Assessment

Commerce will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries. For the companies for which this review is rescinded, antidumping duties shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse for consumption, in accordance with 19 CFR 351.212(c)(1)(i). Commerce intends to issue appropriate assessment instruction to CBP 15 days after publication of this notice in the **Federal Register**, if appropriate.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of any antidumping or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the presumption that reimbursement of any antidumping or countervailing duties occurred and the subsequent assessment of doubled antidumping duties.

Notification Regarding Administrative Protective Orders

This notice also serves as a final reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction. This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Notice of Correction to the Final Results of the 2016-2017 Antidumping Duty Administrative Review

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is correcting its notice of the final results of the fifth administrative review of the antidumping duty (AD) order on crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells), from the People's Republic of China (China). The period of review (POR) is December 1, 2016 through November 30, 2017.

DATES: Applicable November 15, 2019.

FOR FURTHER INFORMATION CONTACT: Jeff Pedersen, AD/CVD Operations, Office IV, Enforcement & Compliance, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-2769.

SUPPLEMENTARY INFORMATION: On July 30, 2019, Commerce published the final results of the 2016-2017 administrative review of the AD order on solar cells from China in the **Federal Register**.¹ In the *Final Results*, we incorrectly included Zhejiang ERA Solar Technology Co., Ltd. (Zhejiang ERA) in the list of companies we were continuing to find had made no shipments of subject merchandise to the United States during the POR. However, in the *Preliminary Results* we stated the following:

We found that . . . Zhejiang ERA Solar Technology Co., Ltd., which claimed no exports, sales or entries of subject merchandise during the POR did, in fact, sell subject merchandise to the United States

¹ See *Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, from the People's Republic of China: Final Results of Antidumping Duty Administrative Review and Final Determination of No Shipments; 2016-2017*, 84 FR 36886 (July 30, 2019) (*Final Results*).

during the POR. {This company did not file} a separate rate application or certification and thus {it has} not established {its} entitlement to a separate rate in this review.²

We based this preliminary finding on record evidence that Zhejiang ERA sold subject merchandise to the United States during the POR.³ We provided Zhejiang ERA an opportunity to discuss the evidence at the time that we placed it on the record.⁴ While Zhejiang ERA Solar Technology Co., Ltd. commented on the information, it provided no evidence contradicting the information that it had a shipment.⁵ We also provided Zhejiang ERA with an opportunity to submit a case brief concerning our *Preliminary Results*, but Zhejiang ERA did not submit a case brief. Commerce did not intend to change our preliminary decision with respect to Zhejiang ERA's no shipment claim or our preliminary finding that this company was not eligible for a separate rate. We inadvertently erred when we included Zhejiang ERA in the list of companies that we found did not ship subject merchandise to the United States during the POR. Therefore, we are correcting the *Final Results* by clarifying that we have adopted our *Preliminary Results* with respect to Zhejiang ERA in the *Final Results*. Specifically, we are continuing to find that Zhejiang ERA did in fact have shipments of subject merchandise to the United States during the POR and that Zhejiang ERA is not eligible for separate rate status, and thus is part of the China-wide entity. As we noted in the *Final Results*, the China-wide entity rate is 238.95 percent.⁶

This correction to the final results and notice are issued and published in accordance with sections 751(a) and 777(i) of the Tariff Act of 1930, as amended.
