significant or moderate trading assets and liabilities if the FDIC determines that the size or complexity of the banking entity's trading or investment activities, or the risk of evasion of subpart B or subpart C of this part, does not warrant a presumption of compliance under paragraph (g) of this section or treatment as a banking entity with moderate trading assets and liabilities, as applicable. The FDIC's exercise of this reservation of authority must be made in accordance with the notice and response procedures in paragraph (i) of this section.

(i) *Notice and response procedures*—(1) *Notice.* The FDIC will notify the banking entity in writing of any determination requiring notice under this part and will provide an explanation of the determination.

(2) *Response.* The banking entity may respond to any or all items in the notice described in paragraph (i)(1) of this section. The response should include any matters that the banking entity would have the FDIC consider in deciding whether to make the determination. The response must be in writing and delivered to the designated FDIC official within 30 days after the date on which the banking entity received the notice. The FDIC may shorten the time period when, in the opinion of the FDIC, the activities or condition of the banking entity so requires, provided that the banking entity is informed of the time period at the time of notice, or with the consent of the banking entity. In its discretion, the FDIC may extend the time period for good cause.

(3) *Waiver.* Failure to respond within 30 days or such other time period as may be specified by the FDIC shall constitute a waiver of any objections to the FDIC determination.

(4) *Decision.* The FDIC will notify the banking entity of the decision in writing. The notice will include an explanation of the decision.

■ 43. Revise appendix A to part 351 to read as follows:

Appendix A to Part 351—Reporting and Recordkeeping Requirements for Covered Trading Activities

I. Purpose

a. This appendix sets forth reporting and recordkeeping requirements that certain banking entities must satisfy in connection with the restrictions on proprietary trading set forth in subpart B (''proprietary trading restrictions''). Pursuant to § 351.20(d), this appendix applies to a banking entity that, together with its affiliates and subsidiaries, has significant trading assets and liabilities. These entities are required to (i) furnish periodic reports to the FDIC regarding a variety of quantitative measurements of their covered trading activities, which vary depending on the scope and size of covered trading activities, and (ii) create and maintain records documenting the preparation and content of these reports. The requirements of this appendix must be incorporated into the banking entity's internal compliance program under § 351.20.

b. The purpose of this appendix is to assist banking entities and the FDIC in:

(1) Better understanding and evaluating the scope, type, and profile of the banking entity's covered trading activities;

(2) Monitoring the banking entity's covered trading activities;

(3) Identifying covered trading activities that warrant further review or examination by the banking entity to verify compliance with the proprietary trading restrictions;

(4) Evaluating whether the covered trading activities of trading desks engaged in market making-related activities subject to § 351.4(b) are consistent with the requirements governing permitted market making-related activities;

(5) Evaluating whether the covered trading activities of trading desks that are engaged in permitted trading activity subject to § 351.4, § 351.5, or § 351.6(a) and (b) (*i.e.,* underwriting and market making-related activity, risk-mitigating hedging, or trading in certain government obligations) are consistent with the requirement that such activity not result, directly or indirectly, in a material exposure to high-risk assets or high-risk trading strategies;

(6) Identifying the profile of particular covered trading activities of the banking entity, and the individual trading desks of the banking entity, to help establish the appropriate frequency and scope of examination by the FDIC of such activities; and

(7) Assessing and addressing the risks associated with the banking entity's covered trading activities.

c. Information that must be furnished pursuant to this appendix is not intended to serve as a dispositive tool for the identification of permissible or impermissible activities.

d. In addition to the quantitative measurements required in this appendix, a banking entity may need to develop and implement other quantitative measurements in order to effectively monitor its covered trading activities for compliance with section 13 of the BHC Act and this part and to have an effective compliance program, as required by § 351.20. The effectiveness of particular quantitative measurements may differ based on the profile of the banking entity's businesses in general and, more specifically, of the particular trading desk, including types of instruments traded, trading activities and strategies, and history and experience (*e.g.,* whether the trading desk is an established, successful market maker or a new entrant to a competitive market). In all cases, banking entities must ensure that they have robust measures in place to identify and monitor the risks taken in their trading activities, to ensure that the activities are within risk tolerances established by the banking entity, and to monitor and examine for compliance with the proprietary trading restrictions in this part.

e. On an ongoing basis, banking entities must carefully monitor, review, and evaluate all furnished quantitative measurements, as well as any others that they choose to utilize in order to maintain compliance with section 13 of the BHC Act and this part. All measurement results that indicate a heightened risk of impermissible proprietary trading, including with respect to otherwise-permitted activities under §§ 351.4 through 351.6(a) and (b), or that result in a material exposure to high-risk assets or high-risk trading strategies, must be escalated within the banking entity for review, further analysis, explanation to the FDIC, and remediation, where appropriate. The quantitative measurements discussed in this appendix should be helpful to banking entities in identifying and managing the risks related to their covered trading activities.

II. Definitions

The terms used in this appendix have the same meanings as set forth in §§ 351.2 and 351.3. In addition, for purposes of this appendix, the following definitions apply:

Applicability identifies the trading desks for which a banking entity is required to calculate and report a particular quantitative measurement based on the type of covered trading activity conducted by the trading desk.

Calculation period means the period of time for which a particular quantitative measurement must be calculated.

Comprehensive profit and loss means the net profit or loss of a trading desk's material sources of trading revenue over a specific period of time, including, for example, any increase or decrease in the market value of a trading desk's holdings, dividend income, and interest income and expense.

Covered trading activity means trading conducted by a trading desk under § 351.4, § 351.5, § 351.6(a), or § 351.6(b). A banking entity may include in its covered trading activity trading conducted under § 351.3(d), § 351.6(c), § 351.6(d) or § 351.6(e).

Measurement frequency means the frequency with which a particular quantitative metric must be calculated and recorded.

Trading day means a calendar day on which a trading desk is open for trading.

III. Reporting and Recordkeeping

a. Scope of Required Reporting

1. Quantitative measurements. Each banking entity made subject to this appendix by § 351.20 must furnish the following quantitative measurements, as applicable, for each trading desk of the banking entity engaged in covered trading activities and calculate these quantitative measurements in accordance with this appendix:

i. Internal Limits and Usage;

ii. Value-at-Risk;

iii. Comprehensive Profit and Loss Attribution;

iv. Positions; and

v. Transaction Volumes.

2. Trading desk information. Each banking entity made subject to this appendix by § 351.20 must provide certain descriptive information, as further described in this appendix, regarding each trading desk engaged in covered trading activities.

3. Quantitative measurements identifying information. Each banking entity made subject to this appendix by § 351.20 must provide certain identifying and descriptive information, as further described in this appendix, regarding its quantitative measurements.

4. Narrative statement. Each banking entity made subject to this appendix by § 351.20 may provide an optional narrative statement, as further described in this appendix.

5. File identifying information. Each banking entity made subject to this appendix by § 351.20 must provide file identifying information in each submission to the FDIC pursuant to this appendix, including the name of the banking entity, the RSSD ID assigned to the top-tier banking entity by the Board, and identification of the reporting period and creation date and time.

b. Trading Desk Information

1. Each banking entity must provide descriptive information regarding each trading desk engaged in covered trading activities, including:

i. Name of the trading desk used internally by the banking entity and a unique identification label for the trading desk;

ii. Identification of each type of covered trading activity in which the trading desk is engaged;

iii. Brief description of the general strategy of the trading desk;

v. A list identifying each Agency receiving the submission of the trading desk;

2. Indication of whether each calendar date is a trading day or not a trading day for the trading desk; and

3. Currency reported and daily currency conversion rate.

c. Quantitative Measurements Identifying Information

Each banking entity must provide the following information regarding the quantitative measurements:

1. An Internal Limits Information Schedule that provides identifying and descriptive information for each limit reported pursuant to the Internal Limits and Usage quantitative measurement, including the name of the limit, a unique identification label for the limit, a description of the limit, the unit of measurement for the limit, the type of limit, and identification of the corresponding risk factor attribution in the particular case that the limit type is a limit on a risk factor sensitivity and profit and loss attribution to the same risk factor is reported; and

2. A Risk Factor Attribution Information Schedule that provides identifying and descriptive information for each risk factor attribution reported pursuant to the Comprehensive Profit and Loss Attribution quantitative measurement, including the name of the risk factor or other factor, a unique identification label for the risk factor or other factor, a description of the risk factor or other factor, and the risk factor or other factor's change unit.

d. Narrative Statement

Each banking entity made subject to this appendix by § 351.20 may submit in a separate electronic document a Narrative Statement to the FDIC with any information the banking entity views as relevant for assessing the information reported. The Narrative Statement may include further description of or changes to calculation methods, identification of material events, description of and reasons for changes in the banking entity's trading desk structure or trading desk strategies, and when any such changes occurred.

e. Frequency and Method of Required Calculation and Reporting

A banking entity must calculate any applicable quantitative measurement for each trading day. A banking entity must report the Trading Desk Information, the Quantitative Measurements Identifying Information, and each applicable quantitative measurement electronically to the FDIC on the reporting schedule established in § 351.20 unless otherwise requested by the FDIC. A banking entity must report the Trading Desk Information, the Quantitative Measurements Identifying Information, and each applicable quantitative measurement to the FDIC in accordance with the XML Schema specified and published on the FDIC's website.

f. Recordkeeping

A banking entity must, for any quantitative measurement furnished to the FDIC pursuant to this appendix and § 351.20(d), create and maintain records documenting the preparation and content of these reports, as well as such information as is necessary to permit the FDIC to verify the accuracy of such reports, for a period of five years from the end of the calendar year for which the measurement was taken. A banking entity must retain the Narrative Statement, the Trading Desk Information, and the Quantitative Measurements Identifying Information for a period of five years from the end of the calendar year for which the information was reported to the FDIC.

IV. Quantitative Measurements

a. Risk-Management Measurements

1. Internal Limits and Usage

i. *Description:* For purposes of this appendix, Internal Limits are the constraints that define the amount of risk and the positions that a trading desk is permitted to take at a point in time, as defined by the banking entity for a specific trading desk. Usage represents the value of the trading desk's risk or positions that are accounted for by the current activity of the desk. Internal limits and their usage are key compliance and risk management tools used to control and monitor risk taking and include, but are not limited to, the limits set out in §§ 351.4 and 351.5. A trading desk's risk limits, commonly including a limit on ''Value-at-Risk,'' are useful in the broader context of the trading desk's overall activities, particularly for the market making activities under § 351.4(b) and hedging activity under § 351.5. Accordingly, the limits required under §§ 351.4(b)(2)(iii)(C) and 351.5(b)(1)(i)(A) must meet the applicable requirements under §§ 351.4(b)(2)(iii)(C) and 351.5(b)(1)(i)(A) and also must include appropriate metrics for the trading desk limits including, at a minimum, ''Value-at-Risk'' except to the extent the ''Value-at-Risk'' metric is demonstrably ineffective for measuring and monitoring the risks of a trading desk based on the types of positions traded by, and risk exposures of, that desk.

A. A banking entity must provide the following information for each limit reported pursuant to this quantitative measurement: The unique identification label for the limit reported in the Internal Limits Information Schedule, the limit size (distinguishing between an upper and a lower limit), and the value of usage of the limit.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

2. Value-at-Risk

i. *Description:* For purposes of this appendix, Value-at-Risk (''VaR'') is the measurement of the risk of future financial loss in the value of a trading desk's aggregated positions at the ninety-nine percent confidence level over a one-day period, based on current market conditions.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

b. Source-of-Revenue Measurements

1. Comprehensive Profit and Loss Attribution

i. *Description:* For purposes of this appendix, Comprehensive Profit and Loss Attribution is an analysis that attributes the daily fluctuation in the value of a trading desk's positions to various sources. First, the daily profit and loss of the aggregated positions is divided into two categories: (i) Profit and loss attributable to a trading desk's existing positions that were also positions held by the trading desk as of the end of the prior day (''existing positions''); and (ii) profit and loss attributable to new positions resulting from the current day's trading activity (''new positions'').

A. The comprehensive profit and loss associated with existing positions must reflect changes in the value of these positions on the applicable day. The comprehensive profit and loss from existing positions must be further attributed, as applicable, to (i) changes in the specific risk factors and other factors that are monitored and managed as part of the trading desk's overall risk management policies and procedures; and (ii) any other applicable elements, such as cash flows, carry, changes in reserves, and the correction, cancellation, or exercise of a trade.

B. For the attribution of comprehensive profit and loss from existing positions to specific risk factors and other factors, a banking entity must provide the following information for the factors that explain the preponderance of the profit or loss changes due to risk factor changes: The unique identification label for the risk factor or other factor listed in the Risk Factor Attribution Information Schedule, and the profit or loss due to the risk factor or other factor change.

C. The comprehensive profit and loss attributed to new positions must reflect commissions and fee income or expense and market gains or losses associated with transactions executed on the applicable day. New positions include purchases and sales of financial instruments and other assets/liabilities and negotiated amendments to existing positions. The comprehensive profit and loss from new positions may be reported in the aggregate and does not need to be further attributed to specific sources.

D. The portion of comprehensive profit and loss from existing positions that is not attributed to changes in specific risk factors and other factors must be allocated to a residual category. Significant unexplained profit and loss must be escalated for further investigation and analysis.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

c. Positions and Transaction Volumes Measurements

1. Positions

i. *Description:* For purposes of this appendix, Positions is the value of securities and derivatives positions managed by the trading desk. For purposes of the Positions quantitative measurement, do not include in the Positions calculation for ''securities'' those securities that are also ''derivatives,'' as those terms are defined under subpart A; instead, report those securities that are also derivatives as ''derivatives.'' [1225] A banking entity must separately report the trading desk's market value of long securities positions, short securities positions, derivatives receivables, and derivatives payables.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks that rely on § 351.4(a) or § 351.4(b) to conduct underwriting activity or market-making-related activity, respectively.

2. Transaction Volumes

i. *Description:* For purposes of this appendix, Transaction Volumes measures three exclusive categories of covered trading activity conducted by a trading desk. A banking entity is required to report the value and number of security and derivative transactions conducted by the trading desk with: (i) Customers, excluding internal transactions; (ii) non-customers, excluding internal transactions; and (iii) trading desks and other organizational units where the transaction is booked into either the same banking entity or an affiliated banking entity. For securities, value means gross market value. For derivatives, value means gross notional value. For purposes of calculating the Transaction Volumes quantitative measurement, do not include in the Transaction Volumes calculation for ''securities'' those securities that are also ''derivatives,'' as those terms are defined under subpart A; instead, report those securities that are also derivatives as ''derivatives.'' [1226] Further, for purposes of the Transaction Volumes quantitative measurement, a customer of a trading desk that relies on § 351.4(a) to conduct underwriting activity is a market participant identified in § 351.4(a)(7), and a customer of a trading desk that relies on § 351.4(b) to conduct market making-related activity is a market participant identified in § 351.4(b)(3).

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks that rely on § 351.4(a) or § 351.4(b) to conduct underwriting activity or market-making-related activity, respectively.

Appendix B to Part 351 [Removed]

■ 44. Appendix B to part 351 is removed.

■ 45. Effective January 1, 2020 until December 31, 2020, appendix Z to part 351 is added to read as follows:

Appendix Z to Part 351—Proprietary Trading and Certain Interests in and Relationships With Covered Funds (Alternative Compliance)

Note: The content of this appendix reproduces the regulation implementing Section 13 of the Bank Holding Company Act as of November 13, 2019.

Subpart A—Authority and Definitions

§ 351.1 Authority, purpose, scope, and relationship to other authorities.

(a) *Authority.* This part is issued by the FDIC under section 13 of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1851).

(b) *Purpose.* Section 13 of the Bank Holding Company Act establishes prohibitions and restrictions on proprietary trading and investments in or relationships with covered funds by certain banking entities, including any insured depository institution as defined in section 3(c)(2) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)(2)) and certain subsidiaries thereof for which the FDIC is the appropriate Federal banking agency as defined in section 3(q) of the Federal Deposit Insurance Act (12 U.S.C. 1813(q)). This part implements section 13 of the Bank Holding Company Act by defining terms used in the statute and related terms, establishing prohibitions and restrictions on proprietary trading and investments in or relationships with covered funds, and explaining the statute's requirements.

(c) *Scope.* This part implements section 13 of the Bank Holding Company Act with respect to insured depository institutions for which the FDIC is the appropriate Federal banking agency, as defined in section 3(q) of the Federal Deposit Insurance Act, and certain subsidiaries of the foregoing, but does not include such entities to the extent they are not within the definition of banking entity in § 351.2(c).

(d) *Relationship to other authorities.* Except as otherwise provided in under section 13 of the Bank Holding Company Act, and notwithstanding any other provision of law, the prohibitions and restrictions under section 13 of Bank Holding Company Act shall apply to the activities and investments of a banking entity, even if such activities and investments are authorized for a banking entity under other applicable provisions of law.

(e) *Preservation of authority.* Nothing in this part limits in any way the authority of the FDIC to impose on a banking entity identified in paragraph (c) of this section additional requirements or restrictions with respect to any activity, investment, or relationship covered under section 13 of the Bank Holding Company Act or this part, or additional penalties for violation of this part provided under any other applicable provision of law.

§ 351.2 Definitions.

Unless otherwise specified, for purposes of this part:

[1225] *See* § 351.2(h), (aa). For example, under this part, a security-based swap is both a ''security'' and a ''derivative.'' For purposes of the Positions quantitative measurement, security-based swaps are reported as derivatives rather than securities.

[1226] *See* § 351.2(h), (aa).

(a) *Affiliate* has the same meaning as in section 2(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(k)).

(b) *Bank holding company* has the same meaning as in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(c) *Banking entity.* (1) Except as provided in paragraph (c)(2) of this section, *banking entity* means:

(i) Any insured depository institution;

(ii) Any company that controls an insured depository institution;

(iii) Any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(iv) Any affiliate or subsidiary of any entity described in paragraphs (c)(1)(i), (ii), or (iii) of this section.

(2) Banking entity does not include:

(i) A covered fund that is not itself a banking entity under paragraphs (c)(1)(i), (ii), or (iii) of this section;

(ii) A portfolio company held under the authority contained in section 4(k)(4)(H) or (I) of the BHC Act (12 U.S.C. 1843(k)(4)(H), (I)), or any portfolio concern, as defined under 13 CFR 107.50, that is controlled by a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), so long as the portfolio company or portfolio concern is not itself a banking entity under paragraphs (c)(1)(i), (ii), or (iii) of this section; or

(iii) The FDIC acting in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(d) *Board* means the Board of Governors of the Federal Reserve System.

(e) *CFTC* means the Commodity Futures Trading Commission.

(f) *Dealer* has the same meaning as in section 3(a)(5) of the Exchange Act (15 U.S.C. 78c(a)(5)).

(g) *Depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)).

(h) *Derivative.* (1) Except as provided in paragraph (h)(2) of this section, *derivative* means:

(i) Any swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68));

(ii) Any purchase or sale of a commodity, that is not an excluded commodity, for deferred shipment or delivery that is intended to be physically settled;

(iii) Any foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)) or foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25));

(iv) Any agreement, contract, or transaction in foreign currency described in section 2(c)(2)(C)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(C)(i));

(v) Any agreement, contract, or transaction in a commodity other than foreign currency described in section 2(c)(2)(D)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(D)(i)); and

(vi) Any transaction authorized under section 19 of the Commodity Exchange Act (7 U.S.C. 23(a) or (b));

(2) A derivative does not include:

(i) Any consumer, commercial, or other agreement, contract, or transaction that the CFTC and SEC have further defined by joint regulation, interpretation, guidance, or other action as not within the definition of swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68)); or

(ii) Any identified banking product, as defined in section 402(b) of the Legal Certainty for Bank Products Act of 2000 (7 U.S.C. 27(b)), that is subject to section 403(a) of that Act (7 U.S.C. 27a(a)).

(i) *Employee* includes a member of the immediate family of the employee.

(j) *Exchange Act* means the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

(k) *Excluded commodity* has the same meaning as in section 1a(19) of the Commodity Exchange Act (7 U.S.C. 1a(19)).

(l) *FDIC* means the Federal Deposit Insurance Corporation.

(m) *Federal banking agencies* means the Board, the Office of the Comptroller of the Currency, and the FDIC.

(n) *Foreign banking organization* has the same meaning as in section 211.21(o) of the Board's Regulation K (12 CFR 211.21(o)), but does not include a foreign bank, as defined in section 1(b)(7) of the International Banking Act of 1978 (12 U.S.C. 3101(7)), that is organized under the laws of the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands.

(o) *Foreign insurance regulator* means the insurance commissioner, or a similar official or agency, of any country other than the United States that is engaged in the supervision of insurance companies under foreign insurance law.

(p) *General account* means all of the assets of an insurance company except those allocated to one or more separate accounts.

(q) *Insurance company* means a company that is organized as an insurance company, primarily and predominantly engaged in writing insurance or reinsuring risks underwritten by insurance companies, subject to supervision as such by a state insurance regulator or a foreign insurance regulator, and not operated for the purpose of evading the provisions of section 13 of the BHC Act (12 U.S.C. 1851).

(r) *Insured depository institution,* unless otherwise indicated, has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)), but does not include:

(1) An insured depository institution that is described in section 2(c)(2)(D) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(c)(2)(D)); or

(2) An insured depository institution if it has, and if every company that controls it has, total consolidated assets of $10 billion or less and total trading assets and trading liabilities, on a consolidated basis, that are 5 percent or less of total consolidated assets.

(s) *Loan* means any loan, lease, extension of credit, or secured or unsecured receivable that is not a security or derivative.

(t) *Primary financial regulatory agency* has the same meaning as in section 2(12) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301(12)).

(u) *Purchase* includes any contract to buy, purchase, or otherwise acquire. For security futures products, purchase includes any contract, agreement, or transaction for future delivery. With respect to a commodity future, purchase includes any contract, agreement, or transaction for future delivery. With respect to a derivative, purchase includes the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(v) *Qualifying foreign banking organization* means a foreign banking organization that qualifies as such under section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c), or (e)).

(w) *SEC* means the Securities and Exchange Commission.

(x) *Sale* and *sell* each include any contract to sell or otherwise dispose of. For security futures products, such terms include any contract, agreement, or transaction for future delivery. With respect to a commodity future, such terms include any contract, agreement, or transaction for future delivery. With respect to a derivative, such terms include the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(y) *Security* has the meaning specified in section 3(a)(10) of the Exchange Act (15 U.S.C. 78c(a)(10)).

(z) *Security-based swap dealer* has the same meaning as in section 3(a)(71) of the Exchange Act (15 U.S.C. 78c(a)(71)).

(aa) *Security future* has the meaning specified in section 3(a)(55) of the Exchange Act (15 U.S.C. 78c(a)(55)).

(bb) *Separate account* means an account established and maintained by an insurance company in connection with one or more insurance contracts to hold assets that are legally segregated from the insurance company's other assets, under which income, gains, and losses, whether or not realized, from assets allocated to such account, are, in accordance with the applicable contract, credited to or charged against such account without regard to other income, gains, or losses of the insurance company.

(cc) *State* means any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(dd) *Subsidiary* has the same meaning as in section 2(d) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(d)).

(ee) *State insurance regulator* means the insurance commissioner, or a similar official or agency, of a State that is engaged in the supervision of insurance companies under State insurance law.

(ff) *Swap dealer* has the same meaning as in section 1(a)(49) of the Commodity Exchange Act (7 U.S.C. 1a(49)).

Subpart B—Proprietary Trading

§ 351.3 Prohibition on proprietary trading.

(a) *Prohibition.* Except as otherwise provided in this subpart, a banking entity may not engage in proprietary trading. *Proprietary trading* means engaging as principal for the trading account of the banking entity in any purchase or sale of one or more financial instruments.

(b) *Definition of trading account.* (1) Trading account means any account that is used by a banking entity to:

(i) Purchase or sell one or more financial instruments principally for the purpose of:

(A) Short-term resale;

(B) Benefitting from actual or expected short-term price movements;

(C) Realizing short-term arbitrage profits; or

(D) Hedging one or more positions resulting from the purchases or sales of financial instruments described in paragraphs (b)(1)(i)(A), (B), or (C) of this section;

(ii) Purchase or sell one or more financial instruments that are both market risk capital rule covered positions and trading positions (or hedges of other market risk capital rule covered positions), if the banking entity, or any affiliate of the banking entity, is an insured depository institution, bank holding company, or savings and loan holding company, and calculates risk-based capital ratios under the market risk capital rule; or

(iii) Purchase or sell one or more financial instruments for any purpose, if the banking entity:

(A) Is licensed or registered, or is required to be licensed or registered, to engage in the business of a dealer, swap dealer, or security-based swap dealer, to the extent the instrument is purchased or sold in connection with the activities that require the banking entity to be licensed or registered as such; or

(B) Is engaged in the business of a dealer, swap dealer, or security-based swap dealer outside of the United States, to the extent the instrument is purchased or sold in connection with the activities of such business.

(2) *Rebuttable presumption for certain purchases and sales.* The purchase (or sale) of a financial instrument by a banking entity shall be presumed to be for the trading account of the banking entity under paragraph (b)(1)(i) of this section if the banking entity holds the financial instrument for fewer than sixty days or substantially transfers the risk of the financial instrument within sixty days of the purchase (or sale), unless the banking entity can demonstrate, based on all relevant facts and circumstances, that the banking entity did not purchase (or sell) the financial instrument principally for any of the purposes described in paragraph (b)(1)(i) of this section.

(c) *Financial instrument.* (1) *Financial instrument* means:

(i) A security, including an option on a security;

(ii) A derivative, including an option on a derivative; or

(iii) A contract of sale of a commodity for future delivery, or option on a contract of sale of a commodity for future delivery.

(2) A financial instrument does not include:

(i) A loan;

(ii) A commodity that is not:

(A) An excluded commodity (other than foreign exchange or currency);

(B) A derivative;

(C) A contract of sale of a commodity for future delivery; or

(D) An option on a contract of sale of a commodity for future delivery; or

(iii) Foreign exchange or currency.

(d) *Proprietary trading.* Proprietary trading does not include:

(1) Any purchase or sale of one or more financial instruments by a banking entity that arises under a repurchase or reverse repurchase agreement pursuant to which the banking entity has simultaneously agreed, in writing, to both purchase and sell a stated asset, at stated prices, and on stated dates or on demand with the same counterparty;

(2) Any purchase or sale of one or more financial instruments by a banking entity that arises under a transaction in which the banking entity lends or borrows a security temporarily to or from another party pursuant to a written securities lending agreement under which the lender retains the economic interests of an owner of such security, and has the right to terminate the transaction and to recall the loaned security on terms agreed by the parties;

(3) Any purchase or sale of a security by a banking entity for the purpose of liquidity management in accordance with a documented liquidity management plan of the banking entity that:

(i) Specifically contemplates and authorizes the particular securities to be used for liquidity management purposes, the amount, types, and risks of these securities that are consistent with liquidity management, and the liquidity circumstances in which the particular securities may or must be used;

(ii) Requires that any purchase or sale of securities contemplated and authorized by the plan be principally for the purpose of managing the liquidity of the banking entity, and not for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging a position taken for such short-term purposes;

(iii) Requires that any securities purchased or sold for liquidity management purposes be highly liquid and limited to securities the market, credit, and other risks of which the banking entity does not reasonably expect to give rise to appreciable profits or losses as a result of short-term price movements;

(iv) Limits any securities purchased or sold for liquidity management purposes, together with any other instruments purchased or sold for such purposes, to an amount that is consistent with the banking entity's near-term funding needs, including deviations from normal operations of the banking entity or any affiliate thereof, as estimated and documented pursuant to methods specified in the plan;

(v) Includes written policies and procedures, internal controls, analysis, and independent testing to ensure that the purchase and sale of securities that are not permitted under §§ 351.6(a) or (b) of this subpart are for the purpose of liquidity management and in accordance with the liquidity management plan described in paragraph (d)(3) of this section; and

(vi) Is consistent with the FDIC's supervisory requirements, guidance, and expectations regarding liquidity management;

(4) Any purchase or sale of one or more financial instruments by a banking entity that is a derivatives clearing organization or a clearing agency in connection with clearing financial instruments;

(5) Any excluded clearing activities by a banking entity that is a member of a clearing agency, a member of a derivatives clearing organization, or a member of a designated financial market utility;

(6) Any purchase or sale of one or more financial instruments by a banking entity, so long as:

(i) The purchase (or sale) satisfies an existing delivery obligation of the banking entity or its customers, including to prevent or close out a failure to deliver, in connection with delivery, clearing, or settlement activity; or

(ii) The purchase (or sale) satisfies an obligation of the banking entity in connection with a judicial, administrative, self-regulatory organization, or arbitration proceeding;

(7) Any purchase or sale of one or more financial instruments by a banking entity that is acting solely as agent, broker, or custodian;

(8) Any purchase or sale of one or more financial instruments by a banking entity through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity that is established and administered in accordance with the law of the United States or a foreign sovereign, if the purchase or sale is made directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity; or

(9) Any purchase or sale of one or more financial instruments by a banking entity in the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the financial instrument as soon as practicable, and in no event may the banking entity retain such instrument for longer than such period permitted by the FDIC.

(e) *Definition of other terms related to proprietary trading.* For purposes of this subpart:

(1) *Anonymous* means that each party to a purchase or sale is unaware of the identity of the other party(ies) to the purchase or sale.

(2) *Clearing agency* has the same meaning as in section 3(a)(23) of the Exchange Act (15 U.S.C. 78c(a)(23)).

(3) *Commodity* has the same meaning as in section 1a(9) of the Commodity Exchange Act (7 U.S.C. 1a(9)), except that a commodity does not include any security;

(4) *Contract of sale of a commodity for future delivery* means a contract of sale (as that term is defined in section 1a(13) of the Commodity Exchange Act (7 U.S.C. 1a(13)) for future delivery (as that term is defined in section 1a(27) of the Commodity Exchange Act (7 U.S.C. 1a(27))).

(5) *Derivatives clearing organization* means:

(i) A derivatives clearing organization registered under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1);

(ii) A derivatives clearing organization that, pursuant to CFTC regulation, is exempt from the registration requirements under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1); or

(iii) A foreign derivatives clearing organization that, pursuant to CFTC regulation, is permitted to clear for a foreign board of trade that is registered with the CFTC.

(6) *Exchange,* unless the context otherwise requires, means any designated contract market, swap execution facility, or foreign board of trade registered with the CFTC, or, for purposes of securities or security-based swaps, an exchange, as defined under section 3(a)(1) of the Exchange Act (15 U.S.C. 78c(a)(1)), or security-based swap execution facility, as defined under section 3(a)(77) of the Exchange Act (15 U.S.C. 78c(a)(77)).

(7) *Excluded clearing activities* means:

(i) With respect to customer transactions cleared on a derivatives clearing organization, a clearing agency, or a designated financial market utility, any purchase or sale necessary to correct trading errors made by or on behalf of a customer provided that such purchase or sale is conducted in accordance with, for transactions cleared on a derivatives clearing organization, the Commodity Exchange Act, CFTC regulations, and the rules or procedures of the derivatives clearing organization, or, for transactions cleared on a clearing agency, the rules or procedures of the clearing agency, or, for transactions cleared on a designated financial market utility that is neither a derivatives clearing organization nor a clearing agency, the rules or procedures of the designated financial market utility;

(ii) Any purchase or sale in connection with and related to the management of a default or threatened imminent default of a customer provided that such purchase or sale is conducted in accordance with, for transactions cleared on a derivatives clearing organization, the Commodity Exchange Act, CFTC regulations, and the rules or procedures of the derivatives clearing organization, or, for transactions cleared on a clearing agency, the rules or procedures of the clearing agency, or, for transactions cleared on a designated financial market utility that is neither a derivatives clearing organization nor a clearing agency, the rules or procedures of the designated financial market utility;

(iii) Any purchase or sale in connection with and related to the management of a default or threatened imminent default of a member of a clearing agency, a member of a derivatives clearing organization, or a member of a designated financial market utility;

(iv) Any purchase or sale in connection with and related to the management of the default or threatened default of a clearing agency, a derivatives clearing organization, or a designated financial market utility; and

(v) Any purchase or sale that is required by the rules or procedures of a clearing agency, a derivatives clearing organization, or a designated financial market utility to mitigate the risk to the clearing agency, derivatives clearing organization, or designated financial market utility that would result from the clearing by a member of security-based swaps that reference the member or an affiliate of the member.

(8) *Designated financial market utility* has the same meaning as in section 803(4) of the Dodd-Frank Act (12 U.S.C. 5462(4)).

(9) *Issuer* has the same meaning as in section 2(a)(4) of the Securities Act of 1933 (15 U.S.C. 77b(a)(4)).

(10) *Market risk capital rule covered position and trading position* means a financial instrument that is both a covered position and a trading position, as those terms are respectively defined:

(i) In the case of a banking entity that is a bank holding company, savings and loan holding company, or insured depository institution, under the market risk capital rule that is applicable to the banking entity; and

(ii) In the case of a banking entity that is affiliated with a bank holding company or savings and loan holding company, other than a banking entity to which a market risk capital rule is applicable, under the market risk capital rule that is applicable to the affiliated bank holding company or savings and loan holding company.

(11) *Market risk capital rule* means the market risk capital rule that is contained in subpart F of 12 CFR part 3, 12 CFR parts 208 and 225, or 12 CFR part 324, as applicable.

(12) *Municipal security* means a security that is a direct obligation of or issued by, or an obligation guaranteed as to principal or interest by, a State or any political subdivision thereof, or any agency or instrumentality of a State or any political subdivision thereof, or any municipal corporate instrumentality of one or more States or political subdivisions thereof.

(13) *Trading desk* means the smallest discrete unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof.

§ 351.4 Permitted underwriting and market making-related activities.

(a) *Underwriting activities*—(1) *Permitted underwriting activities.* The prohibition contained in § 351.3(a) does not apply to a banking entity's underwriting activities conducted in accordance with this paragraph (a).

(2) *Requirements.* The underwriting activities of a banking entity are permitted under paragraph (a)(1) of this section only if:

(i) The banking entity is acting as an underwriter for a distribution of securities and the trading desk's underwriting position is related to such distribution;

(ii) The amount and type of the securities in the trading desk's underwriting position are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, and reasonable efforts are made to sell or otherwise reduce the underwriting position within a reasonable period, taking into account the liquidity, maturity, and depth of the market for the relevant type of security;

(iii) The banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (a) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The products, instruments or exposures each trading desk may purchase, sell, or manage as part of its underwriting activities;

(B) Limits for each trading desk, based on the nature and amount of the trading desk's underwriting activities, including the reasonably expected near term demands of clients, customers, or counterparties, on the:

(*1*) Amount, types, and risk of its underwriting position;

(*2*) Level of exposures to relevant risk factors arising from its underwriting position; and

(*3*) Period of time a security may be held;

(C) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(D) Authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval;

(iv) The compensation arrangements of persons performing the activities described in this paragraph (a) are designed not to reward or incentivize prohibited proprietary trading; and

(v) The banking entity is licensed or registered to engage in the activity described in this paragraph (a) in accordance with applicable law.

(3) *Definition of distribution.* For purposes of this paragraph (a), a *distribution* of securities means:

(i) An offering of securities, whether or not subject to registration under the Securities Act of 1933, that is distinguished from ordinary trading transactions by the presence of special selling efforts and selling methods; or

(ii) An offering of securities made pursuant to an effective registration statement under the Securities Act of 1933.

(4) *Definition of underwriter.* For purposes of this paragraph (a), *underwriter* means:

(i) A person who has agreed with an issuer or selling security holder to:

(A) Purchase securities from the issuer or selling security holder for distribution;

(B) Engage in a distribution of securities for or on behalf of the issuer or selling security holder; or

(C) Manage a distribution of securities for or on behalf of the issuer or selling security holder; or

(ii) A person who has agreed to participate or is participating in a distribution of such securities for or on behalf of the issuer or selling security holder.

(5) *Definition of selling security holder.* For purposes of this paragraph (a), *selling security holder* means any person, other than an issuer, on whose behalf a distribution is made.

(6) *Definition of underwriting position.* For purposes of this paragraph (a), *underwriting position* means the long or short positions in one or more securities held by a banking entity or its affiliate, and managed by a particular trading desk, in connection with a particular distribution of securities for which such banking entity or affiliate is acting as an underwriter.

(7) *Definition of client, customer, and counterparty.* For purposes of this paragraph (a), the terms *client, customer, and counterparty,* on a collective or individual basis, refer to market participants that may transact with the banking entity in connection with a particular distribution for which the banking entity is acting as underwriter.

(b) *Market making-related activities*—(1) *Permitted market making-related activities.* The prohibition contained in § 351.3(a) does not apply to a banking entity's market making-related activities conducted in accordance with this paragraph (b).

(2) *Requirements.* The market making-related activities of a banking entity are permitted under paragraph (b)(1) of this section only if:

(i) The trading desk that establishes and manages the financial exposure routinely stands ready to purchase and sell one or more types of financial instruments related to its financial exposure and is willing and available to quote, purchase and sell, or otherwise enter into long and short positions in those types of financial instruments for its own account, in commercially reasonable amounts and throughout market cycles on a basis appropriate for the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(ii) The amount, types, and risks of the financial instruments in the trading desk's market-maker inventory are designed not to exceed, on an ongoing basis, the reasonably expected near term demands of clients, customers, or counterparties, based on:

(A) The liquidity, maturity, and depth of the market for the relevant types of financial instrument(s); and

(B) Demonstrable analysis of historical customer demand, current inventory of financial instruments, and market and other factors regarding the amount, types, and risks, of or associated with financial instruments in which the trading desk makes a market, including through block trades;

(iii) The banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (b) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The financial instruments each trading desk stands ready to purchase and sell in accordance with paragraph (b)(2)(i) of this section;

(B) The actions the trading desk will take to demonstrably reduce or otherwise significantly mitigate promptly the risks of its financial exposure consistent with the limits required under paragraph (b)(2)(iii)(C) of this section; the products, instruments, and exposures each trading desk may use for risk management purposes; the techniques and strategies each trading desk may use to manage the risks of its market making-related activities and inventory; and the process, strategies, and personnel responsible for ensuring that the actions taken by the trading desk to mitigate these risks are and continue to be effective;

(C) Limits for each trading desk, based on the nature and amount of the trading desk's market making-related activities, that address the factors prescribed by paragraph (b)(2)(ii) of this section, on:

(*1*) The amount, types, and risks of its market-maker inventory;

(*2*) The amount, types, and risks of the products, instruments, and exposures the trading desk may use for risk management purposes;

(*3*) The level of exposures to relevant risk factors arising from its financial exposure; and

(*4*) The period of time a financial instrument may be held;

(D) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(E) Authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis that the basis for any temporary or permanent increase to a trading desk's limit(s) is consistent with the requirements of this paragraph (b), and independent review of such demonstrable analysis and approval;

(iv) To the extent that any limit identified pursuant to paragraph (b)(2)(iii)(C) of this section is exceeded, the trading desk takes action to bring the trading desk into compliance with the limits as promptly as possible after the limit is exceeded;

(v) The compensation arrangements of persons performing the activities described in this paragraph (b) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in activity described in this paragraph (b) in accordance with applicable law.

(3) *Definition of client, customer, and counterparty.* For purposes of paragraph (b) of this section, the terms *client, customer, and counterparty,* on a collective or individual basis refer to market participants that make use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services, provided that:

(i) A trading desk or other organizational unit of another banking entity is not a client, customer, or counterparty of the trading desk if that other entity has trading assets and liabilities of $50 billion or more as measured in accordance with § 351.20(d)(1) of subpart D, unless:

(A) The trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk for purposes of paragraph (b)(2) of this section; or

(B) The purchase or sale by the trading desk is conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants.

(4) *Definition of financial exposure.* For purposes of this paragraph (b), *financial exposure* means the aggregate risks of one or more financial instruments and any associated loans, commodities, or foreign exchange or currency, held by a banking entity or its affiliate and managed by a particular trading desk as part of the trading desk's market making-related activities.

(5) *Definition of market-maker inventory.* For the purposes of this paragraph (b), *market-maker inventory* means all of the positions in the financial instruments for which the trading desk stands ready to make a market in accordance with paragraph (b)(2)(i) of this section, that are managed by the trading desk, including the trading desk's open positions or exposures arising from open transactions.

§ 351.5 Permitted risk-mitigating hedging activities.

(a) *Permitted risk-mitigating hedging activities.* The prohibition contained in § 351.3(a) does not apply to the risk-mitigating hedging activities of a banking entity in connection with and related to individual or aggregated positions, contracts, or other holdings of the banking entity and designed to reduce the specific risks to the banking entity in connection with and related to such positions, contracts, or other holdings.

(b) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under paragraph (a) of this section only if:

(1) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(i) Reasonably designed written policies and procedures regarding the positions, techniques and strategies that may be used for hedging, including documentation indicating what positions, contracts or other holdings a particular trading desk may use in its risk-mitigating hedging activities, as well as position and aging limits with respect to such positions, contracts or other holdings;

(ii) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(iii) The conduct of analysis, including correlation analysis, and independent testing designed to ensure that the positions, techniques and strategies that may be used for hedging may reasonably be expected to demonstrably reduce or otherwise significantly mitigate the specific, identifiable risk(s) being hedged, and such correlation analysis demonstrates that the hedging activity demonstrably reduces or otherwise significantly mitigates the specific, identifiable risk(s) being hedged;

(2) The risk-mitigating hedging activity:

(i) Is conducted in accordance with the written policies, procedures, and internal controls required under this section;

(ii) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof;

(iii) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section;

(iv) Is subject to continuing review, monitoring and management by the banking entity that:

(A) Is consistent with the written hedging policies and procedures required under paragraph (b)(1) of this section;

(B) Is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates the specific, identifiable risks that develop over time from the risk-mitigating hedging activities undertaken under this section and the underlying positions, contracts, and other holdings of the banking entity, based upon the facts and circumstances of the underlying and hedging positions, contracts and other holdings of the banking entity and the risks and liquidity thereof; and

(C) Requires ongoing recalibration of the hedging activity by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(2) of this section and is not prohibited proprietary trading; and

(3) The compensation arrangements of persons performing risk-mitigating hedging activities are designed not to reward or incentivize prohibited proprietary trading.

(c) *Documentation requirement*—(1) A banking entity must comply with the requirements of paragraphs (c)(2) and (3) of this section with respect to any purchase or sale of financial instruments made in reliance on this section for risk-mitigating hedging purposes that is:

(i) Not established by the specific trading desk establishing or responsible for the underlying positions, contracts, or other holdings the risks of which the hedging activity is designed to reduce;

(ii) Established by the specific trading desk establishing or responsible for the underlying positions, contracts, or other holdings the risks of which the purchases or sales are designed to reduce, but that is effected through a financial instrument, exposure, technique, or strategy that is not specifically identified in the trading desk's written policies and procedures established under paragraph (b)(1) of this section or under § 351.4(b)(2)(iii)(B) of this subpart as a product, instrument, exposure, technique, or strategy such trading desk may use for hedging; or

(iii) Established to hedge aggregated positions across two or more trading desks.

(2) In connection with any purchase or sale identified in paragraph (c)(1) of this section, a banking entity must, at a minimum, and contemporaneously with the purchase or sale, document:

(i) The specific, identifiable risk(s) of the identified positions, contracts, or other holdings of the banking entity that the purchase or sale is designed to reduce;

(ii) The specific risk-mitigating strategy that the purchase or sale is designed to fulfill; and

(iii) The trading desk or other business unit that is establishing and responsible for the hedge.

(3) A banking entity must create and retain records sufficient to demonstrate compliance with the requirements of this paragraph (c) for a period that is no less than five years in a form that allows the banking entity to promptly produce such records to the FDIC on request, or such longer period as required under other law or this part.

§ 351.6 Other permitted proprietary trading activities.

(a) *Permitted trading in domestic government obligations.* The prohibition contained in § 351.3(a) does not apply to the purchase or sale by a banking entity of a financial instrument that is:

(1) An obligation of, or issued or guaranteed by, the United States;

(2) An obligation, participation, or other instrument of, or issued or guaranteed by, an agency of the United States, the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, a Federal Home Loan Bank, the Federal Agricultural Mortgage Corporation or a Farm Credit System institution chartered under and subject to the provisions of the Farm Credit Act of 1971 (12 U.S.C. 2001 *et seq.*);

(3) An obligation of any State or any political subdivision thereof, including any municipal security; or

(4) An obligation of the FDIC, or any entity formed by or on behalf of the FDIC for purpose of facilitating the disposal of assets acquired or held by the FDIC in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(b) *Permitted trading in foreign government obligations*—(1) *Affiliates of foreign banking entities in the United States.* The prohibition contained in § 351.3(a) does not apply to the purchase or sale of a financial instrument that is an obligation of, or issued or guaranteed by, a foreign sovereign (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of such foreign sovereign, by a banking entity, so long as:

(i) The banking entity is organized under or is directly or indirectly controlled by a banking entity that is organized under the laws of a foreign sovereign and is not directly or indirectly controlled by a top-tier banking entity that is organized under the laws of the United States;

(ii) The financial instrument is an obligation of, or issued or guaranteed by, the foreign sovereign under the laws of which the foreign banking entity referred to in paragraph (b)(1)(i) of this section is organized (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign; and

(iii) The purchase or sale as principal is not made by an insured depository institution.

(2) *Foreign affiliates of a U.S. banking entity.* The prohibition contained in § 351.3(a) does not apply to the purchase or sale of a financial instrument that is an obligation of, or issued or guaranteed by, a foreign sovereign (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign, by a foreign entity that is owned or controlled by a banking entity organized or established under the laws of the United States or any State, so long as:

(i) The foreign entity is a foreign bank, as defined in section 211.2(j) of the Board's Regulation K (12 CFR 211.2(j)), or is regulated by the foreign sovereign as a securities dealer;

(ii) The financial instrument is an obligation of, or issued or guaranteed by, the foreign sovereign under the laws of which the foreign entity is organized (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign; and

(iii) The financial instrument is owned by the foreign entity and is not financed by an affiliate that is located in the United States or organized under the laws of the United States or of any State.

(c) *Permitted trading on behalf of customers*—(1) *Fiduciary transactions.* The prohibition contained in § 351.3(a) does not apply to the purchase or sale of financial instruments by a banking entity acting as trustee or in a similar fiduciary capacity, so long as:

(i) The transaction is conducted for the account of, or on behalf of, a customer; and

(ii) The banking entity does not have or retain beneficial ownership of the financial instruments.

(2) *Riskless principal transactions.* The prohibition contained in § 351.3(a) does not apply to the purchase or sale of financial instruments by a banking entity acting as riskless principal in a transaction in which the banking entity, after receiving an order to purchase (or sell) a financial instrument from a customer, purchases (or sells) the financial instrument for its own account to offset a contemporaneous sale to (or purchase from) the customer.

(d) *Permitted trading by a regulated insurance company.* The prohibition contained in § 351.3(a) does not apply to the purchase or sale of financial instruments by a banking entity that is an insurance company or an affiliate of an insurance company if:

(1) The insurance company or its affiliate purchases or sells the financial instruments solely for:

(i) The general account of the insurance company; or

(ii) A separate account established by the insurance company;

(2) The purchase or sale is conducted in compliance with, and subject to, the insurance company investment laws, regulations, and written guidance of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law, regulation, or written guidance described in paragraph (d)(2) of this section is insufficient to protect the safety and soundness of the covered banking entity, or the financial stability of the United States.

(e) *Permitted trading activities of foreign banking entities.* (1) The prohibition contained in § 351.3(a) does not apply to the purchase or sale of financial instruments by a banking entity if:

(i) The banking entity is not organized or directly or indirectly controlled by a banking entity that is organized under the laws of the United States or of any State;

(ii) The purchase or sale by the banking entity is made pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act; and

(iii) The purchase or sale meets the requirements of paragraph (e)(3) of this section.

(2) A purchase or sale of financial instruments by a banking entity is made pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act for purposes of paragraph (e)(1)(ii) of this section only if:

(i) The purchase or sale is conducted in accordance with the requirements of paragraph (e) of this section; and

(ii)(A) With respect to a banking entity that is a foreign banking organization, the banking entity meets the qualifying foreign banking organization requirements of section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c) or (e)), as applicable; or

(B) With respect to a banking entity that is not a foreign banking organization, the banking entity is not organized under the laws of the United States or of any State and the banking entity, on a fully-consolidated basis, meets at least two of the following requirements:

(*1*) Total assets of the banking entity held outside of the United States exceed total assets of the banking entity held in the United States;

(*2*) Total revenues derived from the business of the banking entity outside of the United States exceed total revenues derived from the business of the banking entity in the United States; or

(*3*) Total net income derived from the business of the banking entity outside of the United States exceeds total net income derived from the business of the banking entity in the United States.

(3) A purchase or sale by a banking entity is permitted for purposes of this paragraph (e) if:

(i) The banking entity engaging as principal in the purchase or sale (including any personnel of the banking entity or its affiliate that arrange, negotiate or execute such purchase or sale) is not located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to purchase or sell as principal is not located in the United States or organized under the laws of the United States or of any State;

(iii) The purchase or sale, including any transaction arising from risk-mitigating hedging related to the instruments purchased or sold, is not accounted for as principal directly or on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State;

(iv) No financing for the banking entity's purchases or sales is provided, directly or indirectly, by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State; and

(v) The purchase or sale is not conducted with or through any U.S. entity, other than:

(A) A purchase or sale with the foreign operations of a U.S. entity if no personnel of such U.S. entity that are located in the United States are involved in the arrangement, negotiation, or execution of such purchase or sale;

(B) A purchase or sale with an unaffiliated market intermediary acting as principal, provided the purchase or sale is promptly cleared and settled through a clearing agency or derivatives clearing organization acting as a central counterparty; or

(C) A purchase or sale through an unaffiliated market intermediary acting as agent, provided the purchase or sale is conducted anonymously on an exchange or similar trading facility and is promptly cleared and settled through a clearing agency or derivatives clearing organization acting as a central counterparty.

(4) For purposes of this paragraph (e), a U.S. entity is any entity that is, or is controlled by, or is acting on behalf of, or at the direction of, any other entity that is, located in the United States or organized under the laws of the United States or of any State.

(5) For purposes of this paragraph (e), a U.S. branch, agency, or subsidiary of a foreign banking entity is considered to be located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(6) For purposes of this paragraph (e), *unaffiliated market intermediary* means

an unaffiliated entity, acting as an intermediary, that is:

(i) A broker or dealer registered with the SEC under section 15 of the Exchange Act or exempt from registration or excluded from regulation as such;

(ii) A swap dealer registered with the CFTC under section 4s of the Commodity Exchange Act or exempt from registration or excluded from regulation as such;

(iii) A security-based swap dealer registered with the SEC under section 15F of the Exchange Act or exempt from registration or excluded from regulation as such; or

(iv) A futures commission merchant registered with the CFTC under section 4f of the Commodity Exchange Act or exempt from registration or excluded from regulation as such.

§ 351.7 Limitations on permitted proprietary trading activities.

(a) No transaction, class of transactions, or activity may be deemed permissible under §§ 351.4 through 351.6 if the transaction, class of transactions, or activity would:

(1) Involve or result in a material conflict of interest between the banking entity and its clients, customers, or counterparties;

(2) Result, directly or indirectly, in a material exposure by the banking entity to a high-risk asset or a high-risk trading strategy; or

(3) Pose a threat to the safety and soundness of the banking entity or to the financial stability of the United States.

(b) *Definition of material conflict of interest.* (1) For purposes of this section, a material conflict of interest between a banking entity and its clients, customers, or counterparties exists if the banking entity engages in any transaction, class of transactions, or activity that would involve or result in the banking entity's interests being materially adverse to the interests of its client, customer, or counterparty with respect to such transaction, class of transactions, or activity, and the banking entity has not taken at least one of the actions in paragraph (b)(2) of this section.

(2) Prior to effecting the specific transaction or class or type of transactions, or engaging in the specific activity, the banking entity:

(i) *Timely and effective disclosure.* (A) Has made clear, timely, and effective disclosure of the conflict of interest, together with other necessary information, in reasonable detail and in a manner sufficient to permit a reasonable client, customer, or counterparty to meaningfully understand the conflict of interest; and

(B) Such disclosure is made in a manner that provides the client, customer, or counterparty the opportunity to negate, or substantially mitigate, any materially adverse effect on the client, customer, or counterparty created by the conflict of interest; or

(ii) *Information barriers.* Has established, maintained, and enforced information barriers that are memorialized in written policies and procedures, such as physical separation of personnel, or functions, or limitations on types of activity, that are reasonably designed, taking into consideration the nature of the banking entity's business, to prevent the conflict of interest from involving or resulting in a materially adverse effect on a client, customer, or counterparty. A banking entity may not rely on such information barriers if, in the case of any specific transaction, class or type of transactions or activity, the banking entity knows or should reasonably know that, notwithstanding the banking entity's establishment of information barriers, the conflict of interest may involve or result in a materially adverse effect on a client, customer, or counterparty.

(c) *Definition of high-risk asset and high-risk trading strategy.* For purposes of this section:

(1) *High-risk asset* means an asset or group of related assets that would, if held by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

(2) *High-risk trading strategy* means a trading strategy that would, if engaged in by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

§§ 351.8–351.9 [Reserved]

Subpart C—Covered Funds Activities and Investments

§ 351.10 Prohibition on acquiring or retaining an ownership interest in and having certain relationships with a covered fund.

(a) *Prohibition.* (1) Except as otherwise provided in this subpart, a banking entity may not, as principal, directly or indirectly, acquire or retain any ownership interest in or sponsor a covered fund.

(2) Paragraph (a)(1) of this section does not include acquiring or retaining an ownership interest in a covered fund by a banking entity:

(i) Acting solely as agent, broker, or custodian, so long as;

(A) The activity is conducted for the account of, or on behalf of, a customer; and

(B) The banking entity and its affiliates do not have or retain beneficial ownership of such ownership interest;

(ii) Through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity (or an affiliate thereof) that is established and administered in accordance with the law of the United States or a foreign sovereign, if the ownership interest is held or controlled directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity (or an affiliate thereof);

(iii) In the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the ownership interest as soon as practicable, and in no event may the banking entity retain such ownership interest for longer than such period permitted by the FDIC; or

(iv) On behalf of customers as trustee or in a similar fiduciary capacity for a customer that is not a covered fund, so long as:

(A) The activity is conducted for the account of, or on behalf of, the customer; and

(B) The banking entity and its affiliates do not have or retain beneficial ownership of such ownership interest.

(b) *Definition of covered fund.* (1) Except as provided in paragraph (c) of this section, covered fund means:

(i) An issuer that would be an investment company, as defined in the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*), *but for* section 3(c)(1) or 3(c)(7) of that Act (15 U.S.C. 80a–3(c)(1) or (7));

(ii) Any commodity pool under section 1a(10) of the Commodity Exchange Act (7 U.S.C. 1a(10)) for which:

(A) The commodity pool operator has claimed an exemption under 17 CFR 4.7; or

(B)(*1*) A commodity pool operator is registered with the CFTC as a commodity pool operator in connection with the operation of the commodity pool;

(*2*) Substantially all participation units of the commodity pool are owned by qualified eligible persons under 17 CFR 4.7(a)(2) and (3); and

(*3*) Participation units of the commodity pool have not been publicly offered to persons who are not qualified eligible persons under 17 CFR 4.7(a)(2) and (3); or

(iii) For any banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State, an entity that:

(A) Is organized or established outside the United States and the ownership interests of which are offered and sold solely outside the United States;

(B) Is, or holds itself out as being, an entity or arrangement that raises money from investors primarily for the purpose of investing in securities for resale or other disposition or otherwise trading in securities; and

(C)(*1*) Has as its sponsor that banking entity (or an affiliate thereof); or

(*2*) Has issued an ownership interest that is owned directly or indirectly by that banking entity (or an affiliate thereof).

(2) An issuer shall not be deemed to be a covered fund under paragraph (b)(1)(iii) of this section if, were the issuer subject to U.S. securities laws, the issuer could rely on an exclusion or exemption from the definition of ''investment company'' under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) other than the exclusions contained in section 3(c)(1) and 3(c)(7) of that Act.

(3) For purposes of paragraph (b)(1)(iii) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(c) Notwithstanding paragraph (b) of this section, unless the appropriate Federal banking agencies, the SEC, and the CFTC jointly determine otherwise, a covered fund does not include:

(1) *Foreign public funds.* (i) Subject to paragraphs (ii) and (iii) below, an issuer that:

(A) Is organized or established outside of the United States;

(B) Is authorized to offer and sell ownership interests to retail investors in the issuer's home jurisdiction; and

(C) Sells ownership interests predominantly through one or more public offerings outside of the United States.

(ii) With respect to a banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State and any issuer for which such banking entity acts as sponsor, the sponsoring banking entity may not rely on the exemption in paragraph (c)(1)(i) of this section for such issuer unless ownership interests in the issuer are sold predominantly to persons other than:

(A) Such sponsoring banking entity;

(B) Such issuer;

(C) Affiliates of such sponsoring banking entity or such issuer; and

(D) Directors and employees of such entities.

(iii) For purposes of paragraph (c)(1)(i)(C) of this section, the term ''public offering'' means a distribution (as defined in § 351.4(a)(3) of subpart B) of securities in any jurisdiction outside the United States to investors, including retail investors, provided that:

(A) The distribution complies with all applicable requirements in the jurisdiction in which such distribution is being made;

(B) The distribution does not restrict availability to investors having a minimum level of net worth or net investment assets; and

(C) The issuer has filed or submitted, with the appropriate regulatory authority in such jurisdiction, offering disclosure documents that are publicly available.

(2) *Wholly-owned subsidiaries.* An entity, all of the outstanding ownership interests of which are owned directly or indirectly by the banking entity (or an affiliate thereof), except that:

(i) Up to five percent of the entity's outstanding ownership interests, less any amounts outstanding under paragraph (c)(2)(ii) of this section, may be held by employees or directors of the banking entity or such affiliate (including former employees or directors if their ownership interest was acquired while employed by or in the service of the banking entity); and

(ii) Up to 0.5 percent of the entity's outstanding ownership interests may be held by a third party if the ownership interest is acquired or retained by the third party for the purpose of establishing corporate separateness or addressing bankruptcy, insolvency, or similar concerns.

(3) *Joint ventures.* A joint venture between a banking entity or any of its affiliates and one or more unaffiliated persons, provided that the joint venture:

(i) Is comprised of no more than 10 unaffiliated co-venturers;

(ii) Is in the business of engaging in activities that are permissible for the banking entity or affiliate, other than investing in securities for resale or other disposition; and

(iii) Is not, and does not hold itself out as being, an entity or arrangement that raises money from investors primarily for the purpose of investing in securities for resale or other disposition or otherwise trading in securities.

(4) *Acquisition vehicles.* An issuer:

(i) Formed solely for the purpose of engaging in a *bona fide* merger or acquisition transaction; and

(ii) That exists only for such period as necessary to effectuate the transaction.

(5) *Foreign pension or retirement funds.* A plan, fund, or program providing pension, retirement, or similar benefits that is:

(i) Organized and administered outside the United States;

(ii) A broad-based plan for employees or citizens that is subject to regulation as a pension, retirement, or similar plan under the laws of the jurisdiction in which the plan, fund, or program is organized and administered; and

(iii) Established for the benefit of citizens or residents of one or more foreign sovereigns or any political subdivision thereof.

(6) *Insurance company separate accounts.* A separate account, provided that no banking entity other than the insurance company participates in the account's profits and losses.

(7) *Bank owned life insurance.* A separate account that is used solely for the purpose of allowing one or more banking entities to purchase a life insurance policy for which the banking entity or entities is beneficiary, provided that no banking entity that purchases the policy:

(i) Controls the investment decisions regarding the underlying assets or holdings of the separate account; or

(ii) Participates in the profits and losses of the separate account other than in compliance with applicable supervisory guidance regarding bank owned life insurance.

(8) *Loan securitizations.* (i) *Scope.* An issuing entity for asset-backed securities that satisfies all the conditions of this paragraph (c)(8) and the assets or holdings of which are comprised solely of:

(A) Loans as defined in § 351.2(s) of subpart A;

(B) Rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities and rights or other assets that are related or incidental to purchasing or otherwise acquiring and holding the loans, provided that each asset meets the requirements of paragraph (c)(8)(iii) of this section;

(C) Interest rate or foreign exchange derivatives that meet the requirements of paragraph (c)(8)(iv) of this section; and

(D) Special units of beneficial interest and collateral certificates that meet the requirements of paragraph (c)(8)(v) of this section.

(ii) *Impermissible assets.* For purposes of this paragraph (c)(8), the assets or holdings of the issuing entity shall not include any of the following:

(A) A security, including an asset-backed security, or an interest in an equity or debt security other than as permitted in paragraph (c)(8)(iii) of this section;

(B) A derivative, other than a derivative that meets the requirements of paragraph (c)(8)(iv) of this section; or

(C) A commodity forward contract.

(iii) *Permitted securities.* Notwithstanding paragraph (c)(8)(ii)(A) of this section, the issuing entity may hold securities if those securities are:

(A) Cash equivalents for purposes of the rights and assets in paragraph (c)(8)(i)(B) of this section; or

(B) Securities received in lieu of debts previously contracted with respect to the loans supporting the asset-backed securities.

(iv) *Derivatives.* The holdings of derivatives by the issuing entity shall be limited to interest rate or foreign exchange derivatives that satisfy all of the following conditions:

(A) The written terms of the derivative directly relate to the loans, the asset-backed securities, or the contractual rights of other assets described in paragraph (c)(8)(i)(B) of this section; and

(B) The derivatives reduce the interest rate and/or foreign exchange risks related to the loans, the asset-backed securities, or the contractual rights or other assets described in paragraph (c)(8)(i)(B) of this section.

(v) *Special units of beneficial interest and collateral certificates.* The assets or holdings of the issuing entity may include collateral certificates and special units of beneficial interest issued by a special purpose vehicle, provided that:

(A) The special purpose vehicle that issues the special unit of beneficial interest or collateral certificate meets the requirements in this paragraph (c)(8);

(B) The special unit of beneficial interest or collateral certificate is used for the sole purpose of transferring to the issuing entity for the loan securitization the economic risks and benefits of the assets that are permissible for loan securitizations under this paragraph (c)(8) and does not directly or indirectly transfer any interest in any other economic or financial exposure;

(C) The special unit of beneficial interest or collateral certificate is created solely to satisfy legal requirements or otherwise facilitate the structuring of the loan securitization; and

(D) The special purpose vehicle that issues the special unit of beneficial interest or collateral certificate and the issuing entity are established under the direction of the same entity that initiated the loan securitization.

(9) *Qualifying asset-backed commercial paper conduits.* (i) An issuing entity for asset-backed commercial paper that satisfies all of the following requirements:

(A) The asset-backed commercial paper conduit holds only:

(*1*) Loans and other assets permissible for a loan securitization under paragraph (c)(8)(i) of this section; and

(*2*) Asset-backed securities supported solely by assets that are permissible for loan securitizations under paragraph (c)(8)(i) of this section and acquired by the asset-backed commercial paper conduit as part of an initial issuance either directly from the issuing entity of the asset-backed securities or directly from an underwriter in the distribution of the asset-backed securities;

(B) The asset-backed commercial paper conduit issues only asset-backed securities, comprised of a residual interest and securities with a legal maturity of 397 days or less; and

(C) A regulated liquidity provider has entered into a legally binding commitment to provide full and unconditional liquidity coverage with respect to all of the outstanding asset-backed securities issued by the asset-backed commercial paper conduit (other than any residual interest) in the event that funds are required to redeem maturing asset-backed securities.

(ii) For purposes of this paragraph (c)(9), a regulated liquidity provider means:

(A) A depository institution, as defined in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c));

(B) A bank holding company, as defined in section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(a)), or a subsidiary thereof;

(C) A savings and loan holding company, as defined in section 10a of the Home Owners' Loan Act (12 U.S.C. 1467a), provided all or substantially all of the holding company's activities are permissible for a financial holding company under section 4(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(k)), or a subsidiary thereof;

(D) A foreign bank whose home country supervisor, as defined in § 211.21(q) of the Board's Regulation K (12 CFR 211.21(q)), has adopted capital standards consistent with the Capital Accord for the Basel Committee on banking Supervision, as amended, and that is subject to such standards, or a subsidiary thereof; or

(E) The United States or a foreign sovereign.

(10) *Qualifying covered bonds*—(i) *Scope.* An entity owning or holding a dynamic or fixed pool of loans or other assets as provided in paragraph (c)(8) of this section for the benefit of the holders of covered bonds, provided that the assets in the pool are comprised solely of assets that meet the conditions in paragraph (c)(8)(i) of this section.

(ii) *Covered bond.* For purposes of this paragraph (c)(10), a covered bond means:

(A) A debt obligation issued by an entity that meets the definition of foreign banking organization, the payment obligations of which are fully and unconditionally guaranteed by an entity that meets the conditions set forth in paragraph (c)(10)(i) of this section; or

(B) A debt obligation of an entity that meets the conditions set forth in paragraph (c)(10)(i) of this section, provided that the payment obligations are fully and unconditionally guaranteed by an entity that meets the definition of foreign banking organization and the entity is a wholly-owned subsidiary, as defined in paragraph (c)(2) of this section, of such foreign banking organization.

(11) *SBICs and public welfare investment funds.* An issuer:

(i) That is a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), or that has received from the Small Business Administration notice to proceed to qualify for a license as a small business investment company, which notice or license has not been revoked; or

(ii) The business of which is to make investments that are:

(A) Designed primarily to promote the public welfare, of the type permitted under paragraph (11) of section 5136 of the Revised Statutes of the United States (12 U.S.C. 24), including the welfare of low- and moderate-income communities or families (such as providing housing, services, or jobs); or

(B) Qualified rehabilitation expenditures with respect to a qualified rehabilitated building or certified historic structure, as such terms are defined in section 47 of the Internal Revenue Code of 1986 or a similar State historic tax credit program.

(12) *Registered investment companies and excluded entities.* An issuer:

(i) That is registered as an investment company under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8), or that is formed and operated pursuant to a written plan to become a registered investment company as described in § 351.20(e)(3) of subpart D and that complies with the requirements of section 18 of the Investment Company Act of 1940 (15 U.S.C. 80a–18);

(ii) That may rely on an exclusion or exemption from the definition of ''investment company'' under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) other than the exclusions contained in section 3(c)(1) and 3(c)(7) of that Act; or

(iii) That has elected to be regulated as a business development company pursuant to section 54(a) of that Act (15 U.S.C. 80a–53) and has not withdrawn its election, or that is formed and operated pursuant to a written plan to become a business development company as described in § 351.20(e)(3) of subpart D and that complies with the requirements of section 61 of the Investment Company Act of 1940 (15 U.S.C. 80a–60).

(13) *Issuers in conjunction with the FDIC's receivership or conservatorship operations.* An issuer that is an entity formed by or on behalf of the FDIC for the purpose of facilitating the disposal of assets acquired in the FDIC's capacity as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(14) *Other excluded issuers.* (i) Any issuer that the appropriate Federal banking agencies, the SEC, and the CFTC jointly determine the exclusion of which is consistent with the purposes of section 13 of the BHC Act.

(ii) A determination made under paragraph (c)(14)(i) of this section will be promptly made public.

(d) *Definition of other terms related to covered funds.* For purposes of this subpart:

(1) *Applicable accounting standards* means U.S. generally accepted accounting principles, or such other accounting standards applicable to a banking entity that the FDIC determines are appropriate and that the banking entity uses in the ordinary course of its business in preparing its consolidated financial statements.

(2) *Asset-backed security* has the meaning specified in Section 3(a)(79) of the Exchange Act (15 U.S.C. 78c(a)(79)).

(3) *Director* has the same meaning as provided in section 215.2(d)(1) of the Board's Regulation O (12 CFR 215.2(d)(1)).

(4) *Issuer* has the same meaning as in section 2(a)(22) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(22)).

(5) *Issuing entity* means with respect to asset-backed securities the special purpose vehicle that owns or holds the pool assets underlying asset-backed securities and in whose name the asset-backed securities supported or serviced by the pool assets are issued.

(6) *Ownership interest*—(i) *Ownership interest* means any equity, partnership, or other similar interest. An ''other similar interest'' means an interest that:

(A) Has the right to participate in the selection or removal of a general partner, managing member, member of the board of directors or trustees, investment manager, investment adviser, or commodity trading advisor of the covered fund (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);

(B) Has the right under the terms of the interest to receive a share of the income, gains or profits of the covered fund;

(C) Has the right to receive the underlying assets of the covered fund after all other interests have been redeemed and/or paid in full (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);

(D) Has the right to receive all or a portion of excess spread (the positive difference, if any, between the aggregate interest payments received from the underlying assets of the covered fund and the aggregate interest paid to the holders of other outstanding interests);

(E) Provides under the terms of the interest that the amounts payable by the covered fund with respect to the interest could be reduced based on losses arising from the underlying assets of the covered fund, such as allocation of losses, write-downs or charge-offs of the outstanding principal balance, or reductions in the amount of interest due and payable on the interest;

(F) Receives income on a pass-through basis from the covered fund, or has a rate of return that is determined by reference to the performance of the underlying assets of the covered fund; or

(G) Any synthetic right to have, receive, or be allocated any of the rights in paragraphs (d)(6)(i)(A) through (F) of this section.

(ii) *Ownership interest* does not include: *Restricted profit interest.* An interest held by an entity (or an employee or former employee thereof) in a covered fund for which the entity (or employee thereof) serves as investment manager, investment adviser, commodity trading advisor, or other service provider so long as:

(A) The sole purpose and effect of the interest is to allow the entity (or employee or former employee thereof) to share in the profits of the covered fund as performance compensation for the investment management, investment advisory, commodity trading advisory, or other services provided to the covered fund by the entity (or employee or former employee thereof), provided that the entity (or employee or former employee thereof) may be obligated under the terms of such interest to return profits previously received;

(B) All such profit, once allocated, is distributed to the entity (or employee or former employee thereof) promptly after being earned or, if not so distributed, is retained by the covered fund for the sole purpose of establishing a reserve amount to satisfy contractual obligations with respect to subsequent losses of the covered fund and such undistributed profit of the entity (or employee or former employee thereof) does not share in the subsequent investment gains of the covered fund;

(C) Any amounts invested in the covered fund, including any amounts paid by the entity (or employee or former employee thereof) in connection with obtaining the restricted profit interest, are within the limits of § 351.12 of this subpart; and

(D) The interest is not transferable by the entity (or employee or former employee thereof) except to an affiliate thereof (or an employee of the banking entity or affiliate), to immediate family members, or through the intestacy, of the employee or former employee, or in connection with a sale of the business that gave rise to the restricted profit interest by the entity (or employee or former employee thereof) to an unaffiliated party that provides investment management, investment advisory, commodity trading advisory, or other services to the fund.

(7) *Prime brokerage transaction* means any transaction that would be a covered transaction, as defined in section 23A(b)(7) of the Federal Reserve Act (12 U.S.C. 371c(b)(7)), that is provided in connection with custody, clearance and settlement, securities borrowing or lending services, trade execution, financing, or data, operational, and administrative support.

(8) *Resident of the United States* means a person that is a ''U.S. person'' as defined in rule 902(k) of the SEC's Regulation S (17 CFR 230.902(k)).

(9) *Sponsor* means, with respect to a covered fund:

(i) To serve as a general partner, managing member, or trustee of a covered fund, or to serve as a commodity pool operator with respect to a covered fund as defined in (b)(1)(ii) of this section;

(ii) In any manner to select or to control (or to have employees, officers, or directors, or agents who constitute) a majority of the directors, trustees, or management of a covered fund; or

(iii) To share with a covered fund, for corporate, marketing, promotional, or other purposes, the same name or a variation of the same name, except as permitted under § 351.11(a)(6).

(10) *Trustee.* (i) For purposes of paragraph (d)(9) of this section and § 351.11 of subpart C, a trustee does not include:

(A) A trustee that does not exercise investment discretion with respect to a covered fund, including a trustee that is subject to the direction of an unaffiliated named fiduciary who is not a trustee pursuant to section 403(a)(1) of the Employee's Retirement Income Security Act (29 U.S.C. 1103(a)(1)); or

(B) A trustee that is subject to fiduciary standards imposed under foreign law that are substantially equivalent to those described in paragraph (d)(10)(i)(A) of this section;

(ii) Any entity that directs a person described in paragraph (d)(10)(i) of this section, or that possesses authority and discretion to manage and control the investment decisions of a covered fund for which such person serves as trustee, shall be considered to be a trustee of such covered fund.

§ 351.11 Permitted organizing and offering, underwriting, and market making with respect to a covered fund.

(a) *Organizing and offering a covered fund in general.* Notwithstanding § 351.10(a) of this subpart, a banking entity is not prohibited from acquiring or retaining an ownership interest in, or acting as sponsor to, a covered fund in connection with, directly or indirectly, organizing and offering a covered fund, including serving as a general partner, managing member, trustee, or commodity pool operator of the covered fund and in any manner selecting or controlling (or having employees, officers, directors, or agents who constitute) a majority of the directors, trustees, or management of the covered fund, including any necessary expenses for the foregoing, only if:

(1) The banking entity (or an affiliate thereof) provides *bona fide* trust, fiduciary, investment advisory, or commodity trading advisory services;

(2) The covered fund is organized and offered only in connection with the provision of *bona fide* trust, fiduciary, investment advisory, or commodity trading advisory services and only to persons that are customers of such services of the banking entity (or an affiliate thereof), pursuant to a written plan or similar documentation outlining how the banking entity or such affiliate intends to provide advisory or similar services to its customers through organizing and offering such fund;

(3) The banking entity and its affiliates do not acquire or retain an ownership interest in the covered fund except as permitted under § 351.12 of this subpart;

(4) The banking entity and its affiliates comply with the requirements of § 351.14 of this subpart;

(5) The banking entity and its affiliates do not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests;

(6) The covered fund, for corporate, marketing, promotional, or other purposes:

(i) Does not share the same name or a variation of the same name with the banking entity (or an affiliate thereof), except that a covered fund may share the same name or a variation of the same name with a banking entity that is an investment adviser to the covered fund if:

(A) The investment adviser is not an insured depository institution, a company that controls an insured depository institution, or a company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(B) The investment adviser does not share the same name or a variation of the same name as an insured depository institution, a company that controls an insured depository institution, or a company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(ii) Does not use the word ''bank'' in its name;

(7) No director or employee of the banking entity (or an affiliate thereof) takes or retains an ownership interest in the covered fund, except for any director or employee of the banking entity or such affiliate who is directly engaged in providing investment advisory, commodity trading advisory, or other services to the covered fund at the time the director or employee takes the ownership interest; and

(8) The banking entity:

(i) Clearly and conspicuously discloses, in writing, to any prospective and actual investor in the covered fund (such as through disclosure in the covered fund's offering documents):

(A) That ''any losses in [such covered fund] will be borne solely by investors in [the covered fund] and not by [the banking entity] or its affiliates; therefore, [the banking entity's] losses in [such covered fund] will be limited to losses attributable to the ownership interests in the covered fund held by [the banking entity] and any affiliate in its capacity as investor in the [covered fund] or as beneficiary of a restricted profit interest held by [the banking entity] or any affiliate'';

(B) That such investor should read the fund offering documents before investing in the covered fund;

(C) That the ''ownership interests in the covered fund are not insured by the FDIC, and are not deposits, obligations of, or endorsed or guaranteed in any way, by any banking entity'' (unless that happens to be the case); and

(D) The role of the banking entity and its affiliates and employees in sponsoring or providing any services to the covered fund; and

(ii) Complies with any additional rules of the appropriate Federal banking agencies, the SEC, or the CFTC, as provided in section 13(b)(2) of the BHC Act, designed to ensure that losses in such covered fund are borne solely by investors in the covered fund and not by the covered banking entity and its affiliates.

(b) *Organizing and offering an issuing entity of asset-backed securities.* (1) Notwithstanding § 351.10(a) of this subpart, a banking entity is not prohibited from acquiring or retaining an ownership interest in, or acting as sponsor to, a covered fund that is an issuing entity of asset-backed securities in connection with, directly or indirectly, organizing and offering that issuing entity, so long as the banking entity and its affiliates comply with all of the requirements of paragraph (a)(3) through (8) of this section.

(2) For purposes of this paragraph (b), organizing and offering a covered fund that is an issuing entity of asset-backed securities means acting as the securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78*o*–11(a)(3)) of the issuing entity, or acquiring or retaining an ownership interest in the issuing entity as required by section 15G of that Act (15 U.S.C. 78*o*–11) and the implementing regulations issued thereunder.

(c) *Underwriting and market making in ownership interests of a covered fund.* The prohibition contained in § 351.10(a) of this subpart does not apply to a banking entity's underwriting activities or market making-related activities involving a covered fund so long as:

(1) Those activities are conducted in accordance with the requirements of § 351.4(a) or § 351.4(b) of subpart B, respectively;

(2) With respect to any banking entity (or any affiliate thereof) that: Acts as a sponsor, investment adviser or commodity trading advisor to a particular covered fund or otherwise acquires and retains an ownership interest in such covered fund in reliance on paragraph (a) of this section; acquires and retains an ownership interest in such covered fund and is either a securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78o–11(a)(3)), or is acquiring and retaining an ownership interest in such covered fund in compliance with section 15G of that Act (15 U.S.C. 78o–11) and the implementing regulations issued thereunder each as permitted by paragraph (b) of this section; or, directly or indirectly, guarantees, assumes, or otherwise insures the obligations or performance of the covered fund or of any covered fund in which such fund invests, then in each such case any ownership interests acquired or retained by the banking entity and its affiliates in connection with underwriting and market making related activities for that particular covered fund are included in the calculation of ownership interests permitted to be held by the banking entity and its affiliates under the limitations of § 351.12(a)(2)(ii) and § 351.12(d) of this subpart; and

(3) With respect to any banking entity, the aggregate value of all ownership interests of the banking entity and its affiliates in all covered funds acquired and retained under § 351.11 of this subpart, including all covered funds in which the banking entity holds an ownership interest in connection with underwriting and market making related activities permitted under this paragraph (c), are included in the calculation of all ownership interests under § 351.12(a)(2)(iii) and § 351.12(d) of this subpart.

§ 351.12 Permitted investment in a covered fund.

(a) *Authority and limitations on permitted investments in covered funds.* (1) Notwithstanding the prohibition contained in § 351.10(a) of this subpart, a banking entity may acquire and retain an ownership interest in a covered fund that the banking entity or an affiliate thereof organizes and offers pursuant to § 351.11, for the purposes of:

(i) *Establishment.* Establishing the fund and providing the fund with sufficient initial equity for investment to permit the fund to attract unaffiliated investors, subject to the limits contained in paragraphs (a)(2)(i) and (iii) of this section; or

(ii) *De minimis investment.* Making and retaining an investment in the covered fund subject to the limits contained in paragraphs (a)(2)(ii) and (iii) of this section.

(2) *Investment limits*—(i) *Seeding period.* With respect to an investment in any covered fund made or held pursuant to paragraph (a)(1)(i) of this section, the banking entity and its affiliates:

(A) Must actively seek unaffiliated investors to reduce, through redemption, sale, dilution, or other methods, the aggregate amount of all ownership interests of the banking entity in the covered fund to the amount permitted in paragraph (a)(2)(i)(B) of this section; and

(B) Must, no later than 1 year after the date of establishment of the fund (or such longer period as may be provided by the Board pursuant to paragraph (e) of this section), conform its ownership interest in the covered fund to the limits in paragraph (a)(2)(ii) of this section;

(ii) *Per-fund limits.* (A) Except as provided in paragraph (a)(2)(ii)(B) of this section, an investment by a banking entity and its affiliates in any covered fund made or held pursuant to paragraph (a)(1)(ii) of this section may not exceed 3 percent of the total number or value of the outstanding ownership interests of the fund.

(B) An investment by a banking entity and its affiliates in a covered fund that is an issuing entity of asset-backed securities may not exceed 3 percent of the total fair market value of the ownership interests of the fund measured in accordance with paragraph (b)(3) of this section, unless a greater percentage is retained by the banking entity and its affiliates in compliance with the requirements of section 15G of the Exchange Act (15 U.S.C. 78*o*–11) and the implementing regulations issued thereunder, in which case the investment by the banking entity and its affiliates in the covered fund may not exceed the amount, number, or value of ownership interests of the fund required under section 15G of the Exchange Act and the implementing regulations issued thereunder.

(iii) *Aggregate limit.* The aggregate value of all ownership interests of the banking entity and its affiliates in all covered funds acquired or retained under this section may not exceed 3 percent of the tier 1 capital of the banking entity, as provided under paragraph (c) of this section, and shall be calculated as of the last day of each calendar quarter.

(iv) *Date of establishment.* For purposes of this section, the date of establishment of a covered fund shall be:

(A) *In general.* The date on which the investment adviser or similar entity to the covered fund begins making investments pursuant to the written investment strategy for the fund;

(B) *Issuing entities of asset-backed securities.* In the case of an issuing entity of asset-backed securities, the date on which the assets are initially transferred into the issuing entity of asset-backed securities.

(b) *Rules of construction*—(1) *Attribution of ownership interests to a covered banking entity.* (i) For purposes of paragraph (a)(2) of this section, the amount and value of a banking entity's permitted investment in any single covered fund shall include any ownership interest held under § 351.12 directly by the banking entity, including any affiliate of the banking entity.

(ii) *Treatment of registered investment companies, SEC-regulated business development companies and foreign public funds.* For purposes of paragraph (b)(1)(i) of this section, a registered investment company, SEC-regulated business development companies or foreign public fund as described in § 351.10(c)(1) of this subpart will not be considered to be an affiliate of the banking entity so long as the banking entity:

(A) Does not own, control, or hold with the power to vote 25 percent or more of the voting shares of the company or fund; and

(B) Provides investment advisory, commodity trading advisory, administrative, and other services to the company or fund in compliance with the limitations under applicable regulation, order, or other authority.

(iii) *Covered funds.* For purposes of paragraph (b)(1)(i) of this section, a covered fund will not be considered to be an affiliate of a banking entity so long as the covered fund is held in compliance with the requirements of this subpart.

(iv) *Treatment of employee and director investments financed by the banking entity.* For purposes of paragraph (b)(1)(i) of this section, an investment by a director or employee of a banking entity who acquires an ownership interest in his or her personal capacity in a covered fund sponsored by the banking entity will be attributed to the banking entity if the banking entity, directly or indirectly, extends financing for the purpose of enabling the director or employee to acquire the ownership interest in the fund and the financing is used to acquire such ownership interest in the covered fund.

(2) *Calculation of permitted ownership interests in a single covered fund.* Except as provided in paragraph (b)(3) or (4), for purposes of determining whether an investment in a single covered fund complies with the restrictions on ownership interests under paragraphs (a)(2)(i)(B) and (a)(2)(ii)(A) of this section:

(i) The aggregate number of the outstanding ownership interests held by the banking entity shall be the total number of ownership interests held under this section by the banking entity in a covered fund divided by the total number of ownership interests held by all entities in that covered fund, as of the last day of each calendar quarter (both measured without regard to committed funds not yet called for investment);

(ii) The aggregate value of the outstanding ownership interests held by the banking entity shall be the aggregate fair market value of all investments in and capital contributions made to the covered fund by the banking entity, divided by the value of all investments in and capital contributions made to that covered fund by all entities, as of the last day of each calendar quarter (all measured without regard to committed funds not yet called for investment). If fair market value cannot be determined, then the value shall be the historical cost basis of all investments in and contributions made by the banking entity to the covered fund;

(iii) For purposes of the calculation under paragraph (b)(2)(ii) of this section, once a valuation methodology is chosen, the banking entity must calculate the value of its investment and the investments of all others in the covered fund in the same manner and according to the same standards.

(3) *Issuing entities of asset-backed securities.* In the case of an ownership interest in an issuing entity of asset-backed securities, for purposes of determining whether an investment in a single covered fund complies with the restrictions on ownership interests under paragraphs (a)(2)(i)(B) and (a)(2)(ii)(B) of this section:

(i) For securitizations subject to the requirements of section 15G of the Exchange Act (15 U.S.C. 78o–11), the calculations shall be made as of the date and according to the valuation methodology applicable pursuant to the requirements of section 15G of the Exchange Act (15 U.S.C. 78o–11) and the implementing regulations issued thereunder; or

(ii) For securitization transactions completed prior to the compliance date of such implementing regulations (or as to which such implementing regulations do not apply), the calculations shall be made as of the date of establishment as defined in paragraph (a)(2)(iv)(B) of this section or such earlier date on which the transferred assets have been valued for purposes of transfer to the covered fund, and thereafter only upon the date on which additional securities of the issuing entity of asset-backed securities are priced for purposes of the sales of ownership interests to unaffiliated investors.

(iii) For securitization transactions completed prior to the compliance date of such implementing regulations (or as to which such implementing regulations do not apply), the aggregate value of the outstanding ownership interests in the covered fund shall be the fair market value of the assets transferred to the issuing entity of the securitization and any other assets otherwise held by the issuing entity at such time, determined in a manner that is consistent with its determination of the fair market value of those assets for financial statement purposes.

(iv) For purposes of the calculation under paragraph (b)(3)(iii) of this section, the valuation methodology used to calculate the fair market value of the ownership interests must be the same for both the ownership interests held by a banking entity and the ownership interests held by all others in the covered fund in the same manner and according to the same standards.

(4) *Multi-tier fund investments*—(i) *Master-feeder fund investments.* If the principal investment strategy of a covered fund (the ''feeder fund'') is to invest substantially all of its assets in another single covered fund (the ''master fund''), then for purposes of the investment limitations in paragraphs (a)(2)(i)(B) and (a)(2)(ii) of this section, the banking entity's permitted investment in such funds shall be measured only by reference to the value of the master fund. The banking entity's permitted investment in the master fund shall include any investment by the banking entity in the master fund, as well as the banking entity's pro-rata share of any ownership interest of the master fund that is held through the feeder fund; and

(ii) *Fund-of-funds investments.* If a banking entity organizes and offers a covered fund pursuant to § 351.11 of this subpart for the purpose of investing in other covered funds (a ''fund of funds'') and that fund of funds itself invests in another covered fund that the banking entity is permitted to own, then the banking entity's permitted investment in that other fund shall include any investment by the banking entity in that other fund, as well as the banking entity's pro-rata share of any ownership interest of the fund that is held through the fund of funds. The investment of the banking entity may not represent more than 3 percent of the amount or value of any single covered fund.

(c) *Aggregate permitted investments in all covered funds.* (1) For purposes of paragraph (a)(2)(iii) of this section, the aggregate value of all ownership interests held by a banking entity shall be the sum of all amounts paid or contributed by the banking entity in connection with acquiring or retaining an ownership interest in covered funds (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 351.10(d)(6)(ii) of this subpart), on a historical cost basis.

(2) *Calculation of tier 1 capital.* For purposes of paragraph (a)(2)(iii) of this section:

(i) *Entities that are required to hold and report tier 1 capital.* If a banking entity is required to calculate and report tier 1 capital, the banking entity's tier 1 capital shall be equal to the amount of tier 1 capital of the banking entity as of the last day of the most recent calendar quarter, as reported to its primary financial regulatory agency; and

(ii) If a banking entity is not required to calculate and report tier 1 capital, the banking entity's tier 1 capital shall be determined to be equal to:

(A) In the case of a banking entity that is controlled, directly or indirectly, by a depository institution that calculates and reports tier 1 capital, be equal to the amount of tier 1 capital reported by such controlling depository institution in the manner described in paragraph (c)(2)(i) of this section;

(B) In the case of a banking entity that is not controlled, directly or indirectly, by a depository institution that calculates and reports tier 1 capital:

(*1*) *Bank holding company subsidiaries.* If the banking entity is a subsidiary of a bank holding company or company that is treated as a bank holding company, be equal to the amount of tier 1 capital reported by the top-tier affiliate of such covered banking entity that calculates and reports tier 1 capital in the manner described in paragraph (c)(2)(i) of this section; and

(*2*) *Other holding companies and any subsidiary or affiliate thereof.* If the banking entity is not a subsidiary of a bank holding company or a company that is treated as a bank holding company, be equal to the total amount of shareholders' equity of the top-tier affiliate within such organization as of the last day of the most recent calendar quarter that has ended, as determined under applicable accounting standards.

(iii) *Treatment of foreign banking entities*—(A) *Foreign banking entities.* Except as provided in paragraph (c)(2)(iii)(B) of this section, with respect to a banking entity that is not itself, and is not controlled directly or indirectly by, a banking entity that is located or organized under the laws of the United States or of any State, the tier 1 capital of the banking entity shall be the consolidated tier 1 capital of the entity as calculated under applicable home country standards.

(B) *U.S. affiliates of foreign banking entities.* With respect to a banking entity that is located or organized under the laws of the United States or of any State and is controlled by a foreign banking entity identified under paragraph (c)(2)(iii)(A) of this section, the banking entity's tier 1 capital shall be as calculated under paragraphs (c)(2)(i) or (ii) of this section.

(d) *Capital treatment for a permitted investment in a covered fund.* For purposes of calculating compliance with the applicable regulatory capital requirements, a banking entity shall deduct from the banking entity's tier 1 capital (as determined under paragraph (c)(2) of this section) the greater of:

(1) The sum of all amounts paid or contributed by the banking entity in connection with acquiring or retaining an ownership interest (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 351.10(d)(6)(ii) of subpart C), on a historical cost basis, plus any earnings received; and

(2) The fair market value of the banking entity's ownership interests in the covered fund as determined under paragraph (b)(2)(ii) or (b)(3) of this section (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 351.10(d)(6)(ii) of subpart C), if the banking entity accounts for the profits (or losses) of the fund investment in its financial statements.

(e) *Extension of time to divest an ownership interest.* (1) Upon application by a banking entity, the Board may extend the period under paragraph (a)(2)(i) of this section for up to 2 additional years if the Board finds that an extension would be consistent with safety and soundness and not detrimental to the public interest. An application for extension must:

(i) Be submitted to the Board at least 90 days prior to the expiration of the applicable time period;

(ii) Provide the reasons for application, including information that addresses the factors in paragraph (e)(2) of this section; and

(iii) Explain the banking entity's plan for reducing the permitted investment in a covered fund through redemption, sale, dilution or other methods as required in paragraph (a)(2) of this section.

(2) *Factors governing Board determinations.* In reviewing any application under paragraph (e)(1) of this section, the Board may consider all the facts and circumstances related to the permitted investment in a covered fund, including:

(i) Whether the investment would result, directly or indirectly, in a material exposure by the banking entity to high-risk assets or high-risk trading strategies;

(ii) The contractual terms governing the banking entity's interest in the covered fund;

(iii) The date on which the covered fund is expected to have attracted sufficient investments from investors unaffiliated with the banking entity to enable the banking entity to comply with the limitations in paragraph (a)(2)(i) of this section;

(iv) The total exposure of the covered banking entity to the investment and the risks that disposing of, or maintaining, the investment in the covered fund may pose to the banking entity and the financial stability of the United States;

(v) The cost to the banking entity of divesting or disposing of the investment within the applicable period;

(vi) Whether the investment or the divestiture or conformance of the investment would involve or result in a material conflict of interest between the banking entity and unaffiliated parties, including clients, customers or counterparties to which it owes a duty;

(vi) The banking entity's prior efforts to reduce through redemption, sale, dilution, or other methods its ownership interests in the covered fund, including activities related to the marketing of interests in such covered fund;

(viii) Market conditions; and

(ix) Any other factor that the Board believes appropriate.

(3) *Authority to impose restrictions on activities or investment during any extension period.* The Board may impose such conditions on any extension approved under paragraph (e)(1) of this section as the Board determines are necessary or appropriate to protect the safety and soundness of the banking entity or the financial stability of the United States, address material conflicts of interest or other unsound banking practices, or otherwise further the purposes of section 13 of the BHC Act and this part.

(4) *Consultation.* In the case of a banking entity that is primarily regulated by another Federal banking agency, the SEC, or the CFTC, the Board will consult with such agency prior to acting on an application by the banking entity for an extension under paragraph (e)(1) of this section.

§ 351.13 Other permitted covered fund activities and investments.

(a) *Permitted risk-mitigating hedging activities.* (1) The prohibition contained in § 351.10(a) of this subpart does not apply with respect to an ownership interest in a covered fund acquired or retained by a banking entity that is designed to demonstrably reduce or otherwise significantly mitigate the specific, identifiable risks to the banking entity in connection with a compensation arrangement with an employee of the banking entity or an affiliate thereof that directly provides investment advisory, commodity trading advisory or other services to the covered fund.

(2) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under this paragraph (a) only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures; and

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(ii) The acquisition or retention of the ownership interest:

(A) Is made in accordance with the written policies, procedures and internal controls required under this section;

(B) At the inception of the hedge, is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates one or more specific, identifiable risks arising in connection with the compensation arrangement with the employee that directly provides investment advisory, commodity trading advisory, or other services to the covered fund;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section; and

(D) Is subject to continuing review, monitoring and management by the banking entity.

(iii) The compensation arrangement relates solely to the covered fund in which the banking entity or any affiliate has acquired an ownership interest pursuant to this paragraph and such compensation arrangement provides that any losses incurred by the banking entity on such ownership interest will be offset by corresponding decreases in amounts payable under such compensation arrangement.

(b) *Certain permitted covered fund activities and investments outside of the United States.* (1) The prohibition contained in § 351.10(a) of this subpart does not apply to the acquisition or retention of any ownership interest in, or the sponsorship of, a covered fund by a banking entity only if:

(i) The banking entity is not organized or directly or indirectly controlled by a banking entity that is organized under the laws of the United States or of one or more States;

(ii) The activity or investment by the banking entity is pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act;

(iii) No ownership interest in the covered fund is offered for sale or sold to a resident of the United States; and

(iv) The activity or investment occurs solely outside of the United States.

(2) An activity or investment by the banking entity is pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act for purposes of paragraph (b)(1)(ii) of this section only if:

(i) The activity or investment is conducted in accordance with the requirements of this section; and

(ii)(A) With respect to a banking entity that is a foreign banking organization, the banking entity meets the qualifying foreign banking organization requirements of section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c) or (e)), as applicable; or

(B) With respect to a banking entity that is not a foreign banking organization, the banking entity is not organized under the laws of the United States or of one or more States and the banking entity, on a fully-consolidated basis, meets at least two of the following requirements:

(*1*) Total assets of the banking entity held outside of the United States exceed total assets of the banking entity held in the United States;

(*2*) Total revenues derived from the business of the banking entity outside of the United States exceed total revenues derived from the business of the banking entity in the United States; or

(*3*) Total net income derived from the business of the banking entity outside of the United States exceeds total net income derived from the business of the banking entity in the United States.

(3) An ownership interest in a covered fund is not offered for sale or sold to a resident of the United States for purposes of paragraph (b)(1)(iii) of this section only if it is sold or has been sold pursuant to an offering that does not target residents of the United States.

(4) An activity or investment occurs solely outside of the United States for purposes of paragraph (b)(1)(iv) of this section only if:

(i) The banking entity acting as sponsor, or engaging as principal in the acquisition or retention of an ownership interest in the covered fund, is not itself, and is not controlled directly or indirectly by, a banking entity that is located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to acquire or retain the ownership interest or act as sponsor to the covered fund is not located in the United States or organized under the laws of the United States or of any State;

(iii) The investment or sponsorship, including any transaction arising from risk-mitigating hedging related to an ownership interest, is not accounted for as principal directly or indirectly on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State; and

(iv) No financing for the banking entity's ownership or sponsorship is provided, directly or indirectly, by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

(5) For purposes of this section, a U.S. branch, agency, or subsidiary of a foreign bank, or any subsidiary thereof, is located in the United States; however, a foreign bank of which that branch, agency, or subsidiary is a part is not considered to be located in the United States solely by virtue of operation of the U.S. branch, agency, or subsidiary.

(c) *Permitted covered fund interests and activities by a regulated insurance company.* The prohibition contained in § 351.10(a) of this subpart does not apply to the acquisition or retention by an insurance company, or an affiliate thereof, of any ownership interest in, or the sponsorship of, a covered fund only if:

(1) The insurance company or its affiliate acquires and retains the ownership interest solely for the general account of the insurance company or for one or more separate accounts established by the insurance company;

(2) The acquisition and retention of the ownership interest is conducted in compliance with, and subject to, the insurance company investment laws, regulations, and written guidance of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law, regulation, or written guidance described in paragraph (c)(2) of this section is insufficient to protect the safety and soundness of the banking entity, or the financial stability of the United States.

§ 351.14 Limitations on relationships with a covered fund.

(a) *Relationships with a covered fund.* (1) Except as provided for in paragraph (a)(2) of this section, no banking entity that serves, directly or indirectly, as the investment manager, investment adviser, commodity trading advisor, or sponsor to a covered fund, that organizes and offers a covered fund pursuant to § 351.11 of this subpart, or that continues to hold an ownership interest in accordance with § 351.11(b) of this subpart, and no affiliate of such entity, may enter into a transaction with the covered fund, or with any other covered fund that is controlled by such covered fund, that would be a covered transaction as defined in section 23A of the Federal Reserve Act (12 U.S.C. 371c(b)(7)), as if such banking entity and the affiliate thereof were a member bank and the covered fund were an affiliate thereof.

(2) Notwithstanding paragraph (a)(1) of this section, a banking entity may:

(i) Acquire and retain any ownership interest in a covered fund in accordance with the requirements of § 351.11, § 351.12, or § 351.13 of this subpart; and

(ii) Enter into any prime brokerage transaction with any covered fund in which a covered fund managed, sponsored, or advised by such banking entity (or an affiliate thereof) has taken an ownership interest, if:

(A) The banking entity is in compliance with each of the limitations set forth in § 351.11 of this subpart with respect to a covered fund organized and offered by such banking entity (or an affiliate thereof);

(B) The chief executive officer (or equivalent officer) of the banking entity certifies in writing annually to the FDIC (with a duty to update the certification if the information in the certification materially changes) that the banking entity does not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests; and

(C) The Board has not determined that such transaction is inconsistent with the safe and sound operation and condition of the banking entity.

(b) *Restrictions on transactions with covered funds.* A banking entity that serves, directly or indirectly, as the investment manager, investment adviser, commodity trading advisor, or sponsor to a covered fund, or that organizes and offers a covered fund pursuant to § 351.11 of this subpart, or that continues to hold an ownership interest in accordance with § 351.11(b) of this subpart, shall be subject to section 23B of the Federal Reserve Act (12 U.S.C. 371c–1), as if such banking entity were a member bank and such covered fund were an affiliate thereof.

(c) *Restrictions on prime brokerage transactions.* A prime brokerage transaction permitted under paragraph (a)(2)(ii) of this section shall be subject to section 23B of the Federal Reserve Act (12 U.S.C. 371c–1) as if the counterparty were an affiliate of the banking entity.

§ 351.15 Other limitations on permitted covered fund activities.

(a) No transaction, class of transactions, or activity may be deemed permissible under §§ 351.11 through 351.13 of this subpart if the transaction, class of transactions, or activity would:

(1) Involve or result in a material conflict of interest between the banking entity and its clients, customers, or counterparties;

(2) Result, directly or indirectly, in a material exposure by the banking entity to a high-risk asset or a high-risk trading strategy; or

(3) Pose a threat to the safety and soundness of the banking entity or to the financial stability of the United States.

(b) *Definition of material conflict of interest.* (1) For purposes of this section, a material conflict of interest between a banking entity and its clients, customers, or counterparties exists if the banking entity engages in any transaction, class of transactions, or activity that would involve or result in the banking entity's interests being materially adverse to the interests of its client, customer, or counterparty with respect to such transaction, class of transactions, or activity, and the banking entity has not taken at least one of the actions in paragraph (b)(2) of this section.

(2) Prior to effecting the specific transaction or class or type of transactions, or engaging in the specific activity, the banking entity:

(i) *Timely and effective disclosure.* (A) Has made clear, timely, and effective disclosure of the conflict of interest, together with other necessary information, in reasonable detail and in a manner sufficient to permit a reasonable client, customer, or counterparty to meaningfully understand the conflict of interest; and

(B) Such disclosure is made in a manner that provides the client, customer, or counterparty the opportunity to negate, or substantially mitigate, any materially adverse effect on the client, customer, or counterparty created by the conflict of interest; or

(ii) *Information barriers.* Has established, maintained, and enforced information barriers that are memorialized in written policies and procedures, such as physical separation of personnel, or functions, or limitations on types of activity, that are reasonably designed, taking into consideration the nature of the banking entity's business, to prevent the conflict of interest from involving or resulting in a materially adverse effect on a client, customer, or counterparty. A banking entity may not rely on such information barriers if, in the case of any specific transaction, class or type of transactions or activity, the banking entity knows or should reasonably know that, notwithstanding the banking entity's establishment of information barriers, the conflict of interest may involve or result in a materially adverse effect on a client, customer, or counterparty.

(c) *Definition of high-risk asset and high-risk trading strategy.* For purposes of this section:

(1) *High-risk asset* means an asset or group of related assets that would, if held by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

(2) *High-risk trading strategy* means a trading strategy that would, if engaged in by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

§ 351.16 Ownership of Interests in and Sponsorship of Issuers of Certain Collateralized Debt Obligations Backed by Trust-Preferred Securities.

(a) The prohibition contained in § 351.10(a)(1) does not apply to the ownership by a banking entity of an interest in, or sponsorship of, any issuer if:

(1) The issuer was established, and the interest was issued, before May 19, 2010;

(2) The banking entity reasonably believes that the offering proceeds received by the issuer were invested primarily in Qualifying TruPS Collateral; and

(3) The banking entity acquired such interest on or before December 10, 2013 (or acquired such interest in connection with a merger with or acquisition of a banking entity that acquired the interest on or before December 10, 2013).

(b) For purposes of this § 351.16, *Qualifying TruPS Collateral* shall mean any trust preferred security or subordinated debt instrument issued prior to May 19, 2010 by a depository institution holding company that, as of the end of any reporting period within 12 months immediately preceding the issuance of such trust preferred security or subordinated debt instrument, had total consolidated assets of less than $15,000,000,000 or issued prior to May 19, 2010 by a mutual holding company.

(c) Notwithstanding paragraph (a)(3) of this section, a banking entity may act as a market maker with respect to the interests of an issuer described in paragraph (a) of this section in accordance with the applicable provisions of §§ 351.4 and 351.11.

(d) Without limiting the applicability of paragraph (a) of this section, the Board, the FDIC and the OCC will make public a non-exclusive list of issuers that meet the requirements of paragraph (a). A banking entity may rely on the list published by the Board, the FDIC and the OCC.

§§ 351.17–351.19 [Reserved]

Subpart D—Compliance Program Requirement; Violations

§ 351.20 Program for compliance; reporting.

(a) *Program requirement.* Each banking entity shall develop and provide for the continued administration of a compliance program reasonably designed to ensure and monitor compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part. The terms, scope and detail of the compliance program shall be appropriate for the types, size, scope and complexity of activities and business structure of the banking entity.

(b) *Contents of compliance program.* Except as provided in paragraph (f) of this section, the compliance program required by paragraph (a) of this section, at a minimum, shall include:

(1) Written policies and procedures reasonably designed to document, describe, monitor and limit trading activities subject to subpart B (including those permitted under §§ 351.3 to 351.6 of subpart B), including setting, monitoring and managing required limits set out in § 351.4 and § 351.5, and activities and investments with respect to a covered fund subject to subpart C (including those permitted under §§ 351.11 through 351.14 of subpart C) conducted by the banking entity to ensure that all activities and investments conducted by the banking entity that are subject to section 13 of the BHC Act and this part comply with section 13 of the BHC Act and this part;

(2) A system of internal controls reasonably designed to monitor compliance with section 13 of the BHC Act and this part and to prevent the occurrence of activities or investments that are prohibited by section 13 of the BHC Act and this part;

(3) A management framework that clearly delineates responsibility and accountability for compliance with section 13 of the BHC Act and this part and includes appropriate management review of trading limits, strategies, hedging activities, investments, incentive compensation and other matters identified in this part or by management as requiring attention;

(4) Independent testing and audit of the effectiveness of the compliance program conducted periodically by qualified personnel of the banking entity or by a qualified outside party;

(5) Training for trading personnel and managers, as well as other appropriate personnel, to effectively implement and enforce the compliance program; and

(6) Records sufficient to demonstrate compliance with section 13 of the BHC Act and this part, which a banking entity must promptly provide to the FDIC upon request and retain for a period of no less than 5 years or such longer period as required by the FDIC.

(c) *Additional standards.* In addition to the requirements in paragraph (b) of this section, the compliance program of a banking entity must satisfy the requirements and other standards contained in Appendix B, if:

(1) The banking entity engages in proprietary trading permitted under subpart B and is required to comply with the reporting requirements of paragraph (d) of this section;

(2) The banking entity has reported total consolidated assets as of the previous calendar year end of $50 billion or more or, in the case of a foreign banking entity, has total U.S. assets as of the previous calendar year end of $50 billion or more (including all subsidiaries, affiliates, branches and agencies of the foreign banking entity operating, located or organized in the United States); or

(3) The FDIC notifies the banking entity in writing that it must satisfy the requirements and other standards contained in Appendix B to this part.

(d) *Reporting requirements under Appendix A to this part.* (1) A banking entity engaged in proprietary trading activity permitted under subpart B shall comply with the reporting requirements described in Appendix A, if:

(i) The banking entity (other than a foreign banking entity as provided in paragraph (d)(1)(ii) of this section) has, together with its affiliates and subsidiaries, trading assets and liabilities (excluding trading assets and liabilities involving obligations of or guaranteed by the United States or any agency of the United States) the average gross sum of which (on a worldwide consolidated basis) over the previous consecutive four quarters, as measured as of the last day of each of the four prior calendar quarters, equals or exceeds the threshold established in paragraph (d)(2) of this section;

(ii) In the case of a foreign banking entity, the average gross sum of the trading assets and liabilities of the combined U.S. operations of the foreign banking entity (including all subsidiaries, affiliates, branches and agencies of the foreign banking entity operating, located or organized in the United States and excluding trading assets and liabilities involving obligations of or guaranteed by the United States or any agency of the United States) over the previous consecutive four quarters, as measured as of the last day of each of the four prior calendar quarters, equals or exceeds the threshold established in paragraph (d)(2) of this section; or

(iii) The FDIC notifies the banking entity in writing that it must satisfy the reporting requirements contained in Appendix A.

(2) The threshold for reporting under paragraph (d)(1) of this section shall be $50 billion beginning on June 30, 2014; $25 billion beginning on April 30, 2016; and $10 billion beginning on December 31, 2016.

(3) Frequency of reporting: Unless the FDIC notifies the banking entity in writing that it must report on a different basis, a banking entity with $50 billion or more in trading assets and liabilities (as calculated in accordance with paragraph (d)(1) of this section) shall report the information required by Appendix A for each calendar month within 30 days of the end of the relevant calendar month; beginning with information for the month of January 2015, such information shall be reported within 10 days of the end of each calendar month. Any other banking entity subject to Appendix A shall report the information required by Appendix A for each calendar quarter within 30 days of the end of that calendar quarter unless the FDIC notifies the banking entity in writing that it must report on a different basis.

(e) *Additional documentation for covered funds.* Any banking entity that has more than $10 billion in total consolidated assets as reported on December 31 of the previous two calendar years shall maintain records that include:

(1) Documentation of the exclusions or exemptions other than sections 3(c)(1) and 3(c)(7) of the Investment Company Act of 1940 relied on by each fund sponsored by the banking entity (including all subsidiaries and affiliates) in determining that such fund is not a covered fund;

(2) For each fund sponsored by the banking entity (including all subsidiaries and affiliates) for which the banking entity relies on one or more of the exclusions from the definition of covered fund provided by §§ 351.10(c)(1), 351.10(c)(5), 351.10(c)(8), 351.10(c)(9), or 351.10(c)(10) of subpart C, documentation supporting the banking entity's determination that the fund is not a covered fund pursuant to one or more of those exclusions;

(3) For each seeding vehicle described in § 351.10(c)(12)(i) or (iii) of subpart C that will become a registered investment company or SEC-regulated business development company, a written plan documenting the banking entity's determination that the seeding vehicle will become a registered investment company or SEC-regulated business development company; the period of time during which the vehicle will operate as a seeding vehicle; and the banking entity's plan to market the vehicle to third-party investors and convert it into a registered investment company or SEC-regulated business development company within the time period specified in § 351.12(a)(2)(i)(B) of subpart C;

(4) For any banking entity that is, or is controlled directly or indirectly by a

banking entity that is, located in or organized under the laws of the United States or of any State, if the aggregate amount of ownership interests in foreign public funds that are described in § 351.10(c)(1) of subpart C owned by such banking entity (including ownership interests owned by any affiliate that is controlled directly or indirectly by a banking entity that is located in or organized under the laws of the United States or of any State) exceeds $50 million at the end of two or more consecutive calendar quarters, beginning with the next succeeding calendar quarter, documentation of the value of the ownership interests owned by the banking entity (and such affiliates) in each foreign public fund and each jurisdiction in which any such foreign public fund is organized, calculated as of the end of each calendar quarter, which documentation must continue until the banking entity's aggregate amount of ownership interests in foreign public funds is below $50 million for two consecutive calendar quarters; and

(5) For purposes of paragraph (e)(4) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(f) *Simplified programs for less active banking entities*—(1) *Banking entities with no covered activities.* A banking entity that does not engage in activities or investments pursuant to subpart B or subpart C (other than trading activities permitted pursuant to § 351.6(a) of subpart B) may satisfy the requirements of this section by establishing the required compliance program prior to becoming engaged in such activities or making such investments (other than trading activities permitted pursuant to § 351.6(a) of subpart B).

(2) *Banking entities with modest activities.* A banking entity with total consolidated assets of $10 billion or less as reported on December 31 of the previous two calendar years that engages in activities or investments pursuant to subpart B or subpart C (other than trading activities permitted under § 351.6(a) of subpart B) may satisfy the requirements of this section by including in its existing compliance policies and procedures appropriate references to the requirements of section 13 of the BHC Act and this part and adjustments as appropriate given the activities, size, scope and complexity of the banking entity.

§ 351.21 Termination of activities or investments; penalties for violations.

(a) Any banking entity that engages in an activity or makes an investment in violation of section 13 of the BHC Act or this part, or acts in a manner that functions as an evasion of the requirements of section 13 of the BHC Act or this part, including through an abuse of any activity or investment permitted under subparts B or C, or otherwise violates the restrictions and requirements of section 13 of the BHC Act or this part, shall, upon discovery, promptly terminate the activity and, as relevant, dispose of the investment.

(b) Whenever the FDIC finds reasonable cause to believe any banking entity has engaged in an activity or made an investment in violation of section 13 of the BHC Act or this part, or engaged in any activity or made any investment that functions as an evasion of the requirements of section 13 of the BHC Act or this part, the FDIC may take any action permitted by law to enforce compliance with section 13 of the BHC Act and this part, including directing the banking entity to restrict, limit, or terminate any or all activities under this part and dispose of any investment.

Appendix A to Part 351—Reporting and Recordkeeping Requirements for Covered Trading Activities

I. Purpose

a. This appendix sets forth reporting and recordkeeping requirements that certain banking entities must satisfy in connection with the restrictions on proprietary trading set forth in subpart B (''proprietary trading restrictions''). Pursuant to § 351.20(d), this appendix generally applies to a banking entity that, together with its affiliates and subsidiaries, has significant trading assets and liabilities. These entities are required to (i) furnish periodic reports to the FDIC regarding a variety of quantitative measurements of their covered trading activities, which vary depending on the scope and size of covered trading activities, and (ii) create and maintain records documenting the preparation and content of these reports. The requirements of this appendix must be incorporated into the banking entity's internal compliance program under § 351.20 and Appendix B.

b. The purpose of this appendix is to assist banking entities and the FDIC in:

(i) Better understanding and evaluating the scope, type, and profile of the banking entity's covered trading activities;

(ii) Monitoring the banking entity's covered trading activities;

(iii) Identifying covered trading activities that warrant further review or examination by the banking entity to verify compliance with the proprietary trading restrictions;

(iv) Evaluating whether the covered trading activities of trading desks engaged in market making-related activities subject to § 351.4(b) are consistent with the requirements governing permitted market making-related activities;

(v) Evaluating whether the covered trading activities of trading desks that are engaged in permitted trading activity subject to §§ 351.4, 351.5, or 351.6(a)–(b) (*i.e.,* underwriting and market making-related related activity, risk-mitigating hedging, or trading in certain government obligations) are consistent with the requirement that such activity not result, directly or indirectly, in a material exposure to high-risk assets or high-risk trading strategies;

(vi) Identifying the profile of particular covered trading activities of the banking entity, and the individual trading desks of the banking entity, to help establish the appropriate frequency and scope of examination by the FDIC of such activities; and

(vii) Assessing and addressing the risks associated with the banking entity's covered trading activities.

c. The quantitative measurements that must be furnished pursuant to this appendix are *not* intended to serve as a dispositive tool for the identification of permissible or impermissible activities.

d. In order to allow banking entities and the Agencies to evaluate the effectiveness of these metrics, banking entities must collect and report these metrics for all trading desks beginning on the dates established in § 351.20 of the final rule. The Agencies will review the data collected and revise this collection requirement as appropriate based on a review of the data collected prior to September 30, 2015.

e. In addition to the quantitative measurements required in this appendix, a banking entity may need to develop and implement other quantitative measurements in order to effectively monitor its covered trading activities for compliance with section 13 of the BHC Act and this part and to have an effective compliance program, as required by § 351.20 and Appendix B to this part. The effectiveness of particular quantitative measurements may differ based on the profile of the banking entity's businesses in general and, more specifically, of the particular trading desk, including types of instruments traded, trading activities and strategies, and history and experience (*e.g.,* whether the trading desk is an established, successful market maker or a new entrant to a competitive market). In all cases, banking entities must ensure that they have robust measures in place to identify and monitor the risks taken in their trading activities, to ensure that the activities are within risk tolerances established by the banking entity, and to monitor and examine for compliance with the proprietary trading restrictions in this part.

f. On an ongoing basis, banking entities must carefully monitor, review, and evaluate all furnished quantitative measurements, as well as any others that they choose to utilize in order to maintain compliance with section 13 of the BHC Act and this part. All measurement results that indicate a heightened risk of impermissible proprietary trading, including with respect to otherwise-permitted activities under §§ 351.4 through 351.6(a) and (b), or that result in a material exposure to high-risk assets or high-risk trading strategies, must be escalated within the banking entity for review, further analysis, explanation to the FDIC, and remediation, where appropriate. The quantitative measurements discussed in this appendix should be helpful to banking entities in identifying and managing the risks related to their covered trading activities.

II. Definitions

The terms used in this appendix have the same meanings as set forth in §§ 351.2 and 351.3. In addition, for purposes of this appendix, the following definitions apply:

Calculation period means the period of time for which a particular quantitative measurement must be calculated.

Comprehensive profit and loss means the net profit or loss of a trading desk's material sources of trading revenue over a specific period of time, including, for example, any increase or decrease in the market value of a trading desk's holdings, dividend income, and interest income and expense.

Covered trading activity means trading conducted by a trading desk under §§ 351.4, 351.5, 351.6(a), or 351.6(b). A banking entity may include trading under §§ 351.3(d), 351.6(c), 351.6(d) or 351.6(e).

Measurement frequency means the frequency with which a particular quantitative metric must be calculated and recorded.

Trading desk means the smallest discrete unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof.

III. Reporting and Recordkeeping of Quantitative Measurements

a. Scope of Required Reporting

General scope. Each banking entity made subject to this part by § 351.20 must furnish the following quantitative measurements for each trading desk of the banking entity, calculated in accordance with this appendix:

• Risk and Position Limits and Usage;
• Risk Factor Sensitivities;
• Value-at-Risk and Stress VaR;
• Comprehensive Profit and Loss Attribution;
• Inventory Turnover;
• Inventory Aging; and
• Customer-Facing Trade Ratio

b. Frequency of Required Calculation and Reporting

A banking entity must calculate any applicable quantitative measurement for each trading day. A banking entity must report each applicable quantitative measurement to the FDIC on the reporting schedule established in § 351.20 unless otherwise requested by the FDIC. All quantitative measurements for any calendar month must be reported within the time period required by § 351.20.

c. Recordkeeping

A banking entity must, for any quantitative measurement furnished to the FDIC pursuant to this appendix and § 351.20(d), create and maintain records documenting the preparation and content of these reports, as well as such information as is necessary to permit the FDIC to verify the accuracy of such reports, for a period of 5 years from the end of the calendar year for which the measurement was taken.

IV. Quantitative Measurements

a. Risk-Management Measurements

1. Risk and Position Limits and Usage

i. *Description:* For purposes of this appendix, Risk and Position Limits are the constraints that define the amount of risk that a trading desk is permitted to take at a point in time, as defined by the banking entity for a specific trading desk. Usage represents the portion of the trading desk's limits that are accounted for by the current activity of the desk. Risk and position limits and their usage are key risk management tools used to control and monitor risk taking and include, but are not limited, to the limits set out in § 351.4 and § 351.5. A number of the metrics that are described below, including ''Risk Factor Sensitivities'' and ''Value-at-Risk and Stress Value-at-Risk,'' relate to a trading desk's risk and position limits and are useful in evaluating and setting these limits in the broader context of the trading desk's overall activities, particularly for the market making activities under § 351.4(b) and hedging activity under § 351.5. Accordingly, the limits required under § 351.4(b)(2)(iii) and § 351.5(b)(1)(i) must meet the applicable requirements under § 351.4(b)(2)(iii) and § 351.5(b)(1)(i) and also must include appropriate metrics for the trading desk limits including, at a minimum, the ''Risk Factor Sensitivities'' and ''Value-at-Risk and Stress Value-at-Risk'' metrics except to the extent any of the ''Risk Factor Sensitivities'' or ''Value-at-Risk and Stress Value-at-Risk'' metrics are demonstrably ineffective for measuring and monitoring the risks of a trading desk based on the types of positions traded by, and risk exposures of, that desk.

ii. *General Calculation Guidance:* Risk and Position Limits must be reported in the format used by the banking entity for the purposes of risk management of each trading desk. Risk and Position Limits are often expressed in terms of risk measures, such as VaR and Risk Factor Sensitivities, but may also be expressed in terms of other observable criteria, such as net open positions. When criteria other than VaR or Risk Factor Sensitivities are used to define the Risk and Position Limits, both the value of the Risk and Position Limits and the value of the variables used to assess whether these limits have been reached must be reported.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

2. Risk Factor Sensitivities

i. *Description:* For purposes of this appendix, Risk Factor Sensitivities are changes in a trading desk's Comprehensive Profit and Loss that are expected to occur in the event of a change in one or more underlying variables that are significant sources of the trading desk's profitability and risk.

ii. *General Calculation Guidance:* A banking entity must report the Risk Factor Sensitivities that are monitored and managed as part of the trading desk's overall risk management policy. The underlying data and methods used to compute a trading desk's Risk Factor Sensitivities will depend on the specific function of the trading desk and the internal risk management models employed. The number and type of Risk Factor Sensitivities that are monitored and managed by a trading desk, and furnished to the FDIC, will depend on the explicit risks assumed by the trading desk. In general, however, reported Risk Factor Sensitivities must be sufficiently granular to account for a preponderance of the expected price variation in the trading desk's holdings.

A. Trading desks must take into account any relevant factors in calculating Risk Factor Sensitivities, including, for example, the following with respect to particular asset classes:

• *Commodity derivative positions:* Risk factors with respect to the related commodities set out in 17 CFR 20.2, the maturity of the positions, volatility and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;

• *Credit positions:* Risk factors with respect to credit spreads that are sufficiently granular to account for specific credit sectors and market segments, the maturity profile of the positions, and risk factors with respect to interest rates of all relevant maturities;

• *Credit-related derivative positions:* Risk factor sensitivities, for example credit spreads, shifts (parallel and non-parallel) in credit spreads—volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;

• *Equity derivative positions:* Risk factor sensitivities such as equity positions, volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;

• *Equity positions:* Risk factors for equity prices and risk factors that differentiate between important equity market sectors and segments, such as a small capitalization equities and international equities;

• *Foreign exchange derivative positions:* Risk factors with respect to major currency pairs and maturities, exposure to interest rates at relevant maturities, volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), as well as the maturity profile of the positions; and

• *Interest rate positions, including interest rate derivative positions:* Risk factors with respect to major interest rate categories and maturities and volatility and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and shifts (parallel and non-parallel) in the interest rate curve, as well as the maturity profile of the positions.

B. The methods used by a banking entity to calculate sensitivities to a common factor shared by multiple trading desks, such as an equity price factor, must be applied consistently across its trading desks so that the sensitivities can be compared from one trading desk to another.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

3. Value-at-Risk and Stress Value-at-Risk

i. *Description:* For purposes of this appendix, Value-at-Risk (''VaR'') is the commonly used percentile measurement of the risk of future financial loss in the value of a given set of aggregated positions over a specified period of time, based on current market conditions. For purposes of this appendix, Stress Value-at-Risk (''Stress VaR'') is the percentile measurement of the risk of future financial loss in the value of a given set of aggregated positions over a specified period of time, based on market conditions during a period of significant financial stress.

ii. *General Calculation Guidance:* Banking entities must compute and report VaR and Stress VaR by employing generally accepted standards and methods of calculation. VaR should reflect a loss in a trading desk that is expected to be exceeded less than one percent of the time over a one-day period. For those banking entities that are subject to regulatory capital requirements imposed by a Federal banking agency, VaR and Stress VaR must be computed and reported in a manner that is consistent with such regulatory capital requirements. In cases where a trading desk does not have a standalone VaR or Stress VaR calculation but is part of a larger aggregation of positions for which a VaR or Stress VaR calculation is performed, a VaR or Stress VaR calculation that includes only the trading desk's holdings must be performed consistent with the VaR or Stress VaR model and methodology used for the larger aggregation of positions.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

b. Source-of-Revenue Measurements

1. Comprehensive Profit and Loss Attribution

i. *Description:* For purposes of this appendix, Comprehensive Profit and Loss Attribution is an analysis that attributes the daily fluctuation in the value of a trading desk's positions to various sources. First, the daily profit and loss of the aggregated positions is divided into three categories: (i) Profit and loss attributable to a trading desk's existing positions that were also positions held by the trading desk as of the end of the prior day (''existing positions''); (ii) profit and loss attributable to new positions resulting from the current day's trading activity (''new positions''); and (iii) residual profit and loss that cannot be specifically attributed to existing positions or new positions. The sum of (i), (ii), and (iii) must equal the trading desk's comprehensive profit and loss at each point in time. In addition, profit and loss measurements must calculate volatility of comprehensive profit and loss (*i.e.,* the standard deviation of the trading desk's one-day profit and loss, in dollar terms) for the reporting period for at least a 30-, 60- and 90-day lag period, from the end of the reporting period, and any other period that the banking entity deems necessary to meet the requirements of the rule.

A. The comprehensive profit and loss associated with existing positions must reflect changes in the value of these positions on the applicable day. The comprehensive profit and loss from existing positions must be further attributed, as applicable, to changes in (i) the specific Risk Factors and other factors that are monitored and managed as part of the trading desk's overall risk management policies and procedures; and (ii) any other applicable elements, such as cash flows, carry, changes in reserves, and the correction, cancellation, or exercise of a trade.

B. The comprehensive profit and loss attributed to new positions must reflect commissions and fee income or expense and market gains or losses associated with transactions executed on the applicable day. New positions include purchases and sales of financial instruments and other assets/liabilities and negotiated amendments to existing positions. The comprehensive profit and loss from new positions may be reported in the aggregate and does not need to be further attributed to specific sources.

C. The portion of comprehensive profit and loss that cannot be specifically attributed to known sources must be allocated to a residual category identified as an unexplained portion of the comprehensive profit and loss. Significant unexplained profit and loss must be escalated for further investigation and analysis.

ii. *General Calculation Guidance:* The specific categories used by a trading desk in the attribution analysis and amount of detail for the analysis should be tailored to the type and amount of trading activities undertaken by the trading desk. The new position attribution must be computed by calculating the difference between the prices at which instruments were bought and/or sold and the prices at which those instruments are marked to market at the close of business on that day multiplied by the notional or principal amount of each purchase or sale. Any fees, commissions, or other payments received (paid) that are associated with transactions executed on that day must be added (subtracted) from such difference. These factors must be measured consistently over time to facilitate historical comparisons.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

c. Customer-Facing Activity Measurements

1. Inventory Turnover

i. *Description:* For purposes of this appendix, Inventory Turnover is a ratio that measures the turnover of a trading desk's inventory. The numerator of the ratio is the absolute value of all transactions over the reporting period. The denominator of the ratio is the value of the trading desk's inventory at the beginning of the reporting period.

ii. *General Calculation Guidance:* For purposes of this appendix, for derivatives, other than options and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value, and for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* 30 days, 60 days, and 90 days.

iv. *Measurement Frequency:* Daily.

2. Inventory Aging

i. *Description:* For purposes of this appendix, Inventory Aging generally describes a schedule of the trading desk's aggregate assets and liabilities and the amount of time that those assets and liabilities have been held. Inventory Aging should measure the age profile of the trading desk's assets and liabilities.

ii. *General Calculation Guidance:* In general, Inventory Aging must be computed using a trading desk's trading activity data and must identify the value of a trading desk's aggregate assets and liabilities. Inventory Aging must include two schedules, an asset-aging schedule and a liability-aging schedule. Each schedule must record the value of assets or liabilities held over all holding periods. For derivatives, other than options, and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value and, for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

3. Customer-Facing Trade Ratio—Trade Count Based and Value Based

i. *Description:* For purposes of this appendix, the Customer-Facing Trade Ratio is a ratio comparing (i) the transactions involving a counterparty that is a customer of the trading desk to (ii) the transactions involving a counterparty that is not a customer of the trading desk. A trade count based ratio must be computed that records the number of transactions involving a counterparty that is a customer of the trading desk and the number of transactions involving a counterparty that is not a customer of the trading desk. A value based ratio must be computed that records the value of transactions involving a counterparty that is a customer of the trading desk and the value of transactions involving a counterparty that is not a customer of the trading desk.

ii. *General Calculation Guidance:* For purposes of calculating the Customer-Facing Trade Ratio, a counterparty is considered to be a customer of the trading desk if the counterparty is a market participant that makes use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services. However, a trading desk or other organizational unit of another banking entity would not be a client, customer, or counterparty of the trading desk if the other entity has trading assets and liabilities of $50 billion or more as measured in accordance with § 351.20(d)(1) unless the trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk. Transactions conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants would be considered transactions with customers of the trading desk. For derivatives, other than options, and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value, and for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* 30 days, 60 days, and 90 days.

iv. *Measurement Frequency:* Daily.

Appendix B to Part 351—Enhanced Minimum Standards for Compliance Programs

I. Overview

Section 351.20(c) requires certain banking entities to establish, maintain, and enforce an enhanced compliance program that includes the requirements and standards in this Appendix as well as the minimum written policies and procedures, internal controls, management framework, independent testing, training, and recordkeeping provisions outlined in § 351.20. This Appendix sets forth additional minimum standards with respect to the establishment, oversight, maintenance, and enforcement by these banking entities of an enhanced internal compliance program for ensuring and monitoring compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part.

a. This compliance program must:

1. Be reasonably designed to identify, document, monitor, and report the permitted trading and covered fund activities and investments of the banking entity; identify, monitor and promptly address the risks of these covered activities and investments and potential areas of noncompliance; and prevent activities or investments prohibited by, or that do not comply with, section 13 of the BHC Act and this part;

2. Establish and enforce appropriate limits on the covered activities and investments of the banking entity, including limits on the size, scope, complexity, and risks of the individual activities or investments consistent with the requirements of section 13 of the BHC Act and this part;

3. Subject the effectiveness of the compliance program to periodic independent review and testing, and ensure that the entity's internal audit, corporate compliance and internal control functions involved in review and testing are effective and independent;

4. Make senior management, and others as appropriate, accountable for the effective implementation of the compliance program, and ensure that the board of directors and chief executive officer (or equivalent) of the banking entity review the effectiveness of the compliance program; and

5. Facilitate supervision and examination by the Agencies of the banking entity's permitted trading and covered fund activities and investments.

II. Enhanced Compliance Program

a. *Proprietary Trading Activities.* A banking entity must establish, maintain and enforce a compliance program that includes written policies and procedures that are appropriate for the types, size, and complexity of, and risks associated with, its permitted trading activities. The compliance program may be tailored to the types of trading activities conducted by the banking entity, and must include a detailed description of controls established by the banking entity to reasonably ensure that its trading activities are conducted in accordance with the requirements and limitations applicable to those trading activities under section 13 of the BHC Act and this part, and provide for appropriate revision of the compliance program before expansion of the trading activities of the banking entity. A banking entity must devote adequate resources and use knowledgeable personnel in conducting, supervising and managing its trading activities, and promote consistency, independence and rigor in implementing its risk controls and compliance efforts. The compliance program must be updated with a frequency sufficient to account for changes in the activities of the banking entity, results of independent testing of the program, identification of weaknesses in the program, and changes in legal, regulatory or other requirements.

1. *Trading Desks:* The banking entity must have written policies and procedures governing each trading desk that include a description of:

i. The process for identifying, authorizing and documenting financial instruments each trading desk may purchase or sell, with separate documentation for market making-related activities conducted in reliance on § 351.4(b) and for hedging activity conducted in reliance on § 351.5;

ii. A mapping for each trading desk to the division, business line, or other organizational structure that is responsible for managing and overseeing the trading desk's activities;

iii. The mission (*i.e.,* the type of trading activity, such as market-making, trading in sovereign debt, etc.) and strategy (*i.e.,* methods for conducting authorized trading activities) of each trading desk;

iv. The activities that the trading desk is authorized to conduct, including (i) authorized instruments and products, and (ii) authorized hedging strategies, techniques and instruments;

v. The types and amount of risks allocated by the banking entity to each trading desk to implement the mission and strategy of the trading desk, including an enumeration of material risks resulting from the activities in which the trading desk is authorized to engage (including but not limited to price risks, such as basis, volatility and correlation risks, as well as counterparty credit risk). Risk assessments must take into account both the risks inherent in the trading activity and the strength and effectiveness of controls designed to mitigate those risks;

vi. How the risks allocated to each trading desk will be measured;

vii. Why the allocated risks levels are appropriate to the activities authorized for the trading desk;

viii. The limits on the holding period of, and the risk associated with, financial instruments under the responsibility of the trading desk;

ix. The process for setting new or revised limits, as well as escalation procedures for granting exceptions to any limits or to any policies or procedures governing the desk, the analysis that will be required to support revising limits or granting exceptions, and the process for independently reviewing and documenting those exceptions and the underlying analysis;

x. The process for identifying, documenting and approving new products, trading strategies, and hedging strategies;

xi. The types of clients, customers, and counterparties with whom the trading desk may trade; and

xii. The compensation arrangements, including incentive arrangements, for employees associated with the trading desk, which may not be designed to reward or incentivize prohibited proprietary trading or excessive or imprudent risk-taking.

2. *Description of risks and risk management processes:* The compliance program for the banking entity must include a comprehensive description of the risk management program for the trading activity of the banking entity. The compliance program must also include a description of the governance, approval, reporting, escalation, review and other processes the banking entity will use to reasonably ensure that trading activity is conducted in compliance with section 13 of the BHC Act and this part. Trading activity in similar financial instruments should be subject to similar governance, limits, testing, controls, and review, unless the banking entity specifically determines to establish different limits or processes and documents those differences. Descriptions must include, at a minimum, the following elements:

i. A description of the supervisory and risk management structure governing all trading activity, including a description of processes for initial and senior-level review of new products and new strategies;

ii. A description of the process for developing, documenting, testing, approving and reviewing all models used for valuing, identifying and monitoring the risks of trading activity and related positions, including the process for periodic independent testing of the reliability and accuracy of those models;

iii. A description of the process for developing, documenting, testing, approving and reviewing the limits established for each trading desk;

iv. A description of the process by which a security may be purchased or sold pursuant to the liquidity management plan, including the process for authorizing and monitoring such activity to ensure compliance with the banking entity's liquidity management plan and the restrictions on liquidity management activities in this part;

v. A description of the management review process, including escalation procedures, for approving any temporary exceptions or permanent adjustments to limits on the activities, positions, strategies, or risks associated with each trading desk; and

vi. The role of the audit, compliance, risk management and other relevant units for conducting independent testing of trading and hedging activities, techniques and strategies.

3. *Authorized risks, instruments, and products.* The banking entity must implement and enforce limits and internal controls for each trading desk that are reasonably designed to ensure that trading activity is conducted in conformance with

section 13 of the BHC Act and this part and with the banking entity's written policies and procedures. The banking entity must establish and enforce risk limits appropriate for the activity of each trading desk. These limits should be based on probabilistic and non-probabilistic measures of potential loss (*e.g.,* Value-at-Risk and notional exposure, respectively), and measured under normal and stress market conditions. At a minimum, these internal controls must monitor, establish and enforce limits on:

i. The financial instruments (including, at a minimum, by type and exposure) that the trading desk may trade;

ii. The types and levels of risks that may be taken by each trading desk; and

iii. The types of hedging instruments used, hedging strategies employed, and the amount of risk effectively hedged.

4. *Hedging policies and procedures.* The banking entity must establish, maintain, and enforce written policies and procedures regarding the use of risk-mitigating hedging instruments and strategies that, at a minimum, describe:

i. The positions, techniques and strategies that each trading desk may use to hedge the risk of its positions;

ii. The manner in which the banking entity will identify the risks arising in connection with and related to the individual or aggregated positions, contracts or other holdings of the banking entity that are to be hedged and determine that those risks have been properly and effectively hedged;

iii. The level of the organization at which hedging activity and management will occur;

iv. The manner in which hedging strategies will be monitored and the personnel responsible for such monitoring;

v. The risk management processes used to control unhedged or residual risks; and

vi. The process for developing, documenting, testing, approving and reviewing all hedging positions, techniques and strategies permitted for each trading desk and for the banking entity in reliance on § 351.5.

5. *Analysis and quantitative measurements.* The banking entity must perform robust analysis and quantitative measurement of its trading activities that is reasonably designed to ensure that the trading activity of each trading desk is consistent with the banking entity's compliance program; monitor and assist in the identification of potential and actual prohibited proprietary trading activity; and prevent the occurrence of prohibited proprietary trading. Analysis and models used to determine, measure and limit risk must be rigorously tested and be reviewed by management responsible for trading activity to ensure that trading activities, limits, strategies, and hedging activities do not understate the risk and exposure to the banking entity or allow prohibited proprietary trading. This review should include periodic and independent back-testing and revision of activities, limits, strategies and hedging as appropriate to contain risk and ensure compliance. In addition to the quantitative measurements reported by any banking entity subject to Appendix A to this part, each banking entity must develop and implement, to the extent appropriate to facilitate compliance with this part, additional quantitative measurements specifically tailored to the particular risks, practices, and strategies of its trading desks. The banking entity's analysis and quantitative measurements must incorporate the quantitative measurements reported by the banking entity pursuant to Appendix A (if applicable) and include, at a minimum, the following:

i. Internal controls and written policies and procedures reasonably designed to ensure the accuracy and integrity of quantitative measurements;

ii. Ongoing, timely monitoring and review of calculated quantitative measurements;

iii. The establishment of numerical thresholds and appropriate trading measures for each trading desk and heightened review of trading activity not consistent with those thresholds to ensure compliance with section 13 of the BHC Act and this part, including analysis of the measurement results or other information, appropriate escalation procedures, and documentation related to the review; and

iv. Immediate review and compliance investigation of the trading desk's activities, escalation to senior management with oversight responsibilities for the applicable trading desk, timely notification to the FDIC, appropriate remedial action (*e.g.,* divesting of impermissible positions, cessation of impermissible activity, disciplinary actions), and documentation of the investigation findings and remedial action taken when quantitative measurements or other information, considered together with the facts and circumstances, or findings of internal audit, independent testing or other review suggest a reasonable likelihood that the trading desk has violated any part of section 13 of the BHC Act or this part.

6. *Other Compliance Matters.* In addition to the requirements specified above, the banking entity's compliance program must:

i. Identify activities of each trading desk that will be conducted in reliance on exemptions contained in §§ 351.4 through 351.6, including an explanation of:

A. How and where in the organization the activity occurs; and

B. Which exemption is being relied on and how the activity meets the specific requirements for reliance on the applicable exemption;

ii. Include an explanation of the process for documenting, approving and reviewing actions taken pursuant to the liquidity management plan, where in the organization this activity occurs, the securities permissible for liquidity management, the process for ensuring that liquidity management activities are not conducted for the purpose of prohibited proprietary trading, and the process for ensuring that securities purchased as part of the liquidity management plan are highly liquid and conform to the requirements of this part;

iii. Describe how the banking entity monitors for and prohibits potential or actual material exposure to high-risk assets or high-risk trading strategies presented by each trading desk that relies on the exemptions contained in §§ 351.3(d)(3), and 351.4 through 351.6, which must take into account potential or actual exposure to:

A. Assets whose values cannot be externally priced or, where valuation is reliant on pricing models, whose model inputs cannot be externally validated;

B. Assets whose changes in value cannot be adequately mitigated by effective hedging;

C. New products with rapid growth, including those that do not have a market history;

D. Assets or strategies that include significant embedded leverage;

E. Assets or strategies that have demonstrated significant historical volatility;

F. Assets or strategies for which the application of capital and liquidity standards would not adequately account for the risk; and

G. Assets or strategies that result in large and significant concentrations to sectors, risk factors, or counterparties;

iv. Establish responsibility for compliance with the reporting and recordkeeping requirements of subpart B and § 351.20; and

v. Establish policies for monitoring and prohibiting potential or actual material conflicts of interest between the banking entity and its clients, customers, or counterparties.

7. *Remediation of violations.* The banking entity's compliance program must be reasonably designed and established to effectively monitor and identify for further analysis any trading activity that may indicate potential violations of section 13 of the BHC Act and this part and to prevent actual violations of section 13 of the BHC Act and this part. The compliance program must describe procedures for identifying and remedying violations of section 13 of the BHC Act and this part, and must include, at a minimum, a requirement to promptly document, address and remedy any violation of section 13 of the BHC Act or this part, and document all proposed and actual remediation efforts. The compliance program must include specific written policies and procedures that are reasonably designed to assess the extent to which any activity indicates that modification to the banking entity's compliance program is warranted and to ensure that appropriate modifications are implemented. The written policies and procedures must provide for prompt notification to appropriate management, including senior management and the board of directors, of any material weakness or significant deficiencies in the design or implementation of the compliance program of the banking entity.

b. *Covered Fund Activities or Investments.* A banking entity must establish, maintain and enforce a compliance program that includes written policies and procedures that are appropriate for the types, size, complexity and risks of the covered fund and related activities conducted and investments made, by the banking entity.

1. *Identification of covered funds.* The banking entity's compliance program must provide a process, which must include appropriate management review and independent testing, for identifying and documenting covered funds that each unit within the banking entity's organization

sponsors or organizes and offers, and covered funds in which each such unit invests. In addition to the documentation requirements for covered funds, as specified under § 351.20(e), the documentation must include information that identifies all pools that the banking entity sponsors or has an interest in and the type of exemption from the Commodity Exchange Act (whether or not the pool relies on section 4.7 of the regulations under the Commodity Exchange Act), and the amount of ownership interest the banking entity has in those pools.

2. *Identification of covered fund activities and investments.* The banking entity's compliance program must identify, document and map each unit within the organization that is permitted to acquire or hold an interest in any covered fund or sponsor any covered fund and map each unit to the division, business line, or other organizational structure that will be responsible for managing and overseeing that unit's activities and investments.

3. *Explanation of compliance.* The banking entity's compliance program must explain how:

i. The banking entity monitors for and prohibits potential or actual material conflicts of interest between the banking entity and its clients, customers, or counterparties related to its covered fund activities and investments;

ii. The banking entity monitors for and prohibits potential or actual transactions or activities that may threaten the safety and soundness of the banking entity related to its covered fund activities and investments; and

iii. The banking entity monitors for and prohibits potential or actual material exposure to high-risk assets or high-risk trading strategies presented by its covered fund activities and investments, taking into account potential or actual exposure to:

A. Assets whose values cannot be externally priced or, where valuation is reliant on pricing models, whose model inputs cannot be externally validated;

B. Assets whose changes in values cannot be adequately mitigated by effective hedging;

C. New products with rapid growth, including those that do not have a market history;

D. Assets or strategies that include significant embedded leverage;

E. Assets or strategies that have demonstrated significant historical volatility;

F. Assets or strategies for which the application of capital and liquidity standards would not adequately account for the risk; and

G. Assets or strategies that expose the banking entity to large and significant concentrations with respect to sectors, risk factors, or counterparties;

4. *Description and documentation of covered fund activities and investments.* For each organizational unit engaged in covered fund activities and investments, the banking entity's compliance program must document:

i. The covered fund activities and investments that the unit is authorized to conduct;

ii. The banking entity's plan for actively seeking unaffiliated investors to ensure that any investment by the banking entity conforms to the limits contained in § 351.12 or registered in compliance with the securities laws and thereby exempt from those limits within the time periods allotted in § 351.12; and

iii. How it complies with the requirements of subpart C.

5. *Internal Controls.* A banking entity must establish, maintain, and enforce internal controls that are reasonably designed to ensure that its covered fund activities or investments comply with the requirements of section 13 of the BHC Act and this part and are appropriate given the limits on risk established by the banking entity. These written internal controls must be reasonably designed and established to effectively monitor and identify for further analysis any covered fund activity or investment that may indicate potential violations of section 13 of the BHC Act or this part. The internal controls must, at a minimum require:

i. Monitoring and limiting the banking entity's individual and aggregate investments in covered funds;

ii. Monitoring the amount and timing of seed capital investments for compliance with the limitations under subpart C (including but not limited to the redemption, sale or disposition requirements) of § 351.12, and the effectiveness of efforts to seek unaffiliated investors to ensure compliance with those limits;

iii. Calculating the individual and aggregate levels of ownership interests in one or more covered fund required by § 351.12;

iv. Attributing the appropriate instruments to the individual and aggregate ownership interest calculations above;

v. Making disclosures to prospective and actual investors in any covered fund organized and offered or sponsored by the banking entity, as provided under § 351.11(a)(8);

vi. Monitoring for and preventing any relationship or transaction between the banking entity and a covered fund that is prohibited under § 351.14, including where the banking entity has been designated as the sponsor, investment manager, investment adviser, or commodity trading advisor to a covered fund by another banking entity; and

vii. Appropriate management review and supervision across legal entities of the banking entity to ensure that services and products provided by all affiliated entities comply with the limitation on services and products contained in § 351.14.

6. *Remediation of violations.* The banking entity's compliance program must be reasonably designed and established to effectively monitor and identify for further analysis any covered fund activity or investment that may indicate potential violations of section 13 of the BHC Act or this part and to prevent actual violations of section 13 of the BHC Act and this part. The banking entity's compliance program must describe procedures for identifying and remedying violations of section 13 of the BHC Act and this part, and must include, at a minimum, a requirement to promptly document, address and remedy any violation of section 13 of the BHC Act or this part, including § 351.21, and document all proposed and actual remediation efforts. The compliance program must include specific written policies and procedures that are reasonably designed to assess the extent to which any activity or investment indicates that modification to the banking entity's compliance program is warranted and to ensure that appropriate modifications are implemented. The written policies and procedures must provide for prompt notification to appropriate management, including senior management and the board of directors, of any material weakness or significant deficiencies in the design or implementation of the compliance program of the banking entity.

III. Responsibility and Accountability for the Compliance Program

a. A banking entity must establish, maintain, and enforce a governance and management framework to manage its business and employees with a view to preventing violations of section 13 of the BHC Act and this part. A banking entity must have an appropriate management framework reasonably designed to ensure that: Appropriate personnel are responsible and accountable for the effective implementation and enforcement of the compliance program; a clear reporting line with a chain of responsibility is delineated; and the compliance program is reviewed periodically by senior management. The board of directors (or equivalent governance body) and senior management should have the appropriate authority and access to personnel and information within the organizations as well as appropriate resources to conduct their oversight activities effectively.

1. *Corporate governance.* The banking entity must adopt a written compliance program approved by the board of directors, an appropriate committee of the board, or equivalent governance body, and senior management.

2. *Management procedures.* The banking entity must establish, maintain, and enforce a governance framework that is reasonably designed to achieve compliance with section 13 of the BHC Act and this part, which, at a minimum, provides for:

i. The designation of appropriate senior management or committee of senior management with authority to carry out the management responsibilities of the banking entity for each trading desk and for each organizational unit engaged in covered fund activities;

ii. Written procedures addressing the management of the activities of the banking entity that are reasonably designed to achieve compliance with section 13 of the BHC Act and this part, including:

A. A description of the management system, including the titles, qualifications, and locations of managers and the specific responsibilities of each person with respect to the banking entity's activities governed by section 13 of the BHC Act and this part; and

B. Procedures for determining compensation arrangements for traders engaged in underwriting or market making-related activities under § 351.4 or risk-mitigating hedging activities under § 351.5 so that such compensation arrangements are designed not to reward or incentivize prohibited proprietary trading and appropriately balance risk and financial results in a manner that does not encourage employees to expose the banking entity to excessive or imprudent risk.

3. *Business line managers.* Managers with responsibility for one or more trading desks of the banking entity are accountable for the effective implementation and enforcement of the compliance program with respect to the applicable trading desk(s).

4. *Board of directors, or similar corporate body, and senior management.* The board of directors, or similar corporate body, and senior management are responsible for setting and communicating an appropriate culture of compliance with section 13 of the BHC Act and this part and ensuring that appropriate policies regarding the management of trading activities and covered fund activities or investments are adopted to comply with section 13 of the BHC Act and this part. The board of directors or similar corporate body (such as a designated committee of the board or an equivalent governance body) must ensure that senior management is fully capable, qualified, and properly motivated to manage compliance with this part in light of the organization's business activities and the expectations of the board of directors. The board of directors or similar corporate body must also ensure that senior management has established appropriate incentives and adequate resources to support compliance with this part, including the implementation of a compliance program meeting the requirements of this appendix into management goals and compensation structures across the banking entity.

5. *Senior management.* Senior management is responsible for implementing and enforcing the approved compliance program. Senior management must also ensure that effective corrective action is taken when failures in compliance with section 13 of the BHC Act and this part are identified. Senior management and control personnel charged with overseeing compliance with section 13 of the BHC Act and this part should review the compliance program for the banking entity periodically and report to the board, or an appropriate committee thereof, on the effectiveness of the compliance program and compliance matters with a frequency appropriate to the size, scope, and risk profile of the banking entity's trading activities and covered fund activities or investments, which shall be at least annually.

6. *CEO attestation.* Based on a review by the CEO of the banking entity, the CEO of the banking entity must, annually, attest in writing to the FDIC that the banking entity has in place processes to establish, maintain, enforce, review, test and modify the compliance program established under this Appendix and § 351.20 of this part in a manner reasonably designed to achieve compliance with section 13 of the BHC Act and this part. In the case of a U.S. branch or agency of a foreign banking entity, the attestation may be provided for the entire U.S. operations of the foreign banking entity by the senior management officer of the United States operations of the foreign banking entity who is located in the United States.

IV. Independent Testing

a. Independent testing must occur with a frequency appropriate to the size, scope, and risk profile of the banking entity's trading and covered fund activities or investments, which shall be at least annually. This independent testing must include an evaluation of:

1. The overall adequacy and effectiveness of the banking entity's compliance program, including an analysis of the extent to which the program contains all the required elements of this appendix;

2. The effectiveness of the banking entity's internal controls, including an analysis and documentation of instances in which such internal controls have been breached, and how such breaches were addressed and resolved; and

3. The effectiveness of the banking entity's management procedures.

b. A banking entity must ensure that independent testing regarding the effectiveness of the banking entity's compliance program is conducted by a qualified independent party, such as the banking entity's internal audit department, compliance personnel or risk managers independent of the organizational unit being tested, outside auditors, consultants, or other qualified independent parties. A banking entity must promptly take appropriate action to remedy any significant deficiencies or material weaknesses in its compliance program and to terminate any violations of section 13 of the BHC Act or this part.

V. Training

Banking entities must provide adequate training to personnel and managers of the banking entity engaged in activities or investments governed by section 13 of the BHC Act or this part, as well as other appropriate supervisory, risk, independent testing, and audit personnel, in order to effectively implement and enforce the compliance program. This training should occur with a frequency appropriate to the size and the risk profile of the banking entity's trading activities and covered fund activities or investments.

VI. Recordkeeping

Banking entities must create and retain records sufficient to demonstrate compliance and support the operations and effectiveness of the compliance program. A banking entity must retain these records for a period that is no less than 5 years or such longer period as required by the FDIC in a form that allows it to promptly produce such records to the FDIC on request.

COMMODITY FUTURES TRADING COMMISSION

17 CFR Chapter I

Authority and Issuance

For the reasons stated in the Common Preamble, the Commodity Futures Trading Commission amends part 75 to chapter I of Title 17 Code of Federal Regulations as follows:

PART 75—PROPRIETARY TRADING AND CERTAIN INTERESTS IN AND RELATIONSHIPS WITH COVERED FUNDS

■ 46. The authority citation for part 75 continues to read as follows:

Authority: 12 U.S.C. 1851.

Subpart A—Authority and Definitions

■ 47. Section 75.2 is revised to read as follows:

§ 75.2 Definitions.

Unless otherwise specified, for purposes of this part:

(a) *Affiliate* has the same meaning as in section 2(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(k)).

(b) *Bank holding company* has the same meaning as in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(c) *Banking entity.* (1) Except as provided in paragraph (c)(2) of this section, *banking entity* means:

(i) Any insured depository institution;

(ii) Any company that controls an insured depository institution;

(iii) Any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(iv) Any affiliate or subsidiary of any entity described in paragraph (c)(1)(i), (ii), or (iii) of this section.

(2) Banking entity does not include:

(i) A covered fund that is not itself a banking entity under paragraph (c)(1)(i), (ii), or (iii) of this section;

(ii) A portfolio company held under the authority contained in section 4(k)(4)(H) or (I) of the BHC Act (12 U.S.C. 1843(k)(4)(H), (I)), or any portfolio concern, as defined under 13 CFR 107.50, that is controlled by a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), so long as the portfolio company or portfolio concern is not itself a banking entity under paragraph (c)(1)(i), (ii), or (iii) of this section; or

(iii) The FDIC acting in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(d) *Board* means the Board of Governors of the Federal Reserve System.

(e) *CFTC* means the Commodity Futures Trading Commission.

(f) *Dealer* has the same meaning as in section 3(a)(5) of the Exchange Act (15 U.S.C. 78c(a)(5)).

(g) *Depository institution* has the same meaning as in section 3(c) of the Federal

Deposit Insurance Act (12 U.S.C. 1813(c)).

(h) *Derivative.* (1) Except as provided in paragraph (h)(2) of this section, *derivative* means:

(i) Any swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68));

(ii) Any purchase or sale of a commodity, that is not an excluded commodity, for deferred shipment or delivery that is intended to be physically settled;

(iii) Any foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)) or foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25));

(iv) Any agreement, contract, or transaction in foreign currency described in section 2(c)(2)(C)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(C)(i));

(v) Any agreement, contract, or transaction in a commodity other than foreign currency described in section 2(c)(2)(D)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(D)(i)); and

(vi) Any transaction authorized under section 19 of the Commodity Exchange Act (7 U.S.C. 23(a) or (b));

(2) A derivative does not include:

(i) Any consumer, commercial, or other agreement, contract, or transaction that the CFTC and SEC have further defined by joint regulation, interpretation, or other action as not within the definition of swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68)); or

(ii) Any identified banking product, as defined in section 402(b) of the Legal Certainty for Bank Products Act of 2000 (7 U.S.C. 27(b)), that is subject to section 403(a) of that Act (7 U.S.C. 27a(a)).

(i) *Employee* includes a member of the immediate family of the employee.

(j) *Exchange Act* means the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

(k) *Excluded commodity* has the same meaning as in section 1a(19) of the Commodity Exchange Act (7 U.S.C. 1a(19)).

(l) *FDIC* means the Federal Deposit Insurance Corporation.

(m) *Federal banking agencies* means the Board, the Office of the Comptroller of the Currency, and the FDIC.

(n) *Foreign banking organization* has the same meaning as in § 211.21(o) of the Board's Regulation K (12 CFR 211.21(o)), but does not include a foreign bank, as defined in section 1(b)(7) of the International Banking Act of 1978 (12 U.S.C. 3101(7)), that is organized under the laws of the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands.

(o) *Foreign insurance regulator* means the insurance commissioner, or a similar official or agency, of any country other than the United States that is engaged in the supervision of insurance companies under foreign insurance law.

(p) *General account* means all of the assets of an insurance company except those allocated to one or more separate accounts.

(q) *Insurance company* means a company that is organized as an insurance company, primarily and predominantly engaged in writing insurance or reinsuring risks underwritten by insurance companies, subject to supervision as such by a state insurance regulator or a foreign insurance regulator, and not operated for the purpose of evading the provisions of section 13 of the BHC Act (12 U.S.C. 1851).

(r) *Insured depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)), but does not include: (1) An insured depository institution that is described in section 2(c)(2)(D) of the BHC Act (12 U.S.C. 1841(c)(2)(D)); or (2) An insured depository institution if it has, and if every company that controls it has, total consolidated assets of $10 billion or less and total trading assets and trading liabilities, on a consolidated basis, that are 5 percent or less of total consolidated assets.

(s) *Limited trading assets and liabilities* means with respect to a banking entity that:

(1)(i) The banking entity has, together with its affiliates and subsidiaries, trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 75.6(a)(1) and (2) of subpart B) the average gross sum of which over the previous consecutive four quarters, as measured as of the last day of each of the four previous calendar quarters, is less than $1 billion; and

(ii) The CFTC has not determined pursuant to § 75.20(g) or (h) of this part that the banking entity should not be treated as having limited trading assets and liabilities.

(2) With respect to a banking entity other than a banking entity described in paragraph (s)(3) of this section, trading assets and liabilities for purposes of this paragraph (s) means trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 75.6(a)(1) and (2) of subpart B) on a worldwide consolidated basis.

(3)(i) With respect to a banking entity that is a foreign banking organization or a subsidiary of a foreign banking organization, trading assets and liabilities for purposes of this paragraph (s) means the trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 75.6(a)(1) and (2) of subpart B) of the combined U.S. operations of the top-tier foreign banking organization (including all subsidiaries, affiliates, branches, and agencies of the foreign banking organization operating, located, or organized in the United States).

(ii) For purposes of paragraph (s)(3)(i) of this section, a U.S. branch, agency, or subsidiary of a banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary. For purposes of paragraph (s)(3)(i) of this section, all foreign operations of a U.S. agency, branch, or subsidiary of a foreign banking organization are considered to be located in the United States, including branches outside the United States that are managed or controlled by a U.S. branch or agency of the foreign banking organization, for purposes of calculating the banking entity's U.S. trading assets and liabilities.

(t) *Loan* means any loan, lease, extension of credit, or secured or unsecured receivable that is not a security or derivative.

(u) *Moderate trading assets and liabilities* means, with respect to a banking entity, that the banking entity does not have significant trading assets and liabilities or limited trading assets and liabilities.

(v) *Primary financial regulatory agency* has the same meaning as in section 2(12) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301(12)).

(w) *Purchase* includes any contract to buy, purchase, or otherwise acquire. For security futures products, purchase includes any contract, agreement, or transaction for future delivery. With respect to a commodity future, purchase includes any contract, agreement, or transaction for future delivery. With respect to a derivative, purchase includes the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(x) *Qualifying foreign banking organization* means a foreign banking organization that qualifies as such under § 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c), or (e)).

(y) *SEC* means the Securities and Exchange Commission.

(z) *Sale* and *sell* each include any contract to sell or otherwise dispose of. For security futures products, such terms include any contract, agreement, or transaction for future delivery. With respect to a commodity future, such terms include any contract, agreement, or transaction for future delivery. With respect to a derivative, such terms include the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(aa) *Security* has the meaning specified in section 3(a)(10) of the Exchange Act (15 U.S.C. 78c(a)(10)).

(bb) *Security-based swap dealer* has the same meaning as in section 3(a)(71) of the Exchange Act (15 U.S.C. 78c(a)(71)).

(cc) *Security future* has the meaning specified in section 3(a)(55) of the Exchange Act (15 U.S.C. 78c(a)(55)).

(dd) *Separate account* means an account established and maintained by an insurance company in connection with one or more insurance contracts to hold assets that are legally segregated from the insurance company's other assets, under which income, gains, and losses, whether or not realized, from assets allocated to such account, are, in accordance with the applicable contract, credited to or charged against such account without regard to other income, gains, or losses of the insurance company.

(ee) *Significant trading assets and liabilities* means with respect to a banking entity that:

(1)(i) The banking entity has, together with its affiliates and subsidiaries, trading assets and liabilities the average gross sum of which over the previous consecutive four quarters, as measured as of the last day of each of the four previous calendar quarters, equals or exceeds $20 billion; or

(ii) The CFTC has determined pursuant to § 75.20(h) of this part that the banking entity should be treated as having significant trading assets and liabilities.

(2) With respect to a banking entity, other than a banking entity described in paragraph (ee)(3) of this section, trading assets and liabilities for purposes of this paragraph (ee) means trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 75.6(a)(1) and (2) of subpart B) on a worldwide consolidated basis.

(3)(i) With respect to a banking entity that is a foreign banking organization or a subsidiary of a foreign banking organization, trading assets and liabilities for purposes of this paragraph (ee) means the trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 75.6(a)(1) and (2) of subpart B) of the combined U.S. operations of the top-tier foreign banking organization (including all subsidiaries, affiliates, branches, and agencies of the foreign banking organization operating, located, or organized in the United States as well as branches outside the United States that are managed or controlled by a branch or agency of the foreign banking entity operating, located or organized in the United States).

(ii) For purposes of paragraph (ee)(3)(i) of this section, a U.S. branch, agency, or subsidiary of a banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary. For purposes of paragraph (ee)(3)(i) of this section, all foreign operations of a U.S. agency, branch, or subsidiary of a foreign banking organization are considered to be located in the United States for purposes of calculating the banking entity's U.S. trading assets and liabilities.

(ff) *State* means any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(gg) *Subsidiary* has the same meaning as in section 2(d) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(d)).

(hh) *State insurance regulator* means the insurance commissioner, or a similar official or agency, of a State that is engaged in the supervision of insurance companies under State insurance law.

(ii) *Swap dealer* has the same meaning as in section 1(a)(49) of the Commodity Exchange Act (7 U.S.C. 1a(49)).

Subpart B—Proprietary Trading

■ 48. Section 75.3 is amended by:

■ a. Revising paragraphs (b), and (d)(3), (8), and (9);

■ b. Adding paragraphs (d)(10) through (13);

■ c. Redesignating paragraphs (e)(5) through (13) as paragraphs (e)(6) through (14);

■ d. Adding new paragraph (e)(5); and

■ e. Revising paragraph (e)(11), (12), and (14).

The revisions and additions read as follows:

§ 75.3 Prohibition on proprietary trading.

* * * * *

(b) *Definition of trading account.* (1) *Trading account.* Trading account means:

(i) Any account that is used by a banking entity to purchase or sell one or more financial instruments principally for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging one or more of the positions resulting from the purchases or sales of financial instruments described in this paragraph;

(ii) Any account that is used by a banking entity to purchase or sell one or more financial instruments that are both market risk capital rule covered positions and trading positions (or hedges of other market risk capital rule covered positions), if the banking entity, or any affiliate with which the banking entity is consolidated for regulatory reporting purposes, calculates risk-based capital ratios under the market risk capital rule; or

(iii) Any account that is used by a banking entity to purchase or sell one or more financial instruments, if the banking entity:

(A) Is licensed or registered, or is required to be licensed or registered, to engage in the business of a dealer, swap dealer, or security-based swap dealer, to the extent the instrument is purchased or sold in connection with the activities that require the banking entity to be licensed or registered as such; or

(B) Is engaged in the business of a dealer, swap dealer, or security-based swap dealer outside of the United States, to the extent the instrument is purchased or sold in connection with the activities of such business.

(2) *Trading account application for certain banking entities.* (i) A banking entity that is subject to paragraph (b)(1)(ii) of this section in determining the scope of its trading account is not subject to paragraph (b)(1)(i) of this section.

(ii) A banking entity that does not calculate risk-based capital ratios under the market risk capital rule and is not a consolidated affiliate for regulatory reporting purposes of a banking entity that calculates risk based capital ratios under the market risk capital rule may elect to apply paragraph (b)(1)(ii) of this section in determining the scope of its trading account as if it were subject to that paragraph. A banking entity that elects under this subsection to apply paragraph (b)(1)(ii) of this section in determining the scope of its trading account as if it were subject to that paragraph is not required to apply paragraph (b)(1)(i) of this section.

(3) *Consistency of account election for certain banking entities.* (i) Any election or change to an election under paragraph (b)(2)(ii) of this section must apply to the electing banking entity and all of its wholly owned subsidiaries. The primary financial regulatory agency of a banking entity that is affiliated with but is not a wholly owned subsidiary of such electing banking entity may require that the banking entity be subject to this uniform application requirement if the primary financial regulatory agency determines that it is necessary to prevent evasion of the requirements of this part after notice and opportunity for response as provided in subpart D of this part.

(ii) A banking entity that does not elect under paragraph (b)(2)(ii) of this section to be subject to the trading account definition in (b)(1)(ii) may continue to apply the trading account definition in paragraph (b)(1)(i) of this section for one year from the date on which it becomes, or becomes a consolidated affiliate for regulatory reporting purposes with, a banking entity that calculates risk-based capital ratios under the market risk capital rule.

(4) *Rebuttable presumption for certain purchases and sales.* The purchase (or sale) of a financial instrument by a banking entity shall be presumed not to be for the trading account of the banking entity under paragraph (b)(1)(i) of this section if the banking entity holds the financial instrument for sixty days or longer and does not transfer substantially all of the risk of the financial instrument within sixty days of the purchase (or sale).

* * * * *

(d) * * *

(3) Any purchase or sale of a security, foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)), foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25)), or cross-currency swap by a banking entity for the purpose of liquidity management in accordance with a documented liquidity management plan of the banking entity that:

(i) Specifically contemplates and authorizes the particular financial instruments to be used for liquidity management purposes, the amount, types, and risks of these financial instruments that are consistent with liquidity management, and the liquidity circumstances in which the particular financial instruments may or must be used;

(ii) Requires that any purchase or sale of financial instruments contemplated and authorized by the plan be principally for the purpose of managing the liquidity of the banking entity, and not for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging a position taken for such short-term purposes;

(iii) Requires that any financial instruments purchased or sold for liquidity management purposes be highly liquid and limited to financial instruments the market, credit, and other risks of which the banking entity does not reasonably expect to give rise to appreciable profits or losses as a result of short-term price movements;

(iv) Limits any financial instruments purchased or sold for liquidity management purposes, together with any other financial instruments purchased or sold for such purposes, to an amount that is consistent with the banking entity's near-term funding needs, including deviations from normal operations of the banking entity or any affiliate thereof, as estimated and documented pursuant to methods specified in the plan;

(v) Includes written policies and procedures, internal controls, analysis, and independent testing to ensure that the purchase and sale of financial instruments that are not permitted under § 75.6(a) or (b) of this subpart are for the purpose of liquidity management and in accordance with the liquidity management plan described in this paragraph (d)(3); and

(vi) Is consistent with the CFTC's regulatory requirements regarding liquidity management;

* * * * *

(8) Any purchase or sale of one or more financial instruments by a banking entity through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity that is established and administered in accordance with the law of the United States or a foreign sovereign, if the purchase or sale is made directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity;

(9) Any purchase or sale of one or more financial instruments by a banking entity in the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the financial instrument as soon as practicable, and in no event may the banking entity retain such instrument for longer than such period permitted by the OCC;

(10) Any purchase or sale of one or more financial instruments that was made in error by a banking entity in the course of conducting a permitted or excluded activity or is a subsequent transaction to correct such an error;

(11) Contemporaneously entering into a customer-driven swap or customer-driven security-based swap and a matched swap or security-based swap if:

(i) The banking entity retains no more than minimal price risk; and

(ii) The banking entity is not a registered dealer, swap dealer, or security-based swap dealer;

(12) Any purchase or sale of one or more financial instruments that the banking entity uses to hedge mortgage servicing rights or mortgage servicing assets in accordance with a documented hedging strategy; or

(13) Any purchase or sale of a financial instrument that does not meet the definition of trading asset or trading liability under the applicable reporting form for a banking entity as of January 1, 2020.

(e) * * *

(5) *Cross-currency swap* means a swap in which one party exchanges with another party principal and interest rate payments in one currency for principal and interest rate payments in another currency, and the exchange of principal occurs on the date the swap is entered into, with a reversal of the exchange of principal at a later date that is agreed upon when the swap is entered into.

* * * * *

(11) *Market risk capital rule covered position and trading position* means a financial instrument that meets the criteria to be a covered position and a trading position, as those terms are respectively defined, without regard to whether the financial instrument is reported as a covered position or trading position on any applicable regulatory reporting forms:

(i) In the case of a banking entity that is a bank holding company, savings and loan holding company, or insured depository institution, under the market risk capital rule that is applicable to the banking entity; and

(ii) In the case of a banking entity that is affiliated with a bank holding company or savings and loan holding company, other than a banking entity to which a market risk capital rule is applicable, under the market risk capital rule that is applicable to the affiliated bank holding company or savings and loan holding company.

(12) *Market risk capital rule* means the market risk capital rule that is contained in 12 CFR part 3, subpart F, with respect to a banking entity for which the OCC is the primary financial regulatory agency, 12 CFR part 217 with respect to a banking entity for which the Board is the primary financial regulatory agency, or 12 CFR part 324 with respect to a banking entity for which the FDIC is the primary financial regulatory agency.

* * * * *

(14) *Trading desk* means a unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof that is:

(i)(A) Structured by the banking entity to implement a well-defined business strategy;

(B) Organized to ensure appropriate setting, monitoring, and management review of the desk's trading and hedging limits, current and potential future loss exposures, and strategies; and

(C) Characterized by a clearly defined unit that:

(*1*) Engages in coordinated trading activity with a unified approach to its key elements;

(*2*) Operates subject to a common and calibrated set of risk metrics, risk levels, and joint trading limits;

(*3*) Submits compliance reports and other information as a unit for monitoring by management; and

(*4*) Books its trades together; or

(ii) For a banking entity that calculates risk-based capital ratios under the market risk capital rule, or a consolidated affiliate for regulatory reporting purposes of a banking entity that calculates risk-based capital ratios under the market risk capital rule, established by the banking entity or its affiliate for purposes of market risk capital calculations under the market risk capital rule.

■ 49. Section 75.4 is revised to read as follows:

§ 75.4 Permitted underwriting and market making-related activities.

(a) *Underwriting activities*—(1) *Permitted underwriting activities.* The prohibition contained in § 75.3(a) does not apply to a banking entity's underwriting activities conducted in accordance with this paragraph (a).

(2) *Requirements.* The underwriting activities of a banking entity are permitted under paragraph (a)(1) of this section only if:

(i) The banking entity is acting as an underwriter for a distribution of securities and the trading desk's underwriting position is related to such distribution;

(ii)(A) The amount and type of the securities in the trading desk's underwriting position are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, taking into account the liquidity, maturity, and depth of the market for the relevant types of securities; and

(B) Reasonable efforts are made to sell or otherwise reduce the underwriting position within a reasonable period, taking into account the liquidity, maturity, and depth of the market for the relevant types of securities;

(iii) In the case of a banking entity with significant trading assets and liabilities, the banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (a) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The products, instruments or exposures each trading desk may purchase, sell, or manage as part of its underwriting activities;

(B) Limits for each trading desk, in accordance with paragraph (a)(2)(ii)(A) of this section;

(C) Written authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval; and

(D) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits.

(iv) A banking entity with significant trading assets and liabilities may satisfy the requirements in paragraphs (a)(2))iii)(B) and (C) of this section by complying with the requirements set forth below in paragraph (c) of this section;

(v) The compensation arrangements of persons performing the activities described in this paragraph (a) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in the activity described in this paragraph (a) in accordance with applicable law.

(3) *Definition of distribution.* For purposes of this paragraph (a), a distribution of securities means:

(i) An offering of securities, whether or not subject to registration under the Securities Act of 1933, that is distinguished from ordinary trading transactions by the presence of special selling efforts and selling methods; or

(ii) An offering of securities made pursuant to an effective registration statement under the Securities Act of 1933.

(4) *Definition of underwriter.* For purposes of this paragraph (a), *underwriter* means:

(i) A person who has agreed with an issuer or selling security holder to:

(A) Purchase securities from the issuer or selling security holder for distribution;

(B) Engage in a distribution of securities for or on behalf of the issuer or selling security holder; or

(C) Manage a distribution of securities for or on behalf of the issuer or selling security holder; or

(ii) A person who has agreed to participate or is participating in a distribution of such securities for or on behalf of the issuer or selling security holder.

(5) *Definition of selling security holder.* For purposes of this paragraph (a), *selling security holder* means any person, other than an issuer, on whose behalf a distribution is made.

(6) *Definition of underwriting position.* For purposes of this section, *underwriting position* means the long or short positions in one or more securities held by a banking entity or its affiliate, and managed by a particular trading desk, in connection with a particular distribution of securities for which such banking entity or affiliate is acting as an underwriter.

(7) *Definition of client, customer, and counterparty.* For purposes of this paragraph (a), the terms *client, customer, and counterparty,* on a collective or individual basis, refer to market participants that may transact with the banking entity in connection with a particular distribution for which the banking entity is acting as underwriter.

(b) *Market making-related activities*—(1) *Permitted market making-related activities.* The prohibition contained in § 75.3(a) does not apply to a banking entity's market making-related activities conducted in accordance with this paragraph (b).

(2) *Requirements.* The market making-related activities of a banking entity are permitted under paragraph (b)(1) of this section only if:

(i) The trading desk that establishes and manages the financial exposure, routinely stands ready to purchase and sell one or more types of financial instruments related to its financial exposure, and is willing and available to quote, purchase and sell, or otherwise enter into long and short positions in those types of financial instruments for its own account, in commercially reasonable amounts and throughout market cycles on a basis appropriate for the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(ii) The trading desk's market-making related activities are designed not to exceed, on an ongoing basis, the reasonably expected near term demands of clients, customers, or counterparties, taking into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(iii) In the case of a banking entity with significant trading assets and liabilities, the banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (b) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The financial instruments each trading desk stands ready to purchase and sell in accordance with paragraph (b)(2)(i) of this section;

(B) The actions the trading desk will take to demonstrably reduce or otherwise significantly mitigate promptly the risks of its financial exposure consistent with the limits required under paragraph (b)(2)(iii)(C) of this section; the products, instruments, and exposures each trading desk may use for risk management purposes; the techniques and strategies each trading desk may use to manage the risks of its market making-related activities and positions; and the process, strategies, and personnel responsible for ensuring that the actions taken by the trading desk to mitigate these risks are and continue to be effective;

(C) Limits for each trading desk, in accordance with paragraph (b)(2)(ii) of this section;

(D) Written authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval; and

(E) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits.

(iv) A banking entity with significant trading assets and liabilities may satisfy the requirements in paragraphs (b)(2)(iii)(C) and (D) of this section by complying with the requirements set forth below in paragraph (c) of this section;

(v) The compensation arrangements of persons performing the activities described in this paragraph (b) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in activity described in this paragraph (b) in accordance with applicable law.

(3) *Definition of client, customer, and counterparty.* For purposes of paragraph (b) of this section, the terms *client, customer, and counterparty,* on a collective or individual basis refer to market participants that make use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services, provided that:

(i) A trading desk or other organizational unit of another banking entity is not a client, customer, or counterparty of the trading desk if that other entity has trading assets and liabilities of $50 billion or more as measured in accordance with the methodology described in § 75.2(ee) of this part, unless:

(A) The trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk for purposes of paragraph (b)(2) of this section; or

(B) The purchase or sale by the trading desk is conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants.

(ii) [Reserved]

(4) *Definition of financial exposure.* For purposes of this section, *financial exposure* means the aggregate risks of one or more financial instruments and any associated loans, commodities, or foreign exchange or currency, held by a banking entity or its affiliate and managed by a particular trading desk as part of the trading desk's market making-related activities.

(5) *Definition of market-maker positions.* For the purposes of this section, *market-maker positions* means all of the positions in the financial instruments for which the trading desk stands ready to make a market in accordance with paragraph (b)(2)(i) of this section, that are managed by the trading desk, including the trading desk's open positions or exposures arising from open transactions.

(c) *Rebuttable presumption of compliance*—(1) *Internal limits.* (i) A banking entity shall be presumed to meet the requirement in paragraph (a)(2)(ii)(A) or (b)(2)(ii) of this section with respect to the purchase or sale of a financial instrument if the banking entity has established and implements, maintains, and enforces the internal limits for the relevant trading desk as described in paragraph (c)(1)(ii) of this section.

(ii)(A) With respect to underwriting activities conducted pursuant to paragraph (a) of this section, the presumption described in paragraph (c)(1)(i) of this section shall be available to each trading desk that establishes, implements, maintains, and enforces internal limits that should take into account the liquidity, maturity, and depth of the market for the relevant types of securities and are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, based on the nature and amount of the trading desk's underwriting activities, on the:

(*1*) Amount, types, and risk of its underwriting position;

(*2*) Level of exposures to relevant risk factors arising from its underwriting position; and

(*3*) Period of time a security may be held.

(B) With respect to market making-related activities conducted pursuant to paragraph (b) of this section, the presumption described in paragraph (c)(1)(i) of this section shall be available to each trading desk that establishes, implements, maintains, and enforces internal limits that should take into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments and are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, based on the nature and amount of the trading desk's market-making related activities, that address the:

(*1*) Amount, types, and risks of its market-maker positions;

(*2*) Amount, types, and risks of the products, instruments, and exposures the trading desk may use for risk management purposes;

(*3*) Level of exposures to relevant risk factors arising from its financial exposure; and

(*4*) Period of time a financial instrument may be held.

(2) *Supervisory review and oversight.* The limits described in paragraph (c)(1) of this section shall be subject to supervisory review and oversight by the CFTC on an ongoing basis.

(3) *Limit Breaches and Increases.* (i) With respect to any limit set pursuant to paragraph (c)(1)(ii)(A) or (B) of this section, a banking entity shall maintain and make available to the CFTC upon request records regarding:

(A) Any limit that is exceeded; and

(B) Any temporary or permanent increase to any limit(s), in each case in the form and manner as directed by the CFTC.

(ii) In the event of a breach or increase of any limit set pursuant to paragraph (c)(1)(ii)(A) or (B) of this section, the presumption described in paragraph (c)(1)(i) of this section shall continue to be available only if the banking entity:

(A) Takes action as promptly as possible after a breach to bring the trading desk into compliance; and

(B) Follows established written authorization procedures, including escalation procedures that require review and approval of any trade that exceeds a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval.

(4) *Rebutting the presumption.* The presumption in paragraph (c)(1)(i) of this section may be rebutted by the CFTC if the CFTC determines, taking into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments and based on all relevant facts and circumstances, that a trading desk is engaging in activity that is not based on the reasonably expected near term demands of clients, customers, or counterparties. The CFTC's rebuttal of the presumption in paragraph (c)(1)(i) of this section must be made in accordance with the notice and response procedures in subpart D of this part.

■ 50. Section 75.5 is amended by revising paragraphs (b) and (c)(1) introductory text and adding paragraph (c)(4) to read as follows:

§ 75.5 Permitted risk-mitigating hedging activities.

* * * * *

(b) *Requirements.* (1) The risk-mitigating hedging activities of a banking entity that has significant trading assets and liabilities are permitted under paragraph (a) of this section only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures regarding the positions, techniques and strategies that may be used for hedging, including documentation indicating what positions, contracts or other holdings a particular trading desk may use in its risk-mitigating hedging activities, as well as position and aging limits with respect to such positions, contracts or other holdings;

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(C) The conduct of analysis and independent testing designed to ensure that the positions, techniques and strategies that may be used for hedging may reasonably be expected to reduce or otherwise significantly mitigate the specific, identifiable risk(s) being hedged;

(ii) The risk-mitigating hedging activity:

(A) Is conducted in accordance with the written policies, procedures, and internal controls required under this section;

(B) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section;

(D) Is subject to continuing review, monitoring and management by the banking entity that:

(*1*) Is consistent with the written hedging policies and procedures required under paragraph (b)(1)(i) of this section;

(*2*) Is designed to reduce or otherwise significantly mitigate the specific, identifiable risks that develop over time from the risk-mitigating hedging activities undertaken under this section and the underlying positions, contracts, and other holdings of the banking entity, based upon the facts and circumstances of the underlying and hedging positions, contracts and other holdings of the banking entity and the risks and liquidity thereof; and

(*3*) Requires ongoing recalibration of the hedging activity by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(1)(ii) of this section and is not prohibited proprietary trading; and

(iii) The compensation arrangements of persons performing risk-mitigating hedging activities are designed not to reward or incentivize prohibited proprietary trading.

(2) The risk-mitigating hedging activities of a banking entity that does not have significant trading assets and liabilities are permitted under paragraph (a) of this section only if the risk-mitigating hedging activity:

(i) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof; and

(ii) Is subject, as appropriate, to ongoing recalibration by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(2) of this section and is not prohibited proprietary trading.

(c) * * *

(1) A banking entity that has significant trading assets and liabilities must comply with the requirements of paragraphs (c)(2) and (3) of this section, unless the requirements of paragraph (c)(4) of this section are met, with respect to any purchase or sale of financial instruments made in reliance on this section for risk-mitigating hedging purposes that is:

* * * * *

(4) The requirements of paragraphs (c)(2) and (3) of this section do not

apply to the purchase or sale of a financial instrument described in paragraph (c)(1) of this section if:

(i) The financial instrument purchased or sold is identified on a written list of pre-approved financial instruments that are commonly used by the trading desk for the specific type of hedging activity for which the financial instrument is being purchased or sold; and

(ii) At the time the financial instrument is purchased or sold, the hedging activity (including the purchase or sale of the financial instrument) complies with written, pre-approved limits for the trading desk purchasing or selling the financial instrument for hedging activities undertaken for one or more other trading desks. The limits shall be appropriate for the:

(A) Size, types, and risks of the hedging activities commonly undertaken by the trading desk;

(B) Financial instruments purchased and sold for hedging activities by the trading desk; and

(C) Levels and duration of the risk exposures being hedged.

■ 51. Section 75.6 is amended by revising paragraph (e)(3); removing paragraphs (e)(4) and (6); and redesignating paragraph (e)(5) as paragraph (e)(4).

The revision reads as follows:

§ 75.6 Other permitted proprietary trading activities.

* * * * *

(e) * * *

(3) A purchase or sale by a banking entity is permitted for purposes of this paragraph (e) if:

(i) The banking entity engaging as principal in the purchase or sale (including relevant personnel) is not located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to purchase or sell as principal is not located in the United States or organized under the laws of the United States or of any State; and

(iii) The purchase or sale, including any transaction arising from risk-mitigating hedging related to the instruments purchased or sold, is not accounted for as principal directly or on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

* * * * *

Subpart C—Covered Funds Activities and Investments

■ 52. Section 75.10 is amended by revising paragraphs (c)(7)(ii) and (c)(8)(i)(A) to read as follows:

§ 75.10 Prohibition on Acquiring or Retaining an Ownership Interest in and Having Certain Relationships with a Covered Fund

* * * * *

(c) * * *

(7) * * *

(ii) Participates in the profits and losses of the separate account other than in compliance with applicable requirements regarding bank owned life insurance.

(8) * * *

(i) * * *

(A) Loans as defined in § 75.2(t) of subpart A;

* * * * *

■ 53. Section 75.11 is amended by revising paragraph (c) to read as follows:

§ 75.11 Permitted organizing and offering, underwriting, and market making with respect to a covered fund.

* * * * *

(c) *Underwriting and market making in ownership interests of a covered fund.* The prohibition contained in § 75.10(a) of this subpart does not apply to a banking entity's underwriting activities or market making-related activities involving a covered fund so long as:

(1) Those activities are conducted in accordance with the requirements of § 75.4(a) or (b) of subpart B, respectively; and

(2) With respect to any banking entity (or any affiliate thereof) that: Acts as a sponsor, investment adviser or commodity trading advisor to a particular covered fund or otherwise acquires and retains an ownership interest in such covered fund in reliance on paragraph (a) of this section; or acquires and retains an ownership interest in such covered fund and is either a securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78*o*–11(a)(3)), or is acquiring and retaining an ownership interest in such covered fund in compliance with section 15G of that Act (15 U.S.C. 78*o*–11) and the implementing regulations issued thereunder each as permitted by paragraph (b) of this section, then in each such case any ownership interests acquired or retained by the banking entity and its affiliates in connection with underwriting and market making related activities for that particular covered fund are included in the calculation of ownership interests permitted to be held by the banking entity and its affiliates under the limitations of § 75.12(a)(2)(ii); § 75.12(a)(2)(iii), and § 75.12(d) of this subpart.

■ 54. Section 75.13 is amended by revising paragraphs (a), (b)(3) and (4), and (c) to read as follows:

§ 75.13 Other permitted covered fund activities and investments.

(a) *Permitted risk-mitigating hedging activities.* (1) The prohibition contained in § 75.10(a) of this subpart does not apply with respect to an ownership interest in a covered fund acquired or retained by a banking entity that is designed to reduce or otherwise significantly mitigate the specific, identifiable risks to the banking entity in connection with:

(i) A compensation arrangement with an employee of the banking entity or an affiliate thereof that directly provides investment advisory, commodity trading advisory or other services to the covered fund; or

(ii) A position taken by the banking entity when acting as intermediary on behalf of a customer that is not itself a banking entity to facilitate the exposure by the customer to the profits and losses of the covered fund.

(2) The risk-mitigating hedging activities of a banking entity are permitted under this paragraph (a) only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program in accordance with subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures; and

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(ii) The acquisition or retention of the ownership interest:

(A) Is made in accordance with the written policies, procedures, and internal controls required under this section;

(B) At the inception of the hedge, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks arising:

(*1*) Out of a transaction conducted solely to accommodate a specific customer request with respect to the covered fund; or

(*2*) In connection with the compensation arrangement with the employee that directly provides investment advisory, commodity trading advisory, or other services to the covered fund;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section; and

(D) Is subject to continuing review, monitoring and management by the banking entity.

(iii) With respect to risk-mitigating hedging activity conducted pursuant to paragraph (a)(1)(i) of this section, the compensation arrangement relates solely to the covered fund in which the banking entity or any affiliate has acquired an ownership interest pursuant to paragraph (a)(1)(i) and such compensation arrangement provides that any losses incurred by the banking entity on such ownership interest will be offset by corresponding decreases in amounts payable under such compensation arrangement.

(b) * * *

(3) An ownership interest in a covered fund is not offered for sale or sold to a resident of the United States for purposes of paragraph (b)(1)(iii) of this section only if it is not sold and has not been sold pursuant to an offering that targets residents of the United States in which the banking entity or any affiliate of the banking entity participates. If the banking entity or an affiliate sponsors or serves, directly or indirectly, as the investment manager, investment adviser, commodity pool operator or commodity trading advisor to a covered fund, then the banking entity or affiliate will be deemed for purposes of this paragraph (b)(3) to participate in any offer or sale by the covered fund of ownership interests in the covered fund.

(4) An activity or investment occurs solely outside of the United States for purposes of paragraph (b)(1)(iv) of this section only if:

(i) The banking entity acting as sponsor, or engaging as principal in the acquisition or retention of an ownership interest in the covered fund, is not itself, and is not controlled directly or indirectly by, a banking entity that is located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to acquire or retain the ownership interest or act as sponsor to the covered fund is not located in the United States or organized under the laws of the United States or of any State; and

(iii) The investment or sponsorship, including any transaction arising from risk-mitigating hedging related to an ownership interest, is not accounted for as principal directly or indirectly on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

* * * * *

(c) Permitted covered fund interests and activities by a regulated insurance company. The prohibition contained in § 75.10(a) of this subpart does not apply to the acquisition or retention by an insurance company, or an affiliate thereof, of any ownership interest in, or the sponsorship of, a covered fund only if:

(1) The insurance company or its affiliate acquires and retains the ownership interest solely for the general account of the insurance company or for one or more separate accounts established by the insurance company;

(2) The acquisition and retention of the ownership interest is conducted in compliance with, and subject to, the insurance company investment laws and regulations of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law or regulation described in paragraph (c)(2) of this section is insufficient to protect the safety and soundness of the banking entity, or the financial stability of the United States.

■ 55. Section 75.14 is amended by revising paragraph (a)(2)(ii)(B) to read as follows:

§ 75.14 Limitations on relationships with a covered fund.

(a) * * *

(2) * * *

(ii) * * *

(B) The chief executive officer (or equivalent officer) of the banking entity certifies in writing annually no later than March 31 to the CFTC (with a duty to update the certification if the information in the certification materially changes) that the banking entity does not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests; and

* * * * *

Subpart D—Compliance Program Requirement; Violations

■ 56. Section 75.20 is amended by revising paragraphs (a), (b) introductory text, (c), (d), (e) introductory text, and (f)(2) and adding paragraphs (g), (h), and (i) to read as follows:

§ 75.20 Program for compliance; reporting.

(a) *Program requirement.* Each banking entity (other than a banking entity with limited trading assets and liabilities) shall develop and provide for the continued administration of a compliance program reasonably designed to ensure and monitor compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part. The terms, scope, and detail of the compliance program shall be appropriate for the types, size, scope, and complexity of activities and business structure of the banking entity.

(b) *Banking entities with significant trading assets and liabilities.* With respect to a banking entity with significant trading assets and liabilities, the compliance program required by paragraph (a) of this section, at a minimum, shall include:

* * * * *

(c) *CEO attestation.* The CEO of a banking entity that has significant trading assets and liabilities must, based on a review by the CEO of the banking entity, attest in writing to the CFTC, each year no later than March 31, that the banking entity has in place processes to establish, maintain, enforce, review, test and modify the compliance program required by paragraph (b) of this section in a manner reasonably designed to achieve compliance with section 13 of the BHC Act and this part. In the case of a U.S. branch or agency of a foreign banking entity, the attestation may be provided for the entire U.S. operations of the foreign banking entity by the senior management officer of the U.S. operations of the foreign banking entity who is located in the United States.

(d) *Reporting requirements under appendix A to this part.* (1) A banking entity engaged in proprietary trading activity permitted under subpart B of this part shall comply with the reporting requirements described in appendix A to this part, if:

(i) The banking entity has significant trading assets and liabilities; or

(ii) The CFTC notifies the banking entity in writing that it must satisfy the reporting requirements contained in appendix A to this part.

(2) Frequency of reporting: Unless the CFTC notifies the banking entity in writing that it must report on a different basis, a banking entity subject to appendix A to this part shall report the information required by appendix A for

each quarter within 30 days of the end of the quarter.

(e) *Additional documentation for covered funds.* A banking entity with significant trading assets and liabilities shall maintain records that include:

* * * * *

(f) * * *

(2) *Banking entities with moderate trading assets and liabilities.* A banking entity with moderate trading assets and liabilities may satisfy the requirements of this section by including in its existing compliance policies and procedures appropriate references to the requirements of section 13 of the BHC Act and this part and adjustments as appropriate given the activities, size, scope, and complexity of the banking entity.

(g) *Rebuttable presumption of compliance for banking entities with limited trading assets and liabilities*—(1) *Rebuttable presumption.* Except as otherwise provided in this paragraph, a banking entity with limited trading assets and liabilities shall be presumed to be compliant with subpart B and subpart C of this part and shall have no obligation to demonstrate compliance with this part on an ongoing basis.

(2) *Rebuttal of presumption.* If upon examination or audit, the CFTC determines that the banking entity has engaged in proprietary trading or covered fund activities that are otherwise prohibited under subpart B or subpart C of this part, the CFTC may require the banking entity to be treated under this part as if it did not have limited trading assets and liabilities. The CFTC's rebuttal of the presumption in this paragraph must be made in accordance with the notice and response procedures in paragraph (i) of this section.

(h) *Reservation of authority.* Notwithstanding any other provision of this part, the CFTC retains its authority to require a banking entity without significant trading assets and liabilities to apply any requirements of this part that would otherwise apply if the banking entity had significant or moderate trading assets and liabilities if the CFTC determines that the size or complexity of the banking entity's trading or investment activities, or the risk of evasion of subpart B or subpart C, of this part does not warrant a presumption of compliance under paragraph (g) of this section or treatment as a banking entity with moderate trading assets and liabilities, as applicable. The CFTC's exercise of this reservation of authority must be made in accordance with the notice and response procedures in paragraph (i) of this section.

(i) *Notice and response procedures*—(1) *Notice.* The CFTC will notify the banking entity in writing of any determination requiring notice under this part and will provide an explanation of the determination.

(2) *Response.* The banking entity may respond to any or all items in the notice described in paragraph (i)(1) of this section. The response should include any matters that the banking entity would have the CFTC consider in deciding whether to make the determination. The response must be in writing and delivered to the designated CFTC official within 30 days after the date on which the banking entity received the notice. The CFTC may shorten the time period when, in the opinion of the CFTC, the activities or condition of the banking entity so requires, provided that the banking entity is informed of the time period at the time of notice, or with the consent of the banking entity. In its discretion, the CFTC may extend the time period for good cause.

(3) *Waiver.* Failure to respond within 30 days or such other time period as may be specified by the CFTC shall constitute a waiver of any objections to the CFTC's determination.

(4) *Decision.* The CFTC will notify the banking entity of the decision in writing. The notice will include an explanation of the decision.

■ 57. Revise appendix A to part 75 to read as follows:

Appendix A to Part 75—Reporting and Recordkeeping Requirements for Covered Trading Activities

I. Purpose

a. This appendix sets forth reporting and recordkeeping requirements that certain banking entities must satisfy in connection with the restrictions on proprietary trading set forth in subpart B (''proprietary trading restrictions''). Pursuant to § 75.20(d), this appendix applies to a banking entity that, together with its affiliates and subsidiaries, has significant trading assets and liabilities. These entities are required to (i) furnish periodic reports to the CFTC regarding a variety of quantitative measurements of their covered trading activities, which vary depending on the scope and size of covered trading activities, and (ii) create and maintain records documenting the preparation and content of these reports. The requirements of this appendix must be incorporated into the banking entity's internal compliance program under § 75.20.

b. The purpose of this appendix is to assist banking entities and the CFTC in:

(1) Better understanding and evaluating the scope, type, and profile of the banking entity's covered trading activities;

(2) Monitoring the banking entity's covered trading activities;

(3) Identifying covered trading activities that warrant further review or examination by the banking entity to verify compliance with the proprietary trading restrictions;

(4) Evaluating whether the covered trading activities of trading desks engaged in market making-related activities subject to § 75.4(b) are consistent with the requirements governing permitted market making-related activities;

(5) Evaluating whether the covered trading activities of trading desks that are engaged in permitted trading activity subject to § 75.4, 75.5, or 75.6(a) and (b) (*i.e.,* underwriting and market making-related activity, risk-mitigating hedging, or trading in certain government obligations) are consistent with the requirement that such activity not result, directly or indirectly, in a material exposure to high-risk assets or high-risk trading strategies;

(6) Identifying the profile of particular covered trading activities of the banking entity, and the individual trading desks of the banking entity, to help establish the appropriate frequency and scope of examination by CFTC of such activities; and

(7) Assessing and addressing the risks associated with the banking entity's covered trading activities.

c. Information that must be furnished pursuant to this appendix is not intended to serve as a dispositive tool for the identification of permissible or impermissible activities.

d. In addition to the quantitative measurements required in this appendix, a banking entity may need to develop and implement other quantitative measurements in order to effectively monitor its covered trading activities for compliance with section 13 of the BHC Act and this part and to have an effective compliance program, as required by § 75.20. The effectiveness of particular quantitative measurements may differ based on the profile of the banking entity's businesses in general and, more specifically, of the particular trading desk, including types of instruments traded, trading activities and strategies, and history and experience (*e.g.,* whether the trading desk is an established, successful market maker or a new entrant to a competitive market). In all cases, banking entities must ensure that they have robust measures in place to identify and monitor the risks taken in their trading activities, to ensure that the activities are within risk tolerances established by the banking entity, and to monitor and examine for compliance with the proprietary trading restrictions in this part.

e. On an ongoing basis, banking entities must carefully monitor, review, and evaluate all furnished quantitative measurements, as well as any others that they choose to utilize in order to maintain compliance with section 13 of the BHC Act and this part. All measurement results that indicate a heightened risk of impermissible proprietary trading, including with respect to otherwise-permitted activities under §§ 75.4 through 75.6(a) and (b), or that result in a material exposure to high-risk assets or high-risk trading strategies, must be escalated within the banking entity for review, further analysis, explanation to CFTC, and remediation, where appropriate. The quantitative measurements discussed in this appendix should be helpful to banking entities in identifying and managing the risks related to their covered trading activities.

II. Definitions

The terms used in this appendix have the same meanings as set forth in §§ 75.2 and 75.3. In addition, for purposes of this appendix, the following definitions apply:

Applicability identifies the trading desks for which a banking entity is required to calculate and report a particular quantitative measurement based on the type of covered trading activity conducted by the trading desk.

Calculation period means the period of time for which a particular quantitative measurement must be calculated.

Comprehensive profit and loss means the net profit or loss of a trading desk's material sources of trading revenue over a specific period of time, including, for example, any increase or decrease in the market value of a trading desk's holdings, dividend income, and interest income and expense.

Covered trading activity means trading conducted by a trading desk under § 75.4, § 75.5, § 75.6(a), or § 75.6(b). A banking entity may include in its covered trading activity trading conducted under § 75.3(d), § 75.6(c), § 75.6(d) or § 75.6(e).

Measurement frequency means the frequency with which a particular quantitative metric must be calculated and recorded.

Trading day means a calendar day on which a trading desk is open for trading.

III. Reporting and Recordkeeping

a. Scope of Required Reporting

1. Quantitative measurements. Each banking entity made subject to this appendix by § 75.20 must furnish the following quantitative measurements, as applicable, for each trading desk of the banking entity engaged in covered trading activities and calculate these quantitative measurements in accordance with this appendix:

i. Internal Limits and Usage;
ii. Value-at-Risk;
iii. Comprehensive Profit and Loss Attribution;
iv. Positions; and
v. Transaction Volumes.

2. Trading desk information. Each banking entity made subject to this appendix by § 75.20 must provide certain descriptive information, as further described in this appendix, regarding each trading desk engaged in covered trading activities.

3. Quantitative measurements identifying information. Each banking entity made subject to this appendix by § 75.20 must provide certain identifying and descriptive information, as further described in this appendix, regarding its quantitative measurements.

4. Narrative statement. Each banking entity made subject to this appendix by § 75.20 may provide an optional narrative statement, as further described in this appendix.

5. File identifying information. Each banking entity made subject to this appendix by § 75.20 must provide file identifying information in each submission to the CFTC pursuant to this appendix, including the name of the banking entity, the RSSD ID assigned to the top-tier banking entity by the Board, and identification of the reporting period and creation date and time.

b. Trading Desk Information

1. Each banking entity must provide descriptive information regarding each trading desk engaged in covered trading activities, including:

i. Name of the trading desk used internally by the banking entity and a unique identification label for the trading desk;

ii. Identification of each type of covered trading activity in which the trading desk is engaged;

iii. Brief description of the general strategy of the trading desk;

v. A list identifying each Agency receiving the submission of the trading desk;

2. Indication of whether each calendar date is a trading day or not a trading day for the trading desk; and

3. Currency reported and daily currency conversion rate.

c. Quantitative Measurements Identifying Information

Each banking entity must provide the following information regarding the quantitative measurements:

1. An Internal Limits Information Schedule that provides identifying and descriptive information for each limit reported pursuant to the Internal Limits and Usage quantitative measurement, including the name of the limit, a unique identification label for the limit, a description of the limit, the unit of measurement for the limit, the type of limit, and identification of the corresponding risk factor attribution in the particular case that the limit type is a limit on a risk factor sensitivity and profit and loss attribution to the same risk factor is reported; and

2. A Risk Factor Attribution Information Schedule that provides identifying and descriptive information for each risk factor attribution reported pursuant to the Comprehensive Profit and Loss Attribution quantitative measurement, including the name of the risk factor or other factor, a unique identification label for the risk factor or other factor, a description of the risk factor or other factor, and the risk factor or other factor's change unit.

d. Narrative Statement

Each banking entity made subject to this appendix by § 75.20 may submit in a separate electronic document a Narrative Statement to the CFTC with any information the banking entity views as relevant for assessing the information reported. The Narrative Statement may include further description of or changes to calculation methods, identification of material events, description of and reasons for changes in the banking entity's trading desk structure or trading desk strategies, and when any such changes occurred.

e. Frequency and Method of Required Calculation and Reporting

A banking entity must calculate any applicable quantitative measurement for each trading day. A banking entity must report the Trading Desk Information, the Quantitative Measurements Identifying Information, and each applicable quantitative measurement electronically to the CFTC on the reporting schedule established in § 75.20 unless otherwise requested by the CFTC. A banking entity must report the Trading Desk Information, the Quantitative Measurements Identifying Information, and each applicable quantitative measurement to the CFTC in accordance with the XML Schema specified and published on the CFTC's website.

f. Recordkeeping

A banking entity must, for any quantitative measurement furnished to the CFTC pursuant to this appendix and § 75.20(d), create and maintain records documenting the preparation and content of these reports, as well as such information as is necessary to permit the CFTC to verify the accuracy of such reports, for a period of five years from the end of the calendar year for which the measurement was taken. A banking entity must retain the Narrative Statement, the Trading Desk Information, and the Quantitative Measurements Identifying Information for a period of five years from the end of the calendar year for which the information was reported to the CFTC.

IV. Quantitative Measurements

a. Risk-Management Measurements

1. Internal Limits and Usage

i. *Description:* For purposes of this appendix, Internal Limits are the constraints that define the amount of risk and the positions that a trading desk is permitted to take at a point in time, as defined by the banking entity for a specific trading desk. Usage represents the value of the trading desk's risk or positions that are accounted for by the current activity of the desk. Internal limits and their usage are key compliance and risk management tools used to control and monitor risk taking and include, but are not limited to, the limits set out in §§ 75.4 and 75.5. A trading desk's risk limits, commonly including a limit on ''Value-at-Risk,'' are useful in the broader context of the trading desk's overall activities, particularly for the market making activities under § 75.4(b) and hedging activity under § 75.5. Accordingly, the limits required under §§ 75.4(b)(2)(iii)(C) and 75.5(b)(1)(i)(A) must meet the applicable requirements under §§ 75.4(b)(2)(iii)(C) and 75.5(b)(1)(i)(A) and also must include appropriate metrics for the trading desk limits including, at a minimum, ''Value-at-Risk'' except to the extent the ''Value-at-Risk'' metric is demonstrably ineffective for measuring and monitoring the risks of a trading desk based on the types of positions traded by, and risk exposures of, that desk.

A. A banking entity must provide the following information for each limit reported pursuant to this quantitative measurement: The unique identification label for the limit reported in the Internal Limits Information Schedule, the limit size (distinguishing between an upper and a lower limit), and the value of usage of the limit.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

2. Value-at-Risk

i. *Description:* For purposes of this appendix, Value-at-Risk (''VaR'') is the measurement of the risk of future financial loss in the value of a trading desk's aggregated positions at the ninety-nine percent confidence level over a one-day period, based on current market conditions.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

b. Source-of-Revenue Measurements

1. Comprehensive Profit and Loss Attribution

i. *Description:* For purposes of this appendix, Comprehensive Profit and Loss Attribution is an analysis that attributes the daily fluctuation in the value of a trading desk's positions to various sources. First, the daily profit and loss of the aggregated positions is divided into two categories: (i) Profit and loss attributable to a trading desk's existing positions that were also positions held by the trading desk as of the end of the prior day (''existing positions''); and (ii) profit and loss attributable to new positions resulting from the current day's trading activity (''new positions'').

A. The comprehensive profit and loss associated with existing positions must reflect changes in the value of these positions on the applicable day. The comprehensive profit and loss from existing positions must be further attributed, as applicable, to (i) changes in the specific risk factors and other factors that are monitored and managed as part of the trading desk's overall risk management policies and procedures; and (ii) any other applicable elements, such as cash flows, carry, changes in reserves, and the correction, cancellation, or exercise of a trade.

B. For the attribution of comprehensive profit and loss from existing positions to specific risk factors and other factors, a banking entity must provide the following information for the factors that explain the preponderance of the profit or loss changes due to risk factor changes: The unique identification label for the risk factor or other factor listed in the Risk Factor Attribution Information Schedule, and the profit or loss due to the risk factor or other factor change.

C. The comprehensive profit and loss attributed to new positions must reflect commissions and fee income or expense and market gains or losses associated with transactions executed on the applicable day. New positions include purchases and sales of financial instruments and other assets/liabilities and negotiated amendments to existing positions. The comprehensive profit and loss from new positions may be reported in the aggregate and does not need to be further attributed to specific sources.

D. The portion of comprehensive profit and loss from existing positions that is not attributed to changes in specific risk factors and other factors must be allocated to a residual category. Significant unexplained profit and loss must be escalated for further investigation and analysis.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

c. Positions and Transaction Volumes Measurements

1. Positions

i. *Description:* For purposes of this appendix, Positions is the value of securities and derivatives positions managed by the trading desk. For purposes of the Positions quantitative measurement, do not include in the Positions calculation for ''securities'' those securities that are also ''derivatives,'' as those terms are defined under subpart A; instead, report those securities that are also derivatives as ''derivatives.'' [1227] A banking entity must separately report the trading desk's market value of long securities positions, short securities positions, derivatives receivables, and derivatives payables.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks that rely on § 75.4(a) or (b) to conduct underwriting activity or market-making-related activity, respectively.

2. Transaction Volumes

i. *Description:* For purposes of this appendix, Transaction Volumes measures three exclusive categories of covered trading activity conducted by a trading desk. A banking entity is required to report the value and number of security and derivative transactions conducted by the trading desk with: (i) Customers, excluding internal transactions; (ii) non-customers, excluding internal transactions; and (iii) trading desks and other organizational units where the transaction is booked into either the same banking entity or an affiliated banking entity. For securities, value means gross market value. For derivatives, value means gross notional value. For purposes of calculating the Transaction Volumes quantitative measurement, do not include in the Transaction Volumes calculation for ''securities'' those securities that are also ''derivatives,'' as those terms are defined under subpart A; instead, report those securities that are also derivatives as ''derivatives.'' [1228] Further, for purposes of the Transaction Volumes quantitative measurement, a customer of a trading desk that relies on § 75.4(a) to conduct underwriting activity is a market participant identified in § 75.4(a)(7), and a customer of a trading desk that relies on § 75.4(b) to conduct market making-related activity is a market participant identified in § 75.4(b)(3).

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks that rely on § 75.4(a) or (b) to conduct underwriting activity or market-making-related activity, respectively.

[1227] *See* § 75.2(h), (aa). For example, under this part, a security-based swap is both a ''security'' and a ''derivative.'' For purposes of the Positions quantitative measurement, security-based swaps are reported as derivatives rather than securities.

[1228] *See* § 75.2(h), (aa).

Appendix B to Part 75 [Removed]

■ 58. Appendix B to part 75 is removed.

■ 59. Effective January 1, 2020, until December 31, 2020, appendix Z to part 75 is added to read as follows:

Appendix Z to Part 75—Proprietary Trading and Certain Interests in and Relationships with Covered Funds (Alternative Compliance)

Note: The content of this appendix reproduces the regulation implementing Section 13 of the Bank Holding Company Act as of November 13, 2019.

Subpart A—Authority and Definitions

§ 75.1 Authority, purpose, scope, and relationship to other authorities.

(a) *Authority.* This part is issued by the Commission under section 13 of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1851).

(b) *Purpose.* Section 13 of the Bank Holding Company Act establishes prohibitions and restrictions on proprietary trading by, and investments in or relationships with covered funds by, certain banking entities. This part implements section 13 of the Bank Holding Company Act by defining terms used in the statute and related terms, establishing prohibitions and restrictions on proprietary trading and investments in or relationships with covered funds, and further explaining the statute's requirements.

(c) *Scope.* This part implements section 13 of the Bank Holding Company Act with respect to banking entities for which the CFTC is the primary financial regulatory agency, as defined in section 2(12) of the Dodd-Frank Act, but does not include such entities to the extent they are not within the definition of banking entity in § 75.2(c).

(d) *Relationship to other authorities.* Except as otherwise provided under section 13 of the BHC Act, and notwithstanding any other provision of law, the prohibitions and restrictions under section 13 of the BHC Act shall apply to the activities of an applicable banking entity, even if such activities are authorized for the applicable banking entity under other applicable provisions of law.

§ 75.2 Definitions.

Unless otherwise specified, for purposes of this part:

(a) *Affiliate* has the same meaning as in section 2(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(k)).

(b) *Bank holding company* has the same meaning as in section 2 of the

Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(c) *Banking entity.* (1) Except as provided in paragraph (c)(2) of this section, *banking entity* means:

(i) Any insured depository institution;

(ii) Any company that controls an insured depository institution;

(iii) Any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(iv) Any affiliate or subsidiary of any entity described in paragraphs (c)(1)(i), (ii), or (iii) of this section.

(2) Banking entity does not include:

(i) A covered fund that is not itself a banking entity under paragraphs (c)(1)(i), (ii), or (iii) of this section;

(ii) A portfolio company held under the authority contained in section 4(k)(4)(H) or (I) of the BHC Act (12 U.S.C. 1843(k)(4)(H), (I)), or any portfolio concern, as defined under 13 CFR 107.50, that is controlled by a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), so long as the portfolio company or portfolio concern is not itself a banking entity under paragraphs (c)(1)(i), (ii), or (iii) of this section; or

(iii) The FDIC acting in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(d) *Board* means the Board of Governors of the Federal Reserve System.

(e) *CFTC* or *Commission* means the Commodity Futures Trading Commission.

(f) *Dealer* has the same meaning as in section 3(a)(5) of the Exchange Act (15 U.S.C. 78c(a)(5)).

(g) *Depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)).

(h) *Derivative.* (1) Except as provided in paragraph (h)(2) of this section, *derivative* means:

(i) Any swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68));

(ii) Any purchase or sale of a commodity, that is not an excluded commodity, for deferred shipment or delivery that is intended to be physically settled;

(iii) Any foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)) or foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25));

(iv) Any agreement, contract, or transaction in foreign currency described in section 2(c)(2)(C)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(C)(i));

(v) Any agreement, contract, or transaction in a commodity other than foreign currency described in section 2(c)(2)(D)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(D)(i)); and

(vi) Any transaction authorized under section 19 of the Commodity Exchange Act (7 U.S.C. 23(a) or (b));

(2) A derivative does not include:

(i) Any consumer, commercial, or other agreement, contract, or transaction that the CFTC and SEC have further defined by joint regulation, interpretation, guidance, or other action as not within the definition of swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68)); or

(ii) Any identified banking product, as defined in section 402(b) of the Legal Certainty for Bank Products Act of 2000 (7 U.S.C. 27(b)), that is subject to section 403(a) of that Act (7 U.S.C. 27a(a)).

(i) *Employee* includes a member of the immediate family of the employee.

(j) *Exchange Act* means the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

(k) *Excluded commodity* has the same meaning as in section 1a(19) of the Commodity Exchange Act (7 U.S.C. 1a(19)).

(l) *FDIC* means the Federal Deposit Insurance Corporation.

(m) *Federal banking agencies* means the Board, the Office of the Comptroller of the Currency, and the FDIC.

(n) *Foreign banking organization* has the same meaning as in section 211.21(o) of the Board's Regulation K (12 CFR 211.21(o)), but does not include a foreign bank, as defined in section 1(b)(7) of the International Banking Act of 1978 (12 U.S.C. 3101(7)), that is organized under the laws of the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands.

(o) *Foreign insurance regulator* means the insurance commissioner, or a similar official or agency, of any country other than the United States that is engaged in the supervision of insurance companies under foreign insurance law.

(p) *General account* means all of the assets of an insurance company except those allocated to one or more separate accounts.

(q) *Insurance company* means a company that is organized as an insurance company, primarily and predominantly engaged in writing insurance or reinsuring risks underwritten by insurance companies, subject to supervision as such by a state insurance regulator or a foreign insurance regulator, and not operated for the purpose of evading the provisions of section 13 of the BHC Act (12 U.S.C. 1851).

(r) *Insured depository institution,* unless otherwise indicated, has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)), but does not include:

(1) An insured depository institution that is described in section 2(c)(2)(D) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(c)(2)(D)); or

(2) An insured depository institution if it has, and if every company that controls it has, total consolidated assets of $10 billion or less and total trading assets and trading liabilities, on a consolidated basis, that are 5 percent or less of total consolidated assets.

(s) *Loan* means any loan, lease, extension of credit, or secured or unsecured receivable that is not a security or derivative.

(t) *Primary financial regulatory agency* has the same meaning as in section 2(12) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301(12)).

(u) *Purchase* includes any contract to buy, purchase, or otherwise acquire. For security futures products, purchase includes any contract, agreement, or transaction for future delivery. With respect to a commodity future, purchase includes any contract, agreement, or transaction for future delivery. With respect to a derivative, purchase includes the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(v) *Qualifying foreign banking organization* means a foreign banking organization that qualifies as such under § 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c), or (e)).

(w) *SEC* means the Securities and Exchange Commission.

(x) *Sale* and *sell* each include any contract to sell or otherwise dispose of. For security futures products, such terms include any contract, agreement, or transaction for future delivery. With respect to a commodity future, such terms include any contract, agreement, or transaction for future delivery. With respect to a derivative, such terms include the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(y) *Security* has the meaning specified in section 3(a)(10) of the Exchange Act (15 U.S.C. 78c(a)(10)).

(z) *Security-based swap dealer* has the same meaning as in section 3(a)(71) of the Exchange Act (15 U.S.C. 78c(a)(71)).

(aa) *Security future* has the meaning specified in section 3(a)(55) of the Exchange Act (15 U.S.C. 78c(a)(55)).

(bb) *Separate account* means an account established and maintained by an insurance company in connection with one or more insurance contracts to hold assets that are legally segregated from the insurance company's other assets, under which income, gains, and losses, whether or not realized, from assets allocated to such account, are, in accordance with the applicable contract, credited to or charged against such account without regard to other income, gains, or losses of the insurance company.

(cc) *State* means any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(dd) *Subsidiary* has the same meaning as in section 2(d) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(d)).

(ee) *State insurance regulator* means the insurance commissioner, or a similar official or agency, of a State that is engaged in the supervision of insurance companies under State insurance law.

(ff) *Swap dealer* has the same meaning as in section 1(a)(49) of the Commodity Exchange Act (7 U.S.C. 1a(49)).

Subpart B—Proprietary Trading

§ 75.3 Prohibition on proprietary trading.

(a) *Prohibition.* Except as otherwise provided in this subpart, a banking entity may not engage in proprietary trading. *Proprietary trading* means engaging as principal for the trading account of the banking entity in any purchase or sale of one or more financial instruments.

(b) *Definition of trading account.* (1) Trading account means any account that is used by a banking entity to:

(i) Purchase or sell one or more financial instruments principally for the purpose of:

(A) Short-term resale;

(B) Benefitting from actual or expected short-term price movements;

(C) Realizing short-term arbitrage profits; or

(D) Hedging one or more positions resulting from the purchases or sales of financial instruments described in paragraphs (b)(1)(i)(A), (B), or (C) of this section;

(ii) Purchase or sell one or more financial instruments that are both market risk capital rule covered positions and trading positions (or hedges of other market risk capital rule covered positions), if the banking entity, or any affiliate of the banking entity, is an insured depository institution, bank holding company, or savings and loan holding company, and calculates risk-based capital ratios under the market risk capital rule; or

(iii) Purchase or sell one or more financial instruments for any purpose, if the banking entity:

(A) Is licensed or registered, or is required to be licensed or registered, to engage in the business of a dealer, swap dealer, or security-based swap dealer, to the extent the instrument is purchased or sold in connection with the activities that require the banking entity to be licensed or registered as such; or

(B) Is engaged in the business of a dealer, swap dealer, or security-based swap dealer outside of the United States, to the extent the instrument is purchased or sold in connection with the activities of such business.

(2) *Rebuttable presumption for certain purchases and sales.* The purchase (or sale) of a financial instrument by a banking entity shall be presumed to be for the trading account of the banking entity under paragraph (b)(1)(i) of this section if the banking entity holds the financial instrument for fewer than sixty days or substantially transfers the risk of the financial instrument within sixty days of the purchase (or sale), unless the banking entity can demonstrate, based on all relevant facts and circumstances, that the banking entity did not purchase (or sell) the financial instrument principally for any of the purposes described in paragraph (b)(1)(i) of this section.

(c) *Financial instrument*—(1) *Financial instrument* means:

(i) A security, including an option on a security;

(ii) A derivative, including an option on a derivative; or

(iii) A contract of sale of a commodity for future delivery, or option on a contract of sale of a commodity for future delivery.

(2) A financial instrument does not include:

(i) A loan;

(ii) A commodity that is not:

(A) An excluded commodity (other than foreign exchange or currency);

(B) A derivative;

(C) A contract of sale of a commodity for future delivery; or

(D) An option on a contract of sale of a commodity for future delivery; or

(iii) Foreign exchange or currency.

(d) *Proprietary trading does not include:*—(1) Any purchase or sale of one or more financial instruments by a banking entity that arises under a repurchase or reverse repurchase agreement pursuant to which the banking entity has simultaneously agreed, in writing, to both purchase and sell a stated asset, at stated prices, and on stated dates or on demand with the same counterparty;

(2) Any purchase or sale of one or more financial instruments by a banking entity that arises under a transaction in which the banking entity lends or borrows a security temporarily to or from another party pursuant to a written securities lending agreement under which the lender retains the economic interests of an owner of such security, and has the right to terminate the transaction and to recall the loaned security on terms agreed by the parties;

(3) Any purchase or sale of a security by a banking entity for the purpose of liquidity management in accordance with a documented liquidity management plan of the banking entity that:

(i) Specifically contemplates and authorizes the particular securities to be used for liquidity management purposes, the amount, types, and risks of these securities that are consistent with liquidity management, and the liquidity circumstances in which the particular securities may or must be used;

(ii) Requires that any purchase or sale of securities contemplated and authorized by the plan be principally for the purpose of managing the liquidity of the banking entity, and not for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging a position taken for such short-term purposes;

(iii) Requires that any securities purchased or sold for liquidity management purposes be highly liquid and limited to securities the market, credit, and other risks of which the banking entity does not reasonably expect to give rise to appreciable profits or losses as a result of short-term price movements;

(iv) Limits any securities purchased or sold for liquidity management purposes, together with any other instruments purchased or sold for such purposes, to an amount that is consistent with the banking entity's near-term funding needs, including deviations from normal operations of the banking entity or any affiliate thereof, as estimated and documented pursuant to methods specified in the plan;

(v) Includes written policies and procedures, internal controls, analysis, and independent testing to ensure that the purchase and sale of securities that are not permitted under § 75.6(a) or (b) are for the purpose of liquidity management and in accordance with the liquidity management plan described in paragraph (d)(3) of this section; and

(vi) Is consistent with the Commission's supervisory requirements, guidance, and expectations regarding liquidity management;

(4) Any purchase or sale of one or more financial instruments by a banking entity that is a derivatives clearing organization or a clearing agency in connection with clearing financial instruments;

(5) Any excluded clearing activities by a banking entity that is a member of a clearing agency, a member of a derivatives clearing organization, or a member of a designated financial market utility;

(6) Any purchase or sale of one or more financial instruments by a banking entity, so long as:

(i) The purchase (or sale) satisfies an existing delivery obligation of the banking entity or its customers, including to prevent or close out a failure to deliver, in connection with delivery, clearing, or settlement activity; or

(ii) The purchase (or sale) satisfies an obligation of the banking entity in connection with a judicial, administrative, self-regulatory organization, or arbitration proceeding;

(7) Any purchase or sale of one or more financial instruments by a banking entity that is acting solely as agent, broker, or custodian;

(8) Any purchase or sale of one or more financial instruments by a banking entity through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity that is established and administered in accordance with the law of the United States or a foreign sovereign, if the purchase or sale is made directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity; or

(9) Any purchase or sale of one or more financial instruments by a banking entity in the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the financial instrument as soon as practicable, and in no event may the banking entity retain such instrument for longer than such period permitted by the Commission.

(e) *Definition of other terms related to proprietary trading.* For purposes of this subpart:

(1) *Anonymous* means that each party to a purchase or sale is unaware of the identity of the other party(ies) to the purchase or sale.

(2) *Clearing agency* has the same meaning as in section 3(a)(23) of the Exchange Act (15 U.S.C. 78c(a)(23)).

(3) *Commodity* has the same meaning as in section 1a(9) of the Commodity Exchange Act (7 U.S.C. 1a(9)), except that a commodity does not include any security;

(4) *Contract of sale of a commodity for future delivery* means a contract of sale (as that term is defined in section 1a(13) of the Commodity Exchange Act (7 U.S.C. 1a(13)) for future delivery (as that term is defined in section 1a(27) of the Commodity Exchange Act (7 U.S.C. 1a(27))).

(5) *Derivatives clearing organization* means:

(i) A derivatives clearing organization registered under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1);

(ii) A derivatives clearing organization that, pursuant to CFTC regulation, is exempt from the registration requirements under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1); or

(iii) A foreign derivatives clearing organization that, pursuant to CFTC regulation, is permitted to clear for a foreign board of trade that is registered with the CFTC.

(6) *Exchange,* unless the context otherwise requires, means any designated contract market, swap execution facility, or foreign board of trade registered with the CFTC, or, for purposes of securities or security-based swaps, an exchange, as defined under section 3(a)(1) of the Exchange Act (15 U.S.C. 78c(a)(1)), or security-based swap execution facility, as defined under section 3(a)(77) of the Exchange Act (15 U.S.C. 78c(a)(77)).

(7) *Excluded clearing activities* means:

(i) With respect to customer transactions cleared on a derivatives clearing organization, a clearing agency, or a designated financial market utility, any purchase or sale necessary to correct trading errors made by or on behalf of a customer provided that such purchase or sale is conducted in accordance with, for transactions cleared on a derivatives clearing organization, the Commodity Exchange Act, CFTC regulations, and the rules or procedures of the derivatives clearing organization, or, for transactions cleared on a clearing agency, the rules or procedures of the clearing agency, or, for transactions cleared on a designated financial market utility that is neither a derivatives clearing organization nor a clearing agency, the rules or procedures of the designated financial market utility;

(ii) Any purchase or sale in connection with and related to the management of a default or threatened imminent default of a customer provided that such purchase or sale is conducted in accordance with, for transactions cleared on a derivatives clearing organization, the Commodity Exchange Act, CFTC regulations, and the rules or procedures of the derivatives clearing organization, or, for transactions cleared on a clearing agency, the rules or procedures of the clearing agency, or, for transactions cleared on a designated financial market utility that is neither a derivatives clearing organization nor a clearing agency, the rules or procedures of the designated financial market utility;

(iii) Any purchase or sale in connection with and related to the management of a default or threatened imminent default of a member of a clearing agency, a member of a derivatives clearing organization, or a member of a designated financial market utility;

(iv) Any purchase or sale in connection with and related to the management of the default or threatened default of a clearing agency, a derivatives clearing organization, or a designated financial market utility; and

(v) Any purchase or sale that is required by the rules or procedures of a clearing agency, a derivatives clearing organization, or a designated financial market utility to mitigate the risk to the clearing agency, derivatives clearing organization, or designated financial market utility that would result from the clearing by a member of security-based swaps that reference the member or an affiliate of the member.

(8) *Designated financial market utility* has the same meaning as in section 803(4) of the Dodd-Frank Act (12 U.S.C. 5462(4)).

(9) *Issuer* has the same meaning as in section 2(a)(4) of the Securities Act of 1933 (15 U.S.C. 77b(a)(4)).

(10) *Market risk capital rule covered position and trading position* means a financial instrument that is both a covered position and a trading position, as those terms are respectively defined:

(i) In the case of a banking entity that is a bank holding company, savings and loan holding company, or insured depository institution, under the market risk capital rule that is applicable to the banking entity; and

(ii) In the case of a banking entity that is affiliated with a bank holding company or savings and loan holding company, other than a banking entity to which a market risk capital rule is applicable, under the market risk capital rule that is applicable to the affiliated bank holding company or savings and loan holding company.

(11) *Market risk capital rule* means the market risk capital rule that is contained in subpart F of 12 CFR part 3, 12 CFR parts 208 and 225, or 12 CFR part 324, as applicable.

(12) *Municipal security* means a security that is a direct obligation of or issued by, or an obligation guaranteed as to principal or interest by, a State or any political subdivision thereof, or any agency or instrumentality of a State or any political subdivision thereof, or any municipal corporate instrumentality of one or more States or political subdivisions thereof.

(13) *Trading desk* means the smallest discrete unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof.

§ 75.4 Permitted underwriting and market making-related activities.

(a) *Underwriting activities*—(1) *Permitted underwriting activities.* The prohibition contained in § 75.3(a) does not apply to a banking entity's underwriting activities conducted in accordance with paragraph (a) of this section.

(2) *Requirements.* The underwriting activities of a banking entity are permitted under paragraph (a)(1) of this section only if:

(i) The banking entity is acting as an underwriter for a distribution of securities and the trading desk's underwriting position is related to such distribution;

(ii) The amount and type of the securities in the trading desk's underwriting position are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, and reasonable efforts are made to sell or otherwise reduce the underwriting position within a reasonable period, taking into account the liquidity, maturity, and depth of the market for the relevant type of security;

(iii) The banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (a) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The products, instruments or exposures each trading desk may purchase, sell, or manage as part of its underwriting activities;

(B) Limits for each trading desk, based on the nature and amount of the trading desk's underwriting activities, including the reasonably expected near term demands of clients, customers, or counterparties, on the:

(*1*) Amount, types, and risk of its underwriting position;

(*2*) Level of exposures to relevant risk factors arising from its underwriting position; and

(*3*) Period of time a security may be held;

(C) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(D) Authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval;

(iv) The compensation arrangements of persons performing the activities described in paragraph (a) of this section are designed not to reward or incentivize prohibited proprietary trading; and

(v) The banking entity is licensed or registered to engage in the activity described in paragraph (a) of this section in accordance with applicable law.

(3) *Definition of distribution.* For purposes of paragraph (a) of this section, a *distribution* of securities means:

(i) An offering of securities, whether or not subject to registration under the Securities Act of 1933, that is distinguished from ordinary trading transactions by the presence of special selling efforts and selling methods; or

(ii) An offering of securities made pursuant to an effective registration statement under the Securities Act of 1933.

(4) *Definition of underwriter.* For purposes of paragraph (a) of this section, *underwriter* means:

(i) A person who has agreed with an issuer or selling security holder to:

(A) Purchase securities from the issuer or selling security holder for distribution;

(B) Engage in a distribution of securities for or on behalf of the issuer or selling security holder; or

(C) Manage a distribution of securities for or on behalf of the issuer or selling security holder; or

(ii) A person who has agreed to participate or is participating in a distribution of such securities for or on behalf of the issuer or selling security holder.

(5) *Definition of selling security holder.* For purposes of paragraph (a) of this section, *selling security holder* means any person, other than an issuer, on whose behalf a distribution is made.

(6) *Definition of underwriting position.* For purposes of paragraph (a) of this section, *underwriting position* means the long or short positions in one or more securities held by a banking entity or its affiliate, and managed by a particular trading desk, in connection with a particular distribution of securities for which such banking entity or affiliate is acting as an underwriter.

(7) *Definition of client, customer, and counterparty.* For purposes of paragraph (a) of this section, the terms *client, customer,* and *counterparty,* on a collective or individual basis, refer to market participants that may transact with the banking entity in connection with a particular distribution for which the banking entity is acting as underwriter.

(b) *Market making-related activities*—(1) *Permitted market making-related activities.* The prohibition contained in § 75.3(a) does not apply to a banking entity's market making-related activities conducted in accordance with paragraph (b) of this section.

(2) *Requirements.* The market making-related activities of a banking entity are permitted under paragraph (b)(1) of this section only if:

(i) The trading desk that establishes and manages the financial exposure routinely stands ready to purchase and sell one or more types of financial instruments related to its financial exposure and is willing and available to quote, purchase and sell, or otherwise enter into long and short positions in those types of financial instruments for its own account, in commercially reasonable amounts and throughout market cycles on a basis appropriate for the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(ii) The amount, types, and risks of the financial instruments in the trading desk's market-maker inventory are designed not to exceed, on an ongoing basis, the reasonably expected near term demands of clients, customers, or counterparties, based on:

(A) The liquidity, maturity, and depth of the market for the relevant types of financial instrument(s); and

(B) Demonstrable analysis of historical customer demand, current inventory of financial instruments, and market and other factors regarding the amount, types, and risks, of or associated with financial instruments in which the trading desk makes a market, including through block trades;

(iii) The banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (b) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The financial instruments each trading desk stands ready to purchase and sell in accordance with paragraph (b)(2)(i) of this section;

(B) The actions the trading desk will take to demonstrably reduce or otherwise significantly mitigate promptly the risks of its financial exposure consistent with the limits required under paragraph (b)(2)(iii)(C) of this section; the products, instruments, and exposures each trading desk may use for risk management purposes; the techniques and strategies each trading desk may use to manage the risks of its market making-related activities and inventory; and the process, strategies, and personnel responsible for ensuring that the actions taken by the trading desk to mitigate these risks are and continue to be effective;

(C) Limits for each trading desk, based on the nature and amount of the trading desk's market making-related activities, that address the factors prescribed by paragraph (b)(2)(ii) of this section, on:

(*1*) The amount, types, and risks of its market-maker inventory;

(*2*) The amount, types, and risks of the products, instruments, and exposures the trading desk may use for risk management purposes;

(*3*) The level of exposures to relevant risk factors arising from its financial exposure; and

(*4*) The period of time a financial instrument may be held;

(D) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(E) Authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis that the basis for any temporary or permanent increase to a trading desk's limit(s) is consistent with the requirements of paragraph (b) of this section, and independent review of such demonstrable analysis and approval;

(iv) To the extent that any limit identified pursuant to paragraph (b)(2)(iii)(C) of this section is exceeded, the trading desk takes action to bring the trading desk into compliance with the limits as promptly as possible after the limit is exceeded;

(v) The compensation arrangements of persons performing the activities described in paragraph (b) of this section are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in activity described in paragraph (b) of this section in accordance with applicable law.

(3) *Definition of client, customer, and counterparty.* For purposes of paragraph (b) of this section, the terms *client, customer,* and *counterparty,* on a collective or individual basis refer to market participants that make use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services, provided that:

(i) A trading desk or other organizational unit of another banking entity is not a client, customer, or counterparty of the trading desk if that other entity has trading assets and liabilities of $50 billion or more as measured in accordance with § 75.20(d)(1), unless:

(A) The trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk for purposes of paragraph (b)(2) of this section; or

(B) The purchase or sale by the trading desk is conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants.

(ii) [Reserved]

(4) *Definition of financial exposure.* For purposes of paragraph (b) of this section, *financial exposure* means the aggregate risks of one or more financial instruments and any associated loans, commodities, or foreign exchange or currency, held by a banking entity or its affiliate and managed by a particular trading desk as part of the trading desk's market making-related activities.

(5) *Definition of market-maker inventory.* For the purposes of paragraph (b) of this section, *market-maker inventory* means all of the positions in the financial instruments for which the trading desk stands ready to make a market in accordance with paragraph (b)(2)(i) of this section that are managed by the trading desk, including the trading desk's open positions or exposures arising from open transactions.

§ 75.5 Permitted risk-mitigating hedging activities.

(a) *Permitted risk-mitigating hedging activities.* The prohibition contained in § 75.3(a) does not apply to the risk-mitigating hedging activities of a banking entity in connection with and related to individual or aggregated positions, contracts, or other holdings of the banking entity and designed to reduce the specific risks to the banking entity in connection with and related to such positions, contracts, or other holdings.

(b) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under paragraph (a) of this section only if:

(1) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(i) Reasonably designed written policies and procedures regarding the positions, techniques and strategies that may be used for hedging, including documentation indicating what positions, contracts or other holdings a particular trading desk may use in its risk-mitigating hedging activities, as well as position and aging limits with respect to such positions, contracts or other holdings;

(ii) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(iii) The conduct of analysis, including correlation analysis, and independent testing designed to ensure that the positions, techniques and strategies that may be used for hedging may reasonably be expected to demonstrably reduce or otherwise significantly mitigate the specific, identifiable risk(s) being hedged, and such correlation analysis demonstrates that the hedging activity demonstrably reduces or otherwise significantly mitigates the specific, identifiable risk(s) being hedged;

(2) The risk-mitigating hedging activity:

(i) Is conducted in accordance with the written policies, procedures, and internal controls required under this section;

(ii) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof;

(iii) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section;

(iv) Is subject to continuing review, monitoring and management by the banking entity that:

(A) Is consistent with the written hedging policies and procedures required under paragraph (b)(1) of this section;

(B) Is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates the specific, identifiable risks that develop over time from the risk-mitigating hedging activities undertaken under this section and the underlying positions, contracts, and other holdings of the banking entity, based upon the facts and circumstances of the underlying and hedging positions, contracts and other holdings of the banking entity and the risks and liquidity thereof; and

(C) Requires ongoing recalibration of the hedging activity by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(2) of this section and is not prohibited proprietary trading; and

(3) The compensation arrangements of persons performing risk-mitigating hedging activities are designed not to reward or incentivize prohibited proprietary trading.

(c) *Documentation requirement.* (1) A banking entity must comply with the requirements of paragraphs (c)(2) and (c)(3) of this section with respect to any purchase or sale of financial instruments made in reliance on this section for risk-mitigating hedging purposes that is:

(i) Not established by the specific trading desk establishing or responsible for the underlying positions, contracts, or other holdings the risks of which the hedging activity is designed to reduce;

(ii) Established by the specific trading desk establishing or responsible for the underlying positions, contracts, or other holdings the risks of which the purchases or sales are designed to reduce, but that is effected through a financial instrument, exposure, technique, or strategy that is not specifically identified in the trading desk's written policies and procedures established under paragraph (b)(1) of this section or under § 75.4(b)(2)(iii)(B) as a product, instrument, exposure, technique, or strategy such trading desk may use for hedging; or

(iii) Established to hedge aggregated positions across two or more trading desks.

(2) In connection with any purchase or sale identified in paragraph (c)(1) of this section, a banking entity must, at a minimum, and contemporaneously with the purchase or sale, document:

(i) The specific, identifiable risk(s) of the identified positions, contracts, or other holdings of the banking entity that the purchase or sale is designed to reduce;

(ii) The specific risk-mitigating strategy that the purchase or sale is designed to fulfill; and

(iii) The trading desk or other business unit that is establishing and responsible for the hedge.

(3) A banking entity must create and retain records sufficient to demonstrate compliance with the requirements of paragraph (c) of this section for a period that is no less than five years in a form that allows the banking entity to promptly produce such records to the Commission on request, or such longer period as required under other law or this part.

§ 75.6 Other permitted proprietary trading activities.

(a) *Permitted trading in domestic government obligations.* The prohibition contained in § 75.3(a) does not apply to the purchase or sale by a banking entity of a financial instrument that is:

(1) An obligation of, or issued or guaranteed by, the United States;

(2) An obligation, participation, or other instrument of, or issued or guaranteed by, an agency of the United States, the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, a Federal Home Loan Bank, the Federal Agricultural Mortgage Corporation or a Farm Credit System institution chartered under and subject to the provisions of the Farm Credit Act of 1971 (12 U.S.C. 2001 *et seq.*);

(3) An obligation of any State or any political subdivision thereof, including any municipal security; or

(4) An obligation of the FDIC, or any entity formed by or on behalf of the FDIC for purpose of facilitating the disposal of assets acquired or held by the FDIC in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(b) *Permitted trading in foreign government obligations*—(1) *Affiliates of foreign banking entities in the United States.* The prohibition contained in § 75.3(a) does not apply to the purchase or sale of a financial instrument that is an obligation of, or issued or guaranteed by, a foreign sovereign (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of such foreign sovereign, by a banking entity, so long as:

(i) The banking entity is organized under or is directly or indirectly controlled by a banking entity that is organized under the laws of a foreign sovereign and is not directly or indirectly controlled by a top-tier banking entity that is organized under the laws of the United States;

(ii) The financial instrument is an obligation of, or issued or guaranteed by, the foreign sovereign under the laws of which the foreign banking entity referred to in paragraph (b)(1)(i) of this section is organized (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign; and

(iii) The purchase or sale as principal is not made by an insured depository institution.

(2) *Foreign affiliates of a U.S. banking entity.* The prohibition contained in § 75.3(a) does not apply to the purchase or sale of a financial instrument that is an obligation of, or issued or guaranteed by, a foreign sovereign (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign, by a foreign entity that is owned or controlled by a banking entity organized or established under the laws of the United States or any State, so long as:

(i) The foreign entity is a foreign bank, as defined in § 211.2(j) of the Board's Regulation K (12 CFR 211.2(j)), or is regulated by the foreign sovereign as a securities dealer;

(ii) The financial instrument is an obligation of, or issued or guaranteed by, the foreign sovereign under the laws of which the foreign entity is organized (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign; and

(iii) The financial instrument is owned by the foreign entity and is not financed by an affiliate that is located in the United States or organized under the laws of the United States or of any State.

(c) *Permitted trading on behalf of customers*—(1) *Fiduciary transactions.* The prohibition contained in § 75.3(a) does not apply to the purchase or sale of financial instruments by a banking entity acting as trustee or in a similar fiduciary capacity, so long as:

(i) The transaction is conducted for the account of, or on behalf of, a customer; and

(ii) The banking entity does not have or retain beneficial ownership of the financial instruments.

(2) *Riskless principal transactions.* The prohibition contained in § 75.3(a) does not apply to the purchase or sale of financial instruments by a banking entity acting as riskless principal in a transaction in which the banking entity, after receiving an order to purchase (or sell) a financial instrument from a customer, purchases (or sells) the financial instrument for its own account to offset a contemporaneous sale to (or purchase from) the customer.

(d) *Permitted trading by a regulated insurance company.* The prohibition contained in § 75.3(a) does not apply to the purchase or sale of financial instruments by a banking entity that is an insurance company or an affiliate of an insurance company if:

(1) The insurance company or its affiliate purchases or sells the financial instruments solely for:

(i) The general account of the insurance company; or

(ii) A separate account established by the insurance company;

(2) The purchase or sale is conducted in compliance with, and subject to, the insurance company investment laws, regulations, and written guidance of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law, regulation, or written guidance described in paragraph (d)(2) of this section is insufficient to protect the safety and soundness of the covered banking entity, or the financial stability of the United States.

(e) *Permitted trading activities of foreign banking entities.* (1) The prohibition contained in § 75.3(a) does not apply to the purchase or sale of financial instruments by a banking entity if:

(i) The banking entity is not organized or directly or indirectly controlled by a banking entity that is organized under the laws of the United States or of any State;

(ii) The purchase or sale by the banking entity is made pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act; and

(iii) The purchase or sale meets the requirements of paragraph (e)(3) of this section.

(2) A purchase or sale of financial instruments by a banking entity is made pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act for purposes of paragraph (e)(1)(ii) of this section only if:

(i) The purchase or sale is conducted in accordance with the requirements of paragraph (e) of this section; and

(ii)(A) With respect to a banking entity that is a foreign banking organization, the banking entity meets the qualifying foreign banking organization requirements of § 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c) or (e)), as applicable; or

(B) With respect to a banking entity that is not a foreign banking organization, the banking entity is not organized under the laws of the United States or of any State and the banking entity, on a fully-consolidated basis, meets at least two of the following requirements:

(*1*) Total assets of the banking entity held outside of the United States exceed total assets of the banking entity held in the United States;

(*2*) Total revenues derived from the business of the banking entity outside of the United States exceed total revenues derived from the business of the banking entity in the United States; or

(*3*) Total net income derived from the business of the banking entity outside of the United States exceeds total net income derived from the business of the banking entity in the United States.

(3) A purchase or sale by a banking entity is permitted for purposes of paragraph (e) of this section only if:

(i) The banking entity engaging as principal in the purchase or sale (including any personnel of the banking entity or its affiliate that arrange, negotiate or execute such purchase or sale) is not located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to purchase or sell as principal is not located in the United States or organized under the laws of the United States or of any State;

(iii) The purchase or sale, including any transaction arising from risk-mitigating hedging related to the instruments purchased or sold, is not accounted for as principal directly or on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State;

(iv) No financing for the banking entity's purchases or sales is provided, directly or indirectly, by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State; and

(v) The purchase or sale is not conducted with or through any U.S. entity, other than:

(A) A purchase or sale with the foreign operations of a U.S. entity if no personnel of such U.S. entity that are located in the United States are involved in the arrangement, negotiation, or execution of such purchase or sale;

(B) A purchase or sale with an unaffiliated market intermediary acting as principal, provided the purchase or sale is promptly cleared and settled through a clearing agency or derivatives clearing organization acting as a central counterparty; or

(C) A purchase or sale through an unaffiliated market intermediary acting as agent, provided the purchase or sale is conducted anonymously on an exchange or similar trading facility and is promptly cleared and settled through a clearing agency or derivatives clearing organization acting as a central counterparty,

(4) For purposes of paragraph (e) of this section, a U.S. entity is any entity that is, or is controlled by, or is acting on behalf of, or at the direction of, any other entity that is, located in the United States or organized under the laws of the United States or of any State.

(5) For purposes of paragraph (e) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is considered to be located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(6) For purposes of paragraph (e) of this section, *unaffiliated market*

intermediary means an unaffiliated entity, acting as an intermediary, that is:

(i) A broker or dealer registered with the SEC under section 15 of the Exchange Act or exempt from registration or excluded from regulation as such;

(ii) A swap dealer registered with the CFTC under section 4s of the Commodity Exchange Act or exempt from registration or excluded from regulation as such;

(iii) A security-based swap dealer registered with the SEC under section 15F of the Exchange Act or exempt from registration or excluded from regulation as such; or

(iv) A futures commission merchant registered with the CFTC under section 4f of the Commodity Exchange Act or exempt from registration or excluded from regulation as such.

§ 75.7 Limitations on permitted proprietary trading activities.

(a) No transaction, class of transactions, or activity may be deemed permissible under §§ 75.4 through 75.6 if the transaction, class of transactions, or activity would:

(1) Involve or result in a material conflict of interest between the banking entity and its clients, customers, or counterparties;

(2) Result, directly or indirectly, in a material exposure by the banking entity to a high-risk asset or a high-risk trading strategy; or

(3) Pose a threat to the safety and soundness of the banking entity or to the financial stability of the United States.

(b) *Definition of material conflict of interest.* (1) For purposes of this section, a material conflict of interest between a banking entity and its clients, customers, or counterparties exists if the banking entity engages in any transaction, class of transactions, or activity that would involve or result in the banking entity's interests being materially adverse to the interests of its client, customer, or counterparty with respect to such transaction, class of transactions, or activity, and the banking entity has not taken at least one of the actions in paragraph (b)(2) of this section.

(2) Prior to effecting the specific transaction or class or type of transactions, or engaging in the specific activity, the banking entity:

(i) *Timely and effective disclosure.* (A) Has made clear, timely, and effective disclosure of the conflict of interest, together with other necessary information, in reasonable detail and in a manner sufficient to permit a reasonable client, customer, or counterparty to meaningfully understand the conflict of interest; and

(B) Such disclosure is made in a manner that provides the client, customer, or counterparty the opportunity to negate, or substantially mitigate, any materially adverse effect on the client, customer, or counterparty created by the conflict of interest; or

(ii) *Information barriers.* Has established, maintained, and enforced information barriers that are memorialized in written policies and procedures, such as physical separation of personnel, or functions, or limitations on types of activity, that are reasonably designed, taking into consideration the nature of the banking entity's business, to prevent the conflict of interest from involving or resulting in a materially adverse effect on a client, customer, or counterparty. A banking entity may not rely on such information barriers if, in the case of any specific transaction, class or type of transactions or activity, the banking entity knows or should reasonably know that, notwithstanding the banking entity's establishment of information barriers, the conflict of interest may involve or result in a materially adverse effect on a client, customer, or counterparty.

(c) *Definition of high-risk asset and high-risk trading strategy.* For purposes of this section:

(1) *High-risk asset* means an asset or group of related assets that would, if held by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

(2) *High-risk trading strategy* means a trading strategy that would, if engaged in by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

§§ 75.8–75.9 [Reserved]

Subpart C—Covered Fund Activities and Investments

§ 75.10 Prohibition on acquiring or retaining an ownership interest in and having certain relationships with a covered fund.

(a) *Prohibition.* (1) Except as otherwise provided in this subpart, a banking entity may not, as principal, directly or indirectly, acquire or retain any ownership interest in or sponsor a covered fund.

(2) Paragraph (a)(1) of this section does not include acquiring or retaining an ownership interest in a covered fund by a banking entity:

(i) Acting solely as agent, broker, or custodian, so long as;

(A) The activity is conducted for the account of, or on behalf of, a customer; and

(B) The banking entity and its affiliates do not have or retain beneficial ownership of such ownership interest;

(ii) Through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity (or an affiliate thereof) that is established and administered in accordance with the law of the United States or a foreign sovereign, if the ownership interest is held or controlled directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity (or an affiliate thereof);

(iii) In the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the ownership interest as soon as practicable, and in no event may the banking entity retain such ownership interest for longer than such period permitted by the Commission; or

(iv) On behalf of customers as trustee or in a similar fiduciary capacity for a customer that is not a covered fund, so long as:

(A) The activity is conducted for the account of, or on behalf of, the customer; and

(B) The banking entity and its affiliates do not have or retain beneficial ownership of such ownership interest.

(b) *Definition of covered fund.* (1) Except as provided in paragraph (c) of this section, covered fund means:

(i) An issuer that would be an investment company, as defined in the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*), *but for* section 3(c)(1) or 3(c)(7) of that Act (15 U.S.C. 80a–3(c)(1) or (7));

(ii) Any commodity pool under section 1a(10) of the Commodity Exchange Act (7 U.S.C. 1a(10)) for which:

(A) The commodity pool operator has claimed an exemption under § 4.7 of this chapter; or

(B)(*1*) A commodity pool operator is registered with the CFTC as a commodity pool operator in connection with the operation of the commodity pool;

(*2*) Substantially all participation units of the commodity pool are owned by qualified eligible persons under § 4.7(a)(2) and (3) of this chapter; and

(*3*) Participation units of the commodity pool have not been publicly offered to persons who are not qualified eligible persons under § 4.7(a)(2) and (3) of this chapter; or

(iii) For any banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State, an entity that:

(A) Is organized or established outside the United States and the ownership interests of which are offered and sold solely outside the United States;

(B) Is, or holds itself out as being, an entity or arrangement that raises money from investors primarily for the purpose of investing in securities for resale or other disposition or otherwise trading in securities; and

(C)(*1*) Has as its sponsor that banking entity (or an affiliate thereof); or

(*2*) Has issued an ownership interest that is owned directly or indirectly by that banking entity (or an affiliate thereof).

(2) An issuer shall not be deemed to be a covered fund under paragraph (b)(1)(iii) of this section if, were the issuer subject to U.S. securities laws, the issuer could rely on an exclusion or exemption from the definition of ''investment company'' under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) other than the exclusions contained in section 3(c)(1) and 3(c)(7) of that Act.

(3) For purposes of paragraph (b)(1)(iii) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(c) Notwithstanding paragraph (b) of this section, unless the appropriate Federal banking agencies, the SEC, and the CFTC jointly determine otherwise, a covered fund does not include:

(1) *Foreign public funds.* (i) Subject to paragraphs (c)(1)(ii) and (iii) of this section, an issuer that:

(A) Is organized or established outside of the United States;

(B) Is authorized to offer and sell ownership interests to retail investors in the issuer's home jurisdiction; and

(C) Sells ownership interests predominantly through one or more public offerings outside of the United States.

(ii) With respect to a banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State and any issuer for which such banking entity acts as sponsor, the sponsoring banking entity may not rely on the exemption in paragraph (c)(1)(i) of this section for such issuer unless ownership interests in the issuer are sold predominantly to persons other than:

(A) Such sponsoring banking entity;

(B) Such issuer;

(C) Affiliates of such sponsoring banking entity or such issuer; and

(D) Directors and employees of such entities.

(iii) For purposes of paragraph (c)(1)(i)(C) of this section, the term *public offering* means a distribution (as defined in § 75.4(a)(3)) of securities in any jurisdiction outside the United States to investors, including retail investors, provided that:

(A) The distribution complies with all applicable requirements in the jurisdiction in which such distribution is being made;

(B) The distribution does not restrict availability to investors having a minimum level of net worth or net investment assets; and

(C) The issuer has filed or submitted, with the appropriate regulatory authority in such jurisdiction, offering disclosure documents that are publicly available.

(2) *Wholly-owned subsidiaries.* An entity, all of the outstanding ownership interests of which are owned directly or indirectly by the banking entity (or an affiliate thereof), except that:

(i) Up to five percent of the entity's outstanding ownership interests, less any amounts outstanding under paragraph (c)(2)(ii) of this section, may be held by employees or directors of the banking entity or such affiliate (including former employees or directors if their ownership interest was acquired while employed by or in the service of the banking entity); and

(ii) Up to 0.5 percent of the entity's outstanding ownership interests may be held by a third party if the ownership interest is acquired or retained by the third party for the purpose of establishing corporate separateness or addressing bankruptcy, insolvency, or similar concerns.

(3) *Joint ventures.* A joint venture between a banking entity or any of its affiliates and one or more unaffiliated persons, *provided that* the joint venture:

(i) Is comprised of no more than 10 unaffiliated co-venturers;

(ii) Is in the business of engaging in activities that are permissible for the banking entity or affiliate, other than investing in securities for resale or other disposition; and

(iii) Is not, and does not hold itself out as being, an entity or arrangement that raises money from investors primarily for the purpose of investing in securities for resale or other disposition or otherwise trading in securities.

(4) *Acquisition vehicles.* An issuer:

(i) Formed solely for the purpose of engaging in a *bona fide* merger or acquisition transaction; and

(ii) That exists only for such period as necessary to effectuate the transaction.

(5) *Foreign pension or retirement funds.* A plan, fund, or program providing pension, retirement, or similar benefits that is:

(i) Organized and administered outside the United States;

(ii) A broad-based plan for employees or citizens that is subject to regulation as a pension, retirement, or similar plan under the laws of the jurisdiction in which the plan, fund, or program is organized and administered; and

(iii) Established for the benefit of citizens or residents of one or more foreign sovereigns or any political subdivision thereof.

(6) *Insurance company separate accounts.* A separate account, provided that no banking entity other than the insurance company participates in the account's profits and losses.

(7) *Bank owned life insurance.* A separate account that is used solely for the purpose of allowing one or more banking entities to purchase a life insurance policy for which the banking entity or entities is beneficiary, provided that no banking entity that purchases the policy:

(i) Controls the investment decisions regarding the underlying assets or holdings of the separate account; or

(ii) Participates in the profits and losses of the separate account other than in compliance with applicable supervisory guidance regarding bank owned life insurance.

(8) *Loan securitizations*—(i) *Scope.* An issuing entity for asset-backed securities that satisfies all the conditions of paragraph (c)(8) of this section and the assets or holdings of which are comprised solely of:

(A) Loans as defined in § 75.2(s);

(B) Rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities and rights or other assets that are related or incidental to purchasing or otherwise acquiring and holding the loans, provided that each asset meets the requirements of paragraph (c)(8)(iii) of this section;

(C) Interest rate or foreign exchange derivatives that meet the requirements of paragraph (c)(8)(iv) of this section; and

(D) Special units of beneficial interest and collateral certificates that meet the requirements of paragraph (c)(8)(v) of this section.

(ii) *Impermissible assets.* For purposes of paragraph (c)(8) of this section, the assets or holdings of the issuing entity shall not include any of the following:

(A) A security, including an asset-backed security, or an interest in an equity or debt security other than as permitted in paragraph (c)(8)(iii) of this section;

(B) A derivative, other than a derivative that meets the requirements of paragraph (c)(8)(iv) of this section; or

(C) A commodity forward contract.

(iii) *Permitted securities.* Notwithstanding paragraph (c)(8)(ii)(A) of this section, the issuing entity may hold securities if those securities are:

(A) Cash equivalents for purposes of the rights and assets in paragraph (c)(8)(i)(B) of this section; or

(B) Securities received in lieu of debts previously contracted with respect to the loans supporting the asset-backed securities.

(iv) *Derivatives.* The holdings of derivatives by the issuing entity shall be limited to interest rate or foreign exchange derivatives that satisfy all of the following conditions:

(A) The written terms of the derivative directly relate to the loans, the asset-backed securities, or the contractual rights of other assets described in paragraph (c)(8)(i)(B) of this section; and

(B) The derivatives reduce the interest rate and/or foreign exchange risks related to the loans, the asset-backed securities, or the contractual rights or other assets described in paragraph (c)(8)(i)(B) of this section.

(v) *Special units of beneficial interest and collateral certificates.* The assets or holdings of the issuing entity may include collateral certificates and special units of beneficial interest issued by a special purpose vehicle, provided that:

(A) The special purpose vehicle that issues the special unit of beneficial interest or collateral certificate meets the requirements in paragraph (c)(8) of this section;

(B) The special unit of beneficial interest or collateral certificate is used for the sole purpose of transferring to the issuing entity for the loan securitization the economic risks and benefits of the assets that are permissible for loan securitizations under paragraph (c)(8) of this section and does not directly or indirectly transfer any interest in any other economic or financial exposure;

(C) The special unit of beneficial interest or collateral certificate is created solely to satisfy legal requirements or otherwise facilitate the structuring of the loan securitization; and

(D) The special purpose vehicle that issues the special unit of beneficial interest or collateral certificate and the issuing entity are established under the direction of the same entity that initiated the loan securitization.

(9) *Qualifying asset-backed commercial paper conduits.* (i) An issuing entity for asset-backed commercial paper that satisfies all of the following requirements:

(A) The asset-backed commercial paper conduit holds only:

(*1*) Loans and other assets permissible for a loan securitization under paragraph (c)(8)(i) of this section; and

(*2*) Asset-backed securities supported solely by assets that are permissible for loan securitizations under paragraph (c)(8)(i) of this section and acquired by the asset-backed commercial paper conduit as part of an initial issuance either directly from the issuing entity of the asset-backed securities or directly from an underwriter in the distribution of the asset-backed securities;

(B) The asset-backed commercial paper conduit issues only asset-backed securities, comprised of a residual interest and securities with a legal maturity of 397 days or less; and

(C) A regulated liquidity provider has entered into a legally binding commitment to provide full and unconditional liquidity coverage with respect to all of the outstanding asset-backed securities issued by the asset-backed commercial paper conduit (other than any residual interest) in the event that funds are required to redeem maturing asset-backed securities.

(ii) For purposes of this paragraph (c)(9) of this section, a regulated liquidity provider means:

(A) A depository institution, as defined in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c));

(B) A bank holding company, as defined in section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(a)), or a subsidiary thereof;

(C) A savings and loan holding company, as defined in section 10a of the Home Owners' Loan Act (12 U.S.C. 1467a), provided all or substantially all of the holding company's activities are permissible for a financial holding company under section 4(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(k)), or a subsidiary thereof;

(D) A foreign bank whose home country supervisor, as defined in § 211.21(q) of the Board's Regulation K (12 CFR 211.21(q)), has adopted capital standards consistent with the Capital Accord for the Basel Committee on Banking Supervision, as amended, and that is subject to such standards, or a subsidiary thereof; or

(E) The United States or a foreign sovereign.

(10) *Qualifying covered bonds*—(i) *Scope.* An entity owning or holding a dynamic or fixed pool of loans or other assets as provided in paragraph (c)(8) of this section for the benefit of the holders of covered bonds, provided that the assets in the pool are comprised solely of assets that meet the conditions in paragraph (c)(8)(i) of this section.

(ii) *Covered bond.* For purposes of paragraph (c)(10) of this section, a covered bond means:

(A) A debt obligation issued by an entity that meets the definition of foreign banking organization, the payment obligations of which are fully and unconditionally guaranteed by an entity that meets the conditions set forth in paragraph (c)(10)(i) of this section; or

(B) A debt obligation of an entity that meets the conditions set forth in paragraph (c)(10)(i) of this section, provided that the payment obligations are fully and unconditionally guaranteed by an entity that meets the definition of foreign banking organization and the entity is a wholly-owned subsidiary, as defined in paragraph (c)(2) of this section, of such foreign banking organization.

(11) *SBICs and public welfare investment funds.* An issuer:

(i) That is a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), or that has received from the Small Business Administration notice to proceed to qualify for a license as a small business investment company, which notice or license has not been revoked; or

(ii) The business of which is to make investments that are:

(A) Designed primarily to promote the public welfare, of the type permitted under paragraph (11) of section 5136 of the Revised Statutes of the United States (12 U.S.C. 24), including the welfare of low- and moderate-income communities or families (such as providing housing, services, or jobs); or

(B) Qualified rehabilitation expenditures with respect to a qualified rehabilitated building or certified historic structure, as such terms are defined in section 47 of the Internal Revenue Code of 1986 or a similar State historic tax credit program.

(12) *Registered investment companies and excluded entities.* An issuer:

(i) That is registered as an investment company under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8), or that is formed and operated pursuant to a written plan to become a registered investment company as described in § 75.20(e)(3) and that complies with the requirements of section 18 of the Investment Company Act of 1940 (15 U.S.C. 80a–18);

(ii) That may rely on an exclusion or exemption from the definition of ''investment company'' under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) other than the exclusions contained in section 3(c)(1) and 3(c)(7) of that Act; or

(iii) That has elected to be regulated as a business development company pursuant to section 54(a) of that Act (15 U.S.C. 80a–53) and has not withdrawn its election, or that is formed and operated pursuant to a written plan to become a business development company as described in § 75.20(e)(3) and that complies with the requirements of section 61 of the Investment Company Act of 1940 (15 U.S.C. 80a–60).

(13) *Issuers in conjunction with the FDIC's receivership or conservatorship operations.* An issuer that is an entity formed by or on behalf of the FDIC for the purpose of facilitating the disposal of assets acquired in the FDIC's capacity as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(14) *Other excluded issuers.* (i) Any issuer that the appropriate Federal banking agencies, the SEC, and the CFTC jointly determine the exclusion of which is consistent with the purposes of section 13 of the BHC Act.

(ii) A determination made under paragraph (c)(14)(i) of this section will be promptly made public.

(d) *Definition of other terms related to covered funds.* For purposes of this subpart:

(1) *Applicable accounting standards* means U.S. generally accepted accounting principles, or such other accounting standards applicable to a banking entity that the Commission determines are appropriate and that the banking entity uses in the ordinary course of its business in preparing its consolidated financial statements.

(2) *Asset-backed security* has the meaning specified in section 3(a)(79) of the Exchange Act (15 U.S.C. 78c(a)(79)).

(3) *Director* has the same meaning as provided in § 215.2(d)(1) of the Board's Regulation O (12 CFR 215.2(d)(1)).

(4) *Issuer* has the same meaning as in section 2(a)(22) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(22)).

(5) *Issuing entity* means with respect to asset-backed securities the special purpose vehicle that owns or holds the pool assets underlying asset-backed securities and in whose name the asset-backed securities supported or serviced by the pool assets are issued.

(6) *Ownership interest*—(i) *Ownership interest* means any equity, partnership, or other similar interest. An ''other similar interest'' means an interest that:

(A) Has the right to participate in the selection or removal of a general partner, managing member, member of the board of directors or trustees, investment manager, investment adviser, or commodity trading advisor of the covered fund (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);

(B) Has the right under the terms of the interest to receive a share of the income, gains or profits of the covered fund;

(C) Has the right to receive the underlying assets of the covered fund after all other interests have been redeemed and/or paid in full (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);

(D) Has the right to receive all or a portion of excess spread (the positive difference, if any, between the aggregate interest payments received from the underlying assets of the covered fund and the aggregate interest paid to the holders of other outstanding interests);

(E) Provides under the terms of the interest that the amounts payable by the covered fund with respect to the interest could be reduced based on losses arising from the underlying assets of the covered fund, such as allocation of losses, write-downs or charge-offs of the outstanding principal balance, or reductions in the amount of interest due and payable on the interest;

(F) Receives income on a pass-through basis from the covered fund, or has a rate of return that is determined by reference to the performance of the underlying assets of the covered fund; or

(G) Any synthetic right to have, receive, or be allocated any of the rights in paragraphs (d)(6)(i)(A) through (d)(6)(i)(F) of this section.

(ii) *Ownership interest* does not include *restricted profit interest,* which is an interest held by an entity (or an employee or former employee thereof) in a covered fund for which the entity (or employee thereof) serves as investment manager, investment adviser, commodity trading advisor, or other service provider so long as:

(A) The sole purpose and effect of the interest is to allow the entity (or employee or former employee thereof) to share in the profits of the covered fund as performance compensation for the investment management, investment advisory, commodity trading advisory, or other services provided to the covered fund by the entity (or employee or former employee thereof), provided that the entity (or employee or former employee thereof) may be obligated under the terms of such interest to return profits previously received;

(B) All such profit, once allocated, is distributed to the entity (or employee or former employee thereof) promptly after being earned or, if not so distributed, is retained by the covered fund for the sole purpose of establishing a reserve amount to satisfy contractual obligations with respect to subsequent losses of the covered fund and such undistributed profit of the entity (or employee or former employee thereof) does not share in the subsequent investment gains of the covered fund;

(C) Any amounts invested in the covered fund, including any amounts paid by the entity (or employee or former employee thereof) in connection with obtaining the restricted profit interest, are within the limits of § 75.12; and

(D) The interest is not transferable by the entity (or employee or former employee thereof) except to an affiliate thereof (or an employee of the banking entity or affiliate), to immediate family members, or through the intestacy, of the employee or former employee, or in connection with a sale of the business that gave rise to the restricted profit interest by the entity (or employee or former employee thereof) to an unaffiliated party that provides investment management, investment advisory, commodity trading advisory, or other services to the fund.

(7) *Prime brokerage transaction* means any transaction that would be a covered transaction, as defined in section 23A(b)(7) of the Federal Reserve Act (12 U.S.C. 371c(b)(7)), that is provided in connection with custody, clearance and settlement, securities borrowing or lending services, trade execution, financing, or data, operational, and administrative support.

(8) *Resident of the United States* means a person that is a ''U.S. person'' as defined in rule 902(k) of the SEC's Regulation S (17 CFR 230.902(k)).

(9) *Sponsor* means, with respect to a covered fund:

(i) To serve as a general partner, managing member, or trustee of a covered fund, or to serve as a commodity pool operator with respect to a covered fund as defined in (b)(1)(ii) of this section;

(ii) In any manner to select or to control (or to have employees, officers, or directors, or agents who constitute) a majority of the directors, trustees, or management of a covered fund; or

(iii) To share with a covered fund, for corporate, marketing, promotional, or other purposes, the same name or a variation of the same name, except as permitted under § 75.11(a)(6).

(10) *Trustee.* (i) For purposes of paragraph (d)(9) of this section and § 75.11, a trustee does *not* include:

(A) A trustee that does not exercise investment discretion with respect to a covered fund, including a trustee that is subject to the direction of an unaffiliated named fiduciary who is not a trustee pursuant to section 403(a)(1) of the Employee's Retirement Income Security Act (29 U.S.C. 1103(a)(1)); or

(B) A trustee that is subject to fiduciary standards imposed under foreign law that are substantially equivalent to those described in paragraph (d)(10)(i)(A) of this section;

(ii) Any entity that directs a person described in paragraph (d)(10)(i) of this section, or that possesses authority and discretion to manage and control the investment decisions of a covered fund for which such person serves as trustee, shall be considered to be a trustee of such covered fund.

§ 75.11 Permitted organizing and offering, underwriting, and market making with respect to a covered fund.

(a) *Organizing and offering a covered fund in general.* Notwithstanding § 75.10(a), a banking entity is not prohibited from acquiring or retaining an ownership interest in, or acting as sponsor to, a covered fund in connection with, directly or indirectly, organizing and offering a covered fund, including serving as a general partner, managing member, trustee, or commodity pool operator of the covered fund and in any manner selecting or controlling (or having employees, officers, directors, or agents who constitute) a majority of the directors, trustees, or management of the covered fund, including any necessary expenses for the foregoing, only if:

(1) The banking entity (or an affiliate thereof) provides *bona fide* trust, fiduciary, investment advisory, or commodity trading advisory services;

(2) The covered fund is organized and offered only in connection with the provision of *bona fide* trust, fiduciary, investment advisory, or commodity trading advisory services and only to persons that are customers of such services of the banking entity (or an affiliate thereof), pursuant to a written plan or similar documentation outlining how the banking entity or such affiliate intends to provide advisory or similar services to its customers through organizing and offering such fund;

(3) The banking entity and its affiliates do not acquire or retain an ownership interest in the covered fund except as permitted under § 75.12;

(4) The banking entity and its affiliates comply with the requirements of § 75.14;

(5) The banking entity and its affiliates do not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests;

(6) The covered fund, for corporate, marketing, promotional, or other purposes:

(i) Does not share the same name or a variation of the same name with the banking entity (or an affiliate thereof), except that a covered fund may share the same name or a variation of the same name with a banking entity that is an investment adviser to the covered fund if:

(A) The investment adviser is not an insured depository institution, a company that controls an insured depository institution, or a company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(B) The investment adviser does not share the same name or a variation of the same name as an insured depository institution, a company that controls an insured depository institution, or a company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(ii) Does not use the word ''bank'' in its name;

(7) No director or employee of the banking entity (or an affiliate thereof) takes or retains an ownership interest in the covered fund, except for any director or employee of the banking entity or such affiliate who is directly engaged in providing investment advisory, commodity trading advisory, or other services to the covered fund at the time the director or employee takes the ownership interest; and

(8) The banking entity:

(i) Clearly and conspicuously discloses, in writing, to any prospective and actual investor in the covered fund (such as through disclosure in the covered fund's offering documents):

(A) That ''any losses in [such covered fund] will be borne solely by investors in [the covered fund] and not by [the banking entity] or its affiliates; therefore, [the banking entity's] losses in [such covered fund] will be limited to losses attributable to the ownership interests in the covered fund held by [the banking entity] and any affiliate in its capacity as investor in the [covered fund] or as beneficiary of a restricted profit interest held by [the banking entity] or any affiliate'';

(B) That such investor should read the fund offering documents before investing in the covered fund;

(C) That the ''ownership interests in the covered fund are not insured by the FDIC, and are not deposits, obligations of, or endorsed or guaranteed in any way, by any banking entity'' (unless that happens to be the case); and

(D) The role of the banking entity and its affiliates and employees in sponsoring or providing any services to the covered fund; and

(ii) Complies with any additional rules of the appropriate Federal banking agencies, the SEC, or the CFTC, as provided in section 13(b)(2) of the BHC Act, designed to ensure that losses in such covered fund are borne solely by investors in the covered fund and not by the covered banking entity and its affiliates.

(b) *Organizing and offering an issuing entity of asset-backed securities.* (1) Notwithstanding § 75.10(a), a banking entity is not prohibited from acquiring or retaining an ownership interest in, or acting as sponsor to, a covered fund that is an issuing entity of asset-backed securities in connection with, directly or indirectly, organizing and offering that issuing entity, so long as the banking entity and its affiliates comply with all of the requirements of paragraphs (a)(3) through (a)(8) of this section.

(2) For purposes of paragraph (b) of this section, organizing and offering a covered fund that is an issuing entity of asset-backed securities means acting as the securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78*o*–11(a)(3)) of the issuing entity, or acquiring or retaining an ownership interest in the issuing entity as required by section 15G of that Act (15 U.S.C. 78*o*–11) and the implementing regulations issued thereunder.

(c) *Underwriting and market making in ownership interests of a covered fund.* The prohibition contained in § 75.10(a) does not apply to a banking entity's underwriting activities or market making-related activities involving a covered fund so long as:

(1) Those activities are conducted in accordance with the requirements of § 75.4(a) or (b), respectively;

(2) With respect to any banking entity (or any affiliate thereof) that acts as a

sponsor, investment adviser or commodity trading advisor to a particular covered fund or otherwise acquires and retains an ownership interest in such covered fund in reliance on paragraph (a) of this section; acquires and retains an ownership interest in such covered fund and is either a securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78o–11(a)(3)), or is acquiring and retaining an ownership interest in such covered fund in compliance with section 15G of that Act (15 U.S.C. 78o–11) and the implementing regulations issued thereunder each as permitted by paragraph (b) of this section; or, directly or indirectly, guarantees, assumes, or otherwise insures the obligations or performance of the covered fund or of any covered fund in which such fund invests, then in each such case any ownership interests acquired or retained by the banking entity and its affiliates in connection with underwriting and market making related activities for that particular covered fund are included in the calculation of ownership interests permitted to be held by the banking entity and its affiliates under the limitations of § 75.12(a)(2)(ii) and (d); and

(3) With respect to any banking entity, the aggregate value of all ownership interests of the banking entity and its affiliates in all covered funds acquired and retained under § 75.11, including all covered funds in which the banking entity holds an ownership interest in connection with underwriting and market making related activities permitted under paragraph (c) of this section, are included in the calculation of all ownership interests under § 75.12(a)(2)(iii) and (d).

§ 75.12 Permitted investment in a covered fund.

(a) *Authority and limitations on permitted investments in covered funds.* (1) Notwithstanding the prohibition contained in § 75.10(a), a banking entity may acquire and retain an ownership interest in a covered fund that the banking entity or an affiliate thereof organizes and offers pursuant to § 75.11, for the purposes of:

(i) *Establishment.* Establishing the fund and providing the fund with sufficient initial equity for investment to permit the fund to attract unaffiliated investors, subject to the limits contained in paragraphs (a)(2)(i) and (a)(2)(iii) of this section; or

(ii) *De minimis investment.* Making and retaining an investment in the covered fund subject to the limits contained in paragraphs (a)(2)(ii) and (a)(2)(iii) of this section.

(2) *Investment limits*—(i) *Seeding period.* With respect to an investment in any covered fund made or held pursuant to paragraph (a)(1)(i) of this section, the banking entity and its affiliates:

(A) Must actively seek unaffiliated investors to reduce, through redemption, sale, dilution, or other methods, the aggregate amount of all ownership interests of the banking entity in the covered fund to the amount permitted in paragraph (a)(2)(i)(B) of this section; and

(B) Must, no later than 1 year after the date of establishment of the fund (or such longer period as may be provided by the Board pursuant to paragraph (e) of this section), conform its ownership interest in the covered fund to the limits in paragraph (a)(2)(ii) of this section;

(ii) *Per-fund limits.* (A) Except as provided in paragraph (a)(2)(ii)(B) of this section, an investment by a banking entity and its affiliates in any covered fund made or held pursuant to paragraph (a)(1)(ii) of this section may not exceed 3 percent of the total number or value of the outstanding ownership interests of the fund.

(B) An investment by a banking entity and its affiliates in a covered fund that is an issuing entity of asset-backed securities may not exceed 3 percent of the total fair market value of the ownership interests of the fund measured in accordance with paragraph (b)(3) of this section, unless a greater percentage is retained by the banking entity and its affiliates in compliance with the requirements of section 15G of the Exchange Act (15 U.S.C. 78*o*–11) and the implementing regulations issued thereunder, in which case the investment by the banking entity and its affiliates in the covered fund may not exceed the amount, number, or value of ownership interests of the fund required under section 15G of the Exchange Act and the implementing regulations issued thereunder.

(iii) *Aggregate limit.* The aggregate value of all ownership interests of the banking entity and its affiliates in all covered funds acquired or retained under this section may not exceed 3 percent of the tier 1 capital of the banking entity, as provided under paragraph (c) of this section, and shall be calculated as of the last day of each calendar quarter.

(iv) *Date of establishment.* For purposes of this section, the date of establishment of a covered fund shall be:

(A) *In general.* The date on which the investment adviser or similar entity to the covered fund begins making investments pursuant to the written investment strategy for the fund;

(B) *Issuing entities of asset-backed securities.* In the case of an issuing entity of asset-backed securities, the date on which the assets are initially transferred into the issuing entity of asset-backed securities.

(b) *Rules of construction*—(1) *Attribution of ownership interests to a covered banking entity.* (i) For purposes of paragraph (a)(2) of this section, the amount and value of a banking entity's permitted investment in any single covered fund shall include any ownership interest held under § 75.12 directly by the banking entity, including any affiliate of the banking entity.

(ii) *Treatment of registered investment companies, SEC-regulated business development companies and foreign public funds.* For purposes of paragraph (b)(1)(i) of this section, a registered investment company, SEC-regulated business development companies or foreign public fund as described in § 75.10(c)(1) will not be considered to be an affiliate of the banking entity so long as the banking entity:

(A) Does not own, control, or hold with the power to vote 25 percent or more of the voting shares of the company or fund; and

(B) Provides investment advisory, commodity trading advisory, administrative, and other services to the company or fund in compliance with the limitations under applicable regulation, order, or other authority.

(iii) *Covered funds.* For purposes of paragraph (b)(1)(i) of this section, a covered fund will not be considered to be an affiliate of a banking entity so long as the covered fund is held in compliance with the requirements of this subpart.

(iv) *Treatment of employee and director investments financed by the banking entity.* For purposes of paragraph (b)(1)(i) of this section, an investment by a director or employee of a banking entity who acquires an ownership interest in his or her personal capacity in a covered fund sponsored by the banking entity will be attributed to the banking entity if the banking entity, directly or indirectly, extends financing for the purpose of enabling the director or employee to acquire the ownership interest in the fund and the financing is used to acquire such ownership interest in the covered fund.

(2) *Calculation of permitted ownership interests in a single covered fund.* Except as provided in paragraphs (b)(3) or (4) of this section, for purposes of determining whether an investment in a single covered fund complies with

the restrictions on ownership interests under paragraphs (a)(2)(i)(B) and (ii)(A) of this section:

(i) The aggregate number of the outstanding ownership interests held by the banking entity shall be the total number of ownership interests held under this section by the banking entity in a covered fund divided by the total number of ownership interests held by all entities in that covered fund, as of the last day of each calendar quarter (both measured without regard to committed funds not yet called for investment);

(ii) The aggregate value of the outstanding ownership interests held by the banking entity shall be the aggregate fair market value of all investments in and capital contributions made to the covered fund by the banking entity, divided by the value of all investments in and capital contributions made to that covered fund by all entities, as of the last day of each calendar quarter (all measured without regard to committed funds not yet called for investment). If fair market value cannot be determined, then the value shall be the historical cost basis of all investments in and contributions made by the banking entity to the covered fund;

(iii) For purposes of the calculation under paragraph (b)(2)(ii) of this section, once a valuation methodology is chosen, the banking entity must calculate the value of its investment and the investments of all others in the covered fund in the same manner and according to the same standards.

(3) *Issuing entities of asset-backed securities.* In the case of an ownership interest in an issuing entity of asset-backed securities, for purposes of determining whether an investment in a single covered fund complies with the restrictions on ownership interests under paragraphs (a)(2)(i)(B) and (a)(2)(ii)(B) of this section:

(i) For securitizations subject to the requirements of section 15G of the Exchange Act (15 U.S.C. 78o–11), the calculations shall be made as of the date and according to the valuation methodology applicable pursuant to the requirements of section 15G of the Exchange Act (15 U.S.C. 78o–11) and the implementing regulations issued thereunder; or

(ii) For securitization transactions completed prior to the compliance date of such implementing regulations (or as to which such implementing regulations do not apply), the calculations shall be made as of the date of establishment as defined in paragraph (a)(2)(iv)(B) of this section or such earlier date on which the transferred assets have been valued for purposes of transfer to the covered fund, and thereafter only upon the date on which additional securities of the issuing entity of asset-backed securities are priced for purposes of the sales of ownership interests to unaffiliated investors.

(iii) For securitization transactions completed prior to the compliance date of such implementing regulations (or as to which such implementing regulations do not apply), the aggregate value of the outstanding ownership interests in the covered fund shall be the fair market value of the assets transferred to the issuing entity of the securitization and any other assets otherwise held by the issuing entity at such time, determined in a manner that is consistent with its determination of the fair market value of those assets for financial statement purposes.

(iv) For purposes of the calculation under paragraph (b)(3)(iii) of this section, the valuation methodology used to calculate the fair market value of the ownership interests must be the same for both the ownership interests held by a banking entity and the ownership interests held by all others in the covered fund in the same manner and according to the same standards.

(4) *Multi-tier fund investments*—(i) *Master-feeder fund investments.* If the principal investment strategy of a covered fund (the ''feeder fund'') is to invest substantially all of its assets in another single covered fund (the ''master fund''), then for purposes of the investment limitations in paragraphs (a)(2)(i)(B) and (a)(2)(ii) of this section, the banking entity's permitted investment in such funds shall be measured only by reference to the value of the master fund. The banking entity's permitted investment in the master fund shall include any investment by the banking entity in the master fund, as well as the banking entity's pro-rata share of any ownership interest of the master fund that is held through the feeder fund; and

(ii) *Fund-of-funds investments.* If a banking entity organizes and offers a covered fund pursuant to § 75.11 for the purpose of investing in other covered funds (a ''fund of funds'') and that fund of funds itself invests in another covered fund that the banking entity is permitted to own, then the banking entity's permitted investment in that other fund shall include any investment by the banking entity in that other fund, as well as the banking entity's pro-rata share of any ownership interest of the fund that is held through the fund of funds. The investment of the banking entity may not represent more than 3 percent of the amount or value of any single covered fund.

(c) *Aggregate permitted investments in all covered funds.* (1) For purposes of paragraph (a)(2)(iii) of this section, the aggregate value of all ownership interests held by a banking entity shall be the sum of all amounts paid or contributed by the banking entity in connection with acquiring or retaining an ownership interest in covered funds (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 75.10(d)(6)(ii)), on a historical cost basis.

(2) *Calculation of tier 1 capital.* For purposes of paragraph (a)(2)(iii) of this section:

(i) *Entities that are required to hold and report tier 1 capital.* If a banking entity is required to calculate and report tier 1 capital, the banking entity's tier 1 capital shall be equal to the amount of tier 1 capital of the banking entity as of the last day of the most recent calendar quarter, as reported to its primary financial regulatory agency; and

(ii) If a banking entity is not required to calculate and report tier 1 capital, the banking entity's tier 1 capital shall be determined to be equal to:

(A) In the case of a banking entity that is controlled, directly or indirectly, by a depository institution that calculates and reports tier 1 capital, be equal to the amount of tier 1 capital reported by such controlling depository institution in the manner described in paragraph (c)(2)(i) of this section;

(B) In the case of a banking entity that is not controlled, directly or indirectly, by a depository institution that calculates and reports tier 1 capital:

(*1*) *Bank holding company subsidiaries.* If the banking entity is a subsidiary of a bank holding company or company that is treated as a bank holding company, be equal to the amount of tier 1 capital reported by the top-tier affiliate of such covered banking entity that calculates and reports tier 1 capital in the manner described in paragraph (c)(2)(i) of this section; and

(*2*) *Other holding companies and any subsidiary or affiliate thereof.* If the banking entity is not a subsidiary of a bank holding company or a company that is treated as a bank holding company, be equal to the total amount of shareholders' equity of the top-tier affiliate within such organization as of the last day of the most recent calendar quarter that has ended, as determined under applicable accounting standards.

(iii) *Treatment of foreign banking entities*—(A) *Foreign banking entities.* Except as provided in paragraph (c)(2)(iii)(B) of this section, with respect to a banking entity that is not itself, and is not controlled directly or indirectly by, a banking entity that is located or organized under the laws of the United States or of any State, the tier 1 capital of the banking entity shall be the consolidated tier 1 capital of the entity as calculated under applicable home country standards.

(B) *U.S. affiliates of foreign banking entities.* With respect to a banking entity that is located or organized under the laws of the United States or of any State and is controlled by a foreign banking entity identified under paragraph (c)(2)(iii)(A) of this section, the banking entity's tier 1 capital shall be as calculated under paragraphs (c)(2)(i) or (ii) of this section.

(d) *Capital treatment for a permitted investment in a covered fund.* For purposes of calculating compliance with the applicable regulatory capital requirements, a banking entity shall deduct from the banking entity's tier 1 capital (as determined under paragraph (c)(2) of this section) the greater of:

(1) The sum of all amounts paid or contributed by the banking entity in connection with acquiring or retaining an ownership interest (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 75.10(d)(6)(ii)), on a historical cost basis, plus any earnings received; and

(2) The fair market value of the banking entity's ownership interests in the covered fund as determined under paragraph (b)(2)(ii) or (3) of this section (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 75.10(d)(6)(ii)), if the banking entity accounts for the profits (or losses) of the fund investment in its financial statements.

(e) *Extension of time to divest an ownership interest.* (1) Upon application by a banking entity, the Board may extend the period under paragraph (a)(2)(i) of this section for up to 2 additional years if the Board finds that an extension would be consistent with safety and soundness and not detrimental to the public interest. An application for extension must:

(i) Be submitted to the Board at least 90 days prior to the expiration of the applicable time period;

(ii) Provide the reasons for application, including information that addresses the factors in paragraph (e)(2) of this section; and

(iii) Explain the banking entity's plan for reducing the permitted investment in a covered fund through redemption, sale, dilution or other methods as required in paragraph (a)(2) of this section.

(2) *Factors governing Board determinations.* In reviewing any application under paragraph (e)(1) of this section, the Board may consider all the facts and circumstances related to the permitted investment in a covered fund, including:

(i) Whether the investment would result, directly or indirectly, in a material exposure by the banking entity to high-risk assets or high-risk trading strategies;

(ii) The contractual terms governing the banking entity's interest in the covered fund;

(iii) The date on which the covered fund is expected to have attracted sufficient investments from investors unaffiliated with the banking entity to enable the banking entity to comply with the limitations in paragraph (a)(2)(i) of this section;

(iv) The total exposure of the covered banking entity to the investment and the risks that disposing of, or maintaining, the investment in the covered fund may pose to the banking entity and the financial stability of the United States;

(v) The cost to the banking entity of divesting or disposing of the investment within the applicable period;

(vi) Whether the investment or the divestiture or conformance of the investment would involve or result in a material conflict of interest between the banking entity and unaffiliated parties, including clients, customers or counterparties to which it owes a duty;

(vii) The banking entity's prior efforts to reduce through redemption, sale, dilution, or other methods its ownership interests in the covered fund, including activities related to the marketing of interests in such covered fund;

(viii) Market conditions; and

(ix) Any other factor that the Board believes appropriate.

(3) *Authority to impose restrictions on activities or investment during any extension period.* The Board may impose such conditions on any extension approved under paragraph (e)(1) of this section as the Board determines are necessary or appropriate to protect the safety and soundness of the banking entity or the financial stability of the United States, address material conflicts of interest or other unsound banking practices, or otherwise further the purposes of section 13 of the BHC Act and this part.

(4) *Consultation.* In the case of a banking entity that is primarily regulated by another Federal banking agency, the SEC, or the CFTC, the Board will consult with such agency prior to acting on an application by the banking entity for an extension under paragraph (e)(1) of this section.

§ 75.13 Other permitted covered fund activities and investments.

(a) *Permitted risk-mitigating hedging activities.* (1) The prohibition contained in § 75.10(a) does not apply with respect to an ownership interest in a covered fund acquired or retained by a banking entity that is designed to demonstrably reduce or otherwise significantly mitigate the specific, identifiable risks to the banking entity in connection with a compensation arrangement with an employee of the banking entity or an affiliate thereof that directly provides investment advisory, commodity trading advisory or other services to the covered fund.

(2) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under paragraph (a) of this section only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures; and

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(ii) The acquisition or retention of the ownership interest:

(A) Is made in accordance with the written policies, procedures and internal controls required under this section;

(B) At the inception of the hedge, is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates one or more specific, identifiable risks arising in connection with the compensation arrangement with the employee that directly provides investment advisory, commodity trading advisory, or other services to the covered fund;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section; and

(D) Is subject to continuing review, monitoring and management by the banking entity.

(iii) The compensation arrangement relates solely to the covered fund in which the banking entity or any affiliate has acquired an ownership interest pursuant to this paragraph and such compensation arrangement provides that any losses incurred by the banking entity on such ownership interest will be offset by corresponding decreases in amounts payable under such compensation arrangement.

(b) *Certain permitted covered fund activities and investments outside of the United States.* (1) The prohibition contained in § 75.10(a) does not apply to the acquisition or retention of any ownership interest in, or the sponsorship of, a covered fund by a banking entity only if:

(i) The banking entity is not organized or directly or indirectly controlled by a banking entity that is organized under the laws of the United States or of one or more States;

(ii) The activity or investment by the banking entity is pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act;

(iii) No ownership interest in the covered fund is offered for sale or sold to a resident of the United States; and

(iv) The activity or investment occurs solely outside of the United States.

(2) An activity or investment by the banking entity is pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act for purposes of paragraph (b)(1)(ii) of this section only if:

(i) The activity or investment is conducted in accordance with the requirements of this section; and

(ii)(A) With respect to a banking entity that is a foreign banking organization, the banking entity meets the qualifying foreign banking organization requirements of § 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c) or (e)), as applicable; or

(B) With respect to a banking entity that is not a foreign banking organization, the banking entity is not organized under the laws of the United States or of one or more States and the banking entity, on a fully-consolidated basis, meets at least two of the following requirements:

(*1*) Total assets of the banking entity held outside of the United States exceed total assets of the banking entity held in the United States;

(*2*) Total revenues derived from the business of the banking entity outside of the United States exceed total revenues derived from the business of the banking entity in the United States; or

(*3*) Total net income derived from the business of the banking entity outside of the United States exceeds total net income derived from the business of the banking entity in the United States.

(3) An ownership interest in a covered fund is not offered for sale or sold to a resident of the United States for purposes of paragraph (b)(1)(iii) of this section only if it is sold or has been sold pursuant to an offering that does not target residents of the United States.

(4) An activity or investment occurs solely outside of the United States for purposes of paragraph (b)(1)(iv) of this section only if:

(i) The banking entity acting as sponsor, or engaging as principal in the acquisition or retention of an ownership interest in the covered fund, is not itself, and is not controlled directly or indirectly by, a banking entity that is located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to acquire or retain the ownership interest or act as sponsor to the covered fund is not located in the United States or organized under the laws of the United States or of any State;

(iii) The investment or sponsorship, including any transaction arising from risk-mitigating hedging related to an ownership interest, is not accounted for as principal directly or indirectly on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State; and

(iv) No financing for the banking entity's ownership or sponsorship is provided, directly or indirectly, by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

(5) For purposes of this section, a U.S. branch, agency, or subsidiary of a foreign bank, or any subsidiary thereof, is located in the United States; however, a foreign bank of which that branch, agency, or subsidiary is a part is not considered to be located in the United States solely by virtue of operation of the U.S. branch, agency, or subsidiary.

(c) *Permitted covered fund interests and activities by a regulated insurance company.* The prohibition contained in § 75.10(a) does not apply to the acquisition or retention by an insurance company, or an affiliate thereof, of any ownership interest in, or the sponsorship of, a covered fund only if:

(1) The insurance company or its affiliate acquires and retains the ownership interest solely for the general account of the insurance company or for one or more separate accounts established by the insurance company;

(2) The acquisition and retention of the ownership interest is conducted in compliance with, and subject to, the insurance company investment laws, regulations, and written guidance of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law, regulation, or written guidance described in paragraph (c)(2) of this section is insufficient to protect the safety and soundness of the banking entity, or the financial stability of the United States.

§ 75.14 Limitations on relationships with a covered fund.

(a) *Relationships with a covered fund.* (1) Except as provided for in paragraph (a)(2) of this section, no banking entity that serves, directly or indirectly, as the investment manager, investment adviser, commodity trading advisor, or sponsor to a covered fund, that organizes and offers a covered fund pursuant to § 75.11, or that continues to hold an ownership interest in accordance with § 75.11(b), and no affiliate of such entity, may enter into a transaction with the covered fund, or with any other covered fund that is controlled by such covered fund, that would be a covered transaction as defined in section 23A of the Federal Reserve Act (12 U.S.C. 371c(b)(7)), as if such banking entity and the affiliate thereof were a member bank and the covered fund were an affiliate thereof.

(2) Notwithstanding paragraph (a)(1) of this section, a banking entity may:

(i) Acquire and retain any ownership interest in a covered fund in accordance with the requirements of § 75.11, § 75.12, or § 75.13; and

(ii) Enter into any prime brokerage transaction with any covered fund in which a covered fund managed, sponsored, or advised by such banking entity (or an affiliate thereof) has taken an ownership interest, if:

(A) The banking entity is in compliance with each of the limitations set forth in § 75.11 with respect to a covered fund organized and offered by such banking entity (or an affiliate thereof);

(B) The chief executive officer (or equivalent officer) of the banking entity certifies in writing annually to the Commission (with a duty to update the certification if the information in the certification materially changes) that the banking entity does not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests; and

(C) The Board has not determined that such transaction is inconsistent with the safe and sound operation and condition of the banking entity.

(b) *Restrictions on transactions with covered funds.* A banking entity that serves, directly or indirectly, as the investment manager, investment adviser, commodity trading advisor, or sponsor to a covered fund, or that organizes and offers a covered fund pursuant to § 75.11, or that continues to hold an ownership interest in accordance with § 75.11(b), shall be subject to section 23B of the Federal Reserve Act (12 U.S.C. 371c–1), as if such banking entity were a member bank and such covered fund were an affiliate thereof.

(c) *Restrictions on prime brokerage transactions.* A prime brokerage transaction permitted under paragraph (a)(2)(ii) of this section shall be subject to section 23B of the Federal Reserve Act (12 U.S.C. 371c–1) as if the counterparty were an affiliate of the banking entity.

§ 75.15 Other limitations on permitted covered fund activities.

(a) No transaction, class of transactions, or activity may be deemed permissible under §§ 75.11 through 75.13 if the transaction, class of transactions, or activity would:

(1) Involve or result in a material conflict of interest between the banking entity and its clients, customers, or counterparties;

(2) Result, directly or indirectly, in a material exposure by the banking entity to a high-risk asset or a high-risk trading strategy; or

(3) Pose a threat to the safety and soundness of the banking entity or to the financial stability of the United States.

(b) *Definition of material conflict of interest.* (1) For purposes of this section, a material conflict of interest between a banking entity and its clients, customers, or counterparties exists if the banking entity engages in any transaction, class of transactions, or activity that would involve or result in the banking entity's interests being materially adverse to the interests of its client, customer, or counterparty with respect to such transaction, class of transactions, or activity, and the banking entity has not taken at least one of the actions in paragraph (b)(2) of this section.

(2) Prior to effecting the specific transaction or class or type of transactions, or engaging in the specific activity, the banking entity:

(i) *Timely and effective disclosure.* (A) Has made clear, timely, and effective disclosure of the conflict of interest, together with other necessary information, in reasonable detail and in a manner sufficient to permit a reasonable client, customer, or counterparty to meaningfully understand the conflict of interest; and

(B) Such disclosure is made in a manner that provides the client, customer, or counterparty the opportunity to negate, or substantially mitigate, any materially adverse effect on the client, customer, or counterparty created by the conflict of interest; or

(ii) *Information barriers.* Has established, maintained, and enforced information barriers that are memorialized in written policies and procedures, such as physical separation of personnel, or functions, or limitations on types of activity, that are reasonably designed, taking into consideration the nature of the banking entity's business, to prevent the conflict of interest from involving or resulting in a materially adverse effect on a client, customer, or counterparty. A banking entity may not rely on such information barriers if, in the case of any specific transaction, class or type of transactions or activity, the banking entity knows or should reasonably know that, notwithstanding the banking entity's establishment of information barriers, the conflict of interest may involve or result in a materially adverse effect on a client, customer, or counterparty.

(c) *Definition of high-risk asset and high-risk trading strategy.* For purposes of this section:

(1) *High-risk asset* means an asset or group of related assets that would, if held by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

(2) *High-risk trading strategy* means a trading strategy that would, if engaged in by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

§ 75.16 Ownership of interests in and sponsorship of issuers of certain collateralized debt obligations backed by trust-preferred securities.

(a) The prohibition contained in § 75.10(a)(1) does not apply to the ownership by a banking entity of an interest in, or sponsorship of, any issuer if:

(1) The issuer was established, and the interest was issued, before May 19, 2010;

(2) The banking entity reasonably believes that the offering proceeds received by the issuer were invested primarily in Qualifying TruPS Collateral; and

(3) The banking entity acquired such interest on or before December 10, 2013 (or acquired such interest in connection with a merger with or acquisition of a banking entity that acquired the interest on or before December 10, 2013).

(b) For purposes of this § 75.16, *Qualifying TruPS Collateral* shall mean any trust preferred security or subordinated debt instrument issued prior to May 19, 2010 by a depository institution holding company that, as of the end of any reporting period within 12 months immediately preceding the issuance of such trust preferred security or subordinated debt instrument, had total consolidated assets of less than $15,000,000,000 or issued prior to May 19, 2010 by a mutual holding company.

(c) Notwithstanding paragraph (a)(3) of this section, a banking entity may act as a market maker with respect to the interests of an issuer described in paragraph (a) of this section in accordance with the applicable provisions of §§ 75.4 and 75.11.

(d) Without limiting the applicability of paragraph (a) of this section, the Board, the FDIC and the OCC will make public a non-exclusive list of issuers that meet the requirements of paragraph (a). A banking entity may rely on the list published by the Board, the FDIC and the OCC.

§§ 75.17–75.19 [Reserved]

Subpart D—Compliance Program Requirement; Violations

§ 75.20 Program for compliance; reporting.

(a) *Program requirement.* Each banking entity shall develop and provide for the continued administration of a compliance program reasonably designed to ensure and monitor compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part. The terms, scope and detail of the compliance program shall be appropriate for the types, size, scope and complexity of activities and business structure of the banking entity.

(b) *Contents of compliance program.* Except as provided in paragraph (f) of this section, the compliance program required by paragraph (a) of this section, at a minimum, shall include:

(1) Written policies and procedures reasonably designed to document, describe, monitor and limit trading activities subject to subpart B of this part (including those permitted under §§ 75.3 to 75.6), including setting,

monitoring and managing required limits set out in §§ 75.4 and 75.5, and activities and investments with respect to a covered fund subject to subpart C of this part (including those permitted under §§ 75.11 through 75.14) conducted by the banking entity to ensure that all activities and investments conducted by the banking entity that are subject to section 13 of the BHC Act and this part comply with section 13 of the BHC Act and this part;

(2) A system of internal controls reasonably designed to monitor compliance with section 13 of the BHC Act and this part and to prevent the occurrence of activities or investments that are prohibited by section 13 of the BHC Act and this part;

(3) A management framework that clearly delineates responsibility and accountability for compliance with section 13 of the BHC Act and this part and includes appropriate management review of trading limits, strategies, hedging activities, investments, incentive compensation and other matters identified in this part or by management as requiring attention;

(4) Independent testing and audit of the effectiveness of the compliance program conducted periodically by qualified personnel of the banking entity or by a qualified outside party;

(5) Training for trading personnel and managers, as well as other appropriate personnel, to effectively implement and enforce the compliance program; and

(6) Records sufficient to demonstrate compliance with section 13 of the BHC Act and this part, which a banking entity must promptly provide to the Commission upon request and retain for a period of no less than 5 years or such longer period as required by the Commission.

(c) *Additional standards.* In addition to the requirements in paragraph (b) of this section, the compliance program of a banking entity must satisfy the requirements and other standards contained in appendix B of this part, if:

(1) The banking entity engages in proprietary trading permitted under subpart B of this part and is required to comply with the reporting requirements of paragraph (d) of this section;

(2) The banking entity has reported total consolidated assets as of the previous calendar year end of $50 billion or more or, in the case of a foreign banking entity, has total U.S. assets as of the previous calendar year end of $50 billion or more (including all subsidiaries, affiliates, branches and agencies of the foreign banking entity operating, located or organized in the United States); or

(3) The Commission notifies the banking entity in writing that it must satisfy the requirements and other standards contained in appendix B of this part.

(d) *Reporting requirements under appendix A of this part.* (1) A banking entity engaged in proprietary trading activity permitted under subpart B of this part shall comply with the reporting requirements described in appendix A of this part, if:

(i) The banking entity (other than a foreign banking entity as provided in paragraph (d)(1)(ii) of this section) has, together with its affiliates and subsidiaries, trading assets and liabilities (excluding trading assets and liabilities involving obligations of or guaranteed by the United States or any agency of the United States) the average gross sum of which (on a worldwide consolidated basis) over the previous consecutive four quarters, as measured as of the last day of each of the four prior calendar quarters, equals or exceeds the threshold established in paragraph (d)(2) of this section;

(ii) In the case of a foreign banking entity, the average gross sum of the trading assets and liabilities of the combined U.S. operations of the foreign banking entity (including all subsidiaries, affiliates, branches and agencies of the foreign banking entity operating, located or organized in the United States and excluding trading assets and liabilities involving obligations of or guaranteed by the United States or any agency of the United States) over the previous consecutive four quarters, as measured as of the last day of each of the four prior calendar quarters, equals or exceeds the threshold established in paragraph (d)(2) of this section; or

(iii) The Commission notifies the banking entity in writing that it must satisfy the reporting requirements contained in appendix A of this part.

(2) The threshold for reporting under paragraph (d)(1) of this section shall be $50 billion beginning on June 30, 2014; $25 billion beginning on April 30, 2016; and $10 billion beginning on December 31, 2016.

(3) *Frequency of reporting.* Unless the Commission notifies the banking entity in writing that it must report on a different basis, a banking entity with $50 billion or more in trading assets and liabilities (as calculated in accordance with paragraph (d)(1) of this section) shall report the information required by appendix A of this part for each calendar month within 30 days of the end of the relevant calendar month; beginning with information for the month of January 2015, such information shall be reported within 10 days of the end of each calendar month. Any other banking entity subject to appendix A of this part shall report the information required by appendix A of this part for each calendar quarter within 30 days of the end of that calendar quarter unless the Commission notifies the banking entity in writing that it must report on a different basis.

(e) *Additional documentation for covered funds.* Any banking entity that has more than $10 billion in total consolidated assets as reported on December 31 of the previous two calendar years shall maintain records that include:

(1) Documentation of the exclusions or exemptions other than sections 3(c)(1) and 3(c)(7) of the Investment Company Act of 1940 relied on by each fund sponsored by the banking entity (including all subsidiaries and affiliates) in determining that such fund is not a covered fund;

(2) For each fund sponsored by the banking entity (including all subsidiaries and affiliates) for which the banking entity relies on one or more of the exclusions from the definition of covered fund provided by § 75.10(c)(1), (5), (8), (9), or (10), documentation supporting the banking entity's determination that the fund is not a covered fund pursuant to one or more of those exclusions;

(3) For each seeding vehicle described in § 75.10(c)(12)(i) or (iii) that will become a registered investment company or SEC-regulated business development company, a written plan documenting the banking entity's determination that the seeding vehicle will become a registered investment company or SEC-regulated business development company; the period of time during which the vehicle will operate as a seeding vehicle; and the banking entity's plan to market the vehicle to third-party investors and convert it into a registered investment company or SEC-regulated business development company within the time period specified in § 75.12(a)(2)(i)(B);

(4) For any banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State, if the aggregate amount of ownership interests in foreign public funds that are described in § 75.10(c)(1) owned by such banking entity (including ownership interests owned by any affiliate that is controlled directly or indirectly by a banking entity that is located in or organized under the laws of the United States or of any State) exceeds $50 million at the end of two or more consecutive calendar quarters,

beginning with the next succeeding calendar quarter, documentation of the value of the ownership interests owned by the banking entity (and such affiliates) in each foreign public fund and each jurisdiction in which any such foreign public fund is organized, calculated as of the end of each calendar quarter, which documentation must continue until the banking entity's aggregate amount of ownership interests in foreign public funds is below $50 million for two consecutive calendar quarters; and

(5) For purposes of paragraph (e)(4) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(f) *Simplified programs for less active banking entities*—(1) *Banking entities with no covered activities.* A banking entity that does not engage in activities or investments pursuant to subpart B or subpart C of this part (other than trading activities permitted pursuant to § 75.6(a)) may satisfy the requirements of this section by establishing the required compliance program prior to becoming engaged in such activities or making such investments (other than trading activities permitted pursuant to § 75.6(a)).

(2) *Banking entities with modest activities.* A banking entity with total consolidated assets of $10 billion or less as reported on December 31 of the previous two calendar years that engages in activities or investments pursuant to subpart B or subpart C of this part (other than trading activities permitted under § 75.6(a)) may satisfy the requirements of this section by including in its existing compliance policies and procedures appropriate references to the requirements of section 13 of the BHC Act and this part and adjustments as appropriate given the activities, size, scope and complexity of the banking entity.

§ 75.21 Termination of activities or investments; penalties for violations.

(a) Any banking entity that engages in an activity or makes an investment in violation of section 13 of the BHC Act or this part, or acts in a manner that functions as an evasion of the requirements of section 13 of the BHC Act or this part, including through an abuse of any activity or investment permitted under subparts B or C of this part, or otherwise violates the restrictions and requirements of section 13 of the BHC Act or this part, shall, upon discovery, promptly terminate the activity and, as relevant, dispose of the investment.

(b) Whenever the Commission finds reasonable cause to believe any banking entity has engaged in an activity or made an investment in violation of section 13 of the BHC Act or this part, or engaged in any activity or made any investment that functions as an evasion of the requirements of section 13 of the BHC Act or this part, the Commission may take any action permitted by law to enforce compliance with section 13 of the BHC Act and this part, including directing the banking entity to restrict, limit, or terminate any or all activities under this part and dispose of any investment.

Appendix A to Part 75—Reporting and Recordkeeping Requirements for Covered Trading Activities

I. Purpose

a. This appendix sets forth reporting and recordkeeping requirements that certain banking entities must satisfy in connection with the restrictions on proprietary trading set forth in subpart B of this part (''proprietary trading restrictions''). Pursuant to § 75.20(d), this appendix generally applies to a banking entity that, together with its affiliates and subsidiaries, has significant trading assets and liabilities. These entities are required to (i) furnish periodic reports to the Commission regarding a variety of quantitative measurements of their covered trading activities, which vary depending on the scope and size of covered trading activities, and (ii) create and maintain records documenting the preparation and content of these reports. The requirements of this appendix must be incorporated into the banking entity's internal compliance program under § 75.20 and Appendix B of this part.

b. The purpose of this appendix is to assist banking entities and the Commission in:

(i) Better understanding and evaluating the scope, type, and profile of the banking entity's covered trading activities;

(ii) Monitoring the banking entity's covered trading activities;

(iii) Identifying covered trading activities that warrant further review or examination by the banking entity to verify compliance with the proprietary trading restrictions;

(iv) Evaluating whether the covered trading activities of trading desks engaged in market making-related activities subject to § 75.4(b) are consistent with the requirements governing permitted market making-related activities;

(v) Evaluating whether the covered trading activities of trading desks that are engaged in permitted trading activity subject to § 75.4, 75.5, or 75.6(a) and (b) (*i.e.,* underwriting and market making-related related activity, risk-mitigating hedging, or trading in certain government obligations) are consistent with the requirement that such activity not result, directly or indirectly, in a material exposure to high-risk assets or high-risk trading strategies;

(vi) Identifying the profile of particular covered trading activities of the banking entity, and the individual trading desks of the banking entity, to help establish the appropriate frequency and scope of examination by the Commission of such activities; and

(vii) Assessing and addressing the risks associated with the banking entity's covered trading activities.

c. The quantitative measurements that must be furnished pursuant to this appendix are *not* intended to serve as a dispositive tool for the identification of permissible or impermissible activities.

d. In order to allow banking entities and the Agencies to evaluate the effectiveness of these metrics, banking entities must collect and report these metrics for all trading desks beginning on the dates established in § 75.20. The Agencies will review the data collected and revise this collection requirement as appropriate based on a review of the data collected prior to September 30, 2015.

e. In addition to the quantitative measurements required in this appendix, a banking entity may need to develop and implement other quantitative measurements in order to effectively monitor its covered trading activities for compliance with section 13 of the BHC Act and this part and to have an effective compliance program, as required by § 75.20 and Appendix B of this part. The effectiveness of particular quantitative measurements may differ based on the profile of the banking entity's businesses in general and, more specifically, of the particular trading desk, including types of instruments traded, trading activities and strategies, and history and experience (*e.g.,* whether the trading desk is an established, successful market maker or a new entrant to a competitive market). In all cases, banking entities must ensure that they have robust measures in place to identify and monitor the risks taken in their trading activities, to ensure that the activities are within risk tolerances established by the banking entity, and to monitor and examine for compliance with the proprietary trading restrictions in this part.

f. On an ongoing basis, banking entities must carefully monitor, review, and evaluate all furnished quantitative measurements, as well as any others that they choose to utilize in order to maintain compliance with section 13 of the BHC Act and this part. All measurement results that indicate a heightened risk of impermissible proprietary trading, including with respect to otherwise-permitted activities under §§ 75.4 through 75.6(a) and (b), or that result in a material exposure to high-risk assets or high-risk trading strategies, must be escalated within the banking entity for review, further analysis, explanation to the Commission, and remediation, where appropriate. The quantitative measurements discussed in this appendix should be helpful to banking entities in identifying and managing the risks related to their covered trading activities.

II. Definitions

The terms used in this appendix have the same meanings as set forth in §§ 75.2 and 75.3. In addition, for purposes of this appendix, the following definitions apply:

Calculation period means the period of time for which a particular quantitative measurement must be calculated.

Comprehensive profit and loss means the net profit or loss of a trading desk's material sources of trading revenue over a specific period of time, including, for example, any increase or decrease in the market value of a trading desk's holdings, dividend income, and interest income and expense.

Covered trading activity means trading conducted by a trading desk under § 75.4, 75.5, or 75.6(a) or (b). A banking entity may include trading under § 75.3(d) or 75.6(c), (d) or (e).

Measurement frequency means the frequency with which a particular quantitative metric must be calculated and recorded.

Trading desk means the smallest discrete unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof.

III. Reporting and Recordkeeping of Quantitative Measurements

a. Scope of Required Reporting

General scope. Each banking entity made subject to this part by § 75.20 must furnish the following quantitative measurements for each trading desk of the banking entity, calculated in accordance with this appendix:

- Risk and Position Limits and Usage;
- Risk Factor Sensitivities;
- Value-at-Risk and Stress VaR;
- Comprehensive Profit and Loss Attribution;
- Inventory Turnover;
- Inventory Aging; and
- Customer Facing Trade Ratio

b. Frequency of Required Calculation and Reporting

A banking entity must calculate any applicable quantitative measurement for each trading day. A banking entity must report each applicable quantitative measurement to the Commission on the reporting schedule established in § 75.20 unless otherwise requested by the Commission. All quantitative measurements for any calendar month must be reported within the time period required by § 75.20.

c. Recordkeeping

A banking entity must, for any quantitative measurement furnished to the Commission pursuant to this appendix and § 75.20(d), create and maintain records documenting the preparation and content of these reports, as well as such information as is necessary to permit the Commission to verify the accuracy of such reports, for a period of 5 years from the end of the calendar year for which the measurement was taken.

IV. Quantitative Measurements

a. Risk-Management Measurements

1. Risk and Position Limits and Usage

i. *Description:* For purposes of this appendix, Risk and Position Limits are the constraints that define the amount of risk that a trading desk is permitted to take at a point in time, as defined by the banking entity for a specific trading desk. Usage represents the portion of the trading desk's limits that are accounted for by the current activity of the desk. Risk and position limits and their usage are key risk management tools used to control and monitor risk taking and include, but are not limited, to the limits set out in §§ 75.4 and 75.5. A number of the metrics that are described below, including ''Risk Factor Sensitivities'' and ''Value-at-Risk and Stress Value-at-Risk,'' relate to a trading desk's risk and position limits and are useful in evaluating and setting these limits in the broader context of the trading desk's overall activities, particularly for the market making activities under § 75.4(b) and hedging activity under § 75.5. Accordingly, the limits required under §§ 75.4(b)(2)(iii) and 75.5(b)(1)(i) must meet the applicable requirements under §§ 75.4(b)(2)(iii) and 75.5(b)(1)(i) and also must include appropriate metrics for the trading desk limits including, at a minimum, the ''Risk Factor Sensitivities'' and ''Value-at-Risk and Stress Value-at-Risk'' metrics except to the extent any of the ''Risk Factor Sensitivities'' or ''Value-at-Risk and Stress Value-at-Risk'' metrics are demonstrably ineffective for measuring and monitoring the risks of a trading desk based on the types of positions traded by, and risk exposures of, that desk.

ii. *General Calculation Guidance:* Risk and Position Limits must be reported in the format used by the banking entity for the purposes of risk management of each trading desk. Risk and Position Limits are often expressed in terms of risk measures, such as VaR and Risk Factor Sensitivities, but may also be expressed in terms of other observable criteria, such as net open positions. When criteria other than VaR or Risk Factor Sensitivities are used to define the Risk and Position Limits, both the value of the Risk and Position Limits and the value of the variables used to assess whether these limits have been reached must be reported.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

2. Risk Factor Sensitivities

i. *Description:* For purposes of this appendix, Risk Factor Sensitivities are changes in a trading desk's Comprehensive Profit and Loss that are expected to occur in the event of a change in one or more underlying variables that are significant sources of the trading desk's profitability and risk.

ii. *General Calculation Guidance:* A banking entity must report the Risk Factor Sensitivities that are monitored and managed as part of the trading desk's overall risk management policy. The underlying data and methods used to compute a trading desk's Risk Factor Sensitivities will depend on the specific function of the trading desk and the internal risk management models employed. The number and type of Risk Factor Sensitivities that are monitored and managed by a trading desk, and furnished to the Commission, will depend on the explicit risks assumed by the trading desk. In general, however, reported Risk Factor Sensitivities must be sufficiently granular to account for a preponderance of the expected price variation in the trading desk's holdings.

A. Trading desks must take into account any relevant factors in calculating Risk Factor Sensitivities, including, for example, the following with respect to particular asset classes:

- *Commodity derivative positions:* Risk factors with respect to the related commodities set out in § 20.2 of this chapter, the maturity of the positions, volatility and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Credit positions:* Risk factors with respect to credit spreads that are sufficiently granular to account for specific credit sectors and market segments, the maturity profile of the positions, and risk factors with respect to interest rates of all relevant maturities;
- *Credit-related derivative positions:* Risk factor sensitivities, for example credit spreads, shifts (parallel and non-parallel) in credit spreads—volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Equity derivative positions:* Risk factor sensitivities such as equity positions, volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Equity positions:* Risk factors for equity prices and risk factors that differentiate between important equity market sectors and segments, such as a small capitalization equities and international equities;
- *Foreign exchange derivative positions:* Risk factors with respect to major currency pairs and maturities, exposure to interest rates at relevant maturities, volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), as well as the maturity profile of the positions; and
- *Interest rate positions, including interest rate derivative positions:* Risk factors with respect to major interest rate categories and maturities and volatility and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and shifts (parallel and non-parallel) in the interest rate curve, as well as the maturity profile of the positions.

B. The methods used by a banking entity to calculate sensitivities to a common factor shared by multiple trading desks, such as an equity price factor, must be applied consistently across its trading desks so that the sensitivities can be compared from one trading desk to another.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

3. Value-at-Risk and Stress Value-at-Risk

i. *Description:* For purposes of this appendix, Value-at-Risk (''VaR'') is the commonly used percentile measurement of the risk of future financial loss in the value of a given set of aggregated positions over a specified period of time, based on current market conditions. For purposes of this appendix, Stress Value-at-Risk (''Stress VaR'') is the percentile measurement of the risk of future financial loss in the value of a given set of aggregated positions over a specified period of time, based on market conditions during a period of significant financial stress.

ii. *General Calculation Guidance:* Banking entities must compute and report VaR and Stress VaR by employing generally accepted standards and methods of calculation. VaR should reflect a loss in a trading desk that is expected to be exceeded less than one percent of the time over a one-day period. For those banking entities that are subject to regulatory capital requirements imposed by a Federal banking agency, VaR and Stress VaR must be computed and reported in a manner that is consistent with such regulatory capital requirements. In cases where a trading desk does not have a standalone VaR or Stress VaR calculation but is part of a larger aggregation of positions for which a VaR or Stress VaR calculation is performed, a VaR or Stress VaR calculation that includes only the trading desk's holdings must be performed consistent with the VaR or Stress VaR model and methodology used for the larger aggregation of positions.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

b. Source-of-Revenue Measurements

1. Comprehensive Profit and Loss Attribution

i. *Description:* For purposes of this appendix, Comprehensive Profit and Loss Attribution is an analysis that attributes the daily fluctuation in the value of a trading desk's positions to various sources. First, the daily profit and loss of the aggregated positions is divided into three categories: (i) Profit and loss attributable to a trading desk's existing positions that were also positions held by the trading desk as of the end of the prior day (''existing positions''); (ii) profit and loss attributable to new positions resulting from the current day's trading activity (''new positions''); and (iii) residual profit and loss that cannot be specifically attributed to existing positions or new positions. The sum of (i), (ii), and (iii) must equal the trading desk's comprehensive profit and loss at each point in time. In addition, profit and loss measurements must calculate volatility of comprehensive profit and loss (*i.e.,* the standard deviation of the trading desk's one-day profit and loss, in dollar terms) for the reporting period for at least a 30-, 60- and 90-day lag period, from the end of the reporting period, and any other period that the banking entity deems necessary to meet the requirements of the rule.

A. The comprehensive profit and loss associated with existing positions must reflect changes in the value of these positions on the applicable day. The comprehensive profit and loss from existing positions must be further attributed, as applicable, to changes in (i) the specific Risk Factors and other factors that are monitored and managed as part of the trading desk's overall risk management policies and procedures; and (ii) any other applicable elements, such as cash flows, carry, changes in reserves, and the correction, cancellation, or exercise of a trade.

B. The comprehensive profit and loss attributed to new positions must reflect commissions and fee income or expense and market gains or losses associated with transactions executed on the applicable day. New positions include purchases and sales of financial instruments and other assets/liabilities and negotiated amendments to existing positions. The comprehensive profit and loss from new positions may be reported in the aggregate and does not need to be further attributed to specific sources.

C. The portion of comprehensive profit and loss that cannot be specifically attributed to known sources must be allocated to a residual category identified as an unexplained portion of the comprehensive profit and loss. Significant unexplained profit and loss must be escalated for further investigation and analysis.

ii. *General Calculation Guidance:* The specific categories used by a trading desk in the attribution analysis and amount of detail for the analysis should be tailored to the type and amount of trading activities undertaken by the trading desk. The new position attribution must be computed by calculating the difference between the prices at which instruments were bought and/or sold and the prices at which those instruments are marked to market at the close of business on that day multiplied by the notional or principal amount of each purchase or sale. Any fees, commissions, or other payments received (paid) that are associated with transactions executed on that day must be added (subtracted) from such difference. These factors must be measured consistently over time to facilitate historical comparisons.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

c. Customer-Facing Activity Measurements

1. Inventory Turnover

i. *Description:* For purposes of this appendix, Inventory Turnover is a ratio that measures the turnover of a trading desk's inventory. The numerator of the ratio is the absolute value of all transactions over the reporting period. The denominator of the ratio is the value of the trading desk's inventory at the beginning of the reporting period.

ii. *General Calculation Guidance:* For purposes of this appendix, for derivatives, other than options and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value, and for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* 30 days, 60 days, and 90 days.

iv. *Measurement Frequency:* Daily.

2. Inventory Aging

i. *Description:* For purposes of this appendix, Inventory Aging generally describes a schedule of the trading desk's aggregate assets and liabilities and the amount of time that those assets and liabilities have been held. Inventory Aging should measure the age profile of the trading desk's assets and liabilities.

ii. *General Calculation Guidance:* In general, Inventory Aging must be computed using a trading desk's trading activity data and must identify the value of a trading desk's aggregate assets and liabilities. Inventory Aging must include two schedules, an asset-aging schedule and a liability-aging schedule. Each schedule must record the value of assets or liabilities held over all holding periods. For derivatives, other than options, and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value and, for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

3. Customer-Facing Trade Ratio—Trade Count Based and Value Based

i. *Description:* For purposes of this appendix, the Customer-Facing Trade Ratio is a ratio comparing (i) the transactions involving a counterparty that is a customer of the trading desk to (ii) the transactions involving a counterparty that is not a customer of the trading desk. A trade count based ratio must be computed that records the number of transactions involving a counterparty that is a customer of the trading desk and the number of transactions involving a counterparty that is not a customer of the trading desk. A value based ratio must be computed that records the value of transactions involving a counterparty that is a customer of the trading desk and the value of transactions involving a counterparty that is not a customer of the trading desk.

ii. *General Calculation Guidance:* For purposes of calculating the Customer-Facing Trade Ratio, a counterparty is considered to be a customer of the trading desk if the counterparty is a market participant that makes use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services. However, a trading desk or other organizational unit of another banking entity would not be a client, customer, or counterparty of the trading desk if the other entity has trading assets and liabilities of $50 billion or more as measured in accordance with § 75.20(d)(1) unless the trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk. Transactions conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants would be considered transactions with customers of the trading desk. For derivatives, other than options, and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value, and for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* 30 days, 60 days, and 90 days.

iv. *Measurement Frequency:* Daily.

Appendix B to Part 75—Enhanced Minimum Standards for Compliance Programs

I. Overview

Section 75.20(c) requires certain banking entities to establish, maintain, and enforce an enhanced compliance program that includes the requirements and standards in this Appendix as well as the minimum written policies and procedures, internal controls, management framework, independent testing, training, and recordkeeping provisions outlined in § 75.20. This Appendix sets forth additional minimum standards with respect to the establishment, oversight, maintenance, and enforcement by these banking entities of an enhanced internal compliance program for ensuring and monitoring compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part.

a. This compliance program must:

1. Be reasonably designed to identify, document, monitor, and report the permitted trading and covered fund activities and investments of the banking entity; identify, monitor and promptly address the risks of these covered activities and investments and potential areas of noncompliance; and prevent activities or investments prohibited by, or that do not comply with, section 13 of the BHC Act and this part;

2. Establish and enforce appropriate limits on the covered activities and investments of the banking entity, including limits on the size, scope, complexity, and risks of the individual activities or investments consistent with the requirements of section 13 of the BHC Act and this part;

3. Subject the effectiveness of the compliance program to periodic independent review and testing, and ensure that the entity's internal audit, corporate compliance and internal control functions involved in review and testing are effective and independent;

4. Make senior management, and others as appropriate, accountable for the effective implementation of the compliance program, and ensure that the board of directors and chief executive officer (or equivalent) of the banking entity review the effectiveness of the compliance program; and

5. Facilitate supervision and examination by the Agencies of the banking entity's permitted trading and covered fund activities and investments.

II. Enhanced Compliance Program

a. Proprietary Trading Activities

A banking entity must establish, maintain and enforce a compliance program that includes written policies and procedures that are appropriate for the types, size, and complexity of, and risks associated with, its permitted trading activities. The compliance program may be tailored to the types of trading activities conducted by the banking entity, and must include a detailed description of controls established by the banking entity to reasonably ensure that its trading activities are conducted in accordance with the requirements and limitations applicable to those trading activities under section 13 of the BHC Act and this part, and provide for appropriate revision of the compliance program before expansion of the trading activities of the banking entity. A banking entity must devote adequate resources and use knowledgeable personnel in conducting, supervising and managing its trading activities, and promote consistency, independence and rigor in implementing its risk controls and compliance efforts. The compliance program must be updated with a frequency sufficient to account for changes in the activities of the banking entity, results of independent testing of the program, identification of weaknesses in the program, and changes in legal, regulatory or other requirements.

1. *Trading Desks:* The banking entity must have written policies and procedures governing each trading desk that include a description of:

i. The process for identifying, authorizing and documenting financial instruments each trading desk may purchase or sell, with separate documentation for market making-related activities conducted in reliance on § 75.4(b) and for hedging activity conducted in reliance on § 75.5;

ii. A mapping for each trading desk to the division, business line, or other organizational structure that is responsible for managing and overseeing the trading desk's activities;

iii. The mission (*i.e.,* the type of trading activity, such as market-making, trading in sovereign debt, etc.) and strategy (*i.e.,* methods for conducting authorized trading activities) of each trading desk;

iv. The activities that the trading desk is authorized to conduct, including (i) authorized instruments and products, and (ii) authorized hedging strategies, techniques and instruments;

v. The types and amount of risks allocated by the banking entity to each trading desk to implement the mission and strategy of the trading desk, including an enumeration of material risks resulting from the activities in which the trading desk is authorized to engage (including but not limited to price risks, such as basis, volatility and correlation risks, as well as counterparty credit risk). Risk assessments must take into account both the risks inherent in the trading activity and the strength and effectiveness of controls designed to mitigate those risks;

vi. How the risks allocated to each trading desk will be measured;

vii. Why the allocated risks levels are appropriate to the activities authorized for the trading desk;

viii. The limits on the holding period of, and the risk associated with, financial instruments under the responsibility of the trading desk;

ix. The process for setting new or revised limits, as well as escalation procedures for granting exceptions to any limits or to any policies or procedures governing the desk, the analysis that will be required to support revising limits or granting exceptions, and the process for independently reviewing and documenting those exceptions and the underlying analysis;

x. The process for identifying, documenting and approving new products, trading strategies, and hedging strategies;

xi. The types of clients, customers, and counterparties with whom the trading desk may trade; and

xii. The compensation arrangements, including incentive arrangements, for employees associated with the trading desk, which may not be designed to reward or incentivize prohibited proprietary trading or excessive or imprudent risk-taking.

2. *Description of risks and risk management processes:* The compliance program for the banking entity must include a comprehensive description of the risk management program for the trading activity of the banking entity. The compliance program must also include a description of the governance, approval, reporting, escalation, review and other processes the banking entity will use to reasonably ensure that trading activity is conducted in compliance with section 13 of the BHC Act and this part. Trading activity in similar financial instruments should be subject to similar governance, limits, testing, controls, and review, unless the banking entity specifically determines to establish different limits or processes and documents those differences. Descriptions must include, at a minimum, the following elements:

i. A description of the supervisory and risk management structure governing all trading activity, including a description of processes for initial and senior-level review of new products and new strategies;

ii. A description of the process for developing, documenting, testing, approving and reviewing all models used for valuing, identifying and monitoring the risks of trading activity and related positions, including the process for periodic independent testing of the reliability and accuracy of those models;

iii. A description of the process for developing, documenting, testing, approving and reviewing the limits established for each trading desk;

iv. A description of the process by which a security may be purchased or sold pursuant to the liquidity management plan, including the process for authorizing and monitoring such activity to ensure compliance with the banking entity's liquidity management plan and the restrictions on liquidity management activities in this part;

v. A description of the management review process, including escalation procedures, for approving any temporary exceptions or permanent adjustments to limits on the activities, positions, strategies, or risks associated with each trading desk; and

vi. The role of the audit, compliance, risk management and other relevant units for conducting independent testing of trading and hedging activities, techniques and strategies.

3. *Authorized risks, instruments, and products.* The banking entity must implement and enforce limits and internal controls for each trading desk that are reasonably designed to ensure that trading activity is conducted in conformance with section 13 of the BHC Act and this part and with the banking entity's written policies and procedures. The banking entity must establish and enforce risk limits appropriate for the activity of each trading desk. These limits should be based on probabilistic and non-probabilistic measures of potential loss (*e.g.,* Value-at-Risk and notional exposure, respectively), and measured under normal and stress market conditions. At a minimum, these internal controls must monitor, establish and enforce limits on:

i. The financial instruments (including, at a minimum, by type and exposure) that the trading desk may trade;

ii. The types and levels of risks that may be taken by each trading desk; and

iii. The types of hedging instruments used, hedging strategies employed, and the amount of risk effectively hedged.

4. *Hedging policies and procedures.* The banking entity must establish, maintain, and enforce written policies and procedures regarding the use of risk-mitigating hedging instruments and strategies that, at a minimum, describe:

i. The positions, techniques and strategies that each trading desk may use to hedge the risk of its positions;

ii. The manner in which the banking entity will identify the risks arising in connection with and related to the individual or aggregated positions, contracts or other holdings of the banking entity that are to be hedged and determine that those risks have been properly and effectively hedged;

iii. The level of the organization at which hedging activity and management will occur;

iv. The manner in which hedging strategies will be monitored and the personnel responsible for such monitoring;

v. The risk management processes used to control unhedged or residual risks; and

vi. The process for developing, documenting, testing, approving and reviewing all hedging positions, techniques and strategies permitted for each trading desk and for the banking entity in reliance on § 75.5.

5. *Analysis and quantitative measurements.* The banking entity must perform robust analysis and quantitative measurement of its trading activities that is reasonably designed to ensure that the trading activity of each trading desk is consistent with the banking entity's compliance program; monitor and assist in the identification of potential and actual prohibited proprietary trading activity; and prevent the occurrence of prohibited proprietary trading. Analysis and models used to determine, measure and limit risk must be rigorously tested and be reviewed by management responsible for trading activity to ensure that trading activities, limits, strategies, and hedging activities do not understate the risk and exposure to the banking entity or allow prohibited proprietary trading. This review should include periodic and independent back-testing and revision of activities, limits, strategies and hedging as appropriate to contain risk and ensure compliance. In addition to the quantitative measurements reported by any banking entity subject to Appendix A of this part, each banking entity must develop and implement, to the extent appropriate to facilitate compliance with this part, additional quantitative measurements specifically tailored to the particular risks, practices, and strategies of its trading desks. The banking entity's analysis and quantitative measurements must incorporate the quantitative measurements reported by the banking entity pursuant to Appendix A of this part (if applicable) and include, at a minimum, the following:

i. Internal controls and written policies and procedures reasonably designed to ensure the accuracy and integrity of quantitative measurements;

ii. Ongoing, timely monitoring and review of calculated quantitative measurements;

iii. The establishment of numerical thresholds and appropriate trading measures for each trading desk and heightened review of trading activity not consistent with those thresholds to ensure compliance with section 13 of the BHC Act and this part, including analysis of the measurement results or other information, appropriate escalation procedures, and documentation related to the review; and

iv. Immediate review and compliance investigation of the trading desk's activities, escalation to senior management with oversight responsibilities for the applicable trading desk, timely notification to the Commission, appropriate remedial action (*e.g.,* divesting of impermissible positions, cessation of impermissible activity, disciplinary actions), and documentation of the investigation findings and remedial action taken when quantitative measurements or other information, considered together with the facts and circumstances, or findings of internal audit, independent testing or other review suggest a reasonable likelihood that the trading desk has violated any part of section 13 of the BHC Act or this part.

6. *Other Compliance Matters.* In addition to the requirements specified above, the banking entity's compliance program must:

i. Identify activities of each trading desk that will be conducted in reliance on exemptions contained in §§ 75.4 through 75.6, including an explanation of:

A. How and where in the organization the activity occurs; and

B. Which exemption is being relied on and how the activity meets the specific requirements for reliance on the applicable exemption;

ii. Include an explanation of the process for documenting, approving and reviewing actions taken pursuant to the liquidity management plan, where in the organization this activity occurs, the securities permissible for liquidity management, the process for ensuring that liquidity management activities are not conducted for the purpose of prohibited proprietary trading, and the process for ensuring that securities purchased as part of the liquidity management plan are highly liquid and conform to the requirements of this part;

iii. Describe how the banking entity monitors for and prohibits potential or actual material exposure to high-risk assets or high-risk trading strategies presented by each trading desk that relies on the exemptions contained in §§ 75.3(d)(3) and 75.4 through 75.6, which must take into account potential or actual exposure to:

A. Assets whose values cannot be externally priced or, where valuation is reliant on pricing models, whose model inputs cannot be externally validated;

B. Assets whose changes in value cannot be adequately mitigated by effective hedging;

C. New products with rapid growth, including those that do not have a market history;

D. Assets or strategies that include significant embedded leverage;

E. Assets or strategies that have demonstrated significant historical volatility;

F. Assets or strategies for which the application of capital and liquidity standards would not adequately account for the risk; and

G. Assets or strategies that result in large and significant concentrations to sectors, risk factors, or counterparties;

iv. Establish responsibility for compliance with the reporting and recordkeeping requirements of subpart B of this part and § 75.20; and

v. Establish policies for monitoring and prohibiting potential or actual material conflicts of interest between the banking entity and its clients, customers, or counterparties.

7. *Remediation of violations.* The banking entity's compliance program must be reasonably designed and established to effectively monitor and identify for further analysis any trading activity that may indicate potential violations of section 13 of the BHC Act and this part and to prevent actual violations of section 13 of the BHC Act and this part. The compliance program must describe procedures for identifying and remedying violations of section 13 of the BHC Act and this part, and must include, at a minimum, a requirement to promptly document, address and remedy any violation of section 13 of the BHC Act or this part, and document all proposed and actual remediation efforts. The compliance program must include specific written policies and procedures that are reasonably designed to assess the extent to which any activity indicates that modification to the banking entity's compliance program is warranted and to ensure that appropriate modifications are implemented. The written policies and procedures must provide for prompt notification to appropriate management, including senior management and the board of directors, of any material weakness or significant deficiencies in the design or implementation of the compliance program of the banking entity.

b. Covered Fund Activities or Investments

A banking entity must establish, maintain and enforce a compliance program that includes written policies and procedures that are appropriate for the types, size, complexity and risks of the covered fund and related activities conducted and investments made, by the banking entity.

1. *Identification of covered funds.* The banking entity's compliance program must provide a process, which must include appropriate management review and independent testing, for identifying and documenting covered funds that each unit within the banking entity's organization sponsors or organizes and offers, and covered funds in which each such unit invests. In addition to the documentation requirements for covered funds, as specified under § 75.20(e), the documentation must include information that identifies all pools that the banking entity sponsors or has an interest in and the type of exemption from the Commodity Exchange Act (whether or not the pool relies on § 4.7 of the regulations under the Commodity Exchange Act (§ 4.7 of this chapter)), and the amount of ownership interest the banking entity has in those pools.

2. *Identification of covered fund activities and investments.* The banking entity's compliance program must identify, document and map each unit within the organization that is permitted to acquire or hold an interest in any covered fund or sponsor any covered fund and map each unit to the division, business line, or other organizational structure that will be responsible for managing and overseeing that unit's activities and investments.

3. *Explanation of compliance.* The banking entity's compliance program must explain how:

i. The banking entity monitors for and prohibits potential or actual material conflicts of interest between the banking entity and its clients, customers, or counterparties related to its covered fund activities and investments;

ii. The banking entity monitors for and prohibits potential or actual transactions or activities that may threaten the safety and soundness of the banking entity related to its covered fund activities and investments; and

iii. The banking entity monitors for and prohibits potential or actual material exposure to high-risk assets or high-risk trading strategies presented by its covered fund activities and investments, taking into account potential or actual exposure to:

A. Assets whose values cannot be externally priced or, where valuation is reliant on pricing models, whose model inputs cannot be externally validated;

B. Assets whose changes in values cannot be adequately mitigated by effective hedging;

C. New products with rapid growth, including those that do not have a market history;

D. Assets or strategies that include significant embedded leverage;

E. Assets or strategies that have demonstrated significant historical volatility;

F. Assets or strategies for which the application of capital and liquidity standards would not adequately account for the risk; and

G. Assets or strategies that expose the banking entity to large and significant concentrations with respect to sectors, risk factors, or counterparties;

4. *Description and documentation of covered fund activities and investments.* For each organizational unit engaged in covered fund activities and investments, the banking entity's compliance program must document:

i. The covered fund activities and investments that the unit is authorized to conduct;

ii. The banking entity's plan for actively seeking unaffiliated investors to ensure that any investment by the banking entity conforms to the limits contained in § 75.12 or registered in compliance with the securities laws and thereby exempt from those limits within the time periods allotted in § 75.12; and

iii. How it complies with the requirements of subpart C of this part.

5. *Internal Controls.* A banking entity must establish, maintain, and enforce internal controls that are reasonably designed to ensure that its covered fund activities or investments comply with the requirements of section 13 of the BHC Act and this part and are appropriate given the limits on risk established by the banking entity. These written internal controls must be reasonably designed and established to effectively monitor and identify for further analysis any covered fund activity or investment that may indicate potential violations of section 13 of the BHC Act or this part. The internal controls must, at a minimum require:

i. Monitoring and limiting the banking entity's individual and aggregate investments in covered funds;

ii. Monitoring the amount and timing of seed capital investments for compliance with the limitations under subpart C of this part (including but not limited to the redemption, sale or disposition requirements of § 75.12), and the effectiveness of efforts to seek unaffiliated investors to ensure compliance with those limits;

iii. Calculating the individual and aggregate levels of ownership interests in one or more covered fund required by § 75.12;

iv. Attributing the appropriate instruments to the individual and aggregate ownership interest calculations above;

v. Making disclosures to prospective and actual investors in any covered fund organized and offered or sponsored by the banking entity, as provided under § 75.11(a)(8);

vi. Monitoring for and preventing any relationship or transaction between the banking entity and a covered fund that is prohibited under § 75.14, including where the banking entity has been designated as the sponsor, investment manager, investment adviser, or commodity trading advisor to a covered fund by another banking entity; and

vii. Appropriate management review and supervision across legal entities of the banking entity to ensure that services and products provided by all affiliated entities comply with the limitation on services and products contained in § 75.14.

6. *Remediation of violations.* The banking entity's compliance program must be reasonably designed and established to effectively monitor and identify for further analysis any covered fund activity or investment that may indicate potential violations of section 13 of the BHC Act or this part and to prevent actual violations of section 13 of the BHC Act and this part. The banking entity's compliance program must describe procedures for identifying and remedying violations of section 13 of the BHC Act and this part, and must include, at a minimum, a requirement to promptly document, address and remedy any violation of section 13 of the BHC Act or this part, including § 75.21, and document all proposed and actual remediation efforts. The compliance program must include specific written policies and procedures that are reasonably designed to assess the extent to which any activity or investment indicates that modification to the banking entity's compliance program is warranted and to ensure that appropriate modifications are implemented. The written policies and procedures must provide for prompt notification to appropriate management, including senior management and the board of directors, of any material weakness or significant deficiencies in the design or implementation of the compliance program of the banking entity.

III. Responsibility and Accountability for the Compliance Program

a. A banking entity must establish, maintain, and enforce a governance and management framework to manage its business and employees with a view to preventing violations of section 13 of the BHC Act and this part. A banking entity must have an appropriate management framework reasonably designed to ensure that: Appropriate personnel are responsible and accountable for the effective implementation and enforcement of the compliance program; a clear reporting line with a chain of responsibility is delineated; and the compliance program is reviewed periodically by senior management. The board of directors (or equivalent governance body) and senior management should have the appropriate authority and access to personnel and information within the organizations as well as appropriate resources to conduct their oversight activities effectively.

1. *Corporate governance.* The banking entity must adopt a written compliance program approved by the board of directors, an appropriate committee of the board, or equivalent governance body, and senior management.

2. *Management procedures.* The banking entity must establish, maintain, and enforce a governance framework that is reasonably designed to achieve compliance with section 13 of the BHC Act and this part, which, at a minimum, provides for:

i. The designation of appropriate senior management or committee of senior management with authority to carry out the management responsibilities of the banking entity for each trading desk and for each organizational unit engaged in covered fund activities;

ii. Written procedures addressing the management of the activities of the banking entity that are reasonably designed to achieve compliance with section 13 of the BHC Act and this part, including:

A. A description of the management system, including the titles, qualifications, and locations of managers and the specific responsibilities of each person with respect to the banking entity's activities governed by section 13 of the BHC Act and this part; and

B. Procedures for determining compensation arrangements for traders engaged in underwriting or market making-related activities under § 75.4 or risk-mitigating hedging activities under § 75.5 so that such compensation arrangements are designed not to reward or incentivize prohibited proprietary trading and appropriately balance risk and financial results in a manner that does not encourage employees to expose the banking entity to excessive or imprudent risk.

3. *Business line managers.* Managers with responsibility for one or more trading desks of the banking entity are accountable for the effective implementation and enforcement of the compliance program with respect to the applicable trading desk(s).

4. *Board of directors, or similar corporate body, and senior management.* The board of

directors, or similar corporate body, and senior management are responsible for setting and communicating an appropriate culture of compliance with section 13 of the BHC Act and this part and ensuring that appropriate policies regarding the management of trading activities and covered fund activities or investments are adopted to comply with section 13 of the BHC Act and this part. The board of directors or similar corporate body (such as a designated committee of the board or an equivalent governance body) must ensure that senior management is fully capable, qualified, and properly motivated to manage compliance with this part in light of the organization's business activities and the expectations of the board of directors. The board of directors or similar corporate body must also ensure that senior management has established appropriate incentives and adequate resources to support compliance with this part, including the implementation of a compliance program meeting the requirements of this appendix into management goals and compensation structures across the banking entity.

5. *Senior management.* Senior management is responsible for implementing and enforcing the approved compliance program. Senior management must also ensure that effective corrective action is taken when failures in compliance with section 13 of the BHC Act and this part are identified. Senior management and control personnel charged with overseeing compliance with section 13 of the BHC Act and this part should review the compliance program for the banking entity periodically and report to the board, or an appropriate committee thereof, on the effectiveness of the compliance program and compliance matters with a frequency appropriate to the size, scope, and risk profile of the banking entity's trading activities and covered fund activities or investments, which shall be at least annually.

6. *CEO attestation.* Based on a review by the CEO of the banking entity, the CEO of the banking entity must, annually, attest in writing to the Commission that the banking entity has in place processes to establish, maintain, enforce, review, test and modify the compliance program established under this appendix and § 75.20 in a manner reasonably designed to achieve compliance with section 13 of the BHC Act and this part. In the case of a U.S. branch or agency of a foreign banking entity, the attestation may be provided for the entire U.S. operations of the foreign banking entity by the senior management officer of the United States operations of the foreign banking entity who is located in the United States.

IV. Independent Testing

a. Independent testing must occur with a frequency appropriate to the size, scope, and risk profile of the banking entity's trading and covered fund activities or investments, which shall be at least annually. This independent testing must include an evaluation of:

1. The overall adequacy and effectiveness of the banking entity's compliance program, including an analysis of the extent to which the program contains all the required elements of this appendix;

2. The effectiveness of the banking entity's internal controls, including an analysis and documentation of instances in which such internal controls have been breached, and how such breaches were addressed and resolved; and

3. The effectiveness of the banking entity's management procedures.

b. A banking entity must ensure that independent testing regarding the effectiveness of the banking entity's compliance program is conducted by a qualified independent party, such as the banking entity's internal audit department, compliance personnel or risk managers independent of the organizational unit being tested, outside auditors, consultants, or other qualified independent parties. A banking entity must promptly take appropriate action to remedy any significant deficiencies or material weaknesses in its compliance program and to terminate any violations of section 13 of the BHC Act or this part.

V. Training

Banking entities must provide adequate training to personnel and managers of the banking entity engaged in activities or investments governed by section 13 of the BHC Act or this part, as well as other appropriate supervisory, risk, independent testing, and audit personnel, in order to effectively implement and enforce the compliance program. This training should occur with a frequency appropriate to the size and the risk profile of the banking entity's trading activities and covered fund activities or investments.

VI. Recordkeeping

Banking entities must create and retain records sufficient to demonstrate compliance and support the operations and effectiveness of the compliance program. A banking entity must retain these records for a period that is no less than 5 years or such longer period as required by the Commission in a form that allows it to promptly produce such records to the Commission on request.

SECURITIES AND EXCHANGE COMMISSION

17 CFR Chapter II

Authority and Issuance

For the reasons set forth in the Common Preamble, the Securities and Exchange Commission amends part 255 to chapter II of Title 17 of the Code of Federal Regulations as follows:

PART 255—PROPRIETARY TRADING AND CERTAIN INTERESTS IN AND RELATIONSHIPS WITH COVERED FUNDS

■ 60. The authority citation for part 255 continues to read as follows:

Authority: 12 U.S.C. 1851.

Subpart A—Authority and Definitions

■ 61. Section 255.2 is revised to read as follows:

§ 255.2 Definitions.

Unless otherwise specified, for purposes of this part:

(a) *Affiliate* has the same meaning as in section 2(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(k)).

(b) *Bank holding company* has the same meaning as in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(c) *Banking entity.* (1) Except as provided in paragraph (c)(2) of this section, *banking entity* means:

(i) Any insured depository institution;

(ii) Any company that controls an insured depository institution;

(iii) Any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(iv) Any affiliate or subsidiary of any entity described in paragraph (c)(1)(i), (ii), or (iii) of this section.

(2) Banking entity does not include:

(i) A covered fund that is not itself a banking entity under paragraph (c)(1)(i), (ii), or (iii) of this section;

(ii) A portfolio company held under the authority contained in section 4(k)(4)(H) or (I) of the BHC Act (12 U.S.C. 1843(k)(4)(H), (I)), or any portfolio concern, as defined under 13 CFR 107.50, that is controlled by a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), so long as the portfolio company or portfolio concern is not itself a banking entity under paragraph (c)(1)(i), (ii), or (iii) of this section; or

(iii) The FDIC acting in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(d) *Board* means the Board of Governors of the Federal Reserve System.

(e) *CFTC* means the Commodity Futures Trading Commission.

(f) *Dealer* has the same meaning as in section 3(a)(5) of the Exchange Act (15 U.S.C. 78c(a)(5)).

(g) *Depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)).

(h) *Derivative.* (1) Except as provided in paragraph (h)(2) of this section, *derivative* means:

(i) Any swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68));

(ii) Any purchase or sale of a commodity, that is not an excluded commodity, for deferred shipment or delivery that is intended to be physically settled;

(iii) Any foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)) or foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25));

(iv) Any agreement, contract, or transaction in foreign currency described in section 2(c)(2)(C)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(C)(i));

(v) Any agreement, contract, or transaction in a commodity other than foreign currency described in section 2(c)(2)(D)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(D)(i)); and

(vi) Any transaction authorized under section 19 of the Commodity Exchange Act (7 U.S.C. 23(a) or (b));

(2) A derivative does not include:

(i) Any consumer, commercial, or other agreement, contract, or transaction that the CFTC and SEC have further defined by joint regulation, interpretation, or other action as not within the definition of swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68)); or

(ii) Any identified banking product, as defined in section 402(b) of the Legal Certainty for Bank Products Act of 2000 (7 U.S.C. 27(b)), that is subject to section 403(a) of that Act (7 U.S.C. 27a(a)).

(i) *Employee* includes a member of the immediate family of the employee.

(j) *Exchange Act* means the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

(k) *Excluded commodity* has the same meaning as in section 1a(19) of the Commodity Exchange Act (7 U.S.C. 1a(19)).

(l) *FDIC* means the Federal Deposit Insurance Corporation.

(m) *Federal banking agencies* means the Board, the Office of the Comptroller of the Currency, and the FDIC.

(n) *Foreign banking organization* has the same meaning as in § 211.21(o) of the Board's Regulation K (12 CFR 211.21(o)), but does not include a foreign bank, as defined in section 1(b)(7) of the International Banking Act of 1978 (12 U.S.C. 3101(7)), that is organized under the laws of the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands.

(o) *Foreign insurance regulator* means the insurance commissioner, or a similar official or agency, of any country other than the United States that is engaged in the supervision of insurance companies under foreign insurance law.

(p) *General account* means all of the assets of an insurance company except those allocated to one or more separate accounts.

(q) *Insurance company* means a company that is organized as an insurance company, primarily and predominantly engaged in writing insurance or reinsuring risks underwritten by insurance companies, subject to supervision as such by a state insurance regulator or a foreign insurance regulator, and not operated for the purpose of evading the provisions of section 13 of the BHC Act (12 U.S.C. 1851).

(r) *Insured depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)), but does not include:

(1) An insured depository institution that is described in section 2(c)(2)(D) of the BHC Act (12 U.S.C. 1841(c)(2)(D)); or

(2) An insured depository institution if it has, and if every company that controls it has, total consolidated assets of $10 billion or less and total trading assets and trading liabilities, on a consolidated basis, that are 5 percent or less of total consolidated assets.

(s) *Limited trading assets and liabilities* means with respect to a banking entity that:

(1)(i) The banking entity has, together with its affiliates and subsidiaries, trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 255.6(a)(1) and (2) of subpart B) the average gross sum of which over the previous consecutive four quarters, as measured as of the last day of each of the four previous calendar quarters, is less than $1 billion; and

(ii) The SEC has not determined pursuant to § 255.20(g) or (h) of this part that the banking entity should not be treated as having limited trading assets and liabilities.

(2) With respect to a banking entity other than a banking entity described in paragraph (s)(3) of this section, trading assets and liabilities for purposes of this paragraph (s) means trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 255.6(a)(1) and (2) of subpart B) on a worldwide consolidated basis.

(3)(i) With respect to a banking entity that is a foreign banking organization or a subsidiary of a foreign banking organization, trading assets and liabilities for purposes of this paragraph (s) means the trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 255.6(a)(1) and (2) of subpart B) of the combined U.S. operations of the top-tier foreign banking organization (including all subsidiaries, affiliates, branches, and agencies of the foreign banking organization operating, located, or organized in the United States).

(ii) For purposes of paragraph (s)(3)(i) of this section, a U.S. branch, agency, or subsidiary of a banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary. For purposes of paragraph (s)(3)(i) of this section, all foreign operations of a U.S. agency, branch, or subsidiary of a foreign banking organization are considered to be located in the United States, including branches outside the United States that are managed or controlled by a U.S. branch or agency of the foreign banking organization, for purposes of calculating the banking entity's U.S. trading assets and liabilities.

(t) *Loan* means any loan, lease, extension of credit, or secured or unsecured receivable that is not a security or derivative.

(u) *Moderate trading assets and liabilities* means, with respect to a banking entity, that the banking entity does not have significant trading assets and liabilities or limited trading assets and liabilities.

(v) *Primary financial regulatory agency* has the same meaning as in section 2(12) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301(12)).

(w) *Purchase* includes any contract to buy, purchase, or otherwise acquire. For security futures products, purchase includes any contract, agreement, or transaction for future delivery. With respect to a commodity future, purchase includes any contract, agreement, or transaction for future delivery. With respect to a derivative, purchase includes the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(x) *Qualifying foreign banking organization* means a foreign banking organization that qualifies as such under § 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c), or (e)).

(y) *SEC* means the Securities and Exchange Commission.

(z) *Sale* and *sell* each include any contract to sell or otherwise dispose of. For security futures products, such terms include any contract, agreement, or transaction for future delivery. With respect to a commodity future, such terms include any contract, agreement, or transaction for future delivery. With respect to a derivative, such terms include the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(aa) *Security* has the meaning specified in section 3(a)(10) of the Exchange Act (15 U.S.C. 78c(a)(10)).

(bb) *Security-based swap dealer* has the same meaning as in section 3(a)(71) of the Exchange Act (15 U.S.C. 78c(a)(71)).

(cc) *Security future* has the meaning specified in section 3(a)(55) of the Exchange Act (15 U.S.C. 78c(a)(55)).

(dd) *Separate account* means an account established and maintained by an insurance company in connection with one or more insurance contracts to hold assets that are legally segregated from the insurance company's other assets, under which income, gains, and losses, whether or not realized, from assets allocated to such account, are, in accordance with the applicable contract, credited to or charged against such account without regard to other income, gains, or losses of the insurance company.

(ee) *Significant trading assets and liabilities* means with respect to a banking entity that: (1)(i) The banking entity has, together with its affiliates and subsidiaries, trading assets and liabilities the average gross sum of which over the previous consecutive four quarters, as measured as of the last day of each of the four previous calendar quarters, equals or exceeds $20 billion; or

(ii) The SEC has determined pursuant to § 255.20(h) of this part that the banking entity should be treated as having significant trading assets and liabilities.

(2) With respect to a banking entity, other than a banking entity described in paragraph (ee)(3) of this section, trading assets and liabilities for purposes of this paragraph (ee) means trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 255.6(a)(1) and (2) of subpart B) on a worldwide consolidated basis.

(3)(i) With respect to a banking entity that is a foreign banking organization or a subsidiary of a foreign banking organization, trading assets and liabilities for purposes of this paragraph (ee) means the trading assets and liabilities (excluding trading assets and liabilities attributable to trading activities permitted pursuant to § 255.6(a)(1) and (2) of subpart B) of the combined U.S. operations of the top-tier foreign banking organization (including all subsidiaries, affiliates, branches, and agencies of the foreign banking organization operating, located, or organized in the United States as well as branches outside the United States that are managed or controlled by a branch or agency of the foreign banking entity operating, located or organized in the United States).

(ii) For purposes of paragraph (ee)(3)(i) of this section, a U.S. branch, agency, or subsidiary of a banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary. For purposes of paragraph (ee)(3)(i) of this section, all foreign operations of a U.S. agency, branch, or subsidiary of a foreign banking organization are considered to be located in the United States for purposes of calculating the banking entity's U.S. trading assets and liabilities.

(ff) *State* means any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(gg) *Subsidiary* has the same meaning as in section 2(d) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(d)).

(hh) *State insurance regulator* means the insurance commissioner, or a similar official or agency, of a State that is engaged in the supervision of insurance companies under State insurance law.

(ii) *Swap dealer* has the same meaning as in section 1(a)(49) of the Commodity Exchange Act (7 U.S.C. 1a(49)).

Subpart B—Proprietary Trading

■ 62. Section 255.3 is amended by:
■ a. Revising paragraphs (b) and (d)(3), (8), and (9);
■ b. Adding paragraphs (d)(10) through (13);
■ c. Redesignating paragraphs (e)(5) through (13) as paragraphs (e)(6) through (14);
■ d. Adding new paragraph (e)(5); and
■ e. Revising paragraph (e)(11), (12), and (14).

The revisions and additions read as follows:

§ 255.3 Prohibition on proprietary trading.

* * * * *

(b) *Definition of trading account.* (1) *Trading account.* Trading account means:

(i) Any account that is used by a banking entity to purchase or sell one or more financial instruments principally for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging one or more of the positions resulting from the purchases or sales of financial instruments described in this paragraph;

(ii) Any account that is used by a banking entity to purchase or sell one or more financial instruments that are both market risk capital rule covered positions and trading positions (or hedges of other market risk capital rule covered positions), if the banking entity, or any affiliate with which the banking entity is consolidated for regulatory reporting purposes, calculates risk-based capital ratios under the market risk capital rule; or

(iii) Any account that is used by a banking entity to purchase or sell one or more financial instruments, if the banking entity:

(A) Is licensed or registered, or is required to be licensed or registered, to engage in the business of a dealer, swap dealer, or security-based swap dealer, to the extent the instrument is purchased or sold in connection with the activities that require the banking entity to be licensed or registered as such; or

(B) Is engaged in the business of a dealer, swap dealer, or security-based swap dealer outside of the United States, to the extent the instrument is purchased or sold in connection with the activities of such business.

(2) *Trading account application for certain banking entities.* (i) A banking entity that is subject to paragraph (b)(1)(ii) of this section in determining the scope of its trading account is not subject to paragraph (b)(1)(i) of this section.

(ii) A banking entity that does not calculate risk-based capital ratios under the market risk capital rule and is not a consolidated affiliate for regulatory reporting purposes of a banking entity that calculates risk based capital ratios under the market risk capital rule may elect to apply paragraph (b)(1)(ii) of this section in determining the scope of its trading account as if it were subject to that paragraph. A banking entity that elects under this section to apply paragraph (b)(1)(ii) of this section in determining the scope of its trading account as if it were subject to that paragraph is not required to apply paragraph (b)(1)(i) of this section.

(3) *Consistency of account election for certain banking entities.* (i) Any election or change to an election under paragraph (b)(2)(ii) of this section must apply to the electing banking entity and all of its wholly owned subsidiaries. The primary financial regulatory agency of a banking entity that is affiliated with but is not a wholly owned subsidiary of such electing banking entity may require that the banking entity be subject to this uniform application requirement if the primary financial regulatory agency determines that it is necessary to prevent evasion of the requirements of this part after notice and opportunity for response as provided in subpart D.

(ii) A banking entity that does not elect under paragraph (b)(2)(ii) of this section to be subject to the trading account definition in (b)(1)(ii) may continue to apply the trading account definition in paragraph (b)(1)(i) of this section for one year from the date on which it becomes, or becomes a consolidated affiliate for regulatory reporting purposes with, a banking entity that calculates risk-based capital ratios under the market risk capital rule.

(4) *Rebuttable presumption for certain purchases and sales.* The purchase (or sale) of a financial instrument by a banking entity shall be presumed not to be for the trading account of the banking entity under paragraph (b)(1)(i) of this section if the banking entity holds the financial instrument for sixty days or longer and does not transfer substantially all of the risk of the financial instrument within sixty days of the purchase (or sale).

* * * * *

(d) * * *

(3) Any purchase or sale of a security, foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)), foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25)), or cross-currency swap by a banking entity for the purpose of liquidity management in accordance with a documented liquidity management plan of the banking entity that:

(i) Specifically contemplates and authorizes the particular financial instruments to be used for liquidity management purposes, the amount, types, and risks of these financial instruments that are consistent with liquidity management, and the liquidity circumstances in which the particular financial instruments may or must be used;

(ii) Requires that any purchase or sale of financial instruments contemplated and authorized by the plan be principally for the purpose of managing the liquidity of the banking entity, and not for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging a position taken for such short-term purposes;

(iii) Requires that any financial instruments purchased or sold for liquidity management purposes be highly liquid and limited to financial instruments the market, credit, and other risks of which the banking entity does not reasonably expect to give rise to appreciable profits or losses as a result of short-term price movements;

(iv) Limits any financial instruments purchased or sold for liquidity management purposes, together with any other financial instruments purchased or sold for such purposes, to an amount that is consistent with the banking entity's near-term funding needs, including deviations from normal operations of the banking entity or any affiliate thereof, as estimated and documented pursuant to methods specified in the plan;

(v) Includes written policies and procedures, internal controls, analysis, and independent testing to ensure that the purchase and sale of financial instruments that are not permitted under § 255.6(a) or (b) of this subpart are for the purpose of liquidity management and in accordance with the liquidity management plan described in this paragraph (d)(3); and

(vi) Is consistent with the SEC's regulatory requirements regarding liquidity management;

* * * * *

(8) Any purchase or sale of one or more financial instruments by a banking entity through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity that is established and administered in accordance with the law of the United States or a foreign sovereign, if the purchase or sale is made directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity;

(9) Any purchase or sale of one or more financial instruments by a banking entity in the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the financial instrument as soon as practicable, and in no event may the banking entity retain such instrument for longer than such period permitted by the SEC;

(10) Any purchase or sale of one or more financial instruments that was made in error by a banking entity in the course of conducting a permitted or excluded activity or is a subsequent transaction to correct such an error;

(11) Contemporaneously entering into a customer-driven swap or customer-driven security-based swap and a matched swap or security-based swap if:

(i) The banking entity retains no more than minimal price risk; and

(ii) The banking entity is not a registered dealer, swap dealer, or security-based swap dealer;

(12) Any purchase or sale of one or more financial instruments that the banking entity uses to hedge mortgage servicing rights or mortgage servicing assets in accordance with a documented hedging strategy; or

(13) Any purchase or sale of a financial instrument that does not meet the definition of trading asset or trading liability under the applicable reporting form for a banking entity as of January 1, 2020.

(e) * * *

(5) *Cross-currency swap* means a swap in which one party exchanges with another party principal and interest rate payments in one currency for principal and interest rate payments in another currency, and the exchange of principal occurs on the date the swap is entered into, with a reversal of the exchange of principal at a later date that is agreed upon when the swap is entered into.

* * * * *

(11) *Market risk capital rule covered position and trading position* means a financial instrument that meets the criteria to be a covered position and a trading position, as those terms are respectively defined, without regard to whether the financial instrument is reported as a covered position or trading position on any applicable regulatory reporting forms:

(i) In the case of a banking entity that is a bank holding company, savings and loan holding company, or insured depository institution, under the market risk capital rule that is applicable to the banking entity; and

(ii) In the case of a banking entity that is affiliated with a bank holding company or savings and loan holding company, other than a banking entity to which a market risk capital rule is applicable, under the market risk capital rule that is applicable to the affiliated bank holding company or savings and loan holding company.

(12) *Market risk capital rule* means the market risk capital rule that is contained in 12 CFR part 3, subpart F, with respect to a banking entity for which the OCC is the primary financial regulatory agency, 12 CFR part 217 with respect to a banking entity for which the Board is the primary financial regulatory agency, or 12 CFR part 324 with respect to a banking entity for which the FDIC is the primary financial regulatory agency.

* * * * *

(14) *Trading desk* means a unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof that is:

(i)(A) Structured by the banking entity to implement a well-defined business strategy;

(B) Organized to ensure appropriate setting, monitoring, and management review of the desk's trading and hedging limits, current and potential future loss exposures, and strategies; and

(C) Characterized by a clearly defined unit that:

(*1*) Engages in coordinated trading activity with a unified approach to its key elements;

(*2*) Operates subject to a common and calibrated set of risk metrics, risk levels, and joint trading limits;

(*3*) Submits compliance reports and other information as a unit for monitoring by management; and

(*4*) Books its trades together; or

(ii) For a banking entity that calculates risk-based capital ratios under the market risk capital rule, or a consolidated affiliate for regulatory reporting purposes of a banking entity that calculates risk-based capital ratios under the market risk capital rule, established by the banking entity or its affiliate for purposes of market risk capital calculations under the market risk capital rule.

■ 63. Section 255.4 is revised to read as follows:

§ 255.4 Permitted underwriting and market making-related activities.

(a) *Underwriting activities*—(1) *Permitted underwriting activities.* The prohibition contained in § 255.3(a) does not apply to a banking entity's underwriting activities conducted in accordance with this paragraph (a).

(2) *Requirements.* The underwriting activities of a banking entity are permitted under paragraph (a)(1) of this section only if:

(i) The banking entity is acting as an underwriter for a distribution of securities and the trading desk's underwriting position is related to such distribution;

(ii)(A) The amount and type of the securities in the trading desk's underwriting position are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, taking into account the liquidity, maturity, and depth of the market for the relevant types of securities; and

(B) Reasonable efforts are made to sell or otherwise reduce the underwriting position within a reasonable period, taking into account the liquidity, maturity, and depth of the market for the relevant types of securities;

(iii) In the case of a banking entity with significant trading assets and liabilities, the banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (a) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The products, instruments or exposures each trading desk may purchase, sell, or manage as part of its underwriting activities;

(B) Limits for each trading desk, in accordance with paragraph (a)(2)(ii)(A) of this section;

(C) Written authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval; and

(D) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits.

(iv) A banking entity with significant trading assets and liabilities may satisfy the requirements in paragraphs (a)(2)(iii)(B) and (C) of this section by complying with the requirements set forth below in paragraph (c) of this section;

(v) The compensation arrangements of persons performing the activities described in this paragraph (a) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in the activity described in this paragraph (a) in accordance with applicable law.

(3) *Definition of distribution.* For purposes of this paragraph (a), a distribution of securities means:

(i) An offering of securities, whether or not subject to registration under the Securities Act of 1933, that is distinguished from ordinary trading transactions by the presence of special selling efforts and selling methods; or

(ii) An offering of securities made pursuant to an effective registration statement under the Securities Act of 1933.

(4) *Definition of underwriter.* For purposes of this paragraph (a), *underwriter* means:

(i) A person who has agreed with an issuer or selling security holder to:

(A) Purchase securities from the issuer or selling security holder for distribution;

(B) Engage in a distribution of securities for or on behalf of the issuer or selling security holder; or

(C) Manage a distribution of securities for or on behalf of the issuer or selling security holder; or

(ii) A person who has agreed to participate or is participating in a distribution of such securities for or on behalf of the issuer or selling security holder.

(5) *Definition of selling security holder.* For purposes of this paragraph (a), *selling security holder* means any person, other than an issuer, on whose behalf a distribution is made.

(6) *Definition of underwriting position.* For purposes of this section, *underwriting position* means the long or short positions in one or more securities held by a banking entity or its affiliate, and managed by a particular trading desk, in connection with a particular distribution of securities for which such banking entity or affiliate is acting as an underwriter.

(7) *Definition of client, customer, and counterparty.* For purposes of this paragraph (a), the terms *client, customer, and counterparty,* on a collective or individual basis, refer to market participants that may transact with the banking entity in connection with a particular distribution for which the banking entity is acting as underwriter.

(b) *Market making-related activities*—(1) *Permitted market making-related activities.* The prohibition contained in § 255.3(a) does not apply to a banking entity's market making-related activities conducted in accordance with this paragraph (b).

(2) *Requirements.* The market making-related activities of a banking entity are permitted under paragraph (b)(1) of this section only if:

(i) The trading desk that establishes and manages the financial exposure, routinely stands ready to purchase and sell one or more types of financial instruments related to its financial exposure, and is willing and available to quote, purchase and sell, or otherwise enter into long and short positions in those types of financial instruments for its own account, in commercially reasonable amounts and throughout market cycles on a basis appropriate for the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(ii) The trading desk's market-making related activities are designed not to exceed, on an ongoing basis, the reasonably expected near term demands of clients, customers, or counterparties, taking into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(iii) In the case of a banking entity with significant trading assets and liabilities, the banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (b) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The financial instruments each trading desk stands ready to purchase and sell in accordance with paragraph (b)(2)(i) of this section;

(B) The actions the trading desk will take to demonstrably reduce or otherwise significantly mitigate promptly the risks of its financial exposure consistent with the limits required under paragraph (b)(2)(iii)(C) of this section; the products, instruments, and exposures each trading desk may use for risk management purposes; the techniques and strategies each trading desk may use to manage the risks of its market making-related activities and positions; and the process, strategies, and personnel responsible for ensuring that the actions taken by the trading desk to mitigate these risks are and continue to be effective;

(C) Limits for each trading desk, in accordance with paragraph (b)(2)(ii) of this section;

(D) Written authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval; and

(E) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits.

(iv) A banking entity with significant trading assets and liabilities may satisfy the requirements in paragraphs (b)(2)(iii)(C) and (D) of this section by complying with the requirements set forth below in paragraph (c) of this section;

(v) The compensation arrangements of persons performing the activities described in this paragraph (b) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in activity described in this paragraph (b) in accordance with applicable law.

(3) *Definition of client, customer, and counterparty.* For purposes of paragraph (b) of this section, the terms *client, customer, and counterparty,* on a collective or individual basis refer to market participants that make use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services, provided that:

(i) A trading desk or other organizational unit of another banking entity is not a client, customer, or counterparty of the trading desk if that other entity has trading assets and liabilities of $50 billion or more as measured in accordance with the methodology described in § 255.2(ee) of this part, unless:

(A) The trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk for purposes of paragraph (b)(2) of this section; or

(B) The purchase or sale by the trading desk is conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants.

(ii) [Reserved]

(4) *Definition of financial exposure.* For purposes of this section, *financial exposure* means the aggregate risks of one or more financial instruments and any associated loans, commodities, or foreign exchange or currency, held by a banking entity or its affiliate and managed by a particular trading desk as part of the trading desk's market making-related activities.

(5) *Definition of market-maker positions.* For the purposes of this section, *market-maker positions* means all of the positions in the financial instruments for which the trading desk stands ready to make a market in accordance with paragraph (b)(2)(i) of this section, that are managed by the trading desk, including the trading desk's open positions or exposures arising from open transactions.

(c) *Rebuttable presumption of compliance*—(1) *Internal limits.* (i) A banking entity shall be presumed to meet the requirement in paragraph (a)(2)(ii)(A) or (b)(2)(ii) of this section with respect to the purchase or sale of a financial instrument if the banking entity has established and implements, maintains, and enforces the internal limits for the relevant trading desk as described in paragraph (c)(1)(ii) of this section.

(ii)(A) With respect to underwriting activities conducted pursuant to paragraph (a) of this section, the presumption described in paragraph (c)(1)(i) of this section shall be available to each trading desk that establishes, implements, maintains, and enforces internal limits that should take into account the liquidity, maturity, and depth of the market for the relevant types of securities and are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, based on the nature and amount of the trading desk's underwriting activities, on the:

(*1*) Amount, types, and risk of its underwriting position;

(*2*) Level of exposures to relevant risk factors arising from its underwriting position; and

(*3*) Period of time a security may be held.

(B) With respect to market making-related activities conducted pursuant to paragraph (b) of this section, the presumption described in paragraph (c)(1)(i) of this section shall be available to each trading desk that establishes, implements, maintains, and enforces internal limits that should take into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments and are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, based on the nature and amount of the trading desk's market-making related activities, that address the:

(*1*) Amount, types, and risks of its market-maker positions;

(*2*) Amount, types, and risks of the products, instruments, and exposures the trading desk may use for risk management purposes;

(*3*) Level of exposures to relevant risk factors arising from its financial exposure; and

(*4*) Period of time a financial instrument may be held.

(2) *Supervisory review and oversight.* The limits described in paragraph (c)(1) of this section shall be subject to supervisory review and oversight by the SEC on an ongoing basis.

(3) *Limit breaches and increases.* (i) With respect to any limit set pursuant to paragraphs (c)(1)(ii)(A) or (c)(1)(ii)(B) of this section, a banking entity shall maintain and make available to the SEC upon request records regarding any limit that is exceeded and any temporary or permanent increase to any limit(s), in each case in the form and manner as directed by the SEC.

(ii) In the event of a breach or increase of any limit set pursuant to paragraph (c)(1)(ii)(A) or (B) of this section, the presumption described in paragraph (c)(1)(i) of this section shall continue to be available only if the banking entity:

(A) Takes action as promptly as possible after a breach to bring the trading desk into compliance; and

(B) Follows established written authorization procedures, including escalation procedures that require review and approval of any trade that exceeds a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval.

(4) *Rebutting the presumption.* The presumption in paragraph (c)(1)(i) of this section may be rebutted by the SEC if the SEC determines, taking into account the liquidity, maturity, and depth of the market for the relevant types of financial instruments and based on all relevant facts and circumstances, that a trading desk is engaging in activity that is not based on the reasonably expected near term demands of clients, customers, or counterparties. The SEC's rebuttal of the presumption in paragraph (c)(1)(i) must be made in accordance with the notice and response procedures in subpart D of this part.

■ 64. Section 255.5 is amended by revising paragraphs (b) and (c)(1) introductory text and adding paragraph (c)(4) to read as follows:

§ 255.5 Permitted risk-mitigating hedging activities.

* * * * *

(b) *Requirements.* (1) The risk-mitigating hedging activities of a banking entity that has significant trading assets and liabilities are permitted under paragraph (a) of this section only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures regarding the positions, techniques and strategies that may be used for hedging, including documentation indicating what positions, contracts or other holdings a particular trading desk may use in its risk-mitigating hedging activities, as well as position and aging limits with respect to such positions, contracts or other holdings;

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(C) The conduct of analysis and independent testing designed to ensure that the positions, techniques and strategies that may be used for hedging may reasonably be expected to reduce or otherwise significantly mitigate the specific, identifiable risk(s) being hedged;

(ii) The risk-mitigating hedging activity:

(A) Is conducted in accordance with the written policies, procedures, and internal controls required under this section;

(B) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section;

(D) Is subject to continuing review, monitoring and management by the banking entity that:

(*1*) Is consistent with the written hedging policies and procedures required under paragraph (b)(1)(i) of this section;

(*2*) Is designed to reduce or otherwise significantly mitigate the specific, identifiable risks that develop over time from the risk-mitigating hedging activities undertaken under this section and the underlying positions, contracts, and other holdings of the banking entity, based upon the facts and circumstances of the underlying and hedging positions, contracts and other holdings of the banking entity and the risks and liquidity thereof; and

(*3*) Requires ongoing recalibration of the hedging activity by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(1)(ii) of this section and is not prohibited proprietary trading; and

(iii) The compensation arrangements of persons performing risk-mitigating hedging activities are designed not to reward or incentivize prohibited proprietary trading.

(2) The risk-mitigating hedging activities of a banking entity that does not have significant trading assets and liabilities are permitted under paragraph (a) of this section only if the risk-mitigating hedging activity:

(i) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof; and

(ii) Is subject, as appropriate, to ongoing recalibration by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(2) of this section and is not prohibited proprietary trading.

(c) * * *

(1) A banking entity that has significant trading assets and liabilities must comply with the requirements of paragraphs (c)(2) and (3) of this section, unless the requirements of paragraph (c)(4) of this section are met, with respect to any purchase or sale of financial instruments made in reliance on this section for risk-mitigating hedging purposes that is:

* * * * *

(4) The requirements of paragraphs (c)(2) and (3) of this section do not apply to the purchase or sale of a financial instrument described in paragraph (c)(1) of this section if:

(i) The financial instrument purchased or sold is identified on a written list of pre-approved financial instruments that are commonly used by the trading desk for the specific type of hedging activity for which the financial instrument is being purchased or sold; and

(ii) At the time the financial instrument is purchased or sold, the hedging activity (including the purchase or sale of the financial instrument) complies with written, pre-approved limits for the trading desk purchasing or selling the financial instrument for hedging activities undertaken for one or more other trading desks. The limits shall be appropriate for the:

(A) Size, types, and risks of the hedging activities commonly undertaken by the trading desk;

(B) Financial instruments purchased and sold for hedging activities by the trading desk; and

(C) Levels and duration of the risk exposures being hedged.

■ 65. Section 255.6 is amended by revising paragraph (e)(3); removing paragraphs (e)(4) and (6); and redesignating paragraph (e)(5) as paragraph (e)(4).

The revision reads as follows:

§ 255.6 Other permitted proprietary trading activities.

* * * * *

(e) * * *

(3) A purchase or sale by a banking entity is permitted for purposes of this paragraph (e) if:

(i) The banking entity engaging as principal in the purchase or sale (including relevant personnel) is not located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to purchase or sell as principal is not located in the United States or organized under the laws of the United States or of any State; and

(iii) The purchase or sale, including any transaction arising from risk-mitigating hedging related to the instruments purchased or sold, is not accounted for as principal directly or on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

* * * * *

Subpart C—Covered Funds Activities and Investments

■ 66. Section 255.10 is amended by revising paragraphs (c)(7)(ii) and (c)(8)(i)(A) to read as follows:

§ 255.10 Prohibition on Acquiring or Retaining an Ownership Interest in and Having Certain Relationships with a Covered Fund.

* * * * *

(c) * * *

(7) * * *

(ii) Participates in the profits and losses of the separate account other than in compliance with applicable requirements regarding bank owned life insurance.

(8) * * *

(i) * * *

(A) Loans as defined in § 255.2(t) of subpart A;

* * * * *

■ 67. Section 255.11 is amended by revising paragraph (c) to read as follows:

§ 255.11 Permitted organizing and offering, underwriting, and market making with respect to a covered fund.

* * * * *

(c) *Underwriting and market making in ownership interests of a covered fund.* The prohibition contained in § 255.10(a) of this subpart does not apply to a banking entity's underwriting activities or market making-related activities involving a covered fund so long as:

(1) Those activities are conducted in accordance with the requirements of § 255.4(a) or § 255.4(b) of subpart B, respectively; and

(2) With respect to any banking entity (or any affiliate thereof) that: Acts as a sponsor, investment adviser or commodity trading advisor to a particular covered fund or otherwise acquires and retains an ownership interest in such covered fund in reliance on paragraph (a) of this section; or acquires and retains an ownership interest in such covered fund and is either a securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78*o*–11(a)(3)), or is acquiring and retaining an ownership interest in such covered fund in compliance with section 15G of that Act (15 U.S.C.78*o*–11) and the implementing regulations issued thereunder each as permitted by paragraph (b) of this section, then in each such case any ownership interests acquired or retained by the banking entity and its affiliates in connection with underwriting and market making related activities for that particular covered fund are included in the calculation of ownership interests permitted to be held by the banking entity and its affiliates under the limitations of § 255.12(a)(2)(ii); § 255.12(a)(2)(iii), and § 255.12(d) of this subpart.

§ 255.12 [Amended]

■ 68. Section 255.12 is amended by redesignating the second instance of paragraph (e)(2)(vi) as paragraph (e)(2)(vii).

■ 69. Section 255.13 is amended by revising paragraphs (a), (b)(3) and (4), and (c) to read as follows:

§ 255.13 Other permitted covered fund activities and investments.

(a) *Permitted risk-mitigating hedging activities.* (1) The prohibition contained in § 255.10(a) of this subpart does not apply with respect to an ownership interest in a covered fund acquired or retained by a banking entity that is designed to reduce or otherwise significantly mitigate the specific, identifiable risks to the banking entity in connection with:

(i) A compensation arrangement with an employee of the banking entity or an affiliate thereof that directly provides investment advisory, commodity trading advisory or other services to the covered fund; or

(ii) A position taken by the banking entity when acting as intermediary on behalf of a customer that is not itself a banking entity to facilitate the exposure by the customer to the profits and losses of the covered fund.

(2) The risk-mitigating hedging activities of a banking entity are permitted under this paragraph (a) only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program in accordance with subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures; and

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(ii) The acquisition or retention of the ownership interest:

(A) Is made in accordance with the written policies, procedures, and internal controls required under this section;

(B) At the inception of the hedge, is designed to reduce or otherwise significantly mitigate one or more specific, identifiable risks arising:

(*1*) Out of a transaction conducted solely to accommodate a specific customer request with respect to the covered fund; or

(*2*) In connection with the compensation arrangement with the employee that directly provides investment advisory, commodity trading advisory, or other services to the covered fund;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section; and

(D) Is subject to continuing review, monitoring and management by the banking entity.

(iii) With respect to risk-mitigating hedging activity conducted pursuant to paragraph (a)(1)(i) of this section, the compensation arrangement relates solely to the covered fund in which the banking entity or any affiliate has acquired an ownership interest pursuant to paragraph (a)(1)(i) and such compensation arrangement provides that any losses incurred by the banking entity on such ownership interest will be offset by corresponding decreases in amounts payable under such compensation arrangement.

(b) * * *

(3) An ownership interest in a covered fund is not offered for sale or sold to a resident of the United States for purposes of paragraph (b)(1)(iii) of this section only if it is not sold and has not been sold pursuant to an offering that targets residents of the United States in which the banking entity or any affiliate of the banking entity participates. If the banking entity or an affiliate sponsors or serves, directly or indirectly, as the investment manager, investment adviser, commodity pool operator or commodity trading advisor to a covered fund, then the banking entity or affiliate will be deemed for purposes of this paragraph (b)(3) to participate in any offer or sale by the covered fund of ownership interests in the covered fund.

(4) An activity or investment occurs solely outside of the United States for purposes of paragraph (b)(1)(iv) of this section only if:

(i) The banking entity acting as sponsor, or engaging as principal in the acquisition or retention of an ownership interest in the covered fund, is not itself, and is not controlled directly or indirectly by, a banking entity that is located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to acquire or retain the ownership interest or act as sponsor to the covered fund is not located in the United States or organized under the laws of the United States or of any State; and

(iii) The investment or sponsorship, including any transaction arising from risk-mitigating hedging related to an ownership interest, is not accounted for as principal directly or indirectly on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

* * * * *

(c) Permitted covered fund interests and activities by a regulated insurance company. The prohibition contained in § 255.10(a) of this subpart does not apply to the acquisition or retention by an insurance company, or an affiliate thereof, of any ownership interest in, or the sponsorship of, a covered fund only if:

(1) The insurance company or its affiliate acquires and retains the ownership interest solely for the general account of the insurance company or for one or more separate accounts established by the insurance company;

(2) The acquisition and retention of the ownership interest is conducted in compliance with, and subject to, the insurance company investment laws and regulations of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law or regulation described in paragraph (c)(2) of this section is insufficient to protect the safety and soundness of the banking entity, or the financial stability of the United States.

■ 70. Section 255.14 is amended by revising paragraph (a)(2)(ii)(B) to read as follows:

§ 255.14 Limitations on relationships with a covered fund.

(a) * * *

(2) * * *

(ii) * * *

(B) The chief executive officer (or equivalent officer) of the banking entity certifies in writing annually no later than March 31 to the SEC (with a duty to update the certification if the information in the certification materially changes) that the banking entity does not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests; and

* * * * *

Subpart D—Compliance Program Requirement; Violations

■ 71. Section 255.20 is amended by eevising paragraphs (a), (b) introductory text, (c), (d), (e) introductory text, and (f)(2) and adding paragraphs (g), (h) and (i) to read as follows:

§ 255.20 Program for compliance; reporting.

(a) *Program requirement.* Each banking entity (other than a banking entity with limited trading assets and liabilities) shall develop and provide for the continued administration of a compliance program reasonably designed to ensure and monitor compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part. The terms, scope, and detail of the compliance program shall be appropriate for the types, size, scope, and complexity of activities and business structure of the banking entity.

(b) *Banking entities with significant trading assets and liabilities.* With respect to a banking entity with significant trading assets and liabilities, the compliance program required by paragraph (a) of this section, at a minimum, shall include:

* * * * *

(c) *CEO attestation.* The CEO of a banking entity that has significant trading assets and liabilities must, based on a review by the CEO of the banking entity, attest in writing to the SEC, each year no later than March 31, that the banking entity has in place processes to establish, maintain, enforce, review, test and modify the compliance program required by paragraph (b) of this section in a manner reasonably designed to achieve compliance with section 13 of the BHC Act and this part. In the case of a U.S. branch or agency of a foreign banking entity, the attestation may be provided for the entire U.S. operations of the foreign banking entity by the senior management officer of the U.S. operations of the foreign banking entity who is located in the United States.

(d) *Reporting requirements under appendix A to this part.* (1) A banking entity engaged in proprietary trading activity permitted under subpart B of this part shall comply with the reporting requirements described in appendix A to this part, if:

(i) The banking entity has significant trading assets and liabilities; or

(ii) The SEC notifies the banking entity in writing that it must satisfy the reporting requirements contained in appendix A to this part.

(2) Frequency of reporting: Unless the SEC notifies the banking entity in writing that it must report on a different basis, a banking entity subject to appendix A to this part shall report the information required by appendix A for each quarter within 30 days of the end of the quarter.

(e) *Additional documentation for covered funds.* A banking entity with significant trading assets and liabilities shall maintain records that include:

* * * * *

(f) * * *

(2) *Banking entities with moderate trading assets and liabilities.* A banking entity with moderate trading assets and liabilities may satisfy the requirements of this section by including in its existing compliance policies and procedures appropriate references to the requirements of section 13 of the BHC Act and this part and adjustments as appropriate given the activities, size, scope, and complexity of the banking entity.

(g) *Rebuttable presumption of compliance for banking entities with limited trading assets and liabilities*—(1) *Rebuttable presumption.* Except as otherwise provided in this paragraph, a banking entity with limited trading assets and liabilities shall be presumed to be compliant with subpart B and subpart C of this part and shall have no obligation to demonstrate compliance with this part on an ongoing basis.

(2) *Rebuttal of presumption.* If upon examination or audit, the SEC determines that the banking entity has engaged in proprietary trading or covered fund activities that are otherwise prohibited under subpart B or subpart C of this part, the SEC may require the banking entity to be treated under this part as if it did not have limited trading assets and liabilities. The SEC's rebuttal of the presumption in this paragraph must be made in accordance with the notice and response procedures in paragraph (i) of this section.

(h) *Reservation of authority.* Notwithstanding any other provision of this part, the SEC retains its authority to require a banking entity without significant trading assets and liabilities to apply any requirements of this part that would otherwise apply if the banking entity had significant or moderate trading assets and liabilities if the SEC determines that the size or complexity of the banking entity's trading or investment activities, or the risk of evasion of subpart B or subpart C of this part, does not warrant a presumption of compliance under paragraph (g) of this section or treatment as a banking entity with moderate trading assets and liabilities, as applicable. The SEC's exercise of this reservation of authority must be made in accordance with the notice and response procedures in paragraph (i) of this section.

(i) *Notice and response procedures*—(1) *Notice.* The SEC will notify the banking entity in writing of any determination requiring notice under this part and will provide an explanation of the determination.

(2) *Response.* The banking entity may respond to any or all items in the notice described in paragraph (i)(1) of this section. The response should include any matters that the banking entity would have the SEC consider in deciding whether to make the determination. The response must be in writing and delivered to the designated SEC official within 30 days after the date on which the banking entity received the notice. The SEC may shorten the time period when, in the opinion of the SEC, the activities or condition of the banking entity so requires, provided that the banking entity is informed of the time period at the time of notice, or with the consent of the banking entity. In its discretion, the SEC may extend the time period for good cause.

(3) *Waiver.* Failure to respond within 30 days or such other time period as may be specified by the SEC shall constitute a waiver of any objections to the SEC's determination.

(4) *Decision.* The SEC will notify the banking entity of the decision in writing. The notice will include an explanation of the decision.

■ 72. Revise appendix A to part 255 to read as follows:

Appendix A to Part 255—Reporting and Recordkeeping Requirements for Covered Trading Activities

I. Purpose

a. This appendix sets forth reporting and recordkeeping requirements that certain banking entities must satisfy in connection with the restrictions on proprietary trading set forth in subpart B (''proprietary trading restrictions''). Pursuant to § 255.20(d), this appendix applies to a banking entity that, together with its affiliates and subsidiaries, has significant trading assets and liabilities. These entities are required to (i) furnish periodic reports to the SEC regarding a variety of quantitative measurements of their covered trading activities, which vary depending on the scope and size of covered trading activities, and (ii) create and maintain records documenting the preparation and content of these reports. The requirements of this appendix must be incorporated into the banking entity's internal compliance program under § 255.20.

b. The purpose of this appendix is to assist banking entities and the SEC in:

(1) Better understanding and evaluating the scope, type, and profile of the banking entity's covered trading activities;

(2) Monitoring the banking entity's covered trading activities;

(3) Identifying covered trading activities that warrant further review or examination by the banking entity to verify compliance with the proprietary trading restrictions;

(4) Evaluating whether the covered trading activities of trading desks engaged in market making-related activities subject to § 255.4(b) are consistent with the requirements governing permitted market making-related activities;

(5) Evaluating whether the covered trading activities of trading desks that are engaged in permitted trading activity subject to § 255.4, § 255.5, or § 255.6(a) and (b) (*i.e.,* underwriting and market making-related activity, risk-mitigating hedging, or trading in certain government obligations) are consistent with the requirement that such activity not result, directly or indirectly, in a material exposure to high-risk assets or high-risk trading strategies;

(6) Identifying the profile of particular covered trading activities of the banking entity, and the individual trading desks of the banking entity, to help establish the appropriate frequency and scope of examination by SEC of such activities; and

(7) Assessing and addressing the risks associated with the banking entity's covered trading activities.

c. Information that must be furnished pursuant to this appendix is not intended to serve as a dispositive tool for the identification of permissible or impermissible activities.

d. In addition to the quantitative measurements required in this appendix, a banking entity may need to develop and implement other quantitative measurements in order to effectively monitor its covered trading activities for compliance with section 13 of the BHC Act and this part and to have an effective compliance program, as required by § 255.20. The effectiveness of particular quantitative measurements may differ based on the profile of the banking entity's businesses in general and, more specifically, of the particular trading desk, including types of instruments traded, trading activities and strategies, and history and experience (*e.g.,* whether the trading desk is an established, successful market maker or a new entrant to a competitive market). In all cases, banking entities must ensure that they have robust measures in place to identify and monitor the risks taken in their trading activities, to ensure that the activities are within risk tolerances established by the banking entity, and to monitor and examine for compliance with the proprietary trading restrictions in this part.

e. On an ongoing basis, banking entities must carefully monitor, review, and evaluate all furnished quantitative measurements, as well as any others that they choose to utilize in order to maintain compliance with section 13 of the BHC Act and this part. All measurement results that indicate a heightened risk of impermissible proprietary trading, including with respect to otherwise-permitted activities under §§ 255.4 through 255.6(a) and (b), or that result in a material exposure to high-risk assets or high-risk trading strategies, must be escalated within the banking entity for review, further analysis, explanation to SEC, and remediation, where appropriate. The quantitative measurements discussed in this appendix should be helpful to banking entities in identifying and managing the risks related to their covered trading activities.

II. Definitions

The terms used in this appendix have the same meanings as set forth in §§ 255.2 and 255.3. In addition, for purposes of this appendix, the following definitions apply:

Applicability identifies the trading desks for which a banking entity is required to calculate and report a particular quantitative measurement based on the type of covered trading activity conducted by the trading desk.

Calculation period means the period of time for which a particular quantitative measurement must be calculated.

Comprehensive profit and loss means the net profit or loss of a trading desk's material sources of trading revenue over a specific period of time, including, for example, any increase or decrease in the market value of a trading desk's holdings, dividend income, and interest income and expense.

Covered trading activity means trading conducted by a trading desk under § 255.4, § 255.5, § 255.6(a), or § 255.6(b). A banking entity may include in its covered trading activity trading conducted under § 255.3(d), § 255.6(c), § 255.6(d), or § 255.6(e).

Measurement frequency means the frequency with which a particular quantitative metric must be calculated and recorded.

Trading day means a calendar day on which a trading desk is open for trading.

III. Reporting and Recordkeeping

a. Scope of Required Reporting

1. Quantitative measurements. Each banking entity made subject to this appendix by § 255.20 must furnish the following quantitative measurements, as applicable, for each trading desk of the banking entity engaged in covered trading activities and calculate these quantitative measurements in accordance with this appendix:

i. Internal Limits and Usage;

ii. Value-at-Risk;

iii. Comprehensive Profit and Loss Attribution;

iv. Positions; and

v. Transaction Volumes.

2. Trading desk information. Each banking entity made subject to this appendix by § 255.20 must provide certain descriptive information, as further described in this appendix, regarding each trading desk engaged in covered trading activities.

3. Quantitative measurements identifying information. Each banking entity made subject to this appendix by § 255.20 must provide certain identifying and descriptive information, as further described in this appendix, regarding its quantitative measurements.

4. Narrative statement. Each banking entity made subject to this appendix by § 255.20 may provide an optional narrative statement, as further described in this appendix.

5. File identifying information. Each banking entity made subject to this appendix by § 255.20 must provide file identifying information in each submission to the SEC pursuant to this appendix, including the name of the banking entity, the RSSD ID assigned to the top-tier banking entity by the Board, and identification of the reporting period and creation date and time.

b. Trading Desk Information

1. Each banking entity must provide descriptive information regarding each trading desk engaged in covered trading activities, including:

i. Name of the trading desk used internally by the banking entity and a unique identification label for the trading desk;

ii. Identification of each type of covered trading activity in which the trading desk is engaged;

iii. Brief description of the general strategy of the trading desk;

v. A list identifying each Agency receiving the submission of the trading desk;

2. Indication of whether each calendar date is a trading day or not a trading day for the trading desk; and

3. Currency reported and daily currency conversion rate.

c. Quantitative Measurements Identifying Information

Each banking entity must provide the following information regarding the quantitative measurements:

1. An Internal Limits Information Schedule that provides identifying and descriptive information for each limit reported pursuant to the Internal Limits and Usage quantitative measurement, including the name of the limit, a unique identification label for the limit, a description of the limit, the unit of measurement for the limit, the type of limit, and identification of the corresponding risk factor attribution in the particular case that the limit type is a limit on a risk factor sensitivity and profit and loss attribution to the same risk factor is reported; and

2. A Risk Factor Attribution Information Schedule that provides identifying and descriptive information for each risk factor attribution reported pursuant to the Comprehensive Profit and Loss Attribution quantitative measurement, including the name of the risk factor or other factor, a unique identification label for the risk factor or other factor, a description of the risk factor or other factor, and the risk factor or other factor's change unit.

d. Narrative Statement

Each banking entity made subject to this appendix by § 255.20 may submit in a separate electronic document a Narrative Statement to the SEC with any information the banking entity views as relevant for assessing the information reported. The Narrative Statement may include further description of or changes to calculation methods, identification of material events, description of and reasons for changes in the banking entity's trading desk structure or trading desk strategies, and when any such changes occurred.

e. Frequency and Method of Required Calculation and Reporting

A banking entity must calculate any applicable quantitative measurement for each trading day. A banking entity must report the Trading Desk Information, the Quantitative Measurements Identifying Information, and each applicable quantitative measurement electronically to the SEC on the reporting schedule established in § 255.20 unless otherwise requested by the SEC. A banking entity must report the Trading Desk Information, the Quantitative Measurements Identifying Information, and each applicable quantitative measurement to the SEC in accordance with the XML Schema specified and published on the SEC's website.

f. Recordkeeping

A banking entity must, for any quantitative measurement furnished to the SEC pursuant to this appendix and § 255.20(d), create and maintain records documenting the preparation and content of these reports, as well as such information as is necessary to permit the SEC to verify the accuracy of such reports, for a period of five years from the end of the calendar year for which the measurement was taken. A banking entity must retain the Narrative Statement, the Trading Desk Information, and the Quantitative Measurements Identifying Information for a period of five years from the end of the calendar year for which the information was reported to the SEC.

IV. Quantitative Measurements

a. Risk-Management Measurements

1. Internal Limits and Usage

i. *Description:* For purposes of this appendix, Internal Limits are the constraints that define the amount of risk and the positions that a trading desk is permitted to take at a point in time, as defined by the banking entity for a specific trading desk. Usage represents the value of the trading desk's risk or positions that are accounted for by the current activity of the desk. Internal limits and their usage are key compliance and risk management tools used to control and monitor risk taking and include, but are not limited to, the limits set out in §§ 255.4 and 255.5. A trading desk's risk limits, commonly including a limit on ''Value-at-Risk,'' are useful in the broader context of the trading desk's overall activities, particularly for the market making activities under § 255.4(b) and hedging activity under § 255.5. Accordingly, the limits required under §§ 255.4(b)(2)(iii)(C) and 255.5(b)(1)(i)(A) must meet the applicable requirements under §§ 255.4(b)(2)(iii)(C) and 255.5(b)(1)(i)(A) and also must include appropriate metrics for the trading desk limits including, at a minimum, ''Value-at-Risk'' except to the extent the ''Value-at-Risk'' metric is demonstrably ineffective for measuring and monitoring the risks of a trading desk based on the types of positions traded by, and risk exposures of, that desk.

A. A banking entity must provide the following information for each limit reported pursuant to this quantitative measurement: The unique identification label for the limit reported in the Internal Limits Information Schedule, the limit size (distinguishing between an upper and a lower limit), and the value of usage of the limit.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

2. Value-at-Risk

i. *Description:* For purposes of this appendix, Value-at-Risk (''VaR'') is the measurement of the risk of future financial loss in the value of a trading desk's aggregated positions at the ninety-nine percent confidence level over a one-day period, based on current market conditions.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

b. Source-of-Revenue Measurements

1. Comprehensive Profit and Loss Attribution

i. *Description:* For purposes of this appendix, Comprehensive Profit and Loss Attribution is an analysis that attributes the daily fluctuation in the value of a trading desk's positions to various sources. First, the daily profit and loss of the aggregated positions is divided into two categories: (i) Profit and loss attributable to a trading desk's existing positions that were also positions held by the trading desk as of the end of the prior day (''existing positions''); and (ii) profit and loss attributable to new positions resulting from the current day's trading activity (''new positions'').

A. The comprehensive profit and loss associated with existing positions must reflect changes in the value of these positions on the applicable day. The comprehensive profit and loss from existing positions must be further attributed, as applicable, to (i) changes in the specific risk factors and other factors that are monitored and managed as part of the trading desk's overall risk management policies and procedures; and (ii) any other applicable elements, such as cash flows, carry, changes in reserves, and the correction, cancellation, or exercise of a trade.

B. For the attribution of comprehensive profit and loss from existing positions to specific risk factors and other factors, a banking entity must provide the following information for the factors that explain the preponderance of the profit or loss changes due to risk factor changes: The unique identification label for the risk factor or other factor listed in the Risk Factor Attribution Information Schedule, and the profit or loss due to the risk factor or other factor change.

C. The comprehensive profit and loss attributed to new positions must reflect commissions and fee income or expense and market gains or losses associated with transactions executed on the applicable day. New positions include purchases and sales of financial instruments and other assets/liabilities and negotiated amendments to existing positions. The comprehensive profit and loss from new positions may be reported in the aggregate and does not need to be further attributed to specific sources.

D. The portion of comprehensive profit and loss from existing positions that is not attributed to changes in specific risk factors and other factors must be allocated to a residual category. Significant unexplained profit and loss must be escalated for further investigation and analysis.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks engaged in covered trading activities.

c. Positions and Transaction Volumes Measurements

1. Positions

i. *Description:* For purposes of this appendix, Positions is the value of securities and derivatives positions managed by the trading desk. For purposes of the Positions quantitative measurement, do not include in the Positions calculation for ''securities'' those securities that are also ''derivatives,'' as those terms are defined under subpart A; instead, report those securities that are also derivatives as ''derivatives.''[1] A banking entity must separately report the trading desk's market value of long securities positions, short securities positions, derivatives receivables, and derivatives payables.

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks that rely on § 255.4(a) or (b) to conduct underwriting activity or market-making-related activity, respectively.

2. Transaction Volumes

i. *Description:* For purposes of this appendix, Transaction Volumes measures three exclusive categories of covered trading activity conducted by a trading desk. A banking entity is required to report the value and number of security and derivative transactions conducted by the trading desk with: (i) Customers, excluding internal transactions; (ii) non-customers, excluding internal transactions; and (iii) trading desks and other organizational units where the transaction is booked into either the same banking entity or an affiliated banking entity. For securities, value means gross market value. For derivatives, value means gross notional value. For purposes of calculating the Transaction Volumes quantitative measurement, do not include in the Transaction Volumes calculation for ''securities'' those securities that are also ''derivatives,'' as those terms are defined under subpart A; instead, report those securities that are also derivatives as ''derivatives.''[2] Further, for purposes of the Transaction Volumes quantitative measurement, a customer of a trading desk that relies on § 255.4(a) to conduct underwriting activity is a market participant identified in § 255.4(a)(7), and a customer of a trading desk that relies on § 255.4(b) to conduct market making-related activity is a market participant identified in § 255.4(b)(3).

ii. *Calculation Period:* One trading day.

iii. *Measurement Frequency:* Daily.

iv. *Applicability:* All trading desks that rely on § 255.4(a) or (b) to conduct underwriting activity or market-making-related activity, respectively.

Appendix B to Part 255 [Removed]

■ 73. Appendix B to part 255 is removed.

[1] *See* § 255.2(h), (aa). For example, under this part, a security-based swap is both a ''security'' and a ''derivative.'' For purposes of the Positions quantitative measurement, security-based swaps are reported as derivatives rather than securities.

[2] *See* § 255.2(h), (aa).

■ 74. Effective January 1, 2020, until December 31, 2020, appendix Z to part 255 is added to read as follows:

Appendix Z to Part 255—Proprietary Trading and Certain Interests in and Relationships With Covered Funds (Alternative Compliance)

Note: The content of this appendix reproduces the regulation implementing Section 13 of the Bank Holding Company Act as of November 13, 2019.

Subpart A—Authority and Definitions

§ 255.1 Authority, purpose, scope, and relationship to other authorities.

(a) *Authority.* This part is issued by the SEC under section 13 of the Bank Holding Company Act of 1956, as amended (12 U.S.C. 1851).

(b) *Purpose.* Section 13 of the Bank Holding Company Act establishes prohibitions and restrictions on proprietary trading and investments in or relationships with covered funds by certain banking entities, including registered broker-dealers, registered investment advisers, and registered security-based swap dealers, among others identified in section 2(12)(B) of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (12 U.S.C. 5301(12)(B)). This part implements section 13 of the Bank Holding Company Act by defining terms used in the statute and related terms, establishing prohibitions and restrictions on proprietary trading and investments in or relationships with covered funds, and explaining the statute's requirements.

(c) *Scope.* This part implements section 13 of the Bank Holding Company Act with respect to banking entities for which the SEC is the primary financial regulatory agency, as defined in this part, but does not include such entities to the extent they are not within the definition of banking entity in § 255.2(c).

(d) *Relationship to other authorities.* Except as otherwise provided under section 13 of the Bank Holding Company Act, and notwithstanding any other provision of law, the prohibitions and restrictions under section 13 of Bank Holding Company Act shall apply to the activities and investments of a banking entity identified in paragraph (c) of this section, even if such activities and investments are authorized for the banking entity under other applicable provisions of law.

(e) *Preservation of authority.* Nothing in this part limits in any way the authority of the SEC to impose on a banking entity identified in paragraph (c) of this section additional requirements or restrictions with respect to any activity, investment, or relationship covered under section 13 of the Bank Holding Company Act or this part, or additional penalties for violation of this part provided under any other applicable provision of law.

§ 255.2 Definitions.

Unless otherwise specified, for purposes of this part:

(a) *Affiliate* has the same meaning as in section 2(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(k)).

(b) *Bank holding company* has the same meaning as in section 2 of the Bank Holding Company Act of 1956 (12 U.S.C. 1841).

(c) *Banking entity.* (1) Except as provided in paragraph (c)(2) of this section, *banking entity* means:

(i) Any insured depository institution;

(ii) Any company that controls an insured depository institution;

(iii) Any company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(iv) Any affiliate or subsidiary of any entity described in paragraphs (c)(1)(i), (ii), or (iii) of this section.

(2) Banking entity does not include:

(i) A covered fund that is not itself a banking entity under paragraphs (c)(1)(i), (ii), or (iii) of this section;

(ii) A portfolio company held under the authority contained in section 4(k)(4)(H) or (I) of the BHC Act (12 U.S.C. 1843(k)(4)(H), (I)), or any portfolio concern, as defined under 13 CFR 107.50, that is controlled by a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), so long as the portfolio company or portfolio concern is not itself a banking entity under paragraphs (c)(1)(i), (ii), or (iii) of this section; or

(iii) The FDIC acting in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(d) *Board* means the Board of Governors of the Federal Reserve System.

(e) *CFTC* means the Commodity Futures Trading Commission.

(f) *Dealer* has the same meaning as in section 3(a)(5) of the Exchange Act (15 U.S.C. 78c(a)(5)).

(g) *Depository institution* has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)).

(h) *Derivative.* (1) Except as provided in paragraph (h)(2) of this section, *derivative* means:

(i) Any swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68));

(ii) Any purchase or sale of a commodity, that is not an excluded commodity, for deferred shipment or delivery that is intended to be physically settled;

(iii) Any foreign exchange forward (as that term is defined in section 1a(24) of the Commodity Exchange Act (7 U.S.C. 1a(24)) or foreign exchange swap (as that term is defined in section 1a(25) of the Commodity Exchange Act (7 U.S.C. 1a(25));

(iv) Any agreement, contract, or transaction in foreign currency described in section 2(c)(2)(C)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(C)(i));

(v) Any agreement, contract, or transaction in a commodity other than foreign currency described in section 2(c)(2)(D)(i) of the Commodity Exchange Act (7 U.S.C. 2(c)(2)(D)(i)); and

(vi) Any transaction authorized under section 19 of the Commodity Exchange Act (7 U.S.C. 23(a) or (b));

(2) A derivative does not include:

(i) Any consumer, commercial, or other agreement, contract, or transaction that the CFTC and the SEC have further defined by joint regulation, interpretation, guidance, or other action as not within the definition of swap, as that term is defined in section 1a(47) of the Commodity Exchange Act (7 U.S.C. 1a(47)), or security-based swap, as that term is defined in section 3(a)(68) of the Exchange Act (15 U.S.C. 78c(a)(68)); or

(ii) Any identified banking product, as defined in section 402(b) of the Legal Certainty for Bank Products Act of 2000 (7 U.S.C. 27(b)), that is subject to section 403(a) of that Act (7 U.S.C. 27a(a)).

(i) *Employee* includes a member of the immediate family of the employee.

(j) *Exchange Act* means the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

(k) *Excluded commodity* has the same meaning as in section 1a(19) of the Commodity Exchange Act (7 U.S.C. 1a(19)).

(l) *FDIC* means the Federal Deposit Insurance Corporation.

(m) *Federal banking agencies* means the Board, the Office of the Comptroller of the Currency, and the FDIC.

(n) *Foreign banking organization* has the same meaning as in section 211.21(o) of the Board's Regulation K (12 CFR 211.21(o)), but does not include a foreign bank, as defined in section 1(b)(7) of the International Banking Act of 1978 (12 U.S.C. 3101(7)), that is organized under the laws of the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, or the Commonwealth of the Northern Mariana Islands.

(o) *Foreign insurance regulator* means the insurance commissioner, or a similar official or agency, of any country other than the United States that is engaged in the supervision of insurance companies under foreign insurance law.

(p) *General account* means all of the assets of an insurance company except those allocated to one or more separate accounts.

(q) *Insurance company* means a company that is organized as an insurance company, primarily and predominantly engaged in writing insurance or reinsuring risks underwritten by insurance companies, subject to supervision as such by a state insurance regulator or a foreign insurance regulator, and not operated for the purpose of evading the provisions of section 13 of the BHC Act (12 U.S.C. 1851).

(r) *Insured depository institution,* unless otherwise indicated, has the same meaning as in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c)), but does not include:

(1) An insured depository institution that is described in section 2(c)(2)(D) of the BHC Act (12 U.S.C. 1841(c)(2)(D)); or

(2) An insured depository institution if it has, and if every company that controls it has, total consolidated assets of $10 billion or less and total trading assets and trading liabilities, on a consolidated basis, that are 5 percent or less of total consolidated assets.

(s) *Loan* means any loan, lease, extension of credit, or secured or unsecured receivable that is not a security or derivative.

(t) *Primary financial regulatory agency* has the same meaning as in section 2(12) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (12 U.S.C. 5301(12)).

(u) *Purchase* includes any contract to buy, purchase, or otherwise acquire. For security futures products, purchase includes any contract, agreement, or transaction for future delivery. With respect to a commodity future, purchase includes any contract, agreement, or transaction for future delivery. With respect to a derivative, purchase includes the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(v) *Qualifying foreign banking organization* means a foreign banking organization that qualifies as such under section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c), or (e)).

(w) *SEC* means the Securities and Exchange Commission.

(x) *Sale* and *sell* each include any contract to sell or otherwise dispose of. For security futures products, such terms include any contract, agreement, or transaction for future delivery. With respect to a commodity future, such terms include any contract, agreement, or transaction for future delivery. With respect to a derivative, such terms include the execution, termination (prior to its scheduled maturity date), assignment, exchange, or similar transfer or conveyance of, or extinguishing of rights or obligations under, a derivative, as the context may require.

(y) *Security* has the meaning specified in section 3(a)(10) of the Exchange Act (15 U.S.C. 78c(a)(10)).

(z) *Security-based swap dealer* has the same meaning as in section 3(a)(71) of the Exchange Act (15 U.S.C. 78c(a)(71)).

(aa) *Security future* has the meaning specified in section 3(a)(55) of the Exchange Act (15 U.S.C. 78c(a)(55)).

(bb) *Separate account* means an account established and maintained by an insurance company in connection with one or more insurance contracts to hold assets that are legally segregated from the insurance company's other assets, under which income, gains, and losses, whether or not realized, from assets allocated to such account, are, in accordance with the applicable contract, credited to or charged against such account without regard to other income, gains, or losses of the insurance company.

(cc) *State* means any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

(dd) *Subsidiary* has the same meaning as in section 2(d) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(d)).

(ee) *State insurance regulator* means the insurance commissioner, or a similar official or agency, of a State that is engaged in the supervision of insurance companies under State insurance law.

(ff) *Swap dealer* has the same meaning as in section 1(a)(49) of the Commodity Exchange Act (7 U.S.C. 1a(49)).

Subpart B—Proprietary Trading

§ 255.3 Prohibition on proprietary trading.

(a) *Prohibition.* Except as otherwise provided in this subpart, a banking entity may not engage in proprietary trading. *Proprietary trading* means engaging as principal for the trading account of the banking entity in any purchase or sale of one or more financial instruments.

(b) *Definition of trading account.* (1) Trading account means any account that is used by a banking entity to:

(i) Purchase or sell one or more financial instruments principally for the purpose of:

(A) Short-term resale;

(B) Benefitting from actual or expected short-term price movements;

(C) Realizing short-term arbitrage profits; or

(D) Hedging one or more positions resulting from the purchases or sales of financial instruments described in paragraphs (b)(1)(i)(A), (B), or (C) of this section;

(ii) Purchase or sell one or more financial instruments that are both market risk capital rule covered positions and trading positions (or hedges of other market risk capital rule covered positions), if the banking entity, or any affiliate of the banking entity, is an insured depository institution, bank holding company, or savings and loan holding company, and calculates risk-based capital ratios under the market risk capital rule; or

(iii) Purchase or sell one or more financial instruments for any purpose, if the banking entity:

(A) Is licensed or registered, or is required to be licensed or registered, to engage in the business of a dealer, swap dealer, or security-based swap dealer, to the extent the instrument is purchased or sold in connection with the activities that require the banking entity to be licensed or registered as such; or

(B) Is engaged in the business of a dealer, swap dealer, or security-based swap dealer outside of the United States, to the extent the instrument is purchased or sold in connection with the activities of such business.

(2) *Rebuttable presumption for certain purchases and sales.* The purchase (or sale) of a financial instrument by a banking entity shall be presumed to be for the trading account of the banking entity under paragraph (b)(1)(i) of this section if the banking entity holds the financial instrument for fewer than sixty days or substantially transfers the risk of the financial instrument within sixty days of the purchase (or sale), unless the banking entity can demonstrate, based on all relevant facts and circumstances, that the banking entity did not purchase (or sell) the financial instrument principally for any of the purposes described in paragraph (b)(1)(i) of this section.

(c) *Financial instrument.* (1) *Financial instrument* means:

(i) A security, including an option on a security;

(ii) A derivative, including an option on a derivative; or

(iii) A contract of sale of a commodity for future delivery, or option on a contract of sale of a commodity for future delivery.

(2) A financial instrument does not include:

(i) A loan;

(ii) A commodity that is not:

(A) An excluded commodity (other than foreign exchange or currency);

(B) A derivative;

(C) A contract of sale of a commodity for future delivery; or

(D) An option on a contract of sale of a commodity for future delivery; or

(iii) Foreign exchange or currency.

(d) *Proprietary trading.* Proprietary trading does not include:

(1) Any purchase or sale of one or more financial instruments by a banking entity that arises under a repurchase or reverse repurchase agreement pursuant to which the banking entity has simultaneously agreed, in writing, to both purchase and sell a stated asset, at stated prices, and on stated dates or on demand with the same counterparty;

(2) Any purchase or sale of one or more financial instruments by a banking entity that arises under a transaction in which the banking entity lends or borrows a security temporarily to or from another party pursuant to a written securities lending agreement under which the lender retains the economic interests of an owner of such security, and has the right to terminate the transaction and to recall the loaned security on terms agreed by the parties;

(3) Any purchase or sale of a security by a banking entity for the purpose of liquidity management in accordance with a documented liquidity management plan of the banking entity that:

(i) Specifically contemplates and authorizes the particular securities to be used for liquidity management purposes, the amount, types, and risks of these securities that are consistent with liquidity management, and the liquidity circumstances in which the particular securities may or must be used;

(ii) Requires that any purchase or sale of securities contemplated and authorized by the plan be principally for the purpose of managing the liquidity of the banking entity, and not for the purpose of short-term resale, benefitting from actual or expected short-term price movements, realizing short-term arbitrage profits, or hedging a position taken for such short-term purposes;

(iii) Requires that any securities purchased or sold for liquidity management purposes be highly liquid and limited to securities the market, credit, and other risks of which the banking entity does not reasonably expect to give rise to appreciable profits or losses as a result of short-term price movements;

(iv) Limits any securities purchased or sold for liquidity management purposes, together with any other instruments purchased or sold for such purposes, to an amount that is consistent with the banking entity's near-term funding needs, including deviations from normal operations of the banking entity or any affiliate thereof, as estimated and documented pursuant to methods specified in the plan;

(v) Includes written policies and procedures, internal controls, analysis, and independent testing to ensure that the purchase and sale of securities that are not permitted under §§ 255.6(a) or (b) of this subpart are for the purpose of liquidity management and in accordance with the liquidity management plan described in paragraph (d)(3) of this section; and

(vi) Is consistent with the SEC's supervisory requirements, guidance, and expectations regarding liquidity management;

(4) Any purchase or sale of one or more financial instruments by a banking entity that is a derivatives clearing organization or a clearing agency in connection with clearing financial instruments;

(5) Any excluded clearing activities by a banking entity that is a member of a clearing agency, a member of a derivatives clearing organization, or a member of a designated financial market utility;

(6) Any purchase or sale of one or more financial instruments by a banking entity, so long as:

(i) The purchase (or sale) satisfies an existing delivery obligation of the banking entity or its customers, including to prevent or close out a failure to deliver, in connection with delivery, clearing, or settlement activity; or

(ii) The purchase (or sale) satisfies an obligation of the banking entity in connection with a judicial, administrative, self-regulatory organization, or arbitration proceeding;

(7) Any purchase or sale of one or more financial instruments by a banking entity that is acting solely as agent, broker, or custodian;

(8) Any purchase or sale of one or more financial instruments by a banking entity through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity that is established and administered in accordance with the law of the United States or a foreign sovereign, if the purchase or sale is made directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity; or

(9) Any purchase or sale of one or more financial instruments by a banking entity in the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the financial instrument as soon as practicable, and in no event may the banking entity retain such instrument for longer than such period permitted by the SEC.

(e) *Definition of other terms related to proprietary trading.* For purposes of this subpart:

(1) *Anonymous* means that each party to a purchase or sale is unaware of the identity of the other party(ies) to the purchase or sale.

(2) *Clearing agency* has the same meaning as in section 3(a)(23) of the Exchange Act (15 U.S.C. 78c(a)(23)).

(3) *Commodity* has the same meaning as in section 1a(9) of the Commodity Exchange Act (7 U.S.C. 1a(9)), except that a commodity does not include any security;

(4) *Contract of sale of a commodity for future delivery* means a contract of sale (as that term is defined in section 1a(13) of the Commodity Exchange Act (7 U.S.C. 1a(13)) for future delivery (as that term is defined in section 1a(27) of the Commodity Exchange Act (7 U.S.C. 1a(27))).

(5) *Derivatives clearing organization* means:

(i) A derivatives clearing organization registered under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1);

(ii) A derivatives clearing organization that, pursuant to CFTC regulation, is exempt from the registration requirements under section 5b of the Commodity Exchange Act (7 U.S.C. 7a–1); or

(iii) A foreign derivatives clearing organization that, pursuant to CFTC regulation, is permitted to clear for a foreign board of trade that is registered with the CFTC.

(6) *Exchange,* unless the context otherwise requires, means any designated contract market, swap execution facility, or foreign board of trade registered with the CFTC, or, for purposes of securities or security-based swaps, an exchange, as defined under section 3(a)(1) of the Exchange Act (15 U.S.C. 78c(a)(1)), or security-based swap execution facility, as defined under section 3(a)(77) of the Exchange Act (15 U.S.C. 78c(a)(77)).

(7) *Excluded clearing activities* means:

(i) With respect to customer transactions cleared on a derivatives clearing organization, a clearing agency, or a designated financial market utility, any purchase or sale necessary to correct trading errors made by or on behalf of a customer provided that such purchase or sale is conducted in accordance with, for transactions cleared on a derivatives clearing organization, the Commodity Exchange Act, CFTC regulations, and the rules or procedures of the derivatives clearing organization, or, for transactions cleared on a clearing agency, the rules or procedures of the clearing agency, or, for transactions cleared on a designated financial market utility that is neither a derivatives clearing organization nor a clearing agency, the rules or procedures of the designated financial market utility;

(ii) Any purchase or sale in connection with and related to the management of a default or threatened imminent default of a customer provided that such purchase or sale is conducted in accordance with, for transactions cleared on a derivatives clearing organization, the Commodity Exchange Act, CFTC regulations, and the rules or procedures of the derivatives clearing organization, or, for transactions cleared on a clearing agency, the rules or procedures of the clearing agency, or, for transactions cleared on a designated financial market utility that is neither a derivatives clearing organization nor a clearing agency, the rules or procedures of the designated financial market utility;

(iii) Any purchase or sale in connection with and related to the management of a default or threatened imminent default of a member of a clearing agency, a member of a derivatives clearing organization, or a member of a designated financial market utility;

(iv) Any purchase or sale in connection with and related to the management of the default or threatened default of a clearing agency, a derivatives clearing organization, or a designated financial market utility; and

(v) Any purchase or sale that is required by the rules or procedures of a clearing agency, a derivatives clearing organization, or a designated financial market utility to mitigate the risk to the clearing agency, derivatives clearing organization, or designated financial market utility that would result from the clearing by a member of security-based swaps that reference the member or an affiliate of the member.

(8) *Designated financial market utility* has the same meaning as in section 803(4) of the Dodd-Frank Act (12 U.S.C. 5462(4)).

(9) *Issuer* has the same meaning as in section 2(a)(4) of the Securities Act of 1933 (15 U.S.C. 77b(a)(4)).

(10) *Market risk capital rule covered position and trading position* means a financial instrument that is both a covered position and a trading position, as those terms are respectively defined:

(i) In the case of a banking entity that is a bank holding company, savings and loan holding company, or insured depository institution, under the market risk capital rule that is applicable to the banking entity; and

(ii) In the case of a banking entity that is affiliated with a bank holding company or savings and loan holding company, other than a banking entity to which a market risk capital rule is applicable, under the market risk capital rule that is applicable to the affiliated bank holding company or savings and loan holding company.

(11) *Market risk capital rule* means the market risk capital rule that is contained in subpart F of 12 CFR part 3, 12 CFR parts 208 and 225, or 12 CFR part 324, as applicable.

(12) *Municipal security* means a security that is a direct obligation of or issued by, or an obligation guaranteed as to principal or interest by, a State or any political subdivision thereof, or any agency or instrumentality of a State or any political subdivision thereof, or any municipal corporate instrumentality of one or more States or political subdivisions thereof.

(13) *Trading desk* means the smallest discrete unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof.

§ 255.4 Permitted underwriting and market making-related activities.

(a) *Underwriting activities*—(1) *Permitted underwriting activities.* The prohibition contained in § 255.3(a) does not apply to a banking entity's underwriting activities conducted in accordance with this paragraph (a).

(2) *Requirements.* The underwriting activities of a banking entity are permitted under paragraph (a)(1) of this section only if:

(i) The banking entity is acting as an underwriter for a distribution of securities and the trading desk's underwriting position is related to such distribution;

(ii) The amount and type of the securities in the trading desk's underwriting position are designed not to exceed the reasonably expected near term demands of clients, customers, or counterparties, and reasonable efforts are made to sell or otherwise reduce the underwriting position within a reasonable period, taking into account the liquidity, maturity, and depth of the market for the relevant type of security;

(iii) The banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (a) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The products, instruments or exposures each trading desk may purchase, sell, or manage as part of its underwriting activities;

(B) Limits for each trading desk, based on the nature and amount of the trading desk's underwriting activities, including the reasonably expected near term demands of clients, customers, or counterparties, on the:

(*1*) Amount, types, and risk of its underwriting position;

(*2*) Level of exposures to relevant risk factors arising from its underwriting position; and

(*3*) Period of time a security may be held;

(C) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(D) Authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis of the basis for any temporary or permanent increase to a trading desk's limit(s), and independent review of such demonstrable analysis and approval;

(iv) The compensation arrangements of persons performing the activities described in this paragraph (a) are designed not to reward or incentivize prohibited proprietary trading; and

(v) The banking entity is licensed or registered to engage in the activity described in this paragraph (a) in accordance with applicable law.

(3) *Definition of distribution.* For purposes of this paragraph (a), a *distribution* of securities means:

(i) An offering of securities, whether or not subject to registration under the Securities Act of 1933, that is distinguished from ordinary trading transactions by the presence of special selling efforts and selling methods; or

(ii) An offering of securities made pursuant to an effective registration statement under the Securities Act of 1933.

(4) *Definition of underwriter.* For purposes of this paragraph (a), *underwriter* means:

(i) A person who has agreed with an issuer or selling security holder to:

(A) Purchase securities from the issuer or selling security holder for distribution;

(B) Engage in a distribution of securities for or on behalf of the issuer or selling security holder; or

(C) Manage a distribution of securities for or on behalf of the issuer or selling security holder; or

(ii) A person who has agreed to participate or is participating in a distribution of such securities for or on behalf of the issuer or selling security holder.

(5) *Definition of selling security holder.* For purposes of this paragraph (a), *selling security holder* means any person, other than an issuer, on whose behalf a distribution is made.

(6) *Definition of underwriting position.* For purposes of this paragraph (a), *underwriting position* means the long or short positions in one or more securities held by a banking entity or its affiliate, and managed by a particular trading desk, in connection with a particular distribution of securities for which such banking entity or affiliate is acting as an underwriter.

(7) *Definition of client, customer, and counterparty.* For purposes of this paragraph (a), the terms *client, customer, and counterparty,* on a collective or individual basis, refer to market participants that may transact with the banking entity in connection with a particular distribution for which the banking entity is acting as underwriter.

(b) *Market making-related activities*—(1) *Permitted market making-related activities.* The prohibition contained in § 255.3(a) does not apply to a banking entity's market making-related activities conducted in accordance with this paragraph (b).

(2) *Requirements.* The market making-related activities of a banking entity are permitted under paragraph (b)(1) of this section only if:

(i) The trading desk that establishes and manages the financial exposure routinely stands ready to purchase and sell one or more types of financial instruments related to its financial exposure and is willing and available to quote, purchase and sell, or otherwise enter into long and short positions in those types of financial instruments for its own account, in commercially reasonable amounts and throughout market cycles on a basis appropriate for the liquidity, maturity, and depth of the market for the relevant types of financial instruments;

(ii) The amount, types, and risks of the financial instruments in the trading desk's market-maker inventory are designed not to exceed, on an ongoing basis, the reasonably expected near term demands of clients, customers, or counterparties, based on:

(A) The liquidity, maturity, and depth of the market for the relevant types of financial instrument(s); and

(B) Demonstrable analysis of historical customer demand, current inventory of financial instruments, and market and other factors regarding the amount, types, and risks, of or associated with financial instruments in which the trading desk makes a market, including through block trades;

(iii) The banking entity has established and implements, maintains, and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of paragraph (b) of this section, including reasonably designed written policies and procedures, internal controls, analysis and independent testing identifying and addressing:

(A) The financial instruments each trading desk stands ready to purchase and sell in accordance with paragraph (b)(2)(i) of this section;

(B) The actions the trading desk will take to demonstrably reduce or otherwise significantly mitigate promptly the risks of its financial exposure consistent with the limits required under paragraph (b)(2)(iii)(C) of this section; the products, instruments, and exposures each trading desk may use for risk management purposes; the techniques and strategies each trading desk may use to manage the risks of its market making-related activities and inventory; and the process, strategies, and personnel responsible for ensuring that the actions taken by the trading desk to mitigate these risks are and continue to be effective;

(C) Limits for each trading desk, based on the nature and amount of the trading desk's market making-related activities, that address the factors prescribed by paragraph (b)(2)(ii) of this section, on:

(*1*) The amount, types, and risks of its market-maker inventory;

(*2*) The amount, types, and risks of the products, instruments, and exposures the trading desk may use for risk management purposes;

(*3*) The level of exposures to relevant risk factors arising from its financial exposure; and

(*4*) The period of time a financial instrument may be held;

(D) Internal controls and ongoing monitoring and analysis of each trading desk's compliance with its limits; and

(E) Authorization procedures, including escalation procedures that require review and approval of any trade that would exceed a trading desk's limit(s), demonstrable analysis that the basis for any temporary or permanent increase to a trading desk's limit(s) is consistent with the requirements of this paragraph (b), and independent review of such demonstrable analysis and approval;

(iv) To the extent that any limit identified pursuant to paragraph (b)(2)(iii)(C) of this section is exceeded, the trading desk takes action to bring the trading desk into compliance with the limits as promptly as possible after the limit is exceeded;

(v) The compensation arrangements of persons performing the activities described in this paragraph (b) are designed not to reward or incentivize prohibited proprietary trading; and

(vi) The banking entity is licensed or registered to engage in activity described in this paragraph (b) in accordance with applicable law.

(3) *Definition of client, customer, and counterparty.* For purposes of paragraph (b) of this section, the terms *client, customer, and counterparty,* on a collective or individual basis refer to market participants that make use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services, provided that:

(i) A trading desk or other organizational unit of another banking entity is not a client, customer, or counterparty of the trading desk if that other entity has trading assets and liabilities of $50 billion or more as measured in accordance with § 255.20(d)(1) of subpart D, unless:

(A) The trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk for purposes of paragraph (b)(2) of this section; or

(B) The purchase or sale by the trading desk is conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants.

(4) *Definition of financial exposure.* For purposes of this paragraph (b), *financial exposure* means the aggregate risks of one or more financial instruments and any associated loans, commodities, or foreign exchange or currency, held by a banking entity or its affiliate and managed by a particular trading desk as part of the trading desk's market making-related activities.

(5) *Definition of market-maker inventory.* For the purposes of this paragraph (b), *market-maker inventory* means all of the positions in the financial instruments for which the trading desk stands ready to make a market in accordance with paragraph (b)(2)(i) of this section, that are managed by the trading desk, including the trading desk's open positions or exposures arising from open transactions.

§ 255.5 Permitted risk-mitigating hedging activities.

(a) *Permitted risk-mitigating hedging activities.* The prohibition contained in § 255.3(a) does not apply to the risk-mitigating hedging activities of a banking entity in connection with and related to individual or aggregated positions, contracts, or other holdings of the banking entity and designed to reduce the specific risks to the banking entity in connection with and related to such positions, contracts, or other holdings.

(b) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under paragraph (a) of this section only if:

(1) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(i) Reasonably designed written policies and procedures regarding the positions, techniques and strategies that may be used for hedging, including documentation indicating what positions, contracts or other holdings a particular trading desk may use in its risk-mitigating hedging activities, as well as position and aging limits with respect to such positions, contracts or other holdings;

(ii) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(iii) The conduct of analysis, including correlation analysis, and independent testing designed to ensure that the positions, techniques and strategies that may be used for hedging may reasonably be expected to demonstrably reduce or otherwise significantly mitigate the specific, identifiable risk(s) being hedged, and such correlation analysis demonstrates that the hedging activity demonstrably reduces or otherwise significantly mitigates the specific, identifiable risk(s) being hedged;

(2) The risk-mitigating hedging activity:

(i) Is conducted in accordance with the written policies, procedures, and internal controls required under this section;

(ii) At the inception of the hedging activity, including, without limitation, any adjustments to the hedging activity, is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates one or more specific, identifiable risks, including market risk, counterparty or other credit risk, currency or foreign exchange risk, interest rate risk, commodity price risk, basis risk, or similar risks, arising in connection with and related to identified positions, contracts, or other holdings of the banking entity, based upon the facts and circumstances of the identified underlying and hedging positions, contracts or other holdings and the risks and liquidity thereof;

(iii) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section;

(iv) Is subject to continuing review, monitoring and management by the banking entity that:

(A) Is consistent with the written hedging policies and procedures required under paragraph (b)(1) of this section;

(B) Is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates the specific, identifiable risks that develop over time from the risk-mitigating hedging activities undertaken under this section and the underlying positions, contracts, and other holdings of the banking entity, based upon the facts and circumstances of the underlying and hedging positions, contracts and other holdings of the banking entity and the risks and liquidity thereof; and

(C) Requires ongoing recalibration of the hedging activity by the banking entity to ensure that the hedging activity satisfies the requirements set out in paragraph (b)(2) of this section and is not prohibited proprietary trading; and

(3) The compensation arrangements of persons performing risk-mitigating hedging activities are designed not to reward or incentivize prohibited proprietary trading.

(c) *Documentation requirement*—(1) A banking entity must comply with the requirements of paragraphs (c)(2) and (3) of this section with respect to any purchase or sale of financial instruments made in reliance on this section for risk-mitigating hedging purposes that is:

(i) Not established by the specific trading desk establishing or responsible for the underlying positions, contracts, or other holdings the risks of which the hedging activity is designed to reduce;

(ii) Established by the specific trading desk establishing or responsible for the underlying positions, contracts, or other holdings the risks of which the purchases or sales are designed to reduce, but that is effected through a financial instrument, exposure, technique, or strategy that is not specifically identified in the trading desk's written policies and procedures established under paragraph (b)(1) of this section or under § 255.4(b)(2)(iii)(B) of this subpart as a product, instrument, exposure, technique, or strategy such trading desk may use for hedging; or

(iii) Established to hedge aggregated positions across two or more trading desks.

(2) In connection with any purchase or sale identified in paragraph (c)(1) of this section, a banking entity must, at a minimum, and contemporaneously with the purchase or sale, document:

(i) The specific, identifiable risk(s) of the identified positions, contracts, or other holdings of the banking entity that the purchase or sale is designed to reduce;

(ii) The specific risk-mitigating strategy that the purchase or sale is designed to fulfill; and

(iii) The trading desk or other business unit that is establishing and responsible for the hedge.

(3) A banking entity must create and retain records sufficient to demonstrate compliance with the requirements of this paragraph (c) for a period that is no less than five years in a form that allows the banking entity to promptly produce such records to the SEC on request, or such longer period as required under other law or this part.

§ 255.6 Other permitted proprietary trading activities.

(a) *Permitted trading in domestic government obligations.* The prohibition contained in § 255.3(a) does not apply to the purchase or sale by a banking entity of a financial instrument that is:

(1) An obligation of, or issued or guaranteed by, the United States;

(2) An obligation, participation, or other instrument of, or issued or guaranteed by, an agency of the United States, the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, a Federal Home Loan Bank, the Federal Agricultural Mortgage Corporation or a Farm Credit System institution chartered under and subject to the provisions of the Farm Credit Act of 1971 (12 U.S.C. 2001 *et seq.*);

(3) An obligation of any State or any political subdivision thereof, including any municipal security; or

(4) An obligation of the FDIC, or any entity formed by or on behalf of the FDIC for purpose of facilitating the disposal of assets acquired or held by the FDIC in its corporate capacity or as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(b) *Permitted trading in foreign government obligations*—(1) *Affiliates of foreign banking entities in the United States.* The prohibition contained in § 255.3(a) does not apply to the purchase or sale of a financial instrument that is an obligation of, or issued or guaranteed by, a foreign sovereign (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of such foreign sovereign, by a banking entity, so long as:

(i) The banking entity is organized under or is directly or indirectly controlled by a banking entity that is organized under the laws of a foreign sovereign and is not directly or indirectly controlled by a top-tier banking entity that is organized under the laws of the United States;

(ii) The financial instrument is an obligation of, or issued or guaranteed by, the foreign sovereign under the laws of which the foreign banking entity referred to in paragraph (b)(1)(i) of this section is organized (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign; and

(iii) The purchase or sale as principal is not made by an insured depository institution.

(2) *Foreign affiliates of a U.S. banking entity.* The prohibition contained in § 255.3(a) does not apply to the purchase or sale of a financial instrument that is an obligation of, or issued or guaranteed by, a foreign sovereign (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign, by a foreign entity that is

owned or controlled by a banking entity organized or established under the laws of the United States or any State, so long as:

(i) The foreign entity is a foreign bank, as defined in section 211.2(j) of the Board's Regulation K (12 CFR 211.2(j)), or is regulated by the foreign sovereign as a securities dealer;

(ii) The financial instrument is an obligation of, or issued or guaranteed by, the foreign sovereign under the laws of which the foreign entity is organized (including any multinational central bank of which the foreign sovereign is a member), or any agency or political subdivision of that foreign sovereign; and

(iii) The financial instrument is owned by the foreign entity and is not financed by an affiliate that is located in the United States or organized under the laws of the United States or of any State.

(c) *Permitted trading on behalf of customers*—(1) *Fiduciary transactions.* The prohibition contained in § 255.3(a) does not apply to the purchase or sale of financial instruments by a banking entity acting as trustee or in a similar fiduciary capacity, so long as:

(i) The transaction is conducted for the account of, or on behalf of, a customer; and

(ii) The banking entity does not have or retain beneficial ownership of the financial instruments.

(2) *Riskless principal transactions.* The prohibition contained in § 255.3(a) does not apply to the purchase or sale of financial instruments by a banking entity acting as riskless principal in a transaction in which the banking entity, after receiving an order to purchase (or sell) a financial instrument from a customer, purchases (or sells) the financial instrument for its own account to offset a contemporaneous sale to (or purchase from) the customer.

(d) *Permitted trading by a regulated insurance company.* The prohibition contained in § 255.3(a) does not apply to the purchase or sale of financial instruments by a banking entity that is an insurance company or an affiliate of an insurance company if:

(1) The insurance company or its affiliate purchases or sells the financial instruments solely for:

(i) The general account of the insurance company; or

(ii) A separate account established by the insurance company;

(2) The purchase or sale is conducted in compliance with, and subject to, the insurance company investment laws, regulations, and written guidance of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law, regulation, or written guidance described in paragraph (d)(2) of this section is insufficient to protect the safety and soundness of the covered banking entity, or the financial stability of the United States.

(e) *Permitted trading activities of foreign banking entities.* (1) The prohibition contained in § 255.3(a) does not apply to the purchase or sale of financial instruments by a banking entity if:

(i) The banking entity is not organized or directly or indirectly controlled by a banking entity that is organized under the laws of the United States or of any State;

(ii) The purchase or sale by the banking entity is made pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act; and

(iii) The purchase or sale meets the requirements of paragraph (e)(3) of this section.

(2) A purchase or sale of financial instruments by a banking entity is made pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act for purposes of paragraph (e)(1)(ii) of this section only if:

(i) The purchase or sale is conducted in accordance with the requirements of paragraph (e) of this section; and

(ii)(A) With respect to a banking entity that is a foreign banking organization, the banking entity meets the qualifying foreign banking organization requirements of section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c) or (e)), as applicable; or

(B) With respect to a banking entity that is not a foreign banking organization, the banking entity is not organized under the laws of the United States or of any State and the banking entity, on a fully-consolidated basis, meets at least two of the following requirements:

(*1*) Total assets of the banking entity held outside of the United States exceed total assets of the banking entity held in the United States;

(*2*) Total revenues derived from the business of the banking entity outside of the United States exceed total revenues derived from the business of the banking entity in the United States; or

(*3*) Total net income derived from the business of the banking entity outside of the United States exceeds total net income derived from the business of the banking entity in the United States.

(3) A purchase or sale by a banking entity is permitted for purposes of this paragraph (e) if:

(i) The banking entity engaging as principal in the purchase or sale (including any personnel of the banking entity or its affiliate that arrange, negotiate or execute such purchase or sale) is not located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to purchase or sell as principal is not located in the United States or organized under the laws of the United States or of any State;

(iii) The purchase or sale, including any transaction arising from risk-mitigating hedging related to the instruments purchased or sold, is not accounted for as principal directly or on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State;

(iv) No financing for the banking entity's purchases or sales is provided, directly or indirectly, by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State; and

(v) The purchase or sale is not conducted with or through any U.S. entity, other than:

(A) A purchase or sale with the foreign operations of a U.S. entity if no personnel of such U.S. entity that are located in the United States are involved in the arrangement, negotiation, or execution of such purchase or sale;

(B) A purchase or sale with an unaffiliated market intermediary acting as principal, provided the purchase or sale is promptly cleared and settled through a clearing agency or derivatives clearing organization acting as a central counterparty; or

(C) A purchase or sale through an unaffiliated market intermediary acting as agent, provided the purchase or sale is conducted anonymously on an exchange or similar trading facility and is promptly cleared and settled through a clearing agency or derivatives clearing organization acting as a central counterparty.

(4) For purposes of this paragraph (e), a U.S. entity is any entity that is, or is controlled by, or is acting on behalf of, or at the direction of, any other entity that is, located in the United States or organized under the laws of the United States or of any State.

(5) For purposes of this paragraph (e), a U.S. branch, agency, or subsidiary of

a foreign banking entity is considered to be located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(6) For purposes of this paragraph (e), *unaffiliated market intermediary* means an unaffiliated entity, acting as an intermediary, that is:

(i) A broker or dealer registered with the SEC under section 15 of the Exchange Act or exempt from registration or excluded from regulation as such;

(ii) A swap dealer registered with the CFTC under section 4s of the Commodity Exchange Act or exempt from registration or excluded from regulation as such;

(iii) A security-based swap dealer registered with the SEC under section 15F of the Exchange Act or exempt from registration or excluded from regulation as such; or

(iv) A futures commission merchant registered with the CFTC under section 4f of the Commodity Exchange Act or exempt from registration or excluded from regulation as such.

§ 255.7 Limitations on permitted proprietary trading activities.

(a) No transaction, class of transactions, or activity may be deemed permissible under §§ 255.4 through 255.6 if the transaction, class of transactions, or activity would:

(1) Involve or result in a material conflict of interest between the banking entity and its clients, customers, or counterparties;

(2) Result, directly or indirectly, in a material exposure by the banking entity to a high-risk asset or a high-risk trading strategy; or

(3) Pose a threat to the safety and soundness of the banking entity or to the financial stability of the United States.

(b) *Definition of material conflict of interest.* (1) For purposes of this section, a material conflict of interest between a banking entity and its clients, customers, or counterparties exists if the banking entity engages in any transaction, class of transactions, or activity that would involve or result in the banking entity's interests being materially adverse to the interests of its client, customer, or counterparty with respect to such transaction, class of transactions, or activity, and the banking entity has not taken at least one of the actions in paragraph (b)(2) of this section.

(2) Prior to effecting the specific transaction or class or type of transactions, or engaging in the specific activity, the banking entity:

(i) *Timely and effective disclosure.* (A) Has made clear, timely, and effective disclosure of the conflict of interest, together with other necessary information, in reasonable detail and in a manner sufficient to permit a reasonable client, customer, or counterparty to meaningfully understand the conflict of interest; and

(B) Such disclosure is made in a manner that provides the client, customer, or counterparty the opportunity to negate, or substantially mitigate, any materially adverse effect on the client, customer, or counterparty created by the conflict of interest; or

(ii) *Information barriers.* Has established, maintained, and enforced information barriers that are memorialized in written policies and procedures, such as physical separation of personnel, or functions, or limitations on types of activity, that are reasonably designed, taking into consideration the nature of the banking entity's business, to prevent the conflict of interest from involving or resulting in a materially adverse effect on a client, customer, or counterparty. A banking entity may not rely on such information barriers if, in the case of any specific transaction, class or type of transactions or activity, the banking entity knows or should reasonably know that, notwithstanding the banking entity's establishment of information barriers, the conflict of interest may involve or result in a materially adverse effect on a client, customer, or counterparty.

(c) *Definition of high-risk asset and high-risk trading strategy.* For purposes of this section:

(1) *High-risk asset* means an asset or group of related assets that would, if held by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

(2) *High-risk trading strategy* means a trading strategy that would, if engaged in by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

§§ 255.8–255.9 [Reserved]

Subpart C—Covered Funds Activities and Investments

§ 255.10 Prohibition on acquiring or retaining an ownership interest in and having certain relationships with a covered fund.

(a) *Prohibition.* (1) Except as otherwise provided in this subpart, a banking entity may not, as principal, directly or indirectly, acquire or retain any ownership interest in or sponsor a covered fund.

(2) Paragraph (a)(1) of this section does not include acquiring or retaining an ownership interest in a covered fund by a banking entity:

(i) Acting solely as agent, broker, or custodian, so long as;

(A) The activity is conducted for the account of, or on behalf of, a customer; and

(B) The banking entity and its affiliates do not have or retain beneficial ownership of such ownership interest;

(ii) Through a deferred compensation, stock-bonus, profit-sharing, or pension plan of the banking entity (or an affiliate thereof) that is established and administered in accordance with the law of the United States or a foreign sovereign, if the ownership interest is held or controlled directly or indirectly by the banking entity as trustee for the benefit of persons who are or were employees of the banking entity (or an affiliate thereof);

(iii) In the ordinary course of collecting a debt previously contracted in good faith, provided that the banking entity divests the ownership interest as soon as practicable, and in no event may the banking entity retain such ownership interest for longer than such period permitted by the SEC; or

(iv) On behalf of customers as trustee or in a similar fiduciary capacity for a customer that is not a covered fund, so long as:

(A) The activity is conducted for the account of, or on behalf of, the customer; and

(B) The banking entity and its affiliates do not have or retain beneficial ownership of such ownership interest.

(b) *Definition of covered fund.* (1) Except as provided in paragraph (c) of this section, covered fund means:

(i) An issuer that would be an investment company, as defined in the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*), *but for* section 3(c)(1) or 3(c)(7) of that Act (15 U.S.C. 80a–3(c)(1) or (7));

(ii) Any commodity pool under section 1a(10) of the Commodity Exchange Act (7 U.S.C. 1a(10)) for which:

(A) The commodity pool operator has claimed an exemption under 17 CFR 4.7; or

(B)(*1*) A commodity pool operator is registered with the CFTC as a commodity pool operator in connection with the operation of the commodity pool;

(*2*) Substantially all participation units of the commodity pool are owned by qualified eligible persons under 17 CFR 4.7(a)(2) and (3); and

(*3*) Participation units of the commodity pool have not been publicly offered to persons who are not qualified eligible persons under 17 CFR 4.7(a)(2) and (3); or

(iii) For any banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State, an entity that:

(A) Is organized or established outside the United States and the ownership interests of which are offered and sold solely outside the United States;

(B) Is, or holds itself out as being, an entity or arrangement that raises money from investors primarily for the purpose of investing in securities for resale or other disposition or otherwise trading in securities; and

(C)(*1*) Has as its sponsor that banking entity (or an affiliate thereof); or

(*2*) Has issued an ownership interest that is owned directly or indirectly by that banking entity (or an affiliate thereof).

(2) An issuer shall not be deemed to be a covered fund under paragraph (b)(1)(iii) of this section if, were the issuer subject to U.S. securities laws, the issuer could rely on an exclusion or exemption from the definition of ''investment company'' under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) other than the exclusions contained in section 3(c)(1) and 3(c)(7) of that Act.

(3) For purposes of paragraph (b)(1)(iii) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(c) Notwithstanding paragraph (b) of this section, unless the appropriate Federal banking agencies, the SEC, and the CFTC jointly determine otherwise, a covered fund does not include:

(1) *Foreign public funds.* (i) Subject to paragraphs (ii) and (iii) below, an issuer that:

(A) Is organized or established outside of the United States;

(B) Is authorized to offer and sell ownership interests to retail investors in the issuer's home jurisdiction; and

(C) Sells ownership interests predominantly through one or more public offerings outside of the United States.

(ii) With respect to a banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State and any issuer for which such banking entity acts as sponsor, the sponsoring banking entity may not rely on the exemption in paragraph (c)(1)(i) of this section for such issuer unless ownership interests in the issuer are sold predominantly to persons other than:

(A) Such sponsoring banking entity;

(B) Such issuer;

(C) Affiliates of such sponsoring banking entity or such issuer; and

(D) Directors and employees of such entities.

(iii) For purposes of paragraph (c)(1)(i)(C) of this section, the term ''public offering'' means a distribution (as defined in § 255.4(a)(3) of subpart B) of securities in any jurisdiction outside the United States to investors, including retail investors, provided that:

(A) The distribution complies with all applicable requirements in the jurisdiction in which such distribution is being made;

(B) The distribution does not restrict availability to investors having a minimum level of net worth or net investment assets; and

(C) The issuer has filed or submitted, with the appropriate regulatory authority in such jurisdiction, offering disclosure documents that are publicly available.

(2) *Wholly-owned subsidiaries.* An entity, all of the outstanding ownership interests of which are owned directly or indirectly by the banking entity (or an affiliate thereof), except that:

(i) Up to five percent of the entity's outstanding ownership interests, less any amounts outstanding under paragraph (c)(2)(ii) of this section, may be held by employees or directors of the banking entity or such affiliate (including former employees or directors if their ownership interest was acquired while employed by or in the service of the banking entity); and

(ii) Up to 0.5 percent of the entity's outstanding ownership interests may be held by a third party if the ownership interest is acquired or retained by the third party for the purpose of establishing corporate separateness or addressing bankruptcy, insolvency, or similar concerns.

(3) *Joint ventures.* A joint venture between a banking entity or any of its affiliates and one or more unaffiliated persons, provided that the joint venture:

(i) Is comprised of no more than 10 unaffiliated co-venturers;

(ii) Is in the business of engaging in activities that are permissible for the banking entity or affiliate, other than investing in securities for resale or other disposition; and

(iii) Is not, and does not hold itself out as being, an entity or arrangement that raises money from investors primarily for the purpose of investing in securities for resale or other disposition or otherwise trading in securities.

(4) *Acquisition vehicles.* An issuer:

(i) Formed solely for the purpose of engaging in a *bona fide* merger or acquisition transaction; and

(ii) That exists only for such period as necessary to effectuate the transaction.

(5) *Foreign pension or retirement funds.* A plan, fund, or program providing pension, retirement, or similar benefits that is:

(i) Organized and administered outside the United States;

(ii) A broad-based plan for employees or citizens that is subject to regulation as a pension, retirement, or similar plan under the laws of the jurisdiction in which the plan, fund, or program is organized and administered; and

(iii) Established for the benefit of citizens or residents of one or more foreign sovereigns or any political subdivision thereof.

(6) *Insurance company separate accounts.* A separate account, provided that no banking entity other than the insurance company participates in the account's profits and losses.

(7) *Bank owned life insurance.* A separate account that is used solely for the purpose of allowing one or more banking entities to purchase a life insurance policy for which the banking entity or entities is beneficiary, provided that no banking entity that purchases the policy:

(i) Controls the investment decisions regarding the underlying assets or holdings of the separate account; or

(ii) Participates in the profits and losses of the separate account other than in compliance with applicable supervisory guidance regarding bank owned life insurance.

(8) *Loan securitizations.* (i) *Scope.* An issuing entity for asset-backed securities that satisfies all the conditions of this paragraph (c)(8) and the assets or holdings of which are comprised solely of:

(A) Loans as defined in § 255.2(s) of subpart A;

(B) Rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of such securities and rights or other assets that are related or incidental to purchasing or otherwise acquiring and holding the loans, provided that each asset meets the requirements of paragraph (c)(8)(iii) of this section;

(C) Interest rate or foreign exchange derivatives that meet the requirements of paragraph (c)(8)(iv) of this section; and

(D) Special units of beneficial interest and collateral certificates that meet the requirements of paragraph (c)(8)(v) of this section.

(ii) *Impermissible assets.* For purposes of this paragraph (c)(8), the assets or holdings of the issuing entity shall not include any of the following:

(A) A security, including an asset-backed security, or an interest in an equity or debt security other than as permitted in paragraph (c)(8)(iii) of this section;

(B) A derivative, other than a derivative that meets the requirements of paragraph (c)(8)(iv) of this section; or

(C) A commodity forward contract.

(iii) *Permitted securities.* Notwithstanding paragraph (c)(8)(ii)(A) of this section, the issuing entity may hold securities if those securities are:

(A) Cash equivalents for purposes of the rights and assets in paragraph (c)(8)(i)(B) of this section; or

(B) Securities received in lieu of debts previously contracted with respect to the loans supporting the asset-backed securities.

(iv) *Derivatives.* The holdings of derivatives by the issuing entity shall be limited to interest rate or foreign exchange derivatives that satisfy all of the following conditions:

(A) The written terms of the derivative directly relate to the loans, the asset-backed securities, or the contractual rights of other assets described in paragraph (c)(8)(i)(B) of this section; and

(B) The derivatives reduce the interest rate and/or foreign exchange risks related to the loans, the asset-backed securities, or the contractual rights or other assets described in paragraph (c)(8)(i)(B) of this section.

(v) *Special units of beneficial interest and collateral certificates.* The assets or holdings of the issuing entity may include collateral certificates and special units of beneficial interest issued by a special purpose vehicle, provided that:

(A) The special purpose vehicle that issues the special unit of beneficial interest or collateral certificate meets the requirements in this paragraph (c)(8);

(B) The special unit of beneficial interest or collateral certificate is used for the sole purpose of transferring to the issuing entity for the loan securitization the economic risks and benefits of the assets that are permissible for loan securitizations under this paragraph (c)(8) and does not directly or indirectly transfer any interest in any other economic or financial exposure;

(C) The special unit of beneficial interest or collateral certificate is created solely to satisfy legal requirements or otherwise facilitate the structuring of the loan securitization; and

(D) The special purpose vehicle that issues the special unit of beneficial interest or collateral certificate and the issuing entity are established under the direction of the same entity that initiated the loan securitization.

(9) *Qualifying asset-backed commercial paper conduits.* (i) An issuing entity for asset-backed commercial paper that satisfies all of the following requirements:

(A) The asset-backed commercial paper conduit holds only:

(*1*) Loans and other assets permissible for a loan securitization under paragraph (c)(8)(i) of this section; and

(*2*) Asset-backed securities supported solely by assets that are permissible for loan securitizations under paragraph (c)(8)(i) of this section and acquired by the asset-backed commercial paper conduit as part of an initial issuance either directly from the issuing entity of the asset-backed securities or directly from an underwriter in the distribution of the asset-backed securities;

(B) The asset-backed commercial paper conduit issues only asset-backed securities, comprised of a residual interest and securities with a legal maturity of 397 days or less; and

(C) A regulated liquidity provider has entered into a legally binding commitment to provide full and unconditional liquidity coverage with respect to all of the outstanding asset-backed securities issued by the asset-backed commercial paper conduit (other than any residual interest) in the event that funds are required to redeem maturing asset-backed securities.

(ii) For purposes of this paragraph (c)(9), a regulated liquidity provider means:

(A) A depository institution, as defined in section 3(c) of the Federal Deposit Insurance Act (12 U.S.C. 1813(c));

(B) A bank holding company, as defined in section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(a)), or a subsidiary thereof;

(C) A savings and loan holding company, as defined in section 10a of the Home Owners' Loan Act (12 U.S.C. 1467a), provided all or substantially all of the holding company's activities are permissible for a financial holding company under section 4(k) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843(k)), or a subsidiary thereof;

(D) A foreign bank whose home country supervisor, as defined in § 211.21(q) of the Board's Regulation K (12 CFR 211.21(q)), has adopted capital standards consistent with the Capital Accord for the Basel Committee on banking Supervision, as amended, and that is subject to such standards, or a subsidiary thereof; or

(E) The United States or a foreign sovereign.

(10) *Qualifying covered bonds*—(i) *Scope.* An entity owning or holding a dynamic or fixed pool of loans or other assets as provided in paragraph (c)(8) of this section for the benefit of the holders of covered bonds, provided that the assets in the pool are comprised solely of assets that meet the conditions in paragraph (c)(8)(i) of this section.

(ii) *Covered bond.* For purposes of this paragraph (c)(10), a covered bond means:

(A) A debt obligation issued by an entity that meets the definition of foreign banking organization, the payment obligations of which are fully and unconditionally guaranteed by an entity that meets the conditions set forth in paragraph (c)(10)(i) of this section; or

(B) A debt obligation of an entity that meets the conditions set forth in paragraph (c)(10)(i) of this section, provided that the payment obligations are fully and unconditionally guaranteed by an entity that meets the definition of foreign banking organization and the entity is a wholly-owned subsidiary, as defined in paragraph (c)(2) of this section, of such foreign banking organization.

(11) *SBICs and public welfare investment funds.* An issuer:

(i) That is a small business investment company, as defined in section 103(3) of the Small Business Investment Act of 1958 (15 U.S.C. 662), or that has received from the Small Business Administration notice to proceed to qualify for a license as a small business investment company, which notice or license has not been revoked; or

(ii) The business of which is to make investments that are:

(A) Designed primarily to promote the public welfare, of the type permitted under paragraph (11) of section 5136 of the Revised Statutes of the United States (12 U.S.C. 24), including the welfare of low- and moderate-income communities or families (such as providing housing, services, or jobs); or

(B) Qualified rehabilitation expenditures with respect to a qualified rehabilitated building or certified historic structure, as such terms are defined in section 47 of the Internal Revenue Code of 1986 or a similar State historic tax credit program.

(12) *Registered investment companies and excluded entities.* An issuer:

(i) That is registered as an investment company under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a–8), or that is formed and operated pursuant to a written plan to become a registered investment company as described in § 255.20(e)(3) of subpart D and that complies with the requirements of section 18 of the Investment Company Act of 1940 (15 U.S.C. 80a–18);

(ii) That may rely on an exclusion or exemption from the definition of ''investment company'' under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) other than the exclusions contained in section 3(c)(1) and 3(c)(7) of that Act; or

(iii) That has elected to be regulated as a business development company pursuant to section 54(a) of that Act (15 U.S.C. 80a–53) and has not withdrawn its election, or that is formed and operated pursuant to a written plan to become a business development company as described in § 255.20(e)(3) of subpart D and that complies with the requirements of section 61 of the Investment Company Act of 1940 (15 U.S.C. 80a–60).

(13) *Issuers in conjunction with the FDIC's receivership or conservatorship operations.* An issuer that is an entity formed by or on behalf of the FDIC for the purpose of facilitating the disposal of assets acquired in the FDIC's capacity as conservator or receiver under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

(14) *Other excluded issuers.* (i) Any issuer that the appropriate Federal banking agencies, the SEC, and the CFTC jointly determine the exclusion of which is consistent with the purposes of section 13 of the BHC Act.

(ii) A determination made under paragraph (c)(14)(i) of this section will be promptly made public.

(d) *Definition of other terms related to covered funds.* For purposes of this subpart:

(1) *Applicable accounting standards* means U.S. generally accepted accounting principles, or such other accounting standards applicable to a banking entity that the SEC determines are appropriate and that the banking entity uses in the ordinary course of its business in preparing its consolidated financial statements.

(2) *Asset-backed security* has the meaning specified in Section 3(a)(79) of the Exchange Act (15 U.S.C. 78c(a)(79)).

(3) *Director* has the same meaning as provided in section 215.2(d)(1) of the Board's Regulation O (12 CFR 215.2(d)(1)).

(4) *Issuer* has the same meaning as in section 2(a)(22) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(22)).

(5) *Issuing entity* means with respect to asset-backed securities the special purpose vehicle that owns or holds the pool assets underlying asset-backed securities and in whose name the asset-backed securities supported or serviced by the pool assets are issued.

(6) *Ownership interest*—(i) *Ownership interest* means any equity, partnership, or other similar interest. An ''other similar interest'' means an interest that:

(A) Has the right to participate in the selection or removal of a general partner, managing member, member of the board of directors or trustees, investment manager, investment adviser, or commodity trading advisor of the covered fund (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);

(B) Has the right under the terms of the interest to receive a share of the income, gains or profits of the covered fund;

(C) Has the right to receive the underlying assets of the covered fund after all other interests have been redeemed and/or paid in full (excluding the rights of a creditor to exercise remedies upon the occurrence of an event of default or an acceleration event);

(D) Has the right to receive all or a portion of excess spread (the positive difference, if any, between the aggregate interest payments received from the underlying assets of the covered fund and the aggregate interest paid to the holders of other outstanding interests);

(E) Provides under the terms of the interest that the amounts payable by the covered fund with respect to the interest could be reduced based on losses arising from the underlying assets of the covered fund, such as allocation of losses, write-downs or charge-offs of the outstanding principal balance, or reductions in the amount of interest due and payable on the interest;

(F) Receives income on a pass-through basis from the covered fund, or has a rate of return that is determined by reference to the performance of the underlying assets of the covered fund; or

(G) Any synthetic right to have, receive, or be allocated any of the rights in paragraphs (d)(6)(i)(A) through (F) of this section.

(ii) *Ownership interest* does not include: *Restricted profit interest.* An interest held by an entity (or an employee or former employee thereof) in a covered fund for which the entity (or employee thereof) serves as investment manager, investment adviser, commodity trading advisor, or other service provider so long as:

(A) The sole purpose and effect of the interest is to allow the entity (or employee or former employee thereof) to share in the profits of the covered fund as performance compensation for the investment management, investment advisory, commodity trading advisory, or other services provided to the covered fund by the entity (or employee or former employee thereof), provided that the entity (or employee or former employee thereof) may be obligated under the terms of such interest to return profits previously received;

(B) All such profit, once allocated, is distributed to the entity (or employee or former employee thereof) promptly after being earned or, if not so distributed, is retained by the covered fund for the sole purpose of establishing a reserve amount to satisfy contractual obligations with respect to subsequent losses of the covered fund and such undistributed profit of the entity (or employee or former employee thereof) does not share in the subsequent investment gains of the covered fund;

(C) Any amounts invested in the covered fund, including any amounts paid by the entity (or employee or former employee thereof) in connection with obtaining the restricted profit interest, are within the limits of § 255.12 of this subpart; and

(D) The interest is not transferable by the entity (or employee or former employee thereof) except to an affiliate thereof (or an employee of the banking entity or affiliate), to immediate family members, or through the intestacy, of the employee or former employee, or in connection with a sale of the business that gave rise to the restricted profit interest by the entity (or employee or former employee thereof) to an unaffiliated party that provides investment management, investment advisory, commodity trading advisory, or other services to the fund.

(7) *Prime brokerage transaction* means any transaction that would be a covered transaction, as defined in section 23A(b)(7) of the Federal Reserve Act (12 U.S.C. 371c(b)(7)), that is provided in

connection with custody, clearance and settlement, securities borrowing or lending services, trade execution, financing, or data, operational, and administrative support.

(8) *Resident of the United States* means a person that is a ''U.S. person'' as defined in rule 902(k) of the SEC's Regulation S (17 CFR 230.902(k)).

(9) *Sponsor* means, with respect to a covered fund:

(i) To serve as a general partner, managing member, or trustee of a covered fund, or to serve as a commodity pool operator with respect to a covered fund as defined in (b)(1)(ii) of this section;

(ii) In any manner to select or to control (or to have employees, officers, or directors, or agents who constitute) a majority of the directors, trustees, or management of a covered fund; or

(iii) To share with a covered fund, for corporate, marketing, promotional, or other purposes, the same name or a variation of the same name, except as permitted under § 255.11(a)(6).

(10) *Trustee.* (i) For purposes of paragraph (d)(9) of this section and § 255.11 of subpart C, a trustee does not include:

(A) A trustee that does not exercise investment discretion with respect to a covered fund, including a trustee that is subject to the direction of an unaffiliated named fiduciary who is not a trustee pursuant to section 403(a)(1) of the Employee's Retirement Income Security Act (29 U.S.C. 1103(a)(1)); or

(B) A trustee that is subject to fiduciary standards imposed under foreign law that are substantially equivalent to those described in paragraph (d)(10)(i)(A) of this section;

(ii) Any entity that directs a person described in paragraph (d)(10)(i) of this section, or that possesses authority and discretion to manage and control the investment decisions of a covered fund for which such person serves as trustee, shall be considered to be a trustee of such covered fund.

§ 255.11 Permitted organizing and offering, underwriting, and market making with respect to a covered fund.

(a) *Organizing and offering a covered fund in general.* Notwithstanding § 255.10(a) of this subpart, a banking entity is not prohibited from acquiring or retaining an ownership interest in, or acting as sponsor to, a covered fund in connection with, directly or indirectly, organizing and offering a covered fund, including serving as a general partner, managing member, trustee, or commodity pool operator of the covered fund and in any manner selecting or controlling (or having employees, officers, directors, or agents who constitute) a majority of the directors, trustees, or management of the covered fund, including any necessary expenses for the foregoing, only if:

(1) The banking entity (or an affiliate thereof) provides *bona fide* trust, fiduciary, investment advisory, or commodity trading advisory services;

(2) The covered fund is organized and offered only in connection with the provision of *bona fide* trust, fiduciary, investment advisory, or commodity trading advisory services and only to persons that are customers of such services of the banking entity (or an affiliate thereof), pursuant to a written plan or similar documentation outlining how the banking entity or such affiliate intends to provide advisory or similar services to its customers through organizing and offering such fund;

(3) The banking entity and its affiliates do not acquire or retain an ownership interest in the covered fund except as permitted under § 255.12 of this subpart;

(4) The banking entity and its affiliates comply with the requirements of § 255.14 of this subpart;

(5) The banking entity and its affiliates do not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests;

(6) The covered fund, for corporate, marketing, promotional, or other purposes:

(i) Does not share the same name or a variation of the same name with the banking entity (or an affiliate thereof) except that a covered fund may share the same name or a variation of the same name with a banking entity that is an investment adviser to the covered fund if:

(A) The investment adviser is not an insured depository institution, a company that controls an insured depository institution, or a company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(B) The investment adviser does not share the same name or a variation of the same name as an insured depository institution, a company that controls an insured depository institution, or a company that is treated as a bank holding company for purposes of section 8 of the International Banking Act of 1978 (12 U.S.C. 3106); and

(ii) Does not use the word ''bank'' in its name;

(7) No director or employee of the banking entity (or an affiliate thereof) takes or retains an ownership interest in the covered fund, except for any director or employee of the banking entity or such affiliate who is directly engaged in providing investment advisory, commodity trading advisory, or other services to the covered fund at the time the director or employee takes the ownership interest; and

(8) The banking entity:

(i) Clearly and conspicuously discloses, in writing, to any prospective and actual investor in the covered fund (such as through disclosure in the covered fund's offering documents):

(A) That ''any losses in [such covered fund] will be borne solely by investors in [the covered fund] and not by [the banking entity] or its affiliates; therefore, [the banking entity's] losses in [such covered fund] will be limited to losses attributable to the ownership interests in the covered fund held by [the banking entity] and any affiliate in its capacity as investor in the [covered fund] or as beneficiary of a restricted profit interest held by [the banking entity] or any affiliate'';

(B) That such investor should read the fund offering documents before investing in the covered fund;

(C) That the ''ownership interests in the covered fund are not insured by the FDIC, and are not deposits, obligations of, or endorsed or guaranteed in any way, by any banking entity'' (unless that happens to be the case); and

(D) The role of the banking entity and its affiliates and employees in sponsoring or providing any services to the covered fund; and

(ii) Complies with any additional rules of the appropriate Federal banking agencies, the SEC, or the CFTC, as provided in section 13(b)(2) of the BHC Act, designed to ensure that losses in such covered fund are borne solely by investors in the covered fund and not by the covered banking entity and its affiliates.

(b) *Organizing and offering an issuing entity of asset-backed securities.* (1) Notwithstanding § 255.10(a) of this subpart, a banking entity is not prohibited from acquiring or retaining an ownership interest in, or acting as sponsor to, a covered fund that is an issuing entity of asset-backed securities in connection with, directly or indirectly, organizing and offering that issuing entity, so long as the banking entity and its affiliates comply with all of the requirements of paragraph (a)(3) through (8) of this section.

(2) For purposes of this paragraph (b), organizing and offering a covered fund that is an issuing entity of asset-backed securities means acting as the securitizer, as that term is used in section 15G(a)(3) of the Exchange Act

(15 U.S.C. 78*o*–11(a)(3)) of the issuing entity, or acquiring or retaining an ownership interest in the issuing entity as required by section 15G of that Act (15 U.S.C.78*o*–11) and the implementing regulations issued thereunder.

(c) *Underwriting and market making in ownership interests of a covered fund.* The prohibition contained in § 255.10(a) of this subpart does not apply to a banking entity's underwriting activities or market making-related activities involving a covered fund so long as:

(1) Those activities are conducted in accordance with the requirements of § 255.4(a) or § 255.4(b) of subpart B, respectively;

(2) With respect to any banking entity (or any affiliate thereof) that: Acts as a sponsor, investment adviser or commodity trading advisor to a particular covered fund or otherwise acquires and retains an ownership interest in such covered fund in reliance on paragraph (a) of this section; acquires and retains an ownership interest in such covered fund and is either a securitizer, as that term is used in section 15G(a)(3) of the Exchange Act (15 U.S.C. 78o–11(a)(3)), or is acquiring and retaining an ownership interest in such covered fund in compliance with section 15G of that Act (15 U.S.C.78o–11) and the implementing regulations issued thereunder each as permitted by paragraph (b) of this section; or, directly or indirectly, guarantees, assumes, or otherwise insures the obligations or performance of the covered fund or of any covered fund in which such fund invests, then in each such case any ownership interests acquired or retained by the banking entity and its affiliates in connection with underwriting and market making related activities for that particular covered fund are included in the calculation of ownership interests permitted to be held by the banking entity and its affiliates under the limitations of § 255.12(a)(2)(ii) and § 255.12(d) of this subpart; and

(3) With respect to any banking entity, the aggregate value of all ownership interests of the banking entity and its affiliates in all covered funds acquired and retained under § 255.11 of this subpart, including all covered funds in which the banking entity holds an ownership interest in connection with underwriting and market making related activities permitted under this paragraph (c), are included in the calculation of all ownership interests under § 255.12(a)(2)(iii) and § 255.12(d) of this subpart.

§ 255.12 Permitted investment in a covered fund.

(a) *Authority and limitations on permitted investments in covered funds.* (1) Notwithstanding the prohibition contained in § 255.10(a) of this subpart, a banking entity may acquire and retain an ownership interest in a covered fund that the banking entity or an affiliate thereof organizes and offers pursuant to § 255.11, for the purposes of:

(i) *Establishment.* Establishing the fund and providing the fund with sufficient initial equity for investment to permit the fund to attract unaffiliated investors, subject to the limits contained in paragraphs (a)(2)(i) and (iii) of this section; or

(ii) *De minimis investment.* Making and retaining an investment in the covered fund subject to the limits contained in paragraphs (a)(2)(ii) and (iii) of this section.

(2) *Investment limits*—(i) *Seeding period.* With respect to an investment in any covered fund made or held pursuant to paragraph (a)(1)(i) of this section, the banking entity and its affiliates:

(A) Must actively seek unaffiliated investors to reduce, through redemption, sale, dilution, or other methods, the aggregate amount of all ownership interests of the banking entity in the covered fund to the amount permitted in paragraph (a)(2)(i)(B) of this section; and

(B) Must, no later than 1 year after the date of establishment of the fund (or such longer period as may be provided by the Board pursuant to paragraph (e) of this section), conform its ownership interest in the covered fund to the limits in paragraph (a)(2)(ii) of this section;

(ii) *Per-fund limits.* (A) Except as provided in paragraph (a)(2)(ii)(B) of this section, an investment by a banking entity and its affiliates in any covered fund made or held pursuant to paragraph (a)(1)(ii) of this section may not exceed 3 percent of the total number or value of the outstanding ownership interests of the fund.

(B) An investment by a banking entity and its affiliates in a covered fund that is an issuing entity of asset-backed securities may not exceed 3 percent of the total fair market value of the ownership interests of the fund measured in accordance with paragraph (b)(3) of this section, unless a greater percentage is retained by the banking entity and its affiliates in compliance with the requirements of section 15G of the Exchange Act (15 U.S.C. 78*o*–11) and the implementing regulations issued thereunder, in which case the investment by the banking entity and its affiliates in the covered fund may not exceed the amount, number, or value of ownership interests of the fund required under section 15G of the Exchange Act and the implementing regulations issued thereunder.

(iii) *Aggregate limit.* The aggregate value of all ownership interests of the banking entity and its affiliates in all covered funds acquired or retained under this section may not exceed 3 percent of the tier 1 capital of the banking entity, as provided under paragraph (c) of this section, and shall be calculated as of the last day of each calendar quarter.

(iv) *Date of establishment.* For purposes of this section, the date of establishment of a covered fund shall be:

(A) *In general.* The date on which the investment adviser or similar entity to the covered fund begins making investments pursuant to the written investment strategy for the fund;

(B) *Issuing entities of asset-backed securities.* In the case of an issuing entity of asset-backed securities, the date on which the assets are initially transferred into the issuing entity of asset-backed securities.

(b) *Rules of construction*—(1) *Attribution of ownership interests to a covered banking entity.* (i) For purposes of paragraph (a)(2) of this section, the amount and value of a banking entity's permitted investment in any single covered fund shall include any ownership interest held under § 255____.12 directly by the banking entity, including any affiliate of the banking entity.

(ii) *Treatment of registered investment companies, SEC-regulated business development companies and foreign public funds.* For purposes of paragraph (b)(1)(i) of this section, a registered investment company, SEC-regulated business development companies or foreign public fund as described in § 255____.10(c)(1) of this subpart will not be considered to be an affiliate of the banking entity so long as the banking entity:

(A) Does not own, control, or hold with the power to vote 25 percent or more of the voting shares of the company or fund; and

(B) Provides investment advisory, commodity trading advisory, administrative, and other services to the company or fund in compliance with the limitations under applicable regulation, order, or other authority.

(iii) *Covered funds.* For purposes of paragraph (b)(1)(i) of this section, a covered fund will not be considered to be an affiliate of a banking entity so long as the covered fund is held in compliance with the requirements of this subpart.

(iv) *Treatment of employee and director investments financed by the banking entity.* For purposes of paragraph (b)(1)(i) of this section, an investment by a director or employee of a banking entity who acquires an ownership interest in his or her personal capacity in a covered fund sponsored by the banking entity will be attributed to the banking entity if the banking entity, directly or indirectly, extends financing for the purpose of enabling the director or employee to acquire the ownership interest in the fund and the financing is used to acquire such ownership interest in the covered fund.

(2) *Calculation of permitted ownership interests in a single covered fund.* Except as provided in paragraph (b)(3) or (4), for purposes of determining whether an investment in a single covered fund complies with the restrictions on ownership interests under paragraphs (a)(2)(i)(B) and (a)(2)(ii)(A) of this section:

(i) The aggregate number of the outstanding ownership interests held by the banking entity shall be the total number of ownership interests held under this section by the banking entity in a covered fund divided by the total number of ownership interests held by all entities in that covered fund, as of the last day of each calendar quarter (both measured without regard to committed funds not yet called for investment);

(ii) The aggregate value of the outstanding ownership interests held by the banking entity shall be the aggregate fair market value of all investments in and capital contributions made to the covered fund by the banking entity, divided by the value of all investments in and capital contributions made to that covered fund by all entities, as of the last day of each calendar quarter (all measured without regard to committed funds not yet called for investment). If fair market value cannot be determined, then the value shall be the historical cost basis of all investments in and contributions made by the banking entity to the covered fund;

(iii) For purposes of the calculation under paragraph (b)(2)(ii) of this section, once a valuation methodology is chosen, the banking entity must calculate the value of its investment and the investments of all others in the covered fund in the same manner and according to the same standards.

(3) *Issuing entities of asset-backed securities.* In the case of an ownership interest in an issuing entity of asset-backed securities, for purposes of determining whether an investment in a single covered fund complies with the restrictions on ownership interests under paragraphs (a)(2)(i)(B) and (a)(2)(ii)(B) of this section:

(i) For securitizations subject to the requirements of section 15G of the Exchange Act (15 U.S.C. 78o–11), the calculations shall be made as of the date and according to the valuation methodology applicable pursuant to the requirements of section 15G of the Exchange Act (15 U.S.C. 78o–11) and the implementing regulations issued thereunder; or

(ii) For securitization transactions completed prior to the compliance date of such implementing regulations (or as to which such implementing regulations do not apply), the calculations shall be made as of the date of establishment as defined in paragraph (a)(2)(iv)(B) of this section or such earlier date on which the transferred assets have been valued for purposes of transfer to the covered fund, and thereafter only upon the date on which additional securities of the issuing entity of asset-backed securities are priced for purposes of the sales of ownership interests to unaffiliated investors.

(iii) For securitization transactions completed prior to the compliance date of such implementing regulations (or as to which such implementing regulations do not apply), the aggregate value of the outstanding ownership interests in the covered fund shall be the fair market value of the assets transferred to the issuing entity of the securitization and any other assets otherwise held by the issuing entity at such time, determined in a manner that is consistent with its determination of the fair market value of those assets for financial statement purposes.

(iv) For purposes of the calculation under paragraph (b)(3)(iii) of this section, the valuation methodology used to calculate the fair market value of the ownership interests must be the same for both the ownership interests held by a banking entity and the ownership interests held by all others in the covered fund in the same manner and according to the same standards.

(4) *Multi-tier fund investments*—(i) *Master-feeder fund investments.* If the principal investment strategy of a covered fund (the ''feeder fund'') is to invest substantially all of its assets in another single covered fund (the ''master fund''), then for purposes of the investment limitations in paragraphs (a)(2)(i)(B) and (a)(2)(ii) of this section, the banking entity's permitted investment in such funds shall be measured only by reference to the value of the master fund. The banking entity's permitted investment in the master fund shall include any investment by the banking entity in the master fund, as well as the banking entity's pro-rata share of any ownership interest of the master fund that is held through the feeder fund; and

(ii) *Fund-of-funds investments.* If a banking entity organizes and offers a covered fund pursuant to § 255.11 of this subpart for the purpose of investing in other covered funds (a ''fund of funds'') and that fund of funds itself invests in another covered fund that the banking entity is permitted to own, then the banking entity's permitted investment in that other fund shall include any investment by the banking entity in that other fund, as well as the banking entity's pro-rata share of any ownership interest of the fund that is held through the fund of funds. The investment of the banking entity may not represent more than 3 percent of the amount or value of any single covered fund.

(c) *Aggregate permitted investments in all covered funds.* (1) For purposes of paragraph (a)(2)(iii) of this section, the aggregate value of all ownership interests held by a banking entity shall be the sum of all amounts paid or contributed by the banking entity in connection with acquiring or retaining an ownership interest in covered funds (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 255____ .10(d)(6)(ii) of this subpart), on a historical cost basis.

(2) *Calculation of tier 1 capital.* For purposes of paragraph (a)(2)(iii) of this section:

(i) *Entities that are required to hold and report tier 1 capital.* If a banking entity is required to calculate and report tier 1 capital, the banking entity's tier 1 capital shall be equal to the amount of tier 1 capital of the banking entity as of the last day of the most recent calendar quarter, as reported to its primary financial regulatory agency; and

(ii) If a banking entity is not required to calculate and report tier 1 capital, the banking entity's tier 1 capital shall be determined to be equal to:

(A) In the case of a banking entity that is controlled, directly or indirectly, by a depository institution that calculates and reports tier 1 capital, be equal to the amount of tier 1 capital reported by such controlling depository institution in the manner described in paragraph (c)(2)(i) of this section;

(B) In the case of a banking entity that is not controlled, directly or indirectly, by a depository institution that calculates and reports tier 1 capital:

(*1*) *Bank holding company subsidiaries.* If the banking entity is a subsidiary of a bank holding company or company that is treated as a bank holding company, be equal to the amount of tier 1 capital reported by the top-tier affiliate of such covered banking entity that calculates and reports tier 1 capital in the manner described in paragraph (c)(2)(i) of this section; and

(*2*) *Other holding companies and any subsidiary or affiliate thereof.* If the banking entity is not a subsidiary of a bank holding company or a company that is treated as a bank holding company, be equal to the total amount of shareholders' equity of the top-tier affiliate within such organization as of the last day of the most recent calendar quarter that has ended, as determined under applicable accounting standards.

(iii) *Treatment of foreign banking entities*—(A) *Foreign banking entities.* Except as provided in paragraph (c)(2)(iii)(B) of this section, with respect to a banking entity that is not itself, and is not controlled directly or indirectly by, a banking entity that is located or organized under the laws of the United States or of any State, the tier 1 capital of the banking entity shall be the consolidated tier 1 capital of the entity as calculated under applicable home country standards.

(B) *U.S. affiliates of foreign banking entities.* With respect to a banking entity that is located or organized under the laws of the United States or of any State and is controlled by a foreign banking entity identified under paragraph (c)(2)(iii)(A) of this section, the banking entity's tier 1 capital shall be as calculated under paragraphs (c)(2)(i) or (ii) of this section.

(d) *Capital treatment for a permitted investment in a covered fund.* For purposes of calculating compliance with the applicable regulatory capital requirements, a banking entity shall deduct from the banking entity's tier 1 capital (as determined under paragraph (c)(2) of this section) the greater of:

(1) The sum of all amounts paid or contributed by the banking entity in connection with acquiring or retaining an ownership interest (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 255____.10(d)(6)(ii) of subpart C), on a historical cost basis, plus any earnings received; and

(2) The fair market value of the banking entity's ownership interests in the covered fund as determined under paragraph (b)(2)(ii) or (b)(3) of this section (together with any amounts paid by the entity (or employee thereof) in connection with obtaining a restricted profit interest under § 255____.10(d)(6)(ii) of subpart C), if the banking entity accounts for the profits (or losses) of the fund investment in its financial statements.

(e) *Extension of time to divest an ownership interest.* (1) Upon application by a banking entity, the Board may extend the period under paragraph (a)(2)(i) of this section for up to 2 additional years if the Board finds that an extension would be consistent with safety and soundness and not detrimental to the public interest. An application for extension must:

(i) Be submitted to the Board at least 90 days prior to the expiration of the applicable time period;

(ii) Provide the reasons for application, including information that addresses the factors in paragraph (e)(2) of this section; and

(iii) Explain the banking entity's plan for reducing the permitted investment in a covered fund through redemption, sale, dilution or other methods as required in paragraph (a)(2) of this section.

(2) *Factors governing Board determinations.* In reviewing any application under paragraph (e)(1) of this section, the Board may consider all the facts and circumstances related to the permitted investment in a covered fund, including:

(i) Whether the investment would result, directly or indirectly, in a material exposure by the banking entity to high-risk assets or high-risk trading strategies;

(ii) The contractual terms governing the banking entity's interest in the covered fund;

(iii) The date on which the covered fund is expected to have attracted sufficient investments from investors unaffiliated with the banking entity to enable the banking entity to comply with the limitations in paragraph (a)(2)(i) of this section;

(iv) The total exposure of the covered banking entity to the investment and the risks that disposing of, or maintaining, the investment in the covered fund may pose to the banking entity and the financial stability of the United States;

(v) The cost to the banking entity of divesting or disposing of the investment within the applicable period;

(vi) Whether the investment or the divestiture or conformance of the investment would involve or result in a material conflict of interest between the banking entity and unaffiliated parties, including clients, customers or counterparties to which it owes a duty;

(vi) The banking entity's prior efforts to reduce through redemption, sale, dilution, or other methods its ownership interests in the covered fund, including activities related to the marketing of interests in such covered fund;

(viii) Market conditions; and

(ix) Any other factor that the Board believes appropriate.

(3) *Authority to impose restrictions on activities or investment during any extension period.* The Board may impose such conditions on any extension approved under paragraph (e)(1) of this section as the Board determines are necessary or appropriate to protect the safety and soundness of the banking entity or the financial stability of the United States, address material conflicts of interest or other unsound banking practices, or otherwise further the purposes of section 13 of the BHC Act and this part.

(4) *Consultation.* In the case of a banking entity that is primarily regulated by another Federal banking agency, the SEC, or the CFTC, the Board will consult with such agency prior to acting on an application by the banking entity for an extension under paragraph (e)(1) of this section.

§ 255.13 Other permitted covered fund activities and investments.

(a) *Permitted risk-mitigating hedging activities.* (1) The prohibition contained in § 255.10(a) of this subpart does not apply with respect to an ownership interest in a covered fund acquired or retained by a banking entity that is designed to demonstrably reduce or otherwise significantly mitigate the specific, identifiable risks to the banking entity in connection with a compensation arrangement with an employee of the banking entity or an affiliate thereof that directly provides investment advisory, commodity trading advisory or other services to the covered fund.

(2) *Requirements.* The risk-mitigating hedging activities of a banking entity are permitted under this paragraph (a) only if:

(i) The banking entity has established and implements, maintains and enforces an internal compliance program required by subpart D of this part that is reasonably designed to ensure the banking entity's compliance with the requirements of this section, including:

(A) Reasonably designed written policies and procedures; and

(B) Internal controls and ongoing monitoring, management, and authorization procedures, including relevant escalation procedures; and

(ii) The acquisition or retention of the ownership interest:

(A) Is made in accordance with the written policies, procedures and internal controls required under this section;

(B) At the inception of the hedge, is designed to reduce or otherwise significantly mitigate and demonstrably reduces or otherwise significantly mitigates one or more specific, identifiable risks arising in connection with the compensation arrangement with the employee that directly provides investment advisory, commodity trading advisory, or other services to the covered fund;

(C) Does not give rise, at the inception of the hedge, to any significant new or additional risk that is not itself hedged contemporaneously in accordance with this section; and

(D) Is subject to continuing review, monitoring and management by the banking entity.

(iii) The compensation arrangement relates solely to the covered fund in which the banking entity or any affiliate has acquired an ownership interest pursuant to this paragraph and such compensation arrangement provides that any losses incurred by the banking entity on such ownership interest will be offset by corresponding decreases in amounts payable under such compensation arrangement.

(b) *Certain permitted covered fund activities and investments outside of the United States.* (1) The prohibition contained in § 255.10(a) of this subpart does not apply to the acquisition or retention of any ownership interest in, or the sponsorship of, a covered fund by a banking entity only if:

(i) The banking entity is not organized or directly or indirectly controlled by a banking entity that is organized under the laws of the United States or of one or more States;

(ii) The activity or investment by the banking entity is pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act;

(iii) No ownership interest in the covered fund is offered for sale or sold to a resident of the United States; and

(iv) The activity or investment occurs solely outside of the United States.

(2) An activity or investment by the banking entity is pursuant to paragraph (9) or (13) of section 4(c) of the BHC Act for purposes of paragraph (b)(1)(ii) of this section only if:

(i) The activity or investment is conducted in accordance with the requirements of this section; and

(ii)(A) With respect to a banking entity that is a foreign banking organization, the banking entity meets the qualifying foreign banking organization requirements of section 211.23(a), (c) or (e) of the Board's Regulation K (12 CFR 211.23(a), (c) or (e)), as applicable; or

(B) With respect to a banking entity that is not a foreign banking organization, the banking entity is not organized under the laws of the United States or of one or more States and the banking entity, on a fully-consolidated basis, meets at least two of the following requirements:

(*1*) Total assets of the banking entity held outside of the United States exceed total assets of the banking entity held in the United States;

(*2*) Total revenues derived from the business of the banking entity outside of the United States exceed total revenues derived from the business of the banking entity in the United States; or

(*3*) Total net income derived from the business of the banking entity outside of the United States exceeds total net income derived from the business of the banking entity in the United States.

(3) An ownership interest in a covered fund is not offered for sale or sold to a resident of the United States for purposes of paragraph (b)(1)(iii) of this section only if it is sold or has been sold pursuant to an offering that does not target residents of the United States.

(4) An activity or investment occurs solely outside of the United States for purposes of paragraph (b)(1)(iv) of this section only if:

(i) The banking entity acting as sponsor, or engaging as principal in the acquisition or retention of an ownership interest in the covered fund, is not itself, and is not controlled directly or indirectly by, a banking entity that is located in the United States or organized under the laws of the United States or of any State;

(ii) The banking entity (including relevant personnel) that makes the decision to acquire or retain the ownership interest or act as sponsor to the covered fund is not located in the United States or organized under the laws of the United States or of any State;

(iii) The investment or sponsorship, including any transaction arising from risk-mitigating hedging related to an ownership interest, is not accounted for as principal directly or indirectly on a consolidated basis by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State; and

(iv) No financing for the banking entity's ownership or sponsorship is provided, directly or indirectly, by any branch or affiliate that is located in the United States or organized under the laws of the United States or of any State.

(5) For purposes of this section, a U.S. branch, agency, or subsidiary of a foreign bank, or any subsidiary thereof, is located in the United States; however, a foreign bank of which that branch, agency, or subsidiary is a part is not considered to be located in the United States solely by virtue of operation of the U.S. branch, agency, or subsidiary.

(c) *Permitted covered fund interests and activities by a regulated insurance company.* The prohibition contained in § 255.10(a) of this subpart does not apply to the acquisition or retention by an insurance company, or an affiliate thereof, of any ownership interest in, or the sponsorship of, a covered fund only if:

(1) The insurance company or its affiliate acquires and retains the ownership interest solely for the general account of the insurance company or for one or more separate accounts established by the insurance company;

(2) The acquisition and retention of the ownership interest is conducted in compliance with, and subject to, the insurance company investment laws, regulations, and written guidance of the State or jurisdiction in which such insurance company is domiciled; and

(3) The appropriate Federal banking agencies, after consultation with the Financial Stability Oversight Council and the relevant insurance commissioners of the States and foreign jurisdictions, as appropriate, have not jointly determined, after notice and comment, that a particular law, regulation, or written guidance described in paragraph (c)(2) of this section is insufficient to protect the safety and soundness of the banking entity, or the financial stability of the United States.

§ 255.14 Limitations on relationships with a covered fund.

(a) *Relationships with a covered fund.* (1) Except as provided for in paragraph (a)(2) of this section, no banking entity that serves, directly or indirectly, as the investment manager, investment adviser, commodity trading advisor, or sponsor to a covered fund, that organizes and offers a covered fund pursuant to § 255.11 of this subpart, or that continues to hold an ownership interest in accordance with § 255.11(b) of this subpart, and no affiliate of such entity, may enter into a transaction with the covered fund, or with any other covered fund that is controlled by such covered fund, that would be a covered transaction as defined in section 23A of the Federal Reserve Act (12 U.S.C. 371c(b)(7)), as if such banking entity and the affiliate thereof were a member bank and the covered fund were an affiliate thereof.

(2) Notwithstanding paragraph (a)(1) of this section, a banking entity may:

(i) Acquire and retain any ownership interest in a covered fund in accordance with the requirements of § 255.11, § 255.12, or § 255.13 of this subpart; and

(ii) Enter into any prime brokerage transaction with any covered fund in which a covered fund managed, sponsored, or advised by such banking entity (or an affiliate thereof) has taken an ownership interest, if:

(A) The banking entity is in compliance with each of the limitations set forth in § 255.11 of this subpart with respect to a covered fund organized and offered by such banking entity (or an affiliate thereof);

(B) The chief executive officer (or equivalent officer) of the banking entity certifies in writing annually to the SEC (with a duty to update the certification if the information in the certification materially changes) that the banking entity does not, directly or indirectly, guarantee, assume, or otherwise insure the obligations or performance of the covered fund or of any covered fund in which such covered fund invests; and

(C) The Board has not determined that such transaction is inconsistent with the safe and sound operation and condition of the banking entity.

(b) *Restrictions on transactions with covered funds.* A banking entity that serves, directly or indirectly, as the investment manager, investment adviser, commodity trading advisor, or sponsor to a covered fund, or that organizes and offers a covered fund pursuant to § 255.11 of this subpart, or that continues to hold an ownership interest in accordance with § 255.11(b) of this subpart, shall be subject to section 23B of the Federal Reserve Act (12 U.S.C. 371c–1), as if such banking entity were a member bank and such covered fund were an affiliate thereof.

(c) *Restrictions on prime brokerage transactions.* A prime brokerage transaction permitted under paragraph (a)(2)(ii) of this section shall be subject to section 23B of the Federal Reserve Act (12 U.S.C. 371c–1) as if the counterparty were an affiliate of the banking entity.

§ 255.15 Other limitations on permitted covered fund activities.

(a) No transaction, class of transactions, or activity may be deemed permissible under §§ 255.11 through 255.13 of this subpart if the transaction, class of transactions, or activity would:

(1) Involve or result in a material conflict of interest between the banking entity and its clients, customers, or counterparties;

(2) Result, directly or indirectly, in a material exposure by the banking entity to a high-risk asset or a high-risk trading strategy; or

(3) Pose a threat to the safety and soundness of the banking entity or to the financial stability of the United States.

(b) *Definition of material conflict of interest.* (1) For purposes of this section, a material conflict of interest between a banking entity and its clients, customers, or counterparties exists if the banking entity engages in any transaction, class of transactions, or activity that would involve or result in the banking entity's interests being materially adverse to the interests of its client, customer, or counterparty with respect to such transaction, class of transactions, or activity, and the banking entity has not taken at least one of the actions in paragraph (b)(2) of this section.

(2) Prior to effecting the specific transaction or class or type of transactions, or engaging in the specific activity, the banking entity:

(i) *Timely and effective disclosure.* (A) Has made clear, timely, and effective disclosure of the conflict of interest, together with other necessary information, in reasonable detail and in a manner sufficient to permit a reasonable client, customer, or counterparty to meaningfully understand the conflict of interest; and

(B) Such disclosure is made in a manner that provides the client, customer, or counterparty the opportunity to negate, or substantially mitigate, any materially adverse effect on the client, customer, or counterparty created by the conflict of interest; or

(ii) *Information barriers.* Has established, maintained, and enforced information barriers that are memorialized in written policies and procedures, such as physical separation of personnel, or functions, or limitations on types of activity, that are reasonably designed, taking into consideration the nature of the banking entity's business, to prevent the conflict of interest from involving or resulting in a materially adverse effect on a client, customer, or counterparty. A banking entity may not rely on such information barriers if, in the case of any specific transaction, class or type of transactions or activity, the banking entity knows or should reasonably know that, notwithstanding the banking entity's establishment of information barriers, the conflict of interest may involve or result in a materially adverse effect on a client, customer, or counterparty.

(c) *Definition of high-risk asset and high-risk trading strategy.* For purposes of this section:

(1) *High-risk asset* means an asset or group of related assets that would, if held by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

(2) *High-risk trading strategy* means a trading strategy that would, if engaged in by a banking entity, significantly increase the likelihood that the banking entity would incur a substantial financial loss or would pose a threat to the financial stability of the United States.

§ 255.16 Ownership of interests in and sponsorship of issuers of certain collateralized debt obligations backed by trust-preferred securities.

(a) The prohibition contained in § 255.10(a)(1) does not apply to the ownership by a banking entity of an interest in, or sponsorship of, any issuer if:

(1) The issuer was established, and the interest was issued, before May 19, 2010;

(2) The banking entity reasonably believes that the offering proceeds received by the issuer were invested primarily in Qualifying TruPS Collateral; and

(3) The banking entity acquired such interest on or before December 10, 2013 (or acquired such interest in connection with a merger with or acquisition of a banking entity that acquired the interest on or before December 10, 2013).

(b) For purposes of this § 255.16, *Qualifying TruPS Collateral* shall mean any trust preferred security or subordinated debt instrument issued prior to May 19, 2010 by a depository institution holding company that, as of the end of any reporting period within 12 months immediately preceding the issuance of such trust preferred security or subordinated debt instrument, had total consolidated assets of less than $15,000,000,000 or issued prior to May 19, 2010 by a mutual holding company.

(c) Notwithstanding paragraph (a)(3) of this section, a banking entity may act as a market maker with respect to the interests of an issuer described in paragraph (a) of this section in accordance with the applicable provisions of §§ 255.4 and 255.11.

(d) Without limiting the applicability of paragraph (a) of this section, the Board, the FDIC and the OCC will make public a non-exclusive list of issuers that meet the requirements of paragraph (a). A banking entity may rely on the list published by the Board, the FDIC and the OCC.

§§ 255.17–255.19 [Reserved]

Subpart D—Compliance Program Requirement; Violations

§ 255.20 Program for compliance; reporting.

(a) *Program requirement.* Each banking entity shall develop and provide for the continued administration of a compliance program reasonably designed to ensure and monitor compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part. The terms, scope and detail of the compliance program shall be appropriate for the types, size, scope and complexity of activities and business structure of the banking entity.

(b) *Contents of compliance program.* Except as provided in paragraph (f) of this section, the compliance program required by paragraph (a) of this section, at a minimum, shall include:

(1) Written policies and procedures reasonably designed to document, describe, monitor and limit trading activities subject to subpart B (including those permitted under §§ 255.3 to 255.6 of subpart B), including setting, monitoring and managing required limits set out in § 2554 and § 2555, and activities and investments with respect to a covered fund subject to subpart C (including those permitted under §§ 255.11 through 255.14 of subpart C) conducted by the banking entity to ensure that all activities and investments conducted by the banking entity that are subject to section 13 of the BHC Act and this part comply with section 13 of the BHC Act and this part;

(2) A system of internal controls reasonably designed to monitor compliance with section 13 of the BHC Act and this part and to prevent the occurrence of activities or investments that are prohibited by section 13 of the BHC Act and this part;

(3) A management framework that clearly delineates responsibility and accountability for compliance with section 13 of the BHC Act and this part and includes appropriate management review of trading limits, strategies, hedging activities, investments, incentive compensation and other matters identified in this part or by management as requiring attention;

(4) Independent testing and audit of the effectiveness of the compliance program conducted periodically by qualified personnel of the banking entity or by a qualified outside party;

(5) Training for trading personnel and managers, as well as other appropriate personnel, to effectively implement and enforce the compliance program; and

(6) Records sufficient to demonstrate compliance with section 13 of the BHC Act and this part, which a banking entity must promptly provide to the SEC upon request and retain for a period of no less than 5 years or such longer period as required by the SEC.

(c) *Additional standards.* In addition to the requirements in paragraph (b) of this section, the compliance program of a banking entity must satisfy the requirements and other standards contained in Appendix B, if:

(1) The banking entity engages in proprietary trading permitted under subpart B and is required to comply with the reporting requirements of paragraph (d) of this section;

(2) The banking entity has reported total consolidated assets as of the previous calendar year end of $50 billion or more or, in the case of a foreign banking entity, has total U.S. assets as of the previous calendar year end of $50 billion or more (including all subsidiaries, affiliates, branches and agencies of the foreign banking entity operating, located or organized in the United States); or

(3) The SEC notifies the banking entity in writing that it must satisfy the requirements and other standards contained in Appendix B to this part.

(d) *Reporting requirements under Appendix A to this part.* (1) A banking entity engaged in proprietary trading activity permitted under subpart B shall comply with the reporting requirements described in Appendix A, if:

(i) The banking entity (other than a foreign banking entity as provided in paragraph (d)(1)(ii of this section) has, together with its affiliates and subsidiaries, trading assets and liabilities (excluding trading assets and liabilities involving obligations of or guaranteed by the United States or any agency of the United States) the average gross sum of which (on a worldwide consolidated basis) over the previous consecutive four quarters, as measured as of the last day of each of the four prior calendar quarters, equals or exceeds the threshold established in paragraph (d)(2) of this section;

(ii) In the case of a foreign banking entity, the average gross sum of the trading assets and liabilities of the combined U.S. operations of the foreign banking entity (including all subsidiaries, affiliates, branches and agencies of the foreign banking entity operating, located or organized in the United States and excluding trading assets and liabilities involving obligations of or guaranteed by the United States or any agency of the United States) over the previous consecutive four quarters, as measured as of the last day of each of the four prior calendar quarters, equals or exceeds the threshold established in paragraph (d)(2) of this section; or

(iii) The SEC notifies the banking entity in writing that it must satisfy the reporting requirements contained in Appendix A.

(2) The threshold for reporting under paragraph (d)(1) of this section shall be $50 billion beginning on June 30, 2014; $25 billion beginning on April 30, 2016; and $10 billion beginning on December 31, 2016.

(3) Frequency of reporting: Unless the SEC notifies the banking entity in writing that it must report on a different basis, a banking entity with $50 billion or more in trading assets and liabilities (as calculated in accordance with paragraph (d)(1) of this section) shall report the information required by Appendix A for each calendar month within 30 days of the end of the relevant calendar month; beginning with information for the month of January 2015, such information shall be reported within 10 days of the end of each calendar month. Any other banking entity subject to Appendix A shall report the information required by Appendix A for each calendar quarter within 30 days of the end of that calendar quarter unless the SEC notifies the banking entity in writing that it must report on a different basis.

(e) *Additional documentation for covered funds.* Any banking entity that has more than $10 billion in total consolidated assets as reported on December 31 of the previous two calendar years shall maintain records that include:

(1) Documentation of the exclusions or exemptions other than sections 3(c)(1) and 3(c)(7) of the Investment Company Act of 1940 relied on by each fund sponsored by the banking entity (including all subsidiaries and affiliates) in determining that such fund is not a covered fund;

(2) For each fund sponsored by the banking entity (including all subsidiaries and affiliates) for which the banking entity relies on one or more of the exclusions from the definition of covered fund provided by §§ 255.10(c)(1), 255.10(c)(5), 255.10(c)(8), 255.10(c)(9), or 255.10(c)(10) of subpart C, documentation supporting the banking entity's determination that the fund is not a covered fund pursuant to one or more of those exclusions;

(3) For each seeding vehicle described in § 255.10(c)(12)(i) or (iii) of subpart C that will become a registered investment

company or SEC-regulated business development company, a written plan documenting the banking entity's determination that the seeding vehicle will become a registered investment company or SEC-regulated business development company; the period of time during which the vehicle will operate as a seeding vehicle; and the banking entity's plan to market the vehicle to third-party investors and convert it into a registered investment company or SEC-regulated business development company within the time period specified in § 255.12(a)(2)(i)(B) of subpart C;

(4) For any banking entity that is, or is controlled directly or indirectly by a banking entity that is, located in or organized under the laws of the United States or of any State, if the aggregate amount of ownership interests in foreign public funds that are described in § 255.10(c)(1) of subpart C owned by such banking entity (including ownership interests owned by any affiliate that is controlled directly or indirectly by a banking entity that is located in or organized under the laws of the United States or of any State) exceeds $50 million at the end of two or more consecutive calendar quarters, beginning with the next succeeding calendar quarter, documentation of the value of the ownership interests owned by the banking entity (and such affiliates) in each foreign public fund and each jurisdiction in which any such foreign public fund is organized, calculated as of the end of each calendar quarter, which documentation must continue until the banking entity's aggregate amount of ownership interests in foreign public funds is below $50 million for two consecutive calendar quarters; and

(5) For purposes of paragraph (e)(4) of this section, a U.S. branch, agency, or subsidiary of a foreign banking entity is located in the United States; however, the foreign bank that operates or controls that branch, agency, or subsidiary is not considered to be located in the United States solely by virtue of operating or controlling the U.S. branch, agency, or subsidiary.

(f) *Simplified programs for less active banking entities*—(1) *Banking entities with no covered activities.* A banking entity that does not engage in activities or investments pursuant to subpart B or subpart C (other than trading activities permitted pursuant to § 255.6(a) of subpart B) may satisfy the requirements of this section by establishing the required compliance program prior to becoming engaged in such activities or making such investments (other than trading activities permitted pursuant to § 255.6(a) of subpart B).

(2) *Banking entities with modest activities.* A banking entity with total consolidated assets of $10 billion or less as reported on December 31 of the previous two calendar years that engages in activities or investments pursuant to subpart B or subpart C (other than trading activities permitted under § 255.6(a) of subpart B) may satisfy the requirements of this section by including in its existing compliance policies and procedures appropriate references to the requirements of section 13 of the BHC Act and this part and adjustments as appropriate given the activities, size, scope and complexity of the banking entity.

§ 255.21 Termination of activities or investments; penalties for violations.

(a) Any banking entity that engages in an activity or makes an investment in violation of section 13 of the BHC Act or this part, or acts in a manner that functions as an evasion of the requirements of section 13 of the BHC Act or this part, including through an abuse of any activity or investment permitted under subparts B or C, or otherwise violates the restrictions and requirements of section 13 of the BHC Act or this part, shall, upon discovery, promptly terminate the activity and, as relevant, dispose of the investment.

(b) Whenever the SEC finds reasonable cause to believe any banking entity has engaged in an activity or made an investment in violation of section 13 of the BHC Act or this part, or engaged in any activity or made any investment that functions as an evasion of the requirements of section 13 of the BHC Act or this part, the SEC may take any action permitted by law to enforce compliance with section 13 of the BHC Act and this part, including directing the banking entity to restrict, limit, or terminate any or all activities under this part and dispose of any investment.

Appendix A to Part 255—Reporting and Recordkeeping Requirements for Covered Trading Activities

I. Purpose

a. This appendix sets forth reporting and recordkeeping requirements that certain banking entities must satisfy in connection with the restrictions on proprietary trading set forth in subpart B (''proprietary trading restrictions''). Pursuant to § 255.20(d), this appendix generally applies to a banking entity that, together with its affiliates and subsidiaries, has significant trading assets and liabilities. These entities are required to (i) furnish periodic reports to the SEC regarding a variety of quantitative measurements of their covered trading activities, which vary depending on the scope and size of covered trading activities, and (ii) create and maintain records documenting the preparation and content of these reports. The requirements of this appendix must be incorporated into the banking entity's internal compliance program under § 255.20 and Appendix B.

b. The purpose of this appendix is to assist banking entities and the SEC in:

(i) Better understanding and evaluating the scope, type, and profile of the banking entity's covered trading activities;

(ii) Monitoring the banking entity's covered trading activities;

(iii) Identifying covered trading activities that warrant further review or examination by the banking entity to verify compliance with the proprietary trading restrictions;

(iv) Evaluating whether the covered trading activities of trading desks engaged in market making-related activities subject to § 255.4(b) are consistent with the requirements governing permitted market making-related activities;

(v) Evaluating whether the covered trading activities of trading desks that are engaged in permitted trading activity subject to §§ 255.4, 255.5, or 255.6(a)–(b) (*i.e.,* underwriting and market making-related related activity, risk-mitigating hedging, or trading in certain government obligations) are consistent with the requirement that such activity not result, directly or indirectly, in a material exposure to high-risk assets or high-risk trading strategies;

(vi) Identifying the profile of particular covered trading activities of the banking entity, and the individual trading desks of the banking entity, to help establish the appropriate frequency and scope of examination by the SEC of such activities; and

(vii) Assessing and addressing the risks associated with the banking entity's covered trading activities.

c. The quantitative measurements that must be furnished pursuant to this appendix are *not* intended to serve as a dispositive tool for the identification of permissible or impermissible activities.

d. In order to allow banking entities and the Agencies to evaluate the effectiveness of these metrics, banking entities must collect and report these metrics for all trading desks beginning on the dates established in § 255.20 of the final rule. The Agencies will review the data collected and revise this collection requirement as appropriate based on a review of the data collected prior to September 30, 2015.

e. In addition to the quantitative measurements required in this appendix, a banking entity may need to develop and implement other quantitative measurements in order to effectively monitor its covered trading activities for compliance with section 13 of the BHC Act and this part and to have an effective compliance program, as required by § 255.20 and Appendix B to this part. The effectiveness of particular quantitative measurements may differ based on the profile of the banking entity's businesses in general and, more specifically, of the particular trading desk, including types of instruments traded, trading activities and strategies, and history and experience (*e.g.,* whether the trading desk is an established, successful market maker or a new entrant to a competitive market). In all cases, banking entities must ensure that they have robust measures in place to identify and monitor the risks taken in their trading activities, to ensure that the activities are within risk tolerances established by the banking entity, and to monitor and examine for compliance with the proprietary trading restrictions in this part.

f. On an ongoing basis, banking entities must carefully monitor, review, and evaluate all furnished quantitative measurements, as well as any others that they choose to utilize in order to maintain compliance with section 13 of the BHC Act and this part. All measurement results that indicate a heightened risk of impermissible proprietary trading, including with respect to otherwise-permitted activities under §§ 255.4 through 255.6(a) and (b), or that result in a material exposure to high-risk assets or high-risk trading strategies, must be escalated within the banking entity for review, further analysis, explanation to the SEC, and remediation, where appropriate. The quantitative measurements discussed in this appendix should be helpful to banking entities in identifying and managing the risks related to their covered trading activities.

II. Definitions

The terms used in this appendix have the same meanings as set forth in §§ 255.2 and 255.3. In addition, for purposes of this appendix, the following definitions apply:

Calculation period means the period of time for which a particular quantitative measurement must be calculated.

Comprehensive profit and loss means the net profit or loss of a trading desk's material sources of trading revenue over a specific period of time, including, for example, any increase or decrease in the market value of a trading desk's holdings, dividend income, and interest income and expense.

Covered trading activity means trading conducted by a trading desk under §§ 255.4, 255.5, 255.6(a), or 255.6(b). A banking entity may include trading under §§ 255.3(d), 255.6(c), 255.6(d) or 255.6(e).

Measurement frequency means the frequency with which a particular quantitative metric must be calculated and recorded.

Trading desk means the smallest discrete unit of organization of a banking entity that purchases or sells financial instruments for the trading account of the banking entity or an affiliate thereof.

III. Reporting and Recordkeeping of Quantitative Measurements

a. Scope of Required Reporting

General scope. Each banking entity made subject to this part by § 255.20 must furnish the following quantitative measurements for each trading desk of the banking entity, calculated in accordance with this appendix:

- Risk and Position Limits and Usage;
- Risk Factor Sensitivities;
- Value-at-Risk and Stress VaR;
- Comprehensive Profit and Loss Attribution;
- Inventory Turnover;
- Inventory Aging; and
- Customer-Facing Trade Ratio

b. Frequency of Required Calculation and Reporting

A banking entity must calculate any applicable quantitative measurement for each trading day. A banking entity must report each applicable quantitative measurement to the SEC on the reporting schedule established in § 255.20 unless otherwise requested by the SEC. All quantitative measurements for any calendar month must be reported within the time period required by § 255.20.

c. Recordkeeping

A banking entity must, for any quantitative measurement furnished to the SEC pursuant to this appendix and § 255.20(d), create and maintain records documenting the preparation and content of these reports, as well as such information as is necessary to permit the SEC to verify the accuracy of such reports, for a period of 5 years from the end of the calendar year for which the measurement was taken.

IV. Quantitative Measurements

a. Risk-Management Measurements

1. Risk and Position Limits and Usage

i. *Description:* For purposes of this appendix, Risk and Position Limits are the constraints that define the amount of risk that a trading desk is permitted to take at a point in time, as defined by the banking entity for a specific trading desk. Usage represents the portion of the trading desk's limits that are accounted for by the current activity of the desk. Risk and position limits and their usage are key risk management tools used to control and monitor risk taking and include, but are not limited, to the limits set out in § 255.4 and § 255.5. A number of the metrics that are described below, including ''Risk Factor Sensitivities'' and ''Value-at-Risk and Stress Value-at-Risk,'' relate to a trading desk's risk and position limits and are useful in evaluating and setting these limits in the broader context of the trading desk's overall activities, particularly for the market making activities under § 255.4(b) and hedging activity under § 255.5. Accordingly, the limits required under § 255.4(b)(2)(iii) and § 255.5(b)(1)(i) must meet the applicable requirements under § 255.4(b)(2)(iii) and § 255.5(b)(1)(i) and also must include appropriate metrics for the trading desk limits including, at a minimum, the ''Risk Factor Sensitivities'' and ''Value-at-Risk and Stress Value-at-Risk'' metrics except to the extent any of the ''Risk Factor Sensitivities'' or ''Value-at-Risk and Stress Value-at-Risk'' metrics are demonstrably ineffective for measuring and monitoring the risks of a trading desk based on the types of positions traded by, and risk exposures of, that desk.

ii. *General Calculation Guidance:* Risk and Position Limits must be reported in the format used by the banking entity for the purposes of risk management of each trading desk. Risk and Position Limits are often expressed in terms of risk measures, such as VaR and Risk Factor Sensitivities, but may also be expressed in terms of other observable criteria, such as net open positions. When criteria other than VaR or Risk Factor Sensitivities are used to define the Risk and Position Limits, both the value of the Risk and Position Limits and the value of the variables used to assess whether these limits have been reached must be reported.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

2. Risk Factor Sensitivities

i. *Description:* For purposes of this appendix, Risk Factor Sensitivities are changes in a trading desk's Comprehensive Profit and Loss that are expected to occur in the event of a change in one or more underlying variables that are significant sources of the trading desk's profitability and risk.

ii. *General Calculation Guidance:* A banking entity must report the Risk Factor Sensitivities that are monitored and managed as part of the trading desk's overall risk management policy. The underlying data and methods used to compute a trading desk's Risk Factor Sensitivities will depend on the specific function of the trading desk and the internal risk management models employed. The number and type of Risk Factor Sensitivities that are monitored and managed by a trading desk, and furnished to the SEC, will depend on the explicit risks assumed by the trading desk. In general, however, reported Risk Factor Sensitivities must be sufficiently granular to account for a preponderance of the expected price variation in the trading desk's holdings.

A. Trading desks must take into account any relevant factors in calculating Risk Factor Sensitivities, including, for example, the following with respect to particular asset classes:

- *Commodity derivative positions:* Risk factors with respect to the related commodities set out in 17 CFR 20.2, the maturity of the positions, volatility and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Credit positions:* Risk factors with respect to credit spreads that are sufficiently granular to account for specific credit sectors and market segments, the maturity profile of the positions, and risk factors with respect to interest rates of all relevant maturities;
- *Credit-related derivative positions:* Risk factor sensitivities, for example credit spreads, shifts (parallel and non-parallel) in credit spreads—volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Equity derivative positions:* Risk factor sensitivities such as equity positions, volatility, and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and the maturity profile of the positions;
- *Equity positions:* Risk factors for equity prices and risk factors that differentiate between important equity market sectors and segments, such as a small capitalization equities and international equities;
- *Foreign exchange derivative positions:* Risk factors with respect to major currency pairs and maturities, exposure to interest rates at relevant maturities, volatility, and/or

correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), as well as the maturity profile of the positions; and

• *Interest rate positions, including interest rate derivative positions:* Risk factors with respect to major interest rate categories and maturities and volatility and/or correlation sensitivities (expressed in a manner that demonstrates any significant non-linearities), and shifts (parallel and non-parallel) in the interest rate curve, as well as the maturity profile of the positions.

B. The methods used by a banking entity to calculate sensitivities to a common factor shared by multiple trading desks, such as an equity price factor, must be applied consistently across its trading desks so that the sensitivities can be compared from one trading desk to another.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

3. Value-at-Risk and Stress Value-at-Risk

i. *Description:* For purposes of this appendix, Value-at-Risk (''VaR'') is the commonly used percentile measurement of the risk of future financial loss in the value of a given set of aggregated positions over a specified period of time, based on current market conditions. For purposes of this appendix, Stress Value-at-Risk (''Stress VaR'') is the percentile measurement of the risk of future financial loss in the value of a given set of aggregated positions over a specified period of time, based on market conditions during a period of significant financial stress.

ii. *General Calculation Guidance:* Banking entities must compute and report VaR and Stress VaR by employing generally accepted standards and methods of calculation. VaR should reflect a loss in a trading desk that is expected to be exceeded less than one percent of the time over a one-day period. For those banking entities that are subject to regulatory capital requirements imposed by a Federal banking agency, VaR and Stress VaR must be computed and reported in a manner that is consistent with such regulatory capital requirements. In cases where a trading desk does not have a standalone VaR or Stress VaR calculation but is part of a larger aggregation of positions for which a VaR or Stress VaR calculation is performed, a VaR or Stress VaR calculation that includes only the trading desk's holdings must be performed consistent with the VaR or Stress VaR model and methodology used for the larger aggregation of positions.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

b. Source-of-Revenue Measurements

1. Comprehensive Profit and Loss Attribution

i. *Description:* For purposes of this appendix, Comprehensive Profit and Loss Attribution is an analysis that attributes the daily fluctuation in the value of a trading desk's positions to various sources. First, the daily profit and loss of the aggregated positions is divided into three categories: (i) Profit and loss attributable to a trading desk's existing positions that were also positions held by the trading desk as of the end of the prior day (''existing positions''); (ii) profit and loss attributable to new positions resulting from the current day's trading activity (''new positions''); and (iii) residual profit and loss that cannot be specifically attributed to existing positions or new positions. The sum of (i), (ii), and (iii) must equal the trading desk's comprehensive profit and loss at each point in time. In addition, profit and loss measurements must calculate volatility of comprehensive profit and loss (*i.e.,* the standard deviation of the trading desk's one-day profit and loss, in dollar terms) for the reporting period for at least a 30-, 60- and 90-day lag period, from the end of the reporting period, and any other period that the banking entity deems necessary to meet the requirements of the rule.

A. The comprehensive profit and loss associated with existing positions must reflect changes in the value of these positions on the applicable day. The comprehensive profit and loss from existing positions must be further attributed, as applicable, to changes in (i) the specific Risk Factors and other factors that are monitored and managed as part of the trading desk's overall risk management policies and procedures; and (ii) any other applicable elements, such as cash flows, carry, changes in reserves, and the correction, cancellation, or exercise of a trade.

B. The comprehensive profit and loss attributed to new positions must reflect commissions and fee income or expense and market gains or losses associated with transactions executed on the applicable day. New positions include purchases and sales of financial instruments and other assets/liabilities and negotiated amendments to existing positions. The comprehensive profit and loss from new positions may be reported in the aggregate and does not need to be further attributed to specific sources.

C. The portion of comprehensive profit and loss that cannot be specifically attributed to known sources must be allocated to a residual category identified as an unexplained portion of the comprehensive profit and loss. Significant unexplained profit and loss must be escalated for further investigation and analysis.

ii. *General Calculation Guidance:* The specific categories used by a trading desk in the attribution analysis and amount of detail for the analysis should be tailored to the type and amount of trading activities undertaken by the trading desk. The new position attribution must be computed by calculating the difference between the prices at which instruments were bought and/or sold and the prices at which those instruments are marked to market at the close of business on that day multiplied by the notional or principal amount of each purchase or sale. Any fees, commissions, or other payments received (paid) that are associated with transactions executed on that day must be added (subtracted) from such difference. These factors must be measured consistently over time to facilitate historical comparisons.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

c. Customer-Facing Activity Measurements

1. Inventory Turnover

i. *Description:* For purposes of this appendix, Inventory Turnover is a ratio that measures the turnover of a trading desk's inventory. The numerator of the ratio is the absolute value of all transactions over the reporting period. The denominator of the ratio is the value of the trading desk's inventory at the beginning of the reporting period.

ii. *General Calculation Guidance:* For purposes of this appendix, for derivatives, other than options and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value, and for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* 30 days, 60 days, and 90 days.

iv. *Measurement Frequency:* Daily.

2. Inventory Aging

i. *Description:* For purposes of this appendix, Inventory Aging generally describes a schedule of the trading desk's aggregate assets and liabilities and the amount of time that those assets and liabilities have been held. Inventory Aging should measure the age profile of the trading desk's assets and liabilities.

ii. *General Calculation Guidance:* In general, Inventory Aging must be computed using a trading desk's trading activity data and must identify the value of a trading desk's aggregate assets and liabilities. Inventory Aging must include two schedules, an asset-aging schedule and a liability-aging schedule. Each schedule must record the value of assets or liabilities held over all holding periods. For derivatives, other than options, and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value and, for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* One trading day.

iv. *Measurement Frequency:* Daily.

3. Customer-Facing Trade Ratio—Trade Count Based and Value Based

i. *Description:* For purposes of this appendix, the Customer-Facing Trade Ratio is a ratio comparing (i) the transactions involving a counterparty that is a customer of the trading desk to (ii) the transactions involving a counterparty that is not a customer of the trading desk. A trade count based ratio must be computed that records the number of transactions involving a counterparty that is a customer of the trading desk and the number of transactions involving a counterparty that is not a customer of the trading desk. A value based ratio must be computed that records the value of transactions involving a counterparty that is a customer of the trading desk and the value of transactions involving a counterparty that is not a customer of the trading desk.

ii. *General Calculation Guidance:* For purposes of calculating the Customer-Facing Trade Ratio, a counterparty is considered to be a customer of the trading desk if the counterparty is a market participant that makes use of the banking entity's market making-related services by obtaining such services, responding to quotations, or entering into a continuing relationship with respect to such services. However, a trading desk or other organizational unit of another banking entity would not be a client, customer, or counterparty of the trading desk if the other entity has trading assets and liabilities of $50 billion or more as measured in accordance with § 255.20(d)(1) unless the trading desk documents how and why a particular trading desk or other organizational unit of the entity should be treated as a client, customer, or counterparty of the trading desk. Transactions conducted anonymously on an exchange or similar trading facility that permits trading on behalf of a broad range of market participants would be considered transactions with customers of the trading desk. For derivatives, other than options, and interest rate derivatives, value means gross notional value, for options, value means delta adjusted notional value, and for interest rate derivatives, value means 10-year bond equivalent value.

iii. *Calculation Period:* 30 days, 60 days, and 90 days.

iv. *Measurement Frequency:* Daily.

Appendix B to Part 255—Enhanced Minimum Standards for Compliance Programs

I. Overview

Section 255.20(c) requires certain banking entities to establish, maintain, and enforce an enhanced compliance program that includes the requirements and standards in this Appendix as well as the minimum written policies and procedures, internal controls, management framework, independent testing, training, and recordkeeping provisions outlined in § 255.20. This Appendix sets forth additional minimum standards with respect to the establishment, oversight, maintenance, and enforcement by these banking entities of an enhanced internal compliance program for ensuring and monitoring compliance with the prohibitions and restrictions on proprietary trading and covered fund activities and investments set forth in section 13 of the BHC Act and this part.

a. This compliance program must:

1. Be reasonably designed to identify, document, monitor, and report the permitted trading and covered fund activities and investments of the banking entity; identify, monitor and promptly address the risks of these covered activities and investments and potential areas of noncompliance; and prevent activities or investments prohibited by, or that do not comply with, section 13 of the BHC Act and this part;

2. Establish and enforce appropriate limits on the covered activities and investments of the banking entity, including limits on the size, scope, complexity, and risks of the individual activities or investments consistent with the requirements of section 13 of the BHC Act and this part;

3. Subject the effectiveness of the compliance program to periodic independent review and testing, and ensure that the entity's internal audit, corporate compliance and internal control functions involved in review and testing are effective and independent;

4. Make senior management, and others as appropriate, accountable for the effective implementation of the compliance program, and ensure that the board of directors and chief executive officer (or equivalent) of the banking entity review the effectiveness of the compliance program; and

5. Facilitate supervision and examination by the Agencies of the banking entity's permitted trading and covered fund activities and investments.

II. Enhanced Compliance Program

a. *Proprietary Trading Activities.* A banking entity must establish, maintain and enforce a compliance program that includes written policies and procedures that are appropriate for the types, size, and complexity of, and risks associated with, its permitted trading activities. The compliance program may be tailored to the types of trading activities conducted by the banking entity, and must include a detailed description of controls established by the banking entity to reasonably ensure that its trading activities are conducted in accordance with the requirements and limitations applicable to those trading activities under section 13 of the BHC Act and this part, and provide for appropriate revision of the compliance program before expansion of the trading activities of the banking entity. A banking entity must devote adequate resources and use knowledgeable personnel in conducting, supervising and managing its trading activities, and promote consistency, independence and rigor in implementing its risk controls and compliance efforts. The compliance program must be updated with a frequency sufficient to account for changes in the activities of the banking entity, results of independent testing of the program, identification of weaknesses in the program, and changes in legal, regulatory or other requirements.

1. *Trading Desks:* The banking entity must have written policies and procedures governing each trading desk that include a description of:

i. The process for identifying, authorizing and documenting financial instruments each trading desk may purchase or sell, with separate documentation for market making-related activities conducted in reliance on § 255.4(b) and for hedging activity conducted in reliance on § 255.5;

ii. A mapping for each trading desk to the division, business line, or other organizational structure that is responsible for managing and overseeing the trading desk's activities;

iii. The mission (*i.e.,* the type of trading activity, such as market-making, trading in sovereign debt, etc.) and strategy (*i.e.,* methods for conducting authorized trading activities) of each trading desk;

iv. The activities that the trading desk is authorized to conduct, including (i) authorized instruments and products, and (ii) authorized hedging strategies, techniques and instruments;

v. The types and amount of risks allocated by the banking entity to each trading desk to implement the mission and strategy of the trading desk, including an enumeration of material risks resulting from the activities in which the trading desk is authorized to engage (including but not limited to price risks, such as basis, volatility and correlation risks, as well as counterparty credit risk). Risk assessments must take into account both the risks inherent in the trading activity and the strength and effectiveness of controls designed to mitigate those risks;

vi. How the risks allocated to each trading desk will be measured;

vii. Why the allocated risks levels are appropriate to the activities authorized for the trading desk;

viii. The limits on the holding period of, and the risk associated with, financial instruments under the responsibility of the trading desk;

ix. The process for setting new or revised limits, as well as escalation procedures for granting exceptions to any limits or to any policies or procedures governing the desk, the analysis that will be required to support revising limits or granting exceptions, and the process for independently reviewing and documenting those exceptions and the underlying analysis;

x. The process for identifying, documenting and approving new products, trading strategies, and hedging strategies;

xi. The types of clients, customers, and counterparties with whom the trading desk may trade; and

xii. The compensation arrangements, including incentive arrangements, for employees associated with the trading desk, which may not be designed to reward or incentivize prohibited proprietary trading or excessive or imprudent risk-taking.

2. *Description of risks and risk management processes:* The compliance program for the banking entity must include a comprehensive description of the risk management program for the trading activity of the banking entity. The compliance program must also include a description of the governance, approval, reporting, escalation, review and other processes the banking entity will use to reasonably ensure that trading activity is conducted in compliance with section 13 of the BHC Act and this part. Trading activity in similar financial instruments should be subject to similar governance, limits, testing, controls, and review, unless the banking entity specifically determines to establish different limits or processes and documents those differences. Descriptions must include, at a minimum, the following elements:

i. A description of the supervisory and risk management structure governing all trading activity, including a description of processes for initial and senior-level review of new products and new strategies;

ii. A description of the process for developing, documenting, testing, approving and reviewing all models used for valuing, identifying and monitoring the risks of trading activity and related positions, including the process for periodic independent testing of the reliability and accuracy of those models;

iii. A description of the process for developing, documenting, testing, approving and reviewing the limits established for each trading desk;

iv. A description of the process by which a security may be purchased or sold pursuant to the liquidity management plan, including the process for authorizing and monitoring such activity to ensure compliance with the banking entity's liquidity management plan and the restrictions on liquidity management activities in this part;

v. A description of the management review process, including escalation procedures, for approving any temporary exceptions or permanent adjustments to limits on the activities, positions, strategies, or risks associated with each trading desk; and

vi. The role of the audit, compliance, risk management and other relevant units for conducting independent testing of trading and hedging activities, techniques and strategies.

3. Authorized risks, instruments, and products. The banking entity must implement and enforce limits and internal controls for each trading desk that are reasonably designed to ensure that trading activity is conducted in conformance with section 13 of the BHC Act and this part and with the banking entity's written policies and procedures. The banking entity must establish and enforce risk limits appropriate for the activity of each trading desk. These limits should be based on probabilistic and non-probabilistic measures of potential loss (*e.g.,* Value-at-Risk and notional exposure, respectively), and measured under normal and stress market conditions. At a minimum, these internal controls must monitor, establish and enforce limits on:

i. The financial instruments (including, at a minimum, by type and exposure) that the trading desk may trade;

ii. The types and levels of risks that may be taken by each trading desk; and

iii. The types of hedging instruments used, hedging strategies employed, and the amount of risk effectively hedged.

4. Hedging policies and procedures. The banking entity must establish, maintain, and enforce written policies and procedures regarding the use of risk-mitigating hedging instruments and strategies that, at a minimum, describe:

i. The positions, techniques and strategies that each trading desk may use to hedge the risk of its positions;

ii. The manner in which the banking entity will identify the risks arising in connection with and related to the individual or aggregated positions, contracts or other holdings of the banking entity that are to be hedged and determine that those risks have been properly and effectively hedged;

iii. The level of the organization at which hedging activity and management will occur;

iv. The manner in which hedging strategies will be monitored and the personnel responsible for such monitoring;

v. The risk management processes used to control unhedged or residual risks; and

vi. The process for developing, documenting, testing, approving and reviewing all hedging positions, techniques and strategies permitted for each trading desk and for the banking entity in reliance on § 255.5.

5. Analysis and quantitative measurements. The banking entity must perform robust analysis and quantitative measurement of its trading activities that is reasonably designed to ensure that the trading activity of each trading desk is consistent with the banking entity's compliance program; monitor and assist in the identification of potential and actual prohibited proprietary trading activity; and prevent the occurrence of prohibited proprietary trading. Analysis and models used to determine, measure and limit risk must be rigorously tested and be reviewed by management responsible for trading activity to ensure that trading activities, limits, strategies, and hedging activities do not understate the risk and exposure to the banking entity or allow prohibited proprietary trading. This review should include periodic and independent back-testing and revision of activities, limits, strategies and hedging as appropriate to contain risk and ensure compliance. In addition to the quantitative measurements reported by any banking entity subject to Appendix A to this part, each banking entity must develop and implement, to the extent appropriate to facilitate compliance with this part, additional quantitative measurements specifically tailored to the particular risks, practices, and strategies of its trading desks. The banking entity's analysis and quantitative measurements must incorporate the quantitative measurements reported by the banking entity pursuant to Appendix A (if applicable) and include, at a minimum, the following:

i. Internal controls and written policies and procedures reasonably designed to ensure the accuracy and integrity of quantitative measurements;

ii. Ongoing, timely monitoring and review of calculated quantitative measurements;

iii. The establishment of numerical thresholds and appropriate trading measures for each trading desk and heightened review of trading activity not consistent with those thresholds to ensure compliance with section 13 of the BHC Act and this part, including analysis of the measurement results or other information, appropriate escalation procedures, and documentation related to the review; and

iv. Immediate review and compliance investigation of the trading desk's activities, escalation to senior management with oversight responsibilities for the applicable trading desk, timely notification to the SEC, appropriate remedial action (*e.g.,* divesting of impermissible positions, cessation of impermissible activity, disciplinary actions), and documentation of the investigation findings and remedial action taken when quantitative measurements or other information, considered together with the facts and circumstances, or findings of internal audit, independent testing or other review suggest a reasonable likelihood that the trading desk has violated any part of section 13 of the BHC Act or this part.

6. Other Compliance Matters. In addition to the requirements specified above, the banking entity's compliance program must:

i. Identify activities of each trading desk that will be conducted in reliance on exemptions contained in §§ 255.4 through 255.6, including an explanation of:

A. How and where in the organization the activity occurs; and

B. Which exemption is being relied on and how the activity meets the specific requirements for reliance on the applicable exemption;

ii. Include an explanation of the process for documenting, approving and reviewing actions taken pursuant to the liquidity management plan, where in the organization this activity occurs, the securities permissible for liquidity management, the process for ensuring that liquidity management activities are not conducted for the purpose of prohibited proprietary trading, and the process for ensuring that securities purchased as part of the liquidity management plan are highly liquid and conform to the requirements of this part;

iii. Describe how the banking entity monitors for and prohibits potential or actual material exposure to high-risk assets or high-risk trading strategies presented by each trading desk that relies on the exemptions contained in §§ 255.3(d)(3), and 255.4 through 255.6, which must take into account potential or actual exposure to:

A. Assets whose values cannot be externally priced or, where valuation is reliant on pricing models, whose model inputs cannot be externally validated;

B. Assets whose changes in value cannot be adequately mitigated by effective hedging;

C. New products with rapid growth, including those that do not have a market history;

D. Assets or strategies that include significant embedded leverage;

E. Assets or strategies that have demonstrated significant historical volatility;

F. Assets or strategies for which the application of capital and liquidity standards would not adequately account for the risk; and

G. Assets or strategies that result in large and significant concentrations to sectors, risk factors, or counterparties;

iv. Establish responsibility for compliance with the reporting and recordkeeping requirements of subpart B and § 255.20; and

v. Establish policies for monitoring and prohibiting potential or actual material conflicts of interest between the banking entity and its clients, customers, or counterparties.

7. Remediation of violations. The banking entity's compliance program must be reasonably designed and established to effectively monitor and identify for further analysis any trading activity that may indicate potential violations of section 13 of the BHC Act and this part and to prevent actual violations of section 13 of the BHC Act and this part. The compliance program must describe procedures for identifying and remedying violations of section 13 of the BHC Act and this part, and must include, at a minimum, a requirement to promptly document, address and remedy any violation of section 13 of the BHC Act or this part, and document all proposed and actual remediation efforts. The compliance program must include specific written policies and procedures that are reasonably designed to assess the extent to which any activity indicates that modification to the banking entity's compliance program is warranted and to ensure that appropriate modifications are implemented. The written policies and procedures must provide for prompt notification to appropriate management, including senior management and the board of directors, of any material weakness or significant deficiencies in the design or implementation of the compliance program of the banking entity.

b. *Covered Fund Activities or Investments.* A banking entity must establish, maintain and enforce a compliance program that includes written policies and procedures that are appropriate for the types, size, complexity and risks of the covered fund and related activities conducted and investments made, by the banking entity.

1. Identification of covered funds. The banking entity's compliance program must provide a process, which must include appropriate management review and independent testing, for identifying and documenting covered funds that each unit within the banking entity's organization sponsors or organizes and offers, and covered funds in which each such unit invests. In addition to the documentation requirements for covered funds, as specified under § 255.20(e), the documentation must include information that identifies all pools that the banking entity sponsors or has an interest in and the type of exemption from the Commodity Exchange Act (whether or not the pool relies on section 4.7 of the regulations under the Commodity Exchange Act), and the amount of ownership interest the banking entity has in those pools.

2. Identification of covered fund activities and investments. The banking entity's compliance program must identify, document and map each unit within the organization that is permitted to acquire or hold an interest in any covered fund or sponsor any covered fund and map each unit to the division, business line, or other organizational structure that will be responsible for managing and overseeing that unit's activities and investments.

3. Explanation of compliance. The banking entity's compliance program must explain how:

i. The banking entity monitors for and prohibits potential or actual material conflicts of interest between the banking entity and its clients, customers, or counterparties related to its covered fund activities and investments;

ii. The banking entity monitors for and prohibits potential or actual transactions or activities that may threaten the safety and soundness of the banking entity related to its covered fund activities and investments; and

iii. The banking entity monitors for and prohibits potential or actual material exposure to high-risk assets or high-risk trading strategies presented by its covered fund activities and investments, taking into account potential or actual exposure to:

A. Assets whose values cannot be externally priced or, where valuation is reliant on pricing models, whose model inputs cannot be externally validated;

B. Assets whose changes in values cannot be adequately mitigated by effective hedging;

C. New products with rapid growth, including those that do not have a market history;

D. Assets or strategies that include significant embedded leverage;

E. Assets or strategies that have demonstrated significant historical volatility;

F. Assets or strategies for which the application of capital and liquidity standards would not adequately account for the risk; and

G. Assets or strategies that expose the banking entity to large and significant concentrations with respect to sectors, risk factors, or counterparties;

4. Description and documentation of covered fund activities and investments. For each organizational unit engaged in covered fund activities and investments, the banking entity's compliance program must document:

i. The covered fund activities and investments that the unit is authorized to conduct;

ii. The banking entity's plan for actively seeking unaffiliated investors to ensure that any investment by the banking entity conforms to the limits contained in § 255.12 or registered in compliance with the securities laws and thereby exempt from those limits within the time periods allotted in§ 255.12; and

iii. How it complies with the requirements of subpart C.

5. Internal Controls. A banking entity must establish, maintain, and enforce internal controls that are reasonably designed to ensure that its covered fund activities or investments comply with the requirements of section 13 of the BHC Act and this part and are appropriate given the limits on risk established by the banking entity. These written internal controls must be reasonably designed and established to effectively monitor and identify for further analysis any covered fund activity or investment that may indicate potential violations of section 13 of the BHC Act or this part. The internal controls must, at a minimum require:

i. Monitoring and limiting the banking entity's individual and aggregate investments in covered funds;

ii. Monitoring the amount and timing of seed capital investments for compliance with the limitations under subpart C (including but not limited to the redemption, sale or disposition requirements) of § 255.12, and the effectiveness of efforts to seek unaffiliated investors to ensure compliance with those limits;

iii. Calculating the individual and aggregate levels of ownership interests in one or more covered fund required by § 255.12;

iv. Attributing the appropriate instruments to the individual and aggregate ownership interest calculations above;

v. Making disclosures to prospective and actual investors in any covered fund organized and offered or sponsored by the banking entity, as provided under § 255.11(a)(8);

vi. Monitoring for and preventing any relationship or transaction between the banking entity and a covered fund that is prohibited under § 255.14, including where the banking entity has been designated as the sponsor, investment manager, investment adviser, or commodity trading advisor to a covered fund by another banking entity; and

vii. Appropriate management review and supervision across legal entities of the banking entity to ensure that services and products provided by all affiliated entities comply with the limitation on services and products contained in § 255.14.

6. Remediation of violations. The banking entity's compliance program must be reasonably designed and established to effectively monitor and identify for further analysis any covered fund activity or investment that may indicate potential violations of section 13 of the BHC Act or this part and to prevent actual violations of section 13 of the BHC Act and this part. The banking entity's compliance program must describe procedures for identifying and remedying violations of section 13 of the BHC Act and this part, and must include, at a minimum, a requirement to promptly document, address and remedy any violation of section 13 of the BHC Act or this part, including § 255.21, and document all proposed and actual remediation efforts. The compliance program must include specific written policies and procedures that are reasonably designed to assess the extent to which any activity or investment indicates that modification to the banking entity's compliance program is warranted and to ensure that appropriate modifications are implemented. The written policies and procedures must provide for prompt notification to appropriate management, including senior management and the board of directors, of any material weakness or significant deficiencies in the design or implementation of the compliance program of the banking entity.

III. Responsibility and Accountability for the Compliance Program

a. A banking entity must establish, maintain, and enforce a governance and management framework to manage its business and employees with a view to preventing violations of section 13 of the BHC Act and this part. A banking entity must have an appropriate management framework reasonably designed to ensure that: Appropriate personnel are responsible and accountable for the effective implementation and enforcement of the compliance program; a clear reporting line with a chain of responsibility is delineated; and the compliance program is reviewed periodically by senior management. The board of directors (or equivalent governance body) and senior management should have the appropriate authority and access to personnel and information within the organizations as well as appropriate resources to conduct their oversight activities effectively.

1. Corporate governance. The banking entity must adopt a written compliance program approved by the board of directors, an appropriate committee of the board, or equivalent governance body, and senior management.

2. Management procedures. The banking entity must establish, maintain, and enforce a governance framework that is reasonably designed to achieve compliance with section 13 of the BHC Act and this part, which, at a minimum, provides for:

i. The designation of appropriate senior management or committee of senior management with authority to carry out the management responsibilities of the banking entity for each trading desk and for each organizational unit engaged in covered fund activities;

ii. Written procedures addressing the management of the activities of the banking entity that are reasonably designed to achieve compliance with section 13 of the BHC Act and this part, including:

A. A description of the management system, including the titles, qualifications, and locations of managers and the specific responsibilities of each person with respect to the banking entity's activities governed by section 13 of the BHC Act and this part; and

B. Procedures for determining compensation arrangements for traders engaged in underwriting or market making-related activities under § 255.4 or risk-mitigating hedging activities under § 255.5 so that such compensation arrangements are designed not to reward or incentivize prohibited proprietary trading and appropriately balance risk and financial results in a manner that does not encourage employees to expose the banking entity to excessive or imprudent risk.

3. Business line managers. Managers with responsibility for one or more trading desks of the banking entity are accountable for the effective implementation and enforcement of the compliance program with respect to the applicable trading desk(s).

4. Board of directors, or similar corporate body, and senior management. The board of directors, or similar corporate body, and senior management are responsible for setting and communicating an appropriate culture of compliance with section 13 of the BHC Act and this part and ensuring that appropriate policies regarding the management of trading activities and covered fund activities or investments are adopted to comply with section 13 of the BHC Act and this part. The board of directors or similar corporate body (such as a designated committee of the board or an equivalent governance body) must ensure that senior management is fully capable, qualified, and properly motivated to manage compliance with this part in light of the organization's business activities and the expectations of the board of directors. The board of directors or similar corporate body must also ensure that senior management has established appropriate incentives and adequate resources to support compliance with this part, including the implementation of a compliance program meeting the requirements of this appendix into management goals and compensation structures across the banking entity.

5. Senior management. Senior management is responsible for implementing and enforcing the approved compliance program. Senior management must also ensure that effective corrective action is taken when failures in compliance with section 13 of the BHC Act and this part are identified. Senior management and control personnel charged with overseeing compliance with section 13 of the BHC Act and this part should review the compliance program for the banking entity periodically and report to the board, or an appropriate committee thereof, on the effectiveness of the compliance program and compliance matters with a frequency appropriate to the size, scope, and risk profile of the banking entity's trading activities and covered fund activities or investments, which shall be at least annually.

6. CEO attestation. Based on a review by the CEO of the banking entity, the CEO of the banking entity must, annually, attest in writing to the SEC that the banking entity has in place processes to establish, maintain, enforce, review, test and modify the compliance program established under this Appendix and § 255.20 of this part in a manner reasonably designed to achieve compliance with section 13 of the BHC Act and this part. In the case of a U.S. branch or agency of a foreign banking entity, the attestation may be provided for the entire U.S. operations of the foreign banking entity by the senior management officer of the United States operations of the foreign banking entity who is located in the United States.

IV. Independent Testing

a. Independent testing must occur with a frequency appropriate to the size, scope, and risk profile of the banking entity's trading and covered fund activities or investments, which shall be at least annually. This independent testing must include an evaluation of:

1. The overall adequacy and effectiveness of the banking entity's compliance program, including an analysis of the extent to which the program contains all the required elements of this appendix;

2. The effectiveness of the banking entity's internal controls, including an analysis and documentation of instances in which such internal controls have been breached, and how such breaches were addressed and resolved; and

3. The effectiveness of the banking entity's management procedures.

b. A banking entity must ensure that independent testing regarding the effectiveness of the banking entity's compliance program is conducted by a qualified independent party, such as the banking entity's internal audit department, compliance personnel or risk managers independent of the organizational unit being tested, outside auditors, consultants, or other qualified independent parties. A banking entity must promptly take appropriate action to remedy any significant deficiencies or material weaknesses in its compliance program and to terminate any violations of section 13 of the BHC Act or this part.

V. Training

Banking entities must provide adequate training to personnel and managers of the banking entity engaged in activities or investments governed by section 13 of the BHC Act or this part, as well as other appropriate supervisory, risk, independent testing, and audit personnel, in order to effectively implement and enforce the compliance program. This training should occur with a frequency appropriate to the size and the risk profile of the banking entity's trading activities and covered fund activities or investments.

VI. Recordkeeping

Banking entities must create and retain records sufficient to demonstrate compliance and support the operations and effectiveness of the compliance program. A banking entity must retain these records for a period that is no less than 5 years or such longer period as required by the SEC in a form that allows it to promptly produce such records to the SEC on request.

Dated: August 19, 2019.

Joseph M. Otting,

Comptroller of the Currency.

By order of the Board of Governors of the Federal Reserve System, October 9, 2019.

Ann E. Misback,

Secretary of the Board.

Dated at Washington, DC, on August 20, 2019.

By order of the Board of Directors.

Federal Deposit Insurance Corporation.

Valerie Jean Best,

Assistant Executive Secretary.

By the Securities and Exchange Commission.

Dated: September 18, 2019.

Vanessa A. Countryman.

Issued in Washington, DC, on October 11, 2019, by the Commodity Futures Trading Commission.

Christopher Kirkpatrick,

Secretary of the Commodity Futures Trading Commission.

Note: The following appendices will not appear in the Code of Federal Regulations.

Appendices to Revisions to Prohibitions and Restrictions on Proprietary Trading and Certain Interests in, and Relationships With, Hedge Funds and Private Equity Funds—Commission Voting Summary and Commissioners' Statements

Appendix 1—CFTC Voting Summary

On this matter, Chairman Tarbert and Commissioners Quintenz and Stump voted in the affirmative. Commissioners Behnam and Berkovitz voted in the negative. The document submitted to the CFTC Commissioners for a vote did not include Section V.F. SEC Economic Analysis or Section V.G. Congressional Review Act.

Appendix 2—Statement of CFTC Chairman Heath Tarbert in Support of Revisions to the Volcker Rule

I have voted to approve revisions to the Volcker Rule, among the most well-intentioned but poorly designed regulations in the history of American finance. My involvement with the Volcker Rule started nearly a decade ago when I served as special counsel to the Senate Banking Committee before the passage of the Dodd-Frank Act. In fact, I was the staff member responsible for arranging for former Federal Reserve Chairman Paul Volcker to testify before the committee on the original version of the rule that now bears his name. Having had the opportunity to interact with Chairman Volcker at various points throughout my career, I have always had immense respect for him. He had a clear-cut vision: Banks should be barred from speculating in the markets (a practice known as proprietary trading) and from running hedge funds and private-equity firms. ''If you are doing this stuff,'' he would say, ''you should not be a commercial bank.''

Five federal agencies—the Federal Reserve, the FDIC, the OCC, the SEC, and the CFTC (together, the ''Agencies'')—issued final regulations in December 2013 to implement the statutory language of the Volcker Rule in Title VI of the Dodd-Frank Act. The basic premise of this law is to restrict financial institutions with deposits insured by the Federal Government from engaging in proprietary trading, but permit trading for market making, hedging, and other traditional financial services activities.

We now have five years of experience with the initial version of the regulations implementing the Volcker Rule, and over that time, a number of legitimate concerns have arisen. In my view, the initial regulations adopted by the Agencies have metastasized from Mr. Volcker's original, simple vision to the degree where his distinction between proprietary and non-proprietary trading is hardly recognizable. I agree with Mr. Volcker that the rule has become overly complex and hard to understand; [1] at this point it is also nearly unadministrable. Among other things, the regulations create confusion over what is acceptable activity for banking entities.[2] Indeed, the Agencies have had to issue 21 sets of frequently asked questions (''FAQs'') in the first three years since the regulations were adopted.[3] This is not a model of clear rulemaking. Furthermore, the Volcker Rule imposes highly intensive compliance burdens that unfairly benefit large Wall Street banks over smaller regional ones. No one ever intended these results.

In addition, the Volcker Rule has an extraterritorial reach that is breathtaking in its expansiveness, something I witnessed personally several years ago in Australia. There I met with a senior executive at a local, Australian financial institution. He handed me his business card, and it listed his title as ''Head of Volcker Rule Compliance.'' In Australia! We have created a mess not just for the United States, but for the whole world.

I do not doubt the good intentions of the original drafters of both the Volcker Rule and its implementing regulations. I continue to affirm that deposit insurance underwritten by the FDIC and discount window access provided by the Federal Reserve—both ultimately backstopped by U.S. taxpayers—should not subsidize non-banking activities.[4] I will not raise the related question whether non-banks affiliated with insured depository institutions should be allowed to engage in proprietary trading. I recognize that this is a decision for Congress, not me.[5]

As Chairman of the CFTC, my job is to ensure that the derivatives markets are liquid, resilient, and vibrant so they can serve the price discovery and risk management functions critical to our real economy. I have seen reports that liquidity in bond markets may have been adversely affected by the Volcker Rule.[6] I am concerned that the Volcker Rule may also affect liquidity in the derivatives markets. This could negatively impact the ability of agricultural, energy, manufacturing, and other companies in the real economy to engage in risk mitigation activities.

I am happy to say that the amended regulations we have now adopted help to simplify the Volcker Rule and include a number of important amendments that lessen the burden on smaller regional banks and benefit end users of derivatives. The amendments seek to tailor the Volcker Rule to increase efficiency, right-size firms' compliance obligations, and allow banking entities—especially smaller ones—to provide services to clients more efficiently.

The amended regulations adopt a risk-based approach that relies on a set of clearly articulated standards for prohibited and permitted activities and investments. In particular, the new regulations revise elements of the prohibition on proprietary trading to provide banking entities—including CFTC-registered swap dealers and futures commission merchants (''FCMs'')—with greater flexibility in their trading activities and simplified compliance procedures.

The final regulations also expand existing, and include additional, exclusions from the definition of proprietary trading. For example, the amended regulations add an exclusion for matched derivatives transactions to facilitate customer-driven swaps, especially by customers of small regional banks, which should benefit end users who rely on derivatives to hedge their commercial risks. The amended final regulations also expand the list of permissible products for the liquidity management exclusion to include FX forwards/swaps and cross-currency swaps. Banking entities commonly purchase and sell these instruments for the purpose of managing their liquidity and funding needs. This can ultimately benefit commercial firms who use banks for loans and other products to hedge their foreign exchange risks arising from import and export transactions.

In addition, the final regulations tailor the compliance and metrics reporting requirements of the Volcker Rule to focus on entities with relatively large trading operations. As a result, financial institutions on Wall Street will retain their reporting procedures, while smaller and more traditional commercial banks without major trading operations will get some relief. What

[4] See Hearing Before the Committee on Banking, Housing, and Urban Affairs, United States Senate, 150th Congress, Session 1 (May 17, 2017) at 22 (''I [Heath Tarbert] believe that Federal deposit insurance should not subsidize nonbanking activities. . . . [This] should not be controversial.'').

[5] It is worth noting that the Dodd-Frank Act of 2010 contained a provision addressing the specific issue of insured banks engaging in trading activities perceived to go beyond traditional banking services. The ''push-out'' rule of Section 716, also known as the Lincoln Amendment, would have confined an insured depository institution's trading of swaps to those used for hedging or otherwise related to the well-known list of eligible (and appropriately conservative) investments permissible for national banks. Exotic and non-traditional products such as credit default swaps, equity swaps, and most physical commodity swaps would have been effectively ''pushed out'' out of insured banks and into non-bank affiliates not directly backstopped by U.S. taxpayers. Whatever the merits of the Lincoln Amendment, no one can deny that it was a clear rule aimed at an equally clear and widely-shared policy objective. But it was not to last. In December 2014, a bipartisan Congress passed—and President Obama signed into law—a budget bill containing a provision that largely gutted the original push-out rule of the Dodd-Frank Act. See Consolidated and Further Continuing Appropriations Act, 2015, Public Law 113–235, 128 Stat. 2130 at section 630 (2014).

[6] *See, e.g.,* M. Allahrakha & J. Cetina, et al., ''The Effects of the Volcker Rule on Corporate Bond Trading: Evidence from the Underwriting Exemption,'' OFR Working Paper (Aug. 6, 2019); J. Bao, & M. O'Hara, et al., *The Volcker Rule and Market-Making in Times of Stress,* J. of Fin. Econ. (2018); H. Bessembinder & S. Jacobsen, et al., *Capital Commitment and Illiquidity in Corporate Bonds,* J. of Fin. (Aug. 2018).

is more, the new regulations simplify requirements by clarifying prohibited and permissible activities, so that all institutions—including those headquartered abroad but who lend and deploy capital in the United States—have a better understanding of how to comply with our laws.

I believe laws should be as clear and concise as possible. The point of having laws is for people to follow them, but before they can follow them they first have to understand them. As Judge Learned Hand put it 90 years ago, ''The language of the law must not be foreign to the ears of those who are to obey it.'' [7] For too long the Volcker Rule has been just that—very peculiar and virtually unintelligible to market participants and regulators alike.

In short, the amended regulations will provide banking entities and their affiliates (including a number of swap dealers, FCMs, and commodity pools subject to CFTC oversight) with greater clarity and certainty about what activities are permitted under the Volcker Rule. The revised regulations will also generally reduce the compliance burden for these entities, which will benefit those end users of derivatives who are critical to our real economy. These changes, which will make the Volcker Rule simpler without reducing its fundamental benefits, are something we should all support.

Appendix 3—Supporting Statement of CFTC Commissioner Brian Quintenz

I support today's targeted amendments to the Volcker Rule, which I believe will simplify firms' compliance with the statutory ban on proprietary trading and improve the agencies' supervision of banking entities. Based upon the agencies' implementation experience since 2013, it has become apparent that the rule as originally adopted has resulted in ambiguity over permissible activities, an overbroad application, and unnecessarily complex compliance processes. The revised rule before us today tailors and simplifies the rule to enable banking entities to effectively provide traditional banking services to their clients in a manner that is consistent with the statute.

Adopting a risk-based approach, the revised rule tailors the scale of a banking entity's compliance program to be commensurate with the firm's size and level of trading activities. Under the final rule, the most stringent compliance requirements apply to those entities with the most significant amount of trading activities, while banks with simpler business models and more limited trading operations would be subject to tiered compliance requirements tailored to the complexity and scope of their activities. As a result, firms with little or no activity subject to the Volcker Rule's prohibitions will face lower compliance costs and reduced regulatory burdens. However, because activity implicated by the Volcker Rule is concentrated in a small number of banks, the agencies estimate that, even under this tiered approach, approximately 93% of the trading assets and liabilities in the U.S. banking system would continue to be held by firms subject to the strictest compliance standards.

The final rule also clarifies and simplifies the application of the short-term intent prong. Under the 2013 rule, the purchase (or sale) of a financial instrument by a banking entity was presumed to be for the trading account if the banking entity held the financial instrument for fewer than sixty days (or substantially transferred the risk of the financial instrument within 60 days of purchase or sale). In practice, firms have found it difficult to rebut the presumption, with the result that the short term intent prong has captured many activities that should not be included in the definition of proprietary trading. The final rule addresses this issue by reversing the rebuttable presumption, providing that the purchase or sale of a financial instrument presumptively lacks short-term trading intent if the banking entity holds the financial instrument for 60 days or longer. In addition, the final rule includes new or expanded exclusions from the definition of proprietary trading for liquidity management programs, certain customer-driven swaps, error trades, and certain traditional banking activities, such as the hedging of mortgage servicing rights. These modifications clarify the scope of permissible activities and ensure that the application of the proprietary trading ban is not overbroad.

I believe today's final rule serves as an example of effective cooperation among five regulators: The CFTC; the Securities and Exchange Commission; the Federal Reserve Board; the Office of the Comptroller of the Currency; and the Federal Deposit Insurance Corporation. The agencies have come together to address many of the unintended consequences of the prior rule, while continuing to comply with statutory requirements. Finally, I would like to thank the staff of the Division of Swap Dealer and Intermediary Oversight for their efforts on this matter.

Appendix 4—Dissenting Statement of CFTC Commissioner Rostin Behnam

I respectfully dissent as to the Commission's decision to approve revisions to the Volcker Rule. In June 2018, when I voted against the proposed rule, I expressed that my biggest concern was that our action would encourage a return to the risky activities that led to the financial crisis, and perhaps further consolidate trading activity into a few institutions.[1] My concern last June was that we were weakening the Volcker Rule around the edges, and I raised specific issues regarding unnecessary complexity, lack of clarity, and a flawed process that chilled dissent. Unfortunately, today's final rule does not do anything to assuage these concerns. To make matters worse, while the proposal merely threatened to kill Volcker through a thousand little cuts, the final rule goes for the throat. It significantly weakens the prohibition on proprietary trading by narrowing the scope of financial instruments subject to the Volcker Rule. What remains is so watered down that it leaves one questioning whether it should be called the Volcker rule at all. To that point, Paul Volcker himself recently sent a letter to the Chairman of the Federal Reserve criticizing the rule and stating that the rule ''amplifies risk in the financial system, increases moral hazard and erodes protections against conflicts of interest that were so glaringly on display during the last crisis.'' [2]

In my dissent last June, I pointed out that the proposal further complicated the Volcker rule while calling it simplification. We do the same thing in the final rule. Where once there was one set of rules for all banking entities, there will now be three categories of banking entities with different rules for each: Banking entities with Significant trading assets and liabilities, banking entities with Limited trading assets and liabilities, banking entities in between with Moderate trading assets and liabilities. While numerous commenters expressed concerns with this three-tiered compliance framework, we nonetheless are finalizing this needlessly complex system. In addition, the majority today makes ''targeted adjustments'' that further complicate matters. In some instances, these adjustments are at least requested by the commenters. In others, they are invented seemingly out of whole cloth.

The most troubling aspect of today's rule, though, is something new. The final rule includes changes to the definition of ''trading account'' that will significantly reduce the scope of financial instruments subject to the Volcker Rule's prohibition on proprietary trading. This change is described in the preamble to the final rule as avoiding having the trading account definition ''inappropriately scope in'' certain financial instruments, almost as if they were included in the proposal's scope by mistake. However, these financial instruments were within the scope of the 2013 rule, and they were within the scope of the proposal. Removing them now limits the scope of the Volcker rule so significantly that it no longer will provide meaningful constraints on speculative proprietary trading by banks. As such, I cannot vote for the rule.

Appendix 5—Dissenting Statement of CFTC Commissioner Dan M. Berkovitz

Congress adopted the statute commonly known as the ''Volcker Rule'' in the wake of the 2008 financial crisis to prevent banks that benefit from federal depository insurance or other government support from taking excessive risks that could lead to future taxpayer bailouts. The Volcker Rule prohibits proprietary trading and the owning of hedge funds and private equity funds by banks and their subsidiaries (''banking entities''), with certain exceptions and exemptions. In 2013 the Commission and other financial regulators adopted regulations to implement

[7] Hand, L. *Is There a Common Will?* in The Spirit of Liberty: Papers and Addresses of Learned Hand 56 (I. Dilliard, 3d ed. 1960) (quoting from address before the American Law Institute in 1929).

[2] Jesse Hamilton and Yalman Onaran, ''Vocker the Man Blasts Volcker the Rule in Letter to Fed Chair,'' Bloomberg (Sep. 10, 2019), *https://www.bloomberg.com/news/articles/2019-09-10/volcker-the-man-blasts-volcker-the-rule-in-letter-to-fed-chair.*

the Volcker Rule. The final rule before the Commission today (''revised Volcker Rule'') substantially weakens these implementing regulations.

The revised Volcker Rule eliminates or reduces a variety of substantive standards in the current rule. The revised Volcker Rule will render enforcement of the rule difficult if not impossible by leaving implementation of significant requirements to the discretion of the banking entities, creating presumptions of compliance that would be nearly impossible to overcome, and eliminating numerous reporting requirements. The revised Volcker Rule also substantially reduces the bank trading activity covered by the rule. Finally, the revised Volcker Rule includes a number of changes and additions not contemplated or adequately discussed in the notice of proposed rulemaking (NPRM) in violation of the Administrative Procedure Act (''APA'') requirements for public notice and comment for rulemakings.

For these reasons, I dissent.

Weak Regulation and Enforceability Concerns

Nearly every amending provision of the revised Volcker Rule adopts the weakened provisions from the NPRM, further weakens the proposed changes, or makes new changes that weaken or eliminate existing requirements and standards. New presumptions of compliance favoring the banking entities, regulatory determinations left to the banking entities, and reductions in reporting requirements by the banking entities will make the revised Volcker Rule more difficult to enforce. The cumulative effect of this myriad of changes is a set of regulations that is ineffective and unenforceable. Although a single chip off a sculpture, by itself, may not create a noticeable blemish, widespread chiseling will disfigure the object. Such is the result here.

The ''trading account'' definition and related regulatory exclusions in the 2013 rule determine which financial transactions are subject to the restrictions on proprietary trading. Financial transactions of banking entities are subject to the Volcker regulations if they fall within certain ''prongs'' established in the trading account provision. The revised Volcker Rule rejects the ''accounting prong'' proposed in the NPRM and effectively jettisons the existing ''short-term intent prong'' for most entities.[1] In addition, there are a number of newly created outright exclusions of whole types of transactions and broadening of existing exclusions under the revised Volcker Rule.

FDIC Commissioner Martin Gruenberg provided an analysis of how these changes will significantly reduce the banking activity subject to Volcker oversight. ''By excluding these financial instruments from the Volcker Rule, the final rule . . . opens up vast new opportunity—hundreds of billions of dollars of financial instruments—at both the bank and bank holding company level, for speculative proprietary trading funded by the public safety net.'' [2]

The 2013 Volcker rules define the ''trading desk'' as the ''smallest discrete unit of organization'' that purchases and sells financial instruments. The revised Volcker Rule removes the quoted text, and instead provides four broad criteria for designating a trading desk. The rule then allows the banking entities to designate the trading desks for purposes of Volcker.

The new trading desk designation criteria appear to be broad enough that a ''trading desk'' could include whole business lines, divisions, or an entire swap dealer. The opportunities for undertaking greater amounts of proprietary trading expand significantly when the limits (which are set by the banking entities themselves), the desk-specific positions being hedged, and reporting requirements are applied to much larger trading portfolios. Because the revised Volcker Rule effectively presumes that these trading desk designations by the banking entities are valid, it will be more difficult for the applicable regulator to reign in proprietary trading undertaken by more expansively designated trading desks.

How much proprietary trading can occur under the market making exemption in the revised Volcker Rule will be determined by the risk limits set for each trading desk. The risk limits are to be established at the discretion of each banking entity and, as noted above, the scope of a trading desk also will be determined by the banking entity within broad criteria. ''Reasonably expected near-term demand'' (''RENTD'') of customers is included in the Volcker statute to establish the level of market making permissible. While the RENTD concept is still in the revised Volcker Rule, a presumption has been added that the RENTD levels set by each banking entity are correct.

Because these determinations will be established by the banking entity and presumed to be compliant, it will be difficult for any regulator to challenge them or take any enforcement action—even if a banking entity experiences large losses from proprietary trading—so long as the trading is found to be within the set limits.

These concerns about enforcement and oversight are exacerbated by the reduced metrics and other reporting, documentation, and compliance requirements. Numerous changes are made both as proposed and added on in this final rule. To name a few, stressed value at risk, daily risk factor sensitivities, and risk limit breaches need not be reported. In some cases, changes to reporting requirements make sense if experience shows a metric has little or no regulatory value. But most of these changes in the revised Volcker Rule are purportedly justified because they reduce the burden on banking entities and the cumulative effect on the ability of a regulator to monitor for compliance and potential significant issues is not addressed.

Logical Outgrowth Concerns

The revised Volcker Rule includes a number of new rules and amendments that were not mentioned or adequately described in the NPRM. The APA requires that a proposed rulemaking be published in the **Federal Register** and that interested persons be given an opportunity to comment.[3] A ''notice of proposed rulemaking must provide sufficient factual detail and rationale for the rule to permit interested parties to comment meaningfully.'' [4]

In comparing the revised Volcker Rule to the NPRM, there are a number of changes that were either not addressed in the NPRM or at best are based on comments received in response to general questions. For example, the NPRM included a proposal to replace the short-term intent prong with what is commonly referred to as the ''accounting prong.'' In the revised Volcker Rule, the accounting prong was rejected, but the short-term interest prong also is eliminated for most banking entities.[5] While replacing the short-term intent prong was discussed in the proposal, effectively eliminating the prong without a replacement was not proposed. Similarly the option for certain banking entities to now elect to comply with the market risk capital rule prong rather than the short-term intent prong was not discussed as an alternative. Nor was the replacement of the rebuttable presumption of proprietary trading for positions held shorter than 60 days with the opposite presumption that positions held longer than 60 days are not proprietary trading for purposes of the Volcker Rule. Agencies cannot ''pull a surprise switcheroo'' in the rulemaking process.[6]

Furthermore, the NPRM appears to not even contemplate excluding government bond assets and liabilities, mortgage servicing rights hedges, or financial instruments that are not trading assets or trading liabilities from counting as proprietary trading. Other changes, such as the elimination of incentive compensation limits, the matched derivatives transaction exclusion, and elimination of risk factor sensitivity metrics reporting appear to be based on general questions in the NPRM. In each case, no draft rule text or adequate discussion of such amendments was provided that would allow the public to have anticipated those amendments. Rather, many of these changes appear to be based on de novo comments made by banks or their trade organizations. ''[I]f the final rule 'substantially departs from the terms or substance of the proposed rule,' the notice is inadequate.'' [7]

---

[1] While the short-term intent prong remains for a limited number of banks not subject to the market risk capital rules in banking regulations, compliance with the short-term intent prong is now optional if those banking entities instead elect to comply with the market risk capital rules for Volcker compliance.

Conclusion

Self-regulation failed us in the early part of this century. Dodd-Frank, including the Volcker Rule, has helped this country rebuild a strong and better managed financial sector. To maintain a robust financial sector that benefits the American people, we must maintain strong standards and vigorous oversight. Otherwise, it is only a matter of time before the memory of the huge losses and resulting pressures for a taxpayer bailout fades and excessive risk taking comes home to roost. While the Dodd-Frank regulations may not be perfect and modest adjustments may be appropriate, the wholesale revision of regulations that greatly weaken the enforceability of those regulations such as we have before us today will, in the long run, weaken the financial sector and pose risks to the American public.

RIN 1615–AC18

U.S. Citizenship and Immigration Services Fee Schedule and Changes to Certain Other Immigration Benefit Request Requirements

AGENCY: U.S. Citizenship and Immigration Services, DHS.

ACTION: Proposed rule.

SUMMARY: The Department of Homeland Security (DHS) proposes to adjust certain immigration and naturalization benefit request fees charged by U.S. Citizenship and Immigration Services (USCIS). USCIS conducted a comprehensive biennial fee review and determined that current fees do not recover the full costs of providing adjudication and naturalization services. DHS proposes to adjust USCIS fees by a weighted average increase of 21 percent, add new fees for certain benefit requests, establish multiple fees for petitions for nonimmigrant workers, and limit the number of beneficiaries on certain forms to ensure that USCIS has the resources it needs to provide adequate service to applicants and petitioners. Adjustments to the fee schedule are necessary to recover the full operating costs associated with administering the nation's immigration benefits system, safeguarding its integrity, and efficiently and fairly adjudicating immigration benefit requests, while protecting Americans, securing the homeland, and honoring our country's values. USCIS also is proposing changes to certain other immigration benefit request requirements.

DATES: Written comments must be submitted on or before December 16, 2019.

ADDRESSES: You may submit comments, identified by DHS Docket No. USCIS–2019–0010, by one of the following methods:

- *Federal eRulemaking Portal: http://www.regulations.gov.* Follow this site's instructions for submitting comments.
- *Mail:* Samantha Deshommes, Chief, Regulatory Coordination Division, Office of Policy and Strategy, U.S. Citizenship and Immigration Services, Department of Homeland Security, 20 Massachusetts Avenue NW, Mailstop #2140, Washington, DC 20529–2140. To ensure proper handling, please reference DHS Docket No. USCIS–2019–0010 in your correspondence. Mail must be postmarked by the comment submission deadline. Please note that USCIS cannot accept any comments that are hand delivered or couriered. In addition, USCIS cannot accept mailed comments contained on any form of digital media storage devices, such as CDs/DVDs and USB drives.

FOR FURTHER INFORMATION CONTACT: Kika M. Scott, Deputy Chief Financial Officer, U.S. Citizenship and Immigration Services, Department of Homeland Security, 20 Massachusetts Avenue NW, Washington, DC 20529–2130, telephone (202) 272–8377.

I. Public Participation

DHS invites you to participate in this rulemaking by submitting written data, views, or arguments on all aspects of this proposed rule. Comments providing the most assistance to DHS will reference a specific portion of the proposed rule, explain the reason for any recommended change, and include data, information, or authority that supports the recommended change.

Instructions: All submissions should include the agency name and DHS Docket No. USCIS–2019–0010 for this rulemaking. Providing comments is entirely voluntary. Regardless of how you submit your comment, DHS will post all submissions, without change, to the Federal eRulemaking Portal at *http://www.regulations.gov* and will include any personal information you provide. Because the information you submit will be publicly available, you should consider limiting the amount of personal information in your submission. DHS may withhold information provided in comments from public viewing if it determines that such information is offensive or may affect the privacy of an individual. For additional information, please read the Privacy Act notice available through the link in the footer of *http://www.regulations.gov.*

Docket: For access to the docket, go to *http://www.regulations.gov* and enter this rulemaking's eDocket number: USCIS–2019–0010. The docket includes additional documents that support the analysis contained in this proposed rule to determine the specific fees that are proposed. These documents include:

- Fiscal Year (FY) 2019/2020 Immigration Examinations Fee Account Fee Review Supporting Documentation;
- Regulatory Impact Analysis: U.S. Citizenship and Immigration Services Fee Schedule and Changes to Certain Other Immigration Benefit Request Requirements; and
- Small Entity Analysis for Adjustment of the U.S. Citizenship and Immigration Services Fee Schedule notice of proposed rulemaking (NPRM).

You may review these documents on the electronic docket. The software [1] used to compute the immigration benefit request fees [2] and biometric fees [3] is a commercial product licensed to USCIS that may be accessed on-site, by appointment, by calling (202) 272–1969.[4]

II. Executive Summary

DHS proposes to adjust the USCIS fee schedule, which specifies the fee amount charged for each immigration and naturalization benefit request.[5] DHS last adjusted the fee schedule on December 23, 2016, by a weighted average increase of 21 percent. *See* 81 FR 73292 (Oct. 24, 2016) (final rule) (FY 2016/2017 fee rule).

USCIS is primarily funded by immigration and naturalization benefit request fees charged to applicants and

[1] USCIS uses commercially available activity-based costing (ABC) software, SAP Business Objects Profitability and Cost Management, to create financial models as described in the supporting documentation.

[2] Benefit request means any application, petition, motion, appeal, or other request relating to an immigration or naturalization benefit, whether such request is filed on a paper form or submitted in an electronic format, provided such request is submitted in a manner prescribed by DHS for such purpose. *See* 8 CFR 1.2.

[3] DHS uses the terms biometric fees, biometric services fees, and biometric fee synonymously in this rule to describe the cost and process for capturing, storing, or using biometrics.

[4] This proposed rule describes key inputs to the ABC model (for example, budget, workload forecasts, staffing, and completion rates), both here and in the supporting documentation.

[5] For the purposes of this rulemaking, DHS is including all requests funded from the IEFA in the term ''benefit request'' or ''immigration benefit request'' although the form or request may not be to request an immigration benefit. For example, Deferred Action for Childhood Arrivals (DACA) is solely an exercise of prosecutorial discretion by DHS. It is not an immigration benefit and would fit under the definition of ''benefit request'' solely for purpose of this rule. For historic receipts and completion information, see USCIS immigration and citizenship data available at *https://www.uscis.gov/tools/reports-studies/immigration-forms-data.*

petitioners. Fees collected from individuals and entities filing immigration benefit requests are deposited into the Immigration Examinations Fee Account (IEFA). These fee collections fund the cost of fairly and efficiently adjudicating immigration benefit requests, including those provided without charge to refugee, asylum, and certain other applicants. The focus of this fee review is the IEFA, which comprised approximately 95 percent of USCIS' total FY 2018 enacted spending authority.

In accordance with the requirements and principles of the Chief Financial Officers Act of 1990 (CFO Act), 31 U.S.C. 901–03 and Office of Management and Budget (OMB) Circular A–25, USCIS conducts biennial reviews of the non-statutory fees deposited into the IEFA. If necessary, DHS proposes fee adjustments to ensure full cost recovery. USCIS completed a fee review for the FY 2019/2020 biennial period. The primary objective of the fee review is to determine whether current immigration and naturalization benefit fees will generate sufficient revenue to fund the anticipated operating costs associated with administering the nation's legal immigration system. The results indicate that current fee levels are insufficient to recover the full cost of operations funded by the IEFA. Therefore, DHS proposes to adjust USCIS fees by a weighted average increase of 21 percent.

In addition to the requirements of the CFO Act, there are other important reasons for conducting the FY 2019/2020 fee review. The fee review:

- Allows for an assessment of USCIS policy changes, staffing levels, costs, revenue, etc. USCIS evaluates operational requirements and makes informed decisions concerning program scaling, resource planning, and staffing allocations; and
- Provides those served by USCIS with an opportunity to assess the effect of fee changes.

USCIS calculates its fees to recover the full cost of operations funded by the IEFA. These costs do not include limited appropriations provided by Congress. If USCIS continues to operate at current fee levels, it would experience an average annual shortfall (the amount by which expenses exceed revenue) of $1,262.3 million. This projected shortfall poses a risk of degrading USCIS operations funded by the IEFA. As such, DHS proposes to adjust USCIS fees by a 21 percent weighted average increase to ensure full cost recovery. The weighted average increase is the percentage difference between the current and proposed fees by immigration benefit request.[6] This rule refers to weighted average instead of straight average because the figure represents a more accurate depiction of the overall effect that the proposed fee increase would have on total fee revenue.

The proposed fees would ensure that IEFA revenue covers USCIS' costs associated with adjudicating the immigration benefit requests. The proposed fee schedule accounts for increased costs to adjudicate immigration benefit requests, detect and deter immigration fraud, and thoroughly vet applicants, petitioners, and beneficiaries. DHS also proposes to change fee waiver and fee exemption policies to limit some fee increases. Additionally, DHS proposes to establish multiple fees for different categories of petitions for nonimmigrant workers in response to DHS Office of Inspector General (OIG) audit recommendations to USCIS. DHS proposes a range of fees that vary by the nonimmigrant classification and to limit petitions for nonimmigrant workers to 25 named beneficiaries. DHS believes the proposed fees more accurately reflect the differing burdens of adjudication and enable USCIS to adjudicate these petitions more effectively.

In addition to fee changes, this proposed rule would also make changes in the forms and fee structures used by USCIS. Some of these changes would result in cost savings, and others would result in costs or transfers. For the 10-year implementation period of the proposed rule, DHS estimates the total cost of the rule to applicants/petitioners is $4,730,732,250 undiscounted, $4,035,410,566 discounted at 3-percent, and $3,322,668,371 discounted at 7-percent. DHS estimates the total cost savings (benefits) to the applicants/petitioners is $220,187,510 undiscounted, $187,824,412 discounted at 3-percent, and $154,650,493 discounted at 7-percent. Much of this total is expected to be transfers between applicants and the federal government or between groups of applicants, rather than new, real resource costs to the U.S. economy.

A. Effective Date

The FY 2019/2020 fee review assumes these changes may affect the second year of the biennial period, as FY 2020 began on October 1, 2019.

III. Basis for the Fee Review

A. Legal Authority and Guidance

DHS issues this proposed rule consistent with INA section 286(m), 8 U.S.C. 1356(m) (authorizing DHS to charge fees for adjudication and naturalization services at a level to ''ensure recovery of the full costs of providing all such services, including the costs of similar services provided without charge to asylum applicants or other immigrants'') [7] and the CFO Act, 31 U.S.C. 901–03 (requiring each agency's Chief Financial Officer (CFO) to review, on a biennial basis, the fees imposed by the agency for services it provides, and to recommend changes to the agency's fees).

This proposed rule is also consistent with non-statutory guidance on fees, the budget process, and federal accounting principles. *See* OMB Circular A–25, available at *https://www.whitehouse.gov/wp-content/uploads/2017/11/Circular-025.pdf,* 58 FR 38142 (July 15, 1993) (establishing federal policy guidance regarding fees assessed by federal agencies for government services); Federal Accounting Standards Advisory Board Handbook, Version 17 (06/18), Statement of Federal Financial Accounting Standards 4: Managerial Cost Accounting Standards and Concepts, SFFAS 4, available at *http://files.fasab.gov/pdffiles/handbook_sffas_4.pdf* (generally describing cost accounting concepts and standards, and defining ''full cost'' to mean the sum of direct and indirect costs that contribute to the output, including the costs of supporting services provided by other segments and entities.); *id.* at 49–66 (identifying various classifications of costs to be included and recommending various methods of cost assignment); *see also* OMB Circular A–11, Preparation, Submission, and Execution of the

[6] USCIS uses weighted average instead of a straight average because of the difference in volume by immigration benefit type and the resulting effect on fee revenue. The 21 percent weighted average increase is a change in the average fee for a form that currently requires a fee compared to the average proposed fee per form. The sum of the current fees multiplied by the projected FY 2019/2020 fee-paying receipts for each immigration benefit type, divided by the total fee-paying receipts = $530. The sum of the proposed fees multiplied by the projected FY 2019/2020 receipts for each immigration benefit type, divided by the fee-paying receipts = $640. There is a $110, or approximately 21 percent difference between the two averages. These averages exclude fees that do not receive cost reallocation, such as the separate biometric services fee and the proposed Form I–821D fee.

[7] The longstanding interpretation of DHS is that the ''including'' clause in section 286(m) does not constrain DHS's fee authority under the statute. The ''including'' clause offers only a non-exhaustive list of some of the costs that DHS may consider part of the full costs of providing adjudication and naturalization services. See 8 U.S.C. 1356(m); 84 FR 23930, 23932 n.1 (May 23, 2019); 81 FR 26903, 26906 n.10 (May 4, 2016).

Budget, section 20.7(d), (g) (June 29, 2018)), available at *https://www.whitehouse.gov/wp-content/uploads/2018/06/a11_2018.pdf* (providing guidance on the FY 2020 budget and instructions on budget execution, offsetting collections, and user fees). DHS uses OMB Circular A–25 as general policy guidance for determining user fees for immigration benefit requests, with exceptions as outlined in section III.B. of this preamble. DHS also follows the annual guidance in OMB Circular A–11 if it requests appropriations to offset a portion of IEFA costs.[8]

Finally, this rule accounts for, and is consistent with, congressional appropriations for specific USCIS programs. FY 2018 appropriations for USCIS provided funding for only the E-Verify employment eligibility verification program. Congress provided E-Verify with $108.9 million for operations and support and $22.7 million for procurement, construction, and improvements. *See* Consolidated Appropriations Act, 2018, Public Law 115–66, div. F, tit. IV (Mar. 21, 2018) (DHS Appropriations Act 2018). The total E-Verify appropriation was $131.5 million in FY 2018. FY 2019 E-Verify appropriations are $109.7 million for operations and support, plus $22.8 million for procurement, construction, and improvements; the latter sum remains available until the end of FY 2021. *See* Consolidated Appropriations Act, 2019, Public Law 116–6, div. A, tit. IV (Feb. 15, 2019). DHS provides this information only for comparison to the IEFA. E-Verify is not included in this fee review budget because, generally, appropriations, not fees, fund E-Verify. In addition, Congress appropriated $10 million for the Citizenship and Integration Grant Program. *Id.* Together, the total FY 2019 appropriations for USCIS are $142.5 million. For the last several years, USCIS has had the authority to spend no more than $10 million for citizenship grants. The funding for the grant program came from the IEFA fee revenue or a mix of appropriations and fee revenue since 2013.[9] While Congress appropriated funds for grants in FY 2019, it did not reduce authorized IEFA spending to offset the change. As such, the $10 million previously budgeted for citizenship grants remains in the FY 2019/2020 IEFA fee review budget.

B. Full Cost Recovery

Consistent with these authorities and sources, this proposed rule would ensure that USCIS recovers its full operating costs and maintains an adequate level of service in two ways:

First, where possible, the proposed rule would set fees at levels sufficient to cover the full cost of the corresponding services associated with fairly and efficiently adjudicating immigration benefit requests.[10] DHS generally follows OMB Circular A–25, which ''establishes federal policy regarding fees assessed for Government services and for sale or use of Government goods or resources.'' OMB Circular A–25, *User Charges* (Revised), para. 6, 58 FR 38142 (July 15, 1993). A primary objective of OMB Circular A–25 is to ensure that federal agencies recover the full cost of providing specific services to users and associated costs. *See id.,* para. 5. Full costs include, but are not limited to, an appropriate share of:

- Direct and indirect personnel costs, including salaries and fringe benefits, such as medical insurance and retirement;
- Physical overhead, consulting, and other indirect costs, including material and supply costs, utilities, insurance, travel, and rents or imputed rents on land, buildings, and equipment;
- Management and supervisory costs; and
- Costs of enforcement, collection, research, establishment of standards, and regulation.

Id.

Secondly, this proposed rule would set fees at a level sufficient to fund overall requirements and general operations related to USCIS IEFA programs that are not associated with specific statutory fees or funded by annual appropriations, benefit requests fees that are statutorily set at a level below full cost, or benefit requests that are fee exempt, in whole or in part. As noted, Congress has provided that USCIS may set fees for providing adjudication and naturalization services at a level that will ensure recovery of the full costs of providing all such services, including the costs of similar services provided without charge to asylum applicants or other immigrants. *See* INA section 286(m), 8 U.S.C. 1356(m).[11] DHS interprets this statutory fee-setting authority, including the authorization to collect ''full costs'' for providing ''adjudication and naturalization services,'' as granting DHS broad discretion to include costs other than OMB Circular A–25 generally provides. *See OMB Circular A–25,* para. 6d1; INA section 286(m), 8 U.S.C. 1356(m). In short, DHS may charge fees at a level that will ensure recovery of all direct and indirect costs associated with providing immigration adjudication and naturalization services.[12]

Consistent with the historical position, this proposed rule would set fees at a level that ensures recovery of the full operating costs of USCIS, the entity within DHS that provides almost all immigration adjudication and naturalization services. *See* Homeland Security Act of 2002, Public Law 107–

[8] OMB Circulars A–25 and A–11 provide nonbinding internal Executive Branch direction for the development of fee schedules under the Independent Offices Appropriations Act (IOAA) and appropriations requests, respectively. *See* 5 CFR 1310.1. Although DHS is not required to strictly adhere to these OMB circulars in setting USCIS fees, DHS used the activity-based costing (ABC) methodology supported in Circulars A–25 and A–11 to develop the proposed fee schedule.

[9] USCIS received $2.5 million for the immigrant integration grants program in FY 2013 (Pub. L. 113–6) and FY 2014 (Pub. L. 113–76). USCIS did not receive appropriations for the immigrant integration grants program in FY 2015, FY 2016, FY 2017, and FY 2018.

[10] Section 286(m) of the Act, 8 U.S.C. 1356(m), provides broader fee-setting authority and is an exception from the stricter costs-for-services-rendered requirements of the Independent Offices Appropriations Act, 1952, 31 U.S.C. 9701(c) (IOAA). *See Seafarers Int'l Union of N. Am.* v. *U.S. Coast Guard,* 81 F.3d 179 (D.C. Cir. 1996) (IOAA provides that expenses incurred by agency to serve some independent public interest cannot be included in cost basis for a user fee, although agency is not prohibited from charging applicant full cost of services rendered to applicant, which also results in some incidental public benefits). Congress initially enacted immigration fee authority under the IOAA. *See Ayuda, Inc.* v. *Attorney General,* 848 F.2d 1297 (D.C. Cir. 1988). Congress thereafter amended the relevant provision of law to require deposit of the receipts into the separate Immigration Examinations Fee Account of the Treasury as offsetting receipts to fund operations, and broadened the fee-setting authority. Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1991, Public law 101–515, sec. 210(d), 104 Stat. 2101, 2111 (Nov. 5, 1990). Additional values are considered in setting IEFA fees that would not be considered in setting fees under the IOAA. *See* 72 FR at 29866–7.

[11] Congress has provided separate, but similar, authority for establishing USCIS genealogy program fees. *See* section 286(t) of the Act, 8 U.S.C. 1356(t). The statute requires that genealogy program fees be deposited into the Immigration Examinations Fee Account and that the fees for such research and information services may be set at a level that will ensure the recovery of the full costs of providing all such services. *Id.* The methodology for calculating the genealogy program fees is discussed in a separate section later in this preamble.

[12] Congress has not defined either term with any degree of specificity for purposes of subsections (m) and (n). *See, e.g., Barahona* v. *Napolitano,* No. 10–1574, 2011 WL 4840716, at **6–8 (S.D.N.Y. Oct. 11, 2011) (''While the term 'full costs' appears self-explanatory, section 286(m) contains both silence and ambiguity concerning the precise scope that 'full costs' entails in this context.''); *see also King* v. *Burwell,* 135 S. Ct. 2480, 2489 (2015) (''[O]ftentimes the 'meaning—or ambiguity—of certain words or phrases may only become evident when placed in context.' So when deciding whether the language is plain, we must read the words 'in their context and with a view to their place in the overall statutory scheme.' '' (quoting *FDA* v. *Brown & Williamson Tobacco Corp.,* 529 U.S. 120, 132–33 (2000))).

296, sec. 451, 116 Stat. 2142 (Nov. 26, 2002) (6 U.S.C. 271). The statute authorizes recovery of the full costs of providing immigration adjudication and naturalization services. Congress has historically relied on this authority to support the vast majority of USCIS programs and operations conducted as part of adjudication and naturalization service delivery. This conclusion is supported by Congress' historical appropriations to USCIS. The agency receives only a small annual appropriation. USCIS must use other means to fund, as a matter of both discretion and necessity, all other operations.

Certain functions, including the Systematic Alien Verification for Entitlements (SAVE) program [13] and the Office of Citizenship,[14] which USCIS has administered since DHS's inception, are integral parts of fulfilling USCIS' statutory responsibility to provide immigration adjudication and naturalization services. They are not associated with specific fees examined during the biennial fee review, but may be funded by the IEFA. Similarly, when a filing fee for an immigration benefit request such as Temporary Protected Status (TPS) is capped by statute at $50 and does not cover the cost of adjudicating these benefit requests, DHS may recover the difference with fees charged to other immigration benefit requests. *See* INA section 244(c)(1)(B), 8 U.S.C. 1254a(c)(1)(B); 8 CFR 103.7(b)(1)(i)(NN); proposed 8 CFR 106.2(a)(37)(i). Finally, when DHS exempts certain benefit requests from filing or visa fees, such as, for example, applications or petitions from victims who assist law enforcement in the investigation or prosecution of acts of human trafficking (T nonimmigrant status) or certain other crimes (U nonimmigrant status), USCIS recovers the cost of processing those fee-exempt visas with fees charged to other applicants and petitioners. *See, e.g.,* 8 CFR 103.7(b)(1)(i)(UU)–(VV); proposed 8 CFR 106.2(a)(46)–(47).

In short, the full cost of USCIS operations cannot be as directly correlated or connected to a specific fee as OMB Circular A–25 advises. Nonetheless, DHS follows OMB Circular A–25 to the extent appropriate, including directing that fees should be set to recover the costs of an agency's services in their entirety and that full costs are determined based upon the best available records of the agency. *Id.* DHS applies the discretion provided in INA section 286(m), 8 U.S.C. 1356(m), to: (1) Use Activity-Based Costing (ABC) to establish a model for assigning costs to specific benefit requests in a manner reasonably consistent with OMB Circular A–25; (2) distribute costs that are not attributed to, or driven by, specific adjudication and naturalization services; [15] and (3) make additional adjustments to effectuate specific policy objectives.[16]

By approving DHS's annual appropriations, which provide limited appropriated funds to USCIS, Congress has consistently recognized that the ''full'' costs of operating USCIS, including SAVE and the Office of Citizenship, less any appropriated funding, is the appropriate cost basis for establishing IEFA fees. Nevertheless, in each biennial fee review, DHS adds refinements to its determination of immigration benefit fees, including the level by which fees match directly assignable, associated, and indirect costs.

C. Immigration Examinations Fee Account

USCIS manages three fee accounts:

- The IEFA (includes premium processing revenues),[17]
- The Fraud Prevention and Detection Account,[18] and
- The H–1B Nonimmigrant Petitioner Account.[19]

In 1988, Congress established the IEFA in the Treasury of the United States. *See* Public Law 100–459, sec. 209, 102 Stat. 2186 (Oct. 1, 1988) (codified as amended at INA sections 286(m) and (n), 8 U.S.C. 1356(m) and (n)). Fees deposited into the IEFA fund the provision of immigration adjudication and naturalization services. In subsequent legislation, Congress directed that the IEFA also fund the full costs of providing all such services, including services provided to immigrants at no charge. *See* Public Law 101–515, sec. 210(d)(1) and (2), 104 Stat. 2101, 2121 (Nov. 5, 1990). Consequently, the immigration benefit fees were increased to recover these additional costs. *See* 59 FR 30520 (June 14, 1994). The IEFA comprised approximately 95 percent of total funding for USCIS in FY 2018 and is the focus of this proposed rule.

The Fraud Prevention and Detection Account and H–1B Nonimmigrant Petitioner Account are both funded by statutorily set fees. DHS has no authority to adjust fees for these accounts.

D. Fee Review History

Most recently, DHS published a revised USCIS fee schedule in its FY 2016/2017 fee rule. *See* 81 FR 73292 (Oct. 24, 2016).[20] The rule and associated fees became effective on December 23, 2016. DHS adjusted the USCIS immigration benefits fee schedule for the first time in more than 6 years, increasing fees by a weighted average of 21 percent. The fee schedule adjustment recovered all projected costs for FY 2016–2017, including the Refugee, Asylum, and International Operations Directorate (RAIO), SAVE, and the Office of Citizenship. *See* 81 FR 26911 and 73293.

The fee schedule had been adjusted previously as well. Before the creation of DHS, the Department of Justice (DOJ) Immigration and Naturalization Service (INS) [21] adjusted fees incrementally in 1994. *See* 59 FR 30520 (June 14, 1994).

---

[13] USCIS funds the SAVE program by user fees and IEFA funds, as Congress has not provided any direct appropriated funds for the program since FY 2007. SAVE provides an ''immigration adjudication . . . service'' under INA sections 286(m) and (n) to Federal, state and local agencies who require immigration adjudication information in administering their benefits.

[14] The Homeland Security Act created the Office of Citizenship at the same time as several other mission essential USCIS offices, such as those for legal, budget, and policy. Like those offices, the Office of Citizenship has always been considered an essential part of the ''adjudication and naturalization services'' USCIS provides under sections 286(m) and (n) of the INA. An integral part of providing such services, as Congress recognized in creating the Citizenship office in section 451(f) of the Homeland Security Act (6 U.S.C. 271(f)), includes providing information to potential applicants for naturalization regarding the process of naturalization and related activities.

[15] The ABC model distributes indirect costs. Costs that are not assigned to specific fee-paying immigration benefit requests are reallocated to other fee-paying immigration benefit requests outside the model. For example, the model determines the direct and indirect costs for refugee workload. The costs associated with processing the refugee workload are reallocated outside the model to fee-paying immigration benefit requests.

[16] DHS may reasonably adjust fees based on value judgments and public policy reasons where a rational basis for the methodology is propounded in the rulemaking. *See FCC* v. *Fox Television Stations, Inc.,* 556 U.S. 502, 515 (2009); *Motor Vehicle Mfrs. Ass'n* v. *State Farm Mut. Auto. Ins. Co.,* 463 U.S. 29 (1983).

[17] INA sec. 286(m), (n) & (u); 8 U.S.C. 1356(m), (n) & (u).

[18] INA secs. 214(c)(12)–(13), 286(v); 8 U.S.C. 1184(c)(12)–(13) 1356(v).

[19] INA secs. 214(c)(9), (11), 286(s); 8 U.S.C. 1184(c)(9), (11), 1356(s).

[20] The phrase ''FY 2016/2017 fee rule,'' as used in this proposed rule, encompasses the proposed rule, final rule, fee review, and all supporting documentation associated with the regulations effective as of December 23, 2016.

[21] The Homeland Security Act of 2002 abolished the INS and transferred the INS's immigration administration and enforcement responsibilities from DOJ to DHS. The INS's immigration and citizenship services functions were specifically transferred to the Bureau of Citizenship and Immigration Services, later renamed U.S. Citizenship and Immigration Services. *See* Public Law 107–296, 451 (6 U.S.C. 271).

DOJ conducted a comprehensive fee review using activity-based costing (ABC) and adjusted most IEFA fees in 1998. *See* 63 FR 1775 (Jan. 12, 1998) (proposed rule); 63 FR 43604 (Aug. 14, 1998) (final rule). DOJ adjusted fees for small volume workloads in 2000. *See* 64 FR 26698 (May 17, 1999) (proposed rule); 64 FR 69883 (Dec. 15, 1999) (final rule). DOJ adjusted fees by inflation in 2002. *See* 66 FR 65811 (Dec. 21, 2001). Following the creation of DHS, it adjusted fees in 2004 and 2005. *See* 69 FR 20528 (Apr. 15, 2004); 70 FR 56182 (Sept. 26, 2005). After those incremental changes, DHS published a comprehensive FY 2007 fee rule. *See* 72 FR 29851 (May 30, 2007). DHS further amended USCIS fees in the FY 2010/2011 fee rule. *See* 75 CFR 58962 (Sept. 24, 2010). This rule removed the costs of the RAIO Directorate, SAVE, and the Office of Citizenship from the fee schedule, in anticipation of appropriations from Congress that DHS requested. *See* 75 FR 58961, 58966. These resources did not fully materialize, requiring USCIS to use other fee revenue to support the programs in the FY 2016/2017 fee rule. *See* 81 FR 26910–12.

The supporting documentation accompanying this proposed rule in the rulemaking docket at *www.regulations.gov* contains a historical fee schedule that shows the immigration benefit fee history since October 2005.

Table 1 summarizes the IEFA and biometric services fee schedule that took effect on December 23, 2016. DHS is proposing to change the current fee schedule as a result of the FY 2019/2020 fee review. The table excludes statutory fees that DHS cannot adjust or can only adjust by inflation.

IV. FY 2019/2020 Immigration Examinations Fee Account Fee Review

A. USCIS Projected Costs and Revenue

The primary objective of the fee review is to determine whether current immigration and naturalization benefit fees will generate sufficient revenue to fund anticipated operating costs associated with administering USCIS' role in the nation's legal immigration system. USCIS examines its recent budget history, service levels, and immigration trends to forecast costs, revenue, and operational metrics. This data helps USCIS identify the difference between anticipated costs and revenue as well as calculate proposed fees. The FY 2019/2020 fee review encompasses three core elements:

- Cost projections;
- Revenue projections; and
- Cost and revenue differential (the difference between cost and revenue projections).

1. Cost Projections

USCIS' FY 2018 annual operating plan (AOP) is the basis for the FY 2019/2020 cost projections. These estimates reflect the funding necessary to maintain an adequate level of operations and do not include program increases for new development, modernization, or acquisition. Cost projections also include funding for enhancements that facilitate the processing of additional workload. Examples of items in the cost projections include:

- *Transfer of funding to U.S. Immigration and Customs Enforcement ($207.6 million in FY 2019 and FY 2020).* This item is explained in section IV.A.1.a., Use IEFA Fee Collections to Fund Immigration Adjudication Services Performed by ICE.
- *Pay and benefits adjustments for on-board staff ($280.2 million in FY 2019 and $89.8 million in FY 2020).* Pay adjustments account for cost of living adjustments, within-grade pay increases, and the annualization of prior-year vacancies. The government-wide cost of living adjustment rate assumption is 2.0 percent for both FY 2019 and FY 2020. Within-grade pay increases are routine raises awarded to general schedule employees, based on length of service and performance at an acceptable level of competence. Annualization of prior-year vacancies account for a full-year cost of salaries and benefits for positions that were on-board for only a portion of FY 2018.
- *Pay and benefits for new staff ($116.7 million in FY 2019 and $128.8 million in FY 2020).* Projected FY 2019 and FY 2020 workloads exceed current workload capacity, thereby requiring additional staff. The FY 2018 Staffing Allocation Model[30] and new staff enhancement requests yield an additional 2,098 positions necessary to meet adjudicative processing goals and other USCIS mission objectives, including administrative functions. In total, the FY 2016/2017 fee rule assumed a total authorized staffing level of 14,543, whereas estimates used for this proposed rule reflect 20,958. This represents an increase of 6,415 or 44 percent. This additional staffing requirement reflects the facts that it takes USCIS longer to adjudicate many workloads than was planned for in the FY 2016/2017 fee rule and that workload volumes, particularly for work types that do not currently generate fee revenue, have grown.
- *Net additional costs ($150.8 million in FY 2019 and $6.2 million in FY 2020).* In addition to non-pay general expenses associated with on-boarding the new staff described above, these costs include other enhancement requests such as secure mail shipping for permanent resident cards, increased background investigations, headquarters consolidation, etc. The additional resources are to sustain current operations necessary for achieving USCIS' strategic goals. USCIS considered all cost data that was available at the time it conducted this fee review, including data on cost-saving measures. It does not account for recent cost-savings initiatives for which data were not yet available at the time of this fee review. However, USCIS intends to fully evaluate and capture any relevant cost-savings data during its next biennial fee review.

Table 2 is a crosswalk summary of the FY 2018 AOP to the FY 2019/2020 cost projections. It accounts for pay and non-pay general expenses for on-board and new staff, other resource requirements or adjustments, and the removal of costs associated with temporary programs such as TPS. FY 2019 cost projections are 20 percent higher than FY 2018 costs. FY 2020 cost projections are 5 percent higher than FY 2019 cost projections. The FY 2019/2020 average annual budget is $4,670.5 million. This represents a $1,632.5 million, or 54 percent, increase over the FY 2016/2017 fee rule average annual budget of $3,038.0 million. The primary cost driver is payroll, which accounts for 30.9 percent of the increase from the prior fee rule average annual budget.

[22] Form, when used in connection with a benefit or other request to be filed with DHS to request an immigration benefit, means a device for the collection of information in a standard format that may be submitted in a paper format or an electronic format as prescribed by USCIS on its official internet website. The term ''Form'' followed by an immigration form number includes an approved electronic equivalent of such form as made available by USCIS on its official internet website. *See* 8 CFR 1.2 and 299.1. The word ''form'' is used in this final rule in both the specific and general sense.

[23] As described in the NPRM, the United States' obligations under the 1967 Protocol relating to the Status of Refugees (incorporating by reference Article 28 of the 1951 Convention relating to the Status of Refugees) guide the Application for Travel Document fees for a Refugee Travel Document. The USCIS ABC model does not set these fees. *See* 8 CFR 103.7(b)(1)(i)(M)(*2*) and (*3*).

[24] Form I–191 was previously titled Application for Advance Permission to Return to Unrelinquished Domicile. *See* 8 CFR 103.7(b)(1)(i)(O).

[25] The Form I–192 fee remained $585 when filed with and processed by CBP. *See* 8 CFR 103.7(b)(1)(i)(P).

[26] This reduced fee is applied to ''an applicant under the age of 14 years when [the application] is (i) submitted concurrently with the Form I–485 of a parent, (ii) the applicant is seeking to adjust status as a derivative of his or her parent, and (iii) the child's application is based on a relationship to the same individual who is the basis for the child's parent's adjustment of status, or under the same legal authority as the parent.'' 8 CFR 103.7(b)(1)(i)(U)(*2*).

[27] The form's name in the current fee provision at 8 CFR 103.7(b)(1)(i)(GG) is ''Application to Adjust Status from Temporary to Permanent Resident (Under section 245A of Public Law 99–603).''

[28] Currently there are two USCIS fees for Form I–881: $285 for individuals and $570 for families. *See* 8 CFR 103.7(b)(1)(i)(QQ)(*1*). DOJ's Executive Office for Immigration Review (EOIR) has a separate $165 fee.

[29] USCIS excluded Form I–941, Application for Entrepreneur Parole, from the FY 2019/2020 fee review. As such, it will not appear in tables for workload, fee-paying volume, or elsewhere in this NPRM. DHS published a separate NPRM that proposed to terminate the program. *See* 83 FR 24415 (June 28, 2018). DHS does not propose any changes to this fee.

[30] The Staffing Allocation Model is a Microsoft Excel-based workforce planning tool that estimates the staffing requirements necessary to adjudicate workload receipt (for example, applications and petitions) forecasts at target processing times.

The funding transfer to ICE accounts for about 6 percentage points (*i.e.,* 28.5 percent) of the 21 percent total weighted average fee increase.

TABLE 2—COST PROJECTIONS

[FY 2019/2020 fee review IEFA non-premium budget (in millions)]

Total Base FY 2018 IEFA Non-Premium Budget	$3,585.6
Plus: Spending Adjustments	217.2
Total Adjusted FY 2018 IEFA Non-Premium Budget	3,802.8
Plus: Transfer to ICE	207.6
Plus: Pay Inflation and Promotions/Within Grade Increases	280.2
Plus: Net Additional Costs	267.5
Total Adjusted FY 2019 IEFA Non-Premium Budget	4,558.1
Plus: Pay Inflation and Promotions/Within Grade Increases	218.6
Plus: Net Additional Costs	6.2
Total Adjusted FY 2020 IEFA Non-Premium Budget	4,782.9
FY 2019/2020 Average Non-Premium Budget	4,670.5

a. Use IEFA Fee Collections To Fund Immigration Adjudication Services Performed by ICE

The President's FY 2019 and FY 2020 budget requests include a $207.6 million transfer of IEFA funds to ICE. DHS proposes to use USCIS fees to recover the full amount of this proposed transfer.[31]

DHS may use fees deposited into the IEFA to fund the expenses of providing immigration adjudication and naturalization services and the cost of collection, safeguarding, and accounting for the IEFA funds. *See* INA section 286(m), 8 U.S.C. 1356(m). Funds deposited into the IEFA are primarily used by USCIS, but they may also be used to reimburse other DHS components, including ICE, for qualifying costs. DHS proposes to recover, via USCIS' fee schedule, the full amount of the proposed transfer from past budget requests. *See* INA section 286(n); 8 U.S.C. 1356(n). DHS will transfer funds annually from the IEFA to ICE's appropriations so as to reimburse those appropriations for the cost of providing qualifying services, which will increase the level of service provided beyond current levels.

DHS "immigration adjudication and naturalization services" do not end with a decision to approve or deny a request. USCIS and ICE, as components of DHS, share a responsibility to ensure the integrity of the U.S. immigration system beyond the moment of adjudication. DHS believes that ICE investigations of potential immigration fraud perpetrated by individuals and entities who have sought immigration benefits before USCIS and efforts to enforce applicable immigration law and regulations with regard to such individuals and entities constitute direct support of immigration adjudication and naturalization services. Thus, the IEFA may fund ICE enforcement and support positions, as well as ancillary costs, to the extent that such positions and costs support immigration adjudication and naturalization services. ICE HSI could use funds transferred from the IEFA to support investigations of immigration benefit fraud via Document and Benefit Fraud Task Forces (DBFTFs), Operation Janus, and the HSI National Lead Development Center. DBFTFs facilitate information sharing and coordination among ICE, USCIS, other federal entities, as well as state and local law enforcement for the purpose of investigating document and benefit fraud in support of immigration and naturalization services. Operation Janus is a joint initiative including USCIS and ICE to ensure that individuals who have a previous order of removal have not and will not be able to fraudulently obtain immigration benefits under an alternate identity, thus ensuring the integrity of the immigration adjudication and naturalization services provided by USCIS. The HSI National Lead Development Center will receive referrals and review investigative leads as part of investigations into immigration fraud. Considering what constitutes immigration adjudication and naturalization services and collection, safeguarding, and accounting expenses under INA sections 286(m), (n), 8 U.S.C. 1356(m), (n), adjudication and naturalization services includes all costs for work related to determining or adjudicating whether applicants may receive such services. The cost of the services provided includes the cost of any investigatory work necessary to adjudicate applications or provide services, including investigations of fraud. Therefore, these activities constitute support of immigration adjudication and naturalization services.

Moreover, while transfers between appropriations are generally prohibited absent statutory authority, INA section 286(n), 8 U.S.C. 1356(n), expressly authorizes the use of the fees deposited in the IEFA to reimburse any appropriation for expenses in providing immigration adjudication and naturalization services. DHS has determined that the IEFA may be used to reimburse appropriations that fund enforcement and support positions to the extent that such positions support adjudication and naturalization services. Therefore, DHS proposes to recover the costs through the USCIS fee schedule. To see how the ICE transfer affects proposed fees, see section VII. Other Possible Fee Scenarios in this preamble.[32]

The aforementioned cost projections serve as the basis for the additional ICE revenue of $207.6 million covered by this rule. DHS recognizes that the

[31] For additional information on ICE's FY 2019 costs, see pages 46 and 254–263 (called ICE—O&S–20 and ICE—IEFA–1–10, respectively, in the presentation) of the DHS ICE FY 2019 Congressional Justification located at *https://www.dhs.gov/sites/default/files/publications/U.S.%20Immigration%20and%20Customs%20Enforcement.pdf.* For information of ICE's FY 2020 costs, see pages 261–270 (called ICE—IEFA–3) of the DHS ICE FY 2020 Congressional Justification located at *https://www.dhs.gov/sites/default/files/publications/19_0318_MGMT_CBJ-Immigration-Customs-Enforcement_0.pdf.*

[32] The Administration has notified Congress of its intention to shift the cost of these ICE activities from annual appropriations to IEFA. See previous footnotes. If Congress rejects the Administration's proposal, or if DHS does not ultimately shift these costs from annual appropriations to IEFA, USCIS will not include this use of these funds in its fee model for the final rule.

$207.6 million previously identified in budget requests may propose to transfer more funding to ICE than is needed to fund activities that are reimbursable through the IEFA. DHS continues to study which ICE costs would be reimbursable through the IEFA, and may announce more precise cost estimates prior to publication of a final rule. To the extent that such cost estimates are lower than the $207.6 million figure currently accounted for in the rule, fee levels would be revised downward.[33]

DHS proposes to establish all USCIS fees at a level necessary to recover the full amount of this proposed transfer. However, in the final rule, DHS may establish a separate surcharge for the amount necessary to recover the estimated funds to be transferred to ICE. The surcharge would be separately codified, but collected along with the fee for each benefit request for which a fee is established in the final rule. DHS encourages comments on the method used to recover the ICE adjudication and naturalization service costs.

2. Revenue Projections

USCIS' revenue projections are informed by internal immigration benefit request receipt forecasts and 12 months of historical actual fee-paying receipts to account for fee-waiver/fee-exemption trends. USCIS uses actual revenue collections from June 2016 to May 2017 as a basis for the fee-paying assumptions in the FY 2019/2020 revenue projections.

USCIS' current fee schedule is expected to yield $3.41 billion of average annual revenue during the FY 2019/2020 biennial period. This represents a $0.93 billion, or 38 percent, increase from the FY 2016/2017 fee rule projection of $2.48 billion. *See* 81 FR 26911. The projected revenue increase is due to higher fees as a result of the FY 2016/2017 fee rule and more anticipated fee-paying receipts. The FY 2016/2017 fee rule forecasted 5,870,989 total workload receipts and 5,140,415 fee-paying receipts. *See* 81 FR 26923–4. However, the FY 2019/2020 fee review forecasts 9,336,015 total workload receipts and 7,789,861 fee-paying receipts. This represents a 59 percent increase to workload and 52 percent increase to fee-paying receipt volume assumptions. Despite the increase in projected revenue above the FY 2016/2017 fee rule projection, this additional revenue is insufficient to recover USCIS' increased costs, as discussed in the next section.

3. Cost and Revenue Differential

USCIS identifies the difference between anticipated costs and revenue, assuming no changes in fees, to determine whether the existing fee schedule is sufficient to recover full costs or whether a fee adjustment is necessary. Table 3 summarizes the projected cost and revenue differential. Summary values may vary due to rounding.

TABLE 3—IEFA NON-PREMIUM COST AND REVENUE COMPARISON

[Dollars in millions]

Fiscal year	FY 2019	FY 2020	FY 2019/2020 average
Non-Premium Revenue	$3,408.2	$3,408.2	$3,408.2
Non-Premium Budget	4,558.1	4,782.9	4,670.5
Difference	−1,149.9	−1,374.7	−1,262.3

Historically, and for the purpose of the fee review, USCIS reports costs and revenue as an average over the 2-year period. In Table 3, FY 2019 and 2020 costs and revenue are averaged to determine the projected amounts to be recovered through this rule. Based on current immigration benefit and biometric services fees and projected volumes, USCIS expects fees to generate $3.41 billion in average annual revenue in FY 2019 and FY 2020. For the same period, the average annual cost of processing those immigration benefit requests and providing biometric services is $4.67 billion. This yields an average annual deficit of $1.26 billion. In other words, USCIS expects projected FY 2019/2020 total operating costs to exceed projected total revenue.

Because projected costs are higher than projected revenue, USCIS has several options to address the shortfall:

1. Reduce projected costs;
2. Use carryover funds or revenue from the recovery of prior year obligations; or
3. Adjust fees with notice and comment rulemaking.

DHS believes that reducing the projected costs to equal the projected revenue would risk degrading USCIS operations funded by the IEFA. However, DHS did assess several possible fee review budgets. For example, the effect of the $207.6 million transfer from USCIS to ICE is shown below in section VII. Other Possible Fee Scenarios. Projected carryover is negative in both FY 2019 and FY 2020 and thus eliminating this transfer is insufficient to bridge the gap between projected costs and revenue.[34] Likewise, USCIS estimates that recovered revenue from prior year obligations will be insufficient. USCIS estimates that it may recover $91.9 million in FY 2019 and $94.2 million in FY 2020 for the non-premium IEFA. Therefore, DHS proposes to increase revenue through the fee adjustments described in detail throughout this rule.

B. Methodology

When conducting a fee review, USCIS reviews its recent operating environment to determine the appropriate method to assign costs to immigration benefit requests, including biometric services. USCIS uses activity-based costing (ABC), a business management tool that assigns resource costs to operational activities and then to products and/or services. USCIS uses commercially available ABC software to create financial models. These models determine the cost of each major step towards processing immigration benefit requests and providing biometric services. This is the same methodology that USCIS used in the last five fee reviews, and it is the basis for the current fee structure. Following the FY 2016/2017 fee rule, USCIS identified several key methodology changes to improve the accuracy of its ABC model.

[33] The possible effects of a different level of ICE costs to be funded by USCIS benefit request fees is discussed further in VII. Other Possible Fee Scenarios.

[34] In the docket for this proposed rule, the FY 2019/2020 Immigration Examinations Fee Account Fee Review Supporting Documentation has more information. See the section titled IEFA Non-Premium Carryover Projections & Targets.

Please refer to the Methodology Changes Implemented in the FY 2019/2020 Fee Review section of the Supporting Documentation located in the docket of this rule.

1. Volume

USCIS uses two types of volume data in the fee review: Workload and fee-paying volume. Workload volume is a projection of the total number of immigration benefit requests that USCIS will receive in a fiscal year. Fee-paying volume is a projection of the number of applicants, petitioners, and requestors that will pay a fee when filing requests for immigration benefits. Not all applicants, petitioners, or requestors pay a fee. Those applicants, petitioners, and requestors for whom USCIS grants a fee waiver or to whom an exemption applies are represented in the workload volume, but not the fee-paying volume. Applicants, petitioners, and requestors who pay a fee fund the cost of processing requests for fee-waived or fee-exempt immigration benefit requests.

a. Workload Volume and Volume Projection Committee

USCIS uses statistical modeling, immigration receipt data from the last 15 years, and internal assessments of future developments (such as annualized data prepared by the USCIS Office of Performance and Quality) to develop workload volume projections. All relevant USCIS directorates and program offices are represented on the USCIS Volume Projection Committee (VPC). The VPC forecasts USCIS workload volume using subject matter expertise from various directorates and program offices, including the Service Centers, National Benefits Center, RAIO, and regional, district, and field offices. Input from these offices helps refine the volume projections. The VPC reviews short- and long-term volume trends. In most cases, time series models provide volume projections by form type. Time series models use historical receipts data to determine patterns (such as level, trend, and seasonality) or correlations with historical events to forecast receipts. When possible, models are also used to determine relationships between different benefit request types. Workload volume is a key element used to determine the USCIS resources needed to process benefit requests within established adjudicative processing goals. It is also the primary cost driver for assigning activity costs to immigration benefits and biometric services[35] in the USCIS ABC model.

TABLE 4—WORKLOAD VOLUME COMPARISON

Immigration benefit request	Average annual FY 2016/2017 projected workload receipts	Average annual FY 2019/2020 projected workload receipts	Difference
I–90 Application to Replace Permanent Resident Card	810,707	767,020	−43,687
I–102 Application for Replacement/Initial Nonimmigrant Arrival-Departure Document	10,143	7,700	−2,443
I–129 Petition for a Nonimmigrant Worker Subtotal	432,156	553,266	121,110

Subtotal	5,870,989	9,336,015	3,508,026
Biometric Services	3,028,254	N/A	N/A
Total	8,899,243	9,336,015	479,772

b. Fee-Paying Volume

USCIS uses historical revenue and receipt data to determine the number of individuals who paid a fee for each immigration benefit request. Total revenue for an immigration benefit request is divided by its fee to determine the number of fee-paying immigration benefit requests. Fee-paying receipts are compared to the total number of receipts (workload volume) to determine a fee-paying percentage for each immigration benefit request. When appropriate, projected fee-paying volume is adjusted to reflect filing trends and anticipated policy changes. These projections include the effects of changes that DHS is proposing in this rule to fee waiver policies, the discontinuation of free interim benefits while an Application to Register Permanent Residence or Adjust Status is pending, as well as the introduction of fees for Form I–589, Application for Asylum and for Withholding of Removal and Form I–182D, Consideration of Deferred Action for Childhood Arrivals (Renewal).[36] Some immigration benefit request volumes include estimated fee-paying volumes from CBP.[37]

TABLE 5—FEE-PAYING PROJECTION COMPARISON

2. Completion Rates

USCIS completion rates are the average hours per adjudication of an immigration benefit request. They identify the adjudicative time required to complete (render a decision on) specific immigration benefit requests. The completion rate for each benefit type represents an average. Completion rates reflect what is termed "touch time," or the time an employee with adjudicative responsibilities actually handles the case. This does not reflect "queue time," or time spent waiting, for example, for additional evidence or supervisory approval. Completion rates do not reflect the total processing time applicants, petitioners, and requestors can expect to wait for a decision on their case after USCIS accepts it.

USCIS requires employees who adjudicate immigration benefit requests to report adjudication hours and case completions by benefit type. Adjudication hours are divided by the number of completions for the same time period to determine an average completion rate. In addition to using this data to determine fees, completion rates help determine appropriate staffing allocations to handle projected workload. The USCIS Office of Performance and Quality (OPQ), field offices, and regional management scrutinize the data to ensure accuracy. When data is inconsistent and/or anomalies are identified, the OPQ contacts the reporting office to resolve and make necessary adjustments. USCIS has confidence in the data, given the consistency of reporting over the last several years. The continual availability of the information enables USCIS to update cost information for each fee review.

TABLE 6—COMPLETION RATES PER BENEFIT REQUEST

[Projected adjudication hours/completion]

Immigration benefit request	Service-wide completion rate
I–90 Application to Replace Permanent Resident Card	0.19
I–102 Application for Replacement/Initial Nonimmigrant Arrival-Departure Document	0.77
I–129H1	1.10
I–129H2A—Named Beneficiaries	1.92
I–129H2B—Named Beneficiaries	2.00
I–129L	2.23
I–129O	1.90
I–129CW, I–129E&TN, and I–129MISC	1.62
I–129H2A—Unnamed Beneficiaries	0.50
I–129H2B—Unnamed Beneficiaries	0.58
I–129F Petition for Alien Fiancé(e)	0.67
I–130 Petition for Alien Relative	0.86
I–131 Application for Travel Document	0.25
I–131 Refugee Travel Document for an individual age 16 or older	0.27
I–131 Refugee Travel Document for a child under the age of 16	0.25
I–131A Application for Carrier Documentation	1.01
I–140 Immigrant Petition for Alien Worker	1.46
I–290B Notice of Appeal or Motion	1.32
I–360 Petition for Amerasian, Widow(er) or Special Immigrant	1.65
I–485 Application to Register Permanent Residence or Adjust Status	1.63
I–526 Immigrant Petition by Alien Entrepreneur	8.65
I–539 Application to Extend/Change Nonimmigrant Status	0.51
I–589 Application for Asylum and for Withholding of Removal	4.10
I–600/600A; I–800/800A Orphan Petitions and Applications	2.22
I–600A/I–600 Supplement 3 Request for Action on Approved Form I–600A/I–600	1.90
I–601A Provisional Unlawful Presence Waiver	2.64
I–687 Application for Status as a Temporary Resident	N/A
I–690 Application for Waiver of Grounds of Inadmissibility	1.05
I–694 Notice of Appeal of Decision	1.10
I–698 Application to Adjust Status from Temporary to Permanent Resident (Under Section 245A of the INA)	3.76
I–751 Petition to Remove Conditions on Residence	1.30
I–765 Application for Employment Authorization	0.20
I–800A Supplement 3 Request for Action on Approved Form I–800A	1.90
I–821D Consideration of Deferred Action for Childhood Arrivals (Renewal)	0.12
I–817 Application for Family Unity Benefits	0.91
I–824 Application for Action on an Approved Application or Petition	0.78
I–829 Petition by Entrepreneur to Remove Conditions on Permanent Resident Status	8.15
I–881 Application for Suspension of Deportation or Special Rule Cancellation of Removal	2.00
I–910 Application for Civil Surgeon Designation	1.81
I–924 Application For Regional Center Designation Under the Immigrant Investor Program	34.95
I–924A Annual Certification of Regional Center	10.00
I–929 Petition for Qualifying Family Member of a U–1 Nonimmigrant	2.60
N–300 Application to File Declaration of Intention	2.68
N–336 Request for a Hearing on a Decision in Naturalization Proceedings (Under Section 336 of the INA)	3.05
N–400 Application for Naturalization	1.57
N–470 Application to Preserve Residence for Naturalization purposes	4.02
N–565 Application for Replacement Naturalization/Citizenship Document	0.89
N–600 Application for Certificate of Citizenship	1.08
N–600K Application for Citizenship and Issuance of Certificate Under Section 322	1.57
I–191 Application for Relief Under Former Section 212(c) of the Immigration and Nationality Act (INA)	2.10
I–192 Application for Advance Permission to Enter as Nonimmigrant	0.97
I–193 Application for Waiver of Passport and/or Visa	0.30
I–212 Application for Permission to Reapply for Admission into the U.S. After Deportation or Removal	2.71
I–601 Application for Waiver of Ground of Excludability	3.29
I–612 Application for Waiver of the Foreign Residence Requirement (Under Section 212(e) of the INA, as Amended)	0.53
USCIS Immigrant Fee	N/A

USCIS does not list completion rates for the following immigration benefit requests, forms, or other services, due to the special nature of their processing as explained below:

• *USCIS Immigrant Fees.* USCIS does not adjudicate applications for an immigrant visa. Rather, individuals located outside of the United States apply with a Department of State (DOS) overseas consular officer for an immigrant visa. If DOS issues the immigrant visa, the individual may apply with a U.S. Customs and Border Protection (CBP) officer at a port of entry for admission to the United States as an immigrant. This fee represents USCIS' costs to create and maintain files and to issue permanent resident cards to individuals who go through this process. *See* 8 CFR 103.7(b)(1)(i)(D), proposed 8 CFR 106.2(c)(3).

• *Refugee Processing and Other Forms Exempt from Fees.* These immigration benefit requests may use completion rates to determine staffing levels. However, USCIS does not list completion rates for these workloads because these are exempt from paying a fee:

◦ Credible Fear;
◦ Reasonable Fear;
◦ Registration for Classification as a Refugee, Form I–590;
◦ Application By Refugee For Waiver of Grounds of Excludability, Form I–602;
◦ Refugee/Asylee Relative Petition, Form I–730;
◦ Application for T Nonimmigrant Status, Form I–914;
◦ Petition for U Nonimmigrant Status, Form I–918; and
◦ Application for Posthumous Citizenship, Form N–644.

• *Temporary Protected Status (TPS).* DHS proposes not to rely on TPS fee revenue for recovering USCIS' operational expenses, consistent with previous fee rules. *See* 81 FR 73312–3. TPS designations may be terminated under current law or may cease due to a reduction in the eligible population. Termination of the program, in whole or in part, after the fees are set would result in unrealized revenue and a commensurate budgetary shortfall. After the fee schedule is effective, fees cannot be adjusted until the next fee schedule notice and comment rulemaking. Thus, temporary programs subject to termination based on changed circumstances are generally not included in the fee setting model. As such, USCIS excludes the completion rate for Form I–821, Application for Temporary Protected Status, from discussion in this rule because DHS cannot change the initial statutory registration fee permitted under section 244(c)(1)(B) of the INA or establish a re-registration fee for TPS. USCIS will continue to charge the biometric services fee, where required, and the fee for an employment authorization document, as permitted under 8 U.S.C. 1254b.

3. Assessing Proposed Fees

Historically, as a matter of policy, DHS uses its discretion to limit fee increases for certain immigration benefit request fees that would be overly burdensome on applicants, petitioners, and requestors if set at recommended ABC model output levels.[38] Previous proposed IEFA fee schedules referred to limited fee increases as ''low volume reallocation'' or ''cost reallocation.''[39] Despite the two separate phrases, the calculation for both is the same. In the FY 2016/2017 fee rule, USCIS calculated an 8 percent limited fee increase for certain immigration benefit request fees.[40] For this proposed rule, USCIS calculated a limited fee increase of 5 percent using the same methodology as the previous rule.[41]

As such, DHS proposes that the following immigration benefit request fees are limited to a 5 percent increase above the current fees:

• Form I–290B, Notice of Appeal or Motion.
• Form I–360, Petition for Amerasian, Widow(er) or Special Immigrant.
• Form I–600, Petition to Classify Orphan as an Immediate Relative.
• Form I–600A, Application for Advance Processing of an Orphan Petition.
• Form I–600A/I–600, Supplement 3, Request for Action on Approved Form I–600A/I–600.[42]
• Form I–800, Petition to Classify Convention Adoptee as an Immediate Relative.
• Form I–800A, Application for Determination of Suitability to Adopt a Child from a Convention Country.
• Form I–800A, Supplement 3, Request for Action on Approved Form I–800A.

The proposed increase of approximately 5 percent may vary slightly due to rounding. DHS rounds all IEFA fees to the nearest $5 increment.

In order for the proposed fee schedule to recover full cost, DHS proposes that other fees be increased to offset the projected cost of the 5 percent limited fee increase. Similarly, DHS proposes that other fees increase to offset a projected increase in workloads that are exempt from paying fees or that are capped at a fee less than what the ABC model indicates that they should pay. In this proposed rule, DHS refers to the process of recovering full cost for workloads without fees or the shifting of cost burdens among benefit request fees as a result of other policy decisions as cost reallocation.

Some proposed fees are significantly higher than the current fees. In some cases, this is because DHS proposes to not limit those fee increases, as it has done in the past, for policy reasons. Previous fee schedules limited the increase for certain immigration benefit requests, such as most naturalization related forms.[43] *See* 81 FR 26915–6. In this proposed rule, DHS proposes to not limit the fee increase to 5 percent for the following immigration benefit requests:

• Form I–601A, Provisional Unlawful Presence Waiver.
• Form I–765, Application for Employment Authorization.
• Form I–929, Petition for Qualifying Family Member of a U–1 Nonimmigrant.
• Form N–300, Application to File Declaration of Intention.
• Form N–336, Request for a Hearing on a Decision in Naturalization Proceedings.
• Form N–400, Application for Naturalization.
• Form N–470, Application to Preserve Residence for Naturalization Purposes.

If DHS were to propose limited fee increases for these immigration benefit requests, then other proposed fees would have to increase to recover full cost. For example, if DHS were to propose limited fee increases for all of the immigration benefit request fees that were limited in the previous fee rule, then some proposed fees could increase by as much as $1,185, with the average of those changes being an increase of $12 per immigration benefit request. The rationale for some of these proposed changes is further discussed later in the preamble. See section V. Proposed Changes in the FY 2019/2020 Fee Schedule.

Public commenters generally do not support fee increases. A fee decrease may be more popular. Generally, there are several potential ways to reduce IEFA fees:

1. Reduce projected costs or use other funding sources (such as appropriations, other fee accounts, carryover, or recoveries of prior year obligations);
2. Increase projected fee-paying receipts; or
3. Reduce completion rates.

As discussed earlier, reducing the projected costs to equal the projected revenue would risk degrading USCIS

[38] See footnotes 15 and 16.

[39] The FY 2016/2017 proposed fee schedule used both phrases. *See* 81 FR 26915. The FY 2010/2011 and FY 2008/2009 proposed fee schedules used the phrase ''low volume reallocation.'' *See* 75 FR 33461 and 72 FR 4910, respectively.

[40] The 8 percent increase was the percentage difference between the current fees and the model output before reallocation, weighted by fee-paying volume. *See* 81 FR 73296. The model output is a projected fee-paying unit cost from the ABC model. It is projected total cost divided by projected fee-paying receipts. While each fee review may calculate a different percentage, the formula for the calculation remains the same.

[41] In the docket for this proposed rule, the FY 2019/2020 Immigration Examinations Fee Account Fee Review Supporting Documentation has more information. See the Cost Reallocation column of Appendix Table 3: Proposed Fees by Immigration Benefit Request.

[42] DHS explains the purpose of this new proposed form in section V.M.3 of this preamble. Request for Action on Approved Application for Advance Processing of an Orphan Petition or Petition to Classify Orphan as an Immediate Relative, Form I–600A/I–600 Supplement 3.

[43] *See* V.O. Naturalization (discussion on the proposed naturalization fees).

operations funded by the IEFA.[44] Likewise, other funding sources are insufficient or unavailable.[45] Some of the proposed fees would be even higher without an increase to projected fee-paying receipts.[46] As discussed in the previous section, completion rates are based on reported adjudication hours and completions. USCIS does not believe the level of effort for future adjudications will decrease.

C. Fee-Related Issues Noted for Consideration

DHS identifies a number of issues that do not affect the FY 2019/2020 fee review but do merit some discussion. DHS does not propose any changes related to the issues discussed in this section. USCIS may discuss these issues in future biennial fee reviews or in conjunction with other USCIS fee rules. DHS welcomes comments on all facets of the FY 2019/2020 fee review, this proposed rule, and USCIS fees in general, regardless of whether changes have been proposed here.

1. Accommodating E-Filing and Form Flexibility

DHS attempts, as it did in the FY 2016/2017 fee rule, to propose fees based on form titles instead of form numbers to avoid prescribing fees in a manner that could undermine the conversion of USCIS to electronic processing. *See* proposed 8 CFR 106. Form numbers are included for informational purposes, but are not intended to restrict the ability of USCIS to collect a fee for a benefit request that falls within the parameters of the adjudication for which the fee is published. As USCIS modernizes its processes and systems to allow more applicants, petitioners, and requestors to file applications online, the agency may collect fees for immigration benefit requests that do not have a form number or do not have the same form number as described in regulations. This could occur, for example, if USCIS developed an online version of a request that individuals often submit with applications for employment authorization. In this situation, USCIS may find it best to consolidate the two requests without separately labelling the different sections related to the relevant form numbers. DHS would still collect the required fee for the underlying immigration benefit request as well as the request for employment authorization, but the actual online request would not necessarily contain form numbers corresponding to each separate request.

Similarly, USCIS may determine that efficiency would be improved by breaking a paper form into separate paper forms. For instance, USCIS could separate Form I–131, Application for Travel Document, into a separate form and form number for advance parole, humanitarian parole, refugee travel documents, or reentry permits. In this example, USCIS could continue to charge the current Form I–131 fee. This structure permits USCIS to change forms more easily without having to perform a new fee review each time the agency chooses to do so.

2. Processing Time Outlook

As discussed in the Cost and Revenue Differential section of this preamble, USCIS anticipates having insufficient resources to process its projected workload. USCIS estimates that it will take several years before USCIS backlogs decrease measurably. USCIS experienced an unexpectedly high volume of immigration benefit requests in FY 2016 and FY 2017. In FY 2018, USCIS implemented measures to reduce the backlog, such as adjudicating asylum workload on a last-in-first out basis.[47] As explained in the Cost Projections section of this preamble, projected workloads for FY 2019 and FY 2020 exceed current workload capacity, thereby requiring additional staff.

A number of uncertainties remain that impede efficient case processing and timely decision making. One uncertainty is how to define the specific elements of the screening and national security vetting that USCIS will employ. This new framework will likely involve greater use of social media screenings and more in-person interviews of applicants for certain immigration benefits.[48] In addition, USCIS believes that the growing complexity of the case adjudication process over the past few years has also contributed to higher completion rates. For example, it takes more time for officers to adjudicate each case. (See section IV.B.2. Completion Rates.)

Through this rule, USCIS expects to collect sufficient fee revenue to fund additional staff that will support FY 2019/2020 workload projections as well as perform more national security vetting and screening. While USCIS is committed to ensuring the integrity of the immigration system and safeguarding national security, it is also committed to reducing processing times and the current backlog, without sacrificing proper vetting checks, by identifying ways to increase efficiency, ensuring the successful transition from paper-based to electronic processing, and increasing adjudicative resources. For example, USCIS is transitioning non-adjudicative work from adjudicators to other staff, centralizing the delivery of information services through the USCIS Contact Center, and leveraging electronic processing and automation.

Applicants, petitioners, and requestors can track the status of their immigration benefit requests online by using their receipt number or by creating an online account at *https://uscis.gov/casestatus*. They may also make an ''outside normal processing time'' case inquiry for any benefit request pending longer than the time listed for the high end of the range by submitting a service request online at *https://egov.uscis.gov/e-request/Intro.do* or calling the USCIS Contact Center at 1–800–375–5283.

USCIS also expects to improve the user experience as it continues to transition to online filing and electronic processing of immigration applications and petitions. With the new person-centric electronic case processing environment, USCIS will possess the data necessary to provide near-real-time processing updates on the status and time period lapsed between actions for each individual case. This enables greater transparency to the public on how long it will take to process each case as it moves from stage to stage (for example, biometrics collection, interview, and decision).

USCIS is committed to providing applicants, petitioners, and requestors with relevant information when they need it. As a result, USCIS is transforming how it calculates and posts processing time information in an effort to improve the timeliness of such postings, but more importantly to achieve greater transparency. USCIS will continue to provide processing times in an accurate and transparent fashion.

V. Proposed Changes in the FY 2019/2020 Fee Schedule

A. Clarify Dishonored Fee Check Re-Presentment Requirement and Fee Payment Method

In the FY 2016/2017 fee rule, DHS amended the regulations regarding how USCIS treats a benefit request accompanied by fee payment (in the form of check or other financial instrument) that is subsequently returned as not payable. *See* 81 FR 73313–15 (Oct. 24, 2016); 8 CFR 103.2(a)(7)(ii) and 8 CFR 103.7(a)(2). If a financial instrument used to pay a fee is returned as unpayable after one re-presentment, USCIS rejects the filing and imposes a standard $30 charge. *See id.* In the preamble to the FY 2016/2017 fee rule, DHS stated that, to make sure a payment rejection is the result of insufficient funds and not due to USCIS error or network outages, USCIS (through the U.S. Department of the Treasury (Treasury)) will resubmit rejected payment instruments to the appropriate financial institution one time. *See* 8 CFR 103.2(a)(7)(ii)(D). While DHS's intent was to submit only checks that were dishonored due to insufficient funds, some stakeholders have interpreted the re-presentment as applying to any check DHS has deposited that is returned as unpayable. Although the Treasury check clearance regulations permit an agency to re-deposit a check dishonored due to insufficient funds, they prohibit submitting checks dishonored for other reasons for clearance a second time. *See* 31 CFR 210.3(b); 2016 NACHA Operating Rules & Guidelines: A Complete Guide to Rules Governing the ACH Network, Subsection 2.5.13.3 (limiting re-depositing a check to those that are returned due to ''Not Sufficient Funds,'' ''NSF,'' ''Uncollected Funds,'' or comparable). To comply with the Treasury regulations, DHS is proposing in this rule that if a check or other financial instrument used to pay a fee is returned as unpayable *because of insufficient funds,* USCIS will resubmit the payment to the remitter institution one time. If the remitter institution returns the instrument used to pay a fee as unpayable a second time, USCIS will reject the filing. USCIS will not re-deposit financial instruments returned as unpayable for a reason other than insufficient funds. Proposed 8 CFR 103.2(a)(7)(ii)(D).

In addition, DHS proposes that it may reject a request that is accompanied by a check that is dated more than 365 days before the receipt date. Currently, USCIS policy is to reject a check that is dated more than a year before it is submitted. However, that policy is not codified, and DHS has been sued or threatened with litigation multiple times when a check that was dated more than a year before it was submitted was the basis of a rejection that caused the requestor to miss an important deadline. For example, USCIS has permitted an applicant to submit Form I–821 after the deadline [49] and adjudicated a Form I–485 filed after the applicant's U nonimmigrant status had expired because his initial, timely filing was rejected because it contained a check that was more than one year old. *See* 8 CFR 245.24(b)(2)(ii) (requiring the applicant to hold U nonimmigrant status at the time of application.). While most personal and business checks do not expire, they become what is known as ''stale dated'' six months after they are written. This is because many things may change in six months that may affect the check's validity or the original reason that it was written. Accordingly, the Uniform Commercial Code [50] provides that a bank may delay access to the funds from or is not obligated to deposit, cash, honor, or pay a stale check. USCIS projects that it will receive an average 7,789,861 fee payments per year.[51] It is important that its requirements for payment instruments provide certainty and minimize the likelihood of a payment being dishonored. Although commercial banks use a guideline of six months, DHS proposes to reject only year-old checks to provide requestors with more flexibility in case there are delays with their filing. Rejecting a check that is dated more than a year earlier is also consistent with the time limit for a check issued by the U.S. Treasury. *See* 31 CFR 245.3(a) (''Any claim on account of a Treasury check must be presented to the agency that authorized the issuance of such check within one year after the date of issuance of the check or within one year after October 1, 1989, whichever is later.''). Rejection of a stale check will not be mandatory, so USCIS will still have the authority to waive the check date requirement in exigent circumstances.

DHS also proposes that USCIS may require that certain fees be paid using a certain payment method or that certain fees cannot be paid using a particular method. Proposed 8 CFR 106.1(b). For example, USCIS may require that a request be submitted by using *Pay.gov*, a secure portal which transmits an applicant's payment information directly to the U.S. Treasury for processing, or may preclude the use of certain payment types such as cashier's check and money orders for the payment of a particular form or when payments are made at certain offices. The proposed change provides that payment method will be provided in the form instructions (including for online filing) or by individual notice (a bill, invoice, appointment confirmation, etc.); therefore, requestors will be clearly notified of any limitations on the payment method for the request they are filing. About 80 percent of all USCIS filings are received via a Lockbox that is well versed in intake and depositing of multiple payment types. However, the requirements and circumstances for the filing of some requests do not permit lockbox submission and intake, and the request must be filed at a particular office or in person. Various offices, such as field offices, embassies, and consulates, are limited in the method of payment that they can receive or process. Additionally, certain payment methods such as checks or cash require time-intensive procedures for cashiers and their supervisors to input, reconcile, and verify their daily receipts and deposits. Generally, federal agency offices must deposit money that they receive on the same day that it is received. *See* 31 U.S.C. 3720(a); 31 CFR 206.5; Treasury Financial Manual Vol. 1, Part 5, Chapter 2000, Section 2055.[52] There are additional requirements and guidance for timely record keeping and redundancy in personnel that similarly increase workload and processing costs. *See* 31 U.S.C. 3302(e); Treasury Financial Manual Vol. 1, Part 5, Chapter 2000, Section 2030; *see also* U.S. Government and Accountability Office (GAO) GAO–14–704G Standards for Internal Control in the Federal Government (2014).[53] The time that USCIS spends complying with payment processing requirements can be used to adjudicate cases. This proposed change would also permit USCIS to reduce

administrative burdens and processing errors associated with fee payments.

DHS is also clarifying that fees are non-refundable regardless of the result of the immigration benefit request or how much time the request requires to be adjudicated. As provided in 8 CFR 103.2(a)(1) USCIS filing fees generally are non-refundable and must be paid when the benefit request is filed. As discussed fully in this rule, DHS is authorized to establish fees to recover the costs of providing USCIS adjudication and naturalization services. While the fees are to recover the processing costs of adjudications, the fees are due when filing an immigration benefit request before the request will be considered received and the requestor will receive a receipt date. *See* 8 CFR 103.2(a)(7)(ii)(D). A benefit request will be rejected if it is not submitted with the correct fee(s). Thus the fee is due at filing and is not refundable, regardless of how much time passed from filing to approval, or if the request is denied or approved. Nevertheless, USCIS has recently, greatly, expanded acceptance of credit cards for the payment of USCIS fees. To our misfortune, the increased acceptance of credit cards for the payment of USCIS fees has resulted in a sizeable increase in the number of disputes filed with credit card companies challenging the retention of the fee by USCIS. Disputes are generally filed by requestors whose request was denied, who have changed their mind about the request, or assert that the service was not provided or unreasonably delayed. Troublingly, USCIS loses many of these dispute because the credit card companies agree with the cardholder and have determined that USCIS fails to adequately warn the cardholder that the fee is not refundable and due regardless of the result or time required. As the dollar amount of fees paid with credit cards continues to increase, this result has the potential to have a significant negative fiscal effect on USCIS fee receipts. Therefore, DHS is proposing to clarify that fees will not be refunded no matter the result of the benefit request or how much time the adjudication requires. Proposed 8 CFR 103.2(a)(1). In the event that the bank that issues the credit card rescinds the payment of the fee to USCIS, USCIS reserves the authority to invoice the responsible party (applicant, petitioner, requestor) and pursue collection of the unpaid fee in accordance with 31 CFR 900–904 (Federal Claims Collection Standards).

B. Eliminate $30 Returned Check Fee

DHS also proposes to amend its regulations to remove the $30 charge for dishonored payments. *See* 8 CFR 103.7(a)(2)(i). USCIS data indicates that the cost of collecting the $30 fee outweighs the benefits to the government derived from imposing and collecting the fee. For example, in FY 2016, USCIS collected a total of $416,541 from the $30 returned check fee while the financial service provider billed $508,770 to collect the $30 fee. Furthermore, USCIS does not retain the $30 fee for deposit into the IEFA with other immigration benefit request fees; thus the $30 fee does not provide revenue to USCIS. Agencies may prescribe regulations establishing the charge for a service or thing of value provided by the agency. *See* 31 U.S.C. 9701. However, federal agencies are not required to impose fees as a general matter, nor does DHS or USCIS have a specific statutory authorization or requirement to do so. Therefore, DHS is not required to charge a returned check fee. DHS proposes to remove the $30 fee from regulations.

C. Fee Waivers

1. Background

Currently, USCIS may waive the fee for certain immigration benefit requests when the individual requesting the benefit is unable to pay the fee. *See* 8 CFR 103.7(c). To request a fee waiver, the individual must submit a written waiver request for permission to have their benefit request processed without payment. Under the current regulation, the waiver request must state the person's belief that he or she is entitled to or deserving of the benefit requested and the reasons for his or her inability to pay and include evidence to support the reasons indicated. *See* 8 CFR 103.7(c)(2). There is no appeal of the denial of a fee waiver request. *See id.*

The statute authorizing USCIS to establish fees does not specifically mention fee waivers and fee exemptions for any type of applicant or group, or any criteria for fee waivers.[54] The statute does not require that DHS provide certain services for free, but it authorizes DHS to set USCIS fees at a level that will recover the full costs of adjudication and naturalization services provided ''including the costs of similar services provided without charge to asylum applicants or other immigrants.''[55] DHS interprets that provision as authorizing it to provide certain services for free in all cases in the form of fee exemptions,[56] or free when certain criteria are met in the form of a waiver. DHS has always implemented fee waivers based on need, and since 2007, has precluded fees waivers for individuals that have financial means as a requirement for the status or benefit sought. *See* 72 FR 4912. However, the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 (TVPRA)[57] requires DHS to permit certain applicants to apply for fee waivers for ''any fees associated with filing an application for relief through final adjudication of the adjustment of status.''[58] DHS interprets ''any fees associated with filing an application for relief through final adjudication of the adjustment of status''[59] to mean that, in addition to the main immigration benefit request that accords a status, (such as Form I–360, Petition for Amerasian, Widow(er), or Special Immigrant or Form I–485, Application to Register Permanent Residence or Adjust Status) applicants must have the opportunity to request a fee waiver for any form associated with the main benefit application up to and including the adjustment of status application.[60] Table 7 lists the immigration categories for which DHS must provide an opportunity to request a fee waiver for main immigration benefit requests and associated forms in accordance with TVPRA.[61]

[54] USCIS is primarily funded by application and petition fees. Under INA 286(m), 8 U.S.C. 1356(m), DHS has the authority to establish the fees it charges for immigration and naturalization services to recover the full costs of such services, including those provided without charge, and to recover costs associated with the administration of the fees collected. Therefore, the fees are set at a level that is intended to recover the full cost of USCIS operations.

[55] *See* INA sec. 286(m), 8 U.S.C. 1356(m).

[56] See, *e.g.,* proposed 8 CFR 106.2(a)(45) and (46) (codifying no fee for an *Application for T Nonimmigrant Status* and *Petition for U Nonimmigrant Status*).

[57] *See* title II, subtitle A, sec. 201(d)(3), Public Law 110–457, 122 Stat. 5044 (2008); INA sec. 245(l)(7), 8 U.S.C. 1255(l)(7).

[58] *See id.*

[59] *See id.*

[60] Certain USCIS forms are not listed in 8 CFR 103.7(b) and therefore have no fee. *See* proposed 8 CFR 106.2 for proposed fees.

[61] INA sec. 245(l)(7), 8 U.S.C. 1255(l)(7).

TABLE 7—STATUTORY FEE WAIVER CATEGORIES AND ASSOCIATED FORMS

Category	Main immigration benefit requests [62]	Associated forms
Violence Against Women Act (VAWA) self-petitioners.[63]	• Form I–360, Petition for Amerasian, Widow(er), or Special Immigrant (no fee). • Form I–485, Application to Register Permanent Residence or Adjust Status. • Form I–751, Petition to Remove Conditions on Residence.	• Form I–131, Application for Travel Document.[64] • Form I–212, Application for Permission to Reapply for Admission into the United States After Deportation or Removal. • Form I–290B, Notice of Appeal or Motion. • Form I–601, Application for Waiver of Grounds of Inadmissibility. • Form I–765, Application for Employment Authorization (no fee for principals).[65]
Victims of Severe Form of Trafficking (T visas).[66]	• Form I–914, Application for T Nonimmigrant Status (no fee). • Form I–914, Supplement A, Application for Family Member of T–1, Recipient (no fee). • Form I–914, Supplement B, Declaration of Law Enforcement Officer for Victim of Trafficking in Persons (no fee). • Form I–485, Application to Register Permanent Residence or Adjust Status.	• Form I–131, Application for Travel Document. • Form I–192, Application for Advance Permission to Enter as a Nonimmigrant. • Form I–193, Application for Waiver of Passport and/or Visa. • Form I–290B, Notice of Appeal or Motion. • Form I–539, Application to Change/Extend Nonimmigrant Status. • Form I–601, Application for Waiver of Grounds of Inadmissibility. • Form I–765, Application for Employment Authorization (no fee for principals).
Victims of Criminal Activity (U visas).[67]	• Form I–918, Petition for U Nonimmigrant Status (no fee). • Form I–918, Supplement A, Petition for Qualifying Family Member of U–1 Recipient (no fee). • Form I–918, Supplement B, U Nonimmigrant Status Certification (no fee). • Form I–929, Petition for Qualifying Family Member of a U–1 Nonimmigrant. • Form I–485, Application to Register Permanent Residence or Adjust Status.	• Form I–131, Application for Travel Document. • Form I–192, Application for Advance Permission to Enter as a Nonimmigrant. • Form I–193, Application for Waiver of Passport and/or Visa. • Form I–290B, Notice of Appeal or Motion. • Form I–539, Application to Extend/Change Nonimmigrant Status. • Form I–765, Application for Employment Authorization (no fee for principals).
Battered spouses of A, G, E–3, or H nonimmigrants.[68]	• Form I–765V, Application for Employment Authorization for Abused Nonimmigrant Spouse (no fee).	• None.
Battered spouses or children of a lawful permanent resident or U.S. citizen under INA 240A(b)(2).[69]	• EOIR–42B, Application for Cancellation of Removal and Adjustment of Status for Certain Nonpermanent Residents (DOJ form and immigration judge determines fee waiver).	• Form I–601, Waiver of Grounds of Inadmissibility.
Temporary Protected Status.[70]	• I–821, Application for Temporary Protected Status. • Biometric Services Fee	• Form I–131, Application for Travel Document. • Form I–601, Application for Waiver of Grounds of Inadmissibility. • Form I–765, Application for Employment Authorization.

Before 2007, USCIS couldwaive any fee, even if a fee waiver was inconsistent with the underlying immigration benefit request. For example, before 2007, USCIS could waive fees for companies seeking to sponsor foreign workers, individuals seeking status based on substantial business investments, or individuals seeking to sponsor foreign relatives to whom the sponsors must provide financial support. *See* 72 FR 4912. Since 2007, USCIS has limited the fees that may be waived under 8 CFR 103.7(c)(3) based on the general premise that fee waivers must be consistent with any financial considerations that apply to the status or benefit sought. *See* 8 CFR 103.7(c)(1)(ii).

Following the FY 2010/2011 fee rule, USCIS also issued policy guidance to streamline fee waiver adjudications and make them more consistent across offices and form types nationwide. *See* Policy Memorandum, PM–602–0011.1, *Fee Waiver Guidelines as Established by the Final Rule of the USCIS Fee Schedule;* Revisions to Adjudicator's Field Manual (AFM) Chapter 10.9, AFM Update AD11–26 (Mar. 13, 2011) (''Fee

[62] Some immigration benefit requests may not have a fee for the specific category.

[63] *See* INA sec. 101(a)(51), 8 U.S.C. 1101(a)(51); INA section 245(l)(7), 8 U.S.C. 1255(l)(7). Public Law 110–457, 122 Stat. 5044 (Dec. 23, 2008); 22 U.S.C. 7101 *et seq.*

[64] Currently, fees for Form I–131 are exempt if filed in conjunction with a pending or concurrently filed Form I–485 with fee that was filed on or after July 30, 2007. *See* 8 CFR 103.7(b)(1)(i)(M)(4). However, DHS proposes changes to this policy in this rule as explained later in this preamble.

[65] Form I–360 allows a principal self-petitioner to request an EAD incident to case approval without submitting a separate Form I–765. Form I–765 is required for employment authorization requests by derivative beneficiaries.

[66] *See* INA sec. 101(a)(15)(T), 8 U.S.C. 1101(a)(15)(T) (T nonimmigrant status for victims of a severe form of trafficking in persons).

[67] *See* INA sec. 101(a)(15)(U), 8 U.S.C. 1101(a)(15)(U) (U nonimmigrant status for victims of certain criminal activity).

[68] *See* INA sec. 106, 8 U.S.C. 1105a.

[69] *See* INA sec. 240A(b)(2), 8 U.S.C. 1229b(b)(2), and INA sec. 245(l)(7), 8 U.S.C. 1255(l)(7).

[70] See INA sec. 244, 8 U.S.C. 1254a.

Waiver Policy''). The Fee Waiver Policy clarified acceptable measures of income and documentation that individuals may present to demonstrate they are unable to pay a fee when requesting a fee waiver. In June 2011, USCIS issued Form I–912, Request for Fee Waiver, as a standardized form with instructions to request a fee waiver in accordance with the Fee Waiver Policy.[71] USCIS previously engaged in a holistic analysis of the individual's finances to determine inability to pay. *See, e.g.,* William R. Yates, *Field Guidance on Granting Fee Waivers Pursuant to 8 CFR 103.7(c)* (Mar. 4, 2004). The 2011 Fee Waiver Policy established a streamlined process where USCIS would usually waive the entire fee and the biometric services fee for forms listed in 8 CFR 103.7(c)(3) for applicants who at time of filing the fee waiver request with the benefit application: [72]

- Were receiving a means-tested benefit;
- Had a household income at or below 150 percent of the Federal Poverty Guidelines (FPG); or
- Were experiencing extreme financial hardship such as unexpected medical bills or emergencies.

The FY 2010/2011 fee rule also authorized the USCIS director to approve and suspend exemptions from fees or provide that the fee may be waived for a case or class of cases that is not otherwise provided in 8 CFR 103.7(c). *See* 75 FR 58990; 8 CFR 103.7(d).

On October 25, 2019, USCIS published the updated Form I–912 [73] and corresponding policy guidance in the USCIS Policy Manual [74] that removed the means-tested benefit as a criterion in the fee waiver request determination, clarified that the submission of Form I–912 is required to request a fee waiver, and clarified some of the evidence requirements. The new policy will be effective on December 2, 2019. Therefore, as of December 2, 2019 an individual would be eligible to request a fee waiver based on one of two criteria for inability to pay, *i.e.,* if he or she:

- Has a household income at or below 150 percent of the FPG; or
- Is experiencing extreme financial hardship such as unexpected medical bills or emergencies.

This proposed rule further limits forms eligible for a fee waiver and the criteria to establish eligibility for a fee waiver.

2. Cost of Fee Waivers

The U.S. Government Accountability Office (GAO), an independent, nonpartisan agency that works for Congress, describes equity of federal user fees as a balancing act between two principles:

- Beneficiary-pays; and
- Ability-to-pay.[75]

This proposed rule emphasizes the beneficiary-pays principle. Under the beneficiary-pays principle, the beneficiaries of a service pay for the cost of providing that service. *See* GAO–08–386SP at pp. 7–12.

Under the ability-to-pay principle, those who are more capable of bearing the burden of fees should pay more for the service than those with less ability to pay. IEFA fee exemptions, fee waivers, and reduced fees for low income households adhere to this principle. Applicants, petitioners, and requestors who pay a fee cover the cost of processing requests that are fee-exempt, fee-waived, or fee-reduced. For example, if only 50 percent of a benefit request workload is fee-paying, then those who pay the fee will pay twice as much as they would if everyone paid the fee. By paying twice as much, they pay for their benefit request and the cost of the same benefit request that someone else did not pay for.

In prior years, USCIS fees have given significant weight to the ability-to-pay principle. In the FY 2016/2017 fee rule, DHS noted that the estimated annual forgone revenue from fee waivers and exemptions has increased markedly, from $191 million in the FY 2010/2011 fee review to $613 million in the FY 2016/2017 fee review. *See* 81 FR 26922 and 73307. In the FY 2016/2017 proposed rule, DHS estimated that the increase in fee waiver accounted for 9 percent of the 21 percent weighted average fee increase. *See* 81 FR 26910. In the same proposed rule, DHS provided notice that in the future it may revisit the USCIS fee waiver guidance with respect to what constitutes inability to pay under 8 CFR 103.7(c). *See* 81 FR 26922.

Each fee review plans for a certain level of fee waivers, fee exemptions, and other fee-paying policy decisions. Ideally, no IEFA revenue is lost due to fee waivers because USCIS plans for a certain level of fee waivers and fee exemptions. IEFA fees recover full cost, including the estimated cost of fee-waived and fee-exempt work. However, USCIS does forgo revenue by allowing fee waivers and fee exemptions. Forgone revenue represents the total fees that fee waiver or fee exempt applicants, petitioners, and requestors would have paid if they had paid the fees.

In the FY 2019/2020 fee review, USCIS determined that without changes to fee waiver policy, it would forgo revenue of approximately $1,494 million. The proposed fee schedule estimates $962 million forgone revenue from fee waivers and fee exemptions. The difference in forgone revenue is $532 million. Without changes to fee waiver policy, fees would increase by a weighted average of 31 percent, which is 10 percent more than in the proposed fee schedule.

3. Proposed Fee Waiver Changes

As previously stated, INA sec. 286(m), 8 U.S.C. 1356(m) authorizes but does not require that DHS set fees to recover the costs of administering USCIS adjudication and naturalization services. That statute also authorizes setting such fees at a level that will recover the costs of services provided without charge, but it does not require that DHS provide services without charge.[76] Nevertheless, DHS (and previously the INS) has provided fee waivers based on need. *See, e.g.,* 63 FR 43604, 43607 (stating, ''The Service often waives fees for this application when the economic need exists. The proposed rule stated, 'For FY 1998, the Service estimates that approximately 50 percent of the Form I–765 applications will be processed at no charge to applicants, at a total cost of $35.9 million.' ''). For the reasons stated in this rule, DHS has determined that it is necessary to utilize this statutory discretion to establish the following new requirements for waiving USCIS fees.

[71] The form and its instructions may be viewed at *http://www.uscis.gov/i-912.* The proposed version is available for review in the docket for this proposed rule.

[72] *See* Policy Memorandum, PM–602–0011.1, Fee Waiver Guidelines as Established by the Final Rule of the USCIS Fee Schedule; Revisions to Adjudicator's Field Manual (AFM) Chapter 10.9, AFM Update AD11–26 (Mar. 13, 2011); AFM Chapter 10.9(b).

[73] The Office of Information and Regulatory Affairs, Office of Management and Budget (OMB) approved the form changes on October 24, 2019, available at *https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201910-1615-006#* (last visited October 25, 2019).

[74] See USCIS, Policy Alert PA 2019–06, Fees for Submission of Benefit Requests, available at *https://www.uscis.gov/sites/default/files/policymanual/updates/20191025-FeeWaivers.pdf* (last visited Oct. 25, 2019) (revising the USCIS interpretation of unable to pay in 8 CFR 103.7(c)).

[75] GAO, *Federal User Fees: A Design Guide* (May 29, 2008), available at *https://www.gao.gov/products/GAO-08-386SP.*

[76] Legislation enacted in 2008 requires that a fee waiver be considered for certain requests. INA sec. 245(l)(7), 8 U.S.C. 1255(l)(7).

a. Limits on Eligible Forms and Categories

Because of the costs of fee waivers, and the inconsistency of current fee waiver regulations with the beneficiary pays principal, DHS proposes to limit fee waivers to immigration benefit requests for which USCIS is required by law to consider a fee waiver or where the USCIS Director exercises favorable discretion as provided in the proposed regulation. *See* proposed 8 CFR 106.3. The proposed regulation would limit the eligible forms and categories to those listed in Table 7: Statutory Fee Waiver Categories and Associated Forms.[77] Accordingly, many forms will generally no longer be eligible for a fee waiver,[78] except in limited circumstances where the law requires that a waiver be made available based on the circumstances of the applicant. Forms that would generally no longer be eligible for a fee waiver include the following:

- Form I–90, Application to Replace Permanent Resident Card;
- Form I–765, Application for Employment Authorization;
- CNMI related petitions and applications; [79]
- Form I–485, Application to Register Permanent Residence or Adjust Status; [80]
- Forms for applicants exempt from the public charge inadmissibility ground; [81]
- Form I–751, Petition to Remove Conditions on Residence;
- Naturalization and citizenship-related forms.[82]

The Senate Appropriations Committee Report that accompanied the fiscal year 2017 Department of Homeland Security Appropriations Act [83] expressed concern about the increased use of fee waivers, which force those paying fees to absorb costs for which they receive no benefit.[84] DHS believes that these changes would make the fee increase more equitable for all immigration benefit requests by requiring fees for the service to be paid by those who benefit.

b. Eligibility Requirements

Further, DHS proposes to generally limit fee waivers to individuals who have an annual household income of less than 125 percent of the FPG as defined by the U.S. Department of Health and Human Services (HHS). Notwithstanding these general limitations, however, a fee waiver may be authorized in the USCIS Director's discretion, even for those benefit requests not normally amenable to a fee waiver,[85] if an individual meets all three of the following requirements:

- Has an annual household income at or below 125 percent of the FPG as defined by HHS;
- Is seeking an immigration benefit for which he or she is not required to submit an affidavit of support under INA section 213A, 8 U.S.C. 1183a, or is not already a sponsored immigrant as defined in 8 CFR 213a.1; and
- Is seeking an immigration benefit for which he or she is not subject to the public charge inadmissibility ground under INA section 212(a)(4), 8 U.S.C. 1182(a)(4).

In addition, DHS would update the language in the regulation to codify that a person must submit a request for a fee waiver on the form prescribed by USCIS, as provided in the previous Form I–912 notice and provide evidence of household income such as federal income tax transcripts.

USCIS believes that making these changes to the fee waiver policy would assure that fee paying applicants do not bear the increasing costs caused by application fees being waived.

c. Income Requirements

The poverty guidelines are used as an eligibility criterion by many Federal public benefit programs and USCIS to determine income levels. The poverty guidelines are a simplified version of the poverty thresholds that the Census Bureau uses to prepare its estimates of the number of individuals and families in poverty.[86] Some federal programs use a percentage multiple of the guidelines (for example, 125 percent or 185 percent of the guidelines), as noted in relevant authorizing legislation or program regulations.[87] The poverty threshold or line (100 percent of the FPG) is the primary version of the federal poverty measure, as updated by the Census Bureau every year, and generally used to estimate the number of Americans in poverty each year.[88]

In the immigration context, USCIS uses 125 percent of the FPG as the standard for public charge and affidavit of support purposes.[89] Congress also identified 125 percent of FPG as a threshold for a sponsor to support an individual immigrant to meet the requirements an affidavit of support in the public charge inadmissibility determination.[90] The threshold for fee waiver eligibility under current regulations of 150 percent of the FPG is higher than the threshold used in the public charge and affidavit of support context. DHS believes limiting fee waivers to households with incomes at or below 125 percent of the FPG, as proposed in this rule, would be appropriate because it would be consistent with the affidavit of support requirements under INA sections 212(a)(4) and 213A, 8 U.S.C. 1182(a)(4).

d. Subject to INA Section 212(a)(4) and Affidavit of Support Requirements

The current fee waiver regulation allows people who are applying for several immigration benefits—advance permission to enter as a nonimmigrant, a waiver for passport and/or visa, adjustment of status, or for a waiver of grounds of inadmissibility—to file a fee waiver request if they are not subject to the public charge inadmissibility ground. *See* 8 CFR 103.7(c)(4) (stating that certain fees may be waived ''only for an alien for which a determination

[77] Under the settlement agreement concluded in *American Baptist Churches* v. *Thornburgh,* 760 F. Supp. 976 (N.D. Cal. 1991) (*ABC*), ''eligible class members who can demonstrate that they fall within the poverty guidelines as set forth in 45 CFR 1060.2 will not be required to pay the fee.'' DHS will continue to allow these applicants to request a fee waiver. In 1991, the U.S. Department of Health and Human Services (HHS) codified at 45 CFR 1060.2 (1990) the federal poverty guidelines issued by the former HHS Office of Economic Opportunity/Community Services Administration. The *ABC* settlement agreement requires USCIS to waive fees for those covered by the agreement who fall squarely within the Federal Poverty Guidelines. The requirements for a fee waiver proposed in this rule are less restrictive than the subject settlement agreement. *See* proposed 8 CFR 106.3(d).

[78] Fee waivers would still be available at the discretion of the USCIS Director, or as provided by INA 245(l)(7), 8 U.S.C. 1255(l)(7). *See* proposed 8 CFR 106.3. An applicant, petitioner, or requestor may not independently request that the Director exercise this authority.

[79] For example, Form I–129CW, Petition for CNMI-Only a Nonimmigrant Transitional Worker, and Form I–539, Application to Extend/Change Nonimmigrant Status.

[80] Certain categories may still be eligible for fee waivers of an I–485, as identified in Table 7, as provided by INA 245(l)(7), 8 U.S.C. 1255(l)(7).

[81] For example, Form I–601, Application for Waiver of Grounds of Inadmissibility, Form I–192, Application for Advance Permission to Enter as Nonimmigrant, and Form I–193, Application for Waiver for Passport and/or Visa.

[82] Including Form N–400, Application for Naturalization; Form N–470, Application to Preserve Residence for Naturalization Purposes; Form N–336, Request for a Hearing on a Decision in Naturalization Proceedings; Form N–565, Application for Replacement of Naturalization/Citizenship Document; Form N–600, Application for Certification of Citizenship; and Form N–600K, Application for Citizenship and Issuance of Certificate Under section 322.

[89] *See* 8 CFR 212.22(b)(4)(i)(A).

[90] *See* INA sec. 213A(f)(1)(E), 8 U.S.C. 1183a(f)(1)(E).

of their likelihood of becoming a public charge under section 212(a)(4) of the Act is not required at the time of an application for admission or adjustment of status''). Consistent with this provision, DHS is proposing that fee waivers will not be available to applicants who are subject to the public charge inadmissibility ground.[91]

DHS also proposes to preclude fee waivers for applicants who are subject to an affidavit of support under INA section 213A, 8 U.S.C. 1183a, or is already a sponsored immigrant as defined in 8 CFR 213a.1. Under the Illegal Immigration Reform and Immigrant Responsibility Act (IIRIRA), Congress provided that the affidavit of support could be legally required and enforced for certain immigration categories.[92] A sponsor generally must demonstrate that he or she is able to maintain the sponsored alien at an annual income of not less than 125 percent of the FPG.[93] Although sponsors are not required to assist an alien with immigration fees, a sponsor is generally financially responsible for the alien; thus, an alien with a sponsor should not need a fee waiver. DHS has decided that it is inconsistent with that law and its stated objective that aliens be able to meet their needs for applicants who have a sponsor through an affidavit of support to receive immigration benefits for free, funded by others who are paying their full immigration benefit request fee. Therefore, USCIS believes that limiting fee waivers to those applicants who are not subject to affidavit of support requirements is consistent with congressional intent under IIRIRA.'' [94]

DHS notes that the House Report on Department of Homeland Security Appropriations Bill, 2019 stated, ''USCIS is expected to continue the use of fee waivers for applicants who can demonstrate an inability to pay the naturalization fee. USCIS is also encouraged to consider whether the current naturalization fee is a barrier to naturalization for those earning between 150 percent and 200 percent of the federal poverty guidelines, who are not currently eligible for a fee waiver.'' H. Rep. No. 115–948 at 61 (2018). USCIS appreciates the concerns of this recommendation and fully considered it before publishing this proposed rule. Nevertheless, DHS determined that the current trends and level of fee waivers are not sustainable. Work that USCIS provides for free or below cost impacts other fee-paying applicants by making their fees higher so DHS can recover USCIS full cost. DHS is trying to make the USCIS fee schedule more equitable for all applicants and petitioners. As shown in the supporting documentation for this rule, the number and dollar volume of fee waiver requests and foregone revenue has trended upward during periods of economic improvement. That indicates that, should the economy worsen, the number of fee waiver requests will increase to a level that could threaten the ability of USCIS to deliver programs without disruption.

Violence Against Women Act (VAWA) self-petitioners as defined under INA 101(a)(51); T nonimmigrants; U nonimmigrants; battered spouses of A, G, E–3, or H nonimmigrants; battered spouses or children of a lawful permanent resident or U.S. citizen as provided under INA sec. 240A(b)(2); and TPS applicants are not subject to the public charge inadmissibility provision or the affidavit of support requirements.

e. USCIS Director's Discretionary Fee Waivers and Emergency and Disaster Relief

DHS proposes to retain the authority in regulations for the Director of USCIS to waive any fee for a case or specific class of cases, if the Director determines that such action would be in the public interest and the action is consistent with other applicable law. 8 CFR 103.7(d); proposed 8 CFR 106.3(b). DHS is concerned that the current authority provides too much discretion, however, and thus proposes to limit a Director's discretionary waiver to cases related to one of the following: (1) Asylees; (2) Refugees; (3) National security; (4) Emergencies or major disasters declared in accordance with 44 CFR part 206, subpart B; (5) An agreement between the U.S. government and another nation or nations; or (6) USCIS error.

DHS also proposes to clarify the discretionary authority of the Director to authorize fee waiver requests for a case or specific class of cases such as for emergency and disaster relief including tsunamis, wildfires, and hurricanes in accordance with 44 CFR part 206, subpart B. USCIS would continue to notify the general public of eligibility for fee waivers for specific forms under this provision through policy or website updates. Individuals who would qualify for such a fee waiver would still need to meet the requirements to request a fee waiver as provided in proposed 8 CFR 106.3(d). Proposed 8 CFR 106.3(d) complies with 42 U.S.C. 5174b. That law provides that the President, in consultation with the Governor of a State, may waive certain fees for an individual or household who lives in a federally declared disaster area, including the following USCIS fees: Form I–90, Form I–193, Form I–765, Form N–300, Form N–565, and the biometric services fee, which are forms and services related to establishing immigration status. DHS plans to carry out this permissive authority through the USCIS Director's exercise of his or her discretion to provide a specific class of fee waivers for emergency and disaster relief. *See* 84 FR 3957 (Feb. 13, 2019).

DHS acknowledges that the proposed changes to the fee waiver policies would be a significant change from past fee waiver regulations and policies. Section 286(m) of the INA, 8 U.S.C. 1356(m), authorizes DHS to set USCIS fees at an amount necessary to recover the costs of free adjudication and naturalization services provided. It does not require that DHS provide free services. In past fee rules, DHS has made clear that it would not authorize fee waivers where such a waiver is inconsistent with the benefit requested and that fee waiver policy was based on economic necessity, rather than providing certain applicants with an advantage over another. *See* 75 FR 58974. In addition, DHS has responded to comments requesting that it expand USCIS fee waivers by stating that the financial circumstances required to be eligible for certain benefits, such as intercountry adoptions, directly contradict the rationale for shifting costs related to such applications to others through fee waivers. *See* 72 FR 29863. As previously stated, fee waiver increases accounted for 9 percent of the 21 percent weighted average fee increase in the FY 2016/2017 fee rule, and DHS stated that it may revisit the USCIS fee waiver guidance with respect to what constitutes inability to pay under 8 CFR 103.7(c) because of the increasing costs of providing free services through fee waivers. *See* 81 FR 26922. Therefore, DHS is not basing the proposed changes to USCIS fee waiver policies upon factual findings that contradict those underlying the prior policy. In fact, the changes proposed in this rule are consistent with the direction that DHS previously took regarding fee waivers for emergency and disaster relief.

DHS appreciates that individuals who in the past may have received a free

[92] *See* Div. C, Title V of Public Law 104–208, 110 Stat. 3009, 3009–670 (September 30, 1996).

[93] *See* INA 213A. A sponsor who is on active duty (other than active duty for training) in the U.S. armed forces and who is petitioning for a spouse or child only has to demonstrate the means to maintain an annual income equal to at least 100 percent of the FPG.

[94] See Div. C, Title V of Public Law 104–208, 110 Stat. 3009, 3009–670 (September 30, 1996).

service from USCIS may no longer be able to have their USCIS fees waived after these proposed changes take effect. However, to the extent that a person is in the process of completing and filing an immigration benefit request, has paid for assistance in preparing their request, including gathering necessary evidence to support the request, this rule provides public notice of the impending policy change. As for applicants who are not in the process of preparing a benefit request, there is no action that they would take as a result of assuming they will receive a fee waiver after the publication of this rule because they will be placed on notice of the likelihood of the proposed fee waiver changes and provided sufficient time to conform their behavior to the new requirements before they take effect.

f. Conforming Edits and Request for Comments

DHS also proposes to make conforming edits in its regulations to remove references to fee waivers. *See, e.g.,* proposed 8 CFR 240.63(a), 8 CFR 244.17(a), and 8 CFR 245.15(c)(2)(iv)(B). DHS also proposes to remove fee waivers for Commonwealth of the Northern Mariana Islands (CNMI) fees. *See* proposed 8 CFR 214.2(e)(23)(xv), (w)(14)(iii). DHS welcomes comment on the proposed limits on who may file a fee waiver request and for which forms a fee waiver may be requested.

D. Fee Exemptions

The fee-setting authority under INA section 286(m), 8 U.S.C. 1356(m), authorizes DHS to set its fees for adjudication and naturalization services at a level to ensure recovery of the full costs of providing all such services. That provision does not require that USCIS charge a fee for all of its services, and it provides that USCIS may set fees at less than full cost or provide services for free. That authority necessarily means that DHS may fund or subsidize discounted or free USCIS operations through the fees charged to other unrelated filings. DHS has exercised its discretion to provide free services in a number of ways, such as by codifying ''no fee,'' $0 fee, or simply leaving the fee regulations silent and not codifying a fee for a particular service that it provides.

In addition, the current 8 CFR 103.7(d) provision provides that the USCIS Director may create an exemption from certain fees ''for a case or specific class of cases that is not otherwise provided in this section, if the Director determines that such action would be in the public interest and the action is consistent with other applicable law.'' This authority is limited to the Director and may only be delegated to the USCIS Deputy Director.

An individual would not be permitted to independently submit a request to the USCIS Director to waive his or her fee. Previous USCIS Directors have used this authority to provide fee exemptions for specific categories and groups of immigrants.

Consistent with the discussion above about the TVPRA, no law requires USCIS to provide fee exemptions for any immigration category listed below. Application fees from other form types have always been used to fund the costs of processing fee-exempt filings. *See, e.g.,* 81 FR 73295. Continuing to exempt these populations from paying associated fees would result in the costs of their requests being borne by the other proposed fees.

DHS proposes to clarify the Director's fee exemption provision in proposed 8 CFR 106.3(f) to specify that fee exemptions must be related to one of the following:

- Asylees;
- Refugees;
- National security;
- Emergencies or major natural disasters declared in accordance with 44 CFR part 206, subpart B; [95]
- A diplomatic agreement or to further relations between the U.S. Government and other nations; or
- USCIS error.

Consistent with the proposed change to the Director's exemption criteria, DHS proposes to remove the fee exemptions for an initial request for an employment authorization document (Form I–765) for the following classifications:

- Citizen of Micronesia, Marshall Islands, or Palau;
- Granted Withholding of Deportation or Removal;
- Temporary Protected Status if the individual is filing an initial TPS application and is under 14 years of age or over 65 years of age; and
- Applicant for Asylum and Withholding of Deportation or Removal.

The proposed changes for asylum applicants and an Application for Asylum and Withholding of Deportation or Removal are discussed in a later section of this preamble, V.P.2. Fee for the Initial Application for Employment Authorization while an Asylum Claim is Pending.

DHS is proposing to continue to exempt the following categories that are consistent with the proposed criteria for a Director's exemption:

- Form I–102, Application for Replacement/Initial Nonimmigrant Arrival/Departure Document: Nonimmigrant military members of the U.S. Armed Forces, noncitizen participating in NATO or Partnership for Peace Military Program under the Status of Forces Agreement (SOFA).
- Form I–539, Application to Extend/Change Nonimmigrant Status: Noncitizen with Ambassador, Public Ministry, or Career Diplomatic or Consular Officer and their Immediate Family and Attendant or Servant (A–1, A–2, and A–3), Designated Principal Resident Representative of a Foreign Government and Immediate Family and Attendant or Servant (G–1, G–2, G–3, G–4, and G–5) or NATO nonimmigrants status (NATO–1, NATO–2, NATO–3, NATO–4, NATO–5, NATO–6, NATO–7, and NATO–8).
- Form I–765, Application for Employment Authorization: Asylees, refugees, noncitizens paroled as refugees, N–8 and N–9 Special Immigrants under INA sections 101(a)(27)(I)(i) and (L); [96] Victims of Severe Form of Trafficking in Persons (T–1); Victim of Qualifying Criminal Activity (U–1); dependents of Certain foreign national organizations and NATO; VAWA Self-Petitioner principal; [97] an applicant who filed USCIS Form I–485 on or after July 30, 2007, and before the effective date of this rule, and paid the Form I–485 fee; Taiwanese dependents of Taipei Economic and Cultural Representative Office TECRO E–1 employees.

1. Form I–765 Exemption Related to Asylees and Refugees

USCIS is continuing to provide a fee exemption for Form I–765, Application for Employment Authorization, for individuals who were granted asylum (asylees) or who were admitted as refugees. This long-standing policy is consistent with Article 17(1) of the 1951 Convention relating to the Status of Refugees (as incorporated in the 1967 Protocol relating to the Status of Refugees), which states in pertinent part ''The Contracting State shall accord to refugees lawfully staying in their territory the most favorable treatment accorded to nationals of a foreign

[95] This authority is proposed to extend only to a Presidential declaration of a major disaster or an emergency granted in accordance with 8 CFR part 206, subpart B.

[96] N–8 is a parent of alien classed as SK3 (unmarried son or daughter of retired G–4 (international Organization Officer or Employee, or Immediate Family) and an N–9 is the child of Child of N–8 or SK1 (Retired International Organization Employee, SK2 (spouse of SKI–1), SK4 (unmarried son or daughter of G–3).

[97] DHS notes that derivatives must pay the fees but are eligible to request a fee waiver.

country in the same circumstances, as regards the right to engage in wage-earning employment.''

2. Exemptions Related to International Organization Officers and to Agreement Between the U.S. Government and Other Nations

Under the International Organization Immunities Act,[98] certain representatives of foreign governments may be entitled to enjoy some privileges, exemptions and immunities. USCIS has several forms that provide for NATO participants, ambassadors, and foreign government representatives, as described above. These groups of individuals are limited in number.

DHS believes that continuing to exempt these categories from the fees provides for consistency with agreements between the U.S. Government and another nation or nations, as well as concepts of reciprocity and good relations with other nations. Therefore, USCIS believes that continuing the policy to exclude these categories of applicants is appropriate to comply with agreements and promote good relations with other nations.

3. Exemptions Related to VAWA Benefit Requests and to T and U Nonimmigrant Status Categories

As previously discussed, TVPRA requires DHS to permit certain applicants to apply for fee waivers for ''any fees associated with filing an application for relief through final adjudication of the adjustment of status.'' DHS interprets ''any fees associated with filing an application for relief through final adjudication of the adjustment of status'' to mean that, in addition to the main benefit application, applicants must have the opportunity to request a fee waiver for any form associated with the main benefit application up to and including the adjustment of status application. The fees for the VAWA, T, and U categories for Form I–765 had previously been exempted because of the humanitarian nature of these programs and the likelihood that individuals who file requests related to the VAWA, T and U categories would qualify for a fee waiver if they request it. Thus it is more efficient to exempt that population from fees than to employ staff to review fee waiver requests that would usually be approved. Based on the same reasoning, USCIS will continue to provide a fee exemption for the Form I–765 for VAWA, T and U categories.

[98] 59 Stat. 669, 22 U.S.C. 288.

E. Changes to Biometric Services Fee

1. Incorporating Biometric Activities Into Immigration Benefit Request Fees

DHS proposes to incorporate the biometric services cost into the underlying immigration benefit request fees for which biometric services are applicable. Currently, a separate $85 biometric services fee may apply depending on the immigration benefit request[99] or other circumstances. *See* 8 CFR 103.7(b)(1)(i)(C). USCIS provides tables, forms, instructions and other information to help individuals assess whether they need to pay the biometric services fee. USCIS rejects an application, petition, or request that fails to pay the separate biometric services fee, if it applies. *See* 8 CFR 103.17(b). DHS proposes to incorporate the cost of biometric services into the underlying immigration benefit request fees to simplify the fee structure, reduce rejections of benefit requests for failure to include a separate biometric services fee, and better reflect how USCIS uses biometric information.

DHS has broad statutory authority to collect biometric information when such information is ''necessary'' or ''material and relevant'' to the administration and enforcement of the INA. *See, e.g.,* INA secs. 103(a), 235(d)(3), 264(a); 8 U.S.C. 1103(a), 1225(d)(3), 1304(a). The collection, use, and reuse of biometric data are integral to identity management, excluding people with criminal backgrounds, investigating and addressing national security concerns, and maintaining program integrity.

In previous fee rules, USCIS evaluated the biometric activity cost as a single biometric service fee separate from the underlying application, petition, or request. In the FY 2016/2017 fee review, USCIS called the activity Perform Biometric Services. *See* 81 FR 26913. USCIS clarified that persons filing a benefit request may be required to appear for biometrics services or an interview and pay the biometric services fee. *See* 81 FR 26917 and 81 FR 73325. There has been a single biometric services fee for many years, which includes four separate costs:

- FBI Name Checks;
- FBI fingerprints;
- Application Support Center (ASC) contractual support; and
- Biometric service management overall, including federal employees at the ASC locations.

[99] For a quick reference of the immigration benefit requests that currently require biometric services with the initial submission, see USCIS, Form G–1055, *Fee Schedule,* available at *https://www.uscis.gov/g-1055*.

In the FY 2019/2020 fee review, USCIS identified each of these four costs as distinct activities in the ABC model. These four activities replace the single biometric activity that USCIS used in previous fee reviews.[100] USCIS used volume estimates to allocate these costs to the proposed immigration benefit requests to which they generally apply. The biometric volume estimates were specific to the projected workload for FBI Name Checks, FBI fingerprints, and contractual support at the ASC locations. In most cases, these estimates use the average proportion of workload for each immigration benefit request over the last three years. If USCIS believed the average of the last three years did not reflect current plans, it used more recent data or other assumptions. These proportions of each biometric service to receipts can vary, because there is not always a one-to-one relationship between a specific benefit request and a biometric service. For example, USCIS may not require a new biometric collection at an ASC location if it resubmits existing, stored biometric information to the FBI. As another example, some immigration benefit requests, like adoption petitions and applications, require that all adults in a household submit biometric information. *See, e.g.,* 8 CFR 204.310(a)(3)(ii) and 204.310(b). As such, a single adoption petition or application may require one or more adults to submit biometric information. Using biometric volumes specific to individual biometric activities enables USCIS to better forecast biometric costs. DHS proposes to incorporate biometric costs into IEFA immigration benefit request fees by using this biometric activity-specific information in the proposed fees. *See* proposed 8 CFR 106.2. DHS also proposes conforming edits elsewhere in its regulations to remove references to the separate biometric services fee. *See, e.g.,* proposed 8 CFR 204.5(p)(4), 204.310(a)(3)(ii), 212.19(e), 214.2(e)(23)(viii), 214.14(c)(1), 245.15 (h)(2), and 245a.12(d)(2).

The proposed changes in this rule may assist USCIS when shifting to enterprise-wide person-centric identity management. For example, if USCIS expands FBI Name Checks to additional immigration benefit requests, then DHS may propose to increase the fee as appropriate for the affected immigration benefit requests. This approach may

[100] The single biometric service activity was called Perform Biometric Services in the FY 2016/2017 fee review. *See* 81 FR 26913–4. Previously, USCIS called the activity Capture Biometrics. *See* 75 FR 33459 and 72 FR 4897.

ensure that the affected applicant, petitioner, or requestor would pay the appropriate fee rather than pass the cost burden of all other biometric services to the affected applicants, petitioners, or requestors.

USCIS forecasts biometric workload volumes by immigration benefit request type in order to assign biometrics costs to the appropriate immigration benefit request. Assigning costs to the underlying immigration benefit request type may reduce the administrative burden on USCIS to administer the separate fee and make it easier for applicants, petitioners, and beneficiaries to calculate the total payment that is due. However, USCIS proposes to retain the separate biometric services fee for specific workloads, as described in the next section.

2. Retaining the Separate Biometric Services Fee for Temporary Protected Status

DHS has excluded from USCIS' ABC model for this proposed rule the costs and revenue associated with Temporary Protected Status (TPS), consistent with the previous fee rule. *See* 81 FR 73312–3. In addition, as noted above, DHS proposes generally to eliminate a separate biometric services fee and fund biometric services from the revenue received from the underlying immigration benefit request fees. However, DHS proposes to retain a separate biometric services fee for TPS. Proposed 8 CFR 106.2(a)(37)(iii).

While the TPS registration fee is capped by INA section 244a(c)(1)(B), 8 U.S.C. 1254a(c)(1)(B) at $50, DHS has specific statutory authority to collect ''fees for fingerprinting services, biometric services, and other necessary services'' when administering the TPS program. *See* 8 U.S.C. 1254b. USCIS collects biometrics for TPS registrants. USCIS requires certain TPS initial applicants and re-registrants to pay the biometric services fee in addition to the fees for Form I–821, Application for Temporary Protected Status, and Form I–765, Application for Employment Authorization, if they want employment authorization. *See* Instructions for Form I–821 (''Applicants for both initial TPS and for re-registration who are 14 years of age and older must submit the $85 biometric services fee or a fee waiver request.''). Because the $50 TPS initial application fee is capped by statute and temporary by definition, USCIS has not included it in its ABC model. Nevertheless, the model output of other fees indicates that the $50 amount provided by statute does not recover the full cost of adjudicating these benefit requests.

To reduce the costs of TPS that USCIS must recover from fees charged to other immigration benefit requests, DHS proposes to use the permissive authority in 8 U.S.C. 1254b(a) to require a $30 biometric services fee for TPS initial applications and re-registrations. Proposed 8 CFR 106.2(a)(37)(iii). USCIS based the proposed $30 biometric services fee on the direct costs of collecting, storing, and using biometric information. Currently, USCIS pays approximately $11.50 to the FBI for fingerprinting results. USCIS calculated that biometric collection, storage, and use at an ASC costs approximately $19. USCIS rounded the proposed fee to the nearest $5 increment, similar to other IEFA fees. The proposed fee is less than the current $85 biometric services fee because the current fee includes indirect costs. The FY 2016/2017 fee rule held the biometric services fee to $85, which has not changed since the FY 2010/2011 fee rule.

3. Executive Office for Immigration Review (EOIR) [101] Biometric Services Fee

Similarly, DHS is maintaining the current requirement that applicants filing certain requests with EOIR submit a biometric services fee. Proposed 8 CFR 103.7(a)(2). DHS, including USCIS, handles all aspects of biometrics collection for EOIR and conducts background security checks for individuals in immigration proceedings.[102] This fee is necessary to recover the costs USCIS incurs from performing that service for EOIR. When individuals in immigration proceedings before EOIR seek to file a motion, appeal, or immigration benefit request for relief or protection from removal they are instructed to pay any applicable biometrics and application fees to DHS. *See* 8 CFR 1103.7(a)(3).[103] As previously explained, while DHS proposes to incorporate the costs of biometric services into its underlying immigration benefit request fees, DHS has no authority to change the amounts it receives from EOIR fees to pay the costs it incurs for biometric services (which includes background checks). Under this proposed rule, DHS proposes to adjust only the fee for those requests filed with and processed by USCIS. Consequently, USCIS has calculated and proposes a biometric services fee of $30 that will be required for certain forms for which it performs intake and biometrics services on behalf of EOIR. *See* proposed 8 CFR 103.7(a)(2).

F. Form I–485, Application To Register Permanent Residence or Adjust Status

1. Interim Benefits

DHS proposes to require separate filing fees when filing Form I–765, Application for Employment Authorization and Form I–131, Application for Travel Document concurrently with a Form I–485, Application to Register Permanent Residence or Adjust Status, or after USCIS accepts their Form I–485 and while it is still pending.

Usually, an applicant needs approval of a principal immigration benefit request before receiving ancillary benefits such as employment authorization and a travel document. That is, USCIS only grants those ancillary benefits after or at the same time as it grants the principal immigration status or benefit. In some situations, however, an individual may qualify for an interim ancillary benefit because a benefit request is pending adjudication. For example, a person who applies for adjustment of status, in certain instances, would be able to apply for employment authorization and/or a travel document based on the pending immigration benefit request. *See* 8 CFR 274a.12(c)(9). When this occurs, these ancillary benefits are referred to generally as ''interim benefits.'' [104]

Current DHS regulations provide that applicants who properly file and pay the required fee for a Form I–485 may also file a Form I–765 and/or a Form I–131 without paying any additional fees. *See* 8 CFR 103.7(b)(1)(i)(M)(4) & (II). Applicants may file Form I–765 and/or Form I–131 concurrently with Form I–485. Alternatively, they may file these forms after USCIS accepts their Form I–485 but while the Form I–485 is still pending.

[101] Within the Department of Justice, there is an Executive Office for Immigration Review (EOIR), which includes a Director, the Board of Immigration Appeals, the Office of the Chief Immigration Judge, the Office of the Chief Administrative Hearing Officer, the Office of Legal Access Programs, and other staff as the Attorney General or the Director may provide. *See* 8 CFR 1003.0. USCIS provides intake services for several requests filed with EOIR, for which biometrics may be required.

[102] Guidance is available at Immigration Benefits in EOIR Removal Proceedings, at *https://www.uscis.gov/laws/immigration-benefits-eoir-removal-proceedings* (last reviewed/updated Aug. 22, 2011).

[103] This regulation provides that, except as provided in 8 CFR 1003.8, EOIR does not accept fees, and that fees relating to EOIR proceedings are paid to DHS.

[104] Individuals may derive interim benefits from an Application for Temporary Protected Status, Form I–821. Unless otherwise stated in this proposed rule preamble, DHS uses interim benefits to refer to benefits associated with Form I–485, Application to Register Permanent Residence or Adjust Status.

Before the FY 2008/2009 fee rule, applicants paid separate fees to apply for employment authorization or a travel document while waiting on USCIS to adjudicate Form I–485. Applicants who had not yet received a green card but who may have had to renew these interim benefits paid any associated fees for the renewals. *See* 72 FR 4894. Since the FY 2008/2009 fee rule, USCIS has allowed anyone who files Form I–485 to file Forms I–131 and I–765 concurrently (or after USCIS accepted their Form I–485 but while the Form I–485 was still pending) without a fee if they properly filed a Form I–485 with the required Form I–485 fee. Applicants who had not yet received a green card but who may have had to renew these interim benefits did not have to pay any associated fees. For the FY 2008/2009 fee rule, USCIS determined that calculating fees for Form I–485 at an amount that would include interim benefits would improve efficiency and save most applicants money. *See* 72 FR 4894 and 29861–2. By providing that the fees for interim benefits would be included in the fee for Form I–485, USCIS addressed the perception that it benefits from increased revenue by processing Forms I–485 more slowly. *See* 72 FR 4894 and 29861–2. The FY 2010/2011 fee rule continued the practice of ''bundling'' the fees for interim benefits and Form I–485. *See* 75 FR 58968.

In the FY 2016/2017 fee review, USCIS determined the workload volume and fee-paying percentage of Forms I–765 and Forms I–131 that are not associated with Forms I–485. This enabled USCIS to derive a fee-paying percentage for standalone Forms I–765 and Forms I–131, meaning those forms not filed concurrently with a Form I–485. *See* 81 FR 26918 and 73300. By isolating stand-alone interim benefit applicants from those concurrently filing Form I–485, USCIS more accurately assessed fee-paying percentages, fee-paying volumes, and fees for all three benefit types. *Id.*

DHS proposes to return to charging separate fees for Forms I–485, I–765, and I–131. *See* proposed 8 CFR 106.2(a)(16); 8 CFR 106.2(a)(32); 8 CFR 106.2(a)(7)(iii). The proposed change would be subject to phased implementation. Specifically, individuals who filed a Form I–485 after July 30, 2007 (the FY 2008/2009 fee rule) and before this proposed change takes effect will continue to be able to file Forms I–131 and I–765 without additional fees for as long as their Form I–485 is pending. Individuals who filed before the FY 2008/2009 fee rule or after this proposed change becomes effective would pay separate fees for interim benefits. The proposed changes are summarized in Table 8. Dates are not available for the proposed changes.

TABLE 8—FORM I–485 FILING DATES AND INTERIM BENEFITS

Form I–485 filing date	Bundled fee applies?
Before July 30, 2007	No.
After July 30, 2007, but before [INSERT EFFECTIVE DATE OF THIS RULE]	Yes.
After implementing this proposed change with a final rule	No.

DHS proposes this change in order to reduce the proposed fee increases for Form I–485 and other forms. For example, in the previous fee rule, USCIS isolated the workload volume and fee-paying percentage of Forms I–765 and I–131 that are not associated with Form I–485. *See* 81 FR 26918. Isolating the volumes for interim benefits reduced the overall volume on the fee schedule because we only counted interim benefit volumes as part of the Form I–485 forecast instead of counting them twice (for Form I–485 and the interim benefit). Based on the total number of Form I–485 applications that were concurrently filed with Forms I–131 and I–765 on the same day in FY 2017, USCIS expects approximately 424,000 annual interim benefit applications in FY 2019/2020 forecast. In the proposed fee schedule, USCIS assumes these interim benefit applicants will pay the applicable fees for Forms I–485, I–131, and I–765. If USCIS were to continue the previous approach and assume these applicants only pay the fee for Form I–485, then the proposed fee for Form I–485 would be $1,240, $120 or approximately 11 percent more than the proposed fee of $1,120. *See* 8 CFR 103.7(b)(1)(i)(U); proposed 8 CFR 106.2(a)(16). Other proposed fees would also change on this hypothetical fee schedule. For example, the Form I–90, Application to Replace Permanent Resident Card, fee would remain $455 in this hypothetical fee schedule. The proposed Form I–90 fee is $415, $40 or approximately 9 percent less than the current $455 fee. *See* 8 CFR 103.7(b)(1)(i)(G); proposed 8 CFR 106.2(a)(1). This version of the fee schedule has a weighted average fee increase of 23 percent compared to the 21 percent average fee increase in proposed fee schedule.[105] In general, the fees are higher in a fee schedule with bundled fee interim benefits because it has lower workload and fee-paying volume than the proposed fee schedule. This means there are fewer immigration benefit requests for USCS to recover projected costs in a fee schedule with bundled fee interim benefits. DHS proposes separate fees for interim benefit applications and Form I–485 applications in order to lower the proposed fees for most other applicants, petitioners, and requestors.

DHS proposes to reduce the Form I–485 fee to $1,120, which is $20 or 2 percent less than the current $1,140 fee that includes interim benefits. However, the cost reducing effects of unbundling interim benefit fees is partially offset by several other factors that increase the costs of the Form I–485. For example, background check requirements have increased.[106] USCIS is also interviewing a greater proportion of adjustment of status applicants, requiring more time and effort to adjudicate Form I–485.[107] In addition, USCIS did not realize the efficiency gains anticipated when it bundled interim benefits. *See* 72 FR 4894. This is due to a number of reasons. Mainly, annual numerical visa limits established by Congress and high demand have created long wait times for some visa categories.[108] Many

[105] *See* footnote 6 for more information on the weighted averages in the fee schedule. In a fee schedule with free interim benefits, the sum of the current fees multiplied by the projected FY 2019/2020 fee-paying receipts for each immigration benefit type, divided by the total fee-paying receipts is $533. This is $3 higher than in the proposed fee schedule because the fee-paying volumes are lower when we assume free interim benefits. The weighted average proposed fee is $655, $122 or 23 percent higher than the weighted average current fee of $533 in this hypothetical fee schedule that assumes free interim benefits.

[106] *See, e.g.,* Exec. Order No. 13780, *Protecting the Nation From Foreign Terrorist Entry Into the United States,* 82 FR 13209 (Mar. 6, 2017).

[107] USCIS, *USCIS to Expand In-Person Interview Requirements for Certain Permanent Residency Applicants, https://www.uscis.gov/news/news-releases/uscis-to-expand-in-person-interview-requirements-for-certain-permanent-residency-applicants* (last reviewed/updated Aug. 28, 2017).

[108] *See* USCIS, Visa Retrogression at *https://www.uscis.gov/green-card/green-card-processes-*

applicants must wait years for visas to become available. While USCIS has some control over its own allocation of resources to address processing times and backlogs, USCIS has no direct control over delays caused by the U.S. Department of State's allocation of visa numbers and Congress' annual visa numerical limits. USCIS has taken some actions to alleviate the filing burden and fees on those individuals whose Form I–485 applications are still pending due to the lack of available immigrant visas. For example, DHS now provides EADs with 2-year validity periods when the final action date for determining visa availability retrogresses.[109]

New applicants would only pay for the benefits that they wish to receive as a result of this proposal. In the FY 2008/2009 and FY 2010/2011 fee rules, some commenters stated they did not want to pay for additional benefits they did not want, need, or receive. *See* 72 FR 29861–3 and 75 FR 58968. This proposal is in line with the beneficiary-pays principle discussed in the Fee Waivers section of this preamble. Finally, this change would treat Form I–485 applicants similarly to other applicants who apply for interim benefits. In previous fee rules, bundled interim benefit fees were only associated with a pending Form I–485. However, several other applications may warrant interim benefits.[110] DHS has decided it is more equitable to treat all of these petitioners and applicants the same, regardless of the request that may grant interim benefits. Some applicants would pay significantly more to adjust status and apply for one or more interim benefits. Table 9 compares the current fees for Form I–485 applicants that may bundle interim benefits to the proposed fees without bundling.

TABLE 9—CURRENT AND PROPOSED FEES FOR ADJUSTMENT OF STATUS WITH INTERIM BENEFITS

Immigration benefit request	Current fees	Proposed fees	Difference	Percentage difference
I–485, Application to Register Permanent Residence or Adjust Status	$1,140	$1,120	−$20	−2 percent
I–765, Application for Employment Authorization	410	490	80	20
I–131, Application for Travel Document	575	585	10	2
Biometric Services Fee	85	[111] N/A	−85	−100
Total Fees for Form I–485 and biometric services	1,225	1,120	−105	−9
Total Fees for Forms I–485 and I–765 and biometric services		1,610	385	31
Total Fees for Forms I–485 and I–131 and biometric services		1,705	480	39
Total Fees for Form I–485, all interim benefits, and biometric services		2,195	970	79

2. Form I–485 Fee for Child Under 14, Filing with Parent

Currently, Form I–485 has two fees. The fee for an adult is $1,140, and the fee for a child under the age of 14 concurrently filing with a parent is $750. *See* 8 CFR 103.7(b)(1)(i)(U). DHS proposes to require payment of the proposed $1,120 fee for all applicants, including children under the age of 14 years concurrently filing Form I–485 with a parent.[112] *See* 8 CFR 103.7(b)(1)(i)(U)(*2*); proposed 8 CFR 106.2(a)(16).

DHS no longer believes there is a cost basis for the two different Form I–485 fees. As explained in the FY 2016/2017 fee rule, USCIS does not track the adjudication time for Form I–485 based on the age of the applicant so there is no data showing a cost difference correlated to the difference in applicant age. *See* 81 FR 73301. The FY 2016/2017 fee rule calculated the $750 fee using the model output to comply more closely with the ABC methodology for full cost recovery. *See* 81 FR 26919. USCIS assumed that the $750 fee would not include the cost of an EAD. *Id.* As such, the completion rate for the $750 fee was lower than most adults. In addition, children under the age of 14 do not typically pay the $85 biometric services fee required for adults that apply to adjust status. In the proposed Form I–485 fee, USCIS assumes the same completion rate and biometric services for adults and children because DHS proposes to separate interim benefit request fees from the fee for Form I–485. DHS believes that a single fee for Form I–485 will reduce the burden of administering separate fees and better reflect the cost of adjudication. This proposal will affect a small percentage of Form I–485 applicants. In FY 2017 and 2018, approximately 6 percent of Form I–485 applicants paid the $750 fee. See Table 10 for Form I–485 fee-paying receipts and percentages for the two years.

and-procedures/visa-availability-priority-dates/visa-retrogression (last reviewed/updated March 8, 2018).

[109] USCIS may, in its discretion, determine the validity period assigned to any document issued evidencing an individual's authorization to work in the United States. *See* 8 CFR 274a.12(b).

[110] *See* footnote 79.

[111] As noted earlier in this preamble, DHS propose to eliminate the separate $85 fee in most cases. *See* V.E. Changes to Biometric Services Fee section for more information.

[112] The parent may be seeking classification as an immediate relative of a U.S. citizen, a family-sponsored preference immigrant, or a family member accompanying or following to join a spouse or parent under sections 201(b)(2)(A)(i), 203(a)(2)(A), or 203(d) of the INA; 8 U.S.C. 1151(b)(2)(A)(i), 1153(a)(2)(A), or 1153(d).

TABLE 10—FORM I–485 FEE-PAYING RECEIPTS

Form I–485 applicant type	Current fee	FY 2017 fee-paying receipts	Percent of FY 2017	FY 2018 fee-paying receipts	Percent of FY 2018
Applicant under the age of 14 years who submits the application concurrently with the Form I–485 of a parent	$750	32,870	6	33,290	6
All other fee-paying applicants for Form I–485	1,140	511,432	94	496,113	94
Total	N/A	544,302	100	529,403	100

In addition, DHS is proposing to clarify the fee for applicants for adjustment of status pursuant to INA section 245(i). Such applicants are required to properly file Form I–485 with fee along with Form I–485 Supplement A and the $1,000 statutory fee, unless exempted by the statute. USCIS proposes that the fee for the Application to Adjust Status under Section 245(i) of the Act, Form I–485, Supplement A, be revised to clarify that the Form I–485 Supplement A and the $1,000 fee must be submitted when the Form I–485 is filed or still pending. *See* proposed 8 CFR 106.2(a)(17). An applicant who has not paid the $1,000 statutory fee when applying for adjustment of status has not been lawfully adjusted and cannot satisfy the ''lawfully admitted'' requirement of INA section 318, 8 U.S.C. 1429, for naturalization. DHS is also proposing to delete the text from the Form I–485, Supplement A, that provides that there is no fee when the applicant is an unmarried child under 17 or the spouse or the unmarried child under 21 of an individual with lawful immigration status and who is qualified for and has applied for voluntary departure under the family unity program. *See* 8 CFR 103.7(b)(1)(i)(V); proposed 8 CFR 106.2(a)(17). Those fee exemptions are explicitly provided by statute and will be included in the applicable form instructions. *See* INA section 245(i)(1)(C), 8 U.S.C. 1255(i)(1)(C). It is unnecessary to codify them in the Code of Federal Regulations.

G. Continuing To Hold Refugee Travel Document Fee to the Department of State Passport Fee

Consistent with U.S. obligations under Article 28 of the 1951 Convention relating to the Status of Refugees,[113] DHS proposes to continue to charge a fee for refugee travel documents linked to the fee for a U.S. passport book. *See* 75 FR 58972 (discussing Article 28 standards for assessing charges for a refugee travel document). In previous fee rules, DHS aligned the refugee travel document fees to the sum of the United States passport book application fee plus the additional execution fee that DOS charges for first time applicants. *See* 81 FR 73301 and 75 FR 58972. Since the FY 2016/2017 fee rule, DOS increased the execution fee from $25 to $35, a $10 or 40 percent increase. *See Department of State, Schedule of Fees for Consular Services, Department of State and Overseas Embassies and Consulates-Passport Services Fee Changes,* 83 FR 4425 (Jan. 31, 2018). Under this proposal, DHS would increase refugee travel document fees by a conforming amount. DHS refugee travel document fees would be $145 for adults and $115 for children under the age of 16 years, consistent with current U.S. passport fees. *See* proposed 8 CFR 106.2(a)(7)(i) and (ii).

H. Form I–131A, Carrier Documentation

DHS proposes to separate the fee for Form I–131A, Application for Carrier Documentation, from other travel document fees and to expand the population eligible to file Form I–131A. *See* 8 CFR 103.7(b)(1)(i)(M)(3); proposed 8 CFR 106.2(a)(8). The proposed fee for Form I–131A is $1,010, a $435 or 76 percent increase from the current $575 fee. *Id.* In 2016, USCIS began using Form I–131A, Application for Carrier Documentation. *See* 80 FR 59805. In the FY 2016/2017 fee rule, DHS implemented a fee that was calculated using the total Form I–131 and I–131A workload. *See* 81 FR 73294–5.

Currently, certain lawful permanent residents (LPRs) may use Form I–131A to apply for a travel document (carrier documentation) if their Permanent Resident Card (PRC), also known as a Green Card or Form I–551, or their reentry permit is lost, stolen, or destroyed while outside of the United States. Carrier documentation allows an airline or other transportation carrier to board the LPR without any penalty to the airline or transportation carrier for permitting an individual to board without a visa or travel document. *See* INA section 273, 8 U.S.C. 1323 (providing for a fine of $3,000 for each noncitizen without proper documentation). In order to be eligible for carrier documentation, an LPR who was traveling on a PRC must have been outside the United States for less than one year, and an LPR who was traveling on a reentry permit must have been outside the United States for less than two years. Form I–131A is not an application for a replacement PRC or reentry permit.

DHS proposes a Form I–131A fee separate from Form I–131 because Form I–131A differs from other applications for travel documents. The proposed separate Form I–131A fee would be more equitable because the form requires a different adjudicative process than Form I–131, including processing by personnel outside of the United States, which affects the projected cost for Form I–131A. Other travel documents may be adjudicated inside or outside of the United States, while the DOS Bureau of Consular Affairs, located outside of the United States, will process Form I–131A following the closure of some USCIS international offices.[114] It generally costs more to process Form I–131A outside of the United States, and therefore, providing carrier documentation is relatively more expensive for USCIS than providing other travel documents. The proposed fee includes direct costs to account for the fee DOS charges USCIS to adjudicate Form I–131A applications, which is

[113] The United States is party to the 1967 Protocol Relating to the Status of Refugees, Jan. 31, 1967, 19 U.S.T. 6224, 606 U.N.T.S. 267 (1968), which incorporates articles 2 through 34 of the 1951 Convention. The United States is not party to the 1951 Convention. *See Sale* v. *Haitian Ctrs. Council, Inc.,* 509 U.S. 155, 169 n.19 (1993) (''Although the United States is not a signatory to the Convention itself, in 1968 it acceded to the United Nations Protocol Relating to the Status of Refugees, which bound the parties to comply with Articles 2 through 34 of the Convention as to persons who had become refugees because of events taking place after January 1, 1951.'').

[114] *See USCIS Will Adjust International Footprint to Seven Locations* at *https://www.uscis.gov/news/news-releases/uscis-will-adjust-international-footprint-seven-locations* (last reviewed/updated Aug. 9, 2019). The volume and cost projections used in this rule were generated before planning to adjust the international footprint of USCIS and do not incorporate cost changes associated with the adjustment. DHS will incorporate resulting cost changes in future fee rules.

approximately $385 each.[115] In the FY 2018 interagency agreement and in this proposed rule, USCIS projects that DOS will receive approximately 6,199 Forms I–131A each year. Separately, USCIS forecasts that USCIS or DOS will receive 3,600 Forms I–131A each year based on historic USCIS receipts. The total Form I–131A receipt forecast for USCIS or DOS is 9,799 per year.

DHS also proposes to expand the population that is eligible to use Form I–131A. DHS proposes to allow individuals whose advance parole documents or combination employment authorization and advance parole cards (combo cards) that are lost, stolen, or destroyed to use Form I–131A to apply for a carrier document while abroad. Currently, there is no clear process for individuals who lose advance parole documents while they are abroad to replace those documents. Since USCIS does not issue advance parole documents to individuals who are abroad, it is not possible to replace a lost or stolen advance parole document until the individual returns to the United States. Some have applied for humanitarian parole to return to the United States, which requires the applicant to demonstrate an urgent humanitarian reason or significant public benefit as there is currently no other appropriately established process for such individuals to obtain a travel document to return to the United States. *See generally* INA sec. 212(d)(5), 8 U.S.C. 1182(d)(5); 8 CFR part 223.[116] DHS proposes to permit those individuals to file Form I–131A to request carrier documentation, which would allow them to board a return flight to the United States despite their advance parole document having been lost, stolen, or destroyed. DOS personnel would verify that such an individual previously obtained the advance parole authorization before issuing the carrier documentation. At this time, USCIS cannot estimate the number of additional Form I–131A requests that may be filed as a result of this proposed change. However, USCIS expects the increase in the number of filings to be small. While USCIS does not track Form I–131 humanitarian parole requests made specifically for carrier documentation, there were approximately 200 Form I–131 submissions in FY 2017 without a designation of the underlying basis of the request. Individuals who used humanitarian parole requests to obtain carrier documentation would be a subset of those approximately 200 receipts.

I. Separating Form I–129, Petition for a Nonimmigrant Worker, Into Different Forms

Currently, employers and other qualified filers, such as agents, sponsoring organizations and investors (collectively referred to as a ''benefit requestor'' or separately referred to as a ''petitioner'' or ''applicant,'' as applicable) may use Form I–129, Petition for a Nonimmigrant Worker, to make a benefit request on behalf of a current or future nonimmigrant worker to temporarily perform services or labor, or to receive training in the United States.[117] Using this single form, petitioners or applicants can file petitions or applications for many different types of nonimmigrant workers.[118] Some classifications also allow nonimmigrants to ''self-petition'' or file a petition or application on behalf of themselves. Some nonimmigrant classifications require use of Form I–129 supplemental forms, such as the H Classification Supplement, or additional separate forms, such as Form I–129S, Nonimmigrant Petition Based on Blanket L Petition. Certain petitioners or applicants must pay statutory fees in addition to a base filing fee in some cases. For example, several statutory fees exist for H and L nonimmigrant workers.[119] In some cases, petitioners or applicants pay a single fee for multiple nonimmigrant beneficiaries. USCIS provides several optional checklists to help navigate the specific requirements of some nonimmigrant classifications.

DHS proposes to separate Form I–129 into several forms. These new forms will incorporate information from the various supplemental forms for specific types of workers or nonimmigrant classifications. DHS proposes different fees for these new forms. The proposed fees are calculated to better reflect the costs associated with processing the benefit requests for the various categories of nonimmigrant worker. The current base filing fee for Form I–129 is $460. *See* 8 CFR 103.7(b)(1)(i)(I). This base filing fee is paid regardless of how many nonimmigrant workers will benefit from the petition or application, the type of worker (for example, landscaper, chef, scientist, computer programmer, physician, athlete, musician, etc.), whether an employee is identified, and without differentiating the amount of time it takes to adjudicate the different nonimmigrant classifications. Therefore, in order to reflect these differences, DHS is proposing a range of fees for petitions and applications for nonimmigrant workers, listed in Table 11 and explained in the subsequent sections. By splitting the form and proposing several different fees, USCIS believes it will simplify or consolidate the information requirements for petitioners and applicants as well as better reflect the cost to adjudicate each specific nonimmigrant classification. In addition, DHS is proposing that, where any new Form I–129 is filed for a named worker who is present in the United States, the petitioner must provide USCIS with a valid domestic address for the named worker(s) when submitting the form. DHS welcomes comments on the new forms.

In 2017, the DHS Office of Inspector General (OIG) released a report on H–1B visa participants. It discussed how USCIS verifies H–1B visa participants through the Administrative Site Visit and Verification Program (ASVVP). ASVVP includes site visits on all religious worker petitioners, including R nonimmigrants, as well as randomly selected site visits for certain H–1B and L workers to assess whether petitioners and beneficiaries comply with applicable immigration laws and regulations. As a result of the OIG audit, USCIS began to collect better information on the costs associated with ASVVP. For example, ASVVP now uses unique project and task codes in the USCIS financial system to track spending. Additionally, USCIS tracks ASVVP hours by form type in the Fraud Detection and National Security Data System, which USCIS uses to identify fraud and track potential patterns. In the

[115] The FY 2018 interagency agreement between Department of State and USCIS uses an Economy Act rate of $385.88 for the adjudication. USCIS used FY 2018 rates when calculating the proposed fees. The FY 2019 interagency agreement between Department of State and USCIS uses an Economy Act rate of $352.15 for the adjudication.

[116] For relevant guidance, see *USCIS to Issue Employment Authorization and Advance Parole Card for Adjustment of Status Applicants: Questions and Answers, https://www.uscis.gov/news/questions-and-answers/uscis-issue-employment-authorization-and-advance-parole-card-adjustment-status-applicants-questions-and-answers* (last reviewed/updated March 9, 2018).

[117] See Temporary (Nonimmigrant) Workers at *https://www.uscis.gov/working-united-states/temporary-nonimmigrant-workers* (last reviewed/updated Sept. 7, 2011).

[118] For example, nonimmigrants workers in the following classifications: E–1, E–2, E–2C, H–1B, H–2A, H–2B, H–3, L–1, O–1, O–2, P–1, P–1S, P–2, P–2S, P–3, P–3S, Q–1, R–1, TN1, and TN2. See Form I–129, Petition for a Nonimmigrant Worker at *https://www.uscis.gov/i-129* (last reviewed/updated Sept 11, 2018).

[119] Various statutory fees apply to H and L nonimmigrants. For more information on the fees and statutory authority, see USCIS, *H and L Filing Fees for Form I–129, Petition for a Nonimmigrant Worker, https://www.uscis.gov/forms/h-and-l-filing-fees-form-i-129-petition-nonimmigrant-worker* (last updated/reviewed Feb. 2, 2018).

FY 2019/2020 fee review, USCIS used some of this new information to identify distinct costs for these site visits. USCIS used the ASVVP hours by immigration benefit request to assign the appropriate direct costs of site visits to Forms I–129. The proposed fees would result in the cost of ASVVP being covered by the fees paid by the petitioners in proportion to the extent to which ASVVP is being used for that benefit request.

Additionally, USCIS now captures adjudication hours for nonimmigrant worker petitions based on the classification for which the petition is filed (see discussion of Completion Rates in section IV.B.2). Therefore, the proposed fees include the costs associated with the estimated adjudication hours for each of the new petitions being proposed in this rule.

TABLE 11—PROPOSED FORM NUMBERS AND FORM TITLES FOR SEPARATING FORM I–129

Proposed form No.	Proposed form title	Proposed fee(s)
I–129CW	Petition for a CNMI-Only Nonimmigrant Transitional Worker	$705.
I–129E&TN	Application for Nonimmigrant Worker: E or TN Classification	$705.
I–129H1	Petition for Nonimmigrant Worker: H–1 Classification	$560.
I–129H2A	Petition for Nonimmigrant Worker: H–2A Classification	$860 (named); $425 (unnamed).
I–129H2B	Petition for Nonimmigrant Worker: H–2B Classification	$725 (named); $395 (unnamed).
I–129L	Petition for Nonimmigrant Worker: L Classification	$815.
I–129MISC	Petition for Nonimmigrant Worker: H–3, P, Q, or R Classification	$705.
I–129O	Petition for Nonimmigrant Worker: O Classification	$715.

1. Form I–129H1, Petition for Nonimmigrant Worker: H–1 Classifications

DHS proposes to create Form I–129H1, Petition for H–1B Nonimmigrant Worker or H–1B1 Free Trade Nonimmigrant Worker. *See* proposed 8 CFR 106.2(a)(3)(i). The H–1B nonimmigrant program is for individuals who will perform services in a specialty occupation, services of exceptional merit and ability relating to a Department of Defense (DOD) cooperative research and development project, or services as a fashion model of distinguished merit or ability; while the H–1B1 nonimmigrant program is for nationals of Singapore or Chile engaging in specialty occupations. *See* INA sec. 101(a)(15)(H)(i)(b), (H)(i)(b1); 8 U.S.C. 1101(a)(15)(H)(i)(b), (H)(i)(b1).[120] DHS proposes a fee of $560 for the Form I–129H1. The proposed fee for a petitioner to file Form I–129H1 more accurately incorporates the direct cost of USCIS fraud prevention efforts for H–1B workers and other planned changes. DHS does not propose any changes to statutory fee amounts for certain H–1B petitioners because it does not have the authority to change the amount of these fees.[121]

2. Forms I–129H2A and I–129H2B, Petitions for H–2A and H–2B Workers

DHS proposes to create Form I–129H2A, Petition for Nonimmigrant Worker: H–2A Classification, and Form I–129H2B, Petition for Nonimmigrant Worker: H–2B Classification. The H–2A program allows U.S. employers or U.S. agents who meet specific regulatory requirements to bring foreign nationals to the United States to fill temporary agricultural jobs.[122] The H–2B program allows U.S. employers or U.S. agents who meet specific regulatory requirements to bring foreign nationals to the United States to fill temporary nonagricultural jobs.[123] On March 6, 2017, OIG issued an audit report after reviewing whether the fee structure associated with H–2 petitions is equitable and effective.[124] OIG identified a number of issues and provided recommendations to address the issues. The creation of the two new forms, Forms I–129H2A and I–129H2B, is USCIS' response to OIG's recommendations. Further, USCIS proposes the following changes:

- Separate fees for petitions with named workers and petitions with unnamed workers;
- Limit the number of named workers that may be on a single petition to 25.

DHS proposes separate H–2A and H–2B fees for petitions with named workers and unnamed workers. Currently, petitions for H–2A or H–2B workers may include named or unnamed workers. Petitioners must name workers when (1) the petition is filed for a worker who is a national of a country not designated by the Secretary of Homeland Security as eligible to participate in the H–2A or H–2B program; or (2) the beneficiary is in the United States. *See* 8 CFR 214.2(h)(2)(iii). In addition, USCIS may require the petitioner to name H–2B workers where the name is needed to establish eligibility for H–2B nonimmigrant status. USCIS estimates that it requires less time and resources to adjudicate a petition with unnamed workers than one with named workers. USCIS runs background checks on named workers, but cannot do so for unnamed workers. After the petition is approved, the petitioner finds workers and the worker applies for a nonimmigrant visa with DOS, who will then vet the worker. Therefore, USCIS believes that it takes less time for a

[120] *See* H–1B Specialty Occupations, DOD Cooperative Research and Development Project Workers, and Fashion Models, *https://www.uscis.gov/working-united-states/temporary-workers/h-1b-specialty-occupations-dod-cooperative-research-and-development-project-workers-and-fashion-models* (last reviewed/updated April 3, 2017).

[121] Certain H–1B petitions may have to pay up to $6,000 in statutory fees. DHS does not have the authority to adjust the amount of these statutory fees. USCIS does not keep most of the revenue. CBP receives 50 percent of the $4,000 9–11 Response and Biometric Entry-Exit fee and the remaining 50 percent is deposited into the General Fund of the Treasury. USCIS retains 5 percent of the $1,500 or $750 American Competitiveness and Workforce Improvement Act (ACWIA) fee. The remainder goes to the Department of Labor and the National Science Foundation. USCIS keeps one third of the $500 Fraud Detection and Prevention fee, while the remainder is split between the Department of State and the Department of Labor. These statutory fees are in addition to the current Form I–129 fee of $460 and optional premium processing fee of $1,410. *See* USCIS, *H and L Filing Fees for Form I–129, Petition for a Nonimmigrant Worker, https://www.uscis.gov/forms/h-and-l-filing-fees-form-i-129-petition-nonimmigrant-worker* (last updated/reviewed Feb. 2, 2018).

[122] *See* H–2A Temporary Agricultural Workers, *https://www.uscis.gov/working-united-states/temporary-workers/h-2a-temporary-agricultural-workers* (last reviewed/updated March 8, 2018).

[123] *See* H–2B Temporary Non-Agricultural Workers, *https://www.uscis.gov/working-united-states/temporary-workers/h-2b-temporary-non-agricultural-workers* (last reviewed/updated June 11, 2018). H–2B petitioners who file with USCIS are required to pay a $150 Fraud Detection and Prevention fee per petition regardless of the number of beneficiaries to which the petition pertains. DHS does not propose any change to this statutory fee because it lacks the authority to do so by rulemaking. *See* INA secs. 214(c)(12)–(13), 286(v); 8 U.S.C. 1184(c)(12)–(13) 1356(v). This statutory fee is in addition to the current Form I–129 fee of $460 and optional premium processing fee of $1,410.

[124] DHS OIG, *H–2 Petition Fee Structure Is Inequitable and Contributes to Processing Errors* (Mar. 6, 2017), *available at https://www.oig.dhs.gov/sites/default/files/assets/2017/OIG-17-42-Mar17.pdf.*

USCIS immigration services officer to adjudicate a petition with unnamed workers. The proposed fees reflect the average adjudication time estimated by USCIS.

USCIS proposes to implement a limit of 25 named beneficiaries per petition. Proposed 8 CFR 214.2(h)(2)(ii), (h)(5)(i)(B). Currently, there is no limit on the number of named or unnamed workers that may be on a single petition. USCIS currently charges a flat fee regardless of whether a petition includes one or hundreds of named temporary nonimmigrant workers. However, because USCIS completes a background check for each named beneficiary, petitions with more named beneficiaries require more time and resources to adjudicate than petitions with fewer named beneficiaries. This means the cost to adjudicate a petition increases with each additional named beneficiary. In one case, a petitioner included more than 600 named workers in one petition.[125] OIG observed that the flat fee structure (meaning the same fee regardless of the number of nonimmigrants included in the petition) disproportionally costs more per nonimmigrant for petitions with few beneficiaries compared to those with large numbers of beneficiaries. In other words, petitioners filing petitions with low named beneficiary counts subsidize the cost of petitioners filing petitions with high named beneficiary counts.

OIG's interviews of USCIS immigration services officers indicated that usually a maximum of 10 petitions could be processed within a normal workday.[126] USCIS immigration services officers could generally adjudicate a petition with 1–25 named workers in 2 hours. DHS estimates the proposed change will increase H–2A and H–2B petition filing volume by approximately 2,000 based on the number of H–2A and H–2B petitions that were received in FY 2017 with 26 or more named beneficiaries. DHS assumed that the total number of named beneficiaries requested by an employer would remain the same, so that an employer petitioning for more than 25 named beneficiaries would file multiple petitions.

The proposed fees would address the inequities in the current fee structure identified by the OIG audit. The proposed limit of 25 named beneficiaries per petition may make it easier for USCIS immigration services officers to promptly adjudicate a petition. For example, the proposed $425 fee for an H–2A petition without named workers is approximately 51 percent less than the proposed $860 fee for an H–2A petition with named workers because the adjudication requires less time. Due to the decreased complexity of the adjudication, the proposed $425 fee for a petition without named workers is $35 or 8 percent less than the current $460 fee for the Form I–129. The proposed $860 fee for a petition with named workers is $400 or 87 percent more than the current $460 fee for the Form I–129.

3. Form I–129L, Petition for Nonimmigrant Worker: L Classification

DHS proposes to create Form I–129L, Petition for Nonimmigrant Worker: L Classification, with a proposed fee of $815. *See* proposed 8 CFR 106.2(a)(3)(iv). Under current requirements, petitioners sponsoring L nonimmigrant workers, who are intracompany transferees,[127] may be required to submit additional statutory fees or other additional forms to USCIS. For example, two statutory fees may apply for L nonimmigrant workers.[128] Some petitions require the additional Form I–129S, Nonimmigrant Petition Based on Blanket L Petition.

The proposed Form I–129L would collect the information required for these petitions. Although the current L Classification Supplement to Form I–129 only separates out L–1A manager or executive from L–1B specialized knowledge, the proposed form would further separate out L–1A managers from L–1A executives on the form. However, DHS is not proposing different fees for managers and executives, because the agency has no records on the difference in completion rates or costs for processing petitions for managers and executives. USCIS currently captures completion rates for H–1B, L, and other types of petitions, but not for subgroups, such as managers and executives, within classifications. The proposed fee is based on the completion rate for the average of L–1 petitions. As mentioned in section V.I. Separating Form I–129, Petition for a Nonimmigrant Worker, into Different Forms, the proposed fees also assign the direct costs of ASVVP site visits, currently used for certain H–1B, L, and all religious workers, to the specific form for the classification.

4. Form I–129O, Petition for Nonimmigrant Worker: O Classification

DHS proposes to create Form I–129O, Petition for Nonimmigrant Worker: O Classification, with a proposed fee of $715. *See* proposed 8 CFR 106.2(a)(3)(vi). The separate form would allow USCIS to tailor instructions and data collection requirements for these petitions for persons with extraordinary ability in the sciences, arts, education, business, or athletics, persons with extraordinary achievement in the motion picture or television industry, and qualifying essential support personnel. *See* INA secs. 101(a)(15)(O), 214(c); 8 U.S.C. 1101(a)(15)(O), 1184(c); 8 CFR 214.2(o). Similar to some other proposed changes to Form I–129, DHS proposes to limit each Form I–129O petition to 25 named beneficiaries.[129] Proposed 8 CFR 214.2(o)(2)(iv)(F). As previously discussed in the H–2A and H–2B section above, limiting the number of named beneficiaries simplifies and optimizes the adjudication of these petitions, which can lead to reduced average processing times for a petition. Because USCIS completes a background check for each named beneficiary, petitions with more named beneficiaries require more time and resources to adjudicate than petitions with fewer named beneficiaries. This means the cost to adjudicate a petition increases with each additional named beneficiary. Thus, limiting the number of named beneficiaries may ameliorate the inequity of petitioners filing petitions with low beneficiary counts who effectively subsidize the cost of petitioners filing petitions with high beneficiary counts. USCIS currently captures adjudication hours for these types of petitions. As stated in section

[125] *Id.* at 13.

[126] *Id.* at 17.

[127] The L–1 intracompany transferee nonimmigrant classification permits a multinational organization to transfer certain employees from one of its affiliated foreign entities to one of its entities in the United States. The L–1A classification is for employees coming to the United States temporarily to perform services in a managerial or executive capacity. The L–1B classification is for employees coming to the United States temporarily to perform services that require specialized knowledge. *See* INA sec. 101(a)(15)(L), 8 U.S.C. 1101(a)(15)(L).

[128] Certain L petitioners may have to pay up to $5,000 in statutory fees. DHS does not have the authority to adjust the amount of these statutory fees. USCIS does not keep most of the revenue derived from these fees. CBP receives 50 percent of the $4,500 9–11 Response and Biometric Entry-Exit fee revenue and the remaining 50 percent is deposited into the General Fund of the Treasury. USCIS retains one third of the $500 Fraud Detection and Prevention fee revenue, while the remainder is split between the Department of State and the Department of Labor. These statutory fees are in addition to the current Form I–129 fee of $460 and optional premium processing fee of $1,410. *See* USCIS, *H and L Filing Fees for Form I–129, Petition for a Nonimmigrant Worker, https://www.uscis.gov/forms/h-and-l-filing-fees-form-i-129-petition-nonimmigrant-worker* (last updated/reviewed Feb. 2, 2018).

[129] While O–1 petitions are limited to a single named beneficiary, a petition for O–2 nonimmigrant workers may include multiple named beneficiaries in certain instances. *See* 8 CFR 214.2(o)(2)(iii)(F).

IV.B.2. Completion Rates, the proposed fee is partly based on this data.

5. Form I–129E&TN, Application for Nonimmigrant Worker: E and TN Classification

DHS proposes to create a separate Form I–129 supplement for E and TN applicants entitled Form I–129E&TN, Application for Nonimmigrant Worker: E and TN Classification. The Treaty Trader (E–1) and Treaty Investor (E–2) classifications are for citizens of countries with which the United States maintains treaties of commerce and navigation. The applicant must be coming to the United States to engage in substantial trade principally between the United States and the treaty country (E–1), to develop and direct the operations of an enterprise in which the applicant has invested or is in the process of investing a substantial amount of capital (E–2), or to work in the enterprise as an executive, supervisor, or essentially skilled employee. *See* INA sec. 101(a)(15)(E), 8 U.S.C. 1101(a)(15)(E); 8 CFR 214.2(e). An E–2 CNMI or E–2C investor is a noncitizen who seeks to enter or remain in the Commonwealth of the Northern Mariana Islands (CNMI) in order to maintain an investment in the CNMI that was approved by the CNMI government before November 28, 2009. This classification allows an eligible noncitizen to be lawfully present in the CNMI in order to maintain the investment during the transition period from CNMI to federal immigration law, which was extended by Public Law 115–218, sec. 3(a) on July 24, 2018 and will expire on December 31, 2029. *See* 48 U.S.C. 1806; *proposed* 8 CFR 214.2(e)(23). The E–3 classification applies to nationals of Australia who are coming to the United States solely to perform services in a specialty occupation requiring theoretical and practical application of a body of highly specialized knowledge and at least the attainment of a bachelor's degree, or its equivalent, as a minimum for entry into the occupation in the United States. *See* INA secs. 101(a)(15)(E) and 214(i)(1); 8 U.S.C. 1101(a)(15)(E) and 1184(i)(1). The TN Classification was created to implement part of a trilateral North American Free Trade Agreement (NAFTA) between Canada, Mexico, and the United States. In accordance with the NAFTA, a citizen of Canada or Mexico who seeks temporary entry as a business person to engage in business activities at a professional level may be admitted to the United States. *See* INA sec. 214(e), 8 U.S.C. 1184(e); 8 CFR 214.6; proposed 8 CFR 106.2(a)(3)(viii).

6. Form I–129MISC, Petition for Nonimmigrant Worker: H–3, P, Q, or R Classification

DHS proposes to create a new form for the remaining non-immigrant worker classifications, called Form I–129MISC, Petition for Nonimmigrant Worker: H–3, P, Q, or R Classification. The costs used to determine the proposed fee for this form aggregate all identifiable costs associated with the adjudication of these different visa classifications, including the costs of administering site visits for R visa workers under the Administrative Site Visit and Verification Program. As previously discussed in sections 2 and 4, DHS proposes for classifications that allow one petition to be filed for multiple beneficiaries, to limit such petitions to 25 named beneficiaries. Proposed 8 CFR 214.2(p)(2)(iv)(F). As stated previously, this change, as with all new I–129 form types, is expected to simplify and optimize the adjudication of these petitions, which is expected to lead to reduced processing times and reduced completion rates. Because USCIS completes a background check for each named beneficiary, petitions with more beneficiaries require more time and resources to adjudicate than petitions with fewer named beneficiaries. This means the cost to adjudicate a petition increases with each additional named beneficiary. Thus, limiting the number of named beneficiaries may ameliorate the inequity of petitioners filing petitions with low beneficiary counts who effectively subsidize the cost of petitioners filing petitions with high beneficiary counts. USCIS does not have separate completion rates for the proposed Forms I–129E&TN and I–129MISC. Currently, USCIS adjudicators report hours on these classifications in a catch-all Form I–129 category. Creation of new separate forms may allow USCIS to track each separately and calculate specific fees for each petition or application in the future, which could serve as a basis for further refinement of the fee for the various nonimmigrant classifications in future fee rules. The proposed fee for both Forms I–129E&TN and I–129MISC is $705. *See* proposed 8 CFR 106.2(a)(3)(viii).

7. Commonwealth of the Northern Mariana Islands (CNMI) Fees

Two recent public laws affected statutory fees for the Commonwealth of the Northern Mariana Islands (CNMI). The Northern Mariana Islands Economic Expansion Act, Public Law 115–53, sec. 2, 131 Stat. 1091, 1091 (2017) (2017 CNMI Act) increased the CNMI education funding fee from $150 to $200. *See* 48 U.S.C. 1806(a)(6)(A)(i). USCIS began accepting this increased fee on August 23, 2017.[130] DHS proposes to make conforming edits to the fee for the Petition for a CNMI-Only Nonimmigrant Transitional Worker, Form I–129CW, because of this statutory change. *See* 8 CFR 103.7(b)(1)(i)(J); proposed 8 CFR 106.2(c)(7). Employers must pay the fee for every beneficiary that they seek to employ as a CNMI-only transitional worker. The fee must be paid at the time of filing the petition. By statute, since it is for each worker approved, USCIS refunds the CNMI education funding fee if the petition is not approved. The fee is a recurring fee that petitioners must pay every year. A prospective employer requesting issuance of a permit with a validity period longer than one year must pay the fee for each year of requested validity. USCIS transfers the revenue from the CNMI education funding fee to the treasury of the Commonwealth Government to use for vocational education, apprenticeships, or other training programs for United States workers. The Northern Mariana Islands U.S. Workforce Act of 2018, Public Law 115–218, sec. 3, 132 Stat. 1547 (2018) (2018 CNMI Act), granted DHS the authority to adjust the fee for inflation. *See* 48 U.S.C. 1806(a)(6)(A)(ii). Beginning in FY 2020, DHS may adjust the $200 CNMI education funding fee once per year by notice in the **Federal Register**.[131] The adjustment must be based on the annual change in the Consumer Price Index for All Urban Consumers (CPI–U) published by the Bureau of Labor Statistics. *See* proposed 8 CFR 106.2(c)(7)(iii).

In addition to authorizing inflation adjustments for the CNMI education funding fee, the 2018 CNMI Act created a new $50 CNMI fraud prevention and detection fee. 2018 CNMI Act, sec. 3 (amending 48 U.S.C. 1806(a)(6)(A)(iv)). The new $50 fraud prevention and detection fee is in addition to other fees that employers must pay for petitions to employ CNMI-only transitional workers. *See* proposed 8 CFR 106.2(c)(6). USCIS began accepting the fee on July 25,

[130] USCIS, *New Legislation Increases Availability of Visas for CNMI Workers for Fiscal Year 2017, https://www.uscis.gov/news/news-releases/new-legislation-increases-availability-visas-cnmi-workers-fiscal-year-2017* (last reviewed/updated on Aug. 28, 2017).

[131] Beginning in fiscal year 2020, the Secretary of Homeland Security, through notice in the **Federal Register**, may annually adjust the supplemental fee imposed under clause (i) by a percentage equal to the annual change in the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics. 48 U.S.C. 1806(a)(6)(A)(ii).

2018.[132] The new fee is only due at the time of filing. It is a single $50 fee per petition, not a fee charged per beneficiary like the CNMI education funding fee. USCIS must use the revenue for preventing immigration benefit fraud in the CNMI, in accordance with INA section 286(v)(2)(B), 8 U.S.C. 1356(v)(2)(B). *See also* 48 U.S.C. 1806(a)(6)(A)(iv), as amended by 2018 CNMI Act, sec. 3.

DHS also proposes conforming edits to CNMI regulations regarding fee waivers and biometric services. Currently, some CNMI applicants and beneficiaries may qualify for a fee waiver based on inability to pay or other reasons. *See* 8 CFR 214.2(e)(23)(xv), (w)(5), and (w)(14)(iii). Generally, fee waivers are not available for employment-based applications and petitions. However, when DHS established the CW–1 petition fees, it decided to treat the CNMI with more flexibility in this regard. *See* 76 FR 55513–4. As discussed in section V.C., Fee Waivers, DHS proposes to limit fee waivers to immigration benefit requests for which USCIS is required by law to consider a fee waiver. DHS proposes in this rule to treat CW–1 petitions like other employment-based petitions. *See* proposed 8 CFR 106.3. The proposed change would eliminate fee waiver eligibility for CNMI applicants and beneficiaries. *See* proposed 8 CFR 214.2(e)(23)(xv), (w)(5) and (w)(14)(iii). Currently, in addition to the petition fee paid by their employer, CNMI beneficiaries may pay an additional biometric services fee when seeking a grant or extension of CW–1 status in the CNMI. *See* 76 FR 55513–4; 8 CFR 214.2(e)(23)(viii) and (w)(15). As explained in section V. E., Changes to Biometric Services Fee, DHS proposes to incorporate the cost of biometric services into the underlying immigration benefit request fees. This proposed change would place the entire financial burden for CNMI petition fees on the employer, eliminating any fees paid by the employee. *See* proposed 8 CFR 106.2, 214.2(v)(23)(viii) and (w)(15). However, employees and their families filing Form I–539 to request a grant or extension of derivative CW–2 nonimmigrant status for a spouse or child of a CW–1 nonimmigrant would still be responsible for that filing fee. A fee waiver would no longer be available.

DHS does not propose to limit the number of named beneficiaries included in a single I–129CW filing.

J. Premium Processing

1. Change Premium Processing Fee by Guidance

The INA permits certain employment-based immigration benefit applicants and petitioners to request, for an additional fee, premium processing. *See* Public Law 106–553, App. B, tit. I, sec. 112, 114 Stat. 2762, 2762A–68 (Dec. 21, 2000); INA sec. 286(u), 8 U.S.C. 1356(u). Congress set the premium processing fee and authorized USCIS to adjust the fee for inflation, as determined by the Consumer Price Index (CPI). *Id.* DHS recently increased the premium processing fee for inflation. *See* 83 FR 44449; 8 CFR 103.7(b)(1)(i)(SS); proposed 8 CFR 106.4. The current fee is $1,410.[133] USCIS currently offers premium processing to employment-based petitions including Form I–129, Petition for Nonimmigrant Worker, and Form I–140, Immigrant Petition for Alien Worker, in certain visa classifications. Currently, petitioners and applicants use Form I–907, Request for Premium Processing Service, and pay the $1,410 fee to request 15-day processing. DHS is not proposing a change to premium processing fees at this time.

DHS proposes to amend its regulations so that it can notify the public of future premium processing fee inflationary increases through changes to Form I–907 instructions (following the requirements of 5 CFR part 1320) and the USCIS website, *http://www.uscis.gov*. *See* proposed 8 CFR 106.2(a)(43), 106.4(c) and 106.4(e)(ii). By law, DHS may adjust the premium processing fee for inflation according to CPI; therefore, the amount of the fee increase is straightforward and need not be codified. USCIS requires the flexibility to change the fee amount without undue delay when it needs additional premium processing fee revenue to provide premium processing services and to make infrastructure improvements in the adjudications and applicant- or petitioner-service processes as authorized by INA sec. 286(u), 8 U.S.C. 1356(u).

2. Change Calendar Days to Business Days

DHS proposes to change the limitation for 15-day processing currently codified at 8 CFR 103.7(e) from calendar days to business days. Proposed 8 CFR 106.4(d). For purposes of calculating the 15-day premium processing clock, business days are those days on which the Federal Government is open for business and does not include weekends, federally observed holidays, or the days on which Federal Government offices are closed, such as for weather-related or other reasons. The closure may be nationwide or in the region where the adjudication of the benefit for which premium processing is sought will take place. The former INS established the 15-day period in June 2001. *See Establishing Premium Processing Service for Employment-Based Petitions and Applications,* 66 FR 29682 (June 1, 2001). The June 1, 2001 rule cited the District of Columbia Appropriations Act of 2001, Public Law 106–553, as specifying that the INS was required to process applications under the Premium Processing Service in 15 calendar days. 66 FR 29682. DHS has determined that the June 1, 2001 interim rule was incorrect, and that the District of Columbia Appropriations Act, 2001 did not include a requirement that the Service process applications under the Premium Processing Service in 15 calendar days. Therefore, DHS is free to interpret its authority under INA section 286(u), 8 U.S.C. 1356(u), to establish a new processing timeframe as 15 business days rather than 15 calendar days. In recent years, USCIS suspended premium processing for certain categories of employment-based petitions to permit officers to process long-pending non-premium filed petitions and to prevent a lapse in employment authorization for beneficiaries of Form I–129 extension of stay petitions. In certain instances, USCIS has been unable to accomplish the required 15-day response due to the high volume of incoming petitions and a significant surge in premium processing requests.[134] The proposed change from 15 calendar days to 15 business days will provide USCIS

[132] USCIS, *New Law Extends CNMI CW–1 Program, Mandates New Fraud Fee, and Will Require E-Verify Participation, https://www.uscis.gov/news/alerts/new-law-extends-cnmi-cw-1-program-mandates-new-fraud-fee-and-will-require-e-verify-participation* (last reviewed/updated on July 25, 2018).

[133] Premium processing fees are paid in addition to the regular form fee. *See* INA sec. 286(u), 8 U.S.C. 1356(u); 8 CFR 103.7(b)(1)(i)(SS)(1); proposed 8 CFR 103.4. For example, individuals would pay the proposed $545 fee for a Form I–140 under this rule, plus $1,410 for premium processing. Premium processing prioritizes the applicable application or petition for adjudication. The additional fee permits USCIS to devote specific resources to the processing of that immigration benefit request and to make infrastructure improvements in the adjudications and customer-service processes.

[134] *See* ‘‘USCIS Will Temporarily Suspend Premium Processing for All H–1B Petitions, *https://www.uscis.gov/archive/uscis-will-temporarily-suspend-premium-processing-all-h-1b-petitions* (last reviewed/updated March 3, 2017); USCIS Will Temporarily Suspend Premium Processing for Fiscal Year 2019 H–1B Cap Petitions, *https://www.uscis.gov/news/alerts/uscis-will-temporarily-suspend-premium-processing-fiscal-year-2019-h-1b-cap-petitions* (last reviewed/updated March 20, 2018).

additional time to complete the necessary processing on a premium processing petition and issue a decision. The additional time may also reduce the need for USCIS to suspend premium processing when request filing volumes are high.

3. Actions That End or Restart The 15-Day Period

DHS also proposes that USCIS would refund the premium processing service fee but continue to process the case if it cannot take an adjudicative action on the request, as evidenced by notification of (but not necessarily receipt of) an approval or denial notice by the end of the 15th business day, beginning on the date the properly filed premium processing request was initially accepted by USCIS or the premium processing clock reset upon receipt of a response to a request for evidence (RFE) or notice of intent to deny (NOID). Proposed 8 CFR 106.4(d). That proposal represents no change, other than how the 15 days is calculated, from the current regulations governing USCIS requests for premium processing. 8 CFR 103.7(e). However, DHS also proposes to clarify its current premium processing regulations as they relate to what actions would terminate the 15-day period or otherwise start a new 15-day period. The current regulation is potentially confusing because it includes interim actions in the list of adjudicative actions evidencing of a ''final decision'' for the purpose of stopping the 15-day period. 8 CFR 103.7(e)(2)(i) (''If USCIS cannot reach a final decision on a request for which premium processing was requested, as evidenced by an approval notice, denial notice, a notice of intent to deny, or a request for evidence, USCIS will refund the premium processing service fee, but continue to process the case.''). In this rule, DHS proposes to clarify the two circumstances in which it would refund the premium processing fee:

1. Where USCIS does not take any adjudicative action within 15 business days from the date on which it accepts a properly filed request for premium processing, together with all required fees, or

2. Where USCIS does not take subsequent adjudicative action within 15 business days from the date on which USCIS receives a response to an RFE or a NOID.

DHS proposes that the 15-day period will stop when USCIS takes certain adjudicative actions, specifically the notification of an approval, denial, RFE or NOID. Proposed 8 CFR 106.4(d)(1). DHS also proposes to clarify that when USCIS issues an RFE or NOID on a benefit request for which premium processing service has been properly requested, including the payment of all required fees, a new 15 business day period will begin upon the receipt by USCIS of the benefit requestor's RFE or NOID response at the address that was required by the notice or online. Proposed 8 CFR 106.4(d)(2).

4. Expedited Processing for Other Requests

Commenters regularly request that DHS extend premium processing to other immigration benefit requests. *See, e.g.,* 75 FR 58978 and 81 FR 73309. The FY 2019/2020 fee review did not analyze the potential effect of premium processing for other forms. Congress established the premium processing service for ''employment-based petitions and applications.'' INA sec. 286(u), 8 U.S.C. 1356(u). Congress established the premium processing fee at an amount it determined to be appropriate, and it permitted USCIS to increase the fee based on inflation. *See* 81 FR 73309. These fees cover the estimated costs of providing premium processing for the associated benefits. Nevertheless, it would be difficult to estimate the staff, resources, and costs necessary to ensure the processing of additional benefit types within a certain time frame, especially when those cases may require other types of background checks, interviews, and additional steps that USCIS does not generally control. Expanding the premium processing program would require USCIS to estimate the costs of a service that does not currently exist with sufficient confidence that it can deliver the service promised and not impair service in other product lines. DHS would require the devotion of considerable resources to study a potential new premium processing program. Thus, DHS proposes no extension of premium processing beyond its current usage. However, comments are welcome on the subject.

K. Regional Centers

DHS proposes no fee change for Form I–924, Application for Regional Center Designation under the Immigrant Investor Program because the current fee is adequate. *See* 8 CFR 103.7(b)(1)(i)(WW); proposed 106.2(a)(47).

L. Secure Mail Initiative

In 2016, an OIG audit recommended that USCIS evaluate the costs and benefits of using the U.S. Postal Service's hold for pickup as an alternative secure method for delivering secure documents to applicants.[135] USCIS has decided to implement Signature Confirmation Restricted Delivery (SCRD) as the sole method of delivery of secure documents for USCIS.[136] Proposed 8 CFR 103.2(b)(19)(iii). USCIS began phasing in use of the Signature Confirmation Restricted Delivery service to re-mail Permanent Resident Cards, Employment Authorization Cards, and Travel Booklets returned by USPS as non-deliverable beginning on April 30, 2018.[137] USCIS analyzed the additional costs associated with expanding this service to all USCIS secured documents and determined that the cost in FY 2019 would be $26.9 million, based on anticipated mailing volumes and the per unit mailing cost of the service. USCIS planned for similar costs in FY 2020. As detailed in the supporting documentation, the ABC model assigned this additional cost to the Issue Document activity for immigration benefit requests that may result in a Permanent Resident Card, Employment Authorization Card, or Travel Booklet. Issue Document means producing and distributing secure cards that identify the holder as a foreign national and also identifies his or her immigration status and/or employment authorization.[138] As proposed, DHS, at its discretion, may require the use of Signature Confirmation Restricted Delivery for additional documents beyond Permanent Resident Cards, Employment Authorization Cards, and Travel Booklets (for example, certificates of naturalization and citizenship, which are currently being mailed to recipients) in the future by updating the relevant form instructions. Proposed 8 CFR 103.2(b)(19)(iii).

M. Intercountry Adoptions

1. Adjustment to Proposed Fees for Certain Intercountry Adoption-Specific Forms

DHS proposes to limit the increase of adoption-related fees in this rule

[135] DHS OIG, *Better Safeguards are Needed in USCIS Green Card Issuance* (Nov. 16, 2016), *available at https://www.oig.dhs.gov/sites/default/files/assets/2017/OIG-17-11-Nov16.pdf.*

[136] DHS OIG, *Verification Review: Better Safeguards are Needed in USCIS Green Card Issuance* (Apr. 10, 2018), *available at https://www.oig.dhs.gov/sites/default/files/assets/2018-04/OIG-18-61-Apr18.pdf.*

[137] USCIS, *USCIS to Begin Using More Secure Mail Delivery Service, https://www.uscis.gov/news/news-releases/uscis-begin-using-more-secure-mail-delivery-service* (last reviewed/updated April 27, 2018).

[138] See the FY 2019/2020 Immigration Examinations Fee Account Fee Review Supporting Documentation included in the docket of this NPRM for more information on fee review activities.

consistent with previous fee rules. *See, e.g.,* 81 FR 73298. DHS will continue its policy of reducing fee burdens on adoptive families by covering some of the costs attributable to the adjudication of certain adoption-related petitions and applications (Forms I–600/600A/800/800A) through the fees collected from other immigration benefit requests. If DHS used the estimated fee-paying unit cost from the ABC model for Form I–600, then this benefit request would have a fee of at least $1,423.[139] DHS believes that it would be contrary to public and humanitarian interests to impose a fee of this amount on prospective adoptive parents seeking to adopt a child from another country. Therefore, DHS proposes to apply the 5 percent weighted average increase to the current fee of $775, representing a $35 increase to $810 for Forms I–600/600A/800/800A. Proposed 8 CFR 106.2(b)(21), (22), (23), (33), (34), (35).

2. Clarification of Fee Exception for Birth Siblings

DHS proposes amendments to 8 CFR 106.2, 204.3, and 204.313 to clarify the regulations and align them with current practice regarding when prospective adoptive parents are not required to pay the Form I–600 or Form I–800 filing fee for multiple Form I–600 or Form I–800 petitions. Currently, prospective adoptive parents with a valid Form I–600A or Form I–800A approval to adopt more than one child are not required to pay a fee for the first Form I–600 or Form I–800 petition. They are required to pay the Form I–600 or Form I–800 filing fee for additional Form I–600 or Form I–800 petitions, unless the beneficiaries are birth siblings. If the beneficiaries are not birth siblings, the Form I–600 or Form I–800 fee is required for each petition after the first. To align with current and historical practice, DHS proposes to clarify in the regulations that this exception is limited to ''birth'' siblings. This approach is consistent with the special treatment afforded in the INA to ''natural siblings,'' which allows a Form I–600 or Form I–800 petition to be filed for a child up to age 18, rather than age 16, only if the beneficiary is the ''natural sibling'' of another foreign born child who has immigrated (or will immigrate) based on adoption by the same adoptive parents. INA 101(b)(1)(F)(ii) and (G)(iii); 8 U.S.C. 1101(b)(1)(F)(ii) and (G)(iii). While the INA uses the term ''natural sibling,'' DHS generally uses the term ''birth siblings'' synonymously, which includes half-siblings but does not include adoptive siblings.

3. Suitability and Eligibility Approval Validity Period

DHS proposes amendments to 8 CFR 204.3 relating to orphan cases under INA section 101(b)(1)(F), 8 U.S.C. 1101(b)(1)(F) (non-Convention cases). The proposed revisions to the orphan regulations are necessary to eliminate disparity between the 18-month approval period for the Form I–600A, Application for Advance Processing of an Orphan Petition, the 15-month validity period of FBI fingerprint clearances, and the 15-month approval period for a Form I–800A, Application for Determination of Suitability to Adopt a Child from a Convention Country and any approved extension.

Under current regulation, the approval of a Form I–600A in an orphan case is valid for 18 months. *See* 8 CFR 204.3(h)(3)(i). However, standard USCIS policy has been that the FBI's clearance of a person's fingerprints is valid for 15 months, thereby creating inconsistency and a gap period with the 18-month approval validity period for the Form I–600A. This inconsistency was partially resolved with the ratification of the Hague Convention on Protection of Children and Co-operation in Respect of Intercountry Adoption (Hague Adoption Convention) and subsequent codification of 8 CFR 204.312(e)(1), whereby the initial approval period for a Form I–800A in a Convention case is 15 months from the date USCIS received the initial FBI response for the fingerprints of the prospective adoptive parent(s) and any adult members of the household. This 15-month period also applies to the extension of the Form I–800A approval period for an additional 15 months from the date USCIS receives the new FBI response on the fingerprints. Creating parity in the approval periods for suitability and eligibility determinations provides additional protections for adopted children and provides consistency and alignment of the orphan and Hague regulations. Having a standardized 15-month validity period will also alleviate the burden on prospective adoptive parents and adoption service providers to manage and monitor multiple expiration dates. Therefore, DHS proposes to alter the validity period for a Form I–600A approval in an orphan case to 15 months. Proposed 8 CFR 204.3(b), (d), (h)(3)(i),[140] (h)(7), & (h)(13).

4. Form I–600A/I–600, Supplement 3, Request for Action on Approved Form I–600A/I–600

DHS proposes to create a new form to further align the processes for adoptions from countries that are party to the Hague Adoption Convention, with the process for adoptions from countries that are not party to that Convention. The proposed form name is Form I–600A/I–600, Supplement 3, Request for Action on Approved Form I–600A/I–600. The proposed fee is $405. Proposed 8 CFR 106.2(b)(23). As discussed in the Paperwork Reduction Act section of this preamble, the draft Supplement 3 is posted in the docket of this rulemaking for the public to review and provide comments.

Currently, U.S. citizen applicants and petitioners (prospective adoptive parents) face somewhat different processes depending on whether the child or children that they wish to adopt is from a Hague Adoption Convention country or a non-Hague Adoption Convention country. USCIS uses Forms I–800, I–800A, and I–800A Supplement 3 for Hague Adoption Convention countries. USCIS uses Forms I–600 and I–600A for non-Hague Adoption Convention countries. A fee for Form I–600A/I–600 Supplement 3 would further align the Form I–600A/I–600 post-approval request process with the existing Form I–800A process in four key areas:

1. Suitability & Eligibility Extensions;
2. New Approval Notices;
3. Change of Country; and
4. Duplicate Approval Notices.

USCIS adjudicators must re-assess whether prospective adoptive parents are still suitable and eligible to adopt if the prospective adoptive parents' circumstances have changed after the initial USCIS suitability determination. The proposed fee would help recover some of the cost for this work.

Table 12 and the following sections summarize the current process and the proposed changes.

---

[139] Model output from supporting documentation in the docket, page 22.

[140] In addition to changing the 18-month period to 15 months, DHS is removing the internal procedure from 8 CFR 204.3(h)(3)(i) that provides where documents will be forwarded and notification of overseas offices of the approval, and is correcting a reference to the number of children the prospective adoptive parents are approved for in the home study to refer to the number of children the prospective adoptive parents are approved for in the Form I–600A approval. DHS is also adding a reference to proposed 8 CFR 106.2(a)(23) in section 204.3(h)(3)(i), relating to Form I–600A extension requests. Additionally, DHS is replacing the reference to an outbreak of Severe Acute Respiratory Syndrome in section 204.3(h)(3)(ii) with a more general reference to public health or other emergencies. This revision will provide the agency with the flexibility to extend Form I–600A validity periods when it determines that an emergency situation, other than a SARS outbreak, prevents petitioners from timely filing a Form I–600 petition before expiration of their Form I–600A approval.

TABLE 12—SUMMARY OF CURRENT AND PROPOSED ADOPTION PROCESSES RELATED TO PROPOSED FORM I–600A/I–600 SUPPLEMENT 3

Type of change	Current process	Proposed process
Suitability & Eligibility Extensions.	The Form I–600A approval notice reflects a validity period for the prospective adoptive parents' suitability and eligibility determination. Currently, U.S. citizen applicants (prospective adoptive parents) may request one initial extension of their Form I–600A approval without fee by submitting a request in writing. Prospective adoptive parents are not able to request a second or subsequent extension of their Form I–600A approval.	DHS proposes to require prospective adoptive parents to submit Form I–600A/I–600, Supplement 3 to request the initial no-fee extension. Form I–600A/I–600 Supplement 3 would allow prospective adoptive parents to request second or subsequent extensions with the proposed fee.
Home Study Updates	Currently, prospective adoptive parents can request a new approval notice based on a significant change and updated home study with no fee. New approvals require adjudicators to re-assess whether prospective adoptive parents remain suitable and eligible to adopt after the significant change in circumstances. (For example, significant decreases in finances, change of residence, other changes in the household, etc.) Prospective adoptive parents must pay the fee for Form I–600A or I–600 if it is a second or subsequent request unless they are also requesting their first (no fee) extension or first (no fee) change of country.	DHS proposes to require prospective adoptive parents to submit Form I–600A/I–600, Supplement 3 to request a new approval notice. The prospective adoptive parent must pay the fee unless they are also filing a first time request for either an extension or change of country. Second or subsequent requests would require the proposed fee.
Change of Country	Currently, prospective adoptive parents may change their proposed country of adoption once without fee. For example, if they are matched with an eligible orphan in a country other than the country initially identified on their Form I–600A. For subsequent country changes, prospective adoptive parents file Form I–824, Application for Action on an Approved Application or Petition, with fee.	DHS proposes to require prospective adoptive parents to submit Form I–600A/I–600, Supplement 3 to request the initial no-fee change of proposed country of adoption.* [141] Form I–600A/I–600 Supplement 3 would allow prospective adoptive parents to request a second or subsequent change in the proposed country of adoption with the proposed fee.

* See d. below for limitations in Hague Adoption Convention transition cases and countries.

a. Suitability & Eligibility Extensions

Currently, U.S. citizen prospective adoptive parents for non-Hague Adoption Convention countries may request no-fee initial extension of their Form I–600A approval.[142] Requests are submitted in writing and second or subsequent requests to extend their approval are not allowed. *See* 8 CFR 103.7(b)(1)(i)(Z)(*3*). DHS proposes that prospective adoptive parents be allowed to request more than one extension of their Form I–600A approval, if necessary, by filing the proposed Form I–600A/I–600 Supplement 3. The first request would be free under this proposal. Second or subsequent requests would require the proposed fee of $405. *See* proposed 8 CFR 106.2(a)(23).

b. New Approval Notices

Currently, prospective adoptive parents using the non-Hague Adoption Convention process may request a new approval notice based on a significant change in circumstances and an updated home study at no cost. *See* 8 CFR 103.7(b)(1)(i)(Z). DHS proposes that prospective adoptive parents must file the proposed Form I–600A/I–600 Supplement 3 to notify USCIS of a significant change and request a new approval notice. *See* proposed 8 CFR 106.2(a)(23). The prospective adoptive parent must pay the proposed fee of $405 unless they are also filing either a first time request for an extension or change of country on the same Supplement 3.

c. Change of Country

Currently, prospective adoptive parents may change the proposed country of adoption once without fee and may make subsequent country changes by filing Form I–824, Application for Action on an Approved Application or Petition, with fee. *See* 8 CFR 103.7(b)(1)(i)(OO). DHS proposes that prospective adoptive parents be allowed to change the proposed country of adoption by filing the proposed Form I–600A/I–600 Supplement 3. The first request to change countries would remain without fee under this proposal. Second or subsequent requests would require the proposed fee of $405. *Id.*

d. Hague Adoption Convention Transition Cases

DHS proposes to clarify the processes for requesting an extension of the Form I–600A approval and other actions on an approved Form I–600A or I–600 as they pertain to adoptions from countries that newly become a party to the Hague Adoption Convention. When the Hague Adoption Convention enters into force for a country, cases that meet certain criteria are generally permitted by the new Convention country to proceed as ''transition cases'' under the non-Hague Adoption Convention process (Form I–600A and Form I–600 process). Provided that the new Convention country agrees with the transition criteria, USCIS will generally consider a case to be a transition case if, before the date the Convention entered into force for the country, the prospective adoptive parent(s): (1) Filed a Form I–600A that designated the transition country as the intended country of adoption or did not designate a specific country; (2) filed a Form I–600 on behalf of a beneficiary from the transition country; or (3) completed the adoption of a child from the transition country. If the case does not qualify as a transition case, the prospective adoptive parents will generally need to follow the Hague

[141] See section V.M.4.d. for limitations in Hague Adoption Convention transition cases and countries.

[142] The Form I–600A approval notice reflects the validity period of the prospective adoptive parents' suitability and eligibility determination.

Adoption Convention process with the filing of Form I–800A and Form I–800. With the addition of the new Form I–600A/I–600 Supplement 3, DHS proposes to codify certain limitations on when the Supplement 3 can be used in the context of transition cases.

i. Suitability and Eligibility Extensions

If a case qualifies as a transition case based on the filing of Form I–600A before the entry into force date, in order to continue as a transition case the prospective adoptive parents must file the Form I–600 petition while the Form I–600A approval remains valid. Currently, prospective adoptive parents are permitted to request a one-time, no-fee extension of their Form I–600A approval in order to remain a transition case. As discussed in section a.) above, DHS proposes that prospective adoptive parents may request more than one extension of their Form I–600A approval outside of the transition context. DHS proposes that prospective adoptive parents may only be permitted to request a one-time extension of their Form I–600A approval as a qualified transition case. *See* proposed 8 CFR 106.2(a)(23). Generally, transition countries have requested that DHS limit the ability of transition cases to continue indefinitely in order to limit the confusion that having two simultaneously running processes causes to its administrative bodies and judicial systems. This will provide prospective adoptive parents who have taken certain steps to begin the intercountry adoption process with a country before the Convention entered into force additional time to complete the adoption process under the non-Hague process, but reasonably limits the ability to indefinitely extend the validity period of the Form I–600A approval and the processing of transition cases under the non-Hague process.

ii. Change of Country

The transition criteria were generally designed to permit prospective adoptive parents who had taken certain steps to begin the intercountry adoption process with a country before the Convention entered into force to be able to continue under the non-Hague process, rather than requiring them to begin under the Hague process, which has different processing requirements. If the prospective adoptive parents designated a country of intended adoption on their Form I–600A or prior change of country request other than the transition country, they generally would not fall into the category of families the transition criteria were intended to reach because the designation is an indication they have begun the intercountry adoption process with the designated country and not with the transition country. Therefore, in the transition context, prospective adoptive parents who designated a country on their Form I–600A or prior change of country request that is not the transition country generally have not been permitted to change their Form I–600A approval to a transition country for purposes of being considered a transition case. DHS proposes to codify this limitation in this rule. *See* proposed 8 CFR 106.2(a)(23).

iii. Requests To Increase the Number of Children Approved To Adopt

Outside of the transition context, prospective adoptive parents are generally permitted to request an updated Form I–600A approval notice to increase the number of children they are approved to adopt. In the transition context, however, prospective adoptive parents with transition cases generally have not been permitted to request an increase in the number of children they are approved to adopt from a transition country.[143] However, unless prohibited by the new Convention country, DHS will permit prospective adoptive parent(s) to request an updated Form I–600A approval notice to increase the number of children they are approved to adopt as a transition case only in order to pursue the adoption of a birth sibling, provided the birth sibling(s) is (are) identified and the Form I–600 petition is filed before the Form I–600A approval expires. *See* proposed 8 CFR 106.2(a)(23). This approach is consistent with the special treatment afforded in the INA to ''natural siblings,'' which allows a Form I–600 or Form I–800 petition to be filed for a child up to age 18, rather than age 16, only if the beneficiary is the ''natural sibling'' of another foreign born child who has immigrated (or will immigrate) based on adoption by the same adoptive parents. INA 101(b)(1)(F)(ii) and (G)(iii); 8 U.S.C. 1101(b)(1)(F)(ii) and (G)(iii). While the INA uses the term ''natural sibling,'' DHS generally uses the term ''birth siblings'' synonymously, which includes half-siblings but does not include adoptive siblings.

5. Form I–800A, Supplement 3, Request for Action on Approved Form I–800A

DHS also proposes to provide a fee of $405 at 8 CFR 106.2 and clarify 8 CFR 204.312 to align with the current process for adjudicating Form I–800A Supplement 3. Currently, prospective adoptive parents may request a first extension of the Form I–800A approval and a first time change in the proposed country of adoption, by filing Form I–800A Supplement 3 without a fee. Second or subsequent requests for an extension or change of country can currently be made by filing Form I–800A Supplement 3 with a fee. Additionally, prospective adoptive parents can currently request a new approval notice based on a significant change and updated home study by filing Form I–800A Supplement 3. A request for a new approval notice must be submitted with a fee, unless the prospective adoptive parents are also filing a first time request for either an extension or change of country on the same Supplement 3. When DHS implemented the Hague Adoption Convention, as a matter of operational efficiency USCIS decided to accept Form I–800A Supplement 3 extension requests regardless of whether the Form I–800 petition was already filed, rather than requiring prospective adoptive parents to file a new Form I–800A to begin the process anew. That procedure generally shortens the subsequent suitability and eligibility adjudication process for prospective adoptive parents seeking an extension of their Form I–800A approval, as Supplement 3 adjudications are generally prioritized over new Form I–800A filings, allowing for a new decision on the prospective adoptive parents' suitability and eligibility to occur more quickly. Therefore, DHS proposes to amend 8 CFR 204.312(e)(1)(i) to permit the filing of Form I–800A Supplement 3 regardless of whether Form I–800 has been filed.

N. Changes to Genealogy Search and Records Requests

DHS proposes changes to the genealogy search and request fees in the FY 2019/2020 IEFA fee review. These proposals will allow USCIS to send pre-existing digital records as part of a response to requestors who have filed Form G–1041, Genealogy Index Search Request, and may otherwise help USCIS improve genealogy processes.

The USCIS genealogy program processes requests for historical records of deceased individuals. *See* Establishment of a Genealogy Program, 73 FR 28026 (May 15, 2008) (final rule). Before creating a genealogy program, USCIS processed the requests as Freedom of Information Act (FOIA) request workload, which resulted in delays. *See* Establishment of a Genealogy Program, 71 FR 20357–8 (Apr. 20, 2006) (proposed rule).

[143] *See https://www.uscis.gov/adoption/country-information/adoption-information-haiti.*

Requestors use the USCIS website [144] or Form G–1041, Genealogy Index Search Request, to request an index search of USCIS historical records. *See* 8 CFR 103.7(b)(1)(i)(E). USCIS informs the requestor whether any records are available by mailing a response letter. Requestors use the Form G–1041A, Genealogy Records Request, to obtain copies of USCIS historical records, if they exist. *See* 8 CFR 103.7(b)(1)(i)(F).

In the FY 2016/2017 fee rule, USCIS adopted the first change to the genealogy search and records requests fees since they had been established at $65 fee for both search requests and records requests. *See* 81 FR 73304. At the time, genealogy fees were insufficient to cover the full costs of the genealogy program. USCIS increased the fee to meet the estimated cost of the program and permit USCIS to respond to requests for such historical records and materials.

After nearly ten years of operating the genealogy program, DHS proposes to make several changes to the process. Ultimately, these changes are intended to allow USCIS to provide genealogy search results and historic records more quickly when pre-existing digital records exist.

First, DHS proposes to expand the use of online genealogy requests. DHS proposes to revise genealogy regulations to encourage requestors to submit the electronic versions of Form G–1041, Genealogy Index Search Request, and Form G–1041A, Genealogy Records Request, through the online portal at *https://www.uscis.gov/genealogy*. *See* proposed 8 CFR 103.40(b). Electronic versions of the requests reduce the administrative burden on USCIS by eliminating the need to manually enter requestor data into its systems. Requestors that cannot submit the forms electronically may still submit paper copies of both forms with the required filing fees.

Second, DHS proposes to change the search request process so that USCIS may provide requestors with pre-existing digital records, if they exist, in response to a Form G–1041, Genealogy Index Search Request. When requestors submit Form G–1041, Genealogy Index Search Request, on paper or electronically, USCIS searches for available records. If no record is found, then USCIS notifies the requestor by mail or email. If USCIS identifies available records, then USCIS provides details on the available records, but does not provide the copies of the actual records. Under current regulations, a requestor must file Form G–1041A, Genealogy Records Request, with a fee for each file requested, before USCIS provides any records that it found as a result of the search request. DHS proposes to provide the requestor with those pre-existing digital records, if they exist, in response to the initial search request. *See* proposed 8 CFR 103.40(f). DHS proposes in this rule to streamline the process for Form G–1041, Records Index Search and provide the pre-existing digital records to either an electronic reading room that can be accessed with a unique pin number, by mail with a CD, or paper copy and not require Form G–1041A. If no records exist, or if only paper copies of the records exist, then the requestor must follow the current process.

As a result of the proposed changes for pre-existing digital records, USCIS proposes to limit Form G–1041A, Genealogy Records Request, to only paper file requests. *See* proposed 8 CFR 103.40(g). Consistent with current practices, requestors must still pay the genealogy records request fee for a paper record requested. USCIS believes the change will increase efficiency and decrease future wait times for requestors.

Lastly, DHS proposes to change the genealogy fees as a result of these operational changes. *See* 8 CFR 103.7(b)(1)(i)(E) and (F); proposed 8 CFR 106.2(c)(1) and (2). The proposed fees are based on results from the same ABC model used to calculate other immigration benefit request fees proposed in this rule. The proposed fees for Forms G–1041 and G–1041A are $240 and $385 respectively. They are based on the projected costs and volumes of the genealogy program. The projected costs include a portion of Lockbox costs and an estimated staffing requirement for genealogy workload. USCIS estimated the workload volume based on these proposed changes. Additionally, USCIS used historic information to calculate completion rates for genealogy search and records requests. The completion rates allow for separate search and record request fees based on the average time to complete a request. As such, the proposed fees each represent the average staff time required to complete the request, similar to most other fees proposed in this rule.

O. Naturalization and Citizenship Related Forms

1. No Longer Limit the Form N–400 Fee

DHS proposes to increase the fee for Form N–400, Application for Naturalization, from $640 to $1,170, a $530 or 83 percent increase. *See* 8 CFR 103.7(b)(1)(BBB); proposed 8 CFR 106.2(b)(3). Prior fee rules shifted a portion of the Form N–400 cost to other fee-paying immigration benefit requestors, such as applicants for Certificates of Citizenship. In the FY 2010/2011 and the FY 2016/2017 fee rules, the Form N–400 fee was set below the ABC model output. The FY 2010/2011 fee rule held the fee to $595, the amount set in the FY 2008/2009 fee rule. *See* 75 FR 58975. The FY 2016/2017 fee rule limited the fee to only $640, a $45 or 8 percent increase. *See* 81 FR 73307.

The FY 2010/2011 proposed rule explained that holding Form N–400 to the FY 2008/2009 fee raised all other proposed fees by approximately $8 each. *See* 75 FR 33462. For DHS to recover full cost of Form N–400, the FY 2010/2011 proposed fee would have been $655, a $60 or roughly a 10 percent increase. *See* 75 FR 33462–3. In the FY 2016/2017 fee rule supporting documentation, USCIS estimated that each Form N–400 may cost $871 to complete, plus the cost for biometric services of $75, for a total of $946.[145]

In crafting prior fee rules, DHS reasoned that setting the Form N–400 fee at an amount less than its estimated costs and shifting those costs to other fee payers was appropriate in order to promote naturalization and immigrant integration.[146] DHS now believes that shifting costs to other applicants in this manner is not equitable given the significant increase in Form N–400 filings in recent years.[147] Therefore, DHS proposes to no longer limit the Form N–400 fee, thereby mitigating the fee increase of other immigration benefit requests and implementing the beneficiary-pays principle. DHS proposes a $1,170 fee for Form N–400 to recover the full cost of adjudicating the Form N–400, as well as a proportion of costs not recovered by other forms for which fees are limited or must be offered a waiver by statute.[148]

---

[144] USCIS, *Genealogy, https://www.uscis.gov/genealogy.*

[145] See the Model Output column of Appendix Table 4: Final Fees by Immigration Benefit Request in the docket of the FY 2016/2017 fee rule. The model output is the projected total cost from the ABC model divided by projected fee-paying volume. It is only a forecast unit cost (using a budget) and not the actual unit cost (using spending from prior years). USCIS does not track actual costs by immigration benefit request.

[146] *See, e.g.,* 75 FR 33461; 81 FR 26916.

[147] Based on filing volume trends in recent years, USCIS forecasts an increase of 82,827 Form N–400 applications, nearly a 10% percent increase from the FY 2016/2017 fee rule forecast. *See* Table 4: Workload Volume Comparison.

[148] See the supporting documentation of this proposed rule, Appendix V: Proposed Fee Adjustments to IEFA Immigration Benefits, for more information.

2. Remove Form N–400 Reduced Fee

In addition to eliminating Form N–400 fee waiver requests, as explained above at section V.C., DHS proposes to remove the reduced fee option for those naturalization applicants with family incomes greater than 150 percent and not more than 200 percent of the FPG currently codified at 8 CFR 103.7(b)(1)(i)(BBB)(*1*). Currently, qualifying applicants pay a fee of $320 plus an additional $85 for biometric services, for a total of $405. To qualify for a reduced fee, the eligible applicant must submit a Form I–942, Request for Reduced Fee, along with his or her Form N–400. Form I–942 requires the names of everyone in the household and documentation of the household income to determine if the applicant's household income is greater than 150 and not more than 200 percent of the FPG. DHS implemented this reduced fee option in the FY 2016/2017 fee rule to limit any potential economic disincentives that some eligible naturalization applicants may face when deciding whether to seek U.S. citizenship. *See* 81 FR 73307. DHS now proposes to eliminate the reduced fee option and return to a policy of all naturalization applicants paying the same fee. For the same reasons explained above with regard to no longer limiting the Form N–400 fee, DHS proposes to eliminate the reduced fee in order to recover full cost for naturalization services.[149] The proposed fees would also recover a portion of the cost of adjudicating forms for which USCIS is required by law to offer a fee waiver request and where the fees are limited by law, regulation, or policy, referred to as cost reallocation in the supporting documentation.[150] DHS also proposes to eliminate Form I–942 because there will no longer be a purpose for it.

3. Military Naturalization and Certificates of Citizenship

DHS does not propose any changes to fee exemptions for military members and veterans who file a Form N–400 under the military naturalization provisions. Military naturalization applications will continue to be fee exempt. *See* 8 CFR 103.7(b)(1)(BBB)(*2*); proposed 8 CFR 106.2(b)(3). USCIS does not charge a fee to military naturalization applicants because such fees are prohibited by statute. *See* INA secs. 328(b)(4), 329(b)(4). Applicants who request a hearing on a naturalization decision under INA sections 328 or 329 with respect to military service will continue to be fee exempt. *See* 8 CFR 103.7(b)(1)(AAA); proposed 8 CFR 106.2(b)(2). Members and veterans of any branch of the U.S. Armed Forces will continue to be exempt from paying the fee for an Application for Certificate of Citizenship, Form N–600. *See* 8 CFR 103.7(b)(1)(EEE); proposed 8 CFR 106.2(b)(6). While the statute prohibits fees for military naturalization applicants themselves, the Department of Defense (DOD) currently reimburses USCIS for costs related to such applications.[151] Accordingly, USCIS does not propose to increase fees to subsidize the costs of military naturalization applications.

4. Proposed Changes to Other Naturalization-Related Application and Certificate of Citizenship Application Fees

DHS proposes to adjust fees for other citizenship and naturalization forms. Some of the proposed fees are significant increases from the current fees, but others are decreases to reflect the estimated cost of adjudicating each form.

In previous fee rules, DHS limited the fee increase for several naturalization-related forms, in addition to Form N–400. *See* 75 FR 33461 and 81 FR 26915. These naturalization-related forms are as follows:

- Form N–300, Application to File Declaration of Intention
- Form N–336, Request for a Hearing on a Decision in Naturalization Proceedings (Under Section 336 of the INA)
- Form N–470, Application to Preserve Residence for Naturalization Purposes.

In the FY 2016/2017 fee rule, USCIS estimated that the cost of processing each of these forms was significantly greater than the fee.[152] Consistent with previous fee rules, DHS used its fee setting discretion to limit the increase of these fees, as shown in Table 14 of the supporting documentation of the FY 2016/2017 fee rule. At the time, DHS recognized that charging less than the full cost of adjudicating these and other immigration benefit requests required USCIS to increase fees for other immigration benefit requests to ensure full cost recovery. *See* 81 FR 26915.

The proposed fees in this rule would recover full cost for these immigration benefit requests and a portion of cost reallocation, using the standard methodology described in the supporting documentation included in this docket. *See* proposed 8 CFR 106.2(b)(1), (2), (3), and (4).

TABLE 13—NATURALIZATION FEE-PAYING UNIT COSTS (MODEL OUTPUT) AND FEES COMPARED

Immigration benefit request	FY 2016/ 2017 Fee-paying unit cost	Current fee	Current fee—FY 2016/2017 Cost	FY 2018/ 2019 Fee-paying unit cost	Proposed fee	Proposed fee—FY 2019/ 2020 cost
N–300 Application to File Declaration of Intention	$840	$270	−$570	$1,111	$1,320	$209
N–336 Request for a Hearing on a Decision in Naturalization Proceedings (Under Section 336 of the INA)	1,294	700	−594	1,474	1,755	281
N–400 Application for Naturalization	871	640	−231	985	1,170	185
N–470 Application to Preserve Residence for Naturalization Purposes	792	355	−437	1,347	1,600	253
N–565 Application for Replacement Naturalization/Citizenship Document	399	555	156	458	545	87
N–600 Application for Certificate of Citizenship	841	1,170	329	853	1,015	162

[149] Recently, Congress encouraged USCIS ''to consider whether the current naturalization fee is a barrier to naturalization for those earning between 150 percent and 200 percent of the federal poverty guidelines, who are not currently eligible for a fee waiver.'' H. Rep. 115–948 at 61. Although USCIS considered this report in formulating this proposed rule, USCIS has determined that it is neither equitable, nor in accordance with the principle of self-sufficiency that Congress has frequently emphasized, to continue to force certain other applicants to subsidize fee-waived and reduced-fee applications for naturalization applicants who are unable to pay the full cost fee.

[150] See footnote 40.

[151] The proposed fee would increase the reimbursable agreement between USCIS and DOD by approximately $4 million. The current fees for Form N–400 ($640) and biometric services ($85) total $725 per military naturalization. In FY 2019/2020, USCIS forecasts 9,300 military naturalizations per year. Under the current fees, this would cost DOD $6,742,500 each year. With the proposed $1,170 Form N–400 fee (which includes the cost of biometrics), the same volume would cost $10,881,000, a $4,138,500 or approximately 61 percent increase.

[152] See the Model Output column of Appendix Table 4: Final Fees by Immigration Benefit Request in the docket of the FY 2016/2017 fee rule.

TABLE 13—NATURALIZATION FEE-PAYING UNIT COSTS (MODEL OUTPUT) AND FEES COMPARED—Continued

Immigration benefit request	FY 2016/2017 Fee-paying unit cost	Current fee	Current fee—FY 2016/2017 Cost	FY 2018/2019 Fee-paying unit cost	Proposed fee	Proposed fee—FY 2019/2020 cost
N–600K Application for Citizenship and Issuance of Certificate Under Section 322	841	1,170	329	806	960	154

The proposed fees for Form N–600, Application for Certificate of Citizenship, and Form N–600K, Application for Citizenship and Issuance of Certificate Under Section 322, are lower than the current fees. The current fee for both forms is $1,170. *See* 8 CFR 103.7(b)(1)(i)(EEE) and (FFF). In the previous fee rule, USCIS proposed and finalized a combined rate for both forms. DHS proposes separate fees for each, based on the estimated cost and operational metrics for each workload. *See* proposed 8 CFR 106.2(b)(6) and (7). USCIS used separate completion rates and fee-paying volumes for each proposed fee.

The proposed fee decrease for Forms N–600 and N–600K is mainly due to the effect of the proposed limitation of fee waivers, which will enable greater cost recovery for several form types and limit the need for cost reallocation to fee-paying applicants. As noted in the FY 2016/2017 fee rule, the current fees for Forms N–600 assumed that approximately one third of applicants would receive a fee waiver. *See* 81 FR 73928. To recover full cost, DHS set the N–600 and the N–600K fee at a level high enough for fee-paying applicants to cover the cost of fee-waived work. *Id.* Because fee waivers would be limited under this proposed rule, fee-paying Forms N–600 and N–600K would no longer need to cover the cost of adjudicating fee-waived Forms N–600 and N–600K.[153] The proposed fees provide for the full recovery of costs associated with adjudicating the forms. Therefore, DHS is proposing lower fees for Forms N–600 and N–600K. The proposed fee for Form N–600 is $1,015, a $155 or 13 percent decrease from the current $1,170 fee. *See* 8 CFR 103.7(b)(1)(i)(EEE); proposed 8 CFR 106.2(b)(6). The proposed fee for Form N–600K is $960, a $210 or 18 percent decrease from the current $1,170 fee. *See* 8 CFR 103.7(b)(1)(i)(FFF); proposed 8 CFR 106.2(b)(7). DHS welcomes comments on the proposed changes to naturalization and Certificate of Citizenship applications.

P. Asylum Fees

1. Fee for Form I–589, Application for Asylum and for Withholding of Removal

DHS proposes to establish a $50 fee for Form I–589, Application for Asylum and for Withholding of Removal, when that form is filed with USCIS (''affirmative asylum applications'').[154] *See* proposed 8 CFR 106.2(a)(20). The U.S. Government has never charged a fee for Form I–589, but rather has relied on other fee-paying benefit requestors to subsidize asylum seeking applicants. Application fees from other form types have always been used to fund the operations involved in processing asylum claims. *See, e.g.,* 81 FR 73295 and 73307. However, DHS has experienced a continuous, sizeable increase in affirmative asylum filings, and processing backlogs continue to grow. DHS is exploring ways to alleviate the pressure that the asylum workload places on the administration of other immigration benefits. A minimal fee would mitigate the fee increase of other immigration benefit requests.

Although the INA authorizes DHS to set fees ''at a level that will ensure recovery of the full costs of providing all such services, including the costs of similar services provided without charge to asylum applicants or other immigrants,'' INA sec. 286(m), 8 U.S.C. 1356(m), DHS proposes a $50 fee for Form I–589. The statutory authorization for fees allows, but does not require, imposition of a fee equal to the full cost of the services provided. Thus, DHS retains authority to impose asylum fees that are less than the estimated cost of adjudicating the applications. *See* INA sec. 208(d)(3), 8 U.S.C. 1158(d)(3).[155] In the FY 2019/2020 fee review, USCIS estimates that the cost of adjudicating Form I–589 is approximately $366. It represents the Asylum Division's salaries and Make Determination activity costs from the ABC model, which does not represent the full cost. It does not include estimated costs from any other Asylum Division activities or any other office within USCIS.[156] Therefore, the proposed $50 fee is in accord with INA section 208(d)(3), 1158(d)(3).[157]

To be clear, DHS is proposing a fee for a Form I–589 filed with DHS only. Whether the fee also will apply to a Form I–589 filed with EOIR is a matter within the jurisdiction of the Department of Justice rather than DHS, subject to the laws and regulations governing the fees charged in EOIR immigration proceedings. DHS also believes that the asylum fee may arguably be constrained in amount, but not prohibited, by the 1951 U.N. Convention Relating to the Status of Refugees (''1951 Convention'') and the 1967 U.N. Protocol Relating to the Status of Refugees (''1967 Protocol'').[158] The international treaty obligations of the United States under the 1951 Convention and the 1967 Protocol address the imposition of fees on individuals seeking protection, and

[153] See V.C.3., Proposed Fee Waiver Changes section of this preamble for more information.

[154] Affirmative asylum applications are distinguished from defensive asylum applications, which are filed in proceedings before an immigration judge. *See, e.g.,* 8 CFR 1240.11(c).

[155] This section states, ''The Attorney General may impose fees for the consideration of an application for asylum, for employment authorization under this section, and for adjustment of status under section 209(b). Such fees shall not exceed the Attorney General's costs in adjudicating the applications. The Attorney General may provide for the assessment and payment of such fees over a period of time or by installments. Nothing in this paragraph shall be construed to require the Attorney General to charge fees for adjudication services provided to asylum applicants, or to limit the authority of the Attorney General to set adjudication and naturalization fees in accordance with section 286(m).''

[156] The FY 2019/2020 fee review assigned Asylum Division projected costs into the following other activities: Conduct TECS Check; Fraud Detection and Prevention; Inform the Public; Intake; Management and Oversight; Records Management. See the fee review supporting documentation included in this docket for the definitions of these activities and other information.

[157] The Immigration and Naturalization Service (INS), the predecessor to USCIS, proposed implementing a waivable $130 fee for asylum in 1994. *See* 59 FR 62284 (Dec. 5, 1994). INS did not include a fee in the final rule. The proposed $130 fee would be approximately $222 if adjusted for inflation from December 1994 to June 2019.

[158] 1951 Convention relating to the Status of Refugees, *opened for signature* July 28, 1951, 19 U.S.T. 6259, 189 U.N.T.S. 137; 1967 Protocol relating to the Status of Refugees, *open for signature* Jan. 31, 1967, 19 U.S.T. 6223, 606 U.N.T.S. 267. Although the United States is not a signatory to the 1951 Convention, it adheres to Articles 2 through 34 of the 1951 Convention by operation of the 1967 Protocol, to which the United States acceded on Nov. 1, 1968.

limit ''fiscal charges'' to not higher than those charged to their nationals in similar situations. Accordingly, any fee charged would need to be reasonably aligned with the fees charged for other immigration benefit requests.[159] The proposed $50 fee is in accord with this provision.

This proposal is also consistent with a Presidential Memorandum directing the Attorney General and the Secretary of Homeland Security, as applicable, to take all appropriate actions to propose regulations setting a fee for an asylum application not to exceed the costs of adjudicating the application, as authorized by section 208(d)(3) of the INA (8 U.S.C. 1158(d)(3)) and other applicable statutes, and setting a fee for an initial application for employment authorization for the period an asylum claim is pending.[160]

Additionally, DHS considered the asylum fees charged by other nations. To determine the fiscal charges charged by other countries, USCIS requested a report from the Law Library of Congress on fees charged to asylum applicants by countries that are party to the 1951 Convention and/or its 1967 Protocol.[161] The Law Library of Congress surveyed the 147 signatory countries to the 1951 Convention and/or the 1967 Protocol, and of 147 countries, identified three countries that charge a fee for initial applications for asylum or refugee protection.[162] Those countries and amounts, provided in Table 14, indicate that the proposed $50 fee is in line with the fiscal charges charged by other countries.[163]

TABLE 14—ASYLUM FEES IN OTHER COUNTRIES

Country	Fee amount	Fee in USD	Notes
Australia	AUD 35	$25	No fee for a detained applicant.
Fiji	FJD 465	221	Allows for fee waivers.
Iran	IRR 12,321,000	293	For a family of 5 with some fee exemptions.

The projected FY 2019/2020 workload for Form I–589 is 163,000 annual receipts, or approximately 2 percent of the total USCIS workload forecast. The proposed $50 fee would generate an estimated $8.15 million in annual revenue. Therefore, in addition to alleviating pressure on the immigration benefit system, the proposed $50 fee for Form I–589 mitigates the proposed fee increase of other immigration benefit requests by approximately $5 or $10.

DHS is proposing no fee for an unaccompanied alien child (UAC) in removal proceedings who files Form I–589. The Trafficking Victims Protection Reauthorization Act (TVPRA) of 2000 provides for a range of protections for UACs as amended by the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008. Public Law 110–457, 122 Stat. 5044 (2008). A UAC is defined by statute as a child who is less than 18 years old, has no legal status in the U.S., and has no parent or legal guardian in the U.S. who is available to provide care and physical custody. 6 U.S.C. 279(g)(2). Among other provisions, the TVPRA gives USCIS initial jurisdiction over asylum claims filed by UACs, even by those who are in removal proceedings before EOIR such that their asylum applications would otherwise be within the jurisdiction of an immigration judge. Section 235(d)(7)(B) of the TVPRA, as codified at 8 U.S.C. 1158(b)(3)(C), provides that ''[a]n asylum officer . . . [in the U.S. Citizenship and Immigration Services' (''USCIS'') Asylum Division] . . . shall have initial jurisdiction over any asylum application filed by an unaccompanied alien child.'' In accordance with the statute governing asylum applications filed by UACs, they may file their Form I–589 with USCIS, even if they are in removal proceedings and their asylum claims are thus asserted as a defense to removal. Consistent with the protections provided to UACs by the TVPRA, and to avoid undue delay for this vulnerable population by impeding UACs in removal proceedings from filing a Form I–589, DHS proposes to exclude them from the proposed fees. A UAC who is not in removal proceedings will be charged the same proposed $50 Form I–589 fee as other affirmative filers.

As discussed in section V.C. of this preamble on fee waivers, DHS proposes that the $50 Form I–589, Application for Asylum and Withholding of Removal, fee will not be waivable. The proposed $50 fee would generate an estimated $8.15 million in annual revenue. If DHS permits fee waiver requests, it assumes that the costs of administering the fee waiver request review process may exceed the revenue, thereby offsetting any cost recovery achieved from the fee. Therefore, DHS proposes that the $50 Form I–589 fee is mandatory. DHS acknowledges that an alien who is not placed in removal proceedings will have no means of applying for recognition as a person in need of refugee protection and its attendant benefits such as asylum or withholding-based employment authorization, travel documents, or documentation of immigration status, if they do not pay the proposed $50 fee.[164] That is why although INA section 208(d)(3), 8 U.S.C.

[159] To the extent that the asylum application fee may arguably be considered to be a ''fiscal charge'' for purposes of Article 29(1) of the 1951 Convention Relating to the Status of Refugees—as incorporated by reference in the 1967 Protocol Relating to the Status of Refugees—the proposed $50 fee would be in accord with that provision, which limits ''fiscal charges'' charged to refugees to an amount not higher than those charged by the United States to U.S. nationals in similar situations. The proposed $50 fee would be reasonably aligned with the fees charged to U.S. nationals for other immigration benefit requests. And Congress, as evidenced by the express authority conferred in INA section 208(d)(3), clearly does not believe that charging a fee for asylum applications would run contrary to U.S. obligations under the 1967 Protocol. *See also INS* v. *Stevic,* 467 U.S. 407, 428 n.22 (1984) (describing provisions of the Convention and Protocol as ''precatory and not self-executing'').

[160] *See* Presidential Memorandum on Additional Measures to Enhance Border Security and Restore Integrity to Our Immigration System (Apr. 29, 2019), available at *https://www.whitehouse.gov/presidential-actions/presidential-memorandum-additional-measures-enhance-border-security-restore-integrity-immigration-system/* (last visited Aug. 6, 2019).

[161] *See* Library of Congress, *Fees Charged for Asylum Applications by States Parties to the 1951 Refugee Convention* (Dec. 29, 2017), *https://www.loc.gov/law/help/asylum-application-fees/index.php*.

[162] Additionally, while it does not charge a fee for making a claim for refugee or protection status, New Zealand typically grants individuals a ''Refugee Claimant Visitor Visa'' while claims are processed and charges for that visa (although that fee may be waived). Canada does not charge for making a claim of protection, but does charge for obtaining proof of permanent protection.

[163] Exchange rates as of June 30, 2019. *See* Department of the Treasury, Bureau of Fiscal Service, *Treasury Reporting Rates of Exchange: Current Rates* (Aug. 14, 2019), *https://www.fiscal.treasury.gov/reports-statements/treasury-reporting-rates-exchange/current.html*.

[164] *See, e.g.,* 1951 Refugee Convention Art. 27 (''The Contracting States shall issue identity papers to any refugee in their territory who does not possess a valid travel document.''), Art. 28(1) (''The Contracting States shall issue to refugees lawfully staying in their territory travel documents for the purpose of travel outside their territory, unless compelling reasons of national security or public order otherwise require . . . .'').

1158(d)(3) expressly authorizes charging a fee up to the full cost of providing the service, DHS is proposing a fee of $50 instead of at the level permitted under the INA to recover costs. In addition, DHS does not want the inability to pay the fee to be an extraordinary circumstance excusing an applicant from meeting the one-year filing deadline in INA 208(a)(2)(B), (D). *See also* 8 CFR 208.4(a)(5)(v) (''extraordinary circumstances'' includes situations in which the alien filed the Form I–589 prior to 1-yr deadline but application was returned as not properly filed, and then alien refiled within reasonable period thereafter). DHS considered the authority provided in INA section 208(d)(3), including that the fee be paid in installments or over time, various fee amounts and decided to propose $50 because it could be paid in one payment, would not require an alien an unreasonable amount of time to save, would generate some revenue to offset costs, discourage frivolous filings, and not be so high as to be unaffordable to even an indigent alien. DHS welcomes comments on the imposition of this fee, including the amount and whether it should be waivable.

2. Fee for the Initial Application for Employment Authorization While an Asylum Claim Is Pending

DHS proposes to require applicants who have applied for asylum or withholding of removal before EOIR (defensive asylum) or filed Form I–589 with USCIS (affirmative asylum), to pay the fee for initial filings of Form I–765. Currently, USCIS exempts applicants with pending asylum applications who are filing their first EAD application under the 8 CFR 274a.12(c)(8) eligibility category from the Form I–765 fee if the applicant submits evidence of an asylum application and follows other instructions.[165] Applicants with pending claims of asylum pay the fee for EAD renewal and replacement, per Form I–765 instructions and pursuant to 8 CFR 274a.12(c)(8).[166] USCIS projects that this change will require approximately 300,000 asylum applicants to pay the Form I–765 fee each year. USCIS will continue to require the fee for renewal EADs.

Initial applicants with pending claims of asylum are approximately 13 percent of the total Form I–765 workload volume forecast. Continuing to exempt this population from paying the Form I–765 fee would further increase the proposed fee. If DHS exempts initial applicants with pending claims of asylum, then the proposed fee would be $500 instead of $490, meaning fee-paying EAD applicants would pay $10 to fund the cost of EADs for asylum applicants. Therefore, DHS proposes that initial applicants with pending asylum claims pay a $490 Form I–765 fee in order to keep the fee lower for all fee-paying EAD applicants. All other noncitizens applying for employment authorization are required to pay fees. *See* 8 CFR 274a.13. DHS notes that INA section 208(d)(3), 8 U.S.C. 1158(d)(3), seems to limit the amount that can be charged for employment authorization for an asylum applicant where it states, ''Such fees shall not exceed the Attorney General's costs in adjudicating the applications.'' However, section 208(d)(3) also states, ''Nothing in this paragraph shall be construed to require the Attorney General to charge fees for adjudication services provided to asylum applicants, or to limit the authority of the Attorney General to set adjudication and naturalization fees in accordance with section 1356(m) of this title.'' That sentence permits DHS to charge asylum applicants the same fee for employment authorization that it charges all others for employment authorization because we calculate the proposed fee for the Form I–765, Application for Employment Authorization Document, using the fee-setting methodology outlined in this rule in accordance with INA sec. 286(m), 8 U.S.C. 1356(m). The proposed EAD fee ensures asylum applicants will pay no more for an EAD than any other EAD applicant except those for whom the fee has been waived. Therefore, the fee for Form I–765 proposed to be charged to asylum applicants complies with section 208(d)(3).

Q. DACA Renewal Fees

DHS proposes to add a fee for Deferred Action on Childhood Arrivals (DACA) renewal requests. *See* proposed 8 CFR 106.2(a)(38). Currently, DACA requestors use Form I–821D, Consideration of Deferred Action for Childhood Arrivals, for DACA renewal requests. Form I–821D currently has no fee. However, DACA requestors must pay the current fees of $410 and $85 for Form I–765 and biometrics services, respectively, which total $495 and may not be waived, although currently there are very limited circumstances where a fee exemption may be granted under DACA policy criteria. The proposed Form I–821D filing fee for renewal DACA requests is $275.[167] [168] This proposed filing fee for Form I–821D includes the cost of biometric services. Under the proposal, DACA requestors would still need to pay the filing fee for Form I–765 unless they qualify for an exemption, as provided through policy.[169] The proposed Form I–821D fee to request DACA renewal, plus the EAD fee, is $765. DHS proposes that DACA fees may not be waived, consistent with its current policy. One of the focuses of DACA when it was launched in 2012 is that the processing of DACA requests, including associated applications for employment authorization, does not result in an economic drain on DHS resources. Therefore, DHS set a standard for the exemption from the Form I–765 fee for DACA requests in a manner that balances the needs of the most vulnerable population likely to request DACA against USCIS' fiscal requirements for implementing the DACA initiative. A DACA requestor who requested Form I–765 fee exemptions faced significant delays in adjudicating the deferred action and the EAD request. Requests for DACA renewal will come from individuals who have had authorization to work lawfully in the U.S. for up to two years

[165] This fee exemption is provided in the Instructions to Form I–765, *Application for Employment Authorization,* by the USCIS Director or Deputy Director under the authority in 8 CFR 103.7(d); *see also* 8 CFR 274a.13(a)(applicants for EADs may be required to apply on a designated form and pay fees in accordance with form instructions).

[166] Class members subject to the settlement agreement under *American Baptist Churches* v. *Thornburgh,* 760 F. Supp. 796 (N.D. Cal. 1991), will be charged the fee generally applicable to employment authorization applications as proposed in this rule. The revised form instructions for Form I–765, Application for Employment Authorization, provide that class members may request that their fee be waived, as required by that agreement using the authority in proposed 8 CFR 106.3(d).

[167] Currently, DHS may also accept a limited number of requests from individuals who previously received DACA but whose most recent DACA grant expired before September 5, 2017 or was terminated at any time. Although these requests are filed as initial DACA requests because the individual is no longer eligible to file a renewal request under longstanding DACA policy, these requests would be subject to the proposed fee for renewal requests because two nationwide preliminary injunctions currently require USCIS to allow anyone who previously received DACA to request additional periods of deferred action and employment authorization.

[168] DHS does not propose to introduce a fee for Form I–821D initial DACA requests because USCIS does not currently accept such requests, except as described in footnote 167 above, or plan to accept them in the future. Should USCIS be required to accept initial DACA requests in the future, DHS would charge requestors the proposed $30 biometrics fee, because biometrics costs associated with these requests would not be recovered via the application fee of $0.

[169] *See* USCIS, Frequently Asked Questions, *https://www.uscis.gov/archive/frequently-asked-questions* (last reviewed/edited March 8, 2018).

and DHS assumes that these individuals will have found work and are currently working. Therefore, DHS proposes a consistent policy and will require the Form I–765 fee for DACA renewal.

TABLE 15—CURRENT AND PROPOSED DACA RENEWAL FEES COMPARED

DACA renewal request fees	Current fees	Proposed fees	Difference	Percentage difference
I–765 Application for Employment Authorization	$410	$490	$80	20%
I–821D Consideration of Deferred Action for Childhood Arrivals (Renewal)	0	275	275	N/A
Biometric Services	85	N/A	N/A	N/A
Total DACA Fees (Renewal)	495	765	270	55

The proposed Form I–821D fee does not include cost reallocation.[170] In other words, it does not recover any of the cost for workload without fees or with reduced fees. As such, the DACA workload in the proposed Form I–765 does not recover the projected costs of workload without fees or with fees below projected full cost. DHS proposes to not assign cost reallocation to the Form I–821D fee to mitigate the fiscal risk of relying on revenue from DACA in the event the DACA policy is ended in the future. However, the non-DACA related workload for Form I–765 does include cost reallocation. The Form I–765 proposed fee would be higher if both DACA and non-DACA workload included cost reallocation of workload without fees or with fees below projected full cost.

In September 2017, DHS rescinded the 2012 DACA memo and initiated a plan to wind down the policy, while opting not to terminate DACA and EADs for individuals who had a previously approved DACA request, based solely on the rescission. At present, however, DHS is operating under two nationwide preliminary injunctions issued by federal district courts in California (*Regents of University of California* v. *DHS,* No. 17–cv–05211 (N.D. Cal.)) and New York (*State of New York* v. *Trump,* No. 17–cv–05228 (E.D.N.Y.)). These injunctions require DHS to ''maintain the DACA program on a nationwide basis on the same terms and conditions as were in effect before the rescission on September 5, 2017.'' Under these injunctions, DHS is not required to accept DACA requests from individuals who have not previously been granted DACA and is not required to accept DACA-based advance parole applications. The District Court for the District of Columbia also vacated DHS's rescission of DACA and ordered the government to accept initial DACA requests and resume accepting DACA-based advance parole applications. However, the court then ordered a limited stay of its order to preserve the status quo pending appeal. *Trustees of Princeton University* v. *United States,* No. 1:17–cv–2325 (D.D.C.), consolidated with *NAACP* v. *Trump,* No. 17–cv–01907 (D.D.C.). Additionally, the U.S. Court of Appeals for the Fourth Circuit issued a decision that vacated the DACA rescission as arbitrary and capricious and remanded the case for further proceedings, reversing a ruling by the District Court for the District of Maryland. However, the Fourth Circuit subsequently stayed issuance of the mandate pending resolution of the Government's petition for writ of certiorari. *See Casa de Maryland* v. *DHS,* Nos. 18–1521–L; 18–1522 (4th Cir. 2019). Therefore, USCIS is currently required to continue accepting and adjudicating DACA requests from individuals who have previously been granted DACA, but is not required to accept requests from other individuals, or applications for DACA-based advance parole. DHS plans to file a request with the subject courts to allow DHS to implement all of the changes proposed in this rule to the extent that they may affect past, current, or future DACA recipients.

Currently, individuals who request deferred action under DACA do so without paying a fee that recovers the full cost to adjudicate such requests. Therefore, other applicants, petitioners, and requestors ultimately bear the burden to cover the full cost of DACA adjudications. While the DHS request for the courts to approve the effects of this proposed rule on DACA are pending, DHS publishes this NPRM for public comment on the proposed DACA fees. If any of the courts deny DHS's request to impose new DACA fees, then Form I–821D fees will be removed before the final rule is adopted and the costs of administering DACA will be reallocated to fee-paying immigration benefit requests. As such, the fee for Form I–765 may increase. Refer to section *VII. Other Possible Fee Scenarios* for additional information regarding potential fees with and without a fee for Form I–821D.

R. Fees Shared by CBP and USCIS

DHS combined the estimated cost and volume information for USCIS and CBP in the proposed fees for several immigration benefit requests that both components adjudicate. This affects the proposed fees for the following immigration benefit requests:

- Form I–192, Application for Advance Permission to Enter as a Nonimmigrant.
- Form I–193, Application for Waiver of Passport and/or Visa.
- Form I–212, Application for Permission to Reapply for Admission into the U.S. after Deportation or Removal.
- Form I–824, Application for Action on an Approved Application or Petition.

USCIS calculated proposed fees using the same methodology as other proposed fees and then added information from CBP into the ABC model. CBP provided revenue collections from FY 2014 to FY 2017 for these immigration benefit requests. We divided the revenue collections by the fee for each immigration benefit request to derive the fee-paying volume for each immigration benefit request. CBP estimates the total cost for Forms I–192 and I–193 as part of its statement of net cost, leveraging the same software that USCIS uses for the ABC model.[171] CBP does not estimate the total cost of Forms I–212 or I–824. Dividing CBP's total costs by fee-paying volume can determine a fee-paying unit cost, and ultimately, fees for Forms I–192 and I–

[170] *See* section IV.B.3. Assessing Proposed Fees for more information.

[171] USCIS uses commercially available activity-based costing software, SAP Business Objects Profitability and Cost Management, to create financial models to implement activity-based costing (ABC), as described in the Methodology section of this preamble and the supporting documentation in the docket for this proposed rule.

193. Table 16 summarizes the CBP cost estimates, derived fee-paying volumes, and estimated unit costs.

estimates, derived fee-paying volumes, and estimated unit costs.

TABLE 16—CBP FY 2017 ESTIMATED COSTS AND VOLUMES

Form	Estimated cost	Derived fee-paying volume	Estimated fee-paying unit cost
I–192	$2,154,502	6,557	$329
I–193	17,951,942	7,613	2,358
I–212	N/A	232	N/A
I–824	N/A	103	N/A

USCIS incorporated the total costs and derived fee-paying volume for the respective CBP workloads into the ABC model. The proposed fees represent single DHS fees for each of these workloads by combining the estimated costs and fee-paying volumes of USCIS and CBP. DHS believes that a single fee for each of these shared workloads will reduce confusion for individuals interacting with CBP and USCIS.

S. 9–11 Response and Biometric Entry-Exit Fee for H–1B and L–1 Visas

In 2010 Congress enacted new fees for certain H–1B or L petitioners. *See* Public Law 111–230, sec. 402.[172] USCIS concluded at that time that the statutory language in section 402 of Public Law 111–230 was ambiguous and required it to interpret the statute and determine the full extent to which the fee would apply. In particular, the statute referred to the filing fee and fraud prevention and detection fee required to be submitted with an application for admission, but it was otherwise silent regarding petitions for H–1B or L classification or for requests for a change of status or extension of stay for beneficiaries who were already admitted into the United States. USCIS interpreted the statute's ambiguity to apply the fees to petitions for H–1B or L–1 classification when the fraud fee was otherwise required because the statutory language referred to these fees as being collected in addition to the already extant filing and fraud prevention and detection fees. USCIS, therefore, implemented these fees as applying only when the fraud fee was otherwise collected, in accordance with section 214(c)(12) of the INA, 8 U.S.C. 1184(c)(12); that is, with respect to petitions for an initial grant of status or requesting a change of employer, but not to extension petitions filed by the same employer on behalf of the same employee. The Public Law 111–230 fee sunset on September 30, 2015.

In section 402(g) of Div. O of the Consolidated Appropriations Act, 2016 (Public Law 114–113) [173] enacted December 18, 2015, Congress reenacted and doubled these fees, effective immediately through September 30, 2025.[174] Although otherwise identical to the earlier Public Law 111–230 statutory language except for the relevant dates and dollar amounts,[175] Congress added new phrasing at two places, in pertinent part: ''. . . the *combined* filing fee and fraud prevention and detection fee required to be submitted with an application for admission [as an H–1B or L], *including an application for an extension of such status,* shall be increased . . .'' (emphasis added). There is no known legislative history about the Public Law 114–113 fees before enactment.

USCIS again concluded that the language in Public Law 114–113, as in the previous statute, was ambiguous and therefore USCIS had to determine whether the fee applied to all extension petitions by covered employers, or just those for which the fraud fee was also charged (extension of stay with change of employer).[176] The first reading would be a significant new substantive expansion of the fees compared to the 2010–2015 interpretation; the latter would be consistent with the scope of the fees charged during that earlier period (although in the higher amounts provided by the new provision). In the absence of specific legislative history elucidating the intent of the statutory changes, and given the continued ambiguity of the statute (specifically the reference to the ''combined filing fee ($4,000 for H–1B and $4,500 for L–1 respectively) and fraud prevention and detection fee ($500) required to be submitted''), USCIS interpreted the Public Law 114–113 fee to similarly apply only when the fraud fee described in section 214(c)(12) of the INA, 8 U.S.C. 1184(c)(12), is also required and issued guidance accordingly.[177]

The construction of the statutory ambiguity USCIS adopted in 2015 was not, however, the only reasonable one.

[172] Public Law 111–230 required the submission of an additional fee of $2,000 for certain H–1B petitions and $2,250 for certain L–1A and L–1B petitions. These additional fees, similar to the subsequently enacted fees under Public Law 114–113, applied to petitioners who employ 50 or more employees in the United States with more than 50 percent of its employees in the United States in H–1B or L–1 nonimmigrant status.

[173] Section 402(g) of Div. O of Public Law 114–113 added a new section 411 to the Air Transportation Safety and System Stabilization Act, 49 U.S.C. 40101 note. Section 411 provided that the fees collected thereunder would be divided 50/50 between general Treasury and a new ''9–11 Response and Biometric Exit Account'', until deposits into the latter amounted to $1 billion, at which point further collections would go only to general Treasury. Deposits into the 9–11 account are available to DHS for a biometric entry-exit screening system as described in 8 U.S.C. 1365b.

[174] This sunset date was extended another two years, until September 30, 2027, by section 30203 of Public Law 115–123 (Feb. 9, 2018).

[175] The new provision's ''notwithstanding section 281 of the Immigration and Nationality Act (8 U.S.C. 1351) or any other provision of law'' clause, unlike the 2010 enactment, expressly referred to sec. 281 of the INA, but this difference made no legal difference in the scope of the clause, as that clause is not meaningfully different from ''Notwithstanding any other provision of this Act or any other provision of law'' clause in Public Law 111–230 sec. 402.

[176] In enacting the new statute, Congress used the same wording of the previous statute, with the addition of the words ''combined'' and ''including an application for an extension of such status.'' Because Congress can be assumed to have been aware of the agency's interpretation of the previous statute, USCIS concluded, as an initial matter, that Congress added the phrase ''including an application for an extension of such status'' to clarify that the new fees not only apply to initial petitions for H–1B or L classification, but also in extension of stay cases. However, it was not clear whether Congress meant the new fees to apply to *all* extension of stay requests (a substantive change) or just a certain subset of cases, meaning, those involving an initial petition by a new employer on behalf of an individual already in H–1B or L–1 status who is seeking an extension of stay (a clarification). Further, the fact that Congress not only also included the specific reference to the fraud fee, but in fact reinforced the significance of that reference by inserting the word ''combined,'' made ambiguous whether Congress intended the fee to apply to all extension cases or just those that required the fraud fee.

[177] *See* ''Fee Increase for Certain H–1B and L–1 Petitions (Pub. L. 114–113)'' at *https://www.uscis.gov/working-united-states/temporary-workers/fee-increase-certain-h-1b-and-l-1-petitions-public-law-114-113* (last reviewed/updated Feb. 20, 2018).

Another reasonable interpretation is that the Public Law 114–113 fee applies to all extension of stay petitions even when the fraud fee is not applicable. Under this alternative interpretation, the language ''including an application for an extension of such status'' is a substantive amendment, and the insertion of the word ''combined'' is a clarifying one. It is plausible that Congress added the reference to extension of status so that the fee would be collected for all extension of stay petitions, not just those where a change of employer is also requested. In that case, the insertion of the word ''combined'' can be viewed as a clarifying edit that the increase to the fee is applied only once per petition and not once for the filing fee and once for the fraud fee such that it might apply two times for some petitions. Furthermore, when the fraud fee does not apply, the ''combined'' fee is simply the filing fee plus $0. This interpretation would give meaning to all the alterations to the earlier statute.

DHS has reexamined this matter and believes that this second, alternative interpretation of Public Law 114–113 would be most consistent with the goal of the statute to ensure employers that overly rely on H–1B or L nonimmigrant workers' pay an additional fee by making the fee applicable to all petitions by employers that meet the statute's 50 employee/50 percent test, regardless of whether or not the fraud fee also applies.[178] In other words, the fee should apply to all H–1B or L–1 petitions, whether for new employment or an extension of stay. DHS thus proposes to amend and clarify the regulations at new 8 CFR 106.2(c)(8) and (9)—currently 8 CFR 103.7(b)(1)(i)(III) and (JJJ)—to specify that this fee will apply to all H–1B and L–1 extension petitions in addition to all previously covered H–1B and L–1 petitions. The regulation would clarify that this includes individual L–1 petitions (Form I–129S) filed on the basis of a previously approved ''blanket L'' petition, but it does not apply to amended petitions filed by employers with respect to its employee that do not request an extension of stay. The amended regulation would also update the sunset date for the provision from September 30, 2025 to September 30, 2027, as provided in Public Law 115–123. It would further provide for alternative fee amounts or sunset dates in case Congress changes them by a subsequently enacted law.

Beyond the above, various policy reasons support this change in DHS's implementation of the Public Law 114–113 fee provision. Fee collections under the provision are applied towards the important purposes of (1) funding the 9–11 Response and Biometric Fee Exit Account to be used for a biometric entry-exit screening system; and (2) deficit reduction and other public purposes funded by general Treasury revenues. Collections have fallen well short of projections. In its report on the fee provision in Public Law 114–113, the Congressional Budget Office (CBO) estimated annual revenues of $420 million per year (except for $380 million in the first year of FY 2016) from these fees through their lifespan.[179] However, collections for FY 2016 ($158 million), 2017 ($125 million), and 2018 ($119 million) totaled only about $402 million. DHS believes that collections have fallen short of the CBO projections mainly because of the USCIS construction of the statutory provision to exclude extension petitions except when filed to facilitate a change of employer. DHS proposes to reduce this shortfall and better achieve the funding aims of the statute through increased collections of these fees in the future.

T. Form I–881, Application for Suspension of Deportation or Special Rule Cancellation of Removal (Pursuant to Section 203 of Public Law 105–100 (NACARA))

DHS proposes to adjust the fee for Form I–881, Application for Suspension of Deportation or Special Rule Cancellation of Removal (Pursuant to Section 203 of Pub. L. 105–100 (NACARA)). The IEFA fees for this application have not changed since 2005. The proposed fees more accurately reflect USCIS' estimated costs associated with adjudicating the application. Additionally, DHS proposes to combine the current multiple fees into a single Form I–881 fee in effort to reduce administrative burden.

INS implemented two fees for this benefit request in 1999. *See* 63 FR 64895 (Nov. 24, 1998) (proposed rule) and 64 FR 27856 (May 21, 1999) (interim final rule). The two IEFA fees were $215 for an individual and $430 as a maximum per family. *See* 64 FR 27867–8. EOIR collected a separate $100 fee. *Id.* INS used ABC to determine the proposed IEFA fees. *See* 63 FR 64900. The IEFA NACARA fees have only changed by inflation since creation of the NACARA program. *See* 69 FR 20528 (Apr. 15, 2004) and 70 FR 56182 (Sept. 26, 2005). The current fees are as follows:

1. $285 for individuals,
2. $570 maximum for families, and
3. $165 at EOIR, whether an individual or family.

In FY 2018, the fees generated approximately $142,000 in IEFA revenue, when approximately 98 percent of applicants paid the $285 fee. EOIR provided receipt information for FY 2016 to FY 2018. EOIR received 339 applications in FY 2016, 326 in FY 2017, and 277 in FY 2018. DHS proposes no changes to the EOIR fee.

In prior fee rules, DHS has not changed the Form I–881 fees. *See* 72 FR 29854, 75 FR 58964, and 75 FR 73312. It excluded this immigration benefit request from previous fee rules, essentially treating it like other temporary programs or policies such as TPS and DACA. *See* 81 FR 73312. DHS expects the population will be exhausted eventually due to relevant eligibility requirements. *Id.*

DHS proposes a single $1,800 fee for any Form I–881 filed with USCIS. *See* proposed 8 CFR 106.2(a)(41). USCIS does not have systems in place that can track the different adjudicative level of effort required between Form I–881 applications by an individual compared to a family. Regardless, DHS does not have any policy reasons that would justify charging a separate fee for a small population that will soon be exhausted. Additionally, removing the distinction will simplify USCIS' revenue collections and reporting, thus reducing the administrative burden of the program.

USCIS forecasts an average of 340 annual Form I–881 receipts in the FY 2019/2020 biennial period. Current USCIS fees would generate approximately $100,000 in IEFA revenue. The proposed single fee of $1,800 would generate approximately $612,000 in revenue and slightly mitigate the proposed fee increase of other immigration benefit requests.

U. Miscellaneous Technical and Procedural Changes

DHS proposes several technical or procedural changes. This rule moves the fee regulations for USCIS to a separate part of Chapter I of Title 8 of the Code

[178] USCIS counts all full-time and part-time employees when determining whether an employer must pay this fee. H–1B and all L–1 employees are combined in the counting to determine if the 50% threshold is met to trigger the fee. See *https://www.uscis.gov/working-united-states/temporary-workers/fee-increase-certain-h-1b-and-l-1-petitions-public-law-114-113.* DHS is adding the words ''in the aggregate'' to proposed 8 CFR 106.2(c)(8) and (9) to clarify its interpretation and how employees would be counted, consistent with current practice, to determine if this additional fee is required.

[179] *See* CBO Cost Estimate, H.R. 2029 Amendment #1 (2016 Omnibus), table 3 at sec. 402, *https://www.cbo.gov/sites/default/files/114th-congress-2015-2016/costestimate/hr2029amendment1divisionsa.pdf* (Dec. 16, 2015).

of Federal Regulations. It moves them from 8 CFR part 103 to 8 CFR part 106 in an effort to reduce the length and density of part 103 as well as to make it easier to locate specific fee provisions. In addition to the renumbering and redesignating of paragraphs, this rule has reorganized and reworded some sections to improve readability.

DHS proposes to remove some redundant text and consolidate USCIS fee requirements. For example, some regulations erroneously specified that USCIS will not accept personal checks.[180] *See, e.g.,* 8 CFR 245a.2(e)(3), 245a.3(d)(3), and 245a.4(b)(5)(iii). DHS proposes to remove the erroneous or redundant text and instead refer to consolidated fee requirements in 8 CFR 106.1. *See* proposed 8 CFR 106.1, 245a.2(e)(3), 245a.3(d)(3), and 245a.4(b)(5)(iii).

DHS proposes to revise 8 CFR 214.2(p)(2)(iv)(F) to incorporate statutory changes that have occurred after 8 CFR 214.2(p)(2)(iv)(F) was codified and to conform this regulatory language to longstanding practice that allow petitions for multiple P nonimmigrants. Specifically, DHS proposes to add a reference to ''team'' in 8 CFR 214.2(p)(2)(iv)(F) to account for INA section 214(c)(4)(G), 8 U.S.C. 1184(c)(4)(G) (''The Secretary of Homeland Security shall permit a petition under this subsection to seek classification of more than 1 alien as a nonimmigrant under section 1101(a)(15)(P)(i)(a) of this title''), which was added in 2006 and mandates DHS to allow a petitioner to include multiple P–1A athletes in one petition.[181] DHS also proposes to delete ''seeking classification based on the reputation of the group as an entity'' from 8 CFR 214.2(p)(2)(iv)(F) because certain athletic teams applying for P–1 nonimmigrant classification and groups applying for P–2 or P–3 nonimmigrant classification are not necessarily required to establish reputation of the team or group as an entity. *Id.*

DHS proposes to update regulations regarding adjustment of status under INA section 245(i), 8 U.S.C. 1255(i), commonly referred to as the Legal Immigration Family Equity (LIFE) Act. The current regulations are inconsistent with Form I–485 instructions. DHS proposes to refer to the current form instructions and supporting evidence requirements. *See* proposed 245a.12(d). DHS also proposes to remove outdated requirements for passport photos, biographic and biometric information. *See* proposed 8 CFR 245a.12(d), (d)(2), and (d)(4). In the past, USCIS required applicants and beneficiaries to submit a fingerprint form or biographic information with benefit requests. Currently, USCIS collects biometric data at Application Support Centers.

DHS proposes to change outdated references to the Missouri Service Center, now named the National Benefits Center.[182] *See* proposed 8 CFR 245a.12(b) and (c); 245a.13(e) and (e)(1); 245a.18(c)(1); 245a.19(a); and 245a.33(a) and (b). The National Benefits Center (NBC) performs centralized front-end processing of applications and petitions that require field office interviews (primarily, Forms I–485 and N–400). In addition, the NBC adjudicates some form types to completion, including but not limited to intercountry adoption cases and immigration benefits associated with the LIFE Act. The old name is why some receipt notices for the NBC begin with the letters ''MSC'' instead of ''NBC.''

DHS also proposes to amend the title of 8 CFR part 103 to make it more descriptive of its contents. *See* proposed 8 CFR part 103. The current title of part 103 is IMMIGRATION BENEFITS; BIOMETRIC REQUIREMENTS; AVAILABILITY OF RECORDS. Part 103 contains several significant requires for filing requests, forms and documents with USCIS, especially in 8 CFR 103.2, which should be made more clear to the users of that part. Therefore, DHS proposes to revise the title of the part to include a reference to filing requirements. The proposed title is, ''PART 103—IMMIGRATION BENEFIT REQUESTS; USCIS FILING REQUIREMENTS; BIOMETRIC REQUIREMENTS; AVAILABILITY OF RECORDS.''

In addition, DHS is proposing a severability provision in new 8 CFR part 106. DHS believes that the provisions of each new part function sensibly independent of other provisions. However, to protect the goals for which this rule is being proposed DHS is codifying our intent that the provisions be severable so that, if necessary, the regulations can continue to function without a stricken provision. Proposed 8 CFR 106.6.

VI. Proposed Fee Adjustments to IEFA Immigration Benefits

Projected USCIS costs for FY 2019 and 2020 exceed projected revenue by an average of $1,262.3 million each year. Therefore, DHS proposes to adjust the fee schedule to recover the full cost of processing immigration benefit requests and to continue to maintain or improve current service delivery standards.

After resource costs are identified, the ABC model distributes them to USCIS' primary processing activities. Table 17 outlines total IEFA costs by activity.

TABLE 17—PROJECTED IEFA COSTS BY ACTIVITY

[Dollars in millions]

Activity	FY 2019	FY 2020	FY 2019/2020 average
Conduct TECS Check	$139.7	$148.6	$144.2
Direct Costs	59.6	60.7	60.1
Fraud Detection and Prevention	335.8	378.7	357.3
Inform the Public	402.0	422.8	412.4
Intake	135.5	138.6	137.1
Issue Document	71.1	72.6	71.9
Make Determination	1,644.3	1,753.5	1,698.9
Management and Oversight	1,148.7	1,169.8	1,159.2
Perform Biometrics Services subtotal	222.8	228.3	225.6
Manage Biometric Services	67.8	70.4	69.1
Collect Biometric Data	81.6	83.1	82.4
Check Fingerprints	34.6	35.3	34.9

[180] For additional information on how to pay USCIS filing fees, see USCIS, *Paying USCIS Fees* available at, *https://www.uscis.gov/forms/paying-uscis-fees* (last reviewed/updated Feb. 14, 2018).

[181] *See* Public Law 109–463, 120 Stat. 3477 (2006).

[182] USCIS, *National Benefits Center: What It Is and What It Does* available from, *https://www.uscis.gov/archive/blog/2012/06/national-benefits-center-what-it-is-and* (released June 5, 2012).

TABLE 17—PROJECTED IEFA COSTS BY ACTIVITY—Continued

[Dollars in millions]

Activity	FY 2019	FY 2020	FY 2019/2020 average
Check Name	38.8	39.6	39.2
Records Management	349.6	358.8	354.2
Research Genealogy	2.0	2.0	2.0
Systematic Alien Verification for Entitlements	47.0	48.3	47.7
Total IEFA Costs	4,558.1	4,782.9	4,670.5

Next, the ABC model distributes activity costs to immigration benefit requests. Table 18 summarizes total revenue by immigration benefit request based on the proposed fee schedule.

TABLE 18—PROJECTED FY 2019/2020 AVERAGE ANNUAL REVENUE PER IMMIGRATION BENEFIT WITH PROPOSED FEES

[Dollars in millions]

Immigration benefit request	Revenue forecast
I–90 Application to Replace Permanent Resident Card	$283.33
I–102 Application for Replacement/Initial Nonimmigrant Arrival-Departure Document	3.51
I–129 Petition for a Nonimmigrant Worker Subtotal	330.30
I–129H1B—Named Beneficiaries	237.05
I–129H2A—Named Beneficiaries	3.41
I–129H2B—Named Beneficiaries	1.64

VII. Other Possible Fee Scenarios

Subject to certain limitations, the fees that DHS proposes in this rule may change in the subsequent final rule based on policy decisions, in response to public comments, intervening legislation, and other changes. DHS will explain any changes between the proposed and final fees. Nevertheless, DHS notes that the content of a final rule, beyond public comments and policy modifications, appreciably depends on two factors that are to some extent beyond its control. As previously described, this rule includes a proposed DACA renewal fee associated with Form I–821D. See section V.Q. DACA Fees of this preamble. However, DHS is currently operating under two nationwide preliminary injunctions to maintain the DACA policy. DHS is not currently accepting initial DACA requests, except in limited circumstances.[186] USCIS evaluated separate DACA initial and renewal fees in case that changes. Additionally, the proposed fees include USCIS funding $207.6 million of ICE expenses associated with adjudication and naturalization services in both FY 2019 and FY 2020. See section IV.A.1.a. Use IEFA Fee Collections to Fund ICE Activities of this preamble. Any combination of those proposals may not materialize because DHS must obtain relief from the DACA preliminary injunctions. This rule also proposes the transfer of IEFA funds to ICE consistent with the Administration's budget requests for fiscal years 2019 and 2020. If Congress rejects the Administration's request, or if DHS does not ultimately shift these costs from annual appropriations to the IEFA, USCIS will not include this use of these funds in its fee model for the final rule. Uncertainties associated with each aspect of the rule could result in changes to the final fees.[187]

To reduce the uncertainty that such conditions present to the affected public, USCIS proposes and evaluates six fee scenarios based on these three factors. Each scenario lays out what the fees would be if certain conditions materialize and present a range of fees. Thus, the final fees may be one of the scenarios presented, or an amount in between the highest and lowest fees proposed. Scenario A refers to the proposed fees described in detail throughout this proposed rule. Scenario B includes DACA renewal fees, but it excludes the ICE transfer. Scenario C excludes DACA fees, but it includes the ICE transfer. Scenario D excludes both DACA fees and the ICE transfer.

[183] The current fee for Form I–192 is 585 when filed with and processed by CBP. When filed with USCIS, the fee is 930. *See* 8 CFR 103.7(b)(1)(i)(P).

[184] The 750 fee applies to ''an applicant under the age of 14 years when [the application] is (i) submitted concurrently with the Form I–485 of a parent, (ii) the applicant is seeking to adjust status as a derivative of his or her parent, and (iii) the child's application is based on a relationship to the same individual who is the basis for the child's parent's adjustment of status, or under the same legal authority as the parent.'' *See* 8 CFR 103.7(b)(1)(i)(U)(2).

[185] Currently there are two USCISs fees for Form I–881: $285 for individuals and $570 for families. *See* 8 CFR 103.7(b)(1)(i)(QQ)(1). EOIR has a separate $165 fee. DHS proposes no changes to the EOIR fee.

[186] See footnotes 167 and 168.

[187] In addition, litigation regarding various fees may result in DHS not implementing certain fees or fee increases. DHS is considering whether to include a severability provision in the final fee rule, or ''fallback'' provisions that provide for alternative fee schedules in the event that certain aspects of the rule are not implemented. DHS requests comment on this option.

Scenarios E and F list separate initial and renewal fees for DACA, with or without the ICE transfer. Table 20 lists the assumptions and effects of these three factors on each fee scenario. The following sections briefly describe the differences and list the possible fees in each scenario.

TABLE 20—PROPOSED FEE SCHEDULE SCENARIOS

Fee scenario	DACA renewal fees included	DACA initial fee included	ICE Transfer included	Average budget ($ millions)	Percent weighted average fee increase [188]
A	Yes	No	Yes	$4,670.5	21%
B	Yes	No	No	4,462.9	15
C	No	No	Yes	4,651.7	25
D	No	No	No	4,444.2	20
E	Yes	Yes	Yes	4,672.4	20
F	Yes	Yes	No	4,464.8	15

A. Fee Schedule With DACA Renewal Fees

Scenarios A and B produced fee levels in between the highest and lowest scenarios. Table 21 lists the individual fees for each. These fees are lower than in some scenarios because DACA fees recover part of USCIS costs. Scenario B produces lower fees than Scenario A because it has a lower budget by excluding the ICE transfer.

TABLE 21—PROPOSED FEE SCHEDULE WITH DACA RENEWAL FEE WITH AND WITHOUT THE ICE TRANSFER

B. Fee Schedule Without DACA Fees

Scenarios C and D exclude DACA workload from the fee schedules. Table 22 lists the fees for these scenarios. These scenarios produced some of the highest fees because they do not include DACA fee-paying volume to recover a portion of the projected budget. The fee review budget in these scenarios is lower than scenarios A, B, E, and F because USCIS removed certain estimated costs related to DACA, so as to mitigate the financial risk to USCIS of dependence upon revenue associated with a temporary program that may be eliminated in the future.[189] However, the decrease to the budget from DACA does not offset the fee increase. Scenario C yields the highest fees in some cases because it includes the ICE transfer in the budget. Scenario D fees may be higher or lower than the proposed fees in scenario A because it has the lowest total budget, but it excludes DACA fee-paying volume to recover a portion of the projected budget.

TABLE 22—FEE SCHEDULE WITHOUT DACA FEES AND WITH OR WITHOUT THE ICE TRANSFER

I–601A Provisional Unlawful Presence Waiver	980	960

[189] In the FY 2019/2020 fee review scenarios without DACA fees, USCIS removed contractual costs related to DACA from the ABC model. These excluded costs were for form intake, biometric collection, and EAD card production for DACA volumes. While DHS did not discuss the methodology in the FY 2016/2017 fee rule docket, DHS took a similar approach to exclude temporary or uncertain costs related to temporary programs. *See* 81 FR 26914.

C. Fee Schedule With Both DACA Initial and Renewal Fees

In scenarios E and F, USCIS adds its forecast of 43,000 initial requests for DACA. While the fee review budget is slightly higher than scenarios A and B, the increased fee-paying volume produces some of the lowest fees. Table 23 lists the fees in these scenarios.

TABLE 23—FEE SCHEDULE WITH DACA INITIAL AND RENEWAL FEES

Immigration benefit request	Scenario E	Scenario F
I–90 Application to Replace Permanent Resident Card	$415	$385

VIII. Statutory and Regulatory Requirements

A. Executive Order 12866 (Regulatory Planning and Review) and Executive Order 13563 (Improving Regulation and Regulatory Review)

Executive Orders (E.O.) 12866 and 13563 direct agencies to assess the costs and benefits of available alternatives, and if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This proposed rule has been designated an ''economically significant regulatory action'' under section 3(f)(1) of E.O. 12866. Accordingly, the rule has been reviewed by OMB.

USCIS' current fee schedule is expected to yield $3.41 billion of average annual revenue during the FY 2019/2020 biennial period. This represents a $0.93 billion, or 38 percent, increase from the FY 2016/2017 fee rule projection of $2.48 billion. *See* 81 FR 26911. The projected revenue increase is due to higher fees as a result of the FY 2016/2017 fee rule and more anticipated fee-paying receipts. The FY 2016/2017 fee rule forecasted 5,870,989 total workload receipts and 5,140,415 fee-paying receipts. *See* 81 FR 26923–4. However, the FY 2019/2020 fee review forecasts 9,336,015 total workload receipts and 7,789,861 fee-paying receipts. This represents a 59 percent increase to workload and 52 percent increase to fee-paying receipt volume assumptions.

USCIS would use the increase in revenue under INA section 286(m), (n), 8 U.S.C. 1356(m), (n), to ensure that USCIS would recover its full operating costs and maintain an adequate level of service. USCIS would set fees at levels sufficient to cover the full cost of the corresponding services associated with fairly and efficiently adjudicating immigration benefit requests and at a level sufficient to fund overall requirements and general operations, including the full costs of processing immigration benefit requests and associated support benefits; the full cost of providing similar benefits to asylum and refugee applicants at no charge; and the full cost of providing similar benefits to others at no charge.

The INA provides for the collection of fees at a level that will ensure recovery of the full costs of providing adjudication and naturalization services, including services provided without charge to asylum applicants and certain other applicants. DHS must fund the costs of providing services without charge by using a portion of the filing fees that are collected for other immigration benefits. While most immigration benefit request filing fees apply to individuals, as described above, some also apply to small entities. USCIS seeks to minimize the impact on all parties, but in particular small entities. An alternative to the increased economic burden of the proposed rule is to maintain fees at their current level for small entities. The strength of this alternative is that it assures no additional fee burden is placed on small entities; however, this alternative also would cause negative impacts to small entities.

Without the fee adjustments proposed in this rule, significant operational changes would be necessary. Given current filing volume and other economic considerations, additional revenue is necessary to prevent immediate and significant cuts in planned spending. The proposed revenue increase is based on currently available USCIS costs and volume projections.

In addition to simple fee adjustments, the proposed rule includes numerous other changes in forms and policies related to fee payment. Some of these changes would result in cost savings, and others would result in costs or transfers. For the 10-year implementation period of the proposed rule, DHS estimates the total cost of the rule to applicants/petitioners is $4,730,732,250 undiscounted, $4,035,410,566 discounted at 3-percent, and $3,322,668,371 discounted at 7-percent. DHS estimates the total cost savings (benefits) to the applicants/petitioners is $220,187,510 undiscounted, $187,824,412 discounted at 3-percent, and $154,650,493 discounted at 7-percent. Much of this total is expected to be transfers between applicants and the federal government or between groups of applicants, rather than new, real resource costs to the U.S. economy. These costs, transfers, and and cost savings (benefits) are briefly described below in Table 24, and in more detail in Tables 47 and 48 of the Regulatory Impact Analysis (RIA).

TABLE 24—SUMMARY OF PROPOSED PROVISIONS AND IMPACTS

Proposed provision	Description of proposed change to provision	Estimated costs or transfers of proposed provision	Estimated benefits of proposed provision
(a) Secure Mail Initiative	USCIS has decided to implement Signature Confirmation Restricted Delivery as the sole method of delivery of secure documents for USCIS.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • None. DHS/USCIS — • Mailing costs from USPS for Signature Confirmation Restricted Delivery confirmation.	*Quantitative:* Applicants— • Applicants with unstable addresses or who move often will be much more certain to receive their documents. *Qualitative:* Applicants— • None. DHS/USCIS— • Signature Confirmation Restricted Delivery will verify that the address information DHS has for a particular immigration benefit request is accurate. • Reduces the likelihood of misdelivered documents that could be misused.
(b) Clarify Dishonored Fee Check Representment Requirement and Fee Payment Method.	DHS is proposing that if a check or other financial instrument used to pay a fee is returned as unpayable *because of insufficient funds,* USCIS will resubmit the payment to the remitter institution one time. In addition, DHS proposes that it may reject a request that is accompanied by a check that is dated more than 365 days before the receipt date. DHS is also clarifying that fees are non-refundable regardless of the result of the immigration benefit request or how much time the request requires to be adjudicated. DHS is clarifying that fees will not be refunded no matter the result of the benefit request or how much time the adjudication requires.	*Quantitative:* Applicants- • None. *Qualitative:* Applicants— • None. DHS/USCIS— • The expansion by USCIS to accept credit cards for the payment of USCIS fees has resulted in a rise in the number of disputes filed with credit card companies challenging the retention of the fee by USCIS. As credit card use increases, this result has the potential to have a significant negative fiscal effect on USCIS fee receipts.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • None. DHS/USCIS— • USCIS can devote more time to adjudicate cases and to reduce administrative burdens and processing errors associated with fee payments, by clarifying the dishonored fee check re-presentment. • In the event that the bank that issues the credit card rescinds the payment of the fee to USCIS, USCIS reserves the authority to invoice the responsible party (applicant, petitioner, and requestor) for the unpaid fee.
(c) Eliminate $30 Returned Check Fee	DHS proposes to remove the $30 charge for dishonored payments.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • Costs to applicants if they had to reapply after rejection for a certain immigrant benefit. DHS/USCIS— • Could be an increase in insufficient payments by applicants because the $30 fee may serve as a deterrent for submitting a deficient payment.	*Quantitative:* Applicants— • $0.33 million annual cost savings. *Qualitative:* Applicants— • The current $30 charge and the potential of having a benefit request rejected encourage applicants to provide the correct filing fees when submitting an application or petition. • Applicants who submit bad checks would no longer have to pay a fee. DHS/USCIS— • None.

TABLE 24—SUMMARY OF PROPOSED PROVISIONS AND IMPACTS—Continued

Proposed provision	Description of proposed change to provision	Estimated costs or transfers of proposed provision	Estimated benefits of proposed provision
(d) Fee waivers	DHS proposes to limit fee waivers to statutorily mandated fee waivers and to those applicants who have an annual household income of less than 125% of the FPG. Additionally, fee waiver applicants cannot be admitted into the United States subject to an affidavit of support under INA section 213A, 8 U.S.C 1183a and not be subject to the public charge inadmissibility ground under INA section 212(a)(4), 8 U.S.C. 1182(a)(4). *Qualitative:* Applicants— • Limiting fee waivers may adversely affect some applicants' ability to apply for immigration benefits. DHS/USCIS— • None.	*Quantitative:* Applicants— • $360.1 million annually from applicable USCIS form transfer fees. DHS/USCIS— • None. *Qualitative:* Applicants— None. DHS/USCIS— • Reduce or eliminate administrative costs required to maintain training or guidance necessary to adjudicate unique fee waiver requests.	*Quantitative:* Applicants— • Cost savings of $5.6 million annually from eliminated opportunity cost of time spent completing the fee waiver request. DHS/USCIS— • None.
(e) Fee Exemptions	DHS proposes to remove the fee exemptions for an initial request for an employment authorization document (EAD) for the following classifications: • Citizen of Micronesia, Marshall Islands, or Palau; • Granted Withholding of Deportation; • Temporary Protected Status (TPS) if filing an initial TPS application for individuals under 14 years of age or over 65 years of age. • Applicant for Asylum and Withholding of Deportation or Removal.	*Quantitative:* Applicants— • Costs of $15.9 million annually in filing fees to filers of Form I–765 from the categories listed in the proposed provision no longer exempted.	*Quantitative:* Applicants— • None.
(a)		*Qualitative:* Applicants— • This could result in lost wages for the workers and lost productivity for the sponsoring employers. The lost wages and productivity can be considered as costs of the forgone benefits. This may be a very small population, and USCIS believes they will find some way to pay for their EAD filing fee. DHS/USCIS— • None.	*Qualitative:* Applicants— • The removal of fee exemptions for these populations may reduce further increases of other fees to pay for these exemptions. DHS/USCIS— • DHS notes that the continuing to provide these fee exemptions would result in the costs of those fee services being transferred to the fees for other forms. Removing the exemptions allows DHS to recover the costs of adjudication of Form I–765 for these categories from those who benefit from the service instead of other fee payers.
(f) Changes to Biometric Services Fee	DHS proposes to incorporate the biometric services cost into the underlying immigration benefit request fee instead of charging a flat $85 biometric services fee.	*Quantitative:* Applicants— • None.	*Quantitative:* Applicants— • EOIR and TPS applicants would save $16.0 million in cost savings resulting from a $55 reduction in biometrics service fees per applicant.

TABLE 24—SUMMARY OF PROPOSED PROVISIONS AND IMPACTS—Continued

Proposed provision	Description of proposed change to provision	Estimated costs or transfers of proposed provision	Estimated benefits of proposed provision
	DHS proposes to require a $30 biometric services fee for TPS initial applications and re-registrations and EOIR applicants. *Qualitative:* Applicants— • None. DHS/USCIS— • None.	*Qualitative:* Applicants— • Simplifies the process to submit payments. • Could result in fewer incorrect payments and therefore, fewer rejected applications. • Biometric costs incorporated into the fee would actually correspond to the services used. DHS/USCIS— • Eliminating the separate payment of the biometric services fee would decrease the administrative burden required to process both a filing fee and biometric services fee for a single benefit request. • Agency can assign a biometric cost to the form fee that is based on the appropriate contract instead of a standard cost.	
(g) Discontinue providing free interim benefits when Forms I–75 and I–131 are filed concurrently with pending Form I–485 or when a Form I–485 is pending.	DHS proposes to require separate fees for Forms I–765 and/or I–131 when filed concurrently with Form I–485 or with a pending I–485.	*Quantitative:* Applicants— • $329.7 million for Forms I–765 and/or I–131 concurrently filed with Form I–485 or while it is pending. *Qualitative:* Applicants— • None.	*Quantitative:* Applicants— • Not estimated. *Qualitative:* Applicants— • None. DHS/USCIS— • The proposed provision would be to isolate stand-alone interim benefit applicants from those concurrently filing Form I–485 allowing USCIS to more accurately assessed fee-paying percentages, fee-paying volumes, and fees for all three benefit types. • Easier to administer separate fees than to determine if the I–131 or I–765 is supposed to be free or require a fee
(h) Form I–485 Fee for Children Under 14, Filing with Parent.	DHS proposes to require payment of the full $1,120 proposed fee for a child under the age of 14 years when concurrently filing Form I–485 with a parent.	*Quantitative:* Applicants— • Not estimated. *Qualitative:* Applicants— • $23.3 million from increased USCIS form fees. DHS/USCIS— • None.	*Quantitative:* Applicants— • Not estimated. *Qualitative:* Applicants— • None. DHS/USCIS— • Easier to administer one single fee for Form I–485 would reduce the burden of adjudication and better reflect the cost of adjudication.
(i) Allow Individuals with Advance Parole to use Form I–131A, Application for Travel Document (Carrier Documentation) and Expand the Population Eligible to File Form I–131A.	DHS proposes to expand the population eligible to use Form I–131A to include requests for replacement advance parole documents	*Quantitative:* Applicants— • $4.1 million for new costs to file Form I–131A. *Qualitative:* Applicants— • None. DHS/USCIS— • None.	*Quantitative:* • None. *Qualitative:* Applicants— • The creation of a process for individuals to replace advance parole cards while abroad. DHS/USCIS— • None.

TABLE 24—SUMMARY OF PROPOSED PROVISIONS AND IMPACTS—Continued

Proposed provision	Description of proposed change to provision	Estimated costs or transfers of proposed provision	Estimated benefits of proposed provision
(j) Separating Form I–129, Petition for a Nonimmigrant Worker, into Different Forms, and Limit Petitions Where Multiple Beneficiaries are Permitted to 25 Named Beneficiaries per Petition.	DHS proposes to separate the Petition for a Nonimmigrant Worker, Form I–129 into several forms with different corresponding fees. DHS also proposes to impose a limit of 25 named beneficiaries per petition where multiple beneficiaries are permitted.	*Quantitative:* Applicants— • Annual transfer form fees, opportunity costs of time, and multiple forms limited to 25 named beneficiaries to file Form I–129 would range depending on who files the form. • With the new requirements some petitioners will now be required to file multiple petitions because the forms are limited to only 25 named beneficiaries. This will require additional cost for the petitioners to use a HR, In-house, or Outsourced lawyer to complete the different I–129 classifications forms, with different fees. HR Specialist—$69.6 million; and In-house Lawyer—$65.4 million; or Outsourced Lawyer—$59.8 million. DHS/USCIS— • Not estimated. *Qualitative:* Applicants— • None. DHS/USCIS— • None.	*Quantitative:* Applicants— • None. DHS/USCIS— • None. *Qualitative:* Applicants— • Separating forms would allow applicants to focus on each form's use and would reduce the need to navigate lengthy instructions that do not apply to their petition. • Separating fees might prevent future increases in fees to one petitioner population that may be caused by some other petitioner population also using that form. DHS/USCIS— • By splitting the form and proposing several different fees, USCIS believes it will simplify or consolidate the information requirements for petitioners and applicants as well as better reflect the cost to adjudicate each specific nonimmigrant classification. • Proposed fees would be imposed on the separate form for each specific petitioner population that causes the adjudication costs; other petitioners filing for other nonimmigrant classifications would not be burdened with costs not associated with their filings. • Splitting the form and fees will allow USCIS to focus the information requirements for petitioners, better reflect the cost to adjudicate each specific nonimmigrant classification, and recover the revenue more directly from those petitioners who are receiving the benefit. • Breaking out Form I–129 will affect backlogs only insofar as updating the fees enables USCIS to achieve full cost recovery and assign more resources to a particular adjudication as needs and priorities dictate.
(k) Extend premium processing timeframe from 15 calendar days to 15 business days.	DHS proposes to change the premium processing timeframe from 15 calendar days to 15 business days.	*Quantitative:* Applicants— • Not estimated.	*Quantitative:* Applicants— • Not estimated. Employers could lose some productivity but USCIS has no way to estimate what that loss may be.

TABLE 24—SUMMARY OF PROPOSED PROVISIONS AND IMPACTS—Continued

Proposed provision	Description of proposed change to provision	Estimated costs or transfers of proposed provision	Estimated benefits of proposed provision
		Qualitative: Petitioners— • Increased time burden and potential costs to employers who must plan for additional business days while waiting for premium processing. • Applicants may have to wait longer for decisions on their cases, from 15 calendar days to 15 business days. DHS/USCIS— • None.	*Qualitative:* Petitioners— • Removes petitioner expectation of 15 calendar day processing to allow for better business planning. DHS/USCIS— • Reduces risk of failing to complete premium processing in the allotted timeframe, which results in refunds to petitioners and possibly suspension of the premium processing service. • Allows USCIS additional time to process a petition. USCIS will avoid having to issue a refund and possibly avoid suspending premium processing service.
(l) Creation of Form I–600A/600 Supplement 3, Request for Action on Approved For I–600A/I–600 and new fee.	DHS proposes to: Create a new form, I–600 Supplement 3, Request for Action on an Approved Form I–600A/I–600, and fee; clarify the regulations and align them with current practice regarding when prospective adoptive parents are not required to pay the Form I–600 or Form I–800 filing fee for multiple Form I–600 or Form I–800 petitions; alter the validity period for a Form I–600A approval in an orphan case from 18 to 15 months to remove inconsistencies between Form I–600A approval periods and validity of the FBI fingerprint authorization.	*Quantitative:* Applicants— • $0.57 million for new form fees. *Qualitative:* Applicants— • None. DHS/USCIS— • None.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • Improve and align the adjudication and approval processes for adoptions from countries that are party to the Hague Adoption Convention and countries that are not. • Clarify the process for applicants who would like to request an extension of Form I–600A/I–600 and/or another type of approved change to their application/petition. DHS/USCIS— • Standardizes USCIS process and provides for the ability to collect a fee. • Improve and align the USCIS adjudication and approval processes for adoptions of children from countries that are party to the Hague Adoption Convention and from countries that are not. • Changing the validity period to 15 months will make the Form I–600A approval periods consistent with the validity of FBI biometric related background checks. The uniform 15-month validity period will also alleviate the burden on prospective adoptive parents and adoption service providers to monitor multiple expiration dates.

TABLE 24—SUMMARY OF PROPOSED PROVISIONS AND IMPACTS—Continued

Proposed provision	Description of proposed change to provision	Estimated costs or transfers of proposed provision	Estimated benefits of proposed provision
(m) Changes to Genealogy Search and Records Requests.	DHS proposes several changes to the USCIS genealogy program and how the agency processes genealogy requests. DHS proposes to expand the use of electronic genealogy requests; change the search request process so that USCIS may provide requesters with digital records, if they exist; and change the genealogy fees.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • None. DHS/USCIS— • USCIS may still need to mail some records in cases where requestors who cannot submit the forms electronically need to submit paper copies of both forms with required filing fees.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • Genealogy search and records request process changes would increase efficiency and decrease wait times for requestors. DHS/USCIS— • Reduce costs for mailing, records processing, and storage costs because electronic versions of records requests would reduce the administrative burden on USCIS. • USCIS would save $16 to $45 per index search service and $26 to $55 for each textual file retrieved. • Providing digital records in response to a Form G–1041 request may reduce the number of Form G–1041A requests that would be filed because there would already be a copy of the record if it was previously digitized.
(n) Remove Reduced Fee for Naturalization Applicants Using Form I–942, Request for Reduced Fee, When Filing Form N–400, Application for Naturalization.	DHS proposes to eliminate the reduced fee option for Form N–400 that applies to applicants whose documented household income is greater than 150 percent and not more than 200 percent of the Federal poverty level.	*Quantitative:* Applicants— • $2.9 million annually in transfer fees to file Form N–400 for individuals who would have previously requested a reduced Form N–400 fee using Form I–942. *Qualitative:* Applicants— • None. DHS/USCIS— • None.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • None. DHS/USCIS— • Not transfer form N–400 costs to other form fees.
(o) Charge for an initial Form I–765 while an asylum claim is pending.	DHS proposes to require the fee for an initial Application for Employment Authorization, Form I–765, when asylum applicants apply for asylum or file an Application for Asylum and for Withholding of Removal, Form I–589. Currently, USCIS exempts these initial applicants with pending asylum applications.	*Quantitative:* Applicants— • $93.1 million for applicants who have applied for asylum or withholding of removal before EOIR (defensive asylum) or filed Form I–589 Application for Asylum and for Withholding of Removal with USCIS (affirmative asylum), to pay the fee for initial filings of Form I–765. DHS/USCIS— • None.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • None. DHS/USCIS— • Using LIFO in fiscal year 2018 completed pending cases at an 80 percent rate in the first 30 days, and 98 percent of pending asylum cases were completed within 60 days of receipt.
(p) Charge a fee for Form I–589, Application for Asylum and for Withholding of Removal.	DHS proposes a $50 fee for Form I–589, Application for Asylum and for Withholding of Removal.	*Quantitative:* Applicants— • Asylum applicants would pay $5.6 million in filing fee costs for Form I–589. Qualitative: Applicants— • Some applicants may not be able to afford this fee and would no longer be able to apply for asylum.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • None. DHS/USCIS— • None.
(q) Charge a fee for Deferred Action for Childhood Arrivals (DACA) renewal requestors, Form I–821D.	DHS proposes a fee for renewal Deferred Action on Childhood Arrivals (DACA). Form I–821D currently has no fee. DHS does not propose to introduce a fee for Form I–821D initial DACA requests because USCIS does not currently accept such requests, except as described in preamble above, or plan to accept them in the future.	*Quantitative:* • $75.3 million for renewal application Form I–821D transfer fees. Qualitative: Applicants— • None. DHS/USCIS— • None.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • None. DHS/USCIS— • Costs for processing DACA renewal will be recovered from those who receive the benefit rather than from other fee payers.

TABLE 24—SUMMARY OF PROPOSED PROVISIONS AND IMPACTS—Continued

Proposed provision	Description of proposed change to provision	Estimated costs or transfers of proposed provision	Estimated benefits of proposed provision
(r) Fee Combining for Form I–881, Application for Suspension of Deportation or Special Rule Cancellation of Removal (Pursuant to Section 203 of Public Law 105–100 [NACARA]).	DHS proposes to combine the current multiple fees charged for an individual or family into a single fee for each filing of Form I–881, Application for Suspension of Deportation or Special Rule Cancellation of Removal (Pursuant to Section 203 of Pub. L. 105–100, the Nicaraguan Adjustment and Central American Relief Act [NACARA]).	*Quantitative:* Applicants— • $0.90 million annual costs to apply for suspension of deportation or special rule cancellation of removal under NACARA using Form I–881.	*Quantitative:* Applicants— • $0.11 million in cost savings from the reduced passport-style photos requirement.
(a)	*Qualitative:* Applicants— • None. DHS/USCIS— • None.	*Qualitative:* Applicants— • None. DHS/USCIS— • Combining the two IEFA fees into a single fee will streamline the revenue collections and reporting. • USCIS proposing a single Form I–881 fee may help reduce the administrative burden on USCIS on the small workload.	
(s) Clarify who must pay a 9–11 Response and Biometric Entry-Exit Fee for H–1B and L–1..	DHS proposes to apply the 9–11 Response and Biometric Entry-Exit Fee to all covered petitions (meaning those meeting the 50 employee/50 percent H–1B or L test), whether for new employment or extension.	*Quantitative:* Applicants— • $186.2 million in transfer fees. *Qualitative:* Applicants— • None. DHS/USCIS— • None.	*Quantitative:* Applicants— • None. *Qualitative:* Applicants— • Fee would consistently be applied to all H–1B or L–1 petitions, whether for new employment or extension. DHS/USCIS— • The collected fees would help increase the 9–11 Response and Biometric Entry-Exit fee account for biometric entry-exit screening, deficit reduction, and other public purposes funded by general Treasury revenues.

DHS has prepared a full analysis according to Executive Orders 12866 and 13563 which can be found in the docket for this rulemaking or by searching for RIN 1615–AC18 on *www.regulations.gov*.

B. Regulatory Flexibility Act

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, Public Law 104–121 (Mar. 29, 1996), requires Federal agencies to consider the potential impact of regulations on small entities during the development of their rules. The term ''small entities'' refers to small businesses, not-for-profit organizations that are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. An ''individual'' is not defined by the RFA as a small entity and costs to an individual from a rule are not considered for RFA purposes. In addition, the courts have held that the RFA requires an agency to perform an initial regulatory flexibility analysis (IRFA) of small entity impacts only when a rule directly regulates small entities. Consequently, any indirect impacts from a rule to a small entity are not considered as costs for RFA purposes. Below is a summary of the small entity analysis. A more detailed analysis is available in the rulemaking docket at *http://www.regulations.gov*.

Individuals, rather than small entities, submit the majority of immigration and naturalization benefit applications and petitions. This rule would affect entities that file and pay fees for certain immigration benefit requests. Consequently, there are six categories of USCIS benefits that are subject to a RFA analysis for this proposed rule: Petition for a Nonimmigrant Worker, Form I–129; Immigrant Petition for an Alien Worker, Form I–140; Civil Surgeon Designation, Form I–910; Petition for Amerasian, Widow(er), or Special Immigrant, Form I–360; Genealogy Forms G–1041 and G–1041A, Index Search and Records Requests; and the Application for Regional Center Designation Under the Immigrant Investor Program, Form I–924.

DHS does not believe that the increase in fees proposed in this rule would have a significant economic impact on a substantial number of small entities that file Forms I–129, I–140, I–910, or I–360. However, DHS does not have sufficient data on the revenue collected through administrative fees by regional centers to definitively determine the economic impact on small entities that may file Form I–924. DHS also does not have sufficient data on the requestors that file genealogy forms, Forms G–1041 and G–1041A, to determine whether such filings were made by entities or individuals and thus is unable to determine if the fee increase for genealogy searches is likely to have a significant economic impact on a substantial number of small entities. DHS is publishing this initial regulatory flexibility analysis to aid the public in commenting on the small entity impact of its proposed adjustment to the USCIS fee schedule. In particular, DHS requests information and data that would help to further assess the impact on small entities in the regional centers or on genealogy forms.

Initial Regulatory Flexibility Analysis (IRFA)

1. *A description of the reasons why the action by the agency is being considered.*

DHS proposes to adjust fees USCIS charges for certain immigration and naturalization benefits. DHS has determined that current fees would not recover the full costs of services provided. Adjustment to the fee schedule is necessary to recover costs and maintain adequate service.

2. *A succinct statement of the objectives of, and legal basis for, the proposed rule.*

DHS's objectives and legal authority for this proposed rule are discussed in the preamble of this rule.

3. *A description and, where feasible, an estimate of the number of small entities to which the proposed rule would apply.*

Entities affected by this rule are those that file and pay fees for certain immigration benefit applications and petitions on behalf of a foreign national. These applications include Form I–129, Petition for a Nonimmigrant Worker; Form I–140, Immigrant Petition for an Alien Worker; Form I–910, Civil Surgeon Designation; Form I–360, Petition for Amerasian, Widow(er), or Special Immigrant; Genealogy Forms G–1041 and G–1041A, Index Search and Records Requests; and Form I–924, Application for Regional Center Designation Under the Immigrant Investor Program. Annual numeric estimates of the small entities impacted by this fee increase total (in parentheses): Form I–129 (77,571 entities), Form I–140 (22,165 entities), Form I–910 (428 entities), and Form I–360 (698 entities).[190] DHS was not able to determine the numbers of regional centers or genealogy requestors that would be considered small entities, therefore does not provide numeric estimates for Form I–924 or Forms G–1041 and G–1041A.[191]

This rule applies to small entities, including businesses, non-profit organizations, and governmental jurisdictions filing for the above benefits. Forms I–129 and I–140, would see a number of industry clusters impacted by this rule (see Appendix A of the Small Entity Analysis for a list of impacted industry codes for Forms I–129, I–140, I–910, and I–360). The fee for civil surgeon designation would apply to physicians requesting such designation. The fee for Amerasian, widow(er), or special immigrants would apply to any entity petitioning on behalf of a religious worker. Finally, the Form I–924 would impact any entity seeking designation as a regional center under the Immigrant Investor Program or filing an amendment to an approved regional center application. Captured in the dataset for Form I–924 is also Form I–924A, which regional centers must file annually to establish continued eligibility for regional center designation for each fiscal year.

DHS does not have sufficient data on the requestors for the genealogy forms, Forms G–1041 and G–1041A, to determine if entities or individuals submitted these requests. DHS has previously determined that requests for historical records are usually made by individuals. If professional genealogists and researchers submitted such requests in the past, they did not identify themselves as commercial requestors and thus could not be segregated in the data. Genealogists typically advise clients on how to submit their own requests. For those that submit requests on behalf of clients, DHS does not know the extent to which they can pass along the fee increases to their individual clients. Therefore, DHS does not currently have sufficient data to definitively assess the estimate of small entities for these requests.

a. Petition for a Nonimmigrant Worker, Form I–129

DHS proposes to adjust the fee for Petition for a Nonimmigrant Worker, Form I–129, from $460 to various fees. Currently, employers may use Form I–129, to petition for H–1B, H–2A, H–2B, H–3, L–1, O–1, O–2, P–1, P–1S, P–2, P–2S, P–3, P–3S, Q–1, or R–1 nonimmigrant workers. As applicable, employers also may use Form I–129 to apply for E–1, E–2, E–3, or TN nonimmigrant status for eligible workers. DHS proposes to separate the Petition for a Nonimmigrant Worker, Form I–129, into several forms. These forms would include information from the various supplemental forms for specific types of workers. DHS proposes different fees for these new forms. The proposed fees are calculated at a more detailed level than the current fees.

The current fee for Form I–129 is $460. DHS proposes the following fees for new Forms I–129 (separated into new forms by worker type):

- Form I–129H1, Petition for Nonimmigrant Worker: H–1 Classifications—$560
- Form I–129H2A, Petition for Nonimmigrant Worker: H–2A Classification (Named Beneficiaries)—$860
- Form I–129H2B, Petition for Nonimmigrant Worker: H–2B Classification (Named Beneficiaries)—$725
- Form I–129L, Petition for Nonimmigrant Worker: L Classifications (Named Beneficiaries)—$815
- Form I–129O, Petition for Nonimmigrant Worker: O Classifications—$715
- Forms Form I–129CW, Petition for a CNMI-Only Nonimmigrant Transitional Worker; I–129E&TN, Application for Nonimmigrant Worker: E and TN Classifications; and I–129MISC, Petition for Nonimmigrant Worker: H–3, P, Q, or R Classification—$705
- Form I–129H2A, Petition for Nonimmigrant Work Classification: H–2A Classification (Unnamed Beneficiaries)—$425
- Form I–129H2B, Petition for Nonimmigrant Worker: H–2B Classification (Unnamed Beneficiaries)—$395.

For petitioners filing Form I–129 for H–2A and H–2B workers with only unnamed beneficiaries, DHS proposes a lower fee than the current filing fee. DHS proposes to increase the fee when filed for all other worker types. The fee adjustments and percentage increases or decreases are summarized in Table 25.

TABLE 25—USCIS PROPOSED FEES FOR SEPARATED FORMS I–129 FOR FISCAL YEAR 2019/2020

Immigration benefit request	Current fee	Proposed fee	Difference fee increase/ decrease	Percent change
Form I–129H1—Named Beneficiaries	$460	$560	$100	22
Form I–129H2A—Named Beneficiaries	460	860	400	87
Form I–129H2A—Unnamed Beneficiaries	460	425	−35	−8
Form I–129H2B—Named Beneficiaries	460	725	265	58

[190] Calculation: 90,726 Form I–129 * 85.5 percent = 77,571 small entities; 30,321 Form I–140 * 73.1 percent = 22,165 small entities; 476 Form I–910 * 90.0 percent = 428 small entities; 760 Form I–360 * 91.9 percent = 698 small entities.

[191] Small entity estimates are calculated by multiplying the population (total annual receipts for the USCIS form) by the percentage of small entities, which are presented in subsequent sections of this analysis.

TABLE 25—USCIS PROPOSED FEES FOR SEPARATED FORMS I–129 FOR FISCAL YEAR 2019/2020—Continued

Immigration benefit request	Current fee	Proposed fee	Difference fee increase/ decrease	Percent change
Form I–129H2B—Unnamed Beneficiaries	460	395	−65	−14
Form I–129O	460	715	255	55
Form I–129 L1A/L1B/LZ Blanket	460	815	355	77
Forms I–129CW, I–129E&TN, and I–129MISC	460	705	245	53

Source: USCIS FY 2019/2020 Proposed Fee Schedule (see preamble).

Using a 12-month period of data on the number of Form I–129 petitions filed from October 1, 2016 to September 31, 2017, DHS collected internal data for each filing organization including the name, Employer Identification Number (EIN), city, state, zip code, and number/type of filings. Each entity may make multiple filings. For instance, there were receipts for 530,442 Form I–129 petitions, but only 90,726 unique entities that filed those petitions. Since the filing statistics do not contain information such as the revenue of the business, DHS used third party sources of data to collect this information. DHS used a subscription-based, online database—Hoover's—as well as three open-access databases—Manta, Cortera, and Guidestar—to help determine an organization's small entity status and then applied Small Business Administration size standards to the entities under examination.[192]

The method DHS used to conduct the small entity analysis was based on a representative sample of the impacted population with respect to each form. To identify a representative sample, DHS used a standard statistical formula to determine a minimum sample size of 384 entities, which included using a 95 percent confidence level and a 5 percent confidence interval for a population of 90,726 unique entities filing Form I–129 petitions. Based on previous experience conducting small entity analyses, DHS expects to find 40 to 50 percent of the filing organizations in the online subscription and public databases. Accordingly, DHS selected a sample size that was approximately 69 percent larger than the necessary minimum to allow for non-matches (filing entities that could not be found in any of the four databases). Therefore, DHS conducted searches on 650 randomly selected entities from a population of 90,726 unique entities that filed Form I–129 petitions.

Of the 650 searches for small entities that filed Form I–129 petitions, 473 searches returned a successful match of a filing entity's name in one of the databases and 177 searches did not match a filing entity. Based on previous experience conducting regulatory flexibility analyses, DHS assumes filing entities not found in the online database are likely to be small entities. As a result, in order to prevent underestimating the number of small entities this rule would affect, DHS conservatively considers all of the non-matched entities as small entities for the purpose of this analysis. Among the 473 matches for Form I–129, DHS determined 346 to be small entities based on revenue or employee count and according to their assigned North American Industry Classification System (NAICS) code. Therefore, DHS was able to classify 556 of 650 entities as small entities that filed Form I–129 petitions, including combined non-matches (177), matches missing data (33), and small entity matches (346). Using the subscription-based, online databases mentioned above (Hoover's, Manta, Cortera, and Guidestar), the 33 matches missing data found in the databases lacked applicable revenue or employee count data.

DHS determined that 556 of 650 (85.5 percent) of the entities filing Form I–129 petitions were small entities. Furthermore, DHS determined that 346 of the 650 entities searched were small entities based on sales revenue data, which were needed to estimate the economic impact of the proposed rule. Since these 346 small entities were a subset of the random sample of 650 entity searches, they were statistically significant in the context of this research. In order to calculate the economic impact of this rule, DHS estimated the total costs associated with the proposed fee increase for each entity and divided that amount by the sales revenue of that entity.[193] Based on the proposed fee increases for Form I–129, DHS calculated the average economic impact on the 346 small entities with revenue data as summarized in Table 26.

TABLE 26—ECONOMIC IMPACTS ON SMALL ENTITIES WITH REVENUE DATA

Immigration benefit request	Fee increase/ decrease	Average impact percentage
Form I–129H1	$100	0.16
Form I–129H2A—Named Beneficiaries	400	0.65
Form I–129H2A—Unnamed Beneficiaries	−35	−0.06
Form I–129H2B—Named Beneficiaries	265	0.43
Form I–129H2B—Unnamed Beneficiaries	−65	−0.10
Form I–129L	355	0.57
Form I–129O	255	0.41
Forms I–129CW, I–129E&TN, and I–129MISC	245	0.40

Source: USCIS calculation.

[192] U.S. Small Business Administration, Office of Advocacy, Size Standards Table. Available at *https://www.sba.gov/document/support--table-size-standards*.

[193] Total Economic Impact to Entity = (Number of Petitions Submitted per Entity * $X difference in current fee from proposed fee)/Entity Sales Revenue.

Among the 346 small entities with reported revenue data, each one would experience an economic impact of less than 2 percent with the exception of 11 entities for any immigration benefit request using separate Forms I–129. Depending on the type of immigration benefit request, the average impact on all 346 small entities with revenue data ranges from −0.10 to 0.65 percent, as shown in the supporting comprehensive small entity analysis. Therefore, the average economic impact on the described 346 small entities is less than 1 percent, regardless of which newly separate Form I–129 petition is applicable. As a result, the additional fees this rulemaking proposes do not represent a significant economic impact on these small entities.

b. Immigrant Petition for an Alien Worker, Form I–140

USCIS proposes to decrease the fee to file Immigrant Petition for an Alien Worker, Form I–140, from $700 to $545, a decrease of $155 (22 percent). Using a 12-month period of data on the number of Form I–140 petitions filed from October 1, 2016 to September 31, 2017, DHS collected internal data similar to that of Form I–129. The total number of Form I–140 petitions was 139,439, with 30,321 unique entities that filed petitions. DHS used the same databases previously mentioned to search for information on revenue and employee count.

DHS used the same method as with Form I–129 to conduct the small entity analysis based on a representative sample of the impacted population. To identify a representative sample, DHS used a standard statistical formula to determine a minimum sample size of 383 entities, which included using a 95 percent confidence level and a 5 percent confidence interval on a population of 30,321 unique entities for Form I–140 petitions. Based on previous experience conducting small entity analyses, DHS expected to find 40 to 50 percent of the filing organizations in the online subscription and public databases. Accordingly, DHS selected a sample size that was approximately 44 percent larger than the necessary minimum to allow for non-matches (filing entities that could not be found in any of the four databases). Therefore, DHS conducted searches on 550 randomly selected entities from a population of 30,321 unique entities that filed Form I–140 petitions.

Of the 550 searches for small entities that filed Form I–140 petitions, 480 searches successfully matched the name of the filing entity to names in the databases and 70 searches did not match the name of a filing entity. Based on previous experience conducting regulatory flexibility analyses, DHS assumes filing entities not found in the online databases are likely to be small entities. As a result, in order to prevent underestimating the number of small entities this rule would affect, DHS conservatively considers all of the non-matched entities as small entities for the purpose of this analysis. Among the 480 matches for Form I–140, DHS determined 324 to be small entities based on revenue or employee count and according to their NAICS code. Therefore, DHS was able to classify 402 of 550 entities as small entities that filed Form I–140 petitions, including combined non-matches (70), matches missing data (8), and small entity matches (324). Using the subscription-based, online databases mentioned above (Hoover's, Manta, Cortera, and Guidestar), the 8 matches missing data that were found in the databases lacked applicable revenue or employee count statistics.

DHS determined that 402 out of 550 (73.1 percent) entities filing Form I–140 petitions were small entities. Furthermore, DHS determined that 324 of the 550 searched were small entities based on sales revenue data, which were needed to estimate the economic impact of the proposed rule. Since these 324 were a small entity subset of the random sample of 550 entity searches, they were considered statistically significant in the context of this research. Similar to Form I–129, DHS calculated the economic impact of this rule on entities that filed Form I–140 by estimating the total cost savings associated with the proposed fee decrease for each entity and divided that amount by sales revenue of that entity.

Among the 324 small entities with reported revenue data, each would experience an economic impact of less than −2 percent. Using the above methodology, the greatest economic impact proposed by this fee change totaled −1.86 percent and the smallest totaled −0.0000001 percent. The average impact on all 324 small entities with revenue data was −0.07 percent. Because of the fee decrease, these small entities would see a cost savings per application in filing fees based on petitions. The negative number represents cost savings to the petitioner. Therefore, the larger it is, the greater the cost savings for the petitioners. The average impact on all 324 small entities with revenue data was −0.07 percent. The evidence suggests that the decreased fee proposed by this rule does not represent a significant economic impact on these entities.

In addition to the individual Form I–129 and Form I–140 analyses, USCIS analyzed any cumulative impacts of these form types to determine if there were any impacts to small entities when analyzed together. USCIS isolated those entities that overlapped in both samples of Forms I–129 and I–140 by EIN. Only 1 entity had an EIN that overlapped in both samples; this was a small entity that submitted 3 Form I–129 petitions and 1 Form I–140 petition. Due to little overlap in entities in the samples and the relatively minor impacts on revenue of fee increases of Forms I–129 and I–140, USCIS does not expect the combined impact of these two forms to be an economically significant burden on a substantial number of small entities.

c. Civil Surgeon Designation, Form I–910

DHS proposes to decrease the fee for Civil Surgeon Designations, Form I–910, from $785 to $650, a decrease of $135 (17 percent). Using a 12-month period of data from October 1, 2016 to September 31, 2017, DHS collected internal data on filings of Form I–910. The total number of Form I–910 petitions was 757, with 476 unique entities that filed applications. The third party databases mentioned previously were used again to search for revenue and employee count information.

Using the same methodology as the Forms I–129 and I–140, USCIS conducted the small entity analysis based on a representative sample of the impacted population. To identify a representative sample, DHS used a standard statistical formula to determine a minimum sample size of 213 entities, which included using a 95 percent confidence level and a 5 percent confidence interval on a population of 476 unique entities for Form I–910. USCIS conducted searches on 300 randomly selected entities from a population of 476 unique entities for Form I–910 petitions, a sample size approximately 40 percent larger than the minimum necessary.

Of the 300 searches for small entities that filed Form I–910 petitions, 266 searches successfully matched the name of the filing entity to names in the databases and 34 searches did not match the name of a filing entity. DHS assumes filing entities not found in the online databases are likely to be small entities. DHS also assumes all of the non-matched entities as small entities for the purpose of this analysis. Among the 266 matches for Form I–910, DHS determined 189 to be small entities based on their revenue or employee count and according to their NAICS code. Therefore, DHS was able to classify 270 of 300 entities as small entities that filed Form I–910 petitions, including combined non-matches (34), matches missing data (47), and small entity matches (189). DHS also used the subscription-based, online databases mentioned above (Hoover's, Manta, Cortera, and Guidestar), and the 8 matches missing data that were found in the databases lacked revenue or employee count statistics.

DHS determined that 270 out of 300 (90 percent) entities filing Form I–910 applications were small entities. Furthermore, DHS determined that 189 of the 300 entities searched were small entities based on sales revenue data, which were needed in order to estimate the economic impact of the proposed rule. Since these 189 were a small entity subset of the random sample of 300 entity searches, they were statistically significant in the context of this research.

Similar to the Forms I–129 and I–140, DHS calculated the economic impact of this rule on entities that filed Form I–910 by estimating estimated the total savings associated with the proposed fee decrease for each entity and divided that amount by sales revenue of that entity. Among the 189 small entities with reported revenue data, all experienced an economic impact considerably less than 1.0 percent. The greatest economic impact imposed by this proposed fee change totaled −1.350 percent and the smallest totaled −0.001 percent. The average impact on all 189 small entities with revenue data was −1.104 percent. The decreased fee will create cost savings for the individual applicant of $135. The negative number represents cost savings to the applicant. Therefore, the larger it is, the greater the cost savings for the applicants. The evidence suggests that the decreased fee proposed by this rule does not represent a significant economic impact on these entities.

d. Petition for Amerasian, Widow(er), or Special Immigrant, Form I–360

DHS proposes to increase the fee for foreign religious workers who file using Form I–360 from $435 to $455, an increase of $20 (5 percent). Using a 12-month period of data on the number of Form I–360 petitions filed from October 1, 2016 to September 31, 2017, DHS collected internal data on filings of Form I–360 for religious workers. The total number of Form I–360 petitions was 2,446, with 760 unique entities that filed petitions. DHS used the same databases mentioned previously to search for information on revenue and employee count.

DHS used the same method as with Forms I–129 and I–140 to conduct the small entity analysis based on a representative sample of the impacted population. To identify a representative sample, DHS used a standard statistical formula to determine a minimum sample size of 332 entities, which included using with a 95 percent confidence level and a 5 percent confidence interval on a population of 760 unique entities for Form I–360 petitions. To account for missing organizations in the online subscription and public databases, DHS selected a sample size that was approximately 27 percent larger than the necessary minimum to allow for non-matches (filing entities that could not be found in any of the four databases). Therefore, DHS conducted searches on 420 randomly selected entities from a population of 760 unique entities that filed Form I–360 petitions.

Of the 420 searches for small entities that filed Form I–360 petitions, 417 searches successfully matched the name of the filing entity to names in the databases and 3 searches did not match the name of the filing entities in the databases. DHS assumes that filing entities not found in the online databases are likely to be small entities. As a result, in order to prevent underestimating the number of small entities this rule would affect, DHS conservatively assumes to consider all of the non-matched entities as small entities for the purpose of this analysis. Among the 417 matches for Form I–360, DHS determined 309 to be small entities based on revenue or employee count and according to their NAICS code. Therefore, DHS was able to classify 386 of 420 entities as small entities that filed Form I–360 petitions, including combined non-matches (3), matches missing data (74), and small entity matches (309). DHS also used the subscription-based, online databases mentioned above (Hoover's, Manta, Cortera, and Guidestar), the 74 matches missing data that were found in the databases lacked revenue or employee count data.

DHS determined that 386 out of 420 (91.9 percent) entities filing Form I–360 petitions were small entities. Furthermore, DHS determined that 309 of the 420 searched were small entities based on sales revenue data, which were needed to estimate the economic impact of the proposed rule. Since 309 small entities were a subset of the random sample of 420 entity searches, they were statistically significant in the context of this research.

Similar to other forms analyzed in this RFA, DHS calculated the economic impact of this rule on entities that filed Form I–360 by estimating the total costs associated with the proposed fee increase for each entity. Among the 309 small entities with reported revenue data, each would experience an economic impact of less than 1.0 percent. The greatest economic impact imposed by this proposed fee change totaled 0.46 percent and the smallest totaled 0.000002 percent. The average impact on all 309 small entities with revenue data was 0.02 percent.

DHS also analyzed the proposed costs by this rule on the petitioning entities relative to the costs of the typical employee's salary. Guidelines suggested by the SBA Office of Advocacy indicate that the impact of a rule could be significant if the cost of the regulation exceeds 5 percent of the labor costs of the entities in the sector.[194] According to the Bureau of Labor Statistics (BLS), the mean annual salary is $53,290 for clergy,[195] $46,980 for directors of religious activities and education,[196] and $35,860 for other religious workers.[197] Based on an average of 1.5 religious workers[198] petitioned-for per entity, the additional average annual cost would be $30 per entity.[199] The additional costs per entity proposed by this rule represent only 0.06 percent of the average annual salary for clergy, 0.06 percent of the average annual salary for directors of religious activities and education, and 0.08 percent of the average annual salary for all other religious workers.[200] Therefore, using

[194] Office of Advocacy, Small Business Administration, ''A Guide for Government Agencies, How to Comply with the Regulatory Flexibility Act'', page 19: *https://www.sba.gov/sites/default/files/advocacy/How-to-Comply-with-the-RFA-WEB.pdf*

[195] Bureau of Labor Statistics, U.S. Department of Labor, ''Occupational Employment Statistics, May 2018, ''Clergy'': *https://www.bls.gov/oes/2018/may/oes212011.htm* (viewed September 24, 2019).

[196] Bureau of Labor Statistics, U.S. Department of Labor, ''Occupational Employment Statistics, May 2018, ''Directors of Religious Activities and Education'': *https://www.bls.gov/oes/2018/may/oes212099.htm* (viewed September 24, 2019).

[197] Bureau of Labor Statistics, U.S. Department of Labor, ''Occupational Employment Statistics, May 2018, ''Religious Workers, All Other'': *https://www.bls.gov/oes/2018/may/oes212099.htm* (viewed September 24, 2019).

[198] USCIS calculated the average filing per entity of 1.5 petitions, from the Form I–360 Sample with Petition Totals in Appendix E, of the Small Entity Analysis for the U.S. Citizenship and Immigration Services Fee Schedule NPRM. Calculation: (total number of petitions from each sample id)/(total number of sample Form I–360 petitions) = 618/420 = 1.5 average petitions filed per entity.

[199] Calculation: 1.5 average petitions per entity * $20 increase in petition fees = $30 additional total cost per entity.

[200] Calculation: $30 per entity/$53,290 clergy salary × 100 = .06 percent;

$30 per entity/$46,980 directors of religious activities and education × 100 = .06 percent;

average annual labor cost guidelines, the additional regulatory compliance costs proposed by this rule are not significant.

e. Genealogy Requests—Genealogy Index Search Request Form G–1041 and Genealogy Record Request, Form G–1041A

DHS proposes fee increases to file both types of genealogy requests: Form G–1041, Genealogy Index Search Request and Form G–1041A, Genealogy Record Request. The fee to file Form G–1041 would increase from $65 to $240, an increase of $175 (269 percent increase). The fee for Form G–1041A would increase from $65 to $385, an increase of $320 (492 percent). Based on DHS records for calendar years 2013 to 2017, there was an annual average of 3,840 genealogy index search requests made using Form G–1041 and there was an annual average of 2,152 genealogy records requests made using Form G–1041A. DHS does not have sufficient data on the requestors for the genealogy forms to determine if entities or individuals submitted these requests.

DHS has previously determined that individuals usually make requests for historical records.[201] If professional genealogists and researchers submitted such requests in the past, they did not identify themselves as commercial requestors and, therefore, DHS could not separate these data from the dataset. Genealogists typically advise clients on how to submit their own requests. For those that submit requests on behalf of clients, DHS does not know the extent to which they can pass along the fee increases to their individual clients. Therefore, DHS currently does not have sufficient data to definitively assess the impact on small entities for these requests.

However, DHS must still recover the full costs of this program. As stated in the preamble to this proposed rule, reducing the filing fee for any one benefit request submitted to DHS simply transfers the additional cost to process this request to other immigration and naturalization filing fees.

For this proposed fee rule, DHS proposes to expand the use of electronic genealogy requests to encourage requesters to use the electronic versions of Form G–1041 and Form G–1041A. DHS also proposes to change the search request process so that USCIS may provide requesters with electronic records, if they exist, in response to the initial index request. These proposed changes may reduce the time it takes to request and receive genealogy records and, in some cases, it would eliminate the need to make multiple search requests and submit separate fees. Moreover, DHS notes that providing digital records in response to a Form G–1041 request may reduce the number of Form G–1041A requests that would be filed because there would already be a copy of the record if it was previously digitized. As a result, the volume of Form G–1041A requests USCIS receives may decrease, though DHS is unable to estimate by how much. DHS requests comments from the public on the impacts to small entities of the proposed fee increases to the genealogy forms.

f. Regional Center Under the Immigrant Investor Program, Form I–924 and I–924A

As part of the Immigration Act of 1990, Public Law 101–649, 104 Stat. 4978, Congress established the EB–5 immigrant visa classification to incentivize employment creation in the United States. Under the EB–5 program, lawful permanent resident (LPR) status is available to foreign nationals who invest the required amount in a new commercial enterprise that will create at least 10 full-time jobs in the United States. *See* INA sec. 203(b)(5), 8 U.S.C. 1153(b)(5). A foreign national may also invest a lower amount in a targeted employment area defined to include rural areas and areas of high unemployment. *Id.;* 8 CFR 204.6(f). The INA allots 9,940 immigrant visas each fiscal year for foreign nationals seeking to enter the United States under the EB–5 classification.[202] *See* INA sec. 201(d), 8 U.S.C. 1151(d); INA sec. 203(b)(5), 8 U.S.C. 1153(b)(5). Not less than 3,000 of these visas must be reserved for foreign nationals investing in targeted employment areas. *See* INA sec. 203(b)(5)(B), 8 U.S.C. 1153(b)(5)(B).

Enacted in 1992, section 610 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1993, Public Law 102–395, 106 Stat. 1828, established a pilot program that requires the allocation of a limited number of EB–5 immigrant visas to individuals who invest through DHS-designated regional centers.[203] Under the Regional Center Program, foreign nationals base their EB–5 petitions on investments in new commercial enterprises located within USCIS-designated ''regional centers.'' DHS regulations define a regional center as an economic unit, public or private, that promotes economic growth, including increased export sales, improved regional productivity, job creation, and increased domestic capital investment. *See* 8 CFR 204.6(e). While all EB–5 petitioners go through the same petition process, those petitioners participating in the Regional Center Program may meet statutory job creation requirements based on economic projections of either *direct* or *indirect* job creation, rather than only on jobs directly created by the new commercial enterprise. *See* 8 CFR 204.6(j)(4)(iii), (m)(3). As of August 12, 2019, there were 826 USCIS-approved regional centers.[204] Requests for regional center designation must be filed with USCIS on Form I–924, Application for Regional Center Designation Under the Immigrant Investor Program. *See* 8 CFR 204.6(m)(3)–(4). Once designated, regional centers must provide USCIS with updated information to demonstrate continued eligibility for the designation by submitting a Form I–924A, Annual Certification of Regional Center, on an annual basis or as otherwise requested. *See* 8 CFR 204.6(m)(6)(i)(B).

DHS proposes no adjustment to the fee for the Application for Regional Center Designation Under the Immigrant Investor Program, Form I–924. The current fee to file Form I–924 is $17,795. However, DHS is proposing to increase the fee for the Annual Certification of Regional Center, Form I–924A, from $3,035 to $4,470 per filing, an increase of $1,435 (47 percent). Using a 12-month period of data on the number of Forms I–924 and I–924A from October 1, 2016 to September 31, 2017, DHS collected internal data on these forms. DHS received a total of 280 Form I–924 applications and 847 Form I–924A applications.

Regional centers are difficult to assess because there is a lack of official data on employment, income, and industry classification for these entities. It is difficult to determine the small entity status of regional centers without such data. Such a determination is also difficult because regional centers can be structured in a variety of different ways

$30 per entity/$35,860 other religious workers × 100 = .08 percent.

[201] See ''Establishment of a Genealogy Program; Proposed Rule,''71 FR 20357 (April 20, 2006). Available at: *https://www.regulations.gov/document?D=USCIS-2006-0013-0001.*

[202] An immigrant investor, his or her spouse, and children (if any) will each use a separate visa number.

[203] Current law requires that DHS annually set aside 3,000 EB–5 immigrant visas for regional center investors. Public Law 105–119, sec. 116, 111 Stat. 2440 (Nov. 26, 1997). If this full annual allocation is not used, remaining visas may be allocated to foreign nationals who do not invest in regional centers.

[204] USCIS Immigrant Investor Regional Centers: *https://www.uscis.gov/working-united-states/permanent-workers/employment-based-immigration-fifth-preference-eb-5/immigrant-investor-regional-centers* (last reviewed/updated Aug. 20, 2019).

and can involve multiple business and financial activities, some of which may play a direct or indirect role in linking investor funds to new commercial enterprises and job-creating projects or entities. The information provided by regional centers as part of the Forms I–924 and I–924A does not include adequate data to allow DHS to reliably identify the small entity status of individual applicants. Although regional center applicants typically report the NAICS codes associated with the sectors they plan to direct investor funds toward, these codes do not necessarily apply to the regional centers themselves. In addition, information provided to DHS concerning regional centers generally does not include regional center revenues or employment.

DHS was able to obtain some information under some specific assumptions in an attempt to analyze the small entity status of regional centers.[205] In the DHS final rule ''EB–5 Immigrant Investor Program Modernization,'' DHS analyzed estimated administrative fees and revenue amounts for regional centers. DHS found both the mean and median for administrative fees to be $50,000 and the median revenue amount to be $1,250,000 over the period fiscal years 2014 to 2017. DHS does not know the extent to which these regional centers can pass along the fee increases to the individual investors. Passing along the costs from this rule could reduce or eliminate the economic impacts to the regional centers. While DHS cannot definitively claim there is no significant economic impact to these small entities based on existing information, DHS would assume existing regional centers with revenues equal to or less than $447,000 per year (some of which DHS assumes would be derived from administrative fees charged to individual investors) could experience a significant economic impact. If DHS assumes a fee increase that represents 1 percent of annual revenue is a ''significant'' economic burden under the RFA.[206] DHS welcomes comments from the public on the impacts to small entities of the proposed fee increases to Form I–924A and requests information from the public on data sources on the average revenues collected by regional centers in the form of administrative fees and the extent to which regional centers may pass along the fee increases to the individual investors.

g. Other Possible Fee Scenarios

As discussed earlier in the preamble, the fees that DHS proposes may change in a final rule based on policy decisions, in response to public comments, intervening legislation, and other changes. Other than fee adjustments made in response to public comments and policy modifications, DHS notes that the fee adjustments in a final rule depend on two factors beyond its control. As previously described in the preamble, this rule includes proposed DACA fees associated with Form I–821D. However, DHS is currently operating under two nationwide preliminary injunctions to maintain the DACA policy. Additionally, the proposed fees are based on IEFA funding $207.6 million of ICE expenses. If DHS does not obtain relief from the DACA preliminary injunctions, Congress rejects the proposal to fund these ICE expenses with IEFA funding, or DHS does not ultimately shift the aforementioned ICE costs from annual appropriations to the IEFA, then fees for most of the forms analyzed in this IRFA would also change.

Table 27 shows the current and proposed fees for the forms analyzed in this IRFA according to each fee schedule scenario based on the two factors mentioned above. Scenario A refers to the proposed fees described in detail throughout this rule. Scenario B includes DACA fees, but excludes the ICE transfer. Scenario C excludes DACA fees, but includes the ICE transfer. Scenario D excludes both DACA fees and the ICE transfer. Scenario E and F includes separate initial and renewal fees for DACA fees; scenario E includes the ICE transfer, but F excludes the ICE transfer.

TABLE 28—PROPOSED FEE SCHEDULE BY SCENARIO WITH FORMS AFFECTING SMALL ENTITIES, INITIAL REGULATORY FLEXIBILITY ANALYSIS

[205] The methodology used to analyze the small entity status of regional centers is explained in further detail in Section D of the RFA section within DHS final rule ''EB–5 Immigrant Investor Program Modernization,'' available at 84 FR 35750.

[206] Calculation: 1 percent of $447,000 = $4,470 (the new fee for Form I–924A).

Further, tables 28 and 29 show the estimated economic impact on small entities based on the fee schedule proposed for each of the fee scenarios. DHS followed the same method as previously described in this IRFA to estimate the economic impact on small entities for each fee scenario, A—F.

Calculation: Increase or Decrease Fee Amount per Scenario/Current Fee Amount = Average Economic Impact Percent

To reduce the uncertainty that such conditions present to the affected public, USCIS proposes and evaluates six fee scenarios based on these three factors. Each scenario lays out what the fees would be if certain conditions materialize and present a range of fees. Thus, the final fees may be one of the scenarios presented, or an amount in between the highest and lowest fees proposed. Scenario A refers to the proposed fees described in detail throughout this proposed rule. Scenario B includes DACA renewal fees, but it excludes the ICE transfer. Scenario C excludes DACA fees, but it includes the ICE transfer. Scenario D excludes both DACA fees and the ICE transfer. Scenarios E and F list separate initial and renewal fees for DACA, with or without the ICE transfer. Table 20 lists the assumptions and effects of these three factors on each fee scenario. The preamble has more detail on each scenario, regarding proposed fee changes, budgets, and transfers.

Furthermore, tables 28 and 29 show the estimated economic impact on small entities based on the fee schedule proposed for each of the fee scenarios. DHS followed the same method as previously described in this IRFA to estimate the economic impact on small entities for each fee scenario. The tables illustrate each scenario with an increased/decreased form fee and average economic impact, for each immigration benefit request. The results show the decreased form fees in parenthesis produce a negative average economic impact, in scenarios A–F. This would indicate across all scenarios, the economic impact from the decreased fee would create cost savings and/or higher revenues for the individual applicant or petitioner. The negative number represents cost savings to the applicant/petitioner. Therefore, the larger it is the greater the cost savings for the applicants/petitioners. The evidence suggests that the increased/ decreased fees proposed by this rule does not represent a significant economic impact on these entities.

4. *A description of the projected reporting, recordkeeping, and other compliance requirements of the proposed rule, including an estimate of the classes of small entities that will be subject to the requirement and the types of professional skills necessary for preparation of the report or record.*

The proposed rule does not directly impose any new or additional ''reporting'' or ''recordkeeping'' requirements on filers of Forms I–129, I–140, I–910, I–360, G–1041, G–1041A, I–924, or I–924A. The proposed rule does not require any new professional skills for reporting.

5. *An identification, to the extent practical, of all relevant federal rules that may duplicate, overlap, or conflict with the proposed rule.*

DHS is unaware of any duplicative, overlapping, or conflicting Federal rules, but invites any comment and information regarding any such rules.

6. *Description of any significant alternatives to the proposed rule that accomplish the stated objectives of applicable statutes and that minimize any significant economic impact of the proposed rule on small entities, including alternatives considered such as:*

(1) Establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities;

(2) Clarification, consolidation, or simplification of compliance and reporting requirements under the rule for such small entities;

(3) Use of performance rather than design standards; and

(4) Any exemption from coverage of the rule, or any part thereof, for such small entities.

The INA provides for the collection of fees at a level that will ensure recovery of the full costs of providing adjudication and naturalization services, including services provided without charge to asylum applicants and certain other immigrant applicants. In addition, DHS must fund the costs of providing services without charge by using a portion of the filing fees that are collected for other immigration benefits. Without an adjustment in fees, USCIS would not be able to sustain the current level of service for immigration and naturalization benefits. While most immigration benefit fees apply to individuals, as described above, some also apply to small entities. USCIS seeks to minimize the impact on all parties, but in particular small entities. An alternative to the increased economic burden of the proposed rule is to maintain fees at their current level for small entities. The strength of this alternative is that it assures no additional fee-burden is placed on small entities; however, this alternative also would cause negative impacts to small entities.

Without the fee adjustments proposed in this rule, significant operational changes would be necessary. Given current filing volume and other economic considerations, additional revenue is necessary to prevent immediate and significant cuts in planned spending. These spending cuts would include reductions in areas such as federal and contract staff, infrastructure spending on information technology and facilities, travel, and training. Depending on the actual level of workload received, these operational changes would result in longer application processing times, a degradation in service to applicants and petitioners, and reduced efficiency over time. These cuts would ultimately represent increased costs to small entities by causing delays in benefit processing and reduced support service. Tables 29 and 30 show the estimated economic impact on small entities based on each of the fee scenarios considered. The tables illustrate an increase/ decrease in fee and average economic impact for each immigration benefit request in each scenario. The decreased form fees shown in parentheses produce negative average economic impacts in scenarios A–F. This indicates that the economic impacts from the decreased fees would create cost savings for individual applicants and petitioners. The evidence suggests that the decreased fees proposed by this rule do not represent a significant economic impact on these entities.

7. *Questions for Comment to Assist Regulatory Flexibility Analysis*

- Please provide comment on the numbers of small entities that may be impacted by this rulemaking.
- Please provide comment on any or all of the provisions in the proposed rule with regard to the economic impact of this rule, paying specific attention to the effect of the rule on small entities in light of the above analysis, as well as the full small entity analysis on *regulations.gov.*
- Please provide comment on any significant alternatives DHS should consider in lieu of the changes proposed by this rule.
- Please describe ways in which the rule could be modified to reduce burdens for small entities consistent with the Immigration and Nationality Act and the Chief Financial Officers Act requirements.
- Please identify all relevant Federal, State or local rules that may duplicate, overlap or conflict with the proposed rule.

C. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (UMRA) is intended, among other things, to curb the practice of imposing unfunded Federal mandates on State, local, and tribal governments. Title II of UMRA requires each Federal agency to prepare a written statement assessing the effects of any Federal mandate in a proposed or final agency rule that may result in a $100 million or more expenditure (adjusted annually for inflation) in any one year by State, local, and tribal governments, in the aggregate, or by the private sector. The value equivalent of $100 million in 1995 adjusted for inflation to 2018 levels by the Consumer Price Index for All Urban Consumers (CPI–U) is $165 million. While this rule may result in the expenditure of more than $100 million by the private sector annually, the rulemaking is not a ''Federal mandate'' as defined for UMRA purposes.[207] The payment of immigration benefit fees by individuals or other private sector entities is, to the extent it could be termed an enforceable duty, one that arises from participation in a voluntary Federal program, applying for immigration status in the United States.[208] Therefore, no actions were

[207] *See* 2 U.S.C. 658(6).

[208] *See* 2 U.S.C. 658(7)(A)(ii).

deemed necessary under the provisions of the UMRA.

D. Congressional Review Act

This proposed rule is a major rule as defined by 5 U.S.C. 804, also known as the Congressional Review Act, as enacted in section 251 of the Small Business Regulatory Enforcement Fairness Act of 1996, Public Law 104–121, 110 Stat. 847, 868 *et seq.* Accordingly, this rule, if enacted as a final rule, would be effective at least 60 days after the date on which Congress receives a report submitted by DHS under the Congressional Review Act, or 60 days after the final rule's publication, whichever is later.

E. Executive Order 13132 (Federalism)

This proposed rule would not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with section 6 of Executive Order 13132, it is determined that this proposed rule does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement.

F. Executive Order 12988 (Civil Justice Reform)

This proposed rule meets the applicable standards set forth in sections 3(a) and 3(b)(2) of Executive Order 12988.

G. Paperwork Reduction Act

Under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501–12, DHS must submit to OMB, for review and approval, any reporting requirements inherent in a rule, unless they are exempt. The Information Collection. table below shows the summary of forms that are part of this rulemaking.

TABLE 30—INFORMATION COLLECTION

OMB No.	Form No.	Form name	Type of information collection
1615–0105	G–28	Notice of Entry of Appearance as Attorney or Accredited Representative.	No material or non- substantive change to a currently approved collection.
1615–0096	G–1041	Genealogy Index Search Request	No material or non- substantive change to a currently approved collection.
	G–1041A	Genealogy Records Request (For each microfilm or hard copy file).	
1615–0079	I–102	Application for Replacement/Initial Nonimmigrant Arrival-Departure Document.	No material or non- substantive change to a currently approved collection.
1615–0111	I–129CW	Petition for a CNMI-Only Nonimmigrant Transitional Worker.	No material or non- substantive change to a currently approved collection.
1615–XXXX	I–129E&TN	Application for Nonimmigrant Worker: E and TN Classifications.	New Collection.
1615–0001	I–129F	Petition for Alien Fiancé(e)	No material or non- substantive change to a currently approved collection.
1615–0009	I–129H1	Petition for Nonimmigrant Worker: H–1 Classifications.	Revision of a Currently Approved Collection.
1615–XXXX	I–129H2A	Petition for Nonimmigrant Worker: H–2A Classification.	New Collection.
1615–XXXX	I–129H2B	Petition for Nonimmigrant Worker: H–2B Classification.	New Collection.
1615–XXXX	I–129L	Petition for Nonimmigrant Worker: L Classifications	New Collection.
1615–XXXX	I–129MISC	Petition for Nonimmigrant Worker: H–3, P, Q, or R Classifications.	New Collection.
1615–XXXX	I–129O	Petition for Nonimmigrant Worker: O Classifications	New Collection.
1615–0012	I–130	Petition for Alien Relative	No material or non- substantive change to a currently approved collection.
	I–130A	Supplemental Information for Spouse Beneficiary.	
1615–0013	I–131	Application for Travel Document	Revision of a Currently Approved Collection.
1615–0135	I–131A	Application for Travel Document (Carrier Documentation).	Revision of a Currently Approved Collection.
1615–0015	I–140	Immigrant Petition for Alien Worker	No material or non- substantive change to a currently approved collection.
1615–0016	I–191	Application for Relief Under Former Section 212(c) of the Immigration and Nationality Act (INA).	No material or non- substantive change to a currently approved collection.
1615–0017	I–192	Application for Advance Permission to Enter as Nonimmigrant.	No material or non- substantive change to a currently approved collection.
1615–0018	I–212	Application for Permission to Reapply for Admission Into the United States After Deportation or Removal.	No material or non- substantive change to a currently approved collection.
1615–0095	I–290B	Notice of Appeal or Motion	No material or non- substantive change to a currently approved collection.
1615–0020	I–360	Petition for Amerasian, Widow(er), or Special Immigrant.	No material or non- substantive change to a currently approved collection.
1615–0023	I–485	Application to Register Permanent Residence or Adjust Status.	No material or non- substantive change to a currently approved collection.
	I–485A	Supplement A to Form I–485, Adjustment of Status Under Section 245(i).	
	I–485J	Confirmation of Bona Fide Job Offer or Request for Job Portability Under INA Section 204(j).	
1615–0026	I–526	Immigrant Petition by Alien Entrepreneur	No material or non- substantive change to a currently approved collection.

TABLE 30—INFORMATION COLLECTION—Continued

OMB No.	Form No.	Form name	Type of information collection
1615–0003	I–539	Application to Extend/Change Nonimmigrant Status	No material or non- substantive change to a currently approved collection.
1615–0067	I–589	Application for Asylum and for Withholding of Removal.	Revision of a Currently Approved Collection.
1615–0028	I–600	Petition to Classify Orphan as an Immediate Relative.	Revision of a Currently Approved Collection.

1615–0032	I–690	Application for Waiver of Grounds of Inadmissibility	No material or non- substantive change to a currently approved collection.
1615–0034	I–694	Notice of Appeal of Decision Under Sections 245A or 210 of the Immigration and Nationality Act.	No material or non- substantive change to a currently approved collection.
1615–0035	I–698	Application to Adjust Status From Temporary to Permanent Resident (Under Section 245A of the INA).	No material or non- substantive change to a currently approved collection.
1615–0038	I–751	Petition to Remove Conditions on Residence	No material or non- substantive change to a currently approved collection.
1615–0040	I–765	Application for Employment Authorization	Revision of a Currently Approved Collection.
1615–0005	I–817	Application for Family Unity Benefits	No material or non- substantive change to a currently approved collection.
1615–0043	I–821	Application for Temporary Protected Status	No material or non- substantive change to a currently approved collection.
1615–0124	I–821D	Consideration of Deferred Action for Childhood Arrivals.	Revision of a Currently Approved Collection.
1615–0044	I–824	Application for Action on an Approved Application or Petition.	No material or non- substantive change to a currently approved collection.
1615–0045	I–829	Petition by Entrepreneur to Remove Conditions on Permanent Resident Status.	No material or non- substantive change to a currently approved collection.
1615–0072	I–881	Application for Suspension of Deportation or Special Rule Cancellation of Removal.	No material or non- substantive change to a currently approved collection.
1615–0082	I–90	Application to Replace Permanent Resident Card	No material or non- substantive change to a currently approved collection.
1615–0048	I–907	Request for Premium Processing Service	No material or non- substantive change to a currently approved collection.
1615–0114	I–910	Application for Civil Surgeon Designation	No material or non- substantive change to a currently approved collection.
1615–0116	I–912	Application for Fee Waiver	Revision of a Currently Approved Collection.
1615–0099	I–914	Application for T nonimmigrant status	No material or non- substantive change to a currently approved collection.
1615–0104	I–918	Application for U nonimmigrant status	No material or non- substantive change to a currently approved collection.
1615–0061	I–924	Application for Regional Designation Center Under the Immigrant Investor Program.	No material or non- substantive change to a currently approved collection.
	I–924A	Annual Certification of Regional Center.	
1615–0106	I–929	Petition for Qualifying Family Member of a U–1 Nonimmigrant.	No material or non- substantive change to a currently approved collection.
1615–0136	I–941	Application for Entrepreneur Parole	No material or non- substantive change to a currently approved collection.
1615–0133	I–942	Application for Reduced Fee	Discontinuation.
1615–0122	Immigrant Fee	Fee paid for immigrant visa processing	No material or non- substantive change to a currently approved collection.
1615–0078	N–300	Application to File Declaration of Intention	No material or non- substantive change to a currently approved collection.
1615–0050	N–336	Request for a Hearing on a Decision in Naturalization Proceedings.	No material or non- substantive change to a currently approved collection.
1615–0052	N–400	Application for Naturalization	No material or non- substantive change to a currently approved collection.

TABLE 30—INFORMATION COLLECTION—Continued

OMB No.	Form No.	Form name	Type of information collection
1615–0056	N–470	Application to Preserve Residence for Naturalization Purposes.	No material or non- substantive change to a currently approved collection.
1615–0091	N–565	Application for Replacement of Naturalization/Citizenship Document.	No material or non- substantive change to a currently approved collection.
1615–0057	N–600	Application for Certification of Citizenship	No material or non- substantive change to a currently approved collection.
1615–0087	N–600K	Application for Citizenship and Issuance of Certificate under Section 322.	No material or non- substantive change to a currently approved collection.

Various USCIS Forms

Under the Paperwork Reduction Act of 1995, Public Law 104–13, all agencies are required to submit to OMB, for review and approval, any reporting requirements inherent in a rule. This rule will require non-substantive edits to the forms listed above with the listed action ''No material/non-substantive change to a currently approved collection.'' These edits include: updates to the fees collected, including changes to the collection of biometric service fees; modification of various form instructions to conform with changes to USCIS Form I–912; modification to USCIS Form N–400 to conform with the discontinuation of USCIS Form I–942; modification to various form instructions to conform with changes to the conditions for fee exemptions; removal of the returned check fee; addition of language regarding delivery requirements of certain secured documents; general language modification of fee activities within various USCIS forms. Accordingly, USCIS has submitted a Paperwork Reduction Act Change Worksheet, Form OMB 83–C, and amended information collection instruments to OMB for review and approval in accordance with the PRA.[209]

USCIS Form I–129H–1

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–0009 in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Petition for a Nonimmigrant Worker: H–1B Classifications.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–129H1; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit; Not-for-profit institutions. USCIS uses the data collected on this form to determine eligibility for the requested nonimmigrant classification and/or requests to extend or change nonimmigrant status. An employer (or agent, where applicable) uses this form to petition USCIS for classification of an alien as an H–1B nonimmigrant. An employer (or agent, where applicable) also uses this form to request an extension of stay of an H–1B or H–1B1 nonimmigrant worker or to change the status of an alien currently in the United States as a nonimmigrant to H–1B or H–1B1. The form serves the purpose of standardizing requests for H–1B and H–1B1 nonimmigrant workers, and ensuring that basic information required for assessing eligibility is provided by the petitioner while requesting that beneficiaries be classified under the H–1B or H–1B1 nonimmigrant employment categories. It also assists USCIS in compiling information required by Congress annually to assess effectiveness and utilization of certain nonimmigrant classifications.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I–129H1 is 358,702 and the estimated hour burden per response is 4 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 1,434,808 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $184,731,530.00.

USCIS Form I–129H2A

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

[209] As stated earlier DHS proposes a biometric services fee of $30 that will be required for certain forms for which it performs intake and biometrics services on behalf of EOIR and to remove the $30 fee for dishonored fee payment instruments. EOIR will make the changes to their affected forms required by this rule by submitting a Paperwork Reduction Act Change Worksheet, Form OMB 83–C, and amended information collection instruments to OMB for review and approval if DHS publishes a final rule to make these proposed changes.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–NEW in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* New Collection.

(2) *Title of the Form/Collection:* Petition for a Nonimmigrant Worker: H–2A Classifications.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–129H2A; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit; Not-for-profit institutions. USCIS uses the data collected on this form to determine eligibility for the requested H–2A nonimmigrant petition and/or requests to extend or change nonimmigrant status. An employer or agent uses this form to petition USCIS for classification of an alien as an H–2A nonimmigrant. An employer or agent also uses this form to request an extension of stay or change of status on behalf of the alien worker. The form serves the purpose of standardizing requests for H–2A nonimmigrant workers, and ensuring that basic information required for assessing eligibility is provided by the petitioner. It also assists USCIS in compiling information required by Congress annually to assess effectiveness and utilization of certain nonimmigrant classifications.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I–129H2A is 9,870 and the estimated hour burden per response is 3 hours; the estimated total number of respondents for the information collection Named Worker Attachment for Form I–129H2A is 68,049 and the estimated hour burden per response is 30 minutes; the estimated total number of respondents for the information collection Joint Employer Supplement for Form I–129H2A is 5,000 and the estimated hour burden per response is 10 minutes.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 64,469.50 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $5,083,050.

USCIS Form I–129H2B

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–NEW in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* New Collection.

(2) *Title of the Form/Collection:* Petition for Nonimmigrant Worker: H–2B Classification.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–129H2B; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit; Not-for-profit institutions. USCIS uses the data collected on this form to determine eligibility for the requested H–2B nonimmigrant petition and/or requests to extend or change nonimmigrant status. An employer or agent uses this form to petition USCIS for classification of an alien as an H–2B nonimmigrant. An employer or agent also uses this form to request an extension of stay or change of status on behalf of the alien worker. The form serves the purpose of standardizing requests for nonimmigrant workers, and ensuring that basic information required for assessing eligibility is provided by the petitioner. It also assists USCIS in compiling information required by Congress annually to assess effectiveness and utilization of certain nonimmigrant classifications.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I–129H2B is 5,922 and the estimated hour burden per response is 3 hours; the estimated total number of respondents for the information collection Named Worker Attachment for Form I–129H2B is 59,325 and the estimated hour burden per response is 0.5 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 47,428.50 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $3,049,830.00.

USCIS Form I–129L

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–NEW in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* New Collection.

(2) *Title of the Form/Collection:* Petition for Nonimmigrant Worker: I–129L Classification.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–129L; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit; Not-for-profit institutions. USCIS uses the data collected on Form I–129L to determine a petitioner and beneficiary's eligibility for L–1A and L–1B classification. The form is also used to determine eligibility for an LZ Blanket petition. An employer uses this form to petition USCIS for classification of the beneficiary as an L–1 nonimmigrant. An employer also uses this form to request an extension of stay or change of status on behalf of the beneficiary. The form standardizes these types of petitioners and ensures that the information required for assessing eligibility is provided by the petitioner about themselves and the beneficiary. The form also enables USCIS to compile data required for an annual report to Congress assessing the effectiveness and utilization of certain nonimmigrant classifications.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I–129L is 42,642 and the estimated hour burden per response is 3 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 127,926 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $21,960,630.00.

USCIS Form I–129O

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–NEW in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* New Collection.

(2) *Title of the Form/Collection:* Petition for Nonimmigrant Worker: O Classification.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–129O; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit; Not-for-profit institutions. USCIS uses the data collected on this form to determine eligibility for the requested nonimmigrant petition and/or requests to extend or change nonimmigrant status. An employer or agent uses this form to petition USCIS for classification of an alien as an O nonimmigrant worker. An employer or agent also uses this form to request an extension of stay or change of status on behalf of the alien worker. The form serves the purpose of standardizing requests for nonimmigrant workers, and ensuring that basic information required for assessing eligibility is provided by the petitioner while requesting that beneficiaries be classified under certain nonimmigrant employment categories. It also assists USCIS in compiling information required by Congress annually to assess effectiveness and utilization of certain nonimmigrant classifications.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I–129O is 20,652 and the estimated hour burden per response is 3 hours; the estimated total number of respondents for the information collection Attachment 1—Additional Beneficiary for Form I–129O is 1,012 and the estimated hour burden per response is 0.5 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 62,462 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this

collection of information is $10,635,780.00.

USCIS Form I–129MISC

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–NEW in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* New Collection.

(2) *Title of the Form/Collection:* Petition for Nonimmigrant Worker: H–3, P, Q, or R Classification.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–129MISC; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit; Not-for-profit institutions. USCIS uses the data collected on this form to determine eligibility for the requested nonimmigrant classification and/or requests to extend or change nonimmigrant status. An employer (or agent, where applicable) uses this form to petition USCIS for classification of an alien as an H–3, P, Q, or R nonimmigrant. An employer (or agent, where applicable) also uses this form to request an extension of stay of an H–3, P, Q, or R nonimmigrant worker or to change the status of an alien currently in the United States as a nonimmigrant to H–3, P, Q, or R. The form serves the purpose of standardizing requests for H–3, P, Q, or R nonimmigrant workers, and ensuring that basic information required for assessing eligibility is provided by the petitioner while requesting that beneficiaries be classified under the H–3, P, Q, or R nonimmigrant employment categories. It also assists USCIS in compiling information required by Congress annually to assess effectiveness and utilization of certain nonimmigrant classification.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I–129MISC is 22,378 and the estimated hour burden per response is 3 hours; the estimated total number of respondents for the information collection H–3 Classification Supplement to Form I–129MISC, Petition for Nonimmigrant Worker: H–3, P, Q, or R Classification is 248 and the estimated hour burden per response is 0.25 hours; the estimated total number of respondents for the information collection P Classification Supplement to Form I–129MISC is 6,094 and the estimated hour burden per response is 0.5 hours; the estimated total number of respondents for the information collection Q–1 International Cultural Exchange Alien Supplement to Form I–129MISC is 78 and the estimated hour burden per response is 0.167 hours; the estimated total number of respondents for the information collection R–1 Classification Supplement to Form I–129MISC is 1 and the estimated hour burden per response is 1 hours; the estimated total number of respondents for the information collection Attachment 1—Additional Beneficiary for Form I–129MISC is 6,457 and the estimated hour burden per response is 0.5 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 73,494.53 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $11,524,670.

USCIS Form I–129E&TN

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–NEW in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* New Collection.

(2) *Title of the Form/Collection:* Petition for Nonimmigrant Worker: E and TN Classification.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–129E&TN; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Business or other for-profit; Not-for-profit institutions. USCIS uses the data collected on this form to determine eligibility for the requested nonimmigrant classification and/or requests to extend or change nonimmigrant status. An employer agent, or applicant uses this form to apply to USCIS for classification of an alien as an E–1, E–2, E–3, or TN

nonimmigrant. An employer, agent, applicant, or CNMI investor also uses this form to request an extension of stay in one of these classifications for an alien or for themselves, or to change the status of an alien currently in the United States as a nonimmigrant or their own status if they are currently in the United States as a nonimmigrant to E–1, E–2, E–3, or TN. The form serves the purpose of standardizing requests for nonimmigrant workers in these classifications, and ensuring that basic information required for assessing eligibility is provided by the applicant. It also assists USCIS in compiling information required by Congress annually to assess effectiveness and utilization of certain nonimmigrant classification.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I–129E&TN is 11,860 and the estimated hour burden per response is 3 hours; the estimated total number of respondents for the information collection E–1/E–2 Classification Supplement to Form I–129E&TN is 3,714 and the estimated hour burden per response is 1.45 hours; the estimated total number of respondents for the information collection E–3 Classification Supplement to Form I–129E&TN is 1,857 and the estimated hour burden per response is 1 hours; the estimated total number of respondents for the information collection NAFTA Supplement to Form I–129E&TN is 6,289 and the estimated hour burden per response is 0.5 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 45,966.80 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $6,107,900.

USCIS Form I–131

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–0013 in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Application for Travel Document, Form I–131; Extension, Without Change, of a Currently Approved Collection.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–131; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. Certain aliens, principally permanent or conditional residents, refugees or asylees, applicants for adjustment of status, aliens in Temporary Protected Status (TPS), and aliens abroad seeking humanitarian parole who need to apply for a travel document to lawfully enter or reenter the United States. Eligible recipients of Deferred Action for Childhood Arrivals (DACA) may now request an advance parole documents based on humanitarian, educational and employment reasons. Lawful permanent residents may now file requests for travel permits (transportation letter or boarding foil).

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection I–131 is 464,900 and the estimated hour burden per response is 1.9 hours; the estimated total number of respondents for biometrics processing is 86,000 and the estimated hour burden per response is 1.17 hours, the estimated total number of respondents for passport-style photos is 360,000 and the estimated hour burden per response is 0.5 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 1,163,930 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $143,254,100.

USCIS Form I–131A

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–0135 in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Application for Carrier Documentation.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–131A; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. USCIS uses the information provided on Form I–131A to verify the status of permanent or conditional residents, and determine whether the applicant is eligible for the requested travel document.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I–131A is 5,100 and the estimated hour burden per response is .92 hours; biometrics processing is 5,100 and the estimated hour burden per response is 1.17 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 10,659 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $919,275.

USCIS Form I–589

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–0067 in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Application for Asylum and for Withholding of Removal.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–589; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. Form I–589 is necessary to determine whether an alien applying for asylum and/or withholding of removal in the United States is classified as refugee, and is eligible to remain in the United States.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of USCIS respondents for the information collection in Form I–589 is approximately 114,000, and the estimated annual respondents for Form I–589 filed with DOJ is approximately 150,000. The estimated hour burden per response is 13 hours per response; and the estimated number of respondents providing biometrics to USCIS is 110,000, and to DOJ (collected on their behalf by USCIS) is 150,000. The estimated hour burden per response for biometrics submissions is 1.17 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection for USCIS is 1,610,700 hours, and for DOJ is 2,125,500.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information for USCIS is estimated to be $44,688,000 and for DOJ is 59 million.

USCIS Form I–600, I–600A, Supplement 1, Supplement 2, Supplement 3

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–0028 in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Petition to Classify Orphan as an Immediate Relative; Application for Advance Processing of an Orphan Petition; Supplement 1, Listing of an Adult Member of the Household; Supplement 2, Consent to Disclose Information; Supplement 3, Request for Action on Approved Form I–600A/I–600.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* Form I–600, Form I–600A, Form I–600A/I–600 Supplement 1, Form I–600A/I–600 Supplement 2, Form I–600A/I–600 Supplement 3; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. A U.S. citizen adoptive parent may file a petition to classify an orphan as an immediate relative through Form I–600 under section 101(b)(1)(F) of the INA. A U.S. citizen prospective adoptive parent may file Form I–600A in advance of the Form I–600 filing and USCIS will make a determination regarding the prospective adoptive parent's eligibility to file Form I–600A and his or her suitability and eligibility to properly parent an orphan. A U.S. citizen prospective/adoptive parent may file a petition to classify an orphan as an immediate relative under section 201(b)(2)(A) of the INA through Form I–600. If there are other adult members of the U.S. citizen prospective/adoptive parent's household, as defined at 8 CFR 204.301, the prospective/adoptive parent must include Form I–600A/I–600 Supplement 1 when filing both Form I–600A and Form I–600. A Form I–600A/I–600 Supplement 2, Consent to Disclose Information, is an optional form that a U.S. citizen prospective/adoptive parent may file to authorize USCIS to disclose case-related information that would otherwise be protected under the Privacy Act, 5 U.S.C. 552a, to adoption service providers or other individuals. Form I–600A/I–600 authorized disclosures will assist USCIS in the adjudication of Forms I–600A and I–600. USCIS has created a new Form I–600A/I–600 Supplement 3, Request for Action on Approved Form I–600A/I–600, for this information collection. Form I–600A/I–600 Supplement 3 is a form that prospective/adoptive parents must use if they need to request action such as an extended or updated suitability determination based upon a significant change in their circumstances or change in the number or characteristics of the children they intend to adopt, a change in their intended country of adoption, or a request for a duplicate notice of their approved Form I–600A suitability determination.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I–600 is 1,200 and the estimated hour burden per response is 1 hour; the estimated total number of respondents for the information collection Form I–600A is 2,000 and the estimated hour burden per response is 1 hour; the estimated total number of respondents for the information collection Form I–600/I–600A Supplement 1 is 301 and the estimated hour burden per response is 1 hour; the estimated total number of respondents for the information collection Form I–600/I–600A Supplement 2 is 1,260 and the estimated hour burden per response is 0.25 hours; the estimated total number of respondents for the information collection Form I–600/I–600A Supplement 3 is 1,286 and the estimated hour burden per response is 1 hours; the estimated total number of respondents for the Home Study information collection is 2,500 and the estimated hour burden per response is 25 hours; the estimated total number of respondents for the Biometrics information collection is 2,520 and the estimated hour burden per response is 1.17 hours; the estimated total number of respondents for the Biometrics—DNA information collection is 2 and the estimated hour burden per response is 6 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 70,562.40 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $7,759,232.

USCIS Form I–765

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–0040 in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Application for Employment Authorization.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–765; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. USCIS uses Form I–765 to collect information needed to determine if an alien is eligible for an initial EAD, a new replacement EAD, or a subsequent EAD upon the expiration of a previous EAD under the same eligibility category. Aliens in many immigration statuses are required to possess an EAD as evidence of work authorization.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection I–765 is 2,096,000 and the estimated hour burden per response is 4.5 hours; the estimated total number of respondents for the information collection I–765WS is 41,912 and the estimated hour burden per response is 0.5 hours; the estimated total number of respondents for the information collection biometrics is 42,387 and the estimated hour burden per response is 1.17 hours; the estimated total number of respondents for the information collection passport photos is 2,096,000 and the estimated hour burden per response is 0.5 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 10,550,549 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $367,575,520.

USCIS Form I–821D

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–0124 in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Consideration of Deferred Action for Childhood Arrivals.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* Form I–821D; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. As part of the administration of its programs, USCIS exercises its prosecutorial discretion on a case-by-case basis to defer action on instituting removal proceedings against individuals.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection I–821D Initial Request is 40,819 and the estimated hour burden per response is 3.08 hours. The estimated total number of respondents for the information collection I–821D Renewal Request is 418,775 and the estimated hour burden per response is 3.08 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 1,415,550 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $50,555,340.

USCIS Form I–912

DHS and USCIS invite the general public and other Federal agencies to comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–0116 in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Application for Fee Waiver.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I–912; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. USCIS uses the data collected on this form to verify that the applicant is unable to pay for the immigration benefit being requested. USCIS will consider waiving a fee for an application or petition when the applicant or petitioner clearly demonstrates that he or she is unable to pay the fee. Form I–912 standardizes the collection and analysis of statements and supporting documentation provided by the applicant with the fee waiver request. Form I–912 also streamlines and expedites USCIS' review, approval, or denial of the fee waiver request by clearly laying out the most salient data and evidence necessary for the determination of inability to pay. Officers evaluate all factors, circumstances, and evidence supplied in support of a fee waiver request when making a final determination. Each case is unique and is considered on its own merits. If the fee waiver is granted, the application will be processed. If the fee waiver is not granted, USCIS will notify the applicant and instruct him or her to file a new application with the appropriate fee.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection I–912 is 116,323 and the estimated hour burden per response is 1.17 hours; the estimated total number of respondents for the information collection DACA Exemptions is 108 and the estimated hour burden per response is 1.17 hours; the estimated total number of respondents for the information collection 8 CFR 103.7(d) Director's exception request is 20 and the estimated hour burden per response is 1.17 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 136,247.67 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is $436,211.25.

USCIS Form I–942

Under the Paperwork Reduction Act of 1995, Public Law 104–13, all agencies are required to submit to OMB, for review and approval, any reporting requirements inherent in a rule. Although this rule does not impose any new reporting or recordkeeping requirements under the PRA, this rule will require the discontinuation of USCIS Form I–942, Request for Reduced Fee. This discontinuation results from the Notice of Proposed Rulemaking eliminating the option to request a reduced fee, which makes the Form I–942 unnecessary. Accordingly, USCIS has submitted a Paperwork Reduction Act Change Worksheet, Form OMB 83–C, and amended information collection instruments to OMB for review and approval in accordance with the PRA.

Differences in information collection request respondent volume and fee model filing volume projections.

DHS notes that the estimates of annual filing volume in the PRA section of this preamble are not the same as those used in the model used to calculate the fee amounts proposed in this rule. For example, the fee calculation model estimates 163,000 annual Form I–589 filings while the PRA section estimates the average annual number of respondents will be 114,000. The model projects 2,851,000 Form I–765 filings while the estimated total number of respondents for the information collection I–765 is 2,096,000. As stated in section IV.B.1.a of this preamble, the VPC forecasts USCIS workload volume using based on short- and long-term volume trends and time series models, historical receipts data, patterns (such as level, trend, and seasonality) or correlations with historical events to forecast receipts. Workload volume is used to determine the USCIS resources needed to process benefit requests and is the primary cost driver for assigning activity costs to immigration benefits and biometric services in the USCIS ABC model. DHS uses a different method for estimating the average annual number of respondents for the information collection over the three-year OMB approval of the control number, generally basing the estimate on the average filing volumes in the previous 3 of 5 year period, with less consideration of the volume effects on planned or past policy changes. Nevertheless, when the information collection request is nearing expiration USCIS will update the estimates of annual respondents based on actual results in the submission to OMB. The PRA burden estimates are generally updated at least every three years. Thus, DHS expects that the PRA estimated annual respondents will be updated to reflect the actual effects of this proposed rule within a relatively short period after a final rule takes effect.

H. National Environmental Policy Act

DHS Directive (Dir) 023–01 Rev. 01 establishes the procedures that DHS and its components use to comply with the National Environmental Policy Act (NEPA) and the Council on Environmental Quality (CEQ) regulations for implementing NEPA. 40 CFR parts 1500–1508.[210] The CEQ regulations allow Federal agencies to establish, with CEQ review and concurrence, categories of actions (''categorical exclusions'') which experience has shown do not individually or cumulatively have a significant effect on the human environment and, therefore, do not require an Environmental Assessment or Environmental Impact Statement. 40 CFR 1507.3(b)(2)(ii) and 1508.4. Dir. 023–01 Rev. 01 establishes categorical exclusions that DHS has found to have no such effect. Dir. 023–01 Rev. 01 Appendix A Table 1. For an action to be categorically excluded from further NEPA review, Dir. 023–01 Rev. 01 requires the action to satisfy each of the following three conditions: (1) The entire action clearly fits within one or more of the Categorical Exclusions; (2) the action is not a piece of a larger action; and (3) no extraordinary circumstances exist that create the potential for a significant environmental effect. Dir. 023–01 Rev. 01 section V.B (1)–(3).

The Department analyzed this proposed action and concluded that NEPA does not apply because, as discussed above, the potential impacts of the rule are not amenable to further an analysis which is generally unquantifiable, largely because of the lack of any direct causal relationship between the rule and any specific impact that might be asserted from generalized population growth or otherwise. Attempts at more detailed analysis would be excessively speculative. Nevertheless, even if NEPA did apply to this action, the action clearly would come within categorical exclusion A3(d) in Dir. 023–01 Rev. 01, Appendix A, Table 1, for rules that interpret or amend an existing regulation without changing its environmental effect. This rule is not part of a larger action and presents no extraordinary circumstances creating the potential for significant environmental effects. Therefore, if NEPA were determined to apply, this rule would be categorically excluded from further NEPA review.

[210] See also DHS, Implementing the National Environmental Policy Act, *https://www.dhs.gov/publication/directive-023-01-rev-01-and-instruction-manual-023-01-001-01-rev-01-and-catex* (last published Feb. 21, 2019).

List of Subjects

8 CFR Part 103

Administrative practice and procedures, Authority delegations (government agencies), Freedom of Information, Privacy, Reporting and recordkeeping requirements, and Surety bonds.

8 CFR Part 106

Immigration, User fees.

8 CFR Part 204

Administrative practice and procedure, Immigration, Reporting and recordkeeping requirements.

8 CFR Part 211

Documentary requirements: immigrants; waivers.

Accordingly, DHS proposes to amend chapter I of title 8 of the Code of Federal Regulations as follows:

PART 103—IMMIGRATION BENEFIT REQUESTS; USCIS FILING REQUIREMENTS; BIOMETRIC REQUIREMENTS; AVAILABILITY OF RECORDS

■ 1. The authority citation for part 103 continues to read as follows:

Authority: 5 U.S.C. 301, 552, 552a; 8 U.S.C. 1101, 1103, 1304, 1356, 1356b, 1372; 31 U.S.C. 9701; Pub. L. 107–296, 116 Stat. 2135 (6 U.S.C. 101 *et seq.*); E.O. 12356, 47 FR 14874, 15557, 3 CFR, 1982 Comp., p. 166; 8 CFR part 2; Pub. L. 112–54, 125 Stat 550 (8 U.S.C. 1185 note).

■ 2. The heading for part 103 is revised to read as set forth above.

■ 3. Section 103.2 amended:

■ a. By revising the last sentence of paragraph (a)(1);

■ b. By revising paragraph (a)(7)(ii)(D);

■ c. In paragraph (b)(9) introductory text by removing ''8 CFR 103.7(b)(1)(i)(C)'' and adding in its place ''8 CFR 106.2'' in the second sentence; and

■ d. By revising paragraph (b)(19)(iii).

The revisions read as follows:

§ 103.2 Submission and adjudication of benefit requests.

(a) * * *

(1) * * * Filing fees generally are non-refundable regardless of if the benefit request is approved or denied, or how much time the adjudication requires. Except as otherwise provided

in this chapter I, fees must be paid when the benefit request is filed.

* * * * *

(7) * * *

(ii) * * *

(D) *Submitted with the correct fee(s).* If a check or other financial instrument used to pay a fee is returned as unpayable because of insufficient funds, USCIS will resubmit the payment to the remitter institution one time. If the instrument used to pay a fee is returned as unpayable a second time, the filing may be rejected. Financial instruments returned as unpayable for a reason other than insufficient funds will not be redeposited. If a check or other financial instrument used to pay a fee is dated more than one year before the request is received, the payment and request may be rejected.

* * * * *

(b) * * *

(19) * * *

(iii) *Secure identity documents.* (A) USCIS will send secure identification documents, such as a Permanent Resident Card or Employment Authorization Document, only to the applicant or self-petitioner unless the applicant or self-petitioner specifically consents to having his or her secure identification document sent to a designated agent, their attorney or accredited representative or record, as specified on the form instructions.

(B) The designated agent, or attorney or accredited representative, will be required to provide identification and sign for receipt of the secure document.

* * * * *

§ 103.3 [Amended]

■ 4. Section 103.3 is amended by removing ''§ 103.7 of this part'' and adding in its place ''8 CFR 106.2'' in paragraph (a)(2)(i).

§ 103.5 [Amended]

■ 5. Section 103.5 is amended by removing ''§ 103.7'' and adding in its place ''8 CFR 106.2'' in paragraph (a)(1)(iii)(B).

■ 6. Section 103.7 is revised to read as follows:

§ 103.7 Fees.

(a) *DOJ fees.* Fees for proceedings before immigration judges and the Board of Immigration Appeals are described in 8 CFR 1003.8, 1003.24, and 1103.7.

(1) *USCIS may accept DOJ fees.* Except as provided in 8 CFR 1003.8, or as the Attorney General otherwise may provide by regulation, any fee relating to any EOIR proceeding may be paid to USCIS. Payment of a fee under this section does not constitute filing of the document with the Board or with the immigration court. DHS will provide the payer with a receipt for a fee and return any documents submitted with the fee relating to any immigration court proceeding.

(2) *DHS–EOIR biometric services fee.* Fees paid to and accepted by DHS relating to any immigration proceeding as provided in 8 CFR 1103.7(a)(3) must include an additional $30 for DHS to collect, store, and use biometric information.

(3) *Waiver of Immigration Court fees.* An immigration judge or the Board may waive any fees prescribed under this chapter for cases under their jurisdiction to the extent provided in 8 CFR 1003.8 and 1003.24.

(b) *USCIS fees.* USCIS fees will be required as provided in 8 CFR part 106.

(c) *Remittances.* Remittances to the Board of Immigration Appeals must be made payable to the ''United States Department of Justice,'' in accordance with 8 CFR 1003.8.

(d) *Non-USCIS DHS immigration fees.* The following fees are applicable to one or more of the immigration components of DHS:

(1) *DCL System Costs Fee.* For use of a Dedicated Commuter Lane (DCL) located at specific U.S. ports-of-entry by an approved participant in a designated vehicle:

(i) $80.00, or

(ii) $160.00 for a family (applicant, spouse and minor children); plus,

(iii) $42 for each additional vehicle enrolled.

(iv) The fee is due after approval of the application but before use of the DCL.

(v) This fee is non-refundable, but may be waived by DHS.

(2) *Petition for Approval of School for Attendance by Nonimmigrant Student* (*Form I–17*). (i) For filing a petition for school certification: $3,000 plus, a site visit fee of $655 for each location required to be listed on the form;

(ii) For filing a petition for school recertification: $1,250, plus a site visit fee of $655 for each new location required to be listed on the form.

(3) *Form I–68.* For application for issuance of the Canadian Border Boat Landing Permit under section 235 of the Act:

(i) $16.00, or

(ii) $32 for a family (applicant, spouse and unmarried children under 21 years of age, and parents of either spouse).

(4) *Form I–94.* For issuance of Arrival/Departure Record at a land border port-of-entry: $6.00.

(5) *Form I–94W.* For issuance of Nonimmigrant Visa Waiver Arrival/Departure Form at a land border port-of-entry under section 217 of the Act: $6.00.

(6) *Form I–246.* For filing application for stay of deportation under 8 CFR part 243: $155.00.

(7) *Form I–823.* For application to a PORTPASS program under section 286 of the Act:

(i) $25.00, or

(ii) $50.00 for a family (applicant, spouse, and minor children).

(iii) The application fee may be waived by DHS.

(iv) If fingerprints are required, the inspector will inform the applicant of the current Federal Bureau of Investigation fee for conducting fingerprint checks prior to accepting the application fee.

(v) The application fee (if not waived) and fingerprint fee must be paid to CBP before the application will be processed. The fingerprint fee may not be waived.

(vi) For replacement of PORTPASS documentation during the participation period: $25.00.

(8) Fee Remittance for F, J, and M Nonimmigrants (*Form I–901*). The fee for Form I–901 is:

(i) For F and M students: $350.

(ii) For J–1 au pairs, camp counselors, and participants in a summer work or travel program: $35.

(iii) For all other J exchange visitors (except those participating in a program sponsored by the Federal Government): $220.

(iv) There is no Form I–901 fee for J exchange visitors in federally funded programs with a program identifier designation prefix that begins with G–1, G–2, G–3, or G–7.

(9) *Special statistical tabulations:* The DHS cost of the work involved.

(10) *Monthly, semiannual, or annual ''Passenger Travel Reports via Sea and Air'' tables*:

(i) For the years 1975 and before: $7.00.

(ii) For after 1975: Contact: U.S. Department of Transportation, Transportation Systems Center, Kendall Square, Cambridge, MA 02142.

(11) *Request for Classification of a citizen of Canada to engage in professional business activities pursuant to section 214(e) of the Act (Chapter 16 of the North American Free Trade Agreement).* $50.00.

(12) *Request for authorization for parole of an alien into the United States.* $65.00.

(13) *Global Entry.* Application for Global Entry: $100.

(14) *U.S. Asia-Pacific Economic Cooperation (APEC) Business Travel Card.* Application fee: $70.

(15) *Notice of Appeal or Motion (Form I–290B) filed with ICE SEVP.* For a Form

I–290B filed with the Student and Exchange Visitor Program (SEVP): $675.

■ 7. Section 103.17 is revised to read as follows:

§ 103.17 Biometric services fee.

DHS may charge a fee to collect biometric information, to provide biometric collection services, to conduct required national security and criminal history background checks, to verify an individual's identity, and to store and maintain this biometric information for reuse to support other benefit requests. If a request for immigration benefits must be submitted with a biometric services fee, 8 CFR part 106 will contain the requirement. When a biometric services fee is required, a benefit request submitted without the correct biometric services fee may be rejected.

■ 8. Section 103.40 is revised to read as follows:

§ 103.40 Genealogical research requests.

(a) *Nature of requests.* Genealogy requests are requests for searches and/or copies of historical records relating to a deceased person, usually for genealogy and family history research purposes.

(b) *Forms.* (1) USCIS provides on its website at *https://www.uscis.gov/genealogy* the required forms in electronic versions: Genealogy Index Search Request, or Genealogy Records Request.

(c) *Required information.* Genealogical Research Requests may be submitted to request one or more separate records relating to an individual. A separate request must be submitted for each individual searched. All requests for records or index searches must include the individual's:

(i) Full name (including variant spellings of the name and/or aliases, if any).

(ii) Date of birth, at least as specific as a year.

(iii) Place of birth, at least as specific as a country and preferably the country name at the time of the individual's immigration or naturalization.

(d) *Optional information.* To better ensure a successful search, a Genealogical Research Request may include each individual's:

(i) Date of arrival in the United States.

(ii) Residence address at time of naturalization.

(iii) Names of parents, spouse, and children if applicable and available.

(d) *Additional information required to retrieve records.* For a Genealogy Records Request, requests for copies of historical records or files must:

(i) Identify the record by number or other specific data used by the Genealogy Program Office to retrieve the record as follows:

(A) C-Files must be identified by a naturalization certificate number.

(B) Forms AR–2 and A-Files numbered below 8 million must be identified by Alien Registration Number.

(C) Visa Files must be identified by the Visa File Number. Registry Files must be identified by the Registry File Number (for example, R–12345).

(e) *Information required for release of records.* (1) Documentary evidence must be attached to a Genealogy Records Request or submitted in accordance with the instructions on the Genealogy Records Request form.

(2) Search subjects will be presumed deceased if their birth dates are more than 100 years before the date of the request. In other cases, the subject is presumed to be living until the requestor establishes to the satisfaction of USCIS that the subject is deceased.

(3) Documentary evidence of the subject's death is required (including but not limited to death records, published obituaries or eulogies, published death notices, church or bible records, photographs of gravestones, and/or copies of official documents relating to payment of death benefits).

(f) *Index search.* Requestors who are unsure whether USCIS has any record of their ancestor, or who suspect a record exists but cannot identify that record by number, may submit a request for index search. An index search will determine the existence of responsive historical records. If no record is found, USCIS will notify the requestor accordingly. If records are found, USCIS will give the requestor electronic copies of records stored in digital format for no additional fee. For records found that are stored in paper format, USCIS will give the requestor the search results, including the type of record found and the file number or other information identifying the record. The requestor can use index search results to submit a Genealogy Records Request.

(g) *Processing of paper record copy requests.* This service is designed for requestors who can identify a specific record or file to be retrieved, copied, reviewed, and released. Requestors may identify one or more files in a single request.

§ 103.41 [Removed and Reserved]

■ 9. Section 103.41 is removed and reserved.

■ 10. Part 106 is added to read as follows:

PART 106—USCIS FEE SCHEDULE

Sec.

106.1 Fee requirements.
106.2 Fees.
106.3 Fee waivers and exemptions.
106.4 Premium processing service.
106.5 Authority to certify records.
106.6 DHS severability.

Authority: 8 U.S.C. 1101, 1103, 1254a, 1254b, 1304, 1356; Pub. L. 107–609; Pub. L. 115–218.

§ 106.1 Fee requirements.

(a) Fees must be submitted with any USCIS benefit request or other request in the amount and subject to the conditions provided in this part and remitted in the manner prescribed in the relevant form instructions, on the USCIS website, or in a **Federal Register** document. The fees established in this part are associated with the benefit, the adjudication, or the type of request and not solely determined by the form number listed below.

(b) Fees must be remitted from a bank or other institution located in the United States and payable in U.S. currency. The fee must be paid using the method that USCIS prescribes for the request, office, filing method, or filing location, as provided in the form instructions or by individual notice.

(c) If a remittance in payment of a fee or any other matter is not honored by the bank or financial institution on which it is drawn:

(1) The provisions of 8 CFR 103.2(a)(7)(ii) apply, no receipt will be issued, and if a receipt was issued, it is void and the benefit request loses its receipt date; and

(2) If the benefit request was approved, the approval may be revoked upon notice. If the approved benefit request requires multiple fees, this provision will apply if any fee submitted is not honored. Other fees that were paid for a benefit request that is revoked under this provision will be retained and not refunded. A revocation of an approval because the fee submitted is not honored may be appealed to the USCIS Administrative Appeals Office, in accordance with 8 CFR 103.3 and the applicable form instructions.

§ 106.2 Fees.

(a) *I Forms*—(1) *Application to Replace Permanent Resident Card, Form I–90.* For filing an application for a Permanent Resident Card, Form I–551, to replace an obsolete card or to replace one lost, mutilated, or destroyed, or for a change in name: $415.

(2) *Application for Replacement/Initial Nonimmigrant Arrival-Departure Document, Form I–102.* For filing an application for Arrival/Departure Record Form I–94, or Crewman's Landing Permit Form I–95, to replace one lost, mutilated, or destroyed: $490.

(i) For nonimmigrant member of in the U.S. armed forces: No fee for initial filing;

(ii) For a nonimmigrant member of the North Atlantic Treaty Organization (NATO) armed forces or civil component: No fee for initial filing;

(iii) For nonimmigrant member of the Partnership for Peace military program under the Status of Forces Agreement (SOFA): No fee for initial filing.

(3) *Petition or Application for a Nonimmigrant Worker.* For filing a petition or application for a nonimmigrant worker:

(i) Petition for H–1B Nonimmigrant Worker or H–1B1 Free Trade Nonimmigrant Worker, Form I–129H1: $560.

(ii) Petition for H–2A Nonimmigrant Worker, Form I–129H2A, with 1 to 25 named beneficiaries: $860.

(iii) Petition for H–2A Nonimmigrant Worker, Form I–129H2A, with only unnamed beneficiaries: $425.

(iv) Petition for H–2B Nonimmigrant Worker, Form I–129H2B, with 1 to 25 named beneficiaries: $725.

(v) Petition for H–2B Nonimmigrant Worker, Form I–129H2B, with only unnamed beneficiaries: $395.

(vi) Petition for L Nonimmigrant Worker, Form I–129L: $815.

(vii) Petition for O Nonimmigrant Worker, Form I–129O, with 1 to 25 named beneficiaries: $715.

(viii) Petition or Application for E, H–3, P, Q, R, or TN Nonimmigrant Worker, Forms I–129E or I–129MISC, with 1 to 25 named beneficiaries: $705.

(4) *Petition for a CNMI-Only Nonimmigrant Transitional Worker, Form I–129CW.* For an employer to petition on behalf of beneficiaries in the Commonwealth of the Northern Mariana Islands (CNMI): $705.

(i) Additional fees in 8 CFR 106.2(c) may apply.

(5) *Petition for Alien Fiancé(e),* Form I–129F:

(i) For filing a petition to classify a nonimmigrant as a fiancée or fiancé under section 214(d) of the Act: $520.

(ii) For a K–3 spouse as designated in 8 CFR 214.1(a)(2) who is the beneficiary of an immigrant petition filed by a U.S. citizen on a Petition for Alien Relative, Form I–130: No fee.

(6) *Petition for Alien Relative,* Form I–130. For filing a petition to classify status of a foreign national relative for issuance of an immigrant visa under section 204(a) of the Act: $555.

(7) *Application for Travel Document, Form I–131.* For filing an application for travel document:

(i) $145 for a Refugee Travel Document for someone 16 or older.

(ii) $115 for a Refugee Travel Document for a child under 16.

(iii) $585 for advance parole and any other travel document.

(iv) There is no fee for applicants who filed USCIS Form I–485 on or after July 30, 2007, and before [EFFECTIVE DATE OF THE FINAL RULE], and paid the Form I–485 fee, or for applicants for Special Immigrant Status based on an approved Form I–360 as an Afghan or Iraqi Interpreter, or Iraqi National employed by or on behalf of the U.S. Government or Afghan National employed by the U.S. Government or the International Security Assistance Forces (''ISAF'').

(8) *Application for Carrier Documentation, Form I–131A.* For filing an application to allow a lawful permanent resident to apply for a travel document (carrier documentation) to board an airline or other transportation carrier to return to the United States: $1,010.

(9) *Immigrant Petition for Alien Worker, Form I–140.* For filing a petition to classify preference status of an alien on the basis of profession or occupation under section 204(a) of the Act: $545.

(10) *Application for Relief Under Former Section 212(c) of the Immigration and Nationality Act (INA), Form I–191.* For filing an application for discretionary relief under section 212(c) of the Act: $800.

(11) *Application for Advance Permission to Enter as a Nonimmigrant, Form I–192.* For filing an application for discretionary relief under section 212(d)(3), (d)(13), or (d)(14) of the Act, except in an emergency case or where the approval of the application is in the interest of the U.S. Government: $1,415.

(12) *Application for Waiver of Passport and/or Visa, Form I–193.* For filing an application for waiver of passport and/or visa: $2,790.

(13) *Application for Permission to Reapply for Admission into the United States After Deportation or Removal, Form I–212.* For filing an application for permission to reapply for admission by an excluded, deported or removed alien, an alien who has fallen into distress, an alien who has been removed as an alien enemy, or an alien who has been removed at government expense: $1,040.

(14) *Notice of Appeal or Motion, Form I–290B.* For appealing a decision under the immigration laws in any type of proceeding over which the Board of Immigration Appeals does not have appellate jurisdiction: $705. The fee will be the same for appeal of a denial of a benefit request with one or multiple beneficiaries. There is no fee for an appeal or motion associated with a denial of a petition for a special immigrant visa filed by or on behalf of an individual seeking special immigrant status as an Iraqi or Afghan national who was employed by or on behalf of the U.S. Government in Iraq or Afghanistan.

(15) *Petition for Amerasian, Widow(er), or Special Immigrant, Form I–360.* For filing a petition for an Amerasian, Widow(er), or Special Immigrant: $455. The following requests are exempt from this fee:

(i) A petition seeking classification as an Amerasian;

(ii) A self-petition for immigrant status as an abused spouse or child of a U.S. citizen or lawful permanent resident or an abused parent of a U.S. citizen son or daughter; or

(iii) A petition for special immigrant juvenile classification; or

(iv) A petition seeking special immigrant visa or status an Iraqi or Afghan national who was employed by or on behalf of the U.S. Government in Iraq or Afghanistan.

(16) *Application to Register Permanent Residence or Adjust Status, Form I–485.* For filing an application for permanent resident status or creation of a record of lawful permanent residence $1,120. There is no fee if an applicant is filing as a refugee under section 209(a) of the Act or for applicants for Special Immigrant Status based on an approved Form I–360 as an Afghan or Iraqi Interpreter, or Iraqi National employed by or on behalf of the U.S. Government or Afghan National employed by the U.S. Government or the International Security Assistance Forces (''ISAF'').

(17) *Application to Adjust Status under Section 245(i) of the Act, Form I–485 Supplement A.* Supplement A to Form I–485 for persons seeking to adjust status under the provisions of section 245(i) of the Act: A sum of $1,000 must be paid while the applicant's *Application to Register Permanent Residence or Adjust Status* is pending, unless payment of the additional sum is not required under section 245(i) of the Act.

(18) *Immigrant Petition by Alien Entrepreneur, Form I–526.* For filing a petition for an alien entrepreneur: $4,015.

(19) *Application To Extend/Change Nonimmigrant Status, Form I–539.* For filing an application to extend or change nonimmigrant status: $400.

(i) For nonimmigrant A, G, and NATO: No fee.

(20) *Application for Asylum and for Withholding of Removal, Form I–589.* For filing an application for asylum status: $50. There is no fee for applications filed by unaccompanied

alien children who are in removal proceedings.

(21) *Petition to Classify Orphan as an Immediate Relative, Form I–600.* For filing a petition to classify an orphan as an immediate relative for issuance of an immigrant visa under section 204(a) of the Act.

(i) There is no fee for the first Form I–600 filed for a child on the basis of an approved Application for Advance Processing of an Orphan Petition, Form I–600A, during the Form I–600A approval or extended approval period.

(ii) Except as specified in (iii) below, if more than one Form I–600 is filed during the Form I–600A approval period, the fee is $810 for the second and each subsequent Form I–600 petition submitted.

(iii) If more than one Form I–600 is filed during the Form I–600A approval period on behalf of beneficiary birth siblings, no additional fee is required.

(22) *Application for Advance Processing of an Orphan Petition, Form I–600A.* For filing an application for determination of suitability and eligibility to adopt an orphan: $810.

(23) *Request for Action on Approved Form I–600A/I–600, Form I–600A/I–600 Supplement 3.* This filing fee is not charged if Form I–600A/I–600 Supplement 3 is filed in order to obtain a first extension of the approval of the Form I–600A or to obtain a first time change of non-Hague Adoption Convention country during the Form I–600A approval period. If Form I–600A/I–600 Supplement 3 is filed in order to request a new approval notice based on a significant change and updated home study, the filing fee is charged unless a first extension of the Form I–600A approval or first time change of non-Hague Adoption Convention country is also being requested on the same Supplement 3. Second or subsequent extensions of the approval of the Form I–600A, second or subsequent changes of non-Hague Adoption Convention country, requests for a new approval notice based on a significant change and updated home study, and requests for a duplicate approval notice are permitted with Form I–600A/I–600 Supplement 3 with the filing fee: $405. Form I–600A/I–600 Supplement 3 cannot be used to extend eligibility to proceed as a Hague Adoption Convention transition case beyond the first extension once the Convention enters into force for the new Convention country. Form I–600A/I–600 Supplement 3 cannot be used to request a change of country to a Hague Adoption Convention transition country for purposes of becoming a transition case if another country was already designated on the Form I–600A or prior change of country request. Form I–600A/I–600 Supplement 3 may only be used to request an increase the number of children the applicant/petitioner is approved to adopt from a transition country if the additional child is a birth sibling of a child who the applicant/petitioner has adopted or is in the process of adopting, as a transition case, and is identified and petitioned for while the Form I–600A approval is valid, unless the new Convention country prohibits such birth sibling cases from proceeding as transition cases.

(24) *Application for Waiver of Ground of Inadmissibility, Form I–601.* For filing an application for waiver of grounds of inadmissibility: $985.

(25) *Application for Provisional Unlawful Presence Waiver, Form I–601A.* For filing an application for provisional unlawful presence waiver: $960.

(26) *Application for Waiver of the Foreign Residence Requirement (under Section 212(e) of the Immigration and Nationality Act, as Amended), Form I–612.* For filing an application for waiver of the foreign-residence requirement under section 212(e) of the Act: $525.

(27) *Application for Status as a Temporary Resident under Section 245A of the Immigration and Nationality Act, Form I–687.* For filing an application for status as a temporary resident under section 245A(a) of the Act: $1,130.

(28) *Application for Waiver of Grounds of Inadmissibility, Form I–690.* For filing an application for waiver of a ground of inadmissibility under section 212(a) of the Act as amended, in conjunction with the application under sections 210 or 245A of the Act, or a petition under section 210A of the Act: $770.

(29) *Notice of Appeal of Decision under Sections 245A or 210 of the Immigration and Nationality Act (or a petition under section 210A of the Act), Form I–694.* For appealing the denial of an application under sections 210 or 245A of the Act, or a petition under section 210A of the Act: $725.

(30) *Application to Adjust Status from Temporary to Permanent Resident (Under Section 245A of the INA), Form I–698.* For filing an application to adjust status from temporary to permanent resident (under section 245A of Pub. L. 99–603): $1,615. The adjustment date is the date of filing of the application for permanent residence or the applicant's eligibility date, whichever is later.

(31) *Petition to Remove Conditions on Residence, Form I–751.* For filing a petition to remove the conditions on residence based on marriage: $760.

(32) *Application for Employment Authorization, Form I–765:* $490. *Application for Employment Authorization for Abused Nonimmigrant Spouse, Form I–765V:* No fee. There is no initial fee for:

(i) An applicant who filed USCIS Form I–485 on or after July 30, 2007, and before [EFFECTIVE DATE OF THE FINAL RULE], and paid the Form I–485 fee;

(ii) Refugees and aliens paroled as refugee;

(iii) Victims of Severe Forms of Trafficking (T–1);

(iv) Nonimmigrant Victim of Criminal Activity (U–1);

(v) Dependents of certain government and internal organizations or NATO personnel;

(vi) N–8 (Parent of alien classed as SK3) and N–9 (Child of N–8) nonimmigrants;

(vi) VAWA Self-Petitioners;

(vii) Applicants for Special Immigrant Status based on an approved Form I–360 as an Afghan or Iraqi Interpreter, or Iraqi National employed by or on behalf of the U.S. Government or Afghan National employed by the U.S. Government or the International Security Assistance Forces (''ISAF''); and

(viii) Aliens granted asylee status (AS1, AS6).

(33) *Petition to Classify Convention Adoptee as an Immediate Relative, Form I–800.* (i) There is no fee for the first Form I–800 filed for a child on the basis of an approved Application for Determination of Suitability to Adopt a Child from a Convention Country, Form I–800A, during the Form I–800A approval period.

(ii) Except as specified in paragraph (a)(33)(iii) of this section, if more than one Form I–800 is filed during the Form I–800A approval period, the fee is $810 for the second and each subsequent Form I–800 petition submitted.

(iii) If more than one Form I–800 is filed during the Form I–800A approval period on behalf of beneficiary birth siblings, no additional fee is required.

(34) *Application for Determination of Suitability to Adopt a Child from a Convention Country, Form I–800A.* For filing an application for determination of suitability and eligibility to adopt a child from a Hague Adoption Convention country: $810.

(35) *Request for Action on Approved Application for Determination of Suitability to Adopt a Child from a Convention Country,* Form I–800A, Supplement 3. This filing fee is not charged if Form I–800A Supplement 3 is filed in order to obtain a first extension of the approval of the Form I–

800A or to obtain a first time change of Hague Adoption Convention country during the Form I–800A approval period. If Form I–800A Supplement 3 is filed in order to request a new approval notice based on a significant change and updated home study, the filing fee is charged unless a first extension of the Form I–800A approval or first time change of Hague Adoption Convention country is also being requested on the same Supplement 3. Second or subsequent extensions of the Form I–800A approval, second or subsequent changes of Hague Adoption Convention country, requests for a new approval notice based on a significant change and updated home study, and requests for a duplicate approval notice are permitted with the filing of a Form I–800A, Supplement 3 and the required filing fee: $405.

(36) *Application for Family Unity Benefits, Form I–817.* For filing an application for voluntary departure under the Family Unity Program: $590.

(37) *Application for Temporary Protected Status, Form I–821.* (i) For first time applicants: $50 or the maximum permitted by section 244(c)(1)(B) of the Act.

(ii) There is no fee for re-registration.

(iii) A Temporary Protected Status (TPS) applicant or re-registrant must pay $30 for biometric services unless exempted in the applicable form instructions.

(38) *Consideration of Deferred Action for Childhood Arrivals, Form I–821D.* (i) For first time requestors: $0.

(ii) The fee for renewal is $275.

(39) *Application for Action on an Approved Application or Petition, Form I–824.* $500.

(40) *Petition by Entrepreneur to Remove Conditions on Permanent Resident Status, Form I–829.* For filing a petition by entrepreneur to remove conditions: $3,900.

(41) *Application for Suspension of Deportation or Special Rule Cancellation of Removal (Pursuant to Section 203 of Pub. L. 105–100), Form I–881.* (i) $1,800 for adjudication by DHS.

(ii) $165 for adjudication by EOIR. If the Form I–881 is referred to the immigration court by DHS the $1,800 fee is required.

(42) *Application for Authorization to Issue Certification for Health Care Workers, Form I–905.* $230.

(43) *Request for Premium Processing Service, Form I–907.* The Request for Premium Processing Service fee will be as provided in 8 CFR 106.4.

(44) *Application for Civil Surgeon Designation, Form I–910.* $650.

(45) *Application for T Nonimmigrant Status, Form I–914.* No fee.

(46) *Petition for U Nonimmigrant Status, Form I–918.* No fee.

(47) *Application for Regional Center Designation under the Immigrant Investor Program, Form I–924.* $17,795.

(48) *Annual Certification of Regional Center, Form I–924A.* To provide updated information and certify that a Regional Center under the Immigrant Investor Program has maintained its eligibility: $4,470.

(49) *Petition for Qualifying Family Member of a U–1 Nonimmigrant, Form I–929.* For a principal U–1 nonimmigrant to request immigration benefits on behalf of a qualifying family member who has never held U nonimmigrant status: $1,515.

(50) *Application for Entrepreneur Parole, Form I–941.* For filing an application for parole for an entrepreneur: $1,200.

(51) *Public charge Bond, Form I–945.* $25.

(52) *Request for Cancellation of Public Charge Bond, Form I–356.* $25.

(b) *N Forms*—(1) *Application to File Declaration of Intention, Form N–300.* For filing an application for declaration of intention to become a U.S. citizen: $1,320.

(2) *Request for a Hearing on a Decision in Naturalization Proceedings (under section 336 of the Act), Form N–336.* For filing a request for hearing on a decision in naturalization proceedings under section 336 of the Act: $1,755. There is no fee for an applicant who has filed an Application for Naturalization under sections 328 or 329 of the Act with respect to military service and whose application has been denied.

(3) *Application for Naturalization, Form N–400.* For filing an application for naturalization: $1,170. No fee is charged an applicant who meets the requirements of sections 328 or 329 of the Act with respect to military service.

(4) *Application to Preserve Residence for Naturalization Purposes, Form N–470.* For filing an application for benefits under section 316(b) or 317 of the Act: $1,600.

(5) *Application for Replacement Naturalization/Citizenship Document, Form N–565.* For filing an application for a certificate of naturalization or declaration of intention in place of a certificate or declaration alleged to have been lost, mutilated, or destroyed; for a certificate of citizenship in a changed name under section 343(c) of the Act; or for a special certificate of naturalization to obtain recognition as a citizen of the United States by a foreign state under section 343(b) of the Act: $545. There is no fee when this application is submitted under 8 CFR 338.5(a) or 343a.1 to request correction of a certificate that contains an error.

(6) *Application for Certificate of Citizenship, Form N–600.* For filing an application for a certificate of citizenship under section 309(c) or section 341 of the Act: $1,015. There is no fee for any application filed by a member or veteran of any branch of the U.S. Armed Forces.

(7) *Application for Citizenship and Issuance of Certificate Under Section 322, Form N–600K.* For filing an application for citizenship and issuance of certificate under section 322 of the Act: $960.

(c) *G Forms, Statutory Fees, and Non-Form Fees*—(1) *Genealogy Index Search Request, Form G–1041:* $240. The fee is due regardless of the search results.

(2) *Genealogy Records Request, Form G–1041A:* $385. USCIS will refund the records request fee when it is unable to locate any file previously identified in response to the index search request.

(3) *USCIS Immigrant Fee.* For DHS domestic processing and issuance of required documents after an immigrant visa is issued by the U.S. Department of State: $200.

(4) *American Competitiveness and Workforce Improvement Act (ACWIA) fee.* For filing certain H–1B petitions as described in 8 CFR 214.2(h)(19) and USCIS form instructions: $1,500 or $750.

(5) *Fraud detection and prevention fee.* (i) For filing certain H–1B and L petitions as described in 8 U.S.C. 1184(c) and USCIS form instructions: $500.

(ii) For filing certain H–2B petitions as described in 8 U.S.C. 1184(c) and USCIS form instructions: $150.

(6) *Fraud detection and prevention fee for CNMI.* For employer petitions in CNMI as described in Public Law 115–218 and USCIS form instructions: $50.

(7) *CNMI education funding fee.* The fee amount will be as prescribed in the form instructions and:

(i) The fee amount must be paid in addition to, and in a separate remittance from, other filing fees;

(ii) Every employer who is issued a permit must pay the education funding fee every year;

(iii) An employer who is issued a permit with a validity period of longer than 1 year must pay the fee for each year of requested validity at the time the permit is requested;

(iv) Beginning in FY 2020, the fee may be adjusted once per year by notice in the **Federal Register** based on the amount of inflation according to the Consumer Price Index for All Urban

Consumers (CPI–U) since the fee was set by law at $200 on July 24, 2018.

(8) *9–11 Response and Biometric Entry-Exit Fee for H–1B Visa.* For all petitioners filing an H–1B petition who employ 50 or more employees in the United States if more than 50 percent of the petitioner's employees in the aggregate are in H–1B, L–1A or L–1B nonimmigrant status, except for petitioners filing an amended petition without an extension of stay request: $4,000. This fee will apply to petitions filed on or before September 30, 2027.

(9) *9–11 Response and Biometric Entry-Exit Fee for L–1 Visa.* For all petitioners filing an L–1 petition who employ 50 or more employees in the United States, if more than 50 percent of the petitioner's employees in the aggregate are in H–1B, L–1A or L–1B nonimmigrant status, except for petitioners filing an amended petition without an extension of stay request: $4,500. This fee will apply to petitions filed on or before September 30, 2027.

(10) *Claimant under section 289 of the Act.* No fee.

§ 106.3 Fee waivers and exemptions.

(a) *Fee waiver.* No fee relating to any benefit request submitted to USCIS may be waived except as provided by section 245(l)(7) of the Act, 8 U.S.C. 1255(l)(7), any other law, or by regulation. Specifically, the following categories of requestors may apply for a waiver of any fees for an immigration benefit and any associated filing up to and including an application for adjustment of status:

(1) Violence Against Women Act (VAWA) self-petitioners as defined under INA 101(a)(51);

(2) T nonimmigrants;

(3) U nonimmigrants;

(4) Battered spouses of A, G, E–3, or H nonimmigrants;

(5) Battered spouses or children of a lawful permanent resident or U.S. citizen as provided under INA 240A(b)(2); and

(6) Applicants for Temporary Protected Status.

(b) *Director's exemption for individual requests.* (1) The Director of USCIS may authorize a waiver on an individual, case-by-case basis of a form fee required by 8 CFR 106.2 that is not otherwise waivable under this section if the Director determines that such action would be in the public interest, the action is consistent with other applicable law, and the waiver is related to one of the following:

(i) Asylees;

(ii) Refugees;

(iii) National security;

(iv) Emergencies or major disasters declared in accordance with 44 CFR part 206, subpart B;

(v) An agreement between the U.S. government and another nation or nations; or

(vi) USCIS error.

(2) The Director may not approve an exception to the requirements under paragraph (d) of this section. An applicant, petitioner, or requestor may not directly submit a request that the Director exercise this authority. This discretionary authority may be delegated only to the USCIS Deputy Director.

(c) *Director's exception.* The Director of USCIS may authorize the waiver, in whole or in part, of a form fee required by 8 CFR 106.2 that is not otherwise waivable under this section, if the Director determines that such action is an emergent circumstance, or if a major natural disaster has been declared in accordance with 44 CFR part 206, subpart B. This discretionary authority may be delegated only to the USCIS Deputy Director. The Director may not waive the requirements of paragraph (d) of this section.

(d) *Eligibility for fee waiver.* A waiver of fees is limited to an alien with an annual household income at or below 125 percent of the Federal Poverty Guidelines as updated periodically in the **Federal Register** by the U.S. Department of Health and Human Services under the authority of 42 U.S.C. 9902(2). In addition, a waiver of fees as provided in paragraphs (b) and (c) of this section may not be provided to a requestor who is seeking an immigration benefit for which he or she:

(1) Is subject the affidavit of support requirements under section 213A of the Act, U.S.C. 1183a or is already a sponsored immigrant as defined in 8 CFR 213a.1; or

(2) Is subject to the public charge inadmissibility ground under section 212(a)(4) of the Act, 8 U.S.C. 1182(a)(4).

(e) *Form required.* A person must submit a request for a fee waiver on the form prescribed by USCIS in accordance with the instructions on the forms.

(f) *Exemptions.* The Director of USCIS may provide an exemption for any fee required by 8 CFR 106.2. This discretionary authority may only be delegated to the USCIS Deputy Director. The Director must determine that such action would be in the public interest, the action is consistent with the applicable law, and the exemption is related to one of the following:

(1) Asylees;

(2) Refugees;

(3) National security;

(4) Emergencies or major disasters declared in accordance with 44 CFR part 206, subpart B;

(5) An agreement between the U.S. government and another nation or nations; or

(6) USCIS error.

(g) *Documentation of gross household income.* A person submitting a request for a fee waiver must submit the following documents as evidence of annual gross household income:

(1) A transcript(s) from the United States Internal Revenue Service (IRS) of the person's IRS Form 1040, U.S. Individual Income Tax Return;

(2) If the person was not required to file a Federal income tax return, he or she must submit their most recent IRS Form W–2, Wage and Tax Statement, Form 1099G, Certain Government Payments, or Social Security Benefit Form SSA–1099, if applicable;

(3) If the person filed a Federal income tax return, and has recently changed employment or had a change in salary, the person must also submit copies of consecutive pay statements (stubs) for the most recent month or longer;

(4) If the person does not have income and has not filed income tax returns, he or she must submit documentation from the IRS that indicates that no Federal income tax transcripts and no IRS Form W–2s were found.

§ 106.4 Premium processing service.

(a) *General.* A person submitting a request to USCIS may request 15 business-day processing of certain employment-based immigration benefit requests.

(b) *Submitting a request.* A request must be submitted on the form prescribed by USCIS and prepared and submitted in accordance with the form instructions. If the request for premium processing is submitted together with the underlying benefit request, all required fees in the correct amount must be paid.

(c) *Fee amount.* The fee amount will be prescribed in the form instructions and:

(1) Must be paid in addition to, and in a separate remittance from, other filing fees.

(2) May be adjusted once per year by notice in the **Federal Register** based on the amount of inflation according to the Consumer Price Index (CPI) since the fee was set by law at $1,000 on June 1, 2001.

(d) *15-day limitation.* USCIS will refund the premium processing service fee, but continue to process the case if:

(1) USCIS does not issue a notice of any adjudicative action by the end of the 15th business day from the date USCIS accepted a properly filed request for premium processing for an eligible

employment-based immigration benefit request, including all required fees. The adjudicative action is evidenced by the notification of, but not necessarily receipt of, an approval, denial, request for evidence (RFE) or notice of intent to deny (NOID); or

(2) USCIS does not issue a notice of a subsequent adjudicative action by the end of the 15th business-day from the date USCIS received the response to an RFE or NOID. In premium processing cases where USCIS issues an RFE or NOID within 15 business days from the initial date of acceptance, a new 15-day period begins on the date that USCIS receives the response to the RFE or NOID.

(3) USCIS may retain the premium processing fee and not reach a conclusion on the request within 15 business days, and not notify the person who filed the request, if USCIS opens an investigation for fraud or misrepresentation relating to the benefit request.

(e) *Requests eligible for premium processing.* (1) USCIS will designate the categories of employment-based benefit requests that are eligible for premium processing.

(2) USCIS will announce by its official internet website, currently *http://www.uscis.gov*, those requests for which premium processing may be requested, the dates upon which such availability commences and ends, and any conditions that may apply.

§ 106.5 Authority to certify records.

The Director of USCIS, or such officials as he or she may designate, may certify records when authorized under 5 U.S.C. 552 or any other law to provide such records.

§ 106.6 DHS severability.

The provisions of this part are separate and severable from one another. If any provision is stayed or determined to be invalid, the remaining provisions will continue in effect.

PART 204—IMMIGRANT PETITIONS

■ 11. The authority citation for part 204 continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1151, 1153, 1154, 1182, 1184, 1186a, 1255, 1641; 8 CFR part 2.

■ 12. Section 204.3 is amended:

■ a. In paragraph (b), in the definition of ''Orphan petition'', by revising the second sentence;

■ b. By revising the fourth fifth sentences of paragraph (d) introductory text; and

■ c. By revising paragraphs (h)(3)(i) and (ii) and (h)(7) and (13).

The revisions read as follows:

§ 204.3 Orphan cases under section 101(b)(1)(F) of the Act (non-Hague Adoption Convention cases).

* * * * *

(b) * * *

Orphan petition means * * * The petition must be completed in accordance with the form's instructions and submitted with the required supporting documentation and, if there is not a pending, or currently valid and approved advanced processing application, the fee as required in 8 CFR 106.2. * * *

* * * * *

(d) * * * If the prospective adoptive parents fail to file the orphan petition within the approval validity period of the advanced processing application, the advanced processing application will be deemed abandoned pursuant to paragraph (h)(7) of this section. If the prospective adoptive parents file the orphan petition after the approval period of the advanced processing application has expired, the petition will be denied pursuant to paragraph (h)(13) of this section. * * *

* * * * *

(h) * * *

(3) * * *

(i) If the advanced processing application is approved, the prospective adoptive parents will be advised in writing. A notice of approval expires 15 months after the date on which USCIS received the FBI response on the applicant's, and any additional adult member of the household's, biometrics, unless approval is revoked. If USCIS received the responses on different days, the 15-month period begins on the earliest response date. The notice of approval will specify the expiration date. USCIS may extend the validity period for the approval of a Form I–600A as provided in paragraph (h)(3)(ii) of this section or if requested in accordance with 8 CFR 106.2(a)(23). During this time, the prospective adoptive parents may file an orphan petition for one orphan without fee. If the Form I–600A approval is for more than one orphan, the prospective adoptive parents may file a petition for each of the additional children, to the maximum number approved. If the orphans are birth siblings, no additional fee is required. If the orphans are not birth siblings, an additional fee is required for each orphan beyond the first orphan. Approval of an advanced processing application does not guarantee that the orphan petition will be approved.

(ii) If the USCIS Director, or an officer designated by the USCIS Director, determines that the ability of a prospective adoptive parent to timely file a petition has been adversely affected by the outbreak of a public health or other emergency in a foreign country, such Director or designated officer may extend the validity period of the approval of the advance processing application, either in an individual case or for a class of cases. An extension of the validity of the approval of the advance processing application may be subject to such conditions as the USCIS Director, or officer designated by the USCIS Director may establish.

* * * * *

(7) *Advanced processing application deemed abandoned for failure to file orphan petition within the approval validity period of the advanced processing application.* If an orphan petition is not properly filed within 15 months of the approval date of the advanced processing application, the application will be deemed abandoned. Supporting documentation will be returned to the prospective adoptive parents, except for documentation submitted by a third party which will be returned to the third party, and documentation relating to the fingerprint checks. The director will dispose of documentation relating to biometrics checks in accordance with current policy. Such abandonment will be without prejudice to a new filing at any time with fee.

* * * * *

(13) *Orphan petition denied: Petitioner files orphan petition after the approval of the advanced processing application has expired.* If the petitioner files the orphan petition after the advanced processing application has expired, the petition will be denied. This action will be without prejudice to a new filing at any time with fee.

* * * * *

■ 13. Section 204.5 is amended:

■ a. In the definition of ''Petition'' in paragraph (m)(5) by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2''; and

■ b. By revising paragraph (p)(4).

The revision reads as follows:

§ 204.5 Petitions for employment-based immigrants.

* * * * *

(p) * * *

(4) *Application for employment authorization.* To request employment authorization, an eligible applicant described in paragraph (p)(1), (2), or (3) of this section must file an application for employment authorization (Form I–765), with USCIS, in accordance with 8 CFR 274a.13(a) and the form

instructions. Such applicant is subject to the collection of his or her biometric information as provided in the form instructions. Employment authorization under this paragraph may be granted solely in 1-year increments, but not to exceed the period of the alien's authorized admission.

* * * * *

§ 204.6 [Amended]

■ 14. Section 204.6 is amended by removing ''8 CFR 103.7(b)(1)(i)(XX)'' and adding in its place ''8 CFR 106.2'' in paragraph (m)(6)(i)(C).

§ 204.310 [Amended]

■ 15. Section 204.310 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' and by removing and reserving paragraph (a)(3)(ii).

§ 204.311 [Amended]

■ 16. Section 204.311 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (u)(4).

■ 17. Section 204.312 is amended by revising paragraph (e)(3)(i) introductory text to read as follows:

§ 204.312 Adjudication of the Form I–800A.

* * * * *

(e) * * *

(3)(i) If the 15-month validity period for a Form I–800A approval is about to expire, the applicant may file Form I–800A Supplement 3, with the filing fee under 8 CFR 106.2, if required. The applicant may not file a Form I–800A Supplement 3 seeking extension of an approval notice more than 90 days before the expiration of the validity period for the Form I–800A approval, but must do so on or before the date on which the validity period expires. The applicant is not required to pay the Form I–800A Supplement 3 filing fee for the first request to extend the approval of a Form I–800A, or to obtain a first time change of Hague Convention country during the Form I–800A approval period. If the applicant files a second or subsequent Form I–800A Supplement 3 to obtain a second or subsequent extension or a second or subsequent change of Hague Convention country, then, the applicant must pay the Form I–800A Supplement 3 filing fee, as specified in 8 CFR 106.2, for the second, or any subsequent, Form I–800A Supplement 3 that is filed. Any Form I–800A Supplement 3 that is filed to obtain an extension of the approval of a Form I–800A or a change of Hague Convention country must be accompanied by:

* * * * *

§ 204.313 [Amended]

■ 18. Section 204.313 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in the next to last sentence of paragraph (a) and by adding the word ''birth'' before ''siblings'' in the last sentence of paragraph (a).

* * * * *

PART 211—DOCUMENTARY REQUIREMENTS: IMMIGRANTS; WAIVERS

■ 19. The authority citation for part 211 continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1181, 1182, 1203, 1225, 1257; 8 CFR part 2.

§ 211.1 [Amended]

■ 20. Section 211.1 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (b)(3).

§ 211.2 [Amended]

■ 21. Section 211.2 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (b).

PART 212—DOCUMENTARY REQUIREMENTS: NONIMMIGRANTS; WAIVERS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

■ 22. The authority citation for part 212 continues to read as follows:

Authority: 6 U.S.C. 111, 202(4) and 271; 8 U.S.C. 1101 and note, 1102, 1103, 1182 and note, 1184, 1185 note (section 7209 of Pub. L. 108–458), 1187, 1223, 1225, 1226, 1227, 1255, 1359; 8 CFR part 2.

§ 212.2 [Amended]

■ 23. Section 212.2 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraphs (b)(1), (c)(1)(ii), (d), and (g)(1).

§ 212.3 [Amended]

■ 24. Section 212.3 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (a).

§ 212.4 [Amended]

■ 25. Section 212.4 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (b).

§ 212.7 [Amended]

■ 26. Section 212.7 is amended:

■ a. By removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (a)(1); and

■ b. By removing ''8 CFR 103.7(b)'' and adding in its place ''8 CFR 106.2'' in paragraphs (e)(1) and (e)(5)(i).

§ 212.15 [Amended]

■ 27. Section 212.15 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (j)(2)(ii).

§ 212.18 [Amended]

■ 28. Section 212.18 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraphs (a)(2).

■ 29. Section 212.19 is amended by revising paragraphs (b)(1), (c)(1), (e), (h)(1), and (j) to read as follows:

§ 212.19 Parole for entrepreneurs.

* * * * *

(b) * * *

(1) *Filing of initial parole request form.* An alien seeking an initial grant of parole as an entrepreneur of a start-up entity must file Form I–941, Application for Entrepreneur Parole, with USCIS, with the required fee, and supporting documentary evidence in accordance with this section and the form instructions, demonstrating eligibility as provided in paragraph (b)(2) of this section.

* * * * *

(c) * * *

(1) *Filing of re-parole request form.* Before expiration of the initial period of parole, an entrepreneur parolee may request an additional period of parole based on the same start-up entity that formed the basis for his or her initial period of parole granted under this section. To request such parole, an entrepreneur parolee must timely file Form I–941, Application for Entrepreneur Parole, with USCIS, with the required fee and supporting documentation in accordance with the form instructions, demonstrating eligibility as provided in paragraph (c)(2) of this section.

* * * * *

(e) *Collection of biometric information.* An alien seeking an initial grant of parole or re-parole before [EFFECTIVE DATE OF FINAL RULE] will be required to submit biometric information. An alien seeking an initial grant of parole or re-parole may be required to submit biometric information.

* * * * *

(h) * * *

(1) The entrepreneur's spouse and children who are seeking parole as derivatives of such entrepreneur must individually file Form I–131, Application for Travel Document. Such application must also include evidence that the derivative has a qualifying relationship to the entrepreneur and otherwise merits a grant of parole in the

exercise of discretion. Such spouse or child will be required to appear for collection of biometrics in accordance with the form instructions or upon request.

* * * * *

(j) *Reporting of material changes.* An alien granted parole under this section must immediately report any material change(s) to USCIS. If the entrepreneur will continue to be employed by the start-up entity and maintain a qualifying ownership interest in the start-up entity, the entrepreneur must submit a form prescribed by USCIS, with any applicable fee in accordance with the form instructions to notify USCIS of the material change(s). The entrepreneur parolee must immediately notify USCIS in writing if he or she will no longer be employed by the start-up entity or ceases to possess a qualifying ownership stake in the start-up entity.

* * * * *

PART 214—NONIMMIGRANT CLASSES

■ 30. The authority citation for part 214 continues to read as follows:

Authority: 6 U.S.C. 202, 236; 8 U.S.C. 1101, 1102, 1103, 1182, 1184, 1186a, 1187, 1221, 1281, 1282, 1301–1305, 1356, and 1372; sec. 643, Pub. L. 104–208, 110 Stat. 3009–708; Public Law 106–386, 114 Stat. 1477–1480; section 141 of the Compacts of Free Association with the Federated States of Micronesia and the Republic of the Marshall Islands, and with the Government of Palau, 48 U.S.C. 1901 note, and 1931 note, respectively; 48 U.S.C. 1806; 8 CFR part 2.

■ 31. Section 214.1 is amended:

■ a. By removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (c)(1);

■ b. By removing ''§ 103.7 of this chapter'' and adding in its place ''8 CFR 106.2'' in paragraph (c)(2);

■ c. By revising paragraph (c)(5); and

■ d. By removing:

■ i. ''a Form I–129'' and adding in its place ''an application or petition'' in the first sentence of paragraph (j) introductory text; and

■ ii. ''Form I–129'' and adding in its place ''application or petition'' in the second and third sentences of paragraph (j) introductory text.

The revision reads as follows:

§ 214.1 Requirements for admission, extension, and maintenance of status.

* * * * *

(c) * * *

(5) *Decision on application for extension or change of status.* Where an applicant or petitioner demonstrates eligibility for a requested extension, it may be granted at the discretion of USCIS. The denial of an application for extension of stay may not be appealed.

* * * * *

■ 32. Amend § 214.2:

■ a. By revising paragraph (e)(8)(iii), the first sentence of paragraph (e)(8)(iv) introductory text, paragraphs (e)(8)(iv)(B), and (e)(8)(v);

■ b. By removing ''Form I–129 and E Supplement'' and adding in its place ''the form prescribed by USCIS'' in paragraphs (e)(20) introductory text and in two places in paragraph (e)(21)(i);

■ c. By revising paragraph (e)(23)(viii);

■ d. By removing and reserving paragraph (e)(23)(xv);

■ e. By removing either ''8 CFR 103.7'', ''8 CFR 103.7(b)'' or ''8 CFR 103.7(b)(1)'' and adding in their places ''8 CFR 106.2'' in paragraphs (f)(9)(ii)(F)(*1*), (h)(19)(ii), (m)(14)(ii), and (r)(3), (5), and (13);

■ f. By removing ''Form I–129'' and adding in its place ''application or petition'' wherever it appears in paragraphs (h)(1)(i)(B), (h)(6)(vii), (l)(14)(ii) introductory text, and (o)(2)(iv)(G);

■ g. By revising paragraphs (h)(2)(i)(A), (h)(2)(ii), and (h)(5)(i)(B);

■ h. By removing ''I–129'' and adding in its place ''the form prescribed by USCIS'' in paragraph (h)(6)(iii)(E);

■ i. By removing ''Petition for Nonimmigrant Worker (Form I–129)'' and adding in its place ''the form prescribed by USCIS'' in paragraph (h)(19)(vi)(A);

■ j. By revising paragraphs (h)(19)(i), (m)(14)(ii) introductory text, and (o)(2)(iv)(F);

■ k. By removing ''Form I–129'' and adding in its place ''an application or petition'' in the first sentence of paragraph (o)(12)(i);

■ l. By revising paragraph (p)(2)(iv)(F);

■ m. By removing ''Form I–129'' and adding in its place ''application or petition'' wherever it appears in paragraph (p)(2)(iv)(C)(*2*), the second sentence of paragraph (q)(3)(i), and paragraphs (q)(4)(i) and (q)(6);

■ n. By removing ''Form I–129'' and adding in its place ''the form prescribed by USCIS'' in paragraphs (h)(2)(i)(D), (h)(5)(i)(A), (h)(11)(i)(A), (h)(14), (h)(15)(i), (l)(2)(ii), (l)(3) introductory text, (l)(4)(iv) introductory text, (l)(5)(ii)(F), (l)(15)(i), (l)(17)(i), (o)(2)(iv)(D), (p)(13), (p)(14)(i), (q)(4)(iii), and in the second sentence of paragraph (q)(5)(i);

■ o. By removing ''Form I–129, Petition for Nonimmigrant Worker'' and adding in its place ''the form prescribed by USCIS'' in its place in paragraphs (l)(2)(i), (l)(5)(ii)(F), (o)(2)(i), (o)(11), (p)(2)(i), (q)(3)(i), and the first sentence of paragraph (q)(5)(i);

■ p. By removing ''Form I–129 petition'' and adding in its place ''application or petition'' in paragraph (p)(2)(iv)(H); and

■ q. By revising paragraph (r)(3) introductory text and the definition of ''Petitions'' in paragraph (r)(3) and revising paragraphs (r)(5), (w)(5), (w)(14)(iii), and (w)(15).

The revisions read as follows:

§ 214.2 Special requirements for admission, extension, and maintenance of status.

* * * * *

(e) * * *

(8) * * *

(iii) *Substantive changes.* Approval of USCIS must be obtained where there will be a substantive change in the terms or conditions of E status. The treaty alien must file a new application in accordance with the instructions on the form prescribed by USCIS requesting extension of stay in the United States, plus evidence of continued eligibility for E classification in the new capacity. Or the alien may obtain a visa reflecting the new terms and conditions and subsequently apply for admission at a port-of-entry. USCIS will deem there to have been a substantive change necessitating the filing of a new application where there has been a fundamental change in the employing entity's basic characteristics, such as a merger, acquisition, or sale of the division where the alien is employed.

(iv) *Non-substantive changes.* Neither prior approval nor a new application is required if there is no substantive, or fundamental, change in the terms or conditions of the alien's employment which would affect the alien's eligibility for E classification. * * *

(B) Request a new approval notice reflecting the non-substantive change by filing an application with a description of the change, or;

* * * * *

(v) *Advice.* To request advice from USCIS as to whether a change is substantive, an alien may file an application with a complete description of the change. In cases involving multiple employees, an alien may request that USCIS determine if a merger or other corporate restructuring requires the filing of separate applications by filing a single application and attaching a list of the related receipt numbers for the employees involved and an explanation of the change or changes.

* * * * *

(23) * * *

(viii) Information for background checks. USCIS may require an applicant for E–2 CNMI Investor status, including but not limited to any applicant for derivative status as a spouse or child, to submit biometrics as required under 8 CFR 103.16.

* * * * *

(h) * * *

(2) *Petitions*—(i) *Filing of petitions*—(A) *General.* A United States employer seeking to classify an alien as an H–1B, H–2A, H–2B, or H–3 temporary employee must file a petition on the form prescribed by USCIS in accordance with the form instructions.

* * * * *

(ii) *Multiple beneficiaries.* Up to 25 named beneficiaries may be included in an H–1C, H–2A, H–2B, or H–3 petition if the beneficiaries will be performing the same service, or receiving the same training, for the same period, and in the same location. If more than 25 named beneficiaries are being petitioned for, an additional petition is required. Petitions for H–2A and H–2B workers from countries not designated in accordance with paragraph (h)(6)(i)(E) of this section must be filed separately.

* * * * *

(5) * * *

(i) * * *

(B) *Multiple beneficiaries.* The total number of beneficiaries of a petition or series of petitions based on the same temporary labor certification may not exceed the number of workers indicated on that document. A single petition can include more than one named beneficiary if the total number is 25 or less and does not exceed the number of positions indicated on the relating temporary labor certification.

* * * * *

(19) * * *

(i) A United States employer (other than an exempt employer defined in paragraph (h)(19)(iii) of this section, or an employer filing a petition described in paragraph (h)(19)(v) of this section) who files a petition or application must include the additional American Competitiveness and Workforce Improvement Act (ACWIA) fee referenced in 8 CFR 106.2, if the petition is filed for any of the following purposes:

* * * * *

(m) * * *

(14) * * *

(ii) *Application.* A M–1 student must apply for permission to accept employment for practical training on Form I–765, with fee as contained in 8 CFR part 106, accompanied by a properly endorsed Form I–20 by the designated school official for practical training. The application must be submitted before the program end date listed on the student's Form I–20 but not more than 90 days before the program end date. The designated school official must certify on Form I–538 that—

* * * * *

(o) * * *

(2) * * *

(iv) * * *

(F) *Multiple beneficiaries.* More than one O–2 accompanying alien may be included on a petition if they are assisting the same O–1 alien for the same events or performances, during the same period, and in the same location. Up to 25 named beneficiaries may be included per petition.

* * * * *

(p) * * *

(2) * * *

(iv) * * *

(F) *Multiple beneficiaries.* More than one beneficiary may be included in a P petition if they are members of a team or group, or if they will provide essential support to P–1, P–2, or P–3 beneficiaries performing in the same location and in the same occupation. Up to 25 named beneficiaries may be included per petition.

* * * * *

(r) * * *

(3) *Definitions.* As used in this section, the term:

* * * * *

Petition means the form or as may be prescribed by USCIS, a supplement containing attestations required by this section, and the supporting evidence required by this part.

* * * * *

(5) *Extension of stay or readmission.* An R–1 alien who is maintaining status or is seeking readmission and who satisfies the eligibility requirements of this section may be granted an extension of R–1 stay or readmission in R–1 status for the validity period of the petition, up to 30 months, provided the total period of time spent in R–1 status does not exceed a maximum of five years. A Petition for a Nonimmigrant Worker to request an extension of R–1 status must be filed by the employer with a supplement prescribed by USCIS containing attestations required by this section, the fee specified in 8 CFR part 106, and the supporting evidence, in accordance with the applicable form instructions.

* * * * *

(w) * * *

(5) *Petition requirements.* An employer who seeks to classify an alien as a CW–1 worker must file a petition with USCIS and pay the requisite petition fee plus the CNMI education funding fee and the fraud prevention and detection fee as prescribed in the form instructions and 8 CFR part 106. If the beneficiary will perform services for more than one employer, each employer must file a separate petition with fees with USCIS.

* * * * *

(14) * * *

(iii) If the eligible spouse and/or minor child(ren) are present in the CNMI, the spouse or child(ren) may apply for CW–2 dependent status on Form I–539 (or such alternative form as USCIS may designate) in accordance with the form instructions. The CW–2 status may not be approved until approval of the CW–1 petition.

(15) *Biometrics and other information.* The beneficiary of a CW–1 petition or the spouse or child applying for a grant or, extension of CW–2 status, or a change of status to CW–2 status, must submit biometric information as requested by USCIS.

* * * * *

§ 214.3 [Amended]

■ 33. Section 214.3 is amended:

■ a. By removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (h)(1)(i); and

■ b. By removing ''8 CFR 103.7(b)(1)(ii)(B)'' and adding in its place ''8 CFR 103.7(d)(2)'' in paragraph (h)(2) introductory text.

§ 214.6 [Amended]

■ 34. Section 214.6 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraphs (g)(1), (h)(1)(i), (h)(2), and (i)(2).

§ 214.11 [Amended]

■ 35. Section 214.11 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraphs (d)(2)(iii) and (k)(1).

■ 36. Section 214.14 is amended by revising paragraphs (c)(1) introductory text to read as follows:

§ 214.14 Alien victims of certain qualifying criminal activity.

* * * * *

(c) * * *

(1) *Filing a petition.* USCIS has sole jurisdiction over all petitions for U nonimmigrant status. An alien seeking U–1 nonimmigrant status must submit, Form I–918, Petition for U Nonimmigrant Status, and initial evidence to USCIS in accordance with this paragraph and the instructions to Form I–918. A petitioner who received interim relief is not required to submit initial evidence with Form I–918 if he or she wishes to rely on the law enforcement certification and other

evidence that was submitted with the request for interim relief.

* * * * *

PART 216—CONDITIONAL BASIS OF LAWFUL PERMANENT RESIDENCE STATUS

■ 37. The authority citation for part 216 continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1154, 1184, 1186a, 1186b, and 8 CFR part 2.

§ 216.4 [Amended]

■ 38. Section 216.4 is amended by removing ''§ 103.7(b) of this chapter'' and adding in its place ''8 CFR 106.2'' in paragraph (a)(1).

§ 216.5 [Amended]

■ 39. Section 216.5 is amended by removing ''§ 103.7(b) of this Chapter '' and adding in its place ''8 CFR 106.2'' in paragraph (b).

§ 216.6 [Amended]

■ 40. Section 216.6 is amended by removing ''8 CFR 103.7(b)(1) of this chapter '' and adding in its place ''8 CFR 106.2'' in paragraph (a)(1).

PART 217—VISA WAIVER PROGRAM

■ 41. The authority citation for part 217 continues to read as follows:

Authority: 8 U.S.C. 1103, 1187; 8 CFR part 2.

§ 217.2 [Amended]

■ 42. Section 217.2 is amended by removing ''§ 103.7(b)(1)'' and adding in its place ''8 CFR 103.7(d)(4)'' in its place in paragraph (c)(2).

PART 223—REENTRY PERMITS, REFUGEE TRAVEL DOCUMENTS, AND ADVANCE PAROLE DOCUMENTS

■ 43. The authority citation for part 223 continues to read as follows:

Authority: 8 U.S.C. 1103, 1181, 1182, 1186a, 1203, 1225, 1226, 1227, 1251; Protocol Relating to the Status of Refugees, November 1, 1968, 19 U.S.T. 6223 (TIAS) 6577; 8 CFR part 2.

§ 223.2 [Amended]

■ 44. Section 223.2 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (a).

PART 235—INSPECTION OF PERSONS APPLYING FOR ADMISSION

■ 45. The authority citation for part 235 continues to read as follows:

Authority: 8 U.S.C. 1101 and note, 1103, 1183, 1185 (pursuant to E.O. 13323, 69 FR 241, 3 CFR, 2004 Comp., p.278), 1201, 1224, 1225, 1226, 1228, 1365a note, 1365b, 1379, 1731–32; Title VII of Public Law 110–229; 8 U.S.C. 1185 note (section 7209 of Pub. L. 108–458); Pub. L. 112–54.

§ 235.1 [Amended]

■ 46. Section 235.1 is amended by removing ''§ 103.7(b)(1) of this chapter'' and adding in its place ''8 CFR 103.7(d)(3)'' in paragraphs (g)(1)(iii) and (g)(2).

§ 235.7 [Amended]

■ 47. Section 235.7 is amended by removing ''§ 103.7(b)(1) of this chapter'' and ''§ 103.7(b)(1)'' and adding in their place ''8 CFR 103.7(d)(7)'' in paragraph (a)(4)(v).

§ 235.12 [Amended]

■ 48. Section 235.12 is amended by removing ''8 CFR 103.7(b)(1)(ii)(M)'' and adding in its place ''8 CFR 103.7(d)(13)'' in paragraph (d)(2).

§ 235.13 [Amended]

■ 49. Section 235.13 is amended by removing ''8 CFR 103.7(b)(1)(ii)(N)'' and adding in its place ''8 CFR 103.7(d)(14)'' in paragraph (c)(5).

PART 236—APPREHENSION AND DETENTION OF INADMISSIBLE AND DEPORTABLE ALIENS; REMOVAL OF ALIENS ORDERED REMOVED

■ 50. The authority citation for part 236 continues to read as follows:

Authority: 5 U.S.C. 301, 552, 552a; 8 U.S.C. 1103, 1182, 1224, 1225, 1226, 1227, 1231, 1362; 18 U.S.C. 4002, 4013(c)(4); 8 CFR part 2.

§ 236.14 [Amended]

■ 51. Section 236.14 is amended by removing ''§ 103.7(b)(1) of this chapter'' and adding in its place ''8 CFR 106.2'' in paragraph (a).

§ 236.15 [Amended]

■ 52. Section 236.15 is amended by removing ''§ 103.7(b)(1) of this chapter'' and adding in its place ''8 CFR 106.2'' in paragraph (e).

PART 240—VOLUNTARY DEPARTURE, SUSPENSION OF DEPORTATION AND SPECIAL RULE CANCELLATION OF REMOVAL

■ 53. The authority citation for part 240 continues to read as follows:

Authority: 8 U.S.C. 1103; 1182, 1186a, 1224, 1225, 1226, 1227, 1251, 1252 note, 1252a, 1252b, 1362; secs. 202 and 203, Pub. L. 105–100 (111 Stat. 2160, 2193); sec. 902, Pub. L. 105–277 (112 Stat. 2681); 8 CFR part 2.

■ 54. Section 240.63 is amended by revising paragraph (a) to read as follows:

§ 240.63 Application process.

(a) *Form and fees.* Except as provided in paragraph (b) of this section, the application must be made on the form prescribed by USCIS for this program and filed in accordance with the instructions for that form. An applicant who submitted to EOIR a completed Form EOIR–40, Application for Suspension of Deportation, before the effective date of the form prescribed by USCIS may apply with the Service by submitting the completed Form EOIR–40 attached to a completed first page of the application. Each application must be filed with the required fees as provided in 8 CFR 106.2.

* * * * *

PART 244—TEMPORARY PROTECTED STATUS FOR NATIONALS OF DESIGNATED STATES

■ 55. The authority citation for part 244 continues to read as follows:

Authority: 8 U.S.C. 1103, 1254, 1254a note, 8 CFR part 2.

§ 244.6 [Amended]

■ 56. Section 244.6 is amended by revising paragraph (a) to read as follows:

§ 244.6 Application.

(a) An application for Temporary Protected Status must be submitted in accordance with the form instructions, the applicable country-specific **Federal Register** notice that announces the procedures for TPS registration or re-registration and, except as otherwise provided in this section, with the appropriate fees as described in 8 CFR part 106.

* * * * *

■ 57. Section 244.17 is amended by revising paragraph (a) to read as follows:

§ 244.17 Periodic Registration.

(a) Aliens granted Temporary Protected Status must re-register periodically in accordance with USCIS instructions. Such registration applies to nationals of those foreign states designated for more than one year by DHS or where a designation has been extended for a year or more. Applicants for re-registration must apply during the period provided by USCIS. Re-registration applicants do not need to pay the fee that was required for initial registration except the biometric services fee, unless that fee is waived in the applicable form instructions, and if requesting an employment authorization document, the application fee for an Application for Employment Authorization. By completing the application, applicants attest to their continuing eligibility. Such applicants do not need to submit additional supporting documents unless USCIS requests that they do so.

* * * * *

PART 245—ADJUSTMENT OF STATUS TO THAT OF PERSON ADMITTED FOR PERMANENT RESIDENCE

■ 58. The authority citation for part 204 continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1182, 1255; Pub. L. 105–100, section 202, 111 Stat. 2160, 2193; Pub. L. 105–277, section 902, 112 Stat. 2681; Pub. L. 110–229, tit. VII, 122 Stat. 754; 8 CFR part 2.

§ 245.7 [Amended]

■ 59. Section 245.7 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (a).

§ 245.10 [Amended]

■ 60. Section 245.10 is amended by removing ''§ 103.7(b)(1) of this chapter'' and adding in its place ''8 CFR 106.2'' in paragraph (c) introductory text.

§ 245.15 [Amended]

■ 61. Section 245.15 is amended:
■ a. By removing ''§ 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (c)(2)(iv)(A);
■ b. By removing and reserving paragraph (c)(2)(iv)(B);
■ c. By removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (g)(1);
■ d. By removing ''§ 103.7(b)(1) of this chapter'' and adding in its place ''8 CFR 106.2'' in paragraph (h)(1);
■ e. By removing and reserving paragraph (h)(2); and
■ f. By removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraphs (n)(1), (t)(1), and (t)(2)(i).

§ 245.18 [Amended]

■ 62. Section 245.18 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraphs (d)(1) and (k).

§ 245.21 [Amended]

■ 63. Section 245.21 is amended:
■ a. By removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in the first sentence of paragraph (b) and removing the second sentence in paragraph (b); and
■ b. By removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraphs (f), (h), and (i).

§ 245.23 [Amended]

■ 64. Section 245.23 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (e)(1)(i) and by removing and reserving paragraph (e)(1)(iii).

§ 245.24 [Amended]

■ 65. Section 245.24 is amended:
■ a. By removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraphs (d)(2) and by removing and reserving paragraph (d)(3); and
■ b. By removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraphs (h)(1)(ii) and (i)(1)(iii) and by removing and reserving paragraph (i)(1)(iv).

PART 245a—ADJUSTMENT OF STATUS TO THAT OF PERSONS ADMITTED FOR TEMPORARY OR PERMANENT RESIDENT STATUS UNDER SECTION 245A OF THE IMMIGRATION AND NATIONALITY ACT

■ 66. The authority citation for part 245a continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1255a and 1255a note.

■ 67. Section 245a.2 is amended by revising paragraph (e)(3) to read as follows:

§ 245a.2 Application for temporary residence.

* * * * *

(e) * * *

(3) A separate application must be filed by each applicant with the fees required by 8 CFR 106.2.

* * * * *

■ 68. Section 245a.3 is amended by revising paragraph (d)(3) to read as follows:

§ 245a.3 Application for adjustment from temporary to permanent resident status.

* * * * *

(d) * * *

(3) A separate application must be filed by each applicant with the fees required by 8 CFR 106.2.

* * * * *

■ 69. Section 245a.4 is amended by revising paragraph (b)(5)(iii) to read as follows:

§ 245a.4 Adjustment to lawful resident status of certain nationals of countries for which extended voluntary departure has been made available.

* * * * *

(b) * * *

(5) * * *

(iii) A separate application must be filed by each applicant with the fees required by 8 CFR 106.2.

* * * * *

■ 70. Section 245a.12 is amended:
■ a. By removing ''Missouri Service Center'' and adding in its place ''National Benefit Center'' in paragraphs (b) introductory text and (c);
■ b. By revising paragraph (d) introductory text;
■ c. By removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (d)(1); and
■ d. By removing and reserving paragraphs (d)(2), (4), and (6).

The revision reads as follows:

§ 245a.12 Filing and applications.

* * * * *

(d) *Application and supporting documentation.* Each applicant for LIFE Legalization adjustment of status must submit the form prescribed by USCIS completed in accordance with the form instructions accompanied by the required evidence.

* * * * *

§ 245a.13 [Amended]

■ 71. Section 245a.13 is amended:
■ a. By removing ''§ 103.7(b)(1) of this chapter'' and adding in its place ''8 CFR 106.2'' in paragraph (d)(1); and (e)(1).
■ b. By removing ''Missouri Service Center'' and adding in its place ''National Benefit Center'' in paragraphs (e) introductory text and (e)(1); and
■ c. By removing ''§ 103.7(b)(1) of this chapter'' and adding in its place ''8 CFR 106.2'' in paragraph (e)(1).

§ 245a.18 [Amended]

■ 72. Section 245a.18 is amended by removing ''Missouri Service Center'' and adding in its place ''National Benefit Center'' in paragraph (c)(1).

§ 245a.19 [Amended]

■ 73. Section 245a.19 is amended by removing ''Missouri Service Center'' and adding in its place ''National Benefit Center'' in paragraph (a).

§ 245a.20 [Amended]

■ 74. Section 245a.20 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (a)(2).

§ 245a.33 [Amended]

■ 75. Section 245a.33 is amended by removing ''§ 103.7(b)(1) of this chapter'' and adding in its place ''8 CFR 106.2'' in paragraph (a) and by removing ''Missouri Service Center'' and adding in its place ''National Benefit Center'' in paragraphs (a) and (b).

PART 248—CHANGE OF NONIMMIGRANT CLASSIFICATION

■ 76. The authority citation for part 248 continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1184, 1258; 8 CFR part 2.

§ 248.3 [Amended]

■ 77. Section 248.3 is amended by removing ''8 CFR 103.7(b)'' and adding in its place ''8 CFR 106.2'' in its place in the introductory text and by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (h) introductory text.

PART 264—REGISTRATION AND FINGERPRINTING OF ALIENS IN THE UNITED STATES

■ 78. The authority citation for part 248 continues to read as follows:

Authority: 8 U.S.C. 1103, 1201, 1303–1305; 8 CFR part 2.

§ 264.2 [Amended]

■ 79. Section 264.2 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraphs (c)(1)(i) and (c)(2)(i).

§ 264.5 [Amended]

■ 80. Section 264.5 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (a).

§ 264.6 [Amended]

■ 81. Section 264.6 is amended by removing ''8 CFR 103.7(b)(1)'' and adding in its place ''8 CFR 106.2'' in paragraph (b).

PART 274a—CONTROL OF EMPLOYMENT OF ALIENS

■ 82. The authority citation for part 274a continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1324a; 48 U.S.C. 1806; 8 CFR part 2; Pub. L. 101–410, 104 Stat. 890, as amended by Pub. L. 114–74, 129 Stat. 599.

■ 83. Section 274a.12 is amended by revising paragraphs (b)(9), (13), and (14) to read as follows:

§ 274a.12 Classes of aliens authorized to accept employment.

* * * * *

(b) * * *

(9) A temporary worker or trainee (H–1, H–2A, H–2B, or H–3), pursuant to 8 CFR 214.2(h), or a nonimmigrant specialty occupation worker pursuant to section 101(a)(15)(H)(i)(b)(1) of the Act. An alien in this status may be employed only by the petitioner through whom the status was obtained. In the case of a professional H–2B athlete who is traded from one organization to another organization, employment authorization for the player will automatically continue for a period of 30 days after acquisition by the new organization, within which time the new organization is expected to file a new petition for H–2B classification. If a new petition is not filed within 30 days, employment authorization will cease. If a new petition is filed within 30 days, the professional athlete's employment authorization will continue until the petition is adjudicated. If the new petition is denied, employment authorization will cease. In the case of a nonimmigrant with H–1B status, employment authorization will automatically continue upon the filing of a qualifying petition under 8 CFR 214.2(h)(2)(i)(H) until such petition is adjudicated, in accordance with section 214(n) of the Act and 8 CFR 214.2(h)(2)(i)(H);

* * * * *

(13) An alien having extraordinary ability in the sciences, arts, education, business, or athletics (O–1), and an accompanying alien (O–2), pursuant to 8 CFR 214.2(o). An alien in this status may be employed only by the petitioner through whom the status was obtained. In the case of a professional O–1 athlete who is traded from one organization to another organization, employment authorization for the player will automatically continue for a period of 30 days after the acquisition by the new organization, within which time the new organization is expected to file a new petition for O nonimmigrant classification. If a new petition is not filed within 30 days, employment authorization will cease. If a new petition is filed within 30 days, the professional athlete's employment authorization will continue until the petition is adjudicated. If the new petition is denied, employment authorization will cease.

(14) An athlete, artist, or entertainer (P–1, P–2, or P–3), pursuant to 8 CFR 214.2(p). An alien in this status may be employed only by the petitioner through whom the status was obtained. In the case of a professional P–1 athlete who is traded from one organization to another organization, employment authorization for the player will automatically continue for a period of 30 days after the acquisition by the new organization, within which time the new organization is expected to file a new petition for P–1 nonimmigrant classification. If a new petition is not filed within 30 days, employment authorization will cease. If a new petition is filed within 30 days, the professional athlete's employment authorization will continue until the petition is adjudicated. If the new petition is denied, employment authorization will cease;

RIN 1615–AC27

Asylum Application, Interview, and Employment Authorization for Applicants

AGENCY: Department of Homeland Security.

ACTION: Notice of proposed rulemaking.

SUMMARY: The U.S. Department of Homeland Security (DHS) is proposing to modify its current regulations governing asylum applications, interviews, and eligibility for employment authorization based on a pending asylum application.

DATES: Written comments and related material to this proposed rule, including the proposed information collections, must be received to the online docket via *www.regulations.gov,* or to the mailing address listed in the **ADDRESSES** section below, on or before January 13, 2020.

ADDRESSES: You may submit comments on this proposed rule using one of the following methods:

- *Federal eRulemaking Portal [preferred]: http://www.regulations.gov.* Follow the website instructions for submitting comments.
- *Mail:* Samantha Deshommes, Chief, Regulatory Coordination Division, Office of Policy and Strategy, U.S. Citizenship and Immigration Services, Department of Homeland Security, 20 Massachusetts Avenue NW, Washington, DC 20529. To ensure proper handling, please reference DHS Docket No. USCIS–2019–0011 in your correspondence. Mail must be postmarked by the comment submission deadline.

FOR FURTHER INFORMATION CONTACT:
Maureen Dunn, Chief, Division of Humanitarian Affairs, Office of Policy and Strategy, U.S. Citizenship and Immigration Services, Department of Homeland Security, 20 Massachusetts Avenue NW, Suite 1100, Washington, DC 20529–2140; Telephone (202) 272–8377.

I. Public Participation

All interested parties are invited to participate in this rulemaking by submitting written data, views, comments, and arguments on all aspects of this proposed rule. DHS also invites comments that relate to the economic, legal, environmental, or federalism effects that might result from this proposed rule. Comments must be submitted in English or include an English translation. Comments that will provide the most assistance to DHS in implementing these changes will reference a specific portion of the proposed rule, explain the reason for any recommended change, and include data, information, or authority that supports such recommended change.

Instructions: If you submit a comment, you must include the agency name (U.S. Citizenship and Immigration Services) and the DHS Docket No. USCIS–2019–0011 for this rulemaking. Please note that DHS has published a notice of proposed rulemaking (NPRM) entitled ''Removal of 30-Day Processing Provision for Asylum Applicant-Related Form I–765 Employment Authorization Applications,'' DHS Docket No. USCIS–2018–0001, separate from this NPRM. The two NPRMs include distinct proposals, and for this proposed rule, DHS will only consider comments submitted to Docket No. USCIS–2019–0011. Please ensure that you submit your comments to the correct docket.

Regardless of the method used for submitting comments or material, all submissions will be posted, without change, to the Federal eRulemaking Portal at *http://www.regulations.gov,* and will include any personal information you provide. Therefore, submitting this information makes it public. You may wish to consider limiting the amount of personal information that you provide in any voluntary public comment submission you make to DHS. DHS may withhold information provided in comments from public viewing that it determines may impact the privacy of an individual or is offensive. For additional information, please read the Privacy Act notice that is available via the link in the footer of *http://www.regulations.gov.*

Docket: For access to the docket and to read background documents or comments received, go to *http://www.regulations.gov,* referencing DHS Docket No. USCIS–2019–0011. You may also sign up for email alerts on the online docket to be notified when comments are posted or a final rule is published.

II. Executive Summary

DHS seeks to reduce incentives for aliens to file frivolous, fraudulent, or otherwise non-meritorious asylum applications to obtain employment authorization filed by asylum applicants seeking an employment authorization document pursuant to 8 CFR 274a.12(c)(8) (hereinafter ''(c)(8) EAD'' or ''EAD'') or other non-asylum-based forms of relief such as cancellation of removal, and to discourage illegal entry into the United States. DHS also seeks to reduce incentives for aliens to intentionally delay asylum proceedings in order to extend the period of employment authorization based on the pending application, and to simplify the adjudication process. DHS seeks to prevent those asylum applicants who have committed certain crimes from obtaining a (c)(8) employment authorization document, and to make the decision to grant (c)(8) employment authorization to asylum applicants discretionary, in line with USCIS' statutory authority.

DHS is proposing to modify its current regulations governing asylum applications, interviews, and eligibility for employment authorization based on a pending asylum application. DHS proposes to modify its regulations in the following areas:

- *Extend the waiting period to apply for employment authorization:* DHS proposes that asylum applicants wait 365 calendar days from the date their asylum applications are received by USCIS or the Department of Justice, Executive Office for Immigration Review (DOJ–EOIR) before they may apply for and receive an EAD. DHS also proposes that USCIS will deny (c)(8) EAD applications if there are any unresolved applicant-caused delays on the date of the EAD adjudication.
- *Eliminate the issuance of recommended approvals for a grant of affirmative asylum:* DHS proposes that USCIS will no longer issue recommended approvals for asylum. These are typically cases where an asylum officer has made a preliminary determination to grant asylum but has not yet received the results of the mandatory, confidential investigation of the alien's identity and background.
- *Revise eligibility for employment authorization:* DHS proposes to exclude aliens who, absent good cause, entered or attempted to enter the United States at a place and time other than lawfully through a U.S. port of entry from eligibility for (c)(8) employment authorization. DHS also proposes to exclude from eligibility for employment authorization aliens who have failed to file for asylum within one year of their last entry, unless and until an asylum officer or Immigration Judge (IJ) determines that an exception to the statutory requirement to file for asylum within one year applies. Because the one-year filing deadline does not apply to unaccompanied alien children, under this proposal, the one-year filing deadline would not exclude unaccompanied alien children from eligibility to obtain an employment authorization document. DHS also proposes to exclude from eligibility aliens whose asylum applications have been denied by an asylum officer or an IJ during the 365-day waiting period or before the request for initial employment authorization has been adjudicated. DHS further proposes to exclude from eligibility for employment authorization aliens who have: (1) Been convicted of any aggravated felony as defined under section 101(a)(43) of the INA, 8 U.S.C. 1101(a)(43), (2) been convicted of any felony in the United States or serious non-political crime outside the United States or (3) been convicted of certain public safety offenses in the United States. If an applicant has unresolved domestic arrests or pending charges involving domestic violence, child abuse, possession or distribution of controlled substances,[1] or driving under the influence of drugs or alcohol, USCIS will decide at its discretion if it will grant the applicant employment authorization, based on the totality of the circumstances. DHS seeks public comment on whether these and additional crimes should be included as bars to employment authorization. DHS also proposes to make the decision to grant (c)(8) employment authorization discretionary to align with the discretionary authority Congress conferred in INA 208(d)(2), 8 U.S.C. 1158(d)(2). DHS is also clarifying that only applicants for asylum who are located in the United States may apply for employment authorization. DHS is adding a severability clause in the event that, for whatever reason, any of the provisions are not implemented.
- *Revise the provisions for EAD termination:* DHS proposes revising when (c)(8) employment authorization terminates. DHS proposes that when a USCIS asylum officer denies an alien's request for asylum, any employment authorization associated with a pending asylum application will be terminated effective on the date of asylum application denial. If a USCIS asylum officer determines that the alien is not eligible for asylum, the asylum officer will typically refer the case to DOJ–EOIR. DHS proposes that if USCIS refers a case to DOJ–EOIR, employment authorization would continue, and the alien would be eligible to continue applying for EAD renewals, if needed, until the IJ renders a decision on the asylum application. If the IJ denies the asylum application, the alien's employment authorization would terminate 30 days after denial, unless the alien filed a timely appeal with the Board of Immigration Appeals (BIA). Renewal of employment authorization would be available to the alien during the pendency of the appeal to the BIA. DHS, however, would prohibit employment authorization during the Federal court appeal process, but the alien could reapply for a (c)(8) EAD if the Federal court remanded the asylum case to BIA.
- *Change provisions for filing an asylum application:* DHS proposes to remove the requirement that USCIS return an incomplete application within 30 days or have it deemed complete for

[1] *See* section 102 of the Controlled Substances Act (21 U.S.C. 802).

adjudication purposes. DHS also proposes that amending an asylum application, requesting an extension to submit additional evidence beyond a time that allows for its meaningful consideration prior to the interview, or failing to appear to receive a decision as designated, will constitute an applicant-caused delay, which, if not resolved by the date the application for employment authorization is adjudicated, will result in the denial of that employment authorization application. DHS also is clarifying the effect of an applicant's failure to appear for either an asylum interview or a scheduled biometric services appointment on a pending asylum application.

- *Limit EAD validity periods:* DHS proposes to clarify that the validity period of (c)(8) employment authorization is discretionary and further proposes that any (c)(8) EAD validity period, whether initial or renewal, will not exceed increments of two years. USCIS may set shorter validity periods for initial and renewal (c)(8) EADs.
- *Incorporate biometrics collection requirements into the employment authorization process for asylum seekers:* DHS proposes to incorporate biometrics collection into the employment authorization process for asylum applicants, which would require applicants to appear at an Application Support Center (ASC) for biometrics collection and pay a biometric services fee. At present, biometrics collection generally refers to the collection of fingerprints, photographs, and signatures.[2] Such biometrics collection will allow DHS to submit a (c)(8) applicant's fingerprints to the Federal Bureau of Investigation (FBI) for a criminal history check, facilitate identity verification, and facilitate (c)(8) EAD card production. DHS will require applicants with a pending initial or renewal (c)(8) EAD on the effective date of this rule to appear at an ASC for biometrics collection but DHS will not collect the biometrics services fee from these aliens. DHS will contact applicants with pending applications and provide notice of the place, date and time of the biometrics appointment.
- *Clarify employment authorization eligibility for aliens who have been paroled after being found to have a credible or reasonable fear of persecution or torture:* DHS is clarifying that aliens who have been paroled after establishing a credible fear or reasonable fear of persecution or torture under 8 CFR 208.30 may not request a discretionary grant of employment authorization under 8 CFR 274a.12(c)(11), but may still apply for a (c)(8) EAD, if eligible. DHS seeks public comment on this proposal and whether the (c)(11) category (parole-based EADs) should be further limited, such as to provide employment authorization only to those DHS determines are needed for foreign policy, law enforcement, or national security reasons, especially since parole is meant only as a temporary measure to allow an alien's physical presence in the United States until the need for parole is accomplished or the alien can be removed.

Specify the effective date: DHS proposes to apply changes made by this rule only to initial and renewal applications for employment authorization under 8 CFR 274a.12(c)(8) and (c)(11) filed on or after the effective date of the final rule, with limited exceptions. DHS will apply two of the proposed ineligibility provisions—those relating to criminal offenses and failure to file the asylum application within one year of the alien's last entry to the US—to initial and renewal applications for employment authorization applications pending on the effective date of the final rule. In order to implement the criminal ineligibility provision, DHS will require applicants with an initial or renewal (c)(8) EAD application pending on the effective date of this rule to appear at an ASC for biometrics collection but DHS will not collect the biometrics services fee from these aliens. DHS will contact applicants with pending applications and provide notice of the place, date and time of the biometrics appointment. If applicable, initial applications filed before the effective date of this rule by members of the *Rosario* class will not be subject to any of the provisions of this proposed rule.[3] DHS seeks public comment on whether other aliens, such as those affected by the Settlement Agreement in *American Baptist Churches* v. *Thornburgh,* 760 F. Supp. 796 (N.D.Cal.1991), or those whose asylum applications predate the 1995 asylum reforms, should be subject to all, some or none of the provisions in this rule.

DHS is updating the regulations to reflect the amendments made by this proposed rule, and proposing revisions to existing USCIS information collections to accompany the proposed regulatory changes.

A. Major Provisions of the Regulatory Action

DHS proposes to include the following major changes:

- *Amending 8 CFR 208.3, Form of application.* The amendments to this section propose to remove the language providing that an application for asylum will automatically be deemed ''complete'' if USCIS fails to return the incomplete application to the alien within a 30-day period. This provision is inconsistent with how all other applications and petitions for immigration benefits are treated, creates an arbitrary circumstance for treating a potentially incomplete asylum application as complete, and imposes an unnecessary administrative burden on USCIS. DHS proposes to conform its current process for determining when an asylum application is received and complete to the general rules governing all other immigration benefits under 8 CFR 103.2, in addition to the specific asylum rules under 8 CFR 208.3 and 208.4. The regulations at 8 CFR 103.2(a)(7) state that USCIS will record the receipt date as of the actual date the benefit request is received at the designated filing location, whether electronically or in paper, provided that it is signed with a valid signature, executed, and filed in compliance with the regulations governing that specific benefit request. If a fee is required, the benefit request must also include the proper fee. Benefit requests not meeting these acceptance criteria are rejected at intake. Rejected benefit requests do not retain a filing date.
- *Amending 8 CFR 208.4, Filing the application.* The proposed amendments to this section provide that a request to amend a pending application for asylum or to supplement such an application may be treated as an applicant-caused delay, and if unresolved on the date the employment authorization application

[2] *See https://www.uscis.gov/forms/forms-information/preparing-your-biometric-services-appointment* (describing biometrics as including fingerprints, photographs, and digital signature) (last visited July 11, 2019).

[3] On May 22, 2015, plaintiffs in *Rosario* v. *USCIS,* No. C15–0813JLR (W.D. Wash.), brought a class action in the U.S. District Court for the Western District of Washington to compel USCIS to comply with the 30-day provision of 8 CFR 208.7(a)(1). On July 26, 2018, the court enjoined USCIS from further failing to adhere to the 30-day deadline for adjudicating EAD applications. DHS published a proposed rule to remove this timeframe on September 9, 2019, where it proposed to grandfather into the 30-day adjudication timeframe those class members who filed their initial EAD applications prior to the effective date of any final rule that changes the 30-day DHS timeline. To ensure compliance with the court order and consistency with the 30-day proposed rule, USCIS further proposes not to apply this rule to any initial EAD application filed by a *Rosario* class member that is pending as of the effective date of this rule, so long as the *Rosario* injunction remains in effect. USCIS has not included proposed regulatory text to this effect, but would include such text in the event that members of the *Rosario* class remain as of the date of publication of a final rule.

is adjudicated, will result in the denial of the application for employment authorization.

• *Amending 8 CFR 208.7, Employment authorization.*[4]

○ *Jurisdiction.* The proposed amendments to this section clarify that USCIS has jurisdiction over all applications for employment authorization based on pending or approved applications for asylum.

○ *365-day Waiting Period.* The proposed amendments to this section also replace the 150-day waiting period and the 180-day asylum EAD clock. The proposed amendments will make asylum applicants eligible to apply for employment authorization 365 calendar days from the date their asylum application is received. The 365-day period was based on an average of the current processing times for asylum applications which can range anywhere from six months to over 2 years, before there is an initial decision, especially in cases that are referred to DOJ–EOIR from an asylum office. The amendments propose that if any unresolved applicant-caused delays in the asylum adjudication exist on the date the (c)(8) EAD application is adjudicated, the EAD application will be denied. Consistent with the current regulation, DHS also proposes to exclude from eligibility aliens whose asylum applications have been denied by an asylum officer or an IJ during the waiting period of at least 365-days or before the adjudication of the initial request for employment authorization.

○ *One Year Filing Deadline.* The proposed amendments to this section also exclude from eligibility for employment authorization aliens who have failed to file for asylum within one year unless and until an asylum officer or IJ determines that an exception to the statutory requirement to file for asylum within one year applies.

○ *Illegal Entry.* The proposed amendments to this section also make any alien who entered or attempted to enter the United States at a place and time other than lawfully through a U.S. port of entry ineligible to receive a (c)(8) EAD, with limited exceptions.

○ *Criminal convictions.* The rule proposes amendments to this section include excluding from (c)(8) EAD eligibility any alien who has (1) been convicted of an aggravated felony as described in section 101(a)(43) of the INA, 8 U.S.C. 1101(a)(43), (2) been convicted of any felony[5] in the United States, (3) been convicted of a serious non-political crime outside the United States, (4) been convicted in the United States of domestic violence or assault (except aliens who have been battered or subjected to extreme cruelty and who were not the primary perpetrators of violence in their relationships), child abuse or neglect; possession or distribution of controlled substances; or driving or operating a motor vehicle under the influence of alcohol or drugs, regardless of how the offense is classified by the state, local, or tribal jurisdiction. USCIS will consider, on a case-by-case basis, whether an alien who has unresolved domestic charges or arrests that involve domestic violence, child abuse, possession or distribution of controlled substances, or driving under the influence of drugs or alcohol, warrant a favorable exercise of discretion for a grant of employment authorization.

○ *Recommended Approvals.* The proposed amendments to this section also remove the language referring to ''recommended approvals.'' Under this proposal, USCIS would no longer issue grants of recommended approvals as a preliminary decision for affirmative asylum adjudications.

○ *EAD Renewals.* The proposed amendments would permit renewals during the pendency of the asylum application, including in immigration court and at the BIA, for such periods as determined by USCIS in its discretion, but not to exceed increments of two years.

○ *Submission of biometrics.* The proposed amendments would require applicants to submit biometrics at a scheduled biometrics services appointment for all initial and renewal applications for employment authorization. DHS will require applicants with a pending initial or renewal (c)(8) EAD on the effective date of this rule to appear at an ASC for biometrics collection but DHS will not collect the biometrics services fee from these aliens. DHS will contact applicants with pending applications and provide notice of the place, date and time of the biometrics appointment.

○ *Termination After Denial by USCIS Asylum Officer.* The proposed amendments to this section provide that when a USCIS asylum officer denies an alien's request for asylum any employment authorization associated with a pending asylum application, including any automatic extension of employment authorization, will be terminated effective on the date the asylum application is denied. If a USCIS asylum officer determines that the alien has no lawful immigration status and is not eligible for asylum, the asylum officer will refer the case to DOJ–EOIR and place the alien in removal proceedings. Employment authorization will be available to the alien while in removal proceedings and the application for asylum is under review before an IJ.

○ *Termination After Denial by an IJ or the BIA.* The rule proposes that if USCIS refers a case to DOJ–EOIR, employment authorization would continue for 30-days following the date that the IJ denies the asylum application to account for a possible appeal of the denial to the BIA. If the alien files a timely appeal, employment authorization would continue, and the alien would be able to file a renewal EAD application, if otherwise eligible. Employment authorization would be prohibited during the Federal court appeal process, but the alien could request a (c)(8) EAD if the case is remanded to DOJ–EOIR for a new decision.

○ *Eligibility.* The amendments to the section also clarify existing USCIS policy that only an applicant who is in the United States may apply for employment authorization.

○ *Severability.* The amendments also include a severability clause. This section is drafted with provisions separated into distinct parts. In the event that any provision is not implemented for whatever reason, DHS intends that the remaining provisions be implemented as an independent rule in accordance with the stated purpose of this rule.

• *Amending 8 CFR 208.9, Procedure for interview before an asylum officer.* The amendments to this section clarify that an applicant's failure to appear to receive and acknowledge receipt of the decision following an interview and an applicant's request for an extension to submit additional evidence are applicant-caused delays for purposes of eligibility for employment authorization. The amendments also remove references to the ''Asylum EAD clock.'' This section is further amended to provide that documentary evidence must be submitted no later than 14 calendar days before the interview with an asylum officer takes place to improve administrative efficiency and aid in the meaningful examination and exploration of evidence in preparation for and during the interview. As a

[4] DHS has published a notice of proposed rulemaking (NPRM) entitled ''Removal of 30-Day Processing Provision for Asylum Applicant-Related Form I–765 Employment Authorization Applications,'' DHS Docket No. USCIS–2018–0001, separate from this NPRM, which addresses application processing times. Processing times are therefore not addressed here.

[5] *See* 18 U.S.C. 3156(a)(3) (the term ''felony'' means an offense punishable by a maximum term of imprisonment of more than one year).

matter of discretion, the asylum officer may consider evidence submitted within the fourteen (14) calendar days in advance of the interview date or may grant the applicant a brief extension of time during which the applicant may submit additional evidence.

• *Amending 8 CFR 208.10, Failure to appear for an interview before an asylum officer or for a biometric services appointment for the asylum application.* The amendments to this section seek to clarify that an asylum applicant's failure to appear for an asylum interview or biometric services appointment may lead to referral or dismissal of the asylum application, and may be treated as an applicant-caused delay affecting eligibility for employment authorization. In addition, the rule clarifies that USCIS is not obligated to send any notice to the applicant about his or her failure to appear at a scheduled biometrics appointment or an asylum interview as a prerequisite to making a decision on the application, which may include dismissing the asylum application or referring it to an IJ. These amendments are intended to facilitate more timely and efficient case processing when applicants fail to appear for essential appointments. Finally, the amendments replace references to fingerprint processing and fingerprint appointments with the term presently used by USCIS—''biometric services appointment.''

• *Amending 8 CFR 274a.12, Classes of aliens authorized to accept employment.* The amendments to this section remove the language in 8 CFR 274a.12(c)(8) referring to ''recommended approvals.'' The amendments also delete an obsolete reference to the Commissioner of the former Immigration and Naturalization Service (INS) and replace it with a reference to USCIS. Amendments to this section also clarify that aliens who have been paroled into the United States after being found to have a credible fear or reasonable fear of persecution or torture may apply for employment authorization under 8 CFR 274a.12(c)(8), if eligible, but may not apply under 8 CFR 274a.12(c)(11) (parole-related EADs). The amendments also provide that employment authorization will not be granted if a denial of an asylum application is under judicial review, in conformity with amendments proposed at 8 CFR 208.7. DHS seeks public comment on this proposal and whether the (c)(11) category (parole-based EADs) should be further limited, such as to provide employment authorization only to those DHS determines are needed for foreign policy, law enforcement, or national security reasons, especially since parole is meant only as a temporary measure to allow an alien's physical presence in the United States until the need for parole is accomplished or the alien can be removed.

• *Amending 8 CFR 274a.13, Application for employment authorization.* The proposed amendments to this section remove unnecessary references to the supporting documents required for submission with applications for employment authorization based on a pending asylum application and clarify that such employment authorization applications, like all other applications, petitions, or requests for immigration benefits, must be filed on the form designated by USCIS, in accordance with the form instructions, and along with any applicable fees. DHS is also proposing to amend 8 CFR 274a.13(a)(1) so that USCIS has discretion to grant applications for employment authorization filed by asylum applicants pursuant to 8 CFR 274a.12(c)(8) in keeping with its discretionary statutory authority under INA 208(d)(2), 8 U.S.C. 1158(d)(2). To conform the current automatic extension and termination provisions to the changes proposed under 8 CFR 208.7(b), the amendments to this section provide that any employment authorization granted under 8 CFR 274a.12(c)(8) that was automatically extended pursuant 8 CFR 274a.13(d)(1) will automatically terminate on the date the asylum officer, IJ, or the BIA denies the asylum application.

• *Amending 8 CFR 274a.14, Termination of employment authorization.* For purposes of clarity, the amendment to this section adds a new paragraph at 8 CFR 274a.14(a)(1) that cross-references any automatic EAD termination provision elsewhere in DHS regulations, including the automatic termination provisions being proposed by this rule in 8 CFR 208.7(b).

• *Effective date:* With limited exceptions, the rules in effect on the date of filing form I–765 will govern all initial and renewal applications for a (c)(8) EAD based on a pending asylum application and a (c)(11) EAD based on a grant of parole after establishing a credible fear or reasonable fear of persecution or torture. The criminal provisions and the failure to file the asylum application within one year of last entry will apply to initial and renewal EAD applications pending on the date the final rule is published. In order to implement the criminal ineligibility provision, DHS will require applicants with a pending initial or renewal (c)(8) EAD on the effective date of this rule to appear at an ASC for biometrics collection but DHS will not collect the biometrics services fee from these aliens. DHS will provide notice of the place, date and time of the biometrics appointment to applicants with pending (c)(8) EAD application. If applicable, initial (c)(8) EAD applications filed before the effective date by members of the *Rosario* class would not be affected by this proposed rule. DHS will allow aliens with pending asylum applications that have not yet been adjudicated and who already have received employment authorization before the final rule's effective date to retain their (c)(8) employment authorization until the expiration date on their EAD, unless the employment authorization is terminated or revoked on grounds in the existing regulations. DHS will also allow aliens who have already received employment authorization before the final rule's effective date under the (c)(11) eligibility category based on parole/credible fear to retain that employment authorization until their EAD expires, unless the employment authorization is terminated or revoked on grounds in the existing regulations. The proposals in this rule will not impact the adjudication of applications to replace lost, stolen, or damaged (c)(8) or (c)(11) EADs.

B. Summary of Costs, Benefits, and Transfer Payments

This proposed rule amends the (c)(8) EAD system primarily by extending the period that an asylum applicant must wait in order to be employment authorized, and by disincentivizing asylum applicants from causing delays in the adjudication of their asylum application. The Department has considered that asylum applicants may seek unauthorized employment without possessing a valid employment authorization document, but does not believe this should preclude the Department from making procedural adjustments to how aliens gain access to a significant immigration benefit. The provisions seek to reduce the incentives for aliens to file frivolous, fraudulent, or otherwise non-meritorious asylum applications primarily to obtain employment authorization and remain for years in the United States for economic purposes

The quantified maximum population this rule would apply to about 305,000 aliens in the first year the rule could take effect and about 290,000 annually thereafter. DHS assessed the potential impacts from this rule overall, as well as the individual provisions, and provides quantitative estimates of such impacts where possible and relevant. For the provisions involving biometrics and the removal of recommended approvals, the quantified analysis covers the entire populations. For the 365-day EAD filing time proposal, the quantified analysis also covers the entire population; however, DHS relies on historical data to estimate the costs for affirmative cases and certain assumptions to provide a maximum potential estimate for the remaining affected population. For the provisions that would potentially end some EADs early, DHS could estimate only the portion of the costs attributable to affirmative cases because DHS has no information available to estimate the number of defensive cases affected.

DHS provides a qualitative analysis of the provisions proposing to terminate EADs earlier for asylum cases denied/dismissed by an IJ; remove employment eligibility for asylum applicants under the (c)(11) category, and; bar employment authorization for asylum applicants with certain criminal history, who did not enter at a U.S. port of entry, or who, with little exception, did not file for asylum within one year of their last arrival to the United States. As described in more detail in the unquantified impacts section, DHS does not have the data necessary to quantify the impacts of these provisions.

To take into consideration uncertainty and variation in the wages that EAD holders earn, all of the monetized costs rely on a lower and upper bound, benchmarked to a prevailing minimum wage and a national average wage, which generates a range. Specific costs related to the provisions proposed are summarized in Table 1. For the provisions in which impacts could be monetized, the single midpoint figure for the wage-based range is presented.[6]

TABLE 1—SUMMARY OF COSTS AND TRANSFERS OF THE PROPOSED RULE

Provision summary	Annual costs and transfers (mid-point)
I. Quantified:	
365-day EAD filing wait period (for DHS affirmative asylum cases and partial estimates for DHS referrals to DOJ).	Population: 39,000. Cost: $542.7 million (quantified impacts for 39,000 of the 153,458 total population). Reduction in employment tax transfers: $83.2 million (quantified impacts for 39,000 of the 153,458). Cost basis: Annualized equivalence cost. Summary: Lost compensation for a portion of DHS affirmative asylum cases that benefitted from initial EAD approvals who would have to wait longer to earn wages under the proposed rule; nets out cost-savings for persons who would no longer file under the rule; includes partial estimate of DHS referral cases to DOJ–EOIR and the apropos estimated tax transfers. It does not include impacts for defensively filed cases.
Biometrics requirement	Population for initial and renewal EADs: 289,751. Population for pending EADs: 14,451. Cost: $37,769,580. Reduction in employment tax transfers: None. Cost basis: Maximum costs of the provision, which would apply to the first year the rule could take effect. Summary: For initial and renewal EADs, there would be time-related opportunity costs plus travel costs of submitting biometrics, as well as $85 fee for (c)(8) I–765 initial and renewal populations subject to the biometrics and fee requirements. A small filing time burden to answer additional questions and read associated form instructions in the I–765 is consolidated in this provision's costs. There would also be time-related opportunity costs plus travel costs of submitting biometrics for EADs pending on the effective date of the final rule.
Eliminate recommended approvals.	Population: 1,930 annual. Cost: $13,907,387. Reduction in employment tax transfers: $2,127,830. Cost basis: Annualized equivalence cost. Summary: Delayed earnings and tax transfers that would have been earned for an average of 52 calendar days earlier with a recommended approval.
Terminate EADs if asylum application denied/dismissed (DHS).	Population: 575 (current and future). Cost: $31,792,569. Reduction in employment tax transfers: $4,864,263. Cost basis: Maximum costs of the provision, which would apply to the first year the rule could take effect. Summary: Forgone earnings and tax transfers from ending EADs early for denied/dismissed DHS affirmative asylum applications. This change would affect EADs that are currently valid and EADs for affirmative asylum applications in the future that would not be approved. DHS acknowledges that as a result of this proposed change, businesses that have hired such workers would incur labor turnover costs earlier than without this rule.
365-day EAD filing wait period (for the residual population).	Population: 114,458. Cost: $1,189.6 million–$3,600.4 million (quantified impacts for the remaining 114,458 of the 153,458). Reduction in employment tax transfers: $182.0 million–$550.9 million (quantified impacts for the remaining 114,458 of the 153,458). Cost basis: Annualized equivalence cost. Summary: Lost compensation for the population of approved annual EADs for which DHS does not have data to make a precise cost estimate; The costs reported are a maximum because the potential impact is based on the maximum impact of 151 days; in reality there would be lower-cost segments to this population and filing-cost savings as well.
II. Unquantified:	
Revise (c)(11) category from I–765.	Population: 13,000. Cost: delayed/foregone earnings. Cost basis; NA.

[6] The populations reported in Table 1 reflect the maximum population that would be covered by the provision. Some of the populations that would incur monetized impacts are slightly different due to technical adjustments.

TABLE 1—SUMMARY OF COSTS AND TRANSFERS OF THE PROPOSED RULE—Continued

Provision summary	Annual costs and transfers (mid-point)
	Summary: DHS does not know how many of the actual population will apply for an EAD via the (c)(8) I–765, but the population would be zero at a minimum and 13,000 at a maximum, with a mid-point of 6,500. The population would possibly incur delayed earnings and tax transfers by being subject to the 365-day EAD clock (it is noted that this population would also incur costs under the biometrics provision, above), or lost earnings if they do not apply for a (c)(8) EAD. There is potentially countervailing cost-savings due to a reduced pool of filers under the proposed rule.
Criminal activity/illegal entry bar.	DHS is unable to estimate the number of aliens impacted. Impacts could involve forgone earnings and lost taxes.
Adjudication of pending (c)(8) I–765 applications under the criminal and one-year-filing provisions.	DHS cannot determine how many of the 14,451 pending EAD filings would be impacted by the criminal and one-year-filing provisions. Impacts could involve forgone earning and tax transfers.
One-year filing deadline	Some portion of the 8,472 annual filing bar referrals could be impacted, which could comprise deferred/delayed or forgone earning and tax transfers. DHS does not have data on filing bar cases referred to DOJ–EOIR.
Terminate EADs if asylum application denied/dismissed (DOJ–EOIR).	DOJ–EOIR has denied an average of almost 15,000 asylum cases annually; however, DHS does not have data on the number of such cases that have an EAD. Costs would involve forgone earnings and tax transfers for any such EADs that would be terminated earlier than they otherwise would, as well as forgone future earnings and tax transfers. DHS acknowledges that as a result of this proposed change businesses that have hired such workers would incur labor turnover costs earlier than without this rule. Businesses unable to replace these workers would also incur productivity losses.

For those provisions that affect the time an asylum applicant is employed, the impacts of this rule would include both distributional effects (which are transfers) and costs.[7] The transfers would fall on the asylum applicants who would be delayed in entering the U.S. labor force or who would leave the labor force earlier than under current regulations. The transfers would be in the form of lost compensation (wages and benefits). A portion of this lost compensation might be transferred from asylum applicants to others that are currently in the U.S. labor force, or, eligible to work lawfully, possibly in the form of additional work hours or the direct and indirect added costs associated with overtime pay. A portion of the impacts of this rule would also be borne by companies that would have hired the asylum applicants had they been in the labor market earlier or who would have continued to employ asylum applicants had they been in the labor market longer, but were unable to find available replacement labor. These companies would incur a cost, as they would be losing the productivity and potential profits the asylum applicant would have provided. Companies may also incur opportunity costs by having to choose the next best alternative to the immediate labor the asylum applicant would have provided and by having to pay workers to work overtime hours. USCIS does not know what this next best alternative may be for those companies. As a result, USCIS does not know the portion of overall impacts of this rule that are transfers or costs, but estimated the maximum monetized impact of this rule in terms of delayed/lost labor compensation. If all companies are able to easily find reasonable labor substitutes for the positions the asylum applicant would have filled, they will bear little or no costs, so $4,461.9 million (annualized at 7%) will be transferred from asylum applicants to workers currently in the labor force or induced back into the labor force (we assume no tax losses as a labor substitute was found). Conversely, if companies are unable to find reasonable labor substitutes for the position the asylum applicant would have filled then $4,461.9 million is the estimated monetized cost of the rule, and $0 is the estimated monetized transfers from asylum applicants to other workers. In addition, under this scenario, because the jobs would go unfilled there would be a loss of employment taxes to the Federal Government. USCIS estimates $682.9 million as the maximum decrease in employment tax transfers from companies and employees to the Federal Government.

The two scenarios described above represent the estimated endpoints for the range of monetized impacts resulting from the provisions that affect the amount of time an asylum applicant is employed. USCIS notes that given that the U.S. unemployment rate is hovering around a 50-year low—at 3.7% as of August 2019—it could be possible that employers may face difficulties finding reasonable labor substitutes. DHS does note that an alternative measure of the unemployment rate from the Bureau of Labor Statistics (the U–6) provides additional information on the labor market not found in the official unemployment rate (the U–3). The U–6 rate is a broader measure of labor underutilization and takes into account workers not included in the official U–3 rate that could potentially benefit from this rule. For example, the U–6 rate considers persons who are neither working nor looking for work but indicate they want and are available for a job and have looked for work sometime in the past twelve months and also considers part-time workers who otherwise want and are available for full time employment. The U–6 rate shows unemployment at 7.2 percent, which is much higher than the official U–3 rate of 3.7 percent.[8]

Included in the broader U–6 unemployment rate is the number of persons employed part time for economic reasons (sometimes referred to as involuntary part-time workers), which BLS estimates is 4.4 million in August 2019. These individuals, who would have preferred full-time

[7] Transfer payments are monetary payments from one group to another that do not affect total resources available to society. *See* OMB Circular A–4 pages 14 and 38 for further discussion of transfer payments and distributional effects. Circular A–4 is available at: *https://www.whitehouse.gov/sites/whitehouse.gov/files/omb/circulars/A4/a-4.pdf.*

[8] The full definition of the U–3 and U–6 unemployment rates can be found on the Bureau of Labor Statistics (BLS) website under the ''Local Area Unemployment Statistics (LAUS),'' at: *https://www.bls.gov/lau/stalt.htm.* The actual figures for the U–3 and U–6 unemployment rates are found in table A–15, ''Alternative Measures of Labor Underutilization,'' in the Economic News Release Archives at: *https://www.bls.gov/news.release/archives/empsit_09062019.htm.*

employment, were working part time because their hours had been reduced or they were unable to find full-time jobs.[9] In addition, BLS reports for August 2019 that 1.6 million persons were marginally attached to the labor force. These individuals were not in the labor force, wanted and were available for work, and had looked for a job sometime in the prior 12 months. They were not counted as unemployed in the official U–3 unemployment rate because they had not searched for work in the 4 weeks preceding the BLS survey, but are counted in the U–6 rate.[10] The U–6 rate provides additional evidence that U.S. workers might be available to substitute into the jobs that asylum applicants currently hold.

Because the biometrics requirement proposed in this rule is a cost to applicants and not a transfer, its minimum value of $27.17 million is the minimum cost of the rule. The range of impacts described by these two scenarios, plus the consideration of the biometrics costs, are summarized in Table 2 below (Table 2A and 2B capture the impacts a 3 and 7 percent rates of discount, in order).

TABLE 2A—SUMMARY OF RANGE OF MONETIZED ANNUALIZED IMPACTS AT 3%

Category	Description	Scenario: No replacement labor found for asylum applicants		Scenario: All asylum applicants replaced with other workers		Primary (average of the highest high and the lowest low, for each row)
		Low wage	High wage	Low wage	High wage	
Transfers:						
Transfers—Compensation.	Compensation transferred from asylum applicants to other workers (provisions: 365-day wait + end EADs early + end recommended approvals).	$0.00	$0.00	$1,473,953,451	$4,461,386,308	$2,230,693,154
Transfers—Taxes	Lost employment taxes paid to the Federal Government (provisions: 365-day wait + end EADs early + end recommended approvals).	225,587,337	682,771,643	0.00	0.00	341,385,822
Costs:						
Cost Subtotal—Biometrics.	Biometrics Requirements	27,154,124	45,726,847	27,154,124	45,726,847	36,440,486
Cost Subtotal—Lost Productivity.	Lost compensation used as proxy for lost productivity to companies (provisions: 365-day wait + end EADs early + end recommended approvals).	1,473,953,451	4,461,386,308	0.00	0.00	2,230,693,154
Total Costs		1,501,107,576	4,507,113,155	27,154,124	45,726,847	2,267,133,639

TABLE 2B—SUMMARY OF RANGE OF MONETIZED ANNUALIZED IMPACTS AT 7%

Category	Description	Scenario: No replacement labor found for asylum applicants		Scenario: All asylum applicants replaced with other workers		Primary (average of the highest high and the lowest low, for each row)
		Low wage	High wage	Low wage	High wage	
Transfers:						
Transfers—Compensation.	Compensation transferred from asylum applicants to other workers (provisions: 365-day wait + end EADs early + end recommended approvals).	0.00	0.00	1,474,123,234	4,461,900,172	2,230,950,086
Transfers—Taxes	Lost employment taxes paid to the Federal Government (provisions: 365-day wait + end EADs early + end recommended approvals).	225,613,314	682,850,264	0	0	341,425,132
Costs:						
Cost Subtotal—Biometrics.	Biometrics Requirements	27,171,858	45,766,847	27,171,858	45,766,847	36,469,352
Cost Subtotal—Lost Productivity.	Lost compensation used as proxy for lost productivity to companies (provisions: 365-day wait + end EADs early + end recommended approvals).	1,474,123,234	4,461,900,172	0.00	0.00	2,230,950,086
Total Costs		1,501,295,093	4,507,667,018	27,171,858	45,766,847	2,267,419,438

As required by Office of Management and Budget (OMB) Circular A–4, Table 3 presents the prepared A–4 accounting statement showing the impacts associated with this proposed regulation:

[9] *See* Table A–8, ''Employed Persons by Class of Worker and Part-Time Status'', Persons at work part time for economic reasons: *https://www.bls.gov/news.release/archives/empsit_09062019.htm.*

[10] *See* Table A–16, ''Persons not in the labor force and multiple jobholders by sex, not seasonally adjusted'', Persons marginally attached to the labor force: *https://www.bls.gov/news.release/archives/empsit_09062019.htm.*

TABLE 3—OMB A–4 ACCOUNTING STATEMENT
[$ millions, 2019]
[Period of analysis: 2019–2028]

Category	Primary estimate		Minimum estimate	Maximum estimate	Source citation (RIA, preamble, etc.)
Benefits:					
Monetized Benefits ...	(7%) (3%)	N/A N/A	N/A N/A	N/A N/A	RIA.
Annualized quantified, but un-monetized, benefits.	N/A		N/A	N/A	RIA.
Unquantified Benefits	The benefits potentially realized by the proposed rule are qualitative and accrue to a streamlined system for employment authorizations for asylum seekers that would reduce fraud, improve overall integrity and operational efficiency, and prioritize aliens with bona fide asylum claims. These impacts stand to provide qualitative benefits to asylum seekers, the communities in which they reside and work, the U.S. Government, and society at large. The proposed rule aligns with the Administration's goals of strengthening protections for U.S. workers in the labor market. The proposed biometrics requirement would enhance identity verification and management.				RIA.
Costs:					
Annualized monetized costs (discount rate in parenthesis).	(7%)	$2,267.4	$27.17	$4,507.7	RIA.
	(3%)	2,267.1	27.17	4,507.1	RIA.
Annualized quantified, but un-monetized, costs.	N/A		N/A	N/A	RIA.
Qualitative (unquantified) costs.	In cases where companies cannot find reasonable substitutes for the labor the asylum applicants would have provided, affected companies would also lose profits from the lost productivity. In all cases, companies would incur opportunity costs by having to choose the next best alternative to immediately filling the job the pending asylum applicant would have filled. There may be additional opportunity costs to employers such as search costs. There could also be a loss of Federal, state, and local income tax revenue. Estimates of costs to proposals that would involve DOJ–EOIR defensively-filed asylum applications and DHS-referrals could not be made due to lack of data. Potential costs would involve delayed/deferred or forgone earnings, and possible lost tax revenue. There would also be delayed or forgone labor income and tax transfers for pending EAD applicants impacted by the criminal and one-year filing provisions, renewal applicants, transfers from the (c)(11) group, and filing bar cases, all of whom would be subject to some of the criteria being proposed; in addition, such impacts could also affect those who would be eligible currently for an EAD, or have such eligibility terminated earlier, but would be ineligible for an EAD under the proposed rule.				RIA.
Transfers:					
Annualized monetized transfers: "on budget".	(7%)	$0	$0	$0	RIA.
	(3%)	0	0	0	
From whom to whom?.	N/A				N/A.
Annualized monetized transfers: Compensation.	(7%)	$2,231.0	$0	$4,461.9	RIA.
	(3%)	2,230.7	0	4,461.4	
From whom to whom?.	Compensation transferred from asylum applicants to other workers (provisions: 365-day wait + end EADs early + end recommended approvals). Some of the deferred or forgone earnings could be transferred from asylum applicants to workers in the U.S. labor force or induced into the U.S. labor force. Additional distributional impacts from asylum applicant to the asylum applicant's support network that provides for the asylum applicant while awaiting an EAD; these could involve burdens to asylum applicants' personal private or familial support system, but could also involve public, private, or charitable benefits-granting agencies and non-governmental organizations (NGOs).				RIA.0.0.
Annualized monetized transfers: Taxes.	(7%)	$341.4	$0	$682.9	RIA.
	(3%)	341.4	0	682.8	
From whom to whom?.	A reduction in employment taxes from companies and employees to the Federal Government. There could also be a transfer of Federal, state, and local income tax revenue (provisions: 365-day wait + end EADs early + end recommended approvals).				

Category	Effects	Source citation (RIA, preamble, etc.)
Effects on state, local, and/or tribal governments.	DHS does not know how many low-wage workers could be removed from the labor force due to the proposed rule. There may also be a reduction in state and local tax revenue. Budgets and assistance networks that provide benefits to asylum seekers could be impacted negatively if asylum applicants request additional support.	RIA.
Effects on small businesses.	This proposed rule does not directly regulate small entities, but has indirect costs on small entities. DHS acknowledges that ending EADs linked to denied DHS-affirmative asylum claims and EADs linked to asylum cases under DOJ–EOIR purview would result in businesses that have hired such workers incurring labor turnover costs earlier than without this rule. Such small businesses may also incur costs related to a difficulty in finding workers that may not have occurred without this rule.	RFA.
Effects on wages	None.	RIA.
Effects on growth	None.	RIA.

As will be explained in greater detail later, the benefits potentially realized by the proposed rule are qualitative. This rule would reduce the incentives for aliens to file frivolous, fraudulent, or otherwise non-meritorious asylum applications intended primarily to obtain employment authorization or other forms of non-asylum-based relief from removal, thereby allowing aliens with bona fide asylum claims to be prioritized. A streamlined system for employment authorizations for asylum seekers would reduce fraud and improve overall integrity and operational efficiency. DHS also believes these administrative reforms will encourage aliens to follow the lawful process to immigrate to the United States.[11] These effects stand to provide qualitative benefits to asylum seekers, communities where they live and work, the U.S. government, and society at large.

The proposed rule also aligns with the Administration's goals of strengthening protections for U.S. workers in the labor market. Several employment-based visa programs require U.S. employers to test the labor market, comply with recruiting standards, agree to pay a certain wage level, and agree to comply with standards for working conditions before they can hire an alien to fill the position. These protections do not exist in the (c)(8) EAD program. While this rule would not implement labor market tests for the (c)(8) program, it would put in place mechanisms to reduce fraud and deter those without bona fide claims for asylum from filing applications for asylum primarily to obtain employment authorization or other, non-asylum-based forms of relief from removal. DHS believes these mechanisms will protect U.S. workers.

The proposed biometrics requirement would provide a benefit to the U.S. government by enabling DHS to know with greater certainty the identity of aliens requesting EADs in connection with an asylum application. The biometrics will allow DHS to conduct criminal history background checks to confirm the absence of a disqualifying criminal offense, to vet the applicant's biometrics against government databases (*e.g.,* FBI databases) to determine if he or she matched any criminal activity on file, to verify the applicant's identity, and to facilitate card production. Along with the proposals summarized above and discussed in detail in the preamble and regulatory impact sections of this proposed rule, DHS proposes to modify and clarify existing regulations dealing with technical and procedural aspects of the asylum interview process, USCIS authority regarding asylum, applicant-caused delays in the process, and the validity period for EADs. These provisions are not expected to generate costs. If adopted in a final rule, the rules and criteria proposed herein relating to certain criminal offenses and the one-year-filing bar would apply to pending EAD applications. In order to implement the criminal ineligibility provision, DHS will require applicants with a pending initial or renewal (c)(8) EAD on the effective date of this rule to appear at an ASC for biometrics collection but DHS will not collect the biometrics services fee from these aliens. DHS will contact applicants with pending EAD applications and provide notice of the place, date and time of the biometrics appointment. Some aliens could be impacted and some may not be granted an EAD as they would otherwise under current practice, but DHS does not know how many could be impacted and does not estimate costs for this provision.

III. Purpose of the Proposed Rule

On April 29, 2019, the White House issued a Presidential Memorandum (PM) entitled, ''Presidential Memorandum on Additional Measures to Enhance Border Security and Restore Integrity to Our Immigration System.''[12] The White House, referencing the President's earlier Proclamations noted that ''our immigration and asylum system is in crisis as a consequence of the mass migration of aliens across our southern border'' and that the ''emergency continues to grow increasingly severe. In March, more than 100,000 inadmissible aliens were encountered seeking entry into the United States. Many aliens travel in large caravans or other large organized groups, and many travel with children. The extensive resources required to process and care for these individuals pulls U.S. Customs and Border Protection personnel away from securing our Nation's borders. Additionally, illicit organizations benefit financially by smuggling illegal aliens into the United States and encouraging abuse of our asylum procedures. This strategic exploitation of our Nation's humanitarian programs undermines our Nation's security and sovereignty. The purpose of this memorandum is to strengthen asylum procedures to safeguard our system against rampant abuse of our asylum process.''[13]
The PM directs the Secretary of Homeland Security to propose regulations to bar aliens who have entered or attempted to enter the United States unlawfully from receiving employment authorization prior to being approved for relief and to immediately revoke the employment authorization of aliens who are denied asylum or become subject to a final order of removal.

Through this proposed rule, DHS seeks to address the national emergency and humanitarian crisis at the border[14] by (1) reducing incentives for aliens to file frivolous, fraudulent, or otherwise non-meritorious asylum applications intended primarily to obtain employment authorization, or other forms of non-asylum based relief, and remain for years in the United States due to the backlog of asylum cases, and (2) disincentivizing illegal entry into the United States by proposing that any alien who entered or attempted to enter the United States at a place and time other than lawfully through a U.S. port of entry be ineligible to receive a (c)(8) EAD, with limited exceptions. DHS is also proposing administrative reforms that will ease some of the administrative burdens USCIS faces in accepting and adjudicating applications for asylum and related employment authorization.

As explained more fully below, USCIS believes these reforms will help mitigate the crisis that our immigration and asylum systems are facing as a consequence of the mass migration of aliens across our southern border,[15] as well as improve the current asylum backlog, helping to clear the way for meritorious asylum applications to be received, processed, and adjudicated more quickly, and allowing USCIS to issue employment authorizations more efficiently. The extensive resources required to process and care for these individuals pulls personnel away from securing our Nation's borders. Additionally, illicit organizations benefit financially by smuggling illegal aliens into the United States and encouraging abuse of our asylum procedures. This strategic exploitation of our Nation's humanitarian programs undermines our Nation's security and

[11] The rule may also provide less incentive for those pursuing unauthorized employment in the United States to use the asylum application process to move into authorized employment status.

sovereignty.[16] These interests, when weighed against any reliance interest on behalf of impacted aliens, are greater, particularly because of the large increase in number of those seeking asylum at the border, which is operationally unsustainable for DHS long-term.

It is the policy of the Executive Branch to manage humanitarian immigration programs in a safe, orderly manner that provides access to relief or protection from removal from the United States for aliens who qualify, and that promptly denies benefits to and facilitates the removal of those who do not.[17] This rulemaking is part of a series of reforms DHS is undertaking, in coordination with DOJ–EOIR, to improve and streamline the asylum system, so that those with bona fide asylum claims can be prioritized and extended the protections that the United States has offered for over a century, including employment authorization, to aliens legitimately seeking refuge from persecution

A. Efforts To Reform the Asylum System

The Refugee Act of 1980, Public Law 96–212, 94 Stat. 102, was the first comprehensive legislation to establish the modern refugee and asylum system.[18] Congress passed the Refugee Act mainly to replace the ad hoc process that existed at the time for admitting refugees and to provide a more uniform refugee and asylum process.[19] The focus of the Refugee Act was reforming the overseas refugee program. The Refugee Act did not explicitly address how the United States should reform the asylum process or handle the then-sudden influx of asylum seekers, such as occurred with the Mariel boatlift—a mass influx of Cuban citizens and nationals, many of whom with criminal histories, to the United States in 1980.[20] Congress also provided that any alien who had applied for asylum before November 1, 1979, had not been granted asylum, and did not have a final order of deportation or exclusion, could obtain employment authorization.[21]

In 1980, the then-INS issued an interim regulation implementing the asylum provisions of the Refugee Act.[22] This regulation provided that an INS district director could authorize an applicant for asylum to work, in six-month increments, if the alien had filed a non-frivolous application for asylum.[23] The regulation did not define what constituted a ''frivolous'' filing. The regulation also excluded, without explanation, the limitation on the size of the class of aliens who could qualify for employment authorization (*i.e.,* only aliens who had applied for asylum before November 1, 1979, but had not been granted asylum, and did not have a final order of deportation or exclusion). As a result of the regulation, the class of aliens who could seek employment authorization based on an asylum application was interpreted to include past and future asylum seekers.

Congress, however, did not provide adequate resources or enact legislation that would address the ''pull'' factors that led to significant increases in illegal immigration and in asylum filings following enactment of the Refugee Act.[24] In addition, the publication of two INS regulations—the 1986 implementing regulations for the Immigration Reform and Control Act of 1986 (IRCA), Public Law 99–603 (Nov. 6, 1986)[25] and the 1990 asylum regulations—further incentivized illegal immigration and the filing of non-meritorious asylum claims or other forms of relief because of the ease with which aliens could obtain employment authorization, regardless of the basis for the application for employment authorization.[26] In the implementing regulations for IRCA, INS provided that aliens could receive an interim EAD if INS did not adjudicate the application for employment authorization within 60 days (former 8 CFR 274a.12(c) and (d)).[27] The IRCA regulations also required asylum officers to give employment authorization, in one-year increments, to any alien who had filed a non-frivolous[28] asylum application. In the 1990 asylum regulation, INS also mandated that asylum officers give interim EADs to any alien who had filed a non-frivolous asylum application, and that asylum officers continue to renew employment authorization for the time needed to adjudicate the asylum application (former 8 CFR 208.7(a)).[29]

While IRCA's creation of the employer verification system and employer sanctions was designed to reduce the ''pull'' factor created by the availability of higher paying jobs in the United States, the ability to get interim employment authorization within 90 days, regardless of the basis for requesting employment authorization in the first instance, had the exact opposite effect.[30] In addition, because the agency already had a backlog for adjudicating asylum applications, it was unlikely any asylum application would be adjudicated within a 90-day timeframe, which virtually guaranteed that most asylum applicants would be eligible for interim employment authorization.[31]

[16] *Id.*

[17] *https://www.whitehouse.gov/presidential-actions/presidential-memorandum-additional-measures-enhance-border-security-restore-integrity-immigration-system/.*

[18] Congress added the definition of refugee under section 101(a)(42) of the Act, 8 U.S.C. 1101(a)(42), based on the 1967 United Nations (U.N.) Protocol relating to the Status of Refugees, 19 U.S.T. 6223, TIAS No. 6577, 606 U.N.T.S. 267 (1967), which the United States ratified in November of 1968. The Refugee Act also made withholding of removal mandatory, authorized adjustment of status for asylees and refugees, expanded the funding available for domestic refugee assistance services, and barred eligibility for asylum for aliens who were convicted of a serious crime, firmly resettled, persecutors, or a danger to the security of the United States.

[25] IRCA legalized many illegal aliens present in the United States prior to 1986, created new temporary agricultural worker programs, and mandated employment verification and employer sanctions to address the problem of U.S. employers hiring illegal immigrants. One of the main reasons Congress passed IRCA was its growing concern over the large influx of aliens crossing our borders illegally, particularly on the Southwest border, to find jobs. The employer verification system and employer sanctions were designed to address this concern by reducing the ''pull'' factor created by the availability of higher paying jobs in the United States. *See, e.g.,* H.R. Rep. No. 99–682(I) at pp. 5649–5654 (July 16, 1986) (Committee explanation for the need for IRCA to control illegal immigration).

[31] In 1994, Congress passed the Violent Crime Control and Law Enforcement Act of 1994

The combined effect of the statutory employment authorization for asylum applicants, the regulations, and insufficient agency resources resulted in a greater influx of aliens, many of whom were not legitimate asylum seekers, but instead merely sought to work in the United States.[32]

In 1994, Congress passed the Violent Crime Control and Law Enforcement Act of 1994 (VCCLEA), Public Law 103–322, 108 Stat. 1796 (Sept. 13, 1994), which provided for expedited exclusion proceedings and summary deportation of aliens with failed asylum claims and provided that no applicant for asylum would be entitled to employment authorization unless the Attorney General (now Secretary of Homeland Security) determined, as a matter of discretion, that employment authorization was appropriate.[33] Congress passed these amendments mainly because the asylum system was being overwhelmed with asylum claims, including frivolous and fraudulent claims filed merely to obtain employment authorization.[34] The hope was that the expedited exclusion proceedings would reduce such claims. During consideration of the VCCLEA, DOJ also conducted a review of the asylum process and published regulations designed to reduce the asylum backlogs, eliminate procedural hurdles that lengthened the process, and deter abuses in the system.[35] For the first time, DOJ implemented a waiting period for asylum seekers—150 days—before they could apply for employment authorization. DOJ based the timeframe on the 150-day processing goals it had set for asylum officers and IJs to complete asylum cases.

In 1996, Congress again amended section 208 when it passed the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Public Law 104–208, 110 Stat. 3009. Congress retained the expedited exclusion (now removal) procedures to address the influx of thousands of aliens seeking entry into the United States.[36] Congress also reformed the asylum provisions and codified some of the administrative reforms INS made when it published the 1994 asylum regulation. IIRIRA incorporated language that barred an alien not only from eligibility for asylum, but also from any other immigration benefits (such as when an alien filed a frivolous application),[37] added a one-year deadline to file for asylum, and codified INS's regulatory prohibition on asylum seekers being granted discretionary employment authorization before a minimum of 180 days has passed from the date of filing of the asylum application.[38]

B. Need for Reform

Since IIRIRA, there have been no major statutory changes to the asylum provisions to address the immigration realities faced by the United States today. However, since 2016, the United States has experienced an unprecedented surge[39] in the number of aliens who enter the country unlawfully across the southern border. In Fiscal Year 2019, CBP apprehended over 800,000 aliens attempting to enter the United States illegally.[40] These apprehensions are more than double of those in Fiscal Year 2018.[41] If apprehended, many of these individuals claim asylum and remain in the United States while their claims are adjudicated. There is consistent historical evidence that approximately 20 percent or less of such claims will be successful.[42] This surge in border crossings and asylum claims has placed a strain on the nation's immigration system. The large influx has consumed an inordinate amount of the Department of Homeland Security's resources, which includes surveilling, apprehending, screening, and processing the aliens who enter the country, detaining many aliens pending further proceedings, and representing the United States in immigration court proceedings. The surge has also consumed substantial resources at the Department of Justice, whose immigration judges adjudicate asylum claims and whose officials prosecute aliens who violate Federal criminal law. The strain also extends to the judicial system, which must handle petitions to review denials of asylum claims, many of which can take years to reach final disposition, even when the claims for asylum lack merit.

In order to maintain the very integrity of the asylum system, it is imperative that DHS take all necessary measures to create disincentives to come to the United States for aliens who do not fear persecution on the five protected grounds of race, religion, nationality, political opinion, or particular social group, or torture.[43] Fleeing poverty and generalized crime in one's home country does not qualify an individual for asylum in the United States. *See, e.g., Hui Zhuang* v. *Gonzales,* 471 F.3d 884, 890 (8th Cir. 2006) (''Fears of economic hardship or lack of opportunity do not establish a well-founded fear of persecution.'').

Statistics support DHS's assertion that the vast majority of protection claims are not motivated by persecution under the five protected grounds or torture. The historic high in affirmative asylum applications and credible fear receipts in FY 2018[44] is matched by a historic low rate of approval of affirmative asylum applications and credible fear claims in FY 2018.[45]

As noted above, it is the policy of the Executive Branch to manage our humanitarian immigration programs in a safe, orderly manner that provides access to relief or protection from removal from the United States for aliens who qualify, and that promptly

(VCCLEA), Public Law 103–322, 108 Stat. 1796 (Sept. 13, 1994). As part of its findings, Congress stated ''. . . in the last decade applications for asylum have greatly exceeded the original 5,000 annual limit provided in the Refugee Act of 1980, with more than 150,000 asylum applications filed in fiscal year 1993, and the backlog of cases growing to 340,000.'' VCCLEA, at sec. 130010(1).

45 *Id.*

denies benefits to and facilitates the removal of those who do not.[46] Many protection applications appear to be coming from applicants escaping poor economic situations and generalized violence rather than the five protected grounds for asylum or torture. DHS is proposing more stringent requirements for eligibility for employment authorization, in order to disincentivize aliens who are not legitimate asylum seekers from exploiting a humanitarian program to seek economic opportunity in the United States.

DHS believes that this rule stands alone as an important disincentive for individuals use asylum as a path to seek employment in the United States. DHS further believes that this rule will complement broader interagency efforts to mitigate large-scale migration to the U.S. Southern Border by precluding some asylum seekers from entering the United States.[47] These programs are strengthened by DHS making important procedural adjustments to how those aliens who do enter the United States gain access to such a significant immigration benefit as employment authorization. Further, while some of these aliens may disregard the law and work unlawfully in contravention to these reforms, the Department does not avoid the establishment of regulatory policies because certain individuals might violate the regulations.[48]

Congress gave the Executive Branch the discretion to make employment authorization available by regulation.[49] The current practice of granting employment authorization to aliens before they have been determined eligible for asylum is a ''pull'' factor for the illegal immigration of aliens who are ineligible for any immigration status or benefit in the United States, and there is an urgent need for reform.[50] Employment authorization for foreign nationals seeking asylum is not a right. It is a benefit which must be carefully implemented in order to benefit those it is meant to assist.

IV. Background

A. Legal Authority

The Secretary of Homeland Security's authority to propose the regulatory amendments in this rule can be found in various provisions of the immigration laws. Section 102 of the Homeland Security Act of 2002 (HSA) (Pub. L. 107–296, 116 Stat. 2135), 6 U.S.C. 112 and sections 103(a)(1) and (3) of the INA, 8 U.S.C. 1103(a)(1), (3), charge the Secretary with the administration and enforcement of the immigration and naturalization laws of the United States. Section 402(4) of the HSA, 6 U.S.C. 202(4), expressly authorizes the Secretary, consistent with 6 U.S.C. 236236236 (concerning visa issuance and refusal), to establish and administer rules governing the granting of visas or other forms of permission, including parole, to enter the United States to individuals who are not U.S. citizens or lawful permanent residents. *See also* 6 U.S.C. 271(a)(3), (b) (describing certain USCIS functions and authorities). Section 208 of the INA, 8 U.S.C. 1158, gives the Secretary the discretionary authority to grant asylum to an alien who meets the definition of refugee under section 101(a)(42), 8 U.S.C. 1101(a)(42).[51] Sections 235, 236, and 241 of the INA, 8 U.S.C. 1225, 1226, and 1231, govern the apprehension, inspection and admission, detention and removal, withholding of removal, and release of aliens encountered in the interior of the United States or at or between the U.S. ports of entry. Section 274A of the INA, 8 U.S.C. 1324a, governs employment of aliens who are authorized to be employed in the United States by statute or in the discretion of the Secretary. The Secretary proposes the changes in this rule under these authorities.

B. Eligibility for Asylum

Asylum is a discretionary benefit that can be granted by the Secretary or Attorney General if the alien establishes, among other things, that he or she has experienced past persecution or has a well-founded fear of future persecution on account of race, religion, nationality, membership in a particular social group, or political opinion.[52] Under the INA, certain aliens are barred from obtaining asylum, including aliens who are persecutors, have been convicted of a particularly serious crime (which includes aggravated felonies), have committed serious nonpolitical crimes outside of the United States, who are a danger to the security of the United States, have engaged in certain terrorism-related activities or are members of terrorist organizations, or were firmly resettled in a third country.[53]

Aliens seeking asylum generally must apply for asylum within one year from the date of their last arrival in the United States. An alien who files for asylum after the one-year deadline is not eligible to apply for asylum unless the Secretary or Attorney General, in his or her discretion, excuses the late filing.[54] For a late filing to be excused, the alien must demonstrate that changed circumstances materially affected the alien's eligibility for asylum, or extraordinary circumstances delayed

---

[46] *https://www.whitehouse.gov/presidential-actions/presidential-memorandum-additional-measures-enhance-border-security-restore-integrity-immigration-system/.*

[47] On January 25, 2019, DHS announced certain aliens attempting to enter the U.S. illegally or without documentation, including those who claim asylum, will no longer be released into the United States, where they often fail to file an asylum application and/or disappear before an immigration judge can determine the merits of any claim. Instead, these aliens will be returned to Mexico until their hearing date. See ''Policy Guidance for Implementation of the Migrant Protection Protocols'' (Jan. 2019), *https://www.dhs.gov/sites/default/files/publications/19_0129_OPA_migrant-protection-protocols-policy-guidance.pdf.* On July 15, 2019, DHS and DOJ announced a bar to eligibility for asylum to any alien who enters or attempts to enter the United States across the southern border, but who did not apply for protection from persecution or torture where it was available in at least one third country outside the alien's country of citizenship, nationality, or last lawful habitual residence through which he or she transited en route to the United States. See ''DHS and DOJ Issue Third-Country Asylum Rule (July 2019), *https://www.dhs.gov/news/2019/07/15/dhs-and-doj-issue-third-country-asylum-rule.*

[48] Notably, even the former INS remarked on the need for reform, notwithstanding the possibility that aliens may simply disregard the law and work illegally:

The Department also considered the claim that asylum applicants will disregard the law and work without authorization. While this is possible, it also is true that unlawful employment is a phenomenon not limited to asylum applicants, but is found among many categories of persons who have illegally entered or remained in the United States. The Department does not believe that the solution to this problem is to loosen eligibility standards for employment authorization. This is particularly so because of the evidence that many persons apply for asylum primarily as a means of being authorized to work. These rules will discourage applications filed for such reasons and thus enable the INS to more promptly grant asylum—and provide work authorization—to those who merit relief . . .

59 FR 62284–01, 62291.

[49] INA sec. 208(d)(2).

[50] *See Martin, supra* note 21.

[51] A refugee is defined under INA section 101(a)(42), 8 U.S.C. 1101(a)(42), as:

(A) Any person who is outside any country of such person's nationality or, in the case of a person having no nationality, is outside any country in which such person last habitually resided, and who is unable or unwilling to return to, and is unable or unwilling to avail himself or herself of the protection of, that country because of persecution or a well-founded fear of persecution on account of race, religion, nationality, membership in a particular social group, or political opinion, or

(B) in such special circumstances as the President after appropriate consultation (as defined in section 1157(e) of this title) may specify, any person who is within the country of such person's nationality or, in the case of a person having no nationality, within the country in which such person is habitually residing, and who is persecuted or who has a well-founded fear of persecution on account of race, religion, nationality, membership in a particular social group, or political opinion. . . . .

[52] INA sec. 208(b), 8 U.S.C. 1158(b).

[53] INA sec. 208(b)(2)(A), 8 U.S.C. 1158(b)(2)(A).

[54] The one-year deadline does not apply to an alien who is an unaccompanied alien child, as defined in 6 U.S.C. 279(g). INA sec. 208(a)(2)(E), 8 U.S.C. 1158(a)(2)(E).

filing during the one-year period.[55] Even if an alien meets all the criteria for asylum, including establishing past persecution or a well-founded fear of future persecution and any exceptions to late filing, the Secretary or Attorney General can still deny asylum as a matter of discretion.[56]

Aliens who are granted asylum cannot be removed or returned to their country of nationality or last habitual residence, are employment authorized incident to their status, and may be permitted to travel outside of the United States with prior consent from the Secretary.[57] Asylum can be terminated if the alien was not eligible for asylum status at the time of the asylum grant or is otherwise no longer eligible for asylum under the law.[58]

C. Affirmative vs. Defensive Asylum Filings

To request asylum, an alien must file an application with either USCIS or with the immigration court, using Form I–589, Application for Asylum and for Withholding of Removal. If the immigration judge or the Board of Immigration Appeals determines that an alien knowingly filed a frivolous application for asylum, the alien is permanently ineligible for asylum and any other benefits or relief under the Act, with the exception of relief from removal through withholding and deferral of removal. INA sec. 208(d)(6), 8 U.S.C. 1158(d)(6); 8 CFR 208.2020, 1208.20.

Asylum applications are characterized by which agency has jurisdiction over the alien's case. If an alien is physically present in the United States, not detained, and has not been placed in removal proceedings, the alien files the asylum application with USCIS. These applications are known as ''affirmative'' filings. If DHS places an alien in removal proceedings, the alien files an application for asylum with an IJ.[59] These applications are known as ''defensive'' filings and include aliens the USCIS asylum officer refers to the IJ for de novo review of their asylum claim.

Aliens who present themselves at a U.S. port of entry (air, sea, or land) are generally deemed applicants for admission.[60] If an immigration officer determines that an alien is inadmissible under section 212(a)(6)(C) or 212(a)(7) of the Act for being in possession of false documents, making false statements, or lacking the required travel documentation, the alien may be placed in expedited removal proceedings under section 235(b)(1) of the Act, 8 U.S.C. 1225(b)(1). Such aliens may indicate an intention to apply for asylum, express a fear of persecution or torture, or a fear of return to their home country and must be interviewed by an asylum officer to determine whether the alien has a credible fear of persecution or torture. INA section 235(b)(1), 8 U.S.C. 1225(b)(1); 8 CFR 235.3(b)(4). If an alien is determined to have a credible fear, ''the alien shall be detained for further consideration of application for asylum.'' INA sec. 235(b)(1)(B)(ii), 8 U.S.C. 1225(b)(1)(B)(ii). Asylum applications based initially on a positive credible fear determination are under the jurisdiction of the immigration courts once a Notice to Appear (NTA) is filed with the court and are considered ''defensively-filed'' applications. Similarly, if an alien has a positive credible fear determination, but is released from detention by ICE, the alien is still considered to be under the jurisdiction of the immigration court once the NTA is filed and must file the application for asylum with the court.

D. Employment Authorization for Asylees and Asylum Applicants

Whether an alien is authorized to work in the United States depends on the alien's status in the United States and whether employment is specifically authorized by statute or only authorized pursuant to the Secretary's discretion. Employment authorization for aliens granted asylum and for asylum applicants is authorized under INA sections 208(c)(1)(B) and (d)(2), respectively. Employment authorization for aliens granted asylum is statutorily mandated and incident to their status. Aliens granted asylum (asylees) are not required to apply for an EAD but can do so under 8 CFR 274a.12(a)(5) if they want to have documentation that reflects that they are employment authorized. Employment authorization for aliens granted withholding of removal or deferral of removal are governed by 8 CFR 274a.12(a)(10) and (c)(18) respectively.

An asylum applicant, however, is not entitled to employment authorization by statute. INA section 208(d)(2), 8 U.S.C. 1158(d)(2). The Secretary, through regulations, may authorize employment for aliens who request asylum while the asylum application is pending adjudication. Even if the Secretary chooses to grant employment authorization to an asylum applicant, under the current statute and regulations, he or she cannot grant such authorization until 180 days after the filing of the application for asylum. *Id.* In practice, this 180-day period is commonly called the ''180-day Asylum EAD Clock.''[61] The goal of the Asylum EAD clock is to deter applicants from delaying their asylum application. Therefore, USCIS does not count, for purposes of eligibility for an EAD, the days that actions by the applicant have resulted in delays to the adjudication of his or her asylum application. However, applicants, practitioners, and USCIS itself have all cited difficulty with accurate clock calculations.[62] In light of these issues, USCIS is proposing to eliminate the clock altogether and, instead, extend the mandatory waiting period to file an asylum-based EAD application. USCIS is also proposing that the EAD application will be denied if the asylum case is subject to an applicant-caused delay at the time the Form I–765(c)(8) application is adjudicated.

While the INA bars certain aliens from being granted asylum who, for example, are persecutors, have been convicted of a particularly serious crime, have committed serious nonpolitical crimes[63] outside of the United States, who are a danger to the security of the United States, have engaged in certain terrorism-related related activities or are members of terrorist organizations, or were firmly resettled in a third country, such aliens may still apply for asylum, and subsequently also apply for an EAD once their application has been pending for 150 days. INA sec. 208(b)(2)(A), 8 U.S.C. 1158(b)(2)(A).

---

[55] INA sec. 208(a)(2)(D), 8 U.S.C. 1158(a)(2)(D).

[56] *See* INA sec. 208(b)(1), 240(c)(4)(ii); 8 U.S.C. 1158(b)(1), 1229a(c)(4)(ii).

[57] INA sec. 208(c)(1), 8 U.S.C. 1158(c)(1).

[58] INA sec. 208(c)(2), 8 U.S.C. 1158(c)(2).

[59] Where an asylum application is filed by an unaccompanied alien child, USCIS has initial jurisdiction over that application, even if the applicant is in removal proceedings. INA sec. 208(b)(3)(C), 8 U.S.C. 1158(b)(3)(C); William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 (TVPRA), Public Law 110–457 (Dec. 23, 2008).

[60] INA sec. 101(a)(13)(C), 8 U.S.C. 1101(a)(13)(C) provides separate exceptions for when a lawful permanent resident will be considered an applicant for admission (*e.g.,* abandoned residence, continuous absence of 180 days, illegal activity after departure from the United States).

[62] *See* Dep't of Homeland Security, Citizenship & Immigration Services Ombudsman Report, *Employment Authorization For Asylum Applicants: Recommendations To Improve Coordination And Communication* (Aug. 26, 2011), at p.6.

[63] *See, e.g.,* INA sec. 101(a)(43)(F), 8 U.S.C. 1101(a)(43)(F); INA sec. 212(a)(2)(A)(i)(I), 8 U.S.C. 1182(a)(2)(A)(i)(I); INA sec. 212(a)(2)(B), 8 U.S.C. 1182(a)(2)(B).

Aliens seeking employment authorization generally must apply for an EAD by filing Form I–765, Application for Employment Authorization, with USCIS in accordance with the form instructions, along with any prescribed fee (unless waived). 8 CFR 274a.13. The regulations at 8 CFR 208.7 and 274a.12(c)(8) govern employment authorization for asylum applicants.

E. Asylum and EAD Adjudications

Under existing regulations, there are several important stages and timeframes that can affect the adjudication of asylum applications and (c)(8) EADs: (1) The initial filing of an asylum application; (2) the one-year filing deadline; (3) the 150-day period asylum applicants must wait before they are eligible to file an application for employment authorization; and (4) the additional 30-day period (180-days total) before USCIS may grant (c)(8) employment authorization.

Under current 8 CFR 208.3, if USCIS fails to return the incomplete application for asylum within 30 days to the applicant, the application is automatically deemed complete. Once the asylum application has been accepted for processing, asylum officers review it to determine if all the documents required to make a decision have been submitted. This review also includes a determination of whether the asylum application was filed within the required one-year period. If the alien failed to file within the one-year period, asylum officers and/or IJs then determine whether the alien meets any of the exceptions to the late filing bar. In the case of affirmative asylum filings, if the alien does not meet an exception, the asylum officer has the authority to deny, dismiss, or refer the case to the immigration court. 8 CFR 208.14. Asylum officers refer cases to the immigration court by issuing a NTA, which places the alien into removal proceedings. If the asylum officer refers the complete asylum application to the immigration court, the immigration court conducts a de novo review and determines if the alien meets the required one-year deadline or qualifies for any of the late filing exceptions.

Once the asylum application is accepted, the 150-day waiting period for filing a (c)(8) EAD application begins. The regulations at 8 CFR 208.7(a) further provide that USCIS will have 30 days from the filing date of the EAD application to grant or deny that application. The 180-day asylum EAD ''clock'' therefore includes the 150-day waiting period for filing the (c)(8) EAD application, which is the time while the asylum application is pending with USCIS, or an IJ, and the additional 30-day period that USCIS has to grant or deny the EAD application. The 180-day Asylum EAD Clock excludes delays requested or caused by the applicant and does not run again until the applicant cures the delay or until the next scheduled event in a case, such as a postponed interview due to the delay, or a continued hearing.

USCIS is not permitted to issue an EAD until 180-days after the filing of a complete asylum application (*i.e.* the date an alien can be *issued* an EAD). If a USCIS asylum officer recommends that an asylum application be approved before the required waiting period ends, the alien may apply for employment authorization based on the recommended approval.

As noted, there are a number of actions that can delay or toll the running of the 180-day Asylum EAD Clock. For example, if an applicant fails to appear for a required biometrics appointment, the 180-day clock will stop and not recommence until the alien appears for his or her biometrics appointment. Similarly, if an alien asks to amend or supplement his or her asylum application, fails to appear at an asylum office to receive and acknowledge receipt of the decision, requests an extension after the asylum interview, or reschedules an asylum interview, all of these actions will stop the 180-day Asylum EAD Clock, and the EAD clock will not recommence until the required action is completed.[64] As a result, some aliens may have to wait longer than 180 calendar days before they can be granted employment authorization.

Once an asylum applicant receives an EAD based on a pending asylum application, his or her employment authorization will terminate either on the date the EAD expires or 60 days after the denial of asylum, whichever is longer (affirmatively-filed cases). If the asylum application is denied by an IJ, the BIA, or a denial of asylum is upheld by a Federal court, the employment authorization terminates upon the expiration of the EAD, unless the applicant seeks renewal of employment authorization during the pendency of any administrative or judicial review.

[64] *See id.* EOIR–USCIS joint notice, *The 180-day Asylum EAD Clock Notice,* for additional examples of actions that can affect the 180-day Asylum EAD Clock.

V. Discussion of Proposed Rule

A. 365-Day Waiting Period To Apply for Asylum-Application-Based EADs

DHS is proposing to extend the time period an asylum applicant must wait before he or she is eligible to be granted employment authorization based on a pending asylum application from 180 days to 365 calendar days. *See* proposed 8 CFR 208.7. DHS is proposing this change to a 365-day waiting period to remove the incentives for aliens who are not legitimate asylum seekers to exploit the system and file frivolous, fraudulent, or non-meritorious claims to obtain employment authorization. Currently, if an alien files an application for asylum, the alien can obtain an employment authorization document after just 180 days, not including any days not counted due to an applicant-caused delay. Backlogs at USCIS and the years-long wait for hearings in the immigration courts allow aliens to remain in the United States for many years, be authorized for employment, and ultimately gain equities for an immigration benefit, even if their asylum applications will be denied on their merits.[65] DHS believes that the longer waiting period for filing a (c)(8) EAD application will be a strong deterrent to frivolous, fraudulent, and non-meritorious asylum filings. Further, in light of DHS's assessment[66] that many asylum applications appear to be coming from aliens escaping general criminal violence and poor economic situations in their home countries, rather than the five protected grounds for asylum or torture, it is logical that more stringent requirements for eligibility for employment authorization, such as a substantially longer waiting period for employment authorization, would disincentivize these would-be asylum seekers from coming to the United States in search of economic opportunity. DHS also believes that this deterrent, coupled with last-in, first out (LIFO) asylum-adjudication scheduling discussed below, will lead to meritorious

[65] *See, e.g.,* Doris Meissner, Faye Hipsman, and T. Alexander Aleinikoff, *The U.S. Asylum System in Crisis; Charting a Way Forward,* Migration Policy Institute (Sept. 2018) at pp. 4 and 9–12, for additional discussion on the impact of backlogs and delays in immigration proceedings.

[66] See ''Statement from the Department of Homeland Security following the Acting Secretary's appearance at Georgetown University'' (Oct. 2019), *https://www.dhs.gov/news/2019/10/07/statement-department-homeland-security-following-acting-secretary-s-appearance.* DHS has made this assessment based on internal reporting from regional asylum offices, internal country information assessments, and corroborating journalist sources cited prior in this Notice of Proposed Rule Making.

applications being granted sooner—resulting in immediate work authorization conferred on asylees by INA section 208(c)(1)(B)—and non-meritorious applications being denied sooner—resulting in the prompt removal of aliens who fail to establish eligibility to remain in the United States. DHS acknowledges that the reforms proposed will also apply to individuals with meritorious asylum claims, and that these applicants may also experience economic hardship as a result of heightened requirements for an EAD. However, DHS's ultimate goal is to maintain integrity in the asylum process, sustaining an under-regulated administrative regime is no longer feasible. It is not unreasonable to impose additional time and security requirements on asylum seekers. Asylum seekers already are subject to temporal and security restrictions, and for the United States to scale up those restrictions based on operational needs is entirely reasonable.

DHS is proposing this change to complement its LIFO scheduling priority, re-implemented on January 29, 2018.[67] This priority approach, first established by the asylum reforms of 1995 and used for 20 years until 2014, seeks to deter those who might try to use the existing backlog as a means to obtain employment authorization. Returning to a LIFO interview schedule will allow USCIS to identify frivolous, fraudulent, or otherwise non-meritorious asylum claims earlier and place those aliens into removal proceedings. Under the previous Administration, the Department discontinued LIFO processing, the timing of which corresponded with a significant increase in asylum applications.

In the last decade, USCIS has seen its backlog of asylum applications skyrocket, with the number of new affirmative asylum filings increasing by a factor of 2.5 between FY 2014 and FY 2017.[68] As of March 31, 2019, USCIS currently faces an affirmative asylum backlog of over 327,984 cases. The high volume of cases stems in part from the recent surges in illegal immigration and organized caravans of thousands of aliens, primarily from the Northern Triangle countries (El Salvador, Honduras, and Guatemala), creating a humanitarian and national security crisis at the southern border. USCIS also has had to divert resources and asylum officers from processing affirmative asylum backlog cases to address the continuing high volume of credible fear and reasonable fear cases that require immediate interviews.

DHS proposes to eliminate the 180-day Asylum EAD Clock and instead deny EAD applications that have unresolved, applicant-caused delays existing on the date of EAD adjudication. The proposed elimination of the 180-day EAD clock will resolve some of the difficulties adjudicators face in processing asylum EAD applications. Calculating the current Asylum EAD clock is one of the most complex and time-consuming aspects of EAD adjudications.[69] It requires multipart calculations and the tracking of the start and stop dates for each individual applicant's case. It also requires coordination with DOJ–EOIR for defensively-filed cases that are not under USCIS' jurisdiction.[70] In light of these issues, USCIS is proposing to eliminate the clock altogether and instead extend the mandatory waiting period to file for an EAD and notify applicants that their EAD application will be denied if the asylum case is subject to an applicant-caused delay at the time the Form I–765 (c)(8) application is adjudicated. USCIS believes eliminating the 180-day Asylum EAD clock will significantly streamline the employment authorization process of the (c)(8) EAD because EAD adjudicators will no longer have to calculate the number of days that must be excluded to account for applicant-caused delays or coordinate with DOJ–EOIR to do so, and will instead simply rely on 365 calendar days from the asylum application receipt date to determine when an alien can request employment authorization. DHS has promulgated a separate rulemaking proposing the elimination of the requirement to adjudicate the EAD application within 30 days. *See Removal of 30-Day Processing Provision for Asylum Applicant-Related Form I–765 Employment Authorization Applications*'' DHS Docket No. USCIS–2018–0001, 84 FR 47148 (Sept. 9, 2019).

DHS recognizes that a number of aliens who are legitimate asylum seekers may experience potential economic hardship because of the extended waiting period. However, the asylum system in the United States is completely overwhelmed.[71] DHS is urgently seeking solutions, including mustering an all-volunteer force to assist with processing incoming migrants at the southwest border of the United States.[72] But mitigating this unprecedented pressure on the U.S. immigration system will require more than just adding and reallocating DHS resources. DHS must take steps to address the pull factors bringing economic migrants to the United States.[73] The urgency to maintain the efficacy and the very integrity of the U.S. asylum and immigration system outweighs any hardship that may be imposed by the additional six-month waiting period. The integrity and preservation of the U.S. asylum system takes precedence over potential economic hardship faced by alien arrivals who enjoy no legal status in the United States, whether or not those aliens may later be found to have meritorious claims. DHS seeks public comment on this proposed amendment.

B. One-Year Filing Deadline

As part of the reforms to the asylum process, DHS also is emphasizing the importance of the statutory one-year filing deadline for asylum applications. Both DHS and DOJ–EOIR adjudicate asylum applications filed by aliens who reside in the United States for years before applying for asylum. Many aliens filing for asylum now are aliens who were inspected and admitted or paroled but failed to depart at the end of their authorized period of stay (visa overstays), or who entered without inspection and admission or parole and remained, not because of a fear of persecution in their home country, but for economic reasons.[74] In addition, the

[68] *See supra* note 39.

[69] USCIS acknowledges that many processes have been automated by the Person Centric Query System (PCQS) Asylum EAD Clock Calculator. However, the Asylum EAD Clock Calculator is not fully automated and there are still calculations that are not captured in the Clock Calculator. Additionally, not all scenarios have business rules that have been created. This requires officers to do manual calculations in many scenarios. The elimination of the 180-day Asylum EAD Clock will create overall efficiencies for USCIS given these limitations with the Clock Calculator.

[74] Even Congress found that the asylum system was being overwhelmed with asylum claims, including frivolous and fraudulent claims filed merely to obtain employment authorization. *See, e.g.,* Public Law 103–322, 108 Stat. 1796, at sec. 130010(3) (findings of the Senate on the need for reforms to the asylum process, including finding

Continued

Asylum Division reports that a contributing factor to the asylum backlog is an increase in the number of applicants who file skeletal or fraudulent asylum applications affirmatively to trigger removal proceedings before the immigration court where they can apply for cancellation of removal, a statutory defense against removal and pathway to lawful permanent resident status available to those who have at least ten years of physical presence in the United States and meet additional eligibility criteria.[75] DHS seeks to address this practice and reduce the asylum backlog by proposing to make aliens ineligible for (c)(8) employment authorization if they fail to file their asylum application within one year of their last arrival in the United States as required by statute. Based on statute and relevant case law, DHS also proposes limited exceptions to the one-year-filing deadline as it relates to eligibility for a (c)(8) EAD, namely those who meet an exception under INA section 208(a)(2)(D) or if the applicant was an unaccompanied alien child on the date the asylum application was first filed. DHS believes that the statutory one-year filing period is a sufficient period of time for bona fide asylum applicants to make their claim with USCIS or an IJ. DHS seeks public comments on these proposed amendments.

C. Criminal Bars to Eligibility

DHS is proposing to expand the bars to the (c)(8) EAD to any alien who has: (1) Been convicted of any aggravated felony as defined in section 101(a)(43) of the INA, 8 U.S.C. 1101(a)(43), (2) been convicted of any felony in the United States or any serious non-political crime outside the United States, or (3) been convicted in the United States of certain public safety offenses involving domestic violence or assault; child abuse or neglect; controlled substances; or driving or operating a motor vehicle under the influence of alcohol or drugs, regardless of how the offense is classified by the state or local jurisdiction. DHS also proposes to consider, on a case-by-case basis, whether aliens who have been convicted of any non-political foreign criminal offense, or have unresolved arrests or pending charges for any non-political foreign criminal offenses, warrant a favorable exercise of discretion.[76] DHS also proposes to consider, on a case-by-case basis, whether an alien who has unresolved domestic charges or arrests that involve domestic violence, child abuse, possession or distribution of controlled substances, or driving under the influence of drugs or alcohol, warrant a favorable exercise of discretion for a grant of employment authorization.

To determine if an asylum applicant seeking employment authorization has a disqualifying criminal history, DHS proposes to require such applicants to appear at an ASC to provide their biometrics for their initial and renewal applications. The biometrics will allow DHS to conduct criminal history background checks to confirm the absence of a disqualifying criminal offense, to vet the applicant's biometrics against government databases (*e.g.,* FBI databases) to determine if he or she matched any criminal activity on file, to verify the applicant's identity, and to facilitate card production. In order to implement the criminal ineligibility provision, DHS will require applicants with a pending initial or renewal (c)(8) EAD on the effective date of this rule to appear at an ASC for biometrics collection but DHS will not collect the biometrics services fee from these aliens. DHS will contact applicants with pending applications and provide notice of the place, date and time of the biometrics appointment.

DHS seeks comment on additional public safety related crimes that should bar (c)(8) EAD eligibility. *See* proposed 8 CFR 208.7 and 274a.12(c)(8). Providing discretionary employment authorization to criminal aliens and aliens who have been convicted for serious crimes that offend public safety, and who have not been determined eligible for asylum.

D. Procedural Reforms

DHS is proposing to clarify that USCIS has jurisdiction over all applications for employment authorization based on a pending or approved asylum application, regardless of whether USCIS or DOJ–EOIR has jurisdiction over the asylum case. DHS is also proposing several procedural changes to streamline the asylum adjudication process. Currently, most applications, petitions, and requests for immigration benefits have specific minimum requirements that must be met before the forms can be accepted for filing. DHS proposes to amend the regulations at 8 CFR 208.3 to remove the language providing that a Form I–589, Application for Asylum and for Withholding of Removal, will be deemed a complete, properly filed application if USCIS fails to return the incomplete Form I–589 to the alien within a 30-day period. *See* proposed 8 CFR 208.333. This procedural change will require asylum applicants to file the asylum application in accordance with the requirements outlined in the regulations and form instructions and is consistent with the general principle that applicants and petitioners bear the burden of filing complete applications and petitions. Applications not properly filed are rejected and returned to the applicant with the reasons for the rejection, consistent with other forms.

DHS also proposes to remove the language referring to ''recommended approvals'' of asylum applications and the benefits of such applicants who receive those notices. *See* proposed 8 CFR 208.3 and 274a.12(c)(8). Recipients of recommended approvals have not fully completed the asylum adjudication process. Previously, USCIS issued such notices even when all required background and security check results had not been received, and recipients of recommended approvals were eligible for employment authorization. However, because Congress has mandated that DHS not approve asylum applications until DHS has received and reviewed all the results of the required background and security checks, DHS has determined that continuing to issue recommended approval notices is contrary to this mandate.[77] In addition,

that the asylum system was being abused ''by fraudulent applicants whose primary interest is obtaining work authority in the United States while their claim languishes in the backlogged asylum processing system.''). *See also* H.R. Rep. No. 99–682(I) at pp. 5649–5654, where Congress discussed the impact of economic migrants on the U.S. economy during consideration of IRCA in 1986:

Now, as in the past, the Committee remains convinced that legislation containing employer sanctions is the most humane, credible, and effective way to respond to the large scale influx of undocumented aliens. While there is no doubt many who enter illegally do so for the best of motives—to seek a better life for themselves and their families—immigration must proceed in a legal, orderly and regulated fashion. As a sovereign nation, we must secure our borders.

* * *

Since most undocumented aliens enter this country to find jobs, the Committee believes it is essential to require employers to share the responsibility to address this serious problem. The need for control is underscored by international demographics. Undocumented aliens tend to come from countries with high population growth and few employment opportunities. The United States is not in a position to redress this imbalance by absorbing these workers into our economy and our population. U.S. unemployment currently stands at 7% and is much higher among the minority groups with whom undocumented workers compete for jobs directly.

[75] *See* CIS Ombudsman, *Annual Report,* at p. 44.

[76] *See, e.g.,* INA sec. 101(a)(43)(F), 8 U.S.C. 1101(a)(43)(F); INA sec. 212(a)(2)(A)(i)(I), 8 U.S.C. 1182(a)(2)(A)(i)(I); INA sec. 212(a)(2)(B), 8 U.S.C. 1182(a)(2)(B).

[77] *See* INA sec. 208(d)(5)(A)(i), 8 U.S.C. 1158(d)(5)(A)(i).

(5) Consideration of asylum applications

USCIS believes it is an inefficient use of resources for USCIS to manage a separate processing regime, which requires USCIS to review the asylum application twice: First to determine if it is initially approvable as a ''recommended approval,'' and then again (after a recommended approval notice has been issued to the applicant) to ensure that the applicant remains eligible for asylum based on the results of the background and security checks. This change would enhance efficiency by removing duplicative case processing tasks and enhance the integrity of the overall asylum process because all information will be considered before issuance of the asylum decision

DHS is also proposing that any documentary evidence submitted fewer than 14 calendar days before the asylum interview (with allowance for a brief extension to submit additional evidence as a matter of discretion) may result in an applicant-caused delay if it delays the adjudication of the asylum application. The purpose of this provision is to improve administrative efficiency and aid in the meaningful examination and exploration of evidence in preparation for and during the interview.

E. Termination of Employment Authorization

DHS proposes revising the rule governing when employment authorization terminates to provide that when USCIS or DOJ–EOIR denies an asylum application, the alien's employment authorization associated with the asylum application will be terminated automatically, effective on the date of denial of the asylum application.

1. Denial of Asylum Application by USCIS Asylum Officer

Currently, the regulations at 8 CFR 208.7(b)(1) provide that an asylum applicant's employment authorization terminates within 60 days after a USCIS asylum officer denies the application or on the date of the expiration of the EAD, whichever is longer. DHS does not believe it is the will of Congress that aliens with denied asylum applications should continue to hold employment authorization once the asylum claim is denied. DHS therefore proposes that when a USCIS asylum officer denies an alien's request for asylum, any employment authorization associated with a pending asylum application will be automatically terminated effective on the date the asylum application is denied. Further, consistent with the current regulation, DHS proposes to exclude from eligibility aliens whose asylum applications have been denied by an asylum officer during the 365-day waiting period or before the adjudication of the initial employment authorization request.

When a USCIS asylum officer refers an affirmative application to DOJ–EOIR, the asylum application remains pending, and the associated employment authorization remains valid while the IJ adjudicates the application. Aliens granted asylum by USCIS or an IJ no longer require, nor are they eligible for, a (c)(8) EAD, but they can apply for an EAD under 8 CFR 274a.12(a)(5) if they want documentation that reflects they are employment authorized.

2. Termination After Denial by IJ

Currently, the regulations at 8 CFR 208.7(b)(2) provide that when an IJ denies an asylum application, the employment authorization terminates on the date the EAD expires, unless the asylum applicant seeks administrative or judicial review. DHS proposes instead that if the IJ denies the alien's asylum application, employment authorization will terminate 30 days after denial to allow time for appeal to the BIA. If a timely appeal is filed, employment authorization will be available to the alien during the BIA appeal process, but prohibited during the Federal court appeal process unless the case is remanded to DOJ–EOIR for a new decision. USCIS believes that restricting access to (c)(8) employment authorization during the judicial review process is necessary to ensure that aliens who have failed to establish eligibility for asylum during two or three levels of administrative review do not abuse the appeals processes in order to remain employment authorized. For the same reason, DHS proposes to exclude from eligibility aliens whose asylum applications have been denied by an IJ during the 365-day waiting period.

3. Automatic Extensions of Employment Authorization and Terminations

To conform the automatic extension and termination provisions proposed under 8 CFR 208.7(b), DHS is also proposing amendments to the current regulations at 8 CFR 274a.13(d), which govern automatic extensions of employment authorization and termination of such extensions. If an asylum applicant's employment authorization will expire before the asylum officer, IJ, or the BIA renders a decision on the asylum application, under current regulations, the alien may file an application to renew the employment authorization. If the renewal EAD application is filed timely, the alien's employment authorization is extended automatically for up to 180 days or the date of the EAD decision, whichever comes first. As previously discussed, when a USCIS asylum officer, IJ, or the BIA denies the asylum application, any employment authorization would terminate on the date of the denial, except for the thirty-day appeal window for an alien to file an appeal before the BIA following an asylum application's denial by an IJ. This rule at proposed 8 CFR 208.7(b)(2) makes clear that employment authorization automatically terminates regardless of whether it is in a period of automatic extension. Therefore, the rule proposes conforming amendments at 8 CFR 274a.13(d)(3), specifying that automatic extensions would be automatically terminated upon a denial of the asylum application, or on the date the automatic extension expires (which is up to 180 days), whichever is earlier. *See* proposed 8 CFR 274a.13(d)(3).

DHS also proposes a technical change that would add a new paragraph at 8 CFR 274a.14(a)(1) to generally reference any automatic termination provision elsewhere in DHS regulations, including the automatic EAD termination provision being proposed by this rule.[78] As 8 CFR 274a.14(a)(1) is a general termination provision, DHS feels that incorporation of a general reference to other termination provisions would help avoid possible confusion regarding the applicability of such other provisions in relation to 8 CFR 274a.14(a)(1).

F. Aliens Who Have Established a Credible Fear or a Reasonable Fear of Persecution or Torture and Who Have Been Paroled Into the United States

DHS proposes clarifying the rule governing employment eligibility for certain aliens who have been paroled into the United States after establishing a credible fear or reasonable fear of persecution or torture. *See* 8 CFR 208.30.

(A) Procedures.—The procedure established under paragraph (1) shall provide that—

(i) *asylum cannot be granted until the identity of the applicant has been checked against all appropriate records or databases maintained by the Attorney General and by the Secretary of State,* including the Automated Visa Lookout System, to determine any grounds on which the alien may be inadmissible to or deportable from the United States, or ineligible to apply for or be granted asylum;

(emphasis added).

[78] *See* proposed 8 CFR 208.7(b)(2); *see also* 8 CFR 214.2(f)(9)(ii)(F)(2) (automatic termination of F–1 student-based employment authorization based on economic necessary where the student fails to maintain status).

In 2017, DHS issued a memo, ''Implementing the President's Border Security and Immigration Enforcement Improvement Policies,'' which stated that CBP or ICE will only consider the release of aliens from detention based on the parole authority under INA section 212(d)(5) on a case-by-case basis.[79] One such case is when an arriving alien subject to expedited removal establishes a credible fear of persecution or torture, or eligibility for withholding of removal, adequately establishes his or her identity, does not pose a flight risk or danger to the community, and otherwise warrants parole as a matter of discretion. Currently, when DHS exercises its discretion to parole such aliens, officers are instructed to endorse the Form I–94 parole authorization with an express condition that employment authorization not be provided under 8 CFR 274a.12(c)(11) on the basis of the parole. This rule would conform the regulations to that important policy. DHS continues to believe that it would be an inconsistent policy to permit these asylum seekers released on parole to seek employment authorization without being subject to the same statutory requirements and waiting period as non-paroled asylum seekers. Therefore, this rule proposes to clarify, consistent with existing DHS policy, that employment authorization for this category of parolees is not immediately available under the (c)(11) category. Such aliens may still be eligible to apply for a (c)(8) employment authorization to become employment authorized subject to the eligibility changes proposed in this rule. DHS seeks public comment on this proposal and whether the (c)(11) category (parole-based EADs) should be further limited, such as to provide employment authorization only to those DHS determines are needed for foreign policy, law enforcement, or national security reasons, especially since parole is meant only as a temporary measure to allow an alien's physical presence in the United States until the need for parole is accomplished or the alien can be removed.

G. Illegal Entry

DHS proposes to exclude aliens from receiving a (c)(8) EAD if they enter or attempt to enter the United States illegally without good cause. Good cause is defined as a reasonable justification for entering the United States illegally as determined by the adjudicator on a case-by-case basis. Since what may be a reasonable justification for one applicant may not be reasonable when looking at the circumstances of another applicant, DHS believes a case-by-case determination of good cause in a (c)(8) adjudication will incentivize aliens to comply with the law to the extent possible and avoid injury and death associated with illegal entries, and reduce government expenditures related to detecting, apprehending, processing, housing, and transporting escalating numbers of illegal entrants. To the extent that this change could be considered a ''penalty'' within the meaning of Article 31(1) of the 1951 Convention relating to the Status of Refugees, which is binding on the United States by incorporation in the 1967 Protocol relating to the Status of Refugees, DHS believes that it is consistent with U.S. obligations under the 1967 Protocol because it exempts aliens who establish good cause for entering or attempting to enter the United States at a place and time other than lawfully through a U.S. port of entry.

The amendments to this section make any alien who entered or attempted to enter the United States at a place and time other than lawfully through a U.S. port of entry ineligible to receive a (c)(8) EAD, with the limited exception of when an alien demonstrates that he or she: (1) Presented himself or herself without delay to the Secretary of Homeland Security (or his or her delegate); and (2) indicated to a DHS agent or officer an intent apply for asylum or expressed a fear of persecution or torture; and (3) otherwise had good cause for the illegal entry or attempted entry. Examples of reasonable justifications for the illegal entry or attempted entry include, but are not limited to, requiring immediate medical attention or fleeing imminent serious harm, but would not include the evasion of U.S. immigration officers, or entering solely to circumvent the orderly processing of asylum seekers at a U.S. port of entry, or convenience. Asylum is a discretionary benefit that should be reserved only for those who are truly in need of the protection of the United States. It follows that work authorization associated with a pending asylum application should be similarly reserved.

H. Effective Date of the Final Rule

The rules in effect on the date of filing Form I–765 will govern all initial and renewal applications for (c)(8) and (c)(11) employment authorization, with limited exceptions. DHS will apply two proposed provisions—ineligibility based on certain criminal offenses and failure to file the asylum application within one year—to initial and renewal applications for (c)(8) EAD's pending on the effective date of the final rule. In order to implement the criminal ineligibility provision, DHS will require applicants with a pending initial or renewal (c)(8) EAD application on the effective date of this rule to appear at an ASC for biometrics collection but DHS will not collect the biometrics services fee from these aliens. DHS will contact applicants with pending applications and provide notice of the place, date and time of the biometrics appointment. To ensure consistency with a separate proposed rule entitled ''Removal of 30-Day Processing Provision for Asylum Applicant-Related Form I–765 Employment Authorization Applications,'' DHS Docket No. USCIS–2018–0001, 84 FR 47148 (Sept. 9, 2019), DHS proposes that this NPRM will not apply to initial applications filed before the effective date of this rule by members of the *Rosario* class. Under this proposal, DHS would allow aliens with pending asylum applications that have not yet been adjudicated and who already have employment authorization before the final rule's effective date to remain work authorized until the expiration date on their EAD, unless the card is terminated or revoked on grounds in existing regulations. This proposed rule will not have any impact on applications to replace lost, stolen, or damaged (c)(8) EADs. All (c)(11) EAD applications based on parole/credible fear that are received by USCIS on or after the date the final rule is effective will be denied, as that ground for employment authorization is inconsistent with INA 208(d)(2).

VI. Statutory and Regulatory Requirements

A. Executive Orders 12866 (Regulatory Planning and Review) and 13563 (Improving Regulation and Regulatory Review)

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if a regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of

[79] *See* Secretary of Homeland Security John Kelly, ''Implementing the President's Border Security and Immigration Enforcement Improvements Policies,'' Section K (Feb. 20, 2017), *https://www.dhs.gov/sites/default/files/publications/17_0220_S1_Implementing-the-Presidents-Border-Security-Immigration-Enforcement-Improvement-Policies.pdf.*

reducing costs, of harmonizing rules, and of promoting flexibility. This rule has been designated as a ''significant regulatory action'' that is economically significant, under section 3(f)(1) of Executive Order 12866. Accordingly, the Office of Management and Budget (OMB) has reviewed this rule.

1. Summary

USCIS has considered alternatives and has undertaken a range of initiatives to address the asylum backlog and mitigate its consequences for asylum seekers, agency operations, and the integrity of the asylum system. These efforts include: (1) Revised scheduling priorities including changing from First in, First Out (''FIFO'') order processing to LIFO order; (2) staffing increases and retention initiatives; (3) acquiring new asylum division facilities; (4) assigning refugee officers to the Asylum Division; and (5) conducting remote screenings.[80]

• *Revised Interview Scheduling Priorities:* A significant scheduling change occurred in January 2018 with FIFO scheduling returning to LIFO scheduling order. Previously implemented in 1995, LIFO remained in effect until 2014. Under FIFO scheduling, USCIS generally processed affirmative asylum applications in the order they were filed. The now-operative LIFO scheduling methodology prioritizes newly-filed applications. Some offices already report a 25 percent drop in affirmative asylum filings since implementation of the LIFO scheduling system in January 2018.[81]

• *Staffing Increases and Retention Initiatives:* Since 2015, USCIS has increased the number of asylum officer positions by more than 50 percent, from 448 officers authorized for FY 2015 to 686 officers authorized for FY 2018. Along with these staffing enhancements, USCIS increased the frequency with which it offered its Combined Training and Asylum Division Officer Training Course. Moreover, to address asylum officer turnover, USCIS has made efforts to increase telework options and expand opportunities for advancement.[82]

• *New Asylum Division Facilities:* The Asylum Division also expanded its field operations, opening sub-offices in Boston, New Orleans, and Arlington, VA. Its most significant expansion, however, is just getting underway. Currently, the Asylum Division is establishing an asylum vetting center—distinct from the planned DHS-wide National Vetting Center—in Atlanta, Georgia. This center will allow for the initiation of certain security checks from a central location, rather than at individual asylum offices, in an effort to alleviate the administrative burden on asylum officers and to promote vetting and processing efficiency. USCIS has already begun hiring for the center, which will ultimately staff approximately 300 personnel, composed of both asylum and Fraud Detection and National Security Directorate (FDNS) positions. USCIS expects completion of the center's construction in 2020.[83]

• *Remote Screenings: Telephonic and Videoconference:* In 2016, the Asylum Division established a sub-office of the Arlington Asylum Office dedicated to adjudicating credible and reasonable fear claims. This sub-office performs remote (primarily telephonic) screenings of applicants who are located in detention facilities throughout the country. The Asylum Division states that its practice of performing remote telephonic screenings of credible and reasonable fear claims have enhanced processing efficiency since implementation. These screenings allow asylum offices greater agility and speed in reaching asylum seekers whose arrival patterns in the United States are not always predictable and who may be detained at remote detention facilities.[84]

• *Refugee Officers Assigned to the Asylum Division:* Throughout 2018, USCIS had approximately 100 refugee officers serving 12-week assignments with the Asylum Division at any given time. These refugee officers are able to interview affirmative asylum cases, conduct credible fear and reasonable fear screenings, and provide operational support. USCIS now assigns refugee officers both to asylum offices and DHS's family residential centers.[85]

A simple regulatory alternative to extending the waiting period to 365 days and strengthening eligibility requirements is rescinding work authorization for asylum applicants altogether, which is permissible under INA 208(d)(2). This too would reduce pull factors and alleviate the asylum backlog. However, DHS seeks to balance deterrence of those abusing the asylum process for economic purposes and providing more timely protection to those who merit such protection, which includes immediate and automatic employment authorization when the asylum application is granted. DHS believes the proposed amendments in this rule strike a greater balance between these two goals. The proposed amendments build upon a carefully planned and implemented comprehensive backlog reduction plan and amends the (c)(8) EAD process so that those with bona fide asylum claims can be prioritized and extended the protections, including employment authorization, that the United States offers to aliens seeking refuge from persecution or torture.

a. Baseline

The impacts of this rule are measured against a baseline. This baseline is the best assessment of the way the world would look absent this proposed action. The table below explains each of the proposed provisions of this rule, and the baseline against which the change is measured.

[80] *See* Dep't of Homeland Security, 2018 Citizenship & Immigration Services Ombudsman Annual Report at 44.

[82] *Id.* at 46.

[83] *Id.*

[84] *Id.*

[85] *Id.* at. 46–47.

TABLE 4—BASELINE AND PROPOSAL BY PROVISION

Description	CFR Citation	Proposal	Baseline
Provisions that affect asylum and employment authorization			
Eliminate the issuance of "Recommended Approvals" for a grant of affirmative asylum.	8 CFR 208.7; 8 CFR 274a.12.	USCIS would no longer issue grants of recommended approvals as a preliminary decision for affirmative asylum adjudications. As such, aliens who previously could apply early for an EAD based on a recommended approval now will be required either to wait 365 days before they could apply for an EAD, or wait until they are granted asylum (if the asylum grant occurs earlier than 365 days).	Aliens who have received a notice of recommended approval are able to request employment authorization prior to the end of the waiting period for those with pending asylum applications.
"Complete" asylum applications	8 CFR 208.3	Removing outdated provision that application for asylum will automatically be deemed "complete" if USCIS fails to return the incomplete application to the alien within a 30-day period.	Application for asylum is automatically deemed "complete" if USCIS fails to return the incomplete application to the alien within a 30-day period.
Eligibility for Employment Authorization—Applicant-caused delay.	8 CFR 208.4; 8 CFR 208.9.	Examples of applicant-caused delays include, but are not limited to the list below. • A request to amend a pending application for asylum or to supplement such an application if unresolved on the date the (c)(8) EAD application is adjudicated;.	No 14-day regulatory restriction on how close to an asylum interview applicants can submit additional evidence.
	• An applicant's failure to appear to receive and acknowledge receipt of the decision following an interview and a request for an extension to submit additional evidence, and;. • Submitting additional documentary evidence fewer than 14 calendar days prior to interview.		
Provisions that affect employment authorization only			
365-day wait	8 CFR 208.7	All aliens seeking a (c)(8) EAD based on a pending asylum application wait 365 calendar days from the receipt of their asylum application before they can file an application for employment authorization.	150-day waiting period plus applicant-caused delays that toll the 180-day EAD clock.
Revise eligibility for employment authorization—One Year Filing Deadline.	8 CFR 208.7	Exclude from (c)(8) EAD eligibility aliens who have failed to file for asylum for one year unless and until an asylum officer or IJ determines that an exception to the statutory requirement to file for asylum within one year applies.	No such restriction.
Revise eligibility for employment authorization—Criminal Convictions.	8 CFR 208.7	In addition to aggravated felons, also exclude from (c)(8) eligibility aliens who have committed certain lesser criminal offenses.	Aggravated felons are not eligible.
Revise eligibility for employment authorization—Illegal Entry.	8 CFR 208.7	Exclude from (c)(8) eligibility aliens who entered or attempted to enter the United States at a place and time other than lawfully through a U.S. port of entry, with limited exceptions.	No such restriction.

TABLE 4—BASELINE AND PROPOSAL BY PROVISION—Continued

Description	CFR Citation	Proposal	Baseline
Termination of EAD after Asylum Denial or Dismissal by USCIS Asylum Officer.	8 CFR 208.7	When a USCIS asylum officer denies or dismisses an alien's request for asylum, the (c)(8) EAD would be terminated effective on the date the asylum application is denied. If a USCIS asylum officer refers the case to an IJ and places the alien in removal proceedings, employment authorization will be available to the alien while the IJ adjudicates the asylum application.	An asylum applicant's EAD terminates within 60 days after a USCIS asylum officer denies the application or on the date of the expiration of the EAD, whichever is longer. When an asylum officer refers an affirmative application to an IJ, the application remains pending and the associated EAD remains valid while the IJ adjudicates the application.
Termination of EAD after Asylum Denial by IJ.	8 CFR 208.7	If the IJ denies the asylum application, employment authorization would continue for 30 days after the date the IJ denies the application to allow for appeal to the BIA. If the alien files a timely appeal of the denied asylum application with the BIA, employment authorization eligibility would continue through the BIA appeal.	8 CFR 208.7(b)(2) provides that when an IJ denies an asylum application, the EAD terminates on the date the EAD expires, unless the asylum applicant seeks administrative or judicial review.
Termination of EAD after Asylum Denial Affirmed by the BIA.	8 CFR 208.7	Employment authorization would not be granted after the BIA affirms a denial of the asylum application and while the case is under review in Federal court, unless the case is remanded to DOJ–EOIR for a new decision.	Asylum applicants are currently allowed to renew their (c)(8) EADs while their cases are under review in Federal court.
Eligibility for Employment Authorization—Failure to appear.	8 CFR 208.10	An applicant's failure to appear for an asylum interview or biometric services appointment may lead to the dismissal or referral of his or her asylum application and may be deemed an applicant-caused delay affecting employment authorization eligibility.	No such restriction.
Limit EAD validity periods	8 CFR 208.7	USCIS will, in its discretion, determine validity periods for initial and renewal EADs but such periods will not exceed two years. USCIS may set shorter validity periods.	No such restriction.
Incorporate biometrics requirements into the employment authorization process for asylum seekers.	8 CFR 208.7	Asylum applicants applying for (c)(8) employment authorization must submit biometrics at a scheduled biometrics services appointment. This requirement would also apply to applicants with a pending initial or renewal (c)(8) EAD application on the effective date of this; though DHS will not collect the biometric services fee from these aliens.	No such requirement. However, there is a requirement to submit biometrics with an asylum application.
Eligibility for Employment Authorization—aliens who have been paroled after being found to have a credible fear of persecution or torture.	8 CFR 274a.12	Aliens who have been paroled into the United States after being found to have credible fear or reasonable fear of persecution or torture may not apply for employment authorization under 8 CFR 274a.12(c)(11). They may, however, continue to apply for an EAD under 8 CFR 274a.12(c)(8) if their asylum application has been; pending for more than 365 days and they meet the remaining eligibility requirements.	Consistent with current DHS policy guidance.
Application for EAD	8 CFR 274a.13	Clarifying that EAD applications must be filed in accordance with the general filing requirements in 8 CFR 103.2(a), 208.3, and 208.4.	N/A.
Application for EAD	8 CFR 274a.13(a)(1)	Provides USCIS discretion to grant (c)(8) EAD applications consistent with INA 208(d)(2).	Current regulations do not give the agency discretion to issue (c)(8) EADs. 8 CFR 274a.13(a)(1) currently states: The approval of applications filed under 8 CFR 274a.12(c), *except for 8 CFR 274a.12(c)(8),* are within the discretion of USCIS.

TABLE 4—BASELINE AND PROPOSAL BY PROVISION—Continued

Description	CFR Citation	Proposal	Baseline
Application for EAD—automatic extensions and automatic terminations.	8 CFR 274a.13(d)(3); 8 CFR 208.7(b)(2).	For asylum applications denied, any EAD that was automatically extended pursuant to 8 CFR 274a.13(d)(1) based on a timely filed renewal application will automatically terminate on the date the asylum officer, the IJ, or BIA denies the asylum application, or on the date the automatic extension expires (which is up to 180 days), whichever is earlier.	For asylum applications denied, any EAD that was automatically extended pursuant to 8 CFR 274a.13(d)(1) will terminate at the expiration of the EAD or 60 days after the denial of asylum, whichever is longer.
Cross-reference to any automatic termination provision.	8 CFR 274a.14	Cross-reference to any automatic termination provision elsewhere in DHS regulations, including the automatic termination provision being proposed by this rule.	N/A.
Specify the effective date	....	EAD applications, including renewals, filed on or after the effective date will be adjudicated under the rule, except for the criminal and one-year-filing bar provisions, and except for initial applications filed by *Rosario* class members.	N/A.

b. Costs and Benefits

This proposed rule amends the (c)(8) EAD system so that those with bona fide asylum claims can be prioritized and extended the protections, including employment authorization, that United States offers to aliens seeking refugee from persecution by reducing the asylum backlog. The provisions seek to reduce the incentives for aliens to file frivolous, fraudulent, or otherwise non-meritorious asylum applications primarily to obtain employment authorization or other, non-asylum-based forms of relief from removal, and remain for years in the United States for economic purposes.

The quantified maximum population this rule would apply to is about 305,000 aliens in the first year the rule could take effect and about 290,000 annually thereafter. DHS assessed the potential impacts from this rule overall, as well as the individual provisions, and provides quantitative estimates of such impacts where possible and relevant. For the provisions involving biometrics and the removal of recommended approvals, the quantified analysis covers the entire populations. For the 365-day EAD filing time proposal, the quantified analysis also covers the entire population; however, DHS relies on historical data to estimate the costs for affirmative cases and certain assumptions to provide a maximum potential estimate for the remaining affected population. For the provisions that would potentially end some EADs early, DHS could estimate only the portion of the costs—those attributable to affirmative cases—because DHS has no information available to estimate the number of defensive cases affected.

DHS provides a qualitative analysis of the provisions proposing to remove employment eligibility for asylum applicants under the (c)(11) category; terminate EADs earlier for asylum cases denied/dismissed by an IJ, and; bar employment authorization for asylum applicants with certain criminal history, who did not enter at a U.S. port of entry, or who, with little exception, did not file for asylum within one year of their last arrival to the United States. As described in more detail in the unquantified impacts section, DHS does not have the data necessary to quantify the impacts of these provisions.

To take into consideration uncertainty and variation in the wages that EAD holders earn, all of the monetized costs rely on a lower and upper bound, benchmarked to a prevailing minimum wage and a national average wage, which generates a range. Specific costs related to the provisions proposed are summarized in Table 5. For the four provisions in which the impacts, or a portion of the impacts, could be monetized, the single midpoint figure for the wage-based range is presented.[86]

TABLE 5—SUMMARY OF COSTS AND TRANSFERS OF THE PROPOSED RULE

Provision summary	Annual costs and transfers (mid-point)
III. Quantified:	
365-day EAD filing wait period (for DHS affirmative asylum cases and partial estimates for DHS referrals to DOJ).	Population: 39,000. Cost: $542.7 million (quantified impacts for 39,000 of the 153,458 total population). Reduction in employment tax transfers: $83.2 million (quantified impacts for 39,000 of the 153,458). Cost basis: Annualized equivalence cost. Summary: Lost compensation for a portion of DHS asylum cases that benefitted from initial EAD approvals who would have to wait longer to earn wages under the proposed rule; nets out cost-savings for persons who would no longer file under the rule; includes partial estimate of DHS referral cases to DOJ–EOIR and the apropos estimated tax transfers. It does not include impacts for defensively filed cases.
Biometrics requirement	Population for initial and renewal EADs: 289,751. Population for pending EADs: 14,451. Cost: $37,769,580. Reduction in employment tax transfers: None.

[86] The populations reported in Table 55 reflect the maximum population that would be covered by the provision. Some of the populations that would incur monetized impacts are slightly different due to technical adjustments.

TABLE 5—SUMMARY OF COSTS AND TRANSFERS OF THE PROPOSED RULE—Continued

Provision summary	Annual costs and transfers (mid-point)
	Cost basis: Maximum costs of the provision, which would apply to the first year the rule could take effect. Summary: For initial and renewal EADs, there would be time-related opportunity costs plus travel costs of submitting biometrics, as well as $85 fee for (c)(8) I–765 initial and renewal populations subject to the biometrics and fee requirements. A small filing time burden to answer additional questions and read associated form instructions in the I–765 is consolidated in this provision's costs. There would also be time-related opportunity costs plus travel costs of submitting biometrics for EADs pending on the effective date of the final rule.
Eliminate recommended approvals.	Population: 1,930 annual. Cost: $13,907,387. Reduction in employment tax transfers: $2,127,830. Cost basis: Annualized equivalence cost. Summary: Delayed earnings and tax transfers that would have been earned for an average of 52 calendar days earlier with a recommended approval.
Terminate EADs if asylum application denied/dismissed (DHS).	Population: 575 (current and future). Cost: $31,792,569. Reduction in employment tax transfers: $4,864,263. Cost basis: Maximum costs of the provision, which would apply to the first year the rule could take effect. Summary: Forgone earnings and tax transfers from ending EADs early for denied/dismissed DHS affirmative EADs asylum applications. This change would affect EADs that are currently valid and EADs for affirmative asylum applications in the future that would not be approved. DHS acknowledges that as a result of this proposed change, businesses that have hired such workers would incur labor turnover costs earlier than without this rule.
365-day EAD filing wait period (for the residual population).	Population: 114,458. Cost: $1,189.6 million—$3,600.4 million (quantified impacts for the remaining 114,458 of the 153,458). Reduction in employment tax transfers: $182.0 million—$550.9 million (quantified impacts for the remaining 114,458 of the 153,458). Cost basis: Annualized equivalence cost. Summary: Lost compensation for the population of approved annual EADs for which DHS does not have data to make a precise cost estimate; The costs reported are a maximum because the potential impact is based on the maximum impact of 151 days; in reality there would be lower-cost segments to this population and filing-cost savings as well.
IV. Unquantified:	
Revise (c)(11) category from I–765.	Population: 13,000. Cost: delayed/foregone earnings. Cost basis: NA. Summary: DHS does not know how many of the affected population will apply for an EAD via the (c)(8) I–765, but the population would be zero at a minimum and 13,000 at a maximum, with a mid-point of 6,500. The population would possibly incur delayed earnings and tax transfers by being subject to the 365-day EAD clock (it is noted that this population would also incur costs under the biometrics provision, above), or lost earnings if they do not apply for a (c)(8) EAD. There is potentially countervailing cost-savings due to a reduced pool of filers under the proposed rule.
Criminal activity/illegal entry bar.	DHS is unable to estimate the number of aliens impacted. Impacts could involve forgone earnings and lost taxes.
Adjudication of pending (c)(8) I–765 under the criminal and one-year-filing provisions.	DHS cannot determine how many of the 14,451 pending EAD filings would be impacted by the criminal and one-year-filing provisions. Impacts could involve forgone earning and tax transfers.
One-year filing deadline	Some portion of the 8,472 annual filing bar referrals could be impacted, which could comprise deferred/delayed or forgone earning and tax transfers. DHS does not have data on filing bar cases referred to DOJ–EOIR.
Terminate EADs if asylum application denied/dismissed (DOJ–EOIR).	DOJ–EOIR has denied an average of almost 15,000 asylum cases annually; however, DHS does not have data on the number of such cases that have an EAD. Costs would involve forgone earnings and tax transfers for any such EADs that would be terminated earlier than they otherwise would, as well as forgone future earnings and tax transfers. DHS acknowledges that as a result of this proposed change, businesses that have hired such workers would incur labor turnover costs earlier than without this rule.
Renewal EADS	The proposed rule would impose the conditions in the rule to renewal filers. Some may be delayed or precluded from renewing their EADs, or incur Form I–765 filing fees and opportunity costs for re-filing.

For those provisions that affect the time an asylum applicant is employed, the impacts of this rule would include both distributional effects (which are transfers) and costs.[87] The distributional impacts would fall on the asylum applicants who would be delayed in entering the U.S. labor force or who would leave the labor force earlier than under current regulations. The distributional impacts (transfers) would

[87] Transfer payments are monetary payments from one group to another that do not affect total resources available to society. *See* OMB Circular A–4 pages 14 and 38 for further discussion of transfer payments and distributional effects. Circular A–4 is available at: *https://www.whitehouse.gov/sites/whitehouse.gov/files/omb/circulars/A4/a-4.pdf.*

[88] The full definition of the U–3 and U–6 unemployment rates can be found on the Bureau of Labor Statistics (BLS) website under the ''Local Area Unemployment Statistics (LAUS),'' at: *https://www.bls.gov/lau/stalt.htm.* The actual figures for the U–3 and U–6 unemployment rates are found in table A–15, ''Alternative Measures of Labor Underutilization,'' in the Economic News Release Archives at: *https://www.bls.gov/news.release/archives/empsit_09062019.htm.*

[89] *See* Table A–8, ''Employed Persons by Class of Worker and Part-Time Status'', Persons at work part time for economic reasons: *https://www.bls.gov/news.release/archives/empsit_09062019.htm.*

[90] *See* Table A–16, ''Persons not in the labor force and multiple jobholders by sex, not seasonally adjusted'', Persons marginally attached to the labor force: *https://www.bls.gov/news.release/archives/empsit_09062019.htm.*

be in the form of lost compensation (wages and benefits). A portion of this lost compensation might be transferred from asylum applicants to others that are currently in the U.S. labor force, or, eligible to work lawfully, possibly in the form of additional work hours or the direct and indirect added costs associated with overtime pay. A portion of the impacts of this rule would also be borne by companies that would have hired the asylum applicants had they been in the labor market earlier or who would have continued to employ asylum applicants had they been in the labor market longer, but were unable to find available replacement labor. These companies would incur a cost, as they would be losing the productivity and potential profits the asylum applicant would have provided. Companies may also incur opportunity costs by having to choose the next best alternative to the immediate labor the asylum applicant would have provided. USCIS does not know what this next best alternative may be for those companies. As a result, USCIS does not know the portion of overall impacts of this rule that are transfers or costs, but estimated the maximum monetized impact of this rule in terms of delayed/lost labor compensation. If all companies are able to easily find reasonable labor substitutes for the positions the asylum applicant would have filled, they will bear little or no costs, so $4,461.9 million (annualized at 7%) will be transferred from asylum applicants to workers currently in the labor force or induced back into the labor force (we assume no tax losses as a labor substitute was found). Conversely, if companies are unable to find reasonable labor substitutes for the position the asylum applicant would have filled then $4,461.9 million is the estimated maximum monetized cost of the rule that could be a transfer, and $0 is the estimated minimum in monetized transfers from asylum applicants to other workers. In addition, under this scenario, because the jobs would go unfilled there would be a loss of employment taxes to the Federal Government. USCIS estimates $682.9 million as the maximum decrease in employment tax transfers from companies and employees to the Federal Government. The two scenarios described above represent the estimated endpoints for the range of monetized impacts resulting from the provisions that affect the amount of time an asylum applicant is employed. USCIS notes that given that the U.S. unemployment rate is hovering around a 50-year low—at 3.7% as of August 2019—it could be possible that employers may face difficulties finding reasonable labor substitutes. DHS does note that an alternative measure of the unemployment rate from the Bureau of Labor Statistics (the U–6) provides additional information on the labor market not found in the official unemployment rate (the U–3). The U–6 rate is a broader measure of labor underutilization and takes into account workers not included in the official U–3 rate that could potentially benefit from this rule. For example, the U–6 rate considers persons who are neither working nor looking for work but indicate they want and are available for a job and have looked for work sometime in the past twelve months and also considers part-time workers who otherwise want and are available for full time employment. The U–6 rate shows unemployment at 7.2 percent, which is much higher than the official U–3 rate of 3.7 percent. [88]

Included in the broader U–6 unemployment rate is the number of persons employed part time for economic reasons (sometimes referred to as involuntary part-time workers), which BLS estimates is 4.4 million in August 2019. These individuals, who would have preferred full-time employment, were working part time because their hours had been reduced or they were unable to find full-time jobs.[89] In addition, BLS reports for August 2019 that 1.6 million persons were marginally attached to the labor force. These individuals were not in the labor force, wanted and were available for work, and had looked for a job sometime in the prior 12 months. They were not counted as unemployed in the official U–3 unemployment rate because they had not searched for work in the 4 weeks preceding the BLS survey, but are counted in the U–6 rate.[90] The U–6 rate provides additional evidence that U.S. workers might be available to substitute into the jobs that asylum applicants currently hold.

Because the biometrics requirement proposed in this rule is a cost to applicants and not a transfer, its minimum value of $27.17 million is the minimum cost of the rule. The range of impacts described by these two scenarios, plus the consideration of the biometrics costs, are summarized in Table 6 below (Table 6A and 6B capture the impacts a 3 and 7 percent rates of discount, in order).

TABLE 6A—SUMMARY OF RANGE OF MONETIZED ANNUALIZED IMPACTS AT 3%

Category	Description	Scenario: No replacement labor found for asylum applicants		Scenario: All asylum applicants replaced with other workers		Primary (average of the highest high and the lowest low, for each row)
		Low wage	High wage	Low wage	High wage	
Transfers:						
Transfers—Compensation.	Compensation transferred from asylum applicants to other workers (provisions: 365-day wait + end EADs early + end recommended approvals).	$0.00	$0.00	$1,473,953,451	$4,461,386,308	$2,230,693,154
Transfers—Taxes	Lost employment taxes paid to the Federal Government (provisions: 365-day wait + end EADs early + end recommended approvals).	225,587,337	682,771,643	0.00	0.00	341,385,822

Cost Subtotal—Lost Productivity.	Lost compensation used as proxy for lost productivity to companies (provisions: 365-day wait + end EADs early + end recommended approvals).	1,474,123,234	4,461,900,172	0.00	0.00	2,230,950,086
Total Costs		1,501,295,093	4,507,667,018	27,171,858	45,766,847	2,267,419,438

As required by Office of Management and Budget (OMB) Circular A–4, Table 7 presents the prepared A–4 accounting statement showing the costs associated with this proposed regulation:

TABLE 7—OMB A–4 ACCOUNTING STATEMENT

[$ millions, 2019] [Period of analysis: 2019–2028]

Category	Primary estimate		Minimum estimate	Maximum estimate	Source citation (RIA, preamble, etc.)
Benefits:					
Monetized Benefits	(7%)	N/A	N/A	N/A	RIA.
	(3%)	N/A	N/A	N/A.	
Annualized quantified, but un-monetized, benefits	N/A		N/A	N/A	RIA.
Unquantified Benefits	The benefits potentially realized by the proposed rule are qualitative and accrue to a streamlined system for employment authorizations for asylum seekers that would reduce fraud, improve overall integrity and operational efficiency, and prioritize aliens with bona fide asylum claims. These impacts stand to provide qualitative benefits to asylum seekers, the communities in which they reside and work, the U.S. Government, and society at large. The proposed rule aligns with the Administration's goals of strengthening protections for U.S. workers in the labor market. The proposed biometrics requirement would enhance identity verification and management.				RIA.
Costs:					
Annualized monetized costs (discount rate in parenthesis)	(7%)	2,267.4	27.17	4,507.7	RIA.
	(3%)	2,267.1	27.17	4,507.1	RIA.
Annualized quantified, but un-monetized, costs	N/A		N/A	N/A	RIA.
Qualitative (unquantified) costs	In cases where companies cannot find reasonable substitutes for the labor the asylum applicants would have provided, affected companies would also lose profits from the lost productivity. In all cases, companies would incur opportunity costs by having to choose the next best alternative to immediately filling the job the pending asylum applicant would have filled. There may be additional opportunity costs to employers such as search costs. There could also be a loss of Federal, state, and local income tax revenue. Estimates of costs to proposals that would involve DOJ–EOIR defensively-filed asylum applications and DHS-referrals could not be made due to lack of data. Potential costs would involve delayed/deferred or forgone earnings, and possible lost tax revenue.				RIA.
	There would also be delayed or forgone labor income and tax transfers for pending EAD applicants impacted by the criminal and one-year filing provisions, renewal applicants, transfers from the (c)(11) group, and filing bar cases, all of whom would be subject to some of the criteria being proposed; in addition, such impacts could also affect those who would be eligible currently for an EAD but would be ineligible for an EAD, or have such eligibility terminated earlier, under the proposed rule.				RIA.
Transfers:					
Annualized monetized transfers: "on budget"	(7%)	0	0	0	RIA.
	(3%)	0	0	0	
From whom to whom?	N/A				
Annualized monetized transfers: compensation	(7%)	2,231.0	0	4,461.9	RIA.
	(3%)	2,230.7	0	4,461.4	
From whom to whom?	Compensation transferred from asylum applicants to other workers (provisions: 365-day wait + end EADs early + end recommended approvals). Some of the deferred or forgone earnings could be transferred from asylum applicants to workers in the U.S. labor force or induced into the U.S. labor force. Additional distributional impacts from asylum applicant to the asylum applicant's support network that provides for the asylum applicant while awaiting an EAD; these could involve burdens to asylum applicants' personal private or familial support system, but could also involve public, private, or charitable benefits-granting agencies and non-governmental organizations (NGOs).				RIA.
Annualized monetized transfers: taxes	(7%)	341.4	0	682.9	RIA.
	(3%)	341.4	0	682.8	
From whom to whom?	A reduction in employment taxes from companies and employees to the Federal Government. There could also be a transfer of Federal, state, and local income tax revenue (provisions: 365-day wait + end EADs early + end recommended approvals)				

Category	Effects	Source citation (RIA, preamble, etc.)
Effects on state, local, and/or tribal governments	DHS does not know precisely how many low age workers could be removed from the labor force due to the proposed rule. There may also be a reduction in state and local tax revenue. Budgets and assistance networks that provide benefits to asylum seekers could be impacted negatively if asylum applicants request additional support.	RIA.
Effects on small businesses	This proposed rule does not directly regulate small entities, but has indirect costs on small entities. DHS acknowledges that ending EADs linked to denied DHS-affirmative asylum claims and EADs linked to asylum cases under DOJ–EOIR purview would result in businesses that have hired such workers incurring labor turnover costs earlier than without this rule. Such small businesses may also incur costs related to a difficulty in finding workers that may not have occurred without this rule.	RFA.
Effects on wages	None.	RIA.
Effects on growth	None.	RIA.

As will be explained in greater detail later, the benefits potentially realized by the proposed rule are qualitative. This rule would reduce the incentives for aliens to file frivolous, fraudulent, or otherwise non-meritorious asylum applications intended primarily to obtain employment authorization or other, non-asylum-based forms of relief from removal, thereby allowing aliens with bona fide asylum claims to be prioritized. A streamlined system for employment authorizations for asylum seekers would reduce fraud and improve overall integrity and operational efficiency. DHS also believes these administrative reforms will encourage aliens to follow the lawful process to immigrate to the United States. These effects stand to provide qualitative benefits to asylum seekers, communities where they live and work, the U.S. government, and society at large.

The proposed rule also aligns with the Administration's goals of strengthening protections for U.S. workers in the labor market. Several employment-based visa programs require U.S. employers to test the labor market, comply with recruiting standards, agree to pay a certain wage level, and agree to comply with standards for working conditions before they can hire an alien to fill the position. These protections do not exist in the (c)(8) EAD program. While this rule would not implement labor market tests for the (c)(8) program, it would put in place mechanisms to reduce fraud and deter those without bona fide claims for asylum from filing applications for asylum primarily to obtain employment authorization or other, non-asylum-based forms of relief from removal. DHS believes these mechanisms will protect U.S. workers.

The proposed biometrics requirement would provide a benefit to the U.S. government by enabling DHS to know with greater certainty the identity of aliens requesting EADs in connection with an asylum application. The biometrics will allow DHS to conduct criminal history background checks to confirm the absence of a disqualifying criminal offense, to vet the applicant's biometrics against government databases (*e.g.,* FBI databases) to determine if he or she matched any criminal activity on file, to verify the applicant's identity, and to facilitate card production. Along with the proposals summarized above and discussed in detail in the preamble and regulatory impact sections of this proposed rule, DHS plans to modify and clarify existing regulations dealing with technical and procedural aspects of the asylum interview process, USCIS authority regarding asylum, applicant-caused delays in the process, and the validity period for EADs. These provisions are not expected to generate costs. If adopted in a final rule, the rules and criteria proposed herein relating to certain criminal offenses and the one-year-filing bar would apply to pending EAD applications. In order to implement the criminal ineligibility provision, DHS will require applicants with a pending initial or renewal (c)(8) EAD on the effective date of this rule to appear at an ASC for biometrics collection but DHS will not collect the biometrics services fee from these aliens. DHS will provide notice of the place, date and time of the biometrics appointment to applicants with pending EAD applications. Some aliens could be impacted and some may not be granted an EAD as they would otherwise under current practice, but DHS does not know how many could be impacted and does not estimate costs for this provision.

2. Background and Purpose of Rule

The purpose of this proposed rule is to reform, improve, and streamline the asylum process, so that those with bona fide asylum claims can be prioritized and extended protection, including immediate employment authorization based on an approved asylum application. The provisions seek to reduce incentives to file frivolous, fraudulent, or otherwise non-meritorious asylum applications and other forms of non-asylum based relief primarily to obtain employment authorization. As is detailed in the preamble, it has been decades since significant reforms were made to the asylum process, and there have been no major statutory changes to the asylum provisions to address the current aspects of the immigration laws that incentivize illegal immigration to the United States and frivolous asylum filings.

DHS has seen a surge in illegal immigration into the United States, and USCIS currently faces a critical asylum backlog that has crippled the agency's ability to timely screen and vet applicants awaiting a decision.

As a result of regulatory review required by E.O. 13767, Border Security and Immigration Enforcement Improvements, DHS identified the regulations that were inconsistent with this order and is revising them in this proposed rule. While working with Congress on legal reforms to deter frivolous, fraudulent, and non-meritorious filings, DHS is also taking administrative steps to improve the asylum application process, pursuant to the Secretary's authorities over immigration policy and enforcement. The broad goal is to minimize abuse of the system by inadmissible or removable aliens who are not eligible for asylum, but who seek to prolong their stay in the United States. The proposed changes will remove incentives for illegal aliens to cross the border for economic reasons and better allow DHS to process bona fide asylum seekers in an expedited manner. As a result, bona fide asylum applications would be adjudicated timelier, and the significant benefits associated with grants of asylum would be realized sooner.[91]

Information and data pertinent to the ensuing analysis is provided. A thorough qualitative discussion of the asylum application and related employment authorization application process is available in the preamble. Table 8 provides data concerning DHS affirmative asylum filings via Form I–589 for the five-year span of fiscal years 2014–2018.[92]

[91] A grant of asylum allows an alien to remain in the United States, creates a path to lawful permanent residence and citizenship, and allows for certain family members to obtain lawful immigration status. *See* INA sec. 208(b)(3) (allowing derivative asylum for asylee's spouse and unmarried children); INA sec. 208(c)(1) (prohibiting removal or return of an alien granted asylum to alien's country of nationality, or in the case of a person have no nationality, the country of last habitual residence); INA sec. 209(b) (allowing adjustment of status of aliens granted asylum); INA sec. 316(a) (describing requirements for naturalization of lawful permanent residents). An asylee is authorized to work in the United States and may receive financial assistance from the Federal Government. *See* INA sec. 208(c)(1)(B) (authorizing aliens granted asylum to engage in employment in the United States); 8 U.S.C. 1612(a)(2)(A), (b)(2)(A), 1613(b)(1) (describing eligibility for Federal Government assistance).

[92] The data are collected from monthly ''Affirmative Asylum Statistics'' reports, which are publicly available at the USCIS data reporting website under the ''Asylum'' search filter: *https://www.uscis.gov/tools/reports-studies/immigration-forms-datareport.* The data were applicable as of April 1, 2019.

TABLE 8—USCIS FORM I–589 AFFIRMATIVE ASYLUM PETITION DATA
[FY 2014–2018]

FY	Receipts	Approvals	Denials	Admin. close	Referrals—DOJ–EOIR	Pending pool
2014	56,912	11,841	707	1,849	15,969	46,928
2015	84,236	15,999	458	3,010	20,353	85,593
2016	115,888	10,762	138	3,785	16,564	152,516
2017	142,760	15,229	137	5,825	29,639	252,627
2018	108,031	19,978	927	9,436	52,221	314,453
5-year total	507,827	73,809	2,367	23,905	134,746	
Average	101,565	14,762	473	4,781	26,949	170,423

As can be gathered from Table 8, denials for DHS affirmative asylum filings are low, and approvals are also low, relatively speaking. Foremost, DHS administratively closes 4.7 percent of receipts.[93] More significantly, DHS refers a large share of cases to DOJ–EOIR. The average referral rate is 26.5 percent, which ranged from a low of 14.4 percent to a high of 49.2 over the period. Measured against receipts, the average approval and denial rates are 14.5 percent and .5 percent, respectively. However, if the basis is recalibrated to ''adjudicated cases''—the sum of approvals, denials, referrals (interviewed), and filing bar referrals—more salient approval and denial rates of 38.2 and 1.2 percent, respectively, are obtained. These rates are more tractable because they remove the impact of administrative closures, referrals that did not involve an USCIS interview, and most importantly, the effect embodied in the growth of the pending (hence not yet processed cases) pool. Against ''adjudicated cases,'' DHS referred more than three-fifths (60.6 percent) of asylum cases to DOJ–EOIR, and this share does not include non-interview referrals. As it relates to the total of all referrals, on average the share attributed to interview, filing bar, non-interview cases is 56, 29, and 14 percent, respectively.[94]

In Table 8, the average across the five-year period is provided. It is noted that the pending pool of applications has surged, as is evidenced by the fact that the 2017 and 2018 figures for end-of-year pending pool far exceeded the overall five-year average. For receipts, there has also been substantial growth, though filings declined markedly in 2018 from 2017.

Data pertaining to DOJ–EOIR defensively-filed asylum cases was obtained and relevant data are collated in Table 9.[95]

TABLE 9—DOJ–EOIR ASYLUM CASELOAD AND DECISIONS
[FY 2014—2018]

FY	USCIS referrals to DOJ–EOIR	Defense filed	Total filed	Cases granted	Cases denied	Other outcome	Admin. closed
2014	16,258	31,196	47,454	8,562	9,292	10,418	9,540
2015	17,289	46,203	63,492	8,113	8,847	11,018	15,420
2016	12,718	69,349	82,067	8,684	11,737	12,883	21,623
2017	22,143	121,418	143,561	10,539	17,632	14,745	10,889
2018	49,118	111,887	161,005	13,161	26,594	22,328	2,098
5-year total	117,526	380,053	497,579	49,059	74,102	71,392	117,526
Average	23,505	76,011	99,516	9,812	14,820	14,278	23,505

[93] USCIS administratively closes I–589s where no decision can be made on the application by USCIS for various reasons, including, but not limited to: (1) lack of jurisdiction over the I–589 where the applicant is already in removal proceedings before EOIR and not a UAC (in those cases, the case is administratively closed but no NTA is issued since the person is already in proceedings); (2) an application is abandoned, withdrawn, or the applicant fails to show up for the interview or biometric services appointment after rescheduling options are exhausted (in those cases, no decision is made on eligibility but an NTA would be issued if the person is out of status and is still in the U.S.); (3) the applicant has a final administrative removal or ICE has reinstated a prior removal order (in those cases, the I–589 would be administratively closed and the person would be referred for a reasonable fear screening).

[94] The adjudicated basis also excludes some other minor categories such as ''dismissals,'' which comprise a handful of cases each year. It is noted that the definitional basis for adjudicated cases is the same as (or similar to with minor adjustments) the basis that DHS uses in much of its public facing and official reporting on asylum. Relevant calculations: The FY 2014–2018 average of ''adjudicated'' cases, as defined in the text, is 193,301. Dividing the annual average approvals of 73,809 by 193,301 yields the approval rate of 38.2 percent. Dividing the annual average denials of 2,387 by 193,301 yields the denial rate of 1.2 percent. The non-interview referral rate is obtained by dividing the sum of annual average filing bar and interview referrals, of 117,125, by 193,301 yields 60.6 percent. The annual average of total referrals is 134,746. The sum of interview, filing bar, and non-interview cases, in order of, 74,763, 42,362, and 17,621, is 134,746. Diving each of the former by the latter yield 56, 29, and 14 percent, respectively.

[95] The DOJ–EOIR data is publicly available under the ''Statistics and Reports'' suite, ''Workload and Adjudication Statistics'' section at *https://www.justice.gov/eoir/workload-and-adjudication-statistics.* The data are found in the ''Asylum Decision Rates'' and ''Total Asylum Applications'' reports, at *https://www.justice.gov/eoir/page/file/1104861/download,* and *https://www.justice.gov/eoir/page/file/1106366/download,* in order. The data reflect the updated data as of January 30, 2019.

[96] DHS Asylum cases referred to DOJ–EOIR over the period (Table 888) on average are a higher by about 13 percent on average, than the DOJ–EOIR Affirmative asylum filings. The primary reason is UAC cases. DHS counts them as referrals, but, since they are already in EOIR's caseload as an NTA has been filed in these cases, USCIS does not enter them into CASE–ISS and transfer the application through the usual referral process. EOIR counts them as defensively-filed asylum cases as opposed to affirmative asylum cases that have been referred.

TABLE 9—DOJ–EOIR ASYLUM CASELOAD AND DECISIONS—Continued

[FY 2014—2018]

FY	USCIS referrals to DOJ–EOIR	Defense filed	Total filed	Cases granted	Cases denied	Other outcome	Admin. closed
Share of completions	....	....	....	15.7%	23.7%	22.9%	37.7%

The first data column in Table 9 captures DHS referrals to DOJ–EOIR, and generally corresponds with data in the fifth data column of Table 8.[96] As the data indicate, asylum filings at DOJ–EOIR have also increased sharply over the five-year period, noting that the increase in defensive filings over the last three years has been particularly strong. Defensive cases also comprise the bulk of filings, more than tripling affirmative filings on average. Over the entire five-year period there were 312,079 total completions, noting that this tally comprises grants, denials, cases that were administratively closured, and ''others.'' The latter comprises defensively-filed asylum applications that were abandoned, not adjudicated, or withdrawn.

Table 10 provides data on (c)(8) I–765 filings, and DHS notes that these apply to both DHS affirmative filings (including referrals to DOJ–EOIR) and those filings connected to defensively-filed asylum cases.

TABLE 10—DHS I–765(C)(8) FILING DATA FOR DHS AFFIRMATIVE FILINGS (INCLUDING REFERRALS TO DOJ–EOIR), AND DEFENSIVE CASES

[FY 2014—2018]

FY	Initials			Renewals		
	Receipts	Approve	Deny	Receipts	Approve	Deny
2014	62,169	48,596	10,547	45,103	42,940	2,517
2015	106,030	85,606	13,080	72,559	63,631	3,221
2016	169,970	152,283	14,330	128,610	115,555	4,156
2017	261,782	234,080	21,179	212,255	166,208	4,854
2018	262,991	246,725	29,091	62,289	91,010	4,685
5-year total	862,942	767,290	88,227	520,816	479,344	19,433
Average	172,588	153,458	17,645	104,163	95,869	3,887

As Table 10 indicates, the number of employment authorization applications filed under the (c)(8) eligibility category has increased steadily since 2014, although the trend appears to have levelled off in 2018 (it is too early to tell if this will continue) at a historically high level. Over the entire period, 89 percent of initial filings for work authorization were approved. There is also a relatively high rate of renewal filings, and 62.5 percent of initial approvals were followed by an approved renewal.[97]

DHS obtained and performed analysis on a data set capturing a portion of (c)(8) Form I–765 information that covers principal applicants and dependents who also filed an I–589 Form with DHS (*i.e.* DHS affirmative cases, including DOJ–EOIR referrals), from 2014 through 2018.[98] Details and caveats concerning this data set are dealt with in detail in ensuing discussion of the costs of the proposed 365 EAD filing time wait. Based on analysis of this data, several time-centered variables are developed that are relevant to the forthcoming analysis. These indicators are produced and displayed in Table 11.

[97] Relevant calculations: for approval rate, 153,458 average approvals/172,588 average receipts = .889, and for renewal rate, 95,869 average renewals/153,458 initial approvals = .6247. Both decimals are rounded and multiplied by 100.

[98] The (c)(8) I–765 data was provided by the USCIS Office of Performance and Quality (OPQ) from file tracking data (data accessed on Jan. 19, 2019).

TABLE 11—CALCULATED TIME INTERVALS FOR DHS AFFIRMATIVE FILINGS [INCLUDING DOJ–EOIR REFERRALS)
(Average calendar days, FY 2014—2018]

FY	I–589 affirmative filing to I–765(c)(8) filing interval	I–765(c)(8) process time for affirmative cases	I–589 process time for DHS affirmative cases (excl. DOJ–EOIR referral cases)	Time between I–589 filing with DHS and referral to DOJ–EOIR	I–589 affirmative filing to I–765(c)(8) approval interval
2014	223	83	820	590	307
2015	228	84	812	737	312
2016	231	68	537	476	298
2017	210	67	380	278	277
2018	181	43	190	84	223
5-Yr Average	215	69	* N/A	* N/A	283

* DHS does not show a 5-year average for these time intervals because they are directly affected by the change from FIFO to LIFO processing.

The data presented in Table 11 capture average calendar days.[99] The 'I–589 process time' reflects the filing time to decision for DHS affirmative cases only, as DHS does not have data on I–589 process time for cases referred to DOJ–EOIR. The following column captures the average time interval between when an I–589 was filed with DHS and when it was referred to DOJ–EOIR. The final column captures the average time interval between when an I–589 was filed with DHS and a (c)(8) I–765 was approved. As is readily seen, there have been substantial declines in all of the intervals.

Before developing the general and provision-specific populations that the rule could impact, a final data element is provided. In January 2018, USCIS reinstituted its LIFO scheduling priority for asylum applications. DHS partitioned out LIFO cases starting after January 2018 until the end of January 2019 to capture a full calendar year of time. The mean processing time was 166 days, which is even lower than the 190-day average for DHS adjudicated cases displayed in Table 11 for the fiscal year 2018.

3. Population

In this section, the baseline population estimates are conducted for the rule in general and each specific provision. The term ''baseline'' applies to the maximum population that the rule could involve. However, an important consideration in this regard is that there could be feedback from one provision that affects the baseline population. In the ensuing section on costs, the baseline figures will be tuned and modified to reflect the specific populations that could be impacted by the proposed provisions. These adjusted populations will be the ones incurring specified cost impacts.

The proposed rule would require aliens who file for an EAD under the (c)(8) asylum category to submit biometrics and pay the $85 biometric services fee. This biometrics requirement is the encompassing provision that captures the largest population under the rule. There will also be a small burden increase associated with the Form I–765. Asylum applicants filing for employment authorization under (c)(8) will be required to attend a biometric services appointment and will also need to answer new, additional questions on the form relating to new eligibility requirements, and read the associated instructions. USCIS estimates that the biometric services appointment will add an additional 1 hour and 10 minutes, while reading the instructions and answering the questions will add an estimated 15 minutes to the overall Form I–765 time burden for this category of filers. The encompassing population is the average of 172,588 initial filers would incur the small time burden and biometrics requirement (Table 10). In addition, current EAD holders who file for renewals would also submit biometrics and pay the $85 biometric services fee. Currently, initial (c)(8) I–765 filers do not pay the I–765 filing fee, but renewal filers do, and this proposed rule does not suggest a change to the protocol. The annual average renewal (c)(8) I–765 filing population is 104,163 (Table 10).

The proposed rule would require all asylum applicants to wait 365 calendar days before filing for an initial EAD. Currently, applicants have a 150-day waiting period before they can file for an initial (c)(8) EAD. However, applicants whose initial EAD applications are denied would not be affected, and renewal EADs would not be affected by the proposed 365-day waiting period. Hence, the baseline population for the 365-calendar-day waiting period provision is the average number of initial (c)(8) I–765 approvals from FY 2014–2018, which is 153,458 (Table 10).

DHS is proposing to eliminate the preferential category of recommended approvals for asylum, under which an asylum applicant can file an EAD request upon initial favorable review by an asylum officer, prior to completion of all background, security, and related checks. Currently, aliens who have received a notice of recommended approval are able to request employment authorization ahead of the waiting period for those with pending asylum applications. From FY 2014 to FY 2018, DHS issued 15,359 recommended approvals, or 3,072 on average annually. This population would be subject to the proposed rule.

The proposed rule would make any alien who entered or attempted to enter the United States illegally ineligible for a discretionary EAD, absent mitigating circumstances discussed in the preamble. DHS does not know how many persons would have been subject to this provision in the past, and cannot determine this population going forward. The proposed rule also would bar any alien who has been convicted of or charged with a serious crime from eligibility for a discretionary EAD, with some exceptions, as is discussed in

[99] The final data column captures the important ''wait'' time, between the filing date of the I–589 asylum petition and the approval of a (c)(8) I–765. This interval captures the amount of time an individual has between filing for asylum and being able to work and earn labor income. This metric is not exact though, as once a favorable decision is made concerning the EAD application, it takes some time to finalize and send the approval notice.

detail in the preamble. DHS does not know how many persons would have been subject to this provision in the past and cannot determine this sub-population going forward. While individual adjudicative and security-related records can capture evidence and factors related to criminal activity, such information is not available in a dataset that can be queried for the requisite type of analysis and estimation needed.

DHS proposes to terminate an alien's employment authorization connected to affirmative asylum applications on the date the asylum application is denied or dismissed by USCIS. Currently, such EADs terminate within 60 days after a USCIS asylum officer denies the application or on the date of the expiration of the EAD, whichever is longer. DHS analysis reveals that about 215 EADs were approved annually on average concomitant to denied DHS affirmative asylum claims; as of the present write-up, 360 such EADs are valid. The proposal to eliminate EADs linked to DHS affirmative asylum denials would end the validity of those EADs earlier than they otherwise end.

DHS is also proposing to revise its regulations prescribing when employment authorization terminates following the denial of an asylum application by an IJ or BIA. DHS cannot determine how many DOJ–EOIR cases (either via DHS referral or defensive) apply to either the annual or existing population because DHS does not have granular data on DOJ–EOIR cases that would facilitate analysis of EADs. This rule proposes that employment authorization would continue for 30 days following the date that an IJ denies an asylum application to allow for a possible appeal of the denial to the BIA. Currently, such EADs are allowed to naturally expire according to the terms of their EAD, unless the applicant seeks administrative or judicial review.

The rule is proposing that EAD applications under the (c)(8) asylum category that are pending adjudication when the rule takes effect would be subject to the criminal and one-year-bar provisions proposed in the rule. File tracking data reveals that as of April 1, 2019, 14,451 pending EAD applications would be impacted, as they would be subject to some of the criteria in the proposed rule.[100] Some of these pending cases that would be granted an EAD under the current process could be denied as a result of the rule, but DHS has no way of predicting how many would be affected as such. In order to implement the criminal ineligibility provision for the pending population, DHS would require applicants with a pending initial or renewal (c)(8) EAD on the effective date of this rule to appear at an ASC for biometrics collection, but would not collect the biometrics services fee from these aliens.

DHS proposes to bar from eligibility for employment authorization aliens who failed to file for asylum within one year of their last arrival in the United States, as required by law, if an asylum officer or IJ determines that an exception to the one-year filing bar does not apply. This bar would not apply to unaccompanied alien children. From FY 2014 to FY 2018, DHS referred 42,362 cases to DOJ–EOIR based on the one-year filing bar, for an annual average of 8,472.

The proposed rule seeks to clarify that aliens who are paroled from custody after receiving a positive credible fear or reasonable fear determination are not eligible to seek immediate work authorization under 8 CFR 274a.12(c)(11), although, historically, USCIS has granted many of these requests. Aliens could still file under the (c)(8) category, if eligible. However, they would be subject to the proposed 365-day wait period. From FY 2014 to FY 2018, an average of 13,000 applications sought employment authorization through the (c)(11) category.

Table 12 presents a summary of the populations that could be affected by the proposed rule.

TABLE 12—SUMMARY OF ASYLUM EAD POPULATIONS UNDER THE PROPOSED RULE

[Annual]

Abbreviated provision (description)	Population estimate
A. I–765(c)(8) initial filers—biometrics	172,588.
B. I–765(c)(8) renewal filers—biometrics	104,163.
C. Enact 365-day EAD filing wait period	153,458.
D. Eliminate recommended approvals	3,072.
E. Bar criminals from obtaining EADs	Unknown.
F. End EADs for denied/dismissed asylum claims	• DHS affirmative = 215 annually and 360 currently valid. • Affirmative referrals to DOJ–EOIR = Unknown. • DOJ–EOIR defensive = Unknown.
G. Bar for illegal entry into the U.S.	Unknown.
H. One-year asylum filing bar	8,472.
I. Pending (c)(8) I–765 under proposed conditions	14,451.
J. Clarify(c)(11) I–765 eligibility	13,000.
Total Proposed Rule Population	304,562.

In order to derive the total population potentially impacted by the rule, we add the annual flow volumes of the encompassing current biometrics (and time burden) population of 172,588 and the renewal filing volume of 104,163, which total to 276,751. To this sub-total, adding the potential 13,000 (c)(11) filers yields 289,751, which is the encompassing biometrics population. Since the other sub-populations collated in Table 12 are, by definition, (c)(8) I–765 filers, we do not add them to the flow volume, to safeguard against double-counting. But for the first year, the expected annual population of 289,751 is annotated to include two pools that would be impacted by the proposed rule; (i) the population of pending (c)(8) I–765 applications (14,451); and, (ii) the 360 existing EADs

[100] This population estimate is based on current volumes and may vary depending on when this rule becomes final.

that are connected to denied affirmative asylum claims that could be ended early. These two pools total to 14,811 which, when added to the expected annual flow volume, yields a maximum population of 304,562, which could be expected in the first year the rule takes effect. Starting in year two, the population would expectedly revert to the annualized flow volume of 289,751, because the two added pools would not be a factor after the first year.

Having estimated the general population subject to the rule and the sub-populations germane to the specific provisions, DHS next conducts the economic impact assessment, noting, as was done in the introduction to this section, that the populations reported above are adjusted for technical considerations regarding the effects.[101]

4. Transfers, Costs and Benefits of This Proposed Rule

a. Costs

This section will be parsed into three modules. In Module 1, some key assumptions that will apply to multiple provisions are established. Module 2 develops quantitative costs and transfers for relevant provisions, while Module 3 covers costs and transfers that are not amenable to quantification.

Module 1. Data and Assumptions

As was mentioned in the ''Population'' section above, DHS obtained a data set capturing (c)(8) I–765 filing data for initial applicants. This data include a large number of variables. DHS also obtained information on affirmatively-filed asylum applications, and integrated elements of the two data sets to capture information on affirmative asylum applicants who also filed for an EAD. Our analysis is based on this large scale data set that captured numerous variables important to the analysis. Several key assumptions and foundations apply across multiple provisions, which, in favor of brevity and readability, are introduced up front and only discussed hereafter where necessary.

For the proposed provisions that would delay or prohibit an asylum applicant from earning work authorization, the impacts of this rule would include both distributional effects (which are transfers) and costs. These distributional impacts would fall to the EAD holders in the form of lost or delayed compensation (wages and benefits). A portion of this lost compensation would be transferred from these aliens to others that are currently in the U.S. labor force, possibly in the form of additional work hours or overtime pay. A portion of the impacts of this rule would also be costs borne by companies that would have hired the asylum applicants had they been in the labor market earlier, but were unable to find available replacement workers. Companies may also incur opportunity costs by having to choose the next best alternative to immediately filling the job the asylum applicant would have filled. As a result, DHS does not know the portion of overall impacts of this rule that are transfers or costs. If companies can find replacement labor for the position the asylum applicant would have filled, this rule would have primarily distributional effects in the form of transfers from asylum applicants to others already in the labor market (or workers induced to return to the labor market). If companies cannot find reasonable substitutes for the labor the asylum applicants would have provided, this rule would primarily be a cost to these companies through lost productivity and profits. USCIS uses the lost compensation to asylum applicants as a measure of the overall impact of the provisions that would delay or prohibit an asylum applicant from obtaining work authorization—either as distributional impacts (transfers) or as a proxy for businesses' cost for lost productivity.

Furthermore, in instances where a company cannot hire replacement labor for the position the asylum applicant would have filled, such delays may result in tax transfer considerations to the government. It is difficult to quantify income tax transfers because individual tax situations vary widely, but DHS estimates the potential reduction in transfer payments to employment tax programs, namely Medicare and Social Security, which have a combined tax rate of 7.65 percent (6.2 percent and 1.45 percent, respectively).[102] With both the employee and employer not paying their respective portion of Medicare and Social Security taxes, the total estimated reduction in tax transfer payments from employees and employers to Medicare and Social Security is 15.3 percent.[103] We will rely on this total tax rate where applicable.

The assessments of possible distributional impacts rely on the implicit assumption that everyone who received an approved (c)(8) EAD entered the labor force and found work, and thus earned wages of labor. We believe this assumption is justifiable because applicants would generally not have expended the direct and opportunity costs of applying for an EAD if they did not expect to recoup an economic benefit. Furthermore, the unemployment rate is currently, and has been recently, low by historical standards, currently sitting at 3.6 percent, making it likely that such labor force entrants have found work.[104]

Because the (c)(8) EAD does not include or require, at the initial or renewal stage, any data on employment, and, since it does not involve an associated labor condition application (LCA), DHS has no information on wages, occupations, industries, or businesses that may employ such workers. In some DHS rulemakings, the estimates of distributional impacts and time-related opportunity costs were linked to the Federal minimum wage for new entrants to the labor force. The Federal minimum wage is $7.25, which, when adjusted for benefits by a multiple of 1.46, is $10.59 per hour, with an annual salary of $15,080.[105] This reliance is grounded in the notion that most of the relevant EAD holders would not have been in the labor force long, and would thus not be expected to earn relatively high wages. In this proposed rulemaking, we rely on a slightly more robust ''prevailing'' minimum wage of $8.25. As is reported by the Economic Policy Institute (EPI, 2016), many states have their own minimum wage, and,

[101] Preliminary data revisions indicate that the (c)(8) I–765 filings and approvals in 2018 and 2017 could be higher than reported herein (Table 10). Finalized adjustments to the populations based on revised and validated data will be made at the appropriate stage of final rule development.

[102] The various employment taxes are discussed in more detail at *https://www.irs.gov/businesses/small-businesses-self-employed/understanding-employment-taxes. See* IRS Publication 15, Circular E, Employer's Tax Guide for specific information on employment tax rates. *https://www.irs.gov/pub/irs-pdf/p15_18.pdf. See* More Than 44 Percent of Americans Pay No Federal Income Tax (September 16, 2018), available at: *https://www.marketwatch.com/story/81-million-americans-wont-pay-any-federal-income-taxes-this-year-heres-why-2018-04-16.*

[103] Calculation: (6.2 percent Social Security + 1.45 percent Medicare) x 2 employee and employer losses = 15.3 percent total estimated tax loss to government.

[104] This unemployment rate reflects the Bureau of Labor Statistics (BLS) most recent data, for April 2019. It can be found in the ''Employment Situation Summary'' of the Economic News Release section: *https://www.bls.gov/news.release/empsit.toc.htm.*

[105] The benefits-to-wage multiplier is calculated by the BLS as (Total Employee Compensation per hour)/(Wages and Salaries per hour) = $36.32/$24.91 = 1.458 (1.46 rounded). *See* Economic News Release, Employer Cost for Employee Compensation (March 2019), U.S. Dept. of Labor, BLS, Table 1. Employer costs per hour worked for employee compensation and costs as a percent of total compensation: Civilian workers, by major occupational and industry group (March 19, 2019), available at *https://www.bls.gov/news.release/archives/ecec_03192019.pdf.* Calculation for annual Federal minimum salary: Hourly wage of $10.59 × 2,080 annual work hours = $15,080.

even within states, there are multiple tiers.[106] Although the minimum wage could be considered a lower-end bound on true earnings, the prevailing minimum wage is fully loaded, at $12.05, which is 13.8 percent higher than the Federal minimum wage.[107] While DHS does not rule out the possibility that some portion of the population might earn wages at the average level for all occupations, without solid a priori or empirical information we believe that providing a range with the lower bound relying on the prevailing minimum wage is justifiable. Therefore, for the purpose of this analysis, USCIS uses both the prevailing minimum hourly wage rate of $8.25 to estimate a lower bound and a national average wage rate of $24.98 to take into consideration the variance in average wages across states as an upper bound. The fully-loaded average hourly wage is $36.47. All of the quantified estimates of costs and transfer payments in this analysis incorporate lower and upper bounds based on these wages.[108]

Most of the cost impacts will result from delayed or forgone earnings to asylum applicants. Since the data analysis centers on calendar days, and costs are specifically linked to hours, we apply a scalar developed as follows. Calendar days are transformed into work days to account for the actuality that typically, 5 out of 7, or 71.4 percent, of the calendar week is allotted to work-time, and that a workday is typically 8 hours. Based on the prevailing minimum wage of $12.05, the combined scalar is $68.83, and, based on the average wage it is $208.32.[109] In summary, based on the prevailing minimum wage relied upon, each calendar day generates $68.83 dollars in relevant delayed or forgone earnings. It follows that for the upper wage bound that each calendar day generates $208.32 dollars in relevant delayed or forgone earnings/delayed earnings.

Module 2. Quantified Cost Impacts and Transfers

As was mentioned above, DHS proposes to require all asylum applicants to wait 365 calendar days before filing for an initial EAD. Currently, applicants have a 150-day waiting period before they can file for an initial (c)(8) EAD. The baseline population specific to the 365-day wait period is the average annual flow of initial (c)(8) EAD approvals (153,458, Table 10), as there would not be a cost for denied applicants. However, the DHS data set alluded to above captures about 39,000 annual affirmatively filed cases, including cases later referred to DOJ–EOIR, for which DHS could conduct analysis on, which represents about a quarter of the approval population. Of the 153,458 average annual EAD approvals, DHS is able to conduct a quantified analysis of the impacts of the proposed 365-day wait on only these 39,000 affirmative asylum applicants it has in this dataset, below. The analysis of the 365-day proposed EAD filing wait involves the interaction between data germane to the asylum cases and the EAD simultaneously. In this context, we discuss several reasons why the analyzable set share is relatively low. Foremost, it captures no defensively-filed asylum cases. Second, it does not capture cases germane to pending asylum cases—it captures cases in which a DHS decision or referral to DOJ–EOIR was made. Third, the data had to be obtained by developing a program to query several disparate data sets at once and match data between them in a structured format, with dozens of data points and indicators for each case. For cases in which one or more of the key data points was missing or not viable, the analysis as required was not possible. DHS parsed and filtered the data to exclude extreme outliers and erroneous data to obtain the most viable and tractable data amenable for the analysis. For the EADs associated with affirmative asylum filings adjudicated by DHS for which data are available, a reasonably detailed estimation of the impacts from changing the wait period to file for employment authorization from the 150-day EAD clock to 365 days can be conducted. For affirmative cases referred to DOJ–EOIR by DHS for which data are available some estimation can be performed, but not with the same extent of precision and completeness, due to data constraints. This part of the analysis focuses on the DHS affirmative asylum cases for which complete data is available, and for DHS affirmative cases referred to DOJ–EOIR, for which some data is available. DHS does not have complete data for the ''residual'' population, and estimates a maximum potential impact for this population separately.

The analysis of the 365-day wait begins with consideration that some aliens, for whatever reason, did not file for an EAD until after 365 days. Our analysis of the approximately 39,000 I–765 (c)(8) initial EAD approvals for affirmative asylum indicate that this group comprises 10.2 percent of the 39,000 approved EADs with available data. Technically, this group, comprising 3,978 EADs, would not be impacted by the proposed 365-day wait, and, adjusting for them yields a ''narrowed'' baseline of 35,022. While the percentage filing for an EAD after 365 days could vary in the future, it is integrated herein for the cost estimates.

As noted above, the impact of the proposed provision depends on the interaction between the asylum decision and the EAD approval, since a granted asylum application provides de facto work authorization. Therefore, the narrowed baseline can be decomposed into specific cost-segments to more appropriately hone the potential impacts. There has been a substantial reduction in DHS affirmative asylum processing time over the five-year span 2014–2018, and the adoption of LIFO processing has further contributed to the reduction. As noted above, in January 2018, USCIS reinstituted LIFO processing. Although DHS typically relies on 3- or 5-year averages in most cost benchmarks, in this specific case, since LIFO is more likely to be representative of the future than an average of four years of FIFO and one year of LIFO, and, since it appears to have had a significant impact on asylum processing times, the costs are benchmarked to the calendar year of time covering the end of January 2018 to the end of January 2019 for DHS affirmative asylum decisions.

Of the narrowed baseline, DHS referrals to DOJ–EOIR comprise 74.4 percent (26,056 cases) and DHS affirmative adjudication comprises 25.6 percent (8,966 cases) annually. The narrowed baseline for DHS affirmative asylum is parsed into four groups, A–D, that capture different cost segments germane to the potential interaction between approved asylum and the EAD and expected future conditions. Group A comprises DHS affirmative asylum adjudicated prior to 365 days, in which the EAD was ''binding''. The latter

[106] The EPI report is available at: *https://www.epi.org/publication/when-it-comes-to-the-minimum-wage-we-cannot-just-leave-it-to-the-states-effective-state-minimum-wages-today-and-projected-for-2020//.* There are multiple tiers of minimum wages across many states that apply to size of business (revenue and employment), occupations, working hours, and other criteria. Some of these variations per state are described at: *https://www.minimum-wage.org.*

[107] Calculations (1) for prevailing minimum wage: $8.25 hourly wage × benefits burden of 1.46 = $12.05; (2) (($12.05 wage-$10.59 wage)/$10.59)) wage = .1378, which rounded and multiplied by 100 = 13.8 percent.

[108] The average wage for all occupations is found BLS Occupational Employment Statistics, May 2018 National Occupational Employment and Wage Estimates, and reflects the 2017 average for all occupations nationally. The data is found at: *https://www.bls.gov/oes/2018/may/oes_nat.htm#00-0000.* Calculation: hourly wage of $24.98 × benefits burden (1.46) = $36.47.

[109] Calculations: .714 × 8 hours per day × $12.05 wage = $68.83, and .714 × 8 hours per day × $36.47 wage = $208.32 (rounded).

impart that the EAD was approved prior to the asylum decision. For Group A, because the asylum application for these applicants would be adjudicated prior to the proposed 365-day wait period, the cost in terms of the proposed rule is the time interval between the current wait time and asylum approval. To explain this via an example, consider an individual that currently files for an EAD at the 150-day mark and has it approved 40 days later, at 190 days. If the concomitant asylum adjudication is at the 200-day mark, the true benefit the EAD could provide is 10 days (assuming the asylum claim is approved). Table 13 is introduced, which shows that Group A represented 11 percent of the narrowed baseline, or 3,852 aliens annually, and the average impact in terms of the EAD benefit is 53 days (in Table 13 all the shares are provided on the basis of the narrow baseline).

Group B similarly consists of DHS affirmative asylum adjudicated prior to 365 days, but in contradistinction to Group A, under Group B the EAD was ''non-binding''—which means the grant of asylum could provide de facto work authorization, as it was adjudicated before the EAD. Because of this, Group B would not incur a cost impact in terms of delayed earnings from the proposed provision. For this 9.5 percent of the narrowed baseline, or 3,327 aliens, the EAD benefit was zero (as it was non-binding). Essentially, the EAD approval was inconsequential, and invoked a net cost because the filing costs were sunk. Hence, the cost in terms of the proposed rule is nil, but the forgone filing (sunk) costs can appropriately be credited as cost-savings.

A key takeaway is that Groups A and B would potentially not file for an EAD in the future, since the asylum application was adjudicated in less than the proposed 365-day wait period to apply for employment authorization. Moreover, a key inference is that under LIFO, the majority of DHS affirmative asylum cases were adjudicated in less than one year. Accordingly, forgone filing costs for the 7,180 aliens are accredited a cost-savings. There is no filing fee for the initial (c)(8) EAD, and the time burden is currently 4.5 hours, which includes the time associated with submitting two passport-style photos along with the application. The Department of State (DOS) estimates that passport photos cost about $20 per application.[110] At the lower wage bound of $12.05, the time related cost is $54.23, which, when added to the photo cost of $20, yields a per person cost of $74.25 (rounded to $74.3). The cost savings accruing to this group (A and B) would be $533,438 annually. At the high wage bound, cost-savings per person would be $184.10 and cost-savings to the group would be $1,321,748 annually. DHS notes that this cost-savings estimate assumes the full sub-population would not file under the circumstances. However, as was mentioned in the preamble, some aliens might file for an EAD after being granted asylum if they want to have documentation that reflects that they are employment authorized.

Group C involves DHS affirmative asylum adjudicated after 365 days. It is within this context that some assumptions need to be established. We assume that in the future, all EAD filers would file at exactly 365 days and the processing time would be the global average of 69 days (Table 11), noting that the processing time relies on the five-year average as it is not directly impacted by the change to LIFO asylum processing). These assumptions make the analysis tractable and do not impose a loss of generality. For Group C, the asylum claim is decided after 434 days, which is the sum of the proposed 365 day wait and the average 69 EAD processing days. This group of 981 cases comprises 2.8 percent of the narrowed baseline. For this group, the EAD is binding (universally) and the impact accrues to the difference between the global average current EAD-wait time of 283 days (Table 11) and 434 days, which is 151 days.

For Group D, affirmative asylum is currently adjudicated between 365 and 434 days. For Group D, the EAD was approved before the asylum decision, and was therefore binding. But under the proposed rule, retaining the assumptions from above concerning average EAD processing time of 69 days, the EAD would ''switch'' to a non-binding state because it would be granted after the asylum application was adjudicated. As a result, there would be two impacts. The distributional effect to Group D is equal to the current EAD benefit (the current EAD benefit would, by definition, be strictly greater than zero). The average calendar-day impact to this 2.3 percent of the narrowed baseline, or 806 aliens, is calculated to be 130 days. Secondly, because under the proposed rule the asylum application would be adjudicated after 365 days but before the EAD approval, the EAD filing costs would become sunk (*i.e.* while the applicant would apply for an EAD, it would not result in any benefit). Based on the population of 806 and the per-person filing cost of $74.30 and $184.10, reflecting the wage bounds, sunk filing costs would be $59,849 and $148,294, respectively. Subtracting this amount from the filing cost savings (Groups A and B) generates ''net cost-savings'' that would range from $473,588 to $1,321,748.[111]

The remainder of the narrowed EAD approval baseline applies to DHS referrals to DOJ–EOIR, which comprise 26,056 cases (Group E). DHS cannot partition these cases into cost segments akin to Groups A–D for DHS referrals to DOJ–EOIR. While the data does allow DHS to calculate the average wait time in terms of when asylum was filed and when the EAD was approved, because we do not have data concerning the decision on the asylum application, the interaction between the EAD and Asylum decision cannot be calculated. DHS analysis indicates that the impact is 133 days, and it is requisite to justify why this figure is reported as opposed to the 151-day impact for Group C. In practice, the average wait time and EAD processing times for Group C differ very slightly from the global averages reported in Table 11, but the difference is not statistically significant. However, the current wait for DHS referrals—measured strictly as the time interval between the filing for affirmative asylum and the EAD approval—is larger, at 301 days, and the difference is statistically significant.[112] As a result the difference in day-impact between Group C (151 days) and Group E (133 days) is 18 days, which is exactly the difference in current wait times between the two, at 283 and 301, in order.

[110] DOS estimates an average cost of $10 per passport photo in the Paperwork Reduction Act (PRA). Supporting Statement found under OMB control number 1450–0004. A copy of the Supporting Statement is found on *Reginfo.gov* at: *http://www.reginfo.gov/public/do/PRAViewDocument?ref_nbr=201102-1405-001* (see question #13 of the Supporting Statement).

[111] Conceptually, a fifth group, could be added, under for which asylum was adjudicated after 365 days but before the EAD approval. There would be no earnings impact as a result of this provision, but analysis reveals that no cases would fit this conceptual category.

[112] The tests of significance for differences in the means for the global population and Group C population report exact probability values (p-values) of .124 and .179, allowing determination that the minute differences are not significant at the 95 percent level of confidence. The p-value for the difference in the mean of 301 for DHS referrals is .042, allowing determination that it is significantly different than the global of 283.

TABLE 13—NARROWED BASELINE OF EAD APPROVALS THAT COULD BE ANALYZED

Group	Population	Share (%)	Group description	Average days
Group A	3,852	11.0	DHS asylum adjudicated <365 days; EAD binding.	53
Group B	3,327	9.5	DHS asylum adjudicated <365 days; EAD non-binding.	0
Group C	981	2.8	DHS asylum adjudicated >434 days; EAD binding by definition.	151
Group D	806	2.3	DHS asylum adjudicated between 365–434 days; EAD currently binding.	130
Group E	26,056	74.4	DHS referrals to DOJ–EOIR	133

DHS notes that while working with averages makes the analysis tractable and clearer, a caveat is that we rely on the assumption that the (c)(8) I–765 processing time is the same before and after the rule.[113] In a sense too, we assume that the I–589 processing times, when we benchmark to the LIFO protocol, will be the same as well. If either change, the costs developed in Table 14 could vary. There could be two sources of such variation in the monetized costs. First, the populations of the subgroups would change, and, second, the day impacts could also change.

Table 14 (A and B) breaks out the cost for each group presented in Table 13. The population germane to each group is repeated, as is the day impact. The following three columns translate the information into quantified costs. The data presented are undiscounted, with the low wage estimates provided in Table 14(A) and the upper bound wage estimates provided in Table 14(B).

TABLE 14(A)—PROPOSED 365-DAY EAD FILING WAIT COST PROJECTIONS BASED ON THE LOWER WAGE BOUND

[Undiscounted, annual]

Group	Population	Day impact	Costs per person (day impact × $68.83)	Costs (population × costs per person)	Tax impacts (costs × 15.3%)
A	3,852	53	$3,648	$14,053,590	$2,150,199
B	3,327	0	0	0	0
C	981	151	10,393	10,191,866	1,559,355
D	806	130	8,948	7,207,587	1,102,761
E	26,056	133	9,154	238,530,155	36,495,114
Subtotals				269,983,197	41,307,429
Minus: net costs-savings =				473,588	
Equals: grand total =				269,509,609	41,307,429

TABLE 14(B)—PROPOSED 365-DAY EAD FILING WAIT COST PROJECTIONS BASED ON THE UPPER BOUND WAGE BOUND (UNDISCOUNTED, ANNUAL)

[Undiscounted, annual]

Group	Population	Day impact	Costs per person (day impact × $208.32)	Costs (population × costs per person)	Tax impacts (costs × 15.3%)
A	3,852	53	$11,041	$42,534,415	$6,507,766
B	3,327	0	0	0	0
C	981	151	31,456	30,846,571	4,719,525
D	806	130	27,082	21,814,391	3,337,602
E	26,056	133	27,707	721,932,323	110,455,645
Subtotals				817,127,700	125,020,538
Minus: net costs-savings =				1,173,454	
Equals: grand total =				815,954,246	125,020,538

Subtracting the net cost-savings from the subtotals yields the total costs of the rule in terms of lost or delayed earnings from the proposed 365-day wait for 39,000 of the 153,458 EADs affected annually, which could range from

[113] DHS is also separately publishing an NPRM entitled ''Removal of 30-Day Processing Provision for Asylum Applicant-Related Form I–765 Employment Authorization Applications,'' DHS Docket No. USCIS–2018–0001, separate from this NPRM. If adopted as a Final Rule, that NPRM would affect current EAD processing times.

$269.5 million to $815.9 million annually, depending on the wage of the asylum worker. Similarly, the reduction in tax transfer payments from employers and employees could range from $41.3 million to $125 million annually, depending on the wage and if companies cannot find reasonable substitutes for the labor the asylum applicant would have provided. The annual midrange for costs and taxes are $542.7 million and $83.2 million annually, in order. However, DHS notes that the lack of data about DHS referrals precluded our ability to parse out potentially lower cost segments of the 26,056 annual affirmative cases referred to DOJ–EOIR, as we were able to do with DHS-adjudicated asylum applications. This inability likely results in a dual effect. First, for some segments, the day gap would be lower than the average 133 days, thus reducing deferred or lost wages and tax transfers. In addition, there would be cost savings that would accrue to forgone filings as some might not need to file a (c)(8) I–765. As it relates to defensively-filed asylum cases, as was seen in groups A–D of affirmative cases, there could be cost-savings from no longer filing an I–765, and for cases in which the EAD was filed after 365 days, the proposed rule would not have an impact.

In the above section, DHS analyzes 39,000 of the 153,458 affected EAD approvals for which DHS could obtain specific data to assess the impacts of the proposed 365-day EAD filing wait time. In this section, DHS analyzes the remaining 114,458, the ''residual'' population, which contains three groups of EAD cases linked to asylum: (i) What is likely a small number of DHS affirmative cases for which viable data could not be ascertained; (ii) DHS affirmative asylum cases in which the asylum claim was pending; and (iii) defensive cases. Since we have incomplete data on this population, USCIS estimates the day-impact as the difference between the future projected 434 days and the global current average of 283 days (EAD wait time), or 151 days.

For the residual population, the cost impact at the low wage bound is $10,393 each (151 days multiplied by $68.83), which, at a population of 114,458, generates $1,189.6 million in lost earnings and generates $182.0 million in tax transfers annually. The cost impact at the upper wage bound is $31,456 each (151 days multiplied by $208.32), which, at a population of 114,458, generates $3,600.4 million in lost earnings and generates $550.9 million in tax transfers annually.

The costs reported above represent a maximum estimate of the potential impact for this residual population. This is because DHS lacks data on the how many days after filing for asylum these applicants apply for an EAD and how many days after filing for an EAD these applicants receive an asylum decision, which would allow DHS to parse the lower cost segments. Specifically, there may be a portion of the residual population that currently waits more than 365-days to apply for an EAD. The estimated 151-day delay would be overstated for this group and would decrease the above estimated impact. Additionally, there may be a portion of the residual population that would receive an asylum decision in less than 434 days. The estimated 151-day impact would also be overstated for this group. Furthermore, aliens who receive an asylum decision in less than 434 days would not have to file for an EAD under the proposed rule, resulting in cost savings for forgone future filings. However, DHS notes that a large number of defensive cases are unlikely to be adjudicated before 434 days. Although DHS does not have the information to map defensive asylum cases to the associated EADs, DHS was able to obtain data on defensive asylum claims that captured the date the asylum case was received, and the completion date. Our analysis reveals that for FY 2014–2018 the average time interval between the two days was 624 days. Since defensive asylum processing times have been on average (over the studied period) greater than 434 days, relying on the 151-day impact period is a reasonable estimate. Nevertheless, because 151 days is by definition the maximum impact allowable in our impact setup, the estimates are still overstated because at least some of the defensive cases (and the DHS affirmative cases not included in the 39,000 batch with analyzable information) would invoke asylum decisions less than 434 days. As a result, the true day-impact for some of the residual population would be strictly less than 151 days.

This rule also proposes to incorporate a biometrics requirement into the employment authorization process for asylum seekers. Specifically, aliens will be required to appear at an ASC for biometrics collection and pay a biometrics services fee. The proposed biometrics requirement would apply to (c)(8) I–765 filers, for both initial and renewal EAD applications. Biometrics are currently collected for all (both affirmative and defensive) Form I–589 applicants, and they are exempt from paying the $85 biometric services fee. However, biometrics are not currently collected when asylum applicants apply for employment authorization. The proposed rule would not impact the asylum filing biometrics protocol, but would require biometrics collection at the EAD filing stage for (c)(8) I–765 applicants, as well as payment of the $85 biometric services fee.

To estimate the cost of this biometrics requirement, we begin with the population of 289,751, which, tallied earlier, comprises the initial, renewal, and potential (c)(11) transfer populations. Biometrics are also not currently collected for (c)(11) I–765 filers and thus would also be a new requirements for these 13,000 annual filers. First, as the analysis for the 365-day filing wait period demonstrated, a portion of filers, Groups A and B from above (20.5 percent), would potentially not file under the rule because the asylum decision would precede the EAD approval under the proposed rule (under the LIFO protocol). We scale the population by this percentage to yield an adjusted population of 230,352 (289,751 multiplied by (1 minus .205). Under the proposed collection requirement there will be exemptions and waivers that apply to both biometrics submission and the concomitant $85 biometric services fee (that are outside the purview of the rule). DHS cannot predict exactly how these waivers and exemptions will apply, but develops proxy metrics to allow for equitable estimations to populations not yet existent, in context. Therefore, the second stages of the population adjustment require a more detailed, technical approach. This approach is developed next.

When an individual appears at a DHS–USCIS ASC for a biometric collection appointment, their biometrics are digitally collected and stored in the Customer Profile Management System (CPMS) database, which is the USCIS data repository for biometrics submissions. DHS obtained biometric submission data from CPMS for the five-year period 2013–2017. The five-year average across all USCIS immigration forms was 3,619,794. Detailed analysis of the biometrics submissions data reveals that a small group of nine forms accounted for the vast majority, 90.5 percent, of the average biometrics submissions. These forms are: (1) Form N–400, Application for Naturalization; (2) Form I–90, Application to Replace Permanent Resident Card; (3) Form I–765, Application for Employment Authorization; (4) Form I–485, Application to Register Permanent Residence or Adjust Status; (5) Form I–

589, Application for Asylum and Withholding of Removal; (6) Form I–821D, Consideration of Deferred Action for Childhood Arrivals; (7) Form I–131, Application for Travel Document; (8) Form I–751, Petition to Remove the Conditions on Residence; and (9) Form I–601A, Application for Provisional Unlawful Presence Waiver (noted here are that two of the forms, I–765 and I–589 are involved in the presently proposed rule). The remainder majority of forms are characterized by very small populations, very few biometrics submissions (for which many accounted for zero submissions in terms of percentage and number), and unspecified form types. The biometrics volumes for the prevalent group of nine forms (''PREV–9'') are presented in Table 15.

TABLE 15—BIOMETRIC SUBMISSIONS BY FORM GROUPING

[FY 2013–FY 2017]

Form	FY 2013	FY 2014	FY 2015	FY 2016	FY 2017	5-Year avg.	Share
PREV–9:							
N–400	778,172	779,221	772,648	961,092	1,013,252	860,877	23.78
I–90	554,918	790,069	780,050	743,589	770,552	727,836	20.11
I–765	421,011	391,650	800,711	489,553	588,008	538,187	14.87
I–485	459,298	506,991	494,664	500,369	547,755	501,815	13.86
I–589	95,938	116,668	173,248	230,900	304,308	184,212	5.09
I–821D	350,339	102,192	242,101	125,489	224,899	209,004	5.77
I–131	89,146	87,012	87,755	88,977	86,299	87,838	2.43
I–751	185,587	172,478	93,359	71,823	83,417	121,333	3.35
I–601A	16,381	37,293	48,978	52,654	67,494	44,560	1.23
PREV–9 (all)	2,950,790	2,983,574	3,493,514	3,264,446	3,685,984	3,275,662	90.5%
Other Forms	241,605	198,537	709,577	328,339	242,604	344,132	9.5%
Total	3,192,395	3,182,111	4,203,091	3,592,785	3,928,588	3,619,794	100%

The remaining 88 percent of forms comprise less than 10 percent of average biometrics submissions. The future population for biometrics submission under the proposed rule does not yet exist, in context. To estimate the future population, a method needs to be developed to extrapolate functional conditions from the existing state of affairs. To accomplish this, a biometrics collection rate (BCR), a formula estimating the proportion of biometric submissions out of the total age-eligible population within a form type, is developed. The BCR formula is motivated below (Formula 1):

Formula 1: Biometrics Collection Rate (BCR)

$$BCR = \frac{BI}{P}$$

Where BCR represents the Biometrics Collection Rate for a specific form type, BI represents ''intensity,'' the average number of aliens who currently submit biometrics by that form type in a fiscal year, and P represents the volume of age-eligible benefit requests associated with a form type by fiscal year. The calculations for the BCR for PREV–9 are shown in Table 16. The average biometrics submissions are repeated from Table 15 as the five-year average, and the average age eligible population is also the five-year average. The results in Table 16 call for explanation.

TABLE 16—BIOMETRICS COLLECTION RATE BY FORM GROUPING

[FY 2013–FY 2017]

	Average biometrics submissions	Average age eligible filing population	BCR
PREV–9 set:			
I–765	538,187	1,892,366	0.284
I–131	87,838	409,699	0.214
N–400	860,877	839,601	1.025
I–90	727,836	703,707	0.985
I–485	501,815	612,148	0.820
I–821D	209,004	370,838	0.564
I–589	184,212	127,499	1.445
I–751	121,333	164,441	0.738
I–601A	44,560	45,633	0.976
Two added forms:			
I–918	43,235	52,805	.819
I–914	1,907	2004	.952
Raw BCR for regrouped set	....	....	.8363

The BCR for different form types varies due to the eligibility categories and age characteristics of the filers and dependents. For the Forms N–400 and I–589, the BCR is higher than unity. The reason is that biometrics are currently routinely collected on all principal applicants for these forms as well as derivative family members who generally submit biometrics alongside the principal applicant. Two forms, the I–131 and I–765, have low BCRs, even though biometrics are routinely collected for these forms. But these BCRs are ''artificially'' low because of concurrent filings; in many cases biometrics are submitted via a concurrent form. As has been stated earlier, the goal is to broadly collect biometrics from (c)(8) I–765 filers, but there will be exemptions and waivers (that have nothing to do with the proposed rule).[114] Hence, a proxy for BCR estimation should be less than unity, but be positive and relatively high, and while some analyst subjectivity is involved in our methodology, given the unknowns, it is a rational approach. The BCRs for the four forms in PREV–9 not discounted immediately above due to ''artificially'' high/low BCRs are assessed to be reasonable and have a good deal of range, from .564 to .985. Since it is desirable to have as many relevant forms as possible in the proxy collection, we examined the BCRs for the remaining [specific] forms and proceeded to add two, which are the only forms external to PREV–9 that have high BCRs: Form I–914, Application for T Nonimmigrant Status, and Form I–918, Petition for U Nonimmigrant Status. The respective BCRs for these two additional forms, in order, are .952 and .819, as is shown in Table 15. Recalibrating, this rebranded group of 7 forms represent just 9 percent of the form captures under CPMS (including the non-specific types) but nearly half (46 percent) of average biometrics submissions.

For the seven proper forms, we obtain the unweighted average BCR of 83.63 percent. We do not have *a priori* information on which specific forms (or a subgroup of them) would have a BCR closest to the not yet existing, in context, rule population. Similarly, there is no ''target'' or desired BCR that we seek to impugn to this population under the proposed rule. Hence, we use the raw average as opposed to a weighted one, because the former weights each BCR in the group equally. Scaling the adjusted population of 230,352 baseline biometrics by .8363 yields a projected biometrics submitting population (BSP) of 192,643.

Before estimating the costs of the biometrics requirement, another proxy metric is needed, and hence another formula is required. Not all of the biometrics submissions will involve the $85 biometric services fee, as there will be applicable exemptions and waivers (that have nothing to do with the proposed rule). To estimate the fee paying population, DHS uses the total volume of biometric services fee payments and the overall volume of biometric submissions to derive a biometrics fee ratio (BFR), a formula identifying the portion of aliens who pay the $85 biometric services fee out of the total population of those submitting biometrics who may be required to pay the fee (*e.g.* excluding I–589 applicants because they are not required to pay the corresponding biometrics fee).

The formula for the BFR calculation is provided below (Formula 2):

Formula 2: Biometrics Fee Ratio

$$BFR = \frac{F}{BI}$$

Where BFR represents the Biometrics Fee Ratio, F is the estimated number of aliens who pay the biometric services fee in a fiscal year and BI represents the number of biometrics submissions in a given fiscal year, which was initialized above in the BCR setup. The fee-paying volume for biometrics services is available from FY 2015 to FY 2017 only. The BFR is calculated by comparing the biometric fee paying volumes to total biometrics submissions. In FY 2017, for example, a BFR of 0.77 results by dividing a volume of 2.80 million biometric services fee payments by a total of 3.62 million biometrics submissions.[115] Stated somewhat differently, for every known non-exempt benefit request with a biometrics submission, DHS estimates that about 77 percent of aliens pay the biometric services fee while the remaining 23 percent of aliens receive a fee exemption, a biometric services fee waiver, or fall outside of the current age restrictions for submitting the $85 biometric services fee. Table 17 provides the BFR calculations for each fiscal year, including the total and three-year average. The generalized BFR that obtains is .755, which is weighted for the volume size each year, since it is derived from the total that will be used for subsequent calculations.[116]

TABLE 17—BIOMETRIC FEE RATIO, ALL FORMS

[FY 2015–FY 2017]

Fiscal year	Fee-paying volume	Biometric submissions (excludes Form I–589)	Biometrics fee rate (BFR)
FY 2015	2,765,927	4,029,843	0.686
FY 2016	2,746,261	3,361,885	0.817
FY 2017	2,801,648	3,624,280	0.773

[114] Waivers are limited and would apply when there the applicant is unable to provide fingerprints because of a medical condition.

[115] Calculation: 2,801,648 fee-paying volume for FY 2017/(3,928,588 total biometrics collection volume for FY 2017—304,308 Form I–589 biometrics collection volume for FY 2017) = 0.77. The Form I–589 is excluded in the BFR calculations because there is no fee associated with this form.

[116] Calculation: 2,771,279 average Fee-Paying Volume/3,672,003 average biometric collection volume exclusive of Form I–589 biometric submissions = 0.75 (rounded).

TABLE 17—BIOMETRIC FEE RATIO, ALL FORMS—Continued

[FY 2015–FY 2017]

Fiscal year	Fee-paying volume	Biometric submissions (excludes Form I–589)	Biometrics fee rate (BFR)
Total	8,313,836	11,016,008	
Average	2,771,279	3,672,003	0.755

Applying the average BFR of .755 to the BSP biometrics population of 192,643 yields an estimated 145,446 biometric services fee payments (BFP) annually.

Having undertaken several steps to develop the appropriate BSP and ensuing BFP, the costs germane to the biometrics requirement can be developed. The submission of biometrics would require that aliens travel to an ASC for the biometric services appointment.[117] In past rulemakings, DHS estimated that the average round-trip distance to an ASC is 50 miles, and that the average travel time for the trip is 2.5 hours.[118] The cost of travel also includes a mileage charge based on the estimated 50 mile round trip at the 2019 General Services Administration (GSA) rate of $0.58 per mile.[119] Because an individual would spend 1 hour and 10 minutes (1.17 hours) at an ASC to submit biometrics, summing the ASC time and travel time yields 3.67 hours. At this point we will also incorporate the added time burden of 15 minutes (.25 hours), for additional Form I–765 questions and instructions, in order to consolidate the costs. The total time is therefore 3.92 hours. At the low and high wage bounds, the opportunity costs of time are $47.24 and $142.96. The travel cost is $29, which is the per mileage reimbursement rate of .58 multiplied by 50 mile travel distance. Summing the time-related and travel costs generates a per person biometrics submission cost of $76.24, at the low wage bound and $171.96 at the high wage bound.

The total annual cost for the BSP would be $14,686,363 at the low end and $33,127,424 at the high end. Multiplying the estimated BFP by the $85 fee yields $12,362,891 annual biometric services fee costs. In addition, DHS is proposing to require applicants with a pending initial or renewal (c)(8) EAD application on the effective date of the final rule to appear at an ASC for biometrics collection; but, DHS would not collect the biometrics services fee from these aliens. Based on the file tracking data as of April 1, 2019, DHS estimates that 14,451 pending EAD applications would be impacted. Multiplying the 14,451 by the BCR provides a pending population estimate of 12,085 (rounded). Since DHS would not collect the biometrics services fee from this population, costs to applicants would only include time-related and travel costs which would range from $921,389 to $2,078,200.[120]

Combining the costs to the BSP and fee payments for the BFP, and the costs to the pending population, the costs of the biometrics provision, at the low and high wage, in order, are estimated at $27,970,644 and $47,568,515 in the first year and $27,049,255 and $45,490,315, annually thereafter.

DHS is also proposing to eliminate the recommended approvals for asylum, under which an asylum applicant can file an EAD request upon initial favorable review by an asylum officer, prior to completion of all background, security, and related checks. No individual having already benefitted from the preferential treatment would be adversely impacted. However, DHS must treat the earnings from recommended approvals that would have occurred in the future as costs because the proposed rule would eliminate these earnings. For the average 3,072 annual recommended approvals, not all applied for EADs, and not all of those that applied were granted EADs. The data reveals that the share of recommended approvals that eventually were approved for EADs was 62.8 percent, yielding 1,930 annual cases. The data was organized by fiscal year and the requisite time interval was calculated by subtracting the date of the associated asylum filing from the EAD approval date. The results are presented in Table 18:

TABLE 18—IMPACT OF RECOMMENDED APPROVALS

[Average calendar days from asylum filing to EAD approval, FY 2014–2018]

Fiscal year	No recommended approval	Recommended approval	Day difference
2014	330	246	83
2015	317	262	56
2016	305	264	41
2017	310	268	42
2018	234	193	40

[117] DHS expects the majority of biometrics appointments to occur in the United States at an ASC. However, in certain instances aliens may submit biometrics at an overseas USCIS office or DOS Embassy or consulate. However, because DHS does not currently have data tracking the specific number of biometric appointments that occur overseas, it uses the cost and travel time estimates for submitting biometrics at an ASC as an approximate estimate for all populations submitting biometrics in support of a benefit request.

[118] *See* DHS Final Rule, *Provisional Unlawful Presence Waivers of Inadmissibility for Certain Immediate Relatives,* 78 FR 535 (Jan. 3, 2013).

[119] The General Services Administration mileage rate of $0.58, effective January 1, 2019, available at: *https://www.gsa.gov/travel/plan-book/transportation-airfare-rates-pov-rates/privately-owned-vehicle-pov-mileage-reimbursement-rates.*

[120] As previously estimated, time-related and travel costs per person result in $76.24 at a lower wage and $171.96 at a higher wage. Therefore, the costs to applicants with pending applications are estimated by multiplying $76.24 and $171.96 by the population estimate of 12,085. DHS also notes that this population estimate is based on current volumes and may vary depending on when this rule becomes final.

TABLE 18—IMPACT OF RECOMMENDED APPROVALS—Continued

[Average calendar days from asylum filing to EAD approval, FY 2014–2018]

Fiscal year	No recommended approval	Recommended approval	Day difference
2014–2018 average			52

As Table 18 reveals, recommended approvals have benefited by having EADs commence validity an average of 52 days sooner than others. This 52-day raw average day tally translates into a scaled impact of $3,579 per person at the low wage and (52-day impact × $68.83), and $10,833 at the high wage (52-day impact × $208.32). Multiplying these costs by 1,930 annual cases yields a total labor income impact of $6,907,779 and $20,907,387, in order. Similarly, the reduction in tax transfer payments from employers and employees to the government could range from $1,056,890 to $3,198,770 annually, depending on the wage and if companies cannot find reasonable substitutes for the labor the asylum applicant would have provided. The midpoint of the range for costs and taxes are $13,907,387 and $2,127,830, in order.

DHS is also proposing to revise its regulations prescribing when employment authorization terminates following the denial of an asylum application. Under the baseline, DHS affirmative-asylum denials have concomitant approved EADs terminated within 60 days after the adverse asylum decision or on the date of the expiration of the EAD, whichever is longer. This rule proposes that employment authorization would instead be terminated effective on the date the affirmative asylum application is denied. However, if DHS refers the case to DOJ-EOIR, employment authorization will be available to the alien while in removal proceedings. DHS analysis of the data reveals that 360 EADs associated with a denied DHS Affirmative asylum application are currently valid that could be terminated earlier than they otherwise would, when the rule goes into effect. In addition to the costs of potentially terminated EADs in the first year, the analysis reveals about 215 EADs have been issued to concomitant asylum denials annually.

For the pool of 360 current EADs, the time remaining between the present date of analysis (a proxy for the rule becoming effective) and the time left on each EAD was calculated. As stated above, under the baseline, the EADs linked to these DHS affirmative-asylum would end within 60 days after the adverse asylum decision, or, on the date of the expiration of the EAD, whichever is longer. For the cases with less than 60 days left, calculating the precise cost of the rule to these cases would require a complex analysis of the interaction between two variables, the asylum decision date and the EAD validity period, as well as the rule proxy date. To make the analysis tractable, we assign these cases the 60-day period, noting that this assignment would likely somewhat overstate the costs to these cases. After the recalibration to 60 days for the cases in with less than 60 days remaining, the average time left on the EADs is 356 days. For the annual flow of 290 EADs, the cost basis is the day-time difference between the adverse asylum decision and the end of the EAD validity. For these cases the average impact is 471 days.

The costs of the provision to end some EADs early can now be tallied, since the appropriate impact metrics have been calculated. For the existing EADs, the cost impact at the low wage bound is $24,503 each (356 days multiplied by 68.83), which is $8,821,253 in lost earnings and generates $1,349,652 in tax transfers. The cost impact at the upper wage bound is $74,162 each (356 days multiplied by $208.32), which is $26,698,291 in lost earnings and generates $4,084,839 in tax transfers. These specific costs and tax transfers would be incurred the first year the rule could take effect.

For the annual flow of 215 annual EADs, the cost impact at the low wage bound is $32,149 each (471 days multiplied by 68.83), which is $6,970,070 in lost earnings and generates $1,066,421 in tax transfers. For the annual flow of 215 EADs, the cost impact at the upper wage bound is $98,119 each (471 days multiplied by 208.32), which is $21,095,525 in lost earnings and generates $3,227,616 in tax transfers. These costs and transfers would be incurred annually.

Adding up the costs and transfers for both the existing and future EADs that could be impacted, for the first year the rule could take effect, the costs would be $15,791,323 at the lower wage bound and $47,793,816 at the upper wage bound. Similarly, taxes would range from $2,416,072 to $7,312,454. The midpoint estimate for total costs and taxes, in order, are $31,792,569, and $4,864,263.

Having estimated the costs and tax transfers for the provisions in which costs and transfers could be quantified, we now tally them and present the total quantified costs and transfers of the proposed rule. There are essentially three quantified modules. First is the flow volume of costs that will be incurred in each of ten years. As was shown above, for the proposed biometrics requirement, costs were allotted to the time-related opportunity costs associated with submitting biometrics, the cost of travel, a form burden increase, and the biometrics service fee payments. For the proposal to eliminate recommended approvals, costs were developed as delayed earnings of labor. For the proposal to end some EADs early, cost flows are attributed to forgone future earnings (for DHS affirmative cases only). For the 365-day EAD filing clock, costs were assigned to forgone or delayed earnings as well. For this provision, a robust analysis was offered for the 39,000 DHS affirmative asylum cases that could be analyzed, and a slightly less robust analysis was presented for DHS referrals to DOJ–EOIR, due to data constraints. Lastly, a maximum estimate of forgone earnings was estimated for the residual population under the 365-day filing clock. There is also a net cost-savings due to the potential that some current filers may not need to file for an EAD in the future.

Second, with the exception of the biometrics proposal, the other provisions for which quantified cost flows are allocated, above, also incur a reduction in tax transfer payments from employers and employees to the government if companies cannot find reasonable substitutes for the labor the asylum applicant would have provided. As a third module, there could be a first year added cost and also a tax transfer applicable to the existing pool of 360 EADs that could be ended early. Table 19 presents the flow costs for the relevant provisions, undiscounted and in order of the low (A) and high wage (B) bounds relied upon. The cost figures for the 365-day EAD wait include the net cost-savings.

TABLE 19(A)—ANNUAL FLOW COSTS FOR PROVISIONS OF THE PROPOSED RULE IN WHICH COSTS COULD BE MONETIZED—LOW WAGE BOUND

[Undiscounted, 2019–2028]

Year	365 day EAD filing	Biometrics	End some EADs early	Eliminate recommended approvals	Residual (365 day EAD filing)	Annual total
1	$269,509,609	$27,970,644	$15,791,323	$6,907,779	$1,189,561,994	$1,509,741,349
2	269,509,609	27,049,255	6,970,070	6,907,779	1,189,561,994	1,499,998,706

TABLE 19(B)—ANNUAL FLOW COSTS FOR PROVISIONS OF THE PROPOSED RULE IN WHICH COSTS COULD BE MONETIZED—UPPER WAGE BOUND

[Undiscounted, 2019–2028]

Year	365 day EAD filing	Biometrics	End some EADs early	Eliminate recommended approvals	Residual (365 day EAD filing)	Annual total
1	$815,954,246	$47,568,515	$47,793,816	$20,906,995	$3,600,390,848	$4,532,614,420
2	815,954,246	45,490,315	21,095,525	20,906,995	3,600,390,848	4,503,837,930
3	815,954,246	45,490,315	21,095,525	20,906,995	3,600,390,848	4,503,837,930
4	815,954,246	45,490,315	21,095,525	20,906,995	3,600,390,848	4,503,837,930
5	815,954,246	45,490,315	21,095,525	20,906,995	3,600,390,848	4,503,837,930
6	815,954,246	45,490,315	21,095,525	20,906,995	3,600,390,848	4,503,837,930
7	815,954,246	45,490,315	21,095,525	20,906,995	3,600,390,848	4,503,837,930
8	815,954,246	45,490,315	21,095,525	20,906,995	3,600,390,848	4,503,837,930
9	815,954,246	45,490,315	21,095,525	20,906,995	3,600,390,848	4,503,837,930
10	815,954,246	45,490,315	21,095,525	20,906,995	3,600,390,848	4,503,837,930
Undiscounted 10-year total	8,159,542,463	456,981,350	237,653,539	209,069,952	36,003,908,480	45,067,155,790

The data in Table 19 are utilized to attain the discounted costs of the proposed rule. Since the first year of the rule's effects will include the additional costs applicable to ending some EADs early, the annual effect is not constant across all ten years is not the same, and therefore, the average annualized equivalence cost will be different across interest rates. The total ten-year present values, in order of 3 and 7 percent rates of discount, are $12,804,752,094 and $10,544,468,497. In the same order, the average annualized equivalence costs are $1,501,107,575 and $1,501,295,092. At the upper wage bound, the total ten-year present values, in order of 3 and 7 percent rates of discount, are $38,446,589,427 and $31,659,966,864. In the same order, the average annualized equivalence costs are $4,507,113,156 and $4,507,667,019.

Table 20 reports the total quantified tax transfers for the proposed rule, based on the provisions for which quantification is possible.

TABLE 20—ANNUAL TAX TRANSFERS FOR PROVISIONS UNDER WHICH TAXES COULD BE ESTIMATED AND MONETIZED

[Undiscounted]

Provision	Low wage bound	Upper wage bound
365 day EAD filing wait	$41,307,429	$125,020,538
Biometrics	0	0
End Some EADs early	1,066,421	3,227,615
Eliminate Recommended Approvals	1,056,890	3,198,770
Residual 365-day filing wait	182,002,985	550,859,800
Subtotal annual tax transfers	225,433,725	682,306,7243
Plus: First year added tax of ending some EADs early	1,349,652	4,084,839
Equals: Total tax transfers in first year	226,783,377	686,391,562

Finally, this section concludes with Table 21, which collates the monetized impacts of the rule, in terms of both costs (A) and taxes (B), and provides the midrange of them.

TABLE 21(A)—MONETIZED COSTS OF THE PROPOSED RULE

[Discounted, $ millions, 2019–2028]

	Low wage	Upper range	Range midpoint
3 percent discount (ten-year PV)	$12,804.8	$38,446.6	$25,625.7
7 percent discount (ten-year PV)	10,544.5	31,660.0	21,102.2
3 percent discount (average annual equivalence)	1,501.1	4,507.1	3,004.1
7 percent discount (average annual equivalence)	1,501.3	4,507.7	3,004.5

TABLE 21(B)—MONETIZED TAX TRANSFERS OF THE PROPOSED RULE

[$ millions, 2019–2028]

	Low wage	Upper range	Range midpoint
3 percent discount (ten-year)	1,924.3	5,824.2	3,874.2
7 percent discount (ten-year)	1,584.6	4,796.1	3,190.3
3 percent discount (average annual equivalence)	225.6	682.8	454.2
7 percent discount (average annual equivalence)	225.6	682.9	454.2

Module 3. Unquantified Costs and Transfers

There are several populations related to specific proposals that would incur costs due to the proposed rule, but, given data constraints, DHS is unable to measure the possible costs and transfer payments in a quantitative fashion.

DHS proposes to exclude, with certain exceptions, aliens who entered or attempted to enter the United States at a place and time other than lawfully through a U.S. port of entry from eligibility for (c)(8) employment authorization. The rule also proposes to exclude from eligibility for (c)(8) employment authorization aliens who have been convicted of any U.S. felony or any serious non-political crime outside the United States, or who have been convicted of certain public safety offenses in the United States. DHS is unable to estimate the population that would be impacted by the provisions dealing with illegal entry and criminality. If any person incumbent to these populations would be delayed in or precluded from obtaining an EAD, the distributional impacts in terms of earnings would apply, as would, potentially, tax transfers.

DHS proposes to apply changes made by this rule to all initial and renewal applications for employment authorization filed on or after the effective date of the final rule, with limited exceptions. DHS would apply two of the proposed ineligibility provisions—those relating to certain criminal offenses and failure to file the asylum application within one year of the alien's last entry to the US—to initial and renewal applications for employment authorization pending on the effective date of the final rule. DHS estimates 14,451 potentially affected pending applications. DHS estimates an annual renewal population of 104,163. DHS cannot quantify how many of the 14,451 pending EAD filings or 104,163 annual renewals would be subject to the criminal and one-year-filing provisions when the rule goes into effect or how many would be precluded from obtaining an EAD. Lost compensation for pending and renewal EAD applicants precluded from obtaining an EAD would result in costs to businesses and/or distributional impacts in the form of transfers, depending on if the business is able to find replacement labor for the job the asylum applicant would have filled. If businesses are unable to find replacement labor, it would both result in a loss of business productivity and also in a reduction in taxes transferred from asylum applicants and employers to Federal, state and local governments.

DHS also proposes to deny (c)(8) EAD applications filed on or after the effective date by aliens who have failed to file for asylum within one year of their last arrival in the United States, as required by law, unless and until an asylum officer or IJ determines that an exception to the one-year filing bar does not apply. DHS makes about 8,472 such referrals to DOJ-EOIR each year (Table 12). For aliens who are granted an exception to the bar, it is possible that they would likely face deferred earnings and lost taxes along the lines we have developed for the quantified costs, due to delays in filing subject to the IJ decision. Others would likely not be granted an EAD and would lose earnings altogether. DHS has no data that would enable estimation of these effects as a result of the one-year filing bar provision. Specifically, while DHS does have data on the filing bar referrals and the associated I–765s, we do not have data on the outcome of these filing bar referrals. EADs linked to defensive asylum cases could also be impacted by the filing bar conditions proposed.

As discussed previously, DHS is also proposing to revise its regulations prescribing when employment authorization terminates following the denial of an asylum application. In the above quantified analysis DHS estimates the cost of these changes for asylum cases denied by an asylum officer. DHS discusses here the impacts for asylum cases denied by an IJ. Under the baseline, when an IJ denies an asylum application, the EAD terminates on the date the EAD expires, unless the asylum applicant seeks administrative or judicial review. This rule proposes that for cases USCIS refers to DOJ-EOIR and cases defensively filed with DOJ-EOIR, employment authorization would continue for 30 days following the date that the IJ denies the asylum application to account for a possible appeal of the denial to the BIA. If the alien files a timely appeal, employment authorization would continue, and the alien would be able to file a renewal EAD application. As shown in Table 9, from 2014–2018 DOJ-EOIR denied an average of 14,820 asylum applications annually. However, the data available to DHS does not map DOJ-EOIR case dispositions to DHS employment authorizations, and thus we cannot estimate how many denied or dismissed asylum claims by an IJ or BIA are connected to authorized EADs, either on an annualized flow or current pool basis. For DHS affirmative asylum, the populations (215 and 360, in order) were small. The numbers are likely to be higher for DOJ-EOIR, since DHS makes so many referrals to them, and, since DOJ-EOIR solely handles defensive cases. Aliens with an EAD who are denied asylum would eventually be out of the labor force even without this rule. Therefore, the cost for an employer to replace the employee (turnover cost) is not a cost of this rule. However, this rule would impact the timing of when such workers would be separated, which could vary. This rule would result in employers incurring such turnover costs earlier than without this rule.

This proposed rule seeks to clarify that aliens with a positive credible fear finding are not eligible to seek immediate work authorization under 8 CFR 274a.12(c)(11), although, historically USCIS has granted many of these requests, an average of approximately 13,000 annually. Such aliens would still be eligible to apply for a (c)(8) employment authorization to become employment authorized subject to the eligibility changes proposed in this rule, including the proposed 365-day waiting period. Accordingly, applicants that apply for an EAD from the current (c)(11) category may experience a delay in earnings. It is possible that some of the applicants under this scenario would have their asylum decision within 365 days and thus would potentially not file for an EAD. It is recalled that an adjustment was made for this possibility in the development of the biometrics requirement provision costs. It is also possible that some may not file as transfers for other reasons. As a result, the actual affected population would most likely be below 13,000. USCIS is unable to develop a cost of lost or delayed earnings for this group because DHS does not have the related asylum information, so DHS does not have the data necessary to correctly segment the costs.

In some cases, the changes in protocol could result in applicant-caused delays in receiving an EAD because the purpose of the rule is to generate disincentives to applicants to cause any delays in the adjudication of their asylum application. Any such delays in earnings could generate economic hardship to aliens in terms of delayed earnings. The proposed rule would amend existing language to clarify that an applicant's failure to appear to receive and acknowledge receipt of the decision following an interview and a request for an extension to submit additional evidence will be considered applicant-caused delays for purposes of eligibility for employment authorization. DHS further proposes that any documentary evidence submitted fewer than 14 calendar days before the asylum interview (with allowance for a brief extension to submit additional evidence as a matter of discretion) may result in an applicant-caused delay if it delays the adjudication of the asylum application. The purpose of this provision is to improve administrative efficiency and aid in the meaningful examination and exploration of evidence in preparation for and during the interview. The purpose of the rule is to generate disincentives to applicants to cause any delays in the adjudication of their asylum application. While DHS has no way of predicting how the disincentives might take effect, in some cases, the changes in protocol could result in applicant-caused delays in receiving an EAD, and therefore could impose costs. DHS welcomes public input on this topic.

In addition to the major provisions being proposed, there are numerous technical changes, clarifications to existing language, and amendments to existing language. DHS seeks to clarify how an asylum applicant's failure to appear for an asylum interview or biometric services appointment will affect his or her eligibility for asylum or employment authorization and proposes a new timeframe and standard for rescheduling an asylum interview for the asylum application. In addition, DHS clarifies that USCIS is not obligated to send any notice to the applicant about his or her failure to appear at a scheduled biometric services appointment or an asylum interview as a prerequisite to denying the asylum application or referring it to an IJ. These amendments are intended to facilitate more timely and efficient case processing when applicants fail to appear for essential appointments. Finally, the amendments replace references to fingerprint processing and fingerprint appointment with the presently employed ''biometric services appointment.''

DHS also proposes to remove the language providing that an application for asylum will automatically be deemed ''complete'' if USCIS fails to return the incomplete application to the applicant within a 30-day period. There is no impact from this change because USCIS is already returning incomplete applications, and this rule would remove outdated regulatory text that no longer applies.

The rule also codifies certain protocols related to the length of EAD validity and DHS authorities in the asylum process. These amendments and technical codifications outlined above and discussed in more detail in the preamble could impact the specific protocol, timing, and variations in which applicants interact with DHS over the asylum and concomitant EAD process.

b. Benefits

The benefits potentially realized by the proposed rule are qualitative. It is not possible to monetize the benefits. Aliens with bona fide asylum claims will be prioritized because the incentives for aliens to file frivolous, fraudulent, or otherwise non-meritorious asylum applications intended primarily to obtain employment authorization will be reduced. A streamlined system for employment authorizations for asylum seekers would reduce fraud and improve overall integrity and operational efficiency, thereby benefiting the U.S. Government and the public.

The proposed changes will remove incentives for aliens to enter the United States illegally for economic reasons and allow DHS to process bona fide asylum seekers who present themselves at the U.S. ports of entry in an expedited manner. DHS also believes these administrative reforms will encourage aliens to follow the lawful process to immigrate to the United States, which will reduce injuries and deaths that occur during dangerous illegal entries, and reduce expenditures by government agencies that are charged with enforcing the immigration laws of the United States. These impacts stand to provide qualitative benefits to asylum seekers, the communities in which they reside and work, the U.S. Government, and society at large.

The proposed rule is also beneficial in the context that providing employment authorization to inadmissible and removable undermines the removal scheme created by Congress and incentivizes such aliens to come to and remain in the United States.[121] Doing so also undermines the Administration's goals of strengthening protections for U.S. workers in the labor market.[122]

[121] In a few limited circumstances, Congress has authorized the Secretary to grant employment authorization, as a matter of discretion, to aliens who are inadmissible or deportable and even when they have a final order of removal from the United States. *See, e.g.,* INA sec. 236(a)(3), 8 U.S.C. 1226(a)(3) (discretionary employment authorization for inadmissible or removable aliens with pending removal proceedings); INA sec. 241(a)(7), 8 U.S.C. 1231(a)(7) (discretionary employment authorization for certain aliens with final orders of removal).

[122] Aliens who file adjustment of status applications even if they do not ultimately qualify for adjustment of status to permanent residence and aliens who are temporarily placed in deferred action, are allowed to apply for EADs. If DHS

Continued

Several employment-based visa programs require U.S. employers to test the labor market, comply with recruiting standards, agree to pay a certain wage level, and agree to comply with standards for working conditions before they can hire an alien to fill the position. These protections do not exist in the (c)(8) EAD program.

The proposed biometrics requirement would provide a benefit to the U.S. Government by enabling DHS to know with greater certainty the identity of aliens seeking (c)(8) EADs and more easily vet those aliens for benefit eligibility. This would also provide DHS with the ability to limit identity fraud because biometrics are unique physical characteristics that are difficult to falsify and do not change over time.

c. Impact to Labor Force and Taxes

The proposed rule, when finalized, is not expected to have a significant impact on states or the national labor force. The national civilian labor force is 163,922,000, for which the proposed rule's maximum population of 304,562 (first year) and 289,751 (each year after) would represent just .19, and .18 percent of the labor force, in order.[123] It is possible that if all or a large share of the relevant EAD holders were concentrated in a specific metropolitan statistical area, the population relevant to the proposed rule could represent a larger share of the labor force (locally), but DHS does not expect impacts to the labor market.

The provisions would generate costs in terms of distributional impacts in the form of deferred and lost compensation. Additionally, some of the lost tax transfers could be incurred by states. The total reduction in employment tax transfers from employers and employees to the Federal Government could range from $225.6 million to $682.9 million annually (annualized at 7%). There could also be a reduction in income tax transfers from employers and employees that could impact individual states and localities.

In addition, some states, municipalities, or other geographic entities could have budgets that assist persons awaiting asylum. Of the period in which asylum applicants wait for an EAD is extended, there could be an impact to those entities, and possibly, to family, social, or other assistance networks.

B. Regulatory Flexibility Act (RFA)

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, Public Law 104–121 (March 29, 1996), requires Federal agencies to consider the potential impact of regulations on small businesses, small governmental jurisdictions, and small organizations during the development of their rules. The term ''small entities'' comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, or governmental jurisdictions with populations of less than 50,000.[124]

This proposed rule would make significant changes to the process by which aliens seeking asylum in the United States can apply for EADs while their asylum claims are pending either with DHS or DOJ–EOIR. DHS has estimated that rule would cover a maximum quantified population of about 305,000 aliens, with smaller sub-populations applicable to specific, individual provisions. We assess that this rule's proposed changes do not fall under the RFA because they directly regulate individuals who are not, for purposes of the RFA, within the definition of small entities established by 5 U.S.C. 601(6).

As previously explained, several of the provisions being proposed may result in deferred or forgone labor earnings compensation for asylum applicants. In addition, some aliens would not be able to obtain an EAD in the future that otherwise could currently. However, these provisions do not directly regulate employers.

While the RFA does not require agencies to examine the impact of indirect costs to small entities, DHS is unable to identify the next best alternative to hiring a pending asylum applicant and is therefore unable to reliably estimate the potential indirect costs to small entities from this proposed rule but requests comments from the public that would assist in understanding costs not described herein.

(1) A Description of the Reasons Why the Action by the Agency Is Being Considered

The rule is being proposed in order to reform the asylum application and associated employment authorization application process in order to prioritize bona fide claims and reduce frivolous and non-meritorious asylum filings. The proposed rule is necessary because it has been a long time since significant statutory changes have been made to the asylum provisions that would effectively address the current aspects of the immigration laws that incentivize illegal immigration and frivolous asylum filings. Furthermore, the rule could address several of the ''pull'' factors that encourage aliens to enter the United States without being inspected and admitted or paroled and to file non-meritorious asylum claims to obtain employment authorization or other non-asylum based forms of relief from removal. These ''pull'' factors have led, in part, to a significant increase in illegal immigration and in asylum filings, which has generated a severe backlog of cases and an overwhelming volume of non-meritorious cases.

(2) A Succinct Statement of the Objectives of, and Legal Basis for, the Proposed Rule

The objective of the proposed rule is to disassociate employment authorization from asylum applications and minimize the abuse of the asylum process by inadmissible or removable aliens who are not eligible for asylum but seek to prolong their stay in the United States for economic reasons. The proposed changes will remove incentives for aliens to enter the United States illegally for economic reasons and allow DHS to process bona fide asylum seekers who present themselves at U.S. ports of entry in an expedited manner. DHS also believes these administrative reforms will encourage aliens to follow the lawful process to immigrate to the United States.

The authority of the Secretary of Homeland Security (Secretary) for these regulatory amendments is found in various sections of the Immigration and Nationality Act (INA), 8 U.S.C. 1101 *et seq.,* and the Homeland Security Act of 2002 (HSA), Public Law 107–296, 116 Stat. 2135, 6 U.S.C. 101 *et seq.* General authority for issuing the proposed rule is found in section 103(a) of the INA, 8 U.S.C. 1103(a), which authorizes the Secretary to administer and enforce the

approves the application for employment authorization, these aliens receive ''open market'' EADs—meaning that they may accept employment in any field and may be hired by any U.S. employer without the U.S. employer having to demonstrate that there were no available U.S. workers or guarantee that that it will pay the prevailing wage or maintain certain work conditions. As a result, such aliens are more likely to directly compete with U.S. workers for employment.

[123] Relevant calculations: 304,888/163,922,000 = .00186, which is rounded and multiplied by 100 to equal .19 percent, and 289,751/163,922,000 = .00177, which is rounded and multiplied by 100 to equal .18 percent. The labor force figure represents the civilian labor force, seasonally adjusted, for August 2019, and is found in ''Table A–1. Employment status of the civilian population by sex and age,'' Economic News Release at: *https://www.bls.gov/news.release/archives/empsit_09062019.htm.*

[124] A small business is defined as any independently owned and operated business not dominant in its field that qualifies as a small business per the Small Business Act, 15 U.S.C. 632.

immigration and nationality laws and to establish such regulations as he deems necessary for carrying out such authority.

(3) A Description of and, Where Feasible, an Estimate of the Number of Small Entities to Which the Proposed Rule Will Apply

This proposed rule would directly change aspects of the asylum process related to how and when asylum applicants can apply for and obtain EADs, when asylum applicants' employment authorization is terminated, as well as their eligibility for EADs. The rule would delay asylum applicants' employment authorization, remove certain aliens' eligibility for employment, and terminate certain aliens' employment eligibility earlier than without this rule. This rule does not directly regulate small entities and thus the number of small entities to which the proposed rule would directly regulate is zero. However, this rule would indirectly impact small entities that may employ affected EAD holders. DHS does not have information on where affected aliens obtain employment and thus is unable to estimate the number of small entities that may be indirectly impacted by this rule.

(4) A Description of the Projected Reporting, Recordkeeping, and Other Compliance Requirements of the Proposed Rule, Including an Estimate of the Classes of Small Entities Which Will Be Subject to the Requirement and the Type of Professional Skills Necessary for Preparation of the Report or Record

This proposed rule would not directly impose any reporting, recordkeeping, or other compliance requirements on small entities. Additionally, this rule would not require any additional professional skills.

(5) Identification, to the Extent Practicable, of All Relevant Federal Rules That May Duplicate, Overlap or Conflict With the Proposed Rule

DHS is unaware of any relevant Federal rule that may duplicate, overlap, or conflict with the proposed rule. DHS is the sole administrator of employment authorization applications. DOJ may issue conforming changes to its regulations at a later date. DHS is also in the process of drafting proposed rulemaking broadening biometrics collection. Although the Form I–765 is involved in this separate broad biometrics collection proposal, the present proposed rule focuses specifically on the I–765(c)(8) eligibility category. There could be some overlap between the two proposed rules, but such overlap is not expected to create new costs or burdens.

(6) Description of Any Significant Alternatives to the Proposed Rule Which Accomplish the Stated Objectives of Applicable Statutes and Which Minimize Any Significant Economic Impact of the Proposed Rule on Small Entities

DHS is not aware of any alternatives to the proposed rule that accomplish the stated objectives and that would minimize the economic impact of the proposed rule on small entities as this rule imposes no direct costs on small entities. DHS requests comments and seeks alternatives from the public that will accomplish the same objectives.

C. Congressional Review Act

This proposed rule is a major rule as defined by 5 U.S.C. 804, also known as the ''Congressional Review Act,'' as enacted in section 251 of the Small Business Regulatory Enforcement Fairness Act of 1996, Public Law 104–121, 110 Stat. 847, 868 *et seq.* Accordingly, this rule, if enacted as a final rule, would be effective at least 60 days after the date on which Congress receives a report submitted by DHS under the Congressional Review Act, or 60 days after the final rule's publication, whichever is later.

D. Unfunded Mandates Reform Act of 1995 (UMRA)

The Unfunded Mandates Reform Act of 1995 (UMRA) requires each Federal agency to prepare a written statement assessing the effects of any Federal mandate in a proposed or final agency rule that may result in a $100 million or more expenditure (adjusted annually for inflation) in any one year by state, local, and tribal governments, in the aggregate, or by the private sector.

Because this proposed rulemaking does not impose any Federal mandates on State, local, or tribal governments, in the aggregate, or the private sector, this rulemaking does not contain such a written statement.

E. Executive Order 13132 (Federalism)

This rule will not have substantial direct effects on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. DHS does not expect that this proposed rule would impose substantial direct compliance costs on State and local governments or preempt State law. Therefore, in accordance with section 6 of Executive Order 13132, it is determined that this rule does not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement.

F. Executive Order 12988 (Civil Justice Reform)

This rule meets the applicable standards set forth in sections 3(a) and 3(b)(2) of Executive Order 12988.

G. Executive Order 13175 (Consultation and Coordination With Indian Tribal Governments)

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

H. Family Assessment

DHS has assessed this action in accordance with section 654 of the Treasury General Appropriations Act, 1999, Public Law 105–277, Div. A. With respect to the criteria specified in section 654(c)(1), DHS has determined that the proposed rule will delay the ability for initial applicants to work and limiting or prohibit some from working based on criminal and immigration history, which will decrease disposable income of those applicants with families. A portion of this lost compensation might be transferred from asylum applicants to others that are currently in the U.S. labor force, or, eligible to work lawfully, possibly in the form of additional work hours or the direct and indirect added costs associated with overtime pay. DHS does not know how many applicants contribute to family disposable income. The total lost compensation to the pool of potential asylum applicants could range from about $319 million to $930 million annually, depending on the wages the asylum applicant would have earned. For the reasons stated elsewhere in this preamble, however, DHS has determined that the benefits of the action justify the potential financial impact on the family.

I. National Environmental Policy Act (NEPA)

DHS analyzes actions to determine whether NEPA applies to them and if so what degree of analysis is required. DHS Directive (Dir) 023–01 Rev. 01 and Instruction (Inst.) 023–01–001 rev. 01 establish the procedures that DHS and its components use to comply with NEPA and the Council on Environmental Quality (CEQ) regulations for implementing NEPA, 40 CFR parts 1500 through 1508. The CEQ regulations allow Federal agencies to establish, with CEQ review and concurrence, categories of actions (''categorical exclusions'') which experience has shown do not individually or cumulatively have a significant effect on the human environment and, therefore, do not require an Environmental Assessment (EA) or Environmental Impact Statement (EIS). 40 CFR 1507.3(b)(1)(iii), 1508.4. DHS Instruction 023–01–001 Rev. 01 establishes such Categorical Exclusions that DHS has found to have no such effect. Inst. 023–01–001 Rev. 01 Appendix A Table 1. For an action to be categorically excluded, DHS Inst. 023–01–001 Rev. 01 requires the action to satisfy each of the following three conditions: (1) The entire action clearly fits within one or more of the Categorical Exclusions; (2) the action is not a piece of a larger action; and (3) no extraordinary circumstances exist that create the potential for a significant environmental effect. Inst. 023–01–001 Rev. 01 section V.B(1)–(3). This proposed rule would amend the administrative procedure for filing an affirmative asylum application in the United States, and strengthen eligibility requirements for employment authorization based on a pending asylum application.

DHS analyzed this action and has concluded that NEPA does not apply due to the excessively speculative nature of any effort to conduct an impact analysis. Nevertheless, if NEPA did apply to this action, the action clearly would come within our categorical exclusion A.3(d) as set forth in DHS Inst. 023–01–001 Rev. 01, Appendix A, Table 1.

This rule is not part of a larger action and presents no extraordinary circumstances creating the potential for significant environmental effects. Therefore, if NEPA were determined to apply, this rule would be categorically excluded from further NEPA review.

J. National Technology Transfer and Advancement Act

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through OMB, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (*e.g.,* specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standard bodies. This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

K. Executive Order 12630 (Governmental Actions and Interference With Constitutionally Protected Property Rights)

This proposed rule would not cause the taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

L. Executive Order 13045 (Protection of Children From Environmental Health Risks and Safety Risks)

Executive Order 13045 requires agencies to consider the impacts of environmental health risk or safety risk that may disproportionately affect children. DHS has reviewed this proposed rule and determined that this rule is not a covered regulatory action under Executive Order 13045. Although the rule is economically significant, it would not create an environmental risk to health or risk to safety that might disproportionately affect children. Therefore, DHS has not prepared a statement under this executive order.

M. Executive Order 13211 (Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use)

Executive Order 13211 requires agencies to consider the impact of rules that significantly impact the supply, distribution, and use of energy. DHS has reviewed this proposed rule and determined that this proposed rule would not have a significant adverse effect on the supply, distribution, or use of energy. Therefore, this proposed rule does not require a Statement of Energy Effects under Executive Order 13211.

N. Paperwork Reduction Act (PRA)

Under the Paperwork Reduction Act of 1995, Public Law 104–13, agencies are required to submit to OMB, for review and approval, any reporting requirements inherent in a rule. Table 19 shows a summary of the forms that are part of this rulemaking.

TABLE 19—SUMMARY OF IMPACTS TO USCIS FORMS

Form	Form name	New or updated form	General purpose of form
I–589	Application for Asylum and for Withholding of Removal.	Update—revises and adds instructions for employment authorization while asylum application is pending.	This form is used by applicants to apply for asylum or withholding of removal under the Act or the Convention Against Torture (CAT).
I–765	Application for Employment Authorization.	Update—revises and adds instructions and questions for aliens seeking employment authorization under the (c)(8) eligibility category.	This form is used by applicants to request employment authorization from USCIS.

USCIS Form I–589

DHS invites comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–0067 in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

1. Evaluate whether the collection of the information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) Type of Information Collection: Revision of a Currently Approved Collection.

(2) Title of the Form/Collection: Application for Asylum and for Withholding of Removal

(3) Agency form number, if any, and the applicable component of the DHS sponsoring the collection: Form I–589; USCIS.

(4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: Individuals and households. The data collected on this form will be used by USCIS to determine if the alien is eligible for asylum or withholding of removal.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated total number of respondents for the information collection Form I–589 is 114,000 and the estimated hour burden per response is 12 hours; the estimated total number of respondents for the information collection Biometrics is 110,000 and the estimated hour burden per response is 1.17 hours.

(6) An estimate of the total public burden (in hours) associated with the collection: The total estimated annual hour burden associated with this collection is 1,496,700 hours.

(7) An estimate of the total public burden (in cost) associated with the collection: The estimated total annual cost burden associated with this information collection is $46,968,000.

USCIS Form I–765

DHS invites comment on the impact to the proposed collection of information. In accordance with the PRA, the information collection notice is published in the **Federal Register** to obtain comments regarding the proposed edits to the information collection instrument.

Comments are encouraged and will be accepted for 60 days from the publication date of the proposed rule. All submissions received must include the OMB Control Number 1615–0040 in the body of the letter and the agency name. To avoid duplicate submissions, please use only *one* of the methods under the **ADDRESSES** and I. Public Participation section of this rule to submit comments. Comments on this information collection should address one or more of the following four points:

5. Evaluate whether the collection of the information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

6. Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

7. Enhance the quality, utility, and clarity of the information to be collected; and

8. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

Overview of Information Collection

(1) Type of Information Collection: Revision of a currently approved collection.

(2) Title of the Form/Collection: Application for Employment Authorization

(3) Agency form number, if any, and the applicable component of the DHS sponsoring the collection: Form I–765; USCIS

(4) Affected public who will be asked or required to respond, as well as a brief abstract:

Primary: Individuals and households. USCIS requires an alien seeking employment authorization to file the Form I–765. The data collected on this form will be used by USCIS to determine if the individual seeking employment authorization qualifies under the categories of aliens who may apply for employment authorization under 8 CFR 274a.12.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated total number of respondents for the information collection Form I–765 is 2,036,026 and the estimated hour burden per response is 4.75 hours; the estimated total number of respondents for the information collection biometrics is 346,589 and the estimated hour burden per response is 1.17 hours; the estimated total number of respondents for the information collection Form I–765WS is 41,912 and the estimated hour burden per response is .50 hours; the estimated total number of respondents for the information collection passport-style photographs is 2,036,026 and the estimated hour burden per response is .50 hours.

(6) An estimate of the total public burden (in hours) associated with the collection: The total estimated annual hour burden associated with this collection is 11,115,602 hours.

(7) An estimate of the total public burden (in cost) associated with the collection: The estimated total annual cost burden associated with this information collection is $669,852,554.

List of Subjects

8 CFR Part 208

Administrative practice and procedure, Aliens, Immigration, Reporting and recordkeeping requirements.

8 CFR Part 274a

Administrative practice and procedure, Aliens, Employment, Penalties, Reporting and recordkeeping requirements.

Accordingly, DHS proposes to amend parts 208 and 274a of chapter I, subchapter B, of title 8 of the Code of Federal Regulations as follows:

PART 208—PROCEDURES FOR ASYLUM AND WITHHOLDING OF REMOVAL

■ 1. The authority citation for part 208 continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1158, 1226, 1252, 1282; Title VII of Public Law 110–229; 8 CFR part 2.

■ 2. Amend § 208.3 by revising paragraph (c)(3) to read as follows:

§ 208.3 Form of application.

* * * * *

(c) * * *

(3) An asylum application must be properly filed in accordance with 8 CFR part 103 and the filing instructions. Receipt of a properly filed asylum application will commence the 365-day period after which the applicant may file an application for employment authorization in accordance with § 208.7 and 8 CFR 274a.12 and 274a.13.

* * * * *

■ 3. Amend § 208.4 by revising paragraph (c) to read as follows:

§ 208.4 Filing the application.

* * * * *

(c) *Amending an application after filing.* Upon the request of the alien, and as a matter of discretion, the asylum officer or Immigration Judge with jurisdiction may permit an asylum applicant to amend or supplement the application. Any delay in adjudication or in proceedings caused by a request to amend or supplement the application will be treated as a delay caused by the applicant for purposes of § 208.7 and 8 CFR 274a.12(c)(8).

■ 4. Revise § 208.7 to read as follows:

§ 208.7 Employment authorization.

(a) *Application and decision.* (1)(i) *In General.* Subject to the restrictions contained in sections 208(d) and 236(a) of the Act, and except as otherwise provided in paragraphs (b) and (c) of this section, an applicant for asylum who is in the United States may apply for employment authorization pursuant to 8 CFR 274a.12(c)(8) and 274a.13(a)(2) of this chapter. The applicant must request employment authorization on the form and in the manner prescribed by USCIS and according to the form instructions, and must submit biometrics at a scheduled biometrics services appointment. USCIS has exclusive jurisdiction over all applications for employment authorization and employment authorization documentation based on a pending application for asylum under 8 CFR 274a.12(c)(8), regardless of whether the asylum application is pending with USCIS or the Executive Office for Immigration Review. Employment authorization is not permitted during any period of judicial review of the asylum application, but may be requested if a Federal court remands the case to the Board of Immigration Appeals. USCIS may grant initial employment authorization under 8 CFR 274a.12(c)(8) for a period that USCIS determines is appropriate at its discretion, not to exceed increments of two years.

(ii) *Period for filing.* An applicant for asylum cannot apply for initial employment authorization earlier than 365 calendar days after the date USCIS or the immigration court receives the asylum application in accordance with 8 CFR part 103 or 8 CFR 1003.31, respectively, and the filing instructions on the application. If an asylum application is denied by USCIS before a decision on an initial or renewal application for employment authorization, the application for employment authorization will be denied.

(iii) *Asylum applicants who are ineligible for employment authorization.* An applicant for asylum is not eligible for employment authorization if:

(A) The applicant was convicted in the United States or abroad of any aggravated felony as described in section 101(a)(43) of the Act;

(B) The applicant was convicted in the United States of any felony as defined in 18 U.S.C. 3156(a)(3);

(C) The applicant was convicted of any serious non-political crime outside the United States. USCIS will consider, on a case-by-case basis, whether aliens who have been convicted of any non-political foreign criminal offense, or have unresolved arrests or pending charges for any non-political foreign criminal offenses, warrant a favorable exercise of discretion for a grant of employment authorization;

(D) The applicant was convicted in the United States of a public safety offense involving:

(*1*) Domestic violence, domestic assault, or any other domestic or spousal battery-type offense unless the applicant has been subjected to extreme cruelty, is not and was not the primary perpetrator of the violence in the relationship, and is not otherwise ineligible. If an applicant has unresolved domestic arrests or pending charges, USCIS will decide at its discretion if it will grant the applicant employment authorization, based on the totality of the circumstances.

(*2*) Child abuse, child neglect, or any other offense against a child, regardless of an element of sexual or inappropriate touching. If an applicant has unresolved domestic arrests or pending charges, USCIS will decide at its discretion if it will grant the applicant employment authorization, based on the totality of the circumstances.

(*3*) Controlled substances, including possession, possession with intent to distribute, or delivery. If an applicant has unresolved domestic arrests or pending charges, USCIS will decide at its discretion if it will grant the applicant employment authorization, based on the totality of the circumstances.

(*4*) Driving or operating a motor vehicle under the influence of alcohol or drugs, regardless of how the arresting, charging, or convicting jurisdiction classifies the offense. If an applicant has unresolved domestic arrests or pending charges, USCIS will decide at its discretion if it will grant the applicant employment authorization, based on the totality of the circumstances.

(E) An asylum officer or an Immigration Judge has denied the applicant's asylum application within the 365-day period or before the adjudication of the initial request for employment authorization;

(F) The applicant filed his or her asylum application beyond the one-year filing deadline, unless and until the asylum officer or Immigration Judge determines that the applicant meets an exception for late filing as provided in section 208(a)(2)(D) of the Act and 8 CFR 208.4 and 1208.4, or unless the applicant was an unaccompanied alien child on the date the asylum application was first filed;

(G) The applicant is an alien who entered or attempted to enter the United States at a place and time other than lawfully through a U.S. port of entry, unless the alien demonstrates that he or she:

(*1*) Presented himself or herself without delay to the Secretary of Homeland Security or his or her delegate;

(*2*) Indicated to the Secretary of Homeland Security or his or her delegate an intention to apply for asylum or expresses a fear of persecution or torture; and

(*3*) Has good cause for the illegal entry or attempted entry, provided such good cause does not include the evasion of U.S. immigration officers, convenience, or for the purpose of circumvention of the orderly processing of asylum seekers at a U.S. port of entry.

(iv) *Applicability.* Paragraphs (a)(1)(iii)(A) through (D) of this section apply to applications that were filed prior to and remain pending on [effective date of final rule].

(v) *Delay.* Any delay requested or caused by the applicant on his or her asylum application that is still outstanding or has not been remedied when USCIS adjudicates the application for employment authorization under 8 CFR 274a.12(c)(8) will result in a denial of such application. Examples of applicant-caused delays include, but are not limited to the list below:

(A) A request to amend or supplement an asylum application that causes a delay in its adjudication or in proceedings as permitted in 8 CFR 208.4(c);

(B) Failure to appear to receive and acknowledge receipt of the decision as specified in 8 CFR 208.9(d);

(C) A request for extension to submit additional evidence fewer than 14-days prior to the interview date as permitted by 8 CFR 208.9(e);

(D) Failure to appear for an asylum interview, unless excused by USCIS as described in 8 CFR 208.10(b)(1) for the failure to appear;

(E) Failure to appear for scheduled biometrics collection on the asylum application;

(F) A request to reschedule an interview for a later date;

(G) A request to transfer a case to a new asylum office or interview location, including when the transfer is based on a new address;

(H) A request to provide additional evidence for an interview;

(I) Failure to provide a competent interpreter at an interview; and

(J) Failure to comply with any other request needed to determine asylum eligibility.

(b) *Renewal and termination*—(1) *Renewals.* USCIS may renew employment authorization under 8 CFR 274a.12(c)(8) in increments determined by USCIS in its discretion, but not to exceed increments of two years. Employment authorization is not permitted during any period of judicial review, but may be requested if a Federal court remands the case to the Board of Immigration Appeals. For employment authorization to be renewed under this section, the alien must request employment authorization on the form and in the manner prescribed by USCIS and according to the form instructions. USCIS will require that an alien establish that he or she has continued to pursue an asylum application before USCIS, an Immigration Judge, or the Board of Immigration Appeals and that he or she continues to meet the eligibility criteria for employment authorization set forth in 8 CFR 208.7(a). For purposes of renewal of employment authorization, pursuit of an asylum application before an Immigration Judge or the Board of Immigration Appeals is established by submitting a copy of the referral notice or Notice to Appear placing the alien in proceedings, any hearing notices issued by the immigration court, evidence of a timely filed appeal if the alien appealed the denial of the asylum application to the Board of Immigration Appeals, or remand order to the Immigration Judge or Board of Immigration Appeals.

(i) *Referrals to an Immigration Judge.* Employment authorization granted after the required 365-day waiting period will continue for the remaining period authorized (unless otherwise terminated or revoked) if the asylum officer refers the alien's asylum application to an immigration judge . In accordance with 8 CFR 208.7(b)(1), the alien may be granted renewals of employment authorization while under such review by the Immigration Judge.

(ii) *Appeals to the Board of Immigration Appeals.* If the Immigration Judge denies the alien's asylum application, any remaining period of employment authorization will continue for the period authorized (unless otherwise terminated or revoked) during the period for filing an appeal with the Board of Immigration Appeals under 8 CFR 1003.38(b) or, if an appeal is timely filed within such period, during the pendency of the appeal with the Board of Immigration Appeals. In accordance with 8 CFR 208.7(b)(1), the alien may be granted renewals of employment authorization during these periods while the appeal is under review by the Board of Immigration Appeals and any remand to the Immigration Judge.

(2) *Terminations.* The alien's employment authorization granted pursuant to 8 CFR 274a.12(c)(8) will automatically terminate effective on the date the asylum officer denies the asylum application, thirty days after an Immigration Judge denies the asylum application unless timely appealed to the Board of Immigration Appeals, or the Board of Immigration Appeals affirms or upholds a denial, regardless of whether any automatic extension period pursuant to 8 CFR 274a.13(d)(3) is in place.

(c) *Severability.* The provisions in this section are intended to be independent severable parts. In the event that any provision in this section is not implemented, DHS intends that the remaining provisions be implemented as an independent rule.

■ 5. Amend § 208.9 by adding subject headings for paragraphs (a) through (c), revising paragraphs (d) and (e), and adding subject headings for paragraphs (f) and (g) to read as follows:

§ 208.9 Procedure for interview before an asylum officer.

(a) *Jurisdiction.* * * *

(b) *Requirements for Interview.* * * *

(c) *Conduct of Interview.* * * *

(d) *Completion of the interview.* Upon completion of the interview:

(1) The applicant or the applicant's representative will have an opportunity to make a statement or comment on the evidence presented. The asylum officer may, in his or her discretion, limit the length of such statement or comment and may require its submission in writing.

(2) USCIS will inform the applicant that he or she must appear in person to receive and to acknowledge receipt of the decision of the asylum officer and any other accompanying material at a time and place designated by the asylum officer, except as otherwise provided by the asylum officer. An applicant's failure to appear to receive and acknowledge receipt of the decision will be treated as delay caused by the applicant for purposes of 8 CFR 208.7.

(e) *Extensions.* The asylum officer will consider evidence submitted by the applicant together with his or her asylum application. The applicant must submit any documentary evidence at least 14 calendar days in advance of the interview date. As a matter of discretion, the asylum officer may consider evidence submitted within the 14-day period prior to the interview date or may grant the applicant a brief extension of time during which the applicant may submit additional evidence. Any such extension will be treated as a delay caused by the applicant for purposes of § 208.7.

(f) *Record..* * * *

(g) *Interpreter.* * * *

* * * * *

■ 6. Revise § 208.10 to read as follows:

§ 208.10 Failure to appear for an interview before an asylum officer or for a biometric services appointment for the asylum application.

(a) *Failure to appear for asylum interview or for a biometric services appointment.* (1) The failure to appear for an interview or biometric services appointment may result in:

(i) Waiver of the right to an interview or adjudication by an asylum officer;

(ii) Dismissal of the application for asylum;

(iii) Referral of the applicant to the immigration court; or,

(iv) Denial of employment authorization.

(2) There is no requirement for USCIS to send a notice to an applicant that he or she failed to appear for his or her asylum interview or biometrics services appointment prior to issuing a decision on the application. Any rescheduling request for the asylum interview that has not yet been fulfilled on the date the application for employment authorization is adjudicated under 8 CFR 274a.12(c)(8) will be treated as an applicant-caused delay for purposes of 8 CFR 208.7.

(b) *Rescheduling missed appointments.* USCIS, in its sole discretion, may excuse the failure to appear for an interview or biometrics services appointment and reschedule the missed appointment as follows:

(1) *Asylum Interview.* If the applicant demonstrates that he or she was unable to make the appointment due to exceptional circumstances.

(2) *Biometrics services appointment.* USCIS may reschedule the biometrics services appointment as provided in 8 CFR part 103.

PART 274a—CONTROL OF EMPLOYMENT OF ALIENS

■ 7. The authority citation for part 274a is revised to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1105a, 1324a; 48 U.S.C. 1806; 8 CFR part 2; Pub. L. 101–410, 104 Stat. 890, as amended by Pub. L. 114–74, 129 Stat. 599.

■ 8. Amend § 274a.12 by adding the phrase '', unless otherwise provided in this chapter'' at the end of the last sentence in paragraph (c) introductory text and revising paragraphs (c)(8) and (11).

The revisions read as follows:

§ 274a.12 Classes of aliens authorized to accept employment.

* * * * *

(c) * * *

(8) An alien who has filed a complete application for asylum or withholding of deportation or removal pursuant to 8 CFR parts 103 and 208, whose application has not been decided, and who is eligible to apply for employment authorization under 8 CFR 208.7 because the 365-day period set forth in that section has expired. Employment authorization may be granted according to the provisions of 8 CFR 208.7 of this chapter in increments to be determined by USCIS but not to exceed increments of two years.

* * * * *

(11) Except as provided in paragraphs (b)(37) and (c)(34) of this section, 8 CFR 212.19(h)(4), and except for aliens paroled from custody after having established a credible fear or reasonable fear of persecution or torture under 8 CFR 208.30, an alien paroled into the United States temporarily for urgent humanitarian reasons or significant public benefit pursuant to section 212(d)(5) of the Act.

* * * * *

■ 9. Amend § 274a.13 by revising paragraphs (a)(1) and (2) and (d)(3) to read as follows:

§ 274a.13 Application for employment authorization.

(a) * * *

(1) Aliens seeking initial or renewed employment authorization under 8 CFR 274a.12(c) must apply on the form designated by USCIS with prescribed fee(s) and in accordance with the form instructions. The approval of applications filed under 8 CFR 274a.12(c) is within the discretion of USCIS. Where economic necessity has been identified as a factor, the alien must provide information regarding his or her assets, income, and expenses.

(2) An initial employment authorization request for asylum applicants or for renewal or replacement of employment authorization submitted in relation to a pending claim for asylum, in accordance with 8 CFR 208.7 and 8 CFR 274a.12(c)(8), must be filed on the form designated by USCIS in accordance with the form instructions with prescribed fee(s).

* * * * *

(d) * * *

(3) *Termination.* Employment authorization automatically extended pursuant to paragraph (d)(1) of this section will automatically terminate the earlier of up to 180 days after the expiration date of the Employment Authorization Document (Form I–766), or on the date USCIS denies the request for renewal. Employment authorization granted under 8 CFR 274a.12(c)(8) and automatically extended pursuant to paragraph (d)(1) of this section is further subject to the termination provisions of 8 CFR 208.7(b)(2).

* * * * *

■ 10. Amend § 274a.14 by:

■ (a) Removing ''or'' at the end of paragraph (a)(1)(ii);

■ (b) Removing the period and adding in its place ''; or'' at the end of paragraph (a)(1)(iii); and

■ (c) Adding paragraph (a)(1)(iv).

The addition reads as follows:

§ 274a.14 Termination of employment authorization.

(a) * * *

(1) * * *

(iv) Automatic termination is provided elsewhere in this chapter.

Kevin K. McAleenan,

Acting Secretary.

Title 3—

The President

Proclamation 9964 of November 8, 2019

National Apprenticeship Week, 2019

By the President of the United States of America

A Proclamation

Our Nation's robust economy continues to flourish, creating new opportunities for Americans and securing our continued dominance of global markets. As President, I have reduced tax burdens and eliminated unnecessary regulations, producing the lowest unemployment rate in 50 years and more job openings than there are job seekers for 19 months in a row. My Administration is committed to helping all Americans take advantage of this historically strong job market and secure lasting prosperity by ensuring they have access to skills-training that will enable them to launch successful careers in any industry. As we observe National Apprenticeship Week, we celebrate the growing optimism of workers across our country and strengthen our resolve to continue empowering our workers to achieve the American Dream.

Encouraging the creation and expansion of apprenticeships is a cornerstone of my commitment to helping improve employment prospects for students and workers. My Administration continues to make unprecedented investments to ensure apprenticeships remain accessible to all Americans, allocating more than $300 million to that mission this year alone. We awarded nearly $184 million to the Scaling Apprenticeship Through Sector-Based Strategies grant program to encourage private-public partnerships in high-growth industries, including information technology, advanced manufacturing, and healthcare. We have also invested $160 million to expand the number of apprentices in Registered Apprenticeship programs nationwide, helping to increase the number and diversity of apprentices in every State.

Through workplace and classroom education, apprentices gain valuable knowledge and credentials, drastically improving their future career trajectory. Apprenticeship programs enable Americans to simultaneously earn and learn while avoiding burdensome student loans. They also guarantee American companies access to the skilled employees they need to accelerate growth and innovation. We have achieved great success increasing the availability of these invaluable programs, with 240,000 new apprentices hired and 3,300 new programs launched just last year.

I am determined to build upon our economic successes and encourage business leaders, industry experts, and educational institutions to seize the opportunity to expand career-changing apprenticeship programs. I have called on the private sector to invest in the education and skills training of their future and current workers so that all Americans are prepared for the jobs of today and tomorrow. To date, more than 360 companies have committed to investing in over 14 million students and workers through our Pledge to America's Workers. My Administration is also developing standards for industry-recognized apprenticeship programs, which will assist workers in obtaining the knowledge they need to secure family-sustaining careers by taking advantage of high-quality, demand-driven opportunities. Additionally, we are supporting the growth of youth apprenticeship programs that combine academic and technical classroom instruction with work experience and increasing awareness among middle and high school students about the many benefits of apprenticeships.

This week, we recommit our efforts to fostering greater opportunity for current and future workers by supporting expanded access to apprenticeships. By increasing training and educational programs, we will renew our Nation's workforce and help hardworking Americans create a brighter future for themselves and their families while further strengthening our robust economy.

NOW, THEREFORE, I, DONALD J. TRUMP, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim November 11 through November 17, 2019, as National Apprenticeship Week.

IN WITNESS WHEREOF, I have hereunto set my hand this eighth day of November, in the year of our Lord two thousand nineteen, and of the Independence of the United States of America the two hundred and forty-fourth.

Proclamation 9965 of November 8, 2019

World Freedom Day, 2019

By the President of the United States of America

A Proclamation

Thirty years ago, the people of East and West Berlin came together to tear down a symbol of totalitarianism. For more than 10,000 days, the Berlin Wall stood as a troubling reminder of a deeply divided world, an evil obstacle to freedom and individual liberty. When the wall finally came down, it marked a triumphant defeat of communism, a monumental victory for democratic principles, and a righteous end to the nearly five-decades-long Cold War. On World Freedom Day, we remember those who suffered as they longed for freedom behind the Iron Curtain, and we recognize those relentlessly fighting today to break free from the shackles of oppression.

Any system of government that impedes the God-given rights of the people is destined to fail because the flame of liberty cannot be extinguished. As President Ronald Reagan said at the Brandenburg Gate in West Berlin, ''The totalitarian world produces backwardness because it does such violence to the spirit, thwarting the human impulse to create, to enjoy, to worship.'' On that fateful day in 1989, we saw—with every falling piece of rubble—that the human impulse for freedom cannot long be suppressed. Regimes that attempt to stop the free flow of ideas, the right of a people to choose their own government, and the blessings of free enterprise will inevitably suffer the same fate as the Berlin Wall.

While authoritarian powers seek to collapse the progress and alliances that have developed in the three decades since the fall of the Berlin Wall, the United States stands firm in our commitment to uphold the democratic values at the bedrock of every free society. Today, our Nation works in tandem with our allies and partners to safeguard the precious freedoms that fuel prosperity and ensure stability around the globe. Bad actors will continually try to weaken our cause and sow discord, but democratic bonds will always prevail.

This World Freedom Day, we pay tribute to the heroes who helped liberate Eastern and Central Europe from communist oppression, securing liberty for millions. We also reaffirm our support of those everywhere who pursue the noble cause of freedom.

NOW, THEREFORE, I, DONALD J. TRUMP, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim November 9, 2019, as World Freedom Day. I call upon the people of the United States to observe this day with appropriate ceremonies and activities, reaffirming our dedication to freedom and democracy.

IN WITNESS WHEREOF, I have hereunto set my hand this eighth day of November, in the year of our Lord two thousand nineteen, and of the Independence of the United States of America the two hundred and forty-fourth.

LIST OF PUBLIC LAWS

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws**.

Last List November 13, 2019

Public Laws Electronic Notification Service (PENS)

PENS is a free electronic mail notification service of newly enacted public laws. To subscribe, go to *http://listserv.gsa.gov/archives/publaws-l.html*

Note: This service is strictly for E-mail notification of new laws. The text of laws is not available through this service. **PENS** cannot respond to specific inquiries sent to this address.
