

### Postage Costs

Customers may incur postage costs when submitting some of the items covered by this collection to the USPTO by mail. The applications to extend patent term under 35 U.S.C. 156 and the initial applications for interim extension under 37 CFR 1.790 cannot be filed electronically. The USPTO expects that 50 percent of these responses will be submitted by mail, resulting in 51 mailed submissions. (The remainder of the submission, in this category will be hand carried to USPTO.) The USPTO expects that approximately 99 percent of the remaining responses in this collection will be submitted electronically. Of the remaining 1 percent, the vast majority will be submitted by mail, resulting in 5 additional mailed submissions. Overall for this collection, 56 mailed submissions are expected per year. The average USPS Priority Mail postage cost for a legal flat rate envelope is estimated to be \$7.65. Therefore, the USPTO estimates that the postage costs for the mailed submissions in this collection will total \$428. Therefore, the USPTO estimates that the total annual (non-hour) cost burden for this collection, in the form of postage costs and fees is \$209,488 per year.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Patent Law Treaties Implementation Act of 2012 (PLTIA) amended the patent laws to implement the provisions of the Patent Law Treaty (PLT) in title II. PLT Article 13 provides for the restoration of the right of priority where there is a failure to timely claim priority to the prior application, and also where there is a failure to file the

subsequent application within twelve months of the filing date of the priority application. Section 201(c) of the PLTIA amended 35 U.S.C. 119 to provide that the twelve month periods set forth in 35 U.S.C. 119(a) and (e) may be extended by an additional two months if the delay in filing an application claiming priority to a foreign application or the benefit of a provisional application within that twelve-month period was unintentional. In December 2013, the USPTO revised its rules of practice for consistency with the PLT and title II of the PLTIA.

The information in this collection is necessary so that patent applicants and/or patentees may seek restoration of the right of priority to a prior-filed foreign application or of the right to the benefit of a prior-filed provisional application. The USPTO will use the petition to restore the right of priority to a prior-filed foreign application or the right to the benefit of a prior-filed provisional application to determine whether the applicant has satisfied the conditions of the applicable statute (35 U.S.C. 119) and regulation (37 CFR 1.55(c) or 1.78(b)).

The information in this collection can be submitted electronically through EFS-Web, the USPTO's Web-based electronic filing system, as well as on paper. The USPTO is therefore accounting for both electronic and paper submissions in this collection.

##### II. Method of Collection

Electronically if applicants submit the information using EFS-Web. By mail or hand delivery in paper form.
