Scoping Meetings

Commission staff will hold two scoping meetings in the vicinity of the

project at the times and places noted below. The daytime meeting will focus on resource agency, Indian tribes, and non-governmental organization concerns, while the evening meeting is primarily for receiving input from the public. We invite all interested individuals, organizations, and agencies to attend one or both of the meetings, and to assist staff in identifying particular study needs, as well as the scope of environmental issues to be addressed in the environmental document. Teleconferencing capability will be provided for those who cannot attend the meeting in person. The times and locations of these meetings are as follows:

Daytime Scoping Meeting

Date: Wednesday, December 11, 2019.

Time: 10:00 a.m.

Location: Homewood Suites, 101 W. 48th Ave., Anchorage, AK 99503.

Phone: (907) 762-7000.

Evening Scoping Meeting

Date: Wednesday, December 11, 2019.

Time: 7:00 p.m.

Location: Homewood Suites, 101 W. 48th Ave., Anchorage, AK 99503.

Phone: (907) 762-7000.

Please notify Julia Kolberg at (202) 502-8261 or Julia.kolberg@ferc.gov on or before December 4, 2019, if you plan to attend scoping meetings via teleconference.

Scoping Document 1 (SD1), which outlines the subject areas to be addressed in the environmental document, was mailed to the individuals and entities on the Commission's mailing list. Copies of SD1 will be available at the scoping meetings, or may be viewed on the web at <http://www.ferc.gov>, using the "eLibrary" link. Follow the directions for accessing information in paragraph n. Based on all oral and written comments, a Scoping Document 2 (SD2) may be issued. SD2 may include a revised process plan and schedule, as well as a list of issues, identified through the scoping process.

Meeting Objectives

At the scoping meetings, staff will: (1) Initiate scoping of the issues; (2) review and discuss existing conditions and resource management objectives; (3) review and discuss existing information and identify preliminary information and study needs; (4) review and discuss the process plan and schedule for pre-filing activity that incorporates the time frames provided for in Part 5 of the Commission's regulations and, to the extent possible, maximizes coordination of federal, state, and tribal permitting

and certification processes; and (5) discuss the appropriateness of any federal or state agency or Indian tribe acting as a cooperating agency for development of an environmental document.

Meeting participants should come prepared to discuss their issues and/or concerns. Please review the PAD in preparation for the scoping meetings. Directions on how to obtain a copy of the PAD and SD1 are included in item n. of this document.

Meeting Procedures

The meetings will be recorded by a stenographer and will be placed in the public records of the project.

Under the Commission's Integrated Licensing Process, the Commission conducts scoping within 90 days of the filing of the licensee's NOI. An environmental site review is typically held in conjunction with that scoping meeting. However, in this case, access to project facilities is likely to be limited by winter weather conditions when scoping for this project will occur. For this reason, the license applicant will play a video filmed during a flyover of the proposed project site. An environmental site review may be conducted at a later date. Therefore, we are waiving § 5.8(b)(viii) of the Commission's regulations requiring an environmental site review within 30 days of issuance of a notice of commencement of proceeding to facilitate the early environmental site review.

Dated: November 8, 2019.

Secretary.
