

DOSCO withdrew its participation from this review and reported no information to Commerce for this POR, we will instruct CBP to apply an assessment rate to all entries it produced and/or exported equal to the dumping margin of 53.80 percent, as indicated above. The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.

Commerce's "automatic assessment" will apply to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did not know that the merchandise they sold to the intermediary (e.g., a reseller, trading company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.<sup>16</sup>

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

### Cash Deposit Requirements

The following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for the exporters listed above will be equal to the weighted-average dumping margin established in the final results of this review, except if the rate is less than 0.50 percent and therefore *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for companies not participating in this review, the cash deposit rate will continue to be the company-specific cash deposit rate published for the most recently completed segment; (3) if the exporter is not a firm covered in this review, or the original less-than-fair-value (LTFV) investigation, but the producer is, then the cash deposit rate will be the cash deposit rate established for the most recently completed segment for the producer of the merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to

be 3.24 percent, the all-others rate established in the LTFV investigation.<sup>17</sup> These deposit requirements, when imposed, shall remain in effect until further notice.

### Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

### Notification to Interested Parties

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: November 6, 2019.

Interested parties are invited to comment on these preliminary results.

#### SUPPLEMENTARY INFORMATION:

##### Background

These preliminary results are made in accordance with section 733(b) of the Tariff Act of 1930, as amended (the Act). Commerce published the notice of initiation of this administrative review on November 15, 2018.<sup>1</sup> Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018 through the resumption of operations on January 29, 2019.<sup>2</sup> Commerce selected Hyundai Steel Company (Hyundai Steel) and SeAH Steel Corporation (SeAH) as the two mandatory respondents in this review.<sup>3</sup> Commerce extended the time limit for completing the preliminary results of this administrative review, and the revised deadline is now November 8, 2019.<sup>4</sup> On August 6, 2019, Commerce received a timely filed allegation that a particular market situation (PMS) existed with respect to Hyundai Steel's and SeAH's costs of production of

All deadlines in this segment of the proceeding have been extended by 40 days.

OCTG in Korea during the POR.<sup>5</sup> For a complete description of the events that followed the initiation of this investigation, *see* the Preliminary Decision Memorandum, dated concurrently with these preliminary results and hereby adopted by this notice.<sup>6</sup>

A list of topics included in the Preliminary Decision Memorandum is included as Appendix I to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and to all parties in the Central Records Unit, room B8024 of the main Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

#### Scope of the Order

The product covered by the *Order*<sup>7</sup> is OCTG from Korea. For a complete description of the scope of the *Order*, *see* the Preliminary Decision Memorandum.

#### Methodology

Commerce is conducting this administrative review in accordance with section 751(a)(2) of the Act. Commerce has calculated export prices in accordance with section 772(a) of the Act. Constructed export prices have been calculated in accordance with section 772(b) of the Act. Normal value (NV) is calculated in accordance with section 773 of the Act. For the reasons more fully explained in the proprietary PMS Memorandum, Commerce preliminarily finds that a cost-based PMS existed in Korea during the POR concerning the cost of hot-rolled coil (HRC) as a component of the cost of

production for the OCTG that Hyundai Steel and SeAH produced.<sup>8</sup> Specifically, we quantified the impact of the PMS on the material cost of HRC, and derived a corresponding adjustment factor that, when applied to the costs of HRC, accounts for the distortions induced by the observed PMS.<sup>9</sup> For a full description of the methodology underlying our conclusions, *see* the Preliminary Decision Memorandum.

#### Rates for Non-Examined Companies

The statute and Commerce's regulations do not address the establishment of a rate to be applied to companies not selected for examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in a market economy investigation, for guidance when calculating the rate for companies which were not selected for individual examination in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally "an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins, and any margins determined entirely {on the basis of facts available}."

In this review, we have preliminarily calculated weighted-average dumping margins for Hyundai Steel and SeAH that are not zero, *de minimis*, or determined entirely on the basis of facts available. Accordingly, Commerce preliminarily has assigned to the companies not individually examined (*see* Appendix II for a full list of these companies) a margin of 13.16 percent, which is the weighted average of Hyundai Steel's and SeAH's calculated weighted-average dumping margins.<sup>10</sup>

#### Preliminary Results of Review

Commerce preliminarily determines that, for the period September 1, 2017 through August 31, 2018, the following weighted-average dumping margins exist:

Exporter/producer	Estimated weighted-average dumping margin (percent)
Hyundai Steel Company .....	0.77
SeAH Steel Corporation .....	17.04
Non-examined companies ....	13.16

#### Assessment Rates

Upon completion of this administrative review, Commerce shall determine, and CBP shall assess, antidumping duties on all appropriate entries. We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

For any individually examined respondent whose weighted-average dumping margin is not zero or *de minimis* (i.e., less than 0.5 percent) in the final results of this review, if the respondent reported reliable entered values, we will calculate importer-specific *ad valorem* assessment rates for the merchandise based on the ratio of the total amount of dumping calculated for the examined sales made to each importer and the total entered value of those same sales, in accordance with 19 CFR 351.212(b)(1). If the respondent has not reported reliable entered values, we will calculate a per-unit assessment rate for each importer by dividing the total amount of dumping calculated for the examined sales made to that importer by the total sales quantity associated with those transactions. Where an importer-specific *ad valorem* assessment rate is zero or *de minimis* in the final results of review, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties in accordance with 19 CFR 351.106(c)(2). If a respondent's weighted-average dumping margin is zero or *de minimis* in the final results of review, we will instruct CBP not to assess duties on any of its entries in accordance with the *Final Modification for Reviews*, i.e., “{w}here the weighted-average margin of dumping for the exporter is determined to be zero or *de minimis*, no antidumping duties will be assessed.”<sup>18</sup>

<sup>16</sup> See 19 CFR 351.310(d).

<sup>17</sup> See section 751(a)(3)(A) of the Act and 19 CFR 351.213(h).

<sup>18</sup> See *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and*

For entries of subject merchandise during the POR produced by Hyundai Steel or SeAH for which the producer did not know its merchandise was destined for the United States, or for any respondent for which we have a final determination of no shipments, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.<sup>19</sup>

#### Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the notice of final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for the companies listed in the final results of review will be equal to the weighted-average dumping margin established in the final results of this administrative review; (2) for merchandise exported by producers or exporters not covered in this review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which they were reviewed; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation but the producer is, then the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the merchandise; (4) the cash deposit rate for all other producers or exporters will continue to be 5.24 percent,<sup>20</sup> the all-others rate established in the less-than-fair-value investigation. These cash deposit requirements, when imposed, shall remain in effect until further notice.
