The contents of this report, scheduled to be issued to Congress no later than July 14, 2020, will include (1) a description of the type of topics that might be brought before a CAB; (2) how the board's input could inform the decision-making process of stakeholders for various decommissioning activities; how the board could interact with the NRC and other Federal regulatory bodies to promote dialogue between the licensee and affected stakeholders; and (3) how the board could offer opportunities for public engagement throughout all phases of the decommissioning process. The report will also include a discussion of the composition of existing CABs and best practices identified during the establishment and operation of such boards, including logistical considerations, frequency of meetings, the selection of board members, etc.

In developing a best practices report, and as required by NEIMA, the NRC is consulting with host States, communities within the emergency planning zone of an applicable nuclear power reactor, and existing CABs. This consultation included hosting 11 Category 3 public meetings and 1 nationwide webinar, with another nationwide webinar scheduled for November 19, 2019. The public meetings were held in locations that ensure geographic diversity across the United States, with priority given to States that (1) have a nuclear power reactor currently undergoing the decommissioning process; and (2) requested a public meeting under the provisions of NEIMA in accordance with the Federal Register (FR) notice published on March 18, 2019 (84 FR 9841).

In addition to these public meetings, the NRC has developed a questionnaire to collect information regarding the areas identified in NEIMA with respect to the creation and operation of CABs. The NRC is requesting responses from existing CABs in the vicinity of power reactors undergoing decommissioning, similar established stakeholder groups, or local government organizations regarding best practices and lessons learned for establishment and operation of local community advisory boards. The questionnaire is available at https://www.nrc.gov/waste/decommissioning/neima-local-comm-advisory-board-questionnaire.html.

III. Category 3 Public Meeting Dates and Locations

Consistent with the consultation requirements in NEIMA, Section 108, the NRC received requests for and identified the areas surrounding the following nuclear power reactors as locations to host public meetings to discuss best practices and lessons learned for establishment and operation of local community advisory boards: (1) Crystal River 3 Nuclear Power Plant in Crystal River, Florida; (2) Diablo Canyon Power Plant in San Luis Obispo, California; (3) Humboldt Bay Nuclear Power Plant in Eureka, California; (4) Indian Point Energy Center in Buchanan, New York; (5) Kewaunee Power Station in Kewaunee, Wisconsin; (6) Oyster Creek Nuclear Generating Station in Forked River, New Jersey; (7) Palisades Nuclear Generating Station in Covert, Michigan; (8) Pilgrim Nuclear Power Station in Plymouth, Massachusetts; (9) San Onofre Nuclear Generating Station in San Clemente, California; (10) Vermont Yankee Nuclear Power Plant in Vernon, Vermont; and (11) Zion Nuclear Power Station in Zion, Illinois.

Additionally, the NRC hosted a public webinar held on August 8, 2019, to obtain comments from individuals in other areas of the country. The NRC is planning to host a second nationwide webinar on November 19, 2019, to discuss best practices and lessons learned for establishment and operation of local community advisory boards. For information about attending the webinar, please see the public NEIMA Section 108 website or contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

IV. Local Community Advisory Board Questionnaire

The NRC is seeking input from existing CABs in the vicinity of power reactors undergoing decommissioning, similar established stakeholder groups, or local government organizations regarding best practices and lessons learned associated with CABs at decommissioning nuclear power reactors. The public comment period was originally scheduled to close on November 15, 2019. The NRC has decided to reopen the public comment period on this document until December 6, 2019, to allow more time for members of the public to submit their comments.

Dated at Rockville, Maryland this 13th day of November, 2019.

For the Nuclear Regulatory Commission.

Bruce A. Watson,
Chief, Reactor Decommissioning Branch, Division of Decommissioning, Uranium, Recovery and Waste Programs, Office of Nuclear Material Safety and Safeguards.

PENSION BENEFIT GUARANTY CORPORATION

Performance Review Board Members

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice.

SUMMARY: The Pension Benefit Guaranty Corporation (PBGC) announces the appointment of members of PBGC’s Performance Review Board.

SUPPLEMENTARY INFORMATION: In accordance with 5 U.S.C. 4314(c)(4), made applicable by PBGC’s Senior Level Performance Management System, PBGC announces the appointment of those individuals who have been selected to serve as members of PBGC’s Performance Review Board. The Performance Review Board is responsible for making recommendations on each senior level (SL) professional’s annual summary rating, performance-based adjustment, and performance award to the appointing authority.

The following individuals have been designated as members of PBGC’s FY 2019 Performance Review Board:

1. Gordon Hartogensis, Director
2. Kristin Chapman, Chief of Staff
3. Judith Starr, General Counsel
4. Patricia Kelly, Chief Financial Officer
5. Alice Maroni, Chief Management Officer

Issued in Washington, DC.

Gordon Hartogensis,
Director, Pension Benefit Guaranty Corporation.
